TO THE MEMBERS OF THE
CHURCH AND CONGREGATION.

MEETING IN QUEEN'S ROAD, ST. JOHN'S, N.F.L.D.

DEAR BRETHREN AND FRIENDS,—

The past year has been marked by important events in our Church life; both in St. John's and among our missions we have seen decided signs of prosperity. Our efforts to repair and renovate the Church edifice have been signally successful, and indeed the absence of all pressure in collecting such a large sum as £900 for this purpose may lead some to underestimate the extent of the work done. My intercourse with you in this connection has drawn our spiritual bonds closer, and now a renovated house of worship calls for a quickened and purified spiritual life among the worshippers. Special attention has been given so to the spiritual care of the young, and our Sunday School and Bible Classes are in a very efficient state, while the Pastor's Bible Class is kept up with unabated interest, and questions affecting the most vital issues of life are thus brought before the persons who are the real hope of the Church. The new Temperance Society has been singularly successful, and we hail with deep gratitude the presence of so many young persons of both sexes to the ranks of the pledged abstainers. These Classes and Societies for the regular and healthy maintenance of Church life, and as a proof of our interest in the spiritual and temporal welfare of the people are of supreme importance, and demand the prayerful interest and cooperation of all. But the thought is pressing home upon many of us—"Is there an adequate spiritual harvest from all this sowing of seed?" We want to gather in the golden grain for the garner of the Divine Master. God has been knocking very loudly at the doors of many of our families the past year, and many hearts we know have been troubled. Are these impressions to die away, are we not to see when good

33884

cometh? Don't let pleasure or business cheat you out of your soul's salvation. What shall it profit a man if he gain the whole world and lose his *life*, or what will a man give in exchange for his *life*? We want this year to save souls—to renovate the *Spiritual Temple*. I direct your special attention to the Missionary Report, and ask you to join in gratitude and praise for the continued and increasing interest shown in this blessed and unselfish work. Have you given your own heart to Christ? Then work for him, for the time is short.

Your sincere well-wisher and Pastor,

DAVID BEATON.

**FOURTEENTH ANNUAL REPORT OF THE
C. H. M. SOCIETY.**

In submitting the Fourteenth Annual Report of the Home Missionary Society, your Committee have much pleasure in informing you that the work of missions has been most earnestly, and with many signs of success, prosecuted by the agents of your Society during the past year. There have been no changes in the staff of workers, and no question of land or other property necessitating the same number of meetings of Committee as last year, but these are to be taken as evidences of success rather than otherwise; just as the flower thrives best when left alone to nature's genial forces.

In the month of August Mr. Beaton made a visit to the deeply interesting and valuable mission at Bonne Esperance, Labrador, where Mr. Roger, his wife, and Miss Corry, are so faithfully and successfully maintaining a testimony for Christ. Both from personal observation and from letters since received from Mr. Roger, we are convinced that he is the right man for the place, and the esteem in which he and his household are held by Mr. Whitely, who is best able to judge, confirms us in this opinion. (There is a comfortable parsonage and commodious chapel at the summer station, and the hearty and yet reverent attitude of the worshipers, shew the importance which the people themselves attach to the service.) Mr. Roger just had time to establish himself and get acquainted with the people when Mr. Beaton arrived, but from the manner in which he was received by all the families which they visited together, it is plain that he is gaining their respect, while the kindly and gentle services of Mrs. Roger are deeply appreciated by the people. Mr. Beaton as representing the Church in St. John's, and the Ladies Labrador Missionary Society in Canada, held an ordination service and set Mr. Roger apart to the work of the Christian ministry in Bonne Esperance, and as a Missionary to the coast of Labrador, and already he has given evidence of his missionary zeal and his Christian enterprise in extended visits far down the coast towards the Red Bay Settlement, (the Gospel is thus preached by our Missionary in parts never visited by a preacher of the truth, and a needy and difficult field faithfully supplied with the good seed of the Kingdom. The attendance at the services held by Mr. Beaton was

about eighty in the morning and one hundred and fifty in the evening, while during winter there will be about forty families settled around the Mission.) The following extract will give you a good idea of Mr. Roder's journeys along the coast:—"During the first part of March, 1883, I went along the coast visiting isolated houses distant from one another about six, eight or twelve miles, meetings were also held where there were a few houses together, an audience of fifty or sixty would be present; there is much ignorance and superstition among the people, they all give a nominal adherence to some church; but the fact is, they know nothing, and few can read except those trained at Bonne Esperance. During the winter we might be able to visit a thousand people along the coast and carry the word of life to them." No one in this audience knowing the severities of an arctic winter and the lonely isolation of our brothers and sisters on the Labrador, but can appreciate the courage and faithfulness needed to do such work in the right spirit; and to have the privilege of praying for, and supporting, such work and such workers is no small honor. Mr. Beaton hopes to have an opportunity in June next of enforcing upon the Ladies Society in Canada the continued urgency of missions in Labrador, a mission whose past is bright with trophies of Divine Grace, and whose present activity is as deeply needed as it is truly appreciated by those on the spot.

The Church at Twillingate has fully maintained its reputation as a flourishing mission, and this year has seen the initiation and completion of a school building which was much needed for the growing prosperity of that important adjunct of outport Church life, the Day School. Mr. Beaton was able to spend a few hours with the friends in Twillingate on his way to Labrador, and saw the school; and the friends of the cause in St. John's themselves remember that Mr. Mackay made a most successful appeal, both for the School and a Chapel Organ. From Mr. Mackay's report we have made the following extract:—"If outward prosperity is any safe sign of spiritual growth, then the past year has been the most prosperous in the history of this Mission. It may not be my duty to draw conclusions, but simply to describe the outward state of matters, and leave the facts to speak for themselves. The attendance at our ordinary services has been very good, considering the number of the congregation. Our Bible Class last year was, so far as attendance, interest and intelligence

Heavenly
known, a

is concerned, equal to similar classes held in congregations four times as large. The attendance at Prayer meetings has been very fair. The Sunday School is in a flourishing condition; there are sixty-six scholars on the roll. The new School is a small but handsome building; at this time last year the idea of building was looked upon by the people as a sort of financial bugbear, but their fears were disappointed and all difficulties have vanished. Not only is the school built, but the money was in hand before it was completed. We have also added an organ and a neat pulpit on the platform. The gross income of the mission from all quarters has been considerably over £130, being more than double the income of any previous year in the history of the mission. Upon the whole, the mission is now in fair working order, and if the power of Christ's love prevail among us we are bound to prosper in the highest sense of the word.

From the full and clear report which Mr. Squires, of Random, has forwarded he seems to have spent a laborious year. We cannot say that much has as yet come of the land arrangement agreed to by your Committee, and perhaps the plan of getting people to come and settle on our mission property has more drawbacks than was at first anticipated. The following extract will serve to show the extent and character of his work:—"We held our second Missionary meeting on the 26th of December last, which was indeed a grand sight, one hundred and thirty persons came together in the little church with their cents and dollars to help on the interest of Congregational Mission work in Random. The collection on this occasion amounted to £5." Now I have to tell you of my visits around the Island, and some of their happy results. On the 27th December last I went to Snook's Arm, and with the help of Miss Radford (who is doing an acceptable work for the Lord here) we were enabled to have a Missionary meeting in behalf of your Society's funds, when something like thirty persons came, and over thirty shillings were subscribed; and as I stayed with them the next day they made up fifty shillings. Then on the 29th I travelled (knee-deep in snow water) across the Island to Elliot Cove, and when I promised to preach to encourage your Missionary to come again, they made a collection and presented me with ten shillings as a free will offering. On my arrival at Foster's point I found that our Heavenly Father had made the action of the people of Elliot Cove known, and after preaching twice for them they collected eleven shil-

lings and eightpence. Then on my arrival at Robinson's Bight, while I was resting before service, in the house of Mr. Job Pelly, Mr. Pelly's sons came in with others and placed in my hand seven shillings and sixpence, and promised more when I came again."

With regard to our most interesting and most destitute Mission in Fortune Bay, we are gratified to be able to speak in most encouraging terms. Missionary McAdie, after a little experience of the field, has been able to lay hold of the work with both hands, as it were, and his constant and untiring devotion is amply attested by the healthy state of his own Mission at Pool's Cove, and the frequent visits he has made to places far apart in that open, rugged and spiritually destitute part of our country. In his report he says:—"The attendance at Sunday services varies considerably, as we sometimes have a good many visitors from other parts, and at times many of our people are away. Twenty has been our smallest and eighty our largest for both services, averaging probably twenty-five at each service during the year. Our Sunday School is also fairly successful, the largest class, girls, is taught by Miss Cross, with ability that reflect credit on the teacher; the other class, for which I am responsible, is not what it might be. Besides Pool's Cove I have visited twenty-three settlements, and I find, as a rule, beyond our settlement that the people know but little of the truths of the Gospel, there are a few in the larger settlements, but ignorance is emphatically the rule; on some occasions when reading some of the best known passages of the New Testament, the people did not know what book it was, and I have had the Scriptures brought me to see if they were good books, yet matters are certainly improving, there is little open hostility, and we are seldom refused admittance into the homes of the people. It has been my habit to visit all the houses I could get access to in each settlement visited, and as many as practicable on second and after visits, this has been impossible in some cases, but there are exceptions. The sick have had my special care. Tracts have as a rule been gladly accepted; there is little other reading matter to be met with. Often difficulties, and sometimes dangers, have been encountered, but hitherto the Lord has helped us."

To the Ladies' Auxillary Society we are deeply indebted for their valuable assistance during the past year, they having contributed

to the funds of your Society the sum of £29 7 11. We tender them our cordial thanks for their timely aid and for the energy they display in their Missionary labours.

To the Juvenile Missionary Society we tender our warmest thanks for the zealous manner in which they have worked this year; through their united efforts they have been able to place at the disposal of your Society the large sum of £74 13 8.

In concluding this report your Committee would urge upon all interested in the cause of Missionary and Educational work the great necessity for continued exertion. It is only fourteen years ago that a little band assembled here to form this Society, and for the purpose of establishing the means of grace in parts of our Island then destitute of religious instruction; of the Committee then appointed, fourteen in number, only six now remain, and it must be gratifying to those pioneers (some of whom are now on the Committee) when they contrast the past with the present. Since that time ten Missionaries have been engaged by your Society, and of the work they have done you are all well aware. Hundreds are now feeling the benefit of their instruction, in many places where education was unknown they are now enjoying that blessing, in families where not one could read they can now sit round and hear the Bible read by their children. Still the cry is going out for more help, and it is our duty to stretch out the helping hand. We want to extend operations, and to do so we require the means; a slight increase in the donations from each member will amount to a great deal in the year's collection. We leave the matter with you, and sincerely trust that the ensuing year will be crowned with success.

We cannot conclude without referring to the very valuable aid rendered to our Missionary work by the St. John's Training School, still under the able guidance of Miss M. Good. The Teachers which continue to be sent forth from that Institution have made their mark as messengers of the Gospel as well as instructors of the young, and we look upon our Educational work as a noble auxiliary of Missions.

To the Colonial Missionary Society of England we render our warmest thanks both for their grant of money and the encouragement they give to our Superintendent; while to our tried friend, Mr. Neilson, of Motherwell, we acknowledge our continued indebtedness for his generous remembrance of the work of Christian Missions in Newfoundland.
