

Provincial Parliament.

HOUSE OF ASSEMBLY.

FREDERICTON, April 9. House went into Committee on report of Committee to which was referred the claims of H. Beveridge on Canadian disputed Territory Fund.

Up to 4.20 the House was engaged discussing Tibbits' Bill to make railway Commissioner political.

Motions to postpone and to report progress were repeatedly made, each motion eliciting a round of speeches.

Tibbits was anxious to have Bill decided, as he was to leave on Monday.

The most noticeable opinion expressed was that a change in the present incumbent of Chief Commissioner was not desirable, as the recent investigation had been very satisfactory as far as that officer was concerned.

Progress was finally reported. Legislative Council sent down Caledonia Manufacturing Co. Bill with amendments.

Steadman gave notice that he would not pursue the bill further, as amendments destroyed principle.

To 3rd paragraph of 8th section Smith moved amendment that Senate should have no power to allow any person a retiring allowance, or sum of money in lieu of pension.

After much discussion, involving the whole principle of pensions, the amendments passed by vote of Chairman, Tapley, Division 19 to 19.

Mr. End moved a resolution for appointing a committee to make arrangements for reporting the Debates next session, which was lost—11 to 15.

Mr. Lewis gave notice of a resolution affirming that no public officer should receive more than £500 per annum salary.

At 12 o'clock College Bill resumed, and in such an amicable and conciliatory mood did hon. members approach the subject that by 3 o'clock the Bill had passed without any very important amendments, such amendments passed being chiefly explanatory.

Mr. Smith and others stated that as House had affirmed principle of Bill they should not proffer discussion on it, although their views were unchanged. The division on question to report the bill agreed to was—yeas 24, nays 9.

April 12. The Railway Committee submitted the report, signed by all but Lawrence. His principal objection was because the Committee would not recommend that evidence be published.

The report states a marked improvement is evident in the mode of keeping the books, declares the road to be first class, of superior description, well and solidly built, that discrepancies between accounts have been satisfactorily explained, that according to evidence they are no grounds whatever for imputing fraud or mal-practice with the public revenues, either to the present or former Commissioners; that from the short time at their disposal it is impossible to say taking the whole line into consideration, whether the Road might not have been built cheaper, or whether a less expensive one would have been better suited to the wants of the country; that they had no opportunity of enquiring into the prudence or economy of the management, or of probable returns of traffic; and for the reasons set forth the Chairman, or one of the other Commissioners should be in the Executive, and hold a seat in the House; recommending that Legislature action be had to carry out the principle.

The Report was accepted, after which Goads moved a resolution that the Minutes of the evidence taken before the Committee be published, which after some discussion, pro and con, was passed.

Immediately after dinner, Hannington rose and prefacing it with a few suitable remarks moved the following, which after some pertinent remarks by Gray, End, Fisher and McPhelin, was unanimously adopted:

Whereas this House has been informed that the Hon. Charles Simonds, many years a member of and Speaker of the House, died last night at his residence in St. John, therefore,

Resolved, unanimously, as a tribute of respect to his memory, the members of this House wear suitable mourning during the remainder of the Session.

The House since 11 has been occupied in a dreary discussion on the Report of the Railway Damage Committee. The 1st section referring to British claims, was rejected and now 4 to 3 progress is reported.

The Legislative Council to-day passed the Bill to establish the University of New Brunswick without amendment. The House will be prorogued to-morrow.

April 13th. Mr. Lawrence submitted a proposition signed by Samuel Watts and James Edgar, offering to report fully the proceedings of the next Session for the sum of £150, when on motion of Mr. L., the proposition was accepted, and a Committee appointed to make arrangements for printing and publishing the Reports. The Committee are, Lawrence, Edg, and Tillley.

The Report of the Contingent Committee was taken up and agreed to, after the usual economical expressions of opinion, and an additional £10 to the amount £10 was recommended to Thomas Hill for reporting.—Each of the other Reporters, six in number, were allowed £31 13s. 4d.

At 12 o'clock, His Excellency came down, and prorogued the House by the following Speech:—

Mr. President, and Gentlemen of the Legislative Council:—

Mr. Speaker, and Gentlemen of the House of Assembly:—

During the present Session many questions of importance affecting the material and social interests of the people have engaged your attention. Your exertions in the performance of your legislative duties claim my acknowledgments.

Mr. Speaker, and Gentlemen of the House of Assembly:—

I thank you for the supplies which you have granted to Her Majesty. The Act for raising a Revenue will, I hope, afford ample provision for the requirements of the public service.

Mr. President, and Gentlemen of the Legislative Council:—

Leopoldate you on the termination of your labours, and in releasing you from further attendance, I heartily wish you success in the occupations which await you at your homes.

The Standard.

ST. ANDREWS, APRIL 20, 1859.

PROROGATION OF THE LEGISLATURE.—The Legislature closed its labors on Wednesday last: a synopsis of its sayings and doings and the Speech of His Excellency at the prorogation will be found in our columns.

The College Bill or as it is now termed the bill to establish "The University of New Brunswick" has become law, and taking it all together is an improvement on the old Act. There are some anomalies in it with respect to the election of professors, &c., which require explanation, and the political tendencies which it bears would have been much better avoided. The mover of the Bill is not however accountable, as there were so many amendments moved and carried by the did hon. members approach the subject that by 3 o'clock the Bill had passed without any very important amendments, such amendments passed being chiefly explanatory.

Mr. Smith and others stated that as House had affirmed principle of Bill they should not proffer discussion on it, although their views were unchanged. The division on question to report the bill agreed to was—yeas 24, nays 9.

April 12. The Railway Committee submitted the report, signed by all but Lawrence. His principal objection was because the Committee would not recommend that evidence be published.

The report states a marked improvement is evident in the mode of keeping the books, declares the road to be first class, of superior description, well and solidly built, that discrepancies between accounts have been satisfactorily explained, that according to evidence they are no grounds whatever for imputing fraud or mal-practice with the public revenues, either to the present or former Commissioners; that from the short time at their disposal it is impossible to say taking the whole line into consideration, whether the Road might not have been built cheaper, or whether a less expensive one would have been better suited to the wants of the country; that they had no opportunity of enquiring into the prudence or economy of the management, or of probable returns of traffic; and for the reasons set forth the Chairman, or one of the other Commissioners should be in the Executive, and hold a seat in the House; recommending that Legislature action be had to carry out the principle.

The Report was accepted, after which Goads moved a resolution that the Minutes of the evidence taken before the Committee be published, which after some discussion, pro and con, was passed.

Immediately after dinner, Hannington rose and prefacing it with a few suitable remarks moved the following, which after some pertinent remarks by Gray, End, Fisher and McPhelin, was unanimously adopted:

Whereas this House has been informed that the Hon. Charles Simonds, many years a member of and Speaker of the House, died last night at his residence in St. John, therefore,

Resolved, unanimously, as a tribute of respect to his memory, the members of this House wear suitable mourning during the remainder of the Session.

The House since 11 has been occupied in a dreary discussion on the Report of the Railway Damage Committee. The 1st section referring to British claims, was rejected and now 4 to 3 progress is reported.

The Legislative Council to-day passed the Bill to establish the University of New Brunswick without amendment. The House will be prorogued to-morrow.

April 13th. Mr. Lawrence submitted a proposition signed by Samuel Watts and James Edgar, offering to report fully the proceedings of the next Session for the sum of £150, when on motion of Mr. L., the proposition was accepted, and a Committee appointed to make arrangements for printing and publishing the Reports. The Committee are, Lawrence, Edg, and Tillley.

At four o'clock, the whistle was sounded, and the call of "all aboard" having been given, after some kindly greetings, the train moved off at a rapid rate on its return trip, and in due time arrived at the St. Andrews Station, without the slightest accident having occurred. The party then proceeded to their respective homes much pleased with the trip, which was a most agreeable one.

To the Chief Engineer, Mr. Buck, the party feel themselves indebted for his kindness and urbanity, as also to Mr. Allen, Locomotive Superintendent, for his gentlemanly bearing and attention. It is to be hoped there will be Excursions this summer by Rail. To the sportsman there are inducements, as we learn there is good fishing in the Lakes and the woods abound with game.

SNOW.—On Friday night last snow commenced falling and continued for twenty-four hours without intermission, and on Sunday morning, the ground was covered with four inches of snow, giving the country a wintery appearance; the heat of the sun however melted the snow during the day, and in the evening the streets were as dry as they usually are in May.

The St. John river has been open for the last four or five days; two of the St. John Steamers had arrived at Fredericton on Friday last.

THE NEW RAILWAY CARS being made at the establishment of Messrs. Harris & Allan by their clever workman, Mr. John E. Sayre, are in every way superior pieces of workmanship, and highly creditable to the firm and to the city. Two of these cars are nearly finished and will be upon the road in May. Two more are to be done by the month of July.

A couple of years ago it was considered the height of presumption for workmen in St. John to think themselves competent to make a Railway Car. It has been shown, however, that even superior ones to most of those that run upon the principal American and Canadian lines. Should any of our St. Andrews Railway friends wish for particular information on these points, let them, delegate some one to examine the Cars now running on our line, and also those that are building, and they will not be displeased.

AVAST! friend "News," you are behind the time on the subject of Railway Cars.—Come along here, and you can see and ride in some beautiful Railway Cars, made in the N. B. & C. Railway Car Shop last fall—one of them has been pronounced by some of your citizens as being superior to anything of the kind in the Province, and what is more friend "News" the cars cost only about half as much as your superior specimens of car work. If you do not believe it do not be faithless but come and see for yourself. Further, the cars built in St. Andrews are not copied from United States patterns, but are original designs.—The people here have not sent for men to the States to do their work, the hands employed in St. Andrews are natives of the Province. If any additional information is required respecting rail cars, or railway management, you can get it here, without waiting for patterns from Boston or Legislative Railway Committee.

LAUNCHED AT CHAMCOOK, on Monday last, 18th inst., from the yard of her builder and owner, Mr. John Townsend, a beautifully modelled and thoroughly fastened brigantine called the "Chimera," of 204 tons N. M., and 274 tons Carpenter's measurement. This vessel is principally built of hachmated and pitch pine; and for model, architectural beauty, and finish, fully sustains the high character of the builder.

LUXURIOUS.—At Deer Island, on the 14th inst., a well built and prettily modelled Schooner of 90 tons, named the "Ann Leonard," owned by John and Simon Leonard, and reflects much credit upon the master builder, Mr. Edward McNeil. We understand that she is intended for the Magdalen Island's fishing business.

PROVINCIAL APPOINTMENTS.—Hon. William Hamilton to be Commissioner for Sick and Disabled Seamen at the Port of Restigouche. Adam Ferguson, Jeremiah Travis, and James Ritchie, Esq's, to be Commissioners for Buoy and Beacons for the Port of Campbellton.

William McGregor, Esq., to be Commissioner of Buoy and Beacons for the Port of Dalhousie, in the room of Adam Ferguson, Esq.

John U. Campbell and Allen M'Kendrick, to be Coroners for the County of Restigouche. Thomas Wetmore Bliss, Esq., to be High Sheriff for the County of Kent.

His Excellency the Lieutenant Governor has been pleased to appoint Peter Mitchell, Esq., to be a Member of the Executive Council of this Province.

By His Excellency's Command. S. L. TILLEY.

On Friday.—We have to-day to record the death of the Hon. Charles Simonds, who in the fulness of years and honor, has departed from among us.

Mr. Simonds was the oldest surviving native of this City and County, having been born in the Parish of Portland about the year 1783.—His father, the late James Simonds, Esq., arrived in this harbour, with eighteen others from Newburyport, on the 10th May, 1762, and immediately landed at the point since known as Simonds' Point, where a house was erected in a few days from a frame and materials which those early settlers brought with them. (The Hon. Charles Simonds, now departed, was born there, and has ever since continued to reside in this noble Parish.)

In 1819 or 1820, Mr. Simonds was elected a Member of Assembly for the City and County of St. John, to which he was re-elected many times subsequently. During several Assemblies he has occupied the distinguished position of Speaker, and when last in the House, he held that dignified office.

He was for some time a member of Executive Council, and also a delegate to England on matters deeply affecting the best interests of New Brunswick. In local affairs, as well as in Provincial politics, Mr. Simonds has taken an active part, and always in a conspicuous position, ever exerting himself for what he believed to be the best interests of the Country.

The first born of the early settlers are fast passing to that home from whence no traveller returns; and among them all there is few whose loss will be more sincerely regretted, or whose departure more truly felt, than the Hon. Charles Simonds.—*New Brunswick.*

ACCIDENT TO THE STEAMER MAID OF REIN.—We regret to learn that this substantial steamer, while on her trip to Dorchester, struck on a ledge of rocks known as the Grand Lash Ledge, at the entrance to Dorchester River, at 4 o'clock yesterday morning, and soon afterwards sank.

The passengers and crew were landed in the boats, but two horses on board were drowned. A thick snow squall prevailed at the time, which prevented any object being visible. The extent of the damage is not yet known. The steamer was insured for £3000. The accident happened just at the opening of the navigation, will not be only seriously felt by her enterprising owner, but by travellers and business people.

ARRESTED FOR MURDER AND ARSON.—Banco, April 10.—Marshall Potter was arrested on Saturday, at St. Stephens, N. B. by officer Beon, of Lec. He is charged with causing the death of his mother, two brothers, and nephew, on Thursday morning last, at Lec and robbing the house of \$150.

It will be recollected that he was the only one that escaped when the house was burned. He was fully dressed, and his two brothers who slept in the same room, were burned as was also his mother and nephew. He fled immediately after the fire changed his clothes at Carroll and succeeded in reaching New Brunswick before he was arrested. His clothes were bloody, and the money earned by his two brothers during the winter was seen in his possession.

Walking across Niagara Falls. A Yankee actor, named Andrew Greenleaf, who was performing himself as an Italian by the name of Signor Gaspa Morelli, performed the following daring feat at the Falls of Niagara:—

"Signor Morelli asserted his ability to do many things—a belief in which required considerable faith. The Southerner, who is a well-known sporting gentleman of New Orleans, evidently thought the signor was lying pretty hard, and at his last announcement, he laughed long and loud. Morelli had, in fact, expressed his conviction that he could cross Niagara River, walking upon stilts, amid the foaming and unbounded rapids that whit between Goat Island and the Falls.

"I'll bet you a thousand dollars to fifty it can't be done," exclaimed the Southerner. "I accept the challenge," answered Morelli, quietly.

"To avoid a crowd, it was announced that the attempt would be made upon the 14th (Monday) instead of to-day; so that, at seven this morning there were only about 50 persons by the river bank. Punctually at that hour Morelli appeared, in fine health and spirits.

"He had with him a pair of stilts, about 12 feet long, made of wrought iron, flat sharpened, and pointed—shaped, in fact, almost precisely like a double edged dagger. These were firmly lashed to his legs, and he walked toward the river with a confident smile. The morning was clear and cold, but he was attired very lightly, in a dress usually worn by professional gymnasts. At ten minutes past 7 he stepped into the water, which, in another moment was boiling, surging and rushing beneath his feet. The boldness of the lookers-on held their breath in suspense, as the daring man receded from the shore. He alone seemed unmoved, and passed on slowly and carefully, avoiding the large rocks which were made apparent by the eddying current. His steps at first were very short and carefully made, but afterwards became bolder and longer. The stilts, of course, were so placed that the current struck only against their sharp edges, and produced but little effect; but the danger from sunken rocks, and the conviction that a single false step would send him to death, produced a feeling which was horribly painful. Once or twice he seemed to lose his balance, and a sickening shudder ran through each of the beholders. Recovering himself,

he still kept on—still receded, until, to our straining eyes, he could scarcely be distinguished from the foaming waters.

"The middle of the river was attained at last; hours seemed to have fled, but he was barely seventeen minutes since he left the shore.

"As he approached the deepest and most dangerous parts of his route, the spectators became more and more intensely interested. No word was spoken, except that one man offered another \$5 for a moment's view of his forgotten, which offer passed unheeded. Just as Morelli reached the swiftest and deepest part of the current he seemed to totter—sink—he threw up his arms! I closed my eyes.—Opening them a moment after I saw that he was still standing. A few moments more, and he had reached the Canadian bank—he was safe, and fell exhausted into the arms of two men who were waiting to receive him.

At this hour (3 p. m.) he has nearly recovered, and, though still in bed, received the congratulations of dozens of visitors who came pouring in. He left the American shore 950 feet above the fall, and came out 1300 feet above the Canadian.

From Nicaragua. The steamer Northern Light, which arrived at New York Wednesday night, brought important intelligence from Nicaragua, of which a brief statement was given in our telegraphic column yesterday morning. We now present some further details:—

Mons. Bily, with 40 officers and men, arrived at Greytown on the 15th ult., being the pioneer of the construction of the canal, who will be suitably rewarded by the English Government with £5,000.

Ports Caselle and San Carlos are to be given up for their headquarters immediately—rather a significant circumstance, however, which coupled with the fact that some of the corps-arms of Algeria and Greece have been ordered to England, is also on the ground.

The Nicaraguan Chamber had at one taken action in regard to the Transit, by passing the following decrees:—

ARTICLE 1.—The transit route on the Isthmus of Nicaragua is for all nations, consequently a monopoly over it in favor of any person or company is not recognized or granted.

ART. 2.—The disembarkation and transportation of troops, arms and munitions of war cannot be permitted, except in accordance with a treaty stipulated to that effect.

ART. 3.—The Government will regulate the manner of making the transit, effective, consulting the security and convenience of the Republic.

ART. 4.—The Government will also raise upon itself the imposition of a charge for transportation, moderate and equal for all nations.

ART. 5.—This decree shall not be construed in any manner so as to be an obstacle to the opening of the inter-oceanic maritime canal.

(New York Herald, in the hall of the Chamber of Deputies, Feb. 25, 1859.)

The circumstances attending the seizure of the Transit steamer, are not very clearly given, but seem to have been as follows:—

It appears that the Nicaraguan Government has suspended an article from the Statutes on the Pacific side for some time, and had spies stationed to report the arrival of any suspicious vessel. On the afternoon of March 24, the U. S. sloop-of-war Decatur, arrived at San Juan del Sur, and sending her boats on shore for water, was taken for a privateer. The President, Morrell, on being apprised, ordered out 350 troops, and personally commanding took the "Transit" road, for the purpose of reaching the landing, but had not reached the shore before the Decatur was sighted, and a general court-martial was held, giving the true character of the steamer. A report was then made, burning or otherwise destroying every thing belonging to the vessel.

On the 11th of March, President Martinez issued a proclamation commending the zeal and activity of the officers and military, and of the people, in hastening to resist the anti-peaceful invasion.—The President expressed a belief that this spectacle would be an encouragement to filibusters in future, and concluded by inviting the people to resume their peaceful labors, assuring them that he will watch for their security and call upon them in case an attack is attempted.

"On the 11th of March," says a correspondent of the New York Herald, "an order or command, signed by an official at Port San Carlos, dated the 10th, was served on Captain Holton, of the lake boat, New York, then lying at the head of Toro Rapids to place the steamer immediately under the guns of Port San Carlos, twenty-seven miles distant. An hour was given Holton to reply; and if at his expiration he refused to comply with the order, himself and men were to be regarded as 'suspect to the peace of the republic.'

"The order was served on Holton by an officer of the Nicaraguan army, accompanied by armed soldiers. Upon his protesting against such proceeding, and refusing to obey the order, the officer and soldiers took forcible possession of the 'Casuarina' and carried her to San Carlos. Holton attempted, and asked permission to leave the boat, but was forcibly detained until the 15th, when at the interposition of Mr. Bills and Schlessinger, the agents of the company, he was set at liberty.

"On the 15th a similar order was served on Captain Curran of the Catharine Maria, lying at Caselle Rapids, from the commander of Port Caselle. He declined complying, and the Catharine Maria was seized by the Nicaraguan officials, Curran hauled down the American flag in token of a compulsory surrender. The commandant went to the Fort, got the Nicaraguan flag and hoisted it on the Catharine Maria.

"In attempting to take her to Port San Carlos she was run on a rock at Toro Rapids, where she now lies high and dry.

The correspondent of the New York Herald says that Schlessinger who has for some time been a political agent of the Transit Company, carries home a copy of the Osceola treaty. It is similar to the Cass-Yazoo, with the exception that British troops are to be landed only when demanded, or asked by the Nicaraguan authorities. The Mosquito protestants is left for future negotiation.

A treaty with Sardinia has also been concluded, and it is similar to the Osceola treaty, and recognizes 'privateering' as established and understood at the Congress of Nations at Paris. A French treaty was to follow soon.

There is no doubt of the fact that a joint protectorate of England, France and Sardinia has been established in Nicaragua.

ANOTHER ACCIDENT.—We learn that a young man named James Macauley, residing at Musquash, shot himself by accident on Friday last, while goose-shooting. He was dead when found.

New York, April 12.—of Baltimore arrived this day later dates.

Warlike preparations will be made for the Peace Congress of May probable at Baden.—The Austrian force in Italy is 220,000 men.—The Reform debate in England.

MARKETS.—Breadstuffs unchanged. Consols 93 1/2.

POST OFFICE. LATEST FROM NEW YORK, APRIL 13th.

ARRIVED THIS A. M. Consols 95 1/2 to 95 1/4.

LIVERPOOL, 2d.—The dull; flour 16s to 12s 1/2; corn little doing; provisions scarce and firm; sugar active and steady.

STEAMER PRINCE ALBERT ARRIVED APRIL 9th.

THE GOVERNMENT were cold reading of the Reform Bill majority. Cabinet determination would be 4th inst.

THE RESIGNATION of the enly anticipated.

THE SECOND IRISH addition the conviction and sentence for ten years to penal servitude. Nothing definite in respect of the place of the meeting. Congress has not been decided.

SUPPOSED SEIZURE OF THE SUN OF THIS MORNING.

THE SUN OF THIS MORNING flag of Cuba, under the flag of Spain is now in the mid-latitude, if not already in the tropics. The Sun says a triest sailed from this port March, with arms, ammunition, and men of the island, all determined to soil or die in the landing was to be the same patriots already on the island.

THE FIRST OF APRIL was the Isabel at Charleston 10th inst.

A MAN REVOLVING IN STEAMSHIP.

ON SATURDAY MORNING by the severe sale of the shore, near Albany, in the cars. He was paddling of board which he found steamer Eagle was making trip. The pilot, Mr. Fry, see the unfortunate man ed directly under one of the wheels, which broke it himself the man clung to the wheel, and was carried house, where he was buried.

New York, April 12.—The steamer City of Baltimore arrived this morning, with four days later dates.
Warlike preparations continue active.
The Peace Congress will meet on the 1st of May probable at Baden.
The Austrian force in Lombardy amounts to 220,000 men.
The Reform debate in Parliament continued.
MARKETS.—Breadstuffs dull. Provisions unchanged. Consols 95 1/2 to 95 3/4.

LATEST FROM EUROPE.

New York, April 18th.—The Europa arrived this A. M. Consols closed on Friday at 95 1/2 to 95 3/4.
LIVERPOOL, 2d.—Breadstuffs continue dull; four 10s to 12s 6d; in wheat and corn little doing; provisions firmer; coffee scarce and firm; sugar active; tea quiet but steady.
Steamer Prince Albert would not sail till April 9th.
The Government were defeated on the second reading of the Reform Bill by thirty-nine majority. Cabinet undecided, but its determination would be announced on the 4th inst.
The resignation of the Ministry was generally anticipated.
The second Irish rebellion trial resulted in the conviction and sentence of the prisoner for ten years to penal servitude.
Nothing definite in regard to peace or war. The place of the meeting of the Peace Congress has not been settled.
Supposed Seizure of Cuba.
New York, April 13.
The Sun of this morning raises the free flag of Cuba, under the firm belief that that Island is now in the hands of a general revolution, if not already in the hands of the patriots. The Sun says a band of Cuban patriots sailed from this port the latter part of March, with arms, ammunition, &c. Most of them are young men, sons of the leading men of the Island, all determined to free their native soil or die in the attempt. Their landing was to be the signal for revolt, to the patriots already on the Island.
The first of April was the day fixed upon. The Isabel at Charleston, brings dates to 10th inst.

A Man Revolving in the Wheel of a Steamboat.
On Saturday morning, a man was driven by the severe sale of Saturday, from the shore, near Albany, in a boat, without the oars. He was paddling along with a piece of board which he found in the boat, as the steamer Eagle was making her downward trip. The pilot, Mr. Fyra Hunter, did not see the unfortunate man, and the boat drifted directly under one of the paddle wheels of the Eagle, which broke it to pieces. To save himself the man clung to one of the paddles of the wheel, and was carried up the wheel-house, where he was badly hurt before his cries were heard. The boat was immediately stopped, and the poor fellow rescued from his horrible position. He was very seriously, though, it is hoped, not badly, injured.

FOUND DEAD.—A man named Donald Moore, was found dead last week near Mr. Miller's shipyard, Quaco. An inquest was held, and the body of deceased man was buried. Suspicions of foul play having arisen, a post mortem examination was held, and two cuts were discovered on his head. It also appeared on investigation that when found a pocket in his pants was cut out, and the money missing that he had with him previous to his death.—Globe.

The bishop and clergy of Rupert's Land (Red River) have petitioned the House of Lords to abolish the rule of the Hudson Bay Company, on expiry of the lease and license, and make it a colony under the Crown; also, in favor of free trade, against the renewal of exclusive privileges to the Hudson's Bay Company, and to place all her Majesty's subjects in the Indian territory on an equality.

Married.

On the 16th ult., at the residence of the bride's father by the Rev. R. Cooney, D. D., Melville DeBlois Dawson, of St. Louis, Mo., second son of Benj. Dawson, Esq., of Halifax, to Eliza J. eldest daughter, of R. Hannah, Esq., formerly of St. John, N. B.

Died.

On the 7th inst., William, son of Mr. Cornelius Kean, aged 1 year and 7 months.
On the 9th inst., Mary, daughter of Mr. Michael Driscoll, aged 11 years.
On the 10th inst., Hannah H., daughter of Mr. Jacob, and Mrs. Hannah Porter, aged 6 years.
On the 14th inst., Mrs. Mary, wife of Mr. Patrick Cokely, formerly of Portland, State of Maine; aged 23 years.
On the 15th inst., George Neal, aged 10 years and 11 months, eldest son of Thomas A. and Ellen E. McCurdy, and grand son of Mr. George Gilley of this Town.
At the Marine Hospital, St. Andrews, on the 16th inst., Irvin Jones, aged about 20 years—native of Dartmouth, England.
On the 11th inst., aged one year, Thomas Perry infant son of the late Thomas A. Crozier.

On the 14th inst., at Loch Lommond, after a short, but severe illness, which she bore with resignation to the Divine Will, Susannah Jane, aged 60 years, wife of George Snider.

SHERIFF'S SALES.

to take place at the Court House.

Real estate M. R. Fletcher June 18
Do Daniel Hewes August 27
Do Daniel Stewart Oct 22

TO BE SOLD at Public Auction at the Court House in the Town of Saint Andrews on Saturday the 18th day of June next, at 12 o'clock noon:—

ALL that tract, piece, or parcel of land and premises situate in the Parish of Saint George below the first Falls of the Magdalenic River on the western side of the said river called the Grilly Property. Beginning at the centre of the said gully below the said Falls near the head of the tide-trench running through said gully always keeping the centre of the main course of it to a yellow-bark-ash at the head of the said gully, and its true bearing nearly North eight and a half degrees West from the centre of the channel of the said gully; thence West from said tree to a stake and stones about twenty feet (25) feet above the flowage of the first dam; thence East along the course of the bank of the said gully down from past the land in the occupation of the heirs of the late Joseph Maurice to the lower side of the road that leads from the lower bridge to the mouth of the Magdalenic River; thence along the lower side of said road to a stake and stones about one hundred and four feet from the Milliken House; thence Southwesterly within twelve feet of the Cameron Store in a direct line to a clear the Cameron Store to the water; thence along the shore around the rocky point following the course of River up stream to the place of beginning—with a road two rods wide from the there near the birch stump along the side of land recently out of land owned by Thomas Case. All the right of way from the road which leads to the mouth of the said river up the street laid out in front of the premises of the heirs of the late Joseph Maurice, and extending up the hill and over to the bank of the said gully; thence along the said bank to the road first mentioned from the birch stump to the cross road. With all and singular the rights, privileges, watercourse, dams, pier, booms, sluices, houses, stores, wharfs, with all the appurtenances to the said lands and premises in any wise belonging, save and excepting thereout the premises sold by William W. Fletcher to Daniel Gilmor and Isaac W. Bradley.

ALSO—all that certain tract of land situate and being in the Parish of Saint Patrick, bounded and described as follows:—Beginning on the Easterly shore of the Digdegash River at the mouth of Otter Brook; thence East sixty-six chains to the South-West corner of a lot granted to John Lechary, thence at right angles North two hundred and forty chains to the Southerly line of the Digdegash river; thence at right angles West by the said grant about one hundred chains to lands granted to the late Captain Campbell; thence Southerly at right angles by the East line of the said grant to Captain Campbell to the Cammiek Brook at the shore; thence following the different courses of the shore around by the Mills to Otter Brook, the place of beginning,—containing by estimation two thousand acres more or less. The same having been granted to one Captain Thomas Farrell, and by him conveyed to one John Curry, and by the said John Curry and Patrick McMaster, in their life time together with all the mills, buildings, erections and improvements thereon, with every privilege and appurtenance thereof belonging,—save and except thereout so much thereof as was sold and conveyed to Thomas Anderson, and which contains about twelve acres. The same having been seized and taken by virtue of an execution issued out of the Supreme Court at the suit of William Sweeney and Simon Page against Moore R. Fletcher, endorsed to levy \$430 6s. 2d., besides Sheriff's fees, &c.

THOS. JONES, Sheriff of Charlotte.

Sheriff's Office, St. Andrews, Dec. 6, 1858. James W. Chandler, P.O. Atty.

TO BE SOLD at Public Auction, on Saturday the 27th day of August, at 12 o'clock, noon, at the Court House in St. Andrews:— ALL the right, title, interest, and claim whatsoever of PAOLI HEWES to the following Property, situate in the Parish of St. James, in the County of Charlotte, viz:— Three Acres on the North side of the Mohannes Stream.

Also, one Acre on the Southern side of the Mohannes Stream. Also, a piece of land fifteen rods square on the East side of the Road leading towards the Chepuncocook Ridge. The foregoing property having been purchased by said Paoli Hewes from Robert Hinchings and others.

The same having been seized to satisfy an Execution order-ed to levy \$32 1s. and in execution of a writ of August 1856.

THOS. JONES, Sheriff of Charlotte.

Sheriff's Office, St. Andrews, Feb. 8, 1859.

TO BE SOLD at Public Auction, at the Court House, in the Town of Saint Andrews, on Saturday the 23d day of October next, at 12 o'clock.

ALL the right, title, interest, and claim whatsoever of DANIEL STEWART to the following property in the Parish of St. David, and being part of lots No. 4 and 5, Block letter X in Fanning's Division, be-

ginning at the South-East corner of Lot No. 5 on the St. David's road, thence North on the Cape Ann Line across the East end of Lot No. 5 and No. 4, thence West on the North line of lot No. 4, for as far as will include twenty five Acres of each lot, thence Southerly with the said St. David's Road, and thence on said Road to the place of beginning, containing 50 Acres more or less.

To satisfy an execution issued out of the Supreme Court in favor of Jacob Young, endorsed to levy \$292 2s. 7d., besides Sheriff's fees &c.

THOS. JONES, Sheriff of Charlotte.

Sheriff's Office, St. Andrews, April 11th 1858.

Wilson's Wharf; where he will attend to all orders in his line, such as Ship, Mill, and Agricultural work, together with Horse-shoeing and general jobbing, and hopes by attention to receive a share of patronage.

JOHN SHORT, St. Andrews, Jan. 25, 1859.

THE Great European Remedy for Nervousness, Relaxation and Exhaustion. Protected by Royal Letters Patent of England, and sanctioned by all the great Continental Colleges of Medicine.

DROPS, are the great remedy for Spasms, torpor, Exhaustion, Nervousness, Debility, Aversion to and Inactivity for Society, Study or Business, Shaking of the Hands and Limbs, Indigestion, Flatulence, Shortness of Breath, Asthma, Consumptive Habits, Dizziness of Sight, Dizziness, Pains in the Head, Eruptions, Sore Throat, Pains in the Bones, and all those diseases for which mercury, arsenic, &c. are too often employed, to the utter destruction of health. Their almost marvellous powers must be felt to be believed. Hundreds of apparently hopeless cases have been cured, and thousands almost miraculously relieved, when every thing else had failed; and they must sooner or later supersede all these questionable remedies which have hitherto been the sole reliance of English medical men.

Price 11s. and four times the quantity at 33s. per bottle, of the Agents below. The 2s. pack ages containing twelve 11s. quantities, (by which 4 12s. are saved) will be sent from the Establishment, on receipt of the amount per draft on a London bank, or otherwise.

CAUTION.—Subscribers must guard against the recommendation of spurious or other medicines by unprincipled vendors, who thereby obtain a larger profit. The words "WALTER DE ROOS, LONDON," are printed in White letters on the Stamp affixed to the above, by order of HER MAJESTY'S HONOURABLE COMMISSIONERS, to protect the public against fraud, as without this notice can be genuine, and to imitate which is a felony.

Pains in the Back, Gravel, Lumbago, Rheumatism, Gout, Disease of the Kidneys and Bladder, Stricture, &c.

DR. DE ROOS' COMPOUND RENAL PILLS are a well known safe and speedy remedy for the above dangerous complaints, Discharges, and Diseases of the Kidneys and Urinary Organs generally. Possessing tonic properties, they agree with the most delicate constitutions, improve the health, and in three days effect a cure when opium, cubeba, and all such dangerous medicines have utterly failed.

The superiority of these celebrated Pills over every thing of the kind is universally acknowledged, and the extraordinary demand for them without precedent.

They are safe, when, from natural difference, or fear of discovery, men silently bear their afflictions rather than apply to those for whom they may reasonably expect relief. With the above Pills, the sufferer may without the knowledge of a second party cure himself speedily, privately, and at the least possible expense.

Sold at Langley's Drug Store, Hollis-street, Halifax, Nova-Scotia; by Hazard, Charlotte-town, Prince Edward Island; Ward, New Office, Sydney, Cape Breton; Ashton, Richard, St. John, Canada; Strickland & Co., Mobile, Alabama; Smith & Co., Seaside; Dodsworth & Co., Clark, Romer & Co., and Gairin & Co., Colombo and Candy; Lyman & Co., Montreal; St. Jean, Laboratory, Falmouth; and Lawson Advertiser Office, Kingston, Jamaica; Beach, man and Tait, Port of Spain, Trinidad; Heagan, Weekly Register Office, Antigua; Haylock, Belize, Honduras; West, Palmer & Co., Kingston, Canada; Strickland & Co., Mobile, Alabama; Stamps, Constantinople; Paisley & Fryer, 384, George-street, Sydney; and Ford, Chemist, Swanston street, Melbourne, Australia, of whom also may be had "THE MEDICAL ADVISER," or should difficulty arise in procuring any of the above, enclose the amount by draft or otherwise to 10, Berners-street, Oxford-street, London, and they will be sent securely packed per return.

Apply to JOHN D. WILSON, SAMUEL DARLING, Dec. 15.

A new, speedy, and most successful mode of treating Spermatorrhoea, Nervous Debility and Urino-Genital Diseases. Specially Expensive Price 1s. through all Book-sellers, or post free from the Author for 1s. postage stamps.

THE MEDICAL ADVISER on decay both mental and physical, arising from excesses, infection, climate, &c.; remarks on the use of the Microscope, and the devices of our quacks to alarm the too sensitive invalids; observations on Marriage, the prevention and removal of certain disqualifications; rules for self-treatment, &c. By WALTER DE ROOS, M.D., of the Ecole de Medecine, Paris; Member of the Royal College of Surgeons, London recertified in Midwifery, &c. &c. &c. 10, Berners-street, Oxford-street, London. Hours for Medical consultation daily from 1 till 4, Sunday excepted.

Persons in Dublin by Berry, 163, Great Britain-street; Edinburgh, Robinson, 11, Green-side-street; Glasgow, Love, Bookseller, and by all the Agents.

From long practical observation of the treatment pursued in the various institutions of London and Paris for those cases referred to in the above work, the Author has had somewhat unusual facilities for acquiring that accuracy of diagnosis, and uniform success, which have characterized his practice for so many years in this country, in which the lamentable neglect of these diseases by medical men generally, and their futile attempts to cure by mercury, opium, arsenic, &c. have produced most distressing results. Lasting benefit in such cases can only be reasonably expected at the hands of the highly-qualified medical man who devotes his chief attention to their removal; and to him only who can show his possession of the necessary qualifications, can confidence be safely extended. By De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness; and to those who may be in need of such aid, he offers every assurance of speedy restoration.

Persons residing abroad can be successfully treated by correspondence, on sending a full detail of their case, with a Bank note, or Bill on a London house for £5, in order to have a packet of medicines sufficient to meet the exigencies of the case, sent out by next mail; and avoiding unnecessary loss of valuable time, and much suffering which might otherwise occur.

Flour, Meal, Pork. Just received from New York, and for sale at the UNION STORE: 200 Bbls Superfine Flour, 50 do Extra Family Flour, 300 Bags Corn Meal, of good quality, 10 Bbls Pork which together with a general stock of Provisions and Groceries on hand will be sold at the lowest market prices for prompt payment. Daily expected, a further supply of superior Family Flour.

J. R. BRADFORD, AGENT, St. Andrews, Jan. 6, 1858.

AYER'S Cathartic Pills

ARE MADE TO CLEANSE THE BLOOD AND CURE THE RICK, Invalids, Fathers, Mothers, Physicians, and Judges of their cases.

FOR THE CURE OF Headache, Sick Headache, Poul Stomach, Flatulency, &c. Dr. J. C. Ayer says: "I have been repeatedly cured of the most headache any body can have by a dose or two of your Pills. It never fails to relieve a full stomach, which I cleanse at once. If they will cure others as they do me, the fact is well known. Yours will great respect."

Dr. J. C. Ayer says: "I have used your Pills in my general and hospital practice for the last twelve years, and can testify to their efficacy in every case. They are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for dyspepsia of that organ. Indeed, I have seldom found a case of bilious dyspepsia which it did not readily yield to. Respectfully yours, ALONZO HALL, M.D., Physician of the Marine Hospital, New York."

Bilious Disorders and Liver Complaints. DEPARTMENT OF THE INTERIOR, WASHINGTON, D.C., Feb. 1858. Dr. J. C. Ayer's Pills are the best I have ever used. They are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for dyspepsia of that organ. Indeed, I have seldom found a case of bilious dyspepsia which it did not readily yield to. Respectfully yours, ALONZO HALL, M.D., Physician of the Marine Hospital, New York."

Dysentery, Relays, and Worms. POST OFFICE, HARTFORD, CONN., Nov. 16, 1855. Dr. Ayer's Pills are the best I have ever used. They are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for dyspepsia of that organ. Indeed, I have seldom found a case of bilious dyspepsia which it did not readily yield to. Respectfully yours, ALONZO HALL, M.D., Physician of the Marine Hospital, New York."

Indigestion and Impurity of the Blood. Dr. Ayer's Pills are the best I have ever used. They are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for dyspepsia of that organ. Indeed, I have seldom found a case of bilious dyspepsia which it did not readily yield to. Respectfully yours, ALONZO HALL, M.D., Physician of the Marine Hospital, New York."

Rheumatism, Neuralgia, and Gout. Dr. Ayer's Pills are the best I have ever used. They are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for dyspepsia of that organ. Indeed, I have seldom found a case of bilious dyspepsia which it did not readily yield to. Respectfully yours, ALONZO HALL, M.D., Physician of the Marine Hospital, New York."

For Dropsy, Plethora, or kindred Complaints, requiring an active purgative, they are an excellent remedy. For Constipation, and as a Diarrhoeic Pill, they are equally valuable.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the salutary action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its use. These pills contain no mercury or mineral substance, and are perfectly safe in every case.

AYER'S CHERRY PECTORAL FOR THE RAPID CURE OF COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INFLUENZA, CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every land, and almost every hand of the American people, its wonderful cures of pulmonary complaints have been already known. Nay, they are the families in our civilized country on this continent without some personal experience of its efficacy; and fewer yet the communities where which have not among them some living trophy of its victory over the subtle and dangerous disease of the pulmonary organs. It is also the pleasant and most reliable that can be employed for the relief of the pulmonary organs. Parents should have it in store against the influenza which so often attacks our children. We have abundant grounds to believe the CHERRY PECTORAL more than any other remedy that can be employed for the cure. Keep it by you, and cure your child while they are curable, nor neglect them until no human skill can master the insupportable cough that fastens on the child, and your life away.

All know the dreadful fatality of lung diseases, and as they know the virtues of this remedy, we need not to say that we assure them it is still made the best it can be. We spare no pains, no cost, to produce the most perfect product, and that affords those who rely on it the best agent which our skill can furnish for their cure.

THE LAST OF THE

It may be that the dom in, in the aggregate, as civil place as that of Great Britain is that incidents which frequently brought to light the noble creations of the Rabelais, than the sober realism of the world. Of this kind is the Garcia de Quesada, a young man, which, in its maturity judiciously verified before the world.

Garcias de Quesada was a noble surviving representative of ancestors, whose history as far back as the days of first efforts to rescue Spain, originating under the banner, in the Montanas de birthplace of Spanish founders of the Quesada.

Unfortunately, the heritage of the race by eleven glory, consisted of little more than family pride energetic centuries, and as a Cordona in Catalonia, whence had reduced to predication of its own—that ruin. The naturally ar of the young man was fostered by the teachings of his few months after he attained it was said to have mingled between them, the Garcia could espouse a rank the superb line of the and with him, whilst y and uncontaminated by the plebeian life. This preparation gave birth, after a time, hatred of one particular the first instance, because illustration which the person afforded of the wiser family, the De Vel matter of patrician pride held their heads as high as

dos de Valasco, on such heritages, having founded other Spanish families of modern times; without parting his hereditary rankly brought aside the that would have barred through the avenue of triumph with remarkable energy, facture carried on in that Success rewarded his exorable sign is denoted, by the former rival family of the ancestral mansion, once condition as the hereditary "castle," was thoroughly and decorated, the me which had dwindled to a ill-servitors, was recruited complement; Senor Vel had dropped the Don and fully educated; and who returned home in 1847 of Toledo, he was pronounced to be the hands broad mounted, and altogether and accomplished neighborhood for many; this young man, Garcia received from the first a vantage and splendor of the clouds and gloom for the the deadliest hate. It de Quesada had been in his restrictive of perpetuated charms, personal and pr Velasco, and that he att that had met his conside wards a mesalliance, as a family whose head had cheon by stopping to the tractor—to the opposite brother; his personal no doubt, to ignore the Velasco's declining. So sions reported to have Alonso reported to have and poverty-stricken pected suitor, confirmed led, moreover, to a d which Garcia de Ques owed his life to the phant adversary.

For about three years intercourse took place men Garcia de Ques being rarely seen in of where he dwelt in ill- attendant one Gil Polo wedded, widowed and
