He was taken at once to the prefecture and the most skillful surgeons in the city were summoned. Sante was arrested. WILL BE ELECTROCUTED

Mrs. Marie Halliday Sentenced to Die in the Electric Chair.
TAKES HER FATE STOICALLY

Lawyer Carpenter, the Condemned Woman's Counsel, Affected to Tears at the Sentence—Electrocution to Take Place the First Week in August.

MONTREAL, N.Y., June 25.—Mrs. Marie Halliday, who was found guilty of murder, was sentenced yesterday to be electrocuted during the week beginning August 6, 1894.

Mrs. Halliday came in the court room with Sheriff Beecher, with the same measured step, the same downcast eyes, and the same exhibition of stolidity. She was pushed down into the chair, where she began the same actions carried on during the trial. She covered her face with eyes with her handkerchief, and rubbed her nose and stroked her chin.

While Judge Edwards was looking over the code Lisia attempted to rise, but was forced down into her chair. District Attorney Hill moved that sentence be passed upon Elizabeth Halliday. Four officers then held her up. The usual questions were put to her, but she answered none. Her body swayed in the grasp of the officers, but there was no expression in her face, no tear in her eyes. She jerked her head up and down, stamped with her heel once or twice, but at no time raised her head. She was closely watched by Dr. Edward C. Mann, the professional witness whose testimony did much to convict her and even he seemed nonplussed by her behavior.

Lawyer Carpenter watched her, his eyes dim, and sincere pity showing in his face. Judge Edwards spoke in low, measured tones in imposing sentences, and the room was intensely quiet, so eager were the listeners to catch every word.

When the judge read the sentence, Mr. Carpenter responded to the judge's invitation to speak by saying: "I have nothing to say." Tears streamed down his cheeks as the judge pronounced her to death by electricity in the place designated by the State, in the week beginning Monday, August 6, 1894.

Lisia was led out with an air of recognition of the terrible sentence.

Public opinion has changed since the verdict was first given. No one expected conviction in the first degree, and now that it has been given and the cleaner of those who thought she was shamming has been satisfied, there is a general expression of opinion in imposing sentences, and the room was intensely quiet, so eager were the listeners to catch every word.

Henry Calver, a negro, charged with attempting to assault a white woman near Maguila, Ark., was captured near the scene of his crime and lynched.

CARNOT ASSASSINATED

The President of France Murdered by an Italian Anarchist.

STABBED IN HIS CARRIAGE

The Heirloom Deed Was Committed While the President Was Attending a Demonstration at Lyons—The Assassination Attempted Because That is Captured.

PARIS, June 25.—Sadi Carnot, President of the Republic, was stabbed mortally last evening in Lyons, by Cesare Giovanni Sante, an Italian anarchist 31 years of age. President Carnot went to Lyons to visit the exhibition. He left the Chamber of Commerce banquet given in his honor shortly after 9 o'clock and walked to his carriage which was waiting in the Place de la Bourse. He had barely taken his seat when Sante, a newspaper in his hand, pressed through the crowd and sprang up the carriage steps. President Carnot started slightly. Sante snatched a dagger from the newspaper and plunged it into the President's abdomen near the liver. The President sank unconscious. He was taken at once to the prefecture and the most skillful surgeons in the city were summoned. Meantime Sante was arrested. An eye witness who was walking abreast of the President's carriage with Andre Dupuy, the Premier's brother, says that as the President's carriage approached the crowd Lyons, his own attention was attracted by a slight disturbance in the front line of the crowd. He then saw the carriage stop. The President had fallen back against the cushions and his face had become livid. An outcry was raised at once. Sante fled in the direction of the President's life had been made and the crowd seemed suddenly to go mad with excitement.

The news spread swiftly to every part of the city. Infuriated crowds filled the streets. At 10 o'clock an Italian anarchist named Sante was captured near the Hotel de Ville. Cheering crowds filled the streets and gave the President a warm welcome as he left the Hotel de Ville and in the evening a dinner at the prefecture. From the Hotel de Ville a large torchlight procession, which was followed by fireworks and the national anthem, proceeded to the Chamber of Deputies for Sunday, Monday and Tuesday was submitted to him in detail and he expressed his satisfaction with the arrangements.

Yesterday the president and his party left for the exhibition in the Parc de St. Germain. Afterwards the president held a reception at the Prefecture. The famous C. P. Corset at old theatre on the Place de la Comedie in the evening after the banquet at the Chamber of Deputies. The president was in a particularly happy mood during the banquet and was noticeably elated by the cordiality of his reception. He left the Chamber of Deputies at 11 o'clock and was seen in detail and he expressed his satisfaction with the arrangements.

The demonstrative effect of the crowd was such that he was able to push his way forward quite unimpeded until at the step of the carriage.

As Sante sprang from the carriage step and tried to escape he was seized and turned. But for the prompt interference of the police he would have been torn and trampled to death on the spot. As soon as the police extricated him he was taken to the station house.

When Sante was within a few feet of the carriage he waved a paper as if intending to present a petition and then threw off his guard and the person nearest the President. He was seized just as he was about to jump from the step and had but half withdrawn the dagger.

The President had repeated hemorrhages after he was removed to the prefecture. He sank gradually but steadily until 12:45 o'clock when he died.

Mrs. Carnot and her two sons left Paris at 11:57 o'clock by special train for Lyons. All the Ministers who did not go to Lyons with the President were in council at the Elysee at midnight.

On Wednesday a man named Robert McKinnon, who had been working at Maxwell, Ont., and was going to his home at Glen Robertson, lay down on the railway track near the station and was run over by a train. He leaves a wife and several children.

Harry Spring, a young Chinese boy, who wrote letters to Helen Gook and Mrs. Emmons Blaine, and attempted to obtain money from several millionaires in New York, Boston and Chicago, has been arrested, adjudged insane, and sent to an asylum.

At River de Loup, Que., on Wednesday, Germain Dufour, who was arrested on two indictments for robbery from the Intercolonial and Temiscouate Railway cars and shot, was sentenced by Justice Cheneau to five years in St. Vincent de Paul Penitentiary.

Rev. B. Swartzbar, a native of Morocco, and a member of Livingston's exploring party in Africa, was arrested at Cincinnati on Thursday on a charge of murder, committed two years ago in Chattanooga. After being locked up, he cut his throat.

Mrs. Madeline Tasker, of Philadelphia, aged about 30, is said to be engaged to marry H. C. Cramp, head of the great shipbuilding firm, whose age is 60. The prospective bride is described as a beautiful and charming woman, descended from the Stuart kings of Scotland.

Seaman Laird, a barber, has been arrested at Trenton, Ont., on suspicion of having killed Donald Matheson, of the village of Ripley, who disappeared last November, after having attended a dance at the Walker house, Guelph. Laird is a young married man, with nothing against his character. He is out on \$4,000 bail.

Missing Man's Body Found.

TORONTO, June 25.—A body which had been discovered floating in the bay Friday night was sighted Saturday afternoon by two young men while sailing near the Queen's wharf. They notified the police and the body was removed to the morgue, where, despite the fact that it was terribly decomposed, it was recognized as that of Thomas Stouter, who conspired suicide.

WILL BE ELECTROCUTED

Mrs. Lizzie Halliday Sentenced to Die in the Electric Chair.

TAKES HER FATE STOICALLY

Lawyer Carpenter, the Condemned Woman's Counsel, Affected to Tears at the Sentence—Electrocution to Take Place the First Week in August.

MONTREAL, N.Y., June 25.—Mrs. Lizzie Halliday, who was found guilty of murder, was sentenced yesterday to be electrocuted during the week beginning August 6, 1894.

Mrs. Halliday came in the court room with Sheriff Becher, with the same measured step, the same downcast eyes, and the same exhibition of stolidity. She was pushed down into the chair, where she began the same actions carried on during the trial. She covered her face to her eyes with her handskerchief, and rubbed her nose and stroked her chin.

While Judge Edwards was looking over the case Lizzie Halliday, her four officers then held her up. The usual questions were put to her, but she answered none. Her body swayed in the grasp of the officers, but there was no expression in her face, no tear in her eyes. She jerked her head up and down, stamped with her heel once or twice, but at no time raised her head. She was closely watched by Dr. Edward C. Mann, the professional witness whose testimony did so much to convict her and even he seemed nonplussed by her behavior.

Lawyer Carpenter watched her, his eyes dim, and sincere pity showing in his face. Judge Edwards spoke in low, measured tones in imposing sentence, and the room was intensely quiet, no voice was raised to catch every word. Mr. Carpenter responded to the judge's invitation to speak by saying: "I have nothing to say."

The judge condemned her to death by electricity in the place designated by the State, in the County of Hamilton, Ontario, August 6, 1894. Lizzie was led out without a sign of recognition of the terrible sentence.

Public opinion has changed since the verdict was given. No one expected conviction from five other vessels which had been given, and the clamor of those who thought she was innocent has been satisfied. There is an intense expression that conviction for the remainder of her life should have been the penalty. There is talk of appealing to Governor Flavel for a commutation to look into the case.

CRUELTY TO MINERS.

A Shocking Story Comes From Indiana Territory.

FORT SMITH, Ark., June 25.—Details of a horrible state of affairs existing in the mining region in the Indiana Territory have been brought here by excited miners. When it became apparent that the men could not earn a living at the reduced rate of wages, power was used by the deputy marshal to eject them from the company's houses. Many men were thrown into their houses to deal with these slanders, beaten, and their furniture and personal effects destroyed, after which they were loaded into box cars and shipped out of the territory. Revolting stories of brutality are told by men from the Harshawton district, who say troops came to their homes and arrested them. They would not allow him to put on his shoes and coat and refused to let the family at breakfast.

The soldiers threw his furniture on a wagon and then the five children were put out. The soldiers jumped at the man and took the baby from the breast, one of the women was seized and dragged her and threw her head first into the water. They were then carried to the station and taken to deal with these slanders. Dozens of similar stories are told. Most of the miners and their families were thrown out before the strike, and a family of four persons was evicted near Anderson. The wife of the evicted miner was struck over the head with a Winchester while being taken to the station and gave premature birth to a child. She may die.

Horrible Death on the Track.

TORONTO, June 25.—Word has reached the city of a fatality which occurred on the main line of the Canadian Pacific railway, not far from Glen Robertson, early Thursday morning. The remains of a farmer named Macdonald, whose home is said to be in the village of Alexandria, were found on the track horribly mangled. One of the trains in the early morning had evidently run over the unfortunate man, who, it is surmised, was lying asleep on the track. The remains have been conveyed to Alexandria for interment.

Drowned in Toronto Bay.

TORONTO, June 25.—The body of a man named James Fleming, a coachman, who resided on Fort York street, was found floating in the bay yesterday. Fred Clover, of Stewart street, and Geo. Turt, of No. 2 Company, R. C. M., took the body from the water and telephoned for the patrol wagon which conveyed it to the morgue. The deceased was identified as a sober and reliable man. An inquest will be held by Coroner Aikins.

Two Italians Drowned.

NEW YORK, June 25.—Tug Howard Carder went to sea yesterday with crew No. 11 loaded with Brooklyn City garbage. When about half way between Rockaway Bay and the Light ship the crew capsized and two Italian stowaways were drowned.

Attempt to Kill the Car.

ST. PETERSBURG, June 25.—The Car has postponed his journey to Borki. The Russian announced that the change in his plans is the Czarin's return from the Caucasus. It is surmised, however, that the discovery that the railway over which he was to travel has been mined is the real reason.

DOMINION PARLIAMENT

OTTAWA, June 19.—Yesterday was private member's day in the House and very little business of importance was done. Several questions were asked and answered and Mr. Perley moved for all the papers and correspondence in regard to the carriage of mail between Toronto, Ottawa and the mainland. He advocated the tunnel scheme.

This idea was supported by Mr. Wood of Westmorland, who said that it would take ten years to build the tunnel and meaning something ought to be done to improve the present service.

Mr. Davies was of opinion that the Government was only fooling with his scheme, since it would cost between ten and twenty million dollars and they were not prepared to expend that amount.

OTTAWA, June 20.—In the House of Commons yesterday Sir Hubert Turner introduced an act to amend the Fisheries Act.

This bill, which does not come into operation until next year, places a House on the lobster cutting and packing industries. This the Minister of Marine and Fisheries said was the only way of preserving the industry owing to the amount of illicit cutting and canning that was now going on.

Another feature of the bill was to provide for the drifting of salmon in certain places. The bill also provides for an increase in the penalty for the carrying of illicit cutting and canning of fish.

A bill also by Sir Charles Tupper, providing that deck loads on ships for the purpose of the industry owing to the amount of illicit cutting and canning that was now going on.

OTTAWA, June 21.—In the House of Commons Sir John Thompson introduced an Act to ratify the French treaty. The bill contains only one short section for the purpose of the ratification of the treaty.

Sir Charles Hibbert Turner's bill to permit ships from Canada bound to the West Indies to carry deck loads of six instead of three feet was read a third time.

The greater part of the balance of the sitting of the House was taken up with a bill to consolidate the Northwest Mounted Police.

OTTAWA, Ont., June 22.—In the House of Commons Dr. Landrick moved a resolution of non-confidence on going into reply against the Government for their having dismissed L. W. Goodnow, postmaster of Georgetown, Ontario, and appointed H. Henderson, a non-resident, member of Parliament for Halton, in his place.

Sir Adolph Caron, Postmaster-General, said that the reason of Goodnow's dismissal was that he was unable to attend personally to the duties of his position and was defeated by fifty-two of a majority.

The House then went into supply for the balance of the evening.

Before the Committee of Privileges and Elections yesterday evidence was taken in the charge that Andrew G. Miller had violated the Independence of Parliament Act by furnishing goods and provisions to the Department of Militia and Artillery in the years of 1892 and 1893. J. B. Provost, of Quebec, the retired partner of Toronto firm, gave evidence which made it clear that G. Miller was the real contractor, and is sufficient to deprive him of his seat in the House.

OTTAWA, June 19.—In the House of Commons Sir Richard Cartwright moved an amendment on going into reply against the Government for their having dismissed L. W. Goodnow, postmaster of Georgetown, Ontario, and appointed H. Henderson, a non-resident, member of Parliament for Halton, in his place.

Sir Adolph Caron, Postmaster-General, said that the reason of Goodnow's dismissal was that he was unable to attend personally to the duties of his position and was defeated by fifty-two of a majority.

OUTCAST OF MILAN.

next; he had not looked down; and he was not shown by his speech that he knew...

But the question was no sooner answered in his own mind than he was called upon to defend himself...

"Innocent or not," the guardman shouted, raising his sword, and preparing for the blow...

Matteo was probably astonished when he found that his sword pointed his force upon empty air...

"My lord," said Orlando, speaking in a bold, frank tone, "this is not my sword; it is the sword of the duke of Milan..."

"It is not possible," said de Castro, aloud, "that our guardman would have taken a reasonable citizen without cause..."

"It is most marvellous," added the duke. "My lord," responded Orlando, "you may say that, my lord..."

"I do not know," said de Castro, "but I have taken this opportunity to make my own mind known to you..."

"With these oaths the three stout soldiers set upon Orlando, and the appearance was that they would soon have him..."

"I do not know," said de Castro, "but I have taken this opportunity to make my own mind known to you..."

It is a point that our hero arrayed himself in full knightly costume, with the jeweled cross upon his breast, and the conspicuous sword upon his shoulder...

"You speak truly," added a third person. "I have heard it whispered—and I believe it true—that this same Matteo has been engaged with the robbers that infest the country..."

When Manfred first beheld our hero, his brow grew dark and scowling, and his frame quivered from head to foot...

"I do not know," said de Castro, "but I have taken this opportunity to make my own mind known to you..."

from the man regarded her curiously. "I think she is well content of that fully by this time," said Orlando...

"No, no," returned Orlando, who did not like to have her lines disrupted. "The duke of Milan is not so easily turned from his object..."

ATHENS, JUNE 26, 1894.

COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

ADDITION.

SATURDAY, June 25.—Mr. Benjamin Huggaboom, of Mr. Royal, has been on the sick list for a few days but is improving slowly.

Mr. George Evans has severed his connection with the Model farm at Maple Grove and has purchased the celebrated Dobbybrook. He will be known as one of our leading turfmen for the rest of this season. Look out, boys.

The proprietor of the experimental farm at Slab, paid our village a short visit this morning and reports everything in a flourishing condition in that vicinity.

Mr. Edward Davis has made a grand addition to his famous herd by the purchase of a fine thoroughbred cow from Mr. A. McVeigh, of Glossville.

Mr. Thomas Moffatt and lady, of Ottawa, are guests of H. S. Moffatt, our King st. merchant, for a few days.

Some of the leading citizens of Greenbush have formed themselves into a vigilance committee for the suppression of vice in that community. We hope the mayor will see that the rules are strictly enforced.

Mr. Charles Hill, a very extensive farmer of Athens, paid our village a short visit on the 20th inst., and after a careful inspection, left his order with H. B. for one of his celebrated No. 3 mowers. We congratulate him on so wise a choice, as they can't be beaten.

WASHBURN'S CORNERS.

FRIDAY, June 22.—Mr. Elizabeth Churchill, after being a permanent resident in our settlement for over forty years, and having raised a family of four children, has sold the old Churchill farm and moved to Westport, the home of her childhood, to reside. May peace and happiness be her lot.

Hoeing is the order of the day. The late showers, followed by such fine warm days, make everything bloom. There being a large area planted, every man is busy.

Abut it from the products of the cow that every Leeds county farmer derives his principal revenue, it behooves them to look well to the feed and improve the breed. Through the pluck and enterprise of a small syndicate, the latest addition here is a fine grade Ayrshire bull. Of course he is called a P. I., but he is for the use of every farmer in the settlement, on equal terms, the object being to improve the stock at a reasonable cost.

A large quantity of Shedd feed has been constructed around here this spring. It makes a great line, and ugly old neighbors smile through the top rails.

The wild strawberry crop is nearly a failure, but raspberries promise to be plentiful, and as for apples, the trees are already bending and swaying with their young loads.

By-the-by, Mr. Editor, did you notice how they use thieves and swindlers in France? Take, for instance, the five directors of the Panama Canal company, who formed a ring and swindled the bondholders out of about one million dollars; or the sentence of the court was that they fork back the money they stole and interest thereon, together with one hundred thousand fine each, and suffer from two to five years in prison, which they are now suffering. This is French justice. How does that compare with the McGreevey and Connolly case? A steal of \$100,000 each, a mock trial, and a penalty 3 months in prison. Can't see where the boasted British justice came in there.

FRANKVILLE.

MONDAY, June 24.—Mr. Lillis is in town with his dental car.

Miss Montgomery, of New York, is here spending the summer with her aunt, Mrs. Eira Ireland.

The Rev. Mr. Stevenson, the new pastor of the Church of England, delivered his initial sermon on Sabbath evening, 17th inst., to a large congregation.

Miss Gerlie Livingston gave a birthday party to a number of her young friends at her home on Saturday, 18th inst., where they spent an enjoyable time.

Miss Good, of Almonte, is visiting relatives here.

Mr. and Mrs. E. T. Latimer, of Lansdowne, spent Sunday here, the guests of Mrs. Latimer's parents, Mr. and Mrs. Eira Ireland.

Mr. G. A. Dixon, who has been seriously ill of late, is improving rapidly.

Miss Lynch, of Jasper, is visiting relatives here.

Mr. W. D. Livingston has now about fifty colonies in his apiary and expects several more.

The Rev. Thos. Kelly, of Pennsylvania will occupy the pulpit in the Methodist church on Sunday morning next.

Accident or Suicide.

On Sunday last the startling news reached Athens that early on the morning of that day the body of Jennie Graham, daughter of Wm. Graham, stage-driver between Mallorytown and Athens, had been found in the St. Lawrence at Brockville. Pleasure-seekers rowing on the river noticed something floating in a shallow bay, opposite the site of the old powder mill, and on investigation, it proved to be the body of the unfortunate girl. It was at once towed ashore and the police notified. Deceased had hired a boat on Saturday and was seen rowing about on the river by several persons. Later she landed on the Canadian shore below the town, where her actions were such as impressed those who saw her with the idea that she was demoralized. As the boat she used was found floating right-side up on the body, it was at first thought that her drowning was accidental, but a letter written to her sister just before her demise, in which she gives directions as to the disposition of some of her effects, gives color to the general belief that she committed suicide.

A jury was empanelled by Coroner Vaux, and after viewing the body they adjourned until Thursday evening. Meantime the police are investigating the case.

According to a bicyclist's cyclometer the distance between Smith's Falls and Brockville is exactly 32 1/2 miles.

The Little Premier Again on Top!

ALL THE CABINET RE-ELECTED

Dana Carries Brockville by a Good Majority.

Early Defeated in Kingston.

At the time of going to press the returns are incomplete, but it appears certain that the Mowat government will have a good working majority over all the parties in the new house, fully as large as that with which he went to the country. The campaign in this constituency was conducted very quietly, but in several ridings in the west, and especially in Toronto, the fight was a bitter one.

The four Toronto returned Conservatives, Hon. J. M. Gibson was re-elected in Hamilton, Hartly, the new Commissioner, was defeated in Kingston by 8 votes. Meredith had a majority of 118 in London, and Mowat a majority of over one thousand in North Oyster.

In this riding the Liberal candidate's majority was unexpectedly large. The majorities were as follows:—

Table with 2 columns: Name and Majority. Includes Dana, Jely, Brockville, etc.

Dana's maj. about 276

It was thought by many that Beatty would have a close call in Leeds, but evidently the electors of Gananoque have no use for a Patron candidate, for they buried Patron Wils in under a majority of 308. Beatty's total majority is placed at 363, with Elmley to hear from. Following are the figures to hand at this time:—

COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

A Budget of News and Gossip. Personal Intelligence. Letters of Every-thing well Mixed up.

ADDITION.

SATURDAY, June 23.—Mr. Benjamin Hugobon, of Mt. Royal, has been on the sick list for a few days but is improving slowly.

Mr. George Evans has severed his connection with the Model farm at Maple Grove and has purchased the celebrated Doneybrook. He will be known as one of our leading turfmen for the rest of the season. Look out, boys.

The proprietor of the experimental farm at Slab has paid our village a short visit this morning and reports everything in a flourishing condition in that vicinity.

Mr. Edward Davis has made a grand addition to his famous herd by the purchase of a fine thoroughbred cow from Mr. A. McVigil, of Gosville.

Mr. Thomas Moffatt and lady, of Ottawa, are guests of H. S. Moffatt, our King st. merchant, for a few days.

Some of the leading citizens of Greenbush have formed themselves into a vigilance committee for the suppression of vice in that community. We hope the mayor will see that the rules are strictly enforced.

Mr. Charles Hall, a very extensive farmer of Athens, paid our village a short visit on the 20th inst., and after a careful inspection, left his order with H. B. for one of his celebrated No. 3 mowers. We congratulate him on so wise a choice, as they can't be beaten.

WASHBURN'S CORNERS.

FRIDAY, June 22.—Mr. Elizabeth Churchill, after being a permanent resident in France for forty years, and having raised a family of four children, has sold the old Churchill farm and moved to Westport, the home of her childhood, to her lot. May peace and happiness be her lot.

Hocing is the order of the day. The late showers, followed by such fine warm days, make everything boom. There being a large area planted, every man is busy.

As it is from the products of the cow that every Leeds county farmer derives his principal revenue, it behooves them to look well to the feed and improve the breed. Through the pluck and enterprise of a small syndicate, the latest addition here is a fine grade Ayrshire bull. Of course he is called a P. I., but he is for the use of every farmer in the settlement, on equal terms, the object being to improve the stock at a reasonable cost.

A large quantity of Sheld fence has been constructed around here this spring. It makes a great line, and ugly old neighbors smile through the top rails.

The wild strawberry crop is nearly a failure, but raspberries promise to be plentiful, and as for apples, the trees are already bending and swaying with their young loads.

By-the-by, Mr. Editor, did you notice how they use thieves and swindlers in France? Take, for instance, the five directors of the Panama Canal company, who formed a ring and swindled the bondholders out of about one million dollars; and the sentence of the court was that they fork back the money they stole and interest thereon, together with one hundred thousand fine each, and suffer from two to five years in prison, which they are now suffering. This is French justice. How does that compare with the McGreevey and Conolly case? A steal of \$100,000 each, a mock trial, and a penalty 3 months in prison. Can't see where the boasted British justice came in there.

FRANKVILLE.

MONDAY, June 24.—Mr. Lillie is in town with his dental case.

Miss Montgomery, of New York, is here spending the summer with her aunt, Mrs. Eera Ireland.

The Rev. Mr. Stevenson, the new pastor of the Church of England, delivered his initial sermon on Sabbath evening, 17th inst., to a large congregation.

Sim-Gerlie Livingston gave a birthday party to a number of her young associates at her home on Saturday, 16th inst., where they spent an enjoyable time.

Miss Good, of Almonie, is visiting relatives here.

Mr. and Mrs. E. T. Latimer, of Lansdowne, spent Sunday here, the guests of Mrs. Latimer's parents, Mr. and Mrs. Eera Ireland.

Mr. G. A. Dixon, who has been seriously ill of late, is improving rapidly.

Miss Lynch, of Jasper, is visiting relatives here.

Mr. W. D. Livingston has now about fifty colonies in his apiary and expects several more.

The Rev. Thos. Kelly, of Pennsylvania will occupy the pulpit in the Methodist church on Sunday morning next.

The funeral services of the late Mrs. Emmons, who moved a short time ago from Winchester here, was conducted on Saturday, 16th inst., by the Rev. Mr. Porter, M. A., B. D., after which the remains were conveyed to the Toledo cemetery.

An ice cream and strawberry social will be held at the residence of Mr. R. Locks on Monday evening, next. All are cordially invited. Proceeds go towards paying for the fence around the parsonage.

The Ottawa Journal of Saturday last says:—A large number of the members of the Western Methodist church gathered at the parsonage last evening to bid farewell to their pastor, the Rev. Mr. Hagar. A very enjoyable time was spent in social converse and music after which refreshments were served and a kindly worded address was read, expressing the good will of the congregation to Mr. Hagar and his family and as a slight token of the esteem in which he is held a well filled purse was given him. Mr. Hagar leaves for his new field of labor on Tuesday next.

It is an ill wind that blows nobody good, as the recent fire very forcibly illustrates. Since the fire every available man has found steady employment in helping to rebuild the burnt district. Fred Proctor has a new shed finished and the foundation sills and sleepers for a large barn and stable in place. Mrs. Green had a large gang of men working on the improvements and addition to the old stone building that was scorched by the fire, while Gerahon Yates has a few loads of lumber on the ground to commence rebuilding his house and outbuildings.

The fire engine was taken out for a short practice on Thursday evening last, after being overhauled and painted. When the door of the hall were opened and the engine drawn out, many and very favorable comments were made on its appearance. The painting was done by Geo. Hughes, and the lettering by G. C. Slack. The old name, "Phoenix," being discarded and the new and, to our mind, more appropriate name of "Invincible" put on. A fine minute test was given and the result was perfectly satisfactory. With twelve men a stream was thrown through 100 feet of hose from the centre of Main street over the top of the highest part of the Dowley block (3 stories) into Dr. Addison's yard. With the new hose reel and 250 feet of hose, the Invincible, when properly manned, is capable of giving a good account of herself.

SUSTAINED!

The Little Premier Again on Top!

ALL THE CABINET RE-ELECTED

Dana Carries Brockville by a Good Majority.

Early Defeated in Kingston.

At the time of going to press the returns are incomplete, but it appears certain that the Mowat government will have a good working majority over all the parties in the new house, fully as large as that with which he went to the country. The campaign in this constituency was conducted very quietly, but in several ridings in the west, and especially in Toronto, the fight was a bitter one.

The four Toronto returned Conservatives, Hon. J. M. Gibson was re-elected in Hamilton, Hartly, the new Commissioner, was defeated in Kingston by 8 votes. Meredith had a majority of 115 in London, and Mowat a majority of over one thousand in North York.

In this riding the Liberal candidate's majority was unexpectedly large. The majorities were as follows:—

Table with columns: DANA, JELLY, and other political figures with their respective vote counts.

It was thought by many that Beatty would have a close call in Leeds, but evidently the electors of Gananoque have no use for a Patron candidate, for they buried Patron Wils under a majority of 208. Beatty's total majority is placed at 363, with Elmley to hear from. Following are the figures to hand at this time:

Table with columns: BEATTY, WILSON, and other names with their respective vote counts.

The result of the vote throughout the province, as received at the telegraph office here, is as follows:—

Table with columns: LIBERAL, and other political groups with their respective vote counts.
