

(Editorial concluded from Page 4.)

THE PROSPECTS OF THE CAMP.

Never, perhaps, in the history of a mining camp did a succession of more fortunate events occur than have happened to Rossland in the past few months.

The first Moses to guide the British investor into this promised land, overlooking as it is with gold, copper and silver, was Sir Charles Tupper.

The colossus of investors was yet to come here for the purpose of making investments when Sir Charles Tupper was in the camp.

Some points of interest may be extracted from the Canadian trade and navigation returns, of which an advance summary has been made public.

owned it many times millionaires. Finally the bonanza firm was dissolved, and all the members of it are now dead with the exception of Mackay, who, since the firm went to pieces, has devoted much of his capital and energies to the erection and maintenance of the Postal Telegraph Company, which is the only great rival of the Western Union extant, and also to the affairs of the Commercial Cable Company and other gigantic enterprises.

With a triumvirate of men like Mackintosh, Tupper and Mackay joining their faith and investing their money in Rossland mines, no one should have any doubt about our future.

actions between labor and capital, employed and employed, in the Kootenay district and the Cœur d'Alene region. So far as our information goes, there has never yet been a serious difference between the two elements here.

It is interesting to note the progress that Canada is making as a gold producing country. Unfortunately data is not yet available to show the exact yield for 1897, though it may be safely estimated at \$7,250,000.

A review of the operations in the various districts for the past year reveals the fact that West Kootenay produced \$2,604,284 worth of gold, \$2,554,284 of this coming from Rossland mines, while the balance, say \$50,000, is returns from ore taken from the Silver King and Poorman mines near Nelson.

The much-boomed Klondike produced, according to the Engineering and Mining Journal of New York, about \$2,000,000, or \$600,000 less than Kootenay.

The next auferous region of importance is Central and Northern British Columbia, which embraces the Cariboo, Fraser river, Peace river, Omineca and Cassiar districts. Mining in these localities for the past year has been attended with considerable success.

The placers of the Saskatchewan, in the neighborhood of Edmonton, received increased attention last year. Careful prospecting proves the bars and benches of the river to be rich in fine gold.

THE CITY MOURNED

Hundreds Pay a Tribute of Respect to the Departed.

THE SERVICES SIMPLE

Cortege That Followed the Body to the Station Was the Largest Ever Seen in This City--All Classes Were in Line--To Be Buried at Butte.

All Rossland was in mourning Thursday over the sad death of Captain William E. Hall, superintendent of the Le Roi, who was killed Wednesday evening by falling down the shaft of the mine.

Short, simple services were held Thursday at the Masonic hall, and the body was sent away on the noon train for burial at his old home, Butte.

The death of Captain Hall was a great loss to the mining community. He was a man of high character and ability, and his death was a great tragedy.

The funeral cortege was one of the largest ever seen in this city. It included representatives from all walks of life, and the services were attended with deep interest.

At the Red Mountain station, where the cortege was joined by perhaps 150 citizens, short services were held, and the remains were deposited in the train to be carried to Spokane.

At Spokane the remains were received at the station by Mrs. Hall and her two daughters, together with a delegation from the Le Roi company and the commandery of the Knights Templar.

At the Red Mountain station, where the cortege was joined by perhaps 150 citizens, short services were held, and the remains were deposited in the train to be carried to Spokane.

At Spokane the remains were received at the station by Mrs. Hall and her two daughters, together with a delegation from the Le Roi company and the commandery of the Knights Templar.

At the Red Mountain station, where the cortege was joined by perhaps 150 citizens, short services were held, and the remains were deposited in the train to be carried to Spokane.

DEATH OF CAPTAIN HALL

Coroner's Jury Found That His Death Was Due to Accident.

A FRIEND OF LABOR

Wallace Refutes Some Campaign Lies Against Him.

STANDS BY HIS RECORD

He Showed the People How to Stand For High Wages in the Council--Until He Carried His Point--Other Speeches at Last Night's Rally.

The supporters of H. S. Wallace in his candidacy for mayor had the biggest rally so far held in this campaign at the Wallace headquarters in the Pacific hotel Thursday.

Mr. Wallace has all along been a firm friend of high wages and reasonable housing. At the close of the meeting it was decided to have a public rally at Dominion hall Saturday night.

"I am talking to the working men tonight," said Mr. Wallace, "for I fully understand that my enemies in the majority are content to let the present system of low wages and the opponent of labor, while at the same time they are picturing Mr. Scott as the patron saint of the miners' union."

"Quite apart from politics, and speaking in favor of good wages for all laboring men, I believe that the scale of some classes of skilled labor a \$3 rate is altogether too low."

"In the face of the fact that I succeeded in establishing a \$3 scale for workmen in the city employ, in the face of my well-known views on the question of high wages, the enemy still circulates the reports that 'Wallace is the foe of the laboring man.'"

Mr. Dutton, who followed Mr. Wallace, made a forceful speech, in which he assailed the contention that Mr. Scott was the special friend of the laboring men.

C. O. Lalonde also arraigned Mr. Scott, and urged the election of Mr. Wallace to the mayoralty.

At the meeting Thursday J. B. Johnson presided and Arthur Dutton acted as secretary. The speakers included Mr. W. A. H. MacNeill, F. W. O. Lalonde, Arthur Dutton and J. H. Good.

The meeting was one of the largest ever held in this city, and the speakers were listened to with deep interest.

THE YMIER MINE.

It Has Been Extensively Developed

NEW SHORT LINE

FROM MONTANA, IDAHO AND PUGET SOUND

The town is far livelier than it was expected to be this winter, and owing to the large number of properties being opened, the storekeepers and packers are doing exceedingly well.

"I am talking to the working men tonight," said Mr. Wallace, "for I fully understand that my enemies in the majority are content to let the present system of low wages and the opponent of labor, while at the same time they are picturing Mr. Scott as the patron saint of the miners' union."

A WINTER CARNIVAL

It Will Be Held in February or March.

PLENTY HIBERNAL SPORT

It is Suggested That Ski Racing Be One of the Principal Features of the Occasion—There Will Also Be Snow-shoe Contests and Other Events.

A big winter carnival, such as has not been seen in Canada, is being arranged to take place in Roseland late in February or early in March.

Skis, as everybody knows, are a Norwegian device, and they have never been equalled for the purpose to which they are adapted.

Steeple chasing and hurdle riding are mild and placid forms of recreation beside a good ski race, where the contestants are scurrying down the precipitous side of a mountain with a speed little less than that of a hurricane.

Claus Jeldness is taking much interest in the proposed carnival. Mr. Jeldness, it will be remembered, made a ski run from the summit of Red Mountain to the Le Roi last winter, and he is now arranging for some friends, who are excellent ski runners, to be here during the carnival, and together they will run a record-making race from the summit of Red Mountain down into the heart of town.

Then, too, ski runs will be made down Spokane street, which is admirably adapted to the sport, and two jumps will be possible, one across the C. & W. railroad track, the other across the gulch near the electric light plant.

Besides the ski events, there will be snowshoe races and all sorts of similar sport, but it is believed the ski runs will attract the most attention of all.

The hockey club is entering into the spirit of the carnival with enthusiasm, and a tournament with the Slocan team is planned.

Details of the carnival are not yet complete, but a committee, including Messrs. Fraser, Jeldness, Jackson and Mackenzie, is at work on the project, and arrangements will soon be perfected.

NEWS OF THE COAST

Postoffice Department to Send a Mail to Teelin, Etc.

The Charge of Criminal Libel Against Hewitt Bostock Was Heard and Decision Reserved.

VICTORIA, Jan. 10.—The postoffice department has arranged for the dispatch of a mail, restricted to letters only, to Teelin lake, Telegraph creek, Glenora, and, indirectly, to Cassiar.

The benchers this morning called to the bar Messrs. A. S. Innes, W. C. Moresby, I. M. Miller, C. K. Courtney, and H. A. Stewart, and admitted as solicitors Messrs. Moresby and Miller.

Coming down Frederick Arm, in fine, clear weather, the steamer Tees ran upon a sunken rock, the mate, Mr. Tuttle, being in command at the time.

The steamer City of Topeka arrived at 5 o'clock this morning having on board a number of passengers from Dawson City bound for Seattle.

Among the passengers were two who had struck it rich in the Yukon country, one fortunate man having with him \$40,000 in gold dust.

Mayor Redfern and Joseph Cary were nominated for the mayoralty.

all the wards and also for school trustees. The full court today delivered judgment in Cunningham vs. Bank of British Columbia, dismissing the appeal with costs.

On Gordon vs. the city of Victoria being mentioned, Mr. Justice McNeill stated that he thought all the bridge accident cases should stand over till Patterson vs. Victoria was decided by the privy council, as they must eventually all be governed by the one case.

Mr. Justice Drake was of the same mind—it was the same bridge and the same accident. Mr. Taylor, for the city, was not content with such a proposition, as in different cases they had different facts found by the different juries.

It was decided to adjourn the discussion until Thursday, when Mr. McDonnell will be present. Davies vs. the Le Roi company was then gone on with. The plaintiff obtained judgment for \$1,000 damages for injuries received in the mine. A new trial was ordered.

The hearing of the charge of criminal libel against Hewitt Bostock, M. P., was continued before Magistrate MacRae this afternoon. Mr. Martin, his solicitor, having withdrawn from the case, Mr. Bostock appeared in his own behalf. The examination of Mr. Coltart was continued, Mr. Cassidy asking him a number of questions regarding the shares held by the directors.

A LETTER FROM DYEA.

Thomas Lloyd Henry, who is sometimes known as the Hard Rock miner, who recently went to Dyea, Alaska, writes under date of December 16, to his friend Bob McCann in this city.

Mr. Henry reports that Dyea is a good place for a rustler. He says that he got hold of two lots and sold one of them and is living on the other. Since he has been there he has been cooking, boating, time keeping, and for the last 30 days work he received the sum of \$120, and before that he tried his hand at unloading lumber from a scow and also carpentering.

Mr. Henry reports that he intends to start over the pass in a few days. The sledding was quite good at the time Mr. Henry wrote and quite a number were going over every day, determined to start in Dyea as early a date as possible.

He says that there are about 1,500 people in Dyea and that some 3,000 more are strung along the line as far as Sheep camp, which is 14 miles up the canyon. All are waiting for a chance to start to Dawson.

TOPPING AT GRAND FORKS.

Mass Meeting on Tuesday Evening to Consider the C. & W.

GRAND FORKS, Jan. 11.—[Special.—] Colonel E. S. Topping of Trail is here and will address a mass meeting of the citizens this evening on behalf of the Columbia & Western railway.

THE BOND ELECTION. It Will Be Held in This City Today.

BYLAW TO BE ADOPTED. Debentures Amount to \$65,000 and the Bank of B. N. A. Has Contracted For Them—Wards and Their Boundaries—Qualifications of Voters.

Notwithstanding the fact that the entire Wallace ticket was put in office without opposition at the hustings Monday, today will be election day in this city, for the bond bylaw passed by the present council must be acted upon.

As we do not wish to trespass too much on your space, we will close by asking you to call at the office of the Lerwick Mining company, or any of the board of directors, who will be pleased to answer all questions concerning the old or new company.

ROSSLAND UNITED GOLD MINING CO. VANCOUVER, Jan. 5, 1898. EDITOR MINER—Sir: I should be much obliged if you will, in your weekly issue, give me any information concerning the progress and development, if any, of the properties of the Roseland United Gold Mining company.

THE GOOD HOPE COMPANY. VICTORIA, Jan. 6, 1898. EDITOR MINER—Sir: Can you give me any information re the Good Hope company? Is it a live company, or is it numbered with the wildcats?

LETTERS TO THE EDITOR. Answer to Enquirer re the Elise. ROSSLAND, Jan. 12. EDITOR MINER—Sir: In your issue of yesterday appears a letter re the Elise company signed "Enquirer," in which he sarcastically refers to what he is pleased to call the graciousness of the new but unorganized company, because it extended the time for the reception of the Elise certificates together with the payment of one half cent per share on the same, both of which are necessary to entitle them to certificates in the new company, which has just been organized under the title of the Lerwick Gold Mining company, and in which organization appear as directors the names of H. R. Dunlop and H. McGlynn, the parties who, when the property was about to be sold by the sheriff, put up the money to pay off the indebtedness, which, with

interest to the first of January, 1898, amounted to \$3,600. Now all they asked in return was that each shareholder would bear his proportion of the debt, namely, one half cent per share, they of course doing the same.

AN INQUIRY CONCERNING ROSSLAND AND SAULT LAKE CITY, Utah, Dec. 31. EDITOR MINER—Sir: I am very desirous of obtaining some information in regard to your town or city. If I am not asking too much, would you kindly answer the following questions?

1. Population. 2. Altitude. 3. Minimum temperature. 4. Estimated employed. 5. Is the general business conducted through company stores associated with the mining interests, or by individuals, in the general branches of business.

There are 750 men at work in the mines of the camp. The other men employed at various sorts of manual labor, such as wood-cutting, saw-milling, rail-roading, carpentry and the sort, number perhaps 250 more, so that the total number of men employed in the camp is 1,000.

Graciousness of the New Elise Company. ROSSLAND, Jan. 8, 1898. EDITOR MINER—Sir: I glanced over a letter in your paper last week re new organization of Elise company, and also read extracts from local papers regarding the same.

THE PROVINCIAL VETERINARY. VICTORIA, Jan. 5. EDITOR MINER—Sir: Referring to an article in one of your recent issues entitled "Quarantine Against Glanders," I beg to make the following suggestions for the benefit of the public.
