THE WEATHER

TORONTO, April 9.—The barometer remains high over the Western Provinces and relatively low over the Great Lakes and Eastward.

CANADIAN NEWS IN BRIEF

(By C.P.R. Telegrams) Ottawa, Ont.—The Soldiers' Settlement Board announces that action is being taken to dispose of 75,000 acres of Hudson's Bay reserve land in Saskatchewan and Alberta.

They Come in From All Directions, Ending Up With 4.15 This Morning, When There Was a Real Fire at the Lacrosse Grounds, the Covered Grand Stand Being Burned.

The trouble which was expected in connection with the walk out of the firemen was amply realized. In spite of the best police vigilance that could be given, there were ten firealarms during the night, eight of them false.

Chief Early stood at the door and bade the men farewell with considerable feeling. Some of them have been comrades of his for years. Before they retired the business agent addressed the men, and urged them to act like gentlemen and not do anything that would prejudice their case.

LET A BOARD BE NAMED

Peace is better than war and the settlement of critical differences such as have arisen between the firemen and the council might well have been handled by an arbitration board comprised of sane and experienced men whose judgment for the present year would have been accepted. But there seem to come occasions in life when the air is so charged with misunderstanding, prejudice, and the desire to control a situation that it takes a thunder storm and electric discharges to purify and clear the atmosphere. It is possible that when all efforts for compromise and adjustment fail that a few days of tussle, to and fro, may result in some sort of arbitration such as might have been agreed to in the first place. This is often the way these affairs end with the net earnings to both sides being only trouble, loss of time, loss of money and ill feeling.

However, now that the break has come there should be no encouragement given by the public to wanton destruction and intimidation. As frequently pointed out by the Journal in commenting on the situation, the lives and property of many thousands of citizens are involved. Human lives are precious and with winds blowing as they are these days a little flame started by some thoughtless sympathizer may develop into a serious conflagration, the finale of which can never be foreseen. When such events do occur, even though strikers may be in no way directly responsible, the tendency of an angry public is to blame them after damage is done. The history of trouble between differing bodies of human beings shows that frequently the untoward incidents can be traced, not to a man who is out on strike, but to some irresponsible fool who imagines he is doing society a good turn by injuring others.

It is therefore with the sincerest feelings that this paper respectfully suggests to the men who are out to all who sympathize with them, that false alarms, incendiarism and other expressions of mob rule be discouraged. Whether right or wrong in their attitude and claims, there is nothing ever gained by widening a chasm, and that is all the foolish acts ever does.

In keeping with efforts made yesterday The Journal again suggests that a board of arbitration or conciliation be agreed upon, two men to be appointed by the Council two by the Firemen and a fifth to be chosen by the four. Let this Board canvass the whole situation and let its majority finding be accepted.

LOUTH COUNCIL

Council met pursuant to adjournment at Frank's Hall, Jordan, on Monday, April 5th, 1920 at 10 a.m. All the members were present.

The minutes of last meeting were read and adopted.

On motion of Wm. Scull and John G. Smith, S. C. Houseberger and John Morrison were appointed a committee to purchase a disc for the use of the Township of Louth.

On motion of J. G. Smith and Wm. Scull a By-Law was introduced appointing a road overseer for the Township of Louth.

On motion of W. Leidens and J. G. Smith the said by-law was read a second and third time.

On motion of S. C. Hnsberger and W. Leidens a number of accounts were paid.

On motion of Wm. Scull and W. Leidens the council adjourned to meet again at Frank's Hall, Jordan, on Monday, May 3rd, 1920, at 10 a.m.

Wood Alcohol Takes Life Of a Chorus Girl

CHICAGO, April 9—Mazie Conley a pretty chorus girl, took her last drink today. It turned her fingers black, loosed her jaws, and then killed her in the Michael Reese hospital while physicians and nurses tried desperately to save her life. She called it "Whisky" and said friends told her it was good for influenza.

If the police can locate Tony's around the corner they believe they will find the source of the poisoned draught. Miss Conley went to room of Mrs. Melba Springer, also a theatrical performer, in the New Bedford hotel shortly after midnight. She just was recovering from an attack of influenza and had with her a bottle of alleged whisky, which she told Mrs. Springer had been recommended by her friends and which she had purchased at "Tony's" around the corner. She took two or three drinks of the stuff and speedily lapsed into unconsciousness. Mrs. Springer was unable to rouse her and noticed her fingers were turning black and her throat and face a deep purple. She was removed at once to the hospital but never rallied.

The police believe it is a case of wood alcohol poisoning.

MOYOR OF RACINE SAYS HE NEVER GAVE FAMILY MAID RIDE ON HIS KNEE

RACINE, Wis., April 9—Mayor William Armstrong, on the stand to answer his wife's charge of infidelity, in the preliminary hearing to Mrs. Armstrong's divorce suit, today vigorously denied that he had been unfaithful or that he had dangled his housemaid on his knee.

A neighbor testified that he looked across to the Armstrong window, saw the mayor in his den, and then saw the maid enter. The mayor took her by the wrists, he said, "and rocked her on his foot," much as a grown person would play hors with a child.

Aside from the character witnesses Mayor Armstrong was the only wit-

WHY

ness at today's hearing, at noon the defense rested in case and suggested that the jury return a verdict of not guilty. Attorney for Mrs. Armstrong also declared that they had finished. When the preliminary hearing is disposed of, the regular divorce trial will begin.

AIRPLANE ROBBERY ALIBI CAUSES TALK IN ENGLAND

LONDON.—The Benson Minnesota case of establishment of an apparent alibi in a robbery case by use of an airplane for a swift flight of 100 miles has attracted wide attention in Britain.

The little item arrived in the midst of a crime wave which has been baffling Scotland Yard. The press pounced upon it as a basis of questioning officials.

General Sir Neville Macready announced that the possibilities of certain classes of crime being undertaken by means of aeroplane is receiving attention. He points out that in his report to the home secretary he stated that the police were considering methods of coping with air crimes. The Scotland Yard view is that smuggling will be the chief item under this head and that it may be difficult to cope with it, due to the ease with which the channel may be crossed.

John Marshall of London died as the result of a fall downstairs in his home.

MRS. LEWIS OF BROOKLYN

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N. Y.—"For one year I was miserable from a displacement, which caused a general run-down condition with headaches and pains in my side. My sister induced me to try Lydia E. Pinkham's Vegetable Compound. I found it helped me very much and such a splendid tonic that I am recommending it to any woman who has similar troubles."—Mrs. Elsie G. Lewis, 90 Vernon Ave., Brooklyn, N. Y.

Such conditions as Mrs. Lewis suffered from may be caused by a fall or a general weakened run-down condition of the system, and the most successful remedy to restore strength to muscles and tissues and bring about a general healthy condition—has proved to be this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

If you have disturbing symptoms you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

BAN ON FREIGHT INTO BUFFALO

RAILWAY YARDS TIED UP BY ILLEGAL STRIKE OF EMPLOYEES

BUFFALO, N. Y., April 8—An embargo on all freight entering or leaving of passing through Buffalo was announced late tonight after a conference of officials of the seven railroad's whose yards were tied up today by a strike of switchmen. Milk shipments into the city will be continued, and passenger service will be maintained as far as possible, it was said after the meeting.

Still leaders tonight claimed that 20,000 men had joined the walk-out, which was denounced as illegal by Frank J. Sheehan, Vice-President of the Switchmen's Union of North America. Railroad officials said that their figures showed that about 1,500 men were out. They admitted, however, that the situation is serious.

Engineers and firemen employed in the yards of Buffalo voted today to support the switchmen in their stand, and many of them failed to report for work tonight. It was said by speakers at strike meetings that the engineers would all be out before morning.

BABY CARRIAGES BLOCK TRAFFIC AT COURT HOUSE

NEW YORK, April 8—Baby carriages today blocked traffic in front of Brooklyn courthouse, so great was the throng of evicted tenants needing relief under laws designed to curb profiteering in rent. Whole families went to court the babies being left outside. When the parents emerged, having obtained time to hunt other apartments their joy was increased by the fun of sorting out their children, many of whom had exchanged carriages. Most of the landlords agreed to postpone eviction till July.

God First

THEY have been called a people of one idea—God first.

WHATEVER happens, their work goes on, serving God and their fellowmen.

EMPIRES may rise and fall, the world may seem to be enveloped in blood and strife, but they still see God's sunshine and love, still do the nearest work of mercy. Still praise God for the saving of souls.

JUDGE if you will from what you know of their work, whether the world has not cause to rejoice with them in their adherence to this one idea—"Seek first the Kingdom of God."

THE universal desire to make Easter breakfast a really delightful meal, is easily fulfilled by housewives who use

Swift's Premium Hams and Bacon

A few slices of this mild, delicately-cured ham or bacon—cooked to a tempting brown—served sizzling hot—make a meal the whole family will enjoy. For Swift's Premium is outstanding in excellence: the Ham, because of its extra mild cure and juicy tenderness; the Bacon because of its succulent fat and enticingly flavored lean; and both because of their characteristic savouriness due to the exclusive Swift process of selection and curing.

Serve Swift's Premium on your Easter breakfast table and we know you will insist on this brand in future.

Order today from your Butcher or Grocer.

LARKIN ATTACKS JUDGE'S REMARKS

NEW YORK, April 8.—James Larkin, Irish agitator being tried in supreme court charged with criminal anarchy, today characterized Presiding Justice Weeks' remarks as "conglomerate and illogical." Then acting as his own counsel he asked him to vacate jurisdiction in his case because he had shown himself "biased" against him ever since his indictment was returned.

Justice Weeks in denying Larkin's request, said he believed he could preside impartially.

Larkin then moved to dismiss the entire new panel of talesmen from which the jury is to be selected, asserting that it would be a "class jury" and not his "class." The original panel was dismissed Monday on Larkin's motion. His petition today was denied.

ADMITS KILLING MRS. DE LORME AFTER QUARREL

ROCHESTER, N. Y., April 8.—Tony Mangiavillano confessed to detectives today that he strangled Mrs. Frances De Lorme in a quarrel in an automobile last Sunday night, hid the body all the next day and on Monday evening took the body in an automobile to the outskirts of the city where it was found yesterday morning.

A charge of murder in the first degree was placed against Mangiavillano immediately after his confession to Detective Captain Whalen at police headquarters. Sarafino D'Accorsa, who earlier today had confessed that he drove the car in which the fatal quarrel took place, is held as a material witness. William De Lorme, husband of the victim, who also was held by the police, was released today.

HOW'S YOUR BLOOD? Pimples and Eruptions Mean Bad Blood

People who have impure or impoverished blood should be careful to take only a temperance remedy made of wild roots and barks, such as Doctor Pierce's Golden Medical Discovery is and has been for nearly 50 years. Ingredients printed on wrapper.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and many skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache.

Get Doctor Pierce's Golden Medical Discovery to-day at any medicine dealer, in tablet or liquid form, or send 10c for trial package to Dr. Pierce's 'Invalids' Hotel, Buffalo, N. Y., or branch Laboratory, Bridgeburg, Ont.

BRAMPTON, ONT.—"A few years ago I was in a nervous and run-down condition and felt greatly in need of a tonic. A friend who was being helped by Dr. Pierce's Golden Medical Discovery advised me to try it, too. It helped me from the very start and eventually restored me to perfect health. I feel in a position to praise the 'Golden Medical Discovery' very highly and take pleasure in recommending it to all those who are at all nervous, weak or run-down."—Mrs. ESTHER PRATON.

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since Aug. and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Ever in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

Shows Solid Growth. In all the various departments the record. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the same rate of growth has been reposition which the Salvation Army occupies today indicates tremendously increased service to the community.

This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and give great promise for the future.

The Private Bills Committee passed Toronto's bill authorizing the city to operate its street railway system under a commission of three members, with or without salary.

Robt. Whitely, Woodstock, pioneer manufacturer, died at the age of ninety-three.

PAINT LENGTHENS LIFE OF BUILDINGS AND MACHINES

Many an old ship has stood the racket of ocean travel for years mainly on the strength of the tar or paint applied to her sides, but sailors do not wait for the ship's hull to become weather beaten before applying the first coat of paint. Farmers, on the other hand, seem much inclined to let their buildings reach a state of partial decay before making any special effort to safeguard them against the play of wind and water. As a matter of fact, nothing pays better than paint applied immediately after the building is constructed, in lengthening the life of the structure. The same applies to farm machinery parts and especially the wooden parts and it is always pay to paint such repairs to machinery wagons, etc., as have to be made before the work season for these articles commences.

Good paint applied to farm buildings and machinery, not only pre-

serves them, but calls attention to running the farm, a fact that helps greatly in case the owner wishes to sell either the farm or some of its products. Many farmers have paid so much attention to the economic value of their farm that they have neglected an important side of farm life. There is no reason why the farmer and his family should not have as attractive a home as attractive as the city dweller has. The farmer's neighbors as well as the passing observer, will judge him largely by the care he takes of his stock, his machinery, and his buildings.

Painting is the easiest and least expensive way of making sure of neat clean surroundings, and is the best way of preserving the lumber in buildings, implements or machinery. With spring approaching, the time has arrived for going the rounds of the machine shed to lick out these articles that can be moved to a warm

building for retching with paint in addition to their annual overhauling and repair.

DEFEAT OF MEASURE IS EXPECTED, WILL NOT TAKE EFFECT UNTIL 1922.

WASHINGTON, D.C., April 8.—The big fight against universal military training opened late today in the senate, with indications that the final vote, probably tomorrow would result in its rejection.

Leaders on both sides, who informally canvassed the senate vote, refused to comment on the probable outcome. It is said, however, that 40 Democrats and thirteen Republicans were against the training plan. In this situation a movement was begun aiming at the submission of a program of voluntary training.

There was sharp debate today on the training scheme, which was commended and condemned, but the sum total of action was the decision to postpone from 1921 to 1922—the date on which the plan would be put into force. This was done with less than a dozen senators in the chamber.

COST CANADA \$2,825,960 TO KEEP FORCES IN VLADIVOSTOK

OTTAWA, April 8.—Secretary of State Sifton told the house of commons today that the cost of maintaining the Canadian expeditionary force at Vladivostok had amounted to \$2,825,960, Canada contributed 4,214 officers and men.

The cost of supplies and ammunition, except the initial issue of personal equipment and clothing, was borne by the imperial government which assumed responsibility for it upon shipment from Vancouver.

CONVALESCING FROM INFLUENZA

The bracing atmosphere found in Algonquin Park is just what is needed for those convalescing from influenza or those who are in need of a rest and recuperation. The Highland Inn offers comfortable accommodation at reasonable rates. Apply any Grand Trunk Agent for descriptive booklet, or write Mr. N. T. Clarke.

ENRICHING THE SOIL

Some Hints Upon the Wise Use of Artificial Fertilizers.

Fuller Use of These Fertilizers Likely—Their Application Must Be Handled Intelligently—Study Your Own Soil Closely—General Farm Hints.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE use of artificial fertilizers in this country is bound to increase. These materials are, however, expensive and those intending to make use of them should make an effort to inform themselves regarding the conditions under which they will give the best results. Too many people are using fertilizers without fully realizing that they carry plants food and that the real object in applying them is to supply needed available food for the plant.

To intelligently make use of these materials there are three points to be considered. First the needs of the soil, second, the needs of the plant, and, third, the nature of the materials to be applied.

It should always be kept in mind that the soil carries immense amounts of plant food, but that only a small quantity of this is rendered available during the growing season. The acids formed by the decay of the organic matter in the soil is the chief natural agency operating to bring into a form that may be taken up by the plant. The organic matter is also the source of nitrogen to the plant, and it increases the water holding capacity of the soil as well as improves its physical condition. Consequently every effort ought to be made to maintain or increase the amount of decaying organic matter. Others who grow largely from the added fertilizers and not from the plant food of the soil. It is for this reason that it is sometimes stated that if you commence to use fertilizers you must continue their use.

However, no matter how much we try to render available the immense stores of food in the soil, we cannot bring it about fast enough to supply the needs, especially of heavy feeding crops, such as the mangels, turnips and garden crops. Hence the need of manures. Stable manure cannot always be got in sufficient quantities to fulfill requirements, nor does it always furnish the needed plant food in the right proportions to develop the plant properly. To supplement the manure is the place of fertilizers.

Stable manure is essentially a nitrogenous fertilizer. Hence its use in large quantities it will force big leaf and stem growth and retard maturity. Consequently, a plentiful supply of stable manure would help the growth of lettuce, spinach, mangels, etc.; but it would not be so satisfactory for tomatoes, sugar beets, or other crops that must be brought to maturity. What these plants need is some stable manure and some mineral fertilizer to force early maturity. On the other hand, plants like lettuce, spinach, etc., are grown for their leaf and stem and maturity is not a necessary point, hence a soluble form of nitrogenous fertilizers may even be added after heavy applications of manure with good results.

The manufacturer of mixed fertilizers seeks to prepare special mixtures that will be suitable for different crops, but the farmer or gardener should strive to inform himself regarding his soil and crop needs that he may be able to select the form of fertilizer that will bring about the growth desired, and he should study the fertilizer materials available that he may buy intelligently and economically.—R. Harcourt, O. A. College, Guelph.

General Farm Hints.

Put a plant or two of rhubarb in the cellar which should be kept at a temperature of 60 to 70 degrees in sand, which is kept moist and in the dark so that it will produce stems and no leaves. Do some reading on gardening work for this year, but more especially think over the failures of the last.

If the roads are in good shape, get your manure out and spread. A dressing of 8 to 10 loads per acre will keep the orchard in condition. If buying in the larger cities, order early as the car situation is serious enough to delay shipments.

Light pruning of apple orchards, taking out the small wood with the long-handled pruners, may be carried out during bright weather. Grape trimming may also be looked after when the weather is suitable.

Before feeding or selling any grain crops make good provision for your own seed supply.

Finish cutting out of black knot of cherry and plum.

Inspect and oil windmill before winter.

If weather is fine and warm may continue to spray peach trees and give first application to trees badly infested with San Jose scale.

On rough days during this and succeeding months it is well to go over all packages, barrels, boxes, etc., mending broken carriers, handling baskets.

Be sure pumps are in good condition.

It is not too early to consider the question of getting help for the big crop which will have to be raised in 1920.

Depreciation of Machinery.

Did you ever think of the relation of the farmer's bank account to the tool shed? Machinery depreciates faster in the weather than it does in use. The time saved by having a rust-free implement will soon pay for the shed.

Irrigation Best Kind of Farming

Col. J. S. Dennis tells of Introduction.

Just why the farmers of the southern territory of the prairie provinces are clamoring for further extensions of the existing irrigation schemes was made clear recently, when Col. J. S. Dennis, of the C. P. R. Department of Colonization and Development, addressed the professors and students of Macdonald College, Ste. Anne de Bellevue, on irrigation in the west. The large attendance listened intently to the lecture, which was admirably illustrated with a series of lantern slides depicting the progress of the C. P. R. irrigation system and the fruits of this method of farming.

The speaker divided his discourse under three heads, dealing with the introduction of irrigation in Alberta by the C. P. R., and the motives which had induced him to recommend and urge this; the success as proved by the company but the temporary failure of some settlers due to lack of experience in the application of water and cycle of wet years; the reversal of opinion after practical tests, and the consequent overwhelming demand for further irrigation projects in the prairie.

"For a long time," said Col. Dennis, "there were many who claimed that irrigation was unnecessary in Western Canada. Because conditions of drought do not regularly occur there, they argued, there was not the same urgency for irrigation as in other less fortunately situated countries where the rainfall is usually so small as to make agriculture practically impossible without artificial application. It is rather gratifying now," said the speaker, "in view of this tremendous opposition to see the radical right-about-face in sentiment and to hear these same men assert that practically the whole of the south country needs irrigation to make agriculture permanently successful. The experience of the past two years with a rainfall in Southern Alberta of less than 10 inches, and the bumper crops raised by irrigationists, is responsible in no small measure for this great change in opinion."

Outlining the extent of the semi-arid portion of the province of Alberta, which he stated stretched 150 miles north of the American boundary and from the Rocky Mountains to the Cypress Hills in Saskatchewan, the speaker stated that American irrigation engineers of prominence, after investigating conditions thoroughly, had given it as their opinion that the rainfall was insufficient to follow farming profitably, and the question to be decided was not whether water was needed, but rather just how long this territory could grow any kind of crops without irrigation.

"Irrigation, when practically applied, is the best kind of farming," said the colonel with conviction, "because it is the only system that permits of the most intelligent treatment of every individual crop to suit its own requirements. It eliminates the necessity of summer fallow and elaborate treatments of the soil to conserve moisture. It is quite agreed that mixed farming is the basis of agricultural prosperity and this system flourishes splendidly under irrigation in the raising of special feeder crops which it is difficult to raise without water."

"In every case where it has been put to the test in competition with ordinary farming methods, irrigation has been proved to increase production from 25 to 100 per cent. This accounts for the fact that in the irrigation belt land is being sold for considerably over \$100 per acre, and that farms are seldom offered for sale even at that price, the owners being reluctant to sell. The 'Lethbridge Herald,' by careful compilation, placed a conservative estimate of \$54.71 as the average value of the production on an acre of the \$2,230 acre tract. Causes were many where

J. S. DENNIS, CHIEF COMMISSIONER OF COLONIZATION & DEVELOPMENT.

potatoes yielded \$170 to the acre, alfalfa \$126, and wheat \$116 per acre. The annual report issued by the Board of Trade in this same city contains a comparative statement showing the results of crops grown on dry and irrigated land and the following increases of crop grown under irrigation:—Wheat, 25 bushels, or 77 per cent.; oats, 10 bushels, or 54 per cent.; barley, 12 bushels, or 81 per cent.; peas, 10 bushels, or 51 per cent.; potatoes, 250 bushels, or 105 per cent.

"The Canadian Pacific irrigation scheme in Southern Alberta, a joint project on the American continent, with an area greater than the whole irrigated area of Colorado and California. The irrigable area within more than 600,000 acres within aggregate length of its canals and ditches is greater than Canada's longest river or the rail distance from Vancouver to Halifax. To the original block a further area of 400,000 acres in the Lethbridge district was added when the C. P. R. took over the block originally developed by the Alberta Railway and Irrigation Company, and this has shown the same remarkable progress and prosperity.

"Agitation at the present time for further irrigation and quick irrigation," continued Col. Dennis, "farmers claim with justification that it is a life and death issue with them, if they are to remain on the land they must have it; if they do not get it the only thing to do is get out. That the Provincial Government realizes this also is very evident from the fact that they have energetically taken up the new project. The Lethbridge Northern Irrigation District scheme comprises the irrigation of about 100,000 acres and will cost between three and four million dollars. Just recently farmers in the Raymond, Magrath and Sterling district were called upon to vote on the formation of a further irrigation project which would embrace a total area of 190,000 acres and irrigate 95,000. When the ballot came to be counted there was not a solitary vote recorded against the project."

"A vast sum of money," said Col. Dennis in conclusion, "was put into the irrigation scheme by the C. P. R. but it has proved a sound investment. The bumper crops raised on these irrigated farms, the high prices at which the land is held, the reluctance on the part of farmers to sell, and, above all, the general clamor in the south country for schemes to include the greater part of the south territory all prove that the initiative and foresight which planned the project are now being amply rewarded."

Advertisement for Hobbs Gold Medal Binder Twine. Includes text: 'In the Rush of Harvest THERE'S NOTHING which makes a man so downright mad as to have twine run uneven. Stopping a binder once on this account is simply nuisance, but such twine means constant interruptions—a serious matter. Use only PLYMOUTH GOLD MEDAL BINDER TWINE and be rid of such trouble forever. Plymouth MADE IN CANADA is more even in size and stronger than other brands. It runs full length, ties more bundles and does not fall down. Buy the twine that's 'always good' and order early. IRIGATION & DEVELOPMENT

yielded \$170 to the acre, 25, and wheat \$106 per acre. Annual report issued by the Board of Trade in this same year is a comparative statement of the results of crops grown on irrigated land and on non-irrigated land. The following increases of crop under irrigation:—Wheat, 77 per cent.; oats, 54 per cent.; barley, 81 per cent.; peas, 51 per cent.; potatoes, 105 per cent.

Canadian Pacific irrigation in Southern Alberta is signalized as the largest project on the American continent with an area greater than the irrigated area of Colorado. The irrigable area totals over 500,000 acres while the total length of its canals is greater than Canada's river or the rail distance from Vancouver to Halifax. To this block a further area of 100,000 acres in the Lethbridge district is added when the C. P. R. takes over the block originally developed by the Alberta Railway and Irrigation Company, and this has shown remarkable progress in its development.

At the present time the irrigation and quick irrigation contained Col. Dennis' plan with justification the life and death issue with them are to remain on the land. It is not only a thing to do, but a thing to do for the Provincial Government. This also is very evident in the fact that they have energy taken up the new projects in the Northern Irrigation scheme comprises the irrigation of about 100,000 acres and will sweep three and four million acres.

Just recently farmers in Raymond, Magrath and St. Pierre were called upon to vote on a further irrigation scheme which would embrace a total of 190,000 acres and irrigate 1,000,000 acres.

When the ballot came there was not a solitary vote against the project. "A vast sum of money," said Col. Dennis in concluding, "was put at the disposal of the C.P.R. for the irrigation scheme by the C.P.R. has proved a sound proposition. The bumper crops raised on irrigated farms, the high price of the land is held, the revenue in the part of farmers to improve all, the general clamor throughout the country for schemes to irrigate the greater part of the country all prove that the initial shortsightedness which promoted the project are now appreciated and appreciated."

One of the SIX
Dominion Tires

DOMINION TIRES

are GOOD tires

Why shouldn't they be good? They have behind them the greatest Rubber System in the Dominion, if not in the Empire. They are planned to fill every need of the motorists of Canada. They are built by experts in a great modern factory.

DOMINION Inner Tubes
fit all Dominion Tires and ensure perfectly balanced tires. To add comfort to your car and mileage to your tires, always insist on having Dominion Inner Tubes.

And their dependable quality and workmanship are proven by the fact that Dominion Tires have the largest sale in Canada among experienced motorists. They have proved their economy, their easy riding, their long mileage on every road in Canada.

DOMINION Tire Accessories
include everything you need to close a hole, plug up a bruise, or heal a cut in your tire. These helps will make your tires last longer. Carry a supply in your car.

Dominion Tires, Inner Tubes and Accessories are distributed through Dominion Rubber System Branches and sold by the best dealers throughout Canada.

DRAINAGE IS IMPORTANT Some Benefits of a Well Devised Drainage Plan.

Guesswork Is the Poorest Method to Adopt—Get the Land Levels and Then Arrange for Tiling—How to Protect Drainage Outlets.

(Contributed by Ontario Department of Agriculture, Toronto.)

WHEN a man is about to erect a building, he is ever so small, the first thing he does is to make a plan. That plan may be on paper or it may exist only in the mind of the builder. It is a plan. Without a plan to follow, a builder cannot do good work. The same is true of the drainage. The man who places a "drain" or "line" of tile in a watercourse, which traverses his fields, should not do so without asking himself such questions as: "Am I putting this tile in the lowest part?" "Will I be able to get a satisfactory outlet? How many acres will this tile drain, and is it large enough to drain it satisfactorily? Have I sufficient grade to drain the holes in the rear fifty?" If he does not ask himself these questions, he is like a builder without a plan; he is working in the dark; his work cannot be efficient. All these questions the drainage plan answers, and more.

No matter how small the means for immediate construction of drains, or how few the drains which one is about to install, he should not do so until he has first laid out a plan of which these drains will be a part. On rolling land such a plan is not hard to decide upon, because the differences in elevation are very pronounced. It is the one who is familiar with such lands is able to intelligently plan a system of drains for them. But where the area is large and the topography irregular, it is very difficult to calculate the question. It is then that we must resort to the tape and the levelling instrument for reliable information. A drainage plan is a map which shows the differences in height or elevation between all parts of the farm over which the survey extended. This allows the owner of the land to plan his own system of drainage. The session of the levels for all parts of the farm lays bare the most advantageous routes for tile drains, from a study of the levels and contours of the land. This information together with the fall or grade procurable is the only true guide to help us decide upon the size of tile needed in any given drain. It is only when the plan has a picture of the whole project before him that he can draft an efficient yet economical plan of drains for any piece of land.

Future Benefits.—The benefits of a plan do not end with the completion of the drainage system. Only those of us who have tried to tile and have seen the results of the location of which was nowhere recorded, know the value of guidance such as is offered by a plan. When a tile-drained farm is being sold, the value of a plan of drains adds greatly to the value of the farm. The plan is of equal value to both the seller and buyer. With proper care well-constructed drains will give good service for several generations; therefore for the convenience of our children and grandchildren it is necessary to have a plan of our underground drainage work.

There is another way in which a drainage plan is very helpful to a farm owner: It is a splendid guide toward ascertaining the acreage of any field or part of the farm. Fences are located on the plan, and the whole plan drawn to scale, so that with the aid of a ruler it is possible to measure the area of any part of the land surveyed. This is of great assistance in planning a season's crops as well as in calculating yields per acre.

Tile drainage pays; but, before you start even a small system by all means secure a plan—G. Hempel, O. A. College, Guelph.

Protecting Drainage Outlets. The, particularly clay tile, should not run out to the mouth of the drain. If a piece of old gas pipe, eight or ten feet long, can be secured, this should be placed in the drain in place of the last few tiles. Putting this a piece of corrugated steel, or even a plank trough is much better than running the tile right to the end, where they will be broken, washed into the outlet, or otherwise destroyed, allowing the earth to roll in and stop the flow of water.

Under any condition the bank is liable to wear away. Animals pasturing in the field may tramp it down, and block the tile, so in the second place, an abutment should be built through which the outlet discharges its water and the bank will be kept in a state of preservation. This may be made of concrete, stone or plank, and should be a permanent structure. In some cases where the flow is heavy and the water would have a tendency to undermine the wall, it is well to build an apron on which the force of the flowing water is broken.

There is still another precaution which should be given due consideration. Frequently small animals, muskrats, coons, ground hogs and others, seek refuge in the tile. Here they are entrapped, and form a dam to the flowing water. To overcome such, the outlet should have bars across the end. These may be quite small, and close together so that nothing can get through. A screen may be fitted over the end, but unless the mesh is quite large the water is retained in it. Some times the first tile is threaded with wire. This forms a good protection.

When all these devices are given attention, the outlet should remain in a state of efficiency for years, and the system, if properly installed, should give satisfaction.—P. L. Ferguson, O. A. College, Guelph.

Where You'll Find Fire Boxes

The latest revised list of the number and location of fire alarm boxes is given below. Residents are advised to clip the list and keep it for reference in case of fire:

COMMISSIONER HIGGINS HERE TO CONFER ON SALVATION ARMY MATTERS. Com. W. J. Richards, head of the Salvation Army in Eastern Ontario and Col. John McMillan, Chief of the Salvation Army in Canada, are conferring with Commissioner Higgins, Chief of Staff Second in Command of the Salvation Army for the work who arrived in London, England, by Com. Higgins came to Canada to discuss matters pertaining to the Salvation Army in Canada, the United States, with Com. Eva Booth, head of the Salvation Army in the United States and the Canadian officials. He was many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff.

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream. PICKETS OF ERIN'S CAUSE TURN UPON SECRETARY COLBY

BEAR BANNERS BEFORE STATE DEPARTMENT—ARRESTED—FOUR OUT ON BAIL

WASHINGTON, April 8.—Bearing banners inscribed with quotations said to be taken from a recent speech by Secretary Colby, the Irish pickets today transferred their activities from the British embassy to the state department.

During the busiest hour of the afternoon the pickets presented to the gaze of homeward bound war workers banners bearing the quoted inscriptions: "There is not even a scintilla of legality in England's claim to rule Ireland."

"The death of your martyrs has called into existence millions of Irish by principle."

"I cannot stand by mute and powerless while these voice offerings are laid upon the altar of patriotism."

The banner bearers said the statements attributed to Secretary Colby were taken from his address at Carnegie Hall, New York, May 14, 1916.

At the end of an hour the pickets withdrew to their headquarters. A squad of police appeared on the scene as soon as the banners were erected but no effort was made to interfere with the picketing.

Resumption of the patrol in front of the British embassy has been definitely postponed until after the trial next Monday of the four pickets now under arrest. Arraigned before United States Commissioner Richardson the quartette was released on \$1,000 bail, pleading not guilty to a violation of section 4062, revised statutes, in having "feloniously" encroached bodily and by violence the person of his excellency, the councillor of the embassy and charge d'affaires of Great Britain, the on. Ronald C. Lindsay."

One of the four prisoners was pronounced "indisposed" after her release from detention.

"Just an attack of woman's nerves," her colleagues said.

None of the women offered any complaint against the food and lodging afforded them at the house of detention. Plenty of Irish potatoes, they said, were offered them besides Hungarian goulash and New England family dinners.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Judd salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Judd Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

PROTECTING HUMAN LIVES

The Ontario Safety League continues to place a large amount of literature in the hands of motorists, school children, industrial workers, and others throughout the Province. In the first three months of 1920 the League has distributed an enormous amount of safety material, including 35,000 industrial safety bulletins; 32,400 school safety bulletins; 8,500 special bulletins; 8,500 traffic bulletins; 2,700 electric railway bulletins; 150,000 motorist's safety book-marks; 10,200 health bulletins; 6,500 news letters; 9,000 safety calendars; 12,000 leaflets to the "new man"; 125,000 gummed seals; 9,000 safety cards and posters.

The League will hold an annual meeting in Toronto, beginning Tuesday, April 13th at the King Edward Hotel.

HOW TO POP CORN

It is done in different ways but the most approved method is to pop your corns with Putnam's Corn Extractor—corns pop out for fair, and stay out too, when removed by "Putnam's." Try this painless remedy yourself, 25c. at all dealers.

NO ATTEMPT TO KILL DAYLIGHT LAW THIS WEEK

ALANY, N. Y., April 8.—Indications tonight that no attempt would be made by advocates of the daylight saving law repeal bills to press either of the two measures for passage in the Assembly this week.

It was expected that such an effort would be made today, but Assemblyman Charles H. Betts, Republican of Wayne, introducer of one of the repeal bills, announced that because of the number of members absent this week he thought it best to wait until next week before making a third effort to pass a repeal measure.

BIG HAUL OF BAD MONEY

NEW YORK, April 8.—Twenty-five hundred counterfeit ten dollar bills were brought from Montreal by Omar Barslow and Paul Theoret to be passed in New York, secret service men said yesterday in announcing the arrest and alleged confessions of the men. Barslow, they said, was caught trying to pass one of the bills, which were counterfeit federal reserve bank notes, in a restaurant. Theoret was found later in a hotel.

COMMISSIONER HIGGINS HERE TO CONFER ON SALVATION ARMY MATTERS

Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McMillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff and Second in Command of the Salvation Army for the work who arrived in Boston from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with the Canadian officials. He was for many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff and

Second in Command. Many matters having any important bearing upon the future policy of the Salvation Army, and its reconstruction work are to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada.

FIVE DIE AT FRANKFORT IN FIRST ARMED CLASH OF CITIZENS WITH INVADERS

BERLIN, April 8.—The first armed clash between Germans and French in Frankfort, is reported in a dispatch from that city late today saying that five were killed and thirty five wounded by machine gun fire.

A French officer commanding a guard of Moroccan negro soldiers, the dispatch says, thought the attitude of some civilian onlookers was threatening and ordered his soldiers to open fire.

The record sum of \$6,000 was paid for a cow at the Canadian National Holstein sale.

CATARRH OF THE BLADDER relieved in 24 HOURS. **SANTAL MIDY** Each Capsule contains 1/2 grain of MIDY. Beware of counterfeits.

Canada's National Biscuit

THE soda biscuit is a Canadian institution—it is found on the big majority of Canadian dinner tables.

And of soda biscuits, McCormick's Jersey Cream Sodas are the leaders in Canada.

They have a reputation of sixty-one years standing. What a test of the value of a food product!

Every one of the hundreds of thousands of Canadians who eat them know that the high quality is consistently maintained.

McCormick's Jersey Cream Sodas

Sold fresh everywhere. In sealed packages. Factory at LONDON, Canada. Branches at Montreal, Ottawa, Hamilton, Kingston, Winnipeg, Calgary, Port Arthur, St. John, N.B.

Overland
THE Triplex Springs of new Overland 4 make possible the first light car with the steadiness of a heavy, long car.

Public appreciation of the new features of Overland 4 is shown in ever-increasing demand for this car. Upkeep cost is low because the Triplex Springs protect the mechanism from the usual road shocks. Light weight creates great economy of fuel and tires.

QUESTION WILL GROW OLD WAITING PREMIER'S RETURN
OTTAWA, April 8.—Sir George Foster in the House to-day intimated to J. A. Campbell, Nelson, that if a question he had asked awaited the return of the Prime Minister it would become a very old question. Mr. Campbell desired to know whether the Prime Minister, prior to the election of 1911, had made a pledge that if his party was successful in the election he would have transferred to the Provinces of Alberta, Saskatchewan and Manitoba their natural resources. Sir George Foster, Acting Premier, replied that he was not aware whether such a pledge had been made or not. Mr. Campbell then suggested that the question might stand until the return of the Prime Minister. "It will be very old then," commented Sir George.

The Telephone Situation

What We Get For the Money!

On January 1st this year our total investment in telephone property—buildings, equipment, tools and supplies, plus what it has cost in actual cash to put this working equipment into service—was \$51,458,806. On the same date we had in operation 337,476 telephone instruments.

This means an investment of \$152 for each telephone instrument in service.

What has been provided for this investment of \$152 per telephone?

Here are some of the things:

An exchange telephone system in thousands of cities, towns and villages in Ontario and Quebec with substantial fire-proof buildings the last word in sanitation and convenience; 36,750 miles of Long Distance wire on 9,500 miles of poles; 587,000 miles of wire in underground cables; many hundreds of miles of wire providing party service to rural communities besides exchange and pole line facilities to give exchange connection to 720 local telephone organizations serving over 163,000 subscribers, mostly farmers.

It takes some 11,600 telephone workers to operate the system and their wages in 1919 totaled \$9,406,000.

This goodly band of faithful workers, with those dependent on them, are a substantial element in the community. They are intimately concerned in its welfare—concerned most of all that the telephone service shall be adequate to its needs. They appreciate, just like the rest of humanity, the kindly co-operation of the public.

CITY OF ST. CATHARINES Fire Department Volunteers Wanted

To meet probable emergency and provide full fire protection, citizens are requested to volunteer assistance.
Register immediately your names and addresses with either of the following:
Ald. H. E. Rose, 112 St. Paul Street, Phone 937
J. Albert Pay, City Hall, Phone 11.
Volunteers are requested to report for duty at once at Central Fire Hall.
J. ALBERT PAY,
City Clerk.
City Hall, St. Catharines, April 8th, 1920.

CITY OF ST. CATHARINES Firemen Wanted

Applications will be received at the office of the City Clerk, City Hall, in writing, addressed to Ald. H. E. Rose, Chairman of the Fire and Light Committee, for the following positions of the City Fire Department:
A number of Firemen, two Motor Truck Drivers and two Teamsters.
Annual salary \$1,450.00 and up.
Depending on experience. Clothing supplied.
J. ALBERT PAY,
City Clerk.
City Hall, St. Catharines,
April 8th, 1920.

CITY AND DISTRICT

We buy everything you want to sell. McGuire & Co.

For Sale—Lemons at 20 cents, a dozen at 11 James St., Louis Ross, Apr. 8-9.

There was no police court to-day. The weather today took a change for the milder.

James Battle of Thorold was a visitor in the city this afternoon.

The work of putting in the floor of the Allan theatre is progressing well.

Ald. Rose, reports applications of men to take jobs as firemen.

There were no fire alarms this morning and the volunteers are resting up.

Ald. Rose contracted a bad cold while acting as volunteer fireman last night.

There is some anxiety as to the effect of the freezing weather on the fruit and fall wheat.

The military enquiry is in progress this afternoon at the Armory but may close tonight.

Tulip sprouts are beginning to show in different parts of the city despite the cold weather.

It is hoped that the two new public schools will be ready for the opening of the fall term.

The hotels report heavy business the last week or so, many travellers coming to town.

The keys for Fire Alarm Box 57 are at the residence of Walter Carlson and M. Gave.

To-night some method will be used to watch the fire alarm boxes to avoid a repetition of last night's lawlessness.

Mr. and Mrs. Joan Culp, Niagara Falls, N.Y., announce the marriage of their daughter, Olive Beatrice, to James C. Lister, Beamsville, in Buffalo, Monday, April 5th.

DRILLING THROUGH WALL PLUMBER TAPS WINE KEG

PITTSBURG—Every ray isn't a dull one for the plumber.

Thomas O'Brien, "pipe mechanic" was making a water connection in the cellar of a residence here. After he had bored a hole through a partition he shoved a pipe through when to his utter amazement a reddish liquid began to flow. It did not take him long to discover that he had tapped a wine barrel on the other side of the partition.

This was as much as I could stand, he told the magistrate after he had sobered up.

ITALIAN MISSION ON WAY TO BUY FROM RED RUSSIA

ATHENS, April 8—It is announced here that an Italian commercial mission has arrived in Athens on the way to Russia to negotiate with the Soviet Government for the purchase of raw materials for manufacturers. The mission, it is stated, is provided with several million rubles in cash.

The City Council Lengthily Discusses the Situation

(Continued from page 1)

The Mayor said it was a mere matter of wages. Labor unions and politics have nothing to do with it. He knew nothing of those things.

Ald. Graves pursued the enquiry by asking what the situation was regarding the union.

Ald. Avery speaking from authority said the Independent Labor Party has no connection with organized labor. He didn't think the firemen were picketing. They were there merely as citizens watching what was about to happen. The city has recognized the firefighters' Union and consequently the officers have to be considered.

The firemen were not affiliated with the St. Catharines Trades and Labor Council. If they were there was a possibility of a sympathetic strike being called. Ald. Avery said.

Ald. Dakers said no question of unionism had come up hitherto, but he had to say he had heard the firemen in the hall say that if a certain young man were put on they would all walk out. Are those men going to boss the show and control the situation? He wanted to know. He was going to insist that men satisfactory to the council be appointed, not the firemen.

Ald. Graves wanted to know from the Mayor or someone else that the firemen were not going to walk out and leave the city in the lurch at 6 o'clock if there was any possibility of a settlement. "I want to know this," said Ald. Graves.

Ald. Rose said they had sufficient men at noon to man the fire halls, but the Mayor had staved off the thing. Now he didn't know how many men were available. It was purely a question of wages. If the council cannot give the firemen 25 per cent increase then the only thing to do is to make arrangements to meet the situation. He objected to asking the firemen to stay on. The firemen absolutely demand 25 per cent increase. Is the council ready to grant it? He had men coming to the city to take charge of the department experienced men and he would have to go and meet them. It was a resignation, but to him it looked more like a strike.

Ald. Riffer said he was ready to vote on the report. "And if the crisis comes let us go and man the fire halls ourselves," he said. "I am ready to take my place there."
He added that if Ald. Avery had not spent sixty per cent of his time at the fire hall agitating, and if they had not given into the firemen in the first place they would not be having this trouble today.

Mayor Lovelace said he had acted really in his best judgment when he asked the committee not to go to the fire hall. He didn't think the labor unions were trying to run the city, and furthermore he had heard of drinking in the fire hall. He would make it his business to see that was stopped immediately.

Ald. Rose moved the council out of committee and the Mayor read the two reports the majority and minority reports.
The bonuses represented 25 per cent increase, the Mayor said.
Ald. Graves asked the Mayor what action he will take at the fire halls at 6 o'clock. Could the men be induced to stay until Friday noon?
The Mayor said he was uncertain. He had worked all day on it. It would do no good to go to the halls again. A special committee might be appointed.

"If you don't pass this minority report the men I expect will walk out at 6," said the Mayor.

WOOD'S PHOSPHODINE.
The Great English Preparation. Tones and invigorates the whole nervous system, makes new Blood in old veins. Used for Nervous Debility, Mental and Brain Worries, Dependancy, Loss of Energy, Palpitation of the Heart, Failing Memory. Price \$1 per box, six for \$5. Sold by all druggists, or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO. TORONTO, ONT.

Ald. Riffer asked for a showdown. He wanted to know who was boss of the situation.
Ald. Murphy wanted to know if there was a possibility of a settlement even if the thing is staved off till the morning.

Ald. Rose himself knew of firemen saying that day they would walk out if certain men were put on.
He didn't think the chief had control of the men.

Ald. Beattie said he had lost faith in the firemen. They had broken their word. He favored letting them go.

Only the majority report was voted on, the Mayor and Aldermen Avery and Murphy voting against.

Just before adjourning Ald. McLean moved the chief of the fire brigade take steps to protect the members of the fire brigade.
Ald. Rose said the matter had already been attended to.

Chief of Police Greene was present all through the meeting awaiting further instructions that might be given.

Ontario Teachers completed the organization of a Provincial Federation for the advancement of their claim to greater consideration than they at present receive.

THE SEA MUSSEL INDUSTRY

A novel industry which promises rapid expansion and great popularity is no less than the development of a substitute for the succulent but somewhat costly oyster. This is the sea mussel, found in vast quantities along the low tide mark of the Atlantic coast, chiefly in New Brunswick. The Dominion Government, with the co-operation of scientists, has conducted experiments to this end in Western University laboratories and it is now claimed that mussels can be produced commercially and sold profitably at 15 cents per quart, as compared with the \$1.00 per quart around which oyster prices hover.

The mussel is by no means a new article of diet to the people of Canada, and besides being used extensively in coast towns has found its way to the tables of inland cities in Central Canada. Its delicacy of flavor and high food value have been much advertised since the establishment of government investigation and experiment, and deserve to be much better known. There is yet much to be done in the line of research to ascertain conditions under which production would be most rapid and profitable, and to this end the Council of Industrial and Scientific Research is devoting its efforts.

A survey of the mussel beds of the St. Croix River, which constitutes the boundary between New Brunswick and Maine, has occupied the attention of a scientist of the council for three years now, and it is expected that this summer will see the satisfactory conclusion of the research. It is believed that the beds of mussels are practically unlimited, and the work occupying those engaged is merely the best conditions of development. It has also been determined that mussels become sweeter and more palatable the farther north they are found, and in this regard Canada has a distinct advantage over the mussel beds to the south of the Dominion. Those of the Hudson's Bay make particularly excellent eating.

The sea mussel cannot be produced in fresh waters so that there is no possibility of developing an industry in the Great Lakes. It is believed, however, that there are possibilities for the development of fresh-water clams there and the Dominion Government at the instigation of the Ontario Fishermen's Association is conducting a series of experiments which will probably result in interesting developments.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"
For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, etc. Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.
Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. When you are getting real Aspirin—the genuine Aspirin—look for the name "Bayer" marked with the Bayer cross for over nine years. Now made in Canada. Handy tin boxes containing 10 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.
There is only one Aspirin—Bayer—You must say "Bayer". Aspirin is the trademark registered in Canada of Bayer Manufacturers of Benzoyl salicylic acid, etc. While it is well known that Aspirin means Bayer Manufacturers, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

With the arrival of the German battleships Nassau and Ostfriesland at the Frith of Forth on Wednesday the complete surrender of the German warships has been made.
AUCTION SALE
WALNUT FURNITURE, TABLES, Sideboard, Dressers, Comodes, Carpets, Dishes, Groceries; Friday, April 9th at 1.30 p.m. at 12 Queen street.

\$50 -- Reward -- \$100

A reward of fifty dollars will be paid to any parties furnishing evidence which will lead to the conviction of any person or persons ringing or sending in any false fire alarms in the City of St. Catharines.

A reward of one hundred dollars will be paid to any party furnishing evidence which will lead to the conviction of the person or persons who caused the fire on Thursday night which destroyed the grand stand on the lacrosse grounds, or of any person or persons setting fire to property in the City of St. Catharines.

By order of the Fire and Light Committee.
J. ALBERT PAY,
City Clerk.
City Clerk's Office,
St. Catharines, April 9th, 1920.

Important ANNOUNCEMENT!

As a number of the fire alarm boxes for some cause unknown are to day out of commission, citizens will kindly phone in information as to the breaking out of any fires in the city.

To minimize the number of false alarms the keys of alarm boxes in outlying sections are being placed in private houses and information as to their location placed in prominent positions near the box.

By order of the Fire and Light Committee.
J. ALBERT PAY,
City Clerk.
City Clerk's Office,
St. Catharines, April 9th, 1920.

T. & L. Military No Change And Tra Publ

Inference Between M
Commerce, Fire an
Officers of Fireme
Bring Forth Anythi
—No Disorders Las

There is no change in the situation following the firemen's walk-out of the previous night. The Chamber of Commerce, the Fire and Light Committee, the Vice President Dalphond and several business men are bringing about anything in the way of a settlement of the trouble, the Trades and Labor Council met and decided to call a public meeting of the citizens in the King George Theatre tomorrow to protest against the action of the City Council with reference to the wages of the firemen. Last night saw no repetition of the previous night's lawlessness. There was only one alarm and that was at 7 o'clock last night by a man who saw some smoke and thought there was a fire on Geneva and St. Paul region. The firemen were out in a hurry and found nothing. All night long Chief Early and the volunteers were on hand ready to do anything that turned up but nothing did. It was one of the quietest nights the city has ever seen. In contrast over the previous night.

The members of the Fire and Light Committee say they have plenty of applications of men who want to take firemen's jobs but they are being the positions open to allow the old men to come back to work. One man who left has already returned and the Committee hopes to see others back before long.

Trades and Labor Council
At the meeting of the Trades and Labor Council last night, President Dalphond who occupied the chair, in his opening remarks said he thought the Minister of Labor might have some advice from Labor's side, as well as the civic officials whether it was necessary to hope an investigation or not. He also stated that a few weeks ago members of the City Council exhibited a great turn of mind in order to settle differences between the N. S. & T. and its employees. It now when a difference has arisen between the City Council and an important branch of its employees the City is hands off we will have no outside interference.

Information was given by a delegate that men recently employed in the vacancies in the fire halls were ready granted more in wages than the former men asked for.

Will Help Firemen
It was unanimously agreed that the Trades Unionists of the city, be let an assessment to financially support the firemen and their families during the struggle for a living wage. A report was presented by Vice President J. A. Dalphond, of the International Firemen's Union who had been attending a get-together meeting of the representatives of the Firemen's Assoc., Chamber of Commerce and City Fire and Light Committee nothing tangible was offered from the latter body. The one odious suggestion was made
