ROME, Oct. 31.
The Pope has delivered an allocution, condemning the conduct of Italy, declaring that he is ready to die in defence of the right and that in case of need he will seek the free exercise of his ministry in another land.

LONDON, Oct. 31.
The Turks claim great victories over the Christians in Candia.

In a hard fought battle near Oressa, the Christians lost 700 men while the Turkish loss was very heavy.

Three thousand Christians had been lost in a cave, where they had sought a hiding place and refuge, the tide rising and submerging them.

Large submissions were being made by the Christians to the Turkish authority.

MONTREAL, C. E., Nov. 2.
Hon. D'Arcy McGee made a speech last night before the Caledonia Society and said if he had the ear of the Irish people he would say: "Consider the proper position of Scotland; cease to pursue this impossible and impracticable. Try something that contains the elements of success. To the imperial statesman he would recommend the familiar American word: Reconstruction and a generous policy to Ireland."

NEW YORK, Nov. 3.
Col. Roberts has issued a stirring address to the Fenian Brotherhood, calling on them to form themselves into military companies at once. "The Neutrality Laws," he says, "will not prevent them, and British influence will no longer be allowed to rule this country to your injury and Ireland's. Stranger events are in the future and you know not how soon you may be called upon to strike again for Ireland. Let not the occasion or call find you unprepared." He further advises and entreats them to work. Instructions acquiring secrecy will be sent to the different circles.

The British Parliament had been formally further prorogued to November 20.

Mr. Snider, inventor of the breech-loading rifle bearing his name, and whose case was attracting considerable attention, died suddenly on 25th inst.

In the absence of any political excitement, the subject of ritualism in the Church of England was being freely discussed. The London Times was duly flooded with correspondence on the subject.

The cattle plague returns had dwindled down to only six cases in the week.

Admiral Mundy will succeed Sir James Hope as Commander in chief on the North American station.

Sir H. Cairns had been honored with a grand banquet at Belfast on the occasion of his retirement from the representation of that city.

The opinion of Gen. Michel as to the defensible character of Canada as the banquet in Montreal given to the Hon. Mr. Cartier, we find summarized in the Montreal Gazette.

It is strange contrast with the views of such able military strategists and tacticians as the editor of the Freeman and other men of the same political creed. The summary supplies the following:

"He (Gen. Michel) stated that, with the development of the volunteer or militia system fortifications at given points, and the opening of an inland navigation west by the Ottawa,

we might view with complaisance any of the moods of our neighbors. He contended that with these conditions we might have independence and peace; that short of a great war could make any impression upon us; and this he indicated, would not be successful if we were true to ourselves."

A CHAPTER ON ANNEXATION.

There are those inclining to the belief, that the recent interference of American citizens in the affairs of the Colonies, assuming the name of Fenians, and the evident tampering with the loyalty of Colonists, is but the precursor of a movement having for its ultimate object the annexation of these colonies to the mighty Republic. If there be those in New Brunswick inclined to favor this alliance, we commend to their attention the opening paragraph of the article which we copy below:

What a commentary on universal suffrage, what an illustration of the beauties of American institutions! "John Morrey," (the prize fighter,) has been nominated as a candidate for Congress from the Fifth District of New York! It speaks volumes; it tells what a glorious country is that where ruffianism and villainy have liberty to walk hand in hand with high position and Senatorial dignity; and what a magnificent future is ours, when we exchange the government of Great Britain to come under the dominion of John Morrey, and the plug uglies of the political prize-ring—[Register.]

The Standard.

ST. ANDREWS, NOV. 7, 1866.

WHAT NEXT.—The American Government through their Secretary of State, Mr. Seward, has made a demand on the British Government through our Ambassador at Washington, that the sentences passed on the Fenians, shall be suspended, until the U. S. Government has had time to enquire into the legality, justice and regularity of the judicial proceedings which have taken place. Well does Mr. Seward. Do you think the people whose families have been struck down by the hands of assassins, will tamely submit to such rebellious and murderous conduct without punishing the offenders? The Canadians alone are interested, and it is hoped that they will make such an example of the prisoners as will have the effect of deterring the Fenians from repeating such villainous acts in future. Mr. Seward says in his letter that their "offences involved in these trials are in their nature eminently political." If invading a peaceable country, murdering its volunteers, and robbing its farmers are not crimes of the deepest dye in the States, they are in every other nation. The Law Courts and Judges of Canada will do their duty irrespective of what Mr. Seward believes, or any threats he may think proper to make. If he sympathizes with the Fenians, the Canadians nor other provincialists do not.

FLOUR TRADE.—We notice from Canadian papers that the price of Flour still rules high, and the reason assigned is, that the late wet weather damaged the crops to a considerable extent. This, with the reports of the damage reported in Great Britain, (which, however, is not so great as was anticipated) has kept up the price. In the States too, prices have had an upward tendency, but as soon as navigation closes the high rates will relax, which large consumers most devoutly desire. That flour speculators have had something to do with the advanced rates, there is no question; traders will buy in the cheapest and sell in the dearest market. The prices are Superior Extra \$8, Extra \$7.80, Fancy \$7.60, Superfine \$7.40, Fine \$6.50.

Target Practice.

The following is the Score at the Target practice of Capt. Stevenson's Company, for the Company Medal—

	200 yds.	300	400	Total
Pt. G F Stickney	18	14	13	45
Lieut. Polley	16	10	13	39
Pt. Jas Treadwell	17	11	7	35
John Deely	19	13	6	38
Serjt. McKinney	16	12	8	36

After which there was a match fired for some money subscribed for prizes.

The following is the score of the Rifle competition for the Rifle given by Capt. Geo. R. Stickney as a prize.

	200 yds.	300	Total
Serjt. McKinney	16	15	31
Pt. L. Chase	16	15	31
Pt. J. Denley	15	16	31

Being three ties, on firing off, the first time each party made a Bull's eye; on the second firing off, Serjt. McKinney made a Bull's eye, L. Chase a center and J. Denley an outer.

Whereupon Serjt. McKinney was declared the winner amidst great cheering.

The Tea Meeting of the Presbyterian Congregation, was held in Gore's building, near the Railway Station, on Wednesday evening last. We have been requested to publish the following:—"The Presbyterians of St. Andrews take the present opportunity of publicly thanking C. M. Gore, Esq., for the kind man-

ner in which with his usual liberty, he placed his commodious hall at their service."

ARMS SEIZED.—Two cases marked "Hardware" which were hauled from the Steamer "Queen" yesterday, while being put into the Railway cars, were examined by the Customs Officers and found to contain Muskets; they were seized and placed in safe keeping until orders are received from His Excellency Gen. Doyle. The cases were addressed to an importer in Montreal.

It is currently reported that His Excellency Major General DORRIS, will visit St. Andrews this week on Military business. In no part of the Province will His Excellency be more heartily welcomed than his last Spring's Headquarters. Capt. Stevenson's Company will perform escort duty.

A most beautiful meteoric phenomena was witnessed here on Monday Evening, about half past 6 o'clock. The appearance was that of a large ball of fire suddenly emerging from a dark cloud and bursting into numberless small stars, lighting up the heavens in a north westerly direction.

The "Yarmouth Herald" says that Capt. Lyman E. Cann, of that place arrived there in 58 days from Melbourne, Australia, via New Zealand, Panama, New York and Boston. From the latter place he took passage in a schooner. Out of the time, he was detained 6 days at Panama, and two at Boston.

The Campobello Fish Fair and Regatta came off on Thursday last and was a decided success. A Ball was given afterwards which was kept up until "the rosy hours of morn."

We are in receipt of the "University Calendar" for the Academic year 1866-67, which contains the usual information with reference to that highly useful seat of learning.

ST. ANDREWS SOCIETY.—From published notices we observe that a meeting is to be held in the Parish School room, on Thursday evening, 8th inst., to reconstitute the St. Andrews Society of this Town. Scotchmen and their descendants are invited to attend.

THE CALVERT ROBBERY.—The New York papers of the 30th ult., contain the following painful reference to a robbery committed in that City by a young man belonging to St. John—

"Yesterday afternoon Mr. Parks sent Calvert to Messrs. C. Unger & Co's, Bankers, 48 Exchange Place, with an order for \$48,000 in gold certificates. After waiting 15 minutes, Calvert not returning, a young man was despatched after him. Messrs. Unger & Co. informed the messenger Calvert had been there and drawn the gold certificates, each of them bearing the denomination of \$5,000."

Returning with this answer, Mr. Parks supposing Calvert had gone off elsewhere and would return, delayed further enquiry for half an hour, but then became suspicious that Calvert yielded to temptation. A clerk was then sent to the Sub-Treasury, where was informed that two of the certificates amounting to \$10,000, gold, had been cashed a short time previous, being numbers 21,997 and 21,105, of letter A. Further information was obtained that Calvert was seen to enter the Sub-Treasury building by the Wall Street entrance, and leave it through the door fronting on Pine Street. Beyond this nothing could be learned.

Calvert is described as 25 to 28 years of age, small piercing eyes, large front teeth, and Celtic looking face; beard and hair of a light brown color; the beard grows over a great portion of his face and throat; speaks with a slight Irish accent. He formerly resided at 86 Clinton Place, and has a brother residing at Springfield, Mass. His occupation as stated by Mr. Parks, was that of a "gold runner" for delivering gold checks, in which capacity he had been employed by Mr. Parks since last year. Until yesterday he had always been regarded as honest and trustworthy. Several detectives have been detailed to hunt him up, and telegrams sent all over the country."

REPUTATION IN NORTH CAROLINA.—The subject of reputation is extensively agitated in North Carolina, and some of the members of the Legislature will be chosen on that issue. The Newbern Times says the various taxes levied and collected by the United States Government take about all the surplus money people can possibly get, and there is nothing left with which to pay State taxes, and they are looking out for some excuse to throw a portion, at least, of the burden off their shoulders.

A GRAND SPECTACLE.—Scientific men agree that, in a few weeks, we shall witness one of the grandest natural displays the universe affords. Between the hours of midnight and daybreak, on the 13th and 14th inst., there will occur one of those wonderful phenomena known as "meteoric showers." Astronomers predict that this spectacle will continue for several hours, and be one of the grandest ever witnessed. Certainly it is worth seeing, and those who are fond of seeing fine words, will be amply repaid by the extraordinary spectacle for the loss of a night's sleep.

MAN KILLED.—As one of the seamen belonging to the "New Lampedo," now lying at Robertson's wharf was going on board that vessel last night, about eleven o'clock, he fell

between the ship and the wharf, and received such severe injuries that he died soon after. His neck was, when taken up found to be lacerated, and he was supposed to have received some severe internal injuries. Dr. Kantor was called but could do nothing for him. The name of the deceased was James Stewart. He was 28 years of age and hailed from New York.

Our Yankee neighbors will insist on smuggling from the Lower Provinces. The Marshal (Mr.) says,—"We saw in Customs, at the Custom House, about four thousand dollars worth of liquor, tea and other goods, which had been seized by the Revenue Officers as smuggled goods. There was a barrel of sugar of lead, a large amount of clothes for the manufacture of adulterated liquors. Nutmegs were also abundant. Bottled brandy and gin as well as barrels containing the same kind of spirits. These goods were seized on board vessels directly from the Province ports."

CHURCH SACKED BY FENIANS.—A Toronto dispatch says that the Episcopal church at Brantford, C. W. was entered by a party of Fenians immediately after the receipt of the news that Colonel Lynch and Rev. J. McMahon were sentenced to be hanged. The windows were smashed and the pulpit demolished, while a party of men promenade the streets cheering for President Roberts and General Sweeney.

A special despatch from Washington to the Philadelphia Bulletin says:—"Sir Frederick Bruce, the British Minister, expresses a belief that the Canadian authorities will accede to the request our government in the cases of 'the Fenians' under sentence of death.' Some very unreliable stories come from Philadelphia."

ITEMS.

Beef is selling in the St. John market from 4 to 6 cts. per lb. Butter from 19 to 20 cts. per lb. with few buyers.

Apples are arriving at New York in large quantities, and the supply is such that they are said to be sold at \$8.50 (greenbacks) per bbl., of the best quality.

The St. John papers have determined to require payment in future for in setting Marriages and Deaths.

A Frenchman proposes to build a pontoon bridge from Calais to Dover Cliff, with openings for vessels. He estimates the cost at £16,000,000.

A bridge above a tunnel beneath, and an intermediate short sea passage—surely France and England will be closely united at last! The people of both countries seem more averse to the sea than would have expected.

Hon. John Hilliard Cameron, counsel for the crown in the prosecution of the Fenians in Canada, has applied for a writ of "habeas corpus" to remove the Fenians held in Cornwall to Toronto. The Crown counsel also moved for the sentence of outlawry against Mike Murphy and other Fenians, who escaped by breaking jail. The names of those in Cornwall are Keys, Hartwell and Kelly.

There has been another large arrival at Montreal from England of ammunition wagons, gun carriages, and other useful war material, which now strewn the wharves.

The city government of Quebec has prohibited the construction of wooden buildings within the burnt district and has decided to adopt the fire alarm telegraph.

H. M. S. "Cordelia" arrived at St. John Friday from Wellespool, Campobello. She will be stationed there during the winter.

The Journal and News say Mr. William Raymond, of Kouchibouguac, was appointed Sheriff of Kent at the recent meeting of the Government at St. John.

The Boston Advertiser says:—"The commander-in-chief of the British forces in the Province, recommends the fortifications of Montreal, Kingston and other points, and the extension of the volunteer system to all the Provinces."
