### The Poultry Show.

Guelph, March 4. Guelph, March 4. Last night the show was formally opened to the public. The weather was very disagreeable, rain and slush were in abundance. Notwithstanding this, from 70 to 80 persons visited the show—a very satisfactory number under the circum-stances. The judges commenced their work scon after two c'clock yesterday afternoon, and fipishea this forencon. The birds are all in place, and they make the drill shed ring with their shrill notes. One "fowl" did not appear to like his confinement ; it was a fine bald-headed eagle, captured on the 12th January, on Lot 7, Con. 11, Guelph Township, by L. K. Day. He glared on the visitors with his fierce unwinking eye, and made futile efforts to soar through the roof of his coop. Guelph, March 4.

BY TELEGRAPH

London, March 3.—A despatch dated o-day from St. Jean de Luse, a French

own seven miles southwest of Bayonne, says that the Carlists kept up a steady combardment on Bilboa during the last six days. New York, March 3.—A Paris letter

states that some uncessiness relative to the anticipated movement on the 16th of March in favour of Napoleon IV., who on that day becomes of age, to govern, is folt. It is stated that the ex-Empres actually in Paris plotting a Bonapart-t manifestation.

The agents of the Bonapartists are cattered throughout France ; and visit

ing cards have been freely distributed, with the Prince Imperial's photograph, and the words underneath : "16 Mars, 1874—Appel du peuple."

### LATEST PARTICULARS.

London, March 8. Mr. J. H. Breathwick, of this city, one of the vicins of the late railway disaster, dieid to-day from the effects of numerous burns and having inhaled hot air. His remains and those of his niece, Miss Scarcliff, who was among those burned to death, will be interred here to-morrow. The remains of Miss Purvis were buried here this afternoon. All the wounded in the city are doing as well as could be expected, and, with the exception of Mr. Robinson, of Nat-ford, are considered out of danger. Telegrams from Petrolia report Miss Lawrence much worse to-day, and it is feared she has been burned inwardly. Mr. Hay, who is still at Komoka, is too seriously injured to bear removal, and shows no sign of improvement. All the others there, as well as in Strathroy and Petrolia, are recovering. Strathroy, March 3.—The funeral of Mr. J. A. McKellar took place from the residence of his brother, the Reve of Lobo, to-day. It is now thought that the fate of all London, March 8.

Tea having been got through with, the company commenced enjoying themselves by singing and speechifying until about 10 o'clock, when the crowd commenced weading their way to their respective homes, all highly pleased with the evening's curteriamment. The amount realized was close on \$25. Accident occurred here on Wednesday of last week, by which a labouring man named william Kennedy received such injuries are likely to make him partially a cripple for lite. It appears he was help-ing to load timber on the cars. He had just taken hold of one end of a large stick on the car, and was in the act of skidding it when it, by some means, alipped, and carried him with it down the skid and jammed him between it and another stick at the bottom. His left leg was broken above the knee, the knee cap of his right leg was knoked of, and one arm considerably hurt. The injuries altogether are somewhat scrious. The show as a whole is superb, and some of the birds are really matchless. In the classes of Brahmas, Cochins, games, Dorkins, Houdans, and Creve-centre, most of the birds are not only beautiful individual specimens, but are pure in breed. Silver Pencilled Ham-burgs as a class are rather inferior, as there does not appear to be a perfectly pure specimen in the show. The display alto, ether shows great enterprize on the part of the fowl-fanciers, as all the most recent breeds are represented by good specimens. Any one wishing to make a selection for his own poultry yard has an excellent opportunity here, as he sees the fowls at a time when he can form an opinion of their capabilities for standing the Canadian winter. Several very fine birds have evidently too much comb and watle to be profitably propagated or used in Canada. The collection of geess and turkeys is a beautiful one, and it is doubtful whether finer specimens could be found on this connuent. The ducks are of course nearly all Aylesburys and Rouens, and are also admirable speci-mens, some of them nearly as big as geese. Perhaps the finest feature of the show is the large breeds of fowls. cases than may be generally supposed. TIMER PROFED DROWNER.—On Monday a man was driving from Ottawa in the direction of Hull, accompanied by his wife, mother-in-law, and father-in-law. On nearing Quebes shore he observed a team coming in the opposite direction. With a view to avoid collision he turned to the right. His doing so caused the ice to give way, the entire sleigh and its occupants going down. The old gentle-man leaped on to sound ice and secaped the sad fate of the others. The driver, his wife and mother-in-law, together with the horses and sleigh, went under the ice and were carried away by the un-der current, and the bodies are lost be-yond all hope of recovery till the spring.

WEDNESDAY LV'NG, FEB. 4. 1874 The Credit Valley Railway.

A private Bill relating to this Com-pany is now before Parliament, and contains two clauses of interest to the people of this county. Section two of the Bill makes legal, valid, and binding the bonus by-laws passed by the counties of Wellington, Waerloo, and Oxford. Section three legalizes in like manner the agree-ment entered into by the Company with the County of Wellington, to expend the proceeds of the deben-tures of the County on work done in the construction of the railway from the junction point near Bell-fountain, or the forks of the river Credit, and Elora or Salem, and be-tween Alton and Orangeville, pro rata per mile over the whole mile of the said lines between the said respective points on the certificate of the chief engineer the chief engineer, in the manner provided for in the act of incorporation of the company, and providing that no portion of the proceeds of the said debentures shall be paid out by the trustees for the construction of any other portion of the railway, or for any other purpose whatsoever.

The passing of this Act will do away with one of the strongest ob-jections we had to the granting of the Credit Valley bonus, namely, that there was no security that the bonus would be spent upon the construc-tion of the railway within the limits of the County. We are glad to see of the County. We are glad to see that the Company have taken steps to set this doubt at rest; whilst the fact of their thinking it necessary to do so shows that the objection taken by ourself, and others on this point, was well founded. It was thought that the County Council might ulti-mately have to apply for an Act of this kind; all the better, then, that the railway company have forestalled any possibility of the sort

The Legislature.

On Monday Mr. Boultbee moved a resolution, declaring that neither the Ministers of the Crown, the Speaker of the House, nor any County official should interfere in Dominion elec-tions. He argued a some length against official interference in elections. The Hon. Mr. Mowat pointed out that the introduction of local politics into Dominion elections by the adversaries of the Local Government had rendered it imperatively necessary that the Ministers should defend their policy before the country. It would be too much to expect that they should remain silent, without even the privilege of The Largest Stock, The Largest Stock, The Largest Stock, The Best and the Cheapest replying to the misrepresentations and charges brought against them. It had been the effort of the Reform party to confine the discussion's at the late election to Dominion affairs, Sbut they had been disappointed. After a prolonged debate the motion was lost, 25 voting for, and 46 against

On Tuesday-the Committee on the Bill introduced for the purpose of re-uniting the North and South Ridings of Huron for registration purposes reported unfavourably as to the ob. ject of the Bill, whereupon Mr. Gibson moved that the report be referred Tegetmeir Poultry Book back to the Committee, with instructions to declare the preamble proved. He referred to the arbitrary separa-

He referred to the arbitrary separa-tion of the county by the former Government, and to the several steps taken to obtain a revocation of that measure. It was not with him a personal matter, and he only brought it forward in the discharge of his duty as the member for the North Riding. The motion was carried. The House then went into Commit-tee on the Assessment Bill. Hon. Mr. Mowat proposed to retain the original clause 71, which provided for leaving the equalization of assess-ments in the hands of County Coun-cils, with power on the part of those assessed to appeal to the County Judge. The clause was accordingly retained. The Hallot and Liquor Bills were then considered in Com-mittee. mittee

Report of the Government Commission

Report of the Government Commission. The report of the Commission ap-pointed by the Government to inquire and report with reference to the man-near Guelph, has been published. It is a long document, which we are un-able to give to-day, but may say after a hasty perusal of it that it appears to be carefully drawn up and compre-hensive. The objects of the Institu-tion are clearly stated. The Farm for practical work is divided into five dis-tinet departments, with full details of what should be done in each of them. Then follow the rules for the admis-sion of pupils, the nature of the in-stinet incurs of labour and study de-fined. There are also directions for the government of the Farm, the num-ber of principal and subortinate offi-ders are stated, and their duties speci-fied. We shall give the whole or part of the report to-moref.
