TEA GARDENS AND PLEASURE GROUND. MR. COMPAIN has the honor to announce to the Public, that he has LEASED, for a term of years, MONKLAND PARM, containing about 200 acres of Land, beautifully wooded, the late Residence of the Governor General, which he has fitted up as a PUBLIC HOTEL and RESTAURANT.

Gentleman desirous of giping Dinner Business TAURANT.

Gentlemen desirous of giving Dinner Parties, may be accommodated by giving notice the day

lee Creams, and other Refreshments, of various lee Creams, and other Refreshments, of various kinds, always ready.

The Healthy Situation of MONKLAND, (which contains upwards of SEXTY ROUMS, on the rising ground to the West end of the Montreal Mountain, and commanding a Splendid View of the River St. Lawrence, the Lachine Rapids, the Ottawa River, and the stijacent country,) is to well known to require any remark; and the Extensive Grounds attached, afford a large and perfectly safe PLEASURE GROUND, in which children may roam at pleasure. All this will, he feels confident, justify the support of those whose desire it is to retire to the country during the heat of Summer, and be still within a few minutes walk of the City.

CALIFORNIA VIA THE RIVER ST. LAWRENCE.

THE Stanneh-Built Steam Propeller EARL CATHCART, now plying between Detroit and Montreal, and about 250 Tone Burthen, will leave DETROIT in OCTOBER, and QUEBEC in NOVEMBER, 1850, for CALIFORNIA, in charge of an experienced Captain.

The Proprietore will furnish \$10,000; part to be expended in making such alterations and improvements as are necessary, and in purchasing Provisions and Fuel for the voyage, and the remainitor to be left on board in cash, or used in purchasing extra Provisions, if so determined at a general meeting of the Ticket Holders, to be held soon after the Tickets are subscribed for.

61 Tickets for Sale at \$500 each. A Ticket entitles the holder to a 54th part of the Vessel, as well as a Cabin Passage to California, with such quantity of Freight as may be determined on by themselves, at the meeting, which is astimated at about Two Tone such, the Vessel to be given into Interest Holders after leaving Quebec.

Reasons for adopting this method of proceeding to

Reasons for adopting this method of proceeding to California in preference to all others:

1st. The certainty of a short and pleasant voyage, insured by starting in November, owing to deriving the benefits of the St. Lawrence Gulf stream, the Trade Winds, and Mid-Summer, (December or January), whits comming the control of the St. Commer, deriving the beneaus of the St. Lawrence of the stream, the Trade Winds, and Mid-Summer, (December or January,) whilst passing through the Straits of Magelian and the Pacific Ocean, always calm at that season of the year; 2nd. Of reaching Uniformia at the commencement of the fire and profitable acason, and of having a home on arrival there; the Vessel affords such;

3rd. Of owning for each share a 64th part of most superior Steamer, which, if desired, will command a ready sale, and without doubt to advantage, or, if preferred, can be run with a large profit to her owners, as the following extract will

profit to her owners, as the following extract will show.

Profits of the Pacific Steamers.—A correspondent of the New York Sun says, that the Steamships running between Pansma and San Francisco; carry on an average 150 Cabis Passengers each way, at \$300 each, and 250 Steerage Passengers at \$130 such, thus realizing \$465,000. The expenses do not exceed \$55,700, so that the profits of the voyage, on Passengers alone, is \$109,300.—Add to this the Freight, say \$3,000, and the total profit amounts to \$117,300.

PERCY'S LOTION, RING-WORM.

THESE ruly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to allother Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heart of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have gives their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:

THE COURIER.

WEDNESDAY, JUNE 26, 1850.

The highly important business transacted in the little Pedlington Parliament above is per-mitted to occupy as much space in our Provincial journals, that they are obliged to omit other things of vastly more consequence to Provincial interests. What is all the fass about the stupid Clergy Re-

some of the Executive members of the Government to communicate with Lord Stanley on matters of detail. He also r quested to be furnished with a slan on paper, stating the modus operand; proposed by the Deputation, and the name of the parties with whom the Government would negotiate on the subject.

with whom the Government would negotiate on the subject.

The result of the Deputation, headed by Lords Stanley and Monteagle, to the Frencher, has transpired, and the friends of the great project will be delighted to know that it quite realizes their most acquine expectations. What is the reason our local Governments exhibit such apathy and utter indifference to the measure? What has so paralyzed their enorgies, that only for private correspondence we should know nothing of the feeling with which this grand scheme is entertailed by the British Government? Now and again the public mind of this sity has been excited and aroused from its leftarry by some desperate effort of a solitary advocate of the measure, and anon, all is quite months to give it that prominency which it so eminently descrees, and two observe, with pleasure, that the population of the interior cherish the scheme with increased avidity. A correspondent of the Canadian Land and its lway Association continues to agitate the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a short time and the literature where the subject was a sh

ditters and others favorable to the Great Range and others favorable to the Great Range, we may send home from the Golonies such testimonial in favor of the project, as sever yet of iddressed streff to a British Musister on any other subject. Never at any previous period have the prospects of the enterprise apposed so promising. Let us then, one and all, in unity of purpose and action, respond, and that right worthly, to the sentiment which has dictated such as apprexion of opinion on the part of the First Lord of the Treasury. As far rs Nova Scotia is cancerned, we feel the utmost assurance that active intelligent men will be found on the whole line from the metropolis to the Missiquash, who will cheerfully en-operate in any general action to promote the measure, by calling simultaneous meetings. We, th refore, favite our brethren of the Press in New Brunswick and Canada to an expression of opinion on such a step as is thus proposed, and to a common effort, and shall be glud ourselves to lend our humble assistance in any and every reasonable way, as heatolone, to support and advocate this Trunk Line of Railrond.

ment that would ever give satisfaction to the country. He charged Mr. Baldwin with deserting the principles he had professed for years, and intimated a threat of going into opposition. The Ministry had injured themselves more by not taking up this question, and determining to stand or fall by it, than by any other question, not excepting the Indemnity Bill; by voting for which every Upper Canada Member had endangered his seat. He commented severely upon Mr. Baldwin's declaration, that he could not be bound by the will of his constituents. He denied the statement that this was got a test question at the last election; he knew it was in his constituency. If the Ministry were sincere in desiring the settlement of this question, why did they not introduce these Resolutions two years any? He cancided by threatening the Ministry with the consequences of their conduct at the next election.

Mr. Fint had always been opposed to the Clergy Reserves. He declared, on behalf of the Wesleyan Church, they did not desire a continuence of the £700 a year they receive f on this source.

Mr. Wilson believed, that all the denominations would be better without these funds. He had often seen a man with more many them he had himself, who was mak ag a bad use of it, and would have been better without at; but that did not give hims a right to take the man's money.

Mr. Hincks used a long speech, with a view to the effect out of doors of the parts that the several actors were playing in the tiouse. He eatered into a defence of Mr. Baldwin's detries and consistency, as well as of the conduct of the Cashnet, demying that any responsible promise was made less Session by the Government, to negociate with the House defence of the Conservative tacket, that Mr. Vansit art, is the County of Oxford, while canvasing the electors on the Conservative tacket, that Mr. Vansit art, is the County of Oxford, while canvasing the electors on the Conservative tacket, that is necessary to declare his readings to assist in taking these of the conduction, tha

ful sacrifice which this country has been made at table in order to obtain the "benefits of a cheap pound of supar." If we take, first, the present value of Wost India property, compared with what it was before the Fran-Traders were allowed to dictate Acts of Parliament, we find a falling off to such a degree as to be almost incredible, word the facts not enstained beyond the possibility of dispute—certates formerly worth £20,000 and £30,000 have been a drug in the market at £3000 and £30,000 have been a drug in the market at £3000 and £30,000 have been a drug in the market at £3000 and £30,000 have been a drug in the market at £3000 and £30,000 have been a fruit in the market at £3000 and £30,000 have been a fit in the Colonists, who were excellent austomers in the Home market, outhit not suffer to the extent without a corresponding effect being experienced in England. Had the exports continues equal to what they were in previous years, there might have been some ground for questioning the reality of the discress complained of i but, when it is known that there has been a falling of in the exports to the amount of more than £5,000,000, no same person can doubt the cause which had led to such a whange. But, andependent of the cost to the English antion, which its afforts to abulish Slavery have catalled upon it, there is the gross intensistency, of which he representatives have been justify, it giving encouragement to that traffic, upon which they look with so much hereor. The West Indian question, then, though strictly bound up with the Free-Trade principle, is, nevertheless, so far a question of morals that is affords many honorable gentlement a pretext to alip off their bonds upon the whole question of our commercial policy. The division of Friday night, or rather of Saturday morning, has sufficiently evinced this disposition. In Flour no transactions have taken place since
our last publication, as holders are waiting the
receipt of the steamer's news now due. Our market continues to be well supplied, and prices remain unchanged, those given to our last being still
the ruling prices. To-day we were visited by a
severs thunder storm, and a heavy fall of rain,
which, sithough coming rather late to be of any
material service to most crops, especially to the
grass crop, will, nevertheless, we hope, he of much
benefit to the country. The steamer Westers
Miller arrived as this City, on her return trip from
Halifax, yesterday morning with a cargo of superand fish. The thermometer stood to-day at 26 in

Rofe will be at the head of the Commission; but the armonements will be made with a view to the separation of the lufticial and political functions of the future. Chancellor. Boold Baron Rofe to appointed Chancellor, many legat changes will immediately follow.

Relying on the circumstance that two of the learned Barons are known to be opposed to the opinion that the Judicial Committee of the Friey Council is the proper authority in matters of decirine, the Bishop of Exeter, it is usid, has resolved on trying his chance with the Court of Exchequer, by seeking there a prohibition against the institution of Mr. Gorbam to his living. In this event, it may yet take three or four weaks beforeste final decision of this long-contested case.

I had almost forgotten to mention that the Irish Franchice Hill has been read in the Lords a second time, without oppositions—the generalments being reserved for Commisses and that Mr. Fox's Education Bill has been thrown out of the Commons by the large unjority of 287 to the commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons by the large unjority of 287 to the Commons the Commons by the large union to the Commons by the large union to the Common the Commons by the large union to the Common th TAS. V. L. STEWART. The Electoral Bill has passed the French Logislative The Electoral Bill has passed the French Logislative Assembly by a large majority, and will shortly be acted upon in the lies Rhin, where there is a vecency caused by the uption of De Flotts, for Paris. M. E. de Girardin is the condition of the Socialist couchave, but his return is attremely doubtful, as he does not possess the confidence of the National (newspaper) party. France has relapsed into a state of tranquillity; the funds have improved, and the triumph of the Moderate party is complete. I fear the calm will be of short duration, and that the Reds are plotting secretly to recover the ground they have lost. A proposal by the Government to increase the Assembly, by which the beautoristic coolly received by the Assembly, by which the project has over exercised by the Assembly, by which the project has over exercised by the Covernment to the project has been made in composing the quarrel between the French and English Governments. It is probable that proposals have been sent to Greece by Lord Palmerston, and that, eventually, the matter will be arranged.

I saw the said James Stewart take Radway's Ready Relief, and witnessed the remarkable effects that upon him.

(under 10,) half price.

Amongst this great Collection, which is the argest ever Exhibited in America, is the RHINOCEROS;

THE UNICORN OF HOLY WRIT; The first and only one in America since 1836. The great difficulty in capturing this huge and savage creature, together with the almost impossibility of keeping him alive in a climate so uncongenial to his habits and constitution, renders the Exhibition of a living Rhinoceros the greatest Company to the transfer of the desired France on the greatest uriosity in the Animal Kingdom.

WHITE POLAR BEAR, The only one in America; which is considere the most rare of all animals kept in a temperal climate for Exhibition, they being only inhabitants of the most Frigid Zone.

In this great Collection of Animals, will be see FOURTEEN LIONS, Of the Finest Specimens, from different Countries, some of which were presented to the remowned VAN AMEDIAN by Her Majesty, Queen Fictoria, in his recent tour through Europe.

THE MONSTER ELEPHANT COLUMBUS, The largest in America, weighing 10,730 lbs. BEAUTIFUL ELEPHANT TIPPOOSUL TAN

Which has caused such a great sensation all over Europe, will go through a variety of Performan-ces, such as Waltzing, Balancing, Ringing the Bell, Creeping on his fore-legs, Waltzing over his Keeper, Picking him Up, Drawing a Cork from a Bottle, &c., &c. MR. VAN AMBURGH,

The most Celebrated of all Animal Perfor Will give an Exhibition in a DEN OF WILD ANIMALS.

S. R. WARREN,

MANUFACTURER OF ORGANS & PIANO-FORTES Corner of St. doseph and St. Henry Streets, MONTREAL,

MONTREAL,

WOULD respectively call public attention to the large and complete assortment of Rosewood and Mahogany PlaNO-FORTES, which he is now offering for Sale at his WARE-ROOMS; they consist of the Harmonic, Grand Square and Cottage Style, six, xix and-ahalf, and seven Octaves, with Metallic Frames.

These Instruments being of his own manufacture, he has no hesitation in saying that in brilliancy and volume of tone, durability of workmanship and excellence of finish, they are inferior to none imported into this Province.

From greatly increased facilities for manufacturing, he begs leave to state that the above Instruments will be Sold at a great reduction from former prices, and that all orders for Fianos, Church, Parlour Reed Organs, Æolophons and Harmonicons, of any size and capacity, will be executed with promptness, and warranted to give entire satisfaction. He has just finished a few beautiful and fine-toned Melodeons, in Rosewood eautiful and fine-toned Melode

besutiful and fine-toned Melodeons, in Rosewood and Mahogany Cases, from four, four and—shall to five Octaves, to the inspection of which he would invite the Musical connoisceurs of Montreal.

PLANTAGENET WATER.

Flantia Water Water Paper an impaired state of the digestive organs, from which I have found no relief, even by following the prescriptions given by the best physicians of Paris, of Beauvais, of Ceepy, and of Gresy, on the Isere; but aince I have made use of the Plantagenet Waters, I find myself much better. My health has sensibly improved, and I am quite inclined to believe that, by the means of these beneficial Waters, I can be radically cured.

MAURICE PROUX, MAURICE PROUX,

Soulanges, 34th May, 1850.

My disease is a Hypoteondrie, which has become chronic. I feel an oppression and obstruction in the articulations of the Epitsgatic up to the shoulders, where the contracting of the articulations is more especially feet. Since I drank of the Plantagenet Mineral Waters, it seems to me as though my shoulders had been cleared of fifty Kilograinies. Before I made use of your Mineral Waters, I never expectorated, now I expectorate a large quantity of simp matters. I think that, for those who are troubled with viilated humours, there is no better catharric than the Plantagenet Waters, because they operate without debitinating or irritating the digestive organs. These advantages are never found with Pharmaceutick medicines, as experience as taught me; for after many false digrainos, caused by a died too sedentary, I have tread and used prerogatives of the Pharmacopotia—which have been the source of my severe Illness.

Accept, Str., the assurance of my great consideration, Priest.

COFFEE, which makes the politician wise, And see throf all things with his half shut eyes. And see thro' all things with his half shut eyes.

THE VALUABLE PROPERTIES OF COFFRE—
Lord Bacon says, "It conflortes the brain, and helpeth the digestion." Many other writers, both Freuch and English, describe its valuable properties. They say if relieves headache; and Doctor Thorton, in his Lectures on Botany, says, "Those persons who regularly drink Coffiee, can never be subject to patrid fever; in fact, a cup of Good Coffree, exhitirates the mental and bodily faculties, and nothing can be more refreshing to the man who studies, or the laborious mechanic."
Admitting that the important qualities described in the above quotations are contained in Good Coffee, it is then of paramoant importance to the public of Canada to know where they can obtain the article in the most pure and best prepared state, and as there can be no doubt that to procure the ESSENCE of COFFEE in the highest state of perfection, the Berry must be carefully roasted and ground. SAMUEL COCHRAN begs to direct the attention of the Public to the process

rect the attention of the Fublic to the process adopted by him in the Roasting and Grinding of Coffee. adopted by him in the Rossing and Frinaing of Coffee.

S. C. ROASTS his Coffee by STEAM, by which is acquired a desideratum which before was much needed by the COFFEE DEINARE. No taint from smoke; a perfect evenness of roast; a peculiar cleanliness in the operation; and, what constitutes the complete success of this process, the entired preservation of the AROMA, in which the strength, in grance, and flavour of the Berry are concentrated.
