

## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below.

L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de numérisation sont indiqués ci-dessous.

- Coloured covers /  
Couverture de couleur
- Covers damaged /  
Couverture endommagée
- Covers restored and/or laminated /  
Couverture restaurée et/ou pelliculée
- Cover title missing /  
Le titre de couverture manque
- Coloured maps /  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) /  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations /  
Planches et/ou illustrations en couleur
- Bound with other material /  
Relié avec d'autres documents
- Only edition available /  
Seule édition disponible
- Tight binding may cause shadows or distortion  
along interior margin / La reliure serrée peut  
causer de l'ombre ou de la distorsion le long de la  
marge intérieure.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated /  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies /  
Qualité inégale de l'impression
- Includes supplementary materials /  
Comprend du matériel supplémentaire
- Blank leaves added during restorations may  
appear within the text. Whenever possible, these  
have been omitted from scanning / Il se peut que  
certaines pages blanches ajoutées lors d'une  
restauration apparaissent dans le texte, mais,  
lorsque cela était possible, ces pages n'ont pas  
été numérisées.

- Additional comments /  
Commentaires supplémentaires:

Presented (Senate) 25th May, 1898.—*Hon. Mr. Landry* ..... *Not printed.*
- 101.** Return to an address of the Senate to his excellency the Governor General, dated 17th March, 1898, for a detailed account by the department of the interior of the items of the expenses allowed to W. H. Sowden during the period of his employment as immigration agent, and also the names of all or any persons, who, in consequence of Mr. Sowden's work in the Midland Counties, went to the Canadian North-west, and who, as stated by the leader of the government in the senate, it is believed by the government would otherwise have gone to the United States, and the residences of such persons prior to their departure to the North-west, and the places where they settled in the North-west. Presented (Senate) 25th May, 1898.—*Hon. Mr. Kirchhoffer* ..... *Not printed.*
- 102.** Return to an address of the Senate to his excellency the Governor General, dated 5th May, 1898, for copies of all correspondence and orders in council in respect to the occupancy of a portion of the Songhees Indian reserve at Victoria, British Columbia, by the Esquimalt and Nanaimo Railway Company. Presented 26th May, 1898.—*Hon. Mr. Templeman* ..... *Not printed.*
- 103.** Return to an address of the Senate to his excellency the Governor General, dated 18th March, 1898, for any correspondence that has taken place between the government and the home authorities re repatriation of the 100th Royal Canadian Regiment. Presented (Senate) 26th April, 1898.—*Hon. Mr. Boulton* ..... *Not printed.*
- 104.** Return to an order of the House of Commons, dated 14th March, 1898, for a copy of all entries and clearances of Canadian ports by United States steamship "Yantic" on her voyage up the river St. Lawrence in 1897; also a copy of any papers or correspondence respecting her passage through the said river or St. Lawrence canals. Presented 30th May, 1898.—*Sir C. Hibbert Tupper* ..... *Not printed.*
- 105.** Return to an order of the House of Commons, dated 30th May, 1898, for a copy of a letter from Major General Gascoigne, relating to certain statements made in parliament, reflecting upon him as commanding officer of the Canadian militia. Presented 30th May, 1898.—*Sir Wilfrid Laurier*.  
*Printed for both distribution and sessional papers.*
- 106.** Return to an order of the House of Commons, dated 25th April, 1898, for a return of all papers, receipts and documents in possession of the government relating in any way to a claim presented to the government by Hugh Richardson, Esq., the justice of the supreme court, North-west Territories, for losses sustained at Battleford during the North-west rebellion of 1885. Presented 31st May, 1898.—*Mr. Davis* ..... *Not printed.*
- 107.** Return to an order of the House of Commons, dated 9th May, 1898, for copies of all reports and plans respecting or in any way relating to a route through and from the North-west Territories to the Yukon district *via* Prince Albert, Saskatchewan, Green Lake, Isle La Crosse and the Clear-water river and Fort McMurray on the Athabasca. Presented 31st May, 1898.—*Mr. Davis*.  
*Not printed.*
- 108.** Return to an address of the Senate to his excellency the Governor General, dated 15th March, 1898, for copies of all reports made to the department of marine and fisheries by the officers in charge of the steamer "Petrel" having reference to the service performed by that steamer during the winter of 1896-97, and also detailed statements of the expenditure incurred for that service and receipts for freight and passengers. Presented (Senate) 30th May, 1898.—*Hon. Mr. Ferguson* ..... *Not printed.*
- 109.** Return to an order of the House of Commons, dated 2nd May, 1898, for copies of correspondence and reports addressed to the militia department concerning accidental shooting at Côte St. Luc ranges, of a farmer named Larose of the parish of St. Laurent, in Jacques Cartier county. Presented 1st June, 1898.—*Mr. Monk* ..... *Not printed.*
- 110.** Return to an address of the House of Commons to his excellency the Governor General, dated 14th February, 1898, for copies of all correspondence, calls for tenders, tenders received, reports and orders in council, permits, licenses or leases, with the names of the parties receiving them and the conditions attached thereto, and generally all papers in connection with the disposal of timber berths or areas in the North-west Territories, including the Yukon, since 1st July, 1897. Presented 3rd June, 1898.—*Mr. Foster* ..... *Not printed.*

---

 CONTENTS OF VOLUME 13—*Continued.*

- 111.** Return to an order of the House of Commons, dated 18th April, 1898, for copies of all reports, correspondence, documents and papers in relation to a claim by one Amable Frigon, of Montreal, for an indemnity for an injury received by him at the military camp of Laprairie in September, 1891. Presented 3rd June, 1898.—*Mr. Casgrain*..... *Not printed.*
- 112.** Return to an order of the House of Commons, dated 4th June, 1898, for copies of all correspondence relating to the transportation of supplies for 1898-9, for the North-west mounted police and the officials of the department of the interior to the Yukon district. Presented 4th June, 1898.—*Hon. C. Sifton* ..... *Not printed.*
- 113.** Return to an address of the Senate to his excellency the Governor General, dated 26th May, 1898, for a copy of the contract between the government and the Beaver Line Company for the carriage of the mails across the Atlantic, together with all memorials, letters, correspondence whatsoever connected with the said contract or its execution, or bearing upon the refusal of the company to allow its boats to stop at Quebec. Presented (Senate) 1st June, 1898.—*Hon. Mr. Landry*.  
*Not printed.*
- 114.** Return to an address of the Senate to his excellency the Governor General, dated 11th May, 1898, for copies of all the correspondence which took place in relation to the permission first refused and afterwards given to Captain and Brevet Major P. Belanger, of the 61st Battalion, to resign his commission and to retain the rank of major on retirement, as shown by the Militia General Orders, No. 55, of the year 1894, and by the *Canada Gazette* of 18th December, 1897; together with all papers, reports and orders in connection with such matter. Presented (Senate) 1st June, 1898.—*Hon. Mr. Landry*..... *Not printed.*
- 115.** Return to an address of the Senate to his excellency the Governor General, dated 25th May, 1898, for a statement of the tenders received by the department of militia and defence for the work on the rifle range on the Ottawa river, east of the city of Ottawa, and a statement of the estimated quantities on which tenders were figured out; a statement of the date and amount of each cheque sent in with each tender. A copy of the tender of J. Lyons, and a copy of the cheque which accompanied the same, showing date of acceptance by the bank. Presented (Senate) 3rd June, 1898.—*Hon. Mr. Macdonald (Victoria)*..... *Not printed.*
- 116.** Statement concerning prices paid to the Bate Co. for articles of food supplies for the military force sent to the Yukon district last month. Presented (Senate) 3rd June, 1898, by Hon. D. Mills.  
*Printed for sessional papers.*
- 117.** Return to an order of the House of Commons, dated 25th April, 1898, for copies of all reports, papers and correspondence relating to the removal of postal mail clerks from their former places of residence in the province of Nova Scotia in 1897 and 1898. Presented 7th June, 1898.—*Sir C. Hibbert Tupper* ..... *Not printed.*
- 118.** Return to an order of the House of Commons, dated 14th March, 1898, for a return showing the names of all parties furnishing supplies for the military camp at Aldershot, King's county, Nova Scotia, since July, 1896, the rate of allowance or payment of each class of articles supplied, the names of the tenderers, the amount asked by each tenderer, and the amount allowed. Also a schedule of prices paid for each class of supplies for the camp at Aldershot, from 1888 to 1897, inclusive, and the names of the parties supplying each class of articles. Presented 9th June, 1898.—*Sir C. Hibbert Tupper*..... *Not printed.*
- 119.** Return to an address of the Senate to his excellency the Governor General, dated 22nd April, 1898, for copies of all correspondence between the departments of militia, public works, agriculture and any person or persons whatsoever, in connection with the Quebec exhibition of 1894, and with the forthcoming exhibition of 1898. Presented (Senate) 7th June, 1898.—*Hon. Mr. Bernier*.  
*Not printed.*
- 120.** Return to an address of the Senate to his excellency the Governor General, dated 12th May, 1898, for a copy of each of the following documents relating to the reletting of contracts for the construction of sections 1, 2, 4, 5, 6 and 7 of the Soulanges canal: 1. Copy of notice calling for tenders for the reletting of sections 4, 5, 6 and 7 of the Soulanges canal. 2. Copy of the specifications for the reletting of sections 4, 5, 6 and 7, Soulanges canal. 3. Copy of the tender of J. M. Hogan. 4. Copy of the tender of Andrew Onderdonk. 5. Copy of the order in council or report of the minister of railways and canals, or chief engineer of railways and canals, shortening the time for the completion of sections 4, 5, 6 and 7 from the end of October, 1899, to the end of October, 1898. 6. Minute or memorandum of the agreement or conversation had with Andrew Onderdonk, con-

tractor for sections 4, 5, 6 and 7 of the Soulanges canal by the minister of railways and canals or chief engineer, between the dates 17th March, 1897, and 20th March, 1897, both days inclusive, or at a subsequent date to the effect that if J. M. Hogan, the lowest tenderer for sections 4, 5, 6 and 7, refused to sign the contract that A. Onderdonk would take it at the prices named in his (Onderdonk's) tender and agree to complete the work by the end of October, 1898. 7. Copy of letter or telegram to J. M. Hogan between dates 17th March, 1897, and 22nd March, 1897, both days inclusive, notifying him that he was the lowest tenderer for sections 4, 5, 6 and 7. 8. Letter from J. M. Hogan to the department of railways and canals between the dates 17th March, 1897, and 22nd March, 1897, both days inclusive, refusing to sign the contract for sections 4, 5, 6 and 7 for which he was the lowest tenderer. 9. Copy of contract of A. Onderdonk for sections 4, 5, 6 and 7, Soulanges canal. 10. Copy of the order in council cancelling the contract of Archibald Stewart for sections 1 and 2, Soulanges canal. 11. Copy of order in council about reletting of sections 1 and 2, Soulanges canal. 12. Copy of public advertisement or other printed notice calling for tenders for the reletting of sections 1 and 2, Soulanges canal. 13. Copy of notice sent to Hugh Ryan asking him to tender for reletting of sections 1 and 2, Soulanges canal. 14. Copy of notice sent to John Ryan asking him to tender for reletting of sections 1 and 2, Soulanges canal. 15. Copy of notice sent to Allan R. McDonnell asking him to tender for reletting of sections 1 and 2, Soulanges canal. 16. Copy of notice sent to W. J. Poupore asking him to tender for reletting of sections 1 and 2, Soulanges canal. 17. Copy of notice sent to one Cleveland asking him to tender for reletting of sections 1 and 2, Soulanges canal. 18. Copy of notice sent to M. P. Davis, or Wm. Davis & Sons, asking him or them to tender for reletting of sections 1 and 2, Soulanges canal. 19. Copy of notices sent to other contractors asking them to tender for reletting of sections 1 and 2, Soulanges canal. 20. Copy of specification and form of tender for reletting of sections 1 and 2, Soulanges canal. 21. Copies of all tenders *verbatim et literatim* for reletting sections 1 and 2, Soulanges canal. 22. Copy *verbatim et literatim* of the contract of Ryan & Macdonell for sections 1 and 2, Soulanges canal. 23. Copy of notice or information furnished to tenderers of sections 1 and 2, Soulanges canal, as to the plant which tenderers would have the use of and the terms on which they would have such use. 24. Statement of the amount and nature of the security given by Ryan & Macdonell for the completion of their contract for sections 1 and 2, Soulanges canal. 25. Copy of notice to tenderers for reletting of sections 1 and 2, Soulanges canal, that the government would furnish a quarry for the use of contractors. 26. Copy of the agreement with Ryan & Macdonell as to the quarry at Rockland. 27. Statement of the royalty to be paid by Ryan & Macdonell to the department on stone to be quarried at Rockland quarry. 28. Copy of the order in council dated between the dates 15th May, 1897, and 29th May, 1897 (both dates inclusive), for the payment of \$10,000 to Archibald Stewart. 29. Copy of letter or telegram from the department of railways and canals to one C. W. Ross, a clerk in the department of railways and canals, in the month of December, 1897, or January, 1898, instructing him to break into the office of Archibald Stewart, at his quarry in Rockland. 30. Copies of letters or telegrams to one Middleton, government inspector at Rockland, from the department of railways and canals, during the month of December, 1897, and up to 13th of January, 1898. Presented (Senate) 11th June, 1898.—*Hon. Mr. Loughheed* . . . . . *Not printed.*

NOTE.—See full index at the end of Report.

I have the honour to submit my Report for the fiscal year 1896-97 on Expenditure (Appropriation and Statutory) and on Revenue accounts.

The letters which immediately follow and which appear to be sufficiently plain, will, I hope, form the subject of special consideration by the Public Accounts Committee and lead to a careful examination of the Audit Act to determine the changes which should be made to remove ambiguities, and the new provisions which should be introduced.

I should feel that a step had been taken, not only to lighten my responsibility, but to give uniformity and system to the financial affairs of Canada, if it were determined to form a practically permanent but small committee of Members of Parliament who have a taste for accounts, to examine all the differences, including the Treasury Board over-rulings, which the year's report shows to have arisen between the Departments and the Audit Office. The reports of the similar Committee of the Imperial Parliament have been useful to me. The time and attention given to the inquiry in England by prominent public men, show that the importance of the results is fully appreciated there.

J. L. McDOUGALL

*Auditor General.*

AUDITOR GENERAL'S OFFICE, February 7, 1898.

## Auditor General's Report.

### GENERAL CORRESPONDENCE

#### Treasury Over-Rulings: Reasons for decisions needed.

AUDIT OFFICE, OTTAWA, October 2, 1897.

SIR,—With reference to the decision of Treasury Board on the Wm. Davis and Sons' claims communicated to me on the 29th ultimo, I should like to be informed of the reasons which induced the Board to decide on the respective items.

Although no direction is given in the Audit Act that this information is to be given to me, it would no doubt have been given if the point had been brought under the notice of Parliament. It is plainly advisable that I should know the reasons so that I may pass other accounts which are of the same character. Then, Parliament and the people should know what the principles are which govern the passing of applications for the payment of public money, so that they may be changed if Parliament should think it proper to do so.

I should be glad to get the information at your early convenience so that the remarks which I shall have to make in my report on the several important points involved in the decision of the Board and in the opinions of the Minister of Justice may be as accurate and full as possible.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Secretary, Treasury Board.

TREASURY BOARD, OTTAWA, October 4, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 2nd instant asking to be informed of the reasons which induced the Board to decide on the respective items, and in answer thereto I have to say that it seems to me that the reasons are set forth in the minute of the Board sent you. I do not know of anything that can be added thereto,

I am, sir, your obedient servant,

J. M. COURTNEY, *Secretary*.

The Auditor General.

AUDIT OFFICE, OTTAWA, October 4, 1897.

SIR,—I have your letter of this date in reply to mine of the 2nd instant regarding the giving of reasons by the Treasury Board for its decisions in the appeal from my rulings on the Wm. Davis & Sons' claims.

In the report sent me, after reciting the opinions of the Treasury Board you say:—

“The Board had also under consideration an extract from the Treasury Board Minute of 7th July, 1896, which directed that all charges under the contract for unwatering certified by the Chief Engineer should be allowed and paid, and the Board in view of the decision of the Treasury Board Minute last above referred to, and in view of the opinions of the Attorney General of Canada in the letters, copies of which are hereto annexed, and also in view of the report of Mr. Shanly above referred to, are of opinion that with the exception of the charge for the hire of the steam hoist scow, viz.: \$266.80, all the other charges in connection with the contract for Sections 2, 3, 4 of the Cornwall Canal for the payment of which application has been made, and which have been certified to by the Chief Engineer of Government Railways should be allowed and paid and the Board accordingly so direct.”

There were several points involved :—

- (1.) Close-pile trenches.
- (2.) Unwatering.
- (3.) Masonry.
- (4.) Portland cement.
- (5.) Reinforcing banks.
- (6.) Coping and repairing Old Lock 19.
- (7.) “ “ Old Locks 15 and 16.
- (8.) Old Lock 17—Hire of steam hoist scow.
- (9.) Spare lock gates.
- (10.) Guard gates above Lock 20.

You don't indicate the opinions which influenced the Board in the different cases nor do you say whether it was the argument of Mr. Shanly or of Mr. Rubidge which seemed more reasonable than my own and yours in our joint memorandum, or my own in my letters to the Department of Railways, that is assuming that the arguments were taken on their merits in any case, that the sweeping opinion of the Minister of Justice did not govern in every case. I am quite aware that if the Board has determined to go the length which the adoption of the opinion of the Minister of Justice would warrant, no argument was necessary for the passing of anything to which the engineer certified, and the engineer did certify to everything. It does appear to me that, if the opinion of the Minister of Justice was not supposed to shut off all opposition, every item must have been taken up and dealt with separately both as to the legality of any payment for it, if the legality was in question, and as to the amount allowed if the legality was first considered as established.

If I am correct in this conclusion please let me have the information at length. It will be of much service to me.

I am, sir, your obedient servant,

The Secretary Treasury Board.

J. L. McDOUGALL, A.G.

TREASURY BOARD, OTTAWA, October 6, 1897.

SIR,—In reply to your letter of the 4th instant respecting the payments to Messrs. Davis & Sons I have to state that I do not see what additional remarks I can make beyond what was written in my letter of the 4th instant, but as it is evident that you desire a further communication, and as it is desirable that everything should be done decently and in order, may I ask under what section of the Audit Act you request the opinions which influenced the Board in arriving at a decision.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary*.

AUDIT OFFICE, OTTAWA, October 6, 1897.

SIR,—I reply to your letter of to-day respecting the payments to Wm. Davis and Sons, I beg to say that I made the request under no section of the Audit Act.

The Treasury Board's decisions must be for reasons which the Board is of opinion should have governed me in the particular case under consideration and which should govern me in all similar cases when they may come before me. The Board therefore should let me know the reasons, so that I may be able to conduct my part of the public business as it desires to have it conducted and to save the valuable time of its members from the unnecessary calls on it which would result from its having to take up cases resting on principles which had been already examined.

I am, sir, your obedient servant,

The Secretary Treasury Board.

J. L. McDOUGALL, A.G.

## Auditor General's Report.

### Memos. of Minister of Justice on appeals to the Treasury Board.

AUDIT OFFICE, OTTAWA, December 10, 1897.

SIR,—The nature of the memoranda of the late Minister of Justice, Sir Oliver Mowat, on the matters submitted to him by the Board in connection with the appeals from my decisions on the Wm. Davis & Sons' claim for work done by them on the Cornwall Canal, and on the \$8,000 payment to the Lake St. John Railway Company, renders it advisable that I should make some remarks on them.

#### *The Davis Case (page—cxix)*

Let us see what the full meaning of the memorandum is. It is that there is no restriction, except what may be contained in the appropriation under which the expenditure is made, on the power of the Government to appoint a person to determine how much shall be paid for anything. The late Minister of Justice admits that if there were anything in any Statute and, therefore, in the Audit Act, inconsistent with this, the Government would not have the power. If there is nothing inconsistent with his conclusion in the Audit Act, the intention of Parliament in appointing an Auditor General went no further in regard to the direct restraining of the expenditure of public money, than the seeing that no more money was expended for a particular purpose than the amount voted for that purpose. If this is so, it took a long time to say it. The Act must then have been misinterpreted for nearly twenty years. I trust that the public exchequer has not suffered much from its not having been known, that the Government had full power to appoint a man without any pretensions to a knowledge of law, to dispose of the legal points in contracts, or who laughs at the Auditor General, the Minister of Justice, Treasury Board and Parliament,—not like the insignificant Auditor General whose acts are all subject to an appeal to the Treasury Board.

It might be supposed that this immunity from criticism or appeal would be on something in which the engineer is an expert,—the kind of masonry to suit a particular purpose at the least cost, the proper method to unwater effectually a part of a work, &c. ; not at all, but on the interpretation of contracts and other legal questions.

The Minister of Justice practically admits with reference to the Close-Pile Trenches that the contractor got more for them than the contract which he signed provided for the work, but says that the payment must be made, because the right to interpret the law was given to a man who, while he may be a very good engineer, could not be of any service in the interpretation of contracts, unless the power came to him by intuition. As the costly blunders might go undetected, this would be bad enough, if there were any chance of setting the matter right by appeal, but when the public functionary, the Minister of Justice, who above all is able to speak with authority on the subject, finds that the blunders have been made, the memorandum says there is no redress.

I could understand that, if the contractor had performed a piece of work under the directions of the Government Engineer, did it badly, but at the same cost to himself as if he did it well, the Government would be bound by the ignorance or carelessness of its official ; but surely if the contractor only did what he agreed to do, and it is found out before he is overpaid, that the engineer did not do his lawyer's work correctly, the law ought to be elastic enough to permit the doing of justice to the people. Perhaps the people ought to be satisfied that the lawyers were not appointed to do the engineers' work without recourse, as the engineers were appointed to do the lawyers' without recourse. By the opinion of the Minister of Justice one was within the power of the Government as well as the other.

I may be told that in contracts between private individuals an engineer or architect is often given the power to settle absolutely between the parties. The building of a house is not as complicated as the building of a canal, the architect is not the servant of either, the private individuals have neither a Minister of Justice, an Auditor General, nor a Treasury Board to assist in such matters. It may also be said that, as the engineer is the official of the Government, the Government has the advantage. I do

not think that the Government should have the advantage. It should take every means to protect itself, and leave the contractor as great freedom to protect himself.

If the mistakes of the engineer against the Government were offset by his mistakes against contractors, the losses of the Government, from this source, would be less than what they at first-sight appear. He does make mistakes against the contractors and they seem to be invariably found out, but I don't know of an instance in which the Government has not in the end waived its right, in such a case, to make the contractor abide by the engineer's decision. Now, although I should be sorry to see a system prevail which would have the effect of causing the man who gives value to the government to be deprived of full pay for it, there seems no way of properly preventing such a result, while the Government, under the same regulation, is compelled to submit to over-payments.

I cannot understand what can be the meaning of the words of the Audit Act in section 32, subsection (c): "on the ground that the money is not justly due"—"or for any reason other than that there is no parliamentary authority"; and those in section 33: "unless in addition to any other voucher or certificate which is required in that behalf"; and those in section 48: "or was in any way irregular," unless the Auditor General, before he passes a certificate, can pertinently ask what does the Department of Justice think of the legal duty in connection with the work which was done by the engineer.

Is the money justly due, whether legally or not, when it is plain that the contractor gets more for the work than the amount for which he agreed to do it? If the paying to the contractors for the close-pile trenches of more than the amount for which they clearly agreed to make them, was a just payment as required by the Audit Act, the paying of only the amount for which they agreed to do the work would have been an unjust withholding of part of their money. The Audit Office, if this is the correct view, has been wrong for nearly twenty years; but perhaps the fact that we did it innocently will be considered an extenuating circumstance.

Suppose an English firm had large works to be constructed in Canada and sent four persons: a manager, a good lawyer, an experienced accountant and an engineer to look after their interests, would the firm be satisfied with the loss of money arising from the fact that the engineer was given the lawyer's work to do and that the lawyer was deprived by the manager of the right to interfere in legal questions?

*Lake St. John Railway Company's Case (page—lviii)*

The effect of the opinion of the late Minister of Justice in this case is, that the government, without having contracted for the service, may pay one man and refuse another under exactly similar circumstances.

See to what this leads. I need not repeat my part of the case in the papers on which I was overruled.

Imagine the pressure to which a government would be subjected shortly before a general election if it were known that the Government might grant to one and refuse to another under identical conditions, reimbursement for expenditure made solely for the advantage of the applicant, but from which the country as a whole incidentally obtained some benefit and this, when the government neither by giving instructions beforehand to go on with the work nor in any other way rendered the taxpayers of the country liable.

The applications for payments would be endless. Who could form any approximation to the liabilities of the country?

I need scarcely say that I do not insinuate that the Government in agreeing to make this payment saw that so bad a precedent was being established.

As, however, the precedent has been established. I hope that steps will be taken to prevent its being followed.

There seem to me to be strong arguments against the correctness of the opinions of the late Minister of Justice, but whether the opinions are sound or not is not so important as it appears to be. Although my experience in endeavouring to interpret the Audit

## Auditor General's Report.

Act and other Acts which deal with expenditure, justifies me in urging objections on these points to the opinions of even so great a lawyer as Sir Oliver Mowat, it would be ridiculous to contend that his view, no matter how unreasonable it may appear to a layman, is not probably correct in a legal sense.

However, I hope that you can go so far with me as to believe that there are doubts which Parliament ought to be asked to remove. The Government will probably reason in this way: The Auditor General has been performing his duties under certain impressions as to the line of action which the Audit Act warrants him in taking. The Treasury Board took the same view, but the late Minister of Justice has different opinions. There should be no doubts. It is the duty of the Government to have opinions on the subjects, because Parliament can make its intentions clear and the Government is expected to advise Parliament as to the changes which are required in Legislation.

If the Government thinks that the law should be what the late Minister of Justice thinks it is, the advice should be to that effect. If the Government, however, thinks that there may be some use to be had from the Treasury Board, the Minister of Justice and the Auditor General, it might be made clear by additions to the Audit Act that the opinions taken by the late Minister of Justice are not to prevail in the future.

Then, although these points are more important than anything else which requires amendment in the Audit Act, there are many other changes which should be made to bring the practice into conformity with the law. The Audit Act was very well prepared in contemplation of an important change in the management of the public finances, but it was not perfect, as it could not have been expected to be. Changes in the Act should be made to justify completely the present practice, or we should make the practice conform to the law, which seems almost impossible in some cases. For instance with reference:

(1) to credits (section 30): When I learn that a cheque is likely to be drawn under a credit, while I consider that the payment would be improper, it is plainly right that the Department should be notified of my objection; but there is no provision for an appeal to the Treasury Board as is provided when I object to the issue of a Receiver General's cheque.

(2) Section 32, subsection (a) provides for obtaining the opinion of the Attorney General when I report that there is no parliamentary authority, but there is no provision for such opinion when I report the usual legal objection.

(3) The method of issuing the cheque when I am overruled is different from what seems contemplated by the Act in subsections *a.b.c.* and 2. The cheques are now issued in exactly the same way as when I am not overruled.

(4) The duties of the Treasury Board in connection with appeals from the Audit Office should be more clearly defined. If the duties of the Auditor General were fully and accurately set out, the Treasury Board should be directed to sustain an appeal from the Auditor General only when the Auditor General had, in its opinion, misunderstood the rules laid down for his guidance and to state in its decisions the point of difference between the Board and the Auditor General. The Auditor General should be instructed to embody in his statement to Parliament of the proceedings, as required by subsection 2 of section 32, the decisions of the Board as now described. Parliament evidently intended that it should be supplied with the reasoned opinions of the Treasury Board and the Auditor General, so as to determine what should be the practice, as is done in England in the differences between the Auditor General and the departments.

It is quite plain, with the important and onerous duties of the Members of the Treasury Board as members of the Government, that they cannot be expected to look into the details of differences between departments and the Audit Office, that they will not look into such details, and that, therefore, in the public interest they should confine their attention to establishing principles. Then, the Auditor General should know what the principle is in each case, so that when it is adopted by Parliament, it should serve for his guidance in the future.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Secretary, Treasury Board.

## Railway Subsidies: Inspectors' Reports Needed.

*Continuation of Correspondence on Page R—333.*

RAILWAYS AND CANALS DEPT., OTTAWA, NOV. 10, 1897.

SIR,—I have the honour to acknowledge the receipt of your communication of the 30th ultimo, referring to application No. 173, in favour of the St. Stephen and Milltown Railway, being for the balance of their subsidy for 4.64 miles at \$3,200 per mile, and requesting that you should be supplied with copies of the reports of the inspecting engineers.

In reply I am, by direction, to say the matter has been laid before the Minister, and that he does not consider your demand a reasonable one, inasmuch as copies of the chief engineer's reports are furnished you, with whom the decision rests, as to whether the roads have been completed according to contract, moreover, it would impose a very great deal of extra labour upon the clerical staff of the department, if copies are to be sent you of all reports in connection with the very numerous applications for payment, upon subsidy account; and would seem to be based upon the assumption, that this department is not competent to form an accurate judgment, as to whether its subordinate officers are capable of performing and have properly performed their duty, and as to whether the information furnished to the chief engineer is sufficient to justify that officer in certifying to the road, or section of road, as the case may be, having been completed according to contract.

Under these circumstances, I am to say, your request cannot be complied with.

I am, sir, your obedient servant,

The Auditor General.

L. K. JONES, *Sec.*

AUDIT OFFICE, OTTAWA, November 22, 1897.

SIR,—I have your letter of the 10th instant. You say: "The Minister does not consider your demand a reasonable one inasmuch as copies of the Chief Engineer's reports are furnished you with whom the decision rests, as to whether the roads have been completed according to contract."

With all respect to the Minister I would point out that the reasonableness of the request made by an auditor for any paper which belongs to the subject in regard to which he has a right to make an audit rests with the auditor, and not with the person or persons whose actions in connection with the matter are being investigated.

Then you say: "The demand by you seems to be based upon the assumption that this department is not competent to form an accurate judgment, as to whether its subordinate officers are capable of performing and have properly performed their duty, and as to whether the information furnished to the Chief Engineer is sufficient to justify that officer in certifying to the road, or section of the road, as the case may be, having been completed according to contract."

I hope you will not consider me unnecessarily curt when I say that there is no cause for an endeavor on the part of the department to determine the assumption which the Audit Office must make when the latter asks for a paper connected with an account or payment.

The Audit Office indicates nothing by applying for any voucher, except the knowledge that it is expected by Parliament to make a full investigation according to the widest knowledge that it can bring to bear upon the subject, of every Dominion Government expenditure which is made. Is there a word in the Audit Act which justifies the conclusion that the audit of Dominion accounts is to be less searching than that of any other accounts?

But suppose that you have a right to conclude that the assumption to which you refer is correct, how could such assumption affect improperly either the higher or the subordinate officers of your department? If on the perusal of the documents called for,

## Auditor General's Report.

it turned out that the assumption was not well founded, none of your officers would be injured. If on the other hand the assumption turned out to be well founded, some one would be injured, but properly so. No one could have any ground for complaining of such a result.

Auditing of Dominion accounts is not based on the fact that a *prima facie* necessity for audit is shown before the audit takes place. The expectation of Parliament in my case seems to be that every means which I can think of to show whether money has been properly or improperly used, shall be applied; that the tests applied shall not be based on the supposition that men generally do the right thing, but on the supposition that they must show by the vouchers and other documents that they did not do the wrong thing. No one who is spending the money of others has a right to complain because every proper test which can be adopted to show that he spent it improperly, is adopted. You seem to have overlooked the fact that the man whose accounts are examined, he having properly exercised the trust in him, is greatly interested in having it well understood that the examination of his accounts has been a rigid one, that there is no possibility of the Public being deceived as to the strictness of the audit. If the Auditor does his duty in a straight forward manner, the people interested will find it out quickly, while if he acts in a cowardly, dishonest way, it will be known just as soon. Let me here quote what was said in the report of the English Public Accounts Committee of 1891-92: "The Treasury point out that had not certain warnings of the Audit Office been disregarded, the fraud would have been discovered earlier and the committee, therefore, remark that this omission illustrates the advantage the departments might often derive from greater alacrity in attending to points raised by the Controller and Auditor General. The assistance afforded by a thorough system of audit deserves a welcome which it does not always receive from those who are responsible for administration."

The report of the inspector who has examined the railway is better evidence as to the facts than that of the chief engineer, or any other person, no matter how skilled in railway construction, who has not seen the railway for which a subsidy is claimed. Then, this is what is required by the 33rd section of the Audit Act:—

"No payment shall be authorized by the Auditor General in respect of work performed, or material supplied by any person in connection with any part of the public service of Canada, unless, in addition to any other voucher or certificate which is required in that behalf, the officer, under whose special charge such part of the public service is, certifies that such work has been performed, or such materials supplied, as the case may be, and that the price charged is according to contract, or if not covered by contract, is fair and just."

You will understand how much more friction there would be in my work, even than there is now, if when a request were made for papers there was an assumption that the special circumstances justified suspicion:

If you have any doubt as to the thoroughness of the audit required by the Audit Act, look at section 55: "The Auditor General may examine any person on oath or affirmation on any matter pertinent to any accounts submitted to him for audit: and such oath or affirmation may be administered by him to any person whom he desires to examine." This does not indicate that the Auditor General should make a less strict audit than that based upon his being supplied with the original documents which are the whole of the best evidence on which payment of millions is made.

You also say: "It would impose a very great deal of extra labour upon the clerical staff of the department if copies are to be sent you of all reports in connection with the very numerous applications for payment upon subsidy account." I don't expect the reports except when they have resulted in causing your department to make an application for payment. There were 15 such applications last year and 19 the year before. The only report of an inspector on which I could put my hand was half a page. Suppose an average report to be 2 pages of type-written matter and that there are 25 in a year—50 pages in all—at a cost of five dollars for the copying. This needs no comment.

You wont forget that the Auditor General has no real power to interfere with the desires of the Government to make payments. His decisions that applications should not be passed are all appealable to the Treasury Board. The essence of his duties is to lay all the facts before Parliament, and therefore before the people who are the really interested parties. The Government has full power to do as it wishes in everything, with the knowledge that all the material facts which bear upon its monetary transactions will be made public if the Audit Office should succeed in finding them out.

If your Minister and his colleagues determine that the Government should have the right to withhold from the Audit office public documents connected with items of expenditure, I would suggest that Parliament be asked to authorize their wishes. I would not otherwise be justified in changing my course after conducting the work for nearly 20 years on the principles which I am now upholding, and with knowledge of Parliament.

I am, sir, your obedient servant,

The Act'g Dep. Minister of Railways and Canals. J. L. McDOUGALL, A.G.

RAILWAYS AND CANALS DEPT., OTTAWA, December 29, 1897.

SIR,—I have the honour to acknowledge the receipt of your communication of the 22nd ultimo, in further reference to your request to be furnished with copies of reports of inspecting engineers in connection with the St. Stephen and Milltown Railway. In reply, I can only say that the reports to which you refer are now, as they always have been, open to your inspection in the department.

I am, sir, your obedient servant,

The Auditor General. COLLINGWOOD SCHREIBER, D.M., R. & C.

AUDIT OFFICE, OTTAWA, December 30, 1897.

SIR,—I have your letter of the 29th instant in reply to mine of the 22nd instant.

It seems to me that you forget that my audit is in every case subject to the review of the Public Accounts Committee and that therefore, apart from every other consideration, it is necessary that I should have in this office all the documents on which my audit is based, ready for transmission to the Public Accounts Committee.

If you look at the letter of the 10th November, signed by the secretary of the department, you will agree that I had scarcely a right to conclude that the whole objection of the department was to the sending of the documents to me, the department being willing to allow inspection in its offices. I mention this as a justification for my devoting the most of my reply to other objections which I thought were entertained in your department.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals. J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, January 21, 1898.

SIR,—I have your letters of yesterday stating that you are desired by the Minister to express surprise that cheques have not yet been issued for the subsidies to the Montreal and Ottawa Railway Company and the Gulf Shore Railway Company.

I replied on November 2nd to your application for the payment of the former of these subsidies asking for the report of the inspector. There was no need of repeating the request so far as the Gulf Shore was concerned.

If you refer to our correspondence on the general question, you will see from my letter of the 30th ulto., the last which passed between us on the subject, that I mention objections to doing as you desire that I should, that is, obtain my information by send-

## Auditor General's Report.

ing a person to examine in your department the document about which there was discussion. In addition to what I therein urged, I may point out that the business of this office has been conducted on a different method from the one which you desire to have followed with reference to this particular information. An auditor of accounts that are not governmental usually performs his duties in the place of business of the person whose accounts he audits and, when he has finished his work, has no further responsibility, and leaves the papers where he found them. My audit is only an interim one. The Public Accounts Committee may ask me for the vouchers with reference to any item of the payments shown in my report, and expects me to produce all the vouchers on which I formed the opinion that the payment should be made.

If I consented to make payment without this particular voucher, what explanation could I make to the Public Accounts Committee for not being in possession of it, so that they might be enabled to decide whether I had performed my duty properly or not.

We seem to have said all that can be said on the subject. You may ask to have my objection overruled by the Treasury Board, or wait until Parliament meets and go before the Public Accounts Committee, if you cannot see your way to change your position. I cannot do what you desire without being relieved from responsibility by competent authority.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.

J. L. McDOUGALL, A.G.

### Audit Office: Estimates for 1898-99.

AUDIT OFFICE, OTTAWA, January 11, 1898.

*The Hon. The Privy Council,—*

I inclose the estimates for this office for the year 1898-99. In framing these estimates I have before my mind the view of the Government that the expense of Civil Government at Ottawa is greater than it should be. I may say, even if my opinion in the matter is not of great consequence, that I entirely concur in this view. There are, however, departments which are economically and carefully conducted and in which prudent methods have been employed in the past. It would be neither in the public interest nor reasonable, to pay insufficiently those who are doing good work and enough of it, because there are others in the service who are idle and incapable while they receive the remuneration which only good services justify.

I shall endeavour to show that the increases in this office which I recommend are deserved, and therefore, that they should be granted. It is true that I recommend the increase of the salary of every person who is eligible for it, but I am ready to be held responsible for the statement that each of these persons is doing work which from both quality and quantity makes it just that he should get the increase.

Making as close a comparison between the Civil Government salary expenditure of 1878 and 1896 as the way in which the accounts were kept at the former period will permit, there has been an increase on the whole of 60 per cent. The Audit Office only began its existence in 1878, and therefore, no comparison of a similar kind can be made for it. However, if we bear in mind that the Finance Department as it is now and the Audit Office together cost less than the Finance Department and the Receiver General's Department of 1878; and that the Finance Department and Audit Office now do all the work which was done in 1878 by the Finance and Receiver General's Departments, and as well, all the work of audit, including the report, there is a strong case made out in our favour.

I am well satisfied with the staff of this office. With regard to every one whose increase I recommend, his past work warrants my recommendation, but that every possible objection to the increases might be removed I have deducted from the appropriation for extra clerks for the current year a sufficient sum to keep the total for salaries, superannuations and extra clerks for next year down to that for the current

year, while I have explained distinctly to the permanent clerks, that, although they have had to work extra time for nearly six months of this year, they must during next year do as much more as would have been done by the extra clerks who would have been paid by the reduction in the amount for that class.

If there is any more specific certificate which can be suggested for me to make as to the clerks earning the recommended salaries I shall be ready to make it. There are just as strong reasons for every individual in the Civil Service getting all that he earns as there are that no man should get more than he earns.

I need scarcely remark that if one wants to manage a department satisfactorily he is much more likely to be successful by seeing that there is work for an assistant before he gets him than by getting the assistant first on the hope that he may find work for him to do.

Respectfully submitted,

J. L. McDOUGALL, A.G.

# Auditor General's Report.

AUDIT OFFICE, OTTAWA, February 3rd, 1898.

Hon. W. S. FIELDING,  
Minister of Finance.

SIR,—You ask me to particularize what each clerk in the Audit Office who is recommended for a statutory increase does, whether he is ever out of work, and if so, for how long.

There are 23 permanent clerks in the office, and one extra clerk who may be treated as a permanent for the purpose of this statement, as he has been here continuously for several years. Eighteen are recommended for increases.

Messrs. Sutherland and Stevenson are Book-keepers. They keep the Revenue and Expenditure ledgers and do much work besides. For full information see their statements which accompany this. Similar statements of the work done by the others will be found herewith.

Messrs. Gorman and Hayes, assisted by the permanent extra clerk and Messenger (Patrick Connolly) when he is not employed on his special duty, audit all the receipts of the Dominion and prepare the part of the report devoted to receipts.

Messrs. Hayter, Sherwood (at maximum), Wagner, Folkins and Misses Belford and O'Connell audit the great spending Departments—Public Works and Railways.—Nearly \$9,000,000 of expenditure.

Messrs. Reid, Stockton and Allan audit and prepare for the report, &c., the Indian, Interior, Customs, Printing and Stationery, Geological Survey Departments, the Mounted Police and the Provincial subsidies—nearly \$5,000,000 without the subsidies of \$4,000,000.

Messrs. Gross and Johnson have charge of the Militia, Agriculture, Legislation, Civil Government Contingencies, &c., amounting to over \$4,000,000.

Messrs. Kearns, Tucker and Steeves do the Post Office, Marine and Fisheries, Justice and Trade and Commerce—over \$6,000,000.

Mr. Hudson, assisted by Miss Baldwin when she is not engaged in her special work of type-writing, audits the Finance, and Inland Revenue Departments, the election expenditure, etc. Mr. Hudson also looks after the secretariat and has much to do with getting out the report. Examines about \$900,000.

Our report on last year's accounts is nearly ready for distribution. Seven months of this year have already passed and the examination here of its accounts has not begun. It will take the constant application of all the persons mentioned and the rest of the staff until this time next year to overtake the arrears and the accounts for the remaining five months, prepare for the printer, read proofs, etc., and in other respects get the report on this year's accounts into the state in which that on last year's now is.

Perhaps the following method of dealing with the position of this office with reference to the increases, differs somewhat from that presented in my first communication which you tell me was not sufficient for Council. No one that I ever heard of said that this office is costing too much now. If there is such a person I should be glad to get his explanations. I have proposed for next year that we should do with one man less on the permanent staff and with a decrease in extra assistance represented by \$500, so as to enable the office to get the statutory increases and pay the superannuation allowance of the permanent clerk who has left the office. I do not make this recommendation because I think that there has not been sufficient work done by the staff in the past, but because I am afraid that the statutory increases, which I think so well deserved, are not likely to be otherwise allowed.

You may ask why should the average man in one department be of more usefulness than the average man in any other department of the service? Evidently a department which never asks for a man until he is required, which watches what each man is doing, dismisses the poor clerk and succeeds in getting fair pay for well performed duty will not only get work of a better quality but at a cheaper rate than a department in which any of these conditions is wanting.

I do not ask the Government to go as far as Sir John Macdonald, who when I desired him to allow two additional chief clerks in the Audit Office, making three in all, without a moment's hesitancy said: "Why do you come to me? Your reputation for

economy makes me support you always. Get Foster and the others." The thing was of course done. It was done quickly and by his influence alone.

However it appears to me not improper or unjustifiable to say that my record warrants you in supposing that in both the salaries and contingencies of this office, the economy, which it is my duty to preach with reference to other departments, is not forgotten.

I have the honour to be, Sir,

Your obedient servant,

J. L. McDOUGALL,  
*Auditor General.*

—  
TREASURY BOARD, OTTAWA, 3rd February, 1898.

SIR,—I am directed by the Treasury Board to inform you that the estimate submitted by you for your Civil Government has been under consideration, and it has been found that you have asked for increments to the salaries of 18 officials. This is more than has been asked for by any other department in the public service; and, as it is requisite that the estimate to be submitted to Parliament should be as low as is consistent with efficiency, I am directed by the Board to inform you that they regret that the increases of the 18 officials cannot be considered, but that two or three very deserving cases may be entertained.

I should be glad to hear from you at your very earliest convenience as to the names of the two or three officials that you desire should have their salaries increased, presuming that you will act on the suggestion mentioned above.

I have the honour to be, sir,

Your obedient servant,

J. M. COURTNEY,  
*Secretary.*

The Auditor General,  
Ottawa.

—  
AUDITOR GENERAL'S OFFICE, CANADA.

OTTAWA, 4th February, 1898.

The Honourable  
The Privy Council,

I have a letter from Mr. Courtney, Secretary of the Treasury Board, stating that only two or three statutory increases are to be given in the Audit Office. No doubt it is intended to convey that the Board knows that this is the determination of the Governor in Council.

On this understanding, while I cannot forbear expressing my extreme disappointment, I recommend that Messrs. D. J. Wagner, C. W. Steeves and E. S. Johnson receive the increases.

Attached hereto is an estimate for these three salaries.

Respectfully submitted,

J. L. McDOUGALL,  
*Auditor General.*

—  
MEMORANDUM.

I cannot take the responsibility of refraining from drawing the attention of Parliament to the danger to the efficiency of this office which would arise from the continuance of the policy above set forth.

In private business a man who has an interest in examining the accounts of another does not, if he is sane, allow the latter to determine the remuneration of the examiners, why then should not Parliament through the Public Accounts Committee, deal with the Audit Office salaries, instead of leaving the duty to the Government?

J. L. McDOUGALL.

## Auditor General's Report.

### Superannuation Bill introduced during Session of 1897.

AUDIT OFFICE, OTTAWA, May 5, 1897.

SIR,—I have the honour to inclose herewith a communication regarding the Superannuation Bill now before Parliament. Perhaps you will be good enough to submit my letter and the accompanying papers to Council.

I am, sir, your obedient servant,

Hon. W. S. FIELDING, Minister of Finance.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 5, 1897.

*The Hon. The Privy Council :*

I have the honour to forward a communication from the clerks of this office of less than ten years' service, on the Superannuation Bill now before Parliament. It seems proper that I should say a word on the subject.

The existing Superannuation Act must in its effects extend beyond the mere giving to the Government the power to grant or withhold a superannuation allowance. If the Government can legally allow to a man who has been 25 years in the service, and has reached a salary of \$1,500, \$750 per annum, or say \$7,500, in all for the remaining years of his life, it surely cannot be contemplated that to another who entered the service at the same age, remained in it 25 years, and performed the same kind of service in the same satisfactory way, nothing should be allowed.

Then the Act has been administered for 26 years, and with scarcely an exception as if the allowance was a right.

The superannuation part of the civil servant's bargain may, viewed by itself, have been too favourable to the civil servant, but it was only part of the bargain. Without a Superannuation Act the civil servant would have had no greater claim to superannuation than the servant of a private individual. Then it must be admitted that the superannuation system was adopted for the benefit of the country, and not for that of the civil servant; that it was adopted because the service would without it have been encumbered with men who had ceased to be useful. While, however, admitting these two points, there appears to be no answer to the argument that there are two parts in the bargain of the civil servant with the Government, the civil servant agreeing to give his services and an abatement on his salary, the Government agreeing to pay the salary and the yearly allowance after the expiration of the service, as provided for by the Superannuation Act. The bargain is broken by denying to the civil servant the allowance provided by the Superannuation Act just as much as if part of the salary were not paid, and it is broken also if instead of getting the allowance, he gets only the money which was retained. Then it is too late to say to a civil servant, when his services are being dispensed with, that they were unsatisfactory, and therefore that he has no claim to the superannuation allowance. The Government virtually said that they were satisfied by allowing him to continue in employment without complaint. In this respect the predecessors of the Government bind this Government.

If the services of a clerk of less than ten years' standing have been satisfactory, and if it be assumed that the Government may dispense with his services, even in the case of the clerks whose memorandum I inclose, and whose services are required, the process must apparently be this: Take a clerk who has been six years in the service, and is now in receipt of \$800 a year. Under the Superannuation Act he is entitled to a gratuity equal to six months' salary, or to \$400. This \$400, and not \$70—the probable sum of his abatements—should be the amount to start the fund to which is to be added the 5 per cent deduction on his salaries of subsequent years.

Respectfully submitted.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 12, 1897.

SIR,—The Bill now before Parliament for the abolition of the Superannuation Act provides that clerks on the permanent list of less than 10 years' service shall lose the advantages of the present Superannuation Act, and come under the provisions of the proposed Bill.

We, the undersigned clerks in your office, of less than 10 years' service, being affected by this Bill, beg leave to submit our views on the subject to you, and would ask your interest and such action as you deem proper to promote our interests.

We have no doubt the Government have no intention or desire to deprive us of any privileges which we enjoy under the present Act, as is evidenced by the consideration accorded clerks of more than 10 years' service.

We entered the service under the provisions of the present Act and claim that we are entitled under it to the same standing and consideration relatively accorded to the clerks of more than 10 years' service.

We would specially call your attention to section four of the present Act, where provision is made for the granting of a superannuation allowance under certain conditions to a civil servant whose period of service is under ten years, and to section ten of the same Act, where provision is made for the granting of a gratuity equal to one month's salary for each year of service to a civil servant who is constrained under certain conditions to quit the service, and if such a person is constrained through bodily injury received in the discharge of his duties, a gratuity equal to three months' pay for every two years' service, or a superannuation allowance not exceeding one-fifth of his average salary for the last three years, may be paid him, as well as to section eleven of the same Act, which quite clearly indicates that all to whom the present Act applies, those whose service is under ten years, as well as those whose service is over that period of time, are entitled under the Act to the same consideration, different though it may be in point of degree.

All these advantages will be lost to us should the Bill as it now stands become law.

And we would respectfully point out that the prospective benefits set forth in the clauses cited and which we now enjoy, have been a factor of great importance in connection with our provision for the future, inasmuch as the certainty apparently afforded by legislative enactment that in the event of misfortune a generous allowance would be granted by the Government, obviated the necessity for providing to the same extent as we might otherwise have done.

We would also observe that our position for making such additional provision—should our means enable us to do so—is now, owing to increased age, less favourable than at the time of our entrance into the service as a greater annual expenditure would be required to produce the same result.

It may be doubted, however, whether any such additional provision would be possible in the majority of cases. Indeed the reverse, it is to be feared, would be necessary. Most of those who would be affected by the proposed change are in receipt of small salaries and to them the compulsory increase of their yearly obligations, or in other words, a practical reduction of their income would involve the discontinuance of current policies of assurance, benefit and endowment, and the consequent loss of all they have already paid in connection therewith.

We are confident that if our case is brought to the attention of the Government, our desire to be placed on the same footing as the other clerks will be granted.

We attach hereto a copy of the Bill referred to, which, if amended in the manner as shown by the erasure of certain words, will not affect the principle of the Bill, and at the same not disturb existing rights under the present Superannuation Act.

Yours respectfully,

(Signed by employees in Audit Office having less than 10 years' service.)

The Auditor General.

## Auditor General's Report.

### EXECUTIVE REGULATIONS GOVERNING PUBLIC EXPENDITURE.

#### Powers of Attorney.

RULES prescribed by the Treasury Board, under sanction of the Governor General in Council, in reference to the mode of acquittal of Warrants for the payment of money by the Government of Canada.

1. No Officer of the Civil Service shall, under any circumstances, be permitted to act as attorney for the receipt of public moneys.
2. No power of attorney will be recognized, received or acted upon by the Receiver General, which is not printed, and of the form to be obtained from the office of the Receiver General, under which only payment can be made, and such power will operate as to any sum of money due only by the Government at the date of the power of attorney.
3. No powers of attorney will be received by the Government for the payment of moneys on warrants which partake of the character of an assignment of the moneys to another party, or purport to be irrevocable, or are in "*any respects qualified.*"
4. General powers of attorney, authorizing the receipt of money due, or which may become due after its date, by which any chartered bank or agent of a chartered bank, or any private individual, is constituted the attorney, will be received and acted upon, if printed and of the special form to be obtained from the office of the Receiver General; and in the event of the power being to the agent of a chartered bank, the bank must declare itself, by a proper instrument in writing, responsible for the acts of such agent, in respect to the receipts of moneys thereunder.  
It is, however, optional with the party executing any power of attorney to a bank or agent of a bank, or any private individual, prior to the execution, to erase the words "*or may hereafter become due.*"
5. All powers of attorney must be signed in the presence of a witness.
6. In case of the death of the person in whose behalf payment is claimed, the probate of will or other proof that the applicant is entitled to receive the money must be furnished on application for such payments.

Blank forms of powers of attorney may be obtained from the office of the Receiver General and at all the branches of the Bank of Montreal.

By order of the Board.

TREASURY, OTTAWA, February 1, 1870.

#### Duplicate Cheques.

*Treasury Minute, June 18, 1888.*—The Board had under consideration a communication from the Auditor General suggesting that uniform regulations be prescribed by the Board with reference to the requirements which are to warrant the duplication of lost cheques.

1. The Board, on the advice of the Department of Justice, direct that if a Government cheque, whether on letter of credit or Receiver General's account, does not reach the person in whose favour it is drawn, or is lost or destroyed by such person, the bank on which it is drawn be notified first by such person.
2. That a duplicate cheque be issued, on a bond of indemnity of the form annexed being furnished, securing the Government against loss; such bond to be examined by the Department of Justice after execution.

3. That a declaration showing whether the original cheque was endorsed or not and how it was lost or destroyed, should accompany the bond, in case it is claimed that the cheque was lost or destroyed.

4. That each duplicate cheque should have the word "duplicate" written in red ink across the face of it.

J. M. COURTNEY, *Secy.*

### Overdrafts of Appropriations.

*Memorandum for the Minister of Finance.*—You have frequently had occasion to allude in conversation to the overdrafts of appropriations made by departments under their letters-of-credit, and to inquire whether a remedy could not be found for the evil.

The irregularity occurs :—

(1.) Sometimes by overdrawing the credit to the bank,—but

(2.) More often while there is a part of the credit unused, the over expenditure of one appropriation being possible owing to an equal or greater aggregate under expenditure of other appropriations.

It may be supposed that the remedy for (1) would be to give instructions to the bank not to cash cheques against an exhausted credit.

When however, I have been applied to by a bank for instructions with reference to cheques presented for payment against an overdrawn credit, although I could not, as is plain request the bank to continue cashing the cheques, I have hesitated to ask that the cheque should be dishonoured, as it might be hurtful to the credit of a department to have, it generally understood that it was doubtful whether its cheques would be accepted.

Besides, with (1) as with (2), the responsibility should be laid upon the department. If the accountant of a department attends to his duties, he charges each cheque as it is issued against its appropriation and against the letter-of credit of the department, and may be expected to be fully informed from time to time as to the balance of the credit and of each of the appropriations.

I therefore beg to recommend that an Order in Council based upon a report of the Treasury Board be passed, making it the duty of the accountant of each department to inform the Deputy Minister of the department whenever a cheque which is about to be issued will overdraw an appropriation or letter of credit, so that such cheque may not issue until parliamentary, or other authority as provided by the Audit Act, is obtained in the one case, or an additional credit in the other case.

J. L. McDOUGALL, *A.G.*

AUDITOR GENERAL'S OFFICE,  
OTTAWA, May 28, 1892.

*Order in Council, July 7, 1892.*—On a report dated July 4, 1892, from the Minister of Finance, submitting the annexed memorandum from the Auditor General with regard to the overdrafts of appropriation made by departments under their letters-of-credit.

The Minister in accordance therewith recommends that it be the duty of the accountant of each department to inform the Deputy Minister of the department whenever a cheque, which is about to be issued, will overdraw an appropriation or letter-of-credit, so that such cheque may not issue until parliamentary or other authority as provided by the Audit Act, is obtained in the one case, or an additional credit in the other case.

The committee recommend that a copy of this minute be sent to the several departments for their guidance in future.

JOHN J. MCGEE, *C.P.C.*

## Auditor General's Report.

### Appropriation Balances.

*Order in Council, June 27, 1888.*—The Treasury Board had under consideration a communication from the Auditor General respecting the interpretation of section 37 of the Audit Act which provides for the extension of time for closing the Appropriation Accounts.

The Auditor General states that he understands the section to mean: "That an Appropriation Account can be kept open for any time fixed by the Council, up to three months, for the purpose of charging against a vote all services or supplies for which the vote was taken, that is, those rendered before June 30."

As the present practice of bringing down the balances of appropriations for three months, and thereby lengthening the financial year to fifteen months, has been productive of delay in the preparation of the accounts for Parliament, and with the view of definitely deciding what course should be followed, the matter was referred to the Department of Justice for opinion.

The Deputy Minister of Justice reports: "The question is, whether, upon an Order in Council having been passed as specified in the section, a department may make additional expenditure and incur increased liabilities upon the strength of the original estimate; or whether the extension referred to in the section is only for the purpose of enabling a department to pay, after June 30, liabilities that have been incurred previously to that date. It would appear that the latter interpretation is the correct one. The section, without the proviso, categorically provides that any balance unexpended on June 30, shall lapse, and be written off. The proviso does not either expressly or by implication give a department power to make a new expenditure, and if that power is not contained in the proviso, it is nowhere; it does not exist. The only meaning to be drawn from the proviso is that the extension is made for the purpose of paying after June 30, out of the original appropriations, such accounts as had at that date been incurred."

The Board, after careful consideration of the matter, recommend to Council that for the current fiscal year the present practice be retained, so that no inconvenience may be experienced by the departments, the Auditor General having intimated that he is willing that for the present year such course be adopted; but as the law is clearly in accordance with the contention of the Auditor General, the Board are of opinion that under existing circumstances the practice now followed cannot be continued.

JOHN J. MCGEE, *C.P.C.*

### Letter-of-Credit Cheques.

*Order in Council, June 27, 1888.*—The Treasury Board had under consideration a communication from the Auditor General with regard to the signing of letter-of-credit cheques, and submitting a list of the names of persons who sign such cheques for the different departments; and they recommend to Council:—

(1.) That for each department, substitutes be authorized by Order in Council to sign for those in whose favour the letter-of-credit is drawn, and that a copy of the Order in Council be sent to the Bank of Montreal, or other bank on which the credit may be drawn.

(2.) That the departments be instructed not to permit any person to sign except those authorized by Order in Council.

(3.) That no cheques be signed in blank, either in the inside or outside service.

(4.) That all cheques be drawn in the form: "Pay to the order of———;" and not in either of the forms: "Pay to —— or bearer," or "Pay to —— or order."

(5.) That authority be given for the signing of letter-of-credit cheques in the different departments by the following substitutes: (List not printed).

JOHN J. MCGEE, *C.P.C.*

---

**Contracts.**

*Order in Council, May 23, 1880.*—On a joint memorandum dated March 20, 1880, from the Honourable the Minister of Public Works and the Minister of Railways and Canals, recommending that hereafter all public works involving an expenditure of over \$5,000 shall be let by public tender and contract, unless owing to urgency or other cause it be deemed advisable to take different action, and that in all such cases authority be obtained by an Order in Council. That, with all tenders submitted, a money guarantee, or approved accepted cheque, shall be given, to be open to forfeiture in the event of the tenderer failing to make the necessary five per cent deposit hereinafter referred to, within eight days after receiving notice of the acceptance of the tender, or of his declining to enter into contract when requested, the amount of such guarantee to be fixed at a sum not less than \$1,000, nor more than \$5,000. That upon acceptance of a tender, and notification by the department concerned, the intending contractor shall, within eight days, deposit with the Government a sum of money equal to five per cent of the amount of his contract. That in all cases where tenders have been called for, the lowest received shall be accepted, unless good and sufficient reasons appear for passing over such tender. The Committee submit the above recommendations for Your Excellency's approval.

Certified, J. O. COTÉ, C.P.C.

---

*Order in Council, June 16, 1888.*—The Board submit for the favourable consideration of Council the annexed memorandum from the Deputy Minister of Finance respecting the mode of treatment of securities deposited by public contractors, to the effect that the proceeds of all cheques and all deposits on account of contractors' securities be deposited in the Government savings bank.

JOHN J. MCGEE, C.P.C.

---

(Circular.)

FINANCE DEPT., OTTAWA, July 4, 1888.

SIR,—I have the honour to inclose herewith a copy of an Order in Council, passed on June 16, 1888, respecting the mode of treatment of securities deposited by public contractors, from which you will observe that hereafter the proceeds of all cheques and all deposits on account of contractors' securities are to be deposited in the Government savings bank.

I have the honour, therefore, to request that you will be good enough, immediately a contract is entered into, to send me all the securities for the performance thereof, in order that I may deposit the proceeds of the said securities in the manner prescribed by the Order in Council above referred to.

J. M. COURTNEY, D.M.F.

---

*Order in Council, May 2, 1893.*—On a memorandum dated May 1, 1893, from the Minister of Finance submitting a report from his deputy respecting contractors' securities.

The Minister recommends, in accordance with the suggestion therein contained, that notice be immediately given to the Department of Finance by the department having control of the work, in case of the failure of contractors having a contract for the performance of work for the Government, and having security deposited with the Department of Finance.

The Committee submit the same for Your Excellency's approval, and advise that a copy of this Minute be forwarded to the Minister of each department for his information.

JOHN J. MCGEE, C.P.C.

## Auditor General's Report.

---

---

*Memorandum respecting Contractors' securities.*—The undersigned has to report that by Order in Council of June 16, 1888, all cheques and all deposits on account of contractors' securities are turned by this department into cash, and deposited in the Government savings bank, and in some instances where the security given is large, the interest accruing on the deposits is paid to the contractors yearly at their request.

The attention of the undersigned has lately been directed to the fact that a firm of contractors having a deposit now in the hands of the Government has recently failed, and it is just possible that cases may arise in which moneys may be paid over by this department unwittingly, for interest, to contractors who have suspended payment. To obviate such a contingency, the undersigned would suggest that the matter be brought before the Treasury Board, with a view of having a Minute adopted to the effect that whenever a firm of contractors having a contract for the performance of work for the Government and having security deposited with this department, fails, notice thereof be immediately given to this department.

J. M. COURTNEY, *D.M.F.*

---

### Certificates on Vouchers.

*Revised Statutes of Canada, Cap. 29, Sec. 33.*—No payment shall be authorized by the Auditor General in respect of work performed, or material supplied by any person in connection with any part of the public service of Canada, unless, in addition to any other voucher or certificate which is required in that behalf, the officer, under whose special charge such part of the public service is, certifies that such work has been performed, or such materials supplied, as the case may be, and that the price charged is according to contract, or if not covered by a contract, is fair and just.

*Note.*—The proper officers to make these certificates are those who have personal knowledge of the facts in each case.—J. L. McD.

---

### Small Balances Due to Estates.

AUDIT OFFICE, OTTAWA, June 12, 1888.

SIR,—It frequently happens that there is a small sum due to the estate of a deceased person who has left no will, generally for superannuation or salary, when the whole assets of the estate are so small that the cost of obtaining letters of administration would be a large part of them.

I suppose that in strictness the amounts due by the Government cannot be paid legally to any one but the administrator of the estate. However, the amounts are frequently paid, either on receiving a renunciation from all the other known heirs in favour of one, or on a bond approved by the Department of Justice indemnifying against loss, should a person who has obtained the legal right to claim the payment make a demand for it.

I would suggest, that payment under the circumstances above set forth, should be made to a person who is not legally empowered to demand it, only when the assets of the estate are under one hundred dollars, and after the execution of a bond as above described, approved by the Department of Justice, with any additional safeguards which, in the opinion of the Department of Justice, the special circumstances of the case call for.

Yours truly,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.*

TREASURY BOARD, June 19, 1888.

SIR,—With reference to your letter of the 12th instant, respecting the payment of small sums to the estate of persons who have died intestate, and the whole assets of whose estate are so small that the cost of obtaining letters of administration would swallow up the greater portion of them, I have the honour to state that the Treasury Board have considered the matter, and they direct that each case be referred to them for decision as to the action to be taken.

Yours truly,

The Auditor General.

J. M. COURTNEY, *Sec. T.B.*

*Order in Council, July 24, 1894.*—That a number of deaths occur annually among the fishermen who are entitled to fishing bounty, and in the majority of cases, the men are poor, die intestate and leave no property worth the cost of administration. The bounty in such cases, by right belongs to the nearest of kin to the deceased, but that, under an Order of the Treasury Board, dated 19th June, 1888, all cases where small sums are due the estates of persons who die intestate and leave little or no property of any consequence, must be referred to the Treasury Board for decision as to the action to be taken, which course necessitates a separate Order in Council in each case.

That, as those to whom the money rightfully belongs are, in most cases, in needy circumstances, a general Order be granted, authorizing in case of death among the fishermen of the class referred to, to pay the amount earned to the widow, father, mother or children as the case may be, of the deceased, without reference to the Treasury Board.

JOSEPH POPE, *Asst. C.P.C.*

### No supplies to persons in arrears to Department of Printing and Stationery.

*Treasury Minute, September 22, 1897.*—The Board had under consideration a communication from the Auditor General in reference to the arrears due to the Department of Printing and Stationery, from which it appears that a large proportion of such arrears are due by Senators, Members and ex-Members of Parliament, for Publications and Voters' Lists.

The Board, after a careful consideration of the matter, direct that the Queen's Printer be instructed hereafter to give no further supplies to persons who are in arrears for supplies previously furnished.

J. M. COURTNEY, *Secretary.*

### Stationery Office.

*Order in Council, June 26, 1889 (as amended by O. C. July 11, 1889).*—His Excellency, in pursuance of the powers vested in him by the Revised Statutes, chap. 27, sec. 7, and by and with the advice of the Queen's Privy Council for Canada, is pleased to direct and order :—

1. In every department the Deputy Head shall sign all requisitions in accordance with sec. 7, chap. 27, of the Revised Statutes, and a clerk, to be named by the head of the department shall, under the direction of the Deputy, have charge of all stationery and printing, and shall receive from the Government Stationery and Printing Offices all printed work and articles of stationery ordered and supplied, and grant receipts for the same, superintending also their distribution to the clerks or employees for whose use they have been ordered.

2. The Secretary of State is authorized to prepare a list of all articles to be kept in stock and furnished to the departments upon ordinary requisitions, such list to be subject to the final revision and approval of the Governor in Council.

(*Note.*—This list was approved by O. C., Nov. 29, 1889.)

## Auditor General's Report.

---

3. As soon as such list has been so settled and approved, and printed and distributed to the several departments, all ordinary requisitions upon the Stationery Office shall be issued for those articles only that are therein enumerated.

4. No articles shall be added to such list thereafter except upon the report of the Secretary of State, approved by the Governor in Council.

5. No plain paper or envelopes, such as are used for ordinary correspondence, shall be asked for by any ordinary requisition or issued upon the same for private use of the employees in any department, except in the case of Deputy Heads.

6. No paper or envelopes for correspondence bearing relief stamp, cameo or embossed work or devices, either lithographed or engraved, shall be kept in stock or supplied, except for the use of Ministers or Deputy Ministers, the Governor General's Secretary, the Speakers and members of the Two Houses of Parliament, and the Judges of the Supreme and Exchequer Courts, the Clerk and Law Clerk of the Senate, the Clerk and Law Clerk of the House of Commons, and the Librarians of Parliament.

7. No pocket-knives or pocket-books shall be kept in stock or supplied to any department except upon special requisitions, stating the names and employment of the persons for whose use they are to be procured.

8. No despatch-boxes or brief bags shall be issued for the use of members of any Government Commission.

9. All requisitions issued under Rules 6 and 7, or for articles not on the general list (and therefore not procurable upon ordinary requisitions) shall be signed by the Deputy Minister and approved and initialed by the Minister of the Department, or the Clerk and Speaker of each House of Parliament.

10. A return of all articles furnished to each department upon requisition, with the total cost of the supply to such department, shall be made up by the superintendent of stationery each six months, as soon as possible after the 30th of June and the 31st of December in each year, in order that it may be submitted to the Governor in Council by the Secretary of State.

11. All former Orders in Council in reference hereto are cancelled.

JOHN J. MCGEE, *C.P.C.*

---

### Phamphlets and Books.

*Order in Council, December 22, 1888.*—The Secretary of State desires to draw the attention of Council to the practice in the past of the granting of authority by Council for the purchase of books for Library exchanges and for distribution among the departments, and he recommends that in the future no such authority be granted, but that all books for Library exchanges be procured under the authority of the Joint Library Committee of Parliament, and paid for out of the sums placed at its disposal; and that all purchases of books for the use of any department of the Government be made on the authority of the Minister charged with its administration, as already provided by Order in Council, through a regular Stationery Office requisition, as required by the Act respecting Public Printing and Stationery. The Committee recommend that this Minute, if approved, be communicated to the Library Committee and to each department of the public service.

JOHN J. MCGEE, *C.P.C.*

---

### Newspapers and Books.

*Order in Council, June 18, 1894.*—Cancellation of all former Orders in Council in reference to supply of newspapers, books and magazines to departments.

JOHN J. MCGEE, *C.P.C.*

*Order in Council, June 18, 1894.*—Regulations respecting the purchase of newspapers, books and magazines to the several departments :—

(1.) That a maximum limit of \$500 be set apart for each ministerial department, within which is to be defrayed the cost of newspapers, books and magazines for the use of such department.

(2.) That books and magazines, other than those which are of a technical character and necessary for the proper working of the department, shall be purchased only on authority of the head of the department.

(3.) That no newspapers be supplied to outside offices of any department except on the authority of the Minister of that department.

JOHN J. MCGEE, *C.P.C.*

### Accounts for Advertising.

*Order in Council, May 8, 1894.*—On a memorandum dated March 28, 1894, from the Secretary of State, recommending that the following regulations be established to regulate and govern advertising for the several departments of the Government.

#### REGULATIONS.

All orders for advertising which are issued at the seat of Government shall be given through the Queen's Printer, and the Queen's Printer shall certify to the accounts before payment.

The copy shall be sent to the Queen's Printer, accompanied by Ministerial directions, naming the paper in which the advertisement is to be published, specifying whether in the daily or weekly issue, and the number of insertions in each paper respectively.

On receipt of these instructions the Queen's Printer shall print a sufficient number of copies to enable him to furnish duplicates to the papers indicated. These shall be forwarded by him to the publishers, accompanied by an intimation of the number of lines to which the advertisement is to be limited, himself establishing the space on a proper estimate of the solid matter of the notice, with a moderate allowance for the purposes of display, and accompanied also by an instruction to the publishers to render the accounts to him in duplicate, with a copy of the order attached, and with marked copies of the papers in which the advertisements are printed.

The Queen's Printer shall ascertain the established tariffs for advertising of the papers on the Patronage List, and on receipt of these accounts shall certify to the same in accordance with these rates, and transmit the accounts for payment to the departments from which the orders issued, having first satisfied himself that the publication has been as directed, but no newspaper shall be paid a higher rate than that charged to the general public for a similar service.

Accounts for advertising required by the Outside Service shall also be rendered, with the orders and marked copies of the publications, to the Queen's Printer, and the advertisements shall by him be measured, certified to and transmitted for payment in accordance with the rules which obtain for advertisements issued at the seat of Government.

The Queen's Printer shall keep with each paper, accounts of the advertisements directed to be published in it under the different departmental headings, so as at all times to show the state of each account.

Advertisements shall not be inserted in any books or pamphlets, or in any periodicals other than newspapers published weekly or more frequently, and all advertisements shall be limited to a maximum of six insertions in daily and three in weekly papers.

## Auditor General's Report.

---

These regulations shall apply to all the departments excepting the Immigration Branch of the Department of the Interior, and the Intercolonial Railway.

The Committee submit the above regulations and recommendations for Your Excellency's approval.

JOHN J. MCGEE, *C.P.C.*

---

*Order in Council, July 17, 1896.*—The Committee, on the recommendation of the Honourable the Secretary of State, advise that all Orders in Council, or parts of Orders in Council, regulating or relating to advertising for the several departments of the Government, and particularly the Order in Council of the 8th of May, 1894, be rescinded; and that the list of newspapers to receive Government patronage approved by the said Order in Council, of the 8th of May, 1894, and issued in a revised form by the Secretary of State on the 1st June, 1896, be withdrawn and cancelled.

J. J. MCGEE, *C.P.C.*

---

(Circular.)

DEPARTMENT OF PUBLIC PRINTING AND STAT'Y, OTTAWA, 23rd July, 1896.

SIR,—Under instructions from the Honourable the Secretary of State, I beg to inform you that the patronage list attached to the regulations for advertising has been cancelled by Order in Council. The regulations themselves have, however, been continued in force, so that there will be no change in the method of giving out advertisements.

I am, sir, your obedient servant,

S. E. DAWSON, *Queen's Printer.*

---

### Advertisizing in Canada Gazette.

*Order in Council, March 22, 1888.*—On a report dated March 21, 1888, from the Secretary of State, submitting that the Act respecting the Department of Public Printing and Stationery prescribes that all charges for advertising in the *Canada Gazette* shall be paid in advance, and that the Queen's Printer reports that in some cases, after such payment, the parties advertising discontinue their notices before all the insertions asked for have been given, and apply for a refund of moneys paid for insertions ordered but not given.

The Minister recommends that the Queen's Printer be instructed that no such return of moneys can be made, as the Government is ready at all times to fulfil the contract entered into with the advertisers in the *Gazette*, and is in no wise responsible for their discontinuance. The Committee submit the above recommendation for Your Excellency's approval.

JOHN J. MCGEE, *C.P.C.*

---

### Legal Services.

*Order in Council, April 12, 1879.*—On a report dated April 2, 1879, from the Hon. ourable Minister of Justice, stating that it has been represented by the Auditor General that it would facilitate the business of his office were an Order in Council passed making it necessary that the accounts rendered by any legal agent employed professionally by

any of the departments of the Government should be submitted to the Department of Justice for examination and approval before payment.

That at present the practice of the departments appears to be to submit such accounts to the Department of Justice before paying the same, but no formal Order in Council exists on the subject.

That an Order in Council does exist providing that all accounts for printing and advertising are to be certified by the Queen's Printer before payment.

That he, the Minister, thinks that it would be proper that a formal Order should be passed with respect to legal agents. He recommends, therefore, that it be ordered that the accounts rendered by legal gentlemen employed professionally by any of the departments of the Government be submitted to the Department of Justice for examination and approval before payment, and that a copy of the Order be transmitted to each of the departments of the Government.

Certified.

W. A. HIMSWORTH, *C.P.C.*

### Travelling Expenses.

*Order in Council, Sept. 8, 1871.*—The Committee of Council have had under consideration an extract from the minutes of a meeting of the Treasury Board held Sept. 7, recommending that the following rules be adopted for the payment of removal allowances to Government employees, and they respectfully advise that the recommendations therein submitted be approved and adopted:—

“*Removal allowances.*—No removal allowances can be granted except on report of the Treasury Board. No removal allowance is to be granted if the salary is increased, except in special cases, and on a report of the head of the department. A removal allowance is not to exceed the actual cost on account rendered.”

*Order in Council, Dec. 17, 1889.*—The Board, having had their attention called by the Auditor General to the subject of the payment of expenses incurred by officers in the employ of the Government while travelling on Government business, recommend to Council that a certificate be attached to accounts for travelling expenses as follows:—“The whole of the expenditure was incurred on Government business;” said certificate to be signed by the officer who has incurred the expense.

JOHN J. MCGEE, *C.P.C.*

*Order in Council, February 6, 1893.*—That all the previous Orders in Council relating to expenses and allowances for travelling and living expenses to officers and employees when travelling on the public service be repealed, and that it be ordered that from the date of the passing of the Order in Council founded hereon, there be paid to all officers (with the exception of the Lieutenant-Governor of the North-west Territories and the Major General Commanding the Militia, and the Judges, who are otherwise provided for) travelling on public service for the Government of Canada, their actual reasonable travelling and living expenses; that all advances made to such officers for travelling expenses shall be accounted for within one month from the conclusion of the trip; that the officers shall render to the Department of Finance a detailed statement of such expenses, and that a certificate be attached to all accounts for travelling as follows, signed in each case by the officer who has incurred the expenses:—

“The whole of the expenditure was incurred on Government business.”

JOHN J. MCGEE, *C.P.C.*

NOTE.—The Lieutenant-Governor of the North-west Territories is allowed \$5 a day by Order in Council, January 12, 1888.

## Auditor General's Report.

---

*Order in Council March 13, 1895.*—That the moving expenses of Judges holding weekly sittings of the High Court of Justice at Ottawa and London, payment of which is authorized by the Order in Council of the 14th January, 1895, be fixed as follows:—

For each sitting at Ottawa.....	\$25 00
For each sitting at London.....	10 00

JOHN J. MCGEE, *C.P.C.*

---

*Order in Council March 4, 1897.*—That the Order in Council of the 23rd October, 1896, in reference to advances for travelling expenses from Civil Government Contingencies, be amended to read as follows:—That hereafter no advance be made to officers of the several departments, out of Civil Government Contingencies, for travelling expenses, in excess of one hundred and fifty dollars; and that all advances made to them be accounted for at the end of each quarter, and that no advances be made until previous advances are settled.

JOHN J. MCGEE, *C.P.C.*

---

### **Triplicate deposit receipts for balances of travelling expense advances to go to Accountant of Contingencies.**

*Order in Council June 10, 1893.*—That the following regulation in connection with accounts to be rendered to the Accountant of Contingencies for sums advanced from Civil Government Contingencies be approved of by Council.

That the triplicate receipts for all refunds of balances of amounts advanced from Civil Government Contingencies for travelling expenses and for petty cash, and for all other refunds made on account of Civil Government Contingencies, be forwarded by the department or officer making such refund to the Accountant of Contingencies for the purpose of closing the personal accounts and replacing to the credit of the different departments the amounts so refunded, to enable him to keep a proper check upon the various appropriations.

JOHN J. MCGEE, *C.P.C.*

---

### **Special Qualifications.**

TREASURY BOARD, OTTAWA, Nov. 13, 1883.

SIR,—I have been directed by the Hon. the Treasury Board to call your attention to the 5th subsection of section 7 of 46 Victoria, chapter 7 (C. S. Act), wherein it is stated that "in the case of attorneys, barristers, engineers, architects, actuaries and land surveyors, the examination may be dispensed with on a report from the deputy head concurred in by the head of the department, that it is not necessary;" and in connection therewith I have to call your attention to the "Hansard" of last session, page 1035, when in reply to an observation from Mr. Ross, of Middlesex, Sir Hector Langevin stated that these gentlemen are employed in the service in the practice of their profession, and therefore an examination would not be required, as they had already passed technical examinations before their admission into the ranks of their profession.

I have now to ask whether, in case any of these professional gentlemen are employed in a department where their professional attainments are not required, as for instance, a barrister in the Finance Department, the spirit of the Act would allow of the examination being waived?

Your obedient servant,

J. M. COURTNEY, *Sec. Treasury Board.*

The Deputy Minister of Justice.

DEPARTMENT OF JUSTICE, OTTAWA, Nov. 15, 1883.

SIR,—I have the honour to acknowledge the receipt of your communication of the 13th instant, in which you call attention to subsection 5 of section 7 of 46 Victoria, chapter 7, wherein it is stated that “in the case of attorneys, barristers, engineers, architects, actuaries and land surveyors, the examination may be dispensed with, on a report from the deputy head, concurred in by the head of the department, that it is not necessary.”

An opinion is requested as to whether, in case any of these professional gentlemen are employed in a department where their professional attainments are not required, as for instance, a barrister in the Finance Department, the spirit of the Act will allow of the examination being dispensed with.

I am of opinion that the spirit of the Act does not allow of the examination being dispensed with in the case mentioned, but that the examination can be dispensed with only in cases where the duties to be performed by the officer seeking promotion are those connected with his profession as an attorney, barrister, engineer, architect, actuary or land surveyor.

Your obedient servant,

GEO. W. BURBIDGE, *D.M.J.*

The Deputy Minister of Finance.

### Appointments subject to changes in Superannuation Laws.

*Order in Council, 18th November, 1896.*—That all appointments made after 23rd June, 1896, or to be hereafter made, shall be subject to the understanding and conditions that the persons so appointed accept office subject to any changes which may be made in the Superannuation Laws of Canada; and that such appointees be notified of such understanding, and that a copy of this Minute, if approved, be forwarded to the deputy head of each department, and that each deputy head be requested to forward a copy thereof to each person to whom it may apply.

JOHN J. MCGEE, *C.P.C.*

### Civil Service Promotions.

*Order in Council, April 12, 1893.*—His Excellency, in virtue of the provisions of section 39 of “The Civil Service Act,” as amended, and by and with the advice of the Queen’s Privy Council for Canada, is pleased to make the following regulation:—

Hereafter no clerk on the staff of any department of the Public Service, who was in the service or employment of the Government on the 1st day of July, 1882, and has since been continuously engaged therein, shall as a condition of promotion be required to pass an examination in any other subject than the duties of the office to which he seeks promotion, unless in any special case the Deputy Minister by a report concurred in by the head of the department submits to the Board of Examiners other subjects of examination as a test of fitness for such office.

JOHN J. MCGEE, *C.P.C.*

### Salaries: Date of Payment.

*Order in Council, Jan. 13, 1887.*—The Committee of the Privy Council have had a memorial from the members of the Civil Service laid before them by the Right Honourable the Prime Minister, praying for relief of their financial embarrassment in reclaiming the advance of salary.

## Auditor General's Report.

---

The Committee recommend, with a view to relieving the financial embarrassment, that the pay-list for each month be authorized on the 15th day of the month, provided that when the day for passing any pay-list under the provisions hereof shall be a Sunday, or a bank or departmental holiday, the pay-list be issued on the previous day. The salaries of the Ministers to be paid at the end of each month.

JOHN J. MCGEE, *C.P.C.*

---

*Order in Council, March 22, 1887.*—The Committee, on the recommendation of the President of Council, advise that the Order in Council of Jan. 13, authorizing the issue of the pay-lists on the 15th day of each month, be amended so as to include the temporary clerks of the inside service who are continuously employed.

JOHN J. MCGEE, *C.P.C.*

---

AUDIT OFFICE, OTTAWA, April 1, 1887.

SIR,—Please define the meaning which is to be attached to the word “continuous” in the O.C. of March 22, with reference to the time of paying certain extra clerks.

Yours truly,

The Clerk of the Council.

J. L. McDOUGALL, *A.G.*

---

PRIVY COUNCIL, April 2, 1887.

SIR,—In answer to yours of the 1st inst., respecting the O.C. of March 22, authorizing payment on the 15th to temporary clerks who are continuously employed, I have the honour to state that it is only applicable to those employed by Order in Council.

Yours truly,

The Auditor General.

JOHN J. MCGEE, *C.P.C.*

---

*Order in Council, Feb. 18, 1889.*—That the payment of salaries of temporary employees in the several departments who are not employed under the authority of an Order in Council, be made on the following days: Feb. 18, March 21, April 24, May 27, and June 28, 1889; and thereafter on the last day of the month.

JOHN J. MCGEE, *C.P.C.*

---

*Order in Council, March 5, 1888.*—The Treasury Board have had their attention called to the fact that the terms of the Order in Council of Jan. 13, 1887, governing the issue of the Civil Service monthly pay-cheques have not been strictly adhered to, and that cheques are sometimes issued in advance of the days authorized by the said Order for the issue of the pay-lists. The Board recommend to Council that the several departments be notified that in future the monthly pay-cheques must not be issued in advance of the days authorized by the said order for the issue of the pay-lists, and that the provisions of the said Order must be strictly adhered to.

JOHN J. MCGEE, *C.P.C.*

*Order in Council, November 14, 1895.*—The attention of the Board was called by the Deputy Minister of Finance to the statements of the balances of the several Government accounts with the Bank of Montreal, on the 31st October, 1895, by which it appeared that some of the departments had issued pay-cheques in advance of the due date.

The Board recommend that the attention of the several departments be called to the irregularity of such action, and the Board are of opinion and recommend that steps should be immediately taken to stop the practice for the future.

JOHN J. MCGEE, *C.P.C.*

### Extra Salary.

*Civil Service Act of 1888, 51 Vic., cap. 12, sec. 12.*—Subsections 1 and 2 of section 51 of the Civil Service Act (R.S.C., cap. 17), are hereby repealed, and the following substituted therefor:—"51. No extra salary or additional remuneration of any kind whatsoever shall be paid to any deputy head, officer or employee in the Civil Service of Canada, or to any other person permanently employed in the public service."

### Salaries : Date of Changes and Increases.

*Order in Council, July 29, 1871.*—On a report dated July 29, 1871, from the Minister of Finance, stating that considerable inconvenience has arisen from Orders in Council making promotions and other changes in the Civil Service, and granting superannuation allowances, not naming the time from which they shall count, and that it is desirable that, excepting for special reasons, such changes shall always count from the first day of some month, and recommending that it be established as a general rule that unless some other date is specially named in the Order in Council, all such changes shall be held to count from the first day of the month next succeeding the date of the said Order. The Committee submit the above recommendation for Your Excellency's approval.

Approved.

W. H. LEE, *C.P.C.*

*Order in Council, June 29, 1889.*—That hereafter officers shall be eligible to receive their statutory increase upon the first day of the official quarter following the expiration of one year from the day on which they reported for service, regardless of the date of appointment; provided always that the time is not computed, from a date prior to the Order in Council making the appointment.

JOHN J. MCGEE, *C.P.C.*

### Information to be sent to the Treasury Board on Matters Affecting the Establishment.

TREASURY BOARD, OTTAWA, April 3, 1897.

SIR,—I am directed by the Treasury Board to call your attention to the enclosed Circular of the Board dated 19th June, 1893, and to ask that the requirements therein specified be complied with.

I am, sir, your obedient servant,

J. M. COURTNEY, *Sec., Treas. Board.*

xxx

## Auditor General's Report.

---

(Circular.)

TREASURY BOARD, OTTAWA, June 19, 1893.

SIR,—In connection with the papers and other memoranda relating to appointments, promotions, increases of salary and other matters affecting the Establishment, referred for the consideration of the Treasury Board, I am directed to say that the Board are desirous in all cases of having before them the fullest information bearing on the action recommended, and to ask that particular attention be given to make the papers as complete as possible, especially in regard to the following requirements :

In consequence of the Civil Service Superannuation Amendment Act, 1893, and Civil Service Insurance Act, 1893, being now in force, it is absolutely necessary that in the case of appointments, in addition to the full reasons for the action recommended, the age of the appointee be given and a medical certificate submitted as to his state of health. In the case of memoranda recommending the employment of temporary clerks, the certificates required by the Civil Service Act must in all cases accompany the papers, and in addition, the state of the appropriation from which payment for the extra assistance is to be made must be set forth.

It is also directed that the certificates, reports and requisitions required under the Civil Service Act (*vide* Sections 15, 17, 19, 21, 26, 35, 37, 39 and 47) be furnished with the respective cases to which they relate.

I have further by direction of the Treasury Board to state that in all cases where employees of 60 years of age and over are recommended for retirement under the Civil Service Superannuation Act, it will be necessary to give full and explicit reasons, in addition to that of age, for the action recommended, as members of the Board cannot undertake to recommend the superannuation of Civil Servants for the reason of age only.

In directing your attention to these requirements of the Board, I have to ask that in all cases the papers for their consideration be submitted in as complete a state as possible, and to inform you that in no case will a memorandum be taken into consideration if the papers are not complete.

I am, sir, your obedient servant,

J. M. COURTNEY, *Secretary.*

---

### Salaries of Deceased Officers.

*Order in Council, Feb. 9, 1875.*—On a memorandum dated Feb. 8, 1875, from the Honourable the Minister of Finance, reporting that there appears to be a want of uniformity in the manner of paying the salaries of deceased officers—that in some case the salary is paid to the day of death, and in others the salary of the month in which the officer died is paid. He, therefore, recommends that for the future the whole month's salary be paid in all cases. The Committee submit the above recommendation for Your Excellency's approval.

W. A. HIMSWORTH, *C.P.C.*

---

### Employment of Temporary Clerks.

*Section substituted by 58-59 Victoria, chapter 15, for section 47 of the Civil Service Act (R.S.C. cap 17):*—When from a temporary pressure of work or from any other cause extra assistance is required in any branch of either the first or second division, the Governor in Council may, on the report of the deputy head of the department, concurred in by the head of the department, that such extra assistance is required, authorize the employment of such number of temporary clerks, writers, messengers, porters, packers or sorters, as are required to carry on the work of the department.

### Temporary Employees : Certificate of Attendance.

FINANCE DEPT., OTTAWA, Oct. 9, 1891.

SIR,—I have the honour to inform you that at a meeting of the Treasury Board, held on the 2nd instant, a minute was adopted, requiring that accounts for payments to all extra clerks and extra messengers and of all temporary employees should, from and after Sept. 1, 1891, be certified as follows :—

“I hereby certify that the clerk (or messenger) has been in attendance at this office every day, except Sundays and statutory holidays, during the period for which payment is asked.”

It being understood that nothing herein contained shall be construed to authorize payment for Sundays and statutory holidays in cases in which payments for such days have not been made hitherto.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *D.M.F.*

### Departmental Employees : Pay-list.

TREASURY BOARD, OTTAWA, Dec. 2, 1895.

SIR,—I have the honour to inform you that the Treasury Board, at a meeting held on the 29th ultimo, passed a minute directing that hereafter all departmental employees at Ottawa (other than those extra clerks and messengers who are paid from Civil Government Contingencies, and labourers and mechanics) be paid on pay-lists certified by the Auditor General before payment.

I am, sir, your obedient servant,

J. M. COURTNEY, *Sec., Treas. Board.*

### Special Leave of Absence to Permanent Employees.

*Order in Council, June 29, 1893.*—No payment to be made to any Government employee for time on special leave until Council authorizes same.

J. J. MCGEE, *C.P.C.*

### Leave of Absence to Temporary Employees.

*Order in Council, October 20, 1892.*—On a report dated 19th October, 1892, from the Acting President of the Privy Council, stating that he has had under consideration the subject of applications for leave of absence, and for sick leave made from time to time by technical officers, clerks and messengers who are not permanently appointed to the Civil Service, but who are engaged in the inside service in the departments at Ottawa, and recommending the adoption of the following rules :—

(1.) That the head of the department, and in his absence, the deputy head of the department, may grant to any professional or technical officers and supernumerary or temporary clerks who may be employed under section 47 of the Civil Service Act, and who have been so employed during twelve months continuously, leave of absence for the purpose of recreation, for a period not exceeding three weeks in each year ; such leave to be granted at such time during the year as the head or deputy head of the department may determine.

(2.) That employees whose employment is for one month or upwards, may, in the discretion of the head of the department be paid for days when they are absent in consequence of actual illness, after leave of absence obtained, on certificates furnished to the satisfaction of the head of the department ; or for days during which absence has been

## Auditor General's Report.

---

occasioned by contagious or infectious diseases in the families of the persons so engaged ; such absence not exceeding one week at any one time and not exceeding two weeks during any year.

This regulation to be retroactive as to cases which have occurred since the 1st of September, 1891, and its future operation to be confined to supernumerary and temporary clerks who are employed under section 47 of the Civil Service Act, and to persons temporarily employed as messengers and to professional or technical officers.

The committee submit the same for Your Excellency's approval.

JOHN J. MCGEE, *C.P.C.*

---

### Medical Certificates.

*Order in Council, July 23, 1892.*—On a memorandum dated 14th July, 1892, from the Secretary of State, recommending that the Order in Council of the 25th April, 1892, appointing certain gentlemen to be medical practitioners, under the 3rd subsection of section 51 of "The Civil Service Act" in so far as regards furnishing medical certificates in cases of illness of officers and servants of the Department of Marine and Fisheries, be cancelled.

The Minister further recommends that every duly qualified medical practitioner whose name is registered in the Medical Register of the province in which he resides be appointed as an authorized medical practitioner for the purpose of issuing medical certificates as required by subsection 3 of section 51 of the Civil Service Act.

The Committee submit the foregoing recommendations for Your Excellency's approval, and order that a copy be sent to each department.

JOHN J. MCGEE, *C.P.C.*

---

### Rate of Pay for Copying.

*Order in Council, April 1, 1886.*—That the rate to be paid for all copying done for the several departments of the Government and in preparation of returns for the Senate and the House of Commons, be fixed at five cents (5c.) per folio of 100 words, to commence on the 1st April instant.

JOHN J. MCGEE, *C.P.C.*

---

### Rate of Pay to Reporters.

*Order in Council, October 9, 1888.*—On a memorandum dated 1st October, 1888, from the Minister of Justice, recommending that authority be given for the payment of the Official Reporters of the Debates of the House of Commons, and of other Reporters, who may be designated as occasion may require by the Minister of Justice, to be employed to report Exchequer Court cases, or proceedings under Commissions of Inquiry, or upon arbitrations in which the Government is interested, or upon any other matter requiring a short-hand reporter, at the rate of fifteen cents per folio of one hundred words, the Reporter for such remuneration to supply to the Government four copies of the proceedings and evidence in each case.

The Minister further recommends that the sum of \$3.50 per diem over and above the actual moving expenses be allowed to such Reporters on account of travelling expenses while so employed and when absent from their places of residence, the days of leaving and arriving to be counted as full days. Also, that the provisions of this Order shall relate back to the time from which the services of such Reporters were first engaged in the capacity mentioned, viz., from November 1st, 1887.

The Committee advise that the requisite authority be granted.

JOHN J. MCGEE, *C.P.C.*

*Order in Council, July 3, 1890.*—That the rate to be paid to Unofficial Reporters for reporting during the Sitting of Parliament, when the official staff is not available, be 25 cents per folio of 100 words, the Reporter for such remuneration to supply the Government with four copies of the proceedings in each case.

That the sum of \$3 per diem, in addition to actual moving expenses, be allowed to such reporters on account of travelling expenses while so employed and when absent from their place of residence, the days of leaving and arriving to be counted as full days.

That the amount hereby fixed for remuneration shall apply to the accounts for reporting done by such reporters during the last Session of Parliament.

That in all cases when a reporter (not official) is duly in attendance for reporting for a day, and does not, or is not required to report to such an extent as to make the actual amount of his remuneration reach the amount of \$5 per day, he shall be entitled to receive \$5 a day for each day he has been required to attend and has been properly in attendance ready to work.

That it be declared that whenever hereafter any reporter, whether official or otherwise, applies for and performs reporter's work during the Recess of Parliament, he shall be considered as having been employed under, and shall be paid according to the rates fixed by the Order in Council above referred to, of October 9, 1888.

JOHN J. MCGEE, *C.P.C.*

### Superannuation.

*Extract from a Minute of the Treasury Board, Nov. 11, 1870.*—The Treasury Board has had under consideration a memorandum of the Civil Service Board respecting the superannuation list, and other memoranda by the Auditor on the same subject, and it recommends that the following rules be laid down as to the classes of persons who come under the operation of the Act and as to the method of carrying it into effect :—

(1.) All officers, clerks and other persons permanently employed at the seat of Government in any executive department of the Government named in the Civil Service Act, 1868.

(2.) All permanent officers and servants of the Senate and those of the Commons.

(3.) The two Commissioners of Police of the Dominion.

(4.) The directors of the penitentiaries and the penitentiary officers appointed by Government under 31st Vic., cap. 75, sec. 30, such as the wardens, deputy wardens, accountants and surgeons, who give up their whole time to the institutions.

(5.) The adjutant general and deputy adjutant general at headquarters.

(6.) The directors of the Magnetic Observatory, Toronto, and the Geological Survey, and such of their staff as are permanently appointed by Order in Council.

(7.) The Financial Inspector, and the officers of the Finance Department at Halifax and St. John, including the savings bank at Halifax.

(8.) All officers of customs who are paid by permanent salaries, such as inspectors of ports, collectors of customs, surveyors, landing waiters and clerks in collector's offices.

(9.) Such officers of customs as are paid partly by a fixed salary and partly by a per diem allowance when employed, can only be rated for superannuation on their fixed salary; but if any such officers are superannuated within three years their allowance may be reckoned on the total amount they have received during the previous three years, including the fixed salary and the per diem allowance.

(10.) All officers at permanent salaries connected with the collection of inland revenue, such as district inspectors, collectors, deputy collectors, excisemen, supervisors and deputy supervisors of cullers and clerks in their respective offices.

(11.) The Crown timber agent and the collector of slide dues on the Upper Ottawa, and the collector of timber and slide dues at Quebec, and the staff of their respective offices, being officers of the Dominion, acting also as agents for the provinces of Ontario and Quebec.

(12.) All officers at permanent salaries in the city post offices of Montreal, Quebec, Toronto, Ottawa, Kingston, Hamilton, London, Halifax, Fredericton and St. John, and

## Auditor General's Report.

such other towns and cities as may hereafter be placed on the same footing, such as postmasters, assistant postmasters, clerks, letter carriers, &c.

(13.) Post office inspectors, assistant inspectors and clerks, and messengers in the inspector's staff.

(14.) Railway mail clerks and guards, and clerks employed in the ocean mail service and in travelling in charge of British and foreign mails.

(15.) Persons employed in the outside service of the Public Works Department other than on railways, who receive annual salaries, and whose services do not cease on the completion of any particular works, such as the permanent staff employed on the canals, slides and on other public works; also the official arbitrators, and their secretary.

(16.) The superintendents and permanent staff at the principal railway depots, being the headquarters of the respective lines.

(17.) The permanent staff of the three quarantine establishments of the Dominion, including the surgeons who give up their whole time to the institutions.

(18.) The emigration agents of the regular agencies in Canada.

(19.) The staff of the Statistical Office, Halifax.

(20.) The agents of the Department of Marine and Fisheries at Quebec, Halifax and St. John, and their staff permanently appointed.

(21.) The inspectors of lights in Nova Scotia and New Brunswick.

(22.) The Inspector of Fisheries for Nova Scotia and New Brunswick and the Assistant Inspector for Nova Scotia and their clerks permanently appointed, and the manager of the fish breeding in Ontario.

(23.) The masters and other officers of the Trinity Houses, Montreal and Quebec, who are in receipt of an annual salary, excepting the captain of the steamer "Richelieu."

(24.) All the lighthouse keepers, engineers of fog whistles and officers of humane establishments of the Dominion, excepting lighthouse keepers under the charge of the Trinity House, Montreal, who receive only a monthly allowance during the time they are employed.

(25.) The Steamboat Inspectors for the Dominion.

(26.) The Shipping Master, Quebec, and the chief constables of the river police, Quebec and Montreal, but not the rest of the force.

(27.) The directors of the observatories, Quebec and New Brunswick.

(28.) All outside officers of the Indian Office, who are at permanent salaries, and give up their whole time to their duties, such as the superintendents and their clerks, salaried agents, interpreters, &c.; but inasmuch as these salaries are charged against the Indian Fund, the superannuation allowance and the abatement should also be charged and credited to the Indian Land Management Fund.

(29.) *The following classes of persons shall not come under the operation of the Act:*—All persons at a salary lower than \$150 per annum. All persons who are paid by a commission or percentage on the business transacted by them, such as cullers, or at salary in lieu of such percentage as the country postmasters or keepers of way post offices. All persons only temporarily or occasionally employed as officers of the Inter-colonial Railway and other public works. Emigration agents employed in Europe. Tide waiters and lockers at per diem day. All the outside staff of the Militia Department, except the Adjutant General and Deputy Adjutant General at headquarters, and captains of steamers employed by the Dominion. All persons who are appointed or dismissed from office by subordinate officers, as overseers, guards, etc., of the penitentiary attendants in hospitals, and policemen.

(30.) Should any question arise as to whether any particular officer comes within the meaning of any of the above rules defining who shall, or who shall not, come under the operation of the Act, the point be referred to the Treasury Board, and decided by it.

(31.) In counting the length of service by which a superannuation allowance is to be regulated, if the man has served a fraction of a year less than half, his service shall count as for the number of years without the fraction, and if the fraction is more than half, it shall count as for the number of years next above.

XXXV

(32.) In counting the salary on which the superannuation allowance is to be calculated, it shall be taken at one-third of the whole amount received by the officer for the 36 months preceding the Order in Council superannuating him.

(33.) When any officer is permanently employed at a nominally per diem salary, it shall for the future be included in the pay-lists at an equivalent per annum salary.

(34.) When any officer has an official residence or other similar perquisite, his salary shall be stated at such higher sum as may fairly represent these advantages, and he shall pay the abatements on such higher salary, otherwise his superannuation allowance shall count only on the salary on which he has paid abatements.

(35.) The superannuation allowances shall be paid monthly in the manner proposed in the memorandum on that subject submitted by the Auditor.

(36.) An Establishment Book shall be kept in the Finance Department, in which shall be entered every person in the service on the first July, 1870, or hereafter to be appointed, who, by foregoing rules, comes within the provisions of the Act, showing the date of his birth and the date of his appointment, together with any other facts upon which his length of service will be counted.

(37.) When any greater length of service is claimed by men now in the service than that from the date of the man's appointment to his present office, it shall be the duty of the Auditor to prepare a classified statement of all such claims, which, together with a report thereon from the Civil Service Board, shall be submitted to the Privy Council, to the intent that rules may be laid down by it for counting such service.

(38.) When any person is hereafter appointed in later life for any special qualifications, the additional number of years which may be added to his actual length of service shall be stated in the Order in Council appointing him, and such additional years shall be recorded in the Establishment Book, and in order that the same thing may be done with regard to men now in the service, the Secretary of the Treasury Board shall collect from each deputy head, and the clerks of the Senate and House of Commons a statement of all the men now serving under them to whom they are of the opinion that additional service should be allowed under the Act for special qualifications in their appointment. Such statement shall be submitted to the Treasury Board, and reported upon by it, so that an Order in Council may direct such additional years to be recorded in the Establishment Book.

(39.) The Auditor shall prepare a statement to be submitted to Council on 1st January next of all persons on the Establishment of 60 years of age and upwards, and a similar statement shall hereafter be submitted at the commencement of each financial year.

(40.) No person exceeding 65 years shall be retained on the Establishment except upon an Order in Council passed upon the receipt of the statement above provided for retaining him on the staff for another year.

*Order in Council, May 3, 1886.*—That the 34th paragraph of the Treasury Minute of the 11th November, 1870, which paragraph is as follows:—“(34.) When any officer has an official residence or other similar perquisite, his salary shall be stated at such higher sum as may fairly represent these advantages, and he shall pay the abatements on such higher salary, otherwise his superannuation allowance shall only count on the salary on which he has paid abatements;”—be repealed, except in the case of those who now pay superannuation abatement on such allowance or perquisite in addition to the abatement from their salaries.

JOHN J. MCGEE, C.P.C.

TREASURY BOARD, OTTAWA, Dec. 7, 1883.

SIR,—I am directed by the Treasury Board to call your attention to your letter of October 9, 1882, on the subject of the reconsideration of cases of superannuation of public servants as published in the Book of the Rules of the Civil Service, page 52, and to state that many references are now made to the Board from the several departments,

## Auditor General's Report.

---

recommending the postponement of the dates of superannuations as established by Council on the Report of the Treasury Board, and to ask whether, under any circumstances, superannuations, once established by Council, may be reopened—always presuming that no clerical errors have been made.

Your obedient servant,

The Deputy Minister of Justice. J. M. COURTNEY, *Sec. Treasury Board.*

---

DEPT. OF JUSTICE, OTTAWA, Dec. 12, 1883.

SIR,—I have the honour to acknowledge your letter of the 7th, asking whether, under any circumstances, superannuation once established by Council may be reopened—always presuming that no clerical error has been made.

The Superannuation Act provides that under the circumstances mentioned therein, the Governor in Council may grant to a person who has served in an established capacity in the Civil Service a superannuation allowance, and that the Order in Council made in the case shall be laid before Parliament. If the grant was made by Letters Patent, the latter could not be cancelled by authority of an Order in Council, except they had been issued in the name of the wrong party, or contained a clerical error or misnomer, or wrong description of a material fact. (*See 38 Vic., cap. 13.*) As the grant in the case of a member of the Civil Service is made by an Order in Council, I am of opinion that in practice it would be well to adhere to the same rule, and not to cancel or amend the Order in Council, except in cases mentioned in the Act referred to (*38 Vic., cap. 13*).

Your obedient servant,

The Secretary Treasury Board.

GEO. W. BURBIDGE, *D.M.J.*

---

(Circular.)

OTTAWA, July 31, 1891.

SIR,—I have the honour to inform you, for your guidance in future, that the Governor General in Council, on the 21st instant, approved of the following regulation of the Treasury Board:—

“That no person be hereafter appointed to a position in the Civil Service which would entitle him to the benefit of the Superannuation Act unless at the time of his appointment he produces medical testimony, to the satisfaction of the Treasury Board, showing that he is then in good health.”

I am your obedient servant,

The Auditor General.

J. M. COURTNEY, *Sec. Treasury Board.*

---

*Order in Council, Oct. 9, 1895.*—That in future all cases in which application is made for the superannuation of any Government employee there shall be given with the application, for the information of the Treasury Board, the reason or reasons for such superannuation, whether on account of age, or ill-health, or abolition of office, or to promote efficiency and economy—also the age, length of service, present salary, average salary during past three years, and the proposed retiring allowance of the officer recommended for superannuation. Also whether in any case it is intended to fill the vacancy caused by such superannuation by appointment or promotion, and if so, at what remuneration, and generally such information as will enable the Board to determine whether the superannuation asked for should be granted.

The Board further recommend that if the above meets with the approval of Council, a copy of the Order in Council founded hereon be furnished the several departments for their guidance.

JOHN J. MCGEE, *C.P.C.*

### Gratuities.

*Order in Council, Feb. 1, 1868.*—As frequent instances occur of the death of officers in the service of the Government, leaving their families in circumstances of great and immediate want, and destitute of means to defray the expenses of illness and funeral, the Committee respectfully advise that in all cases of the decease of an officer of the Government on the permanent list, a gratuity equal to his salary be paid to his widow or orphan children, or to such members of his family or household as His Excellency may approve, for two months from the date of his decease.

*Order in Council, Dec. 26, 1887.*—The Board having had under consideration the matter of the payment of gratuities to the widows or other representatives of officials of the Government not on the permanent list, are of opinion, and recommend to Council, that the terms of the Order in Council of Feb. 1, 1868, be adhered to.

The Board are further of opinion that should Council, in special cases deem it necessary that the provisions of the above-mentioned Order in Council be extended to include payment of gratuities to the widows or other representatives of officials not on the permanent list, the consent of Parliament should be asked for the payment thereof.

JOHN J. MCGEE, C.P.C.

### Insurance of Government Property.

*Order in Council, July 5, 1881.*—The Committee of the Privy Council have had under consideration, upon the suggestion of the Acting Minister of the Interior, the general question of insurance against fire of Government property; and they are of opinion and humbly advise Your Excellency, that in view of the large amount, varied character and widely separated position of the property in the Dominion belonging to the Crown, it is a wise economy for the Government to underwrite its own risks, as well on movable as on immovable property, and they recommend that all existing policies (if any such exist) be suffered to lapse and no new ones effected, and that a copy of this Order, should Your Excellency approve of it, be sent to every department of the Government.

J. O. COTÉ, C.P.C.

### Franking Privilege at Ottawa.

*Order in Council, February 25, 1892.*—By an Order in Council, dated February 25, 1892, the following regulations governing the franking privilege were approved:—

#### *Regulations.*

1. In each department there may be used one franking stamp, such stamp being a facsimile of the usual signature of the deputy head, and to be kept in the custody of some officer or confidential clerk specially intrusted by the deputy head with that duty, and to be affixed by him upon official correspondence only.

2. When envelopes with a printed official address thereon are used, the name of the deputy head may be printed on such envelopes.

3. In addition to the printed stamp or printed signature as above provided, the head of the department and the private secretary of the head of the department in the name of his Minister, and the deputy head may frank by a written signature or initials; but no other method of franking except as above enumerated will be permitted.

4. No blank or unaddressed envelope shall in any case be franked.

5. The deputy head of each department shall furnish the Postmaster General with an impression of the facsimile stamp which it is proposed to use in his department.

## Auditor General's Report.

6. The General Officer commanding the Militia of Canada, the Adjutant General of Militia, the Auditor General and the Superintendent of Insurance shall, for the purposes of these rules, be respectively considered as deputy heads of departments.

7. All the official correspondence of the several departments, except that of the heads of departments, the deputy heads and the private secretaries of Ministers, shall be transmitted in envelopes having printed or written thereon the words "On Her Majesty's Service;" and no envelope bearing the superscription shall be used for any private correspondence.

8. From and after the 15th day of March, 1892, no private correspondence whatsoever shall be transmitted from any department of the Government at Ottawa or elsewhere, or any branch thereof under frank, nor shall the postage due thereon be charged against the Government.

9. All private correspondence addressed to any member of the Civil Service at Ottawa, or to the care of any civil servant, shall be liable to the same rates of postage as apply to the public generally.

10. Should any letter addressed to any civil servant at Ottawa upon which postage has been paid on delivery prove when open to be on public business, the amount so paid may be refunded on the certificate of the deputy head of the department to which the addressee belongs.

11. Any employee offending against any of these regulations shall be liable to suspension or such other punishment as the Governor General in Council may determine

JOHN J. MCGEE, C.P.C.

### Tariff of Fees on Commissions.

*Order in Council, September 7, 1893.*—The Committee of the Privy Council have the honour to recommend to Your Excellency the adoption of the annexed report of the Secretary of State with reference to the tariff of fees upon commissions to public officers:—

That the following tariff of fees chargeable upon commissions to public officers be confirmed:

1. Upon commissions to Lieutenant-Governors, Ministers of the Crown, judges of all courts, junior judges, deputy ministers and Queen's counsel, a fee of \$20.

2. Upon commissions issued to officers or others receiving salaries of \$1,000 or over, a fee of \$15.

3. Upon commissions issued to officers or others receiving salaries from \$400 to \$1,000 a fee of \$8.

4. Upon commissions issued to officers or others receiving salaries from \$100 to \$400, a fee of \$5.

5. Upon commissions issued to officers or others receiving salaries of \$100, or to officers or persons appointed to office, who are paid by fees of office, a fee of \$4.

He would also submit that in the case of the Solicitor General of Canada, the Controller of Inland Revenue and the Controller of Customs, and of all officers in the service of the Crown who may receive a salary of \$3,000 or upwards, the fee chargeable on commissions issued to them be fixed at \$20.

The above to apply to commissions issued under the great or privy seal.

He would further recommend that no commission or document be delivered out of the Department of the Secretary of State until the fee, if any, has been paid thereinto.

JOHN J. MCGEE, C.P.C.

---

---

**Maximum number of Reports to be ordered by each Department for Free Distribution.**

*Order in Council, January 19, 1893.*—On a report dated January 16, 1893, from the Minister of Finance, stating that by Order in Council, dated May 26, 1886, authority was given for placing on sale by the Queen's Printer, copies of public documents, other than those distributed officially to the Houses of Parliament and the departments, that in accordance with this order a circular was sent to the various departments requesting them to order only such copies as they absolutely needed for official purposes, and due arrangements were made by the Queen's Printer for advertising and supplying copies to the public.

The Minister finds that the number required for parliamentary inside and outside distribution is as to most of the departmental reports 1,800 copies of each, and as to five of the most important 2,050 each. The numbers ordered by the different departments for their own distribution vary from 315 to 10,000.

The Minister is of opinion that it is desirable to secure greater uniformity and economy in the orders from the various departments, and that the number ordered by each should be based on the call for necessary distribution.

The Minister therefore recommends that each department be authorized to order within his discretion for its own distribution, copies of its reports not to exceed a maximum of 500 copies of each report, and that the Queen's Printer be authorized to reserve for purposes of sale such number of the departmental reports and to arrange for their sale in such manner as may be deemed advisable by the Secretary of State.

The Committee submit the same for Your Excellency's approval.

JOHN J. MCGEE, C.P.C.

---

*Order in Council, November 18, 1893.*—That the annual reports of the Historical-Archives Division of the Department of Agriculture, forming one of the appendices to the annual report of the Minister of Agriculture, be excepted as respects the number of copies printed, from the terms of the General Order in Council, dated January 19 last, limiting the number of Departmental Reports to 500 copies each.

JOHN J. MCGEE, C.P.C.

---

*Order in Council, June 16, 1894.*—That the printing of the Year Book and Statistical Abstract for the Department of Agriculture, be excepted from the provisions of the General Order in Council, dated January 19, 1893, relating to the printing of the departments.

That authority be given for the printing of 2,400 copies in English, 750 copies in French, to meet the demands for distribution.

JOHN J. MCGEE, C.P.C.

---

*Order in Council, November 27, 1896.*—The Committee, on the recommendation of the Minister of Finance, advise that the Order in Council of January 19, 1893, limiting the number of reports of the different departments, be amended so far as the report of the Auditor General is concerned, and as to the number which is to be received by the Audit Office for distribution, by making the number 2,000 instead of 500 of this year's and subsequent reports.

JOHN J. MCGEE, C.P.C.

# Auditor General's Report.

---

## EXECUTIVE REGULATIONS—GOVERNING REVENUE AUDIT.

*Treasury Minute, June 21, 1886.*—The Board had under consideration a communication from the Auditor General to the address of the secretary of the Board, requesting to be informed whether the revenue accounts generally are to be submitted to him for examination and audit, and if so, under what regulations.

The Board direct that these accounts be submitted to the Auditor General for examination and audit.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

---

TREASURY BOARD, OTTAWA, Dec. 30, 1889.

SIR,—With reference to our recent conversation respecting the submission to the Treasury Board of the rules and regulations drawn up in your office, I have now to state that I have found on inquiry that your letter of the 31st December, 1886, was submitted to the Treasury Board in due course, but as it did not ask for confirmation of the rules inclosed, but only stated what your intentions were in auditing revenue accounts, and requesting any directions that the Treasury Board might deem fit to give—as the Treasury Board had no directions to give, the letter was unanswered; but, in order that the law may be complied with, I have now to state that the rules are approved of.

\* \* \* \* \*

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

---

### *Rules and Regulations in reference to the Receipt, Entry, and Accounting for Public Moneys.*

- (1.) Receipts with printed consecutive numbers should be used.
  - (2.) A receipt should be given for each payment.
  - (3.) All receipts should be entered in a cash book, and each entry should bear the same number as the receipt.
  - (4.) The counterfoil of the receipt should bear its number, the name of the payer, the amount, and a short memo. of the object for which payment was made; and it should be signed by the collector, and when payment is made in person by the payer.
  - (5.) A deposit should be made to the credit of the Receiver General daily, if the receipts amount to \$25. If the daily receipts do not amount to \$25, a deposit should be made whenever that sum or more is on hand.
  - (6.) As soon as possible after the close of each month, and not later than the 10th of the succeeding month, a copy of the cash book should be transmitted to the Audit Office, with the corresponding counterfoils of receipts granted, and also the blank when a receipt has been spoiled or cancelled.
- 

*Treasury Minute, May 23, 1890.*—The Board had under consideration a communication from the Auditor General, submitting certain regulations and forms of returns drawn up in accordance with the general regulations applicable to certain classes of revenue coming under the control of the Department of Marine, which regulations and forms were submitted to exemplify the carrying out of the general regulations.

---

After careful consideration the Board approve of the general regulations for the outside service for the audit of the revenue accounts, as follows :—

*Revenue Audit.—General Regulations for the Outside Service.*

1st. Where possible, every officer or agent employed in the collection of public moneys shall make a daily deposit, if the receipts amount to \$25 ; otherwise, whenever that sum is on hand ; and he shall furnish regularly to the proper department a return of his collections.

2nd. This return shall be made monthly, or at less frequent intervals, to be fixed by the department when desirable.

3rd. It shall be a copy in detail of the collector's cash book, showing the different deposits made in acquittance ; and shall be certified by him and mailed to the proper department within five days after the close of the period which it covers, and be accompanied by the corresponding vouchers or papers.

4th. It shall be fully examined and audited in the department and certified by the accountant and examining officer.

5th. When examined and certified, all returns for each period shall be forwarded to the Audit Office, accompanied by a summary certified by the deputy minister and the accountant.

And they direct that the particular regulations and forms applicable to each department be submitted to the Board for approval.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

## Auditor General's Report.

### TREASURY BOARD OVER-RULINGS OF AUDITOR GENERAL'S DECISIONS BETWEEN SECOND SESSION OF 1896 AND SESSION OF 1897.

#### Public Works : Payment of Interest on purchase of House.

AUDIT OFFICE, OTTAWA, February 15, 1897.

SIR,—I return herewith your application No. 104 in favour of David H. Têtu, for purchase of his house at Pentecost.

The wording of the Supply Bill makes no reference to the payment of interest, and I shall not be able to recognize that part of the claim, even though the amounts coincide.

Please reduce the application to \$374, the amount of the principal. The paying of the principal will not affect in any way the claim which Mr. Têtu has to interest.

I am, Sir, your obedient servant,

The Secretary Public Works Dept.

J. L. McDOUGALL, A.G.

DEPARTMENT OF PUBLIC WORKS, OTTAWA, February 27, 1897.

*Memorandum* :—The undersigned has the honour to report :

That in the amounts voted by parliament at its last session there is the following item :

#### *Telegraphs.*

“ Land line on the north shore of the St. Lawrence—For purchase from D. H. Têtu of land, buildings and furniture, fittings, &c, at the River Pentecost Telegraph Station, “ in full settlement of all claims, \$508.64,” this sum having been intended by the department to cover the principal and interest :

That the Department of Justice, through which Mr. Têtu's interest in the buildings, &c., at Pentecost was being purchased, wrote this department asking that a cheque for the sum of \$508.64, voted by parliament for the above named purpose, be sent to them :

That the Auditor General to whom application accordingly was made for the issue of the cheque in question, sent to the department the following letter :—

“ I return herewith your application No. 104 in favour of David H. Têtu, for purchase of his house at Pentecost.

“ The wording of the Supply Bill makes no reference to the payment of interest, “ and I shall not be able to recognize that part of the claim, even though the amounts “ coincide. “ Please reduce the application to \$374, the amount of the principal. The “ paying of the principal will not affect in any way the claim which Mr. Têtu has to “ interest.”

That the contents of this letter of the Auditor General were communicated to the Department of Justice, who were requested to state whether the Auditor General was right in his contention that the wording of the vote above quoted only gave him the power to pay the principal; \$374; and not the interest; and that their reply is as follows :—

“ In reply to your letter of 20th instant, in which you quote a letter from the “ Auditor General objecting to pay the whole amount voted by Parliament for the “ purchase of Mr. Têtu's interest in the buildings at Pentecost, I have the honour to “ state that in view of the fact that the money was specially voted by parliament for

“ that purpose, I do not think that the exception taken by the Auditor General is well founded.”

In view of the foregoing the undersigned has the honour to recommend that authority be given to instruct the Auditor General to issue at once a cheque for \$508.64, the sum voted by parliament for the purchase of Mr. Têtu's interest in the buildings, &c., at Pentecost, said cheque being now required by the Department of Justice to settle this case.

Respectfully submitted,

J. ISRAEL TARTE,

*Minister of Public Works.*

TREASURY BOARD, OTTAWA, March 5, 1897.

SIR,—I have the honour to enclose herewith memorandum under date of 27th ultimo from the Minister of Public Works which has been referred to the Treasury Board in reference to your objections to pay the whole amount voted by Parliament for the purchase of Mr. D. H. Têtu's interest in the buildings, furniture, fittings &c, at the River Pentecost Telegraph Station, and I have to request that you will be good enough to let me know for the information of the Board the nature of your objection in this case and the reasons therefor, and also to state under what section and clause of the Audit Act you take your objection. I shall also be glad to have any remarks you may desire to make in reference to the matter. Kindly let me have an answer as soon as possible.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *secretary.*

AUDIT OFFICE, OTTAWA, March 9, 1897.

SIR,—The Government is not legally liable for interest except under a special Act of Parliament. If the Government is liable in this case, it is because a special enactment has made it so.

The whole enactment in the case is in the words of the Supply Bill : “ For purchase from D. H. Têtu of land, buildings, furniture, fittings &c. at the River Pentecost Telegraph Station, in full settlement of all claims, \$508,64.” This being a broken sum it is argued by the Dept. of Justice that it practically permits the Government to spend the money as it chooses. Now why is this the case? I can see only one reason for the amount being a broken amount and that is, that instead of the requirements being undetermined as they usually are, in this case the work was done and the exact amount due by the Government had been fixed. No intimation had been given to Parliament that it was intended to make a payment from this sum which was otherwise illegal. No particulars of any kind were given, no audit was made and therefore it was assumed by the House that every item of the claim was allowable under the Statutes and the general principles which prevail. If under this appropriation the Government could pay interest which is otherwise illegal it could pay anything whether equitably due or not. Nothing can be clearer than this.

This application to the Board comes under sec. 32, subsection (a) of the Audit Act.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

DEPT. OF JUSTICE, OTTAWA, March 17, 1897.

SIR,—In reply to your letter of 13th instant stating that the Auditor General has objected to pay D. H. Têtu part of the money voted by Parliament for the purchase from him of land, buildings, furniture, fittings &c., at the River Pentecost Telegraph Station, upon the ground that part of the money is for interest, and that the payment of

## Auditor General's Report.

interest by the Government is illegal, I am directed by the Attorney General of Canada to state that he is of opinion that the item in the schedule attached to chapter 3 of the Statutes passed in the 60th year of Her Majesty's reign (page 34 of the Statutes), which reads as follows :—"Telegraphs—Land line on the north shore of the St. Lawrence—For purchase from D. H. Têtu of land, buildings, furniture, fittings etc., at the River Pentecost Telegraph Station, in full settlement of all claims, \$508.64"; is a sufficient Parliamentary authority for paying the whole amount to Mr. D. H. Têtu.

I understand that the Department of Public Works agreed with Mr. Tetu for the payment of the full amount in question in settlement of his claim for the property, and the vote mentioned above was taken to enable the department to carry out the settlement. In pursuance of the settlement Mr. Têtu has already executed and delivered a conveyance and the transaction cannot now be questioned.

I am, sir, your obedient servant,

The Secretary, Treasury Board, Ottawa.

E. L. NEWCOMBE, *D. M. J.*

*Treasury Minute, March 19, 1897*:—The Board had under consideration a memorandum under date of the 27th February, 1897, from the Honourable the Minister of Public Works with reference to an objection raised by the Auditor General on an application to him for the issue of a cheque for \$508.64 in favour David H. Têtu under the following item voted by Parliament at its last session :—

"TELEGRAPHS: "Land line on the north shore of the St. Lawrence. For purchase from D. H. Têtu of land, buildings and furniture, fittings, &c., at the River Pentecost Telegraph Station, in full settlement of all claims, \$508.64," the objection of the Auditor General being that the wording of the vote above quoted only gave him power to pay the principal, \$374, and not interest.

The Board had also under consideration a letter from the Auditor General under date of the 9th March, 1897, and a letter from the Deputy Minister of Justice under date of the 17th March, 1897.

From the last-mentioned letter it appears that the Attorney General of Canada is of opinion that the item in the schedule attached to chapter 3 of the Statutes passed in the 60th year of Her Majesty's reign (page 34 of the Statutes)—being the item above quoted—is a sufficient parliamentary authority for paying the whole amount to Mr. D. H. Têtu. The Deputy Minister of Justice added that he understood that the Dept. of Public Works agreed with Mr. Têtu for the payment of the full amount in question in settlement of his claim for the property, and the vote mentioned above was taken to enable the department to carry out the settlement, and that in pursuance of the settlement Mr. Têtu had already executed and delivered a conveyance and the transaction could not now be questioned.

The Board, under authority of section 32, subsection (a) of the Consolidated Revenue and Audit Act, under which the objection of the Auditor General is made, direct that a cheque for \$508.64 be issued in favour of Mr. Tetu.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *secretary.*

### Justice Dept.: Payment of Allowance for Living Expenses instead of Actual Expenses.

AUDIT OFFICE, OTTAWA, September 9, 1896.

SIR,—With reference to your letter of the 13th ultimo, inclosing a deposit receipt for \$161.65, a refund of part of \$1,000, an advance to you for travelling expenses on your trip to England, I have to say that for the reasons given in my report to Parliament for the year 1885-86, page VII.; and 1889-90, B-91 and 92; and 1890-91, B-109, I am of opinion that the allowance mentioned in the Order in Council of the 23rd June

is outside of the power of the Governor in Council. It appears to me that you should give evidence that the net amount received by you—\$338.35—was expended on Government account.

I am, sir, your obedient servant,

The Deputy Minister of Justice.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, October 15, 1896.

SIR,—Although the question of the \$10 a day allowance involved in the attached accounts of Mr. E. L. Newcombe, the Deputy Minister of Justice, has been before the Board more than once, I again ask for a ruling on account of the personnel of the Board having been completely changed. As the matter was fully gone into before, and as all the documents connected with the previous references accompany this, there is no need for dealing further with the merits of the case.

The pith of my contentions is that while the Government may legally authorize in connection with travelling any outlay which is in the public interest, it cannot authorize a payment for disbursements on that account unless on evidence that the amount claimed was all spent for the purpose by the claimant. The details and the other evidence to be given in support of the claim might vary. Then even if an allowance is made, the public interest would not seem to require the same expense for all deputies or for the same deputy on all missions.

Then why should there be any allowance for the time spent on the vessel when the passage money covers board and room?

I am, sir, your obedient servant,

The Secretary Treasury Board.

J. L. McDOUGALL, A.G.

NOTE.—For correspondence regarding previous references see Audit Reports as follows:—1886, pp. VI. to IX.; 1890, pp. B-91 to B-93; 1891, pp. B-108 to B-110.—J. L. McD.

TREASURY BOARD, OTTAWA, 17th October, 1896.

SIR,—I am in receipt of your letter of the 15th instant in reference to the \$10 a day allowance to Mr. E. L. Newcombe, Deputy Minister of Justice, under Order in Council of 2nd June, 1896, in connection with his trip to England. The matter was submitted to the Treasury Board at the meeting of yesterday and I am directed to inform you in reply to your communication that the Board are of opinion that, as the allowance in question was sanctioned by an Order in Council passed by the late government during their tenure of office and before Mr. Newcombe went to England, and as no doubt the expenditure incurred was based upon such authority, in this particular case it is not desirable to take any action, but the Board wish it to be distinctly understood that this case is in no way to form a precedent for any future case. In this connection I beg to point out that the statement at the beginning of your letter, viz. :—“Although the question of the \$10 a day allowance involved in the attached accounts of Mr. E. L. Newcombe, the Deputy Minister of Justice, has been before the Board more than once”, is not strictly correct as these particular accounts of Mr. Newcombe have never been before the Board before. No doubt you meant in writing to bring to the notice of the Board that the general question of the \$10 allowance and not this particular instance had been before the Board before.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, Sec. T. B.

## Auditor General's Report.

### TREASURY BOARD OVER-RULINGS OF AUDITOR GENERAL'S DECISIONS BETWEEN THE SESSIONS OF 1897 AND 1898.

#### Agriculture Dept.: Increase of Salary for a past Fiscal Year.

AUDIT OFFICE, OTTAWA, July 14, 1897.

SIR,—I am in receipt of a copy of an Order in Council dated July 5 1897, granting an increase of \$30 to Miss H. J. Hamilton of the Department of Agriculture for the fiscal year ending June 30, 1897. The Civil Service Act makes provision by which the salary of an extra clerk may be increased from time to time, but it is evident that the increase must be for the coming year and not for a past year, so that the payment of \$30 as allowed by the Order referred to, would not be a legal one.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister of Agriculture.

DEPARTMENT OF AGRICULTURE, OTTAWA, July 26, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 14th instant in reference to the Order in Council of July 5, 1897, granting an increase of \$30 to Miss H. J. Hamilton.

You state that the increase must be for the coming year and not for the past year, and take ground that if this particular increase is for the past year the Order is not a legal one.

I have read the clauses in the Civil Service Act in relation to this matter very carefully and I must say that I cannot agree with you in the decision you have come to. It seems to me that the Order is just as legal being issued at the close of the year for the past year as it would be, issued at the beginning of the year for the current year.

I am, sir, your obedient servant,

W. B. SCARTH, D.M.A.

The Auditor General.

AUDIT OFFICE, OTTAWA, July 26, 1897.

SIR,—I am in receipt of a copy of an Order in Council, dated 7th July, 1897, authorizing the employment for 6 months from 1st July of a number of extra clerks in the Department of Agriculture, to be paid from Civil Government Contingencies. I notice that Miss H. J. Hamilton is employed at the rate of \$430 per annum. This is an increase of \$30 over her salary for 1896-97, if the objection taken by this office to a payment of \$30 to Miss Hamilton, under the terms of an Order in Council dated 5th July is a valid one. This objection was made in my letter to you of the date of 14th July.

I cannot pass a payment of an increased salary unless the Order in Council authorises the increase as such under statutory provision, and pending a settlement of the objection taken to the payment under the first Order, and therefore not on the terms of the Order in Council under which she is employed.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister of Agriculture.

DEPT. OF AGRICULTURE, OTTAWA, July 27, 1897.

SIR,—I beg to acknowledge yours of the 26th instant drawing my attention to copy of an Order in Council, dated July 7, 1897, authorizing the employment for six months from the 1st July of a number of clerks among them Miss H. J. Hamilton at the rate of \$430.00 per annum.

I notice your objection to the Order in Council so far as Miss Hamilton is concerned. Doubtless by this time you have been informed of another Order in Council dated 19th instant which supersedes the Order in Council referred to in your letter.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

DEPT. OF AGRICULTURE, OTTAWA, July 27, 1897.

SIR,—In my letter to you of the 26th instant I omitted to inform you that a cheque was issued for the increase of salary to Miss Hamilton, referred to in that letter, on the 13th instant by the Clerk of Contingencies, Finance Department, the day previous to the date of your letter stating that you did not consider the Order in Council, authorizing the increase, a legal one.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

TREASURY BOARD, OTTAWA, August 5, 1897.

SIR,—I have the honour to enclose herewith T. B. file No 22747, being an appeal to the Treasury Board by the Deputy Minister of Agriculture from your objection to an increase of \$30.00 in the salary of Miss H. J. Hamilton, a temporary clerk in the Department of Agriculture, and I have to request that you will be good enough to advise me for the information of the Board as to the nature of your objection and the reasons therefor, and also to state upon what section and clause of the Audit Act you base your objection in the case.

I shall also be glad to have any remarks you may desire to make regarding the matter.

I am, sir, your obedient servant,

The Auditor General.

M. G. DICKIESON, *Actg. Secy.*

AUDIT OFFICE, OTTAWA, September 16, 1897.

SIR,—In reply to your letter of August 5, 1897, transmitting to this office T. B. file 22747 *re* appeal by the Department of Agriculture from an objection taken by this office to the payment of an amount of \$30, under the terms of an Order in Council July 5, 1897, as an increase for the fiscal year 1896-97, then past, to the salary of Miss H. J. Hamilton, an extra clerk in the Department of Agriculture, I have to state that the employment of Miss Hamilton for the fiscal year 1896-97 was authorized by Orders in Council dated October 5, 1896, and January 12, 1897, and her salary for that year fixed by these Orders at \$400 per annum, and that the contract between the Government and Miss Hamilton for the performance of her duties was fulfilled by the payment of the salary stated in the Orders in Council referred to, RECEIVED

I have also to state that the Civil Service Act—provision for statutory increases to extra clerks being made in section 10 of that Act as amended in 1895—does not contemplate an increase for a past fiscal year, and the practice has been in accordance with the interpretation that it does not. If a contrary view is to prevail, and there is to be no finality as to the rate of pay in connection with the engagement of services, it

## Auditor General's Report.

---

is quite manifest that the labour and annoyance connected with this part of public business will be greatly increased and the business be much worse done than under the present system.

I am, sir, your obedient servant,

The Secretary Treasury Board.

J. L. McDOUGALL, A.G.

---

TREASURY BOARD, OTTAWA, Sept. 16, 1897.

SIR,—Referring to my letter of the 5th August last and to your reply of the 16th instant, with reference to an appeal to the Treasury Board by the Deputy Minister of Agriculture from your objection to an increase of \$30 in the salary of Miss H. J. Hamilton, would you be good enough to let me know upon what section and clause of the Audit Act you base your objection in this case.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *secretary*.

---

AUDIT OFFICE, OTTAWA, September 18, 1897.

SIR,—In reply to your letter of the 16th instant, I beg to say that my objections to the payment of an increase of \$30 to Miss Hamilton come under subsections (a) and (c) of section 32, Consolidated Revenue and Audit Act; since, in my view, there is no Parliamentary authority for the payment of an increase for a past fiscal year, and because there are other reasons, as indicated in the first paragraph of my letter of the 16th, why the payment should not be made.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

---

MEMORANDUM.—The undersigned have the honour, under subsection (c) of section 32 of the Consolidated Revenue and Audit Act, to report as follows in reference to the case of the increase of \$30.00 to Miss H. J. Hamilton, a temporary clerk in the Department of Agriculture.

On the 5th July, 1897, an Order in Council was passed granting an increase of \$30 to Miss Hamilton for the fiscal year 1896-7, and on the 14th of the same month the Auditor General communicated with the Deputy Minister of Agriculture stating that in his opinion the payment of the increase would not be legal inasmuch as the Civil Service Act makes provision by which the salary of an extra clerk may be increased from time to time, but that the increase must be for the coming year and not for a past year.

On the 3rd August, 1897, the matter was appealed to the Treasury Board and on the 16th of September the Auditor General in reply to the usual inquiry from the Board submitted his reasons for objecting to the payment of the increase as follows:—

That the employment of Miss Hamilton for the fiscal year 1896-7 was authorized by Orders in Council dated October 5, 1896, and January 12, 1897, and her salary for that year fixed by these Orders at \$400 per annum, and that the contract between the Government and Miss Hamilton for the performance of her duties was fulfilled by the payment of the salary stated in the Orders in Council referred to; also that the Civil Service Act—provision for statutory increases to extra clerks being made in section 10 of that Act as amended in 1895—does not contemplate an increase for a past fiscal year, and that the practice has been in accordance with the interpretation that it does not. The Auditor General also states that if a contrary view is to prevail and there is to be no finality as to the rate of pay in connection with the engagement of services it is quite manifest that the labour and annoyance connected with this part of the public business will be greatly increased and the business be much worse done than under the present system.

xlix

In a further letter of 18th September, 1897, the Auditor General states that his objections come under sub-sections (a) and (c) of section 32 of the Consolidated Revenue and Audit Act—first, that there is no parliamentary authority for the payment of an increase for a past fiscal year—and second, because of other reasons as indicated in the letter of 16th September, 1897, previously quoted.

Ottawa, 17th September, 1897.

J. L. McDOUGALL, *A.G.*  
J. M. COURTNEY, *D.M.F.*

DEPARTMENT OF JUSTICE, OTTAWA, November 9, 1897.

SIR,—Referring to your letter of 21st September last, with respect to the case of Miss H. J. Hamilton, a temporary clerk in the Department of Agriculture, in which the Deputy Minister of that department has appealed to the Treasury Board under section 32 (a.) of the Consolidated Revenue and Audit Act from an objection taken by the Auditor General to the payment of an amount of \$30 under the terms of an Order in Council, dated July 5, 1897, as an increase in Miss Hamilton's salary for the fiscal year 1896-7, I have the honour by direction of the Minister of Justice and Attorney General, to state as follows:—

The objections of the Auditor General are stated by him in his letters to you of the 16th and 18th September last. He points out "that the employment of Miss Hamilton for the fiscal year 1896-7 was authorized by Orders in Council, dated October 5, 1896, and January 12, 1897, and her salary for that year fixed by those Orders at \$400 per annum, and that the contract between the Government and Miss Hamilton for the performance of her duties was fulfilled by the payment of the salary stated in the Orders in Council referred to." He also holds "that the Civil Service Act—provision for statutory increases to extra clerks being made in section 10 of the amending Act of 1895—does not contemplate an increase for a past fiscal year."

With reference to the first objection, I am to state that under the proviso to section 10 of chapter 15 of the Statute of 1895 the rate of remuneration of a temporary clerk "may be increased from time to time by amounts not exceeding \$30 in any one year to a maximum of \$600." The Minister sees no reason why there may not, if the Governor in Council thinks proper, be an increase during the period covered by an Order in Council authorizing employment at a specified salary, or for that period when it has gone by, provided there are funds available. There is, it is true, a contract at the specified salary, but the Governor in Council is nevertheless given power to increase the remuneration from time to time (that is, at any time, even during the currency of the contract) within certain limits.

So far as the objection to the granting of an increase for a past fiscal year is concerned, as the Minister understands the facts and the nature of the contention of the Auditor General, any legal objection which there might be on that score does not apply to a case like the present one, the Order in Council for Miss Hamilton's increase having been passed on the 5th July, 1897, when, as the Minister presumes, the appropriation for the past fiscal year (1896-97) for temporary clerks was still available.

The Minister directs me to state, however, that there is a circumstance which, in his opinion, stands in the way of the full statutory increase for the year 1896-97 being granted to Miss Hamilton. According to his view of it, the statute of 1895 contemplates that in the case of temporary clerks employed under it there must be a full year of service at the minimum salary, or at a salary which the clerk was receiving when the Act came into force (1st January, 1896), and that there can be no increase before the second year of service under the Act, and upon that construction of the Statute Miss Hamilton did not become eligible for an increase until the 1st of January, 1897.

I am, sir, your obedient servant,

The Secretary Treasury Board.

E. L. NEWCOMBE, *D.M.J.*

## Auditor General's Report.

*Treasury Minute, Dec. 10, 1897.*—The Board had under consideration objections made by the Auditor General to the payment of an increase of \$30 to Miss H. J. Hamilton, an extra clerk in the Department of Agriculture for the fiscal year 1896-97, on the ground (1) "that the employment of Miss Hamilton for the fiscal year 1896-97 was authorized by Orders in Council, dated October 5, 1896, and January 12, 1897, and her salary for that year fixed by those orders at \$400 per annum, and that the contract between the Government and Miss Hamilton for the performance of her duties was fulfilled by the payment of the salary stated in the Orders in Council referred to," and (2) "that the Civil Service Act—provision for statutory increases to extra clerks being made in section 10 of that Act as amended in 1895—does not contemplate an increase for a past fiscal year."

The Board had also under consideration in connection with the subject a communication from the Deputy Minister of Justice, who, by direction of the Minister of Justice, states, with reference to the first objection, that under the proviso to section 10 of chapter 15 of the statute of 1895, the rate of remuneration of a temporary clerk may be increased from time by amounts not exceeding \$30 in any one year to a maximum of \$600; that the Minister (of Justice) sees no reason why there may not, if the Governor in Council thinks proper, be an increase during the period covered by an Order in Council authorizing employment at a specified salary, or for that period when it has gone by, provided there are funds available; that there is, it is true, a contract at the specified salary, but the Governor in Council is nevertheless given power to increase the remuneration from time to time (that is, at any time, even during the currency of the contract) within certain limits.

In reference to the second objection of the Auditor General, the Deputy Minister of Justice states:—So far as the objection to the granting of an increase for a past fiscal year is concerned, as the Minister understands the facts, and the nature of the contention of the Auditor General, any legal objection which there might be on that score does not apply to a case like the present one, the Order in Council for Miss Hamilton's increase having been passed on the 5th July, 1897, when the appropriation for the past fiscal year (1896-97) for temporary clerks was still available.

The Deputy Minister of Justice, in his communication, further says:—The Minister directs me to state, however, that there is a circumstance which, in his opinion, stands in the way of the full statutory increase for the year 1896-97 being granted to Miss Hamilton. According to his view of it, the statute of 1895 contemplates that in the case of temporary clerks employed under it there must be a full year of service at the minimum salary, or at the salary which the clerk was receiving when the Act came into force (1st January, 1896), and that there can be no increase before the second year of service under the Act, and upon that construction of the statute Miss Hamilton did not become eligible for an increase until the 1st of January, 1897.

The Board concur in the communication from the Department of Justice.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *secretary.*

### Interior Dept: Grant to Lake St. John Railway Company, without Previous Agreement.

AUDIT OFFICE, OTTAWA, June 3, 1897.

SIR,—I have a copy of the Order in Council of the 21st of May sanctioning a grant of \$8,000 to the Lake St. John Railway Company "on account of efforts made by that company within the last two years in opening up to colonisation the vacant lands in the vicinity of the large district served by the railway."

It does not appear that before the efforts referred to were made there was any understanding with the Government that the railway company should be reimbursed for its expense, nor is there any evidence of what the expense was, nor whether the settlers

---

were mainly from other parts of Canada, or from the United States where one at least of the agents of the railway laboured.

I don't think that the words of the Immigration Vote from which I presume it is intended to make the payment (although the Order in Council does not specify the appropriation) warrant the making of a *grant* from that appropriation.

It would lead to great difficulties if companies or individuals could first make expenditure, and particularly when they evidently expected to find full remuneration from the results without the Government's assistance, and have ground for hoping to have claims for reimbursement granted.

Without further explanation I see serious objection to this payment, and request that in the meantime it may not be made from the credit. Unless there are much stronger grounds for recognizing this claim than the Order in Council indicates, the recognition of it could not fail to open a very wide door for numerous other large claims which it would be very difficult to logically reject while maintaining that the intended action in this case is correct.

I am, sir, your obedient servant,

The Deputy Minister of the Interior.

J. L. McDOUGALL, A.G.

---

DEPARTMENT OF THE INTERIOR, OTTAWA, June —, 1897.

SIR,—I am in receipt of your letter of the 3rd instant, having reference to the Order in Council of the 21st May last, granting \$8,000 to the Quebec and Lake St. John Railway Company on account of services in connection with immigration.

In reply I beg to state that while I thoroughly appreciate your kindness in promptly drawing my attention to action which you consider is not within the power of the Government, and which may cause the Government trouble in dealing with similar claims in future, I hold to the opinion that the Government has the authority to make any grant, such as that mentioned in the Order in Council, even though the service to be paid for by the grant, has been performed without any distinct arrangement having been entered into beforehand as to the amount that would be allowed for the service, so long as there is a fund or vote from which the payment may be made. Why you fear that the recognition of this claim, in the manner it is being dealt with under the authority of the Order in Council above mentioned, will open a large door—to use your own words—for other claims which you evidently think should properly be rejected, I must confess I do not understand. Surely, many payments were made by the former Government, and properly made, although no previous understanding existed that the service would be paid for.

In the present instance there is no question but that the service for which this payment of \$8,000 is to be made, has been very satisfactorily rendered; in fact when fixing the amount of the grant it was acknowledged that the company would be entitled to a larger amount if paid by results.

I may also state that while it has not been the policy of the Government to meet expenditure connected with the removal of the residents of Canada from one part to another part of the Dominion you will acknowledge that the Government has power to decide whether such work is valuable from an immigration standpoint or not; and that if it be decided that it is, and that it has been done in the general interest of Canada, it has power also to estimate the value of the work, and to pay for it out of the vote. That the work in question is a matter of immigration in the welfare of Canada cannot be denied, and this being acknowledged, it is surely unnecessary, since we have a sufficient amount to the credit of the Immigration appropriation, to ask Parliament to specially vote the amount.

In this case many of the settlers who have been placed on lands in the Lake St. John District are repatriated French Canadians. The company is still continuing this work and this grant of \$8,000 is but a small amount of the expenditure the company has incurred in connection with it.

## Auditor General's Report.

I regret that the Immigration Vote was not specified in the Order in Council, as the one from which this grant is to be paid. The omission is not, however, material I think, as of course the wording of the Order implies that it is from that vote the money is to be taken. At the same time future memorandums to Council from this department will be free from this objection.

I am, sir, your obedient servant,

The Auditor General,

JAS. A. SMART, *D.M.I.*

AUDIT OFFICE, OTTAWA, July 3, 1897.

SIR,—I have your letter undated, in reply to mine of the 3rd ultimo regarding the intended grant to the Lake St. John Railway Co. of \$8,000 from the Immigration Vote.

I cannot recollect that any grant was made from a usual appropriation under the late Government. The differences between such a grant and the usual payment seem very clear.

The railway company went into this expenditure on its own account, without any expectation that any portion of it would be paid by the Government, and because there was a belief that the railway company would make a profit by the outlay. It may be quite true that the Government got a benefit from the expenditure just as the owner of what turns out to be the site of a flourishing town, through the building of a Government railway, gets a benefit from the expenditure of public money, but the Government does not make a claim on him for a portion of the profit.

Assistance was given from a Vote for improvement of Navigation of the St. John River, N.B., while the late Government was in power, for wharfs at various points on that stream. I interpreted the authority of Parliament as being confined to the paying of expenditure which was made after instructions were given to go on with the work.

I presume that you do not contend that the Lake St. John Railway Company has a claim that would be recognized in the Exchequer Court.

Does it not appear to you to be opening a rather wide door when you are ready to consider the application for even partial reimbursement of any expenditure which was made without the knowledge of the Government and therefore as a purely business speculation? If one claimant meets with success, it is to be supposed that every other who thinks he has worked even an indirect advantage, or can induce some one to pretend that he has, will not press for a payment from the Government?

It seems to me that there are not many cases where a claim against the Government is not a legal one, but is one that the Government should pay. It may be often different where both parties are private individuals.

I am inclined to think that the Government has not power to pay from the Immigration Vote the expenses connected with moving residents of Canada from one part of the Dominion to another. That is not immigration in my view. It may be that Canada is benefited by the removal; but, as it appears to me, the expenditure requires other authorisation. My gravest objection however is to the recognition of unauthorized expenditure.

I am, sir, your obedient servant,

The Deputy Minister of the Interior.

J. L. McDOUGALL, *A.G.*

DEPARTMENT OF THE INTERIOR, OTTAWA, July 7, 1897.

SIR,—I am in receipt of your letter of the 3rd instant, with reference to the intended grant to the Lake St. John Railway Company from the Immigration Vote, and in reply I beg to say that I can hardly agree with your contention with regard to this matter in view of the fact that for the very service for which this grant is being made to the company, the Government in many other ways has spent large sums of money, namely in the repatriation of Canadians, and in general immigration work. I do not see

therefore that if the Government has in its wisdom seen fit to adopt this means of helping on the same class of work in this way there should be any difference, as the real object to be served is the settlement of the waste lands of Canada by persons who will become producers, and this company has certainly shown its ability to successfully do the work. I might further state, however, that in view of the passing of the Order in Council of the 21st May last it appears to me to be a matter in which the Government has assumed full responsibility, and I can hardly add anything to what I have already stated to you.

I am, sir, your obedient servant,

JAS. A. SMART, *D.M.I.*

The Auditor General.

AUDIT OFFICE, OTTAWA, July, 13, 1897.

SIR,—I am in receipt of your letter of the 7th instant with reference to the proposed grant to the Lake St. John Railway Co. from the Immigration Vote.

In reply thereto I beg to say that my views remain unaltered as to the irregularity of this grant. I do not see that the restrictions which in my view as expressed in the letter of the 3rd instant should obtain in expenditure under the Immigration Vote, exclude charges for repatriation of Canadians and general Immigration work. You have of course the privilege of appealing to the Treasury Board against my decision.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister of the Interior.

AUDIT OFFICE, OTTAWA, August 31, 1897.

SIR,—I notice by the return of cheques drawn against your credit, that on 28th July last a payment of \$8,000 was made from the vote for Immigration to the Quebec and Lake St. John Railway, "being a payment authorized by Order in Council of 17th July, 1897, to aid the company in their efforts in connection with the repatriation and colonization of Canadians."

This appears to be the payment to which I objected in our previous correspondence, in connection with which I requested you to appeal to the Treasury Board against my objection if you did not see the soundness of the objection. I cannot understand your action in making the payment in the face of the objection and have to ask you to kindly let me know your reasons for doing so at your early convenience. I am anxious to get the information so that I may determine what course should be taken with reference to the credit to the Department.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister of the Interior.

DEPARTMENT OF THE INTERIOR, OTTAWA, September 14, 1897.

SIR,—I am in receipt of your letter of the 31st ultimo, with regard to the payment of \$8,000 from the General Immigration Vote, to the Quebec and Lake St. John Railway, and in which you refer to the fact that some time ago you took objection to the principle of this grant. You further ask explanations as to why the amount was paid without appealing to the Treasury Board against the propriety of your objection, as suggested in your letter of the 13th July last on this subject. In reply, I may say that I certainly did not consider your letter above referred to as being of the nature of an injunction against the payment in question for the twofold reason that the appeal suggested, according to the wording of subsection (c) of Section 32 of the Consolidated

## Auditor General's Report.

Revenue and Audit Act, clearly appears to lie with yourself and not with this Department, and furthermore the specific terms of the Order of the 21st May last in this relation passed by the Privy Council, of which in any event the Treasury Board is simply a committee, would scarcely have warranted me in withholding the payment of a sum which had been authorized by the Government as a matter of policy with which I am not concerned. As, however, you desire the ruling of the Treasury Board, I am quite willing to join you in submitting the question to the Board now, in order to ascertain whether the payment is correct or not.

I am, sir, your obedient servant,

The Auditor General.

JAS. A. SMART, *D.M.I.*

AUDIT OFFICE, OTTAWA, Sept. 20, 1897.

SIR,—I have your communication of the 14th instant on the \$8,000 payment to the Quebec and Lake St. John Railway Company.

You say that the appeal to the Treasury Board clearly lies with me. I don't appeal against my own decision. My decision prevails until I am overruled. It is true that I have to make a report of the case, but only after there is an appeal. The fact that an appeal is previously made is not referred to, because without an appeal from the only quarter from which an appeal would come there would be no case before the Board.

Then with reference to your view that Council has authority in this matter because the Treasury Board is simply a committee of Council, did it not occur to you that the Treasury Board would scarcely be directly named if its functions in this respect were intended to be only what it already had as a committee of Council? The Treasury Board, although all its members are members of Council, is specially authorised by Act of Parliament, and has separate functions as such, from those which the Governor in Council possesses.

If four of the six members of the Treasury Board, on appeal from my decision, think that I am in error, I am bound to act according to their view, even if the 10 or 11 remaining members of Council think that I was right, and if 4 of the Board agree with me, I have no authority for abandoning my own view, even if all the remaining members of Council think that I was wrong.

It strikes me that it might have appeared to you that there was sufficient doubt as to the course to be adopted to justify you in making sure of the position to be taken, particularly as there was so large a sum as \$8,000 involved.

Although I am obliged to criticise when payments or intended payments seem to be irregular, there is no reason why I should not assist in every way in my power to make necessary disbursements in such a manner as to be free from reason for fault finding. I have been here many years while you have been in office only a few months, and therefore I may repeat what I have mentioned to you in conversation, that I shall be glad to discuss informally and as many times as you wish whatever you think might have light thrown upon it by my experience.

Please make your appeal to the Board without delay and let me know that in future you will obtain the overruling of my decision before making payment.

I am, sir, your obedient servant,

The Deputy Minister of the Interior.

J. L. McDOUGALL, *A.G.*

DEPARTMENT OF THE INTERIOR, OTTAWA, Sept. 23, 1897.

SIR,—I am in receipt of your letter of the 20th instant with reference to the payment of \$8,000, to the Quebec and St. John Railway Company, and beg to state in reply that I will prepare a statement of the facts in connection with this case and submit it to the Treasury Board for its decision as suggested by you. I may say that I should be very sorry indeed if in your mind there would appear to be any question as to the high respect in which I regard your opinions upon any matters affecting the accounts

of the departments. In this case, however, as I have pointed out to you, I did not take your letter as an absolute injunction restraining me from issuing the cheque, while on the other hand I had the direct instruction of the Government, as contained in the two Orders in Council, to make the payment. I will be very pleased indeed to consult with you in regard to any of these matters and beg to thank you for your kind suggestion as to your willingness to assist me. I can assure you that I would much prefer to follow this course rather than to enter into lengthy correspondence.

I am, sir, your obedient servant,

The Auditor General.

JAS. A. SMART, *D.M.I.*

\_\_\_\_\_  
TREASURY BOARD, OTTAWA, Sept. 30, 1897.

SIR,—I have the honour to enclose herewith T. B. file No. 22,844, being an appeal to the Treasury Board by the Department of the Interior from your decision in the case of the payment of \$8,000 to the Quebec and Lake St. John Railway Company, and I have to request that you will be good enough to let me know for the information of the Board the nature of your objection to such payment and the reasons therefor, and also to state under what section and clause of the Audit Act you take your objection. I shall also be glad to have any remarks you may desire to make regarding the matter.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *secretary.*

\_\_\_\_\_  
AUDIT OFFICE, OTTAWA, October 5, 1897.

SIR,—I have your letter of the 30th ultimo enclosing the appeal by the Department of the Interior from my decision in the matter of the \$8,000 payment to the Lake St. John Railway Co. The correspondence shows my reasons for declining to sanction the claim which may be recapitulated in this way :

1. There was no legal obligation because the Government never authorized the expenditure before it was made, was never even applied to for authorization, or notified that the expenditure was about to be made.

2. There was no moral obligation. The company could have had no reason to expect that it would be reimbursed any portion of the outlay because the expenditure was made with the expectation that the benefit to the company's business would repay the outlay.

There is no justification for paying this claim unless the company has a right to be paid. If this company has a right to be paid, then every other company and every person who make expenditure from which the government receives a benefit have a right to be paid and, therefore, the Government does wrong unless it pays them.

The objections are under section 32 of the Audit Act, subsections (a.) and (c.)

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.*

\_\_\_\_\_  
MEMORANDUM: The undersigned in accordance with subsection (c.) of section 32 of the Consolidated Revenue and Audit Act beg to report as follows in the case of the payment by the Department of the Interior of the sum of \$8,000 to the Quebec and Lake St. John Railway Company:—

By Order in Council of 21st May, 1897, on a Report from the Minister of the Interior, a grant of \$8,000 was made to the said company on account of services previously performed in bringing settlers into the vicinity served by the railway company and for the development of the resources of the locality. On the 15th July, 1897, a second Order in Council was passed making the \$8,000 a charge upon the moneys granted by Parliament for General Immigration Expenses.

## Auditor General's Report.

The Auditor General under dates of 3rd June and 3rd July, 1897, pointed out to the Department of the Interior that the Order in Council, in his view of the terms of the immigration vote, did not warrant the making of the grant, and that for this and other reasons he objected to the payment being made.

During July, 1897, however, the payment was made through the credit of the department, and the department on being remonstrated with, pointed out that having an Order in Council authorizing the payment, it was considered that the Treasury Board, which was deemed as simply a Committee of Council, need not be appealed to from the decision of the Auditor General in the case.

This, however, was afterwards corrected and an appeal was made and in due course the Auditor General was communicated with and asked the grounds of his contention, which he sets forth in his reply to the Secretary of the Board in a letter of 4th October, 1897.

Ottawa, November 13, 1897.

J. L. McDOUGALL, *A.G.*  
J. M. COURTNEY, *D.M.F.*

OFFICE OF THE MINISTER OF JUSTICE, OTTAWA, Nov. 9, 1897.

SIR,—Upon the reference contained in your letter of the 5th ultimo—T. 22,844. B—with respect to a proposed payment of \$8,000 to the Quebec and Lake St. John Railway Company, I have the honour to report as follows:—

An Order in Council of 21st May last, authorized the payment to the Quebec and St. John Railway Company of \$8,000, in order to further encourage the operations of the company in the promotion of immigration, which the Order in Council recites, had in the past proved of great value; and by an Order in Council of 15th July, it was provided that this payment should be made a charge upon the vote for general immigration purposes.

Upon the passing of the latter Order in Council, a cheque for the amount of the grant was issued against the vote referred to.

The Auditor General previously to such cheque being issued had pointed out what he conceived to be objections to the proposed payment, and, at his suggestion, the matter was referred to the Treasury Board.

Under these circumstances you ask for my opinion, as Attorney General, under section 32 (a) of the Consolidated Revenue and Audit Act, as to whether there is, or is not, parliamentary authority for the proposed payment.

The Auditor General states his objection in his letter to you of the 4th ultimo, as follows:—

“ 1. There was no legal obligation because the Government never authorized the expenditure before it was made, was never even applied to for authorization, or notified that the expenditure was about to be made.

“ 2. There was no moral obligation. The company could have no reason to expect that it would be reimbursed any portion of the outlay, because the expenditure was made with the expectation that the benefit to the company's business would repay the outlay.”

The sole question with which I have to deal in this report is the question of law, whether under the section of The Consolidated Revenue and Audit Act above referred to, there is “ Parliamentary authority ” for the payment.

The “ Parliamentary authority ” is the vote for “ Immigration expenses.”

I think that the Government may expend this vote for “ Immigration expenses ” in such manner as they may think best adapted to promote immigration. The question then becomes one of policy for the Government to consider, and for which the Government is responsible to parliament. I see no reason why they may not, as a matter of law, grant out of the vote for immigration expenses a reward for past meritorious, useful work, or a subsidy to encourage future work, if they think such a grant or subsidy would be promotive of immigration, and I think that their action therein is subject only to their answerability to Parliament.

I am, &c.,

O. MOWAT, *M.J.*

The Secretary, Treasury Board.

*Treasury Minute, Nov. 20, 1897.*—The Board had under consideration the objections raised by the Auditor General to the payment of the sum of \$8,000 to the Quebec and Lake St. John Railway Company from the Vote for Immigration, such payment having been made under the authority of Orders in Council of 21st May and 15th July, 1897.

The Auditor General's reasons for declining to sanction the payment as set forth in his letter of 4th October, 1897, to the Secretary of the Treasury Board are as follows:—

1. There was no legal obligation because the Government never authorized the expenditure before it was made, was never even applied to for authorization, or notified that the expenditure was about to be made.

2. There was no moral obligation. The company could have had no reason to expect that it would be reimbursed any portion of the outlay because the expenditure was made with the expectation that the benefit to the company's business would repay the outlay.

The Board had also under consideration in connection with the subject a letter from the Minister of Justice under date of 9th November, 1897, in reply to a communication from the Secretary of the Treasury Board dated 5th October, 1897, asking to be advised as to whether or not there is Parliamentary authority for the payment in question. The Minister of Justice in his letter above referred to states as follows:—

“The parliamentary authority is the vote for ‘Immigration expenses.’”

“I think that the Government may expend this vote for ‘Immigration expenses’ in such manner as they may think best adapted to promote immigration. The question then becomes one of policy for the Government to consider, and for which the Government is responsible to Parliament. I see no reason why they may not, as a matter of law, grant out of the vote for immigration expenses a reward for past meritorious, useful work, or a subsidy to encourage future work, if they think such a grant or subsidy would be promotive of immigration, and I think that their action therein is subject only to their answerability to Parliament.”

The Board on the above report of the Honourable the Minister of Justice overrule the objections of the Auditor General.

The Auditor General.

J. M. COURTNEY, *Sec'y.*

### Gratuity under Penitentiary Act paid to a Public Works Employee.

DEPARTMENT OF JUSTICE, OTTAWA, April 2, 1897.

SIR,—I have to request that you will, under authority of an Order in Council dated the 30th ultimo, send me a cheque payable to the order of Mr. Charles Munroe for the sum of \$401.91 and charge the amount against the Vote for retiring gratuities, Kingston Penitentiary.

I am, sir, your obedient servant,

The Auditor General.

E. L. NEWCOMBE, *D.M.J.*

AUDIT OFFICE, OTTAWA, April 7, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 2nd instant for a cheque of \$401.91 in favour of Charles Munroe, late steamfitter at Kingston Penitentiary, being the difference between the amount—\$205.24—paid him under Order in Council dated November 14, 1896, and \$607.15 authorized by Order in Council of the 30th ultimo.

It appears from the information sent me that the additional amount in question has been allowed because Mr. Munroe's time as steamfitter under the Department of Public Works was not taken into consideration in the first instance.

In my opinion Mr. Munroe has been already paid the full gratuity to which he is entitled under 50-51 Vic., chap. 52, sec. 4, and I should therefore be glad to be informed on what ground an officer of the Public Works Department employed at a

## Auditor General's Report.

---

---

Penitentiary is entitled to privileges not attached to similar services at any of the other public buildings of the Dominion.

Is it your opinion that the privileges of the Penitentiary Act in this respect may be extended to any officer included in the Schedules attached thereto, irrespective of the Department under which he is employed?

I am, sir, your obedient servant,

The Deputy Minister of Justice.

J. L. McDOUGALL, A.G.

---

JUSTICE DEPARTMENT, OTTAWA, April 8, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 7th instant, respecting the amount of the retiring allowance to Charles Munroe, lately steamfitter at Kingston Penitentiary.

I am directed to inform you that, in the opinion of the Minister, Mr. Munroe, having been during the whole period in respect of which payment of gratuity is authorized, an officer within the meaning of 50 and 51 Victoria, chapter 52, section 4, is entitled to the whole amount of the allowance in question.

The fact that during the earlier period of his employment at the penitentiary he was employed and paid by the Public Works Department and not by the Department of Justice, does not in the Minister's opinion affect the authority conferred by section 4, to grant a gratuity based upon the period of such earlier employment.

I am, sir, your obedient servant,

The Auditor General.

E. L. NEWCOMBE, D.M.J.

---

AUDIT OFFICE, OTTAWA, April 13, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 8th instant, informing me that, in the opinion of the Minister of Justice, Mr. Munroe, late engineer at the Kingston Penitentiary, is entitled to a retiring gratuity based on his full time of service; notwithstanding the fact that during the early period of such service he was an employee at the Kingston Penitentiary in the pay and under the supervision of the Department of Public Works.

I regret I am unable to accept this interpretation of the statute under which the gratuity in question is authorized. As I understand it, the statute applies to officers in the employment of the Department of Justice, and the gratuity authorized under section 4, may be granted for such time only as the retiring officer, was an officer of the Department of Justice, appointed in the manner prescribed by the Penitentiary Act.

Supposing, instead of having been employed at the Kingston penitentiary during his time as engineer of the Public Works Department, Mr. Munroe had been employed at any of the other public buildings under Government control, would you then consider he was entitled to a retiring allowance based on his full time of service, or only on that portion of it which had elapsed since his appointment as an officer of the Department of Justice?

It seems to me that in the consideration of the additional gratuity asked for in your application on the 2nd instant, the Kingston Penitentiary must be taken as a public building of Canada, and Mr. Munroe's services thereat during the period of his connection with the Department of Public Works viewed in the same light as if rendered at a building occupied as a post office or a custom-house. I return your application herewith.

I am, sir, your obedient servant,

The Deputy Minister of Justice.

J. L. McDOUGALL, A.G.

DEPARTMENT OF JUSTICE, OTTAWA, April 17, 1897.

SIR,—I enclose herewith copy of my application of the 2nd instant, to the Auditor General, for a cheque payable to the order of Charles Munroe for the sum of \$401.91, chargeable to the Vote for "Retiring Gratuities, Kingston Penitentiary,"—also copy of the correspondence upon the subject between the Auditor General and myself.

You will observe that the Auditor General with his letter of the 13th instant has returned my application and that he will not issue a cheque.

In these circumstances I invoke the jurisdiction of the Treasury Board, and ask to have a cheque issued in the manner authorized by sec. 32 of The Consolidated Revenue and Audit Act."

I am, sir, your obedient servant,

The Secretary, Treasury Board.

E. L. NEWCOMBE, *D.M.J.*

TREASURY BOARD, OTTAWA, April 21, 1897.

SIR,—I have the honour to enclose herewith letter dated 17th instant from the Deputy Minister of Justice, and also copy of correspondence referred to therein, relative to the payment to Charles Munroe, late steamfitter at Kingston Penitentiary, of the sum of \$401.91 authorized by Order in Council of 30th ultimo, to which payment you make objection. I have to request that you will be good enough to advise me for the information of the Treasury Board (to whom the subject has been referred), as to the nature of your objection to such payment and the reasons therefor, and also to state the section and clause of the Audit Act under which you take your objection. I shall be glad also to have any remarks you may desire to make in reference to the matter.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secy.*

AUDIT OFFICE, OTTAWA, April 28, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 21st inst., transmitting enclosures from the Department of Justice respecting an application made to this office for the issue of a cheque of \$401.91 in favour of Charles Munroe, late assistant engineer at the Kingston Penitentiary, being the amount of a retiring gratuity claimed by the department as due him upon services rendered at the Penitentiary during the time he was an employee of the Department of Public Works.

I may state that a retiring gratuity based on his length of service as an officer of the Department of Justice has already been paid Mr. Munroe, and that consequently the additional sum authorized by the Order in Council of March 30, 1897, has presumably been an after-thought on the part of the department, as the Order in Council passed in the first instance—November 14, 1896—was to all intents and purposes a final disposition of the case.

I desire in regard to this point to bring to the notice of the Treasury Board the opinion given by Mr. Burbidge, as Deputy Minister of Justice, respecting Superannuation allowances once decided by the Governor in Council, and to point out that in reopening the present case this opinion seems to have been disregarded.

The opinion to which I refer and considerable correspondence bearing on this matter will be found at pages A-12 and 13 of the Audit Report of 1893, and pages I-36 and 37 of 1895.

I did not raise this point when writing the department because I did not consider it supported by the statute, but being a direction approved by the Treasury Board, I think it appropriate to raise it now. The statute to which I refer is 50-51 Vic., chap. 52. Under section 4 of this Act a retiring allowance may be granted to any officer or employee of any of the classes mentioned in the Schedule appended thereto, the amount of which in ordinary cases is to be determined by his length of service only. Now the point at issue between the Department of Justice and this office is the length of service

## Auditor General's Report.

which may be allowed Mr. Munroe for the purpose of determining the amount of his gratuity.

To the gratuity authorized in the first instance (\$205.24) no objection was offered because the amount asked for was based on Mr. Munroe's length of service as an officer of the Department of Justice in the Penitentiary and the Class "Engineer" in the schedule was taken to include assistant engineer.

But as to the further sum authorized by Order in Council of March 30, 1897, I felt it my duty to refuse to certify to the issue of the cheque because, in my opinion, it was in excess of the amount which might be paid under the statute. As may be seen in my letters to the department, I take the view that the statute—section 4 of 50-51 Vic., chap. 52—contemplates gratuities to officers of the Department of Justice, and to them only for such time as they have been in the employment of that department. In the case therefore under consideration it seems to me that Mr. Munroe should not be granted a retiring gratuity based on his time of service as an employee of the Department of Public Works, notwithstanding the fact that during such time it is claimed he was employed at the Kingston Penitentiary. The penitentiary in this connection should be considered as a public building under the Government control, and services thereat of Public Works officers or employees of no more consequence in determining the amount of a retiring gratuity under section 4 of the Act already referred to, than if they had been performed at any other public building in the Dominion—say for instance a post office or a custom house. I suppose it will not be controverted that Mr. Munroe would not have been entitled to a retiring gratuity under the Act had he been retired from the service as an employee of the Department of Public Works at Kingston Penitentiary; and, such being the case, it seems unreasonable to contend that an appointment involving a service of merely one year or less as an officer of the Department of Justice would be sufficient to secure him a gratuity based on services extending over several years over which the department recommending the gratuity had neither control nor supervision. That is, a service of ten years would be ineffective in this respect, while one month's service or less, as Munroe's latter service was, would make the whole effective. Where will this end if it is begun? An employee of the Public Works, serving temporarily for the Department of Justice, would object to be deprived of any of the privileges as a servant of the Public Works by this temporary service. Why should he obtain additional privileges by that service?

For these reasons I have been obliged to decline to certify that the cheque asked for may issue, and my action in this respect has been taken under section 32, subsection (c) of the Consolidated Revenue and Audit Act. I return the inclosures herewith.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Secretary, Treasury Board.

DEPARTMENT OF JUSTICE, OTTAWA, April 30, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 29th instant, referring to the retiring gratuity of Mr. Charles Munroe, late assistant engineer at Kingston Penitentiary, inclosing the Auditor General's letter to you of the 28th instant, and asking for any remarks which I wish to make with regard to the matter.

I have the honour in reply to direct your attention to my letter to the Auditor General of 8th instant, which expresses the opinion of the Minister of Justice upon the point raised by the Auditor General, that Mr. Munroe's service at the penitentiary during the time he was employed and paid by the Public Works Department could not count as service within the meaning of section 4 of the Act 50-51 Victoria, chapter 52.

The only additional point now taken by the Auditor General is that, inasmuch as a gratuity was granted to Mr. Munroe by Order in Council of 14th November last, which did not include the period of service under the Public Works Department, it is now too late to grant any gratuity for that period.

The fact appears to be that the gratuity first given was recommended by this department in ignorance of the fact that Mr. Munroe had served for a considerable period at the penitentiary in the pay of the Public Works Department previous to the period in respect of which his gratuity was estimated, and that his service during the former period was in the same capacity as that in which he afterwards served while in the pay of the Department of Justice.

The Minister, in making the former recommendation, and His Excellency in Council in acting upon it, cannot, therefore, be held to have decided anything unfavourable to Mr. Munroe's subsequent application for gratuity with reference to the previous period, and I am of opinion that the Order in Council of 30th March, was quite within the authority of the Governor in Council.

I am to add that the Minister concurs in the view herein stated.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

E. L. NEWCOMBE, *D.M.J.*

*Treasury Minute, May 29, 1897.*—The Board had under consideration objections made by the Auditor General to the payment to Charles Munroe, late assistant engineer at the Kingston Penitentiary, of the sum of \$401.91, being amount of retiring gratuity authorized by Order in Council of 30th March, 1897, to be paid Mr. Munroe upon the basis of services rendered at the penitentiary during the time he was an employee of the Department of Public Works, and being the difference between the amount to which the Department of Justice claims he is actually entitled and the amount which he has already received under authority of an Order in Council of 14th November, 1896.

Subsequent to the passing of the Order in Council of 14th November, 1896, granting authority for the payment of a gratuity to Mr. Munroe, based upon the actual period of his service as an employee of the Department of Justice, it was ascertained that he had been an employee of the Department of Public Works as a steamfitter at the penitentiary, from August 12th, 1883, until his appointment as an officer of the Department of Justice, which period of service was not taken into consideration in computing the gratuity authorized by the Order in Council above referred to, and that the amount of the gratuity if calculated on the period of his entire service would be \$607 15, instead of \$205.24 already paid him.

The Board, on the opinion of the Department of Justice, as shown by the copies of letters hereto attached, from that department, under dates of 8th and 30th April, 1897, are of opinion that the objections of the Auditor General to the payment in question are not well founded, and they therefore direct that payment be made as authorized by Order in Council of 30th March, 1897.

The Auditor General.

J. M. COURTNEY, *Secretary.*

### Increased Salaries to Deputy Warden Bourke and Fitzsimmons.

For correspondence with Justice department, see Report of 1896, Page I-45.

TREASURY BOARD, OTTAWA, November, 18, 1896.

SIR,—I have the honour to inclose herewith T.B. file No. 21,110, being copies of certain correspondence between yourself and the Department of Justice with regard to your objection to the payment of the salaries of Messrs. Bourke and Fitzsimmons, deputy Wardens at the British Columbia and Manitoba Penitentiaries respectively, and shall be glad if you will be good enough to let me know, for the information of the Treasury Board, the nature of your objection, together with the reasons therefor. Would you also state under what clause and section of the Consolidated Revenue and Audit Act

## Auditor General's Report.

you make your objection? I shall also be glad to have any observations you may desire to make in connection with the matter.

I am, sir, your obedient servant,

The Auditor General.

W. G. FITZGERALD, *Actg. Secy.*

AUDIT OFFICE, OTTAWA, November 25, 1896.

SIR,—I have the honour to acknowledge the receipt of your letter of the 18th inst., inclosing certain correspondence between this office and the Department of Justice, relative to the rate at which Messrs. Bourke and Fitzsimmons, Deputy Wardens at the penitentiaries of British Columbia and Manitoba respectively, have been paid since their transfer to the positions which they now hold.

I have tried to make clear the nature of my objection to the salaries at present paid these officers in my letters of April 8 and 21, 1896 to the Department of Justice, and which are included in the file inclosed herewith.

The Penitentiary Act, as amended by 58-59 Vic., chap. 42, provides a new schedule of salaries for the Penitentiary service under which a deputy warden at any penitentiary may be paid at the rate of \$1,500 per annum. Under the law as existing prior to 1891, there was a scale of salaries peculiar to each penitentiary, and neither of the officers concerned in the present case could, under the schedule of the penitentiary to which he was attached, attain a higher salary than \$1,200 per annum.

Mr. Fitzsimmons was paid at the rate of \$1,400, because his salary was raised to that amount by a special Vote of Parliament. Under section 7 of the amending Act which I have quoted it is provided that the new schedule shall apply only to persons hereafter appointed or promoted to any office or employment in the Penitentiary service, and it appears to me that in consequence of this provision the schedule in question does not apply to the two officers, Bourke and Fitzsimmons, who were not appointed or promoted by the Order in Council of March 31, 1896, but merely transferred from the deputy wardenship of one penitentiary to a like position at another, both officers having been in the penitentiary service for some years. In my opinion the appointments referred to in section 7 include such persons only as had not been previously connected with the Penitentiary service in any of the various capacities specified in the schedule attached to 58-59 Vic., chap. 42.

Messrs. Bourke and Fitzsimmons are therefore in the same position with regard to salary as if the Penitentiary Act had not been amended in this respect, and consequently are not entitled to a salary of \$1,500 per annum.

The reference to the Treasury Board has been made, I presume, under section 32 sub-section (c) of the Consolidated Revenue and Audit Act.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.*

DEPARTMENT OF JUSTICE, OTTAWA, December 29, 1896.

SIR,—I have the honour to acknowledge the receipt of your letter of the 30th ultimo—T. 22110B.—relating to the question raised by the Auditor General with respect to the salaries of Messrs. Bourke and Fitzsimmons, deputy wardens at the British Columbia and Manitoba Penitentiaries respectively, and in reply I beg to state that I have nothing to add to what I said in my letter of the 13th April last except that the present Minister of Justice concurs in the opinion of his predecessor as to the proper construction of section 7 of 58-59 Victoria, chapter 42. He thinks that the substituted schedule of salaries applies to any officer appointed to an office after that Act came into force although he may not have been newly appointed to the penitentiary service, and that Messrs. Bourke and Fitzsimmons have, within the meaning of the statute, been appointed to the offices now held by them.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

E. L. NEWCOMBE, *D.M.J.*

*Treasury Minute, July 7, 1897.*—The Board had under consideration objections raised by the Auditor General to the payment of the salaries named in the Order in Council of 31st March, 1896, to Mr. D. D. Bourke, appointed deputy warden, British Columbia penitentiary at \$1,500 a year, *vice* James Fitzsimmons, transferred, and to Mr. James Fitzsimmons, appointed deputy warden, Manitoba Penitentiary, at \$1,500 a year, *vice* D. D. Bourke transferred, on the ground that not being new appointments or promotions, the schedule attached to the Penitentiary Act, as amended by chapter 42, of 58-59 Victoria, does not apply to them, but that they should be paid at their former salaries, being less than \$1,500 a year. The Deputy Minister of Justice, under date of 29th December, 1896, reports that the present Minister concurs in the opinion of his predecessor as to the proper construction of section 7 of 58-59 Victoria, chapter 42; and that he thinks that the substituted schedule of salaries applies to any officer appointed to an office after that Act came into force, although he may not have been newly appointed to the penitentiary service, and that Messrs. Bourke and Fitzsimmons have within the meaning of the statute been appointed to the offices now held by them.

The Board, in view of this opinion, direct that the salaries named in the Order in Council of the 31st March, 1896, be paid to Messrs. Bourke and Fitzsimmons respectively.

The Auditor General.

J. M. COURTNEY, *Sec'y. T.B.*

### Railways and Canals Dept. : Montreal and Ottawa Railway Subsidy.

AUDIT OFFICE, OTTAWA, March 26, 1897.

SIR,—Let me acknowledge receipt yesterday of your application for \$32,000 in favour of the Montreal and Ottawa Railway Co., being their subsidy between Miles 23 and 33 west from Vaudreuil.

Your letter, attached to the application, mentions a report from Mr. Johnson, of which I would like to have a certified copy. Mr. Johnson is, I suppose, Mr. E. V. Johnson, who is returned on your pay lists as a draftsman. It would be well to have on record a written statement from yourself, that Mr. Johnson possesses the engineering qualifications necessary for the inspection of the railway.

In view of the inspection having been made in winter, it would be more satisfactory for the certificates to make some reference to there not being enough snow along the track to interfere with the inspection.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.

J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, April 2, 1897.

SIR,—Let me acknowledge receipt, from your department, of a certified copy of Mr. E. V. Johnson's report on the Montreal and Ottawa Railway, together with a sketch-plan of the route between Vaudreuil and Vankleek Hill.

The Subsidy Act of 1894, provides payment to the company for "30 miles of their railway from Vaudreuil towards Hawkesbury, and 30 miles from the western end of "the 30 miles first-mentioned."

It does not seem clear to me that, of the 30 miles westward from Vaudreuil, the last few miles satisfy the condition "towards Hawkesbury," as actually built. Please let me hear from you further on this point.

If this objection holds, it will also delay payment on the second 30 miles, whose starting point is defined as a place "30 miles from Vaudreuil towards Hawkesbury."

Other subjects in my previous letter were: the describing of Mr. Johnson on future pay-lists as an "Inspecting Engineer" as well as a "Draftsman"; and the certifying that a winter inspection was in this instance sufficient.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals.

J. L. McDOUGALL, *A.G.*

## Auditor General's Report.

RAILWAYS AND CANALS DEPT., OTTAWA, April 6, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 2nd instant, in further reference to the application made under the Order in Council of the 20th ultimo, for payment of subsidy to the Montreal and Ottawa Railway Company, for the 10-mile section, from the 23rd to the 33rd mile out from Vaudreuil.

In reply, I have to inform you that, taking a broad view of the matter, the location adopted appears to the chief engineer to comply with the requirements of the Subsidy Act, and that he states that the road has been properly inspected. With regard to the change of title of office to Mr. Johnson, who made the inspection, I am to say that no change will be made.

I am, sir, your obedient servant,

The Auditor General.

COLLINGWOOD SCHREIBER, *D.M., R. & C.*

AUDIT OFFICE, OTTAWA, April 14, 1897.

SIR,—I have your letter of the 2nd instant in reply to mine of the 26th ultimo, regarding the inspection for subsidy of the Montreal and Ottawa Railway.

You have misunderstood my question: "It does not seem clear to me that, of the 30 miles westward from Vaudreuil, the last few miles satisfy the condition towards Hawkesbury as actually built. Please let me hear from you further on this point." I wish that you would say whether the last few miles satisfy the condition towards Hawkesbury.

I am not specially interested in your changing the description of Mr. E. V. Johnson's duties in your pay-list, except to obtain from you a certificate of Mr. Johnson's qualifications as an inspector of railways for subsidy purposes. If you consider it your duty to decline to give the information in this respect which I wish to obtain and see also objection to supplying the reasons which made a winter inspection in this case satisfactory, be good enough to give your argument for doing so, that progress may be made in disposing of the questions.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.

J. L. McDOUGALL, *A.G.*

RAILWAYS AND CANALS DEPT., OTTAWA, April 20, 1897.

SIR,—I have the honour, by direction, to acknowledge the receipt of your letter of the 14th instant, asking whether the last few miles of the 30 miles of the Montreal and Ottawa Railway built westward from Vaudreuil, comply with the requirements of "The Subsidy Act," and also asking for a certificate of Mr. E. V. Johnson's qualifications as an inspector of railways for subsidy purposes. In reply, I am to say that, taking a broad view of the 30 miles built, the opinion formed is that it does comply with the Subsidy Act. Mr. Johnson or any other engineer sent out by the Minister to inspect a railway you may rest assured is competent for the duty. The road has been thoroughly and properly inspected.

I am, sir, your obedient servant,

The Auditor General.

COLLINGWOOD SCHREIBER, *D.M., R. & C.*

AUDIT OFFICE, OTTAWA, May 14, 1897.

SIR,—The delay in coming to a decision on the points involved in the discussion between your department and this office in connection with the subsidy to the Montreal and Ottawa Railway may lead to inconvenience to other creditors of the Government as well as to the C. P. R. Co., who are interested in this application. It now occurs to

lxv

me that a short letter might tend to put the matters in difference in a more advanced state for settlement.

First then, as to my inquiry whether the road at a certain point runs towards Hawkesbury, and your answer that it satisfies the requirement of the Subsidy Act. Your answer must be based on the opinion that I have no right to get the facts necessary to determine whether in my view the law has been satisfied or not and that it ought to be enough for me to know what your opinion on the law is. On this point let me refer you to section 32 of the Audit Act :

“No cheque for public money shall issue except upon the certificate of the Auditor General that there is parliamentary authority for the expenditure, &c.” Does this mean that I am to determine the legal standing of a case which goes through my hands or that you are to determine it for me? Plainly that I must do it.

On the other points involved (1) the fact that snow was apparently on the ground when the examination was made, and that therefore a proper inspection could not have been made at the time and (2) the designation of Mr. E. V. Johnston in your pay-list as draftsman being *prima facie* evidence of his want of fitness for the duty of examining a railway as to its completion under the contract.

I contend that no member of the service through whose hands an account passes before it reaches this office is justified in declining to answer any question connected with the account which may be put from here. He has no ground for supposing that any suspicion is entertained of his trustworthiness or his care and knowledge, because it rests with those through whom the account comes to prove that the account ought to be paid. Investigations in this office are not instituted only when there is reason to believe that the accounts are wrong. We must among us prove that they are right, and so that the proof to all classes of the ratepayers may be the clearest possible. No man in my position would last a month if he were required to separate the honest from the dishonest and apply the safeguards to those only on whom suspicion had been cast. No man has any ground for complaint because he is required to prove by every detail and certificate that can be reasonably supplied, that the claim is correct. If an Act of Parliament were in force authorizing me to have travelling expenses or any other disbursements of my own refunded without my furnishing details, I would decline, even for the sake of my own reputation, to avail myself of the privilege. Sometimes there is pressure from influential quarters to employ for important duties persons who are unfit for those duties. When the official who is pressed to entrust the duty to an incompetent person points out that an explicit and full certificate of fitness for the service is required, the pressure usually ceases. I remember where a general certificate of correctness was signed by a prominent official, and that when the various points required were specifically described in the certificate the amount was reduced.

When a case is before a court it is not looked upon by a professional man of even the highest standing as showing disrespect to him by the court when the judge hears evidence of others, who are less prominent, to the effect that the professional opinion is incorrect.

If I were before the Treasury Board or the Public Accounts Committee while an account which had been passed by me was under discussion, it would be an unreasonable attitude for me to assume that my opinion should be taken as conclusive on a question of Audit, while easily procurable pertinent evidence could be obtained on points of fact involved. The purpose should not be merely to get some evidence, but to get all the evidence readily attainable.

You don't forget the immense sums involved in the subsidies to railways. All those millions are dependent on the care, knowledge and intelligence, not of yourself alone, but of your inspector also. Every day I am here impresses on me the more strongly that in the interest of the public servant himself he should not wait to be asked for any evidence in his possession of the proper expenditure of public moneys which have been under his control, but that he should volunteer the proof.

I inclose herewith a copy of correspondence with the Public Works Department on a kindred subject and of the opinion of the Department of Justice on that subject

## Auditor General's Report.

which I believe you will consider valuable. The same correspondence is printed at pages C-379 and 380 of my Report for 1892-93.

I am, sir, your obedient servant,  
The Deputy Minister of Railways and Canals.

J. L. McDOUGALL, A.G.

JUSTICE DEPT., OTTAWA, February 9, 1894.

SIR,—Referring to your letter of the 26th October last—No. 85,747 on 143,295—in which you ask for an opinion as to whether the Auditor General, under the Audit Act, is entitled to demand and receive copies of contracts and specifications for public works, I have the honour, by direction, to state that it is the duty of the Auditor General to see that no cheque shall issue for the payment of public money for which there is no direct Parliamentary appropriation, or in excess of any portion of such appropriation, the expenditure of which has been authorized by the Governor in Council—Audit Act, Section 31. The Act also contemplates that the Auditor General may refuse to certify that a cheque may issue on other grounds, *e.g.*, that the money is not justly due or that it is in excess of the authority granted by the Governor in Council—Audit Act, Section 32 (c). The Act provides (Sec. 33) that no payment shall be authorized by the Auditor in respect of work performed or material supplied by any person in connection with any part of the public service, unless, in addition to any other voucher or certificate which is required in that behalf, the officer under whose charge such part of the public service is, certifies that such work has been performed, or such material supplied, as the case may be, and that the price charged is according to contract, or if not covered by contract, is fair and just.

The Minister of Justice is of opinion that, in order to enable him to carry out these duties and especially to enable him to judge what vouchers or certificate (if any) may be required, besides the certificate of the officer in charge of a work, the Auditor General is entitled to be furnished with copies of the contracts and specifications for public works.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

E. L. NEWCOMBE, D.M.J.

RAILWAYS AND CANALS DEPT., OTTAWA, May 21, 1897.

SIR,—In reply to your communication of the 14th instant, I desire to say that as regards the location of the last few miles of the 30 miles of the Montreal and Ottawa Railway built westward from Vaudreuil, I can add nothing to what I have already stated in my letter of the 20th ultimo, but I shall be glad to show you the line laid down on a map attached to the wall of my office, by which you will be able to form your own opinion as to whether or not the law has been complied with.

As regards the inspection of the work, I stated in the communication above referred to that the road has been thoroughly and properly inspected, and I may now add the snow in no measure interfered with such perfect inspection.

As respects Mr. Johnston's qualifications to make such an inspection, if you will not take my word for them, I do not know how to satisfy you, I repeat he is fully qualified for the work or he would not have been sent out to perform the duty.

I am, sir, your obedient servant,

The Auditor General,

COLLINGWOOD SCHREIBER, D.M., R. and C.

AUDIT OFFICE, OTTAWA, June 29, 1897.

SIR,—With reference to our correspondence regarding your application for the payment of \$32,000 to the Montreal and Ottawa Railway Company. I beg to say that I cannot see my way to passing the application on the information received from you in reply to my letters.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals Dept.

J. L. McDOUGALL, A.G.

lxvii

DEPT. OF RAILWAYS AND CANALS, OTTAWA, June 30, 1897.

The undersigned has the honour to request that a decision be given by the Hon. the Treasury Board on an objection raised by the Auditor General to the payment of the sum of \$32,000, to the Montreal and Ottawa Railway Company, being the balance of subsidy applicable to the 33 miles of their Railway up to Vankeek Hill; this payment having been authorized by an Order in Council of the 20th of March last, in order that such objection may be either over-ruled or sustained.

The Secretary, Treasury Board.

A. G. BLAIR, *M., R. & C.*

TREASURY BOARD, OTTAWA, June 30, 1897.

SIR,—I have the honour to inclose herewith T. B. file No. 22,613, which has been referred to the Treasury Board by the Minister of Railways and Canals for a decision on an objection raised by you to the payment of \$32,000 to the Montreal and Ottawa Railway Co., being balance of subsidy applicable to the 33 miles of their Railway up to Vankleek Hill, authorized by Order in Council of 20th March last. I have to request that you will be good enough to advise me for the information of the Board as to the nature of and the grounds for your objection, and also to state under what clause and section of the Audit Act you make your objection to the payment in question. I shall also be glad to have any remarks you may desire to make in reference to the subject.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

AUDIT OFFICE, OTTAWA, July 7, 1897.

SIR,—I return herewith the papers connected with the appeal of the Department of Railways and Canals from my decision on the application from that department for the payment of a subsidy to the Montreal and Ottawa Railway Company of \$32,000.

The correspondence which has taken place between the Railway Department and this office and which accompanies the appeal, shows the objections which have been raised by this office to the payment. The arguments there brought forward need not be repeated, but the points in difference may be recapitulated.

1st. The inspection was made by Mr. E. V. Johnson who had previously done little work of the kind in the department, and is described in the departmental pay-list as a draftsman. I desired fuller information as to Mr. Johnson's experience in similar work. The information was not given.

2nd. The inspection was apparently done when the snow was on the ground. It was therefore necessary to explain how it was possible to make a thorough inspection then. The explanation has not been received.

3rd. The Subsidy Act (that of 1894) under which this subsidy is payable, if at all, says for "30 miles of their Railway from Vaudreuil towards Hawkesbury, and 30 miles "from the western end of the 30 miles first mentioned." It does not seem clear to me "that of the 30 miles westward from Vaudreuil the last few miles as actually built "satisfy the condition 'towards Hawkesbury'. Please let me hear further from you "on this point".—(My letter to Railway Department 2nd April, 1897). I obtained no statement of fact in reply to this letter. On the other hand, it seems clear that this condition was not complied with. I have heard that the contention is to be made that, because the road as built may be said to run towards the township of Hawkesbury, the requirement has been met. This contention, if it is made, scarcely needs an answer. Did Parliament understand this as meaning the township of Hawkesbury? There are two townships of Hawkesbury, an East and a West Hawkesbury,—were they both intended?

The objections come under sub-sections *a* and *c* of section 32 of the Audit Act.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.*

## Auditor General's Report.

RAILWAYS AND CANALS DEPT., OTTAWA, 15th July, 1897.

SIR,—For the information of the Deputy Minister of Justice, I herewith send a copy of the contract made with the Montreal and Ottawa Railway Company under the Subsidy Act.

So far two subsidies have been granted covering 60 miles ;

*First*,—50-51 Vic., chap. 24, for 30 miles of their railway from Vaudreuil towards Hawkesbury, a subsidy not exceeding \$3,200 per mile, nor exceeding in the whole, \$96,000.

*Second*,—57-58 Vic., chap. 4, for 30 miles of their Railway from the Western end of the 30 miles first mentioned towards Ottawa, a subsidy not exceeding \$3,200 per mile, nor exceeding in the whole, \$96,000.

This road is designed to extend from Ottawa to Vaudreuil as a through line to Montreal via the Canadian Pacific Railway. The question which arises as regards location, is, as I understand it, does the line run towards Hawkesbury? Now, there are three Hawkesburys: townships of East Hawkesbury, West Hawkesbury and the village of Hawkesbury, the line runs through both the townships of Hawkesbury and within 6 miles of the Village of Hawkesbury, Vaudreuil, the starting point, being about 36 miles from this latter point; the attached small map clearly explains the position to the eye.

The Auditor General in his letter of the 7th July, 1897, addressed to you, states:—“Mr. E. V. Johnson, who had previously done little work of the kind made the inspection, and appears on the pay list as a draftsman. I desired fuller information as to his experience in similar work. The information was not given.”

My answer to the Auditor General dated 20th April, 1897 was that:—“Mr. Johnson or any other engineer sent out by the Minister to inspect a railway, you may rest assured, is competent for the duty” and on 21st May, 1897, “as respects Mr. Johnson's qualification to make such an inspection, if you will not take my word for them, I do not know how to satisfy you. I repeat he is fully qualified for the work or he would not have been sent out to perform the duty.”

The Auditor General further states in his letter of 7th July, 1897, addressed to you, that:—

“The inspection was apparently done when the snow was on the ground. It was therefore necessary to explain how it was possible to make a thorough inspection then. The explanation has not been received.”

My reply to the Auditor General of 20th April, 1897, was that:—“The road has been thoroughly and properly inspected” and again on 21st May, 1897, I wrote him as regards the inspection of the work. I stated in the communication above referred to “The road has been thoroughly and properly inspected, and I may now add the snow, in no measure interfered with such perfect inspection.”

I have no further explanation to give than that presented to the Auditor General, and which appears in the correspondence which passed between us.

I am, sir your obedient servant,

COLLINGWOOD SCHREIBER, *D.M. & Chf-Eng'r.*

The Secretary, Treasury Board.

DEPARTMENT OF JUSTICE, OTTAWA, July 19, 1897.

SIR,—Referring to your letters of the 8th instant (T.B. 22,613) with respect to the application of the Department of Railways and Canals for a cheque for \$32,000 in favour of the Montreal and Ottawa Railway Company on account of its subsidy, and the objections of the Auditor General to the issue of such cheque, I have the honour to state as follows:—

The objections of the Auditor General are stated by him in his letter to you of the 7th instant, as follows:—

1st. The inspection was made by Mr. E. V. Johnson, who had previously done little work of the kind in the department, and is described in the departmental pay-list

as a draftsman. I desired fuller information as to Mr. Johnson's experience in similar work. The information was not given.

2nd. The inspection was apparently done when the snow was on the ground. It was therefore necessary to explain how it was possible to make a thorough inspection. The explanation has not been received.

3rd. The subsidy Act (that of 1894) under which this subsidy is payable, if at all, says for "30 miles of their railway from Vaudreuil towards Hawkesbury, and 30 miles from the Western end of the 30 miles first mentioned." It does not seem clear to me that of the 30 miles westward from Vaudreuil the last few miles as actually built, satisfy the condition "towards Hawkesbury."

In my letter to you of the 12th instant, I requested you to obtain certain information from the Department of Railways and Canals, and in his letter to you of the 15th instant, Mr. Schreiber not only furnishes the information asked for, but states concisely and clearly the answers which he makes to the Auditor General's objections. It will be convenient to quote what he has to say in this connection:—

"This road is designed to extend from Ottawa to Vaudreuil as a through line to Montreal *via* the Canadian Pacific Railway. The question which arises as regards location is, as I understand it, does the line run towards Hawkesbury? Now there are three Hawkesburys, townships of East Hawkesbury, West Hawkesbury and the village of Hawkesbury. The line runs through both the townships of Hawkesbury and within six miles of the village of Hawkesbury, Vaudreuil the starting point being about 36 miles from this latter point; the attached map clearly explains the position to the eye".

"The Auditor General, in his letter of the 7th July, 1897, addressed to you, states: "Mr. E. V. Johnson, who had previously done little work of the kind, made the inspection, and appears on the pay-lists as a draftsman. I desired fuller information as to his experience in similar work. The information was not given".

"My answer to the Auditor General, dated 20th April, 1897, was that: Mr. Johnson or any other engineer sent out by the Minister to inspect a railway, you may rest assured, is competent for the duty, and on the 21st May, 1897, "as respects Mr. Johnson's qualifications to make such an inspection, if you will not take my word for them, I do not know how to satisfy you. I repeat he is fully qualified for the work or he would not have been sent out to perform the duty".

"The Auditor General further states in his letter of 7th July, 1897, addressed to you, that: "The inspection was apparently done when the snow was on the ground. It was therefore necessary to explain how it was possible to make a thorough inspection then. The explanation has not been received".

"My reply to the Auditor General of the 20th April, 1897, was that: "The road has been thoroughly and properly inspected", and again on the 21st May, 1897, I wrote him as regards the inspection of the work. I stated in the communication above referred to: "the road has been thoroughly and properly inspected, and I may now add the snow in no measure interfered with such proper inspection".

Taking up the Auditor General's points *seriatim*.

(1.) The chief engineer of the Government Railways is responsible for the proper inspection of the road and he having adopted the report and certified to the qualifications of the inspecting officer, that, I think, may be accepted by the Treasury Board as sufficient to dispose of the first point taken by the Auditor General.

(2.) The chief engineer's statement that "the road has been thoroughly and properly inspected, and that the snow in no wise interfered with such perfect inspection", he being the responsible officer in such matters, may, I think, be accepted by the Board as sufficient evidence that such was the case.

(3.) As to the 3rd ground, I understand that the location to which the Auditor General objects was approved by the Governor in Council before the road was built thereon, and I think it was such a location as the Governor in Council had in law a right to approve if he chose. Any objection to it—if such there is—was matter of policy, propriety and discretion, not of law. The Act did not require the road to go to

## Auditor General's Report.

Hawkesbury, or even to pass near it. By 47 Vic., chap. 84, sec. 2, it was to be "a — railway from a point on the Grand Trunk Railway of Canada, in the parish of Vaudreuil, in the province of Quebec, to a point at or near the city of Ottawa, in the province of Ontario, passing through the counties of Vaudreuil, Prescott and Russell." I read the subsidy Act in speaking of thirty miles of the railway "from Vaudreuil towards Hawkesbury" as not intended to further limit the location, but as being merely a convenient way of describing the general direction of the first half of the road, and that how near it should come to Hawkesbury was one of the matters left to the discretion of the Governor in Council by section 2 of the Act. I may notice also that the Ontario Subsidy Act requires that the railway should pass through or near the villages of Vankleek Hill, Alfred and Plantagenet, and says nothing as to the village of Hawkesbury.

I therefore think, and the Minister of Justice concurs in this view, that if the Treasury Board is satisfied upon the first two points, and if I am right in assuming that the location to which the Auditor General objects was approved by the Governor in Council, there is statutory authority in the Subsidy Act (57-58 Victoria, chapter 4) for the issue of the cheque applied for.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

E. L. NEWCOMBE, *D.M.J.*

*Treasury Minute, Sept. 21, 1897* :—The Board had under consideration the objections raised by the Auditor General to the payment of the sum of \$32,000 to the Montreal and Ottawa Railway Company, being the balance of subsidy applicable to the 33 miles of their railway up to Vankleek Hill—this payment having been authorized by Order in Council of the 20th March, 1897.

The objections made by the Auditor General, as set forth in a letter from that officer to the Secretary of the Treasury Board under date of the 7th July, 1897, are as follows :—

1st. That the inspection had been made by Mr. E. V. Johnson, who had previously done little work of the kind in the department and who was described in the departmental pay list to a draughtsman—and the Auditor General desired further information as to Mr. Johnson's experience in similar work, which had not been given.

2nd. That the inspection had apparently been done when the snow was on the ground, and it was, therefore, necessary to explain how it was possible to make a thorough inspection then—which explanation has not been given.

3rd. That the location of a portion of the road as actually built does not meet the conditions of the Subsidy Act of 1894, under which this subsidy is payable, if at all.

The Board had also under consideration a letter from the Deputy Minister and Chief Engineer of the Department of Railways and Canals under date of the 15th July, 1897, and from the Deputy Minister of Justice of the 19th July, 1897, (copies of both letters herewith).

From the letter of the Deputy Minister of Railways and Canals it appears that he informed the Auditor General, in letters dated the 20th April, and 21st May, 1897, that Mr. Johnson was qualified for the work he had been sent out to perform, and that he also in his letters of the dates last above referred to, informed the Auditor General that the road had been thoroughly and properly inspected and that the snow in no way interfered with such perfect inspection.

The Deputy Minister of Justice states in reference to the first objection of the Auditor General that the Chief Engineer of Government Railways is responsible for the proper inspection of the road and he having adopted the report and certified to the qualifications of the inspecting officer, that, he thinks, may be accepted by the Treasury Board as sufficient to dispose of the first point raised by the Auditor General, and in this opinion the Board concur.

With reference to the second objection of the Auditor General, the Deputy Minister thinks that the Chief Engineer's statement that "the road has been thoroughly and

“properly inspected and that the snow in no wise interfered with such perfect inspection,” he being the responsible officer in such matters, may be accepted by the Board as sufficient evidence that such was the case, and in this opinion the Board concur.

With reference to the third objection of the Auditor General as to the location of the road, the Deputy Minister states that he thinks, and the Minister of Justice concurs in his view, that if the Treasury Board is satisfied upon the first two points, and if he is right in assuming that the location to which the Auditor General objects was approved by the Governor in Council (and it would appear that the location of the road was approved by Order in Council) there is statutory authority in the Subsidy Act (57-58 Victoria, chapter 4), for the issue of the cheque applied for.

The Board, therefore, direct that the payment in question be made.

The Auditor General.

J. M. COURTNEY, *Secretary.*

### Cornwall Canal: Accounts of Wm. Davis & Sons.

AUDIT OFFICE, OTTAWA, May 12, 1897.

SIR,—Let me continue from page XLIV of my Report for 1895-96, the discussion *re* Unwatering Robertson's Culvert, with the aid of further information obtained from the engineers on a recent visit to Cornwall.

#### *Method as Specified but not followed.*

The original specification, at page 26, provided for taking down the old road-culvert, and then building a new and lower drainage-culvert on the same site, all in one winter and spring. The difficulties of unwatering, consequent on this plan of building, were thus described: “No matter how the dams at the head of the canal are made, there will unavoidably be a considerable quantity of water pass into the canal that must be guarded against as well as the passing of it provided for by the contractor, besides, there are a number of drainage-creeks into the canal, the water from which must also be guarded against. To meet these objects, low dams must be formed above and below the culvert, and at the same time provision must be made for passing the water at these places during the time that the operations are in progress.”

#### *Payment for Unwatering.*

The contract-schedule contained no item of payment for “Unwatering Robertson's Culvert.” I hold, (1895-96, page XXXVII) that unwatering is therefore covered by the yard-prices for masonry, &c., the contractors claim that they are entitled to additional pay, and they are supported by the department in this contention. Without waiving my objection to any payment at all, I now dispute the amount of \$9,643.90 fixed by Mr. Rubidge.

At page XL of 1895-96, Mr. Rubidge gives a calculation of the \$9,643.90 as follows: “I supposed a case in which the removal of culvert, &c., (pages 26-27 of specification) must be done during the winter: in my opinion practicable but not practical, unless the entire area affected could be roofed in. The excavation in this supposed case amounted to 24,332 cubic yards, at section rate, equal to \$7,843.90, add 4 dams half- puddle, \$1,800: total \$9,643.90.”

#### *Difficulties of Unwatering, under Original Plan.*

The water to be kept out or removed, during the winter or spring, if the specification had been followed, may be considered under five heads:

A. River water, leaking through the temporary dam at the guard-lock, (see page 2 of specification).

## Auditor General's Report.

B. Drainage-creeks into the canal, between the guard-lock and the present lower dam at Sheik's Island.

C. Drainage-creeks into the canal, between the Sheik's Island Dam and Robertson's Culvert.

D. Robertson's Creek, passing under the canal.

E. Drainage-creeks into the canal, between Robertson's Culvert and lock 19.

I propose to show that, by the change in the method of construction, some of these difficulties were reduced to almost nothing, and the others removed entirely.

### *Method of Construction actually followed.*

Instead of taking up the old culvert, and then building a new one, in the spring when much water would have to be kept out and carried by,—the new culvert was built during the summer of 1895, inside of the road-culvert, with the northern end extending several yards beyond the old canal. With this part of the work, therefore, the canal water did not interfere; and the only water to be handled was that of Robertson's Creek, (Item D), but at a nearly dry stage. The creek was dammed above and some distance away from the canal, at a sufficient height to let it pass through a pipe between the old and new culverts; and no pumping was done. The expense therefore of this part of the unwatering was small.

The new drainage-culvert being completed, the only work left was to remove the old road-culvert, and make a continuous canal bank.

The new bank for widening the canal was built in 1895 over the northern end of the drainage culvert, and a channel-way dredged between the new bank and the northern parapet of the old road-culvert. In the spring of 1896 a low dam was made along the middle of this northern channel-way, and connected at both ends with the southern bank of the canal. Between this dam and the new north bank, any water could pass which entered the canal east of the lower Sheik's Island Dam (Items C & E): all water from the west of that point (Items A & B) went off through the Sheik's Island Weir. Under this head, also, there was no pumping.

That is to say, all five difficulties mentioned in the preceding section were either greatly lessened or completely eliminated.

### *Remarks on \$9,643.90.*

The sum of \$9,643.90 which it is proposed to pay for unwatering, has therefore no connection whatever with the cost of the work as it was performed; and is based on a much more expensive method, discarded on account of its unpracticability and expense. I shall need the calculation suggested by me under date of June 29, 1896, (see page XLIV of my Report for 1896), namely, approximate figures for the cost of the method of unwatering actually followed, which reduced all the difficulties to a minimum.

The discussion is of importance, not only on account of the sum of money involved, but also from the direct bearing it has on the general question of the scope of the engineer's authority and duty in fixing fair and just prices.

I am, sir, your obedient servant.

The Deputy Minister of Railways and Canals.

J. L. McDOUGALL, A.G.

CORNWALL, May 26, 1897.

SIR,—With reference to the Auditor General's letters dated October 15th, 19th, and October 30th, 1896, I beg to report as follows:—

1. "Masonry in retaining walls, &c., in Portland Cement" at \$8.95, changed to "Masonry in walls of weir" at \$13.50 a cubic yard.

This change of classification was made in the August estimates, 1896, and involved an increase on Sections 2, 3 & 4 and the Sheiks Island Dams of some \$18,700, as stated

by the Auditor General. I inclose herewith plans of weirs on Sections 2, 3 & 4 and a diagram of the Sheiks Island Weir, showing in detail just how they have been treated.

Up to August 1896, there had never been any definite decision made as to what constituted weir masonry, that is to say, where the weir masonry ended and retaining wall masonry began, and, as has always been customary on this work, the temporary line was drawn at a point which safeguarded the interests of the government, as by no process of reasoning could the quantity of weir masonry then allowed have been reduced. In August, 1896, you looked into the matter and fixed upon the lines shown on the plans, and the estimates were made out accordingly. In reference to the Auditor General's request for "full description of the distinguishing features of each class of masonry involved" and for "sketches showing the theoretical face appearance", I have attached photographs to the plans which give a fair idea of the works; but, as I pointed out to him on the ground when he was here last month, there is no distinguishing feature that can be shown, and any line drawn must of necessity be an arbitrary one, when the nature of the work is considered. I am not aware of any correspondence on the subject.

2. \$1 a cubic yard extra for masonry laid in Portland cement mortar. This I understand was a special agreement made between yourself and the contractors, and sanctioned by the chief engineer according to the terms of the contract.

3. Raising and repairing walls of old lock 19 at \$24 a cubic yard. I inclose a plan giving all details asked for. Attached to it is a detailed summary of the quantities of masonry actually built.

4. "Reinforcing banks, sections 3 & 4" at 65c. a cubic yard.

This I understand was a special agreement made between yourself and the contractors and sanctioned by the chief engineer according to the terms of the contract.

5. "Spare Lock Gates". The Auditor General's inference that the gates were completed because they were painted is practically correct, but there was no reason to infer that the progress return in August, 1896, estimate of \$2,028, on section 3, and \$3,630 on section 4, was the total cost of one pair of gates for each section, as a very little figuring would have shown that both amounts together would hardly make up the cost of one complete pair of gates for either section.

The November, 1896, estimates give full details.

I am, sir, your obedient servant,

Tom S. Rubidge, Esq.

J. L. WELLER, R.E.

Supt'g. Eng'r., St. Lawrence District.

AUDIT OFFICE, OTTAWA, June 10, 1897.

SIR,—Mr. Weller's letter of May 26, 1897, is not a complete answer to mine of Oct. 15, 1896, shown at pages R-312 and R-313 of my Report for 1895-96.

I asked that Messrs. Rubidge, Weller and Sargent give descriptions of their understanding of the duty of certifying. It is largely on their signatures that we have to rely; we need to know, for how much each of them considers himself responsible when he signs. Mr. Weller does not discuss this. Did all three take the responsibility of entering 25,800 yards of bank as 46,000 yards, in the progress estimates?

The calculation has not been supplied, which would show \$1 a yard to be a fair and just allowance for using Portland instead of native cement. This is needed.

No explanation has been given for "reinforcing banks" at 65 cents a yard, on sections 3 and 4. I do not yet understand the difference between this and the ordinary 35-cent work. Please let me have a fully detailed description of the difference, with a certificate that the 65 cents is fair and just.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.

J. L. McDOUGALL A.G.

## Auditor General's Report.

---

---

DEPT. RAILWAYS AND CANALS, OTTAWA, June 11, 1897.

SIR,—I have your letter of yesterday's date with reference to three matters in connection with Messrs. Wm. Davis and Sons' contract for the Cornwall Canal.

I inclose herewith the information asked for, which I trust will meet all your requirements.

I am, sir, your obedient servant,

The Auditor General

COLLINGWOOD SCHREIBER, *D.M. R. & C.*

---

CORNWALL, ONT., June 11, 1897.

Collingwood Schreiber, Ottawa.

Portland and Native Cements, 1887, difference in cost was from 91 to 96 cents, Portland used one yard masonry cost one dollar and 32 cents, Native 41 cents, 1 barrel laid for from two to two forty yards. Reinforcing banks owing to urgency and special plant required, sec. 2, I estimated work ordered by Shanly at 60 cents, contractors claimed seventy-five, but subsequently offered to accept sixty-five if same rate was allowed on similar and less urgent works on 3 and 4. Pending settlement of this question work on 2 was returned in progress estimate at my valuation.

TOM S. RUBIDGE.

---

CORNWALL, ONT., June 10, 1897.

C. Schreiber, Ottawa.

My understanding of my duty in certifying for work is that I should certify the amounts according to the contract, and also special agreements and decisions of the superintending engineer.

J. L. WELLER.

---

CARDINAL, ONT., June 11, 1897.

C. Schreiber, Ottawa.

Your telegram received here last night too late to answer. I understand I am to certify to the quantity of work done under the several items embodied in the schedule when performed in accordance with the terms of the specification and contract.

C. D. SARGENT.

---

AUDIT OFFICE, OTTAWA, June 18, 1897.

SIR,—Let me acknowledge your letter of June 11, forwarding copies of telegrams from Messrs. Rubidge, Weller and Sargent.

*Reinforcing Banks, at 65 cents a yard.*

No explanation has yet been given as to the item for "reinforcing banks at 65 cts. a yard," though asked for twice. I need to know fully, in what particulars it differs from the "earth excavation from borrow-pits at 35 cts. a yard," described at page 4 of the specification.

Mr. Rubidge valued the work on section 2 at 60 cents a yard, which should have been conclusive as between him and the contractor, under the contract. The work on sections 3 and 4, he says, was less urgent: worth, therefore, I suppose, less than 60 cents, although he does not say how much. Now why does Mr. Rubidge, on section 2, pay 65 cents, or 5 cents more than he thinks it is worth? To get sections 3 and 4 done for less than his price, perhaps? No, to get them done for more, or 65 cents also. The reason he gives is one which works in the wrong direction.

*Certificates of Engineers.*

I gather from the telegrams of Messrs. Weller and Sargent, the resident engineers, that they certify the quantities of work to be correct, and the rates to be those fixed by the superintending engineer when not under contract, and that they do not assume any responsibility for the fairness and justness of the superintending engineer's prices. As to the correctness of the classification of the items, it is not yet known whether they certify this on their own judgment, or on the dictum of the superintending engineer.

Concerning the entering of 25,800 yards of work as 46,000 yards in the progress estimates, there is nothing to show that the attention of the engineers has been called by the department (as requested: R-313) to the serious consequences of such a trans-action. Its consequences are to destroy entirely the value of all subsequent examination and audit, in the department, in the Audit Office, in the Accounts Committee, and by the public; and to make the superintending engineer's office an irresponsible star chamber—with the additional disadvantage that no one knows it is so.

Nor is there a statement from any one—as I hoped there would be—that the estimates now contain no quantities in excess of the actual work, and that they will contain no such excesses in future. Nor has Mr. Rubidge offered an explanation of how much ground is covered by his own certificate. These omissions should be rectified.

It would be better to separate the certificates of the resident and superintending engineers, instead of having them sign the same form. Each should state explicitly the facts for which he holds himself responsible, and outside of all instructions from any one else.

*Extra \$1 a Yard for Portland Cement.*

Mr. Rubidge states that one barrel of cement lays from 2 to 2.4 yards of masonry; take 2.2 as an average. He says that the cement in a yard of masonry costs: Portland \$1.32, Native 41 cents; multiply by 2.2 and we have \$2.90 and 90 cents as the prices respectively of a barrel of Portland and Native cement. While \$2.90 is an ordinary price for Portland, I do not remember Native cement having been anything like as low as 90 cents.

Please examine Mr. Rubidge's figures and this calculation to locate the weakness. Until this is done, the extra \$1 a yard is not shown to be fair and just.

You will remember that the Messrs. Davis accepted 50 cent a yard on the Tay Canal for this same service, instead of the \$1 a yard now charged. Since a large portion of the work has been done in recent years, it would be well to have also a calculation based on later prices than those of 1887, which Mr. Rubidge quotes.

A still more striking piece of evidence against \$1 a yard is that given by the new contract of Wm. Davis & Son's, signed 10th May, 1897, for enlarging the Cardinal section of the Galops Canal. Paragraph 24 of the contract, which contains the schedule of prices, has also this note concerning the masonry in piers and walls: "If Native Hydraulic Cement is used where Portland Cement is called for on items 24, 26, 27 and 28, a reduction of 25 cents per yard will be allowed."

Similarly, in the contract of the "Canadian Construction Co." for the lock at Faran's Point, signed June 1st, 1897, we have the following yard prices for lock masonry, including walls and piers:

29, masonry, cut face, in Portland cement . . . . .	\$6 50
30, masonry, cut face, in Hydraulic cement . . . . .	6 00
31, masonry, picked face, in Portland cement . . . . .	5 90
32, masonry, picked face, in Hydraulic cement . . . . .	5 70

These differences of 50 and 20 cents are for the same service as that for which Messrs. Davis charge \$1 on the Cornwall Canal.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister, Railways and Canals.

# Auditor General's Report.

AUDIT OFFICE, OTTAWA, June 15, 1897.

## Guard Gates.

SIR,—Let me call attention to your letter of June 22, 1896, inclosing a letter from Wm. Davis & Sons, of June 17, 1896, to Mr. Rubidge, in answer to his of June 16, 1896.\*

Mr. Rubidge's letter of June 16, 1896, (of which I should like to have a copy), appears to have invited Messrs. Davis to name rates for several works outside of the contract, namely:—

- Coping and repairs to masonry of old locks 15 and 16.
- Strengthening and reinforcing banks near locks 18, 19 and 20.
- Guard-gates above lock 20.

For the guard-gates the Messrs. Davis named the following rates, under date of June 17, 1896 :

Unwatering of guard-gate foundations, bulk sum. . . . .	\$ 7,000 00
Masonry of guard-gates, and connected therewith, cub. yd. . . . .	13 50
All other work and materials at same prices as for similar work and materials on the weir at sec. 4, as per contract and special agreements relating thereto.	

The Supplementary Estimates, just received, provide \$80,000 for the guard-gates, being the first intimation to us of their total cost.

The only work and materials for this service which have yet been recorded in the progress estimates are to be found under "materials provided" in the section 4, estimate of Nov. 30, 1896, namely:—

Portland cement, 2,100 barrels: \$2 paid . . . . .	\$ 4,200 00
Rough and backing stone 1,000 yards: \$3 paid . . . . .	3,000 00
Sand, 800 yards: 70 cents paid . . . . .	560 00
	\$ 7,760 00

The Order in Council of May 23, 1880, shown at page X of my report for 1895-6, condemns the letting of contracts for more than \$5,000 without public tender, "unless owing to urgency or other cause." In such cases, a special Order in Council is necessary.

The guard-gates were built in March and April, 1897; the foundation for them could not have been uncovered before the close of navigation in the middle of December, 1896, even had the mills been stopped earlier than usual; and no materials are recorded as prepared until November, 1896.

At the date therefore of Mr. Rubidge's arrangement with Wm. Davis & Sons, namely, June 17, 1896, the urgency required by the Order in Council did not exist; there was plenty of time to advertise for tenders, and secure competition. If Messrs. Davis had greater facilities for doing the work, or if no other contractors were able to do it, the prices in the tender-schedules would have been the most conclusive evidence of either fact.

What is the difference in class, between the lock-masonry at \$8.95 a yard in lock 20, and the masonry in the guard-lock for which \$13.50 a yard is fixed? Are they not exactly the same?

As with all other rates not fixed by public tender, there will need to be certificates of "prices fair and just" for the work on the guard-gates, as well as an Order in Council waiving the provisions of the Order of May 23, 1880.

With reference to the \$7,000 for unwatering: Please let me have Mr. Rubidge's calculation showing the reasonableness of the contractor's offer before he approved it; and an approximate calculation of the actual expense to the contractors, based on whatever observations the engineers may have made at the time of construction.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.

J. L. McDougall, A.G.

\* These two letters are printed at pages lxxxix and xc.  
lxxvii

AUDIT OFFICE, OTTAWA, June, 15th, 1897.

*Coping and Repairs.*

SIR,—On receipt of Mr. Weller's memorandum *re* old locks 19 and 20 (which had not been forwarded with your letter of June 1), I find that one of my requests of Oct. 19 for information has been overlooked, namely, that for the approximate yard-value of the new masonry under the coping on old lock 20. This figure is of importance, in comparing the rates of \$24 and \$14 paid at old locks 19 and 20 respectively.

I should also like to be informed of the difference between the work of renewing the lower courses at old lock 19 and those at old lock 20. As far as I understand it, they are about the same. Assuming their similarity, the following calculation would hold:—

Lock 19, 205·74 yds. coping + 338·60 yds. ashlar, comes to 544·34 yds. at \$24 or.....	\$	13,064 16
Lock 20, 209·84 yds. coping + 1.136·91 yds. ashlar, comes to 1.346·75 yds. at \$14.....		18,854 50

The rates which satisfy these are :

Coping, per cubic yard.....	\$52 01
Ashlar, per cubic yard.....	6 98

which prove, approximately, as follows:—

Lock 19, 205·74 yds. at \$52·01 + 338·60 yds. at \$6·98.	\$	13,059 78
Lock 20, 209·84 yds. at \$52·01 + 1136·91 yds. at \$6·98.....		18,849 41

Unless there is some weakness in the calculation, the rates of \$24 and \$14 are not well chosen, or they would produce a lower rate than \$52·01 for coping.

The contract rate for masonry on locks 18, 19 and 20 is \$8·95 for the whole work, coping and all. Allowing the new undercourses in the old locks at \$8·95 for the sake of argument, the coping will be paid at \$48·77 in old lock 19, and at \$41·36 in old lock 20.

The figures shown above namely \$52·01, \$48·77 and \$41·36 are so large as to call for a special examination of them by yourself. Please let me hear from you further on this subject.

I do not find that any certificate has yet been given that the rates of \$24 and \$14 are "fair and just."

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister, Railways and Canals.

RAILWAYS AND CANALS DEPT., OTTAWA, May 29, 1897.

SIR,—I have the honour, by direction of the Minister of this department to refer, for the decision of the Hon. the Treasury Board, certain objections raised by the Auditor General relative to the payment of estimates of work done by Wm. Davis & Sons, under their contracts for Sections 2, 3 and 4, of the Cornwall Canal enlargement, together with the Sheik's Island Dam.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

L. K. JONES, *Act. Sec.*

TREASURY BOARD, OTTAWA, 29th May, 1897.

SIR,—I beg to inclose herewith papers referred to the Treasury Board for its decision as to certain objections raised by you relative to the payment of estimates of work done by Wm. Davis & Sons under their contracts for sections 2, 3 & 4, of the

## Auditor General's Report.

Cornwall Canal Enlargement, together with the Sheik's Island Dam, and I shall be glad to be informed whether you have any further remarks to make in addition to those already made by you.

Also to state what items you object to and under what clause of section 32 of the Audit Act the objections are made. Kindly let me hear from you at the earliest possible moment.

Yours truly,

The Auditor General.

J. M. COURTNEY, *Sec. T. B.*

AUDIT OFFICE, OTTAWA, June 17, 1897.

SIR,—Let me acknowledge receipt of the papers concerning the Davis accounts.

I notice a letter of April 28, 1897, from the Messrs. Davis, which calculates the amount unpaid at \$107,735.92. This may be divided as follows: \$25,876.31, estimates of January and April, 1896, which were before the Treasury Board in June, 1896; \$53,132.57 of estimates from May to August, 1896 concerning which I asked for explanations October 15, 1896, (see pages R-312-3 of my report for 1895-6), and received answers only on June 2, 1897; and \$28,727.04 of November, 1896, Estimates, which could not be considered until the August Estimates were explained.

To facilitate references, I attach the pages of my report for 1895-6, which relate to the accounts of Messrs. Davis.

The sum of \$25,876.31 previously before the Treasury Board is made up as follows:—

*Estimates of January and April, 1896.*

Section 2: page R-51 of 1895-6:

A.—Excavation in close-pile trenches (between 1-to-1 slopes), 6,305 c.y. at 32c. ....	\$ 2,017 60
B.—Extra allowance on same (actual excavation), 1,577 c. yds. at 64c. ....	1,009 28
C.—Electric light plant for same, part charged to lock 18.	1,163 12
D.—Wood's Culvert: unwatering southern extension. . .	2,142 00
E.—Unwatering foundations of retaining walls, 1,672 l. ft. at \$1.50 . . . . .	2,508 00
F.—Unwatering lower entrance pier, lock 18. . . . .	2,396 18

Section 3: page R-53 of 1895-6:

A.—Excavation in close-pile trenches (between 1-to-1 slopes), 7,292 c. yds. at 32c. ....	2,333 44
B.—Extra allowance on same, actual work, 1,578 c. yds. at 64c. ....	1,009 92
C.—Electric light plant for same, part charged to lock 19.	1,162 96
E.—Unwatering foundations of retaining walls, 566 l. ft. at \$1.50 . . . . .	849 00
F.—Unwatering lower entrance pier, lock 19 . . . . .	990 89

Section 4: page R—55 of 1895-6:

G.—Unwatering Robertson's Culvert . . . . .	9,643 90
E.—Unwatering foundations of retaining walls, 916 l. ft. at \$1.50 . . . . .	1,374 00
F.—Unwatering lower entrance pier, lock 20. . . . .	1,724 02

30,324 31

Less—already paid on items A: Sec. 2, \$2,016;

Sec. 3, \$2,432 . . . . . 4,448 00

\$25,876 31

*Objections under Sec. 32 (a) of Audit Act.*

Against items D, E, and F,—those for unwatering—I raise the objection, under Sec. 32 of the Audit Act, that there is no Parliamentary authority. When a bargain is made, and work is done under it, nothing but a Vote of Parliament can give better terms.

The contractors were asked, for each new piece of extra work to submit a complete list of prices, for the Engineer's consideration and approval; they named their prices, and the engineer approved them. Both the engineer and the contractors were, at the time fully aware that the work could not be performed without keeping the water away; the omission, from the list of prices, of any mention of unwatering, is therefore a proof that both parties held it to be already covered by the yard prices.

On a kindred subject, the Sheik's Island dams, we have an opinion from Mr. Lash, shown at pages 18 and 19 of the "Return of Treasury Board Over-rulings between the Sessions of 1894 and 1895," of which I attach a copy. Mr. Lash says, at the end of Section 2 of his conclusion, "I think that all the works connected with the construction of the dams must be performed for the prices which the contractors are to receive for those parts which are included in the items of the list."

Until very recently, no time-records were kept of the labour of unwatering, such as were kept for all extras known to be government liabilities. See, on this subject, the heading "Unwatering Lower-Entrance Piers" at page XXXVII of my report for 1895-96, and the letter of October 15, 1896 at page XLVI of the same report.

The claims for separate payment of unwatering are after thoughts, and might have led to the rejection of the original offers, if incorporated into them at the time

*Objections under Sec. 32 (c) of Audit Act.*

Items A, B and C: Close-pile trenches, \$8,696.32. The objections here are two: (1). That the actual quantity of excavation 3,905 yards, is increased to 13,597 yards by an artificial and inappropriate calculation, which the department has not recently attempted to justify (page XLIII): (2). That an extra allowance for urgency is made on the whole work, when only a small part of it was urgent. There is a full discussion of this subject at pages XXXIV, XXXV, XLI and XLII of my report for 1895-96. The tentative allowance established at page XLI, namely \$5,538.74 on the claim of \$8,696.32, is favourable to the contractors on all doubtful items.

Items E: Unwatering Foundations of Retaining-Walls, \$4,731. See page XXXVIII of my Report for 1895-96. In addition to the absence of time-records, which absence shows that neither party at the time expected payment: the unwatering was of such small magnitude and short duration (a few days at each place), that it was in no way comparable with the unwatering of a lock-pit through several seasons. The schedule-items for unwatering the three lock-pits (works of vastly greater difficulty and duration) are \$2,500, \$2,500, and \$2,000.

Item G: Unwatering Robertson's Culvert, \$9,643.90. The special attention of the Treasury Board is called to the grave statements in my letter of May 12, 1897, wherein the amount of \$9,643.90 is shown to have been fixed without any reference to the work actually done, and is provably many times its value. In my letter of June 29, 1896, I suggested the advisability of calculating the approximate value of the work as actually done (see page XLIV); and on May 12, 1897, I made a direct request for the same calculation; but I have not yet been supplied with the information. It is essential that this amount be known.

These objections are taken under Sec. 22 (c) of the Audit Act, namely, on the ground that "The money is not justly due."

# Auditor General's Report.

## *Estimates from May to August, 1896.*

The sums withheld on these Estimates amount to \$53,132.57, made up as follows :—

Section 2 : page R—51 of 1895-96 :—

Coping and repairing old lock 15, 400 c. y. at \$24 . . . . .	\$ 9,600 00
Raising and repairing old lock 17 . . . . .	3,328 77
Supply-weir : masonry in retaining-walls ; first returned at \$8.95 ; lately changed by engineer to \$13.50 ; \$4.55 held in suspense : 886 c. y. at \$4.55 . . . . .	4,031 30
Laying weir-walls with Portland instead of Native cement, 1,084 c. y. at \$1 . . . . .	1,084 00
Laying part of bridge-piers and abutments with Portland instead of Native cement : 1326 c. y. at \$1 . . . . .	1,326 00
Laying random-coursed masonry in glance-pier, with Portland instead of Native cement : 770 c. y. at \$1 . . . . .	770 00

Section 3 : page R—53 of 1895-6 :

Reinforcing south bank, east of lock 19 : price 65c. ; paid on account 35c. ; held 30c. ; 19,600 c. y. at 30c . . . . .	5,880 00
Coping and repairs old lock 19 : price \$24 ; paid on account \$14 ; held \$10 ; 480 c. y. at \$10 . . . . .	4,800 00
Supply-weir : laying weir-walls in Portland instead of Native cement, 1,120 c. y. at \$1 . . . . .	1,120 00
Supply-weir : masonry in retaining-walls, first returned at \$8.95 ; lately changed by engineer to \$13.50 ; \$8.95 paid ; \$4.55 held in suspense : 1,214 c. y. at \$4.55 . . . . .	5,523 70

Section 4 : page R—55 of 1895-6 :

Reinforcing bank, east of lock 20 ; price 65c. ; paid on account 35c. ; held 30c. ; 9,000 c. y. at 30c . . . . .	2,700 00
Supply-weir ; masonry in retaining-walls ; first returned at \$8.95 ; lately changed by engineer to \$13.50 : \$8.95 paid ; \$4.55 held in suspense ; 1,290 c. y. at \$4.55 . . . . .	5,869 50
Supply-weir : laying weir-wall in Portland instead of Native cement, 1,750 c. y. at \$1 . . . . .	1,750 00
Approximate excess of spare lock-gates over those for lock 19 . . . . .	1,500 00

Sheik's Island Dams : page R—56 of 1895-6 :

Masonry ; first returned as "Cut-off walls at \$8.95" ; lately changed by engineer to "Weir-walls at \$13.50 ; paid at \$8.95 ; held in suspense \$4.55 : 846 c. y. at \$4.55 . . . . .	3,849 30
--	----------

\$ 53,132 57

*Recapitulation of Deductions from August Estimates.*

Masonry, built at \$8.95, lately raised to \$13.50; 4,236 c. y. at \$4.55.....	\$ 19,273 80
Laying masonry with Portland instead of Native cement: 6,050 c. y. at \$1.....	6,050 00
Reinforcing banks: Sec. 3, 19,600 c. y.; Sec. 4, 9,000 c. y. at 30c. held.....	8,580 00
Coping and repairing, old lock 15; 400 c. y. at \$24.....	9,600 00
Raising and repairing, old lock 17.....	3,328 77
Coping and repairs, old lock 19: 480 c. y.; price \$24; paid \$14, held \$10.....	4,800 00
Lock 20: Approximate excess of spare lock-gates over those for lock 19.....	1,500 00
	\$ 53,132 57

*Masonry built at \$8.95, lately raised to \$13.50.*

The price for lock-masonry is \$8.95, and that for weir-masonry is \$13.50. The reason for the difference is, that the lock-wall has only one external dressed face, and is several feet thick, and the back is rough; while the weir is mainly composed of several pillars or blocks, with very little internal thickness in proportion to the large area of dressed face. The extension-walls above and below the lock and weir are the same class of masonry as is in the lock itself—except that (on the one hand) there is no such complicated cutting as is necessary for the gate-recesses, and (on the other hand) the thickness is less.

Up to July 1896, the only masonry paid at \$13.50 was: (1) that part which bore the distinguishing characteristic of weir-masonry, namely a large quantity of dressed face, combined with a small quantity of internal solid work; (2) of the contiguous wall, enough to make a complete and permanent working weir, if there had been no other motive for making a longer wall. The rest of the wall was paid at \$8.95, from the lock around to meet the weir.

For the estimate of August, 1896, M. Rubidge drew new lines of division, several yards distant from the old ones. He now certifies as "Weir-masonry at \$13.50" all the extension-wall along the north bank, although it is the same class of work as the lock-walls, and not the same class as the weirs; and he draws lines straight across the channel from the ends of the north walls, meeting the south extension-walls directly opposite, to establish on the south walls the new point of division between "masonry which is worth \$8.95" and "masonry which is worth \$13.50".

I asked, under date of Oct. 19, 1896 (see page R—313) for sketches showing the difference in the face-appearance of each class of work. Since the work turns out to be all of one class, there is no difference to describe, and my request was found hard to satisfy. At last, under date of June 2, 1897, photographs of the weirs and extension-walls have been supplied; and we are left to mark out on them, with a foot-rule only, the place of the line of demarcation between \$8.95 and \$13.50—since the work on both sides of the line is alike in all respects. The photographs and plans are with this letter.

This is all in violation of the express terms of the contract, which fixes the rates under which work is begun and carried on as those which must govern. The assistant-engineers, during the several months the walls were building, must have examined the work with the idea of bringing it up to the standard of the \$8.95 walls, and not to that of the \$13.50 walls; and when the \$8.95 standard was reached, the quality was approved by them. In 1896, when part of the work had been covered up for several years, it was late for them to remember whether a \$13.50 standard was reached in all respects.

## Auditor General's Report.

### *Laying Masonry in Portland instead of Native Cement.*

The original specifications of September, 1888, prescribe cement of Canadian manufacture (*See* specification for section 2, page 13). At a very early period of the work, the use of Canadian cement was abandoned, and Portland cement substituted. The yard prices of masonry were increased by \$1, namely: Random-coursed masonry from \$5.50 to \$6.50; lock-masonry from \$7.95 to \$8.95; and weir-masonry from \$12.50 to \$13.50.

In the correspondence about a similar item on the Galops locks (page R—279 of 1895-6, there will be found a copy of an agreement with the Messrs. Davis, dated July 4, 1888, to use Portland instead of Canadian cement on the Tay Canal for an increase of 50 cents a yard. On July 11, 1896 (page R—280), Mr. Schreiber expressed his inability to afford an explanation of this latter price.

After several requests (R—279, R—280, R—313 and June 10, 1897) for a calculation based on barrel prices of Portland and Native cement, to show that \$1 a yard is a reasonable allowance for the change, Mr. Rubidge telegraphs, June 11, as follows: "Portland and Native cement, 1897, difference in cost was from 91 to 96 cents; Portland used, one yard masonry cost \$1.32, Native 41 cents, 1 barrel laid for from 2 to 2.40 yards."

By a calculation in an attached letter (marked "Portland Cement"), it is shown that these figures result in Native cement being 90 cents a barrel—a price much lower than usual.

It is noticeable that Mr. Rubidge, in support of the \$1 charge fixed several months after September, 1888, goes back to 1887 for prices by the barrel, when similar work was accepted by Messrs. Davis on the Tay Canal at 50c, on July 4, 1888.

In the contract signed by Messrs. Davis, May 10, 1897, for the Cardinal section of the Galops Canal, the difference between Portland and Native cement is put at 25 cents. And in the contract signed by the "Canadian Construction Co.," June 1, 1897, for the lock at Farran's Point, the same difference is put at 50 cents in one case, and at 20 cents in another.

These and other discrepancies have been pointed out to the Department of Canals in a letter of June 15, 1897 (marked "Portland Cement"), and the subject may be considered as still under discussion. When I asked for information Oct. 15, 1896, and did not get even the unsatisfactory answer "Agreement between Engineer and Contractors" until June 1, 1897, the delay is not chargeable to this office.

### *Reinforcing Banks, at 65 cents a Yard.*

The banks were originally built, in part out of the excavation from the channel, and in part out of the excavation from borrow pits. This latter work was paid for at 35 cents a yard. The banks near the locks were subsequently reinforced by bringing more earth from the borrow pits, and this earth has been entered in the progress estimates at 65 cents a yard; the work on secs. 3 and 4 being some months later than that on sec. 2.

In answer to questions of Oct. 19, 1896, (page R—314) and June 10, 1897, tending to bring out into prominence whatever difference there is between this work and the ordinary 35 cent borrow pit excavation of the contract, Mr. Rubidge telegraphs as follows, under date of June 11, 1897: "Reinforcing banks: Owing to urgency and special plant required, section 2, I estimated work ordered by Shanly at 60 cents; contractors claimed 75, but subsequently offered to accept 65 if the same rate was allowed on similar and less urgent work on sections 3 and 4. Pending settlement of this question, work on section 2 was returned in progress estimate at my valuation.—T. S. RUBIDGE."

It is to be noticed here, that although the contract makes the engineer the arbiter of prices as between himself and the contractor, and although he thinks the work on section 2 to be worth only 60 cents (and the work on sections 3 and 4 of course worth less, as being less urgent, and the special plant being already provided for section 2

lxxxiii

previously reinforced) still he pays 65 cents all around, when it was in his power to enforce the rates of his own judgment.

I am still left without an explanation of the difference between this work and 35-cent borrow-pit excavation, although the reinforcing was classed under borrow-pit excavation in the estimates for several months before being removed to a special item. The explanation, when it comes, may show that the difference would be recompensed more properly by (say) a lump sum payment for the commencement of the work, than by an increase of the yard-price for the whole of it.

*Coping and Repairing, Old Lock 15 ; 400 c. y. at \$24.*

Similar work has been performed at old locks 19 and 20, concerning which I wrote a letter to the department June 15, 1897, (marked "Coping and repairs"). The rate charged at old lock 19 is \$24, and at old lock 20, \$14, the latter being lower on account of the greater proportion of repairs ; coping is more expensive of the two.

In answer to my request of Oct. 19, 1896, there has been furnished this month (June, 1897) a statement of the quantities separately of the coping and of the repairs in old locks 19 and 20. A simple calculation given in my letter of June 15, shows that, on these quantities of coping and repairs, the rates of \$24 for old lock 19 and \$14 for old lock 20 mean \$6.98 a yard for the repairs, and \$52.01 a yard for the coping. Until some further explanation is given as to this very unusual price of \$52.01 a yard for coping—the \$24 a yard for coping and repairs at old lock 15 cannot be recognized as established, although a partial payment might be made on account.

*Raising and Repairing Old Lock 17 : \$3,328.77.*

Payment was withheld on this until the previous item of \$24 a yard for similar work on old lock 15 had been confirmed. It is now noticed, however, that the contract specification (page 33) provides payment for old lock 17 by wages and materials, in the way the bill is made out.

There is an item in this bill of \$232 for 23.2 days' service of steam hoist scow at \$10 a day, in addition to coal and engineer for the same. The hire of the scow comes, I think, under the word "plant," where the specification says : "The contractor must "provide all the other stone, materials, tools and equipment, for which he will be "allowed 15 per cent on the fair cost for the use of plant, tools, &c."

If this item of \$232 be removed, as well as \$34.80 the 15 per cent thereon, there is no objection to the remaining \$3,061.97.

*Coping and Repairs, Old Lock 19 : Held \$4,800.*

This is treated under the heading "Coping and Repairs, old lock 15," and in my letter of June 15, 1897, marked "Coping and Repairs."

The quantities and prices at old locks 19 and 20 result, by a very simple calculation, in showing that repairing is paid for at \$6.98 a yard, and coping at \$52.01. Until this latter figure is explained away, the price of \$24 should stand for further examination.

*Lock 20 : Difference in Spare Lock-Gates, \$1,500.*

As far as my request of October 19, 1896, (R—314) went, Mr. Weller's explanation of May 26 is complete.

Further consideration of these Spare lock-gates, however, as shown in my letter to the department of June 15, 1897, shows that similar work has been performed by Messrs. J. and R. Miller for prices whose total effect is 25.39 per cent less than those of Messrs. Wm. Davis & Sons. That is, for \$10,000 charged by Messrs. Davis, the Millers would probably have charged \$7,461.

For a complete set of spare-gates for locks 18, 19 and 20, the approximate totals would be : Messrs. Davis, \$39,695 ; Messrs. Miller \$29,537 : difference \$10,158.

## Auditor General's Report.

Until some explanation is offered as to why public competition was not invited for the spare lock gates, with the object of securing from Messrs. Miller (at least) the low prices for which they built the spare gates at locks 15-17, it would be well to withhold further payment in the meantime.

### *August Estimates: Authority for objections.*

All of the objections against the August estimates, as discussed above, are made under section 32 (c) of the Audit Act, on the ground that "the money is not justly due."

### *Estimates of November, 1896.*

The November, 1896, estimates contained the following new items which delay their passing, (in addition to the general objection, that their recognition might in some way commit us to old items previously disputed):

Section 2 : Coping and repairs to old Locks 15-16 : 320 c. y. at \$24 . . . . .	\$7,680 00
Section 4 : Materials provided for guard-gates: Portland cement, 2,100 brls: \$2. on acct. . . . .	4,200 00
Rough and backing stone, 1,000 c. y at \$3. on acct. . . . .	3,000 00
Sand, 800 c. y. : 70 cents on acct. . . . .	560 00

### *November: Coping and Repairs to Old Locks 15-16.*

This is the same \$24. work which is discussed in preceding sections, and full payment is delayed until the rates of \$6.98 and \$52.01 at old locks 19 and 20 are explained. Partial payment might be made.

### *Guard-Gates: Materials delivered in November.*

Concerning the guard-gates, which are an extra outside of the contract, I have written to the department under date of June 15, 1897, (marked "Guard-Gates"), showing that no urgency existed in June, 1896, (the time of arranging rates with the contractor) for masonry which could not be laid before December; and asking why public competition was not invited, as instructed by the General Order in Council of May 23, 1880. Until this part of the discussion is concluded, I shall be unable to make any payments for the guard-gates.

### *Powers of the Engineer.*

The Messrs. Davis argue, in their letter of April 12, 1897, that the engineer, under the contract, is not subject to review by the Auditor General. A more correct idea is, I think, that no contract-rights can be given by a department, which ignore the duty of the Auditor General as established by the Audit Act. The Audit Act is implicitly a part of every contract; and every contract must be construed with the help of that Act.

### *Original Specifications not complete.*

On reference to page R—57 of my report for 1895 6, you will see that, on \$2,377,-570.04 of estimates of work performed by Messrs. Davis up to October 31, 1896, only \$1,168,284.85 was under the original advertised specifications and tenders. The disputed items are all among the extras. The specifications do not appear to have been drawn with sufficient care. Might the Treasury Board investigate the possibility of having future specifications made more complete, with the object of avoiding such frequent disputes with contractors?

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

RAILWAYS AND CANALS DEPT., OTTAWA, June 20, 1897.

DEAR MR. COURTNEY,—I send you herewith two copies of explanations by Mr. Rubidge, asked for by the Auditor General, with reference to certain items in Messrs. William Davis and Sons' contract on the Cornwall Canal.

Yours faithfully,

COLLINGWOOD SCHREIBER,

The Deputy Minister of Finance.

OTTAWA, June, 18th, 1897.

COLLINGWOOD SCHREIBER ESQ., C. M. G.

Chief Engineer, Railway's & Canals.

DEAR SIR,—I have to acknowledge the receipt of your letter of the 16th June, received by you from the Auditor General relating to certain items of Messrs. William Davis & Sons' contracts on the Cornwall Canal, regarding which, he requires further information.

In reply, I beg to offer the following explanations :

*Re-inforcing Banks at 65 per cents per cubic yard.*

The bank above lock 18 was found to be unsafe, and the Honourable Minister requested Mr. Walter Shanly to visit the work to consult with, and advise me, as to what in his opinion was necessary to be done to ensure its safety, and we agreed that immediate steps should be taken to form a bank or berm on the outer slope of the embankment, and to reduce the width above the berm level. This work was considered so urgent that instructions were given to stop all other work on the section, and to employ the whole available force on section 2, in preparing special plant, and appliances for the purpose, in order to its completion before the close of the season. I estimated the value of the forced work at 60c. per cubic yard. The contractors, however, refused to accept my estimate of value, and claimed 75c., subsequently, however, in June, 1896, when the matter was discussed with the chief engineer, they made a counter proposition agreeing to accept 65c., provided the same rate (65c.) was allowed on similar works required on sections 3 and 4. This after some consideration and discussion was agreed to, and authority given me to proceed with the works below locks 19 and 20 (see the following letter of the chief engineer), also my letter of June 16th, 1896, and that of Messrs. Davis of the 17th, in reply appended hereto.\*

“ OTTAWA, June 13, 1896.

“ MY DEAR SIR,—I am to authorize you to have the work of strengthening and reinforcing the banks at locks 19 and 20 on the Cornwall Canal proceeded with at the price of 65c. per cubic yard, which is the price originally fixed by you, and my predecessor in office, and which you state to be a fair and reasonable price, and in which, I concur, from your description of the work, and the mode in which you require it to be done.

“ Yours truly,

“ TOM. S. RUBIDGE, Esq., Cornwall.

“ COLLINGWOOD SCHREIBER.”

With regard to the return in the monthly progress estimates of 46,000 cubic yards at 35c (the contract price for earth excavation) as representing 25,800 cubic yards of bank reinforcement at 60c. (which was my estimated value of the work). This was done with the view of repaying the contractors their outlay pending the chief engineer's decision as to the rate to be allowed them for this work. No estimates now contain any quantities in excess of the actual work done, and there will in future be no such excesses.

\*These two letters are on pages lxxxix and xc.

## Auditor General's Report.

### *Extra, \$1 a yard for Portland Cement.*

In 1887-88, when the canal enlargement was commenced, the difference in price between Portland and Native cement was from 91c. to 99c. The Portland cement required to lay one yard of masonry would cost \$1.32 and the Native cement 41c. One barrel of cement will lay from 2 to 2½ yards of the new lock masonry. The price of Portland cement varied from \$3 to \$3.75 per barrel. The prices I have named apply to the time when the canal enlargement commenced. Now, however, prices have relatively changed, the present figures being Portland cement about \$2, and Native \$1.25 to \$1.30 per barrel, or say taking 2½ yards to the barrel, a difference of about 28cts.

### *Coping and repairs to Masonry in Walls of Old Lock 19.*

With reference to the assumption by the Auditor General that the work on old locks 19 and 20 is about the same, I need not tell you that this is incorrect, it will be seen that the proportion of the classes of work differ very considerably in the two locks, not only so, but the ashlar in locks 19 was very different to that in lock 20, for the reason that the wall was too narrow to admit of backing being used, in addition to this in all quoins, and wings, several courses of dimension stones, had to be provided to match the work in the old walls, and connect them with the new lock, or weir, and the old work had to be pulled down before the new work was commenced. The calculations made by the Auditor General are evidently based on the assumption that no other work was performed, than the laying of coping and straight ashlar. The rates as you well know were fixed under these circumstances, and I am ready to certify that they are fair and just.

### *Re Guard Gates.*

Appended hereto is a copy of a letter of the 18th June, 1896 from the chief engineer authorizing me to proceed with the preparations for constructing this work, as it was urgently required. Also a copy of my letter of the 16th, June, 1896 to Messrs. Davis, asking them if they were prepared to undertake certain work, (including the guard gates) outside of their contract, and if so, to name the rates; in their reply the rates named were, with the exception of the unwatering, practically the contract prices for the supply weir on section 4, and special agreements relating thereto, and as the structure was designed to protect, and be operated in connection with the lock 20, and weir; it was understood not to be a new contract, and that no Order in Council was necessary. There is a very marked difference between the lock masonry and the masonry in the guard gates; the latter has practically no backing, or hearting, of the ordinary kind, every stone is a "dimension stone". All the vertical faces of the piers, and side walls and the exposed faces of both abutments are of dressed stone, with cut stone joints; and the coping with its 30 inch base underneath, the curved recesses for the weir gates, checks for girllers, cams, &c., are all accurately cut to templates furnished by the engineer. This class of masonry is therefore more difficult to build than ordinary lock, or other masonry—the price \$13.50 per yard, which is \$1 advance on contract item No. 64, for Portland, instead of Native cement is very reasonable, and is certainly fair, and just. With reference to the remark that the gates were built in March and April, 1897, and that the foundations could not have been unwatered before the middle of December, 1896, I may state that during the summer, and autumn months the work of quarrying, and cutting the stone was actively being carried on at the quarries, and other preparations were at once commenced and continued without cessation until the materials were taken to the works.

### *Unwatering of Guard Gates.*

The only data upon which to base a bulk sum rate, in advance of construction, was, by a comparison with previous undertakings of a similar character, and the explanations

given by the contractors which, whilst the question was being discussed before the chief engineer, I thought reasonable, and as I remember, generally agreeing with his representations, as to the risk, he was willing to assume, in building, and maintaining coffer dams, the more or less pumping to be done dependent on the weather, the ice to be removed, the date of commencing, the state of the soft clay bottom, when unwatered and the necessity for covering it entirely with plank to enable men and teams to work, night, and Sunday work, &c., &c., after most careful consideration the sum of \$7,000 to cover all contingencies was agreed to by the chief engineer with my concurrence as I considered that under the circumstances it was very reasonable, and fair and just.

*Duplicate or Spare Lock Gates.*

Prudence requires that all locks be provided with a set of spare gates, in order to guard against interruption to navigation in case of an accident happening, resulting in the damaging or the carrying away of the gates, for this reason, it is the intention that all contracts which embrace the construction of new locks, shall include as part of the regular outfit, on capital account, the usual duplicate gates for the lower recess of each lock. The duplicate, or spare gates for locks 18, 19 and 20, were built by William Davis & Sons at the same time, as the so-called working gates, and of course at their contract prices, no extension of the contract or special agreements were ever thought of in connection with their construction.

The contract with J. & R. Miller was for three pair of spare gates for locks 15 and 17 on income account (maintenance), and had no connection with the construction account (capital). It is no doubt a fact that the Millers' prices were slightly lower than those of Wm. Davis & Sons, however, after the contract was awarded to the Millers they discovered that an important item had been omitted in their tender; they, however, being responsible and reliable contractors carried their contract through to completion.

In several respects the Auditor General's statement is incorrect. The memorandum below shows the difference in the cost of the lock gates built by Wm. Davis & Sons and those built by J. & R. Miller.

*Memorandum.*

The October and November estimates, 1896, show clearly in detail the cost of spare or duplicate gates to date, viz. :—

Section 2—2 pair. ....	\$10,588 82
Section 3—1 pair. ....	5,253 18
Section 4—1 pair. ....	5,523 60
	\$21,365 60

As against \$39,695 stated by the Auditor General. Following out the Auditor General's reasoning, this would show a saving of \$5,467 (instead of \$10,158) if the gates had been built at Miller's prices instead of Davis's, but it is well known that the Millers would not undertake to build another gate at their contract prices.

*Certificate of Engineers.*

The resident engineers certify to quantities only. The classification and rates for works not covered by the contract are the subject of special agreement with the contractors made by the chief engineer, and concurred in by the superintending engineer. The superintending engineer is therefore prepared to certify that such rates are fair and just.

Yours truly,  
TOM S. RUBIDGE, *Superintending Engineer.*

I concur.  
COLLINGWOOD SCHREIBER.

# Auditor General's Report.

OTTAWA, June 13, 1896.

MY DEAR SIR,—The recoping of old locks 15, 16 and 19 of the Cornwall Canal being extra work, prices have to be made by the engineer and agreed upon with the contractor, similar work, having, as you state, been executed at lock 20, for which fair and reasonable prices were established when the work was done, and that the work now to be done is of equal value it has been agreed between you, me and the contractors that they shall be paid these prices for this work, and I am to authorize you to proceed with the work.

Yours truly,

TOM S. RUBIDGE, Cornwall.

COLLINGWOOD SCHREIBER.

OTTAWA, June 13, 1896.

MY DEAR SIR,—As no provision is made in contract No. 4, Wm. Davis & Sons, contractors for the construction of the guard gates near lock 20, and inasmuch as at the interview which Mr. Michael Davis had with you and me at my office in Ottawa, when it was agreed that the following prices would be fair and reasonable for the work, viz.—

Lock gates at schedule prices in section 4 contract.				
Weir masonry	do	do	do	per cubic yard . . . \$13 50
Iron work	do	do	do	per lb. . . . . 0 10
Excavation	do	do	do	per cubic yard . . . 0 42

with a lump sum of \$7,000 for excavating.

You can have the work proceeded with,

COLLINGWOOD SCHREIBER.

TOM S. RUBIDGE, Esq., Cornwall.

Please acknowledge and say in writing if you concur.

C. S.

CORNWALL, June 16, 1896.

*Cornwall Canal, Re Secs. Nos. 2, 3 & 4.*

Messrs Wm. Davis & Sons, Cornwall, Ont.

GENTLEMEN:—I have received instructions from the chief engineer to proceed with the following works, viz. :—

SECTION No. 1.

Renewal of coping and necessary repairs connected therewith to old locks, Nos. 15 and 16.

SECTION No. 2.

Strengthening and reinforcing the banks above lock No. 18 from the lock west to the contractor's workshop.

SECTION No. 3.

Renewal of coping and necessary repairs connected therewith to old lock, No. 19. Strengthening or reinforcing the bank at lock No. 19 and the bay east of the lock.

SECTION No. 4.

The construction of guard gates above lock No. 20, the location of which will be within 500 feet of the west end of the present retaining wall.

Strengthening or reinforcing the bank at lock No. 20 and the bay east of the lock.

As the above work is within the limits of, and is connected with that now in progress on sections Nos. 2, 3 & 4, I beg to ask if you are prepared to undertake it, and if so, that you will be pleased to state upon what terms.

I am, gentlemen, your obedient servant,

TOM. S. RUBIDGE, S.E.

P.S.—My letter of the 13th instant is hereby cancelled.

CORNWALL, ONT., June 17, 1896.

SIR,—We beg to acknowledge receipt of your favour of 16th instant, and in reply would state that we are prepared and agree to do the work referred to therein on terms and at prices as follows :

Coping and repairs to masonry of old locks numbers 15 and 16 at twenty four dollars per cubic yard, except for that portion of the masonry of lock No. 16 in the upper recess and head bay, which is to be raised above present level of coping, which said portion we agree to rebuild and raise for the price of fourteen dollars per cubic yard. All other work and materials at same prices as for similar work and materials on section 2, as per contract and special agreements relating thereto.

Strengthening and re-inforcing the banks above lock 18 from the lock west to the contractor's workshops, at sixty-five cents per cubic yard.

Coping and repairs to masonry of old lock No. 19 at twenty-four dollars per cubic yard. All other work and materials at same prices as for similar work and materials on section 3 as per contract and special agreements relating thereto.

Strengthening or re-inforcing the bank at lock 19 and the bay east of lock at sixty five cents per cubic yard.

Strengthening or re-inforcing the bank at lock 20, and the bay east of the lock at sixty five cents per cubic yard.

Unwatering of guard gate foundations for the bulk sum of seven thousand dollars. Masonry of guard gates and connected therewith at thirteen dollars and fifty cents per cubic yard.

All other work and materials at same prices as for similar work and materials on the weir or section 4 as per contract and special agreements relating thereto.

We remain, sir, your obedient servants,

WM. DAVIS & SONS.

TOM. S. RUBIDGE, Esq.,  
Supr. Engr., Cornwall Canal.

TREASURY BOARD, OTTAWA, June 21, 1897.

MY DEAR SIR,—I have received your letter of the 17th, which reached me on the 19th (Saturday) at 12.30 p.m. With reference to the following classes of work on the canal, comprised in letters D. E. and F., estimates, January and April, 1896, may I ask if you object to them under subsections *a.* and *c.* of section 32, as I gather from the letter that such is the case? You have not mentioned under what subsection letter G.—unwatering Robertson's culvert—falls. Will you kindly advise me? With reference to the November estimates, \$28,727.04, you give items of \$7,880, \$4,200, \$3,000 and \$560. Will you kindly let me have a memo. showing how the difference, \$13,087.04 is arrived at?

Yours very truly,

The Auditor General.

J. M. COURTNEY, Secy. T. B.

# Auditor General's Report.

AUDIT OFFICE, OTTAWA, June 21, 1897.

SIR,—In answer to your letter of to-day's date, concerning the Davis accounts :

The items D, E, F and G, for unwatering, are all objected to under section 32 (a) on the ground that there is no Parliamentary authority increasing the rates of the contract under which the masonry was built.

Moreover, under item G, for "Unwatering Robertson's Culvert," the price claimed, \$9,643.90, is many times the value of the work done, (as is shown in my letter of May 12, 1897, to the Department of Canals), and the money is therefore "not justly due"; this objection is under section 32 (c).

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

TREASURY BOARD, OTTAWA, June 21, 1897.

SIR,—I have the honour to state that I am in receipt of a letter under date of 29th May, 1897, from the Acting Secretary of the Department of Railways and Canals, referring, by direction of the Honourable the Minister of Railways and Canals for the decision of the Treasury Board, certain objections raised by the Auditor General relative to the payment of estimates of work done by Messrs. Wm. Davis & Sons under their contracts for sections 2, 3 and 4 of the Cornwall Canal Enlargement, together with the Sheik's Island Dam.

The matter was referred to the Auditor General, and I now inclose copy of a letter from him under date of 17th instant from which you will see (pages 1, 2 and 3) that objection is made by him to the payment of the items marked in his letter D. E. F. & G. under subsection (a) of section 32 of the Consolidated Revenue and Audit Act on the ground that there is no Parliamentary authority for their payment—the items in question being as follows :—

Section 2 : page R—51, of 1895-6 :

D. Wood's Culvert : unwatering southern extension.....	\$2,142 00
E. Unwatering foundations of retaining walls, 1672 l. ft. at \$1.50.....	2,508 00
F. Unwatering lower entrance pier, lock 18. ....	2,396 18

Section 3 : page R—53, of 1895-6 :

E. Unwatering foundations of retaining walls, 566 l. ft. at \$1.50.....	849 00
F. Unwatering lower entrance pier, lock 19.....	990 89

Section 4 : page R—55, of 1895-6 :

G. Unwatering Robertson's Culvert.....	9,643 90
E. Unwatering foundations of retaining walls, 916 l. ft. at \$1.50.....	1,374 00
F. Unwatering lower entrance pier, lock 20.....	1,724 02

I inclose copies of the contracts in question and also of the pages of the Auditor General's Report for 1895-6, and of the Treasury Board overrulings referred to in the Auditor General's letter.

I also call your special attention to the remarks made on pages 12 and 13 of the Auditor General's letter in reference to the powers of the engineer and in reference to these disputed items being all among the extras.

I beg further to draw your attention to a letter from myself as Secretary of the Treasury Board, to you, dated 10th June, 1896, the reply from your department, dated 15th June, 1896, and the Minute of the Treasury Board of 7th July, 1896, set forth on page XLV of the report of the Auditor General for 1895-6, dealing with the question of unwatering, and I have to request that you will be good enough to advise me whether the objection of the Auditor General that there is no Parliamentary authority for the

payment of the above named items for unwatering is well taken or not, and if in the opinion of the Honourable the Attorney General there is authority for the payment of the items in question would you kindly inform me to that effect, citing the authority as required by subsection (a) section 32, of the Consolidated Revenue and Audit Act, so that the matter may be referred to the Treasury Board for their decision.

I shall be glad to hear from you on the subject at your very earliest convenience.

I am, sir, your obedient servant,

The Deputy Minister of Justice.

J. M. COURTNEY, *Secy. T.B.*

RAILWAYS AND CANALS DEPT., OTTAWA, June 25, 1897.

DEAR SIR,—Referring to the matter of the allowance of \$1 per cubic yard of masonry, for the use of Portland cement in place of Native cement (hydraulic cement) and asking how it is that 50 cts. per cubic yard only was allowed on the Tay Canal, as both these arrangements took place previous to my entering upon the duties of chief engineer of canals, I am unable to explain; but upon reference to the records of the department, I note the 50 cts. per cubic yard allowance, applies to the use of Portland cement in place of "Hull cement."

Yours faithfully,

The Secretary, Treasury Board.

COLLINGWOOD SCHREIBER.

AUDIT OFFICE, OTTAWA, July 2, 1897.

SIR,—Let me acknowledge receipt of your letter of June 21, inclosing Mr. Rubidge's report of June 18, 1897, concurred in by yourself.

*Reinforcing South Banks at 65 cents a yard.*

The question which I have twice asked concerning this item is again overlooked by Mr. Rubidge, namely: What was the nature of the work at sections 3 and 4, which made the contract-rate of 35 cents for borrow-pit excavation inappropriate? or in other words: What was the difference, on sections 3 and 4, between "Reinforcing banks at 65 cents," and "Borrow-pit excavation under contract at 35 cents?"

A brief recapitulation of the facts will show the necessity of this information.

The three items for "Reinforcing south banks" are:—

Sec. 2:—West of lock 18, 25,800 cubic yards at 65 cts. . . .	\$16,770
Sec. 3:—East of lock 19, 19,600 cubic yards at 65 cts. . . .	12,740
Sec. 4:—East of lock 20, 9,000 cubic yards at 65 cts. . . . .	5,850

The work on section 2 was done in 1891 or 1892; that on sections 3 and 4 in the summer of 1896.

The section 2 reinforcement was first returned as "Borrow-pit excavation," for which 35 cents is the contract-rate. Mr. Rubidge subsequently valued it at 60 cents, on account of the extreme haste with which it had to be done; and finally, 65 cents was sanctioned by the chief engineer, and accepted by the contractors, under date of June 13, 1896, the Messrs. Davis stipulating that the same price be paid to them for similar work on sections 3 and 4. Note well that Mr. Rubidge's explanation mentions no inherent difficulty of the work itself on section 2—but only urgency—as a reason for the higher price of 60 cents.

It is not for me to say whether 60 or 65 cents is a proper remuneration for the urgency which Mr. Rubidge describes; but the progress estimates show that the 25,800 cubic yards of reinforcement on section 2 must have taken several months to accomplish, and therefore the claim of urgency is not applicable to the whole quantity. I attach a statement of all the "Borrow-pit excavation," made up from the progress estimates on section 2. Please ask Mr. Rubidge to separate out of it the quantities (month by

## Auditor General's Report.

month) which correspond to the item for "Reinforcing banks." (NOTE: This statement is shown on page xcvi of the present report.)

The two preceding paragraphs deal with the price on section 2 for work in 1891 or 1892 under urgency; the four following paragraphs deal with the price on sections 3 and 4, for work in 1896 under no urgency.

My letter of October 19, 1896 (R-314) reads: "Mr. Rubidge's explanation of the rate of 65 cents involved local considerations peculiar to section 2 itself, and was therefore inapplicable to sections 3 and 4. Please obtain further statements from Mr. Rubidge as to the two latter sections."

Again, under date of June 10, 1897, I wrote: "No explanation has yet been given for reinforcing banks at 65 cents a yard on sections 3 and 4. I do not yet understand the difference between this and the ordinary 35-cent work. Please let me have a fully detailed description of the difference, with a certificate that the 65 cents is fair and just."

Instead of answering these questions, which plainly relate to sections 3 and 4 only, Mr. Rubidge repeats and amplifies his description of the urgency of the work on section 2 in 1891 or 1892—which is another matter altogether, and of several years' earlier date.

Was there any difference at all, between the "Reinforcing banks on sections 3 and 4 at 65 cents," and "Ordinary Borrow-pit excavation at 35 cents"? and if so what was it? Unless this question is answered, it must be assumed that the extra 30 cents a yard on 19,600 and 9,000 cubic yards (amounting to \$3,580) cannot be justified, and that the contractors are completely paid for this item on sections 3 and 4 by the 35 cents a yard which they have already received.

Our case may be stated in another way. The 65 cent rate for Reinforcement on section 2 is made up of 3 parts: "A", 35 cents for borrow-pit excavation; "B," pay for any difference in their nature between reinforcement and borrow-pit excavation; and "C", pay for urgency in 1891. Now, on sections 3 and 4 in 1896, there was no urgency—Mr. Rubidge assures us of this; so no pay under head "C". We have repeatedly asked, how did the reinforcement on sections 3 and 4 differ in its nature from borrow-pit excavation: no information,—and therefore no pay under head "B". This leaves only 35 cents, which has been paid already.

### *Extra \$1. a yard for Portland Cement.*

Against Mr. Rubidge's calculation in support of \$1 a yard extra, I raise three objections: (A), That his figures are incomplete: (B), that a discrepancy pointed out by me June 15, 1897, has not been explained: (C), That, from the dates given, \$1 extra is too much for a large number of the later items.

(A). Mr. Rubidge says: "The Portland cement required to lay one yard of masonry would cost \$1.32, and the Native cement 41c. One barrel of cement will lay from 2 to  $2\frac{1}{2}$  yards of the new lock masonry." It is not said whether it is one barrel of Portland cement or one barrel of Native cement, which will lay from 2 to  $2\frac{1}{2}$  yards of new lock masonry. It is essential that this information be completed, as I understand that Portland will do more work than Native cement of the same volume. The Minister of Railway and Canals is of the same opinion, see "Hansard" of June 24, 1897, page 5227: where he says: "It takes a great deal more of the Native cement than of the Portland to do the same work." For whatever difference there is of this kind, a numerical measure will also be necessary.

(B). Taking  $2\frac{1}{4}$  yards as the mean of Mr. Rubidge's figures for the quantity of masonry to be laid by one barrel of cement,  $2\frac{1}{4}$  times \$1.32 and 41c. give \$2.97 and 92 $\frac{1}{4}$ c. respectively, as barrel prices for Portland and Native cement. Native cement has always been much higher than 92 $\frac{1}{4}$  cents a barrel, as far as I remember for the quality specified on the Cornwall Canal. This discrepancy, through pointed out before, is not yet explained.

(C). The extra \$1 a yard for Portland cement has raised random-coursed masonry from \$5.50 to \$6.50, lock masonry from \$7.95 to \$8.95, and weir masonry from \$12.50

to \$13.50. No arrangement could be made in 1887-88 to fix a price for substituting Portland cement in all future masonry, both contract and extra; but orders would need to be given from time to time, as each piece of work was begun, that Portland cement should be used in it, and an extra price paid therefor. (This was the plan followed at the Galops: see page R—280 of 1895-96). The engineer was free at any time to build any masonry he chose with Native cement. Such being the case, it was the current market difference (at each time) in price between the two cements which should have governed him in each transaction, instead of the uniform \$1 a yard which was based on the ancient rates of 1887-88. And even the 1887-88 rates, which indicated to Mr. Rubidge a difference of \$1 a yard by his calculation for the Cornwall Canal, indicated only 50 cents a yard to Wm. Davis & Sons by their calculation for the Tay Canal on July 4, 1888, as is shown on page R—279 of my report for 1895-96.

Mr. Rubidge explains orally (June 25, 1897) that Native cement on the Tay Canal was the Hull brand, and that Native cement on the Cornwall Canal was from Mr. Battle's factory at Thorold—a much better quality than the Hull make, to comply with the specification "Best hydraulic cement, Canadian manufacture of approved quality." On this explanation, the difference between Portland and Thorold should be less than the difference between Portland and Hull,—or less than 50 cents instead of greater.

Please make up, from the departmental records, a list of the different orders which were given for the substitution of Portland cement—with their dates, and the expense incurred under each. I should also like to have a calculation for each year since 1887, based on the average current market prices for Portland and Thorold cement, showing the gradual change (from 1887 down to the present time) in the difference of cost per yard due to using the one cement instead of the other.

*Coping and Repairs to Masonry in Walls of Old Lock 19.*

Mr. Rubidge's statement, that "The ashlar in lock 19 was very different to that in lock 20, for the reason that the wall was too narrow to admit of backing being used," is an addition to the information previously on record; but the difference will need to be valued in money before it is definite enough for the purposes of the present discussion. The fact that the proportion of the classes of work is not the same in the two locks (which he quotes as a weakness in our calculation of \$52.01 and \$6.98) is really what made the calculation of these amounts possible, as he will see if he examines it again; and his description of the complicated cutting of the ashlar-work in lock 19 applies equally well, I believe, to lock 20, and therefore does not affect that calculation.

There is no necessity for paying such different services as the coping and the ashlar together at the same rate. The quantity of coping is clearly defined in each lock and can be valued by itself at an appropriate yard price. The underlying ashlar can then be valued separately in each lock, if the work is not of the same nature in the two.

In all cases, whatever is paid should be shown out as plainly as possible, where no other reasons require secrecy. It is only in this way that certificates of "Fair and Just" can be approved intelligently by the paying public—instead of being reluctantly accepted as the unquestionable dicta of unauditale officials.

Please get separate values placed upon coping and ashlar in old lock 19, and ashlar in old lock 20, to see if they substantiate the rates for coping and ashlar jointly, of \$24 at lock 19 and \$14 at lock 20

I should like to be informed of the quantity of old stone, if any, which may have been taken out and replaced in old locks 19 and 20, and of the rates certified therefor.

*Coping and Repairs to Old Locks 15, 16 and 19.*

The correspondence recently supplied to me contains the following letter from Mr. Schreiber to Mr. Rubidge, under date of June 13, 1896: "The recoping of old locks 15, 16 and 19 of the Cornwall Canal being extra work, prices have to be made by the engineer and agreed upon with the contractor. Similar work having, as you state,

## Auditor General's Report.

"been executed at lock 20, for which fair and reasonable prices were established when the work was done, and that the work now to be done is of equal value, it has been agreed between you, me and the contractors that they shall be paid these prices for this work; and I am to authorize you to proceed with the work."

M. Schreiber explains orally (June 29, 1897) that the lock 20 referred to above is old lock 20—a fact which is also evident from the description.

The work at old lock 20 is entered in the October, 1896, estimate as "1,330 yards at \$14." The price, then, for the works at old locks 15, 16 and 19 was fixed by this letter at \$14 a yard, as agreed upon between Messrs. Rubidge, Schreiber and Davis.

Mr. Rubidge quotes a letter dated June 13, 1896, from himself to the contractors, subsequently cancelled, of which I have asked Mr. Schreiber orally for a copy (June 27, 1897). Until this copy arrives, I think we may infer that it contained instructions to the contractors to proceed under the arrangement above described.

The next letter is one from Mr. Rubidge to Messrs. Davis, dated June 16, 1896, enumerating, as items still to be done, the renewal of coping and necessary repairs at old locks 15, 16 and 19, the reinforcing of banks at locks 19 and 20, and the construction of the guard gates. This letter goes on to ask Messrs. Davis if they are prepared to undertake the work, and if so, to state upon what terms; and it closes with the postscript "My letter of the 13th instant is hereby cancelled."

The Messrs. Davis replied June 17, 1896, among other figures, that they were prepared to do the coping and repairs to old locks 15, 16 and 19 at \$24 a yard—an increase of \$10 a yard over the price already accepted by themselves. This rate appears to have been approved by the engineer, as the work has been returned at \$24 in the progress estimates, being 1,200 yards up to April 30, 1897, or \$12,000 of an excess at \$10 a yard.

Why were the contractors not held to their acceptance of \$14 a yard? And how could \$24 be "fair and just" on June 17, 1896, when \$14 was "fair and reasonable" only four days earlier?

### *Guard Lock above Lock 20.*

To the objection that this work should not have been given without tender, except by amending the Order in Council of May 23, 1880, Mr. Rubidge replies: "The structure was designed to protect, and be operated in connection with Lock 20 and weir; it was understood not to be a new contract, and that no Order in Council was necessary."

The guard-lock above lock 20 is specified to be "within 500 ft. of the west end of the present retaining wall;" and the retaining wall extends 642 ft. westward from Lock 20. With over 1,100 ft. between them, it is difficult to understand what is meant by its "operation in connection with Lock 20." A similar argument would have placed such works as the Welland or Soulanges Canal all under one contractor, since each section must necessarily be operated in connection with the two contiguous sections. The test prescribed by the Order in Council of May 23, 1880, is a clearer one, namely: the costing over \$5,000. The May, 1897, Estimate, shows \$66,170 of work done on the Guard-Lock and weir, and an Order in Council will therefore be needed for dispensing with advertising for tenders.

As to the Guard-Lock not being urgent in June, 1896, Mr. Rubidge (overlooking my reference to the November Estimate) states that "during the summer and autumn months the work of quarrying and cutting the stone was actively carried on at the quarries." Of any cut stone prepared between July and October, the most of it would probably have got into the November, 1896, estimate, as "materials delivered." Now this estimate contains only 1,000 yards of rough and backing stone, while the 1,200 yards of cut stone does not appear until the next estimate, that for February, 1897.

### *Masonry in Guard-Lock at \$13.50 a yard.*

It is explained by Mr. Rubidge that the masonry in the guard-lock is more difficult than ordinary lock-masonry, on account of the greater proportion of dressed stone

as compared with backing. While admitting a difference, in that the northern face of the northern lock-wall is of dressed stone, I do not understand that the same difference exists in the southern face of the southern lock-wall. Please call Mr. Rubidge's attention to this point.

The estimate for May, 1897, shows the guard-gates and weir to have cost \$66,170, of which \$29,430 is for "masonry in Portland cement, 2,180 cub. yds. at \$13.50," being \$12.50 as in the 1888 contract for weir-masonry, and \$1 additional for Portland cement. Outside of the possibility of improved methods having lowered the cost of the \$12.50 work since 1888, one very marked result of the haste in establishing these rates in 1896 is shown in the fact that the allowance for Portland cement is left at \$1 a yard (though this was based on 1888 figures), while Mr. Rubidge explains elsewhere that 28 cents a yard is the appropriate difference in 1897. This being 72 cents of a fall in nine years, we may assume say 28 + 8, or 36 cents as the difference in 1896. The \$1 a yard would then be an overpayment of 64 cents—or \$1,395.20 on 2,180 yards, for Portland cement alone.

It is no justification of a price, to say that it is the same as that for which the contractors performed similar work several years before. If the rate is now too high, they are glad to get it—and if it is now too low, they will not take it; so the Government can never be the gainer. Moreover, it is out of the original rates that the contractors provide a large part of their plant, and they should be able to bid for additional work at that much less.

As a very reliable indication of the effect of modern and improved methods of construction, in lowering prices of masonry since 1888, I quote the following items from the tender of the "Canadian Construction Co." for the lock walls and piers at Farran's Point:—

29: Masonry, cut face, in Portland cement . . . . .	\$6 50
30: Masonry, cut face, in hydraulic cement . . . . .	6 00
31: Masonry, picked face, in Portland cement . . . . .	5 90
32: Masonry, picked face, in hydraulic cement . . . . .	5 70

It should have been possible to obtain somewhat similar rates by advertising the Cornwall Canal guard-lock for public competition. Had \$6.50 been obtained instead of \$8.95, the same ratio would give \$9.80 instead of \$13.50. The difference between \$9.80 and \$13.50, on 2,180 yards, would have been a saving of \$8,066, on this item alone, even allowing it all as weir-masonry.

#### *Unwatering for Guard-Lock, \$7,000.*

In view of the short time during which this work lasted, it should be possible for the engineer to make an approximate calculation of the different items of the cost of unwatering as it was actually performed. Please see if this can be done.

Mr. Rubidge explains, as one reason for approving such a large sum as \$7,000, that the contractors assumed all risk about the date of commencing. This would, of course, be necessary if two or more firms were tendering, being the only means of comparing their tenders. But in dealing with one firm alone, it would have been preferable to leave the amount for unwatering open until the date of commencing the work was known,—or to fix different amounts to correspond to different possible dates of commencing—instead of asking the contractors to name a risk-rate to cover either a long or short time. They would very naturally name in June, 1896, a rate to cover the longest risk of time for the next winter and spring's unwatering—whereas the actual building of the lock was compressed into a very few weeks of March and April, 1897.

It will be remembered that locks 2, 3 and 4 were unwatered for \$2,500, \$2,500 and \$2,000 respectively, under the contract, although it was known that the work would be of much longer duration than was the unwatering of the guard-lock.

## Auditor General's Report.

### *Spare Lock Gates.*

As indicated in my letter of June 15, the calculations therein shown were based on the probable duplication of all the gates, both upper and lower, as well as their equipment. If the upper gates, and a portion of their equipment, be omitted from the calculation, of course, the total is less in that proportion.

The essential result, however, is the difference between the Miller rates and the Davis rates: that is, for every \$10,000 paid to Messrs. Davis for lock-gates, we would have had to pay only \$7,441 by the Miller schedule of prices.

### *Masonry in extension-walls, raised from \$8.95 to \$13.50.*

Mr. Rubidge, in his letter of June 18, 1897, does not discuss the argument on this head presented in pages 5, 6 and 7 of my letter of June 17. Please call his attention to this subject, and ask him if there are any additional facts which modify the conclusions therein drawn. The argument against this transaction may be further developed as follows:

There would appear to be no object in fixing \$13.50 for the extra difficulty of weir-masonry, if an unlimited length of wall of \$8.95 quality could be added at pleasure to the weir, and charged at \$13.50 also. The extension-walls, being arbitrary in length, could be prolonged to any distance even (to suppose an extreme case) from one lock to another; we would then see, (as we do in part now), the south bank paid for at \$8.95 as lock masonry, and the north bank paid for at \$13.50 as weir-masonry, though of identically the same description. The only proper place to draw a line between \$13.50 weir-masonry and ordinary \$8.95 masonry should be at the place where the extra difficulty of weir-masonry ends, that is to say, where the line was drawn at the time the work was done.

I am further of the opinion that a careful reading of the original specification will shut out this claim entirely. The first plan was, to build the weirs at the head of the old locks (which were to be abandoned as locks), connecting them therewith by short side-walls. The items in the contract-schedules are: "Masonry in walls of weir, \$12.50"; and "Random-coursed masonry in side-walls above and below weir, \$5.50." Now, if the contractors' present interpretation be applied to the original plan, all would have been weir masonry at \$12.50,—leaving no side-walls to provide for separately, and no reason for placing this item in the schedule.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.

J. L. McDUGALL, A.G.

NOTE.—A copy of the preceding letter and statement was sent to the Treasury Board.—J. L. McD.

### Memorandum *re* Contracts Wm. Davis & Sons, Sections 2, 3 and 4, Cornwall Canal Enlargement.

OTTAWA, 2nd July, 1897

To the Honourable

The Treasury Board.

The undersigned, Auditor General and Deputy Minister of Finance, have the honour, under and in accordance with the provisions of subsection c of section 32 of the Consolidated Revenue and Audit Act, to submit the following report in reference to the objections made by the Auditor General to certain payments to Messrs. William Davis & Sons under their contracts and subsequent agreements for work on sections 2, 3 and 4 of the Cornwall Canal Enlargement, for which payments applications have been made by the Department of Railways and Canals.

The amount in question as calculated by Messrs. Davis & Sons and detailed in the letter from the Auditor General to the Secretary of the Treasury Board under date of the 17th June, 1897, was \$107,735.92, but since that letter was written a thorough examination and analysis of the accounts have been made, with the result that certain items have been paid, and the amount in controversy has now been reduced to \$93,684.91, the items being as follows, dividing them into classes as far as possible:—

#### I.—CLOSE-PILE TRENCHES.

The applications now made by the department in regard to the close-pile trenches are:—

A. Excavation for close-pile trenches (between 1 to 1 slopes) sections 2 and 3, 13,597 cubic yards at 32cts. a yard .....	\$ 4,351 04
B. Extra allowance on same (actual excavation) 3,155 cubic yards at 64cts. a yard .....	2,019 20
C. Electric light plant for same .....	2,326 08

	\$ 8,696 32
Less paid on account .....	4,448 00

\$ 4,248 32

## Auditor General's Report.

The items in question are those marked A, B, and C on pages 1 and 2 of the Auditor General's letter of the 17th June, 1897.

The price named in the specifications for excavation of the close-pile trenches is the same price as for lock-pit excavation, viz., 32 cents a cubic yard. The contractors claim—1st. That the number of cubic yards on which payment should be based is the volume ascertained after taking into account the 1 to 1 slopes in the same manner as provided on page 7 of the specifications in the case of the lock-pit excavation; 2nd, That they should have an extra allowance on the grounds that the trench had to be carried to a greater depth than indicated in the specification and plan, and that the work was so urgent that a large part of it had to be carried on night and day—this extra being certified to by the engineer at 64 cents a yard on 3,155 cubic yards as above indicated; 3rd, That they should be paid for the electric light plant used in connection with the work, on the ground that it would not have been required had the work not been urgent.

As to the first claim—the Auditor General objects to the above-described method of ascertaining the number of cubic yards in the trenches on which payment is to be made. It seemed to him on examination of the specifications, and he is still of the same opinion, that the specification in respect of the close-pile trenches fixed only the rate (32 cents) at which payment was to be made, and did not specify that the same method of ascertaining the volume was to be applied as clearly set forth in regard to the lock-pit excavation. He considers that the pile-trench excavation did not present the difficulties which called for the addition of 1 to 1 slopes in the case of the lock-pit excavation. The lock-pit was subject to slides because open for several years, and it was in consequence of this that the slopes were included in calculating the volume of the work; whereas most of the pile-trench work was open only for a few days, and the rest was protected during the winter by being filled with manure. Moreover adding 1 to 1 slopes to the lock-pit excavation meant an addition of only 37.71 per cent, whereas this addition to the pile-trench excavation meant an increase of 248 per cent, and this in the opinion of the Auditor General indicates that the contractors' claim to include the 1 to 1 slopes is an unreasonable one.

On closer examination of the language of the specifications, however, the undersigned have to observe that the question involves a legal interpretation of the wording of the specifications, and they suggest that possibly the Treasury Board might consider the question one which properly should be submitted to the Department of Justice for opinion as to whether the specifications for the work in question committed the Government to the addition of the 1 to 1 slopes to the actual excavation in calculating the volume of the excavation in the close-pile trenches.

As regards the second claim—for extra allowance on account of increased depth and urgency—the Auditor General claims that of the 3,905 cubic yards originally stated as actually excavated, only 2,419 were excavated in the spring of 1889 under circumstances involving urgency. The rest of the work was done either in the fall of 1888, or in the summer of 1889, and in respect of such work the Auditor General contends there was no urgency. Moreover, only 1,725 cubic yards were excavated to an unexpected depth, out of the whole quantity of 3,905 yards.

As regards the third claim—for electric light plant—the Auditor General is prepared to certify for payment thereof as soon as he receives properly certified vouchers therefor.

The Auditor is willing to allow the sum of \$5,538.74 made up in the method indicated in page XLII. of his report for 1895-96 (but subject to slight variation in the final measurement of quantities) as full payment for the excavation of the close-pile trenches, the cost of the electric light plant, and the allowances for urgency and increased depth. From this sum would have to be deducted the \$4,448 already paid, leaving a balance to be paid on the items under discussion, of \$1,090.74.

## II.—UNWATERING.

Wood's culvert, southern extension . . . . .	\$ 2,142 00
Foundations of retaining walls, sections 2, 3 and 4 . . . . .	4,743 00
Lower entrance piers locks 18, 19 and 20 . . . . .	5,111 09
Robertson's Creek Culvert . . . . .	9,643 90
	\$ 21,639 99

To these items the Auditor General has raised the objection under subsection *a* of section 32 of the Audit Act that there is no Parliamentary authority for their payment; inasmuch as the unwatering is not mentioned in the contract-schedule of prices nor in the schedule of the special agreement, and he contends that it is covered by the yard-prices for masonry. This objection on the part of the Auditor General has been referred, under subsection *a* to the Minister of Justice, and is still before him. Should he decide that the objection of the Auditor General is well taken, no payment can, of course, be made; but should he hold that the objection is not well taken and that the unwatering may be paid, then the Auditor General objects to the payment of the \$9,643.90 for unwatering Robertson's Culvert, on the ground that the price is much too large for the work performed. The method by which these figures are arrived at by Mr. Rubidge, the Superintending Engineer, is shown on pages R-302 and XL of the Auditor General's report for 1895-96. The views of the Auditor General are set forth at length in his letter to the Department of Railways and Canals under date of the 12th May, 1897, in which letter the Auditor General claims that the amount was fixed without any reference to the work actually done, and that it is probably many times its value, and requests that he be furnished with a calculation of the work actually done—a calculation that has not yet been supplied him.

## III.—MASONRY.

Masonry in retaining walls:—

4,236 cubic yards at \$4.55, difference in price between lock and weir masonry . . . . .	\$ 19,273 80
---	--------------

In reference to this item, the undersigned have to state that the price under the contracts for lock masonry is \$8.95, and for weir masonry \$13.50—the difference being on account of the greater amount of work required to be done on weir masonry. The masonry referred to above was first returned at \$8.95; but in August, 1896, the price was changed to \$13.50, the reasons for the change being set forth in Mr. Weller's letter of the 26th May, 1897, to the Superintending Engineer. The objection of the Auditor General is that the masonry in question is the same in quality as lock masonry, and is not of the quality of weir masonry, and that the points where one kind of masonry begins and the other leaves off have been fixed, not by the quality of the work, but by arbitrary lines drawn by the Engineer; furthermore, that the masonry paid at \$13.50, prior to the date of the change, constituted a complete weir; and that the additional retaining walls, now sought to be classed as weir masonry, merely because they are contiguous to a weir, are not a necessary part of a weir as such.

There would appear to be no object in fixing \$13.50 for the extra difficulty of weir-masonry, if an unlimited length of wall of \$8.95 quality could be added at pleasure to the weir, and charged at \$13.50 also. The extension wall being arbitrary in length could be prolonged to any distance, even (to suppose an extreme case) from one lock to another. It would then be seen (as is in part now) that the south bank would be paid at \$8.95 as lock-masonry and the north bank paid for at \$13.50 as weir-masonry, though of identically the same description. The only proper place apparently to draw the line between \$13.50 weir-masonry and ordinary \$8.95 masonry is the place where the extra difficulty of weir-masonry ends, that is to say where the line was drawn at the time the work was done.

## Auditor General's Report.

The Auditor General is of the opinion that a careful reading of the original specification will shut out this claim entirely. The first plan was to build the weir at the head of the old locks (which were to be abandoned as locks), connecting them therewith by short side walls. The items in the contract schedules are: "Masonry in walls of weir, \$12.50," and "Random-coursed masonry in side-walls above and below weir, \$5.50." Now, if the contractors' present interpretation be applied to the original plan, all would have been weir-masonry, leaving no side-walls to provide for separately, and no reason for placing the item in the schedule.

### IV.—PORTLAND CEMENT.

Laying masonry in Portland cement instead of Native  
Cement, 6,388 cubic yards at \$1 a yard. . . . . \$6,388 00

The original specifications prescribed best hydraulic cement of Canadian manufacture, but at an early period of the work the use of Canadian cement was abandoned and Portland cement substituted, and the yard prices of masonry were increased by \$1, namely:—

Random-coursed masonry from \$5.50 to \$6.50; lock-masonry from \$7.95 to \$8.95; and weir-masonry from \$12.50 to \$13.50. There was no mention of Portland cement in the specifications or in the schedule-prices, and it is explained by the superintending engineer that the \$1 a yard increase represented the difference in 1888 in cost between the Native and Portland cement, although the prices have since relatively changed so that the difference has now fallen to about 28 cents. The superintending engineer has also orally stated (25th June, 1897) that it was an understanding with the contractors at the time the Portland cement was substituted that the extra \$1 a yard allowed them for Portland cement was to be continued throughout the contract. The objections of the Auditor are as follows:—

1st. That the figures given by Mr. Rubidge would show that in 1888 Native cement of the quality then used by them could be purchased for 90 cents a barrel, which does not seem probable;

2nd. That in July, 1888, Messrs. Davis & Sons accepted 50 cents a yard on the Tay Canal as the difference between Hull and Portland cement, although the Hull cement was inferior to the Thorold Hydraulic cement used at first on the Cornwall Canal;

3rd. That in proportion as the difference in market price between the Portland and Native cement decreased from 1888 to the present time, the allowance per yard in 1888 (whether \$1 as fixed on the Cornwall, or 50 cents as paid on the Tay Canal), should have been lessened from time to time as the extra works were successively ordered.

### V.—REINFORCING BANKS.

Reinforcing banks, sections 3 and 4: 28,600 cubic yards  
at 30 cents a yard (price in excess of 35 cents). . . . . \$8,580 00

The banks were originally built in part out of the excavation from the channel and in part out of the excavation from borrow-pits. The latter work was paid for at 35 cents a yard. The banks near the locks were subsequently reinforced by bringing more earth from the borrow-pits, and this earth has been entered in the progress estimates at 65 cents a yard. Similar work was done on section 2, and the actual quantity of such work on section 2 (25,800 yards) was returned in the progress estimates as 46,000 yards at 35 cents. Similar returns of fictitious quantities, in respect of masonry laid in Portland cement, will be found discussed at page R—313 of the Auditor General's Report for 1895-6.

The attention of the Department having been called to these irregularities, which were only discovered by accident, it was explained that in the case of section 2 the reinforcement of the bank was urgently necessary and the work in the opinion of the engineer was worth 60 cents a yard, and paid at 65 cents as a compromise, and that in order to allow this price, the engineer took the actual number of yards excavated and

added 85 per cent thereto and carried out the amount in the estimates at 35 cents. It is now stated that the estimates will in future contain no quantities in excess of the actual work done.

It is further explained by the Superintending Engineer that he fixed the value of the forced work on section 2 at 60 cents, but the contractors claimed 75 cents and offered to accept 65 cents if the same rate was allowed on similar works on sections 3 and 4. This was agreed to by the department as shown by a letter from Mr. Schreiber to Mr. Rubidge under date of the 13th June, 1896, locks 19 and 20 therein referred to being in sections 3 and 4 respectively. The letter referred to is as follows :—

OTTAWA, 13th June, 1896.

MY DEAR SIR,—I am to authorize you to have the work of strengthening and reinforcing the banks at locks 19 and 20 on the Cornwall canal, proceeded with at the price of 65 cents per cubic yard, which is the price originally fixed by you, and my predecessor in office, and which you state to be a fair and reasonable price, and in which I concur, from your description of the work and the mode in which you require it to be done.

Yours truly,

TOM S. RUBIDGE, Esq.,  
Cornwall.

(Sgd.) COLLINGWOOD SCHREIBER.

The Auditor General passed the rate of 65 cents for the work on section 2 on the ground of its urgency, after an oral explanation given at the time. When the work on sections 3 and 4 first appeared in the progress estimates in July and August, 1896, the Auditor General (see page R—314), asked for a description of its nature as an explanation of the increased rate. Mr. Rubidge, in his letter of explanation of the 18th June, 1897, treats of the urgency on section 2 (work done in 1891) and says nothing whatever of any urgency being necessary on sections 3 and 4 (work done in 1896). In fact in an interview with the Deputy Minister of Finance (25th June, 1897), Mr. Rubidge admitted that the work on sections 3 and 4 was not urgent, but that the price was certified to by him under the authority of the letter from the department above quoted.

It will be noticed that Mr. Rubidge, who is the engineer in charge of the works, estimates the forced work on section 2 as worth only 60 cents, and it is a fair inference that he would have valued the non-urgent work on sections 3 and 4, separately from section 2, at a less rate than 60 cents. Moreover, there has been no evidence given (though asked for) that the work on sections 3 and 4 differed in any manner from ordinary 35 cent borrow-pit excavation.

#### VI.—COPING AND REPAIRING OLD LOCK 19 (\$4,800).

The estimate for this work contains 480 yards at \$24. The Auditor General has passed \$14 a yard on account, leaving \$10 a yard in suspense, or \$4,800. The \$14 a yard was the rate paid for a somewhat similar service at lock 20, and the Auditor General is still in correspondence with the department, as to the nature of the difference between the work on the two sections. Mr. Rubidge's last letter (18th June, 1897) contains new information of importance, but which is not yet definite enough to enter into any calculations of values.

#### VII.—COPING AND REPAIRING OLD LOCKS 15 AND 16 (\$17,280).

The amount is \$17,280, being \$24 a yard on 720 yards. Against the payment of this the Auditor General raises two objections :—

1st. That under the Order in Council of 23rd May, 1880, which provides that all contracts for works over \$5,000 shall be let by public tender, this work should have been advertised.

## Auditor General's Report.

2nd. That the rate of \$24 is based on similar works at old lock 19, which is still under examination.

In answer to the first objection Mr. Rubidge states orally that the contract for section 2 was understood to include any work that might need to be done to complete section 1, which he says was left unfinished by the former contractor. No trace of this understanding can be found in the specification for section 2, which treats of no other work on section 1 than the raising of the walls on lock 17. Locks 15 and 16 appear to have been entirely outside the ground covered by the Davis contracts.

In regard to the question of the rate per yard it would appear that on the 13th June, 1896, Mr. Schreiber wrote to Mr. Rubidge as follows:—

“OTTAWA, 13th June, 1896.

“MY DEAR SIR,—The re-coping of old locks 15, 16 and 19 of the Cornwall Canal being extra work, prices have to be made by the engineer and agreed upon with the contractor, similar work having, as you state, been executed at lock 20, for which fair and reasonable prices were established when the work was done, and that the work now to be done is of equal value, it has been agreed between you, me and the contractors that they shall be paid these prices for this work, and I am to authorize you to proceed with the work.

“Yours truly,

“COLLINGWOOD SCHREIBER.”

“T. S. RUBIDGE,  
“Cornwall.”

It is explained orally by Mr. Schreiber that lock 20 in the letter shown above means old lock 20 and not new lock 20. The rate of old lock 20 was \$14 a yard, so that this fixed \$14 as the rate at old locks 15, 16 and 19 agreed upon by the contractor and the engineers.

Mr. Rubidge wrote to Messrs. Davis 13th June, 1896, presumably in the sense of Mr. Schreiber's letter to himself of the same date. This letter to Messrs. Davis is not in the department, but they have sent to Cornwall for a copy.

Mr. Rubidge, on the 16th June, 1896, wrote again to the contractors: “I have received instructions from the chief engineer to proceed with the following works, namely:—

“*Section No. 1*:—Renewal of coping and necessary repairs connected therewith to Old Locks Nos. 15 & 16;” and he asked on what terms the contractors would be prepared to undertake the work. Mr. Rubidge, closed this letter of June 16th with the postscript: “My letter of the 13th instant is hereby cancelled.”

In reply, the contractors on the 17th June, 1896, stated that they agreed to do the coping and repairs to masonry of Old Locks Nos. 15, 16 and 19 at \$24 per cubic yard.

The work done under this arrangement up to April 30th, 1897, was 1200 yards of masonry, making a difference of \$12,000 by the price being raised from \$14 to \$24.

The Auditor General further remarks, that a quantity of old stone, taken out of the old locks, has been put back into them by the contractors, for which they have received the same price as if it were new stone. The Auditor General is now corresponding with the department, to ascertain the extent to which this has been done.

### VIII.—OLD LOCK 17—HIRE OF STEAM HOIST SCOW (\$266.80).

This is an item of \$232 for 23.2 days' service of steam hoist scow at \$10 a day, and 15 per cent added thereto for use of tools and plant \$34.80, in all \$266.80. These items appear in the bill of \$3,328.77, for raising and repairing Old Lock 17. By the specifications the contractors were to be repaid for this work their actual outlay, together with 15 per cent, for the use of tools, plant, &c. The Auditor General holds that the scow in question was a part of the plant and was, therefore, paid by the 15 per cent on the rest of the bill.

## IX.—SPARE LOCK GATES (\$3,448).

Charges are made in the August and November Estimates for spare lock gates. The Auditor General objects to payment of items on account of spare gates on two grounds:—

1st.—That since spare gates are not described in the specification they are outside the contract; and costing more than \$5,000 to complete, they should, therefore, have been let by public tender.

2nd.—That the rates charged for the spare gates by Messrs. Davis and Sons, are about one-third higher than those charged by Messrs. J. & R. Miller, for similar work at Locks 15 and 17.

In reply to the first objection Mr. Rubidge claimed in the interview of 25th June, 1897, that the wording of the specification in regard to lock gates does not explicitly shut out spare gates, and he further stated that in his experience of 54 years it had always been the practice in establishing a new canal to provide spare gates for the lower recess of each lock, and that such spare gates being a necessary part of the outfit of the canal they should be considered as coming under the original contract. It was also stated by the Chief Engineer that spare gates were provided in the case of the Sault Canal, and he believed it was the practice.

The Auditor General points out, that the Sault Canal gates were built under two separate contracts—one for 5 pairs of gates, and another for an extra pair; so that all were specified, and the cases are not parallel. His objection to the Cornwall spare gates is, that they were not specified.

The question is still under discussion between the Auditor General and the Department of Railways and Canals.

## X.—GUARD GATES ABOVE LOCK 20 (\$7,760.00).

The estimates of November, 1896, contained items on account of materials delivered for guard gates amounting to \$7,760. This work, the charges for which up to May, 1897, amount to over \$66,000, was outside the contract, and the Auditor General makes the objection that the provisions of the Order in Council of 23rd May, 1880, have been disregarded in that no public tenders were asked for.

The prices for the materials for the guard gates were fixed by the contractors in their letter to Mr. Rubidge, dated 17th June, 1896, in reply to a letter from him of the 16th June, asking what their terms would be, Mr. Rubidge's letter being written under authority of a letter from Mr. Schreiber, of the 13th June, 1896.

It is claimed by Mr. Rubidge that, although the work is extra, and over \$5,000 in value, it was considered as an extension of the contract with Messrs. Davis & Sons, and that it should be done by them as a part of their work on section 4.

The Auditor General, in a letter of the 15th June, 1897, has asked for further information concerning the nature of the work. This information has been partially supplied by the Department of Railways and Canals, and the matter is still under discussion.

## GENERAL OBSERVATIONS.

Before finishing their report, the undersigned deem it their duty to make certain remarks which have suggested themselves to them in analysing the services for which the claims are made. In the first place—with regard to the estimates put in for fictitious quantities of work done, the undersigned are very clearly of opinion, and recommend, in addition to the prices being fair and just as prescribed by the Audit Act, that a general order be passed that in all estimates submitted the Engineer or officer in charge should certify that the work charged for had actually been done: that the work had been properly done; and that the prices were in accordance with the contract.

Secondly—It will be seen on reference to the Auditor General's letter of the 17th June, 1897, that of \$2,377,570.04 of estimates of work performed by Messrs. Davis &

## Auditor General's Report.

---

Sons up to 31st October, 1896, only \$1,168,248.85, or not quite 50 per cent, was under the original advertised specifications and tenders, the disputed items being all extras. While the undersigned admit that it may be more difficult to prepare specifications for the enlargement of an old work than in the case of the construction of a new one, yet they consider the percentage of extra work so great in this case that they would recommend that in future when large public works are let out, the fullest possible consideration should be given in drawing up the specifications so that as small an amount as possible of the work may come under the head of extras.

Thirdly and lastly—The undersigned, from their lack of technical knowledge, have found it extremely difficult to make their report, although the Auditor General has personally been over the ground. Considering the magnitude of the work and the large amount now in dispute, the undersigned would suggest for the consideration of the Treasury Board whether, before giving their decision, it would not be advisable to employ some expert assistance to go over the canal, see the character of the work, and report thereon. The undersigned would recommend, if this suggestion is favourably considered, that it would be advisable to call in some expert unconnected with any of the public works of the country, and of attainments to which no objection could be taken. They, therefore, bring to the notice of the Treasury Board that both at the University of McGill and at the Toronto University there are professorships of engineering attached to the schools of Practical Science, and probably as it is now vacation time it might be possible to ask one of the occupants of these chairs to visit the works and report thereon.

Respectfully submitted,

J. L. McDOUGALL,  
*Auditor General.*

J. M. COURTNEY,  
*Deputy Minister of Finance.*

---

AUDIT OFFICE, OTTAWA, July 5, 1897.

SIR,—Please let me have copies of the parts of the original plans for the Cornwall Canal enlargement, which show the weirs as projected to be built in connection with the old locks, and the random-coursed masonry which was to have joined them. I should like to be supplied with these as soon as possible.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals Dept. J. L. McDOUGALL, A.G.

---

RAILWAYS AND CANALS DEPT., OTTAWA, July 22, 1897.

SIR,—In compliance with the request of your letter of the 5th instant, I have the honour to inclose copies of parts of the original plans of the Cornwall Canal enlargement, showing the weirs as projected in connection with the old lock, and the random-coursed masonry which was to have joined them. I also inclose a copy of a letter from the resident engineer in that relation.

I am, sir, your obedient servant,

The Auditor General.

COLLINGWOOD SCHREIBER, D. M. R. & C.

CORNWALL, July 12, 1897.

SIR,—*Re* Auditor General's letter, 5th July, 1897, I beg to hand you "Copies of the parts of the original plans of the Cornwall Canal enlargement, which show the weirs as projected to be built in connection with the old locks and the random-coursed masonry which was to have joined them."

The specification is very indefinite as to the random-coursed masonry, in fact, not mentioning it at all in connection with the weirs. The form of tender, however, contains the item, "Random-coursed masonry in side walls above and below weir, laid in cement mortar, including coping, dressed to dimensions and batter."

I am, sir, your obedient servant,

TOM. S. RUBIDGE, Esq.,  
Suptg. Engr. St. Lawrence District.

J. L. WELLER, *Resdt. Engr.*

RAILWAYS AND CANALS DEPT., OTTAWA, August 10, 1897.

SIR,—I am requested by the Honourable Minister to say that he has named Mr. Walter Shanly, C.E., as an experienced engineer, to look into the works in connection with the matters in dispute with reference to Messrs. William Davis & Sons' estimates, as he believes Mr. Shanly to be an engineer of the highest standing, and in whom the public have great confidence.

I am, sir, your obedient servant,

The Deputy Minister of Finance.

L. K. JONES, *Secretary.*

MONTREAL, September 17, 1897.

To the Honourable  
The Minister of Railways and Canals.

SIR,—On the subject of certain points in dispute relative to works of the enlargement of sections 2, 3 and 4, Cornwall Canal, under contract with Messrs. William Davis and Sons, referred to me as advisory engineer by the Deputy Minister's letter of 17th of August last, I have the honour to report—that—

The points in difference, embraced under ten heads, are set forth in the Joint Memorandum of 2nd July, 1897, addressed by the Auditor General and the Deputy Minister of Finance to the Treasury Board, and are as under—

Close-pile trenches.....	\$ 4,248 32
Unwatering foundations.....	21,639 99
Masonry, excessive price.....	19,273 80
Portland cement.....	6,388 00
Reinforcing banks.....	8,580 00
Old lock 19, coping and repairs.....	4,800 00
Old locks 15, 16 do.....	17,280 00
Old lock 17, hire of steam hoist.....	266 80
Spare lock gates.....	3,448 00
Guard gates above lock 20.....	7,760 00

\$ 93,684 91

I will take up the several points in the above order, and it will be seen that I have found it necessary to discuss most of them at considerable length. The record touching the whole case is voluminous, and varied, and though the correspondence before me has taken place chiefly within the last two years, the causes for the questioning of certain of the estimates reach much further back.

# Auditor General's Report.

## CLOSE PILE TRENCHES.

The points in dispute under this heading are (or at first were)—

13,597 yds: Excavation at 32 cts.....	\$ 4,351 04
3,155 " do at extra price 64 cts .	2,019 20
Electric plant.....	2,326 08
Certified by Engineers . . . . .	\$ 8,696 32
Less paid on account.....	4,448 00
Amount in dispute—at first.....	4,248 32
Of which the Auditor would allow.....	1,090 74
Leaving still in difference.....	<u>\$ 3,157 58</u>

Under "Paid on account" the item "Electric Plant" (\$2,326.08) is allowed in full. There has been much writing and some printing touching the extra 64 cents allowed in the estimates on a certain portion of the excavation. The Auditor concurs in the reason for the allowance, but demurring to the engineer's mode of arriving at the value adopts a hypothetical rule of his own by which to work out the problem (Report 1895-6 page XLII). Result \$56 less than the engineer's certificate.

The real matter now in dispute is as to the slopes of the trenches. A clause on page 7 of the specification provides that in lock-pit excavation the contractor will be allowed measurement for 1 to 1 slopes—constructive measurement it might be. The allowance was to cover the chances of the sides of the lockpit slipping and causing expense and delay in the prosecution of the work. If the contractors, by good luck, found that the sides of the pit "stood" well without the slopes being taken off he could run his chance and leave them on. If on the other hand the ground proved to be given to slipping and "came in" upon him then he had to remove the slips at his own cost and charges beyond what he would receive under the constructive measurement agreed on.

The contractors hold that in like manner they are to be allowed slope measurement in the trenches. The chief engineer takes the same view. The Auditor General does not accept that reading of the contract. He argues that the slopes form a comparatively small proportion of the whole excavation of a lock-pit 75 feet wide, but an enormously large proportion of a 4 feet wide trench.

That to adopt the same mode of measurement and payment in both cases alike would increase the per yard cost of the narrow rectangular central cut of the 4 foot trench (slopes left in) to "a figure so incongruous with the rest of the work that this reading should be discarded and a more reasonable interpretation adopted."

That "more reasonable" interpretation he supposes in this way:—Assume a lock-pit at 600 feet long x 75 wide by 24 feet deep, Slopes 1 to 1:—

The whole excavation within these lines.....	say 40,000 yds.
Of which the slopes represent.....	" 13,000 "
Leaving for the square central block.....	" 27,000 "

The 40,000 yds. at contract rate, 32 cents..... \$12,800 00

Applying which sum to the central 27,000 yds. only gives, say 44 cents per yd. as the price the contractor would receive if paid for the central prism only; or if payment were to be figured on the central prism only. This the Auditor General thinks must be what the specification means where it says that trench excavation will be "paid for at the same rate as lock-pit excavation" and that if the slopes are to be measured in, the whole quantity so ascertained is not to be paid for at the schedule rate of 32 cents per yard but the central cut quantity only at a rate to be ascertained by an "equation" such as the above.

Certainly the late Mr. Page had no equation or sliding scale idea in mind when drawing the specification. The slipping of the sides of the narrow trenches might cost the contractor more in delay and money outlay than slips in the wide lock-pit. To provide for such a likely contingency his intention was that the slopes be allowed by what is above alluded to as "constructive measurement" in the event of its proving not necessary to take them out. The contractor was to take his risk just as in the lock-pit. As things turned out he had good luck. The sides of the trenches stood up square and the slopes staid in.

I read the specification as to the trench slopes, and payment for them as the government engineers do and believe that it would be hard to convince a jury, or a judge that "to be paid for at the same rate as lock-pit excavation" means aught else, as applied to the trenches, than the contract rate of 32 cents a yard on the whole bulk—slopes and all.

In this view of the case the contractors are entitled to receive the balance of the \$8,696.32 certified by the engineer, \$4,248.32 instead of only the \$1,090.00 that the Auditor is ready to pass.

## UNWATERING.

Wood's Creek Culvert.....	\$ 2,142 00
Retaining walls, sections 2, 3 and 4.....	4,743 00
Lower entrance piers, locks 18, 19 and 20.....	5,111 09
Robertson's Creek Culvert.....	9,643 90
	<u>\$ 21,639 99</u>

*1st. Wood's Creek Culvert.*—The specifications anticipate trouble from water in the foundation and require that tenders for the work should name a round sum for dealing with it. The printed blanks furnished to parties bidding for the works omit to provide a line for the unwatering of this culvert: clearly an oversight. The engineer, the late Mr. Page, who drew the specification, evidently contemplated payment for the item distinct from the payments for excavation and masonry. The anticipated obstruction by water occurred, and the present chief engineer has certified the amount above stated as due the contractor. Certainly he has taken the equity view of the case.

*2nd. Foundations of Retaining Walls.*—The parts of these walls for unwatering the foundations of which a sum has been entered in the estimates are extensions of the walls as designed when the contract was let and the unwatering, or pumping, seems therefore to be fairly treated as outside of the contract. At first a check was kept of the time and labour expended on pumping, but afterwards it was agreed between the superintending engineer and the contractor that \$1.50 per running foot of wall be allowed in full for the expense incurred. The unwatering of the extended foundations was clearly an extra, and it was surely within the engineer's authority so to treat it and to fix, or agree upon fair payment for it.

*3rd. Lower entrance piers, locks 18, 19 and 20.*—The chief engineer shows that these were additions to, and not contemplated by the contract plans. Such being the case there seems to be no logical reason why the added foundation expenses should not be paid for as well as the added walls above.

*4th. Robertson's Culvert.*—Here, as at Wood's the specification anticipates difficulty from water but does not call for a sum for unwatering to be named in the tenders. The chief engineer thinks this an oversight in the drafting of the specification. It has that look: certainly there is incongruity: the anticipated conditions were the same in both cases and except through oversight it is hard to understand why an unwatering sum should be called for in one instance and not in the other.

In the carrying out of the work it was found necessary to make considerable changes from the plan originally intended and in deciding on those changes it was agreed with the contractor that he should be allowed for unwatering. The work had to be done piece-meal, in snatches as it were, to guard against interference with navigation and it

## Auditor General's Report.

took parts of three seasons to complete it, The superintending engineer who saw the work in all its stages and knew just what the difficulties were, estimated the sum certified for unwatering—\$9,634.90—as fair compensation: the chief engineer concurred.

Examination of such a work after completion, when all is smooth and clean, will not disclose much, if anything, of what the difficulties in the doing may have been—conclusions drawn from examination so made, based, as they would have to be, on surmises rather than on ascertained facts, could hardly be convincing. Looking at Robertson's Culvert now, or at the two ends, which are alone visible, will give even an expert no idea as to how hard a job it must have been to remove the old tunnel, substitute the new culvert, replace the canal banks, necessarily cut through on both sides, without causing an hour's disturbance of navigation.

The Auditor General's objections to the first three items under the head of "unwatering" are not as vigorously pressed as his argument in the case of the Robertson Culvert where he uses such information as was to be gathered from an inspection of the finished work to condemn the amount certified, as extravagant and not just, "probably many times its value." I repeat that only by those who saw the work in process of doing could a just estimate be formed of the cost of doing it.

In respect of Wood's Culvert, retaining walls and lock piers, the legal point appears from the correspondence on file to have been finally settled. The Robertson case may still be open as to the legality of any allowance on water account, but the equity view would seem to be with the engineers.

### MASONRY.

Masonry in retaining walls—Difference in price between lock masonry and weir masonry—4236 yds. at \$4.55. . . . . \$ 19,273 80

The weirs may be described as consisting of two parts: 1st. The side walls with, between them, piers and breast wall cross-wise of the waterway: 2nd. The wing walls, extensions, to suit circumstances, of the side walls in the level above and in the level below the weir. Each weir would thus have four wings, two on either side of the waterway. The length of the wings would necessarily vary to meet local conditions.

Leaving out the Sheik's Island weir for the present there are three weirs; one each at locks 18, 19, 20. Four wings to each weir; 12 wings in all.

The specification provides one class, the contract schedule one price, for weir masonry throughout.

In the objections raised in this question it is stated that certain retaining walls in connection with the weirs were returned in progress estimates at \$8.95 and in the final estimate at \$13.50 per yard; these prices being (plus one dollar added for Portland cement) the contract rates for lock masonry and weir masonry respectively.

As noted above there are 12 wing wall ends. At three of these it was found necessary to build retaining walls extending beyond, but joining in with the wing walls of the weirs. Retaining walls are provided for in the contract schedule at \$5.50 per yard.

It is objected that the dividing point between the two classes of wall is defined only by an arbitrary line or mark; that both would properly come under the same classification, "Retaining Wall," not to be paid for at weir wall rate.

Examination of the weir plans fails to discover the "arbitrary line" of division between the two denominations of work. The drawings clearly delimit what, in the three cases instanced, was to be wing wall, what retaining wall masonry. The three retaining walls being all above the locks and the canal full, there was no way when I came to look at them of judging from outward showing what the character of the work may be. The weir work, made visible in part in the difference of level, indicates on the face, whatever the "true inwardness" may be, a class of masonry fully up to the specification.

The 4,236 yards of masonry forming the subject of dispute are distributable as follows:—

On section 2.	Weir at lock 18.....	886 yds.
do 3.	do 19.....	1,214 do
do 4.	do 20.....	1,290 do
Sheik's Island Weir.....		846 do

The contention is that this is properly "Retaining Wall" masonry, the contract rate for which (Portland cement allowed for) is \$6.50. In progress estimates it was returned, the Auditor states, at lock masonry price—\$8.95—(seemingly not objected to) and that in the final estimate at \$13.50, the difference between these last two rates, \$4.55, being what the dispute is about. Logically it would seem that it should be between \$6.50 and \$13.50.

Weir plans, as all other plans, are of course designed by the engineer in charge of the works. In the case in discussion the plans seem carefully designed, no two of them just alike but each to fit the conditions of locality. The three retaining walls extending beyond the wing walls are simply accidents of the situation not to be taken into account in dealing with Weir Estimates proper. Their several lengths are—At Lock 18 about 110 feet: At lock 19 about 145 feet: lock 20 about 170 feet: all on south side of canal and above the locks.

The Sheik's Island Weir has no retaining walls, so called, none were contemplated in the letting, none required in the carrying out of the work. The masonry is all "Weir Masonry" of the character described in the specifications for sections 2, 3 and 4. The schedule of rates on which the dams were let has only one class of masonry in connection with the weir price, \$13.50 per cubic yard.

How it came that parts of the weir masonry (all weirs) were returned in Progress Estimates at \$8.95 and in the Final Estimate at \$13.50 per yard has not been made quite clear, but I am very decidedly of the opinion that the correction was the correcting of an error: that the payment of the larger price is inevitable under the contract. The determining of the length of wing wall properly adapted to the locality at the site of each weir was the duty of the engineer. The plans were evidently well considered and show clearly what those lengths were intended to be, and are, and so thinking I must advise payment of the sum in suspense, \$19,273.80.

#### PORTLAND CEMENT.

Laying Masonry in Portland cement instead of Native  
cement, 6,388 yds. at \$1..... \$6,388 00

The specification calls for cement of "Canadian manufacture of approved quality." The principal home-made cements at the period of the letting of the Davis contract (1888) were those of Hull, Thorold and Napanee.

Later on, exact period not ascertained, the late Mr. Page decided on the use of Portland cement in certain portions of the masonry and agreed to allow the contractor one dollar per yard over contract rate for masonry so laid. Later on, still Portland cement was adopted throughout.

Between the year 1888 and now the relative values of Native and Portland cements, have undergone very marked changes. The imported article which used to be sold as high as \$3 per barrel may now be bought at \$2 or a little over. Thorold and Napanee cements, ten years ago, and later, commonly rated under one dollar per barrel, or the equivalent of the barrel. They were cheap, unskilful manufacture, cheaply put up:—sometimes delivered (at Cornwall) in bags: sometimes even in bulk by the car load, like ordinary lime. The Hull article on the other hand, made high pretensions, claiming to be on a par, in quality, with English Portland. It was barrelled and widely advertised but underselling its foreign competitor by a considerable margin of difference.

That any of the Canadian cements until within a very recent period were anywhere near equality, in excellence, with the Portland "brand" was hardly open to dis-

## Auditor General's Report.

cussion; an acknowledged fact from which the Canadian manufacturer learned that he must adopt scientific modes of production or abandon the market. He chose the former course and to-day "Canadian Portland" can compete on fairly equal terms with its European rivals.

This sketch of progress in quality and money value of the Canadian cements may help to explain why, as asked by the Auditor General, "if 50 cents was a fair difference between the per yard value of Native cement and Portland in the case of the Tay Canal should a full dollar be allowed at Cornwall." Official papers before me lead to the conclusion that it was intended at first to lay the Tay masonry in Hull cement, which, however, when tested failed to "answer its engagements." It was condemned accordingly and Portland cement substituted. The Hull article was doubtless, of the pretentious sort alluded to above. A lot of 1,000 barrels delivered at Cornwall, in the early years of the Davis contract, was there tested, found wanting, wholly rejected and the use of Hull cement on the Cornwall Canal given up.

It may safely be ventured that in fixing the difference in values at 50 cents at the Tay and at a dollar at Cornwall, Mr. Page did so in the exercise of his well known caution and conscientious prudence.

It would appear that the dollar "difference allowed at Cornwall" has been considered as a bargain covering the whole period of the Davis contract, for whatever the changes in the market value of cements the estimates have continued up to this year to include the allowance. The objection taken now only reaches back over two years and only affects 6,388 yards of masonry. Of a total of about 80,000 yards built, a good deal more than half was laid in Portland cement.

If the agreement of seven or eight years ago was not intended to be continuous then it need not be a difficult matter to adjust the difference on the above number of yards involving, as to fluctuations of prices, a period of two years only. Mr. Rubidge estimates the present money difference between Canadian and Imported cements as representing about 28 cents on a yard of masonry, the imported article that much the dearer.

However this cement question may come to be adjusted, if adjustment be called for, the item against it in the Joint Memorandum of 2nd July, 1897—\$6,388—is not liable to be *wholly* stricken out of the estimates. As it now stands, objection appears to be taken to the whole dollar allowance.

### REINFORCING BANKS.

Sections 3 and 4,—28,600 yds. at 30 cts. . . . . \$8,580 00

(The 30 cts. an addition to 35 cts.

the contract price for "borrowed" bank material.)

The Memorandum of 2nd July notes that similar work, to the extent of 25,800 yards, was done on Section 2 and the extra allowance of 30 cts. passed by the Auditor General for reasons given in letter to Treasury Board, 17th June, 1897.

Though this allowance on Section 2 is not now in question it is necessary in its connection with the corresponding work on Section 3 and 4 that I should refer to it and at some length.

Late in September, 1891, a part of the bank above lock 18 suddenly began to settle, and the danger of a break becoming imminent, I was requested by the then chief engineer, Mr. Trudeau, to go to Cornwall and advise with Mr. Rubidge, the superintending engineer, as to the best means of averting the threatened danger. I found the case to be a very serious one, and on so reporting was authorized (by Mr. Trudeau) to order to be done whatever I might deem best in the emergency.

For a stretch of about 2,200 feet above lock 18, the canal closely skirts the river, but the bank had stood nearly fifty years without showing signs of weakness. Upon examination of the danger point it was discovered that leakage was going on below the bank seat from the canal into the river, the cause of which I concluded to be that the dredging to increase the depth in the canal from its original 10 feet to the new 15 feet had

cut certain water seams below old bottom level, allowing of soakage and causing, besides the sinking or settling, an outward movement of the whole mass of the embankment—towards the river. The urgency of the case was extreme and I requested Mr. Rubidge to call upon the contractors to put on as large force as there was working room for and, whatever work elsewhere might have to wait, to make the threatened breach his first case.

I at once stopped the heaping of material on the sinking bank and ordered a berm, or "buttress" to be formed at the base, and wholly outside of the regular formation, giving the berm a width of 15 feet at 12 feet below top bank level, and at the same time narrowing the towing path from the "regulation" width of 20 feet to 15 feet, thus lightening the "top-works" and placing great width and weight at the foot of the slope. This proved effective, stopped leakage, checked the outward movement of the bank and prevented further settling of the towing-path, which had been sinking so rapidly that day and night work had been found necessary to keep it safely above the water line.

I give those details that it may be made clear that the buttressing was in no sense within the Davis contract. The bank which, as said, had stood unmoved for nearly fifty years was not considered to require any new work beyond some little trimming and raising. The buttress work was necessarily expensive. A not good borrowing pit 3,000 feet away from the nearest point of deposit had to be reached by a track specially laid for the purpose: the extreme haul was a good mile: the material was laid on in layers not more than 2 feet in depth, involving frequent raising of the track: hauling by horse power.

The Auditor states that he passed the account for this work because of its being of the sort termed "urgent" but at the same time demurs to its being all so classed, seeing that most of it was done after the time of immediate danger. I deemed it all "urgent" because all necessary to safety and the instructions I gave were to keep at it until completed, however long it might take. The cause of the movement and narrowly escaped break near lock 18 might equally have been at work all along the 2,200 feet treated on the plan described and I was not there to advise taking chances. The situation was one where precaution was incalculably better—and cheaper—than remedy. In ordering the work to be done I took no particular thought as to quantities or cost. It was bound to be done anyhow, and had I paused to count the money cost I would very probably not have figured it much below what I now learn that cost amounted to. The value of the work as an all time security to the navigation entitled it to be called invaluable.

At the period I am referring to, September, 1891, the memory of the fifty thousand dollar break at Moulinette some three years before was still fresh in men's minds: Fifty thousand for repairs, that is,—The Montreal Board of Trade putting the trade loss somewhere up in the hundreds of thousands.

Turning now to—

#### SECTIONS 3 AND 4.

My authority in the reinforcing matter was limited to the call made upon me in the case of section 2, but in a general reconnaissance of the canal banks at that time I took notes of points further west where work similar to that put in hand above lock 18 might well be described as necessary and I so volunteered my opinion to the superintending engineer. I find from the record that "buttress work" at the points referred to was undertaken some years later on and, as seen by me on recent inspection, is now about completed on both sections.

The Auditor General objects to the 30 cents, considering it an uncalled for addition to the contract rate of 35 cents per yard.

What has been written above in relation to reinforcing work on section 2 should go some way towards explaining the like work on 3 and 4. It is not ordinary embankment from borrowed material as described in the specification, but done, and considered necessary to be done, after the regular banks, with their 2 to 1 out slope, had already been made.

## Auditor General's Report.

If the 35 cent contract price was a fair price for the contract banks it could not also be a fair rate for the afterthought reinforcements necessarily done at greater expense: double handling of material with horse and cart, distribution over long pulls.

The Auditor argues that the urgency plea does not apply on these two sections. Quite true. There was no cause of hurry as seen in the fact of the work having been postponed for a long time after it was first talked about, and if the engineers responsible for the safety of the canal navigation had elected to take chances, the reinforcing might have been indefinitely delayed but not without leaving some 1,600 feet of doubtful embankments on section 3 and about as much more on section 4 as a standing menace to the trade of the country.

The price of 65 cents per yard was so formally agreed upon between the government officers and the contractor as to make it hard to distinguish the agreement from a contract. In my capacity of advisory engineer, therefore, I advise that the amount in contention be paid.

That amount in the Joint Memorandum of 2nd July, 1897, is  
stated at 28,600 yards at 30 cents per yard. . . . . \$8,580

### OLD LOCK 19, COPING AND REPAIRING.

Amount in dispute or suspense. . . . .	\$4,800
Engineers certify 480 yards at \$24. The Auditor General has passed the item at \$14 per yard, making a difference as above, a difference of. . . . .	\$4,800

The Joint Memorandum, 2nd July, 1897, says in reference to this matter: "Mr. Rubidge's last letter (18 June, 1897) contains new information of importance, but which is not yet definite enough to enter into any calculation of values."

Old lock 20 had been repaired and the walls raised previous to the repairs of old lock 19 being begun and under a distinct arrangement or agreement.

Mr. Rubidge's letter above referred to stated that the class of work required at these two locks was very different. In lock 20 the quantity of work measured very much more than that in the repairs of lock 19 and had a much larger proportion of backing to the ashlar or cut stone. In lock 19 the work was nearly all ashlar: quoins and coping; the most expensive parts of lock work.

An examination, or inspection, of the two repaired locks is convincing that Mr. Rubidge's explanation should be deemed satisfactory. There is sufficient external evidence to show that the proportion of new face masonry in 19 to what may be termed profitable interior work was much larger than in lock 20.

The actual quantities and quality of repair masonry in the two cases compare as follows:—

Lock 20. Coping. . . . .	210 yards
Below coping. . . . .	1,137 "
	1,347 yards.
Lock 19 Chiefly cut stone. . . . .	480 "

In preliminary estimates of lock work I have generally put the quoins and coping and other expensive ashlar at, in round numbers, a dollar a cubic foot—\$27 per cubic yard. The proportion of "backing" to face work in such structures (also in round numbers) is about two yards backing to one of cut stone. The contractor looks to making his profit on the backing. At ordinary prices the cut stone in a lock commonly costs the full cubic yard price of the whole structure.

Possibly in view of the "new information of importance" in Mr. Rubidge's letter of 18 June, 1897, the Auditor General will see his way to take out of suspense, and pass this lock 19 item of \$4,800. It ought to be paid.

OLD LOCKS 15 AND 16, COPING AND REPAIRING.

Certified in estimate 720 yards, at \$24 . . . . . \$17,280.00

The whole item is under objection because, "That under the Order-in-Council of 23rd May, 1888, all contracts for work over \$5,000 shall be let by public tender," this work should have been advertised and tenders asked for.

The two old locks are on section 1 outside the limits of the Davis contract for section 2. How the contravening of the Order in Council is to be condoned is not for me to suggest or to advise—but it seems so natural when it was decided to patch up the old locks, that the contractor close by on the adjoining section, with men and material, all ready at hand, should have been called upon to do the patching, that, probably, a way of overlooking the engineers' "mistake" in overlooking the prohibitory Order-in-Council may be found.

But the Auditor General makes also the objection, as in the case of old lock 19, that the price paid for the work was not only excessive but that it is in excess of the price at first agreed upon with, and by, the contractor.

Engineer's return, 720 yds. at \$24. . . . .	\$17,280
Auditor's amendment 720 yds. at \$14. . . . .	10,080
	\$ 7,200
On question of value amount in dispute. . . . .	\$ 7,200

The contention arises out of certain "clashing" in the correspondence touching the letting of the work, as follows:—

13th June, 1896.—Mr. Schreiber, chief engineer, writes Mr. Rubidge that it is "agreed between you, me and the contractors" that the prices to be paid for this work shall be the same as were paid for the work executed at lock 20.

(The above letter is quoted in full in the Joint Memo. of 2nd July, 1897.)

There seems to have been an immediate misunderstanding of the subject, for on

16th June.—Mr. Rubidge under instructions, writes the contractors asking them to name the prices at which they would undertake certain additional works then in contemplation, including repairs, &c., of old locks 15, 16 and 19.

17th June.—Contractors reply to the above. "Coping and repairs of old locks 15 and 16 twenty four dollars per cubic yard: coping and repairs old lock 19, twenty four dollars per cubic yard."

The question seems to be, which is to be taken as binding, which constitutes the contract: Mr. Schreiber's letter of 13th giving no figures, or the more specific transaction formulated in the letters of 16th and 17th June? The prices named in Messrs. Davis's letter were at once agreed to all round. The letter of 13th June, giving no figures, (not a good way of making a contract) might easily be open to misconstruction. There is no misunderstanding the other two letters. Read together, and assented to, as they were, by the writer of 13th June, they would be very likely to pass in court as a binding agreement, and, as it seems to me, should be so accepted here.

The renewal work on old locks 15 and 16 was similar in character to that on old lock 19, my description of which will equally apply here. The estimate returns the whole work on 15 and 16 at, \$17,280.

The Auditor General objects to the whole because of the job having been given to the Davis firm contrary to the rules laid down in Order in Council of 23rd May, 1888. The contractors undertook the job in good faith and carried it out under agreement with the officers of the Department of Railways and Canals. They are entitled to be paid for the work done. For the reasons stated in reference to old lock 19, I consider the price at which the work is charged to be fair and reasonable.

In further reference to those locks (15-16) the Auditor General says that a quantity of old stone taken out in the doing of the repairs was put back, that is used over again, in the carrying out of the repairs and the contractors received the same price for this old material as for new stone.

## Auditor General's Report.

From inquiries made upon the ground I learned that some of the old stone was "put back" and not charged to the contractor. It was chiefly what is called "backing" and not very much of it. The cut stone taken out has nearly all been saved and a large lot of it is now piled up "in stock" and may come in useful in various ways along the canal. It would be a difficult matter now to ascertain just how much of the old backing was used in renewals: Its money value could not be much.

Along the south dam, Sheik's Island, I noticed a neat gas-pipe railing, the posts set in blocks of cut stone. These I was told came from old lock 15, part of the old face-work pulled down. The railing was not contract work.

### OLD LOCK 17.

Hire of steam hoist scow..... \$266 80

The repairs and alterations of this lock were done, several years back, under a special clause of the specification, by days' work, on the amount of which the contractors were allowed 15 per cent, as also on a fair valuation of the cost of tools, plant, etc., used in the work.

I have failed to ascertain upon what grounds the steam hoist was to be treated otherwise than as part of the plant necessary to the doing of the work. The percentage allowance agreed upon amounted, the Auditor states, to \$3,328.77 and certainly some good reason should be given if the \$280.80 is to be added to that sum. The item is now an old one, and Mr. Rubidge says that he did not see his way to certifying it at the time, but that on what is supposed to have been satisfactory explanations by the contractor, it was allowed by the then chief engineer, Mr. Trudeau.

### SPARE LOCK GATES.

Sum in abeyance..... \$3,448 00

The Auditor General objects to the payment of this item because "since the spare gates are not described in the specification they are outside the contract and, costing more than \$5,000 to complete, they should, therefore, have been let by public tender." This to comply with Order in Council of 23rd May, 1888.

On this point, as already said in reference to old locks 15, 16., I am not competent to advise.

Mr. Rubidge, superintending engineer, in a letter addressed to the chief engineer, 18th June, 1897, explains that the usual practice has been to have spare gates ready so as to provide against interruption to navigation in case of breakage of a gate in place: That in this instance the lock gates being included in the Davis contract he considered "spares" as properly included too.

It has not been common practice on the Canadian canals to have the gates supplied by the builder of the locks. The Davis contract, however, for certain of the locks of the Cornwall Canal, included the gates and so prudentially necessary is it that on a lock being made ready for service spare gates should be "within call," it seems to "go without saying" that the contract was intended to include spare gates as being essentially a part of the work to be done as the furnishing of those for immediate position. Without such provision the locks would have come out of the builder's hands incomplete in their equipment. Mr. Rubidge acted on that view of the case and, in my judgment, acted prudently.

### GUARD GATES ABOVE LOCK 20.

Nominal amount under objection..... \$7,760.

The work formed no part of the original contract with William Davis & Sons, but, in 1896, the guard gates were decided on as a necessary adjunct of safety to the finished canal, and in June of that year an agreement was made by the chief engineer with the Davis firm for the doing of the work. Terms as to prices stated in a letter from the latter to Mr. Rubidge under date of 17th June, 1896.

CXV

But the Auditor's objection to passing the estimate covers a great deal more than the item of \$7,760. Because of the work not having been let by public tender in obedience to the Order in Council already quoted in reference to two other questioned estimates, he declines to recognize the engineer's certificate for the whole undertaking, amounting to end of May, 1897, to some \$66,000.

As I have already had occasion to say, I do not consider myself called upon, or competent, to advise as to the working of the Order in Council rule of 23rd May, 1888, but will just remark that the strict observance of the rule might occasionally be found, probably has been found, difficult, if not objectionable in practice. The cases in which it has been disrespected on the Cornwall works might justify one in classing it among the paper rules sometimes "more honoured in the breach than the observance."

The Auditor General in the second place demurs to passing the estimate for the guard gates because of what he considers the excessive prices paid, or agreed to be paid.

For unwatering foundations . . . . .	\$7,000 00
For masonry per cubic yard . . . . .	13 50

In respect of the "unwatering" he considers that the engineers should have taken measures for ascertaining the actual outlay while the work was in progress and have shaped the certificate accordingly. The chief engineer decided that the safer way was to agree upon a bulk sum, the contractor taking all risks. This is the mode usually adopted in canal works for dealing with the "undiscovered value" of the item commonly called pumping, a risk in bidding on which the bidder "draws a bow at a venture" trusting to good luck to pull him through without loss. In fourteen tenders for the Sault Ste. Marie Canal (1888), all from contractors of wide experience, the bids on the unwatering of the lock-pit ranged from \$50,000 to \$85,000.

The masonry price also meets with the Auditor's disapproval. He asks, "What is the difference between lock masonry at \$8.95 and the masonry in guard gates at \$13.50 per yard?" The difference is immense. The guard gate masonry may be compared to, in fact is, the gate recess part of an ordinary lock, embracing all the most costly parts of the structure: the hollow quoins, bevel quoins, manholes, all of ashlar; while the lock chamber with its large proportion of backing, from which the contractor looks to make his profit, is not there at all, not a sign of it. The guard gate walls contain 2,187 yards of masonry—the proportion of cut stone to backing being as 3 to 1. In ordinary lock building the proportion commonly is 2 yards backing to 1 of cut stone.

The guard gate masonry is a most creditable piece of work, almost a solid mass of heavy ashlar on foundation of concrete started at four feet below canal bottom. The whole was completed, that is, begun and completed, within the months of March and April this year. Only contractors situated as the Messrs. Davis are could have done the work within the time and for the prices paid, or agreed to be paid, them for it. The agreement made was fairly made, and, on the part of the contractors, fairly carried out.

The whole respectfully submitted,

I am, sir, your obedient servant,

W. SHANLY.

*Treasury Board Minute, Sept. 22, 1897.*—The Board had under consideration a report under date of the 17th September, 1897, from Mr. Walter Shanly, the engineer appointed by the Minister of Railways and Canals to make inquiries into the questions raised by the Auditor General in the case of the contracts of Messrs. Wm. Davis & Sons—sections 2, 3 and 4, Cornwall Canal enlargement.

The Board, on consideration thereof, direct that the Minister of Justice be requested to give an early answer to the questions submitted to him under letters dated the 21st June and 10th July, 1897, from the Secretary of the Board to the Deputy Minister of Justice; also that information be procured from the Department of Railways and Canals relative to the difference of \$1 per cubic yard between Portland and Native

## Auditor General's Report.

---

cement, the same not having been made the subject of a direct recommendation in the report from Mr. Shanly; and also that the said report be referred to the Auditor General for such remarks as he may wish to make thereon.

J. M. COURTNEY, *Secretary.*

---

RAILWAYS AND CANALS DEPT., OTTAWA, Sept. 23, 1897.

DEAR SIR,—*Re* Davis & Sons' contracts, Cornwall canal: with reference to your letter of this date, asking certain information in connection with the Portland cement used in the above-mentioned works, I inclose a memorandum from Mr. Tom S. Rubidge, the engineer in charge of these works; also a memorandum from Mr. G. A. Mothersill, who was in charge of Mr. Page's office at the time.

I cannot find any correspondence on record in Mr. Page's books.

I am, sir, your obedient servant,

The Secretary Treasury Board.

L. K. JONES, *Acting Deputy Minister.*

---

OTTAWA, Sept. 23, 1897.

MEMO. with reference to Mr. J. M. Courtney's letter of the 23rd September, 1897, *re* Davis & Sons' contract, Cornwall Canal: Referring to Mr. Courtney's letter *re* Portland cement. The Wrights, the owners of the Hull cement, were informed in the spring of 1889 that their cement delivered at Cornwall was condemned by me. The late Mr. Page sustained me and agreed with me that certain important portions of the locks should be laid in Portland cement, and that the price where such masonry was ordered to be used should be increased by \$1 per cubic yard. This arrangement was understood to apply generally to all works then under contract, and until such contracts were completed.

My instructions from Mr. Page were either verbal or telegraphed; I have no written record.

TOM S. RUBIDGE, *Supt. Engineer.*

---

OTTAWA, Sept. 23, 1897.

MEMO. with reference to Mr. J. M. Courtney's letter of the 23rd Sept., 1897, *re* Davis & Sons' contract, Cornwall Canal:—*Re* substituting Portland cement for Native cement on certain portions of masonry work on contracts with Wm. Davis & Sons on the Cornwall Canal.—There is no correspondence on this subject in the books in the late Mr. Page's office; but I am aware that it was his custom to instruct his engineers verbally on such matters.

GEORGE A. MOTHERSILL.

---

RAILWAYS AND CANALS DEPT., OTTAWA, Sept. 25, 1897.

DEAR SIR,—I am directed by the Acting Minister to send you herewith a copy of a telegram he has received from Mr. Walter Shanly, with reference to the question of cement mentioned in his report to the Minister upon the subject of Messrs. Wm. Davis & Sons' contracts on the Cornwall Canal.

I am, sir, your obedient servant,

The Secretary Treasury Board.

L. K. JONES, *Acting Deputy Min.*

MONTREAL, September 24, 1897.

To Sir HENRY JOLY DE LOTBINIÈRE, Ottawa.

There is no record to show whether or not the dollar for Portland cement allowed by Mr. Page was to apply continuously over the whole period of the Davis contract, as the question was not raised by the Auditor General until within the last two years. I am of the opinion that the dollar should apply over the whole contract.

W. SHANLY.

DEPT. OF JUSTICE, OTTAWA, July 7, 1897.

SIR,—The matter of the objections raised by the Auditor General to certain items in the estimates of the work done by Messrs. William Davis & Sons under their contracts for sections 2, 3 and 4 of the Cornwall Canal Enlargement has again been referred to the Treasury Board, and the ruling of the Attorney General under section 32 (a) of the Consolidated Revenue and Audit Act has been asked with regard to several of the items objected to, namely, the charges of unwatering, referred to in, Mr. Power's letter to you of the 12th June, 1896, and your reply of the same date.

Before reporting to the Board, the Minister of Justice and Attorney General desires to have additional information upon the following points:—

1. Clause 8 of the contract provides that the decision of the engineer on all questions in dispute as to the meaning or intention of the contract, and the plans specifications and drawings shall be final.

The Minister would like to know whether the engineer has ever decided or if he is now prepared to give a decision as to the meaning of clause 5 of the contract with respect to the fixing of prices for extra works; whether, that is, the meaning is that the prices must be fixed "previously" to the contractor making any change in or addition to or omission or deviation from the works or merely "previously" to payment or to the contractor being entitled to payment.

2. In a letter to the secretary of the Treasury Board of the 17th ultimo, the Auditor General states that the contractors were asked, for each new piece of extra work, to submit a complete list of prices for the engineer's consideration and approval; that they named their prices and the engineer approved them; that both the engineer and the contractors were at the time fully aware that the work could not be performed without keeping the water away, but that no price for unwatering was made.

Were there such lists of prices, not referring to unwatering?

In your letter to Mr. Power of the 12th June, 1892, you state that as to certain of the items there was an agreement with the contractors that the price in contract for masonry was fair for the work *with an amount for unwatering*, and in your letter to the Treasury Board of July 7, 1896, you state that there was an understanding that the contractors were to be paid for unwatering upon a certain basis. Please explain.

3. Whether in any case the work was completed when the price for unwatering was fixed by the engineer.

4. In the letter of this department to the secretary of the Treasury Board of 15th June, 1896, it is stated that from information furnished by you it appears that amongst other works the southern extension of the culvert at Wood's Creek was of the nature of an extra work under the contract. This statement does not seem warranted by the statement with regard to this work contained in your letter of 12th June, 1896.

Will you be good enough to state whether the work in question was in fact an extra?

As the Treasury Board is to meet to-morrow morning, the Minister would be much obliged if you could let him have the required information early this afternoon.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals.

A. POWER, for D.M. of J.

# Auditor General's Report.

TREASURY BOARD, OTTAWA, July 10, 1897.

SIR,—Referring to my letter of the 21st ultimo—and the contracts sent you therewith relative to contracts between the government and Messrs. Wm. Davis & Sons, for sections 2, 3 and 4 of the Cornwall Canal enlargement,—I have the honour to draw your attention to the clause in the specifications for the contracts in question relating to lock-pit excavation and excavation of gullet made for square piles, &c. The clause in question, which will be found on page 7 of the specification for section No. 3—and the language of which is the same in the specifications for sections 2 and 4, reads as follows :—

“The lock and weir-pit excavation will embrace a stretch of about 600 feet, and the width necessary to receive the walls, &c., connected with these structures, and side slopes of 1 to 1 will be allowed to compensate for the removal of slides. The excavation of any gullet made for square piles, timbers for sheet piles, anchor timbers, sub-sills, etc., will be paid for at the same rate as for lock and weir-pit excavation.” The rate is laid down in item 6 of section 24 of contract.

The contractors claim that under this specification and contract that in excavation for pile-trenches, in addition to the actual excavation, the 1 to 1 slopes should be added in calculating the volume of work on which payments should be made, and I am directed by the Treasury Board to ask you to be good enough to advise me for the information of the Board whether the specification above quoted or the contract committed the government to the addition of 1 to 1 slopes to the actual excavation of the gullet for piles in calculating the volume upon which payment is to be made.

I am, sir, your obedient servant,

The Deputy Minister of Justice.

J. M. COURTNEY, *Secy. T.B.*

---

MEMORANDUM by the Attorney General and Minister of Justice re Davis & Sons' Contract, Cornwall Canal.

I have read Mr. Courtney's letter to the Deputy of my department, dated 21st June, 1897, and the papers which accompanied it, also, Mr. Schreiber's letter to the Deputy Minister, dated 8th July, in answer to a letter which I directed to be written for further information on certain points supposed to be involved.

I understand the question submitted to this department relates to charges made by the contractors for unwatering in the case of certain works executed by them. The engineer states that this unwatering was not included in the prices for the masonry, but was to be paid for extra the masonry work; and that such was the express understanding between the engineer and the contractors from the first. The Auditor General on the other hand contends that, for reasons which he gives, the unwatering was not in any case an extra to be paid for in addition to the masonry. His reasons for this view are put with considerable force.

The question at issue depends partly on facts alleged on the one hand and disputed by the Auditor General on the other, and partly on consideration of law.

I find that it is unnecessary for me to consider which is right, because the contracts make the decision by the engineer final and conclusive. There is no evidence or suggestion upon the papers that the prices for the masonry are excessive unless they include the unwatering, or that there is bad faith on the part of the officers of the government in representing that the unwatering should be treated and paid for as an extra. The authority given by the contracts assumes that the engineer would exercise his authority in good faith towards both parties. If the work was really done and the prices for the masonry fixed on an understanding and agreement that these prices did not include the unwatering, and that it was to be paid for extra, it is of course just and equitable that payment should be made accordingly, assuming that all parties are acting in good faith.

The 9th clause of the contract has reference to “work set out or referred to in the list or schedule of prices to be paid for the different kinds of work,” and these are by

this article declared to include "every kind of work necessary for the full execution and completing ready for use of the respective portions of the works." Then follows this provision: "In case of dispute as to what works, &c., are or are not so included, the decision of the engineer shall be final and conclusive."

The 6th clause provides that "all the clauses of this contract shall apply to any extra work in like manner and to the same extent as to the works contracted for."

The 8th clause provides that "the engineer's decision on all questions in dispute with regard to work or material or as to the meaning or intention of this contract shall be final."

The 5th clause also contains provisions making the engineer's decision final and binding.

I have no doubt that under these clauses, and in the absence of bad faith anywhere, the courts in case of litigation would decide that the engineer's decision is final as respects both the contractors and the government, although such decision may be in opposition to a well considered opinion of the Auditor General.

The Auditor General objects that there is no Parliamentary authority for the payment; that "where a bargain is made and work done under it, nothing but a vote of Parliament can give better terms." He further contends "that no contract right can be given by a department which ignores the duty of the Auditor General as established by the Audit Act." That is true in a sense, but I see nothing in the Audit Act which would enable a court to hold that the decision of the engineer provided for by the contract is subject to the Auditor General's approval or concurrence, or that it is beyond the power of the government to insert in the contract such a provision as those existing here. A statutory provision the executive cannot dispense with. So if a contract is made in pursuance of a statutory order to that effect, the provisions of such contract may as regards executive authority stand in the same position as if expressly enacted by the statute, and cannot afterwards be altered or waived; but where as here a contract is entered into under the general authority which belongs to the executive and not in pursuance of any express statutory enactment requiring it, more latitude belongs in point of law to the executive authority.

As to Parliamentary authority, the statute authorizing the expenditure of the money on the Cornwall Canal, is extremely general in its terms. In the Supply Bill of 1894, it is as follows:—

Canals—Cornwall.....	\$400,000
----------------------	-----------

and no statute making a further appropriation is less general. I find no statute which contains any other direction as to the application of the money. Its application is confined to the Cornwall Canal, and that is the only restriction. Subject to such restriction, the authority of the executive depends on the general constitutional authority possessed by the executive to carry into effect what Parliament has provided for. I have not found in any book of constitutional law or in any decided case anything which would entitle me to say that the application of a portion of the money to pay for this unwatering would be an expenditure for which under the circumstances "there is no Parliamentary authority."

It might be a very good rule in point of policy that when a bargain is made and work done under it nothing but a vote of Parliament would authorize any payment, not strictly according to the bargain; but no statute that I know of has laid down such a rule. It is not laid down in the Audit Act; and I know of no constitutional authority in support of it.

Assuming therefore that the engineer has decided or shall decide that, according to his view of the facts and his construction of the agreement, this unwatering is an extra, and should be paid for, and the government is not aware of any bad faith on the part of the engineer, or any bad faith on the part of the contractors unknown to the engineer, I think that there is in the statute appropriating money, as above mentioned, Parliamentary authority for the payment in question.

O. MOWAT.

OTTAWA, Sept. 27, 1897.

## Auditor General's Report.

DEPT. OF JUSTICE, OTTAWA, September 29, 1897.

SIR,—In your letter of the 10th July last.—T. 21,493 B.—in which you ask for an opinion upon a point arising in connection with the contracts of Messrs William Davis & Sons for sections 2, 3 and 4 of the Cornwall Canal Enlargement, viz.—as to whether or not the government is under these contracts and the specifications which form part of them bound to allow for 1 to 1 slopes in addition to the actual excavation for which payment is to be made, in the case of gullets for square piles in like manner as they are allowed in connection with lock weir-pit excavation.

You point out that the specifications in the case of each contract provide as follows :—

“The lock and weir-pit excavation will embrace a stretch of about 600 feet and the width necessary to receive the walls, etc., connected with these structures, and side slopes of 1 to 1 will be allowed to compensate for the removal of slides. The excavation of any gullet made for square piles, trenches for sheet piles, anchor timbers, sub-sills, etc., will be paid for at the same rate as for lock and weir-pit excavation”; and you refer me to item 6 of section 24 of the contracts, which fixes the “rate” per yard to be paid for excavation.

I am directed by the Minister of Justice to state that the views expressed in his memorandum of the 27th instant, dealing with certain other questions arising under these same contracts, and which was prepared for the Treasury Board upon a reference contained in a letter from you of the 21st June last, apply *mutatis mutandis* to the question now submitted.

If the matter depended wholly upon the legal effect of the provisions of the contract above referred to, as these would be interpreted by the courts, the Minister would be strongly inclined to hold that side slopes of 1 to 1 should not be allowed in connection with the excavation of gullets, the only provision with regard to such excavation being that it should be paid for at the same “rate” as is payable for lock and weir-pit excavation; that is, at the same price per yard of excavated material, and nothing being said as to an allowance to compensate for the removal of slides.

The solution of the question, however, does not depend altogether upon the legal construction which the courts would probably place upon these provisions since the contracts themselves elsewhere (clause 8) provide that the decision of the engineer on all questions in dispute as to the meaning or intention of the contract shall be final, and the Minister is, therefore, of opinion that if the engineer has decided, or shall decide that, according to his construction of the contracts, 1 to 1 slopes are to be allowed, his decision, in the absence of bad faith on the part of any one, is binding upon the government, and payment must be made accordingly.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

A. POWER, *Acting D.M.J.*

*Treasury Board Minute, Sept. 29, 1897.*—The Board had under consideration the memoranda and papers in connection with certain objections made by the Auditor General to payments to Messrs William Davis & Sons, contractors for sections 2, 3 and 4 of the Cornwall Canal enlargement for certain work done on the said sections for which payments application had been made by the Department of Railways and Canals

Of these objections, some viz.: those relating to the unwatering of the southern extension of Wood's Culvert, the unwatering of Robertson's Culvert, the unwatering of the foundations of the retaining walls, sections 2, 3 and 4, and the unwatering of the lower entrance piers, locks 18, 19 and 20, were made under subsection (a) of section 32 of the Consolidated Revenue and Audit Act, on the ground that there was no Parliamentary authority for the payment of these items, and the question as to whether or not there was such Parliamentary authority was accordingly submitted for the opinion of the Attorney General of Canada, who, in a memorandum dated 27th September, 1897, (a copy of which is annexed hereto) has replied that assuming that the engineer has decided or shall decide that according to his view of the facts and his construction of the agreement, this unwatering is an extra, and should be paid for and that the government is not aware of any bad faith on the part of the engineer, or any bad faith

on the part of the contractors unknown to the engineer, he thinks that there is, in the statute appropriating money for the Cornwall Canal, Parliamentary authority for the payments in question.

The other objections which are made by the Auditor General under subsection (c) of section 32 of the Consolidated Revenue and Audit Act are set forth in detail in a joint memorandum (a copy of which is annexed hereto) dated 2nd July, 1897, made to the Treasury Board by the Auditor General and the Deputy Minister of Finance as required by the subsection last above mentioned.

It will be noticed that in the concluding paragraph of this memorandum these officers suggested for the consideration of the Treasury Board, whether it would not be advisable to employ expert assistance to go over the canal and see the character of the work and report thereon. In pursuance of such suggestion the Honourable the Minister of Railways and Canals appointed Mr. Walter Shanly, C.E., an experienced engineer, to look into the work in connection with the matters in dispute, and Mr. Shanly has, under date of 17th September, 1897, presented his report thereon, a copy of which is hereto annexed, and which, by direction of the Treasury Board, was referred to the Auditor General for such further remarks as he might wish to make thereon.

Mr. Shanly, in his report, gives his decision in favour of the contractors on all points with the exception of two. The first is in regard to the additional price fixed in consequence of using Portland cement instead of Native cement, as required by the specifications. From inquiries made at the Department of Railways and Canals since the receipt of such report, it appears that the use of Native cement was condemned by the engineer in charge of the work, and that in this he was sustained by the late Mr. Page, who agreed with him that certain important portions of the locks should be laid in Portland cement, and the price where such masonry was ordered to be used should be increased by one dollar per cubic yard, and that this arrangement of which there appears to be no written record, was understood by the superintending engineer to apply generally to all works then under contract, and until such contracts were completed. In a telegram dated 24th September, 1897, Mr. Shanly expresses his opinion that the one dollar should apply over the whole contract. (Copy telegram annexed.)

The other point was with reference to the objection raised by the Auditor General to the hire of the steam hoist scow, and on this point Mr. Shanly would appear to agree with the Auditor General.

The Board had also under consideration an opinion from the Department of Justice dated 29th September, 1897, a copy of which is annexed as to whether the contracts for the sections in question or the specifications for the work committed the government to the addition of 1 to 1 slopes to the actual excavation of the gullet for piles in calculating the volume of work upon which payment was to be made, from which it will be seen that the Minister of Justice is of opinion that if the engineer has decided or shall decide that, according to his construction of the contracts, 1 to 1 slopes are to be allowed, his decision, in the absence of bad faith on the part of any one, is binding upon the Government, and payment must be made accordingly.

The Board had also under consideration an extract from the Treasury Board Minute of 7th July, 1896, which directed that all charges under the contracts for unwatering certified by the chief engineer should be allowed and paid, and the Board in view of the decision of the Treasury Board Minute last above referred to, and in view of the opinions of the Attorney General of Canada in the letters, copies of which are hereto annexed, and also in view of the report of Mr. Shanly above referred to, are of opinion that with the exception of the charge for the hire of the steam hoist scow, viz. : \$266.80, all the other charges in connection with the contract for sections 2, 3 and 4, of the Cornwall Canal, for the payment of which application has been made and which have been certified to by the chief engineer of Government Railways should be allowed and paid and the Board accordingly so direct.

The Board also direct that as the vote lapses on the 30th September, 1897, this decision should be promptly communicated to the Auditor General and the Department of Railways and Canals.

The Auditor General.

J. M. COURTNEY, *Secretary.*

# Auditor General's Report.

## TREASURY BOARD CORRESPONDENCE.

---

### Payment to Clerk of the Crown in Chancery for Patent Poll Book.

*Order in Council, November 19, 1896.*—On a report dated 17th November, 1896, from the Minister of Agriculture, submitting that the Government has been manufacturing and using a poll book for election purposes, since February, 1891, for which no remuneration has been paid to the patentee thereof, S. E. St. Onge Chapleau, contrary to section 44 of Chapter 61 of the Revised Statutes.

The Minister further states that the use of the said poll book has greatly simplified the duties of returning officers and their deputies, besides enabling them to make their returns in a complete and uniform manner and according to the statute, a desideratum not known previous to the introduction of that book.

The Minister, accordingly, recommends that the patentee be paid the sum of one thousand dollars (\$1,000) such payment to be made out of the statutory vote for election expenses, to which this expenditure properly pertains.

The Minister further recommends that such payment be made only on the condition that the patentee shall accept the same in full settlement of all claims in connection therewith, and that he do consent to the free use by the Government of his said patented poll book, until the expiry of the life of the patent thereof.

The Committee submit the same for Your Excellency's approval.

JOHN J. MCGEE, *C.P.C.*

---

AUDIT OFFICE, OTTAWA, November 28, 1896.

SIR,—I have your application of the 24th instant for a payment to Mr. S. E. St. O. Chapleau of one thousand dollars for a patented poll book.

In my view, as Mr. Chapleau is a public servant, and a poll book, no matter how useful, is in the line of his public duty, any payment to him should be made under the authority of a special appropriation in his name by Parliament.

I return the application herewith.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

---

AUDIT OFFICE, OTTAWA, June 23, 1894.

SIR,—From a comparison of the cost of printing for the General Elections of 1887 and 1891 it appears that, by having the Poll Books, Guidance to Voters and Blank

cxxiii

Forms printed at the *Government Printing Bureau* for the latter election, there was a saving on these items of \$3,744.13, calculated as follows:—

Printing for General Election of 1887 (exclusive of N. W. T.).....	\$ 11,572 76
Printing for General Election of 1891 (exclusive of N. W. T.).....	8,934 13
Difference.....	\$ 2,638 63
Average cost per constituency of ballots for 1887 election.....	\$ 9 00
Average cost per constituency of ballots for 1891 election.....	14 50
Increase of 1891 owing to better quality of paper.....	\$ 5 50
Increase in 201 constituencies.....	1,105 50
Saving on forms &c. printed in Bureau for 1891.....	3,744 13

I have the honour to be, sir, your obedient servant,

The Clerk of the Crown in Chancery.

J. L. McDOUGALL, A.G.

*Note by the Clerk of the Crown in Chancery:* Since the General Elections in 1891 (80) eighty bye elections have taken place, say 38 per cent of the General Elections, in which the same economy has resulted; consequently 38 per cent of \$3,744.13 should be added to that sum, making \$5,166.85 as the amount saved during this Parliament.

The expression in this letter of "printed at the Government Printing Bureau", is liable to mislead, because the same work could have been done cheaper by Job Printers; it should have read, printed in book form at one printing establishment.

S. E. St. O. C.

DEPT. OF AGRICULTURE, OTTAWA, December 10, 1896.

SIR,—I have the honour to refer to you herewith a copy of an Order in Council and a copy of a letter from the Auditor General. As will be seen, the former authorizes the payment to Major St. O. Chapleau, out of the Statutory fund for election purposes, of the sum of \$1000 which the Auditor General refuses to pay, until a special appropriation has been voted by Parliament for the purpose.

As the Order in Council appears to be very explicit, I beg leave to appeal to your Board from the decision of the Auditor General in the premises.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

W. B. SCARTH, D.M.A.

TREASURY BOARD, OTTAWA, December 17, 1896.

SIR,—I have the honour to inclose herewith T.B. case No. 22183, being an appeal to the Treasury Board from your decision in the matter of the payment of \$1000 to Major Chapleau for the use of his Patent Poll book, which payment you refuse to make.

Would you kindly let me know for the information of the Board the nature of your objection and the reasons therefor. Would you also be good enough to state under what section and clause of the Consolidated Revenue and Audit Act you take your objection.

I shall be glad to have any remarks you may have to make in reference to the subject.

I am, sir, your obedient servant.

The Auditor General.

J. M. COURTNEY, *Secretary.*

## Auditor General's Report.

AUDIT OFFICE, OTTAWA, January 2, 1897.

SIR,—I have your letter on the 17th ultimo and the accompanying file in connection with the appeal by the Department of Agriculture from my decision that the \$1000 sanctioned by Order in Council of the 19th ultimo should not be paid.

I notice a copy of my letter of June 23rd, 1894, addressed to Mr. Chapleau showing the saving which resulted in conducting the elections of 1891, through the change for which payment is now sought. There was a further saving in the late elections. The change has merit. My objection is against the payment to a permanent official, under any circumstances, of more than his regular salary.

I don't know how to distinguish this service from the other services which are given every day by the men who occupy the more responsible positions in the different branches of the public service. The saving which results from the watchfulness of the Chief Engineer of the Railways or of the Public Works Department, or of the Deputy Minister of the Finance Department, must be very great compared to that which Mr. Chapleau has saved, the sums involved being so much greater in their departments than in his office. I am more familiar with what goes on in this office. One recommendation from here with reference to the method of paying the revisors of the electoral lists, secured a reduction of \$70,000 in the cost of each revision,—over \$200,000 in the three revisions which have since taken place, while the revisors are better pleased with the existing method of payment than they were with the previous one. Many other acts of this office which had similar results occur to me.

I am sure, however, that any of those whom I have named would never think that his salary did not cover payment for such specially money-saving services as well as for all other services.

Then, if you once open the door for such claims how are you to close it? What a temptation there is to present such claims, and how are you to discriminate?

Besides, section 12 of 51 Vic., chap. 12 (Civil Service Act) is:—

“No extra salary or additional remuneration of any kind whatsoever shall be paid to any deputy head, officer or employee in the Civil Service of Canada, or to any other person permanently employed in the public service.” Is not the claim completely shut out by this section?

If it is desired to pay this sum there seems no way of doing it regularly except by a special item in the Estimate, withholding the payment until after the Supply Bill has been passed. This appeal comes under sub-section (a) of section 32 of the Consolidated Revenue and Audit Act.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

NOTE.—The amount referred to in the above correspondence was subsequently paid under authority of a special appropriation of Parliament.

J. L. McD.

### Marine and Fisheries: Temporary clerks appointed without examination, contrary to Statute.

(Continuation of correspondence on pages K—135 to K—139.)

AUDIT OFFICE, OTTAWA, July 16, 1897.

SIR,—I have the honour to inclose herewith for submission to the Treasury Board, correspondence which has taken place between this office and the Department of Marine and Fisheries respecting the employment in that department here of certain persons during the months of January, February and March last in connection with the preparation and issue of the fishing bounty cheques of the fiscal year just closed.

The point at issue is, whether or not it was incumbent on the department to have employed only such persons as had passed the Civil Service Qualifying Examination and were consequently eligible for employment as temporary clerks within the meaning of

section 47 of the Civil Service Act as amended by 58-59 Vic., chap. 15, section 7. The department has taken the view that the section quoted does not apply to the case in question and has acted accordingly, though fully aware that I held a contrary opinion and that the practice of the late administration in similar cases was in accordance with my view of the law. (See correspondence.)

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

\_\_\_\_\_  
TREASURY BOARD, OTTAWA, July 31, 1897.

SIR,—I have the honour to inclose herewith Treasury Board file No. 22,743, being a submission by you to the Treasury Board under date of the 16th instant, of a copy of correspondence which has taken place between your office and the Department of Marine and Fisheries respecting the employment in that department of certain persons during the months of January, February and March, 1897, in connection with the preparation and issue of the Fishing Bounty cheques of the fiscal year just closed. In connection with this I have to request that you will be good enough to advise me, for the information of the Board, as to the section and clause of the Audit Act under which you take your objection to the passing of the salaries referred to in the inclosed correspondence. I shall also be glad to have any remarks you may wish to make in reference to the subject.

I am, sir, your obedient servant,

The Auditor General.

M. G. DICKIESON, *Act'g Sec'y.*

\_\_\_\_\_  
AUDIT OFFICE, OTTAWA, September, 20 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of July 31 last, enclosing certain correspondence with reference to the payment of the extra clerks employed by the Department of Marine and Fisheries in connection with the preparation and issue of the fishing bounty cheques of the fiscal year 1896-97, and beg to say that in consequence of pressure of work, and judging from the absence of the Ministers that no Treasury Board sitting would be held during August, I have put off replying to you from day to day.

The section of the Consolidated Revenue and Audit Act under which the reference of July 16, 1897, was made is 32a. The objection which I have raised to the payments in question is fully stated in the attached correspondence.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

No decision has yet been received from the Treasury Board, February 1, 1898.—  
J. L. McD.

### Offsetting a debt due to the Government against one due by the Government.

(*Marine and Fisheries Department case.*)

\_\_\_\_\_  
AUDIT OFFICE, OTTAWA, April 3, 1897.

SIR,—I have received your application in favour of R. C. W. MacCuaig for the sum of \$100. I have to inform you that Mr. MacCuaig is indebted to the Government through the Department of Railways and Canals in the sum of \$522.78. I would suggest that your application, which I am returning, should be made for an entry warrant to credit the amount to his account for arrears.

I am, sir, your obedient servant,

The Deputy Minister, Marine and Fisheries.

J. L. McDOUGALL, A. G.

## Auditor General's Report.

MARINE AND FISHERIES DEPT., OTTAWA, June 7, 1897.

SIR,—On the 2nd April last, I made application to you for a cheque in favour of Captain R. C. W. McCuaig, for the sum of \$100, under the authority of an Order in Council, dated 30th March, 1897; and I have now to acknowledge the return of the application in question, enclosed in your letter of the 3rd April following, in which you suggest that I make application to you for an Entry Warrant to credit the amount to Captain McCuaig as he is indebted to the Department of Railways and Canals to the extent of \$522.78. In reply, I have to state that this department cannot properly administer its affairs, if before entering into an agreement with a person or persons, it has to ascertain, if the party is indebted to the Department of Railways and Canals, or to any other department. Such a course would restrict the department in that freedom which is necessary for the proper administration of the public business intrusted to it. This department is pledged to pay Captain McCuaig the amount ordered to be paid him, by the Governor in Council, under date as already mentioned, of the 30th March last. I therefore return you my application of the 2nd April and have to request you to kindly send me the cheque asked for.

I am, sir, your obedient servant,

The Auditor General.

F. GOURDEAU, *D.M. of M. and F.*

AUDIT OFFICE, OTTAWA, June 16, 1897.

SIR,—I am in receipt of your letter of the 7th instant in reference to the case of Capt. McCuaig, to whom your department owes \$100, and who owes the Department of Railways and Canals \$522.78.

It does not seem clear to me why you think it would be incumbent on your department before entering into an agreement with a person to ascertain if he was indebted to some other department. As a department is acting in the sphere assigned to it for the whole Government, a liability of a department is a liability of the whole Government; and conversely a debt due to a department is a debt due to the whole Government. It is not questioned that Capt. McCuaig is indebted to the Government. Such being so, I am unable to see how I can pass your application asking that the \$100 be paid him, as long as a larger claim is held against him by the Railway Department. I am again returning your application.

I am, sir, your obedient servant,

The Deputy Minister, Marine and Fisheries.

J. L. McDOUGALL, *A.G.*

*Treasury Board Minute, July 7, 1897.*—The Board had under consideration a memorandum respecting the payment of \$100 to Capt. R. C. W. McCuaig, of Ottawa, being half of the fine imposed on Mr. Laverdure, owner of the steamer "Ida", for violation of the law in regard to steamboat inspection, said payment having been sanctioned by Order in Council of 30th March, 1897. The Auditor General withholds payment of the amount, suggesting to the Department of Marine and Fisheries that as Captain McCuaig was indebted to the Department of Railways and Canals to the extent of \$522.78, an entry certificate should be made to credit this amount to Capt. McCuaig's account for arrears.

It is stated by the Department of Marine and Fisheries that Capt. McCuaig has been acting for some time past in investigating and reporting violations of the Acts relating to steamboat inspection and the examination of masters and mates, and has been paid sums of money by the Department of Marine and Fisheries upon the issue of an Order in Council, payment having been made through the office of the Auditor General without his having taken exception thereto; and that one of the banks in Ottawa had advanced the money to Capt. McCuaig, and the accountant of the depart-

ment notified them that the money was due, and would be paid to Capt. McCuaig through them.

The Board, in view of the circumstances of the case, direct that the amount in question (\$100) be paid to Capt. McCuaig.

The Auditor General.

J. M. COURTNEY, *Secretary*.

AUDIT OFFICE, OTTAWA, July 14, 1897.

SIR,—In reply to your letter of yesterday I have to state that your application will now be passed as soon as returned.

I am, sir, your obedient servant,

The Acting Deputy, Minister Marine and Fisheries. J. L. McDOUGALL, *A.G.*

(*Trade and Commerce Department Case, See Report 1895-96, pages R.—372 to 376, for previous correspondence.*)

TRADE AND COMMERCE DEPARTMENT, OTTAWA, March 1, 1897.

SIR,—Referring to the claim of the Bras d'Or Steam Navigation Company for payment of balance due of services under contract to the close of navigation.

The matter is to be placed before Treasury Board for such action as may be deemed proper, and I hand you herewith a copy of the recommendation to be forwarded for that purpose, as well as copies of letters from the Company giving its view of the situation as between the Company and the Department of Railways and Canals.

I am, sir, your obedient servant,

The Auditor General.

W. G. PARMELEE, *D.M. T. & C.*

*Memo. by Trade and Commerce Dept. :* The undersigned, acting for the Minister of Trade and Commerce, has the honour to submit for consideration of His Excellency the Governor General in Council the following recommendation :

That authority be given for the issue of a cheque in favour of the Bras d'Or Steam Navigation Company for the sum of \$1,750, amount of subsidy payable to that Company for services rendered from the 1st of December, 1896, to the close of navigation on the Bras d'Or Lakes, and between Port Mulgrave and St. Peter's.

In making the recommendation the undersigned has the honour to submit the accompanying copies of correspondence, which go to show that a claim has arisen from the Department of Railways and Canals for certain Canal tolls alleged to be due by the Company to the Government. It will be seen that the claim originated a number of years past, and it is claimed by the Navigation Company that it had been practically dropped years ago, and only now revived. It is further shown that a cheque for the amount of the previous claim for a period ending the 30th of November was withheld by the Auditor General, and transferred to the credit of the Department of Railways and Canals to apply in part liquidation of the claim in question. As there is some question as to the validity of a portion, at least, of the claim made against the Company, and as it does not seem expedient under the circumstances to withhold payment of the whole of the subsidy earned to apply on the claim in question, the undersigned recommends, as above, that the balance now due by the Department of Trade and Commerce for services rendered, under contract, as above, for the sum of \$1,750, be paid, leaving the question of the balance of the claim made by the Department of Railways and Canals to future adjustment between that Department and the Steam Navigation Company referred to, particularly so, as the Company is largely dependent upon its earned subsidy for payment of current expenses.

Department of Trade and Commerce, February 25, 1897.

## Auditor General's Report.

HALIFAX, January, 25 1897.

DEAR SIR RICHARD,—Referring to the conversation I had with you and the Finance Minister when here in *re* the Bras d'Or S. N. Co., I send you herewith the statement of our case to which I ask your kind consideration. The Company thinks it has a valid defence to the claim set up by the Government and the subsidies due us year by year being paid is fair evidence that your predecessors agreed with us in this. I ask that your department remit us the balance of the subsidy due for 1896, namely, \$3,500, and any claim that can be proved to exist in favour of the Government after due investigation will receive immediate attention. The certificates for the service to the close of navigation go forward by this mail to the Deputy Minister of your department who will no doubt consult you in the matter. I ask your attention to the deduction made by your department for taking the then Premier from Mulgrave to Port Hood.

Believe me, yours faithfully,

GEO. T. TROOP.

Sir R. CARTWRIGHT, K.C., M.G.,  
Minister of Trade and Commerce.

HALIFAX, N.S. January 25, 1897.

DEAR SIR,—Inclosed please find Bill, in duplicate, for services rendered on the Bras d'Or Lakes, for \$1,750, being balance of subsidy due for last period by government, also certificates in duplicate required by your department before payment of same. The President had an interview with Hon. the Minister of Trade and Commerce when here recently, to whom please refer, on this subject.

Yours truly,

J. W. GORHAM,

The Deputy Minister, Trade and Commerce.

*Secy. Bras d'Or S. Nav. Com'y.*

MEMORANDUM :—In the matter of the claim of the Department of Railways and Canals against the Bras d'Or S. Nav. Co., for tolls on the St. Peter's Canal. This Company originally undertook the service of carrying mails and passengers between the terminus of the I. C. R. at Mulgrave and East Bay for a government subsidy and free canal tolls such as was given to the owners of the S.S. "Clyde" who performed a similar service previously for several years. Subsequently the department declined the allowance of free tolls, and instead commuted the tolls of the two steamers "Marion" and "Neptune" for the years 1883 and 1884, at the bulk sum of \$500 each year, alleging that this was the same allowance as made to the owners of the "Clyde," although it is well known that the owners of the "Clyde" paid no tolls.

Representations were made from time to time by the late J. S. Maclean, President, and the late Capt. Bunhill, Manager of the Co., personally to the Ministers and through the representatives of Nova Scotia and Cape Breton counties, showing the gross injustice of such charges being made in view of the facts that the Company was assisting the E. E. R. and I. C. R. in building up the traffic throughout Eastern Nova Scotia, and in doing so was making close connections at Mulgrave at a serious loss to the Company, while sums ranging between \$60,000 and \$80,000 per year were annually distributed along points in Cape Breton alone in disbursements.

Although there were first class steamship lines in direct competition for the western bound business, the Company always framed its programme of service and adjusted its tariff of passenger and freight rates in accordance with the wishes of the I. C. R. In the year 1888 it was shown that we were giving to the I. C. R. 90 per cent of the total westward travel from Cape Breton Island.

The Company with its four first class steamships representing a capital of about \$80,000, had faith in an expansion of traffic, which would prove a profitable investment,

instead of which not a dollar has been paid in dividends for years past, while the public has been largely benefited by the facilities provided for merchants' transport, by increased facilities for travel and more rapid despatch of mails.

The result of the constant appeals of the Presidents and Managers of the Company resulted in the government recognizing that they had been overcharged, and in 1885 made an allowance of overcharge on tolls according to a commutation basis which was received under protest. These facts have been stated to the late Premiers by the deceased officers of the Company whenever they visited the Lower Provinces, and it was distinctly understood that no claim would ever be made officially against the Company for any arrears of tolls. The late Sir J. S. D. Thompson, when Minister of Justice, assured a representative of the Company that no valid claim could in his opinion be made under the circumstances, and the matter had better be left to rest.

In the year 1888, when objections were made by the late President, J. S. Maclean, to payment of tolls which were being demanded by the lock-master at St. Peter's Canal, the then representative of Cape Breton Co., Mr. H. F. MacDougall, who was in Ottawa, sent a despatch reading as follows:—

“ J. S. MACLEAN, HALIFAX,

“ Tolls remitted, all right.

“ H. F. MACDOUGALL.”

“ MAY 17th, '88.

No bills were rendered from Ottawa each year for tolls, and no entries made in the annual statements of the company to shareholders, believing that no such claim would ever be made.

In the year 1891, this vexatious demand, was sent through a firm of attorneys here for collection, amounting to over \$3,000 for tolls, covering a period from 1886 to 1891, and, again when representations were made as to the injustice of the bill no further steps were taken to collect it. During the long period while the St. Peter's Canal was being repaired, and the steamers unable to pass through in consequence of delay in finishing the work, the Company lost a large amount of money in consequence of passenger and freight traffic being diverted into other channels, and for which no compensation was made, in addition to the cost of carrying passengers and freight the length of the canal on what passed over. Since the opening of the railway the mail and passenger service previously performed by the steamers of the Company, is now being performed by the railway, and the steamers of the Company in passing through the canal since September, 1891, have paid full toll.

There were also no charges made on any occasion when Hon. Ministers made visits to Cape Breton, when special steamers were placed at their disposal, and expenses incurred befitting the occasion.

With reference to the amount \$1,675.94, stated by Mr. Schreiber, in letter of 31st December to the Auditor General, as being arrears of tolls, I beg to say that it is a claim made for extra services made by Steamer “May Queen” on the Bras d'Or Lake after navigation had closed, and which was admitted by the government, and has always been considered an asset of the Bras d'Or S. Navigation Company.

By reference to the items of the bill rendered, it will be observed that full rates are charged in years 1886 and 1888, \$300 each for “Neptune”, while according to the service performed it could not have been more than \$158.40, the same as in 1889 and 1890.

The government in the opinion of the Company could only render a bill as follows, subject to the Company's contra claim:—

Amount of account rendered .....	\$3,670 80
Cr. By overcharge in “Neptune” tolls, 1886 .....	141 60
Tolls remitted in 1888 .....	750 00
Amount of extra service of “May Queen”, 1892-94 .....	1,675 94
	2,567 54

Leaving a balance of .....

\$1,103 26

## Auditor General's Report.

---

Against which there is no credit given for compensation for loss sustained through long period of time taken in repairing the canal, and also the large outlay expended, and services rendered in various ways, as heretofore stated in this memorandum.

Were an equitable view of the case taken, the Company consider also that they would not be indebted to the government to any extent for the following reason :

The "Clyde" paid no tolls, but the sum was commuted to \$500 per year. By the same proportion according to tonnage the "Marion" and "Neptune" would pay the sum of \$193 and \$93, respectively.

From the year 1883, to end of September, 1891, this would amount to \$2,493, whilst the Company paid during this period the sum of \$3,218, of which the sum of \$718 was refunded, leaving a small balance overpaid of \$7.

In view of the circumstances as above stated, it is claimed on behalf of the Company that at least any further demand against the Company in this matter should be discontinued.

J. W. GORHAM, *Secy.*,

*Bras d'Or Steam Navigation Co., Halifax, N.S.*

Hon. Sir RICHARD CARTWRIGHT,  
Minister of Trade and Commerce.

---

*Order in Council, March 30, 1897.*—That authority be given to issue a cheque in favor of the Bras d'Or Steam Navigation Company for \$1,750, being subsidy payable to that Company for services rendered from 1st December, 1896, to the close of navigation on the Bras d'Or Lakes and between Port Mulgrave and St. Peters, notwithstanding any claims against the said Company by the Department of Railways and Canals, such claim being disputed by the Company, the Treasury Board having recommended the same.

JOHN J. MCGEE, *C.P.C.*

### Militia: Appointment dated prior to Order in Council making it.

*Continuation of Correspondence at pp. L-56 to 58, Report of 1895-6.*

DEPARTMENT OF MILITIA AND DEFENCE, OTTAWA, August 8, 1896.

SIR,—I have the honour to refer to you, herewith, docket A. 12,999 of this department.

The last two documents filed in this docket are :—

(a.) Order in Council, dated 17th July, 1896, appointing Colonel the Hon. Matthew Aylmer, Adjutant General of Militia at headquarters, from the 1st January, 1896, since which date he has been acting Adjutant General *vice* Col. Walker Powell, superannuated on the 31st December, 1895.

(b.) Letter from the Auditor General dated 22nd July, 1896, stating that, in his opinion, the appointment of Col. Aylmer cannot be legally made to date from a time prior to the passage of the Order in Council.

The opinion of your department is requested upon the Auditor General's contention in this matter.

I am, sir, your obedient servant,

The Deputy Minister of Justice.

C. EUG. PANET, *Col., D.M.M. & D.*

---

JUSTICE DEPARTMENT, OTTAWA, August 22, 1896.

SIR,—I have the honour to acknowledge the receipt of your letter of the 8th instant—A. 12,999—with reference to the appointment of Col. Aylmer as Adjutant General of Militia. It appears that the Order in Council of the 17th ultimo, purports to make the appointment so as to date from 1st of January, 1896, and the Auditor

xxxxi

General holds that the appointment cannot legally be made to date from a time prior to the passage of the Order in Council.

I am directed by the Minister of Justice to state that, in his opinion, the position taken by the Auditor is correct. There is no authority of which the Minister is aware for antedating this appointment, and there certainly appears to be no parliamentary authority for doing so. If for any reason it is necessary or desirable that Col. Aylmer should be held to have been Adjutant General from the date named in the Order in Council, the Minister thinks that his appointment should be ratified by Parliament.

I am, sir, your obedient servant,

The Deputy Minister, Militia and Defence.

E. L. NEWCOMBE, *D.M.J.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, January 16, 1897.

SIR,—I have the honour to transmit to you, herewith, the papers concerning the payment made to Col. the Hon. M. Aylmer, Adjutant General of Militia, with a view to having them examined by the Treasury Board if necessary.

The above mentioned payment was made on the authority of Order in Council of the 17th July, 1896 (copy herewith), and the Auditor General afterwards contested the propriety of such action. I am therefore directed by the Hon. the Minister of Militia and Defence to refer the matter for the consideration of the Treasury Board.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

C. EUG. PANET, *Col., D.M.M. & D.*

TREASURY BOARD, OTTAWA, January 22, 1897.

SIR,—I have the honour to transmit herewith T. B. file No. 22232 concerning the payment of \$200 to Colonel, the Hon. M. Aylmer, Adjutant General of Militia, and your objection to such payment, and I have to request that you will be good enough to let me know for the information of the Treasury Board, the nature of your objection and the reasons therefor, and to state under what section and clause of the Consolidated Revenue and Audit Act your objection is made. I shall also be glad to have any remarks you may wish to make in connection with the case.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary,*

AUDITOR GENERAL'S OFFICE, OTTAWA, February 3, 1897.

SIR,—*Re* Col. Aylmer's appointment: I need make no remark. The Department of Justice has decided that my position is well taken. See Audit Act, section 32, subsection (a).

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.*

TREASURY BOARD, OTTAWA, March 17, 1897.

SIR,—I have the honour to inform you that the question of the payment to Colonel Aylmer as Adjutant General, from the 1st January to the 30th June, 1896, to which payment you took exception, was considered by the Treasury Board, and that, in view of the opinion of the Minister of Justice, that there is no Parliamentary authority for the payment referred to, the Board were of opinion that your objection to such payment was well taken, and that Parliamentary authority must be obtained before the payment of Colonel Aylmer for the period mentioned could be sanctioned. The Deputy Minister of Militia and Defence has been advised of this opinion of the Board.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secy.*

## Auditor General's Report.

### Militia: Order in Council required for Increase of Pay.

*Continuation of Correspondence at Page L.—54, Report of 1895-96.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, January 30, 1897.

SIR,—In reply to your letter of the 22nd ult., relative to the pay of A. J. Duchesnay and A. Dupré, of the Government Cartridge Factory, Quebec, I am directed to state that as these two employees do not belong to the Civil Service and have no character of permanency, the Minister thought that an Order in Council was unnecessary to sanction their employment, and he wishes me to inform you that he will bring the case before the Treasury Board for a decision.

I am, sir, your obedient servant,

The Auditor General.

C. EUG. PANET, *Col., D.M.M. and D.*

AUDIT OFFICE, OTTAWA, February 11, 1897.

SIR,—I beg to say, in answer to your letter of the 30th ultimo, regarding A. J. Duchesnay and A. Dupré, that A. J. Duchesnay's name appears continuously in the report of this office from 1887-88 to the present time, and that of A. Dupré from 1891. Therefore, they seem to be treated practically as permanent employees.

At the end of your letter you speak about referring the case to the Treasury Board for decision. I would remind you that the Treasury Board does not intervene until I have refused to act. Hitherto I have been making inquiries in this matter, drawing your attention to certain facts and asking for explanations.

I am, sir, your obedient servant,

The Deputy Minister, Militia and Defence.

J. L. McDOUGALL, *A.G.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, February 26, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 11th instant, respecting the case of the employment of A. J. Duchesnay and A. Dupré at the Government Cartridge Factory, and in reply I beg to inform you that I am always disposed to give you all the explanations in my power, and that I am under the impression that I have given them. However, if there is any other explanation I can give, I will do so with pleasure.

I am, sir, your obedient servant,

The Auditor General.

C. EUG. PANET, *Col., D.M.M. and D.*

*Treasury Minute, Sept 21, 1897* :—The Board had under consideration the papers relative to the increase of the salary of Mr. A. Dupré, Clerk at the Government Cartridge Factory, Quebec, to \$720 per annum from 1st February, 1896; and of the salary of Mr. Arthur Duchesnay, Clerk in the same institution, to \$800 per annum from the same date—and the objection of the Auditor General thereto.

The Board regret that they are unable to recommend the payment of the increases in question.

The Auditor General.

J. M. COURTNEY, *Secretary.*

**Militia : Allowance in addition to Salary to Deputy Assistant Adjutant General.**

*Continuation of correspondence at page L—57, Report of 1895-96.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, January 16, 1897.

SIR,—I have the honour to transmit to you, herewith, the papers concerning the payment made to Major L. D. C. F. Bliss, Deputy Assistant Adjutant General, with a view to having them examined by the Treasury Board if necessary.

The above mentioned payment was made on the authority of Order in Council of the 10th December last, (copy herewith), and the Auditor General afterwards contested the propriety of such action. I am therefore directed by the Hon. the Minister of Militia and Defence to refer the matter for the consideration of the Treasury Board.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

C. E. PANET, *Col., D.M. M. & D.*

*Memo. of Department of Militia and Defence.*

*Case of Major Bliss* :—In the matter of the question raised by the Auditor General regarding the allowance paid by Order in Council to Major D. C. F. Bliss, Deputy Assistant Adjutant General at Head-quarters, it is pointed out that this allowance is not in any sense remuneration or pay.

Major Bliss was, on the 4th April, 1896, then being a civil servant, appointed Deputy Assistant Adjutant General at Head quarters. The day that this Order came into effect, Major Bliss, as a Staff Officer, became entitled to quarters, fuel, light and rations at the cost of the public. As no quarters are available for Staff Officers in Ottawa, and as no contracts exist for the furnishing of fuel, light or rations to this department, an allowance is paid to each Staff Officer in lieu of issue of rations or furnishing of quarters.

At the date of Major Bliss's appointment, however, no funds were available from which to pay him this allowance; consequently, when such funds became available, the arrears due him from the date of his appointment, were paid to him on the authority of His Excellency in Council.

As regards the question of the statutory authority, attention is drawn to 49 Vic., chap. 41, sec. 48, in which it is stated :—

“ Her Majesty may appoint Staff Officers of the Militia with such rank as, from time to time, is found requisite or necessary for the efficiency of the Militia service; and such Staff Officers shall have such rank and authority in the Militia as are held relatively in Her Majesty's service, and their duties shall be such as are from time to time, prescribed.”

TREASURY BOARD, OTTAWA, January 22, 1897.

SIR,—I have the honour to inclose herewith Treasury Board file No. 22233, being papers received from the Department of Militia and Defence, concerning the payment made to Major L. D. C. F. Bliss, Deputy Assistant Adjutant General, under Order in Council of Dec. 10th, 1896, of \$200 in lieu of allowances, to which payment you object. Would you be good enough to advise me for the information of the Board of the nature of your objection and the reasons therefor, and also to state under what section and clause of the Consolidated Revenue and Audit Act you take the objection. I shall be glad to have any remarks you may wish to make on the subject.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

# Auditor General's Report.

---

---

AUDIT OFFICE, OTTAWA, February 2, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 22nd ulto., accompanying papers from the Department of Militia and Defence, connected with an Order in Council, sanctioning an allowance of \$200 to Major Bliss, Deputy Assistant Adjutant General. It is stated that I contested the payment: but I only asked for the authority under the Militia Act for the payment.

There is an unsigned memorandum, part of the papers submitted to you, which states that "the day this Order came into effect, Major Bliss, as a Staff Officer, became "entitled to quarters, fuel, light and rations at the cost of the public. As no quarters "are available for Staff Officers in Ottawa, and as no contracts exist for the furnishing "of fuel, light or rations to this department, an allowance is paid to each Staff Officer, "in lieu of issue of rations or furnishing of quarters."

No law was quoted to me which gives authority for granting allowances to Staff Officers. The law has legalized certain regulations, but I have not been able to find out how the regulations applied to this case.

It appears to me that the first thing for the Militia Department to do is to answer my letter. If the answer shows that there is Parliamentary authority for the allowances, the matter will end.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, A.G.

DEPT. OF MILITIA AND DEFENCE, OTTAWA, February 11, 1897.

MY DEAR SIR,—In referring to your letter of the 22nd December, 1896, in connection with the granting of a yearly sum of \$200 as an allowance to Major D. C. F. Bliss, I beg to say that I considered this letter answered by my sending you a copy of Order in Council of the 10th December last, which I claimed as my authority for effecting the payment.

I also note that you state in this letter that there is no authority under the Militia Act for granting an allowance of this nature. I have the honour to reply thereto that I am not in a position to state whether or not the letter of the law gives the authority referred to; but the invariable custom in the Militia is that these allowances are paid and recognized by law and custom. At all events, I beg to inform you that the authority which I considered sufficient for my action was that of the Order in Council above-mentioned. In connection with this same subject, I beg to send you herewith a letter of yesterday's date from the General Officer Commanding the Militia, which throws some light on the legal aspect of the case, disclaiming, however, any responsibility on my part as to the legal point referred to.

I am, sir, your obedient servant,

The Auditor General.

C. EUG. PANET, Col., D. M. M. & D.

OTTAWA February 10, 1897.

SIR,—Adverting to the letter addressed to you on the 22nd December, 1896, by the Auditor General on the subject of the allowances to the Deputy Assistant Adjutant General at Head-quarters, fixed by Order of His Excellency the Governor in Council, of 10th December, 1896, at \$200 per annum, and stating that no authority under the Militia Act could be found for granting an allowance of this nature, I have the honour to state, for the information of the Auditor General, that statutory authority for the appointment of this staff officer is contained in 49 Vict., chap. 41, sec. 48.

On Major Bliss's appointment as Deputy Assistant Adjutant General at Head-quarters, under the authority above quoted, he became entitled under section 81 of the same Act to such rates as would be paid to an officer of his relative and corresponding grade in Her Majesty's service, in the absence of any rate being fixed by the Governor in Council.

When this officer was appointed by Order in Council of the 4th April, 1896, his pay was fixed at \$1,800 per annum; but no provision was made for an allowance to cover quarters, fuel, light and rations, to which he became entitled on the day of his appointment, in common with all permanent officers of the Militia of Canada.

Upon a representation of these facts being made to the Honourable the Minister of Militia and Defence, the Governor in Council was moved to fix the allowances of this officer at \$200 per annum, as no quarters were available for his use, and no contracts existed at this station for fuel, light and rations.

The fact set forth in the Order of His Excellency in Council fixing this allowance, that the officer in question had been deprived of the benefit of the superannuation fund on his acceptance of the position of Deputy Assistant Adjutant General at Head-quarters, only furnished an additional reason for the consideration of his just claims for an allowance; but did not form the basis on which such recommendation was put forward, as it is not only an established principle, but a statutory right for an officer on active service to be furnished with rations and shelter at the public expense. All permanent officers are at all times on active service, under the Militia Act, as they are at all times subject to the Queen's Regulations, the Army Act and all other laws applicable to Her Majesty's troops in Canada, and not inconsistent with the Militia Act.

I may add that similar allowances are paid to all permanent staff officers in Canada for whom quarters are not available; but that the rate fixed in the case of Major Bliss is much less than that paid to other officers of corresponding rank in Canada, and is lower by \$300 per annum than the rate paid to any other officer of Head-quarters Staff; and also that had not such rate been fixed by the Governor in Council Major Bliss would have been entitled, under the Militia Act, to the rate fixed by the Army Pay Warrant, which is much in excess of that which he now draws.

I am, sir, your obedient servant,

W. J. GASCOIGNE, *Major Gen., C.C.M.*

The Deputy Minister of Militia and Defence.

AUDIT OFFICE, OTTAWA, February 16, 1897.

SIR—I have your communication of the 11th inst., regarding the \$200 allowance to Major Bliss, and the communication of the Major General to you, which accompanied your letter.

The argument of the Major General is based upon the 81st section of the Militia Act, which reads:—

“Whenever the Militia, or any part or corps thereof, is called out for active service, the officers and men so called out shall be paid at such rates of daily pay as are paid to officers and men of the relative and corresponding grade in Her Majesty's service, or such other rates as are, for the time being, fixed by the Governor in Council.”

I do not presume to give my opinion in opposition to that of the Major General as to what may be ordinarily called active service in England, but I must state that the words in the 81st section do not seem to me to be open to the wide interpretation given to them by the Major General. Is Major Bliss always on active service? Surely not. If not the section does not apply.

Therefore, so far as I know, there is no statutory authority and presumably no statutory authority so far as the Militia Department knows, or it would have been quoted. Without statutory authority no public servant at head-quarters has a right to receive anything but his named salary for his services. Major Bliss lost the benefits of the Superannuation Act when he entered on his present duties, but he received increased pay at the time and knew, or ought to have known that he was giving up the benefits of the Superannuation Act.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister of Militia and Defence.

## Auditor General's Report.

---

TREASURY BOARD, OTTAWA, February, 15, 1897.

SIR—Referring to previous correspondence in regard to the allowance of \$200 to Major Bliss, Deputy Assistant Adjutant General, I beg to say that acting on a suggestion contained in your letter of the 2nd instant, I wrote to the Deputy Minister of Militia and Defence, asking him to send in a reply to your letter of the 22nd December last. This, I understand, he has now done, and I shall be glad to be informed whether from his answer it now appears to you that there is sufficient authority for the granting of the allowance in question, or whether the papers are still to be submitted to the Treasury Board.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

---

AUDIT OFFICE, OTTAWA, February 16, 1897.

SIR,—I have your letter of yesterday's date on the \$200 allowance to Major Bliss. You will find inclosed the letter from the Militia Department, and my answer to it. The papers are now, as you will see, in a better state for reference to the Board.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.*

---

TREASURY BOARD, OTTAWA, February 17, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 16th inst., in reference to the allowance of \$200 to Major Bliss, and inclosing copies of further correspondence with the Militia Department in regard to such allowance. On reference to your letter of the 2nd instant to the Treasury Board, I find that you state that it appears to you that the first thing for the Militia Department to do is to answer your letter, and if the answer shows that there is Parliamentary authority for the allowance, the matter will end. As the Militia Department has now answered your letter, I shall be glad to know for the information of the Treasury Board whether in your opinion there is Parliamentary authority for the payment of the allowance, and if the case is at an end. If, however, the matter is still to be submitted to the Board for decision, I shall be glad to be informed under what clause or section of the Audit Act you base your objection, also, as to the nature of your objection and the reasons therefor. I shall also be glad to have any further remarks you may wish to make in reference to the subject. I inclose the file.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secretary.*

---

AUDIT OFFICE, OTTAWA, February 17, 1897.

SIR,—I have your letter of to-day with reference to the allowance of \$200 to Major Bliss.

In my opinion there is no Parliamentary authority for the payment of this allowance. The matter should still be submitted to the Board, and under the 32nd section, subsection *a*, of the Consolidated Revenue and Audit Act.

I am, sir, your obedient servant,

The Secretary Treasury Board.

J. I. McDOUGALL, *A.G.*

**Militia: Date of Payment of Salaries, Head-quarters Staff.***Continuation of correspondence at pages L—57 to 59, Report of 1895-96.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, January 14, 1897.

SIR,—On the 21st October last an Order in Council was passed authorizing the payment of the salaries of the Head-quarters Staff, viz. : the General Officer Commanding the Militia, the Adjutant General and others, on the 15th day of the month, thus treating those officers as other civil servants who receive their monthly pay on the 15th of each month. The Auditor General objects to these payments, as will be seen by his letter herewith, of the 2nd Nov., 1896, and I request you to lay this matter before the Treasury Board to ascertain whether I am not authorized by the Order in Council of the 21st October, 1896, to pay the Staff at Head-quarters on the 15th, or whether the objections of the Auditor General are to be maintained.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

C. EUG. PANET, *Col., D.M.M. & D.*

TREASURY BOARD, OTTAWA, January 22, 1897.

SIR,—I have the honour to inclose herewith T. B. file No. 22221, being papers received from the Department of Militia and Defence in reference to your objection to the payment of the salaries of certain officers of the Head-quarters Staff on the 15th of each month, instead of at the end of each month. I have to ask that you will be good enough to advise me for the information of the Treasury Board as to the nature of your objections and the reasons therefor, and also to state under what section and clause of the Consolidated Revenue and Audit Act you take your objection.

I shall be glad to have any remarks you may desire to make on the subject.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Secy. T.B.*

AUDIT OFFICE, OTTAWA, February 2, 1897.

SIR,—I return herewith T. B. file No. 22,221, being papers received from the Militia Department regarding the date of payment of the Head-quarters' Staff. I have nothing to add in this case to what is stated in my letter of November 2nd last.

This appeal should, it appears to me, come under sec. 32, subsec. *a* of the Audit Act.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A.G.***Privy Council: Application of Civil Service Act to clerks paid from vote for Classification of Old Records.**

AUDIT OFFICE, OTTAWA, March 1, 1897.

SIR,—I am in receipt of a copy of an Order in Council of the 6th ultimo, authorizing the employment of Mr. M. Hearn and Mrs. D. Murray at the classification of the old records in the Privy Council Office.

I can find no trace of these parties having passed the Civil Service Examination. Kindly inform me whether they have done so, and if so, when.

I have the honour to be, sir, your obedient servant,

The Clerk of the Privy Council.

J. L. McDOUGALL, *A.G.*

## Auditor General's Report.

---

PRIVY COUNCIL OFFICE, OTTAWA, March 12, 1897.

SIR,—In reply to your letter of the 1st instant, the President of the Council directs me to say that he is not aware that Mrs. Murray has passed the Civil Service Examination, and that as to Mr. Hearn, he is a member of the Bar of the province of Quebec.

I am, sir, your obedient servant,

The Auditor General.

JOHN J. MCGEE, *C.P.C.*

---

AUDIT OFFICE, OTTAWA, April 20, 1897.

SIR,—I have your application of the 8th instant, to repay the bank \$265, the amount of cheques drawn by you from the 7th January to the 3rd ulto., on account of the amount voted for Classification of Old Records.

Before passing the application, I should like to be informed whether the three persons who received cheques passed the qualifying examination and did the work in your office.

Please also describe the mode of valuing the work.

It seems to me probable that for more than one reason it will be necessary to have an appeal from my view on the irregularity of this class of payments to the Treasury Board, if the class is to be authorized, and I would therefore request that no additional cheques of the kind be issued until I am relieved by the decision of the Board.

I am, sir, your obedient servant,

The Clerk, Privy Council.

J. L. McDOUGALL, *A.G.*

---

PRIVY COUNCIL OFFICE, OTTAWA, April 26, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 20th instant, with respect to payments made to certain persons on account of amount voted for Classification of Old Records.

Of the three persons to whom cheques have been issued, one of these is paid under the authority of the Order in Council of the 19th February, 1896, authorizing payments to Mesdames Macdonell, one of whom is now dead.

With regard to Mr. Hearn and Mrs. Murray, the Order in Council of the 16th February, 1897, is my authority for issuing cheques to them, and I have further to refer you to my letter of the 12th March ultimo.

The valuation of the work done is estimated by either of two officers of this office, reviewed by myself, as clerk of the Privy Council. In accordance with your request, however, no more cheques will be issued until I am further advised.

I am, sir, your obedient servant,

The Auditor General.

JOHN J. MCGEE, *C.P.C.*

---

AUDIT OFFICE, OTTAWA, April 30, 1897.

SIR,—I beg to acknowledge receipt of your letter of the 26th instant, with respect to the payments made by you out of the amount voted for the Classification of Old Records.

In reply, I beg to say that I have nothing to add to what was said by me in my letter to you of the 20th instant. I trust that you will take the necessary steps towards obtaining the decision of the Treasury Board in this matter at an early date.

I am, sir, your obedient servant,

The Clerk, Privy Council.

J. L. McDOUGALL, *A.G.*

TREASURY BOARD, OTTAWA, May 18, 1897.

SIR,—I have the honour to inclose herewith T. B. file No. 22511, in reference to your objection to the payment of the persons therein named who have been employed at the Classification of the Old Records in the Privy Council Office, and I have to request that you will be good enough to advise me for the information of the Treasury Board as to the nature of your objection to such payment and the reasons therefor, and also to state under what section and clause of the Audit Act you take your objection. I shall also be glad to have any remarks you may wish to make regarding the subject.

I am, sir, your obedient servant,

The Auditor General.

J. M. COURTNEY, *Sec'y.*

AUDIT OFFICE, OTTAWA May 22, 1897.

SIR,—I beg to acknowledge receipt of your letter of the 18th inst., with reference to the appeal of the Clerk of the Privy Council against my objection to the payment of the persons employed at the Classification of Old Records.

My objection to the payment of these persons is based on section 47*a* of the Civil Service Act, as amended by 58-59 Vic., chap 15, sec. 8, which enacts that no person not employed at the time of the passing of the latter Act "shall be eligible to be employed "as a temporary clerk or writer unless he has passed the qualifying examination "required by the Civil Service Act." This would apply to Mr. Hearn's case, as well as to the case of the other persons employed, even though he be a member of the Bar of the province of Quebec, as the only exemptions from the above are graduates of the Royal Military College or of any University in Canada.

Another objection to the payments is that the remuneration is based upon a valuation by the Clerk of the Privy Council, of the work performed, as provided in the Order in Council of Feb. 16th, 1897. There is no description of the measure of value. I presume that the valuator has endeavoured to determine the number of days work for which payment should be made, but he has not said whether he has allowed a day's work at one dollar or at five dollars. Section 10 of 58 and 59, chap. 15, fixes the maximum remuneration of a writer at \$400 a year, with \$25 additional for each optional subject passed not to exceed two. In two respects therefore there are legal objections:

(1.) The employees are ineligible as they have not passed the qualifying examination.

(2.) If they were eligible they could not be paid except at so much a day.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDOUGALL, *A. G.*

TREASURY BOARD, OTTAWA, May 25, 1897.

DEAR SIR,—Referring to your letter of the 22nd instant, with reference to objection to payment of persons employed in the Privy Council Office at the Classification of Old Records, would you kindly let me know as quickly as possible under what clause of section 32 of the Audit Act you base your objection.

Yours truly,

The Auditor General.

J. M. COURTNEY, *Sec., T.B.*

AUDIT OFFICE, OTTAWA, May 25, 1897.

SIR,—I have your letter of this date with reference to the payment of persons employed in the Privy Council Office, Classifying Old Records.

My objection, being that the payments are contrary to the Civil Service Act, comes under subsection (*a*) of section 32, Consolidated Revenue and Audit Act.

I am, sir, your obedient servant.

The Secretary, Treasury Board.

J. L. McDOUGALL, *A. G.*

## Auditor General's Report.

---

---

DEPARTMENT OF JUSTICE, OTTAWA, June 2, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 26th ultimo, and of the inclosed papers T. 22511 B., consisting of correspondence relating to the employment of Mr. M. Hearn and Mrs. D. Murray at Classification of Old Records in the Privy Council Office.

The Auditor General objects to payment being made for these services on the ground that such payment would be contrary to the provisions of the Civil Service Act; and you ask for advice as to whether his objection is well founded.

In reply I beg to state that, in my opinion, the first ground of his objection, as stated in his letter of the 2nd instant, is well taken.

The persons in question were employed to do temporary clerical work in the office; they were not employed as temporary clerks when the Act 58-59 Vic., chap. 15, received the royal assent, and they have not passed the qualifying examination, and their employment was, therefore, contrary to the provisions of sections 8 of the said Act of 58-59 Victoria. The fact that Mr. Hearn is a member of the Bar of Quebec does not relieve him from the necessity of passing the examination, as under the Act (section 31, as enacted by 51 Victoria, chap. 12, section 5) it is only graduates of the Royal Military College and of any University in Canada who are exempt from examination.

Taking this view of the first ground taken by the Auditor General, it is not necessary for me to deal with the one, based upon the basis or method of computation of the proposed payment.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

E. L. NEWCOMBE, *D.M.J.*

*Treasury Minute, July 7, 1897*:—The Board had under consideration objections raised by the Auditor General to payments to Mr. M. Hearn and Mrs. D. Murray, authorized by Order in Council of the 16th February, 1897, to be employed at the classification of Old Records in the Privy Council Office, as such payments would be contrary to the provisions of the Civil Service Act in that Mr. Hearn and Mrs. Murray had not passed the qualifying Examination. The Board, on the opinion of the Deputy Minister of Justice, as set forth in his letter of the 2nd June, 1897, are of opinion that the objection of the Auditor General as above given, is well taken, and that their employment is contrary to the provisions of section 8 of the Act 58-59 Vic., chap. 15.

J. M. COURTNEY, *Sec'y.*

The Auditor General.

### Railways and Canals cases.

Correspondence will be found in part R regarding the following cases submitted to the Treasury Board:

Canals: Interest on Land Purchases—Pages R—304 to 307.

Soulanges: \$10,000 drawback released to A. Stewart—Pages R—318 to 323.

Central Railway of New Brunswick: Subsidy not paid—Pages R—333 to 335.

(a.) Proposed appointment of medical attendant not made. (b.) Only four persons removed to Gibson Reserve. (c.) Grant did not become available in time to have any work done in fall of 1896. (d.) Assistance was given wherever considered necessary. It is difficult to estimate very closely as the requirements are governed largely by circumstances. (e.) Proposed appointment of instructor not made. (f.) Certain additions to buildings were not completed and new buildings not undertaken. Attendance at boarding schools not as large as provided for by estimates. (g.) There was no epidemic or sickness necessitating large outlay as in previous years. (h.) The building of a new industrial school at Lytton was not proceeded with, and the number of pupils in attendance throughout the year was not as large as the estimates provided for. (i.) Appropriation for dyking and irrigation not wholly expended. Appropriation for prevention of liquor traffic not expended. (j.) The operations in the field were not extensive.

These accounts have been examined under my direction and are correct.

J. L. McDOUGALL,  
*Auditor General.*

Examined.  
J. W. REID.

	530,000 00	526,162 05		23,010 32	19,172 37

(a) The over-expenditure was principally for fuel, more buildings having been occupied during the winter than was contemplated when the estimates were prepared. (b) Expenditure under these sub-heads is uncontrollable. Events such as the pursuit and capture of the Indian outlaws "Charcoal" in the south-west portion of the Territories in October and November, 1896, and "Almighty Voice" in the north in the early part of 1897, destroy all calculations and estimates based on ordinary requirements.

These accounts have been examined under my direction and are correct.

Examined,  
J. W. REID.

Salary of Clerk of the Council .....	2,000 00	2,000 00	H—16		

a. The unexpended balances at the end of a fiscal year are non-lapsable, hence the surplus in this case.  
 b. The travelling expenses of the Inspector of Registration offices and the contingencies of the office were very small in 1896-97; these and the fact that \$2,241.70 did not lapse in the previous year account for the surplus.

c. The number of lunatics cared for in 1896-97 was larger than in the previous year, so that the balance unexpended in 1895-96 had to be used to the extent of \$3,514.91.

\*Section 4 of Supply Bill provides that any amount unexpended shall be deemed not to have lapsed. This amount is available for expenditure of 1897-98.

These accounts have been examined under my direction and are correct.

Examined,  
 J. W. REID.

### North-west Territorial Exhibition of 1894 : Unpaid Accounts.

AUDIT OFFICE, OTTAWA, Sept. 7, 1897.

SIR,—Referring to the unpaid accounts in connection with the North-west Territorial Exhibition, a list of which was sent to this office on June 30, 1896, with application for cheques, I have to inform you that the accounts and papers which are my warrant for payment have not to this date been received, and that I cannot at this late period assume the responsibility for the issue of certificates for cheques in connection with these claims.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

DEPT. OF AGRICULTURE, OTTAWA, Sept. 11, 1897.

SIR,—I beg to acknowledge your letter of the 7th instant on the above subject, stating that you cannot at this late period assume the responsibility for the issue of certificates for cheques in connection with these claims.

I beg to draw your attention to the following facts :—

You wrote me on July 19 with respect to the claims against the Exhibition which I had forwarded to you for your opinion as to which of them you would be justified in paying as matters then stood. In your letter you mentioned, as you will see, a great many of these accounts upon which you wanted further information. I went thoroughly into all the details of these accounts with the acting accountant on receipt of your letter, and before the close of that month I had forwarded them all to Mr. Pope, at Regina, with a letter giving him your remarks on the various accounts which I was returning to him, and I added :—

“I think it very important that you should look into the above accounts carefully, and wherever you think overcharges have been made and that a compromise should be effected, report to us what compromise would be fair. Wherever you find errors, they should be corrected, and wherever you discover that articles have been charged that were not ordered, or have not been delivered, they should be deducted.

“I enclose you a copy of the Auditor General's letter. You will observe that he asks for a list of the prizes (special) and prize-winners. Please be good enough to let me have this at your earliest convenience.”

## Auditor General's Report—Part B

In writing Mr. Pope I asked him, as requested by the Minister, to get the assistance of Mr. Ross, member of the Executive Committee of the North-west Legislature, in examining the accounts, and also asked him to get Mr. Forget, the Indian Commissioner, to assist him. On the 3rd August he wrote me that the accounts would be examined with the assistance of Mr. Ross on his return to Regina in a few days, but that he could not submit them to Mr. Forget as he is now residing in Winnipeg. On the 9th August I sent you a copy of my letter to Mr. Pope and of his reply. On the 2nd inst., not having heard again from him I wired him:—

"Please hurry on inspection of accounts as we want to close all accounts for fiscal year," and on the 3rd inst. he answered me:—

"Writing you to-day *re* accounts."

I received that letter with the accounts which I now enclose to you, and which I have gone thoroughly through with the acting accountant. I have to ask you to be good enough to issue cheques for the various amounts as per memo. from the acting accountant enclosed, totalling \$1,706.26. I trust that you will be able to arrange this as the parties have waited, as it is, a very long time for their money.

I enclose you copy of Mr. Pope's letter, by which you will see he is getting on as fast as he can with the other accounts.

I hope that you will be able to arrange in some way for the settlement of the claims about which I now write you, as well as those still to come from Regina.

I have telegraphed again to-day to have them hurried down.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

AUDIT OFFICE, OTTAWA, September 14, 1897.

SIR,—I am in receipt of your letter of 11th instant, with enclosure *re* North-west Territorial Exhibition accounts.

In reply I have to state that unfortunately the appropriation to cover these liabilities was not available after July 31, 1896. Your application for Receiver General's cheques, it is true, was received before the appropriation lapsed, and while I could, pending the forwarding of the accounts from a distance or the settlement of a matter of mere detail, issue a cheque within a reasonable time after that date, the application for such having been made while the money was available, I would not at this date be warranted in assuming that responsibility. Even if the appropriations for 1896-97 were now available, I could not authorize payment of some of the accounts that were forwarded in your letter, such for instance as that of the Western Milling Co. for \$88.62, which does not bear a certificate of any kind.

It is unfortunate that the grant taken to meet these expenses had not been placed in the Supply Bill for this year so as to give ample time for a thorough investigation, as these liabilities are not of the ordinary kind and had not been examined and finally settled before Parliament was asked for the money.

I regret very much that a settlement of these charges cannot be made until Parliament has made the necessary provision, but I would advise that the liability in each case be definitely determined before that date.

I return herewith the accounts forwarded in your letter.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

DEPT. OF AGRICULTURE, OTTAWA, Sept. 20, 1897.

SIR,—I beg to acknowledge your letter of the 14th instant, in reference to the North-west Territorial Exhibition accounts.

I regret the decision you have come to in this matter. The reason that the grant taken to meet these accounts was not placed in the Supply Bill for this year was that

the Minister considered that it was a matter which should have been dealt with by the former Government, and, therefore, did not want it placed in the main estimates of the present year.

With regard to your remark that the liability in each case be definitely determined before the next meeting of Parliament, I would say that except in a very few cases the liability is already determined.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

### Quarantine Expenditure.

AUDIT OFFICE, OTTAWA, April 10, 1897.

SIR,—With reference to the Order in Council of April 2, 1897, rescinding the Order of November 27, 1896, which dispensed with the services of Mrs. Catherine O'Doherty, late matron at the quarantine station at St. John, N.B., and placing Mrs. O'Doherty on the retired list with an allowance of \$132, please explain why Mrs. O'Doherty's superannuation allowance did not form part of the former Order.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

DEPT. OF AGRICULTURE, OTTAWA, April 15, 1897.

DEAR SIR,—In reply to yours of the 10th, asking for an explanation why Mrs. O'Doherty's superannuation allowance was not included in the former order of November 27, 1896, I may say that at the time of the former order, when Mrs. O'Doherty's services were dispensed with, I was not aware that she was entitled to superannuation. Just as soon as I had definite knowledge of it, I recommended her to be placed on the superannuation list.

Yours truly,

The Auditor General.

SYDNEY FISHER.

AUDIT OFFICE, OTTAWA, April 26, 1897.

DEAR MR. SCARTH,—I see no difficulty about your not paying Mrs. O'Doherty between the date of her dismissal, Nov. 27, 1896, and May 1, 1897. It is true that by the Order in Council rescinding the first order she is recognized as of your department up to May last. Still you may decline to pay her, as you would decline to pay any other person in the employment of the department, because no services were performed during the time subsequent to her dismissal.

It very frequently happens that persons are accorded leave of absence without pay, and employees are not entitled to payment in the service for the time during which no work was done, when the time is outside their annual leave, unless under a special Order in Council for the purpose.

I think, therefore, that without further action of council, you are perfectly justified in applying for authority for the bank to pay the superannuation allowance to Mrs. O'Doherty from May 1, and in withholding payment for services between the date of her dismissal and May 1.

Yours sincerely,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

## Auditor General's Report—Part B

### Quarantine Expenditure—Complete Vouchers not Returned.

AUDIT OFFICE, OTTAWA, July 14, 1897.

SIR,—I am in receipt of your letter of the 13th instant, inclosing accounts of Jos. K. Dunlop and letter of Dr. March in re quarantine expenditure, St. John.

I gather from the papers that the work referred to was done under the superintendence of Mr. Dunlop, there being no contract between him and the department, Mr. Dunlop being under the general supervision of the quarantine officer, Dr. March. For his superintendence, Mr. Dunlop was paid at the rate of \$4 per day for 25 days, and to the extent of this work was an official of your department.

I note these items in his amount :

80 days, carpenters at \$2.50 .....	\$200
25 days, joiners at \$2 .....	50

These items should be supported by paylists, certified by Mr. Dunlop as regards time, which pay-lists should be receipted, as showing the parties to whom the money was paid. The accounts for supplies should also be certified by Mr. Dunlop, as asked for in my letter of the 12th instant.

Please ask Mr. Dunlop to amend these deficiencies in his accounts.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister of Agriculture.

QUARANTINE, ST. JOHN, N.B., August 5, 1897.

SIR,—In further reply to your letter of 17th July, enclosing Mr. Dunlop's accounts, I have the honour to report that I am unable to obtain the particulars asked for by the Auditor General in his letter to you of 14th July last.

Mr. Dunlop states that his account was made up in the way that is usual with him ; that he paid his workmen weekly during the progress of the work, that he did not take receipts from them for their pay and that he never has done so.

I am, sir, your obedient servant,

J. E. MARCH, Quarantine Officer.

The Deputy Minister of Agriculture.

### Quarantine Expenditure: Duplicate Payments.

AUDIT OFFICE, OTTAWA, October 2, 1897.

SIR,—Let me call your attention to two payments of \$36 each to Thomas Bros. & Grant, of Victoria, B.C., cheques Nos. 9887 and 10249. It would appear that the second payment of \$36 is made on an account which is merely a duplicate of the account on which first payment is made. Please let me have an explanation.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister of Agriculture.

DEPT. OF AGRICULTURE, OTTAWA, October 4, 1897.

SIR,—I beg to acknowledge your letter of the 2nd inst., drawing my attention to two payments of \$36 each to Thomas Bros. & Grant, of Victoria, B.C., cheques Nos. 9887 and 10249.

You will find on reference to your returns from this office that a refund of \$36 was deposited, No. 6769 on August 31 last. The deposit receipt was forwarded to your office on the 4th ult.

I am, sir, your obedient servant,

W. B. SCARTH, D.M.A.

The Auditor General.

AUDIT OFFICE, OTTAWA, Sept. 29, 1897.

SIR,—I have to call your attention to cheque No. 9231, 1896-97, a payment of \$8.65 to Braden Bros., Victoria, B.C., for sundry repairs to quarantine steamer "Earl." The payment is duplicated under cheque No. 9889, being included in the amount of that account. Please obtain from Braden Bros. a refund of this amount.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

DEPT. OF AGRICULTURE, OTTAWA, October 1, 1897.

SIR,—I beg to acknowledge your letter of the 29th ult., drawing my attention to cheque No. 9231 for \$8.65 paid to Braden Bros., of Victoria, B.C., and stating that it was duplicated under cheque No. 9889.

I have written Braden Bros. for a refund of the amount.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, D.M.A.

AUDIT OFFICE, OTTAWA, October 2, 1897.

SIR,—I have to call your attention to a payment of \$239.88, cheque No 10262, 1896-97, to Robt. Porter & Sons, for sundry supplies in connection with the quarantine service at Victoria, B.C. The items under May 17 in the account which amounts to \$4.90 are identical with the items under same date in the account whose amount is \$9, and the items of the account amounting to \$82.34 are identical with those under same dates in the account whose amount is \$89.34 Please let me have an explanation.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

DEPT. OF AGRICULTURE, OTTAWA, Oct. 8, 1897.

SIR,—I beg to acknowledge your letter of the 2nd instant, drawing my attention to a payment of \$239.88, cheque No. 10-262, 1896-97, to Robert Porter & Sons, of Victoria, B.C.

I note your remarks on the question of a portion of the account having been twice charged and twice paid. I referred the matter to the acting accountant, who acknowledges the mistake, and I have written to Dr. Watt, the superintendent of British Columbia quarantines, asking him to get a refund of the amount—\$86.43, and have also drawn his attention to the number of accounts he has lately certified to without properly checking. The attention of the acting accountant has been called to the absolute necessity on his part of more careful checking hereafter.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, D.M.J.

AUDIT OFFICE, OTTAWA, Oct. 8, 1897.

SIR,—Referring to your letter of to-day's date, *re* overpayment to Robert Porter & Sons, Victoria, B.C., I make the amount of the overpayment \$87.24, and not \$86.43, as stated in your letter.

Please instruct Dr. Watt to furnish in connection with these accounts and with all future accounts, the full certificates required by section 33, chapter 29, Revised Statutes, that the supplies have been received or that the services have been performed, as the case may be, and that the prices are according to contract, or if not covered by contract, are fair and just.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

## Auditor General's Report—Part B

DEPT. OF AGRICULTURE, OTTAWA, Oct. 29, 1897.

SIR,—I have the honour to inform you that Dr. Watt, Superintendent of British Columbia quarantines, has forwarded the cheque of Messrs. Robert Porter & Sons, of Victoria, B.C., for \$94.24, being refund covering overpayment of account of \$87.24. The cheque has been deposited to the credit of the Receiver General.

I am not able to explain why the cheque above referred to is for \$94.24 instead of \$87.24, but Dr. Watt has been written for an explanation.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

OFFICE OF THE SUPT. OF B.C. QUARANTINES, VICTORIA, B.C., Nov. 6, 1897.

SIR,—I beg to acknowledge your letter of Oct. 30, *re* Robert Porter & Sons account. \$94.24 is the correct amount. An item of \$7, for two pigs which belonged to my personal account, got by mistake into the station account. On checking over the bill I discovered this item and sent the bill back for correction, and in some way both the correct and incorrect bills were returned to me. When I came to send off my bills to you, I did not look into Robert Porter & Sons' account particularly, as I had already checked them over with my order list. It never occurred to me that they had sent me back a wrong bill a second time.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

A. T. WATT.

### Quarantine Expenditure: Incomplete Account.

AUDIT OFFICE, OTTAWA, October 1, 1897.

SIR,—I have to call your attention to an account of J. Godfrey Smith, for drugs in connection with the quarantine service at Halifax, which account was paid by your department by cheque No. 10389, 1896-97. The first item of the account is this:—

Dec. 31, 1896.—To amount of acct. rendered, \$3.10. In view of the absence of any detailed account of this item what explanation has your department for approving and paying the full amount of the account?

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, Nov. 17, 1897.

SIR,—Kindly let me have an answer to my letter of October 1, 1897, *re* payment of account of J. Godfrey Smith for drugs in connection with the quarantine service at Halifax.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

### Quarantine Expenditure: Advance not fully accounted for.

AUDIT OFFICE, OTTAWA, Oct. 5, 1897.

SIR,—Please forward to this office the accounts of Dr. Church against the advance of \$50 paid to him by your department, Cheque No. 9407, April 13, 1897.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, Oct. 18, 1897.

SIR,—I am in receipt from the acting accountant of your department of a letter inclosing an account from Dr. Church, amounting to \$37.95 against the advance of \$50 received by him in 1896-97. Please ask Dr. Church to account in full for the advance by depositing the unexpended balance of \$12.05 to the credit of the Receiver General.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

DEPT. OF AGRICULTURE, OTTAWA, Oct. 19, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 18th instant, in further reference to the 1896-97 advance of \$50 to Dr. Church.

As requested, Dr. Church has been asked to account in full for the advance by depositing the unexpended balance of \$12.05 to the credit of the Receiver General. The acting accountant had, previous to the receipt of your letter, called my attention to this.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

### Quarantine Expenditure: Payment not Vouched For.

AUDIT OFFICE, OTTAWA, SEPT. 28, 1897,

SIR,—With reference to your expenditure on account of Public Health, please forward to this Office as soon as possible all the vouchers in connection with the following advance. The Public Accounts for 1896-97 are being closed:—Cheque No. 8114, E. P. Lachapelle \$500.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, *A.G.*

DEPT. OF AGRICULTURE, OTTAWA, Oct. 7, 1897.

SIR,—Dr. E. P. Lachapelle has been requested to furnish vouchers in support of the advance of \$500 made to him, and as soon as he forwards the same to this Department, I will immediately transmit them to you.

I am, sir, your obedient servant,

The Auditor General.

F. C. CHITTICK, *Acting Accountant.*

DEPT. OF AGRICULTURE, OTTAWA, Oct. 30, 1897.

SIR,—In further reply to your letter of the 28th ultimo, asking for vouchers in support of the advance of \$500 made to Dr. E. P. Lachapelle, I am directed by the Minister to say that it was agreed that Dr. Lachapelle should be paid \$500, that sum to cover his expenses and remuneration in connection with his visit to Mexico as Canadian representative at the Pan-American Medical Congress held in that city on the 16th, 17th, 18th and 19th of November, 1896.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, *D.M.A.*

## Auditor General's Report—Part B

AUDIT OFFICE, OTTAWA, Nov. 2, 1897.

SIR,—I am in receipt of your letter of the 30th, ultimo, in answer to mine of September 28, asking that an advance of \$500 to Dr. E. P. Lachapelle be accounted for, stating that you are directed by the Minister to say that it was agreed that Dr. Lachapelle should be paid \$500, to cover his expenses and remuneration in connection with the Pan-American Medical Congress in Mexico, in November, 1896.

You evidently have overlooked several important points in connection with this matter. The time spent in the duty, details of dates when outlay took place, or the amount of it, in each case are all wanting. The adoption of the practice involved in this case would do away with anything like proper control of public expenditure.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

DEPT. OF AGRICULTURE, OTTAWA, Nov. 4, 1897.

SIR,—Referring to your letter of the 2nd instant, and my interview with you of to-day, I beg to say to you that I shall endeavour to have the Dr. Lachapelle matter put in such a shape as will be satisfactory to you.

Your obedient servant,

The Auditor General.

W. B. SCARTH, D.M.A.

NOTE.—The vouchers asked for have not been supplied, Nov. 30, 1897.—J. L. McD.

### Archives: Payment not vouched for.

AUDIT OFFICE, OTTAWA, Nov. 8, 1897.

SIR,—Please let me have as soon as possible the full accounts of Edouard Richard, of Arthabaskaville, against the payments to him of \$400, by your Department, and of \$404.16 by High Commissioner's office, London, on account of services and expenses in connection with the Archives.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

DEPT. OF AGRICULTURE, OTTAWA, Nov. 11, 1897.

SIR,—I beg to acknowledge your letter of the 8th instant, in reference to the accounts of Edouard Richard, of Arthabaskaville.

By looking at the Order in Council appointing Mr. Richard, of which, we are informed by the clerk of the Privy Council, a copy was sent to you, you will find that Mr. Richard was to be paid \$1,000, to cover remuneration for his services and all living and travelling expenses, and that this amount was to be paid from the appropriation for Archives. The payments made are:

By cheque from this office on Feb. 13, 1897.....	\$400 00
By cheque from High Commissioner's office.....	404 16
By cheque from High Commissioner's office, August, 1897,	
£40 4s. 10d., 1897-98.....	195 83

Making a total of..... \$999 99

The accountant's branch informs me that all accounts received from the High Commissioner's office have been sent to you, and these are the only vouchers we had.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, D.M.A.

AUDIT OFFICE, OTTAWA, Nov. 12, 1897.

SIR,—I am in receipt of your letter of the 11th instant, in reference to certain payments to Edouard Richard for services and expenses in connection with the Archives.

In a similar case—that of Dr. Lachapelle—I pointed out to you in a letter, dated November 2, 1897, the necessity of his furnishing some statement of details. The fact of an Order in Council having been obtained in this instance does not dispense with the necessity of such a statement to cover these payments. There is no record in this office of any services having been performed.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A. G.

AUDIT OFFICE, OTTAWA, November 24, 1897.

SIR,—I am in receipt of your letter of 18th instant, enclosing communication from D. Brymner, relative to the employment of E. Richard in connection with the Archives. While this letter is a general certificate that services have been performed by Mr. Richard, it is not a sufficient voucher for the payments which have been made. Will you kindly complete the vouchers by causing Mr. Richard to furnish the detailed statement of services and expenses asked for in my former letter, without which the payments are not sufficiently vouched for.

I am, sir, your obedient servant,

J. L. McDOUGALL, A. G.

The Deputy Minister of Agriculture.

### Experimental Farms Expenditure.

AUDIT OFFICE, OTTAWA, November 11, 1897.

SIR, with reference to the expenditure under Experimental Farms for 1896-97, let me call your attention to the following :—

Cheque No. 6842 includes a payment to John Fixter of overtime, 341 hours at 25 cents, amounting to \$85.25, and cheque No. 7277 is a payment of \$16 to the same person for the care of bees. As Mr. Fixter is employed at the rate of \$1,000 per annum, is not this salary supposed to cover his services at the Farm ?

Cheque No. 6911, Dr. Henderson.....	\$ 3 00
do 6947, do per Dr. Klotz.....	100 00
Voucher (petty cash) 539, Dr. E. C. Malloch.....	5 00

for professional services in the case of the farm employee injured at fire in chemical laboratory. What authority is there for paying these claims and charging them to the Vote for Maintenance of Experimental Farms ?

I notice that payments were made at the Brandon Farm to the amount of \$57 to the Mount Carmel Convent, Rat Portage, for translating letters—114 letters at 50 cents per letter. Similar service was done at the Indian Head Farm for 15 cents per letter, the number of letters having been only 42. Please let me have an explanation.

I am, sir, your obedient servant,

J. L. McDOUGALL, A. G.

The Deputy Minister of Agriculture.

DEPT. OF AGRICULTURE,  
CENTRAL EXPERIMENTAL FARM, OTTAWA, Nov. 22, 1897.

SIR,—Yours of Nov. 15 was duly received, inclosing a letter from the Auditor General, dated Nov. 11, in which he asks for explanations regarding some items of expenditure at the several Experimental Farms. I should have replied more promptly, but have not been able to get the information until now.

## Auditor General's Report—Part B

“Cheque No. 6842, a payment to John Fixter for overtime, 341 hours at 25 cents, amounting to \$85.25, and cheque No. 7277 to the same person for care of bees. As Mr. Fixter is employed at the rate of \$1,000 per annum, is not this salary supposed to cover his services at the Farm?”

Mr. Fixter is employed as Farm Foreman at the Central Experimental Farm, and his duties in this position occupy his time from 7 a.m. to 6 p.m. during the summer months, and from 7 a.m. to 5 p.m. during the winter months. Mr. Fixter has devoted a part of his evening, after his farm duties were over, to the care of the Apiary on the Farm. He has been employed in connection with the Apiary, under authority of the Minister, and it was agreed that 25 cents per hour should be allowed for this service, and 341 hours were so occupied between the 1st of April and the 1st of December, 1896, for which he received the sum named.

“Cheque 7277, for care of bees, \$16.” This was paid for care of bees during the winter months, from December 1st to April 1st, and the carrying on of experiments to gain information on the best methods of wintering bees. This expenditure, also, was authorized by the Minister.

“Cheques 6911, Dr. Henderson, \$3; 6947, Dr. Klotz, \$100; and voucher (petty cash) 539, Dr. E. O. Malloch, \$5.” These sums were paid, under authority of the Minister, for medical services rendered employees on the Experimental Farm who were injured at the time of the fire in the chemical laboratory. Dr. Malloch was paid \$5 for services in stitching and binding wounds received by two of the farm workmen, who were badly cut by broken glass in their efforts to extinguish the fire. The sums paid to Drs. Henderson and Klotz were for attendance during several months, on Mr. Taylor, foreman in the horticultural department, who, in his heroic efforts to extinguish the fire, nearly lost his life. He was very badly burned, and both hands and his face were permanently disfigured.

The payment made at the Brandon Farm, of \$57, to the Mount Carmel Convent, for translating letters, I am informed covers in each case the translation of the original letter from French to English and also the translation of the reply from English to French. The service done at Indian Head for 15 cents per letter was for the one translation only. Had the bills been rendered on the same plan as at Brandon, the service at Indian Head would have appeared as 30 cents instead of 15 cents, and 20 letters instead of 40. Last July I made inquiries regarding the charge made for the translation of French letters at Brandon, and had samples of the letters sent to Ottawa, which I submitted to one of the translators here and was informed that 25 cents for each of the translations would be considered a fair charge for such work here.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

WM. SAUNDERS, *Director*.

AUDIT OFFICE, OTTAWA, November 26, 1897.

SIR,—I am in receipt of your letter of the 23rd instant, enclosing communication from Dr. Saunders relative to certain items in Experimental Farms expenditure for 1896-97.

With reference to the payments to Mr. Fixter for overtime, I am of the opinion that a person occupying the permanent and prominent position of a foreman on the Farm, should either do any work that may be required after the usual working hours of those under him without addition to his salary, or should have the work done by some other person.

I learn from the Director's letter that the medical attendance for which payment was made was largely for Mr. Taylor, foreman of the Horticultural Department, whose name I notice was continued on the regular pay-list of farm labourers without explanation as to his attendance. The usual course in a case of this kind is to have the authority of the Governor in Council before making payment to Mr. Taylor of his salary, and of the accounts for medical attendance.

Referring to the accounts for translating letters at the Brandon farm, I gather from the Director's statement, that the 50 cents represents in each case the translation of the original letter from French into English and also the translation of the reply from English into French. The charge in the accounts reads as follows:—"To translating French letter into English and answer into French, \$1." It would appear therefore in the payment of \$57 for the year's translating, there has been an overpayment of \$28.50. Even then it will be seen that the service per letter is 10 cents higher than the rate at the Indian Head farm.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister of Agriculture.

CENTRAL EXPERIMENTAL FARM, OTTAWA, Dec. 2, 1897.

DEAR MR. SCARTH,—Your letter of Nov. 27th is received, returning to me file No. 111312 with a further communication from the Auditor General regarding certain expenditures at the Experimental Farms.

In his communication the Auditor General expresses the opinion that a person occupying such a position as Mr. Fixter does here at the Central Farm, that of foreman of the farm, should do any work which may be required after the usual working hours of those under him without addition to his salary.

I may say that Mr. Fixter is always ready to do any work pertaining to his position at any hour, whether during the day or night, without thinking of making any additional charge for his services beyond the salary he is paid. But when this question of the care of the bees was discussed and he was found to be quite agreeable and willing to undertake this work, it was thought that it could not, in any sense, be considered as work for which he was engaged or paid, and the Minister was of opinion that the extra time so employed should be paid for at the price named, and in this I concurred.

With regard to Mr. Taylor's injuries, sustained in his endeavour to preserve government property and which prevented him from discharging his regular duties on the Farm for a time, I was instructed by the Minister to continue Mr. Taylor's pay of \$1.50 per day during the time he was laid up in consequence of this injury.

With reference to the account for translating letters for the Brandon Farm, I regret that we had not the original accounts here to refer to before I wrote in reply to the remarks of the Auditor General, but I enquired of our Accountant and he informed me that the charge of 50 cents covered both the translation of the original from French into English and also the translation of the English reply into French, and on referring to the entries on our books they were found to be made in such a way as to lead one to this conclusion. Further, the fact that in two or three accounts there was an odd 50 cents in the amount, led me to feel sure that this was the arrangement.

From the way in which the Auditor General says the accounts read, however, it would appear that our Accountant was in error, and I enclose a note from the Accountant in explanation.

No further bills have been received from Mr. Bedford since I wrote him last summer, but I have no doubt he has made arrangements to have the translation of his French letters done at less cost.

Yours truly,

W. B. SCARTH, Deputy Minister of Agriculture.

WM. SAUNDERS, *Director.*

## Auditor General's Report—Part B

### *Re Cattle Inspection.*

AUDIT OFFICE, OTTAWA, June 23, 1897.

SIR,—I understand the arrangement with the Michigan Central and Grand Trunk Railways in connection with cattle inspection has been discontinued and the services of the inspectors dispensed with. If this is so, I have to ask for a copy of the regulations in reference thereto.

Have the railways been furnished with a statement of the salaries and expenses for which they are liable, and have they refunded the amounts due?

What is the position of M. Auger, a new officer, who is still employed? Are the railway companies liable for his salary and expenses?

If no further fees are to be collected, any further expenditure should be charged to the vote for quarantine.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister of Agriculture.

DEPT. OF AGRICULTURE, OTTAWA, June 24, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 23rd inst. The new arrangements between the United States and Canada as to cattle inspection and quarantine, rendered unnecessary the continuance of the arrangement with the railway companies. I presume the regulations you desire are those which passed Council in consequence of the agreement between the Minister of this Department and the Secretary of the United States Department of Agriculture, and I inclose you a copy of them.

The acting accountant informs me that a statement of the amount due by the railway companies at the date of the new arrangement has been sent over to your department, and upon learning that you and he agree upon the sum due, a statement showing the amount due by each company will be forwarded to them.

I inclose copy of departmental letter, appointing Mr. Auger, for whose salary the railway companies are responsible.

I am, sir, your obedient servant,

W. B. SCARTH, *D.M.A.*

The Auditor General.

AUDIT OFFICE, OTTAWA, Sept. 20, 1897.

SIR,—In your letter of June 24th, you state that the railway companies are responsible for the salary of Mr. Auger. There was paid him for salary and expenses to June 30th last, \$543.41, and only \$22.85 of this amount has been refunded. It is desirable that the balance should be collected and refunded to the accounts of 1896-97 as soon as possible. Mr. Auger's contingent account for June is not furnished. The difference between it and the advance of \$50, made to him in February last, should be refunded. I notice that a further advance of \$50 was made him in July, which was charged to revenue. As there are to be no more fees collected, this account should be treated as expenditure, for the future.

Please explain the payment of \$150, made to Mr. Blanchard in June. He had been previously repaid the fees he collected up to the end of January, and nothing has since come to account from him.

\* \* \* \* \*

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister of Agriculture.

AUDIT OFFICE, OTTAWA. Nov. 9, 1897.

SIR,—I have to remind you that I have not received any reply to my letter of September 20th last, in reference to certain disbursements made on account of cattle inspection.

I am, sir, your obedient servant,

The Deputy Minister of Agriculture.

J. L. McDOUGALL, A.G.

*Re* Arrears Due.

DEPT. OF AGRICULTURE, OTTAWA, Dec. 7, 1897.

SIR,—Your circular letter of the 4th October was referred to the acting accountant, who wrote you on the 4th ultimo, forwarding a list of advances unaccounted for up to the 30th June last.

So far as this department is concerned there are really no arrears. The advances outstanding in connection with the branch of the commissioner of agriculture and dairying have, according to the understanding come to between us, to be accounted for by the commissioner direct to you, and I understand he has written you in the matter.

The only other outstanding balances are those of Dr. Lachapelle, who is to give us an account of his disbursements in connection with his visit to Mexico as Canadian representative at the Pan-American Medical Congress, and of M. Auger, whose salary and expenses are to be refunded to us by the different railway companies. Negotiations are now going on for the purpose of deciding what proportion shall be paid by each company in the latter case.

I am, sir, your obedient servant,

The Auditor General.

W. B. SCARTH, D.M.A.

DEPT. OF AGRICULTURE, OTTAWA, Dec. 14, 1897.

SIR,—I am in receipt of your letter of the 9th December. The only arrears due to this branch on June 30th, 1897, and still unpaid, are :—

J. D. Leclair.....	\$152 56
H. S. Pearson.....	40 00
E. H. Moorehouse.....	61 15

There are some other amounts due to the Department for cheese, butter, and apparatus supplied ; but I do not take it that your enquiry refers to them.

Yours truly,

The Auditor General.

JAS. W. ROBERTSON, *Commissioner*.

## Auditor General's Report—Part D

### Re Copper Coinage.

AUDIT OFFICE, OTTAWA, October 5, 1897.

SIR,—I have to call your attention to the charges of the Dominion Express Company for freight and insurance on copper coin from England, which were \$56.19 more in 1896-97 than the previous year for the same quantities, as per the following statement:—

	1895-96.	1896-97.
Freight and Insurance on \$1,000 to Halifax...	\$ 25 00	\$ 24 98
do do 1,000 to St. John..	27 50	40 78
do do 3,000 to Montreal..	87 73	120 25
do do 5,000 to Toronto...	187 50	212 51
	327 73	398 52
Less rebate account insurance.....	6 03	20 68
	321 65	377 84
		321 65
		56 19

I inclose the accounts of both charges and shall be glad to have an explanation of the increase.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister of Finance.

FINANCE DEPT., OTTAWA, October 9, 1897.

SIR,—I have the honour to acknowledge receipt of your letter of the 5th inst., *re* freight and insurance on copper coinage, and in reply to say that the amounts paid to the Dominion Express Company for freight, &c., on the coin shipped from England are made up to a large extent of the charges paid by them to the steamship companies. These freight rates are not fixed charges, but vary very much from time to time and we are obliged to accept the prevailing rate at the time of shipment on the vessel by which we are shipping.

I have no doubt that the two rates to which you refer were the prevailing rates at those dates, but I am having inquiries made to ascertain whether this is the case or not. I return the vouchers herewith.

I am, sir, your obedient servant,

J. M. COURTNEY, D.M.F.

The Auditor General.

### Re Insurance Superintendence.

AUDIT OFFICE, OTTAWA, October 6, 1897.

SIR,—The Superintendent of Insurance in his letter of April 9th last incloses certain bank receipts for amounts paid by several Insurance Companies as penalties for default in filing their annual statements, and adds that 75 per cent of the full penalty incurred was remitted by order of the Governor General in Council.

RECORDED  
FEB 11 1898 I have to inquire under what statutory authority the Governor in Council has the power to remit any part of these penalties.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

The Deputy Minister of Finance.

FINANCE DEPT., OTTAWA, October 7, 1897.

SIR,—Replying to your letter of 6th inst., I have the honour to say that I am not aware of the existence of any statutory authority for remitting the penalties to which you refer. In an opinion, however, received from the Department of Justice, dated October 24, 1896, the Deputy Minister states that the Minister of Justice bids him say that any offence against the sections of the Insurance Act under which the penalties in question were incurred, is no doubt subject to the exercise of the prerogative of mercy, and that a pardon by the Crown would carry with it a remission of the penalty and it was upon the strength of that opinion that the penalties were remitted.

I am, sir, your obedient servant,

The Auditor General.

W. FITZGERALD, *S.I.*

AUDIT OFFICE, OTTAWA, October 13, 1897.

SIR,—I inclose herewith correspondence between the Department of Finance and this office regarding the remission of penalties imposed under statute on certain insurance companies. Please say whether you agree with the view taken by the Department of Justice.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

Z. A. LASH, Esq., Q.C., Toronto.

TORONTO, October 25, 1897.

SIR,—I now give my opinion upon the question submitted in yours of the 13th, as to the power of the Crown to remit penalties imposed upon Insurance Companies for breach of Section 20 of the Insurance Act, which makes it incumbent on every Company subject to the provisions of the Act to furnish to the Minister of Finance certain statements with respect to its condition and affairs.

Section 21 provides that every Company which violates the provisions of Section 20, shall incur certain pecuniary penalties. It appears that by order of the Governor General in Council portions of the penalties incurred by certain Insurance Companies were remitted, and the question you ask is whether power so to remit exists.

There is no Statutory authority authorizing the remission of penalties in a case of this kind, but I think that, under the general power to pardon which under its prerogative the Crown possesses, the remission of penalties, in whole or part, in this case was authorized.

The following extract from the language of the judgment of the Chancellor in the case of the Attorney General of Canada *vs.* the Attorney General of Ontario, reported in vol. 20 of the Ontario Reports, p. 253, bears upon the question: "The grant of pardon is under the royal instructions (*i.e.* to the Governor General), permitted in the case of those convicted of any crime. That word should bear the same meaning as when used in the British North America Act, implying violation of a Dominion Statute or of the common law relating to crime. So the power of remission thereby authorized is as to fines, &c., which may become due and payable to the Queen, *i.e.*, to the Crown as representative of the public of Canada."

In quoting this extract I do not wish to be understood as intimating that the prerogative of mercy vested in the Governor General of Canada exists only under the instructions issued with his commission. Without these instructions there would, I think, exist this prerogative. I refer to the Chancellor's judgment for the purpose of showing that under the words of the instructions the power of remission of fines, &c., is conferred.

I know of no Statutory provision qualifying the right of remission of penalties under the section of the Insurance Act referred to, and in the absence of any such Statutory provision I think the power to remit exists.

I am, sir, your obedient servant,

The Auditor General.

Z. A. LASH.

AUDITOR GENERAL'S REPORT  
1896-97

PART E

GEOLOGICAL SURVEY DEPARTMENT

DETAILS OF EXPENDITURE AND REVENUE

**Geological Survey: Summary.**

Civil Government—Salaries.....	(Page E—2)	49,983 31
Geological Survey.....	(do E—3)	60,000 00
Petroleum Borings, Athabasca Landing.....	(do E—7)	7,000 00
Miscellaneous, unforeseen expenses.....		216 66
		117,199 97

AUDIT OFFICE, August 21, 1897.

SIR,—I beg to ask your attention to the exploration account of Mr. Hugh Fletcher for the season 1896. This account is unsatisfactory, in that it does not give in detail the different payments with the dates on which the various items of expenditure were incurred. Instead of this Mr. Fletcher gives merely the total expenditure each month for board and lodging and for travelling expenses, &c.

The proper accounting for public moneys advanced to an explorer is by no means the least important of his duties, and I have to ask that you see that Mr. H. Fletcher gives proper attention to this in the future. I should also ask for properly detailed accounts for the season 1896. Mr. Fletcher's assistant, Mr. M. H. McLeod, is paid at the rate of \$2.56 per diem, which appears to include living expenses. Mr. McLeod should be paid at the ordinary rate paid to assistants, and should render full details of his living expenses.

I am, sir, your obedient servant,

The Director, Geological Survey.

E. D. SUTHERLAND, for A.G.

GEOLOGICAL SURVEY, August 23, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 21st instant, respecting Mr. Hugh Fletcher's exploration account for 1896. Mr. Fletcher's expenditure is, I consider, very moderate and economical for the work performed by him in Nova Scotia. His board from 10th June to 31st December, 204 days, amounted to \$209.85, or a fraction over a dollar a day, certainly not an excessive outlay. It has been found much more convenient and economical to pay his assistant a regular rate of wages per day, and have him pay his own board and ordinary travelling expenses out of it. Mr. Fletcher's attention will be drawn to your letter, and no doubt he can furnish the detailed information asked for.

I am, sir, your obedient servant,

The Auditor General.

GEORGE M. DAWSON, *Director*.

AUDIT OFFICE, September 11, 1897.

SIR,—I am in receipt of your letter of the 23rd ultimo, with reference to the exploration accounts of Mr. Hugh Fletcher. You seem to have misunderstood the tenor of my letter of August 21st, regarding the account. I have no doubt but that Mr. Fletcher's expenditure is, as you say, very moderate and economical for the work performed by him in Nova Scotia. The point, however, that I wished to make was that

## Auditor General's Report—Part E

---

---

Mr. Fletcher, instead of entering the total expenditure each month for board and for travelling expenses, etc., should enter each item of expenditure day by day as it was incurred. With reference to the payments to his assistant, Mr. McLeod, I have to say that though it may be found more convenient and economical to pay him a regular rate of wages per day, and have him pay out of this his own board and ordinary travelling expenses, still this principle is, in my opinion, a wrong one. Mr. McLeod should be paid at a fair and just rate for his services, and should be repaid for his actual outlay for board and travel, of which he should render a fully detailed account.

I am, sir, your obedient servant,

The Director, Geological Survey.

J. L. McDOUGALL, *A.G.*

---

GEOLOGICAL SURVEY, Sept. 13, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 11th inst., relative to Mr. Hugh Fletcher's expenditure for 1896, and to inform you that I have this day mailed a copy of it to Mr. Fletcher, who is now on field duty in Nova Scotia.

I am, sir, your obedient servant,

The Auditor General.

J. F. WHITEAVES, *Actg. Dir.*

---

AUDIT OFFICE, August 21, 1897.

SIR,—In the exploration account of Mr. E. R. Fairbault for the season 1896, I find an account paid Messrs. Beament & Johnson of \$20.65 for bicycle supplies and repairs. This account covers the period from June, 1895, to December, 1896. There are also other charges of the same nature amounting to \$6.45. Charges of this nature are an innovation and should only be allowed with the greatest caution. The bicycle in question is no doubt Mr. Fairbault's private property, and while it may have been a convenience to him and a saving to the Government to use it in connection with his survey, still it must have been used considerably for his own private purpose at Ottawa and elsewhere. Under the circumstances I must ask for fuller information with regard to these charges, before allowing them.

I am, sir, your obedient servant,

The Director, Geological Survey.

E. D. SUTHERLAND, *for A.G.*

---

GEOLOGICAL SURVEY, OTTAWA, August 23, 1897.

SIR,—With reference to your letter of the 21st inst., relative to a charge of \$27.10 by Mr. E. R. Fairbault for repairs to a bicycle and some small supplies for same, I beg to state that Mr. Fairbault used a bicycle, his own property, on field-work in Nova Scotia during the season of 1895 and 1896, and the repairs charged for became necessary in consequence of this work. Had he not done so his outlay for horse-hire would have amounted to far more than the sum charged. The bicycle being a new factor as a means of travel deserves, I think, consideration. It is very well adapted for field use in settled districts. I consider Mr. Fairbault's charge a legitimate one, even though the bicycle happened to be his personal property, as there is no charge made for the time he had it in use on Government work.

I am, sir, your obedient servant,

The Auditor General.

GEORGE M. DAWSON, *Director.*

### GEOLOGICAL SURVEY OF CANADA, OTTAWA, January 4, 1898.

SIR,—In transmitting to you the enclosed list of arrears due to this Department, I beg to state that on the 24th April last, a report was made to the Deputy Minister of Finance on the claims deemed to be uncollectable, with a view to having them written off by Parliament, and in the case of certain other debts, which were still thought possible to collect, they were placed in the hands of the Deputy Minister of Justice for that purpose.

I am, sir, your obedient servant,

The Auditor General.

GEORGE M. DAWSON, *D.H. & D.*

## Insufficiency of Certificates of Delivery on Vouchers for Indian Supplies.

NOTE:—For the beginning of this correspondence, see Auditor General's Report for 1895-96, page G—124.

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 22, 1897.

SIR,—With reference to your letter of the 7th November, and this department's reply of the 17th of that month, I beg to inform you that the Indian Commissioner, who was advised of your wishes in regard to the course to be followed when goods are issued from the warehouse at Regina, has written to the department on the subject. In his letter (of date the 12th instant) the commissioner points out that the distribution lists which are forwarded in connection with accounts for contract supplies, showing the agencies to which the supplies have been sent and are chargeable to, are taken from the ledger kept at the warehouse, in which all supplies shipped to an agency are charged at the time of shipment. Each shipment is accompanied by a shipping bill, with the goods enumerated thereon, and this is signed by the agent and returned to the warehouse, where it is checked off the ledger account. In addition to this the warehouse books and agents' receipts are audited by one of the inspectors. The commissioner goes on to say that to obtain special receipts from the agents for the supplies shipped during the fiscal year would entail no little work, and adds that as all supplies will in the near future be delivered direct to Indian agents, he would ask if the present system may not continue.

The commissioner states further that the receipted shipping bills would not take the place of the receipts asked for, as they cover contract as well as other supplies, and would only be confusing when compared with the contractors' invoices. In conclusion, Mr. Forget states that if necessary special receipts can be obtained covering the contract supplies delivered at Regina (for the last time) for the next fiscal year.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Actg. Secy.*

AUDIT OFFICE, OTTAWA, June 3, 1897

SIR,—In reply to your letter of the 22nd ulto. I beg to state that if, instead of a shipping bill, you sent to the agent an ordinary account from a seller to a buyer containing the number of articles of the same kind and the price, with the date of shipment and signed by the person who acts in the matter for the Regina Office and acknowledged in due course by the receiving agent, it appears to me that your employees would not find the duties connected with the matter either difficult or laborious, while the object that this office has in view would be attained. If you find that this matter can be satisfactorily dealt with and as easily as it seems to me it can, there would be no object in delaying action. I trust that you can see your way to giving the necessary instructions.

I am, sir, your obedient servant,

The Acting Secretary, Dept. of Indian Affairs.

J. L. McDOUGALL, *A.G.*

## Payment of Arrears of Salary of Twenty Years' Standing.

NOTE:—For the beginning of this correspondence see Auditor General's Report for 1895-96, page G—125.

DEPT. OF INDIAN AFFAIRS, OTTAWA, January 30, 1897.

SIR,—With the reference to the inquiry made in your letter of the 15th September last, regarding the payment of \$137.50 to Thomas Howard Corregan, for arrears of salary as teacher of the North St. Peter's school during the years 1876 and 1877, I beg to inform you that during the years mentioned two schools were in operation on the

## Auditor General's Report—Part G

St. Peter's Reserve, conducted under the auspices of the Church of England Missionary Society, towards the support of which a grant of \$300.00 was allowed by the department, being the usual grant for one school (as the department considered that it was bound by treaty to support only one school upon the Reserve). This grant was, however, divided by the society between the two schools equally, and cheques were sent from time to time to the Ven. Archdeacon Cowley (who was then in charge of the clerical and scholastic affairs of the reservation), by whom the teachers were appointed. Mr. Corregan taught the North St. Peter's school during the whole of the year 1876, and up to the end of February, 1877, and the only amount paid directly to him by the department was \$37.50, the share of the grant due this school for September quarter.

During the absence of Archdeacon Cowley in England, in 1876, the whole of the grant, with the exception of the \$37.50, was paid to one school instead of being shared between the two as was intended.

Mr. Corregan's claim, which was first made against the department last year, was based upon a judgment obtained by him against the school trustees for the school district of North St. Peter's, on the 28th February, 1878, for his services as teacher \$184.68, together with 17 years' interest on this amount—\$189.96, making his total claim \$374.64.

Mr. Corregan claimed \$312.50 as unpaid salary, together with 19 years' interest thereon at 6 per cent, which amounted to \$357.03, making his total claim \$669.53.

As there was no doubt that Mr. Corregan taught the North St. Peter's school for the period claimed by him, and as the Indians had the benefit of his services in teaching their children without any compensation, save as above mentioned, the Superintendent General decided, although Mr. Corregan had no legal claim against the department, to allow him in equity a share of the departmental grant which he should have received from the church authorities, and therefore a cheque in his favour for \$137.50 was accordingly issued.

Your obedient servant,

The Auditor General.

D. C. SCOTT, for D.S.G.I.A.

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 4, 1897.

SIR,—In reply to your inquiry as to the long delay in the presentation of the claim of Mr. Thomas Howard Corregan, for arrears of salary at teacher of the North St. Peter's School during the years 1876 and 1877, I may say that Mr. Corregan, has not given his reasons for not presenting his claim at an earlier date.

Your obedient servant,

The Auditor General.

D. C. SCOTT, for D.S.G.A.

### Irregular Accounts for Travelling Expenses of Inspectors Wadsworth and McGibbon.

NOTE:—For the beginning of this correspondence see Auditor General's Report for 1895-96, page G—149.

AUDIT OFFICE, OTTAWA, February 22, 1897.

DEAR SIR,—I duly received your letter of January 12th, written from Morley. I should have answered it earlier, but that I was very fully engaged at the time. Since then I have been much occupied with the preparation of the report of the office for Parliament, and have had in addition the regular daily work.

The subject of your letter had, however, full consideration. Although the various letters that have been written by you to the department and by the department to you on the question were not officially communicated to me, I saw them. Besides, I had several interviews with the Deputy Superintendent General of Indian Affairs, the commissioner and Mr. D. C. Scott, of the department. I was unable to change the view which was set forth in my letter to the department. The Superintendent General of

Indian Affairs agreed, as you have no doubt learned before this, with me, and it was suggested by the department that I should name what would appear to me, having the accounts of other departments before me, to be a fair remuneration, in view of the fact that you had kept no account of your actual expenditure.

I may say here that it is a mistake to suppose, as you do, that no evidence of your disbursements for travelling expenses can be of any service unless you get receipts. A statement of actual disbursements made by yourself at the dates on which the several expenditures occurred, with the dates noted opposite each item, would be a very important voucher to have.

I am exceedingly sorry to have to take a course which I see clearly must be very unpleasant to you, but I could not find any reason for doing anything else.

Yours respectfully,

T. P. WADSWORTH, Esq., Regina.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, March 9, 1897.

SIR,—I beg to transmit herewith to you a letter received by me from Mr. T. P. Wadsworth, with reference to his travelling expenses. You will observe that Mr. Wadsworth claims that at the time of writing (February 28th,) he was nearly \$1,000 out of pocket, made up as follows:—4 months' salary at \$2,200 per annum and \$255 paid out for travelling expenses since July 1, 1896. I should like to have these figures verified by you.

I have also to ask whether you have as yet arrived at the amounts due by Messrs. Wadsworth and McGibbon, calculated on the basis of the interim settlement proposed by me. If so, kindly advise me as to the amounts, and also as to the means which you propose to take to recover the amounts due. I intended that any deductions that are made from moneys payable to the inspectors should be made from their salaries only, while their accounts for actual expenses when travelling on Government business should be paid to them.

I am, sir, your obedient servant,

The Deputy Supt. General of Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 19, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 9th instant, inclosing a letter from Mr. T. P. Wadsworth, with reference to the withholding of his salary, pursuant to your instructions.

The inspector has been fully supplied with advances for travelling disbursements, and his salary has been retained for 3 months. An attempt has been made to arrive at the deductions as proposed by you for a provisional or interim settlement of the accounts. Under your ruling it would appear that the following deductions will have to be made from Inspector Wadsworth's accounts for the three years ending the 30th June, 1896:—

1893-94.....	\$156 50
1894-95.....	367 10
1895-96.....	504 00
Total.....	<u>\$1,027 00</u>

After careful consideration of the diaries, these reductions have been arrived at, and the accounts are inclosed herewith in order that you may say whether you agree with the reductions. As the amount is so large, I think the repayments should be spread over two years, at least, at a uniform amount from each monthly payment of salary; and if you agree to this proposition, I would be glad to resume payment of Mr. Wadsworth's salary on this understanding.

Your obedient servant,

The Auditor General.

HAYTER REED, D.S.G.I.A.

## Auditor General's Report—Part G

---

AUDIT OFFICE, OTTAWA, March 30, 1897.

SIR,—I am in receipt of your letter of the 19th instant, showing the amounts that you think should be refunded by Mr. Wadsworth for overcharges in his travelling expense accounts between July 1, 1893, and June 30, 1896.

According to my calculations the amount to be refunded is \$1,259.65, which is \$232.05 more than the amount you give. The main difference is that when hotel bills were rendered by Mr. Wadsworth, you allowed them at the figure paid, instead of figuring on a basis of \$2 per diem. I fixed the figure of \$2 when boarding, and \$1 when camping as an average, recognizing the fact that in some cases the actual amounts paid might exceed these figures, while in other cases they would be less than the rates suggested. These rates shall have to be adhered to throughout, unless the whole season's expenses can be given in full detail. For this reason I cannot pass isolated hotel bills.

With regard to the time allowed for repayment of this sum, I think that the amount might be reasonably deducted in equal sums from Mr. Wadsworth's monthly salaries, the whole to be settled not later than June 30, 1898. I attach to this, sheets showing how I arrive at the amount to be refunded.

I am, sir, your obedient servant,

The Depy. Supt. Gen. Indian Affairs.

J. L. McDOUGALL, A.G.

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 11, 1897.

SIR,—With reference to the subject of the refund which Mr. T. P. Wadsworth is required to make on account of overcharges in his travelling expense accounts between July 1, 1893, and June 30, 1896, I have the honour to inform you that Mr. Wadsworth has been written to to-day and informed that the Minister has, with your concurrence, decided to accept the sum of \$1,000 from him in full settlement of the matter.

Mr. Wadsworth has also been advised that you agreed to this arrangement upon the understanding that he will not at any future time endeavour to bring the matter up again.

I am, sir, your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Sec.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, Aug. 25, 1897.

SIR,—With reference to your letter of March 30 last, I beg to inform you that as Mr. Inspector Wadsworth has not carried out his offer to pay \$1,000 cash in settlement for overcharges in his accounts for travelling expenses, the Department is making monthly deductions from his salary, in order that the full amount of the overcharges, viz., \$1,259.65 will be refunded by June 30, 1898. Similar deductions are being made from Mr. McGibbon's salary.

I am, sir, your obedient servant,

The Auditor General.

J. D. McLEAN, *Secy.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, Feb. 24, 1897.

SIR,—With reference to previous correspondence in the matter, I inclose herewith copy of a letter from Mr. Inspector McGibbon respecting his accounts for travelling expenses, also, copy of a declaration received therewith.

I am, sir, your obedient servant,

The Auditor General.

HAYTER REED, *D.S.G.I.A.*

SWAN RIVER AGENCY, CÔTÉ P.O., February 4, 1897.

SIR,—I have the honour to acknowledge the receipt of your favour of January 7, No. 1344, enclosing copy of a letter from the department, No. 91370, also copy of a letter from the Auditor General to the Deputy Supt. General of Indian Affairs, dated December 9, 1896. These documents having been mailed to me at Côté P.O., I did not receive them until my arrival here, from Birtle, on 2nd instant. This accounts for the delay in replying, which I much regret. Travelling is uncertain this winter, owing to deep snow and storms, so I was detained longer at Birtle Agency than I expected.

I am at a disadvantage to reply to the various points raised, and which I am asked to explain, from the fact that all my letter-books, diaries, and accounts, up to 30th June, 1896, are in Regina, as I considered them all closed up to that date, and I only brought with me books and papers connected with work since July 1, 1896. We try to have as little as possible to carry around. The remark about a second man I would explain. I had no horses of my own, Mr. Williams drove me most of the time, over Battleford Reserves, with his own private team, but I had to hire to go to Onion Lake Agency, some 100 miles, but going *via* Round Hill and Turtle Lake, where I went to inspect the winter quarters for the cattle and also to examine hay, the distance was nearer 130 miles. This man returned at once from Onion Lake to Battleford. Mr. Mann, Agent, drove me from Onion Lake to Saddle Lake; and Mr. Ross, Agent, drove me from Saddle Lake to Edmonton.

I would also remark that, between March 29 and July 6, I inspected Hobbema Agency, Red Deer Industrial School, and the Stoney Indians, besides the places mentioned by the Auditor General. The time at Calgary was not 20½ days continually, but various dates, when I arrived from Red Deer, Morley, Sarcees, Dunbow school, and Macleod. When I inspected Touchwood, and after completing, I drove to Qu'Appelle with the agent, who was going to the Industrial Fair in Regina; and, as my orders were to inspect File Hills and Qu'Appelle Industrial schools, after Touchwood, I stayed over at Qu'Appelle, to make my annual and other reports. I could do these much quicker and better in a quiet place, rather than go to Regina, where all was bustle and excitement. I did not even get a chance to see the exhibition; another reason was, I wanted to be on hand to go to Nut Lake, at the treaty-payments, as this is the only time these Indians can be seen. When Mr. Wright returned from Regina, he could give me the date of the payments, and I left in a day or two after, for Nut Lake, and saw nearly 400 Indians; and I may say I was the first Indian official, outside of the agent, who ever visited these Indians. Shortly after I returned to Qu'Appelle, a change in the programme was made, and I at once returned to Regina, and left in a day or two for Brandon, where I completed my reports. I consider, under the circumstances at the time, it was economy to wait at Qu'Appelle, rather than come to Regina, only to go back again.

I wish to say that I did not live at Battleford school, nor at Red Deer or Regina schools; and at St. Paul's, I furnished my own supplies; and, for over a month, I think, I took charge of the school in the absence of the principal, who had to attend to his wife, sick in the hospital.

While at Elkhorn, from Nov. 14 to Dec. 4, 1895, I made a trip to Winnipeg, to purchase supplies for the school to replace those which were burnt.

With regard to the charges for beds, I would remark that, when a room is occupied in the early part of an evening, a whole evening is charged; the same in the morning, if occupied at all, an hour even, the whole time is charged; in fact, I have had cases where I paid for two beds on the same night. This was the case on the dates mentioned. These trips were during the night; the dates Dec. 19 and Feb. 29, excepted. The charges for sleeping car were for seating room only, in some cases. It has always been customary to charge for days leaving and arriving in Regina; and I only followed the usual custom.

The main points at issue are :—

- 1.—Not furnishing vouchers.
- 2.—The sums of \$3, \$3.50 and \$2.60 being too high.

## Auditor General's Report—Part G

With regard to the first, I would only be too willing to furnish accounts or vouchers, if it was at all possible, but as I have often to reimburse, in an indirect manner, for accommodation, etc., I cannot ask for receipts. I could, no doubt, if I went over the same ground, get some of them, but many I could not, nor could I ask for them, as I always pay as I go, at the time. I have never been in the habit of taking bills; not having any accounts, I had no need for them. In getting things for even a short trip, one has to buy in half a dozen different places; and to wait for accounts at all these places would take a lot of time, and interfere with my regular work. Then a breakfast in one place, dinner 25 miles further off, and supper 25 miles farther still; and to keep accounts of all these, I do not see how it can be done without neglecting more important work. I don't pretend to say that the amount charged each day presents the actual expenditure for that day; in some days may be more, some less; but I do say that the total expenditure for supplies and lodging, board, etc., equals the total amount charged in my accounts,

As to the sum of \$3.50 per day, I can honestly say that, after ten years' experience, in which I have been allowed this sum, I have never been able to do more than make ends meet; no doubt one could travel cheaper by becoming a burden to his friends, but I have not arrived at this stage yet, and I never will.

I had no man since April, 1895, and therefore, when camping, I have to get a man to cook; and I had not only to pay for the services, but I had to feed him also; all this is included in the amount making up the total, no extra charge being made or shown. Then there is most of the laundry charged in the amount. I would refer to a joint letter written on this subject, on 15th Oct., 1894, to the Commissioner.

I was not aware, until now, that salary cheque for December had not been received at the Bank of Montreal, Regina. Having life insurance to pay this month, and being in this out-of-the-way place, with a mail only once a week, and 60 miles from a telegraph line, it places me in an awkward position.

I have always endeavoured to comply with the rules of the Department in every particular, and I think you will give me credit for this; and I did not think I was transgressing any rule in making out my accounts in the form I did. In future, I will comply with any rule you may lay down; and if I cannot get receipts, I will have to bear the loss. I would hope, however, that a fixed sum be decided upon, as it would save me endless trouble and annoyance. I enclose an affidavit in connection with the accounts under consideration. I regret the delay; and for reasons already mentioned, that I am not in a position to refer to my papers and books showing the transactions; but as to their correctness, I have not the shadow of a doubt.

I am, sir, your obedient servant,

The Indian Commissioner, Regina.

ALEX. MCGIBBON, *Insp.*

North-west Territories of Canada.

I, Alexander McGibbon, Inspector of Indian Agencies and Reserves in the North-west Territories, do swear that the accounts furnished to the Department by me for travelling expenses from October, 1894 to June 30, 1896, contain a correct record of expenditure during that period, and the whole amount charged was expended on government account whilst inspecting agencies, reserves and schools and that the amount is true in every particular.

I am not at present able to state the exact amount, as my papers and books containing same, are in Regina.

And I make this solemn affidavit, conscientiously believing the same to be true and by virtue of The Canada Evidence Act, 1893

ALEX. MCGIBBON.

Sworn before me this third day of  
February, 1897, at Côté, Assa. }  
W. E. JONES, J.P. }

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 25, 1897.

SIR,—I am in receipt of your letter of the 9th instant in the matter of the deductions from Inspector McGibbon's travelling accounts; and I beg to inform you that for the three years preceding the 30th June last the following deductions have been made on the basis of the interim settlement proposed by you. Will you kindly say whether you consider them satisfactory.

1893-94 .....	\$384 23
1894-95 .....	453 02
1895-96 .....	458 00
	\$1,295 25

Inspector McGibbon has been fully supplied with travelling advances, and his salary has been retained for three months from the 1st December, 1896, and is still being held.

The suggestions made with reference to the repayment of an amount, similarly calculated, by Inspector Wadsworth apply to the amounts above shown to be due by Inspector McGibbon. The accounts are enclosed herewith, in order that it may be seen where deductions have been made.

Your obedient servant,

The Auditor General.

HAYTER REED, *D.S.G.I.A.*

AUDIT OFFICE, OTTAWA, April 12, 1897.

SIR,—I am in receipt of your letter of the 25th ult., showing the amounts which you think should be refunded by Mr. McGibbon for overcharges in his travelling expense accounts between July 1, 1893, and June 30, 1896.

According to my calculations the amount to be refunded is \$1,490.52 or \$195.27 more than the amount arrived at by you. As in Mr. Wadsworth's case, this difference is due to your having allowed hotel bills at the amount paid instead of figuring on a basis of \$2 per diem. The remarks in my letter of the 30th ult. with reference to Mr. Wadsworth's accounts and the repayment of the overcharges apply to these accounts. I enclose herewith statements showing how I arrive at the amount to be refunded.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

### Regulations for Payment of Travelling Expenses of Inspectors in the North-West Territories.

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 26, 1897.

SIR,—I have the honour to inform you that the Department has received a communication from the Indian Commissioner, with a memorandum of proposed regulations to govern the travelling expenses of Inspectors in the North-west Territories, as well as his own. As he states that when in Ottawa he had a communication with you on the subject, a copy of the proposed regulations is enclosed, and I should be pleased to know whether you approve of them.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

## Auditor General's Report—Part G

MEMORANDUM *in re travelling expenses of the Indian Commissioner and Inspectors, N. W. T.*

(1.) While at agencies and schools or on reserves on official business there will be allowed from agency or school stores one ration similar to that drawn by other employees and 75c. per diem in addition, the ration and per diem allowance to be drawn by the official who may, for the time being, board and lodge the visiting official. The allowance to be payable on a voucher certified by the official for whom the expense is incurred.

(2.) While travelling by rail or other public conveyance there will be allowed actual fares, hotel, dining car and reasonable incidental expenses, payable on vouchers supported (except in case of fares, dining car expenses and car porter and servants fees) by receipts or receipted bills.

(3.) While travelling by private conveyance there will be allowed reasonable actual expenses for the official and teamster, payable on vouchers supported by receipts for hotel expenditures or receipted bills for supplies purchased (as the case may be) deduction being made from the latter for such quantities of the articles charged for as may remain unexpended upon the return of the official to headquarters.

N.B.—These regulations go into effect 1st July next.

AUDIT OFFICE, OTTAWA, June 7, 1897.

SIR,—I am in receipt of your letter of the 26th ulto. enclosing a copy of the proposed regulations to govern the travelling expenses of the Indian Commissioner and the Inspectors in the North-west.

These regulations appear to me to be on the whole satisfactory. The drawing of an extra ration by the agent with whom the Inspector is stopping in addition to the payment of 75 cents a day, is probably intended to equalize to a certain extent to the recipients the differences in the cost of provisions at the different places. With regard to the furnishing of vouchers in support of actual expenses incurred, I think that the officers should not be asked to produce vouchers for single meals obtained when travelling from place to place. The exact date, however, should be given for every item of expenditure.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 10, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 7th instant and in reply to state that the Department concurs in the opinion expressed by you respecting the proposed regulation to govern the travelling expenses of the Indian Commissioner and the Inspectors in the North-west. The Indian Commissioner will be advised accordingly.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

### Removal Expenses should be paid only on the Recommendation of the Treasury Board.

AUDIT OFFICE, OTTAWA, August 21, 1897.

SIR,—I am in receipt of vouchers 16, 17, 18 and 19 Onion Lake Agency, amounting to \$34.70, being expenses incurred by the removal of Mr. Jas. Pollock, from the Crooked Lakes to the Onion Lake Agency. Please inform me if these vouchers were submitted to the Treasury Board in accordance with the Order in Council of September 8, 1871, which states:—'No removal allowances can be granted except on report of the Treasury Board.'

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

E. D. SUTHERLAND, *for A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 24, 1897.

SIR,—In reply to the enquiry contained in your letter of the 21st instant, I have the honour to inform you that Mr. Jas. Pollock's removal expenses from the Crooked Lakes to the Union Lake Agency were paid under authority of Order in Council dated the 1st March, 1897.

Your obedient servant.

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

AUDIT OFFICE, OTTAWA, AUGUST 26, 1897.

SIR,—I beg to acknowledge the receipt of your letter No. 120562 of the 24th instant, with reference to removal expenses of Mr. Jas. Pollock. This letter does not answer the question asked by me in my letter of the 21st instant. I am perfectly aware of the existence of the Order in Council with regard to this payment. My question, however, was:—"Were the vouchers in support of this payment submitted to the Treasury Board in accordance with the Order in Council of September 8, 1871, which stipulates that, "No removal allowances can be granted except on report of the Treasury Board."

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

E. D. SUTHERLAND, *for A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 27, 1897.

SIR,—In reply to your letter of the 26th instant, I beg to inform you that this department cannot say whether the memorandum recommending that Mr. Jas. Pollock's removal expenses from Crooked Lakes to the Union Lake Agency be paid, was referred to the Treasury Board. It has never been the custom to refer such matters to the Board direct.

I am, sir, your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

AUDIT OFFICE, OTTAWA, August 21, 1897.

SIR,—I am in receipt of vouchers 107, 108 and 109, Victoria office, Indians of British Columbia, amounting to \$162.80, being expenses incurred by the removal of Mr. J. B. Ashby from Winnipeg to Victoria. Please inform me if these vouchers were submitted to the Treasury Board in accordance with the Order in Council of September 8, 1871, which states: "No removal expenses can be granted except on report of the Treasury Board."

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

E. D. SUTHERLAND, *for A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 24, 1897.

SIR,—Referring to your letter of the 21st instant, I beg to inform you that Mr. J. B. Ashby's removal expenses (amounting to \$162.80), from Winnipeg to Victoria, were paid under authority of Order in Council of the 14th April, 1897.

I am, sir, your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

## Auditor General's Report—Part G

---

---

AUDIT OFFICE, OTTAWA, August 26, 1897.

SIR,—I beg to acknowledge the receipt of your letter, No. 151892, of the 24th instant, with reference to the removal expenses of Mr. J. B. Ashby. This letter does not answer the question asked by me in my letter of the 21st instant. I am perfectly aware of the Order in Council with regard to this payment. My question, however, was: "Were vouchers in support of this payment submitted to the Treasury Board, in accordance with the Order in Council of September 8th, 1871, which stipulates that 'No removal allowances be granted except on report of the Treasury Board?'"

I am, sir, your obedient servant,

E. D. SUTHERLAND, *for A.G.*

The Deputy Supt. General Indian Affairs.

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, Aug. 27, 1897.

SIR,—I am in receipt of your letter of the 26th instant, in further reference to Mr. Ashby's removal expenses from Winnipeg to Victoria; and in reply I have the honour to inform you that this department cannot say whether the memorandum recommending that transfer expenses be allowed Mr. Ashby was referred to the Treasury Board. It has never been the custom to refer such matters to the board direct.

I am, sir, your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Sec.*

---

AUDIT OFFICE, OTTAWA, Sept. 23, 1897.

SIR,—I beg to acknowledge the receipt of your letters numbered 120562 and 151892 of the 27th ultimo, with reference to the removal expenses of Mr. James Pollock and Mr. J. B. Ashby, and in reply to inform you that it is the duty of your department to submit all vouchers for removal expenses to the Treasury Board, who will make the report to Council.

I am, sir, your obedient servant,

The Deputy Supt. Genl. Indian Affairs.

J. L. McDOUGALL, *A.G.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, Sept. 25, 1897.

SIR,—In reply to your letter of the 23rd instant, stating that it is the duty of this department to submit vouchers for removal expenses to the Treasury Board, who will make the report to Council, I should be glad if you would kindly point out under what statutory authority this department should submit such vouchers direct to the Treasury Board. That board being a sub-committee of the Privy Council, this department has always considered that the way of approach to the board was through Council; and if His Excellency in Council deemed it advisable not to refer such vouchers to the Treasury Board, but authorized their payment by a special Order in Council, it has been held by this department that this latter authority of His Excellency in Council was sufficient to override the requirement of the Order in Council of September 8, 1871.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secy.*

---

AUDIT OFFICE, OTTAWA, Nov. 4, 1897.

SIR,—I am in receipt of your letter of September 25th last, No. 120562, with reference to the submission of accounts for removal expenses to the Treasury Board.

The Treasury Board is not, as your letter implies, a mere sub-committee of the Privy Council, with no independent existence; but, while all its members belong to the

Privy Council, it is specially constituted by an Act of Parliament (*vide* 49 Vic., chap. 23, sec. 9, also 50-51 Vic., chap. 13). All communications or accounts coming under the duties of the Treasury Board, whether such duties are assigned to it by Act of Parliament, or by Council, should be sent direct to the board.

I am, sir, your obedient servant,

The Secretary, Dept. of Indian Affairs.

J. L. McDOUGALL, *A.G.*

**Payment of the salary of F. H. Paget, employed at Ottawa, out of the Vote for Manitoba and the North-west Territories.**

AUDIT OFFICE, OTTAWA, July 31, 1897.

SIR,—I find that Mr. F. H. Paget, who has been transferred from the Commissioner's office, Regina, to Ottawa, is still paid from the vote for Manitoba and North-west Territories. Please explain why Mr. Paget should, under the circumstances, be paid from that vote.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 7, 1897.

SIR,—In reply to your letter of the 31st ultimo, in regard to the method of paying the salary of Mr. F. H. Paget of this department, I have the honour, by direction, to inform you that Mr. Paget is engaged on North-west work, and until action is taken by the Superintendent General to have him transferred to the Inside Service by Order in Council, the only course open to the department, apparently, is to continue to pay his salary from the vote for Manitoba and the North-west Territories.

I am, sir, your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

AUDIT OFFICE, OTTAWA, November 4, 1897.

SIR,—I beg to acknowledge receipt of your letter of August 7, 1897, No. 35785, with reference to the method of paying the salary of Mr. F. H. Paget.

Mr. Paget appears to be employed in the accountant's branch of your department, and while he may possibly be engaged on the accounts in connection with the Indians of the North-west, the question is whether the work on which he is engaged is such as properly belongs to the commissioner's office as at present constituted, or whether it is such work as appertains to the department itself. Kindly inform me whether any steps have yet been taken to transfer him to the Inside Service.

I am, sir, your obedient servant,

The Secretary, Dept. of Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, Nov. 6, 1897.

SIR,—In reply to your letter of the 4th instant, as to the method of paying Mr. Paget, I beg to inform you that the work on which he is engaged entirely pertains to the North-west accounts, and as a result of the reorganization of the department in the west, it is found more convenient to have him here. I may add that steps have not as yet been taken to have him transferred to the Inside Service; but if such is found necessary it will be done at the coming session.

The Auditor General.

JAS. A. SMART, *D.S.G.I.A.*

## Auditor General's Report—Part G

### Payment to H. Harvey for legal services while holding the position of Registrar at Calgary.

AUDIT OFFICE, OTTAWA, July 26, 1897.

SIR,—Voucher 97, Vote 13, Blood Agency, is for a payment of \$461.95 to Mr. Horace Harvey, of Calgary, for services and expenses while defending Indian "Charcoal." I would ask under what authority these expenses were incurred, and why they were made a charge against the Government.

I would also draw your attention to the fact that Mr. Harvey was, at the time these services were rendered, the registrar of the district of Calgary, and, as a permanent official of the government, was debarred from receiving extra remuneration for such services. I would therefore request that Mr. Harvey be requested to refund the amount paid him for services.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 16, 1897.

SIR,—In reply to your letter of the 26th ulto., in regard to the payment of \$461.95 to Mr. Horace Harvey, of Calgary, for services and expenses in defending the Indian "Charcoal," I beg to inform you that the services of Mr. Harvey were authorized by the Superintendent General, and his account was paid as it was considered a proper charge against the Indian Vote. Mr. Harvey has, however, been asked to refund the amount.

Your obedient servant,

The Auditor General.

J. D. McLEAN, Sec'y.

AUDIT OFFICE, OTTAWA, November 4, 1897.

SIR,—I beg to acknowledge receipt of your letter of August 16, No. 147636, with reference to the payment of \$461.95 to Mr. Horace Harvey for services and expenses in defending the Indian "Charcoal." I would ask whether the amount for services has yet been refunded by Mr. Harvey, or if not, what steps are being taken to have the matter settled.

I am, sir, your obedient servant,

The Secretary Dept. of Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, November 10, 1897.

SIR,—In reply to your letter of the 4th inst, I beg to inform you that this department has not as yet received a refund from Mr. Horace Harvey of the amount paid him for services in defending the Indian "Charcoal." Mr. Harvey's attention has, however, been called to the matter.

Your obedient servant,

The Auditor General.

J. D. McLEAN, Sec'y.

DEPT. OF INDIAN AFFAIRS, OTTAWA, Nov. 23, 1897.

SIR,—With further reference to your letter of the 4th instant and previous communication of July 26 last, in regard to the payment made by this department to Mr. Horace Harvey for services and expenses in connection with the defence of the Indian "Charcoal," I beg to inform you that Mr. Harvey has advised the department under date of the 10th instant, that the facts of the case are as follows:—"That early in December last he was retained to defend 'Charcoal,' and at once proceeded with the defence, that some weeks later when he was notified of his appointment as registrar, he at once wrote to Mr. Burgess, then Deputy Minister of the Interior, that he was conducting the defence of 'Charcoal,' which would still take some time, and necessitate

his absence from town for a few days, that on January 8, Mr. Burgess replied, stating that he had had a consultation with the Deputy Minister of Justice as to Mr. Harvey's continuing the defence in view of the provisions of sec. 14 of the Consolidated Revenue and Audit Act, and that the Deputy Minister of Justice considered that the question did not arise in his case, and would not so long as he had not taken the oath of office required by 'The Land Titles Act, 1894,' as until he had taken the oath, he could not assume his duties as registrar, and his appointment did not take effect, that, as a matter of fact, he did not take the oath of office and enter upon his duties as registrar until after he had completed his work in connection with the defence of 'Charcoal,' nor did he receive salary as registrar during the time he was engaged in 'Charcoal's' defence; and that the facts being as they are, the point raised by you does not apply to the payment referred to, although he acknowledges the propriety of your objection to the payment in the case of his services in connection with the Blackfoot agency inquiry, since his office was brought under the operation of the Civil Service Act, sec. 51, by the subsequent amendment."

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secy.*

### Unsatisfactory Account Rendered by Mr. M. Benson, for Expenses in Connection with the Indian Exhibit.

AUDIT OFFICE, OTTAWA, May 17, 1897.

SIR,—Voucher 10, General Vote 7, is for a payment of \$25 to Mr. M. Benson, of your department for disbursements in connection with the Indian Industrial School Exhibit at the Canada Central Fair held in Ottawa from September 17th to 26th, 1896. No details of these disbursements are given. Be good enough to supply full details.

I am, sir, your obedient servant,

The Acting Deputy Supt. General of Indian Affairs. J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 20, 1897.

SIR,—In reply to your letter of the 17th instant, asking for full details in regard to the payment of \$25 to Mr. Benson, of this department, in connection with the Indian Industrial School Exhibit at the Central Canada Fair held in Ottawa from the 17th to the 26th September last, I beg to inform you that I am advised by Mr. Benson that the expenditure given in the voucher returned by you and certified to by him is correct. He states that the work of arranging and taking charge of the exhibit occupied the time of himself and three or four assistants for three weeks, and that out of the advance received by him from the department he gave each of his assistants cash to pay their car fare and for meals. They were in each case obliged to over-expend the advance and make payments from their own funds. They accounted to him for the expenditure and he repaid them the outlay they had been put to. He states that memoranda of expenses were submitted by him to the department, together with his account, which was then considered satisfactory and paid, and that he has no further detail to supply, after a lapse of eight months. It appears that the memoranda referred to by Mr. Benson were submitted by him to Mr. Reed, and there is now no trace of them in the department. The voucher is returned herewith.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Sec'y.*

AUDIT OFFICE, OTTAWA, May 22, 1897.

SIR,—I am in receipt of your letter numbered 132449 of the 20th instant with reference to a payment to Mr. Benson of your department, in connection with the Indian Industrial School Exhibit at the Canada Central Fair held at Ottawa from the

## Auditor General's Report—Part G

17th to the 26th September last. In reply I beg to say that Mr. Benson and the other officers in your department were aware that full details of every account are required. I shall be obliged to report the matter to the Treasury Board unless details of the expenditure are furnished.

I am, sir, your obedient servant,

The Act. Deputy Supt. General Indian Affairs. J. L. McDOUGALL, A.G.

### Payments on account of the Salary of J. B. Ashby and R. Finlayson made to various persons.

AUDIT OFFICE, OTTAWA, August 20, 1897.

SIR,—I beg to call your attention to the following payments made on account of the salary of Mr. J. B. Ashby, for the seven months ended June 30th last and charged to Victoria Office, B.C.—

Voncher No. 127	cheque No. 754,	J. O. Gemah	\$ 10 00
“ 128	“ 755,	Mary Ann Hall	4 00
“ 129	“ 756,	Arthur Cochrane	2 00
“ 130	“ 757,	Joe. Kent	1 50
“ 131	“ 758,	Frank Spence	1 50
“ 135	“ 768,	Receiver General	152 30
“ 122	“ 714,	Hudson's Bay Co.	5 00
“ 139	“ 786,	“ “	5 00

Please inform me why Mr. Ashby's salary was withheld from him and paid to the persons as above.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs. E. D. SUTHERLAND, for A.G.

DEPT. INDIAN AFFAIRS, OTTAWA, August 25, 1897.

SIR,—In reply to the inquiry contained in your letter of the 20th instant, I have the honour to inform you that Mr. J. B. Ashby's salary was withheld after he was transferred to Victoria as he was indebted to the persons to whom payment was made by the department, and as he had not accounted, previous to his transfer, for cash received for work done at the Rupert's Land Industrial School. A payment of \$16.30 was also made to Mary Cochrane, which is not included in your letter.

Your obedient servant.

The Auditor General. J. D. McLEAN, Secy.

AUDIT OFFICE, OTTAWA, February 24, 1897.

SIR,—I beg to call your attention to the following payments made from the vote for farm wages in Battleford Agency for the year 1896-97:—

Voucher 13, cheque 620, R. Finlayson, balance of salary to October 1st, 1895	\$ 26 65
Voucher 27, cheque 2138, Mahaffy & Clinkskill, cash on account of R. Finlayson's wages	93 35

I find that Mr. Finlayson's salary for the month of October was paid to him by cheque 2341 of 1895-96, and I would therefore ask why his salary for what appears to be the four preceding months was withheld and afterwards paid in the above manner, and I would also like to know under what authority the payment of \$93.35 was made to Messrs. Mahaffy & Clinkskill.

I am, sir, your obedient servant,

FREDERICK HAYTER, for A.G.

The Deputy Supt. General Indian Affairs.

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 1, 1897.

SIR,—In answer to your letter of the 24th ultimo, I beg to inform you that the salary of Mr. R. Finlayson was withheld for four months on account of his having received moneys from various Indians for payment of their accounts with Messrs. Mahaffy and Clinkskill, which accounts he failed to settle. Payment was accordingly made to this firm on Mr. Finlayson's order.

Your obedient servant,

The Auditor General.

HAYTER REED, *D.S.G.I.A.*

**Increase in the Salary of Dr. F. X. Girard, to \$1800, including travelling expenses.**

AUDIT OFFICE, OTTAWA, March 1, 1897.

SIR,—I find from the voucher lists for the six months ended December 31, that the salary of Mr. F. X. Girard, medical officer in Blood Agency was increased on September 1st, last from \$1,000 to \$1,800 per annum. As I have not received any Order in Council authorizing the increase, please inform me under what authority the salary of Dr. Girard was increased to the amount stated.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 5, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 1st instant, and in reply to the inquiry made therein, I beg to inform you that Dr. F. X. Girard's salary as medical attendant upon the Indians of the Blood Agency was increased by authority of the Hon. R. W. Scott, Acting Superintendent General of Indian Affairs, on the 1st September last, such increase being intended to cover all disbursement, travelling, living and other expenses.

Your obedient servant,

The Auditor General.

D. C. SCOTT, *for D.S.G.I.A.*

AUDIT OFFICE, OTTAWA, March 8, 1897.

SIR,—In reply to your letter of the 5th instant, with reference to the increase in the salary of Mr. F. X. Girard, medical officer in Blood Agency, I beg to say that as the Order in Council of June 7th, 1888, appoints Mr. Girard, as medical officer at \$1,000 per annum with travelling expenses, any change in the terms of his employment must be sanctioned by an Order in Council, the authority of the Superintendent General being insufficient to modify an existing Order in Council. I would ask upon what basis the increase of \$800, per year for travel was made as I find that during the four years ended June 30th last, Mr. Girard's travel amounted to \$2,266.94 or an average yearly expenditure of \$566.74.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 15, 1897.

SIR,—I am in receipt of your letter of the 8th instant with reference to the increase in the salary of Dr. F. X. Girard. In reply I beg to inform you that it was found that \$1,684.45 represented the actual expenditure, including salary, during the fiscal year 1895-96. Upon representation of this fact to the Acting Superintendent

## Auditor General's Report—Part G

---

General, he directed that \$1,800 be hereafter paid Dr. Girard, which amount was considered a fair annual payment, to cover salary, all transport and moving expenses, horse feed and repairs to outfit. According to arrangement he is allowed to keep his present outfit—horse, vehicle and harness, which the department supplied; but it is understood that he must replace everything in connection with it when this becomes necessary. Medicines are, as heretofore, to be supplied by the department. The authority of His Excellency in Council will be obtained for this increase.

I am, sir, your obedient servant,

The Auditor General.

D. C. SCOTT, *for D.S.G.I.A.*

AUDIT OFFICE, OTTAWA, March 17, 1897.

SIR,—I am in receipt of your letter of the 15th instant with reference to the increase in the salary of Dr. F. X. Girard. In reply I may say that unless this deviation from the general rule of paying travelling expenses only, is advisable on account of any peculiar circumstances in this case, I should be glad if the change were not insisted upon, and if Dr. Girard's salary and travelling expenses were paid as heretofore. You are aware that there is great difficulty, in the extensive business of the Dominion, in dealing properly with many exceptions, especially as each exception becomes a ground for numberless applications for other exceptions.

I am, sir, your obedient servant,

The Depy. Supt. Genl. Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, April 24, 1897.

SIR,—Referring to your letter of the 17th ultimo to the Deputy Superintendent General of Indian Affairs, respecting Dr. F. X. Girard, you will remember that some time ago when I spoke to you on the subject, you expressed a desire to discuss the matter with the Indian Commissioner. I advised Mr. Forget accordingly, and I now have a note from him saying that he has seen you and explained all the circumstances of the case. May I ask if as a result of his explanations you have in any way changed the view you have already expressed to the department. The matter is still awaiting the Minister's decision.

Yours very truly,

The Auditor General.

J. A. J. MCKENNA, *Pte. Sec.*

AUDIT OFFICE, OTTAWA, April 26, 1897.

SIR,—In reply to your letter of the 24th instant, respecting the case of Dr. F. X. Girard, I beg to say that I expected that the explanations given me verbally by the Indian Commissioner would be supplied in writing, so as to keep unbroken the thread of the correspondence.

I am, sir, your obedient servant,

The Private Secretary, Minister of Interior.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 9, 1897.

SIR,—With further reference to correspondence with you on the subject of Dr. F. X. Girard's salary, I beg to inclose a copy of a letter from the Indian Commissioner, dated the 15th August last, which shows the sums allowed him over his former salary of \$1,000, and which is the basis of the department's action in allowing Dr. Girard a fixed salary of \$1,800, which he has been paid, upon a ruling of the Acting Minister, the Hon. R. W. Scott, since September last. I may add that in the reorganization of the North-west Indian Service, it is proposed to place Dr. Girard in receipt of a fixed salary of \$1,800.

Trusting that this information will be sufficient to overcome your objection to the change, as indicated in your letter of the 17th March last, and upon your so advising me, I shall have the necessary memorandum prepared to Council authorizing the payment of Dr. Girard's salary at the rate of \$1,800 a year, to cover salary, transport, removing, repair to outfit and other expenses.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Sec'y.*

REGINA, August 15, 1896.

SIR,—Referring to the last paragraph of your letter of the 4th instant, respecting Dr. Girard's living expenses, I have the honour to recommend that instead of paying him \$1,000 salary and living expenses while travelling, as well as providing him with transport, rations for his wife, hay and oats for horse, paying for repairs to harness and vehicle and shoeing of horse, that he be paid in lieu thereof a fixed sum per annum. This would, I consider, be a much more satisfactory arrangement for both the Department and Dr. Girard than the present one, without increasing the cost of the service, and would do away with rendering of numerous accounts monthly, which create no little correspondence and would settle the vexed question of travelling expenses and living allowance.

During the fiscal year just ended, I find that the following payments were made on Dr. Girard's account, viz.:

Salary . . . . .	\$1,000 00
Travelling expenses . . . . .	435 93
Oats for horse . . . . .	50 00
Hay, " . . . . .	87 52
Horse shoeing . . . . .	14 00
Repair to harness . . . . .	8 00
Repairs to vehicle . . . . .	2 00
Cost of 1 ration . . . . .	87 00
	\$1,684 45

From this it will be seen I think that if he is paid a straight salary of \$1,800 it will be tantamount to the present cost, and the Public Accounts will show exactly what this service costs the department, which cannot be seen under the present system.

I have the honour, &c.,

The Deputy of the Supt. General of Indian Affairs.

A. E. FORGET, *Commr.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 19, 1897.

SIR,—I have the honour to draw your attention to my letter of the 9th of June last on the subject of Dr. F. X. Girard's salary, and to inform you that I am waiting a reply to that letter before submitting to the Superintendent General the question of preparing a memorandum for Council authorizing the payment of Dr. Girard's salary at the rate of \$1,800 a year.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Sec.*

AUDIT OFFICE, OTTAWA, September 27, 1897.

SIR,—I beg to acknowledge the receipt of your letter of June 9th last, and subsequent letters, with reference to the payment of the salary and expenses of Dr. F. X. Girard, and in reply beg to say that I cannot see any objections to your having the necessary memorandum prepared to Council, providing that it is clearly stated that the

## Auditor General's Report—Part G

---

amount paid to Dr. Girard covers all expenses, as well as his actual salary. I do not understand, however, why the amount should be made more than \$1,600, unless it is indicated in the Order in Council that it is intended to increase the allowance for services to \$1,200, instead of \$1,000 as at present.

I am, sir, your obedient servant,

The Deputy Supt. General of Indian Affairs.

J. L. McDOUGALL, *A.G.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, October 19, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 27th ultimo, and in reply, to inform you that in a memorandum prepared for Council relative to the payment of a fixed amount to Dr. Girard, in lieu of a salary and travelling expenses, it has been clearly stated that the amount proposed to be paid is intended to cover all expenses as well as his actual salary.

With regard to your statement that you do not understand why the amount should be made more than \$1,600 unless it be indicated in the Order in Council that it is intended to increase the allowance for services to \$1,200, instead of \$1,000 as at present, I beg to refer you to the department's letter of 9th June last, under cover of which was sent you copy of one from the Indian Commissioner, dated 15th August, in which he showed that during the preceding fiscal year the aggregate amount paid to Dr. Girard, by way of allowances over and above his salary, was \$684.45.

Since, under the new arrangement, Dr. Girard will have in future to provide his own travelling outfit, the Minister does not consider that the difference between the amount paid last year, viz., \$684.45 and that of \$800 proposed to be allowed in future, viz., \$116 55, is by any means excessive, when the amount of travelling Dr. Girard has to do in the course of attending some 2,200 considerably scattered Indians, is borne in mind.

Your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

---

### Payment of Board of E. J. Bangs and wife at the Sarcee Agency.

AUDIT OFFICE, OTTAWA, August 4, 1897.

SIR,—Voucher 49, Vote 10, Sarcee Agency, is for a payment of \$27 to Mr. George Smith for board of Mr. E. J. Bangs and wife, from January 4 to January 26, inclusive. Please inform me why this account should be made a charge against the government.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 9, 1897.

SIR,—In reply to your letter of the 4th instant, I beg to inform you that Mr. Grasse, who was transferred from the Sarcee Agency to that at Crooked Lake, did not vacate the house at the Stony Reserve upon the arrival of his successor, Mr. Bangs, and therefore the latter had to board and lodge elsewhere, until the cattle and reserve matters had been transferred to him under the direction of the inspector, which took some little time. The farm house was not large enough to accommodate the two families and the inspector.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secy.*

**Purchase of Blankets from others than the Contractors, and at a Rate above the Contract Price.**

AUDIT OFFICE, OTTAWA, April 26, 1897.

SIR,—Cheque 3203 drawn against Indians, Consolidated Fund, Manitoba and North-west Territories, covers a payment to Messrs. J. A. Seybold & Co., for blankets supplied for the Industrial Schools at Battleford and Calgary as follows :—

364 pr. blankets—2286 lbs. at 38½ cts. . . . . \$880.11

The Slingsby Manufacturing Co., of Brantford are the contractors for the supply of blankets in the North-west Territories during the current fiscal year, and by the terms of their contract they agree to supply blankets, equal to sample, of six lbs. weight at \$2.25 each or 37½ cts. per lb. Please inform me why the blankets were purchased from a firm other than the contractors and at a rate higher than that called for in the contract, and also why the over-weight which has not been allowed in other cases has been paid for in this case.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 19, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 26th ultimo, in reference to the purchase from Messrs. J. A. Seybold & Co., of 364 pairs of blankets for the Battleford and Calgary Industrial Schools, instead of from the contractors, the Slingsby Manufacturing Co., and to inform you that the blankets were urgently required at both of the institutions, the Calgary school having just been opened, and the contractors were unable to supply the blankets in the time required by the department, and according to the terms of the contract it is thought that the department could not compel them to deliver any additional quantities required at a stipulated time. The purchase was then made from Messrs. Seybold & Co. at 38½ cts. per lb., but it was not stipulated that payment would not be made for any over weight, and the department would not it is thought be justified in making a reduction from Messrs. Seybold & Co's account.

Your obedient servant.

The Auditor General.

J. D. McLEAN, *Act. Secy.*

AUDIT OFFICE, OTTAWA, June 8, 1897.

SIR,—I am in receipt of your letter, No. 136300/46 of the 19th ultimo with reference to the purchase of blankets for the Industrial Schools at Battleford and Calgary. In reply I beg to ask when the original contractors, the Slingsby Manufacturing Co., were asked to furnish these blankets and the time that was allowed them to furnish them.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 14, 1897.

SIR,—In reply to your inquiry regarding the blankets purchased from Messrs J. A. Seybold & Co., for the Calgary and Battleford Industrial Schools, I beg to inform you that the original contractors, the Slingsby Manufacturing Co., were asked on the 20th October when they could supply 250 blankets, and as they could not furnish them within two weeks, the time stipulated by the Acting Superintendent General, the order was given to Messrs J. A. Seybold & Co.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

## Auditor General's Report—Part G

### Payment to H. & A. Penhallwick for Damages to Steam Engine, Muscowpetung's Agency.

AUDIT OFFICE, OTTAWA, May 17, 1896.

SIR,—Vouchers 14, vote 2, Muscowpetung's Agency for the year 1896-97 is for a payment of \$175 to Messrs. H. & A. Penhallwick in full of claims for damage to steam engine. I find that during the year 1892-93 these gentlemen were paid the sum of \$304 in full for damage to steam engine, and I would ask if this is a further payment for damages to the same steam engine. As the vouchers for the year 1892-93 have been returned to you, I would also ask if Messrs. H. & A. Penhallwick did not give a receipt in full of all claims upon the payment of the \$304 in that year.

I am, sir, your obedient servant,

The Acting Deputy Supt. General Indian Affairs. J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 4, 1897.

SIR,—In reply to the inquiry made in your letter of the 17th ultimo respecting a payment of \$175 made to Messrs. H. & A. Penhallwick, I have the honour to inform you that this was a further payment on account of the same engine for which damages were paid in 1892-3. The Messrs. Penhallwick endorsed the cheque for \$304 in full payment without protest, but it would appear that they did not cease to point out to the department the most unfortunate position in which they were placed by the accident, which could not be traced to any carelessness on their part, and upon the facts being presented in December last to the then Acting Superintendent General, supported by a recommendation from the Indian Commissioner, he directed that a further sum of \$175 be paid in full satisfaction of the claim.

In order that you may know the position in which the accident placed the Messrs. Penhallwick, I beg to inclose a copy of a letter from Mr. Richard Penhallwick, whose statements have been verified by the Indian Commissioner.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

EDMONTON, ASSA., Aug. 4, 1896.

DEAR SIR,—As the father of Henry and Arthur Penhallwick, I am in duty bound to call your attention to this matter, as it has turned out most disastrous for me, as I will show you, and must ask for a settlement in full of the small claim put in viz., \$675, \$304 of which has been paid, leaving \$371 due.

Now my interest in the matter is just this: when my sons bought this new threshing outfit, in 1891, I had to secure their notes by endorsement to satisfy the vendors, J. D. Sibbald & Co., of Regina. We paid \$1,000 before the burning of the engine, but could not pay the second through loss of work owing to engine being laid up. It was impossible to carry out our contract by hiring an engine, but the hired engine was not powerful enough to drive the separator, so we lost money every day and had to stop.

About this time the vendors, J. D. Sibbald & Co., went into liquidation, the bank of Montreal being liquidators, so we became liable to them for the balance, which we could not pay when due owing to the loss above mentioned. So the bank being in haste to wind up the liquidation took away the threshing outfit and sold it, then sued me for the balance due, took judgment and registered the judgment against my farm, which judgment and costs amounts to now over a thousand dollars, to which is added yearly \$60 interest. So you see what a predicament this had left me in after slaving here for twelve years to make a home for my children to have this incubus hanging over my head. So I am sure you will admit that I have a right to speak and ask for a full settlement of our just and moderate claim, so that I can arrange with the bank and lift this registration from my farm. And to this end I have placed the matter in the

hands of Mr. Davin, with instructions to consult you first or take any other steps necessary to secure a settlement. Praying for a favourable consideration of the case, I remain yours respectfully,

RICHARD PENHALLWICK,

Supt. Genl. Indian Affairs.

*for H. & A. Penhallwick.*

**Discussion on Freight Charges on Clothing sent to All Hallows Boarding School, at Yale, B.C.**

AUDIT OFFICE, OTTAWA, May 15, 1897.

SIR,—I beg to draw your attention to the following payments during the nine months ended March 31 last, for freight on o'd clothing sent to All Hallows boarding school at Yale, B.C. :

Voucher 4, cheque 152.—Grand Trunk Railway, \$4.59  
do 5, do 241.—Canadian Express Company, \$2.  
do 6, do 296.—Canadian Pacific Railway Company, \$5.82.

I would ask if these accounts are not properly chargeable against the annual grant for the maintenance of the school. If so, the Sister Superior should be asked to refund the amount overpaid.

I am, sir, your obedient servant,

The Acting Deputy Supt. Genl. of Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 20, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 15th instant, to whether the freight charges re-paid by the department on clothing sent by the Women's Auxiliary, to All Hallows School in B.C., should not be charged against the per capita grant for the school, and to inform you that it is not considered advisable to charge such payments against the grant which is only at the rate of \$60 per annum for each pupil, and is not supposed to cover the full maintenance of the child. The department is desirous of giving as much assistance as possible to the work being done by the boarding schools, and has not therefore made such payments a charge against the grant to such schools either in the N.W.T. or B.C. The action of the department in paying the freight charges on the clothing supplied by the societies of the different churches has resulted in a great increase in the quantity of clothing supplied to the Indians, especially by rural congregations, and has been of great assistance to those in charge of the schools.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

AUDIT OFFICE, OTTAWA, May 22, 1897.

SIR,—I am in receipt of your letter, numbered 93200, of the 20th instant, with reference to freight charges repaid by your department on mission clothing sent to All Hallows School, and in reply beg to call your attention to the correspondence published in my reports of 1894-95, page G-120 and of 1895-96, page G-121, where payments for freight on mission clothing forwarded to the Regina Industrial School were in question, and to inform you that in this case your department deducted the amount chargeable against the school from the per capita grant for the next ensuing quarter. Please explain the reason for the different methods of dealing with what is apparently the same question.

I am, sir, your obedient servant,

The Acting Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

## Auditor General's Report—Part G

---

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 2, 1897.

SIR,—With reference to your letter of the 22nd ultimo, in which you draw attention to the fact that this department paid freight on mission clothing sent to the All Hallows School, B.C., while when similar clothing was sent to the Regina Industrial School the amount of the freight charges was deducted from the per capita grant to that institution, I beg to point out that the All Hallows School is in receipt of only a small per capita grant (\$60.00) which cannot cover the whole outlay upon the school ; for this reason the department paid the freight on the clothing.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

---

AUDIT OFFICE, OTTAWA, July 10, 1897.

SIR,—I am in receipt of your letter No. 93200 of 2nd ult., with reference to freight paid on mission clothing sent to All Hallows School, B.C., and in reply beg to say that according to the Order in Council of 22nd October, 1892, quoted in your letter No. 91,883, of 26th ult., this item comes under the head of maintenance, and I would ask that a refund of the amount be made by the school at as early a date as possible.

I am, sir, your obedient servant,

The Deputy Supt. Gen. of Indian Affairs.

J. L. McDOUGALL, *A.G.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, July 13, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 10th instant, in further reference to the freight paid on mission clothing sent to the All Hollows School in B.C., and in reply I beg to say that in the opinion of this department the Order in Council of the 22nd October, 1892, does not apply to the school in question.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

---

AUDIT OFFICE, OTTAWA, July 29, 1897.

SIR,—I am in receipt of your letter No. 93200, of the 13th inst., with reference to the freight paid on mission clothing sent to the All Hallows School at Yale, B.C., and in reply I beg to inform you that your letter No. 91883, of the 26th ult., plainly states that the Order in Council of October 22, 1892, is the basis upon which the division of the expenses of the various boarding and industrial schools is made, and as this school is included in the list of boarding schools supplied to this office, I fail to see why the freight on clothing to be used by the school, and which clearly comes under the head of school maintenance, should be paid in addition to the per capita grant.

I am, sir, your obedient servant,

The Deputy Supt. Gen. of Indian Affairs.

J. L. McDOUGALL, *A.G.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 5, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 29th ultimo. The impression which you have gathered from the letter of 26th June last, is an erroneous one. The Order in Council of the 22nd October, 1892, does not in any way refer to boarding schools, and the department does not administer them under its provisions. The grant given to a boarding school is intended to represent the limit of the cash grant which the department is willing to pay. It is less than that paid an industrial school

because the boarding school is more directly subject to assistance from the parent missionary society, because in many instances, of which All Hallows is one, the buildings and furnishing were not provided by the government, and because the government is not responsible to any defined extent for outlay, beyond the actual maintenance. These circumstances place the boarding schools in a comparatively unfavourable position, and they led to the small assistance to which you object. But a stronger reason lies in the fact that as these schools are, for the most part, situated on reserves, and their pupils are drafted directly from the reserves, the assistance given in clothing, upon which the department pays the freight charges, may as fairly be considered a grant to destitute Indians as an outlay for the school, the indigent Indians would not be able to give their children an outfit, and the school would not be able with the small per capita grant to furnish it without the aid given by charitably disposed persons, assisted by the payment of freight charges by the department. Upon examining the accounts of the various boarding schools, I think you will see that only in exceptional cases has any expenditure, beyond the per capita grant, been allowed, and in the North-west Territories the freight charges on clothing have been charged to the Destitute Indian Vote. If you do not consider this satisfactory, the matter will be reconsidered, but it is thought that under the circumstances no refunds should be required, as the missionary societies acted in good faith under an agreement with the department, but, if desirable, a new rule might be established.

It has not been considered necessary to formulate rules for the financial government of boarding schools, as the practice has been to examine each application for additional assistance upon its merits, and, as has been before remarked, the cases favourably considered have been few.

Your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

### Method of Calculating the Per Capita Grant to Indian Schools.

AUDIT OFFICE, OTTAWA, July 19, 1897.

SIR,—I beg to call your attention to voucher 40, Battleford Industrial School for the year 1896-97, which covers the payment of the quarterly per capita grant for the quarter ended March 31st last, and I would ask that this office be informed as to the number of pupils in attendance at the school during the quarter, the total number of days in attendance and the total number of school days in the quarter. I would also ask that information be given as to the method of calculating the per capita grant for the various schools.

I am, sir, your obedient servant

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, July 22, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 19th instant relative to the voucher covering the March quarter grant to the Battleford Industrial School; and in reply to your inquiries I beg to say that there were 90 days in the quarter in question, and that the return shows the aggregate attendance to have been 9,254 days, with an enrolment of 112 pupils. Regarding the method of calculating the per capita grant for the various schools, I may say that the same is made up of the individual earnings of all the pupils enrolled, up to the number authorized, in accordance with a fixed scale which determines the payment to be made by the time each pupil has been in residence.

Your obedient servant.

The Auditor General.

J. D. McLEAN, *Act. Secy.*

## Auditor General's Report—Part G

AUDIT OFFICE, OTTAWA, July 24, 1897.

SIR,—I am in receipt of your letter No. 116820-3 of the 22nd instant, relative to the grant paid to the Battleford Industrial School for March quarter, 1897. In reply I beg to inform you that according to the figures furnished this office, the per capita grant for the quarter should be \$3,727.30 instead of 3,733.77, or an over payment to the school of \$6.47. The difference no doubt occurs in the method of calculating the per capita grant according to the fixed scale in use by your department and calculating upon the aggregate attendance of the pupils up to the number authorized.

I would ask that this office be supplied with a copy of the scale referred to in your letter and the authority for using it in calculating the per capita grants, and the reasons for calculating the grant upon the individual earnings of the pupils according to the fixed scale instead of upon the aggregate attendance.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 13, 1897.

SIR,—In compliance with the request made in your letter of the 24th ultimo, I inclose herewith a copy of the scale used in calculating the per capita grant for the industrial schools. This scale was adopted when a per capita grant was decided upon as the method of payment. This grant is paid upon the individual earnings of the pupils according to the scale, so that an opportunity may be given the school to replace an outgoing pupil, but in no case do the total earnings of the outgoing and incoming pupil exceed the full grant for the quarter.

Your obedient servant,

The Auditor General.

J. D. McLEAN, Secy.

Fixed Scale of payment of per capita grant at \$145 per annum :—

From 85 to 90 days—	\$36.25, actual grant for 90 days.
“ 79 to 84 days—	\$33.83, “ “ 84 “
“ 73 to 78 days—	\$31.41, “ “ 78 “
“ 67 to 72 days—	\$29.00, “ “ 72 “
“ 61 to 66 days—	\$26.58, “ “ 66 “
“ 55 to 60 days—	\$24.16, “ “ 60 “
“ 49 to 54 days—	\$21.75, “ “ 54 “
“ 43 to 48 days—	\$19.33, “ “ 48 “
“ 37 to 42 days—	\$16.93, “ “ 42 “
“ 31 to 36 days—	\$14.50, “ “ 36 “
“ 25 to 30 days—	\$12.09, “ “ 30 “
“ 19 to 24 days—	\$ 9.67, “ “ 24 “
“ 13 to 18 days—	\$ 7.25, “ “ 18 “
“ 7 to 12 days—	\$ 4.85, “ “ 12 “
“ 1 to 6 days—	\$ 2.42, “ “ 6 “

AUDIT OFFICE, OTTAWA, August 16, 1897.

SIR,—I am in receipt of your letter of the 13th instant, numbered 116820-3 relating to per capita grants to industrial schools, and in reply beg to point out that you have not answered that part of my letter asking for the authority for using the fixed scale in calculating the per capita grant. I would also ask why the grant cannot be based upon the actual average attendance for the quarter. In the schools, when more

than the prescribed number of pupils are in attendance, are the extra pupils allowed to count for the absence of others?

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 19, 1897.

SIR,—In reply to the inquiry made in your letter of the 16th instant, I beg to say that the fixed scale for calculating the per capita grant was adopted by this department after consulting different religious denominations interested in Indian education, and the present custom has prevailed since the different schools have been placed upon the per capita grant basis.

The department claims that it is justified in making such an arrangement, which facilitates the calculation of the earnings under the per capita system, and is fair to the schools and the government. Days of grace are allowed in all commercial transactions, and it is not considered that the five days allowed by the department to go and come on are excessive, and this arrangement was asked for and conceded by the department, and has been carried out since the schools were placed upon the per capita grant basis, and the department does not see why it should now be asked to change the system followed in paying for the individual earnings of pupils to the actual average attendance for the quarter.

The present system entails no loss to the government, as extra pupils are not allowed to count for the unauthorized absence of others.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Sec.*

### **Authority for paying Per Capita grants to Industrial and Boarding Schools.**

AUDIT OFFICE, OTTAWA, May 25, 1897.

SIR,—With further reference to the correspondence between this office and your department with regard to the industrial and boarding schools under the per capita grant system, I would ask that this office be furnished with a list of the Schools controlled by your department, showing the amount of per capita grant paid to each, the authority and date of authority for paying per capita grant and a statement of expenses covered by the per capita grant in each case.

I am, sir, your obedient servant,

The Acting Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 12, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 25th ultimo; and in reply I beg to inclose herewith a statement giving the information asked for in regard to industrial and boarding schools under the control of this department.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

NOTE.—All boarding schools are paid per capita grant from the date of their establishment.

AUDIT OFFICE, OTTAWA, June 14, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 12th instant, No. 91883, inclosing a statement of industrial and boarding schools controlled by your department. The statement given is not a complete answer to my letter, in that you do not give a statement of expenses covered by the per capita grant in each case. In the majority of cases I find that the authority is given as "parliamentary grant." Kindly inform me what is meant by parliamentary grant, as I do not find that these amounts have been voted to the different schools. The Order in Council of October 22, 1892, authorizes the payment of \$140 per capita to the Battleford Industrial School. I would ask under what authority this school is paid at the rate of \$145 per capita.

I am sir, your obedient servant,

The Acting Depy. Supt. Genl. Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 26, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 14th instant, with further reference to the industrial and boarding schools controlled by this department. In reply I beg to state that in the statement sent you, the authority for the payment of a per capita grant was given as "parliamentary grant," because the principle of such payment was fixed by the details of the general estimates for Indian schools. The separate items do not appear in the Supply Act. The authority to pay a per capita grant to schools established after 22nd October, 1892, was granted by the Order in Council of that date, which provides :

"The Minister therefore recommends that the following be applied to the industrial schools in operation in the North-west Territories, and to such other similar institutions as may hereafter be established, as soon as in the opinion of the Indian Department, said institutions are in proper running order, at rates to be fixed upon as being fair and just, viz. :

"The buildings are to be kept in repair jointly by the Government and management, the former to furnish the material, and the latter to perform the labour.

"All books and appliances, that is maps, globes, &c., for educational purposes, to be furnished by the Government.

"All charges for maintenance, salaries and expenses to be paid by the management out of the per capita grant.

"The management not in any case to charge children or their parents for being allowed to attend such institution.

"The Government to pay to the management an annual grant for each pupil up to the number authorized by the Indian Department."

Regarding the expenses covered by the per capita grant, I may say that the division of such expenses is made as strictly as possible upon the terms of the Order in Council above quoted. Referring to the payment of \$145 per capita to the Battleford school, I may say that the increase of the grant to this school was found to be necessary for its proper maintenance, and was voted by Parliament.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Sec.*

AUDIT OFFICE, OTTAWA, July 30, 1897.

SIR,—I am in receipt of your letter No. 91883 of the 26th ult., with reference to industrial and boarding schools controlled by your department. In reply I beg to inform you that the estimates for day, boarding and industrial schools are voted as one amount and no details of the estimate are given, nor is this office in possession of any further detail than that given in the Supply Act. It is therefore necessary that an Order in Council be passed fixing the amount of the per capita grant to be paid to each school.

I am, sir, your obedient servant

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

## Auditor General's Report—Part G

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 17, 1897.

SIR,—In reply to your letter of the 30th ultimo, which requests that an Order in Council be obtained to fix the amount of the per capita grant to be paid to each Indian boarding and industrial school, I beg to say that it is considered that the Order in Council of the 22nd October, 1892, which establishes the principle of paying such per capita grant to the industrial schools is sufficient to warrant the continuance and extension of the system. It does not appear necessary to fix the special grants by Order in Council. The understanding had with the schools bears the nature of a contract, and the payment of the so-called "grant" is made when the department is apprised that the obligation of the school to the government has been carried out in its integrity. It is difficult to see why a payment of this kind should be fixed by Order in Council, and I should be glad to know your reasons for thinking it necessary.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secy.*

AUDIT OFFICE, OTTAWA, August 26, 1897.

SIR,—I am in receipt of your letter No. 91883 of the 17th instant, with reference to industrial and boarding schools controlled by your department.

I beg to point out that the Order in Council quoted in your letter states—"The Minister, therefore, recommends that the following be applied to the industrial schools in operation in the North-west Territories, and to such other similar institutions as may hereafter be established . . . . . at rates to be fixed as being fair and just . . . . . The government to pay to the management an annual grant for each pupil up to the number authorized by the Indian Department as represented by the commissioner at the following rates :—

" Qu'Appelle . . . . .	\$115 00
" Regina . . . . .	120 00
" Battleford . . . . .	140 00
" High River . . . . .	130 00"

Council, fixing the rates in the four cases mentioned and authorizing these rates, has established a precedent which must be followed in authorizing the grants payable to other schools. I would, therefore ask that Orders in Council be obtained for the schools which are not so authorized.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 27, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 26th instant, and in reply I beg to state that it is not possible for this department to agree with your interpretation of Order in Council of the 22nd October, 1892. I would refer to letter of the 17th August last as containing the views of this department upon this subject. It does not appear to be necessary to obtain the authority of Council for these per capita grants.

Your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy*

**Payment for saving Shipwrecked Crew, not properly chargeable against the Indian Appropriation.**

AUDIT OFFICE, OTTAWA, May 14, 1897.

SIR,—Voucher 43, West Coast Agency, for the year 1896-97, is for a payment of \$25 to Danl. Ait-ke-tah-chy as a reward for saving crew of Schooner "Puritan". I would ask that this office be furnished with the particulars which led to the payment of this voucher and the reasons for making it a charge against the Vote for Indians of British Columbia.

I am, sir, your obedient servant,

The Acting Deputy Supt. General Indian Affairs. J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 21, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 14th instant, respecting voucher 43, West Coast Agency, British Columbia, for the year 1896-7, for a payment of \$25 to Daniel Ait-ke-tah-chy as a reward for saving the crew of the schooner "Puritan," and in reply to your request to be furnished with the particulars which led to the payment of this voucher and the reasons for making it a charge against the vote for Indians of British Columbia, I beg to inform you that, it having come to the knowledge of the Superintendent General that the lives of the captain and crew of the American Schooner "Puritan" had been saved through the heroic act of the young Indian above named, he desired the Indian Superintendent at Victoria, on behalf of the Government of Canada, and on his own behalf as Superintendent General of Indian Affairs, to convey to the Indian an expression of their admiration of his bravery and humanity, and to present to him, as a slight token of their appreciation of his gallant conduct, with a cheque for the amount in question, which was transmitted to the Indian Superintendent for the purpose.

As regards the reason for making the payment a charge against the Vote for Indians of British Columbia, I may say that it was paid out of the Vote for miscellaneous expenses, as there is no other fund at the command of this department from which the amount could be paid, and it would seem that the Vote from which it was paid was specially intended to cover charges of this kind which were otherwise unprovided for.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

AUDIT OFFICE, OTTAWA, May 26, 1897.

SIR,—I am in receipt of your letter No. 152,100, of the 21st inst., with regard to a payment of \$25 to Daniel Ait-ke-tah-chy as a reward for saving the crew of the Schooner "Puritan."

In reply I beg to inform you that the Department of Marine and Fisheries has a vote of \$8,000 for "Rewards for saving life, etc.," out of which the payment under discussion should have been made. I would suggest that you apply to that Department for permission to charge this payment of \$25 against the vote referred to above.

I am, sir, your obedient servant,

The Acting Deputy Supt. Gen. of Indian Affairs. J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 1, 1897.

SIR,—Referring to your letter of the 26th ultimo, relative to the payment of \$25 which was made from the British Columbia Appropriation to Daniel Ait-ke-tah-chy, for his bravery in saving the crew of the steamer "Puritan," I beg to inform you that the

## Auditor General's Report—Part G

---

---

department has acted upon your suggestion and asked the Department of Marine and Fisheries to have the sum in question charged against the vote of \$8,000 for "Rewards for saving life, etc.," and the vote for Indians of British Columbia recouped by that amount.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Sec'y.*

---

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 7, 1897.

SIR,—I beg to inform you that upon receipt of your letter of the 26th ultimo, in regard to the payment of \$25 which was made to the Indian, Daniel Ait-ke-tah-chy, as a reward for saving the crew of the schooner "Puritan," this Department, acting upon your suggestion, wrote to the Department of Marine and Fisheries, and, after explaining the circumstances of the case, asked to have the amount in question charged against the vote of \$8,000, for "Rewards for saving life, etc." The Department of Marine and Fisheries in reply to this request states that the administration of the vote devolves upon it, and adds that it is not deemed advisable that the fund should be transferred to meet the requirements of other departments.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Sec.*

---

AUDIT OFFICE, OTTAWA, November 4, 1897.

SIR,—I am in receipt of your letter of June 7, 1897, No. 152100 with reference to the payment of \$25 to Daniel Ait-ke-tah-chy, as a reward for saving the crew of the schooner "Puritan."

In reply I beg to say that in my opinion the Parliamentary Votes for the Indian Consolidated Fund should be used only for making payments for services rendered and supplies purchased on behalf of the Indians. The payment under discussion, however, is not one for services rendered for the benefit of any Indians, but, on the contrary, is one for services rendered by an Indian on behalf of a shipwrecked crew. It accordingly is not a proper charge against the vote for the Indians of British Columbia. I cannot understand why the Marine Department declined to make the payment a charge against its appropriation.

I am, sir, your obedient servant,

The Secretary, Dept. of Indian Affairs.

J. L. McDOUGALL, *A.G.*

---

### Medicine purchased for an Indian School should be charged to that School.

AUDIT OFFICE, OTTAWA, May 13, 1897.

SIR,—Voucher 21, Cheque 318, Kwawkewlth Agency, for the year 1896-97, is for a payment of \$19.18 to Messrs. Langley & Henderson Bros., of Victoria, for medicines supplied to the Rev. A. J. Hall, of Alert Bay. I find that this account was also paid by cheque 220, voucher 15, of the same agency. Please have the overcharge refunded by Messrs. Langley & Henderson Bros. I would also ask if these medicines are for the use of the Alert Bay Industrial School. If so, please have the amount transferred to the account for that school.

I am, sir, your obedient servant,

\ The Acting Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 20, 1897.

SIR,—I beg to acknowledge the receipt of your letter of the 13th instant, in reference to a duplicate payment to Messrs. Langley & Henderson Bros., of Victoria, for medicines supplied for Indians of the Kwawkewlth Agency, and to inform you that the error had been observed and a refund received, the deposit receipt being inclosed to the Finance Department on the 14th instant. The department is not aware that the medicines were intended exclusively for the pupils at the school, but Superintendent Vowell will be written to for the information. I would, however, point out that the appropriation for industrial and boarding schools, calculated on the per capita basis, does not cover medical attendance and medicines, and such expenditure has invariably been charged against the general appropriation for the above purpose, and generally included in the Agency accounts.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

AUDIT OFFICE, OTTAWA, May 26, 1897

SIR,—I am in receipt of your letter No. 151892 of the 20th instant, with reference to medicines supplied by Messrs. Langley & Henderson Bros., and charged to Kwawkewlth Agency. You state that the appropriation for industrial and boarding schools does not cover medical attendance and medicines, and I would ask to be informed of what part of the expenses of the various schools is covered by the appropriation and what expenses of the schools are charged to other votes. I might point out that in dealing with the vote for industrial and boarding schools of Manitoba and North-west Territories, medicines and all other expenses of the schools are charged to the vote. I would ask why a different method has been employed in this case.

I am, sir, your obedient servant,

The Acting Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 2, 1897.

SIR,—In reply to the inquiries contained in your letter of the 26th ultimo, regarding the medicines supplied by Messrs. Langley & Henderson Bros., which were charged to the Kwawkewlth Indian Agency, I beg to inform you that the cost of these medicines should be charged against the school appropriation, if they were all intended for children at the school. I may add that Mr. Superintendent Vowell has been written to in the matter, and if it is found that this was the case a transfer will be made.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 7, 1897.

SIR,—Referring to previous correspondence regarding the medicines supplied by Messrs. Langley & Henderson Bros., which were charged to the Kwawkewlth Indian Agency, B.C., I beg to inform you that I am advised by Mr. Superintendent Vowell, that the medicines were intended for distribution to such Indians generally as were unable to provide themselves with the curatives which they required. The entry will, therefore, stand against the Agency.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

## Auditor General's Report—Part G

### Interest credited in excess to the Wyandottes of Anderdon.

AUDIT OFFICE, OTTAWA, October 18, 1897.

SIR,—I beg to ask your attention to the amount of interest taken credit for by your department on account of the Trust Fund held for the Wyandottes of Anderdon, account No. 39.

On July 1st, 1895, this band had at their credit as follows :—Capital, \$16,294.53 ; interest moneys, \$4,699.14. These sums bore interest at the following rates : \$15,673.33 at 6 per cent, and \$5,320.34 at  $3\frac{1}{2}$  per cent, the amount bearing interest at 6 per cent, being made up of annuities capitalized prior to confederation. On July 1st, 1896, the amount at the credit of the capital account of this band was reduced to \$14,727.19, while they had \$5,345.81 at the credit of their interest account, and interest was taken on these amounts as follows :—6 per cent on \$15,673.33 and  $3\frac{1}{2}$  per cent on \$4,399.67, *i.e.* \$946.14 of their interest money drew interest at the rate of 6 per cent. It seems to me that as the 6 per cent funds are made up of annuities capitalized prior to confederation, that it is only the moneys at the credit of the capital account that can bear interest at that rate, while moneys at the credit of the interest account cannot bear a higher rate of interest than  $3\frac{1}{2}$  per cent. According to this, the amount of interest for the year 1896-97 should have been calculated as follows : 6 per cent on \$14,727.19 and  $3\frac{1}{2}$  per cent on \$5,345.81, which would make a difference of \$23.85 in the interest payable for that year.

This over-credit of interest should be adjusted when calculating the interest due for the current fiscal year.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

### Unsatisfactory Condition of Trust Fund, Superannuation Account, the Debit Balance of which is Increasing Rapidly.

AUDIT OFFICE, OTTAWA, October 6, 1897.

SIR,—I beg to ask your attention to the very unsatisfactory condition of the Indian Trust Fund Superannuation Account (Account No. 79), the debit balance of which increased during the fiscal year 1896-97 from \$21,187.33 to \$23,607.60. On July 1, 1892, the debit balance was \$11,257, which it will be seen has more than doubled in the past five years.

This account was originally a sub-account of Management Fund and might be still so considered. The total amount at the credit of Management Fund on July 1 last was \$94,896.21. A simple calculation will show that if the adverse balance of the Superannuation Account continues to increase during the next ten years at the same rate as it has done in the past five years, it will in that time exhaust the whole money at the credit of Management Fund.

In my letter of September 15, 1893, I pointed out the illegality of the establishment of a Superannuation Fund as part of the Trust Fund, and my view was concurred in by your department in a letter dated October 4, 1893. In view of the unsatisfactory state of this account, I have to ask you to immediately cease making any payments chargeable to this account until such time as the matter has been satisfactorily settled. You will therefore please consider the credits issued by the Finance Department and this office jointly as not available for superannuation payments.

I am, sir, your obedient servant,

The Deputy Supt. General of Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, October 8, 1897.

SIR,—In reply to your letter of the 6th instant, I beg to inform you that your wishes in regard to stopping for the present all payments from the Indian Trust Fund Superannuation Account (Account No. 79) will be met, and the question will be again brought before the Superintendent General on his return to Ottawa.

Your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy.*

**Re Receipts at Grist and Saw Mills.**

DEPT. OF INDIAN AFFAIRS, OTTAWA, March 8, 1897.

SIR,—I have the honour to inform you that the department has requested the Indian Commissioner, at Regina to have all amounts received for work done for settlers at the grist and saw mills on Indian reserves forwarded here, to be credited to casual revenue. The commissioner thinks, however, that the cash received should be credited either to the appropriation for mills, or to some band, in order that the amount earned by the mills could be again expended in working them; and the department desires to know whether the action suggested by the commissioner would meet with your approval, or whether there is not some other way in which the desired end may be attained. It should be remembered that the Indians contributed both in labour and money to the construction of several of these mills.

I am, sir, your obedient servant,

The Auditor General.

D. C. SCOTT, *for D.S.G.I.A.*

DEPT. OF INDIAN AFFAIRS, OTTAWA, April 14, 1897.

SIR,—I have the honour to call your attention to departmental letter of the 6th ultimo, in regard to the question of the proper method of crediting the cash received for work done for settlers at the grist and saw mills on Indian reserves in the Northwest, and to request that you will kindly furnish a reply to the same at your earliest convenience, as a number of returns of the operations at these mills have been received, and it is desirable that action should be taken thereon as soon as possible.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy.*

AUDIT OFFICE, OTTAWA, April 15, 1897.

SIR,—I am in receipt of your letter of the 14th inst., asking for a reply to letter of March 8th, in reference to the account to which amounts received from settlers for work done at grist and saw mills should be credited.

It was explained to Mr. Scott per 'phone, that the usual practice was to credit all such earnings to casual revenue; but that I would be glad to hear the reasons why it was considered by the commissioner at Regina that they should be credited to the appropriation or to the band. Mr. Scott arranged to come over and discuss the matter, and the letter of March was left unanswered till he should.

I am, sir, your obedient servant,

The Acting Secretary of Indian Affairs.

J. L. McDOUGALL, *A.G.***Re Casual Revenue.**

AUDIT OFFICE, OTTAWA, April 24, 1897.

SIR,—In your letter of March 25th, 1896, you stated that the vouchers and information asked for in my letter of March 21st, in reference to the receipts credited to casual revenue would be furnished.

I have to remind you that those vouchers are not being furnished. Please let me have those appertaining to the present fiscal year.

I am, sir, your obedient servant,

The Deputy Supt. Genl. Indian Affairs.

J. L. McDOUGALL, *A.G.*

## Auditor General's Report—Part G

DEPT. OF INDIAN AFFAIRS, OTTAWA, May 8, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 24th ultimo, and in reply to inform you that your letter of March 25th, 1896, appears to have been filed away by Mr. Reed without any action being taken to furnish you with the vouchers you require in connection with the amounts collected by our officers and credited to casual revenue. I am now writing to the Indian Commissioner, at Regina, the Indian Superintendent, at Victoria, and the Inspector of Indian Agencies, at Winnipeg, with a view to the required vouchers being supplied for the current fiscal year.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy*

DEPT. OF INDIAN AFFAIRS, OTTAWA, June 15, 1897.

SIR,—With reference to your letter of April 24th, and this department's reply of the 7th ultimo, I inclose herewith vouchers in support of receipts credited to casual revenue. (Vide deposit receipts Nos. 357, 308, 94, 1105, 4811, 4872, 73, 355 and 275.)

The balance of the vouchers which you require will be sent as soon as they are received.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Act. Secy*

DEPT. INDIAN AFFAIRS, OTTAWA, Sept. 4, 1897.

SIR,—With reference to official letter of the 15th June last, I inclose herewith the balance of the vouchers required by you in connection with certain deposits made to the credit of casual revenue.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secy*

### **Re Claim against Hon. Peter McLaren.**

DEPT. OF INDIAN AFFAIRS, OTTAWA, August 27, 1897.

SIR,—Referring to official letter to you of the 9th December, 1896, in regard to the claim of this department against the Hon. Peter McLaren, I have the honour to inform you that after full inquiry the Minister has arrived at the following decision, which I beg to quote for your information:—

“It seems that the understanding with the late government was that the claim for the balance of the purchase money should be dropped, although there is no record of the understanding, and it should have been shown. Mr. Haggart and Mr. Wood, members of the late Government assure me that such is the case, and that it would be an act of bad faith to press the claim. It may therefore be dropped.”

Your obedient servant,

The Auditor General.

A. N. McNEILL, *Asst. Secy*

AUDIT OFFICE, OTTAWA, September 20, 1897.

SIR,—I have to acknowledge the receipt of your letter of the 27th ulto., covering the information that the Superintendent General of Indian Affairs had decided to drop the claim held by your department against the Hon. Peter McLaren for balance due on the purchase of a mill.

I have to remind you that to carry out this decision it will be necessary to have the authority of Parliament in the shape of an order of the Public Accounts Committee.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, *A.G*

*Re Sale of Exhibits.*

AUDIT OFFICE, OTTAWA, October 18, 1897.

SIR,—In May last one of your officers sold for \$60 the exhibits of the Indian Industrial Schools that were shown at the Central Canadian Fair, held in the fall of 1896. He states that he was instructed by the Acting Deputy Superintendent General to dispose of these exhibits to the best advantage; that he called on a number of people whom he considered likely to make an offer; and \$60 was the best he could obtain.

I have to ask for a copy of the instructions issued to your officer. The practice followed by other departments is to sell by public auction after being fully advertised, any considerable quantity of supplies not required, and I have to ask why that practice was not followed in this case.

Vouchers for transactions of this nature should be examined and approved by you or some officer in your name, and so certified. I am returning them for that purpose.

Judging from the list of the exhibits furnished, one would expect them to realize a great deal more than \$60, notwithstanding that it is stated they were in a bad state of preservation.

Please return the papers.

I am, sir, your obedient servant,

The Deputy Supt. General Indian Affairs.

J. L. McDOUGALL, A.G.

DEPT. OF INDIAN AFFAIRS, OTTAWA, October 20, 1897.

SIR,—In reply to your letter of the 18th instant, relative to the sale of certain exhibits from the industrial schools, which were shown at the Central Canada Fair, held in the fall of 1896, I beg to inform you that the exhibits in question were disposed of by this department in the manner it considered most in the public interest. A good many of the articles in question were moth-eaten, and it was necessary to get rid of them before they became utterly useless. As they were not of much value, the department did not consider it necessary to go to the expense of advertising them, and they were left in the hands of an official of the department to obtain the best prices possible, which he did, and duly accounted for the money received.

Your obedient servant,

The Auditor General.

JAS. A. SMART, D.S.G.I.A.

*Re Receipts at Industrial Schools.*

AUDIT OFFICE, OTTAWA, October 18, 1897.

SIR,—During the past fiscal year \$244.98 came to account as proceeds of work done at the Rupert's Land Industrial School, and \$33.01 as proceeds of sales.

Satisfactory statements are furnished for the quarters ended March 31, June 30 and September 30, 1896, and are certified as correct by the principal. In future please have these returns certified as follows: "The above return is a full and correct statement of all work done and sales made during the quarter ended . . . . ."

No returns are furnished for the two following quarters: separate bills being furnished instead. A certified return should in all cases be furnished.

Please explain why there are not similar receipts at the other industrial schools.

I am, sir, your obedient servant,

The Deputy Supt. General of Indian Affairs.

J. L. McDOUGALL, A.G.

## Auditor General's Report—Part G

DEPT. OF INDIAN AFFAIRS, OTTAWA, November 5, 1897.

SIR,—I have the honour to acknowledge the receipt of your letter of the 18th ultimo, embodying a form of certificate which you desire to have attached in future to all statements of work done, etc., at Industrial Indian schools; and in reply I beg to inform you that your wishes in this matter will be carried out.

With reference to your inquiry as to why receipts similar to those furnished by the Rupert's Land Industrial school were not obtained from the other Industrial schools, I beg to say that this department only receives such deposits from Industrial schools not in receipt of a *per capita* grant when sales are made. I may add that instructions will be given to the Principal of the Calgary school in this matter.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secretary*.

### Re Arrears Due.

DEPT. OF INDIAN AFFAIRS, OTTAWA, October 28, 1897.

SIR,—In reply to your letter of the 2nd instant, asking for a detailed statement of all arrears due to this department on the 30th June last, that have not yet been paid (1) by collecting officers; (2) by disbursing officers, and (3) by all other persons whether government officers or not, I beg to inform you:—

1. That the arrears due by collecting officers are the same as reported last year, namely:—

Chas. B. Savage, Gore Bay.....	\$3,452 11
A. B. LeBel, Rivière du Loup.....	638 78
Total.....	<u>\$4,080 89</u>

2. No arrears are due by disbursing officers.

3. As regards arrears due by other persons a statement is inclosed herewith showing the principal outstanding on account of Indian lands on the 30th June, 1897, by Agencies and at headquarters.

This statement has been prepared on the same basis as that furnished you last year, including not only the principal in arrear, but the principal not yet due.

As to the question of interest, I beg to point out that the preparation of a statement showing the interest in arrear due by individual purchasers up to the 30th June last would involve a very large amount of work, there being some four thousand open accounts, upon the amounts due by each of which a computation of interest would require to be made for a broken period, as the sales of different lots are made at different times during the year.

I may state, however, that the Department exercises the greatest care in the collection of the arrears due, and notices have been sent to the purchasers on the anniversary of each sale, and if there is cause for cancellation of the sale owing to non-fulfilment of the conditions, either by neglect to pay arrears or to perform settlement duties, the sale of the lot is cancelled and the money paid thereon forfeited, the department retaining the improvements made on the lot and in some cases selling the lot at an increased price owing to such improvements. It will thus be seen that the department takes every care to safeguard the interests of the Indians.

If the furnishing of this statement is insisted upon, it will necessitate the employment of an extra clerk for at least three months to do the work, and there are at present no funds from which such clerk could be paid. The books of the department are, of course, open to the inspection of your officers at any time.

Your obedient servant,

The Auditor General.

J. D. McLEAN, *Secretary*.
