THE INDUSTRIAL SCHOOLS.

The attendance at the Victoria Industrial School for boys during 1898 was 180. Of these 69 attended during the whole year, 57 were sent from the Institution, and 54 were admitted. The principal states that the boys are improving in conduct, and there is less trouble in their management than formerly.

The teachers in the school are doing efficient work, considering the fact that the pupils in all but the lowest class attend school only one-half of each day. It would be desirable to have the hours of teaching lengthened in order that the pupils might be able to give more time to their studies. There seems to be no reason for having the school hours in an Industrial School correspond with those in an ordinary Public School.

The attendance at the Alexandra Industrial School for girls during 1898 was 32. Of these, 7 attended during the whole year, 9 were sent out during the year, and 15 were admitted. One death occurred during the year.

The girls are attentive to their work, and considering the circumstances, they do good work.

SCHOOL LIBRARIES.

There are thirty teachers' libraries in the schools. In some instances two schools are united for library purposes.

Each library now contains 129 books, including the following books purchased in 1898:

40 Study of Children.

47 Principles and Practice of Teaching.

30 Bird Neighbors.

30 La Salle.

30 Garden Making.

43 Music Book—Mother Play.

30 Montcalm and Wolfe. 2 vols.

TEACHERS' READING COURSE.

The following teachers have read the books prescribed by the Education Department for the Teachers' Reading Course for 1898: Teaching the Language Arts—Hinsdale; Education of the Greek People—Davidson; The Old Regime in Canada under Louis XIV.—Parkman.

REPORT OF THE CLERK OF SUPPLIES.

I beg leave to submit the following report re Text Books, General Supplies and Kindergarten Supplies for the year ending December 1898.

On taking over the Supply Department in April last, my first duty was to make some changes in the Store-room to put it into a business-like shape so that goods received into the store-room and also those delivered to the schools could be properly checked. That, together with taking the stock, took some time, and I am pleased to say that everything is now working very satisfactorily. I have visited every school in the city since then and taken stock of the Text Books and Supplies on hand and noted the condition of same. I have furnished each Principal with a new account book showing the stock charged to his school; each assistant teacher has also been supplied with a new account book; an account has been opened with every Kindergarten and Night School so that in future all supplies received and charged to them will be shown in the same way as is done in the other schools. These accounts have not been kept in the past.

The Text Books were found to be in a fairly good condition with a few exceptions; of course every year there will be books that will require to be rebound, also a number unfit for use. This year there were 2701 books rebound, and 2187 condemned as being unfit for use

RYERSON SCHOOL.

1032 Text Books and a considerable amount of General Supplies were sold. 273 Texts Books were destroyed by the Medical Health Officer owing to contagion being in the homes of children using them.

I recommend that Second Readers should not be rebound. They cost the School Board 16 cents each and after being in use say five years they are too much soiled by constant handling to be given out again and it does not pay to spend 10 cents each for rebinding them. The marginal spaces in the Note, Exercise and Dictation books I think might be made smaller, thereby giving more working space on each leaf.

See tabulated tables (A), (B), (C), (D) in the Appendix to the Minutes of the Board, showing the quantity of Text Books, General Supplies and Kindergarten Supplies on hand at the time of taking over the Supply Department, the quantity purchased since, the quantity delivered during the year and the quantity on hand at the end of December, 1898.

Respectfully submitted,

WILLIAM KERR,

Clerk of Supplies.

MUSIC REPORTS.

MR. PERRIN'S REPORT.

The progress of the pupils in the subject of singing has been quite as satisfactory as in the previous years, and the growing liking the pupils show for this branch of study, as must be witnessed by the teachers, gives much encouragement.

Part singing has been undertaken very generally in the IV. book classes, both in exercise and song work, and likewise in most of the Senior III. book classes where the pupils have been found prepared. From its exercise, the scholars have learned to appreciate the beauty, ever newly formed by the intermingling of the sounds, and from it as a valuable adjunct, have also gained a more tuneful impression of the sounds than they could otherwise have done.

In some classes, pupils have been successful in singing out from the key in the proper order, the notes of some familiarly known song, while the class though unable at the time to recognize the song, sings the selected notes.

In consequence of the training the pupils are constantly receiving, their voices have grown to be much sweeter, and their reading of the notes more accurate. The degree of enjoyment the pupils are likely at any time to draw from a lesson, depends in a measure upon the ease with which the notes are read.

Pupils when promoted to the Senior III. book classes, are frequently ill prepared for taking up the practice of the scale. The teachers feel this deficiency a drawback, when with the notes its practice is resumed. It is desirable that all pupils especially when entering the Senior IV. book classes, should have a practical knowledge of the notes.

The newer teachers, many of them though unable at first to lead their classes in singing, are afterwards as a rule more successful in this respect.

There is still considerable indifference on the part of many pupils to unite in the singing. The proportion of those not joining in the singing, is far larger than it should be. On my rounds to the schools, this defect is remedied as much as possible. There are yet quite a number of class-rooms without the much prized blackboard on which the notes can be permanently placed, more easily copied and conveniently seen.

Respectfully submitted,

A. P. PERRIN,

Music Teacher.

MR. CRINGAN'S REPORT.

In presenting my report on Music for the past year it affords me much pleasure to state that the results accomplished by the regular teachers have been exceedingly satisfactory in many respects. The high standard obtained in reading music at sight has been fully maintained. In this respect the majority of the classes have complied with the requirements of the Course of Study prescribed, and, in many instances, these have been exceeded.

In the Fourth Book classes regular instruction has been given in the transition from Tonic—Solfa to the Staff notation. The results have clearly demonstrated the value of the training in Tonic-Solfa imparted in the junior classes as the pupils readily master the notational difficulties of the staff which are merely a new representation of musical facts and effects already mastered through the medium of the more simple, and easily comprehended Tonic-Solfa.

The results in Voice-production and Tone-quality have steadily improved. Much attention has been given to exercises calculated to form correct habits of breath-control and tone-formation without which anything worthy to be called singing is impossible of attainment. I have endeavored to demonstrate that all harsh and strident tone quality is the direct result of excessive breath pressure consequent on the imperfect control of the chest muscles which regulate the flow of breath to the vocal chords. Where this condition exists an undue strain is placed upon the vocal chords, the extrinsic muscles of the throat and pharynx are constricted and the production of natural, resonant vocal tone is seriously impeded. The results are visibly apparent in the contraction of the facial muscles and the constricted appearance of the lower jaw which renders the proper formation of consonants and vowels an impossibility.

During the year some attention has been given to the teaching of part-singing, but the results have not been attended with the success that could be desired. This is to be regretted as part-singing is the most educative branch of music teaching possible in classes where no instrumental accompaniment is available. Where everything is sung in unison, and without any accompaniment whatever to supply the essential harmonic coloring the effect is apt to become somewhat monoton-Where the harmonies are supplied by one or two ous. additional vocal parts the musical effect becomes much more pleasing and agreeable. In addition to this the practice of part singing provides an excellent mental discipline, which tends to cultivate independence in maintaining individuality of the parts, and co-operation in blending them into an harmonious unity. In the classes provided with music books the results have been much more satisfactory than in those not yet supplied with suitable selections of part songs.

During the last five weeks of the spring session I was engaged in preparing the pupils for the annual concert in Massey Hall. About eight hundred pupils attended the rehearsals which were held on Saturday afternoons in order that the regular studies might proceed without interruption. The programme evidently gave satisfaction to the large audience present, but personally I am of the opinion that it was not quite up to the standard of previous years. To prepare a programme worthy of our public schools, and fitted to represent them before a discriminating audience, would require double the number of rehearsals that were possible last year.

Much credit is deserved by the regular teachers in my department for the cordial manner in which they have endeavored to put into practice any helpful suggestions which I may have been able to offer.

REPORT OF THE INSTRUCTOR IN MILITARY DRILL AND PHYSICAL EXERCISES.

I have the honor to submit for the information of the Chairman and members of the Toronto Public School Board the following report in connection with the Military Drill and Physical Exercises in the Toronto Public Schools during the year 1898.

CADET COMPANIES.

I am again pleased to report that the work of the cadet companies has been very satisfactory. It will be seen by the efficiency return that the companies composing No. 1 Battalion are the same as last year. This is the fourth year that this Battalion has held first place.

ANNUAL REVIEW AND INSPECTION.

The annual review and inspection of the Toronto Public School Cadets was held on 2nd of June. Lieut. Col. Otter, District Officer Commanding Military District No. 2, reviewed the Cadets as they marched up Simcoe street, and afterwards inspected the Battalions after they had been formed into line on Queen street avenue. He was pleased to compliment the Cadets on the creditable way in which they had performed the several movements. There were present on parade 39 companies, including 1 company from Victoria Industrial School, with a total strength of 1567.

After the review and inspection the Cadets assisted the Veterans of '66 and the Battleford and Batoche Colums in decorating the monuments erected to the memory of the volunteers that were killed in 1866 and 1885. Lieut. Col. Mason Commanding Royal Grenadiers was in command. I herein send you a copy of a letter received from him, which expresses his admiration for the work done by the Cadets. I am very much indebted to Major Leslie and Captains Curran, Elliott and Gillies of the York Rangers for the able assistance rendered me at the parade.

CARE OF ARMS.

The care of the rifles supplied to the several companies, I am pleased to report, has been satisfactory.

SENIOR CLASSES (GIRLS).

The work of the senior girls for the past year has shown a marked improvement, but as very few of the

teachers give the necessary time to the practice of the physical exercises as given to the girls by me, the work is not as satisfactory as I should desire. The girls themselves are taking a greater interest in the work, and if the teachers were to practice the exercises with their classes the results would be very much better, while the teachers would also receive a benefit. Once more I strongly recommend that in these classes physical exercises with apparatus be taught.

JUNIOR CLASSES.

The work in the junior classes is steadily improving, a greater interest being taken by the pupils.

SPECIAL CLASSES.

The class of model students consisting of 40 students was instructed during the term in military drill and physical exercises. Most of the students succeeded in passing the examination at the end of the term.

I gave special instruction to two classes of girls taken from the senior classes of the several schools. These classes took part in the annual school concert held in Massey Hall. One class gave an exhibition of Wand drill, the other class consisting of 46 girls performed the Scarf drill. These classes did their work in a most reditable manner.

The class of 24 cadets that took part in the annual school concert received special instruction in physical drill with arms. The work was very satisfactory.

year, through the During the Stephen W. Burns Esq., Chairman of the Board, and Inspector James L. Hughes, permission was obtained from the Honourable, the Minister of Education and the Militia Department. formation of six companies of Public School Cadets. In response to the request for pupils to join the companies, I had six hundred applications, enough for twelve companies. The service rolls were duly signed and, together with the recommendations for the appointment of officers, and requisitions for arms and equipment, were sent to the Militia Department. The School Board has been endeavoring to obtain this permission from the Militia Department for several years past, and I am pleased to report that we are now in a fair way to accomplish the formation of the Cadet corps.

An invitation was received from Governor Bloxham of Florida, for the presence of a company of Toronto Public School Cadets in Tampa during the Military convention to be held in Tampa, Florida, during February, 1899. The invitation was accepted and the Board granted permission for the company to go.

I herewith forward a return of comparative efficiency of the several battalions, also parade states for June 2nd. I have the honor to be, gentlemen,

Your obedient servant,

JOHN T. THOMPSON, MAJOR,

Instructor in Drill and Physical Exercise.

Toronto, June 3rd, 1898.

MY DEAR MAJOR THOMPSON:

I think it only my duty to say to you that the behaviour of the boys composing the Public School Brigade was most commendable.

The parade was a trying one considering the time they were out, the ground they had to go over and the heat of the day.

My position as the senior officer in charge of the parade from the time they arrived at the Armouries gave me every opportunity of judging, and I could not help noticing how readily they obeyed the commands of their officers up to the end, and how well the movements were performed, more especially the formations into and from lines of Quarter Columns, rendered more difficult because done on ground more or less (unavoidably) impeded by crowds of spectators, the whole reflecting much credit on the boys themselves as well as on those responsible for their drill and discipline.

I sincerely trust that such organizations will soon become general throughout the whole country and that in the near future every educational institution for boys in the Dominion will have its drilled company or companies.

Iam

Yours very truly,

(Signed) J. MASON, Lieut-Col.,

Commanding Royal Grenadiers.

GRAMMAR.

JUNIOR FIFTH CLASS.

1. My whole life I have lived in pleasant thought,

As if life's business were a summer mood;
As if all needful things would come unsought
To genial faith, still rich in genial good;
But how can he expect that others should
Build for him, sow for him, and at his call
Love him, who for himself will take no heed at all?

- (g) What does the poem itself reveal of the personality of the supposed author? Quote fully in support of your answer.
- 2. "For two alone there in the hall,
 Is spread the table round and small;
 Upon the polished silver shine
 The evening lamps, but more divine,
 The light of love shines over all:
 Of love, that says not mine and thine,
 But ours, for ours is thine and mine."
 - (a) From what poem is the above extract taken?
 - (b) In a single sentence give the chief idea running through the poem.
 - (c) Give the circumstances of time, place and mood under which the poem was written.

3. "My loved, my honor'd, much respected friend:
No mercenary bard his homage pays;
With honest pride, I scorn each selfish end,—
My dearest meed, a friend's esteem and praise:
To you I sing, in simple Scottish lays,
The lowly train in life's sequester'd scene;
The native feelings strong, the guileless ways;
What Aiken in a cottage would have been:
Ah! though his work unknown, far happier there
I ween."

- (a) State from what poem the extract is taken. Name its author. In a single phrase state the topic of this stanza.
- (b) Who is the "much respected friend"? Why "much respected"?
- (c) Explain "mercenary bard," "dearest meed," "sequester'd scene," "lowly train."

LITERATURE.

SENIOR FOURTH BOOK.

There came to the beach a poor exile of Erin;.

The dew on his thin robe was heavy and chill;

For his country he sighed, when at twilight repairing

To wander alone by the wind-beaten hill.

But the day-star attracted his eyes' sad devotion;

For it rose oe'r his own native isle of the ocean,

Where once, in the fire of his youthful emotion,

He sang the bold anthem of Erin-go-bragh.

"Sad is my fate," said the heart-broken stranger:

"The wild deer and wolf to a covert can flee;
But I have no refuge from famine and danger,
A home and a country remain not to me.

Never again, in the green sunny bowers

Where my forefathers lived, shall I spend the sweet hours!

Or cover my harp with the wild-woven flowers.

Or cover my harp with the wild-woven flowers, And strike to the *numbers* of Erin-go-bragh. "Erin, my country! though sad and forsaken,
In dreams I revisit thy sea-beaten shore:
But, alas! in a far foreign land I awaken,
And sigh for the friends who can meet me no more!
Oh, cruel fate! wilt thou never replace me
In a mansion of peace where no perils can chase me?
Never again shall my brothers embrace me!
They died to defend me, or live to deplore!

Where is my cabin door, fast by the wild wood?
Sisters and Sire, did ye weep for its fall?
Where is the mother that looked on my childhood?
And where is the bosom-friend dearer than all?
Ah! my sad heart, long abandoned by pleasure!
Why did it dote on a fast-fading treasure?
Tears like the rain-drops may fall without measure,
But rapture and beauty they cannot recall.

"Yet all its sad recollections suppressing,
One dying wish my lone bosom can draw,
Erin! an exile bequeathes thee his blessings!
Land of my forefathers, Erin-go-bragh!
Buried and cold, when my heart stills her motion,
Green be thy fields, sweetest isle of the ocean!
And thy harp striking bards sing aloud with devotion,
Erin, mayourneer, Erin-go-bragh.

"Let Randolph," he said, "redeem his own fault; I cannot break the order of battle for his sake." Still the danger appeared greater, and the English horse seemed entirely to encompass the small handful of Scottish infantry. "So please you," said Douglas to the King, "my heart will not suffer me to stand idle and see Randoph perish. I must go to his assistance." He rode off accordingly: but long before he and his men had reached the place of combat they saw the English horses galloping off, many with empty saddles.

"Halt!" said Douglas to his men. "Randolph has gained the day; since we are not soon enough to help him in the battle, do not let us lessen his glory by approaching the field."
