Incidents of the War.

THE ASSAULT ON THE REDAN.

The following report of the assault on the Redan, from the Daily News, will show the fearful uphill difficulties against which our 'raw levies' had to fight. Instead of having before them a work whose embrasures had been banded up and its guns silenced, like the Malakoff, our men had to rush upon a line of battery nearly every piece of which was ready to receive them with grape and canister.

mismangement before. It was not, however, in human nature to make headway under such an iron storm; the men turned, and fled back under the parapet, leaving very many of their own number, and more in proportion of their officers, dead or dying on this field of death.

A WARRIOR DOG.

The following account of the exploits of a dog in the Crimea surpasses everything heretofore recorded of the devotion and bravery of this noble animal. A great sensation has been caused in the camp of the allies by the heroic deeds of a dog belonging to Col. Metmann, of the 73d regiment of the line.

Fix — About six o'clock on Monday evening the Russian framed building covering McGrath, Harding & Co's oilworks at Spurr's Cove, opposite Indian Town, was entirely destroyed by fire.

THE CRIMEA GOLD-COUNTRY.

If England and France were to take possession of the whole of the Crimea, and wished, without keeping up an army of occupation at a vast expense, to prevent Russia from ever re-establishing her power, they have only to decree that henceforward the Crimea should be an independent state, self-governed; and to attract thither, in less than a year, as many millions of inhabitants as could be lodged on the soil, it would be sufficient for them to declare the ports free, and to plant on the summit of the Tchaïr Dagh a banner inviting the gold-seekers of every nation to come and search its sides.

STATE SECRETS.

The Washington correspondent of the New York Sun evidently has firm faith that State secrets will leak out. He is also a famous admirer of Russia, and the information he has obtained from an "authentic source" is singularly favorable to the Czar.

RETIREMENT OF THE RUSSIANS.

According to the Frankfort Post Zeitung the body of the Russian army has been withdrawn from the plateau on the North side of Sebastopol, towards the heights of the Bel-bec, only a few thousand men now garrisoning the Northern forts.

A BRITISH FLEET SENT TO THE COAST OF ITALY.

Her Majesty's ships Rodney, Albion, London, Seaist and Wasp have received orders to proceed under the command of Admiral Stopford to the coast of Italy.

FILLING UP THE TRENCHES.

Letter from Sebastopol in Marseilles Journal says one of the orders which has been executed by the troops with the greatest pleasure is that of filling up the trenches.

BOMBARDMENT OF ODESSA.

The allied fleet which, according to last news, had sailed on a secret expedition from Sebastopol, anchored off Odesa on the 8th Oct. Prince Gortschakoff reports 8 ships of the line, 27 steamers, and other vessels.

SPRITUAL PREDICTION.

Spiritual Prediction.—Sometime ago the New England Spiritualist published a communication, received from a spirit on the 30th of June.

A Bowling Alley at Indian Town, was destroyed by fire on Wednesday last.

European Intelligence.

One Week later from Europe.

The steamship Africa arrived at Halifax on the 24th inst., at 9 A. M., with Liverpool dates to the 13th. The Hermann left Southampton on the 16th, for New York.

RUSSIAN LOSSES.

The "Invalide Russe" gives detailed account of the losses of the Russian garrison on the 8th Sept. — Killed 2684, wounded 6058, contusions 1,205, missing 1754.

THE DANUBE.

According to the Journal de Constantinople the Commander of the Turkish army in the Danube has received instructions to provide rations for 40 or 60,000 French troops, who are to arrive at Silistria about the end of October.

MEDIATION.

In a Circular addressed by the Austrian Government to its Representatives, it is intimated that though Prussia is at liberty to act as mediator between the belligerent powers, the present is not a favorable time for such mediation.

WAR IN ASIA.

Gen. Mouravieff has forwarded to Saint Petersburg the report of a successful cavalry engagement, in which the Cossacks, Militia and Dragoons, commanded by Lieut. Gen. Kovaleszky, defeated a detachment of 1800 regular Turkish cavalry, and 1000 Bashî Bazouks.

THE CLOCK AT ST. PAUL'S, LONDON.

A writer in the Foreign Quarterly thus describes the machinery of this great London clock:—The pendulum is fourteen feet long, and the weight at the end of it is one hundred lbs.; the dial on the outside is regulated by a smaller one within, the length of the minute hand on the exterior dial is fifteen feet, and the length of the hour hand is eight feet; the weight of each is seventy-five pounds; the length of the hour figure is two feet two and a half inches.

LATEST—ADVANCE OF THE ALLIES UPON PEREKOP.

A despatch from Prince Gortschakoff dated 9th, received at St. Petersburg, states that the enemy had advanced from Eupatoria threatening Perekop, but had retired on meeting the advanced posts of the Russian left flank: 16 Battalions of the Russians were put in disorder.

SWALLOWS.

As a proof of the valuable services rendered by swallows, it is estimated that one of these birds will destroy, at a low calculation, 900 insects per day; and when it is considered that some insects produce as many as nine generations in a summer, the state of the air, but for these birds, may be readily conceived.

European Intelligence.

In reply to the apology or account of the long peace, the London Times asks very sarcastically:—

"Why is it that States of Continental Europe can embark in war without so discredit-able and disastrous a transition from a state of peace? What are the advantages possessed by these less active and less wealthy nations? France has, indeed, carried on cam-paigns during a quarter of a century in Af-rica, but it has been principally a warfare of skirmishing and surprises; it is not in Africa that her engineers learnt how to spy up to the Malakoff. In the present generation Russia has made only a single short cam-paign in Hungary; yet the Russian generals and officers have shown themselves, by the admission of their enemies, men of the high-est skill, while their transport services and commissariat have performed prodigies.—Prussians and Austrians never see any war-fare more serious than a review, yet were they to take the field they would perhaps march and bivouac without any loss. Even little Piedmont has surprised the world by the efficiency of its troops. Everything con-nected with its army is said to be a model of arrangement. We, the only people who in the last forty years have carried on regular armies of mighty Indian princes as well as Caffres and New Zealanders, who have in-vaded China and tamed the Burmese, find ourselves on a great occasion novices in the military art. Why have Afghanistan and the Punjab given no lessons for the Crim-ean?"

THE MOVEMENT AGAINST THE RUSSIAN LEFT FLANK.

The Journal des Debats of the 11th has an article on the probable intentions of Marshal Pelissier. It said that the Corps d'Armees of Eupatoria constitutes the extreme left of the general system of operations of the allies. This corps menaces the right of the Russians and the centre of their communications with Southern Russia. The Russian army main-tains for the present its right at the northern forts of Sebastopol; its centre is in the fortifi-cations of the Mackenzie heights, opposite the lower course of Teherayna; and its left on the heights above Tchorgoun, which are occupied by the Piedmontese. The Russian left appears at present greatly menaced by the movements of the right wing of the Allies in the mountains of Baidar.

Prince Gortschakoff's despatches allude to some combat which had enabled the allies to come down from the mountains and force themselves a passage. It appears distinctly from the Russian despatches that the allies, after extending their operations from the mountains of the Baidar to the valley of the Upper Belbec, had left the Upper Belbec. This last circumstance denotes a marked progress of the allies on the left wing of the Russians to surround them. The Belbec, in fact, flows at three or four leagues to the east of the Mackenzie.

If the object of Marshal Pelissier is to pro-long his right wing to the Belbec, he will not attempt to establish himself on the upper course of that river before having driven the enemy from Aitodor. At present all the right wing of the army has taken possession of the mountain on the extreme left of the Russian wing, which is even fortifying itself in the most important passages, and arming redoubts on commanding positions, and is forming roads to facilitate the arrival of provisions and ammunition. These measures seem to indicate that the army thinks of es-tablishing itself during the bad season on the line from Sebastopol to the Upper Belbec.

THE CRIMEA AND TURKEY.

MARSEILLES, Oct. 9.—The steamer Jour-dain, which sailed from Constantinople on the 1st inst., has arrived here.—The Greek patriarch of Constantinople has been dismis-sed from office by the Sultan, General Vir-vin's Anglo-Turkish contingent is embarking. The sending of reinforcements of Turkish cavalry from Varna to Eupatoria has been stopped. Advices from Kerch state that a squadron of the French Chasseurs d'Afrique had been surrounded by six squadrons of Russian cavalry, but had cut their way through them, losing fifteen men. A Constantinople Journal states that the commander on the Danube has been ordered to prepare for the reception of 50,000 French troops, who are expected at Silistria in October.

MONTENEGRO.—A despatch dated Vienna, Thursday evening, announces, that a band of Montenegrins had made an irruption, and violated the territory of Austria, near Krivosia.

NEUTRAL FLAGS IN THE SEA OF AZOFF.—Vienna, Oct. 7.—The permission granted by the Allies, to friendly and neutral flags to ship grain in the ports of the Sea of Azoff, under proper restrictions, as telegraphed to you on the 4th inst. was negotiated by the Austrian Government at the instance of the Trieste house of Gopewitsh, which had large stores of corn at Taganrog, and lost it all during the bombardment.

I am now able to add that Russia has also given its consent to the measure, but, of course, only as far as concerns the flags of neutral states.

THE BALTIC.

The Russians are repairing Swesborg with the greatest activity, enlarging the bar-racks, and building batteries upon islands, &c., availed of during the recent bombard-ment by the allies.

Further accounts, though meagre, of the bombardment of Riga, state, that the bat-teries at the mouth of the Duna suffered little, but the battery at Ballen considerably. On the 25th Sept., 3 frigates anchored at the

mouth of the river Salis, and the boats' crews set fire to ten vessels.

Rear Admiral Penard, describing the ex-pedition to the Gulf of Bothnia by one French corvette and two English steamers, states, that eleven Russian vessels anchored off Baran, a small town on the Finnish coast, were captured, and eight other vessels, making the total tonnage captured 2500.

FRANCE.

Moniteur announces officially, that the Empress has entered the fifth month of her pregnancy, and that her health is excellent.

MARKETS.

Floor has advanced 1s per barrel, and old wheat 3f per bushel. Corn in good demand—white 47s, mixed 40. Beef dull; Pork firm.

Cotton market during the week exhibited great depression, almost amounting to a panic. The pressure has more immediately fallen on Upland and Mobiles, which have given way 1/2 to 3 per lb. Sales of the week 31,050 bales.

Consols were as low as 86, but had ad-vanced to 88, closing at 87 1/2.

London, Oct. 12.—The minimum rate of discount at the bank of England continues at 5 1/2 per cent., at which rate money has been in great request this week, but the demand slackened to-day.

CHINA.

CAPTURE OF CHINESE PIRATE JUNKS, BY AN AMERICAN AND BRITISH FORCE.—The steamer Eagle, Capt. Caldwell, of the En-glish navy, had cut off from her convoy, by pirates, ten lorches and five junks, near Ku-an, in the Chinese waters. Not being able to attempt to recapture them, application was made to Her Majesty's steamer Rattler, and the United States frigate Powhatan, lying at Hong Kong. The depth of water into which the pirate fleet had retired, only allowed the crews, marines and boats of the Rattler and Powhatan to engage; neither was the Eagle brought up nearer than long range.

This pirate fleet, with their prizes, con-sisted of thirty-six sail, out of which only sixteen of the small ones escaped. They would all have been taken, had their number been discovered earlier, but the Rattler's mines and the Powhatan's cutter had been detached before the fight commenced, to intercept a lorcha, and could not be brought up until the close of the action.—The contest lasted some hours in the fore-noon, preparations having been made the night previous and was mainly performed by the marines and men of the Eagle and Powhatan in boats, with howitzers in their bows. The junks fought hard, repeatedly firing broadsides, and all manner of offensive weapons but were finally carried by board-ing in the most gallant manner, the marines carrying all before them the moment they got foothold on the decks. One of the largest junks was blown up, causing the loss, in killed, of four of the attacking force.—Five of the junks taken were built and armed for war purposes; they carried 32, 24 and 12 p-meters, and in one there was a 68 pounder. One of them had 21 guns mounted. Nine prizes were released.—The war junks had on board large amounts of treasure; on one was \$100,000, on another \$200,000. In all, 200 cannon were cap-tured, and 500 pirates, with 500 more killed in action, or drowned. The British loss, in killed, was 4; wounded 7. The American, 2 killed, both landmen, and 13 wounded, ten of whom have since died. L. R. B. Pegram, who commanded the American force, and Lt. H. Rolando, were both wound-ed, the former in the hand. Three boats, and a hundred officers and men from the Powhatan formed part of the expedition.

CAPTURE OF NOTED BURGLARS.—In New York on Wednesday, the police arrested Amos Jackson alias William Lees, and Richard Greenwood, both well known English bur-glars, of the shrewdest character, charged with being fugitives from Providence, R. I.

The Express says:—

"On searching Lees' place in West Broad-way, the officers found a cumbersome and complicated iron instrument called a 'cutter,' calculated for opening banks, iron safes, or any other depository where great power is required. Attached to the 'cutter' were bits and augurs of various sizes, manufactur-ed of such materials, that, it is said, even the hardest steel, or other metal's implement works with a crank, and operates with such force that a drill can be sent through a thick plate of iron or steel in a few minutes. It was built expressly for boring into banks, safes and money vaults. The like, on so large a scale, it is said, has never before been seen in this country."

The particular charge on which they were arrested was that of robbing, on the night of the 19th ult., the store of Mr. George Baker of Providence, R. I., of \$6000 worth of goods, being his entire stock. They are al-so suspected of having committed another burglary in Providence, in July last, on which occasion the store was entirely cleared of its contents, consisting of watches, jewelry, &c. They are also suspected of being concerned in heavy robberies in New York. Lees is considered the most expert "crackman" now in America, and Greenwood is but little behind him as a "professional" man. They were committed to await a requisition from the Governor of Rhode Island.

A labouring man, named Jeremiah Mac Carthy, fell from a wharf at Lower Cove on Saturday last, and was drowned. He and a man named Connor went down at a very early hour in the morning to work at loading deals, and missing their way in the dark Connor fell off the wharf, and immediately after, MacCarthy who it was thought was striving to rescue his comrade, also fell into

the water, and was drowned. Connor being able to swim a little, escaped.—[Freeman.

The Standard.

WEDNESDAY, OCT. 31, 1855.

We observe in the United States papers, copies of letters from Mr. Cushing, Attorney General of the United States, to the District Attorney in Philadelphia, respecting the in-dictments pending against persons charged with recruiting for the militia of Great Brit-ain. From their tone and style, it is appar-ent that Mr. Cushing is desirous to make out a case against the British Government of having wilfully given instructions to its U. S. Consols, to violate the sovereign rights of the United States,—in fact, he says "the in-structions themselves" do so. He even says that if the British Government has, by in-genuous contrivances succeeded in sheltering its agents from conviction as malefactors, it has, in so doing, doubled the magnitude of the national wrong inflicted on the United States." The temper and tone of his letters are alto-gether at variance with the comity of Na-tions, and we are happy to notice, that the most respectable and influential Americans view them in that light. It should be borne in mind that Mr. Cushing is a member of the U. S. Executive, and that whatever he writes in his official character upon this subject, is the opinion of the President, and as such will command attention. It is more than probable that this "little tempest in a teapot" has been got up by Attorney General Cush-ing as an electioneering dodge to support the President and his Cabinet. That it will lead to any thing more than "a correspondence" which will end in "explanations," we do not believe.

The Fall Term of the Court of Nisi Prius for this County, commenced yesterday, Tues-day, His Honor Mr. Justice Ritchie presid-ing. The Charge to the Grand Jury was listened to with attention.

There were seven criminal and fifteen civil causes entered for trial.

BLACK BALL LINE OF PACKET SHIPS.

These splendid vessels arrive at and depart from St. John as regularly as though they were propelled by steam; bringing passen-gers every trip, and always in good health. The truth is the ships are commanded by able and experienced men, who look to the comfort of the passengers; the provisions are abundant and of the best quality, and the ships are smart sailers. Were the Legisla-ture to give the enterprising and spirited own-ers, Messrs. J. & R. Reed, a liberal annual allowance from the Province Chest, those gentlemen would put Steamers on the Line and thus place the Commercial Metropolis of this Province on a par with Halifax and Que-bec. We trust the day is not far distant when an offer of this nature will be made to the Messrs. Reed's.

The letter of our correspondent "WATCH," is received, but owing to its length, and the lateness of the hour it reached us we cannot insert it this week; it will appear in our next number.

McLentoah, Cochran Craig, and John McLentoah, Esqrs., have been appointed com-missioners for taking bail and affidavits in the County of Charlotte.

We are unable to publish this week, a list of the premiums awarded at the Fair and Cattle Show of the C. C. Agricultural Soci-ety; however we will endeavor to give them a place in our next issue.

The weather for the last few days was fine but rather cool; the farmers took advantage of it, and large quantities of excellent pota-toes and turnips were brought to market, which commanded a ready sale at fair prices.

PROMOTION.—Lieut. Gen. the Hon. Char-les Gore, late Commander in Chief in the Lower Provinces, and Col. of the 91st Foot, has been appointed to the rank of General, vice General Gabriel Gordon deceased.

NEW APPOINTMENTS.—We learned last evening that the Executive Council, with their usual regard for economy, have divided the offices of Common Clerk and Clerk of the Peace. The former has been given to W. R. M. Burin, Esq., and the latter to the Hon. W. B. Kinnear. Besides the insult of-fered to the Common Council by appointing a man to the Clerkship in opposition to the wishes of that body, the Government have also taken upon themselves to divide the of-fices, the duties of which have hitherto been satisfactorily performed by one officer. It is said that the division of these offices will entail an additional expense of about \$250 per annum upon the people of this city. A more gross and flagrant outrage, perpetrated

by a ramp Government, could scarcely be imagined. If they wished to do justice to Mr. Kinnear, an old and faithful public ser-vant, why did they not give him the offices as they formerly stood? Why bestow the most lucrative upon one who has no claims upon the people? We trust the Common Council will show a proper spirit in this mat-ter, and resent the indignity cast upon them, by a *verdant* and conceited Administration, in a becoming manner. The people of this City expect them to make a determined stand.—[New Bruns.

(From the Royal Gazette, Oct. 24)

IN THE SUPREME COURT.—*Michaelmas Term, 19th Victoria.*—The Honorable the Attorney General, upon the Judges taking their seats, rose, and after a few preliminary remarks, moved the Court that the following Resolution be entered upon the Minutes:—

*Resolved*, That the Bar, at the first Term after the death of the Honorable George Frederick Street, late Justice of Her Majesty's Supreme Court of Judicature of this Province, do make this public expression of their deep respect for his ability; industry and integrity as a Judge, and his usefulness as a member of society, and unanimously agree to go into mourning during the Term."

His Honor the Chief Justice, in reply to the Honorable the Attorney General, said:—

"We receive with much satisfaction the Resolution of the Bar relative to the loss which the Bench has recently sustained by the death of our highly esteemed and deeply lamented brother, Mr. Justice Street, and we fully appreciate the proposed mark of respect to his memory. We are satisfied that our feeling is not confined to the Bench; that in all the various public relations by which, during a long life, he was bound to this Province, his career was universally marked by a kind and courteous demeanour, and a faithful and laborious discharge of every duty. We who have been associated with him on the Bench for many years, shall always hold his memory in affectionate re-spect, and we believe the same feeling will remain with the Bar, of which he was so long a prominent and successful member.—We gladly accede to the motion of the At-torney General to have this Resolution entered in the Minutes of the Court."

Extract from the Minutes.

W. CARMAN.

PROVINCIAL APPOINTMENTS.

James Boyd, Esquire, to be a Commis-sioner of Light Houses in the Bay of Fundy, in room of John Wilson, Esquire, deceased. The following persons to be Commis-sioners under the Labour Act, viz:—John McKenzie, for Saint James, John Milbery, for Saint Stephen, and Andrew Buntin, for Saint David, County of Charlotte. By His Excellency's Command, S. L. TILLEY, Secretary's Office, 22d Oct. 1855.

INTERESTING FROM SICILY.—*L' Eco d'Italia* contains an important proclamation, issued by the people of Sicily. It advocates an immediate revolution and unity with the Sardinian government. It will be remem-bered that the Sicilians were foremost in the revolution of 1848, and judging from their past conduct, it is very probable that the next steamer will bring us news of an Italian insurrection. Gavazzi writes to the Crusa-der that Italy is on the point of a popular revolution.

The Return of the Registrar-General of Agricultural Statistics for Ireland show, that there has been this year an increase of 87,203 acres on cereal crops; of 25,513 on green crops; and of 53,873 on meadow and clover; whilst there was a decrease of 54,207 on flax. The total increase on the extent of land under crops is, therefore, 112,382 acres.

THE WELLAND CANAL.—The St. Catharines Journal says:—Except in June last, more vessels passed through the canal in the past month of September than ever before. The number was 581, of which 267 were American and 214 Canadian. Within the past week a large number of vessels have gone down laden with breadstuffs, mostly for Oswego."

The Washington correspondent of the Commercial Advertiser says, next steamer will carry out permission to Mr. Buchanan to return home immediately. Some months will elapse before his successor will be ap-pointed, and in the meantime, the Hon. J. Appleton of Me., the present Secretary of Legation, will be left charge d'affairs.

Four Wesleyan Chapels have been erect-ed within the Woodstock Circuit during the present season:—viz:—at Middle Simonds, Northampton, South Richmond and Sunny Side, Little Preen's Isle; and in order to enable the Trustees of the different localities to complete their arrangements, Tea Meet-ings were held for raising funds for the erec-tion of Pews, &c., and have been attended with marked success. The attendance at each was greater than had been anticipated, and at Northampton and Sunny Side ex-ceeded the most sanguine expectations.—The receipts were large. A large number of persons from other sections of the coun-try, particularly from Woodstock, evinced a warm interest in assisting the different set-tlements to provide themselves with suitable places for Divine Worship. Such a dispo-sition is commendable, and should not be allowed to pass unnoticed.—[Woodstock Sentinel.

THE MORALITY OF A GOVERNOR.—We have seen a letter from the Great Salt Lake

city, which says that Governor Young has seventy wives—forty resident in the city, and thirty in various portions of the territory. [New York Journal of Commerce.

We understand that THOMAS BAILLIE THOMSON, youngest son of the Rev. Dr. Thomson, Rector of Saint Stephen, has, through the interest of his father's old friend, been gazetted to an *Resignacy* in Her Ma-jesty's 47th regt. whose *deput* is at Templemore, County Tipperary, Ireland, but the regiment is in the Crimea. The young gen-tleman was offered an appointment when at the Horse Guards, to a regiment serving in Canada, but declined, saying he had propos-ed to be a *soldier*, and thought the only proper place to learn his profession was in *actual service*. The Commander in Chief approved, and immediately after, he was gazetted in the 47th.—[Provincialist.

*Holloway's Pills*—the best Remedy in the World for Female Complaints.—These Pills are particularly recommended to the Cana-dians for their extraordinary efficacy in fe-male complaints; and they are alike valu-able either to the daughter verging into womanhood, or the mother at the turn of life.—It has been proved beyond all contradiction, that these celebrated Pills will cure all dis-orders to which females are peculiarly sub-ject, and enable them to pass their critical periods of life, without exposing themselves to those dangers they too often incur by other treatment.

ARRIVED.—At Falmouth, N. S. on the 4th inst., by the Rev. Dr. McCauley, J. W. M. Irish, Esq. Merchant, of St. John, to Sarah, eldest daughter of the late Constant Wilson, Esq. of the former place.

BIRTH.—At St. John, 25th inst. in the 68th year of her age, Margaret, wife of Jas. Gallagher, Esq.

At Fredericton, on the 13th instant, Mr. William Cameron, in the 68th year of his age.

Notice to the Public.

AYER'S PILLS. FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as safe and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is so irritating to the bowels, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is so irritating to the bowels, and with what success we would respectfully submit to the public decision.

**Holloway's Ointment.**

**ERYSIPELAS** of eight years cured! Copy of a Letter from Geo. Sinclair, Esq. of Paris, Canada, dated the 18th July, 1854.

To Professor Holloway, Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which afflicted me both night and day, rendering life a misery to me, as well as to all around me.

—so severe was the attack. I used several reputed remedies without deriving the least cessation to my misery. At last I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I feel considerably better.—in three months, by continuing with your medicines, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully, (Signed) GEO. SINCLAIR

**ULCERS in the Leg**—Remarkable Cure! Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor Holloway, Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a bad leg; in which there were several deeply seated and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and pills, and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obedt. Servt (Signed) EDWARD TOMKINSON

**A BAD BREAST CURED WHEN AT DEATH'S DOOR!!** Copy of a Letter from Mr. Henry Malden of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway, Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it, one as large as a hand; all the devices and stratagems I tried would not heal them, but assumed an aspect more frightful than before, and horrible to behold. As a last resource I tried your ointment and pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effected.

I am, Sir, yours truly, (Signed) HENRY MALDEN

**AYER'S PILLS,**

A new and singularly successful remedy for the most distressing diseases—Constipation, Indigestion, Jaundice, Dropsy, Rheumatism, Fever, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Flax in the Breast, Sore Throat, and Lungs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less requisite, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit exists, and the deep seated and formidable diseases which lead the heaves all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of fraud.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are: PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DR. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

DR. J. L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

DR. C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but it is unnecessary to multiply the certificates of these eminent public men in shown in their effects upon trial.

These Pills are the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science affords. They are composed not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical means, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual is made to feel the effects of the medicine, and the effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the only virtue only being retained. Hence it is self-evident the effect should prove as well as have proved more purely remedial, and the Pills a surer, more efficacious, and more pleasant than any medicine known to the world.

As it is frequently expedient that my medicines should be in a state of purity and combined together in such a manner as to insure the best results, I have endeavored to do this by the Pills, and the Cherry Pectoral and Pills are made to the whole body of Practitioners in the United States and British America, and wherever these should be any one who has not received them, they will be promptly forwarded by mail to his address.

These Pills are the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science affords. They are composed not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical means, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual is made to feel the effects of the medicine, and the effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the only virtue only being retained. Hence it is self-evident the effect should prove as well as have proved more purely remedial, and the Pills a surer, more efficacious, and more pleasant than any medicine known to the world.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, before their convictions, and the convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate the system by healthy action; remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their regular action to health, and being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box. Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass., and sold by Agents for St. Andrews, J. W. Street, and M. S. Unnath, St. George. E. P. Knight.

**FRIEND OF THE CANADIAN HOLLOWAY'S PILLS.**

Extraordinary Cure of Asthma!!! of an old Lady, seventy-five years of age. Copy of a Letter from Mr. Thomas Watson, (Book Store,) Toronto, dated the 9th October, 1854.

To Professor Holloway, Sir,—Gratitude compels me to make known to you the extraordinary benefit an aged parent has derived from the use of your Pills. My mother was afflicted for upwards of four and twenty years with asthma and spitting of blood, it was quite agony to see her suffer and hear her cough; I have often declared that I would give all I possessed to have cured her; but although I paid a large sum for medicine and advice, it was all to no purpose. About three months ago, I thought perhaps your Pills might benefit her, at all events I resolved to give them a trial, which I did, the result was marvellous; by slow degrees my mother became better, and after persevering with your remedies for nine weeks, she was perfectly cured, and now enjoys the best of health, although seventy-five years old.

I remain, Sir, your obliged, (Signed) THOMAS WATSON.

Remarkable Cure of Dropsy!! after being tapped three times. Copy of a Letter from Anthony Smith, Esq. Halifax, Nova Scotia, dated the 26th August, 1854.

To Professor Holloway, Sir,—I desire to add my testimony to the value of your Pills, in cases of dropsy. For nine months I suffered the greatest torture with this distressing complaint; it was tapped three times, and finally given up by the doctors; having become appearance as a skeleton, and with no more strength in me than a child just born. It was then that I thought of trying your Pills, and immediately sent for a quantity, and commenced using them. The result I can scarcely credit even now, although true it is. After using them for four weeks, I felt much better, and by persevering with them, at the expiration of two months, I was completely cured. I have since enjoyed the best of health.

I am, Sir, yours sincerely, (Signed) ANTHONY SMITH

Astonishing Cure of General Debility and Liver Complaint!!! Copy of a Letter from William Reeves, of Charlottetown, Prince Edward's Island, dated 17th Nov. 1854.

To Professor Holloway, Sir,—I am happy to say that your Pills have restored me to health after suffering for nine years from the most intense general debility and languor, my liver and bowels were also much deranged for the whole of that time. I tried many medicines, but they were of no good to me, until I had recourse to your Pills, by taking which, and following the printed directions for seven weeks I was cured, after every other means failed, to the astonishment of my neighbours, acquaintances, and friends. I shall ever feel grateful to you for this astonishing restoration to health, and will recommend your Pills to all sufferers, feeling it my duty to do so.

I remain, Sir, your humble servant, (Signed) WILLIAM REEVES.
