

To Victory Bond Holders

Victory Bonds have never sold so high as at the present time. Many who hold Victory Bonds would improve their investment position by taking advantage of these high prices and reinvesting in non-taxable Provincial Government and Municipal Bonds. Victory Bonds are subject to local taxation.

These bonds are quoted:

1923.....5 1/2.....100.60	1924.....5 1/2.....100.90
1927.....5 1/2.....102.70	1933.....5 1/2.....106.30
1934.....5 1/2.....103.00	1937.....5 1/2.....108.30

Enquiries will receive prompt attention. Better write at once as these prices are very high and may go off any day.

A Masterly Address that Few Carletonians Have Equalled

Mr. Speaker: On rising to take part in this debate for a short time, I wish, Sir, to congratulate you on retaining the position that you will hold and which you have so impartially filled for the past two years, and as long as you continue to do so in the future as you have in the past I am sure you will have the full confidence of both sides of the House. While I was not permitted to be present at the opening of the House and to have the pleasure of listening to the Member and Second on the address in reply to the Speech from the Throne, I have followed them through the press and from what I have heard I am sure I wish to offer them my sincere congratulations. I would also like to offer my congratulations to the leader of the Opposition and to the leader of the Progressive group on the manner in which they took part in the debate.

I would like at this time to join with the whole House in extending a hearty welcome to the new members who have just taken a seat in the House.

I would offer my congratulations to the new Premier on attaining the high position which he now holds, and I feel that a man with his ability and experience should be able to render the people of this Province good service.

I would also congratulate the County of Gloucester on having the principle part of the governing body in its hands and would suggest to the Premier that if the rumor is correct, the seat of the Government will be removed to Gloucester that he change the time of holding the annual session of the Legislature from winter to summer in order that the members from the Western side of the Province might be able to take an auto trip over the fine roads of the North Shore. Just here I would like to mention of one or two pieces of road that are perhaps better than the ordinary track roads that are being built today. A stretch of road between Richburg and Chatham is certainly a fine piece of road and I would like to give credit to the gentleman who has charge of that road in the way he patrolled it and keeps it in proper shape.

Also a piece of road from Tracadie toward Carleton Place, about six miles long, I think it is the finest piece of road that I ever saw on. I happened to be over this road on the very morning that the men started to work on it, and was over it again just after or about the time it was completed so I had a good chance to see the improvement.

I would like, Mr. Speaker, to say a few words in regard to the roads of this Province, and I am sure that we all realize that this is one of the greatest problems that we have to face at the present time, and I believe that it requires the best effort of every Member of this House to bring about the best results possible.

During the last season I had the pleasure of touring this Province and of travelling over most of the trunk roads and visited every County in the Province with the exception of Carleton and I must give the Minister of Public Works credit for building some very fine roads indeed as far as trunk roads are concerned.

I would not like to say however, that I can agree with him as to the fairness of the distribution of the money on the roads. While I have tried to be fair in my views, I wish to say that when the tourist after travelling over the roads of the North Shore and some other parts of the Province reaches Carleton County he will receive a terrible jolt if he attempts to follow the trunk roads of that county. It may be that this is the missing link. If so I hope that the Hon. Minister of Public Works will

be able to provide the connecting link in the near future.

While the trunk road from St. John to Fredericton is nearing completion, and the road from Fredericton to Woodstock is completed or nearly so, yet only twelve miles of this road is in Carleton Co. The road from Woodstock to Houlton has been greatly improved under the present administration, which was really necessary as it is one of the main arteries leading to the United States. Another very important road which also leads to the United States, is classed as a secondary trunk road, and which passes through one of the finest farming districts in the Province leads from Woodstock to Centerville and on into the United States. I would like to report this road in a very bad condition perhaps due to a certain extent to the heavy rains during the early part of last season, but largely due to the very heavy traffic over it as it is the outlet for all the western part of the Province. I would strongly urge the Hon. Minister of Public Works to improve this road at the earliest date possible. To follow the trunk road from Woodstock we find it in a terrible condition, at times almost impassable.

Some two or three years ago a section of this road was built from Florenceville to Bath, a distance of about six miles, but for lack of patrol work it has gone back to just an ordinary road.

During the last season a section of three miles near Richburg, which is a very good road, and which I trust will be taken care of. Now this is all the trunk road that has been built in the county except the road leading from Florenceville to Bridgeville on the American boundary which may be classed as a trunk road, and which has been up to a good standard in some sections and the balance has been greatly improved. Now when we come to the County of Victoria we find greater activity as the road from Andover to Grand Falls is being rapidly brought to a high standard. Perhaps the Hon. Minister has an idea of going back to Victoria for a seat at the next election as he evidently has still some very warm friends judging from the letters he received after the election of 1920.

When we leave Grand Falls we at once enter the County of Madawaska and from here through to the Quebec they have an excellent road, and I must say beautiful scenery.

In order to bear me out in what I say in regard to the roads of Carleton I wish to refer to the recommendation of the Tourist Association which directs the route of travel through New Brunswick and the southern part of the Province and after following the St. John or the trunk road to Woodstock to cross over into the United States and to follow the State road through Ardenstock Co. and enter the Province again at Grand Falls.

Mr. Speaker, I do not believe that the American tourist wishes to descend from his route through Canada for the sake of going back into the United States. Neither can we say that it is for better scenery, because we cannot find better scenery on the American continent than we have along the St. John river from the mouth until it leaves the Provincial boundary. What do we encourage tourist traffic for? Is it not for the money that the tourist leaves among the people of the Province, and for the advertising that we get? My contention is that the people of the towns of Woodstock, Hartland, Florenceville, Centerville, Bristol, Bath, Perth and Andover are not receiving the benefit they should because of the fact that on account of the roads the traffic is being diverted to the United States and not even to some other section of the Province. Neither are we getting our share of the Federal grant or will get it, in case the agreement with the Federal Government should not be renewed.

I am pleased to know that the Hon. Minister of Public Works intends to inaugurate a patrol system for our improved roads, I for one will strongly support this measure.

From my observations I believe that our trunk roads under heavy traffic will not last over a period of from four to six years and I am sure that the Province cannot keep this up as the cost would be too high. Under a patrol system the road would

MRS. MALCOLM BROWN

In loving memory of wife, daughter, and sister, Mrs. Malcolm Brown, who died March 13, 1923, at Glassville, following an illness of short duration.

Another break in the sod,
Our beloved has been laid away,
And now lies mouldering in the sod,
Awaiting the Judgement Day.

Thou, enemy called death has come,
And borne her from our midst,
And soon in God's own Kingdom,
She'll reign in eternal bliss.

Thou so hard to part with dear Elva,
So hard to say farewell,
And altho on earth we'll miss her,
With her soul we know 'tis well.

She is sleeping so sweetly our daughter,
And O how calm is her rest,
In the first resurrection we'll meet her,
And sing with the ransomed in bliss.

Death will not always hold her,
For the time will surely come,
When clothed in immortality,
She from the grave will come.

And about while yet ascending,
(For freed from the grave we'll be),
That death has lost its venom sting,
And grave its victory.

We'll say good-bye to Elva,
Altho parting gives us pain,
For ere long we shall meet her,
Beyond all care and pain.

CONTEST WILL END ON WEDNESDAY NEXT SURE

Miss McGoldrick and Miss DeLong Start the Last Lap Almost a Tie—Mrs. Gray Makes Remarkable Gain—No One Can Fortell the Winner. Will Hartland Hold the Lead or Will Carleton North Own Miss Carleton?

The "Miss Carleton" contestants are working day and night in a wild endeavor to carry off first honors in the Observer's most exciting campaign and, frankly, we have no idea who is going to be the winner. Anybody's guess is as good as ours. Amazing thing it is that Miss McGoldrick and Miss DeLong are separated only by 500 points; and these are the actual points scored by each at the very latest returns sent in to the office. The Observer will receive no further intimation of the standing until the referee hands the final returns over next Wednesday, April 11. On that date the contest will close as the clock strikes the hour of one p. m.

A system of judging will be adopted different from that announced at first. A referee—Police Magistrate E. W. Laskey—will open the last envelopes and taking one by one the returns of each contestant he will check them over in the presence of ALL the contestants who shall each have the opportunity of questioning any of the returns and when all are agreed on the correctness of the figures, each sheet from No. 1 upward will be O. K'd by the referee and his O. K. will be absolutely final.

Here are last instructions to Contestants: Assemble at The Observer office as soon after 11 a. m. on Wednesday, April 11, as possible, when each will be given an envelope in which to place the last returns. Opportunity will be given each to make out her report sheets, and all sheets and duplicates must be placed in the envelope and each envelope must be placed in the hands of the referee on the stroke of 1 p. m. Subscriptions may be taken up to the last minute but ALL returns must be handed in when the clock strikes one. They will then be opened and checked one envelope after another. The contestant who gets the most votes will be awarded the prize of a trip as outlined a few weeks ago, with travelling costume. The other contestants will receive cash rewards according to the value of the service rendered, in equal ratio as regards points earned by each, but not so great in proportionate value as the cost of the trip.

Each contestant may bring any one friend with them. The referee will be sworn to impartial judgment, and the contestants and their friends or agents will be sworn to secrecy as regards the financial returns and details affecting the business of The Observer which shall necessarily be made known to them.

There is nothing more to be said to the contestants but to "Keep on Hopin'" —and working until the clock strikes ONE!

Remember only one can win the first award. Two girls will be disappointed. The secondary prizes can only alleviate the disappointment to some extent.

Much has been said that at the last some one will put up a large number of subscriptions and "buy" the award. This can be done. There is no rule against it; but it is not fair sport; and while such money is as good to The Observer as any other, the Manager strongly urges every contestant not to put up money of her own. It is quite right that friends admiring the pluck of their favorite may at the last moment help her with a \$10 subscription, but that is as far as help may go.

These girls have worked hard—very hard. They each have lost weight and sleep. It took the three sturdiest girls in Carleton county to tackle the job, and the two losers of the trip will deserve credit in only the slightest less measure that the lucky—no, the plucky first. And it requires pluck and real heroism to be a good loser.

Away now to the home stretch. Four and a half days more work and the standing at the very last returns was:

MISS FERNE MCGOLDRICK	288,750
MISS HILDRED DELONG	288,250
MRS. BEULAH GRAY	257,123

(A \$10 10-year subscription added to above will put Mrs. Gray in lead. It's still anyone's race.)

EASTER CANTATA MUCH ENJOYED

It is generally acclaimed that one of the finest things in sacred music ever given in Hartland was the Cantata, "The Resurrection Story" that was given in the Methodist church on Good Friday night. The music was arranged and selected by the organist, Miss Marion Stevens and every number was well rendered by the singers. Perhaps the number that was most striking and unusual was the "O Come and Mourn," the audience was thrilled with its solemn sadness.

After the opening service the program was in two parts "The Tragedy" with its sadness, and "The Victory" with its joyfulness.

After the musical program, Rev. Thos. Pierce, pastor of the church, introduced Rev. G. F. Bolster, pastor of the United Baptist church, who gave a soul-inspiring address on the general theme of the evening. Rev. Thos. Pierce followed with a short address. It was regretted that Rev. W. F. Halsey, Anglican, and Rev. E. W. Laskey, Reformed Baptist, who also were down for addresses, were unable to attend.

The service was closed by the whole congregation uniting in singing "All Hail the Power of Jesus' Name."

The church was filled to its greatest capacity and presented a pleasing appearance with its abundant floral decorations.

The generous collection that was received goes to the W. M. S. of the church. The soloists were Mesdames O. H. Taylor, C. S. Baker, F. F. Plummer; Miss Margaret Stevens and G. E. McGinley. Other members of the choir are Mesdames A. Plummer, O. Clark, W. B. Nixon; Misses Edna Allen and Reta Murdoch; Mr. A. B. Plummer and Mr. A. Morris. The small girls who took part were Irene Barter, Reta Taylor, Marion Stevens and Gladys Moore.

WAR MEMORIAL PICTURES

During January I noticed an item in the press stating that a certain Superior school in Kings Co. had been presented with a set of sixteen pictures by the Imperial Order of the Daughters of the Empire. This I found to be one of the sets comprising a \$40,000 war memorial to the Canadian soldiers, and being placed by the above Order in all the important schools in the Dominion. I immediately applied for a set for Hartland school and was informed that there was only forty-five sets available for New Brunswick, but that one was allotted to Hartland. However there was a charge of \$65 for framing in oak, which work was done by disabled soldiers at the Red Cross work room in St. John. In presenting the matter to the Trustees I outlined a plan whereby the greater part, if not all of this expense could be met. The Board agreed and it is expected that when these fine pictures arrive one or two members of the Order will be designated to make a public presentation and at the same time briefly explain each of the pictures, giving an outline of the scene of the event each commemorates, all representing various phases of the work of the Canadian Army. The Board of Trustees will make a suitable response together with a few remarks from His Worship the Mayor, a representative of the War Veterans, our local historian and others. It is hoped to have present the Town Council, War Veterans, Girl Guides, Boy Scouts as well as all the school children, Principals and teachers. It is also planned to have the pictures on exhibition for a time so that the public from the surrounding country may have a chance to view them.

EAST FLORENCEVILLE

Miss Ruth Smith, accompanied by George Melville went down to Woodstock on Easter Monday, returning on the evening train.

Miss Alice Stiles spent Easter Monday in Hartland, having to undergo some painful dental treatment.

Lorne Boyer has been confined to his home for several days suffering from a recurrence of the cold which caused him such serious sickness some weeks ago. He is recovering again.

Miss Helen Taylor has been spending the Easter holidays at her home and left on Tuesday for Fredericton, where she will resume her Normal studies.

Mr. Wood, our school Principal, went down to St. John during the Easter recess.

Charlie Stiles has left our community for Boston, where he intends to reside in the future.

F. L. Tompkins, who left Florenceville two weeks ago for Toronto and Detroit has written home to say that he has succeeded in securing a lucrative position, and therefore will establish his future residence in that place. This will be quite a loss to our community and county. Frank has been County Councillor for this district for a number of years and his place as a public spirited citizen will be difficult to fill. His many friends unite in wishing him the very best success.

Miss McComb went away to Fredericton to spend the Easter vacation.

Miss London of Bloomfield has been spending the last week at the home of Ben McIsaac. She attended in the choir at the revival meetings several nights and one night rendered with Bliss McIsaac a very pleasing duet. Miss London left for her home on Easter Monday.

George Melville has been spending the Easter vacation at the home of Harry Smith.

Mrs. Chowen left on Monday for a visit to St. Stephen accompanied by her daughter Dorothy, who is suffering from eye trouble and needs to be attended by a specialist. Mrs. Chowen expects to return before the end of this week.

Friends of Charlie Hunter regret to learn that he is making such slow progress towards recovery. It seems that his trouble has become deep and it will be a long pull to health again, but all his friends are very hopeful.

Benny McIsaac, who has been suffering from the flu, has so far recovered as to be able to attend church on Sunday afternoon.

Robbie Saunders was a visitor to his parent's home during last week and left before Easter to visit his brother in Montreal prior to returning to his business in Campbellton.

William Hopkins, who has been confined to his home for several weeks is now about again and on the high road to recovery.

Henry Tompkins is busy these days with his wood cutting crew and is busy this week at Lorne Simonson's both cutting and thrashing oats.

Miss Sadie Milbury, who has been home during the Easter recess left on Tuesday afternoon for Fredericton, where she will resume her studies in the Normal School.

Lewis Taylor has left our community to accept a position in Portland, Maine, with Wilbur Smith.

Lee Good, the Evangelist, was a visitor to our community on Easter Monday, visiting with Mr. and Mrs. Riley Trafford. Mr. Good attended the revival meeting in the Baptist Church and rendered valuable assistance. He left on Tuesday to engage in a campaign at Victoria Corner.

The monthly meeting of the Women's Orange Lodge was held on Easter Monday night.

Miss Mildred Orser of Hartland arrived on Friday to spend the Easter vacation with her relatives, Lorne Simonson and family. Mr. Simonson still continues to improve in health, getting stronger each week.

Stephen Kinney of Blaine has been spending a few days attending the Evangelistic meetings and has been entertained at the home of Mr. and Mrs. B. F. Smith.

Jay Dow left on Tuesday for Detroit to seek a position. His brother has been successful. We are sorry to lose such young men as Jay, but wish them every success as they seek their fortunes abroad.

Harry Smith left on Tuesday's express on a business trip to Portland. Special music comprising a Song Story Cantata is being prepared by a united community choir under the leadership of Rev. I. W. Williamson. This beautiful Cantata has been delayed on account of the special meetings, but will be rendered in the Baptist church on Wednesday night, April 11. It will be a representation of the garden of Gethsemane in which the body of Jesus was buried. The characters will be in Oriental costume and three special tableaux representing the Tomb guarded by Soldiers, the Women finding the Tomb Empty, and Easter morning. The music is very striking and the story beautiful.

The young people of the Methodist church are busily engaged in practicing for their play which will be presented in the near future. Bill Davis is now firmly established in his business and is ready to cater to all the needs of the community. Interest in the United Evangelistic campaign being held in the Baptist church every night because of the largeness of the crowd continues to grow. People come in large numbers from distant points. Centerville being well represented every night. Much good is being accomplished and Evangelist Foster is making a very large place for himself in the esteem of the people of the community. At the earnest request of the ministers he has agreed to stay for a fourth week and will continue every night this week and close up the campaign next Sunday night.

BRISTOL BREVITIES

Miss Zelda Wood spent the holidays at her home in Rustigornish.

Stanley McBride of Lindsay was a visitor at the home of Mr. and Mrs. M. W. Caldwell last week.

The Presbyterian Sewing Circle met with Mrs. M. L. Wright, Monday. Frank Lockwood, the well known Indian guide, died of flu at Mallico on Wednesday of last week.

BATH BREEZES

Words are inappropriate and strong phrases inadequate to express the consternation and disgust of the would-be wearers of Easter bonnets, at the uncalled for actions of the weather man. For Easter morn was more in keeping with the head apparel worn by Eskimo princes, than the latest creations of Parisian and New York artists. Chaser up! Dear ladies, and remember that the flappers of 1818, one hundred and seven years ago, wore their winter bonnets the year round. We sincerely hope, though, that you, of this age, may not be called upon to do likewise. For what would summer be, if it were not for the striking styles and bright colors tastefully blended and charmingly placed at attractive angles on the heads of our lady friends?

Friends of Hazen Tompkins, son of S. W. and Mrs. Tompkins will regret to hear that he is seriously ill with pneumonia.

Mrs. Harris and granddaughter, Helen Giberson, have gone to Presque Isle, Maine, to visit Mrs. John Estey, a niece of Mrs. Harris.

Miss Kathleen Commis has gone to spend the Easter season in Chatham.

Miss Rose Lenihan spent Easter at her home in Woodstock.

Miss Keagan, principal of the Bath school, is spending her Easter vacation with friends at Lakeville.

On Monday of this week John T. and Mrs. Commis left for Boston. Mrs. Commis will spend a short time at her home in Bangor before joining her husband. It seems a shame that so many of our people, both old and young are forced to seek employment elsewhere than in our own province, which is so rich in natural resources, but which as yet are only partially developed.

Hydro-electric development is our present hope. May it be an active agency in keeping our native born at home. If it does this it will be remedying one of the greatest perils which faces Canada today namely: the checking of the immigration flood, which is pouring thousands of those who would be and are good Canadian citizens into the United States.

Mr. Sheriff of Kincorinna was a business caller here last week.

John L. Sullivan of this place, a student at St. Thomas College, Chatham, spent Easter with his sister, Miss Lillian of Moncton.

Friends of Mr. and Mrs. Amos Stitham will regret to hear that their little daughter Grace has been very ill with the flu, but is at present recovering.

Born to Mr. and Mrs. Frank Fairley, Church street, on Monday, April 1—a daughter.

Friends of the bereaved members of the family of Mr. and Mrs. John Grant of Piermont, will regret to hear of the death of their son, Millie Grant, who died at the home of his parents during the past week, after a long and lingering illness. He was a young man of sterling qualities and will be greatly missed. He was a veteran of the Great War.

Numerous young ladies of the teaching profession returned to their homes during the past week. Among them were Miss Verna DeMerchant, who is teaching at Avondale, Miss Nancy Pierce of Piermont, who has had charge of the Kenneth school and Miss Mary Murphy of the Mineral school, is visiting at her home here.

Robert O'Connell of St. John, representing James & Schofield, Ltd., and G. Merritt of the firm of J. S. Neil Co., Fredericton, who has taken over the territory of the late Donald Campbell, was in town during the past week.

"Mr. Bob" the play staged by the Johnville Dramatic Club was such a success that it was staged again on Easter Monday night in Tara Hall, Johnville.

A very successful meeting of the members of the Baptist Missionary Aid was held on Wednesday afternoon at the home of Mrs. William Martin, lower Main St., following which refreshments were served.

Mrs. Street Miller and daughter, Miss Margaret, of Upper Kent, were in town on Saturday last. Miss Miller expects to leave soon to enter as a student nurse in Portland, Me. Her many friends here wish her every success in the profession which she is about to take up.

Geo. Estabrook spent the week-end at his home in Centerville.

The many friends of Wilbert Stitham will regret to hear that he is very ill at his home, following a paralytic stroke which he had on Tuesday of last week.

Mrs. Gentry of St. John is paying a visit to her niece, Mrs. M. G. Keenan, Francis Doherty, Holmesville, and Chatham, has returned home to spend his Easter vacation.

has gone to Houlton to visit her sister, Miss Harry Allison, who is a student nurse at Madigan Hospital.

Mr. Gillespie and two children who have been visiting her mother, Mrs. John Murphy, Mechanic St., returned to her home at Grand Falls on Saturday last.

HARTLAND, N. B., APRIL 5, 1923

Mr. Tracey, a Progressive member for Carleton County contributed a good speech to the budget debate in the Legislature yesterday. He indulged in some criticism of the government, but it was of a constructive nature and was received in good spirit. Mr. Tracey devoted considerable attention to the Valley Railway matters and complained of discrimination in favor of the C.P.R. in the handling of freight. He cited a number of concrete cases in support of his statements and there is not much doubt but that he has the right end of the argument. He suggested that the government appoint a railway expert to look after its interests, a suggestion which if carried out might be the means of saving considerable money to the province.—Daily Mail.

THE OFFICE BOY WRITES

"Why should we talk about hard times?" begins an article which the Office Boy laid on the editorial desk. "If one could sit in an office like ours on the Main Street, where there ain't much to do but count the team loads of lath, baled hay, potatoes, pulp, daily would wonder why for all the hard times cry. There are certainly not many towns along the St. John river so industrious as ours and surely we should be proud of the fact."

The Office Boy in a further contribution states that "J. W. Boyer & Co. of Victoria got a rather surprising shock when along with a big order came a supplementary order for a few thousand snowshoes for the Orange celebration on July 12."
"Another new 'radio bug' has developed. Fred Dickinson has got parts for a set which with the help of 'Chief Bug' Britton he will attempt to assemble. The incubator for these bugs is a large one and more 'bugs' are always welcome to the open air."
"Candlemas Day was certainly too much correct this year. It would be a good plan to exterminate all the ground hogs if they don't die this year of the cold."

EASTER MEETING OF HOLY TRINITY

At the Easter meeting of the congregation of Holy Trinity on Monday evening, Fred H. Stevens and H. A. Large were elected wardens, G. W. Foster, vestry clerk. The former vestryman elected on bidden with the exception that H. W. Annett replaced H. A. Large. Edmund Stratton was elected delegate to the Synod with H. A. Large as substitute. The financial report showed the congregation to have made better church attendance and all services were broken except in the number of deaths in the parish. A greater sum was raised for church maintenance than ever before. It may surprise the people to know that the Church of England records of the parish of Brighton contain the names of 256 adherents of the Church residents in the parish.

AT THE U. B. CHURCH

Record crowds were present at all the services of the United Baptist church of Hartland on Sunday last. In the evening the Story and Song Service was thoroughly enjoyed by a congregation that taxed the utmost capacity of the church. The special offering for denominational work asked for by the pastor, amounted to \$150.
On Sunday next the pastor, Rev. G. F. Bolster, will preach at both the morning and evening services. The subject of the morning sermon will be "A Direct Heart." In the evening Rev. Mr. Bolster will speak on the question, "How Many are Going to be Saved? Universalism says—'Every one will ultimately be saved.' Russell says—'Only 144,000 are to be saved.' Calvinism says—'Only the elect are to be saved.' What is the answer to this question? Or can it be answered at all. Come and hear the answer to the question at the Hartland Baptist church on Sunday night.

PEARL WHITE HERE AS DISCONTENTED WIFE

Pearl White, the celebrated Fox star—who bears the label "best known film actress in the world"—is due at Hartland April 7 and Centreville April 10 in her latest picture, entitled "Any Wife." The film was directed by Herbert Brenon, who stands in the very front rank in his field.
The story of "Any Wife" was written by Julia Tolva. It deals with the case of a woman possessed of a devoted husband and a loving child, and surrounded by every material comfort; yet who surrenders to the spirit of discontent because she feels her life is too "humdrum"—lacking in social spice. This spirit, ever-increasing, leads her into an unfortunate situation as a result of which her husband casts her off, though she is really innocent.
Despite this apparent tragedy the story has a singularly happy ending, which comes as an absolute surprise.

BIRTHDAY PRESENTATION

On Monday evening, March 12 John A. Campbell of Peel received a very pleasant surprise when a party of his friends invaded his home and presented him with a substantial token of their esteem in the form of a handsome parlor clock. The gift was in honor of his birthday and was accompanied by a short address to which Mr. Campbell replied in a few chosen words. The evening was spent in music and games and was concluded by a dainty luncheon.

Card of Thanks

We to thank the kind friends and neighbors who kindly helped and assisted in every way during the illness and death of our father and mother, and also the Upper Kent choir.

THE FAMILY

DEATH AT ARGYLE

The death occurred early on Thursday morning, March 22, of John Boyd at the home of his brother, Allan Boyd of Argyle. Deceased had been in failing health for over six years. His death was caused by an attack of indigestion.

Services were conducted at the Union Church at Argyle by Rev. Mr. Simmonds of the Glasgowville Presbyterian church, who spoke from the text: "Keep innocency for that shall bring a man peace at last." The choir sang appropriate hymns.

The late Mr. Boyd is survived by an aged mother residing at Golden Ridge; two sisters, Mrs. Rogers of East Knowlesville and Miss of Golden Ridge; and Charles and Allan of Argyle. Deceased was fifty years of age and had resided at Golden Ridge all of his life.

A SAFE FOOD FOR BABIES

CARL BELIEVED
END WAS COMING

Declares Tanlac Restored Him Fully
When in Despair From Stomach Trouble

"I just think Tanlac is the last word in medicine," recently said James Carl, well-known carpenter and builder, of 1223 John St., Hamilton, Ont. "In 1916 my health began to run down and in spite of all I could do my condition got worse. Every bone in my body seemed to ache and my stomach caused me no end of trouble. During all the winter of 1920 I was so miserable I never expected to live to see the snow off the ground. I would almost smother from the gas on my stomach and many a night I never closed my eyes in sleep."
"Before I got Tanlac I was simply a physical wreck and would walk the floor not knowing what to do. The first few doses of Tanlac showed me it was what I needed and four bottles built me up fifteen pounds and put me in the best of health. No one can go wrong by taking the Tanlac treatment."

Tanlac is for sale by all good druggists. Accept no substitute. Over 35-million bottles sold.

Always a Prospect

Alex wanted to go and play with some boys who had congregated on a vacant lot nearby. His mother told him that there wouldn't be anything going on there that he would care to see. "Oh, I don't know about that," Alex cried, "some of the boys always get into a fight before they get through with it."

A most unusual item of record this week is that of two cases in The Observer's immediate field, where aged husband and wife have followed each other to the grave, separated only by two or three days.

Hartland United Farmers have just unloaded car of seeds. Those who have not booked their order should do so at once as some lines are nearly sold out. Phone, write, or call now and take some home with you on the snow. Don't delay longer.

"BROTHERS UNDER THE SKIN"

"Brothers Under the Skin" the picture at Hartland tonight and Centreville on Saturday is one of those light, exceedingly entertaining comedies that come once in an age, and which are always received with delight. This is a Goldwyn picture, quite up to the usual Goldwyn standard based upon one of Peter B. Kyne's popular magazine yarns. The story tells of the similar domestic difficulties encountered by two young husbands in widely divergent layers of society—one a general manager at \$30,000 a year, the other a shipping clerk at \$30 a week, in the same big corporation.

The wives of both are young, beautiful, charming, but luxury-loving and irresponsible. Both keep their husbands in eternal debt and eternally worried.

But there finally comes a last straw at which the two husbands rebel. In no ungente fashion the respective

wives are shown the error of their ways. And all, presumably, is well thereafter.

"Brothers Under the Skin" has one of those small but distinctive casts that are seen too infrequently. Here one Chadwick, as the shipping clerk's wife, repeats the notably fine performance she gave as the young wife in "Dangerous Curves Ahead." Claire Windsor, whose beauty and acting ability have made her one of the most popular leading women of the screen, appears as Dorothy Kirkland, the other wife. The two husbands are respectively Pat O'Malley and Norman Kerry. Mae Busch is again the vamp in this laugh-a-minute picture, and as usual a fascinating one.

High Quality of New Brunswick Shale Petroleum

Hartman Process Machinery operating upon New Brunswick oil shale will produce 5,000 feet gas per ton. The heat necessary to operate the Hartman Retort is produced through the burning of the hydro-carbon coke in the spent shale which is immediately taken to the fire-box by conveyors. With this portion of the gas is also utilized as fuel. There is left approximately 3,000 feet of gas per ton of shale, which will be released to the market for the usual light and power purposes.

The Hartman Process Company is bringing business and capital to the Maritime Provinces. As already announced in the press, prominent shale oil companies in United States which have ordered the Hartman machinery are making their plans to come to New Brunswick on account of the superiority of the New Brunswick oil shale deposits in regard to the quantity and quality of the oil. The Ohio Shale Oil Company is one of the Companies mentioned in this connection. They are changing their name to be well known as the Canadian-United States Shale Oil Co.

The cost of production of shale oil by Hartman machinery upon the New Brunswick and Nova Scotia deposits have been estimated very carefully by able engineers. We shall be very glad to supply all detailed information upon request.

The first question you will ask is "why not have these tremendous deposits of shale been commercialized before? There are two answers. First, that until recently oil wells were able to supply all the petroleum needed. The second and chief reason is, that until the invention of the Hartman Process no Retort has proven commercially practicable in handling any and all character of shales.

For a number of months we have been carrying out an educational policy in order to let the people know the value of the shale oil deposits of Eastern Canada and to show how other countries are progressing in these matters and that Canada should not lag behind with such opportunities right at our hand. We have conducted our campaign upon conservative lines, placing before the people different government reports as to the value of our shale oil deposits and as to the history of the industry. We have placed literature of all kinds and description in public libraries and other distributing centres regarding this industry and shall at all times endeavor to give you the fullest information.

We are issuing Stock Right's certificates to purchasers entitling them to shares in the Canadian Company to the value of one-half the money paid for shares in the Parent Company.

Some of the chief features about the Hartman Retort are: 1. Simplicity of design and construction, no mechanical details to cause trouble or to get out of gear. 2. Continuous in operation, day and night and manufacturing its own fuel. 3. Large throughput. There are eight Hartman Retorts varying in capacity from 50 to 1,000 tons daily throughput. 4. It extracts all the oil and the gas from the oil. 5. It is constructed to produce a superior quality of oil. 5. Low per ton cost of operation. According to the figures compiled by the Texas-Louisiana division of the United States Oil and Gas Association it is costing \$13.95 to produce a barrel of well-oil. Hartman machinery operating upon New Brunswick shale will produce a high grade oil at a cost of at least one-half this figure. 6. Low cost of maintenance. The Hartman Retort, once started in operation requires very little attention, thus saving much in wages, repairs, etc.

I would make the assertion that if this were done, the men doing the work throughout the State would feel that they should be allowed that the expenses of the road would be greatly reduced. The road machinery of the Province would be much better taken care of if the Members would be indemnified that they receive. I like to suggest to the Department the placing of sign boards at crossings to warn the drivers that they be placed far enough from the crossing to give them enough to stop before they reach the crossing and to have the sign conspicuous enough so that it is seen from a moving car.

I would like to, congrats Hon. last for a great many years. I would like to suggest to the Hon. Minister of Public Works that the patrol should not be put to work at the first of May or the first of any other month, but just as soon as the roads in any part of the Province needs attention and that all the roads built be patrolled from the time they are completed as this is the only way they can be kept up by a patrol because if left too long the work is too great and is too expensive.

The Hon. Minister of Public Works has very kindly asked for the co-operation of all the Members of the House to carry out the patrol system. Would it not be better to ask for co-operation of the Members for the carrying out of the whole system and instead of taking advice and getting information from defeated candidates, and in some cases candidates who really represent the people here, their confidence and I wish to say that a representative of the people who would betray the confidence of any Government on such a problem as the maintenance of roads in the Province of New Brunswick today is not worthy of the confidence of the people he represents.

I would make the assertion that if this were done, the members doing the work throughout different Counties that they should be doing it all, for the expenses of the Dept. would be greatly reduced, and the road machinery of the Province would be much better taken care of, and the Members would be earning the indemnity that they receive. I would like to suggest to the Dept. of Public the placing of sign boards at railway crossings to warn the traveller and that they be placed far enough away from the crossing to give him time enough to stop before he reaches the crossing and to have the sign conspicuous enough so that it can be read from a moving car.

I would like to congratulate the Hon. Minister of Lands and Mines on reducing the expenses of his Dept. during the last year and while he has been fortunate regarding forest fires he has shown that it is possible to reduce expenses and I believe that this would apply to all Departments of the Government. A reorganization of the different Departments perhaps would mean the dismissal of some of the employees and perhaps the Government might lose a few friends but for everyone else it would make ten as the people are looking for the Government to practice economy in every way possible without cutting down the efficiency of the service.

I also notice that the Hon. Minister of Health has reduced his expenses and I wish to say to him "keep this up until the benefits are on a par with the cost of administration and when this time arrives the people of this province will stand shoulder

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of
Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well, and was nervous at the least noise. I kept house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. to shoulder behind the Health Act." I would like to talk for a few moments on Agriculture or matters in connection with Agriculture. It has been made very plain that the farmers of this province and especially in some Counties are in a bad financial condition. The Hon. Premier of the Province and the Hon. Ex-Premier do not seem to agree on this matter as the Hon. Ex-Premier gave out in a newspaper report during the winter that the people of the province were prosperous and contented except in a few districts where the farmers were engaged in the highly speculative raising of potatoes. The Hon. Premier tells us that all industries were badly affected as well as the farming industry. I am rather inclined to agree with the Hon. Premier as we are all aware that the lumbering industry was hard hit but has recovered sooner than the farming industry. I do not pretend to know the conditions but believe from all reports that they are bad.

I wish to object to the terms "highly speculative raising of potatoes," which is frequently used other than to say that any article whose price is governed by supply and demand is to a certain extent speculative. I will admit that we specialize in potatoes. But does not Kings Co. specialize in the dairy business? Does not Westmorland specialize in small fruit to a certain extent? Does not the Annapolis Valley specialize in the raising of apples, and do not people specialize in the dry goods business, hardware, in groceries and many other things? And why do they do so? Because the conditions are favorable for doing so.

The government tells us that we must get back to mixed farming, in order that we get upon our feet again. While I will agree that the people of United States and Canada are raising too many potatoes at the present time, I would like to inform the Members of this House that the people of Carleton and Victoria counties have not gone altogether out of the mixed farming as any one will see that has visited the Agricultural fairs that are being held through these two counties. The farm exhibits of these fairs are second to none in the Maritime Provinces and if you will look at a picture in the Agricultural report of 1922 you will see a good sample of a dairy herd shown at my home town. And I would just like to say in passing that the people of Carleton appreciate very much the treatment they have received from the present Minister of Agriculture, and I trust that he will not be in favour of cancelling grants and that he will continue to encourage the smaller farms to a reasonable extent as I believe that a great benefit has resulted from the holding of the country fairs.

Grant that we are raising too many potatoes and that we should take up mixed farming to a greater extent. Before we advise too strongly on this point let us look at conditions for mixed farming as they exist today. I would like to ask the good people of Kings Co. if they would care to follow the dairy business as they do if they could not find a market for their milk with transportation facilities in the city of St. John, and were forced to manufacture their products at home and depend on the country store for a market?

I can remember when Carleton Co. had a number of cheese factories but not one remains today. It has been clearly shown that we cannot raise beef to compete with the West as they can put prime heavy beef on the market in St. John for six and seven cents per pound. For the want of an abattoir in the Maritime Provinces we are compelled to ship our cattle, sheep and hogs to Montreal to be slaughtered, and then ship the meat back to St. John or other places which under the high freight rates is prohibitive. The real thing is the bacon hog, and this might grow to be a profitable business but we are informed that all the cattle and hogs fit for slaughter in the Maritime Provinces would only last an abattoir a few days, and that one could not be built until the number of cattle and hogs are increased so that the business would warrant the building of one.

Our market for hay and oats is very limited owing largely to the great number of automobiles that have been manufactured and sold in this country during the last few years and for which the Government receives a large revenue. While I would like to be optimistic about this matter and while I have great faith in the future of our Province the fact remains that the outlook is not very promising, and it is up to us to find a remedy. To my mind the solution is wider markets and lower freight rates especially on farm products which would bring the producer and consumer closer together. If this were done I think you could leave it to the farmer to raise the stuff that markets wanted. I think the government should take steps along these lines and carry out

many cases by the women on the farm as it was impossible to get help, and these men and women played a part in the war and made sacrifices that should not be overlooked. The potatoes at certain times soaked in prices like all other commodities, but these prices were always due to a shortage and that being the case the farmer did not, generally speaking, get the advantage of the high price except in the County of Gloucester where most of the crop was held until spring by reason of the snow blockade and so the farmers of this district received the high price for their potatoes. And you must remember that what the farmer had to buy was just as high in proportion as the potatoes, and after the war the very first thing to drop in price was farm products, while farm machinery, dry goods, boots and shoes and things of this sort remained high.

Just here I would like to say that while we have the farm machinery for the protection of the Canadian manufacturer and while that article is manufactured in Canada and the duty paid for entry into the United States and then sell that article cheaply, it can be bought in Canada there is something radically wrong, and one of the things that would stimulate agriculture in Canada would be free farm implements.

As to the future I believe the acreage for potatoes will be gradually cut down in all sections of the country and farmers will gradually give their attention to other branches of farming, but as I said before the prices of all farm products are governed by the law of supply and demand, and farm machinery and other manufactured articles.

Much has been said about giving relief to the farmers of some sections of this Province and while I agree that it is a hard problem to solve, and one over which I have given a great deal of thought, yet knowing as I do the circumstances of a great many of these men and I feel that some action

should be taken to bring relief but in doing so the interests of the Province must be safeguarded.

If the banking act was as it should be I believe this could be done through the banks of our country. It seems too bad to lose some of our very best men when we do not know who are going to take their places, we cannot afford to lose them.

In regard to the Bill which is before the House at the present time and which seeks to give relief to the farmers of the Province, I must be frank and say that after careful thought I feel that it will not be of any benefit to the farmers unless amended in some way. After consideration, I feel that greater assistance can be given along lines of exemptions, or in other words, by protecting the farmer's credit, and in this way prevent him from being put out of business and be allowed to remain on the farm. This would not only apply to the farmer, but to the fisherman or whoever needed protection.

I wish to make it plain that this would not be intended to defraud anyone or hinder the payment of an honest debt, but in cases where parties furnish seeds and fertilizers the cost of which to be a first lien upon the growing crop up to a certain cost per acre. Also that his team, necessary machinery, seeds and fertilizers should be exempted in case of judgment or such like and in this way he may be able to make good, otherwise he will be driven from the farm and the creditor will be no better off.

Now we have come down to something that seems to be a thorn in the (continued on page 6)

PLAN TO AID THE FARMERS

Good Work Being Done by T. W. Caldwell

D. W. Ledingham, St. John Manager of the Furness Withy Steamship Co., returned yesterday from Ottawa where he had been giving evidence before the special committee of the House which is investigating conditions in connection with the shipments of potatoes from New Brunswick to Cuba.

Mr. Ledingham said he was impressed with the serious manner in which the committee were dealing with the question and he had no doubt but that much benefit would accrue to the farmers of the Dominion as a result of their deliberations. The committee were going fully into all phases of the proposition in an endeavor to arrive at a plan which would allow the farmer to grow, ship and market his produce to the best possible advantage.

The New Brunswick representatives on the committee, Messrs T. W. Caldwell of Carleton and R. W. Grimmer of Charlotte, were looking after the interests of the farmers of this part of the country in an excellent manner and their work was appreciated by the other members of the committee.—Standard.

MR. CALDWELL, M. P. PLEADS FOR THE WHARF EXTENSION

Tells Parliament That Work on Negro Point Breakwater Should be Carried on Without Delay.

When Parliament was in supply on the items for public works, harbors and rivers, Mr. Caldwell, M.P., for Carleton county, made a spirited plea for the extension of the Negro Point breakwater to Patricia Island. He is quoted in Hansard:

Mr. Caldwell: I am very much interested in the minister's statement because our farmers in New Brunswick pay wharfage charges for loading their potatoes on the wharf at St. John, and I do not see why we should have to pay such charges if farmers in other places are not paying for the same service. In this connection, Mr. Chairman, it is just possible I am hardly in order, but due to the fact that I was serving on a committee which sat this afternoon I was not in the chamber when the estimates for New Brunswick were under consideration and therefore I would ask the minister if it is proposed to bring down any estimate for the breakwater in St. John harbor called the Negro Point breakwater. This is a very great necessity. It is not like some of the works we have under consideration tonight, a local work. St. John is the winter port of the East for the whole shipping of Canada.

An honorable member: No, Halifax.

Mr. Caldwell: My honorable friend called attention to Halifax. Well, there is a little place called Halifax from which they ship a few apples. But I still contend that St. John is the

winter port, not because it is bigger place than that of Halifax, but due to the fact that St. John is nearer the bulk of freight that is sent east for ocean shipment. We have a condition there of such character that unless this breakwater is built we shall not benefit from the wharves constructed by the government. There is a dock already constructed, I think it is dock 17, on which there is no building as yet, and it will be useless to construct sheds on that dock to handle the traffic until the breakwater in question is built. The government have already constructed the foundation but that what is so exposed to the weather that until the Negro Point breakwater is built it will be very little use as a freight handling proposition. I do hope the government will bring down a supplementary estimate to take care of the Negro Point breakwater.

FIVE YEARS' AGONY ENDED

When He Took "Fruit-a-lives" For Rheumatism

The Medicine Made From Fruit
There can be no doubt that "Fruit-a-lives" is the long sought remedy for Rheumatism and Lumbago. From all over Canada come letters testifying to this fact.

Mr. John E. Guilderson of Parboro, N.S. writes: "I suffered badly with Rheumatism for five years—tried different medicines—was treated by doctors in Amherst—and here at home—but the Rheumatism came back."

In 1916 I saw an advertisement for "Fruit-a-lives" and took a box and got relief, so I took them for about six months and the Rheumatism was all gone and I have never felt it since."

(Continued from page 3)

feels, namely the Valley Railroad. It has been termed as a mill stone hanging about the neck of the Government, and as a monster born a blunder, and much blame has been given the past Government for its construction. I am willing to give the past Government a great deal of credit for undertaking to construct this road, and while I do not approve, neither do I think any of us approve of some of the transactions that took place in the building of that road, yet after it had been kicked about for years as a political football, the past Government took hold and started the road and brought relief to a long suffering people. It is not necessary for me to take up the time of the House in telling of the needs of the people along this road, but I still believe that if this road, built as originally intended, that is from Grand Falls to St. John instead of having a deficit of over a quarter of a million dollars, the balance would be on the right side of the ledger.

Now I do not know just what the agreement between the C.N.R. and the St. John & Quebec Railway Co. is more than that the C.N.R. is supposed to turn over forty per cent of the gross earnings of the road. For information I would like to have it possible to obtain this agreement, also the agreement between the C.P.R. and the St. John & Quebec Railway Co., as to running rights over the C.P.R. from Westfield to St. John, also a division sheet showing the proportion of freight received by each road according to the road haul. This information to be laid upon the tables of the House for inspection. I would like to ask if the St. John & Quebec Railway Co. or the Government have a practical railway man to see that the Valley Railway gets its fair share of the earnings of the road, or that it is not discriminated against by the other roads, or that it gets its share of the rolling stock for use on the road. I would like to point out a few cases where the road is not fairly treated and consequently where the Province is losing money.

In one case a shipper had orders for over twenty cars of potatoes for points in Nova Scotia, and of course this would mean that the stock should be loaded on the Valley road. Well he tried for two months to get cars and as a last resort he took the matter up with headquarters at Moncton and at one time had seventeen trailer cars that were billed to the Valley road and when these cars arrived at Fredericton they were diverted by some official to the Trans-continental Road. I might also add that there has been hundreds of carloads of lumber from the Valley and loaded on the C.P.R. and in many cases loaded in C.N.R. cars and then turned over to the Valley at Woodstock for shipment to Nova Scotia. You will find that the rate on hay from Woodstock to Sydney is 75c less than from Lakeville on the Valley and from Hartland to Sydney is 10c less than from Woodstock and which is practically the same distance as from Lakeville, and as a connecting line with the C.N.R. receives the local rate to the junction point and at this case the rate is 75c per cwt. It looks as if the Valley road was paying the difference of 85c per cwt. on the freight from Hartland to Woodstock, and the C.P.R. and C.N.R. were getting all the revenue and that the people of the province were paying for hauling this hay from Woodstock to Fredericton. This trouble arises chiefly because the Valley does not get cars to handle the freight that originates on that road but in many cases C.N.R. cars are used and the Valley pays the bills.

Now in passing I would like to call your attention to a matter that came up the other day when the Hon. Premier was giving the strapping to the farmers or rather to the farmer members and I might say that the Hon. Premier that we are getting a little hardened to the sort of thing and that we are not taking them very seriously. But the matter that I wanted to refer to was the statement in regard to the reduction in freight on hay coming from Quebec to needy farmers in non-producing counties. Now as this rate did not apply to hay producing counties therefore they could not compete with the Quebec shippers and all they had to do was to keep the price up and while the freight was reduced the Quebec shipper got the advantage of the two dollars. The farmers paid just as much for the hay and the hay producing counties were shut out of a market in their own province.

In going back to the Valley road we find that the farmer has to sell his hay at a reduced price, and that the road is being deprived of the revenue that it should get, which goes to the C.P.R. and the C.N.R. and which would be remedied if the Valley Road was getting its share of cars. I think that my colleague, Mr. Smith, has hauled lumber from his mill on the Valley road to Hartland, a distance of eight miles, and loaded it on the C.P.R. and I venture the assertion that some of it was loaded into C.N.R. cars. If I am wrong I want the Hon. Member to correct me. Now I wonder that the road does not pay?

The rates on potatoes from Woodstock to the Government sheds at West St. John is 10 cents per cwt. and I want to show where the C.P.R. is getting more out of a car of potatoes loaded at Woodstock on the Valley Railway is getting for hauling the potatoes from Woodstock to Fairville. Instead of the C.N.R. having a siding at Fairville where the cars could be switched off and be within the interlocking area, the cars go over the to inland yards, which is on the road toward Moncton, and so they have to pay the C.P.R. bridge toll twice which would be 3 cts per cwt. and once they are in the C.N.R. yard they are out of the interlocking area, and I understand they have to pay the C.P.R. 3 cents per cwt. for unloading them.

This will mean that the C.P.R. gets 9 cents per cwt. in addition to what they get for running rights from Westfield to St. John. Again we find that the C.N.R. have a lot of package freight for export and which has to go around to West St. John for shipment and is all handled by the C.P.R., which reduces the revenue of the Government roads.

I believe that the Valley Road would be a big asset to the Dominion Government, providing they had their own tracks running from Westfield to West St. John and the Valley Road would be made to pay and the port of St. John would be getting the business she is entitled to, which is now going to American ports. From conditions, as they exist today, it is plainly visible that the Maritime Provinces and especially New Brunswick is not receiving the service that we are entitled to, and we should make a united effort as a people to get our rights and build up the great doorway of Canada, namely the port of St. John.

Again, we find that all freight originating in the Maritime Provinces and eastern Quebec, destined for the New England States, has to go over the C.P.R. tracks from St. John to Vancouver, when by building a short line from Hawkshaw or Meductic on the Valley line through to the Maine Central the distance could be shortened greatly and do away with paying the heavy tolls to the C.P.R., and also greatly increase the earnings of the Valley road.

The Dominion Government have a great net work of railways all over Canada. In many cases paralleling each other for long distances on which large quantities of freight for export accumulates, but when they get to the seaboard in the winter season, what have they got? A small grain elevator in East St. John with sheds at West St. John and no way to get to them but over the C.P.R. rails, which is the reason why so much of the export trade goes to Portland Me., and perhaps has something to do with the extension of the C.N.R. to Providence, R. I. Does this not look as though Government owned roads must not interfere with C.P.R. business, and that shareholders in private corporations were receiving benefits at the expense of the taxpayers of Canada, and more especially of the Province of New Brunswick? I would also like to call your attention to the passenger service on the Valley Road. After the completion of the road into St. John, a daily service was established between St. John and Centreville, and by the efforts of the employees of this service, and by the century shown the travelling public a good business was being built up. But as Fredericton and Woodstock are competitive points with the C.P.R., it soon began to interfere with the business of that road as the Valley was a shorter and more direct route with no junction points and with very beautiful scenery in summer. All at once the service was reduced to a tri-weekly service on the grounds that the daily service was not paying. But I believe, and have it on very good authority that the daily service was paying much better than the tri-weekly. Under the new schedule the trains leave Centreville very early in the morning and arrives very late at night, so the public would rather go to Fredericton and take the C.P.R. at a reasonable hour, and as the people at competitive points much prefer a daily service the business is naturally drifting back to the C.P.R. at the expense of this Province.

Another opportunity for the Valley Railway is the fact that the A. V. R. Co. of Acrostock have surveyed and located a road from Washburn Me. through to the Quebec boundary at a point near the Quebec bridge, and if connected with the Valley, would shorten the distance from the West to St. John one hundred miles. And if the Government develops the Grand Falls power, this road might be made an electric road from Quebec bridge to St. John, with the New Brunswick part being supplied with power from the Grand Falls development.

Now, just a word in connection with the Grand Falls development, I am of the opinion that this power should have been developed instead of the Musquash, as it is the great natural waterpower of the Province. But even at the present time, with the great number that are crying for the power, I believe that the Government would be justified in making a thorough survey and if found to be a safe business proposition to go on and develop the power as needed providing the interests of the Province are properly safeguarded. We find that all of our small industries, that flourished a few years ago, have gone out of business and this may be a means of bringing them back again in addition to new and larger industries.

Now, I wish to thank you for kind attention, and will no longer take up the valuable time of this House.

Correspondence

Editor of The Observer

May we ask a small space in your paper to make a financial appeal to all who believe in the continuance of the Presbyterian church in Canada. An organization known as the Presbyterian Church Union movement has been formed and if one is to judge by the amount of propaganda literature being circulated through the papers and by mail from this source, their monetary resources must be considerable.

siderable.

The Presbyterian Church Association, the object of which is the maintenance of the Presbyterian Church in this country, believes that our friends are no less zealous for their cause than the Unionists for theirs. We have already received some very generous gifts from leading laymen in the church in the east, but we want everyone to have a share in the defence of the church they love and we are convinced that there are many who are only waiting an opportunity to contribute what they can.

The intention is to place a paid organizer in the Maritime Provinces, to hold meetings at different centres and to send out literature in justification of the position we have taken.

The issue is now knelt. The gauntlet has been thrown down. In the name of Union the disruption of the Presbyterian church is staring us in the face. Refusing to consult the

people again, the evident determination now is to force this amalgamation through on a vote taken eight years ago.

Friends of the Presbyterian church, now is your time to act! Surely democracy is still alive in this country.

The Central Treasurer for the Maritime Provinces is Mr. John McKeen, 7 Kent St., Halifax, to whom all subscriptions, large or small, may be sent, or to Mr. George M. Robertson, 119 Princess St., St. John, N. B., treasurer for the local organization.

LOCAL AND PERSONAL ITEMS

WILL CENTREVILLE & DISTRICT LET HARTLAND WIN?

We are still wondering upon whom the Fates will smile when the votes are counted at the close of The Observer contest. There must still be a great deal of Carleton county that Miss Carleton has not visited officially yet and one can never be quite immune to the surprise that comes from getting a lot of votes from some section that at a casual glance would seem sterile. She should always keep in mind that any locality is worth working over, and ——— furnish just the low votes she may need to get the lead over her nearest opponent. The Observer has a very wide circulation throughout the county and fortified with a mailing list by the editor, she need waste no time in figuring out just whom to touch up for new subscriptions, and those for renewals. Our representative at Centreville has been diligent in business, fervent in spirit, serving The Observer, and we would be much surprised if she failed to take the measure for the new tri-colour, which Mr. Stevens awaits to have made for the perfect 36. "I will be quite some bread in the life cycle of one of these young trails and this should encourage them to most assiduously dig in and bring home the bacon for Mr. Stevens and The Carleton Observer."

William Russell, starring in "The Men from Zanzibar" one of the late Richard Harding Davis' popular stories, gave a most interesting bill. He played the part of an American detective in an exciting chase to the African coast of an international crook. Episode 18 of "Bride 13" was also shown. Saturday evening brought William Duncan and Edith Johnson in "Where Men are Men," a scenario by Thomas Dixon, Jr., the author of "The Clansman." The picture had a setting in the mining region of the west and centred around a supposedly bad man who was wrong, held responsible for the death of his partner. The daughter of the latter came out of the east to clear up the mystery and a love affair with her hero, along with many thrilling chases in bar rooms and dance halls of the golden west made a stirring film. A comedy, "Cops and Cuckoos," rounded out the program. On Saturday evening the management will show a Famous Players Special, "Brothers Under the Skin," with Helen Chadwick and an all star cast, and on Tuesday "Any Wife," a Fox film, starring Pearl White. The final episode of "Bride 13" will be shown on that evening. On Saturday evening, the free passes went to Mrs. C. R. Cliff and W. M. Bruce. These contests make a most pleasing innovation and everyone is on the qui vive of expectancy the night of the drawing. Who will be the lucky ones next month?

Quite a number had the impunity to beard King Winter and deep drifts with Easter bonnets on Sunday. Some we saw with early straws on their heads, and holding on to their ears, the meanwhile, with wool mitts. Old Grandmas Style will surely make mournful martyrs of women.

Miss Jean Estabrook entertained a number of friends at dinner on Tuesday evening. The guests were least not so sumptuously and a pleasant evening was spent. The guests included Messdames R. E. Cliff, W. M. Bruce, E. R. McClintock, and the Misses Laura Burpee, Faye Burtt, Dancy Burtt, Winifred Clark, Addie Irvine and Annie Anderson.

HUSBAND AND WIFE DIE TWO DAYS APART

John Smith died at his home at Beechwood, March 25. Mr. Smith died with old age, he being 92 years old. He leaves to mourn, three sons, James of Upper Kent, Willard of Johnville and Ladlow of Beechwood, and one daughter, Mrs. William Delong, Waterville. He also leaves twenty grand children and a large circle of relatives and friends.

Mr. Smith will be greatly missed by all who knew him. The funeral was conducted by Rev. G. A. Gibson of Bath, assisted by Rev. Charles Flemington of Andover, who sang an effective solo. Interment was made in Upper Kent cemetery.

Mrs. John Smith died at her home at Beechwood, March 25, after a few days' illness of pneumonia and heart failure. She leaves to mourn her loss three sons and other relatives. Mrs. Smith was 72 years of age. The funeral service was conducted by Rev. A. G. Gibson of Bath. Interment was made in Upper Kent cemetery.

MRS. LAWRENCE KEEFE

Mrs. Lawrence Keefe, an old and respected resident and pioneer of Lakeville, died at her home there on Thursday night after a brief illness of pneumonia. She was 62 years old and has resided there all her life, except for a period of eight years residence at Woodstock, being formerly Jane O'Leary of Lakeville. She was respected and esteemed by all who knew her and her death, even at such an advanced age, will be heard with regret by a wide circle of friends. She is survived by one sister, Mrs. Collis Campbell, Woodstock, her husband, Lawrence Keefe, one daughter, Mrs. Rose Lenehan of Woodstock and three sons, Frank L. of Butte, Montana, John M. Barrister, of Grand Falls, and Laurence Jr., at home. The funeral took place on Monday morning at the Catholic church at Lakeville.

Since the above, on April 5, Mr. Keefe, husband of the deceased lady has passed away.

Seed Time And Harvest

TEA and SUGAR are high. We still have plenty of Tea at the old price, but will have to charge the new price for the sugar. We do not advise any one to store up much of either for that would not tend to lower the price. We also have a good supply

OF SEEDS

A great many farmers have already bought seeds, which is a good policy for it too many put off buying until actually needed, then all the stocks in the province get cleaned up as quickly as was the case of last year—too late to be replaced except by express. This will cause delay and extra cost—a thing all are trying to avoid. So buy your supply from some dealer soon, even with no sign of spring for remember we shall have what the weather men think or say.
