ASSEMBLY DENOUNCES
MENACE OF MORMANISM

Aim at Getting Balance of
Political Power in Alberta,
if Not in All Canada—Ne
Temere Resolution to Be
Voted On at To-Day's
Session.

OTTAWA, June 12.—The menace of
the Mormon community to Canada
was emphasized at the Presbyterian
General Assembly to-day, which went
on record in favor of an active cam-
paign against it. The matter came up
on the report of a special committee,
which was presented by Rev. Dr. W.
J. Clark of Montreal.
That the Mormons were, as a rule,
a sober and industrious people was
the opinion of Rev. Dr. McLaren of Van-
couver. But their religion propounded
some abominable principles and their
morals were a positive danger to Can-
ada. The number of marriages and
progeny, appealed to a Mormon, but
was distasteful to a Canadian. They
had attained great power in the United
States and talked of getting the
balance of political power in Alberta,
if not in all Canada. The Mormons
voted together, and a corporate vote
was always dangerous and not desired
in Canada. Mormonism was more of
a menace than Roman Catholicism,
because the Mormon priest had a
greater hold on the people. "We don't
want this sort of thing in Canada,"
said Dr. McLaren, "and the main rem-
edy is to preach the gospel in the
Western centres where Mormonism is
making a stand."
Mormonism was really under the
protection of the politicians, and there-
fore difficult to get at, said Dr. Pringle
of Sydney. Their morals were low
and should not be allowed in Can-
ada.

20,000 Mormons in Alberta.
The following motion, moved by
Rev. Dr. Clark, was then carried by
the assembly:
"The assembly deems it advisable
to call attention to the danger that
necessarily attends the existence of
Mormonism in any country, and to
utter a warning against the insidious
methods employed by Mormon mis-
sionaries. While the knowledge of
all that can be fairly urged in behalf
of Mormonism and Mormonism, the
assembly regards with deep regret and
sorrow the fact that:
"The detestable doctrine held and
preached by the Mormon Church,
"The extravagant political ambitions
cherished by the Mormon Church,
"The absolute obedience to their
religious leaders, required of the mem-
bers of the organization, not only in
their religious, but also in their mat-
terial and political relationships,
"The assembly very cordially en-
dorses the important work that is be-
ing carried out by the mission com-
mittee in the Mormon district, and
commends it most heartily to the sym-
pathetic and prayerful interest of the
whole church, and requests the com-
mittee to give special attention to this
department of the work during the
present year and bring in such recom-
mendations as they may deem advis-
able, as they may deem wise."

Ne Temere Motion.
The Ne Temere decree will come be-
fore the assembly to-morrow night
and there is every indication that this
question will receive a great deal of
attention. Already the matter has been
discussed upon in the report of the board
of social and moral reform, and was
referred to a special committee by the
assembly. Rev. Dr. Duval of Winni-
peg, and F. H. Levin of St. John's
have also presented a motion on the
question. This motion was read at the
meeting and was referred to the com-
mittee without any vote being taken.
Dr. Duval stated that it was not in-
tended as a basis for the committee to
work on it.
"But, inasmuch as marriage involves
both social and property rights which
can be enforced, owing to the civil gov-
ernment, it is necessary that the con-
tract be entered into under the full
sanction and security of the civil gov-
ernment."
"That we are profoundly grateful
to the committee for their report."

CHILD FELL FROM AUTO
Little Stuart Robertson's Injuries May
Be Fatal.
Falling from the rear of an auto-
mobile which he was clinging with-
out the knowledge of the occupants,
Stuart Robertson, 12-year-old son of
Robert S. Robertson, of Collier street, was so
seriously injured yesterday afternoon
that his recovery is not probable.
The auto, going west on College
street, was passing Park road, when it
struck the sidewalk, and the child
fell to the pavement, striking his
head on a board. He was taken to
his home, where it was found that
he had concussion of the brain.

WITNESS FACES
PERJURY CHARGE

Henry Hicks, Auctioneer, Who
Testified in Colborne
Murder Trial, Placed
Under Arrest.

Laurier Indisposed.
LONDON, June 12.—(C. A. F. Cable)—The Morning Post states that Sir Wilfrid Laurier has been ordered to remain indoors for a short period, owing to his having contracted throat trouble.

COLBORNE, June 12.—(Special)—A
sensation was caused here late this
afternoon by the arrest of Henry Hicks,
auctioneer, of Colborne, on a charge
of perjury in connection with the trial
of Henry (Soh) Matthews for the murder
of Josephine Brimacombe. Matthews
was acquitted on April 15 last.
Hicks was arrested by John Miller,
provincial detective, who, it is under-
stood, has been for some time quietly
at work on the case, as the result of
the crown's dissatisfaction with the
conflicting nature of the testimony at
the trial.

The evidence given by Hicks decid-
edly strengthened the side of the de-
fence, as he swore positively that he
was in the Bristol Hotel on the night
that the Brimacombe girl, a waitress,
met her death, and had seen her alive
after Matthews had left the hotel.
Hicks was taken Colborne by Chief
Jameson and lodged in the jail there.

EFFORT TO SECURE PARDON
OF WELLAND DYNAMITERS

Irish Catholic Societies of Mon-
real Will Petition Ministers
for Nolan and Dillon.

MONTREAL, June 12.—That a deter-
mined effort be made to secure the
pardon of two Irish-Catholics, political
prisoners and former citizens of the
United States, who have now served
almost twelve years in the Kingston
penitentiary, was decided at a meet-
ing of all the Irish-Catholic societies of
this city to secure the pardon.
The prisoners in question are James
Nolan and Luke Dillon, alias Carl Car-
loman, convicted of an attempt to blow
up the lock of the Welland canal. The
first step is the drawing up of a let-
ter to be sent to all the cabinet min-
isters asking them to use their influ-
ence to secure the pardon.
The letter sets forth that the evi-
dence on which the men were convicted
was purely circumstantial, and that by
their eleven years of imprisonment they
have expiated their "alleged crime,"
which did little damage. It
further states that coronation was re-
fused by the issue of pardons
throughout the empire and that it would
be a peculiarly fitting time to release
these men and thus "mark the grati-
tude of the Irish-Catholics of Canada
and the United States."

BABE GAVE ALARM

Probably Saved Lives of Whole
Family.
INGERSOLL, June 12.—Spontaneous
combustion is thought to have been
the cause of a fire which early this
morning damaged the building and
stock of Walley's drug store to the
extent of probably \$100 or \$1500.
Mrs. Orme, wife of W. H. Orme, pho-
tographer, whose studio and living
apartments are over the drug store,
awakened shortly before 4 o'clock to
find the room filled with smoke. A
baby, probably made restless by the
smoke, awakened her and probably
saved the lives of the whole family.
Mr. Orme was almost overcome by the
smoke.

DIED IN PARIS

Former Toronto Woman Passed Away
Suddenly.
A cable message to Mrs. E. Brunell
284 Brunswick-avenue, on Friday, an-
nounced the death at the Hotel Ritz,
Paris, of her sister, Mrs. Mary Carter
Kingdon. Deceased, who was mother
of Mrs. George Gould of New York,
lived for some time in Toronto during
her girlhood. She was a daughter of
the late Walter W. Carter of Toronto.

MEETINGS IN QUEBEC

MONTREAL, June 12.—The next
meetings to be held by the Hon. R.
Lemieux will be at Joliette next Sat-
urday, and at St. Constant on Sunday.
A joint meeting of Conservatives and
Nationalists will be held at Sorel on
Saturday, at which Messrs. Bourassa,
Monk and Blondin will speak.
Boydhood Friend of Dr. Teffy.
Among those who attended the fun-
eral of Rev. Dr. Teffy yesterday was
J. J. Coghrow, a friend of his boyhood
days at Richmond Hill.

COUNCIL AT ODDS
ON YONGE ST.
WIDENING

After Voting 12 to 10 to Ex-
propriate C.P.R. Corner,
Strong Opposition Resulted
in Having Project Tempori-
arily Shelved — Will Pur-
chase Russell Farm.

The city council had one of the
stormiest sessions of its career last
night. Business was absolutely tied
up for over an hour in the evening,
and adjournment was not taken until
after 11 o'clock.
The bone of contention was the C.
P. R. corner at Yonge and King-
streets.
The board of control in their report
asked leave to have a bill introduced
authorizing the expropriation of the
C.P.R. property, and that of the Im-
perial Bank to the east and the wid-
ening of King and Yonge-streets in
this neighborhood by five feet. The
question came up in the afternoon ses-
sion, and provoked much discussion,
a strong opposition showing itself. Fi-
nally, tho, it was carried by a vote of
12 to 10.

But the opponents of the scheme
weren't satisfied, and just as the
council was preparing to adjourn in
the evening a motion was made to
suspend the resolution until the next
meeting, and adjournment was taken
at 11 o'clock.
The board of control in their report
asked leave to have a bill introduced
authorizing the expropriation of the
C.P.R. property, and that of the Im-
perial Bank to the east and the wid-
ening of King and Yonge-streets in
this neighborhood by five feet. The
question came up in the afternoon ses-
sion, and provoked much discussion,
a strong opposition showing itself. Fi-
nally, tho, it was carried by a vote of
12 to 10.

A Wordy War.
While the fight raged it was strenu-
ous and crimiinations and recrimi-
nations were more freely passed
round than in the memory
of the oldest member of council. Mo-
tions to adjourn were sandwiched in
here and there, and the session was
broken up several times. Con. Church
was set off times without number,
and the president, who was accused of
breaking faith with the board of con-
trol, was particularly the target of
abuse.

Excitement—it was the "last-
ing" of the session.
Some of the members of council evi-
dently wondered why Ald. Maguire
and his following were putting up such
a strenuous fight against the project.
"Some Day Hint."
"I saw the C.P.R. real estate agent
wandering round the corridors all
the evening," remarked Ald. McCausland.
"He was evidently looking for a
"I have heard the real estate man
doing some canvassing of members of
council to-night," said Ald. Hilton.
"He should not be allowed to do that
in the council chamber. I have never
known it to occur before."
And the longer the members of the
council wrangled, the worse grew the
tangle.
Ald. Maguire's motion to refer back
was lost on a tie vote. Then control-
ler and his following were asked to
hear on the street of this one and that
one having cleared from \$5000 to \$20-
000. Several have made \$50,000, and one
Toronto man at least has cleared \$100-
000 in the Hollinger case. The largest
profits, however, that have been made
by anyone outside of the original own-
ers, have been by the Bewick-Moreing
interests of London, Eng., who have
cleared \$500,000.
How does it come that a firm of
engineers, with headquarters
across the Atlantic, should come in
to hear on the street of this one and that
one having cleared from \$5000 to \$20-
000. Several have made \$50,000, and one
Toronto man at least has cleared \$100-
000 in the Hollinger case. The largest
profits, however, that have been made
by anyone outside of the original own-
ers, have been by the Bewick-Moreing
interests of London, Eng., who have
cleared \$500,000.
Most people will exclaim, "What luck!
It happens, however, that there was
no luck about it but was the result
of actual knowledge of the value of
the property. The story is interesting.
Here it is as told yesterday by people
well qualified to know the facts.
When the first great strike was made
in Porcupine, it was given out in the
newspapers and not long afterwards
an engineer by name of Loring from
London, Eng., landed in Toronto. He
took the train for Porcupine and stay-
ed there several weeks, making an ex-
amination of the geological conditions.
He then went back to London, and it
was understood, reported that the geo-
logical conditions were favorable and that in
his opinion there was no doubt that
paying mines would be developed. It
was given out in the newspapers and
not long afterwards an engineer by name
of Loring from London, Eng., landed in
Toronto. He took the train for Porcu-
pine and stayed there several weeks,
making an examination of the geological
conditions. He then went back to Lon-
don, and it was understood, reported
that the geological conditions were
favorable and that in his opinion there
was no doubt that paying mines would
be developed. It was given out in the
newspapers and not long afterwards
an engineer by name of Loring from
London, Eng., landed in Toronto. He

HAMILTON HAPPENINGS

SAID PROPOSED SHELTER WAS NOAH'S ARK BUILDING

Hamilton Council Meeting Was Not Pink Tea Affair—Power Report Stands Over.

HAMILTON, June 12.—(Special.)—Contrary to general expectations, the Sifton report on the proposed multiple power and lighting plant provoked no discussion at the regular meeting of the council to-night. The report was formally submitted to the council in the board of control's report and was adopted without discussion. This leaves the board free to introduce a by-law to the submitted to the people, asking their authority to proceed with the installation of the plant as outlined in the Sifton report. The by-law will be put before the council at the next regular meeting and the members of the council will then probably express their views in the matter.

Despite the absence of any verbal protest, the council's decision to proceed with the installation of the plant as outlined in the Sifton report, and the members of the council will then probably express their views in the matter. The board of control's recommendation that a child's shelter be established and placed under the management of Children's Aid Society was the first subject to disturb the equanimity of the council. The recommendation included the proposition of having the society look after juvenile delinquents, and proposed to submit a by-law to raise whatever is required above \$1500 already provided to establish the institution. Controller Bailey contended that the society would not look after the delinquents, and moved that the clause dealing with the matter be referred back to the board of control for further consideration. He said that as a shelter was what the people had voted for, it should be established. Controller Cooper said it was proposed to establish the shelter in a house built about the time of Noah's ark, and wanted a new building. Controller Bailey's amendment was lost. The board of control's recommendation was adopted, and efforts will now be made to get the Children's Aid Society to agree to take the juvenile delinquents as well as neglected children.

Recommendation Accepted. A. D. Campbell objected to paying \$2000 for six houses for hospital purposes, when the assessed value was only \$800. Controller Cooper admitted that the price was a little high, but said they were needed, and that they were worth more than the assessment. The controller's recommendation for a by-law to purchase the houses was adopted.

Miss Jeannette Lewis' offer to present the city with a full equipped children's hospital finally obtained acceptance to-night, but without opposition. Aid. Worth wanted to know what guarantee the city would have of the hospital being properly equipped, and said that the proposed site was better for a slaughter house than a hospital. Controller Bailey objected to more buildings on the hospital grounds, and Aid. Horning raised the same objection. Controller Gardner thought the opponents of Miss Lewis' hospital acted as if she was trying to hand the city a gold brick, and deplored the knocking. Aid. Landis opined that the alderman who opposed the hospital would refuse a free house, and Aid. Loveloy thought that as Miss Lewis owned the land on which the institution is to be built, she should not be interfered with. Controller Cooper pointed out that the hospital must meet the approval of the board of governors, and the clause in the common bonds act that the council overruled the recent decision of the board of control to withhold sewer contracts from S. Chesman, and referred some leaders back with the understanding that the contractor would be given the work.

ASSEMBLY DENOUNCES MENACE OF MORMONISM

Continued From Page 1.

that the civil government is pleased to authorize marriage according to the rites and ceremonies of the various religious denominations, and to maintain the validity of the same in law. Clash With Civil Law. "That we deeply regret that any denomination should be permitted to depend upon a morally or materially damaged person that may be united in marriage according to the provisions of the civil law, with or without the sanction of any particular religious denomination. "And because the peace and training of our Canadian life has been grossly disturbed, and the civil rights of the people greatly interfered with by the publication and attempted enforcement in Canada of the Ne Temere decree by the Church of Rome, we, therefore, in the common bonds of fraternity, so long and happily secured to us in our beloved land, record our respectful protest against the enforcement of that decree in Canada, and call upon all good citizens to resist the same, and our legislatures to render it impossible by law."

WOMAN SUFFRAGE MEET

Opens in Stockholm, With a Thousand Delegates Present.

STOCKHOLM, June 12.—The sixth congress of the International Woman Suffrage Alliance was held here to-day, there being present a thousand delegates from Europe, the United States, Australia and South Africa. The address of welcome was made by Mrs. Anna Whitlock of Sweden, after which Mrs. Carrie Chapman Catt was re-elected president of the alliance. Riksdag Deputy Beckman spoke warmly in favor of the suffrage for women, and then Mrs. Catt delivered a long and eloquent address on the history of the movement. Mrs. Frederick Nathan of New York proposed the formation of an association of Swedish men to work for woman suffrage. The congress will sit until Saturday.

TENTS COLLAPSED IN FIERCE WIND AT NIAGARA

Frequency of Rain Makes Soldiering No Pleasant Occupation—A Quiet Camp.

NIAGARA-ON-THE-LAKE, June 12.—(Special.)—To the soldiers encamped here, it appears that a mistake was made in placing it on the map. It belongs somewhere down in the tropics, where it is reasonable to expect a rainstorm every day between the hours of 11 and 1. Almost daily since camp started, the mid-day meal has been eaten in the accompaniment of the sharp staccato of the rain drops on the tightly-drawn canvas of the mess tent.

To-day, as the mess call sounded, the sky blackened with all the intensity of a tropical sky in a tropical camp. The men rushed from their lines to the mess tent a solid sheet of rain descended upon them. A great gust with a mighty heave the pegs pulled loose and the great sheet of canvas swelled up and fell on the ground, burying the tables in an envelope of canvas and broken poles. Hardly had the 20th tent given way when the 34th tent lay spread on the ground. The men had quite a time getting a bit from the kitchen and running back to the tent to get their gear.

"No wonder the farmers here grow good fruit," declared one old soldier who had striven with a dry soil and the halcyon elements in an Ontario County farming community. "Jupiter Pluvius seems to have marked this part of the country for his special attention. With all the wet weather, however, and the tropical heat when it is not raining, there is very little grumbling except from the professional grouchers. The men have lost the awkwardness they brought to camp, and with the steadiness acquired they have also discovered a new ability to get along in a military camp. The whole lot of it in a military camp."

Y. M. C. A. Work Appreciated.

The work of the Y.M.C.A. in the camp is meeting with widespread approval. Thirty forty camps the boys have provided games and amusements and have done everything possible to keep the men in camp, and now on small articles and necessities has taken to the Y.M.C.A. as never before. Every evening from 400 to 700 soldiers congregate about the tent to watch the ball games and athletic events, and a large proportion of them go into the after meeting. Viewing this in the light of a camp without a canteen the full extent of the work is realized.

"In all my many years of service," stated Brigadier General C. G. Macdonald, speaking to one of the Y.M.C.A. officials, "this is the quietest camp I have known. It is mostly due to the Y.M.C.A. work, the athletics and games keeping the men from going down to the mess tent, and most of them either go to the after meeting or to bed. It has accomplished great results this year."

Tactical and Strategic Work is Occupying the Most of the Time This Week.

Nos. 7 F. A. and 15 F. A. of the A.M.C. were to march toward St. Catharines to work out a tactical scheme, but owing to the wet weather and the condition of the roads the march was called off.

Varied Daily Grind.

The cavalry brigade, consisting of the 24th Hussars, 25th and 26th Dragoons, left early this morning in the direction of Niagara. The 24th Hussars interfered greatly with their maneuvers. Col. Lessard rode out with the infantry in skirmishing order, and practised various tactical schemes. In the afternoon the right half returned to camp and the left half shot.

CONGREGATIONAL UNION.

KINGSTON, June 12.—(Special.)—The Congregational Union closed its sessions to-night. An invitation was received from Zion Church, Montreal, for the next meeting place, was accepted. Rev. H. I. Horsey of Ottawa, who spoke on the ministry and social and moral reform, expressed great regret that parliament had re-sanctioned professional gambling on racetracks, and that the law did not prohibit the sending and reporting of racing information.

Received No Offer.

KINGSTON, June 12.—(Special.)—An article in the Ottawa Free Press states that Mr. Simpson had offered to purchase the interest of Hon. William Hartly in the Chats Falls. Mr. Hartly stated to-day this was news to him, that if offer was ever made it never reached him.

An Absolute Remedy for Corns

Is Putnam's Painless Corn Extractor, safe, sure, always painless. A hundred substitutes prove the supremacy of Putnam's Painless Corn Extractor. The name tells its story. It is painless. It extracts corns, and it does it quickly. Sold by druggists, price 25c.

York County and Suburbs

COUNCIL AND SCHOOL BOARD HAVE LONG TALK

Looks as Tho All Would Be Well in North Toronto Yet—What of the Deer Park Switch?

NORTH TORONTO, June 12.—(Special.)—What looked at first like a stormy session of the town council and the high school board, but which later turned out to be only a round-table conference, ended high school matters, was held here to-night. Mayor Brown presided, and over a member of the council was present, as well as the school board. The whole session was devoted to the school and the methods which have hitherto been adopted to manage the institution came in for a certain amount of criticism, but no very definite decision was arrived at.

Reference on the subject was charged with the duty of collecting the county and government grant last year is largely responsible for the present trouble. Finally, Principal George H. Reid agreed to the town the sum of \$453 received from fees, and to make self take chances of securing the grant. A committee composed of Mayor Brown and Councillor Munton and the collector, together with Messrs. Brownlow and Hanson, will see Deputy-Minister of Education Colquhoun in the near future, and see what can be done to get the grant. Talk about the inspector's suggestion to acquire four acres for a school site when provision is only made for one acre.

The fact that the Deer Park switch is not included in the application of the Metropolitan Railway for an extension is looked upon as most significant by the high school board, and the complicated and complex problem was not the Deer Park switch named as a part of the scheme? If any division of the council is to be suggested, it is surely that part most adjacent to the terminal, and that the Yonge street station, and the Metropolitan Railway do not wish to come direct contact with the city, and prefer to deal with the minor municipality in the hope that the suggested extension will bring a general exciting very great opposition. The public meeting of Saturday night is fairly well attended, and the city which animates the citizens of North Toronto, and the railway company may find it difficult to get a majority in the council, and the city will be represented every day in the argument seems to be hard to find out.

WEST TORONTO. WEST TORONTO, June 12.—(Special.)—Victoria Presbyterian Church held a large congregation to-night, the occasion being the commencement of a six-day campaign to raise \$40,000 for a new church building. A committee composed of a hundred enthusiastic civic leaders, including the Rev. J. B. Stewart, and started to work to-night. The new building is to be used for a Sunday school chiefly, but will also contain rooms for all the organizations in connection with the church, including a fully equipped gymnasium, the swimming baths, etc., and clubrooms for both men and women. The campaign was launched by two strong sermons preached at yesterday's services by the pastor, Rev. Dr. McKerrill.

The Orange lodges of West York will meet to-night to celebrate the centenary of the G.T.R. station at Weston early on the morning of the 13th. The celebration will be held at the station, and will include a torchlight parade, and a large gathering of the public. The celebration will be held at the station, and will include a torchlight parade, and a large gathering of the public.

MIMICO.

MIMICO, June 12.—H. McGees was elected president of the Mimico Lawn Bowling Club at the annual meeting of the organization. The other officers elected are: Vice-president, R. H. Skelton; secretary, William Black; treasurer, Dr. T. McNeill; skips, Messrs. H. McGees, H. H. Skelton, and W. Black; reception and entertainment committee, the Rev. J. W. Shepherd.

DOVERCOURT.

The annual popular excursion of Dovercourt-road Church takes place next Saturday, June 17, to Rosebank, River Rouge, 20 miles down the lake. Sunday, June 18, will be a special day, and a great crowd is expected. The Toronto Swimming Club will give an exhibition of aquatic sports during the afternoon. Tickets may be secured at the station.

YORK COUNTY COUNCIL.

The members of the York County Council met and adjourned yesterday, the majority of them going to Toronto to attend the annual meeting of the Ontario Historical Society. The council will meet again on Monday, and will be devoted to the annual report on the industrial home at Newmarket. No big questions are on the agenda for discussion, unless it is in connection with the street lighting system, and this is pretty well settled.

IT DELAYED TRAFFIC.

Related reports of the severe electrical storm, which swept over North York on Saturday and Sunday, continue to arrive, and while they do not indicate any serious damage, the total of the damage they indicate is widespread nature of it. All day Monday the Metropolitan was seriously inconvenienced by the damage to the wires, and in some cases trees were blown across the lines, greatly delaying operations. The first thru car from Lake Simcoe only got to the city at 10:30 in the forenoon. A good deal of inconvenience was occasioned to local travelers on the line, and the 6:30 car failing to make connections at all. A number of the county council came in during the forenoon from the outside points.

Time for Biscuit and Berries

When your think of strawberries or other fresh fruit think of

SHREDDED WHEAT BISCUIT

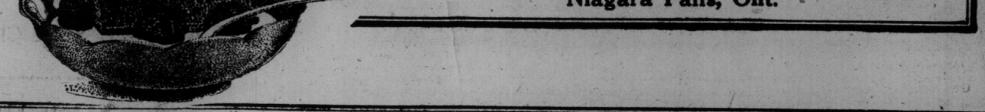

the cleanest, purest, most nutritious of all the cereal foods—combines most naturally with all kinds of acid fruits—better than the soggy white flour dough of ordinary short-cake and more easily digested. A Summer delight and a stomach joy for those who like good things to eat and who have to cut out heavy winter foods.

Heat a Shredded Wheat Biscuit in the oven to restore its crispness; then cover with strawberries, raspberries, or other berries and serve with milk or cream, adding sugar to suit the taste. A dish of Shredded Wheat with berries and cream is the bright spot in a dull day. It will keep the stomach sweet and clean and the bowels healthy and active. An ideal Summer food, ready-cooked, ready-to-serve. Your grocer sells it.

Two Shredded Wheat Biscuits with milk or cream and a little fresh fruit will supply all the energy needed for a half day's work or play.

THE ONLY CEREAL BREAKFAST FOOD MADE IN BISCUIT FORM

Made by Canadian Shredded Wheat Co. Niagara Falls, Ont. LIMITED

STIRRING UP INTEREST IN CANADA'S HISTORY

Prizes for Essays One Method—Dominion Organization in Process of Making.

So important is the work being done by the Ontario Historical Society that prizes valued at \$100, \$50 and \$40 are to be offered for the teachers of public, separate and high schools who contribute the most valuable essays and documents for preservation by the Historical Society of this province. Steps are also being taken to offer a prize for the best historical research paper, original and interesting, contributed to the provincial historical records.

More Attention to History.

Alexander Fraser, provincial archivist, thinks the Royal Society should devote more attention to history. "The wonderful growth of Canada in minerals, natural resources, etc., within the past ten years has naturally given these lines of research the precedence, but historical research should not be overlooked in future," he said.

The Historical Manuscripts Commission of England has some of a duplicate here in the committee on public documents, which, as a standing committee, is always in touch with the Dominion archivist as to what historical contributions should be published.

Mr. Fraser stated to The World yesterday afternoon that plans were under way to enlarge the sphere of activity of the Ontario Society in every possible manner. "The amount of valuable records we have already accumulated is enormous, but the work is not done now has been very much overburdened with the work on hand, consequently they have had no time to publish the facts and so the public don't know much about the work the society is doing."

There will ever be romance connected with the birth and growth of a nation and Canada should be specially favored in this regard with her interesting history and wonderful development.

The Provincial Historical Societies of the Dominion have done wonders in the past and the provincial governments have provided liberal grants to encourage research in all branches and phases of the nation's growth. Valuable aid has also been rendered by such energetic local societies as the Canadian Institute, York Pioneers, E. Loyallists and the Women's Historical Society, all of which are working in co-operation with the Provincial Society. In the matter of valuable research work it is not inappropriate to mention the Champion Society, which under the presidency of Sir Edmund Walker is doing remarkable work. The membership of this society includes university men throughout the country and archivists from every province in Canada.

Electrical Workers Out.

Following out the orders of the International Brotherhood of Electrical Workers, 150 men of that body went out on strike promptly at 10 o'clock yesterday morning. Eighteen strikers were interested in the talk of a strike which began some time ago, and 9 of them agreed to the terms of 40 cents an hour, asked for by the men. The remaining 9 refused to continue work at the old rate of 35 cents, and are prepared for a long stay out. If necessary, those who were granted a raise will help those who are out.

Pipe Manufacturer Here.

L. Chapin Conroy, who is staying at the King Edward Hotel, is the president of H. Conroy & Co., the largest manufacturer of briar pipes in England, all of which are London made. It is Mr. Conroy's first visit to Toronto, and he thinks it is the most beautiful city he has visited.

C. O. F. Convention Opens.

The annual convention of the Canadian Order of Foresters is being held at the new Forester's building on College-street. The proceedings will be somewhat of a private nature, commencing with the opening of the high court, the presentation of high court officers to the board and receiving of deputations.

Not One Woman in Twenty Has a Stong Back.

The kidneys are to blame nine times out of ten. Mrs. A. H. Hutton, Jr., McCreery, Minn., writes: "Two years ago last spring I had a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Hollinger Makes Its Daily High Record—Foley-O'Brien at 97

Porcupine Gold Camp

Market Opens Week in Good Style Porcupines Are Still Going Up

Hollinger Hits the High Spots Again, and Other Issues Try to Do Likewise—Cobalts Slumbering Soudly.

World Office, Monday Evening, June 12. The week opened in an auspicious manner on the mining markets; the list of solid mining issues showing an all-round firmness, which resulted in a number of sharp advances in prices before the close of the session.

The shake-out of holdings incident to the reaction on Saturday would seem to have placed the market in a sound technical position, since the upward trend was apparent from the very opening to-day, and was not checked to any extent at any time during the session.

The usual establishment of a new high record by Hollinger, followed by a ripple of excitement on the "street." Traders have become fully accustomed to phenomena of this nature, so much so in fact that when the stock does not show its head there is a feeling somewhat akin to loneliness apparent in the quarters of those bullishly inclined as regards the big issue.

Hollinger to-day sold within five points of the 415 mark. The opening sale was made at \$144.7 1/2, a jump of 1-1/2 points from last week's close, and the additional advance of 48 points followed with scarcely a reaction. Traders the close there was some natural profit-taking, as a result of which the shares dropped some 15 points, closing at \$147.60.

Another advance in Rea, carrying the shares up to \$62.28, did not come as any surprise to market followers, who looked for some short covering as a result of the recent activities. Traders were bidding \$5.15 for the stock at the close.

Those who have been looking for a recovery in Foley-O'Brien got another severe shock to-day, when the shares fell below a dollar. The bottom price reached, and this was a new low level, was 97 cents, which was also the best bid at the close, and represented a decline of eight points from the close last week.

The Beaver Directors were firmer, with Dome Extension up a point at \$5. Preston up 1-1/2 at \$2 1/2; Vipond up 1/2 at \$1.25; and the shares of the Cobalts, and outside of an advance in Beaver, which sold up to \$2, following the dividend announced, there was little interest in transactions.

On the afternoon board the silver stocks showed a declining tendency. Beaver lost part of its gain, selling back to \$2.85; Timiskaming dropped a point at \$6, and Cobalt Lake was also easier.

A SEEMING DISCREPANCY.

It would seem that some explanation of the apparent discrepancies in the quotations of the mining stocks on certain of the local exchanges would not come at all amiss. Thus yesterday at the close of business on the Standard Stock Exchange traders were bidding \$14.76 for Hollinger, and this was the official quotation sent out on the daily statement. At the same time the best bid for the shares on the Dominion Stock Exchange was \$14.80, and the shares were offering at \$14.74, or a point below what was being bid in the market about a block away. It would also seem that this is more or less of a regular occurrence in relation to one or more of the Porcupines. The explanation is, of course, that there was a freer market for the stock on one exchange than on the other, yet it seems more or less an anomaly that it should occur with almost seeming regularity. Also, it might be asked if the brokerage houses are playing the arbitrage game between the various Toronto markets?

DRILLING TO 250 FEET AT SOUTH OF THE LAKE

Warner-Leighton Syndicate Getting After Values at Depth at Porcupine Centre Townsite.

At a meeting of the property committee of the board of education yesterday afternoon the following tenders were accepted for the enlargement of Earl Grey School: Mason's work, Chas. Bulley, \$12,875; Carpenter's work, William Williamson, \$13,165.

TENDERS AWARDED

ANGELICAN SYNOD MEETS

Governing Body in Diocese Foregathers for Important Discussion.

The annual synod of the Anglican Church opens to-day at 10.30, when Holy communion will be celebrated by the Bishop of Toronto at St. James' Cathedral, and a devotional address will be given by the Ven. Archdeacon Coadjutor, D.D.

HUNTING FOR LEADS ON JOWSEY-WOODS LOTS

English Syndicate Getting After Surface Showings on Deloro Claims.

When the syndicate entered the Porcupine last fall, they took over a dozen claims, several in Deloro in addition to the Jowsey-Woods, Brydges, etc., and several others in Tisdale. Last February payments to the amount of \$70,000 were made in all on the properties. The last of this month another payment falls due.

GOING INTO PORCUPINE?

PORCUPINE CITY, June 9.—(From Our Man Up North.)—Reaching the camp now is not the fearful hard struggle one would suppose, viewing the trip from the outside. Trains bring you to the Fredericton River in the middle of the night, and accommodation in tents is provided, though a good liberal charge. Many do not stop, but walk the grade from the Fredericton to Golden City the same night. In the morning boats run to the trestle bridge on the Porcupine River, and the balance of the distance can be made over the grade in two and a half hours.

BIG DRY DOCK FOR TORONTO.

OTTAWA, June 12.—J. E. Miller of the Police Iron Works is here to-day to see the minister of public works in reference to the subsidy which is to be given to the dry dock which is to be built at the foot of Frederick-street. The plans for the dock have been approved by J. G. Sing, the departmental engineer at Toronto, and provide for a dock to cost \$500,000, and big enough to take care of the largest boats on the lakes. Mr. Pugsley is expected to give an early assent to the proposal.

Point au Baril Service—Direct From Wharf to Hotels.

The steamer "Arma" maintains a ferry service for the transfer of passengers and baggage, etc., from Point au Baril station to the hotels and resorts. Direct connection is made with the 8.45 a.m. train from Toronto, which arrives at Point au Baril station about 4.00 p.m. C.P.R. City Ticket Office, 16 East King-st. Phone Main 6580.

SWARM OF PROSPECTORS IN SWASTIKA COUNTRY

Rush on to Gold Lake Where Good Values Are Reported Found.

PORCUPINE CITY, June 9.—(From Our Man Up North.)—Gold Lake to the west and south of Swastika is receiving the attention of swarms of prospectors who have heard that quartz with good values is being found there in the schist, and Kewatin green stone.

DRILLING TO 250 FEET AT SOUTH OF THE LAKE

Warner-Leighton Syndicate Getting After Values at Depth at Porcupine Centre Townsite.

At 120 feet the creamy-white, clear quartz changes to a blue color and continues this color to the bottom of the drill hole. The oxidation does not show after 130 feet. The quartz is deposited where the work is going on, appears in a lead that runs northeast and southwest. Stringers in the schist cut the rock for a distance of 20 feet. The lead where the drill is working carries in width from eight to ten feet of solid quartz. No assays have been made.

RECTOR OF GRACE CHURCH

Bishop Sweeney Appoints Rev. Jas. B. Broughall to Important Charge.

The Lord Bishop of Toronto has appointed Rev. James B. Broughall, M. A., to the important position of rector of St. Stephen's Anglican Church, to the charge of Grace Church, which is shortly to move from Elm-street to the vicinity of St. Clair-avenue. The new incumbent of Grace Church is a son of Canon Broughall, an able preacher and a very popular man. He obtained his classical education at Trinity College and took his theological course at Johns Hopkins University, Baltimore.

USED A MONKEY WRENCH.

ST. CATHARINES, June 12.—(Special.)—Albert Durand this afternoon appeared before Judge Carman charged with aggravated assault on Wm. Baker on Wednesday last aboard the steamer Waccamaw. Evidence showed that Durand used a monkey wrench to good effect on Baker's head, following a lively argument between the two men. Durand was sentenced to 30 days' imprisonment in the county jail.

LOWER RATES FOR MONTREAL.

MONTREAL, June 12.—Rates for electric lighting are to be reduced according to the announcement of the Electric Light, Heat and Power Co. The new rates will amount to 7 1/2 cents per kilowatt hour on five-year contracts, instead of 8 cents for residential. On one year contracts the rate will be 10 cents and 5 per cent. discount for ten days. This new rate is to become effective from July meter readings.

CLOSED, BUT NO DROUGHT.

MONTREAL, June 12.—There has been no drop in the number of trucks coming before the recorder's court since the early closing law came into effect. To-day out of a total of 70 prisoners, 41 were charged with drunkenness.

T. & N. O. to Keep at It.

The Timiskaming and Northern Ontario Railway will be further extended without delay.

The rails are now laid past Golden City on the way to Lakewood. Chairman Englehart announced yesterday.

Summer Sunshades, only about 150 in the lot, in fancy cambrics, also satens, a large selection of patterns to choose from, including pure white. Wednesday **.89**

Please Distinguish Us From "The Chestnuts"

"It's the same old story," a man was heard to exclaim the other day, as he glanced over the various advertisements addressed to men in the matter of clothes, "always giving something away that nobody wants!"

We beg leave to direct the author of this sweeping statement to the back page of "The Toronto World." Now we confess to the soft impeachment of giving things away *sometimes*, but that nobody wants these things is certainly a rash statement in view of the avalanche of "advertised specials" that move out of our men's store after each announcement.

No sir, we know the kind of store you mean, but this isn't one of them. To men who know, a Simpson advertisement for men means honest material, conservative style, unequalled value. We'll guarantee you'll change your whole idea about this matter if you'll come and inspect the clothing mentioned daily on this page.

Men's Trousers For \$1.98

They're not specially suitable for weddings, but they are the kind that the average man would be glad to have for less formal occasions. At this price the saving is obvious.

Clearing line of Men's English Worsted Trousers, in assorted neat dark stripe patterns, well tailored and perfect fitting; sizes 31 to 42-inch waist. Regular \$2.75, \$3.00 and \$3.50. To clear Wednesday at **1.98**

Boys' Wash Suits, broken lines and odd sizes of our regular stock; some slightly soiled; made up in English prints, galateas, drills and chambrays, in plain blue and light fancy stripe patterns; Russian and sailor blouse style, with plain and bloomer pants; sizes 2½ to 7 years. Regular \$1.00, \$1.25, \$1.50 and \$1.75. To clear Wednesday at **.89**

Mid-Week Opportunities

For Men and Boys to Buy Desirable Furnishings

200 dozen of Men's Penangle Brand Merino Shirts or Drawers, in the natural shade; a garment that stands good, hard wear; sizes 34 to 44. At the very low price, per garment, Wednesday **.49**

Hundreds of Men's Silk Neckties, in a great variety of shades and designs that have always been sold here at 50 cents, and are now broken lines, go on sale to-morrow at half price, and, in some cases, less. An 8 o'clock visit to this section will save you money. Regular 50c and 75c. Wednesday **.25**

1700 Boys' Balbriggan Summer Jerseys, with short sleeves, pure white with red, sky, navy or green trimmings, and navy with cardinal and plain navy; sizes 20 to 32. Extra special for Wednesday **.22**

1000 Boys' Swimming Suits, plain navy blue, bound edges and around neck, fasten on shoulders; sizes 18 to 32. Regular 35c. Wednesday **.25**

Men's Ten Dollar Panamas \$5.95

Men's Panama Hats, in fedora, tourist, telescope or negligé crowns; very fine braids and best finish; \$10.00 hats. Wednesday **5.95**

Men's Caps, new American shape, large full peak, made from fine quality silk, in shepherd's plaid checks, splendid vacation wear cap. Wednesday **1.00**

Men's Straw Hats, in fedora shape, fine white Canton braids, and well finished; light, cool and easy on the head. Wednesday **1.50**

China and Glassware Suitable For Wedding Gifts

What could be more artistic than a really good piece of China or Cut Glass for a wedding present? Our Art Section places work of the highest quality on view. The donor of a piece by Bernard Moore, for instance, would be stamped as a person of excellent taste. The following item from the Cut Glass Department at \$5.00 is an example of our Basement values, and, backed up as it is by necessities and ornaments at such prices, Wednesday should prove an excellent day for you and the China Department.

8-inch Fruit or Salad Bowls, gem design, rich, deep, flaring cut; bright, sparkling color. Wednesday, special **5.00**

100 Pedestals, 20 inches high, in the new Ravissant art potteryware. Wednesday **1.25**

70 Jardinières, beautiful embossed designs; rich color tones. Wednesday **1.00**

100 97-piece Dinner Sets, in the popular gold clover leaf and three gold line decoration; rich glazed ivory body, in English semi-porcelainware. Regular \$7.50. Wednesday **4.75**

Oddments in Toiletware—Large size ewers and wash basins, half price. Wednesday **.39**

Tea Set, complete for six people, white fluted porcelainware, 70 sets only. Wednesday **1.00**

Oddments in Brassware, greatly underpriced for a quick clearance—Jardinières, Fern Pots, Cuspidores, etc. Wednesday. **.98**

A Picture Sale On the Top Floor

The first five hundred customers that come to our top floor Wednesday morning will have a chance to buy
