### Liquor Policy Of The Government

Fredericton, Oct. 1.—The meeting of the provincial government which opens here this evening is expected to be marked by a pronouncement by Premier Foster concerning the wholesale liquor trade and policy that has been adopted for regulating the price and quality of liquor sold in New Brunswick under the provisions of the Prohibition Act.

Members of the government who are already here said, this morning, that the Premier had the matter "under consideration" and was expected to make a detailed statement. At the same time it is learned that Hon. Mr. Foster has been acting with representatives of the New Brunswick Temperance Federation in framing the new policy. The announced intention of establishing a commission to handle the wholesale liquor business has been abandoned.

The reason that is being publicly given for the change of policy by the government is that the people have not pronounced upon prohibition which is only being operated as a war measure in this province, pending a referendum, and it would be unwise to set up the machinery necessary for the public to handle the sale of the liquor until such time as the referendum shows whether prohibition is to be permanent or not.

It is said that the changes in policy which are to be announced are not a very startling nature, but include some method which has been evolved that the receipts as well as the shipments of liquor by the wholesale as well as the retail vendors can be checked up, as well as means for controlling the prices and quality of liquors sold by the vendors. Schedules of wholesale and retail prices of the various brands of whiskeys, wines, beer, etc., will, it is said, be prepared and posted in the premises of all vendors, and they will be forced under penalties not to sell at figures exceeding those on the schedules. The only means by which it has been found possible to regulate the quality of the liquor sold is to impose severe penalties for the sale of adulterated goods and have tests of samples made periodically.

Machinery, it is said, is being set in motion to bring on the referendum on the question of prohibition early in 1920, and it is intimated that the Premier may possibly make some statement as to the questions which will be submitted to the people at that time. It was said to-day that the women's voters lists would be completed in January.

### Strongly Endorsed By Liberal Leader

Toronto, Oct. 1.—Thorough endorsement of the Victory Loan 1919, is expressed by Hon. W. L. MacKenzie King, leader of the Liberal party in the Dominion, in a letter addressed to the Minister of Finance, Sir Henry Drayton. Mr. King lays emphasis upon the necessity for the maintenance of Canada's credit and the desirability that the money required to meet the pressing obligations of the nation should be raised at home.

This is his letter:

Ottawa, Sept. 10, 1919  
"My Dear Sir Henry—I am pleased to join with you in commending the Victory Loan to the people of Canada. It is imperative that Canada's credit should be maintained.

"As the Government finds that borrowing is a necessity to meet existing obligations, it is in every way desirable that the amount required should, if possible, be raised within Canada itself. I hope, therefore, that the loan be over-subscribed by citizens of the Dominion.

"You appreciate, of course, that in expressing a desire to see the loan a success such obligation as I may have in the matter of criticizing unnecessary or extravagant public expenditures is increased, rather than lessened, and that this endorsement is given upon your assurance that the organization of the campaign, everything about it, is absolutely and entirely non-political.

"Yours sincerely  
(Sgd.) "W. L. MACKENZIE KING."

Mr. King was greeted with the greatest cordiality and enthusiasm, although no formal reception had been planned for to-night. To-morrow great throngs of people from all parts of the island will be in Summerside to see and hear the Liberal leader.

Are you saving? Victory Loan is coming. We have Victory, but it is not paid for yet.

Scribbles, Lead Pencils, Slate Pencils and school crayons for sale at the Advocate office. Call at the Advocate office and secure your stationery.

### Honor Roll Of St. Mary's Academy

**Senior Dept.**

### 1919 Victory Loan Committees

At a public meeting held at Victory Loan Headquarters on Thursday evening, 2nd instant, the committees hereunder were appointed.

**Town Executive**  
C. J. Morrissy, chairman.  
J. D. Creaghan  
E. H. Sinclair  
J. R. Lawlor  
George Stables  
T. M. Maltby

**Transportation Committee.**  
G. G. Stohart  
D. Ritchie  
C. C. Hayward  
E. Dalton  
W. Maloney

**Advertising Committee.**  
A. H. Cole  
W. Ferguson  
G. McWilliam

**United States Committee.**  
J. E. T. Lindon  
L. S. O'Brien  
D. S. Creaghan  
Mr. G. P. Burchill, chairman for West Northumberland, desires to state that he solicits the active support and co-operation of the above committees throughout the campaign so that it may be a success in our part of the country.

### \$3,500,000,000

Real Estate and buildings in cities and towns in Canada, based on assessments of 140 localities, has a total present value of \$3,500,000,000 according to an estimate furnished by Dr. P. H. Coats, Director of the Dominion Bureau of Statistics at Ottawa. Such a portion of the security is offered the Victory Loan, 1919. Dr. Coats estimates the total national wealth and income of Canada at \$19,002,758,125 which is all the security offered.

Between 1,500,000 and 2,000,000 individual Canadian are subscribers to one or more of the War Loans. Each of these loans at present stands on the market at a higher price than at which it was issued.

Subscribers to the Loans are getting a high rate of interest. They have been able at any time to get at least the price they paid for the bond and at the present time they are able to sell it at considerably above par.

The best investment a Canadian can have is in the securities of his own country.

### WHY YOU SHOULD BUY VICTORY BONDS

Because  
You will get 5 1/2 per cent interest on your money.  
You will get full value for your money practically at any time you may require it.  
You will have an investment backed up by the entire resources of Canada.  
You will have guarantee as safe as any greenback.  
You will be allowing Canada to do your banking temporarily for you.  
You will be taking the advantage of your last chance to subscribe to a Canadian Victory Loan.

### Returned Soldier Reception Money Disposed Of

The postponed public meeting, for the purpose of disposing with the funds on hand, from the returned soldier's reception held in Newcastle on August 27th 1919 was held last Friday evening October 3rd in the Police Magistrate's office at 8 o'clock.

Mr. George Stables, chairman of the returned soldier's reception committee occupied the chair and Mr. Wm. Ferguson acted as secretary. Those in attendance were, Mayor D. P. Doyle, Police Magistrate J. R. Lawlor, R. Corry Clark, G. G. Stohart, A. H. Cole, Thos. M. Maltby, Ald. Chas. E. Fish, Ald. A. H. MacKay, R. A. N. Jarvis and H. D. Atkinson.

The chairman, Mr. Stables, explained that the meeting had been called to discuss and decide the manner in which the balance of the funds, some \$1700.00, which was on hand from the Returned Soldiers' Reception, was to be disposed of. Each person present was called on by the chairman to state their feelings in the matter, and the opinions expressed were all in favor of devoting the money towards a memorial in honor of the fallen heroes.

The nature of the memorial to be established, caused considerable discussion, but it was finally moved by Mayor D. P. Doyle and seconded by Mr. H. D. Atkinson that the money in the hands of the Returned Soldiers' Reception Committee, be used to erect a memorial in honor of the fallen soldiers. This motion was unanimously passed.

It was moved by Mr. Thos. M. Maltby, seconded by Mr. A. H. Cole, and unanimously passed that His Worship Mayor D. P. Doyle, Mr. J. R. Lawlor and Mr. George Stables, be a committee to approach the County Council at its next regular sitting in January, to ascertain the council's views and to solicit their assistance in the erection of a suitable County Memorial, in a suitable place, in honor of Northumberland's fallen soldiers.

His Worship Mayor Doyle again thanked the citizens generally and the committee members, on behalf of the town council, for the able and efficient manner in which they had conducted the reception, and assured them that the council were very grateful to them, in as much as the whole affair had not cost the town a dollar, not withstanding the fact that the council had promised to back them up if in need of funds. Instead of needing funds they had funds to dispose of, and he thought that this was a record which any town might be proud of, as usually, affairs of this kind were generally in arrears and needed assistance. On motion the meeting adjourned.

### RESULT NOT KNOWN.

No definite figures are yet available in regard to the number of women who have registered in the town and county, under the N. B. Elections Act Saturday was the last day of registration.

He has one leg! You have two hands to help him—hands to hold Victory Bonds.

### Newcastle Relief Committee Report

Statement of receipts and Expenditures of Newcastle Relief Committee—H. H. Stuart, Geo Stables, John H Troy, committee:

Receipts.	
J. H. Troy	\$10.00
H. H. Stuart	5.00
Misses Pedollin	5.00
R. C. Clark	25.00
E. Sinclair Lumber Co.	100.00
E. Connolly	5.00
J. M. Troy	5.00
Mrs. C. C. Hamby	5.00
	\$160.00
Expenditures.	
For various supplies:	
John Brander	7.90
Stohart Merc. Co. Ltd.	13.20
Mrs. E. A. MacMillan	4.50
Miss A. Treadwell	6.00
Dickson & Troy	13.55
Rev. W. J. Bate	10.00
Mrs. R. Cluston	5.00
R. M. Faudel & Co.	10.00
N. S. Leader, Printing	2.50
H. H. Stuart, Postage	1.00
	\$84.70
Balance in Royal Bank, August 21, 1919	75.30
Certified correct (sgd) J. E. T. Lindon, August 21st, 1919.	

Mayor John H. Troy being deceased, and H. H. Stuart having left town the balance of \$75.30 has been turned over to the last member of the committee, Mr. George Stables, who is now Treasurer.

### HAZELTON

Hazelton, Oct. 4.—The weather for the last few days has been quite difficult for our folks to get their fall work done.

Mrs. Stillson Chute has returned recently from Victoria hospital after undergoing an operation for appendicitis.

We are very glad to have the opportunity of noting that Mr. Stillson Chute has greatly improved after a terrible illness of pneumonia. We are glad to see Mr. James Turner with us once more, we hope she shall stay with us for a while. We are sorry to note that Mrs. P. Rogers has lost her position as cook in Mr. Alan Storey's camp owing to illness.

Mr. Wm. Bamford of Doaktown was calling on Mr. Archie McDonald of this place one day last week.

We are very sorry to say that car riding cannot be kept up all winter in addition to keeping the road's cleaned, out nicely for us during the winter months, if we could only see as many car tracks in winter as we have seen in the summer on our road.

We would not need to worry about having bad roads, especially from Archie McDonald's to Doaktown.

Mrs. Walter Ward of this place was the guest of Mrs. Archie McDonald one day last week.

We are glad to note that Miss Florence Porter has returned home again after a weeks vacation in Fredericton.

Mrs. Archie McDonald of this vicinity was the guest of Mrs. Elvin Holmes recently.

Word came the other day that one of our popular young men, Pte David Ward had undergone an operation for an abscess on the neck. We are sincerely looking for his speedy recovery.

Mrs. Nathaniel Beek is proprietress of a new boarding house in this local fly.

Most of our men are now preparing for the woods.

### SUNNY CORNER

Sunny Corner, Oct. 4.—Miss Kathleen McKenzie is visiting in Chatham. Mr. and Mrs. Samuel Mullin have gone to Fredericton for a few weeks. Miss Teresa Dunn, Red Bank, and Mrs. DeWolfe, Nordin, were visitors at the Corner on Thursday.

Miss Mary Nolan is the guest of Mrs. Howard Gopp, Trout Brook.

Misses J. Porter and M. Cotton, Nelson, spent the week end with Mrs. William H. Mitchell.

Mr. and Mrs. Walter E. Matchett have moved into their new house. Mrs. Patrick Hogan's many friends will be glad to hear she is improving in health.

**Johnson's Anodyne Liniment**

is a doctor's famous prescription for internal and external use. A soothing, healing, pain quieting anodyne with a record of over 100 years of remarkable success.

**Germany Must Withdraw all Soldiers From Baltic**

Paris, Sept. 20—Germany's recall of General von der Goltz from the Baltic region will not satisfy the Supreme Council, it is asserted, the Council being determined to place economic pressure on Germany until all the German soldiers are withdrawn from the Baltic.

The German soldiers at present in this region are variously estimated at from 50,000 to 100,000. They apparently are determined to restore the old Russian regime there.

Members of the peace delegations repeatedly have conferred with Baron Kurt von Lersner, head of the German mission, concerning von der Goltz and his forces, and the German Government agreed to remove them. The slowness in action, however, has resulted in great disorder in the Baltic states and the Supreme Council is determined to take immediate steps to bring pressure to bear upon the Germans until its demands are satisfied.

While it cannot be said that a blockade is actually on against Germany, steps are being taken to bring about financial pressure which will speedily cut off the German food supply and bring the German public to a realization of the fact that German activities in the Baltic states must cease. From now on the way to Germany will not be stopped but future supplies will be held up unless the German Government makes good its promises to evacuate the troops now in the Baltic region.

**The Origin of Pearls**

For many centuries, even until comparatively recent times, it was the common belief that pearls were drops of dew that gained entrance into the shell of an oyster and were there transformed into lustrous gems. Arab and Indian divers still believe that at certain seasons oysters come to the surface and suck in the rain drops that later become pearls. Science, however, has rudely shattered this poetic fancy and discovered the real origin to be a worm. Some interesting information in this relation has been gathered by the United States Fisheries Commission.

According to an officer of the commission almost any foreign body—a grain of sand, a bit of mud or shell, piece of seaweed or a small animal—may by its irritation cause the oyster to cover it with nacre and make it the nucleus of a pearl, but the largest part of the annual pearl crop of the world is due to parasites.

Minute spherical larva of marine worms, known as cestodes, become imbedded in the soft tissues, as many as forty having been found in one Ceylon oyster. As a result of irritation the oyster forms a protecting sac about the intruder, and then, if the larva dies, its body is gradually converted into carbonate of lime and the pearly mass proceeds to grow with the shell.

If the larva lives it may pass into the body of the strong-jawed trigger fish, which prey upon the pearl oysters, there undergoing further development. Ultimately it reaches the body of the great rays, which in turn eat the trigger fish. In the rays the worm attains full development and produces larva that are cast into the sea and find lodgment in pearl oysters.

**WINTER STORAGE OF SQUASH.**

Squash to be carried successfully in storage must be well matured and free from bruises, broken stems, cuts or frost injury. If one disposes of the well coloured, best matured squash and tries to keep those not well ripened, failure is likely to result under the most favorable storage conditions. A squash may be sufficiently matured for immediate use, but not be suitable for storage. In selecting for storage, therefore, pick out those which have had the longest period of growth, and just here it might be said that to get a large proportion of the crop for storage due attention must be given to having the plants started early. It is well also to turn the squash occasionally when growing in order to develop a hard shell on all sides. They should be handled carefully and placed immediately in a well ventilated, dry, warm room with a temperature around 80 degrees until the shells are hard and then removed to a cool but dry light and well ventilated room. Under such conditions we have been able to keep squash until spring in perfect condition.

A woman's tears and a man's grief are not always on the level.

Love may be blind, but unfortunately it is neither deaf nor dumb.

**HOW TO SAVE YOUR SHOES**

The scarcity of leather and the consequent increase in price for footwear make any process of treatment welcome that gives added life to articles so essential. A writer in 'Chambers' Journal declares that varnishing the soles of boots or shoes makes them wear four or five times as long as they would wear without that treatment. An inferior type of copal varnish is good enough for the purpose and half a pint, costing with a suitable brush, about 25 cents, should keep a person's footwear treated for a year or more.

The leather must be quite dry and bare when you apply the varnish. You should, therefore, wear new boots for a day before treating them. Apply the varnish at intervals of half an hour until the leather is so saturated that the surface remains shiny instead of becoming dull in places. Hang the boots up to dry for twelve hours and they will be ready for wear. It is a good plan to treat the soles in that way once a month. In addition to increasing the life of the leather, the varnish makes it virtually waterproof.

**THINGS TO BEAR IN MIND**

Here are some bits of advice for men more than 45 years of age, the paragraphs being from Walter Camp's Senior Corps Instruction Book.

- Drink without eating and eat without drinking.
- Five glasses of water a day, none with meals, will make you free of the doctors.
- Wearing the same weight underclothing the year around will save you lots of colds.
- Dress cool when you walk and warm when you ride.
- Your nose, not your mouth, was given you to breathe through.
- Don't sit still with wet feet. Walk until you have a chance to change.
- Never let a day pass without covering four miles on foot.
- See how high you can hold your head and how deeply you can breathe whenever you are out of doors.
- Getting angry makes black marks on the health.
- Sleep woos the physically tired man; she flouts the mentally or nervously exhausted.
- Loose clothes, loose gloves, easy shoes spell comfort and health.

**THICK, GLASSY HAIR FROM DANDRUFF**

Girls! Your hair gets soft, fluffy, beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

Gen. Pershing celebrated his 59th birthday by reporting to War Secretary Baker at Washington.

Hostery manufacturers in convention at Atlantic City say there is no prospect of any decrease in prices.

**Greatest Rule of Health**

And How it May be Carried Out With Dr. Chase's Kidney-Liver Pills.

You sometimes hear it said that the most important Rules of Health is "Daily movement of the bowels."

Constipation begins with the bowels but it does not end there. You must also consider the way it affects the liver, the kidneys, the digestive system, and in fact the whole human body.

Headaches, backaches, aching limbs, indigestion, biliousness, kidney derangements, appendicitis, and the most serious diseases imaginable often have their beginning with constipation of the bowels.

There is one treatment which has a direct and combined action on the bowels, the liver and the kidneys and gets these organs into good working order in remarkably quick time, and that is Dr. Chase's Kidney-Liver Pills.

They afford relief quickly, but they do more than that. They positively cure constipation, and insure lasting regularity of the bowels by setting the liver right.

Mr. M. Lock, 30 Home street, Brockville, Ont., writes: "For many years I have been troubled with constipation and have tried a number of remedies, but without obtaining much benefit. About a year ago I started using Dr. Chase's Kidney-Liver Pills, and have found them to be the best medicine for constipation that I have ever used. I would strongly advise anyone troubled with this complaint to try the same remedy."

Mrs. R. Childs, Harriston, Ont., writes: "I suffered from constipation and kidney trouble for some time. One day I bought some of Dr. Chase's Kidney-Liver Pills to see if they would help me, and to my delight, I received great benefit from them in a short time. They are a splendid medicine, and I always keep them on hand as a household remedy."

Dr. Chase's Kidney-Liver Pills are so universally used as a treatment for constipation and liver and kidney troubles that you can obtain them at any store where medicines are on sale. One pill a dose; 25 cents a box; Remanson, Bates & Co., Ltd., Toronto.

**LIFT OFF CORNS!**  
 Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

Extract from a letter of a Canadian soldier in France.

To MRS. R. D. BAMBRICK:  
 The Rectory, Yarmouth, N.S.

Dear Mother:—

I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

Your affectionate son,  
 [Signature]

**The Expenditure of \$610,000,000**

**How the last Victory Loan was spent**

**For Demobilization**

**For Trade Extension**

BEFORE buying Victory Bonds again you may want to know how Canada used the money you loaned her last year.

Canada borrowed the money to carry on the war and to provide credits for Great Britain and our Allies.

CONSIDERABLY more than one-half of the Victory Loan 1918 was spent on our soldiers. This included \$312,900,000, for paying them, feeding them, bringing them home, separation allowances to their dependents, maintenance of medical services and vocational training schools.

\$59,000,000 of the Victory Loan 1918 was paid on account of authorized Soldiers' gratuities.

\$9,000,000 was spent at Halifax for relief and reconstruction after the disaster.

Other disbursements were not, strictly speaking, expenditures, but National Re-investments.

To Great Britain for example:

- \$173,500,000 was loaned for the purchase of our wheat and cereals.
- \$9,000,000 for our fish.
- \$30,000,000 for other Foodstuffs.
- \$2,900,000 for Canadian built ships.
- \$5,500,000 to pay other British obligations in Canada.

Making in all \$220,900,000 advanced to Great Britain.

To our Allies, we loaned \$8,200,000 for the purchase of Canadian foodstuffs, raw material and manufactured products.

The Re-investments will be paid back to Canada in due time, with interest.

These credits were absolutely necessary to secure the orders for Canada because cash purchases were impossible.

They have had the effect of tremendously helping agricultural and industrial workers to tide over the depression that would have followed the Armistice, had we not made these credit loans.

As far as money is concerned, 1919 has been, and is still—just as much a war year as 1918. Our main expenditures for war cannot be completed until well on into 1920. Thus another Victory Loan is necessary—Get ready to buy.

**CANADA'S LARGEST ENGINEERING PROJECT**

**Hydro-Electric Power Commission Carrying on Wonderful Power Development Work at Niagara Falls—A Second Panama Canal**

Operating the largest shovels in the world, and reversing the flow of a river, the Hydro Electric Power Commission of Ontario is carrying on an enormous engineering project at Niagara Falls, practically without the use of steam.  
There are many startling phases to this work, which is the largest engineering feat attempted in the Dominion of Canada, and the biggest engineering job at present being carried on in the North American continent.  
In order to get water to the new power house which will be erected just above Queenston, the Commission will utilize four and a quarter miles of the Welland River,

causing this sluggish stream to flow backward and to take water from the Niagara River instead of emptying into it above the Falls. Connecting with the Welland River is a power canal, stretching from Queenston and encircling the city of Niagara Falls, Ont., which will be eight and a quarter miles long when completed.  
The original survey for the Niagara development was made in 1914, and the construction work began in May, 1917. The commission expects to have the new plant in working order in 1922. War conditions handicapped the engineers, but this year's operations were begun on a grand scale. A trip over the right of way will impress the observer with the vast scope of the undertaking which, in its completed state, will cost approximately \$27,000,000.

Two miles above the brink of Niagara Falls a steam dredge is gnawing away at the channel of the Welland River, removing in concrete chunks the river bottom and a portion of Hog Island, which guards the entrance to this historic creak. The lone dredge and its attendant tugs are the only pieces of equipment engaged on the entire Niagara development which are not owned by the Hydro-Electric Power Commission. They, with six or seven switch engines, are the only apparatus in use on the development which require steam in their operation.

Even the workers employed on the rock deposits of the canal right of way are operated by air, electrically compressed. A mile or two inland a huge clamshell, running from an aerial cableway, drops into the river and then emerges, bringing with it generous bites from the river bottom, which are deposited on the river bank at the foot of the tower from where the operator directs the activities of the clamshell. Deposits of earth and clay along the north bank of the river reveal the effectiveness of the clamshell in this particular portion of the development.

A short ride from Niagara Falls over new roadways built by the commission from crushed limestone removed from its right of way, bring one to the canal proper, where the activities of huge electric shovels, electric trains and gangs of

man present a striking picture. The weary householder painfully feeding the furnace, shovel by shovel, from the ton or two of coal, his winter's supply, will marvel at the enormity of the electric shovels which pick up from eight to ten tons of material, lift it 70 feet into the air and deposit it into waiting cars, all within the short space of 40 seconds.

Trains, hauled by electric locomotives, convey the mud and clay to the dump at St. David's. The boulders and rock from the canal are borne away to the stone crusher on the cliff above Queenston, and converted into material for roadways, railroad roadbed and riprap, which will line the shores of the canal.

The stone crusher, which has a capacity of 4,000 cubic yards, is well worth a visit. The rocks from the excavations are cast into a trough opening into gigantic steel jaws which grind and munch, breaking the largest pieces into smaller bits that are carried away on a belt conveyor. A series of crushers reduce the rocks to a form where they may be utilized for building purposes and stored for future use.

Fifty-five miles of railway, all electrified, and tapping five trunk lines, are required in the construction work on the development. On this railway the commission has in operation more electric locomotives than any railway system in Canada. At present 2,000 men are employed on the big job. These men are housed and fed by the commission. A school, an ambulance and a hospital maintained by the commission are at the disposal of the employees in case of accident. The adoption of the newest safety devices has minimized the danger of accident on the development, and the commission has devoted a great deal of time to safety first propaganda in order to safeguard the men in its employ. About 2,500 acres, or 50 per cent, of the lands acquired by the commission for its right of way, have been converted into farms, and the produce from the farms is sold to the employees of the commission. The commission maintains its own telephone system on the development, and it has connections throughout the province. Garages, machine shops and office buildings line the right of way.

By establishing its power house at Queenston the Hydro-Electric Power Commission is enabled to take advantage of the full drop of both Niagara Falls and the Gorge, a total drop of 305 feet, affording 100 per cent, more electric power from the same amount of water. The largest electric units in the world, 55,000 horsepower generators, will be installed in the power house, to produce electrical energy for distribution throughout the Province of Ontario.

**Of Course, it makes good Pastry**

In fact, "Beaver" Flour is a special pastry flour. It contains the choicest Ontario fall wheat (the finest pastry wheat in the world) blended with western spring wheat to increase the strength.

**BEAVER FLOUR**

MILLED OF BLENDED WHEAT  
makes the lightest, flakiest Pie and Tarts—the most inviting Cakes, Cookies and Doughnuts—and real homemade Bread, with the delicious, nutlike flavor.  
There's no comparison between the tough Pastry and tasteless Bread, made with western wheat flour, and the "good things" made with "Beaver" Flour. Order some.

lend the crippled soldier a hand—Buy Victory Bonds.  
TO PREVENT UNEMPLOYMENT.  
Next year will be well advanced before Canada's main expenditures for war, can be completed. Every dollar that can be raised for the Victory loan 1919 will be required.  
Although hostilities ceased in 1918 the war expenses went on, and this is just as much a war year as last year was, as far as money is concerned. Pressing liabilities incurred by the war and involving vast sums of money have to be cared for. The simplest and most profitable manner in which this can be done is for

the people to provide the money themselves.  
The Victory loan 1919 is entitled to just as much consideration as was given to its predecessors. It is up to every loyal Canadian to do his utmost to make the new loan an overwhelming success. The continuance of the prosperity of the nation is wholly dependent upon it.

It was naturally to be expected that trade depression in the Dominion would have followed the armistice but this was averted by the application of a large proportion of the last Victory loan as credits to Great Britain and our Allies for grain, dairy produce, fish, lumber and ships. These credits were absolutely necessary, and strictly good business. They must be continued. They are national investments. The debts will be paid eventually and in the meantime industrial and agricultural workers will be kept in busy and lucrative employment.

**HOW LONG CAN THEY DO IT.**

There is in Canada current opinion that it costs the Govt. \$1.03 to get it costs the Government \$1.03 to get \$1 gross revenue from the railroads which have been emancipated from the capitalist class. A deficit of \$50,000,000 in 1919 is the forecast. This straightway gives rise to conjecture as to what the true relation of cost and revenue would be if some contagious Administration reached down to the bottom of our own Government operation of the roads.

Thanks in part to the peculiarities of the Canadian situation the private Grand Trunk and Canadian Pacific have contributed nobly to the Government's experiment in railroad operation. This and other causes have steadily lifted the percentage of costs to gross revenue. Today it is 89 per cent for the Grand Trunk and 81 per cent for the Canadian Pacific. The percentage thus actually discloses the shocking scandal of surplus, rather than the uplifting inspiration of deficit.

Monthly statements duly audited and certified show Canadian Pacific and Grand Trunk can still operate on their own motive power, the exact status of the Government roads is not so clearly revealed but it is not a matter of conjecture, friendly, invidious or neutral as may be. Some irreconcilables want to know how they are to reach a conclusive audit of Canadian Northern, making a true capital investment basis for figures. Others say there is an operation deficit of more than three per cent.

What if it be so that the more wheels turn round and the faster they go, the more money they lose. If it costs 3 cents net less to take in a dollar, isn't the taxpayer there to pay it? And doesn't the paltry 3 cents go at once back into circulation? As long as he has a dollar left to burn why shouldn't the taxpayer write and turn?

A staunch supporter of a western co-operative grain concern with a long and honorable record of losses used to refer to its "turnover" as its "turnunder". Happily free of the embarrassment of literary cult, he has given the Government's railroad auditors a book heading, accurate and novel. They should be satisfied and so should the taxpayers. For a factitious inquirer for Government figures asks: "If a taxpayer is not to pay their taxes, what is he for? But how long can they do it?"

(Extract from the "Wall Street Journal.")

**EDITORS MAIL**

We are not responsible for opinions expressed by writers under this heading. Correspondents would oblige by writing legibly, and on one side of the paper only, name and address (not necessarily for publication,) must always be sent. Correspondence should be as concise as possible.

Toronto, Canada  
September, 27th, 1919  
To The Editor of The Union Advocate  
Newcastle, N. B.

Dear Sir:

Referring to my letter of the 4th inst. in which I enclosed one on a Canadian-West Indian Union, I beg to herewith enclose another containing my reply to Sir Gideon Murray's comments on my article in the London "Times" of July 31st.

No doubt you have read the London

**GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD**

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver, and Bowels.

Look at the tongue, mother! It coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs" which contains full directions for babies, children of all ages and for grown-ups.

"Times" cable to the (Toronto Globe) of the 14th inst. in which Lord Rothermere, brother of Lord Northcliffe, advises the British Government to dispose of certain of the British West Indies to the United States, to help pay off Great Britain's War debt to that country. If such an idea should be entertained by the British Government, which to me is unthinkable, it ought to be an additional incentive for having these strategically situated, rich, tropical possessions attached to the nearest British Dominion.

The opening of the Panama Canal has a direct bearing upon the problem of consolidating our Imperial resources in this important part of our Empire towards which our statesmen in the Mother Country and this Dominion should turn their attention. It is only necessary to glance at a map showing the new trade routes that have been opened up by the Isthmian highway, to see where this opportunity lies. The United States has a larger trade with all the West Indies than with South America, or even China. The British West Indies have been and still are, politically and commercially isolated; but peaceful penetration by United States interests has been carried much further than is generally realized. If the United States increases their possessions and control in the Caribbean Sea, as they threaten to do, our Empire will have been deprived of a source of invaluable supplies for which there is an increasing demand, and our manufacturer and farmer will have lost a growingly important market for their products. Further, the Empire will have sacrificed a position of high strategic value.

Rather than part with any of these outposts of the Empire, we should by sounder tariff organization, upon a scientific plan, have true reciprocity in Empire interchange. In this way, we shall have no difficulty in meeting our financial burdens.

The ties of blood and sentiment proved strong enough to hold together the scattered possessions of the British Crown throughout a period of terrible crisis, and I believe were never stronger than they are to-day. Peace has brought with it an imperative obligation to consolidate and develop the resources of our vast Empire.

This question is creating great interest on both sides of the Atlantic, and I hope you will agree with me as to the importance of Canadians realizing the value of these tropical possessions, and that you may see your way clear to publish the enclosed. You are at liberty to use this letter, or any part of it, in the same way.

I shall greatly appreciate your views on this subject.

Yours truly,  
Harry F. Crowe.

**Best Quantities Of Concentrates For Dairy Cattle**

Experiment at Cape Rouge—Twenty seven cows were used, and the experiment was run for five seasons, during an average of 143 days per year, starting at the beginning of November. Animals were chosen of nearly the same weights and production, and they were all given the same quantities of roughage. One lot received as much meal as would be eaten clean, which came to one pound per 2.18 pounds of milk, another one got one pound of meal per 4 pounds of milk, and the last bunch one pound of meal per 8 pounds of milk. No attempt was made to adjust the quantity of meal for each cow in a certain lot, as there was not enough difference in the percentage of fat to warrant doing so.

More meal meant more milk—One result was very clear: that the more meal fed, the more milk was given. If the quantity produced by the lot getting one pound of meal per 8 pounds of milk is taken as 100, that produced by the lot getting one pound of meal per 4 lbs of milk would be 111, and that produced by the lot getting one pound of meal per 2.18 pounds of milk would be 128.

Act according to local conditions.—The valuations were as follows: Hay \$14.00 per ton, roots and silage \$4.00 per ton, meal 21.2 cents per pound, but 69 cents per pound, skim milk 50 cents per 100 pounds. The results showed that if the profit from the cows getting one pound of meal per 8

pounds of milk taken as \$1.00, it was \$1.01 for the ones getting one pound of meal per 4 pounds of milk, and \$1.07 from the ones getting one pound of meal per 2.18 pounds of milk. However, each farmer must see for himself, according to prices in his locality if it will pay him, or not, to feed meal heavily to his dairy cattle.

**Doctor's Patient Gains 17 Pounds**

**Prominent Physician Continues to use Tanlac In Practice with Surprising Results.**

One of the strongest and most convincing evidences of the remarkable results being accomplished by Tanlac throughout the country is the large number of letters that are now being received daily from scores of well-known men and women who have been benefited by its use.

Among the large number that have been received recently none are more interesting than the following letter from Dr. J. T. Edwards, of Fayetteville, Ga. Dr. Edwards, it will be remembered, recently gave Tanlac his unqualified indorsement in a public statement, and the testimonial published below was recently given him by one of his patients. His letter follows just as it was written:

Fayetteville, Ga.  
Mr. G. F. Willis, Atlanta, Ga.

Dear Sir:  
I am enclosing you herewith statement I have just received from Mr. T. M. McGough. He has sold out here, and is moving to Turin, Ga. He was here this morning, and came in to tell me what Tanlac had done for him. He says too much cannot be said about Tanlac. It certainly has cured him.

Respectfully,  
J. T. Edwards, M. D.  
Mr. McGough's statement follows: "I suffered from indigestion and could not eat anything but what would hurt me. Constipation gave me a great deal of trouble also. My symptoms were indigestion, heartburn and gas on the stomach after eating. My appetite was irregular and my food failed to nourish me. This trouble caused me to get very poor in fact, got so thin and weak I was hardly able to go about."

"I bought three bottles of Tanlac on Dr. Edwards' recommendation, and I am now feeling all right again, and am able to attend to business. I gained seventeen pounds in weight and am going fine. Tanlac did the work."

"I now recommend Tanlac to everyone who is sick like I was and wishes to take something that will help them." Tanlac is sold by E. J. Morris, Newcastle, N. B.

**Guard The Children From Autumn Cold**

The Fall is the most severe season of the year for colds—one day is warm, the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent colds or if it does come on suddenly the prompt use of the Tablets will quickly relieve it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Prepare to pay for Victory. The soldiers have given—you must lend.

**CONQUER WEAKNESS by keeping your powers of resistance at highest peak. It is as natural for**

**Scott's Emulsion** to strengthen as it is for your food to nourish the body. If you would conquer weakness, increase your resistance, take Scott's Emulsion often. Scott & Borne, Toronto, Ont.

**FALL UNDERWEAR**

For Every Member of the Family

Soon frosty winter will be whistling through the frozen streets and empty tree tops. Sensible people are preparing now to protect themselves with Warm WOOL UNDERWEAR that will keep out the winter chills.

It has been a difficult task to assemble such a good assortment of Underwear as we now present. Wool goods are none so plentiful, let us assure you, consequently you would be wise to buy now and take advantage of our complete stocks and reasonable prices. You will not be able to do as well later on.

Ladies and Childrens Underwear come in "Watson" make, recognized as the best line in Canada.

Men's Underwear comes in "Stanfield", "Hewson", "Atlantic", "Penman", "Creaghan's Special", "Eureka", "Humphrey's" and all the different weights are shown.

Ladies Shirts and Drawers at,	50c, 75c, \$1.00, 1.50, 2.00, 2.50 each
Ladies Combinations at,	1.50, 2.00, 2.50, 3.00, 3.50, 4.00 each

**THIS WEEK, NERVOUS MOTHER**

**Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.**

Philadelphia, Pa.—“I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard some about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness.”—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

**SOCIAL AND PERSONAL**

Miss Burns of Moncton, is visiting Mrs. Wm. Smallwood.

Mr. Arch. Snowball of Chatham was a visitor to town last Friday.

Miss Cecilia Nowlan, of Halifax, is visiting her sister, Mrs. W. J. Dunn.

Mr. Perley Russell has returned from a trip around the Caraquez Coast.

Mr. Thos. Gibson of Moncton, spent a few days last week in town visiting friends.

Mrs. Allingham who has been visiting in Campbellton has returned to town again.

Miss Sadie Smallwood who has been visiting in Lynn, Mass., has returned home.

Mr. Clarence Jones, left yesterday for Bathurst, where he has accepted a position with a drug firm.

Mr. E. A. McCurdy and daughter Miss Elva, have returned from a pleasant visit to Nova Scotia.

Mrs. T. A. Clark and son, Arthur motored on Friday to St. Stephen, the latter was en route to Montreal.

Mr. and Mrs. Perley Brown have returned from their wedding trip and have taken up residence in town.

Fred Carrigan who has been spending the summer at his home in Nelson, left recently for Saskatoon, Sask.

Mrs. Allan Menzie and young son Ronald of Fredericton are visiting friends in town and Whitneyville.

Mrs. Con Gormley left last week for Milltown, Maine, where she will spend the winter with her daughter.

Mr. and Mrs. Frank Murphy and children, of Houlton, (Me.), are visiting Mrs. Murphy's father, Thos. Copp.

Mrs. King Hazen and children of St. John are visiting Mrs. Hazen's parents Mr. and Mrs. J. D. Creaghan.

Mrs. Robt. Armstrong, Miss Russell and Miss Helen Armstrong, spent a few days last week visiting friends in Shediac.

Thos. A. Clarke was called to St. Stephen Monday morning, owing to the serious illness of his only sister, Mrs. Maxwell.

Mr. Vaughan Long, who went to Ribucto a few weeks ago, has gone to Islay, Sask., where he intends in future to reside.

Mesdames C. Call and Wm. Stables, entertained very pleasantly at a 6 o'clock tea, last Tuesday, upwards of eighty guests being present.

Mr. Cleo Deners left last Friday for St. John's New Foundland where he has accepted a position with the Royal Bank of Canada.

Miss Kathleen Armstrong of New York City arrived last Friday to spend her vacation with her parents, Mr. and Mrs. Robt. H. Armstrong.

Mr. Oral Atkinson of Charlott, who has been spending a few days with his uncle, Mr. H. T. Atkinson of Chatham Road, returned to his home last Sunday.

Mrs. F. F. Bates and Mrs. F. F. Drummond of Fitchburg, Mass., who were visiting in town the guests of Mr. and Mrs. Thomas Cassidy, have returned home.

Miss Irene Kirk of Kirkwood, left on Saturday for Boston to enter St. Elizabeth's Hospital to train for a nurse. She was accompanied by Miss Robertson of Boston.

Mrs. Alice Currie of New York, accompanied by her mother, Mrs. Richard Bateman, of St. Stephen, have been visiting Mrs. Currie's brother, H. S. Bateman.

Miss Marguerite DeWolf, R.N., of Douglastown, returned to Boston last Tuesday to resume her duties after spending a two weeks vacation with her parents, Mr. and Mrs. Geoffrey DeWolf.

Mrs. A. H. MacKay entertained the pupils of the senior grades of Harkins Academy on Friday evening. The evening was spent with games and music and all present enjoyed themselves to the utmost.

Mr. and Mrs. John Felsing and two children, Edna and John Jr., have returned home from attending the Soldiers' Reunion in Columbus, Ohio. They spent their vacation in the following cities: Chicago, Wheeling, Va.; and Cadiz, Ohio. Mrs. Felsing was formerly Miss Edna M. Underhill, of Blackville, N. B., since her marriage she lives in Steubenville Ohio.

Mr. James Robinson of Millerton was in town last Friday.

Mrs. John Dennis and little daughter are visiting friends in St. John.

Mr. Jack Lawlor left last week for a trip to Toronto and Buffalo, N. Y.

Mrs. Samuel Bird of Marysville is the guest of her sister Mrs. E. A. McLean.

Miss Lillian Whelan of St. Stephen is spending a months vacation with her sister, Mrs. George Brooks.

Mr. and Mrs. Earle Richards, of Springhill Junction, are visiting the former's sister, Mrs. M. McCarron.

Mr. and Mrs. Fred Rockcliff who have been spending their honeymoon on the Miramichi, returned to Halifax Tuesday.

Miss Edna Vye, of Blackville, has returned home, after spending two weeks visiting friends in Campbellton and Dalhousie.

Mrs. B. Tabor, who has been at her home here since the death of her mother, Mrs. John Kingston, sr., left for New York City Saturday.

Miss Ethel Underhill of Blackville, spent the week-end in town, having come to see her aunt, Miss Sarah Underhill, who has been confined to her home over two months through illness.

**WEDDINGS**

**BUCKLEY—CARRIGAN**

A wedding of much interest took place in St. Patrick's Church, Nelson, on Wednesday morning, Oct. 1st when Rev. Fr. Power with Nuptial Mass united in marriage Miss Inez Agatha Carrigan of Nelson and Lee W. Buckley of Newcastle only son of D. J. Buckley. The bride entered the church to the strains of the wedding march played by Miss McEachern and looked charming in a suit of Reindeer Duetyne with trimmings of opposum and hat to match and carried an arm bouquet of bridal roses and maiden hair fern. She was attended by her sister Miss Rose, who wore a blue suit with black satin trimmings and hat to match, and carried an arm bouquet of carnations with a shower of sweetheart roses. The groom was ably supported by Wilfred N. Whelan of Nelson. The ushers were J. P. Shanahan and J. B. Carrigan. The church was nicely decorated with potted plants ferns, palms and gladioli.

A wedding ring of platinum and diamonds was used.

After the ceremony the bridal party repaired amid showers of rice and confetti to the home of the bride's parents, where a dainty breakfast was served.

The happy couple left on the Ocean Limited for a visit to Canadian and American cities, and on their return will reside in Newcastle.

**MCCARTHY—QUINN**

The marriage of Miss Cliff Quinn, daughter of Mr. James P. Quinn of Blackville and Thomas McCarthy, of Bartholmew River took place Wednesday morning, Sept. 24th, at eight o'clock in St. Raphael's church, Blackville. The bride wore a suit of white silk and white hat and was unattended. Rev. Father Burns performed the ceremony.

**BURNS—DONAHOE**

Another of Blackville's young couples were united in marriage at St. Raphael's church on Wednesday morning, Sept. 24th, when Rev. Father Burns performed the ceremony which made Miss Angela Donahoe and Mr. Gordon Burns man and wife. The bride, who is a daughter of Mr. and Mrs. William Donahoe, was attired in blue silk poplin with black hat and was unattended.

**MURDOCK—MC-CARTHY**

At St. Raphael's church, Blackville on Wednesday, Sept. 24th, at 8.30, Rev. Father Burns united in marriage Miss Laura McCarthy, daughter of Mrs. Stephen McCarthy, of Bartholmew River and Mr. Gordon Murdock of Napan. The bride who was unattended wore a suit of grey silk poplin with hat to match. After the ceremony a wedding breakfast was served at the home of the bride's mother to a large number of guests.

**"CASCARETS" WORK WHILE YOU SLEEP**

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels. Take Cascarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental depression. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will help you feel good for months.

# DOCTOR PRAISES ZAM-BUK

"For sixteen years," writes Dr. A. P. Shibley of Washington, D.C., "I have used Zam-Buk in my practice, and am convinced that there is nothing to compare with it for skin troubles, from roughness and irritation to chronic skin diseases. Zam-Buk, without a doubt, has wonderful curative properties, and when I have occasion to recommend a balm to my patients, I always recommend Zam-Buk. I have found the results from its use to be perfectly satisfactory."

Members of the medical profession are noted for their caution in recommending a remedy—only doing so when they have absolute confidence in it. The fact that Zam-Buk is so highly recommended by doctors the world over, and that in Dr. Shibley's experience it has stood the test of sixteen years' constant use, puts it, undeniably, in a class by itself.

In the home, in the office, shop and factory, on the farm and when travelling, Zam-Buk should be kept always handy. It is indispensable for all sores, eczema, boils, ulcers, blood-poisoning and rashes, as well as for cuts, bruises, burns and scalds. All dealers sell, box.

**GENUINE ASPIRIN HAS "BAYER CROSS"**

Tablets without "Bayer Cross" are not Aspirin at all

Get genuine "Bayer Tablets of Aspirin" in a "Bayer" package, plainly marked with the safety "Bayer Cross". Genuine "Bayer Tablets of Aspirin" are now made in Canada by a Canadian Company. No German interest whatever, all rights being purchased from the United States Government. During the war, acid limitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Rheumatism, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally. Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

## Canadian Woman Sentenced To Hang

Kingston, Sept. 28—After being out five hours the jury in the murder case of Mrs. Lovica Thompson, of Kennebec Township, Frontenac Co., brought in a verdict of (guilty) at the sitting of the Supreme Court here at ten o'clock last night. Mrs. Thompson was charged with causing the death of her infant after leaving the Kingston General Hospital on the first of March last. An autopsy showed that the child died from suffocation, a piece of cloth being tied under its chin. The body was found lying near the C. P. R. tracks near Sharbot Lake.

There was strong evidence against Mrs. Thompson, who is a woman of about 45 years of age, and who had been separated from her husband and living with another man in Kennebec. She did not enter the witness box to give testimony on her own behalf. The jury made a strong recommendation for mercy, and after pronouncing sentence, Justice Lennox stated that he would present Mrs. Thompson's case before the Justice Department. He sentenced her to be hanged on the 17th December next.

## Over 20 Families Need Assistance

Fredericton, Oct. 2—More than twenty families at Oromocto are in immediate need of assistance as a result of this week's disastrous fire, which wiped out more than half of the village, according to Thomas J. McElroy, one of Oromocto's leading merchants, and the second heaviest loser in the fire. Mr. McElroy is here on business, re his losses, having come here with his daughter this morning. He made a statement to the Gleaner, that while the people were all temporarily housed, there were twenty or more families in need of immediate aid.

Not only do the stricken families need more cooked foods and clothing, but financial assistance is going to be necessary. Several families, as well as some old people, have been rendered not only homeless, but absolutely penniless, declared Mr. Rutledge. "We have a relief committee formed, and I am one of its members. We are ascertaining exactly what is required, but I know that we will want at least \$1,000 in cash and more, too, to meet the requirements of those in need of money. We feel the Provincial Government should step in and help us with a grant."

This morning, Premier Foster was in touch with R. B. Smith, M. L. A., to learn from him the requirements of the fire-stricken people. The Government has been considering giving assistance, but up to the time of writing no announcement has been made as to what action is being taken.

## FRIENDS THOUGHT HE WOULD DIE

"FRUIT-A-TIVES" Conquered Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

Little Bras d'Or, C. B. "It was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches, and did not sleep well at night. I lost so much weight—going from 185 pounds to 146 pounds—that I became alarmed and saw several doctors who, however, did me no good. Finally, a friend told me to try 'Fruit-a-tives'. In a week, there was improvement. The constipation was corrected; and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## A Clear Explanation of the Income Tax

A very useful digest of the Income War Tax Act of Canada for the year 1917 has been prepared and is being distributed by the Royal Bank of Canada. This document contains the provisions of the Act, and cites all to whom it may apply, and contains the amending Acts of 1918 and 1919. This brings the information up to date, and on the whole the publication constitutes a very clear rendering of the law in the various cases. It shows who may be exempt from the operations of the Income Tax Act and gives figures and instances of the operation of the Act in particular cases. Details are given showing the amount the individual may pay in normal tax, super-tax, etc. Armed with this booklet, there is scarcely a question that might arise which might not be met by the information contained therein.

## Hon. W. J. Bowser To Lead Conservatives

Vancouver, B. C., Sept. 30—Hon. W. J. Bowser, former premier of British Columbia, was unanimously chosen as leader of the Conservative party of this province at the conclusion last night of the first provincial party convention held since 1914. Five hundred delegates were present. A feature of the convention was the number of women delegates who attended. The platform adopted by the party, so far as it affected national aims, included tackling the problem of the high cost of living. To this objection of government pre-cooling plants and refrigerators at various points and their control by the government would effectually deal with this question. An aggressive policy of immigration from the British Isles with the encouragement of British farmers in settling upon the lands of this province, was advocated, as well as the promotion of better understanding between capital and labor and the securing of better financial terms between the provinces and the Dominion.

In a rural court the old squire had made a ruling so unfair that three young lawyers at once protested against such a miscarriage of justice. The squire immediately fined each of the lawyers five dollars for contempt of court.

There was silence, and then an older lawyer walked slowly to the front of the room and deposited a ten-dollar bill with the clerk. He then addressed the judge as follows:

"Your honor, I wish to state that I have twice as much contempt for this court as anyman in the room."

## Rheumatic People

Can Only Find Relief by Enriching the Blood

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather of autumn may start the tortures of rheumatism but is not the cause. The cause is in the blood and the blood only. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood which may shortly leave the victim pained and helpless.

There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills actually make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin curing yourself to-day by the use of Dr. Williams' Pink Pills, and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Oct. 9th Fire Prevention Day

By Royal Proclamation, His Excellency, the Governor General of Canada has designated October 9th as Fire Prevention Day. On that day lessons on fire prevention subjects will be given in every public school, public meetings will be held in many of the larger cities, towns and villages, and the owners and occupants of property everywhere throughout Canada will be counselled to give special attention to the removal of fire hazards from their premises.

Fire waste is one of the most serious economic problems confronting Canada at the present time. The public in general is vitally affected by the tremendous losses annually incurred by fire and the enormous expenditure rendered necessary to adequately protect life and property from its ravages. Seeing that at least seventy-five per cent of all fires are caused by carelessness and can therefore be prevented, it is the obvious duty of municipal authorities, fire department officials, boards of trade and other representative citizen bodies to bring the matter to the attention of the people.

"Well, Judge," said the pleased motorist, "you know to whirr is human." "What's that? You are fined fifty dollars for contempt of court."—Boston Transcript.

**You Need More Than A Laxative**

To correct constipation, all organs of digestion and elimination should be helped. Try NR and see how much better you feel.

**NR Today—Keeps the Doctor Away**

To live and be healthy, your body mechanism must properly digest your food, extract all the nourishment from it and promptly throw off the waste that is left. This is accomplished by the processes of digestion, assimilation and elimination—the work of the stomach, liver, kidneys and bowels. The failure of any of the vital organs to do its work properly affects the action of all the others. A forced bowel movement does not help constipation; it only relieves for a few hours the condition that constipation brings about.

Now if you are used to taking so-called laxative pills, oil, purges and the like, you know mighty well you've got to be taking them all the time. Moreover, if you stick to any one laxative, you're got to be increasing the dose all the time. That can do you a lot of harm.

Stick to yourself with such things just long enough to give Nature's Remedy (NR Tablets) a trial, and let the results show the difference. NR Tablets are not mere bowel movers, their purpose is to correct the condition that induces constipation and give you real, genuine, lasting benefit: to improve your digestion and assimilation, give you a good hearty appetite, regulate your liver and bowels, tone up kidney action and give your poison-clogged body a good cleansing out.

Nature's Remedy (NR Tablets) is not harsh; it is mild, easy, pleasant in action; no gripping or pain ever follows its use; but it is thorough and sure. By its action on the digestive organs it promotes assimilation, which means extraction of full nourishment from your food, and thereby gives you new strength, energy, better blood, better appetite. By toning, not stirring your lazy liver, NR sends bile into the intestines, improving intestinal digestion. Lastly, by gently encouraging more vigorous bowels and kidney action, NR drives poisonous impurities out of and cleans up your body.

Try Nature's Remedy (NR Tablets) and just see how much better you feel in every way. Get a 25c box today and take one each night for a week. You'll say you never felt better in your life. NR is sold, guaranteed and recommended by your druggist.

### History of Count De La Gaspesia

Thomas Scott Forsythe journalist, poet, author and musician is known in the Registry of the Seigneurial Order of Canada as the Comte de La Gaspesie. He inherits this title and that of the barony from a feudal territory of the ancient Province of Gaspe in Canada, when Canada was a principality of the great king, Louis XIV of France and Navarre. The barony consists of the Island of Miscou in the Baie des Chaleurs of the lower St. Lawrence Gulf. The Island of Miscou is 12 miles long and 3 miles broad.

In the report of the commissaires of Nova Scotia are several commissions given by the kings of France to former vice-roys, governors and lords-proprietors. Among them is that given by the king in 1654 to Vice-Admiral Nicholas Denys, who had formerly been governor of Cape Breton. Besides recognizing him as lord-proprietor of a certain section, the commission appoints him vice-roy of Acadia, Isle St. Jean (now Prince Edward Island) and Newfoundland. This commission endows him with the sovereignty of administration to the extent of making war or peace for the protection of his domain, trade-treaties and subinfeudations and the bestowal of titles of honor. All officers coming into his domain are commanded to respect and obey his authority as they would that of the king himself. Among the feudal chiefs created under this royal commission by the Vice-roy was the barony of Miscou, reported as a marquise in Vol. II p. 569 of the "History of Canada and Its Provinces", edited by Dr. Doughty, Dominion Archivist and by Prof. Adam Shortt, chief of the Publishing Dept. of the Archives of Canada.

This governor, Nicholas Denys was himself an author of one of the Histories of North America, published in 1672 and was descended from the Norman Explorer and Viking, Jehn Denys of Honfleur, who published the first chart of the Eastern shores of Canada in 1506, after a voyage in his own privateer in which he had formally taken possession of the country. It was in the barony of Miscou that Nicholas Denys built a fort, and there, later on, some of the family buried a treasure of jewels, gold and silver for which many in recent times have sought. One of the pamphlets of the Miramichi Historical Society relates that two men were reported to have been successful in finding some of this treasure and escaped with it. A punch-bowl dug up there in the museum at Chatham, New Brunswick and two cannonades from the old fort of Nicholas Denys are in front of the hospital at Bathurst, N. B.

Nicholas Denys had a son Richard and a daughter, Marguerite, who married her cousin in Normandy, Capt. James Forsyth, of the scottish family of Forsyth, Barons of Dykes. This Captain Forsyth also sailed a privateer under Royal French commission. Richard succeeded his father as Governor of Gaspe and in the Viscounty of Froncas, the Barony of Miscou and in the Seigneurie of Neptisguit and Miramichi, and he in turn was succeeded as Governor of Gaspe and in the above named lordships by his son Nicholas second, who died with all his family of an epidemic in 1732. It was that year that Mathieu Forsyth, Chief of Dykes in Scotland but sailing his privateer Le Griffon and La Mouette under Royal French commission came over to Canada to succeed as next heir the last of the branch of the Denys family in the government of Gaspe and in the said lordships. He landed at Miscou and the harbor and anchorage is called after his ship, Le Griffon; Anse du Griffon, to the present day. The title of Comte de La Gaspe was substituted for that of Hereditary Governor in 1738 tracing to the first Commission of 1654.

Thomas Forsyth was born at Portland, near St. John, N. B., where his father, the Capt. Frederic Forsyth (Viconte de Fronsac in the Seigneurial Order) was also born, but passed the early part of his life at Portland, Maine, where his father had married Mariette Macle, daughter of Major-General Joseph Scott Jewett of an ancient Royalist family whose wife was an Erskine-Marr of the race of the Earls of Marr in Scotland.

Thomas Scott inherited a love of music from his ancestors. His mother had graduated first in music and French at Mrs. Field's English School. His grand-father, Thomas Forsyth, Viconte de Fronsac, besides being a Captain under the Royal Standard

### \$2,500,000 From Canteen Fund

London, Sept. 28—Canada will benefit by a substantial sum from the proceeds of the expeditionary force canteens. These were canteens with which the Y.M.C.A. and other organizations supplied all the British troops in France with extra messing supplies, liquors, cigarettes, and various other articles. Their surplus proceeds have been turned into a fund of which General Julian Byng is director and which will be used for ex-service men of the imperial army, and amounts to over \$30,000,000. An allotment, however, is to be made to the troops of the various overseas dominions, according to proportional strength. This money will be paid to the Canadian military authorities and will probably amount to between two and two and a half million dollars.

This decision has been made known by General Byng in reply to the request of the British branch of the G.W.V.A. for assistance from the general canteen fund for a clubhouse for demobilized Canadian soldiers in Britain. General Byng, who was former commander of the Canadians, explained the arrangements and wished the war veterans' scheme every success.

and later a sea-merchant was a most excellent cellist. The aunt of Thos. Scott, Sarah A. Forsyth, who married Judge W. P. Preble, LL.D., was a good pianist and noted as a poet in German ducal court of Baden. Another Caroline Augusta, who married James Albert MacNabb of Greencloch, Scotland, was of great dramatic and musical excellence. On his mother's side he inherited the blood of the juriconsult, Judge Frentiss Mellen, whose sons Frederic and Grenville were among the famous artists and poets of their day. The great orator, Hon. Sargent S. Prentiss further back one of his ancestors was the Royal Councillor, the Capt. Roger Plaisted, commandant of the forts at Salmon Falls and Berwick which he defended to the last and was known as the "Hero of Berwick." This was during the Indian raid of the XVII Century.

Thomas Scott was well equipped by this ancestry without counting his descents from the Scott and Balliol families who founded Balliol College at Oxford University, and from Col. John Hamilton, a Scottish cavalier who had settled in Carolina and had raised a regiment for the crown in 1776, was called the (Very crest of the Tory movement in the South) was chief of staff of the Marquis of Cornwallis and later adjutant-general of the Province of Florida, he was well enough equipped to inherit a stimulus.

He studied vocalization under the Italian leader, Don Giovanni and piano from Howard, one time president of the London Normal College of Music. He sang in Grand Opera in minor parts while quite young and wrote small drama which were produced on the stage as sketches. The loss of family property and other adverse circumstances caused him to turn his attention to journalism. With his education and wide knowledge of history and affairs he added thereto a training in type-setting, proof-reading, stock-paper buying and in fact all the fundamental necessities for the management of all departments of a first class journal, in which so many are deficient.

He occupied various editorial positions on some of the prominent journals from Ft. Worth, in Texas to Canada. As a writer, his illustration contribution in New Orleans on the abuses of Peonage, caused the Legislature of Louisiana to abolish the practice in that state. For the pronounced ability he showed in his writings he received a letter of commendation from Theodore Roosevelt President of the United States. Besides his poems, sketches and a novelette his book on The Financial Owners of Canadian Industries; he has in preparation an important study of British colonial management in America.

In music, he has been substitute organist in many catholic churches in the United States and in Canada. His services to the choir and music of St. Bernard's Church, Cohoes, New York; have been gratefully appreciated. Two of his music compositions have obtained high rank and are much admired they are "O. Salutaris and Tantum Ergo.

Some years ago he was chosen Registrar-general of the College of Arms of Canada, in addition to his title of Comte de La Gaspe and Equester of the Arvan Order of the Yellow Rose of the Empire. He is well known also among the Odd Fellows, having joined that association while in Cambridge, Mass. His choice of Honorary-President of the Historical Society of Gaspe is a recognition of this ancient race of the founders.

### The Best Health Insurance

Men exposed to the elements forget the damp, piercing chill of the salt sea air when clad in Atlantic Underwear.

All men whose work exposes them to extremes of temperature should wear this heavy, comfortable underwear. Its extra heavy weave keeps out the cold, cutting winter winds and yet it neither binds nor bunches, but allows full freedom of movement.

Sold in five different weights and qualities. Our lower-priced lines are not equal to the more expensive ones, but each is guaranteed to be the best value of its class. Compare them with others of like price and see for yourself.
