Miscellaneous.
Strange.
I.
Strange that the wind should be left so free, To play with a flower or tear a tree; To range or to ramble wh'er it will, And as it lists to be fierce or still, And around to breathe of life, Or to mingle the earth and sky in strife; Gentle to whisper with morning light, Yet to growl like a feroce fiend at night, To love and to cherish and bless to-day, What to-morrow it ruthlessly rends away.

II.
Strange, that the sun should call into birth, All the fairest flowers and fruits of earth, Then bid them perish and see them die, While they cheer the soul and gladden the eye. At morn their child is the pride of spring, To-day there is hope and life in its breath; To-morrow it sinks to a useless death, Strange, does it seem, that the sun should joy To give life alone that it may destroy.

III.
Strange, that the ocean should come and go, With its daily and nightly ebb and flow; To bear on its placid breast at morn, The barque that ere night will be tempest torn. To cherish it all the way it may roam, Then leave it a wreck within sight of home. To smile as the mariner's toils are o'er, Then watch the dead to his cottage door, And gently ripple o'er his strand, To watch the widow behold his hand.

IV.
But stranger than all that man must die; He walks forth a lord and his hopes are high, He walks forth a form of the earth to day And to-morrow behold him a part of its clay. He mourns in sorrow and cradled in pain, And from youth to old age it is labor in vain. And all that seventy years can show, Is that wealth is trouble and wisdom is woe. He walks a path of care and strife, He drinks of the poisonous cup of life.

Appalling Shipwrecks.
A Storm in the Bay of Biscay Drowns 230 Fishermen.
A correspondent of the London Daily News writes from Madrid, April 25:—A terrible disaster occurred in the Bay of Biscay last Saturday. It was holy week, and for several days the fishing boats had not left their ports. The nets had been hung out to dry, and the men loitered about to look on the quaint processions of Good Friday. The weather had been very fine during the earlier part of the week, and on Saturday the sun rose gloriously, before eight o'clock the sails of the fishermen of Biscay studied the horizon. The sea rose very fast, and the waves increased on the sands. Gulls and other birds began to sweep along the surface of the water with their peculiar cry. The sky grew overcast rapidly, and then the fierce "moans," the north-west of Basque ballads, began to howl and rage in a manner which made the bravest hearts quake. People gathered on the piers and on the rocks to gaze at the approaching squall, which came on with rain, hail, and sleet, hiding the sea from view, and driving all to their homes. When the squall was over crowds of women and children flocked around the dismayed authorities and despairingly complained of the post captain having allowed the boats to leave. In vain did the officials protest that they had no reason to suppose that the beautiful morning would end in a squall. In vain did they say that they had no power to prevent the men going on their expedition. Heart-rending cries were heard, and still no news came, until it was reported that on some beach three shipwrecked boys had been found. Then blankets and baskets washed in, and larger vessels which had weathered the storm brought in the dismal tale. The evening waned and some boats, more fortunate, came in, only to increase the agony of the bereaved with certain details of destruction to their comrades. Santander had lost seven large boats and five smaller ones, with 75 men and lads. Other places in the same Province had during the night reported about 25 boats lost, with crews varying from four to eleven hands. Biscay had suffered most, and the excitement in Bilbao was intense on Sunday, as telegram after telegram came in from the skelides on the coast. Off Cape Machichaco, well known to all vessels entering the Bilbao River, the squall had been most violent. Elenchovi, with 300 inhabitants, lost 69 men and 8 boats; Lequeitio, Deva, Dhoarora, and Plencia, each lost 3 smacks. At the head of the casualty list stands Bermeo, the picturesque and lovely little town, situated near the cape; 196 of its fishermen perished in 16 boats. The alcalde of the place telegraphs that the misery and grief of the wretched families are terrible. More than 40 widows and 200 children in a town of 1,600 inhabitants, are mourning this great calamity. Details have not yet been received from Asturias and the Galician coast. The official telegrams report a total loss up to yesterday of 320 men and boys in about 90 boats of different sizes. The local authorities have taken steps to relieve the widows and orphans, and for that purpose subscriptions have been raised in Bilbao, Santander and Madrid. For the most

pressing requirements the Government telegraphed to place 5,000 doblas, about £200, at the disposal of the governors of Bilbao and Santander. The Basques residing in Madrid have formed a committee to receive subscriptions and forward the same to the Provincial authorities. Little wreckage has been cast ashore by the sea, and no trace is left of the fishing fleet of Biscay.

The Opposition Policy.
The following resolution, which was moved in the House of Commons by Sir John Macdonald, represents the commercial policy of the Opposition:—
"That this House is of opinion that the welfare of Canada requires the adoption of a national policy, which by a judicious restriction of Tariffs, will benefit and foster the Agricultural, the Mining, the Manufacturing, the Interests of the Dominion; that such a Policy will retain in Canada thousands of our fellow countrymen, now obliged to expatriate themselves in search of the employment denied them at home; will store prosperity to our struggling industries, now so sadly depressed; will develop an active inter-provincial trade and moving (as it ought to do) in the direction of a reciprocity of Tariffs, with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to promote the commercial, eventually, reciprocity of trade."

But, as we have remarked, "Face Reform!"—Times.

THE PAROLE POWER as a POLITICAL FORCE.—Says the Mail:—"A few cases have lately been brought to our notice of persons convicted of crimes and sentenced to long terms in the Central Prison, having been discharged before serving their terms. The facts connected with one case at least show that the man was liberated by the Ottawa Government because of the influence of a certain Grit member in whose constituency he is a voter. This is a most reprehensible state of things."

COMPELLED TO SEEK A LIVING ABROAD.—Over 100 French Canadians from the vicinity of Montreal and Quebec, Canada, have arrived at Barrington, R. I., where they are to be employed during the summer in brick-making for the Nayatt Brick Company, in their Brick yard near Nayatt Point. Thirty-six others arrived last Saturday, and yet the Government continues annually to expend thousands of dollars to induce emigration to this country, while persisting in a fiscal policy which has compelled our people to seek employment abroad which they cannot obtain at home.—Gazette.

FATAL ACCIDENT.—John O'Brien, a brakeman, who was jammed between two railway cars at Point du Chene, was killed yesterday. His injuries were in the chest. O'Brien belonged to the Upper Provinces and had been engaged in working the summer in brick-making at home. He was a native of the Point, a letter from his wife arrived from home.—Moncton Times, 30th.

Coroner Hannington's Charge to the Jury in the M. Carthy Inquest.
The following is our Reporter's summary of the Coroner's Charge:—"Gentlemen of the Jury—After a long and patient enquiry as to the manner in which Timothy M. Carthy came to his death, during which eighty interrogatories have been taken, you are now called upon to deliberate upon the question: Was the body found that of M. Carthy? If so, how came he to his death? If in violent death, whose hands? Before speaking to you of the different evidences I would bear testimony to the ability and discretion displayed both by the Council for the Crown and Counsel for the prisoners, they having lost no time in calling forward their witnesses and in the examination of them when called. This is the first case in the history of the Province where at an Inquest Counsel have appeared for prisoners. In this case the prisoners made application for the admission of the prisoners as evidence; the prisoners, having been charged in another Court with the crime of murder, were admitted as evidence in the present case. This is the first case in the history of the Province where at an Inquest Counsel have appeared for prisoners. In this case the prisoners made application for the admission of the prisoners as evidence; the prisoners, having been charged in another Court with the crime of murder, were admitted as evidence in the present case. You are now called upon to deliberate upon the question: Was the body found that of M. Carthy? If so, how came he to his death? If in violent death, whose hands? Before speaking to you of the different evidences I would bear testimony to the ability and discretion displayed both by the Council for the Crown and Counsel for the prisoners, they having lost no time in calling forward their witnesses and in the examination of them when called. The new exhibition is to be held at Paris, and is a consecration of protection. Conquered France has at last conquered its proud captor. Prince Bismarck has just issued a manifesto through one of his organs, in which he explains his new financial policy. It seems that he has been meditating over the financial system of France, and is lost in admiration of what he finds to be its basis and its method. It is through protection that France pays the interest on the loans which she carried off. He thought that he had crushed France pecuniarily, and he discovers that apparently she is not crushed at all. Her national and local taxation now amounts to about £150,000,000 a year, and the Chamber is daily entangling in new and vast schemes for railways, canals and improved military organization. How this is done is the question which Prince Bismarck has seriously asked himself, and the only answer he can discover is that it is done through a system of wise and bold protection. He therefore invites his countrymen not to begin imitating France. Free trade is only a theory, and theories, as Goethe has taught his countrymen, are apt to get gray and old. The green and golden tree of life is protection, and of that tree sensible, prudent France has eaten freely and prospered, while Germany has looked cold, miserable and poor, feeling itself on the wind, and pluming itself on its philosophy. France and Prince Bismarck are quite wrong; but if there was one thing which the disciples of Mr. Cobden could never have expected in 1851 to live to see, it is the spectacle of a much grander exhibition than theirs, opened at a moment when the ablest of German statesmen was exhorting his countrymen to follow the paths of Protection, by adhering to which France was enabled to produce and order and prosper this new wonder of the world. And yet, in spite of this, we shall still have foolish doctrinaires telling us that Protection is "obsolete," and that Free Trade is "moving on."

Terrible Colliery Explosion.
London, June 8.—The explosion in the Evans colliery at Haydock, yesterday, occurred at 11 o'clock in the morning. The Woodpit colliery consists of two mines, the Evans and the Evans. The explosion was confined to the last one. The condition of the mine had been examined as usual about ten minutes before the disaster occurred, and was all appearance safe. There were 250 men in Woodpit, 18 in Ravenshead, and remainder in Florida mine. The men in Ravenshead were got out immediately, one killed and others much affected by after damp. The two mines are connected by a tunnel, and it was in the working of the Florida mine, beyond the tunnel, that the explosion occurred. It is the general opinion that every man in that part of the mine died. Experts have found dead bodies of men and horses on every side fearfully burnt and mutilated, giving evidence of the dreadful force of the explosion. A great deal of coal occurred. The men exploring the mine are working day and night endeavoring to reach where most of the bodies are supposed to lie. Great crowds of men and children have assembled in the vicinity of the pit, and general grief prevails, nearly every family in the village of Haydock having sustained a loss of members. As no powder was used in the mine no reason can be assigned for the disaster. The manager went down the shaft five minutes after the explosion and finding a number of men at the bottom, lying on their faces, opened the ventilating doors and thus saved the lives of 15. Nine of the bodies were much disfigured. It probably will be days before all the bodies are recovered. Explorers suffered greatly, and had to be carried to the surface. A large staff of doctors are in attendance. Crowds of women have surrounded the pit since the explosion, weeping and begging for news.

Matters in York County.
At a meeting of the Teachers and officers of the Methodist Sabbath School held last week, S. D. M'Pherson, Esq., was unanimously elected to the position so long and ably filled by the late Hon. Judge Wilton. The long experience of Mr. M'Pherson as Assistant Superintendent eminently qualifies him for the responsible office to which he has been called. Dr. Atherton, for many years a successful teacher in the School, was subsequently elected Asst. Superintendent.

FAREWELL ADDRESS.—On Friday last Messrs. D. S. D'Arcy, Nathaniel Cameron, E. D. Donald, Thos. Stanger, Eben Miller, Wm. Massey, Jackson Adams, Nelson Campbell, Peter Haining, Samuel Owen, John Lottimer, and about 70 others presented an address to Rev. Wm. Cavan, late Pastor of the Presbyterian Church in this city, expressing their regret at the separation about to take place, to which Mr. Cavan made a very affectionate reply. The address was accompanied with a full purse.

NEW CHURCH.—Rev. Peter Melville, late of Kincairdine, Victoria County, has been appointed to the vacant place of the Presbyterian Church in the thriving Parish of Stanley. The Rev. gentleman's old parishioners regret the change, and will be anxious to see him settled in a new and healthy location. It is thought he will be able to sustain a heavy load by his removal.

WE UNDERSTAND THE GOVERNMENT has guaranteed \$50,000 for the Exhibition—\$4,000 on behalf of themselves, and \$2,000 on behalf of the County of York.

Items from the Gleaner.
CAPTIVED.—Mr. James Neilson's schooner "Dadzie," which left this port on Thursday, was upset off Sheela Harbor yesterday afternoon, and was towed into the harbor and now lies near Point du Cane wharf on her beam ends. It is thought she will be righted without having suffered serious damage.
NEW KILLED.—On Wednesday last the train on the Chatham Branch Railway near the chapel road crossing struck and killed a cow belonging to the "Hotel Dieu." There were no proper precautions used on this road that there should be to prevent cattle from getting on the track.

THE NEW BRUNSWICK FISHERY.—A correspondent, writing from Bathurst, June 1st, to the St. John Freeman, says: "On Monday last there were fifty thousand salmon fry from the Restigouche fish breeding establishment put in the Neigouche, between the Middle Landing and Babine Falls. They were brought down by Mr. Mott and put in the water, assisted by Mr. Yennig and Mr. Hickson. There is a large catch of salmon so far all along the shore, and the fish are much bigger than usual, some of them weighing 40 pounds. I think these are the best Restigouche salmon, as they struck here earlier than formerly. They always have lain in Restigouche before they are taken here. A short distance, wherever there is a chance of setting up a fishing establishment, from Bellefleur to Miramichi, there is one, and the quantity of salmon expected to be shipped fresh and canned will be very large. The shore all along the above course is fished by hundreds for instance, and so far the catch has been good."

UNIVERSITY OF NEW BRUNSWICK.—The Doctor of Medicine has been awarded to Mr. Mace, of Carleton, St. John, for his essay on "The Natural Resources of the Dominion of Canada." In the senior class, Mr. Belyea, of Gagetown, took the Mathematical Scholarship. In the Junior Class, the scholarship for Logic and English Literature was won by Mr. Frederick, of Fredericton, with the high average standing of 907, closely followed by Mr. M'Leod, of Carleton County, with a standing of 887. In the Public Health class, the Classical Scholarship was gained by Mr. Wilkinson, of Fredericton, with the unusually high standing of 912. Mr. Horseman of Albert County, took the Anatomical Microscope in the Junior Class; and Mr. Belyea, in addition to the Mathematical Scholarship, receives the French prize in Senior Class.

IT IS UNDERSTOOD that the Canadian Government are not to save the expense of printing the exceedingly bulky report of the Halifax Fishery Commission. Some correspondence has taken place with the Colonial Office, and it has been ascertained that the British Government are having their report printed and will furnish the Canadian Government with 500 copies. The only question that now remains is as to whether it will be translated and printed in French, which would involve an expense of \$20,000. The report is a valuable force of fourteen to fifteen translators for six months to complete the work.

SAD LOSS OF LIFE.—New York, June 10.—A Rio Janeiro letter of May 16 states that the bark Laura, with 300 inhabitants, of Cara, fleeing to Para on account of starvation at home, foundered off the coast of Brazil, and the Government is building railroads in order to give employment and food to sufferers in various Provinces who are suffering entirely, failed from drought.

WHAT'S UP NOW?—Colonel Strange, on Friday night, received a telegram from Ottawa ordering that the gunners and drivers of B Battery be held in readiness to move at a moment's notice. According to this branch of the Battery have their knapsacks packed and everything in readiness to march to the frontier if required.

COUNTERFEIT NOTES.—The Toronto Monetary Times says the following counterfeit notes are known to be in circulation: Dominion \$20, old issue; Bank British North America, \$5, stamped Kingston; Ontario, \$10; Consolidated, \$10's. Be on the look out for them.

Bishop Whittle, Episcopalian, of Virginia, is out with a vigorous condemnation of roud dancing, which he says is an abomination that he is ashamed to particularly describe. Sir Frederick Graham came out from England on purpose to fish the Restigouche. He and Hon. Col. Letellier were at Campbellton on Saturday. For his services in connection with the fishery arbitration, Sir Alexander Gait has been created a G. C. M. G.—Grand Commander of the Order of St. Michael, St. George.

AN 8 pound cannon ball was found in the heart of a stick of timber being cut in Cashier's Mill the other day. The tree had grown in the Aroostook, about twelve miles from Houlton.—Globe.

Professor Kennedy, formerly of the Male Academy, Sackville, has succeeded Dr. Inch, who has been appointed to the vacancy caused by Dr. Allison's resignation.

IMPURETIES OF THE BLOOD.—The decided alterative action of ROBINSO'S PURGATIVE LAXATIVE or COLIC LAXATIVE with Lactophosphate of Lime adapts it in a remarkable degree as a blood purifier well worthy of the trial of those suffering from a diseased condition of the circulating fluid. The unsightly blotches, pustules and pimples that disfigure the face and neck, as well as other portions of the body, if so many of them are indications of a diseased state of the blood induced by, as well as associated with, depraved nutrition, feeble digestion and imperfect assimilation of food. The continued use of the Phosphoric Emulsion cleanses the blood from all these impurities and restores the system to a state of healthfulness that is manifested in increased constitutional vigor, mental activity and lightness and buoyancy of spirits.
