Premier Semlin States the Consequences of Re-jecting His Private Secretary.

By Our Own Reporter. Duncan, Dec. 13.—A meeting of supporters of the Semlin government was held here to-night for the purpose of choosing a candidate to oppose Mr. W. R. Robertson.

Mr. Robertson, the choice of the electors of Cowichan as the general election. At least that was the object according to the chairman, Mr. W. C. Duncan, but it was apparent before the meeting proceeded far that the candidate had already been decided upon by the small clique who are opposing Mr. Robertson.

Mr. Robertson, in the person of Mr. Sword, private secretary to the Premier, and who has been tried and rejected by the people of Dewdney.

A few evenings ago 22 electors got together and drew up a resolution asking Mr. Sword to accept the nomination. Yesterday, however, representatives of Dr. Lewis Hall, of Victoria, went through the district and threatened to upset the plans so carefully and quietly laid by the little committee.

Premier Semlin was therefore not for, and this evening he declared his preference for Mr. Sword, and succeeded in influencing about 40 electors at the meeting to accept his advice.

After Chairman Duncan had stated the object of the meeting to select a candidate, he called on that gentleman to speak. Mr. Sword expressed surprise at having been asked to run. He admitted that his name was a great disadvantage, and continuing said that he felt that Mr. Robertson should not have been opposed, until the opposition had been made known to the electors.

Mr. Robertson to attend the meeting. Commencing his canvass he had been told that he should not run for an island district, and also that he should not be named in the opposition.

Mr. Sword said he was one of those who thought that Mr. Robertson should be opposed, and that he was trying to carry out their promises, commencing with the re-organization of the civil service.

RUGBY BOYS THE HOSTS.

The Wearers of the Red and White Employ Their Football Feet in Merry Dancing.

The Victoria Rugby Football Club's dance last evening will certainly rank as one of the successes of this season.

Encouraged by the success of a smaller affair last fall, the club this year gave a dance in the A. O. U. W. hall, at which about 100 couples were present.

The hall was prettily decorated with hunting and sportsmen, while here and there loomed up the idol of the "Rugger" man's heart, the pigskin oval.

Success on the field and success in the dance! May the club so continue on its course through the season of play and festivity.

The ladies of Victoria were present wearing the familiar red and white, the fighting colors of "our boys," and with the faintest of Victoria's daughters sporting them on to victory, who can doubt the issue of the combat? While speaking of the ladies, it is certainly not out of place to mention the supper tables, provided to a large extent by the sisters, sweethearts and wives of the members.

STODDART V. PRENTICE

Mr. Justice Martin Dismisses the Application to Strike Off the Petition

First Round in the Legal Battle Goes Against Prentice—With Costs.

The first round in the East Lillooet election case went in favor of Mr. D. A. Stoddart yesterday, for Mr. Justice Martin dismissed with costs the preliminary objections by which counsel for Mr. Prentice sought to have the petition struck off the files.

The reasons for his decision Mr. Justice Martin gives in the following judgment, which he handed down yesterday morning:

JUDGMENT. Stoddart v. Prentice—East Lillooet Petition: Summons to strike election petition off the files of the court.

In this matter, which I dispose of at the request of the parties, and in answer to the objections to the petition, I find that with the exception of two of them, N. S. 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

HYPNOTISM A DANGER

Students of Mental Science Regard Its Practice as a Menace to Society.

Some Plain Talk as to Mr. McEwen—Eminent Authority Quoted.

Mr. P. H. McEwen's week in Victoria seems to have set everyone thinking, talking or writing on the subject of mental science, and more particularly those branches in which Mr. McEwen is so eminent an expert—mesmerism and hypnotism.

It has remained for the Theosophical Society, or as it is now known, the Lodge 87 of the Universal Brotherhood, to come out with an organization with a positive aim against the practice of hypnotism as inimical to the welfare of the subject and society.

That is, of course, the inducing of hypnotism for the purpose of entertainment. The members of the Brotherhood here include several gentlemen who have both personally investigated deeply the common so-called mysteries of the stage, and to one of these readers of the Colonist are indebted for the following concise presentation of the views of the organization which he represents. The subject just now very live subject. THURSDAY, DECEMBER 15, 1898. MUNICIPAL REFORM.

We hope the Committee of Fifty will not delay making a report to a citizens' meeting. Already the opinion is expressed freely that, without questioning the good intentions of the gentlemen at the head of the movement, they are likely to fail because the time before the municipal elections is becoming so short that anything like full discussion of reforms that may be suggested will be practically impossible. That point has not yet been reached. There is yet time enough to get a platform before the voters and have it fully thrashed out, but the margin for so doing is very narrow. Therefore we urge that another week ought not to be allowed to pass without something definite being presented for consideration. As was said in the Colonist a few days ago, what is wanted is not so much the details of any municipal plan, but its general features, the particulars of which can be determined upon later.

We hope the committee will make a reference, in any report they may submit, to the question of aldermanic qualification. At present an alderman must have real estate from the ward from which he is elected to the assessed value of \$500. If in the opinion of the assessors his property is only worth \$450, he is disqualified. If a person has \$1,000,000 worth of personal property in the city and employs a thousand people in connection with it, he is not qualified to become an alderman. A \$500 real estate qualification is an absurdity on the face of it. The idea is not, of course, that a man own a piece of real estate worth \$500 gives a man any more intelligence than he would otherwise possess. The notion is that it gives him a fixed interest in the community. It will occur to most people that a person who would be induced to remain in a city because he had \$500 of real estate there would hardly be the sort of individual that they would care to trust with the disposal of important interests. Let us take a few illustrations. Take for example the Colonist Printing & Publishing Co. Here is a business concern with a valuable plant and employing a large number of people. If a man should buy all the stock of the company and own the whole business himself, he would not be qualified to be an alderman; but one of his employees, who happened to have a little cottage somewhere in the city would be. Take a merchant, who owns no real estate and yet carries a line of goods worth upwards of \$100,000. He cannot be an alderman, but the manager who runs his store, if he happens to have a little piece of ground somewhere, can be. People who employ a lawyer do not go to the assessor's office to see if he has \$500 worth of real estate; they do not do so when they want to employ an engineer or a builder or an architect or a person to manage their business. Why should they be compelled to do so when they wish to employ a man to be an alderman? Is it not about time to get rid of the grandmotherly notion that people cannot be trusted to manage their own affairs, and that it is necessary for the legislature to tell them what they should do? People must select to take office? We have had the system of property qualification in vogue in Victoria ever since it was a city, and if it has any good features, the evidence of the fact is not conspicuously apparent.

THE NATIONALIZATION OF RAILWAYS.

Mr. Powell, M.P. for Westmoreland, N.B., has been lecturing on the nationalization of railways, which he thinks will become a matter of practical politics within a few years. Mr. Powell, it may be mentioned, is a Conservative in politics. The views which he expresses are purely personal. The subject is one of very great interest and also of very great difficulty. The extreme position on it was taken by a New Brunswick legislator some years ago, when he contended that railways ought to be run at the public expense and run at the public expense, and that every one should be allowed to travel or send freight by them without any charge. We do not suppose many people are willing to go to this extreme. The ideal conditions which the promoters of the new idea wish to reach is the public ownership of railways, which shall be so managed that transportation charges will be brought down to a minimum figure; in other words that the transportation charges shall be only large enough to pay expenses and not for the purpose of making a profit.

We have had in Canada an experience in government ownership of railways, in connection with the Intercolonial. It has not been wholly satisfactory, when viewed from the standpoint of receipts and expenditures. The road has not nearly paid its running expenses since it was built, to say nothing of the interest upon its cost. At the same time it has given local freight rates that have been of material assistance to the localities through which it runs. It has been managed with a view to develop local business, and in this way it has been quite successful, so that it cannot be fairly said that on the whole the government ownership of the Intercolonial has been a loss to the Dominion.

An objection frequently urged against the government ownership of railways is that it would place such an enormous patronage in the hands of the administration of the day, that it would become impossible to control. This objection could be met by putting the railways under the control of a commission, constituted after the fashion of the Supreme court,

the members being removable only by vote of parliament. In this way the railways could be taken out of politics, and there would be a much better arrangement than to disfranchise the employees, as has been suggested.

The matter has only an academic interest at present, for the difficulties in the way of carrying such a policy into effect are simply enormous. It may be well to add, however, that provincial ownership is all but impossible, and is, we think, highly undesirable. We have agreed with Mr. Powell in thinking that the question will very soon become an acute political one.

AN ABSURD CLAIM. A very absurd claim is made by some of the friends of the present government. It is said that Mr. Richard Hall, M.P.P., is disqualified by reason of the following circumstances. For some years past the Hon. Mr. McInnes has bought his coal from Mr. Hall, and after he went to Government House to live has arranged with Mr. Hall to continue to supply him. There was no contract of any kind except that when Lieut-Governor McInnes mentioned the matter to Mr. Hall, the latter said that he would send up coal to Government House whenever it was needed on being telephoned to. The coal was paid for by a treasury check after the bill had been certified to by the private secretary. In other words the Lieut-Governor bought what coal he required from Mr. Hall and paid him by what amounted to an order on the treasury. The Lieut-Governor regarded this so purely a personal matter of his own that when recently the government decided to ask for tenders for the supply of coal to all the public buildings, including Government House, he asked that the latter might be excluded, because he had always dealt with Mr. Hall and would like to continue to do so. The government declined to accede to this very reasonable request. Since the election the Lieut-Governor bought thirteen tons of coal from Mr. Hall, which has been paid for in the ordinary way.

It is trumpery nonsense to say that the transaction of this kind renders a member's seat vacant. If it does, Mr. Turner's seat can be made vacant by one of the clerks in the public departments going to his place of business and buying a rug to put under his desk, provided the rug is not for by the province. Mr. Cotto's seat is vacant because the government subscribes for the News-Advertiser. If a member of the legislature should own a stationery store and a government clerk should buy a box of pens or a bunch of pencils from one of his clerks for the use of the government, the member would be disqualified. Will any one pretend that any such nonsense as this is the law of British Columbia?

A PRESIDENTIAL EMBARRASSMENT.

President McKinley wants to visit Cuba and the only question as to the right of a president to go outside of the United States is raised. There is no law upon the subject. Our recollection of the matter is that the point was first taken at the time of the opening of what used to be called the European & North American railway, or rather that section of it between St. John, N.B., and Bangor, Maine. President Grant was invited to attend the opening ceremonies, which contemplated that he should meet Lord Dufferin, the Governor-General, at the international boundary, and that the two should go to St. John to be banqueted there, returning to Bangor, where similar festivities would be held. This plan was upset by the question being raised as to who would administer the government of the United States during the President's absence in Canada, and it was found that the constitution does not provide for such a contingency. In order to avoid any difficulty, President Grant decided not to enter Canada, so has car was backed up so as to meet that containing Lord Dufferin just where the boundary line cuts the bridge over the St. Croix river, where the representatives of the two countries shook hands across the line, whereupon Lord Dufferin's car was attached to the presidential train and the two went on to Bangor together. The President is not forbidden to leave the United States by any law. The difficulty arises as to what should be done in case he did leave. It is very clear that now the United States has entered upon a policy of expansion, it will be necessary to contemplate the departure of the President from the continental possessions of the nation. If he could get to Alaska, Cuba or the Philippines or Hawaii this is not a matter of the jurisdiction of the United States, the constitution might be strained to cover the case, but this is of course impossible. The change which our neighbors will have to make in this particular is the least of those which their entry upon their new policy will call for. The path of imperialism is as different from that of isolation as day is from night, and our neighbors will not be long in finding it out.

Will positively cure sick headache and prevent its return—Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill, small dose, small price.

A PECULIAR ORGAN.

The Colonist has serious thoughts of getting out an injunction, a royal commission or some sort of Roentgen ray apparatus for the purpose of finding out what publication it is to which the News-Advertiser persistently refers as the Colonist. It is certainly not this paper, for a tolerable familiarity with the editorial utterances of this paper fails to disclose any such statements as are attributed to it in the Vancouver morning organ. Reference has already been made to some of them. One was the statement that the Colonist had spoken of the News-Advertiser and its associate organs as "the hiring press." Another was that the Colonist had declared the dismissal of a road boss to be a violation of the constitution. And there were others. Anent the Alberni election, the organ has evolved a few more things which it alleges the Colonist said. One of them is that the country was to be undone unless the government adopted a policy of extravagance and waste. Another is that the government has put a stop to carrying out public works. Another is that the government is guilty of meanness, and this is said to be constantly asserted in the Colonist. Colonist readers will have some difficulty in recalling any such statements in this paper, and will agree with us in saying that the Colonist is either other paper in British Columbia is editing the Colonist, which says things of this kind, we ought to be told where it is printed.

There is another explanation of these curious things. It is known to all Victorians that the lights burn long at night in the office of the Finance Minister. Now the Finance Minister is editor of the News-Advertiser, and it is not difficult to suppose that occasionally, as he sits in his cosy arm-chair, he falls asleep, in which condition his "coward" that his political opponents are saying of the government the things which he knows it merits. Then he wakes, and his eyes and dashes off an editorial for his paper based upon his troubled dreams.

The News-Advertiser says that the Colonist was transacted by the late government to the extent of \$2,700 a year. This is not true, and the News-Advertiser knew it was not true when it printed the statement. The Colonist did not receive a payment of \$2,700 a year, and it has not the least objection to the whole world knowing what it was for. Some time ago the Colonist made a contract with the government to do all its ordinary advertising in Victoria for the sum of \$225 per month. This was done for the convenience of both parties to the contract. It was the Colonist's trouble of keeping the account, and the government the account of checking up the amount. If each separate advertisement had been charged for at the rate paid by the Dominion government, the \$225 would have been otherwise. There is nothing unusual in a newspaper making a contract with a customer to do his advertising at a certain rate per month, and if the present government desire to make another arrangement for advertising by the month, instead of by the line, the Colonist will put it in a bid. The government also did the bidding for the Colonist at a price fixed by contract, and it was 50 per cent. less than the government has been in the habit of paying. The Colonist received considerable money in one way and another from the late government, but one else to point out a dollar of it, for which it did not give valuable consideration from a commercial point of view, or a single dollar paid it for political services.

THE COLONIST'S FORTY-FIRST BIRTHDAY.

To-day the Colonist enters upon the forty-first year of its existence, the first number having seen the light on the 11th day of December, 1858. It was issued from a small frame building on Wharf street, which stood on the spot now occupied by Mr. Theo. Lubbe's warehouse. In size the Colonist was little more than a sheet of ordinary foolscap, and of all the crazy looking specimens of newspaper graphy it was probably the most remarkable. The type was cast from French matrices that antedated the Reign of Terror, and contained all the accentuated letters and curious genuflections for which that language is distinguished. The press was as antiquated as the type, and its speed was 150 copies an hour. As the circulation of the paper in 1858 and for some years afterwards did not exceed 300, it took just about two hours to strike off an edition. The paper was issued three times a week at first, the issue being afterwards increased to five times each week, Sunday and Monday being off-days. The founder and originator of the Colonist was the late Hon. Amor DeCosmos, who was laid away in the cemetery at Ross Bay less than two years ago. Mr. DeCosmos was a forcible writer and very extreme in his views. He originated his paper for the purpose of protesting against the discussion of the crown colony system of government and the undue prominence of the Hudson's Bay company's officials in politics. Victoria contained, according to a police census taken in 1850, a population of 2,021, and as the Colonist's course was popular, it soon had the newspaper field practically to itself. The editor, as we have said, was an extreme man, and he soon locked horns with the colonial government, whose acts were seriously criticized by a correspondent from Yale, who signed himself "Puss-in-the-Corner." The paper was attacked by the courts and adjudged to be an illegal publication, because the publisher had never complied

with a musty English act which required him to give bonds for good behavior. The editor was enjoined from again printing his paper until satisfactory bonds had been furnished. This was done at a citizens' meeting, and the Colonist was never afterwards molested, although it cut and slashed the government unmercifully.

In 1860 ex-Speaker Higgins, who was the author of the "Puss-in-the-Corner" letter, joined the Colonist as reporter. Mr. DeCosmos made several efforts to enter the colonial legislature, but was foiled on every occasion by the "count-out" process. At last in 1861 the editor of the Colonist entered parliament, and from that time on for several years the history of the colony was formed and moulded by the Colonist. Mr. DeCosmos took a warm interest in the union of the colonies of British Columbia and Vancouver Island, and subsequently in the confederation of the united colonies with Canada. In all these movements the Colonist, although not under Mr. DeCosmos' control after 1860, took an active part, and was a earnest advocate of every change in the form of government until its efforts culminated in the incorporation of the Pacific province with Canada—its most important and greatest work. To show that the power and influence of this journal was as great then as now, this fact may be mentioned: The original terms of union asked for confederation without responsible government. Against this provision the Colonist, then edited by the late Mr. John Robson and owned by Mr. Higgins, protested vigorously. The delegates bearing the terms were despatched to Ottawa, but with them went Mr. E. E. Seelye as special delegate of the Colonist, provided with funds by the proprietor of the paper and charged with the duty of informing the government at Ottawa that no terms would be acceptable to British Columbia that did not confer responsible government on the people. When the delegates returned the amended terms contained a responsible government clause. After confederation the Colonist did yeoman's service in insisting upon the fulfilment of the obligation which the Dominion government had assumed to build the Canadian Pacific railway—and after many disappointments the work was begun and carried to a successful finish.

After Mr. DeCosmos came more or less identified with its progress. The late Hon. Roche Robertson, who when he died 20 years later was a member of the Supreme court bench, edited the Colonist for a few months. He used to say, after he had risen to position, that the first money he earned in the province was in payment of an editorial he contributed to its columns. The late Hon. John Robson was editor from 1869 to 1875, when he accepted office. Afterwards he was premier and died in London. Leonard McCune, who made the longest speech on record and died in 1867; Walford Barrow, who edited in South Africa in 1871; D. W. MEETING AT ALBERNI

Mr. Ward Again Before the Electors With Highly Encouraging Results.

Mr. Eberts and Mr. McPhillips Show Why the Urrypers Should Be Displaced.

Special to the Colonist. Alberni, Dec. 13.—An opposition meeting was held in Huff's hall to-night. It was a most enthusiastic gathering, the hall being crowded.

The meeting was promptly called to order at 8 p.m. by Dr. A. M. Watson in the chair. In his opening remarks Dr. Watson referred briefly to the political contest now in progress and which, he said, was interesting the whole of the province.

Mr. D. M. Eberts followed. He said that at first he had been very favorably impressed with Mr. Eberts' development had changed his opinion, as he saw reason to look upon Alberni as a great mining town.

THE FINLAYSON CASE.

Hearing of the Charge of Stealing Against the Savings Bank Teller.

Evidence That the Accused Admitted He Had Taken the Missing Monies.

Kenneth A. Finlayson, who was arrested Tuesday morning on the charge of stealing money from the Dominion Savings Bank, of which he was teller, came up for his preliminary hearing yesterday morning.

The evidence of the two of the principal witnesses, Mr. McLaughlin, manager of the bank, and Mr. Fraser, the Dominion government inspector, was taken and the hearing was then remanded till this morning.

The first of the twelve charges taken up was that of stealing from the Dominion government on October 12 the sum of \$40, which had been taken from the bank by Margaret Stout.

Mr. J. H. Langley, who conducted the case for the Dominion government, replied that Superintendent Fraser had received a salary of \$43.83 a month, and had not been paid for some time.

CHILDREN'S CARNIVAL.

Charitable Ladies of Victoria Meet With Success in Their Latest Effort.

Handsome Arranged and Well Stocked Stalls the Chief Attraction.

A. O. U. W. hall has been converted into a veritable fairland by the ladies who undertook to give a children's carnival in aid of the fund for the erection of a children's ward at the Jubilee hospital.

The doors were yesterday thrown open to the public, and an idea of the success that had attended the efforts of the ladies having gained circulation, the hall was soon crowded.

It is no exaggeration to say that never before has a Victoria hall presented so pretty a scene.

As to the stalls, they were all tastefully arranged, and in them was every conceivable kind of fancy work, hand-made and picture-sewn.
