Premier Whitney and Lam Beck Together Pressed Power Button

And 7,000 People at Berlin Cheered as Niagara Current Lit Up Great Rink, Inaugurating the Government Service.

ADAM BECK THE HERO OF HISTORIC OCCASION

BERLIN, Oct. 11.-(Special.)-You id have heard that cheer. It was the greatest cheer that Ontario has heard for nearly a hundred years. There was no introduction. No hip-hip-hurrahing. It was entirely spontaneous, and reared up out of the hearts of the thousands gathered with the diapason thunder of far-off Niagara itself. There were echoes of the foaming rapids in it, and memories of the wild dash of the cataract, and it surged up strong and true with the henest bass of established conviction. As it died away you could imagine it firsilling out along those far-borne cables, a hundred miles or more to Niagara, and creeping along among prosperous farms, past smiling villages, thru sturdy cities, over rights of way that thread Ontario from end to greatest cheer that Ontario has way that thread Ontario from end to end. It was a giorious, rejoicing and riumphant shout, and it celebrated the consummation of the hydro-elec-ic power distribution under the Whitney-Beck transmission scheme.

That utterly spontaneous cheer purst forth from the six or seven thou-That litterly spontaneous cheer burst forth from the six or seven thousands assembled in the big rink in Berlin after Sir James Whitney had gripped hold of Hon. Adam Beck's hand and pressed his colleague's finger down on the button which changed the darkness of the rink into a flood of blazing light from hundreds of crystal lamps. It was a kindly act, courte-ously conceived and graciously executed. Hon. Adam has been a faithful index finger for Sir James, and the premier gave it symbolic recognition.

A Picturesque Ceremony.

The ceremony was as simple as it was picturesque. Miss Rumbell, a charming young lady, arrayed in pretty costume, with colors of the empire in a sash across her body, the word Ontario in living light upon her breast and a tiara of shining maple leaves on her head, was revealed when the lights responded to the touch of the premier and his good man. She had presented Sir James the electrical contrivance which switched on the power resting on a cushion which she carried. Then came those moments of suprementing at 5.03 by the clock when

Then came those moments of supreme enthusiasm, at 5.03 by the clock, when the band played "O Canada."

There were special trains and almost everybody who ever had anything to

do with electricity in Ontario was pre-sent. All the cabinet ministers except Hon. J. S. Hendrie, who had an engagement with the hounds, Hon, Mr. oy, who was in Atlantic City, and sonquin Park, were present. J. L. Englehart was there and F. H. McGuigan.

Prof. Galbraith came in with B. Prof. Galbraith came in with E. B. Merrill, the electric engineer. Home Smith and W. J. Gage represented youth and maturity in the Toronto Board of Trade. Mayor Geary and the board of control were all there and some aldermen to boot. Hon. Macken- Says It Admits the Idea Neither of zie King shook hands over the table with Sir James, while the big cheer was lingering. Mr. Speaker Crawford lent an impressive air to the occasion. There were lots of public ownership men from Toronto. But London and Stratford and Galt and Guelph poured in their hundreds also. Ex-Ald. The gang cheers were followed by the musical got caught, however, when they got honors; then the band payed "See the nquering Hero Comes" in extenso; then three lusty cheers again; after this more singing, and then still more cheers. REPUBLIC ANXIOUS FOR BRITISH RECOGNITION

Official Estimate of Number Killed in the Revolution is Between 100 and 150.

LISBON, Oct. 11—Altho the city remains under martial law, the soldiers have been gradually withdrawn from

have been gradually withdrawn from the streets. Hardly any were to be seen to-day. The people have resumed their business occupations, and perfect tranquility prevails. Several churches re-opened this morning. Guards have been supplied to those establishments of the religious orders which are still occupied and flying foreign flags, to prevent possible attacks. The papal nuncio, Monsignor Tonti, has holsted the Austrian flag over his residence at Cintra, but there was no sign to-day of hostile demon-

The government has announced that the Irish Dominican Fathers and nuis, who have conducted a school here for many years, will be exempted from the order of expulsion. This step, doubtless, is due to the desire of the republicans to keep on good terms with Great Britain. It is said that Foreign Minister Machade has requested Great Britain to grant immediate recognition to the new regime, ostensibly so that it will be in a position to communi-cate its full program to the British

The casualty list from the recent fighting falls below the most moderate of previous estimates. The official estimate gives the number killed as be-tween 100 and 150. Unofficial estimates

tween 100 and 150. Unofficial estimates place the number still lower.

One of the plans attributed to the organizers of the revolution was to bring off the coup d'état on Oct. 5, when King Manuel was visiting the premier in the northernmost province of the kingdom. It was arranged that the train bearing the king should continue thru to the frontier, and the 501-diers there were to prevent the king from re-entering Portugal. In the meantime, the ministry, who would have assembled in a body at the station in Lisbon to see the king off, were to be surrounded and arrested after the departure of the train. The republic was then to be proclaimed.

public was then to be proclaimed.

The provisional government has taken possession of the houses of several religious bodies. No opposition was met. The contents were inventoried and the houses sealed.

It has been decided to issue a decree enforcing compulsory military services. enforcing compulsory military service.

The crude green and red flag will then be discarded, and the old Portu-

guese flag, but without the crown, adopted as the emblem of the republic. Will Reside in England.
MADRID, Oct. 11.—The Spanish Government has received confirmation of the report that King Manuel will shortly proceed to England, where he will take up his permanent residence.

Peel and Dufferin County Councillors Make Inspection Trip.

A party of about thirty members of the county councils of Dufferin and Peel are registered at the Queen's, where they arrived last evening after a comprehensive tour of the new gov-ernment-assisted roads in the latter county. The party is traveling in seven autos, and includes J. A. Best, M.P. for Dufferin, C. R. McKeewn, M.L.A for the same constituency; J. J. Reith, warden of Dufferin County; Peter Speirs, warden of Peel County, and C. R. Wheelock, engineer for the two counties, under whose supervision the new roads in Peel are being built. The other members of the party are county councillors, chiefly resident in Orangeville, Shelburne and Brampton.

W. A. Maclean, provincial engineer, has accompanied them on their trip, which is one of inspection of the new roads, the Dufferin Council having in mind a similar improvement in their

... Bowling High Scores Osgoode Officers Hunt Governor-General Coming ...

Note and Comment

Not only the horses, but the riders must be in the best condition to participate in the competition for the Lord Grey Challenge Cup, over the Hunt Club three miles steeplechase course this month. The trophy is at present held by the Toronto Hunt team; and this year's contest will be made memorable by the presence of the governor-general, a genuine lover of the 'chase.

The tenpin rollers are showing surprising form for so early in the season. 'There's no better form of exercise for the long winter months.

mo better form of exercise for the long winter months.

The reorganization of the Osgoode Hall Rusby Club is sure to recall the days of the old law school champions of 1891 and 32, when Jimme Smeilie, Eddie and Harry Senkier, John Blake, the late Archie Kerr and other stars made football records. They had the long passing down to a science, and were the fastest scoring aggregation that ever hosted the pisskin. The new Osgoode Hall teamand they should make out a case-will enter one of the unions next autumn.

St. Louis sporting writers must have little respect for the discernment of the baseball public when they try to excuse the masses. The Petroit writer gets nearer the mark when he says that one of the richest things that have come out in connection with the affair is a statement from Manager O'Connor of the Browns to the effect that his men honestly were trying, and that Lajote simply outguessed them. This explanation, instead of clear-ting O'Connor and his players, makes it all the worse for them. Any manager who would permit his team to be outguessed seven times in a single afternoon on the same play ought to be in the school for defectives, instead of trying to handle a ball club, and any players who would be with the same play ought to be in the school for a factory league, much less the man of the other contestants.

Montreal, Oct. 11.—At the annual meeting of the Montreal Basebail Club, Ltd., to-day, the old officers were relected: S. E. Lichtenheim, president; T. H. Cushing, treasurer; E. R. Carrington, secretary. No financial statement was made public, but it is understood that the club had a deficit on the season, tho the amount was nothing like what was anticipated in the early part of the year, when the long spell of unfavorable wear ther proved disastrous. Ed. Barrow will probably again be manager of the team, unless he lands the presidency of the Eastern League. According to the outlook at present, Barrow will succeed Mr. Powers at the head of the Eastern League, having the support of five clubs; while, the other three favor the present incumbent of the office.

lave been in correspondence with each other for the past few days. Originally it was planued to have the Intercollegiate track and field meet, which takes place at Queens this year, op Oct. 29. Queens and McGill, however, have a football match in kingston on the same day. Some time ago the Queens football executive wrote McGill asking them to change the date of the match to Oct. 31 (Thanksglving Day). McGill was unwilling to do this, as they had practically arranged an exhibition game with Montreal for the latter date. McGill, however, was willing to accept Friday, the 28th, as the date for the track meet in Kingston. They have leased the M.A.A.A. grounds for Oct. 21 for the inter-class track and field meet.

Toronto has now written asking them to have the date of the Intercollegiate track meet changed, asking to have it held Oct. 21. McGill cannot accept this date. No definite date, therefore, has been decided on for either the track meet or the football match, but the indications are that the matter will soon be settled, and that the matter will soon be settled, and that the matter will soon be settled, and that the matter will soon be settled.

A Quick Return.

"Bob" McFadden is in the toils again on the same old charge of theft. This time it is a coat and a bag of potatoes. William Chapman, who works at the foot of Lorne-street, reported a coat missing to the police, and Detective Taylor was just starting out to look it up when P. C. Daniels marched in with "Bob," who had stolen the yegetables from C.P.P. tables from a C.P.R. car on the Esplanade. Taylor marveled at the respectable-looking coat the prisoner was wearing and called Mr. Chapman, who identified it as his own.

THE GREY LAFAYETTE

Results of Races at Dufferin, Mariboro, Louisville and Closing Day at Fort Erie.

Another crowd, almost of Woodbine proportions, visited Dufferin Park yesterday. They kept the ten books busy, any kind of odds looking good enough. Tee May hugged the rail and won the fourth in a stretch drive. Lafayette, a srey gelding, booked as high as 6 to 1, was off running in the fifth and just stayed to beat Restoration. Jockey O'Connor, who rode a winner, has been ordered to Louisville by his employer. Summary:

annual field day of the Ontario Agricultural College. Both are second year men. The second year practically swept the boards to-day, winning almost everything that was going in the way of prizes. Only two records were lowered, D. Lawson lowering the record for the 220 yard dash by a fifth of a second, and J. Millar lowering the record for the mile run by about 2 seconds. In most of the other events, with the exception of the sprints, which were equal to last year's, the races were slower, and the games, such as throwing the hammer and discus, and putting the shot, were away below the records that were established last year and the year before. Tho the crowd of spectators this year was just as large and the enthusiasm of the members of the various classes just as marked, the standard of the athletes was noticeably lower. The list of races and winners of first, second and third prizes in each event is as follows:

RAILROAD CAPITALIZATION.

More interesting information regarding railway capitalization methods has been disclosed during the enquiry now being held by the United States Inter-Commerce Commission at Chicago. The World referred some little time ago to the admission by the controller of the Illinois Central Railroad that the difference between the value of stock allotted to stockholders at par and the market price went to the stockholders. Another phase of improper capitalization disclosed during the enquiry is that of the disposition of earnings. The witness on the stand this time was Mr. W. L. Park, vice-president and general manager of the same company. He had explained to the commission that in his opinion a proper rate for freight transportation should return a reasonable dividend on the capital stock, pay fixed charges and operating and maintenance expenses and vield in addition a yearly surplus of \$6,000,000 or \$7,000,000 "to make the investment attractive to persons with money and to increase the company's

They were in the operation, and had been told it defendant. An action under the Workman's Compensation for Injuries Act by the widow and administrative of the operation. Since the action the operation of the operation In addressing the jury counsel for the plaintiff, under what I think was a misapprehension of law and of the rights of his client, told the jury that they should find what was equal to the wages for three years, which would amount to between \$2200 and \$2400, and from that they should deduct \$1000 for insurance which the plaintiff had received. The jury did this, the I endeavored to correct the mistake in my charge to them, and brought in a ver-dict of \$1200. There is no doubt upon the evidence that the damages would at least amount to \$2200, from which the jury deducted \$1000. The question the jury deducted \$1000. The question is whether the verdict should be entered for the \$1200 or \$2200. Having regard to section 7 of the Workman's Compensation for Injuries Act, I am of opinion that the jury having found the damages to be \$2200, ought not to have deducted \$1000 for insurance, and there being no dispute as to their having found the amount of damages, I am entitled, upon their answer, to direct judgment to be entered for the value so found, namely, \$2200, which I accordingly do, with costs of action. On consent and affidavit of the mother I apportion \$2000 to the wife and \$200 to the mother.

Itching Scalp Falling Hair

To prevent dry, thin and falling hair, remove dandruff, allay itching and irritation of the scalp, and promote the growth and beauty of the hair, frequent shampoos with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, succeed when other methods fail. Cuticura Soap and Ointment have been equally effective in the treatment of forturing, disfiguring scalp humon; and the alarming loss of hair which so often results. For example read how George E. Jefferson, 1518 Reed St., Philadelphia, tells of his remarkable case:

"My disease started with a little pimple on my head. Then 't began to fich. The more I would scratch, the worse it grew until 'it spread all over my head. So I went to the doctor. But my head grew as raw as a piece of beef and my hair commenced to fall out in bunches. So I changed doctors. My head at this time was so. sore I could not touch it. Then I decided to go to the hospital. They began to treat it but it improved very slowly. For over three years I was a sufferer from this disease. I thought all hopes of a permanent cure were impossible. A friend, upon seeing the condition of my head—which was a mass of running corruption—asked me if I had tried the Outcura Remedies. I told him nothing would do me any good: but being marra anxious to be cured, I decided to try them. The first treatment brought immediate relief. My half became alive and stopped falling out, all the scale left and now I am perfectly well and have a full head of hair. I can truthfully say that it was entirely due to the use of the Cuticura Remedies."

Tardiness in Extending Intake and Building Filtration Plant Warmly Censured.

Dissatisfaction with Engineer Rust because of the delay in starting work on the 500-foot extension of the intake pipe, was freely expressed by the board of control yesterday. The ill-humor was not lessened by the discovery that the city engineer is attending a municipal convention at Erie, Pa., and will not be back until Friday. As to Engineer Fellowes' gloomy survey of the situation, his worship said he was a pessimist and inclined to be easy going. TORONTO. CRIPPEN BEFORE GRAND JURY

LONDON, Oct. 11.-The October sesof the Central Criminal Court opened here this morning. In charging the grand jury, Recorder Mir J. Fulton said there were 95 persons to be tried at the sessions, and amongst the cases to be disposed of was the charge of murder against Dr. H. H. Crippen, who was described at a dentist, and Miss Ethel Clare Leneve, who was inlicted for being an accessory after the

Recorder Urges True Bill Against

"So far as Crippen is concerned," he continued, "by the evidence I have briefly indicated to you there is an abundance of evidence to justify you finding a true bill against him for

e murder of his wife.
"The case of Miss Leneve is on a entirely different footing. What she is charged with is being an accessory after the fact. It is necessary for the prosecution to satisfy the jury that she relieved, comforted, and assisted Crippen, and that she knew he had committed this murder. Certainly there does not seem to be anything in the July in -which she seems to indicate that she had not any knowledge at all that Crippen has committed murder. It will depend very much upon her de-meanor, but it appears to have been a

rational statement. "You may take it with very great consciousness that every consideration will be given her case. She will have every opportunity, if she desires, to avail herself of giving any further information she may wish in the course of the trial."

Crippen will be represented at his trial by three lawyers, the best known of whom are Alfred Aspinwall Tobin, Unionist member of parliament for Preston, and Huntly Eugene Jenkins. Of the two who will look after the interests of Miss Leneve, Frederick Edwin Smith, is a leading Conservative member of parliament for Walton division of Liverpool.

Dr. H. G. Lackner proposed the toast of the proyince in grandiloquent terms, and Sir James hoisted a revolutionary flag for the benefit of the province.

D. T. Detweiler proposed the toast of the hydro-electric commission, and Mr. Beck rose to be overwhelmed with cheers. "I am saying—saying with more confidence than ever before, because we have done it, that we can deliver power at less cost than we promised," he declared. "I must not forget to mention Mr. Sothman," he added. "He had great ability, but more than this was his honesty. Mr. Sothman had erected a monument to power, of which he doubted if ever a

liege and a pleasant duty to welcome him, he said, on the occasion of the opening of the high tension power lines thru the great manufacturing territory of western Ontario. It was only proper that such a momentous event should be celebrated in the County of Waterloo, where the idea was first conceived of utilizing Niagara power. It was with much gratification that he observed D. B. Detweiler preden, was the birthplace of the dis-tinguished chairman of the commission, Hon. Adam Beck. (Cheers). Canada of ours." (Applause).

Mr. Beck related the events since June, 1902. He drew a parallel between the adoption of the national policy, when politicians forsook party, and the support of the power policy by in-dependents and Liberals, as well as Conservatives. The Ross Government had granted power for the creation of a commission, upon which he had the honor to serve, with W. B. Snider, C. W. Cockshutt, Prof. Fessenden and others. The power scheme was not the work of any one man or any one body of men. It was the work of public sentiment, thru which it became an enterprise. (Applause). He paid tribute to his two colleagues. Mr. McNaught and Col. Hendrie. No two men had and Col. Hendrie. No two men had tried to do their duty so unstintingly and so nobly. (Applause). Mr. Beck went on to speak of the co-operation of the small municipalities. They all knew Toronto was capable of it, financially strong, and in sympathy, but they wanted the whole country to come in, and so the union was achieved. Big Stick Not Wielded.

Mr. Beck eulogized Sir James as a progressive man, who saw the advantage of the union policy and adopted it as a public undertaking. Sir James had undertaken the distribution of power on a scale never before attempted, and with powers of the widest character, power to expropriate power or plant, or lands, but tho they held this big stick, they never had occasion to bring it into use. (Applause). Mr. Beck said of all the staff, that notwithstanding the terrible temptations put in their way, which need not

An address was also presented to Hon. Adam Beck, who followed in a summary of the power movement.

Large sums of money have been expended in creating and fomenting prejudice and illifeeling against us, and still larger sums have been expended in conducting a campaign against us in the pressoutside, I am happy to say, of Ontario. Our opponents left nothing undone which could be done, and men and influences, from the humblest man in the land, all the way up to the prime minister of Great Britain, were approached in the endeavor to destroy our power legislation and render it And we did not underrate our power legislation and render it impossible for this wonderful new force to be used and enjoyed by the people except on the terms laid down by individuals.

"He had great ability, but more than this was his honesty. Mr. Sothman had erected a monument to himself."

Mayor Geary Declares Himself.
Ald. Fryer, Galt, proposed the toast of the municipalities, to which Mayor Geary responded. He endorsed public ownership heartily. "Gentlemen, if you meet the factious opposition we meet in Toronto, you must meet it as we have met it. If they want no quarter, we will give them no quarter, we have met it. If they want applauded.

George Pattinson proposed "The Press," to which John R. Robinson, Toronto Telegram, replied in a pitity and humorous address.

The Afternoon Proceedings, Mayor Hahn read the civic address to Sir James Whitney. It was a privilege and a pleasant duty to welcome him, he said, on the occasion of the limit of the province, and it was the duty of the commission to the first time such a thing had occurred in our history, and we also floated a loan of about \$4,000,000 in Great Britain." Praise for Adam Beck.

"This result is a matter for great thankfulness and satisfaction to the government. It is no disparagement to the labors of the other gentlemen the first estimate was but a drop in the bucket. They had built 287 miles at less than the estimate, and with extra transformer stations and a special protective system.

Support Premier at the Next Election.

MONTREAL, Oct. 11.-(Special.)-The Nationalists are about to organize a counter organization to one held last evening by the straight supporters of the government, and it is generally understood that the chief speaker of the evening will be Henri Bourassa, who, by the way, has not denied the rumor that he will return to Ottawa at a very early date. a at a very early date.

There can be no denying the fact that Sir Wilfrid has lost a great deal of his prestige amongst his compat-riots, and if it were not for the un-canadian attitude of Le Devoir in certain questions, the business communi-ty would be glad to see a change operated, but very few English citizens will desert Laurier to embrace the dectrines of Henri Bourassa, and in fact, most of them will vote for Laurier at the next election in preference

rier at the next election in preterence to the political organization controlled by the Nationalists.

This fact can be easily verified by a talk with the English-speaking electors of Jacques Cartier. In fact, it would be hard to find any English-speaking Conservative in that conspeaking Conservative in that con-stituency to-day who has not decided by vote against Mr. Monk at the next

Missionary Givings Not What Had Been Expected.

"I am, ashamed of the Presbytery done more than they have towards the encouragement of missionary giving," said John A. The European visible, upply of wheat this week, as estimated by Broomhall, was 101,540,000 bushels, against 90,568,000 bushels last week; increase, 9,872,000 bushels. Last week there was a decrease of 160,000, and last year an increase of 1,700, 1000, when the total amounted to 71,700,000 bushels.

Foreign Crops.

Broomhall's weekly summary of foreign crop conditions, issued yesterday, is supplied by J. P. Bickell & Co., as follows:

United Kingdom—The London Times newspaper estimates the wheat yield at two bushels per acre less than last year. The seeding of new wheat crop is progressing slowly, as a result of insufficient moisture.

Late Raspberries.

Thomas Fitzpatrick of Lambton yesterday showed The World a fine sample of second-crop raspberries, picked in his garden on Monday. The berries were large and of fine quality.

GRAIN AND PRODUCE.

Local grain dealers' quotation.

France.—There are fewer complaints being received. The weather is now more favorable for seeding of the new crop. Supplies of native wheat are scarce.

Germany.—The seeding of new crop is being carried on under favorable weather conditions. Supplies of native wheat are

ceed three billion, so stocks of old corn will be reported next month, and will reach 150,000,000 bushels against 79,000,000

last year. This will make a corn supply for the coming year at least 200,000,300 more than last year. Respecting Grain Rates.

CHICAGO. Oct. il.—A petition was presented to the Interstate Commerce Commission by the Chicago Board of Trade to-day to force 77 enumerated railroads to desist from exacting the present lake rates on grain moving from Chicago to and other points on the At-ST. LAWRENCE MARKET.

Receipts of farm produce were 400 bushels of grain, 18 loads of hay, 2 loads of straw and a few dressed hogs.

After another inspection of the great Ontario Silver Camp we are more con-inced than ever of the big values which will ultimately be realized by share-olders of Peterson Lake and Hargrave. COBALT is now paying out yearly silvidends more than all the Canadian banks. Think of this: And more dividend-payers are in sight.

Among other stocks which can be purchased for a quick turn is ChambersFerland, which will sell higher.

More Investment Less Speculation We are glad to observe that speculation in the COBALT stocks is giving place to more investment buying. This gives the market a much more responsible basis, for although stocks may not be as flightly in their advances, they quick upward movements take place. Steady price improvement is much to sell when preferred to rapid advances, and this is what is taking place. Patience with present purchases will produce sure profits. We adhere to our opinion that ISSING and CITY OF COBALT are not selling near their intrinsic values. Write for information.

NO CHANGE IN SENTIMENT IN SIGHT. World Office,

Tuesday Evening, Oct. 11.

Some of the more speculative issues on the Toronto Exchange met realizing to-day, and, as is usual under such circumstances, prices wavered. Mackay common and Rio were both in this position. The strength of these stocks was indicated by the way in which profit-taking was withstood. On the whole, local securities were firm, but opposition is being met here and there by short sales. These are coming from those who think that prices are entitled to a reaction, and it will take a few days to disprove their convictions. A change in the trend of prices can only come from a change in market sentiment, and this is

World Office, Tuesday Evening, Oct. 11. The Toronto stock market passed thru a settling process to-day, due to realizing in some of the securities which offer large profits to holders

which offer large profits to holders who bought some time ago.

Mackay and Rio were subjected to considerable profit-taking, but except for fractional reductions in prices, for fractional reductions in prices, there was no evidence that this had any distinct effect upon the position of the securities in the market.

A considerable block of Twin City, which was presumed to come from a large helder in the States, was sold here by one brokerage house. The sale was taken with practically no influence upon the price, and when the offerings were disposed of, the bids were advanced for further stock.

Nothing but the rumors, which have been current for some days, was responsible for the speculative purchases, which, by the way, as a rule, are es, which, es, which, es, which, es, which, es, which, es, which es, which es we will also the Chicago Board of Trade will

as subject to an inevitable further advance.

Toronto Electric Light sold up a point at 114, and 113 1-2 was bid for the stock without further bifferings. There is an impression abroad that the city will come to some definite arrangement for the purchase of both this company and the Toronto Railway, and this no doubt is accountable for the stronger position of both these securities.

Deficit Turned into Surplus.

The Westinghouse Electric and Mannifacturing Company shows a surplus of \$2,710,778 for the year ending March 31, 1910, against a deficit of \$918,683 for the previous year.

for the movement, there being more outside interest in the trading. Apparently, the speculatively inclined are coming around to the opinion that the much-talked of break will not be seen, and there is considerable buying for the pull. The copper stocks were all strong in the late trading, as the opinion is expressed that the worst has been seen in the industry. It was stated that the cotton bills of lading had been adjusted, this helping sentiment in the later trading. The market closed at very nearly the best for the day, with sentiment bullish, despite the impending holiday. We look for higher prices and advise purchasers of the active issues.

HESE overcoat samples are upsetting the calculations of a good many men; they had probably thought of spending twenty or thirty dollars to obtain the smart comfortable appearance that is manifest in every one of these stylish winter ulsters and overcoats. The fact that they are samples does not mean that they've been knocked about at all.

They've been well taken care of, as you'll see when you look them over, and they were particularly well made in the first place, just because they were going to represent, all through Canada, the best that a good manufacturer could make. We've priced them below ten dollars for tomorrow-and they're certainly great value.

A splendid assortment of high-grade garments which have a distinct style and grace about them that can only be produced by the best workmanship. The lot includes all this season's newest models, imported English meltons, cheviots and vicumas, in black and Oxford grey, also a variety of fancy coatings in wide wales and herringbone weaves, made up Chesterfield style; also a number of plain and fancy ulsters and auto coats, made up in both single and double-breasted styles, with deep storm or military stand collars; others have neat convertible collars which can be worn either turned down in lapel style or fastened close

Reliability and Style in Women's Furs

When you buy Furs you want a house with a good name to stand back of your purchase with a guarantee which reads, "satisfaction or your money back." That is the principle upon which we have built up our successful department of women's furs. Here are furs for which you'll never want your money back:

Persian Paw Sets, not the ordinary kind, but up-to-date styles, direct from New York, made from selected paws, soft and a brilliant black, lined with fine black silk, Muffs, scarfs and fancy neck pieces. Twenty different styles to select from. Muffs from \$6.50 to \$15.00. Neck Pieces from \$4.50 to \$20.00.

Handsome English Mole Sets, a very popular fur for misses. Muffs are large new rug shape, several styles of scarfs and ties, lined with satin to match. Muffs, \$10.00; Neck Pieces, \$4.50, \$6.00 and \$10.00.

Neck Pieces, \$4.50, \$6.00 and \$10.00.

large, new fancy rug shape. Both are lined with fine twilled silk and finished with heads and tails. Muffs,

Our display of Fox Furs is the finest and largest in Canada, Black, Sitka, Arctic, Hudson Bay and Silver Pointed; when not sold natural the dyeing is done in Leipzig, Germany, and is perfect. We have every conceivable shape, from the smallest single skin neck piece to the elaborate Empire Strand Scarf, 3 1-2 yards long. Muffs in bolster, auto, pillow, rug and fancy shape.

If Your Suit Style Here--You're Lucky

Here are one hundred and twenty-five suits that you should see. At a glance, most women will remark, "Why, they're twenty-five dolar suits!" Yes, madam, but the fact that we're selling them for Fourteen-seventy-five will not be of benefit to you unless your size is among them. your size is among them. The range of sizes, colors and materials is much too broken to publish—so if you regard a saving of ten dollars or so as worth while, you'll come and try to find your size to-morrow morning.

They are all strictly tailored, in diagonal serge, basket cloth, French Panama, stripe broadcloth and all-wool tweeds. Coats are lined throughout with silk or satin; some have inlaid velvet collar and cuff; tight or semi-fitting back; skirts have plain effect, or semi-pleats, trimmed with strappings and tabs to match coats; colors are grey, navy, brown, black, purple, cadet and metal shades. There's not every size in any one color, but all sizes in the assortment. Thursday \$14.75.

A Stylish \$5.00 Skirt

A very smart Skirt of all-wool diagonal serge, in colors of black, navy or grey; made with double-pleated back and front, side gores are cut in a fancy flounce effect, trimmed with soutache braid, and finished with self-covered buttons, \$5.00.
