TEN PAGES—ONE CENT

More Gains By The British

Despite Enemy Reinforcements Take Greater Part of Pozieres Village—Hammer-Blows of Germans Ineffective—French Continue Success

London, July 25.—The British troops have captured the greater part of the village of Pozieres, says the British official statement issued this afternoon. The Germans brought up reinforcements of infantry and guns, but the counter-attacks everywhere were repulsed by the British.

The text follows— "In the last few days the enemy brought further reinforcements of infantry and guns to the Somme front. Throughout yesterday the hostile bombardment was fairly continuous and at times became very heavy.

"An attempt to attack our right flank was made yesterday afternoon, but it was frustrated by our artillery. "Last night two further infantry attacks, preceded by a specially violent artillery fire, were launched against the centre of our line. These attacks also were stopped by the concentrated fire of our guns.

"At no place did the enemy succeed in reaching the British trenches and his casualties in these fruitless attacks must have been severe.

"At other points in the line there was a great deal of hand-to-hand fighting and our infantry worked their way forward in places. "North of Pozieres, the greater part of which village now is in our possession, the enemy continued to offer strong opposition, but here also we gained some ground and captured two machine guns and a few more prisoners, including two battalion commanders.

FRENCH SUCCESS Paris, July 25.—On the south bank of the river Somme last evening, French troops captured a block of houses south of Estrees and drove the Germans out of trenches north of Vermandovillers. The French official statement, issued this afternoon, contains this news.

Between the Oise and the Aisne, several German patrols were dispersed near Tracy-Le-Val.

On the left bank of the Meuse, in the Verdun region, there was grenade fighting at Hill 304.

On the right bank of the Meuse, a violent bombardment was in progress at Feury and La Louche.

A German attack on the French positions at Baschwiller, in Alsace, is reported to have failed.

Sub-Lieut. Nungesser, of the French aviation corps, brought down his third aeroplane.

The text of the French official statement was: "South of the Somme yesterday we captured, in a small attack south of Estrees, a group of powerfully fortified houses. Our troops chased the Germans from some trenches north of Vermandovillers and occupied them.

OVERCOME BY POISONOUS GAS IN TUNNEL, 24 MEN DEAD

Rescuers Themselves Trapped and Give up Lives Trying to Save Others in Cleveland Disaster

Cleveland, Ohio, July 25.—Twenty-four are dead, the police say, as the result of a waterworks tunnel explosion last night. Twenty-one bodies are thought to be in the tunnel and three men rescued by relief parties have died in the hospitals. Among the dead is Gustav C. Vandusen, superintendent of waterworks construction, who was at the head of one of the relief parties. A third relief party is being organized and will enter the tunnel as soon as a sufficient number of oxygen helmets are secured.

An explosion of gas occurred about 100 feet from the crib in the new tunnel under Lake Erie, which will connect with a big filtration plant recently erected on the west side. Ten men were caught in the shaft. Eight men who were in the crib at the time and heard the explosion rushed down to investigate. They found the air lock jammed, but William Dolan, lock tender, cut his way through from the inside with an axe and admitted the rescuers.

They plunged into the tunnel, but themselves were overcome. Dolan managed to drag two of them out and reach the elevator in the crib shaft. All three were dazed from the gas, but managed to give the alarm. Buckets were sent up and the telephone was used to bring aid. Life savers and the fire tug crew rushed to the crib and organized the remaining workers at the crib into a rescue party in an effort to reach the imprisoned men, but no headway could be made on account of the gas.

Finally Van Dusen arrived and with ten picked men started into the tunnel. They got through the air lock and rescued some of the men. The rest of the party were overcome by the gas and the rescue was abandoned.

A third party was organized in an effort to reach some of the Van Dusen party lying inside. By smashing the glass, Clancy and others, although partly overcome by the poisonous gas, managed to drag out three men. When they got them to the surface the men were apparently dead, but strenuous efforts made to revive them were rewarded. Efforts will be made today to reach the rest of the men in the tunnel, most of whom, it is believed, are dead. A general rescue for gas helmets has been made and with these it is expected the rescue party will be able to reach the men.

LATER Cleveland, July 25.—Twenty-two men are dead and half a dozen others are dying as the result of the explosion.

ASQUITH HINTS AT GENERAL ELECTION ON IRISH QUESTION

"Will Ask Country, If Necessary, if Government's Proposals Are Not Fair"—Newspapers Regard Situation as Serious

London, July 25.—A significant remark was made in the House of Commons yesterday afternoon by Premier Asquith at the conclusion of a debate on a motion for adjournment made by John Redmond, the Nationalist leader, following an announcement by the premier that the government had no intention of introducing any home rule for Ireland with regard to which there was no substantial agreement among all parties in an appeal to the Nationalists not to throw away the opportunity for bringing home rule into immediate operation. Mr. Asquith said: "I ask the house, and will ask the country, if necessary, if the government ever made in the history of a political controversy, and he asked the Nationalists not to break off the negotiations."

The Daily News reports that David Lloyd George, in view of the failure of the Irish negotiations, in which he was the chief agent, offered to resign his office.

The premier's attitude, says the News, is understood to be that if Mr. Lloyd George resigns he should consider himself obliged to resign also. "Another excellent performance was that of Sir Edward Carson. He dismissed the idea of cooperation as impossible, more impossible than ever after the blood of Dublin Fusiliers and the men of Ulster had mingled in the battlefields. He dismissed as immaterial the dispute about the words 'provisional' and 'permanent'."

The prime minister pointed out that under the government proposals, home rule would be brought into immediate operation.

"Are you going to throw away the opportunity?" was his blunt question to the Nationalist party. "The agreement was always subject to ratification by the cabinet. He contended that as it stood, it was a fair give and take arrangement."

Mr. Asquith closed his very eloquent and powerful speech by entreating the Nationalists to reconsider their decision and not to allow this opportunity to pass by.

REPORT ON CHARGES AGAINST FREDERICKON CHIEF SUBMITTED Frederickton July 25.—The report of the police commission on charges preferred against Chief John H. McCollum was made public today. In reference to a charge that the chief was a frequenter of the house of one George Delong, the commission finds that he was sent there in discharge of his duty.

As to the charge that the chief had entered into an agreement with a certain hotel keeper not to enforce the second part of the Canada Temperance act against him the commission finds that there was no evidence to sustain the charge. In conclusion, the report says: "As to the other charges the members of the commission deemed it sufficient to say that in their opinion the evidence given in support thereof and the admissions made in regard thereto under oath fully justified the conclusion to dispense with two members of the force, and for the resignation of the chief of police."

Chief McCollum has already tendered his resignation, to take effect on July 31.

GERMAN PAPER ADMITS SERIOUS PLIGHT OF ENEMY London, July 25.—(New York Sun cable)—Grave admission of Germany's plight, is contained in a review of the war up to date in the Frankfurter Zeitung, which says in part: "Germany is a besieged fortress. Therefore, everything depends upon the besiegers as to when and how it will be made the bloody work. That Germany will never haul down its flag we know very well; but our enemies do not know it. Yet the phrase 'holding out' is now beginning to gain its real significance."

The paper concludes—"Europe has become a melting pot in which the nations are being tried for the real metal that is in them and we know Germany has more of it than all the others."

DR. HARRIS IS AT POINT OF DEATH Boston, July 25.—The condition of Dr. Alfred E. Harris, a Canadian ophthalmologist, who was shot on last Tuesday by Dr. Eldridge D. Atwood, a fellow practitioner, was reported early this morning to be extremely critical. At midnight the doctors at the City Hospital held out very little hope of recovery.

The police announced that in the event of Dr. Harris' death, the charge against Dr. Atwood would be changed from assault to first degree murder.

HAGGLE OVER PRICE OF SUIT; STOREKEEPER IS SLASHED Toronto, July 25.—Abraham Greenberg, a second hand store keeper of 149 York street, was slashed from below his left ear to the corner of his eye yesterday afternoon by a razor-wielding Italian who was unable to agree with him as to the price paid for a suit of clothes.

The Italian picked out a suit which met his requirement. A dispute followed over the price and rapidly warmed into a heated argument. The Italian suddenly drew a razor and slashed the storekeeper across the face. The assailant ran out to the street, and disappeared before police could be summoned. The wounded man was removed to a hospital, where his condition was reported last night to be serious.

The couple had to match and carried a bouquet of carnations. She was attended by her sister, Mrs. Martin Burns. The groom was supported by Martin Burns. After the ceremony the bridal party drove to the home of Mr. and Mrs. Burns, where a tremendous wedding breakfast was served. Mr. and Mrs. McDonald received many gifts, expressive of their popularity. They will reside in Kinc street, West St. John.

"Correspondents explain the panic of the population by saying that dozens of Cosacks are sufficient to frighten and put to flight 100,000 women and children.

"These refugees," continues the correspondent, "have greatly embarrassed the local authorities, who cannot supply them with accommodations. The cattle which they drove with them, also have had nothing to eat, owing to the sparse vegetation in the mountains."

London, July 25.—A despatch to the Morning Post from Budapest, dated July 15, says: "Some Cosack detachments succeeded in crossing into Hungary yesterday, creating a panic throughout the frontier towns and villages, and causing thousands of refugees to swarm into the plains. The Russians penetrated about thirty miles, and then rapidly withdrew, fighting continuously with detachments of grenadiers."

"Correspondents explain the panic of the population by saying that dozens of Cosacks are sufficient to frighten and put to flight 100,000 women and children.

THE HAROLD B COUSENS RUNS ON SEAL ISLAND COAST Schooner From St. John With Lumber—P. McIntyre Leaves For Scene

The three masted schooner Harold B Cousens, owned by Peter McIntyre, is grounded on Seal Island, according to a message received last night by her owner. The schooner, in charge of Captain Rowan, was outward bound from this port for Liverpool with a cargo of lumber, and during the dense fog yesterday ran aground. She sailed from port several days ago, but owing to fog and unfavorable winds, had not cleared the bay.

The message was sent to this city by Mr. McIntyre's agents in Yarmouth who immediately made arrangements to send assistance to Captain Rowan. Mr. McIntyre left this morning for Seal Island, where he will superintend the work of floating the schooner. If he is successful the schooner will be towed to Yarmouth for repairs.

She has been the property of Mr. McIntyre for the last eleven years, and during that time has been engaged in carrying freight to United States and trans-Atlantic ports.

Canadian Mentions the Dropping Bomb as Mere Incident to Betting During Game—Were Waiting to Attack

London, July 25.—A letter from the Canadians front line says: "There are hundreds of prisoners coming through every day. They are put into big wire enclosures until trains can take them back. I saw about three hundred officers and men yesterday. It reminded me of a big stock-yard, officers in one stall, men in the other. They wandered aimlessly about the enclosure just like I have seen cattle doing at home. Our doctors were dressing wounds of prisoners here. There is one young officer who at a distance is the very image of little Willie. For sure they got well fed and looked after.

BUILDING TWELVE LIKE DEUTSCHLAND Three Undersea Merchantmen Reported Ready—Prince Henry of Prussia at Farewell

Amsterdam, July 25.—Through the agency of one who was present at the launching of the Deutschland, I learn that the occasion was severely private, only a few of the prominent commercial shipping men and a few selected friends being present. Prince Henry of Prussia, was sent to attend the launching by the Kaiser and to make a speech to the assembled guests.

Prussia, was sent to attend the launching by the Kaiser and to make a speech to the assembled guests. The prince, who appeared to be most cheerful and optimistic, endeavored to inspire his hearers with hope and confidence, and said: "With the launching of the Bremen and the Deutschland we have made a beginning in the great work of renewing, restoring and enlarging Germany's overseas trade. Though this is but a comparatively small beginning, I can promise you the enlargement of the new fleet will be rapid and that the extension of the scope of its enterprises will take place. Indeed, you may confidently expect great developments. We have now begun to show all the world that Germany's merchant marine, which already has made great progress, is in such hands that it cannot now be beaten out of the field of world wide commerce."

It is said that three such boats as the Deutschland already have been built and that twelve more are in various stages of construction.

COMMON COUNCIL Among the matters to be dealt with at the weekly meeting of the common council this afternoon is the proposal to vote a sum of money for the British Seaman's Relief Fund, notice of which was given by Commissioner Russell last week. The vote of \$8,600 for wharf repairs on the west side will be up for confirmation and the plans for a new water main in Hanover street also will require final approval. A report on the possibility of taking \$1,000 from the Caroline Tucker gift to cover the cost of a survey of the Tucker Park may be presented. There are several matters from the public works department which the improvements in Market square, the fixing of grades in First street, and the decision as to the authority to issue permits for sidewalk obstructions, on which no action was taken at the committee meeting yesterday and which may come up again.

THE ASPIN ASHORE Halifax, N.S., July 25.—The steamer Aspin went ashore yesterday at St. Mary's Bay, Newfoundland. She was badly damaged.

NEXT A. O. H. SESSION IS TO BE IN SAN FRANCISCO

The last session of the biennial national convention of the Ancient Order of Hibernians was held at the Copple Plaza, Boston, on last Saturday morning.

The principal business was the election of officers and the choosing of a place for the next meeting, to be held in 1918.

San Francisco was the city selected by the delegates, winning the honor by a vote of 192 to 40.

The balloting resulted in the election of the following: officer President, James McLaughlin of Philadelphia (re-elected); national vice president, Patrick P. Cannon of Quincy, Mass. (re-elected); Canadian vice president, Peter J. Doyle of Montreal, (elected without opposition); national secretary, Thomas J. Mathews of Providence, R. I.; national treasurer, Michael W. Delaney of Chicago (re-elected).

The following five were chosen national directors: Edward R. Hayes of New Brunswick, N. J.; James Clancy of Ishpeming, Mich.; John E. Healy of Wilmington, Del.; and Myles McPartland of Brooklyn, N. Y. Philip J. Sullivan of Thompsonville, Conn. was the only new director elected, the other four having been in office since the last election. Mr. Sullivan is the retiring national secretary.

ONE FROM OLD "MIZZURY" (From the Florida Times-Union) A Pike county teacher who asked a girl to purchase a grammar, received the following note from the little girl's mother:

"I do not desire that my Matty engage in grammar and I prefer her to engage in more useful studies and can learn her to write and speak proper myself. I went through two grammars and can't say as they did me no good. I prefer Matty to engage in German and drawing and vocal music on the piano."

Shows Germans Hard Pressed

Troops Taken From Verdun to Face Allies' Advance on the Somme - Last Night's War Calms

At Posteres, the Australians are still fighting furiously with the Germans for possession of the village and the head of the road leading from it to Bapaume, and the greater part of the village is now reported to be in their hands. There has been a diminution in the vicious fighting which began Saturday night along the British front from Thiepval to Guillemont. A condition of comparative quiet prevails south of the Somme along the French line, where the only fighting reported—and that of a minor engagement—resulted in the French capturing a German battery south of Estrees. Eastward, in the Verdun region, the French have occupied a German redoubt west of Thiaumont, taking with it five machine guns and two score of prisoners.

Berlin still asserts that the only result of the British attack Sunday along the Thiepval-Guillemont line was the penetration of a few houses in the village of Posteres, and that the Australians obtained these only after having suffered sanguinary losses.

That German troops have been removed from the Verdun front for the Somme operation is apparent from the German statement that the Brandenburg Grenadiers, of "Douaumont fame," defeated the British in the fight Sunday at Longueval.

On Eastern Front. Although unofficial reports have credited to the Russians big gains against the Germans in the Riga sector of Russia, neither the Petrograd nor Berlin communication has as yet, recorded any important changes in territory there.

Petrograd claims the lodgment of the Germans from the village of Galitshanc, on the Lipa river in Volhynia, while Berlin reports that the Gaidian border, in Southern Volhynia, strong attacks by the Russians against the German line were repulsed.

Emperor William is reported to have left the French front to observe the operations in the east.

The Russians have made further progress against the Turks in the Erzerang region of Anahit Armenia, while to the south, along the Persian front, the Turks report that they have gained fresh successes over the Russians.

The Italians in the Astico and Avis regions of the Austro-Italian theatres report continued advances against the Austrians.

Premier Asquith has asked the British parliament for an additional credit vote of 450,000,000 pounds—the largest requested since the beginning of the war.

COMPENSATION IN CASE OF MERCHANT SEAFARERS SUFFERING IN WAR

A British government scheme which provides compensation in the case of merchant seafarers who are killed or injured through the operations of the war has already proved a great boon in alleviating considerable distress which otherwise would have prevailed.

In connection with this matter, the Imperial Merchant Service Guild has lately succeeded in establishing an important principle in respect to our seafarers who have been interested in Germany and Turkey. It has, unfortunately, happened that three of their members have died during internment. The guild has investigated the whole of the circumstances and with the help and influence of the chairman of the parliamentary committee, Basil E. Peto, M. P., have urged that cases of this kind should justly be regarded as due to the operations of the war and that compensation to their dependents might reasonably be forthcoming under the government scheme.

The Board of Trade have now agreed that where death is due to the circumstances of internment compensation should be allowed. One of these cases which the guild has taken in hand on behalf of a widow of an interned officer left with three children has now been settled and the Liverpool and London War Risks Association, which administers the government scheme in this particular case, is paying over to this lady the sum of £200 by way of compensation.

"Not one word, if you please—not one word will I listen to against tea or coffee!"

That is the attitude of many good people, even after they have reason to suspect that tea or coffee hurts them.

True, some persons seem able for a time to use tea or coffee without apparent harm, but sooner or later it does interfere with the health and comfort of many users.

POSTUM

This famous food-drink is made of prime wheat, roasted with a bit of wholesome molasses. It has a rich color, fine aroma, and a delicious, snappy flavor, and is absolutely free from the drug, caffeine, in tea and coffee, or any other harmful substance—free from all tea and coffee troubles.

Postum is delicious and comes in two forms. The original Postum Cereal must be boiled. Instant Postum is a soluble powder—made in the cup by adding hot water. The flavor is the same and the cost about equal. Both kinds are good for young and old, and satisfy the craving for a hot, aromatic, mealtime beverage.

THE WAR NEWS.

The approximate cost of the war to Great Britain is now £2,000,000 per day. Premier Asquith has asked for a vote of credit for £480,000,000. This is an indication not only of the determination of the government to keep up the supply of men and munitions, and to lend financial assistance to Britain's Allies; but of the amazing financial strength of the country.

THE ENQUIRY JUSTIFIED The Conservative press hails the report of the Meredith-Duff commission as a complete vindication of everybody but J. Wesley Allison. The report makes it perfectly clear that the action of Col. Carnegie, the Shell Committee and Sir Sam Hughes made it possible for Allison and his American friends to get an enormous rake-off; and it also shows that they not only gave American concerns contracts which should have been given to Canadian manufacturers, but that in a contract for grape fuses the British taxpayer was called upon to pay \$1,666,000 more than was necessary.

A Frightful Death! Suffocated with Asthma Attack Every sufferer from Asthma knows the terror, the abject fear that overcomes them when struggling for breath. The old fashioned remedies may relieve, but never cure. Best results come from Carrizone, which cures Asthma after hope is abandoned. It's because Carrizone kills the asthma germ that it cures. Choking spells and labored breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronic experience immediate relief and lasting cure. Equally good for bronchitis, throat trouble and catarrh. The large one dollar outfit includes the inhaler and lasts two months, sold by all dealers or from The Carrizone Co., Kingston, Canada.

Canada is favored with the opinion of Sir William Meredith and Hon. L. P. Duff to the effect that the Shell Committee would have been guilty of 'sincere folly' in attempting the manufacture of time fuses in Canada in May, 1915.

Two large orchards, side by side, brought much profit to Farmer. Turned much trouble, for the orchards were considered fair game by the boys of the village, and two orchards are harder to watch than one. One day, looking from one orchard to the other, Turnat saw a man by him down a tree and, uttering a word of warning to another imp still up among the apples, ran off. Turnat reached that tree in record time.

How You May Throw Away Your Glasses The statement is made that thousands wear eyeglasses who do not really need them. In many cases these glasses may be thrown away and the eyes helped. Thousands who wear them may be relieved of their burden if they will get the following prescription filled at once: Give to any active drug store and get a bottle of Non-Opto Tablets. This solution bathes the eyes two to four times daily, and you are likely to be astonished at the results right from the start.

EVIDENT FAILURE OF IRISH NEGOTIATIONS

London, July 24.—Confirming publicly today the suspicion that the cabinet had been unable to reach a decision in regard to the home rule amending bill, Premier Asquith, in the house of commons, announced that the government would not introduce any bill of this kind with regard to which there was no substantial agreement among parties. This was taken in the lobbies of parliament to mean that home rule had been dropped for the moment, and that Lloyd George's negotiations had come to naught.

The stumbling block appears to have been the retention of the imperial parliament of Nationalist representation in undiminished numbers.

John Redmond, leader of the Nationalists, moved an adjournment of the house to discuss the premier's reply, and a lively debate, when the regular business of the house of commons was concluded was anticipated.

"Having attained the consent of our supporters to this agreement, I was faced on my return to London by an entirely new proposal from the Marquis of Lansdowne, which came as a bolt from the blue. Lord Lansdowne, in a speech in the house of lords, declared the bill to be introduced would contain certain structural alterations of the cabinet had decided to insert in the bill two provisions—one for the permanent acceptance of counties and another cutting out of the bill the agreement for the retention of the Irish members at Westminster during the transitional period. This decision was declared to be absolute and final.

"I stand by every word in the agreement we came to. I will not agree to any new proposals, which would mean an absolute and permanent breach of faith on my part towards my supporters in Ireland. I warn the government that if they introduce on the subject a bill on which I will oppose it at every stage."

Secretary Lloyd George emphasized the difficulty in embodying heads of agreement in an agreement, and insisted it was only a question of phrasing. He confessed that a departure had been made in the matter of Irish representation in the house of representatives, because the Unionist members of the cabinet found it impossible to secure the assent of their followers to the maintenance of an undiminished Irish representation after a general election, and after home rule had been set up in Ireland.

His proposal, he said, therefore was modified as follows:

"Until dissolution Irish members of parliament remain undiminished, afterwards the provisions of the home rule act should become operative. The Irish members should be summoned in undiminished numbers whenever parliament considers the final settlement."

Sir Edward Carson said that when he went into negotiations he thought only of what was best to help win the war, compared with which home rule or any other thing else mattered little. He would never have touched the negotiations, except as a war measure, and had made it perfectly clear from the beginning that the six Ulster counties must be struck definitely out of the home rule act. He was not asking, however, for permanent exclusion, Sir Edward added. No settlement made by this parliament could be permanent. He stood by the agreement announced by the prime minister, that the Ulster counties could be included without a bill. Concluding, Sir Edward appealed to the Nationalist members not to lose all the good that had come out of the negotiations.

William O'Brien, leader of the Independent Nationalists, said the partition plot is dead and damned. Millions of the Irish race will rejoice with all their hearts, tomorrow over its death.

AN OLD PROVERB

It used to be proverbial that every man (and it is certainly no less true of woman) is either a fool or a physician at forty. This means that every intelligent person must learn to make about caring for his own health that by the time he is forty years of age he can almost be reckoned as a physician.

Why, then, is there so much talk by doctors against "self-medication?" A woman can recognize all ordinary ailments without calling on a doctor, and if they are ailments distinctive to her sex she generally knows enough to use that greatest of all remedies, such as salicylates, Lydia E. Pinkham's Vegetable Compound, and likewise she is familiar with the standard remedies for other diseases.

Chosen-making has made great strides in Queensland during the last few years. No fewer than sixty-three factories have been established—a total said to be greater than in any other state. The result is somewhat surprising, considering the climatic conditions in Queensland, but the reason of so many more is no doubt the number of small settlements which can be served more cheaply by a cheap factory than to more expensively equipped butter factories. Since the war broke out Queensland cheese has done well in the London market.

Little Boy Nine Months Old Had Dysentery

Dysentery is one of the worst forms of bowel complaint. The pains in the bowels become intense, the discharges occur with great rapidity, and are very often accompanied by blood, and the sufferer becomes very weak and languid.

Unless these discharges are checked, death may ensue in a very short time. There is only one remedy to use in all cases of dysentery, and that is Dr. Fowler's Extract of Wild Strawberry. It will cure when all other remedies fail.

Mrs. J. Leslie McKee, Redvers, Sask., writes: "I used Dr. Fowler's Extract of Wild Strawberry for my little boy when he was about nine months old. He was awfully bad with dysentery. I had not laid him down for three days and nights, only when his father took him for a few minutes. He had both the diarrhoea and vomiting. I had tried everything until my husband got Dr. Fowler's, and three doses cured him."

Dr. Fowler's Extract of Wild Strawberry is the remedy you want. Don't take any other when you ask for it. Manufactured only by the T. Milburn Co., Limited, Toronto, Ont. Price 85c.

Recruiting Off During The Week

Total Enlisted 123, as Against 158 in Previous Period

There was a slight decrease in recruiting throughout the province during the last week in comparison with the previous week. St. John county again leads the province by a wide margin. During the last week there were 123 men signed on in New Brunswick and the previous week gave 158. The following are the battalions in New Brunswick: St. John, 47; Albert, 16; York, 15; Westmorland, 10; Gloucester, 9; Northumberland, 8; Charlotte, 4; Kings, 3; Queens and Sunbury, 5; Carleton, 2; Hestigouche, 2; with Victoria, Kent and Madawaska regiments. During the last week 128. Total last week 158. Three recruits from P. E. Island were signed on for the 68th Battalion during the week.

Signed Yesterday

Those who passed the physical test and were sworn in yesterday were: Albert R. Mack, Grand River, N. B.; Charles W. Sibley, Bedford, N. B.; Richard S. Gorman, St. John; Andrew M. Gibb, Hanamond River, N. B.; L. W. Brown, St. Martins. The first four were for No. 1 Construction Battalion and the last named for No. 9 Siege Battery.

Construction Corps.

Only twenty men more are needed from St. John to fill up the ranks of the Construction Corps. When this number is secured big things are ahead of this unit, according to a message received by Lieutenant Cross, who is in charge of the recruiting in this city, from the O. C. of the battalion.

Now Adjutant of 104th.

Lieutenant H. C. Simmons, who was in charge of the travellers' platoon of the 104th Battalion, writing to the city, says he received the advice that he had been promoted to captain and adjutant of the 104th Battalion in place of Capt. H. L. Many friends will be pleased to hear of his promotion.

Gets Commission.

Lieutenant Hatheway, of Fredericton, who was formerly a corporal in the Royal Canadian Dragoons, and who recently was wounded, is now attached to the Canadian cavalry depot, Shorncliffe, England. Besides being promoted to the rank of lieutenant he has been made paymaster of the depot.

Back to Recuperate.

Pte. Frank Grey, a returned soldier, arrived in the city yesterday to recuperate from the effects of concussion. He was in the 10th Battalion under Lieut. Col. P. A. Guthrie, and Pte. Gray paid a warm and soldierly tribute to Colonel Guthrie, and told how he led his men in a desperate charge in which many fell. Pte. Gray was in the 12th Battalion in England, but he soon became tired of the monotony of camp life and smuggled his way into France in order to get into the fighting. He took part in most of the important engagements. He was greeted at the station by an enthusiastic gathering and his home-coming was made most pleasant.

Died of Wounds.

Private Adelard Canty's wounds, which he sustained about two weeks ago, have proven fatal and word of his death was received in Bathurst last Tuesday. He passed away on July 16, at No. 4 General Hospital in Camiers, France.

John Montgomery, of the post office staff, received a message yesterday informing him that his son, Corporal J. Lewin, who was seriously wounded about a month ago, is improving.

E. P. Winslow, superintendent of western branches of the Bank of Montreal, with headquarters in Winnipeg, has received a cablegram from England informing him that his son, Lieutenant Hugh Winslow, had lost his left arm at the recent battle of Ypres. Mr. Winslow has a younger son at Valcartier. He was recently made provisional lieutenant.

Recruits for No. 1 Construction.

Only twenty more men are wanted from St. John to fill up the ranks of the Construction Corps. When this number has been secured big things are ahead of this unit, according to a message received by Lieut. Cross, who is in charge of recruiting in this city, from the O. C. of the battalion.

Recent Appointments.

The latest issue of the Canada Gazette contains the following maritime appointments: Cavalry—8th Princess Louise New Brunswick Hussars—To be provisional lieutenant (superannuated): James

To Distasteful Wounded.
The British war office has issued an order that all soldiers who have been wounded since the war began in August 4, 1914, are to wear a gold stripe on their left sleeve, one stripe for each time wounded.

A law promulgated by Claudius Caesar in 48 A. D., establishing the inalienable right of possession by a man of his queen bee and her swarm, was invoked in Yonkers, N. Y., when Judge Joseph H. Beale in the City Court directed that a queen bee and her swarm be returned to Kenneth W. Brown. In court, Mr. Brown accused Fred Ecker

and Albert Stevens of luring a queen bee and her swarm away from their said queen bee, to wit, the beating of home by "maliciously and wickedly holding forth certain blandishments to the tin pans and other noise."

THE lady was making comments on clothing worn by some other ladies at church.

"The finest garment a woman can wear," said her husband, "is the mantle of charity."

"Yes," she retorted, "and it is the only dress that some husbands want their wives to wear, judging by the fuss they make over the bills."

NOW! Safety First

Protect yourself on your supply of Soft Coal by letting us fill your bins with Broad Cove or Old Mine Sydney now.

The indications are that the prices on these coals will be considerably higher later, and it seems probable that it will be very difficult later in the season to obtain a supply of these coals at any price.

To have your own bin full is the only way to be sure of a supply.

The Old Mine Sydney we are getting now makes a splendid coal for cooking stoves as well as for grates, and it kindles easily and lasts a long time.

The Russians at Lipa

Correspondent Gives Details of Victory—German Prisoners Reluctant to Believe News of British Advances

London, July 25.—In a despatch dated southwest front, July 16, a correspondent sends the London Times a description of the latest Russian victory, in which General Sakharoff's army captured 12,000 prisoners and advanced seven miles to the River Lipa. He says: "I reached the headquarters of a certain Siberian corps, about midnight on July 16, to find artillery preparation in full blast. By midnight ten breaches were made in the barbed wire, each approximately twenty paces broad and the attacks were ordered for three o'clock in the morning."

"Rising at 5 a. m., I accompanied the commander of the corps to his observation post on the ridge. The attacks had already swept away the resistance of the enemy's first line."

"Thousands of prisoners were in our hands, and the enemy was retreating rapidly. We moved forward and met the first of the Russian troops, the light-wounded, then Austrian prisoners helping our heavily wounded."

"At quite an early hour the entire country was alive. Every department of the army was beginning to move forward. All roads were choked with ammunition, and the transports following our advancing troops, while the stream of returning caissons, wounded and prisoners equaled the stream of advancing columns. The commander took up his position on the ridge which but a few minutes before had been advanced line. Thence the country could be observed for miles. Each road was filled with moving troops, pushing forward on the heels of the enemy, whose field gun shells were bursting on the ridges."

"Just beyond here I met the commander of the division and his staff. Evidently the size of our group was considerable from some distant enemy observation point, for within five minutes came the howl of an approaching projectile and a six-inch shell burst with terrific crash in a neighboring field. Its arrival, which was followed at regular intervals by other shells, was unnoted by the general, whose interest was occupied with pressing his advance."

"Before and beneath us lay the abandoned line of the Austrian trenches separated from ours by a small stream, where since daylight the heroic engineers had been laboring under heavy shell fire to construct a bridge to enable our cavalry and guns to pass in pursuit. Our troops had forced the line here at 3 a. m. and were endeavoring to make a crossing in water and marsh above their waists, often to their arm pits."

"The bridge was a horrible place, as it was congested with dead, dying and horribly wounded men, who, as the ambulances were on the other side of the river, could not be moved. A number of German ambulance men were working furiously over their own and the Austrian wounded, many of whom, I think, must have been wounded by their own guns in an attempt to prevent the bridging of the stream. A more bloody scene I have not witnessed."

Austrians Not Enthusiastic. "I encountered about fifty captured German soldiers with about a dozen of them. Certainly none of them showed the smallest lack of morale or even depression. All seemed to feel as if their personal lot in the war was unfortunate, and that the war would be won by the Germans shortly. When told of the British success in a single one was in the least moved. All laughed, stating they did not believe it."

"One commander took command of his regiment only at noon, and was taken prisoner at daylight the following morning."

Naval Slang. A writer in the London Evening News gives some specimens of Navy slang. An officer may be a "pukka" officer, or one of the "Honury Hundred"—that is to say, a Royal Naval Reserve man who has been given a commission in the R. N. Or again, he may belong to the "Ragtime Navy" the Royal Naval Volunteer Reserve. If he is in a torpedo boat he speaks of her as an "olly waddy," if in a bigger ship as either "a paccet" or "a steamer." When ashore he hates "poodle-faking" or going out to afternoon teas, but he often takes his "cuss" for a "drop" of golf. The officer who attracts female society is a "bloke of the Flossies." He speaks of the crew as his "braves" or his "mate-lots." Anything that really pleases him is "Ormolite," and when he asks for "a good one" you must give him one of the cheapest brands of Virginia cigarettes.

League Studying Methods in England—Make Each an Asset

CHAIRMAN'S ANSWER TO TAYLOR & SWEENEY

Fairville, N. B., July 22, 1916. To the Editor of the Times: Sir—Permit me to make some remarks in regard to a letter from Messrs. Taylor & Sweeney, which appeared in the Times July 20. First—They say the assessors could not answer to questions about certain subdivisions. Do Messrs. Taylor & Sweeney expect the assessors to keep in their memories all the particulars concerning these subdivisions?

We make up the assessor's book according to laws laid down, and it is filed in the County Secretary's office on the first of May in every year, and all information that is required is recorded in it, and the book is public property and can be seen at any time. They say it is not the assessors' fault.

That subdivision Messrs. Taylor & Sweeney represent was purchased from the County for \$100,000, and the whole, totalling up, amounts to \$32,750. Well now, when the County owned the property, you could buy a lot on the front street for from \$300 to \$400, and those lots were 50 x 200 ft., twice the size Messrs. Taylor & Sweeney will sell now, for more than the same price. We placed a valuation on the property of \$26,000, which is a fair valuation for the lot.

I want it understood that I am much opposed to speculation in lands for this reason: The buying class are principally the ones who buy the lots to erect homes for themselves, so that it is the laboring class who suffer from such speculation.

Furthermore, they say: "Mr. Robert Calderwood admitted that the property would still be assessed for \$7,000, provided the Coaster estate still owned it." I say positively that assessment is untrue. Why? Because we do not know what valuation may be placed on any property for a year or more.

Again, they say the Woods' property, adjoining it, is only assessed for \$3,000. This is also untrue. The Woods' property is assessed for \$10,000, which can be seen by the books in the County Secretary's office. The Woods first bought the place for \$5,000. Then he sold on the front of it, lots, which amounted to \$10,000, and which he now holds cost him \$1,000, and is assessed for \$10,000, and he is satisfied. I know what I am talking about, because I called on Mr. Woods one morning, and got his statement. Furthermore, Mr. Woods says he never was offered \$20,000 for it, but some company wanted an option on it, which Mr. Woods wisely refused.

They say the place was first sold for \$14,000. We placed a valuation on it of \$12,000, which was considered very near right. It has been disposed of by lottery, and I have no way of knowing what it brought, but every one who got a lot in it will be assessed next year. They say, also, Counsellor O'Brien is one of the assessors. That is not correct. Mr. Taylor & Sweeney are trying to make themselves popular with Messrs. Prefontaine & Bedard.

Last year they brought up the same matter in the County Secretary's office, and while they were conducting their argument in the County Secretary's office, a telegram was handed the County Secretary, saying they had sent a check for it. Messrs. Taylor & Sweeney held up the check, and the collector was obliged to get an execution to recover it from them.

Now, Mr. Editor, I do not intend when I set down to write a long letter, and this appears to be about all that is required, only I would advise Messrs. Taylor & Sweeney, when they write for publication, to state nothing but facts as I have done, and which I am prepared to prove. I am not going to answer any more of Messrs. Taylor & Sweeney's letters in the papers.

Thank you, Mr. Editor, for your valuable space. I remain, Yours truly, ROBERT CALDERWOOD, Chairman of Assessors.

P. S.—I omitted to state that Mr. Harding is assessed \$26,000 for a part of the Hatheway farm, which makes a total assessment on the Hatheway farm \$17,000.

RECENT DEATHS

On Monday, Stephen McMullin, of Hartland, died, aged 69 years. He was a son of the late Rev. Charles McMullin, a Free Baptist preacher well known in the old days. His grandfather was the first white settler in what is now Hartland. The deceased's wife, who survives, was Miss Ruth Bradley, and two children survive, W. P. McMullin, with whom he lived, and Mrs. G. E. Boyer, of Hartland.

The death occurred, Monday afternoon, at his home, 85 High street, Thomas Barry Leach. Although in poor health for some time, his death was unexpected. Leach was born in Sussex, but has been a much respected citizen of the North End for a number of years. News of his death will be a great shock to many friends. He is survived by his wife, Mary A., also two daughters, Miss Clara J. and Mrs. Allan French, both of this city. The funeral will be held from his late residence, Wednesday afternoon at 3 o'clock. Interment in Cedar Hill.

John Crerar, assistant manager of the Bank of Montreal in Calgary, is dead. He started his career as a bank clerk in Chatham, Ont., in 1896, and subsequently worked in Ottawa, St. John, Newfoundland and other eastern cities. Mr. Crerar was thirty-eight years of age. He was well known in Fredericton, where he was accountant in the Bank of Montreal there in 1910-11. He was a prominent member of the Fredericton Curling Club. He was a son of a well known Hamilton, Ont., lawyer, and a brother of Mrs. Nell, wife of Charles R. Nell, formerly of Fredericton, now general manager of the Royal Bank of Canada.

In Amherst on Sunday evening, Mrs. Clara Rayworth died, aged sixty-eight years. She was a daughter of the late William Thompson, of Upper Sackville. She leaves three sons, Arthur and Lorne of Redvers, Sask., and Prof. Joseph Rayworth of St. Louis, Mo. One sister, Mrs. James Stevens of Pettoodine, and one brother, Conductor Milledge Thompson of Moncton, also survive.

A TRUSTED CLERK WHO STOLE \$75,000. Name is Carefully Guarded in New York. New York, July 25.—National Bank examiners and officers of the National Coal and Iron Bank of this city have been conducting an investigation into the embezzlement of approximately \$75,000 by a trusted employee of the bank. His name is being carefully guarded, and, according to Frederick Sprull of the bank, there is no present intention of prosecuting him.

"It is true," said Mr. Sprull, "that one of our employees stole about \$75,000, but the bank is fully protected by being a company, which has already made good their obligations. As far as the embezzlement of the \$75,000 is concerned, we do not even intend to prosecute unless the bonding companies request us." According to Mr. Sprull the defalcation was discovered on June 21 when a small discrepancy in the company's books led to an investigation that disclosed the embezzlement of small sums over a long period of years.

The embezzler himself took the most prominent part in the investigation and is endeavoring, it is said, to make restitution to the bonding companies. In the event that he does, it is understood he will not be prosecuted and his identity will be kept secret.

THE BEST THING FOR DYSPEPSIA

WHY PEPSIN, PANCREATIN, ETC., SO FREQUENTLY FAIL. An international specialist, whose articles on stomach trouble have been printed in nearly every language, recently stated that to treat the average case of stomach trouble, indigestion, dyspepsia, etc., by doctoring the stomach, killing the pain with opiates, or by the use of artificial aids to digestion such as pepsin and pancreatin, was just as foolish and useless as to attempt to put out a fire by throwing water on the flames. He stated, and he is right, that the only way to get rid of the cause, i. e. to neutralize the acid and stop the fermentation, is to use a remedy that will neutralize the acid, stop the fermentation, and permit the stomach to do its work in a normal manner and thus by removing the cause, enables nature to quickly restore the inflamed stomach lining to a perfectly healthy natural condition. For the convenience of travellers it may be noted that most druggists are now able to supply bisulphated magnesia in 4 grain tablets, 2 or 3 of which will almost instantly relieve the most violent attacks of indigestion.

WHAT'S NEW AT THE MOVIES

WILLIAM GILLETTE AS GREAT DETECTIVE

Sherlock Holmes, as Presented by Famous Actor, Deeply Thrills Gatherings at Imperial

Had you happened into Imperial Theatre yesterday afternoon or evening you would have noticed an air of tense, mystery and foreboding silence. Weird, uncanny harmonies came from the orchestra and slow-moving, stealthy figures slipped across the curtain. Everybody seemed in breathless silence, even the ushers tip-toed at their work. This was the condition of things during the exhibition of "Sherlock Holmes," Conan Doyle's greatest English detective story with William Gillette playing the part of Sherlock Holmes.

Pictures have come and pictures have gone—thousands of them—but none quite struck the note as "Sherlock Holmes." It is a powerful drama of crime life and crime detection in wicked London. There are no vainglorious heroes in the story, no spectacular climaxes, nor any of those mob scenes and violent crashes upon which many other pictures depend for their punch, but a sound logical wholesome story that holds one's attention absolutely riveted upon the curtain. William Gillette must surely be the ideal of Sir A. Conan Doyle as Sherlock Holmes. His aquiline features, tall slender body, piercing eyes and cat-like actions make him the man the book pictures. Other splendid characterizations in the story are Professor Moriarty, played by Ernest Maupain; Billy, the "Buttons" in Holmes' apartments; Dr. Watson, Holmes' companion and the perfidious Lestrade in the dark plots, as well as other playpeople including the attaches of Moriarty, emperor of crooks and henchings of Holmes in their various fake vocations. "Sherlock Holmes" as pictured is a splendid innovation. It brings the real stage version of New York and London right into the little city of St. John. It animates a story that nearly every book-lover has read. It also gives our townspeople the opportunity of seeing one of the greatest actors of the age in his master portrayal. Aside from this, the whole thing is very enter-

taining and quite out of the usual run of motion pictures. As before stated, yesterday's great crowds (in spite of the rain) sat spellbound with the clear and gripping presentation of the story which is to be repeated today and Wednesday. The first night showings of the Imperial Theatre were made last night in addition to the regular matinee showing. This feature is also on the cards for this afternoon and evening. Today's matinee will start at 2:15 and conclude at 5 o'clock—one long show including Pathé's British Gazette, "Peg O' the Ring" and "Sherlock Holmes." Tonight "Sherlock Holmes" will be put on at 7, "Peg O' the Ring" at 8:30 and "Sherlock Holmes" again at 9 o'clock. On Wednesday afternoon the Imperial will present a grand double bill commencing at 2 o'clock with Francis X. Bushman and Marguerite Snow in the romantic story "The Silent Voice" to be followed by "Sherlock Holmes" in seven reels. "The Silent Voice" and "Sherlock Holmes" will be continued Wednesday evening.

MARY PICKFORD IS ON OPERA HOUSE SCREEN

Stars in Famous Players Great Drama, "The Eternal Grind"—An Appealing Bill

If you were a beautiful young girl whose sister had fallen the victim of a wealthy young chap and that same fellow were to make love to you—and if the sister followed him to your home with the intention of shooting him, would you scream and run away or would you take command of the situation? Mary Pickford took the revolver out of the girl's hand, held the man at bay with it and sent for a minister. When the reverend gentleman arrived, she concealed herself behind a curtain and held the gun to the man's back while he went through the wedding ceremony. It all happened in "The Eternal Grind," Mary Pickford's latest big feature, which was shown at the Opera House yesterday.

In this powerful story, Mary Pickford plays the role of a factory girl who battles against frightful odds in her struggle

HOODOO ANN, DAINTY FEATURE AT THE GEM

Little Mac Marsh as Orphan Asylum Child—"By Stork Delivery," a Rattling Good Comedy

Many attended the Gem last night and all left well pleased with the attractive programme offered for the opening of the week. The chief offering was a particularly dainty five-reel play, "Hoodoo Ann." It featured captivating Mae Marsh in a part that suited her well and gave good opportunity for display of versatility. We find her the daughter of a private orphanage, scolded and overworked by an exacting proprietress, shunned and ill-treated by the girls of the institution. She is always trying to do something for some one else and just as regularly is abused for her pains. The "hoodoo" has easily entered her life. Then comes a fire which burns down the school. She heroically rescues one of the girls and life becomes brighter as she is adopted by a kindly old man and his wife. But troubles return, tragic indeed this time—apparently she has died and is buried. Her husband, who is full of woe. Then the strange working out of the plot—and it is entirely unexpected—furnishes exceptionally interesting moments as the film is led off to a close. A feature of the subject is a moving picture within a moving picture and it is cleverly introduced. Robt. Harron is starred with Miss Marsh.

There was fun galore in the comedy, "By Stork Delivery." Of course there are babies and there are more than one and there are cute little pickaninies. A clever dog has an important part in the fun-making and there is a marvellous chase scene. All the programme was very pleasing. It will be repeated twice this afternoon and tonight. Wednesday and Thursday will come Mary Page, the eighth chapter of this strange story. It is called "The Perjury." There also will be a five part feature picture. The Gem will have a big one, "The Raiders," for Friday and Saturday, with H. B. Warner the star, in a comedy, "An Oily Scoundrel," starring Fred Mac.

English peer who, owing to financial difficulties, had departed for America. Upon his arrival there he meets with a number of adventures and is forced to become a waiter in a restaurant, then a chauffeur and finally joins a band of strolling players. Miss Crowley enacts the part of leading lady of the theatrical troupe and she does it to perfection. There are a number of thrilling moments in the production, all of which are handled in a manner typical of the American company. The humorous incidents are numerous, and are enhanced greatly by the excellent acting of Mr. Maude. Surrounding the stars are some well known film favorites. This feature will be repeated today and again tomorrow. A character comedy act by Marino and Rich rounded out a programme that surely must have pleased everyone who saw it. Lloyd and Rehan, billed as vaudeville burlesquers, will be the attraction the last three days of the week.

PROMINENT MOVIE EXPERT IS TO PAY ST. JOHN VISIT

The moving picture people of the city are anticipating a pleasant and profitable visit on Aug. 7, 8 or 9, from no less a notable personage than F. H. Richardson, projection expert and editor of the Operation Department of the Motion Picture World, authoritative trade journal. Mr. Richardson is traveling across the continent in response to repeated and numerous requests and is doing what might be termed a great deal of missionary work among managers and their motion picture machine operators. In the matter of his St. John visit the projection editor will probably be tendered a reception and possibly a dinner. Arrangements are on foot among man-

agers, film exchange men and electrical workers in theatres, and further plans will be submitted during the early part of this week. As Mr. Richardson is a sort of "Answer Man," and problem solver for the machine operators of the

UNIQUE HAS STORY OF RUSSIAN COURT LIFE

Miss Nance O'Neill in Powerful Fox Production, "Princess Romanoff"—Good Cub Comedy

It is easy to understand why motion picture critics and newspapers claimed for the Fox production of Princess Romanoff, starring Miss Nance O'Neill. This picture was shown at the Unique Theatre yesterday and in the presentation of Miss O'Neill, this theatre has added another laurel to its many successes. The struggling in a woman's heart between love and vengeance gives to Miss O'Neill a remarkable opportunity to display those talents which caused David Belasco to say that "Nance O'Neill is the greatest living emotional actress today." The Unique Theatre in offering this feature to their patrons, feel that they have secured a picture that will long remain green in the memory of those who have seen and will see it.

The story is a powerful one and deals with the vengeance of a husband who kills the man who robbed him of the affections of his wife. But the man killed was shortly by him named the Princess Romanoff. The participants in this tragedy are members of a noble Russian family and keep the scandal quiet through the process of the law is not put in motion. The man who has been killed is the son of the Russian chief of the secret police. Searched out and discovered in America by Princess Romanoff, who follows the man she thinks killed her fiancée, she compels a confession but cannot find out just why her lover was killed. Arrangements are made to deport for assassination the wronged husband and he stands in the room of the princess about to go to his death at the hands of the secret police, the woman learns why her unfaithful fiancée met his death. From this on the picture whirrs to a thrilling climax brought about as only so great an actress as Miss Nance O'Neill could. It is to say the least a startling tragedy, deeply interesting and possessing a certain appeal that will not be lost. A Cub comedy also gave much pleasure.

MISS CROWLEY AND MR. MAUDE AT THE LYRIC

Famous People, Popular on Local Stage, Return Via the Screen—in "Lord Loveland"

A few years ago the Opera House opened a season of Shakespearean repertoire, when a company of English artists exploited the more popular efforts of the Bard of Avon with great success. Two celebrated stars headed the company in the persons of Miss Constance Crowley and Arthur Maude. They became very favorites with St. John theatre-goers, and established a reputation for themselves that time has not yet erased. Much interest centered around the announcement that these players would be seen at the Lyric Theatre yesterday in a filmized version of Williamson's celebrated romantic story, Lord Loveland Discovers America. The screen appearance of Miss Crowley and Mr. Maude was the signal for an outburst of applause as many of their admirers were in the audience. After they left St. John they became affiliated with the American Producer Company and since that time have been starred in a number of pictures. The vehicle provided for them in Lord Loveland Discovers America suits the ability of both stars. Mr. Maude, in fact, found it necessary to leave the title role, portraying the part of an

Making His Way

A certain inspector of Scotland Yard, who is a Kerry man, did a little piece of clever amateur detective work before he went to London. The story goes that one day, at Milltown Fair, he bought a pig for 80s., paid for it, and departed to put his purchase into a yard for safe keeping.

Later in the day, having occasion to make further purchases, he discovered to his horror that he had paid to the seller of the pig a 25 note instead of a 21 note, as he supposed. He looked for him in vain; the man had gone from the fair, leaving no clue to his whereabouts. But a lucky thought coming to the future detective, he liberated the pig from its confinement, concluding that the "bonnavent" would be likely to make for home. The pace was slow, but with all the ardour of a fox-hunter the inspector followed the pig for about nine miles, until it walked into its former domicile. The situation being explained, he recovered his change from his 25 note.

THRILLING patriotic ensembles like "Young America—We're Strong For You" and "We'll Never Let the Old Flag Fall"; hits that are hits, like Al Jolson's singing of "I Sent My Wife to the Thousand Isles"; and comic and sentimental song-successes like "I've Got a Sweet Tooth Bothering Me" from Lew Fields' latest show "Step This Way" and "Songs We Used to Sing in Dixieland," a Remick song-gem that is sweeping the country.

Music of a very different sort is Casals' marvellous handling of the 'cello in Saint-Saens' "Allegro Appassionato" and Haydn's "Minuet in C Major."

Kathleen Parlow's inspired playing of two brilliant violin compositions by Kreisler and Svendsen, Graveure's inspired rendering of two beautiful old-time hymns and Rother's great basso in the immortal anthem "La Marseillaise," rank quite as high in artistic interest. BAIRD & PETERS WIN

Interesting Case Over an Order For Canned Goods

In county court chambers this morning His Honor Judge Armstrong gave an interesting judgment in the case of W. Clark, Limited, vs. Baird & Peters. This case arose out of a counter claim made by the defendants for the amount of \$2.8 for the non-delivery of 200 cases of canned goods. Evidence in this case went to show that on Thursday, October 21, Baird & Peters ordered from the Clark Company, doing business in Montreal, through their salesman here, Mr. Burton, the goods in question, requesting him to have the order wired to Montreal.

Mr. Burton accepted the order, but said it was unnecessary to wire. The order was sent by mail by Mr. Burton, and on the following morning he received a wire from head office stating that there had been a general advance in prices, with the request that he put the same into effect.

Baird & Peters order was received in Montreal on Friday morning, and the head office did not wire, but wrote declining the order at the prices stated. This letter was received by Mr. Burton on Saturday and he mailed it to Baird & Peters, it reaching the local firm on Monday morning.

Baird & Peters proved that, had they been aware on Friday or Saturday that the order was in Montreal, they would be acceptable they could have placed the order elsewhere at the same prices. By Monday, however, there had been a general increase of prices and they were placed at a loss as a result of the action on the part of the Clark firm.

Judge Armstrong held that both the agent and the Clark firm contributed to the loss suffered by Baird & Peters by neglect to wire an acceptance or refusal of the order, which was bona fide made and accepted by Mr. Burton, and gave judgment for the defendant, M. J. Teed appeared for the plaintiffs and Barnhill, Ewing & Sanford for the defendants.

NEW BATTALION

Chance For Those Not Quite Up to Physical Mark

ROUND THEM INTO SHAPE

Many Who Apply at Recruiting Offices and Are Turned Down—Other News of Today in Military Circles

There is a rumor to the effect that a battalion will be raised in the near future to provide places for those who are at present suffering from some slight physical inability. The object of the battalion, it is said, is to make provision for those men who are just now medically unfit for overseas service, or who have some minor disease and are undergoing treatment. The men will take up slight drill and time may restore them to good condition. This will give men of this type a chance to see service. They will be used as drafts to fill up units that are about to embark for overseas.

There are a large number of men who daily come to the recruiting office and are classed as unfit physically and it is believed many can be brought into condition. No particulars have been received yet as to where the headquarters will be or who will be the commanding officer.

Captain D. Allen Laurie, who has received his promotion, will be a major in the 26th New Brunswick Klitke Battalion and will be given a company command. Major Laurie has been attached to the headquarters staff here for some time and in recognition of his services he has received a reward from his O.C. Major Laurie is a native of Quebec, but has made his home in Campbell street. He has seen service in France, going across with the 2nd Battalion and later being transferred to the 12th. He was hit by shrapnel and was ordered back to Canada. His many friends will congratulate him on his promotion.

It is rumored that Q. M. S. Grove will receive a commission in Colonel Guthrie's Klitke Battalion. At present he is in Fredericton on business in connection with the battalion.

Lieut.-Col. A. Guthrie is still in Fredericton in the interest of the battalion. He is expected home tomorrow.

S. P. Smith and escort of the Pioneer Battalion, who came here from St. Andrews yesterday, will return today to their headquarters.

There is yet nothing official as to some 2,000 or 2,500 troops coming to St. John for training.

VINCENT M. JOYCE HAS RECOVERED FROM WOUNDS

Carleton Soldier Now Probably on Few Days Leave Before Returning to Front

Mrs. Michael Joyce, of 298 Guilford street, West End, received the following reply yesterday in answer to an inquiry which she sent to the adjutant-general at Ottawa:—"Further reply to your telegram July 8, cable received from England, states that Pte. Vincent M. Joyce discharged from hospital July 19. Will send further information when received."

This was the reply that Mrs. Joyce received concerning a telegram she sent from Ottawa concerning her son, Pte. V. M. Joyce, who was reported wounded some two weeks ago. Almost simultaneous with the reception of the despatch Mrs. Joyce received a card from her son stating that he expected to get ten days leave from the hospital previous to returning to France. This with the information conveyed in the telegram would indicate that Pte. Joyce is now enjoying a few days furlough before he returns to the firing line.

W. P. NODWELL NOW IS STAFF SERGEANT

Pleasing News of St. John Soldier's Promotion Comes to Family

Mrs. W. P. Nodwell, of 154 Brussels street, has just received two letters from her husband, William P. Nodwell, who left Canada with the A. S. C. He tells of his promotion from the ranks to the position of staff sergeant. This news will be received with pleasure by his friends in and about the city.

Writing under date of July 10, he speaks emphatically concerning his going to France to do his share in the defence of king and country. He says that he has gone to France "to see the thing through and to a finish." He intimates that he would not remain home and "be a coward" but would rather do his share in this business of the British Empire.

Staff Sergeant Nodwell, writing to his sister under date of July 8 from Belgium, says he has seen many St. John boys in his travels and all in his corps are in the best of health and spirits.
