IMPORTERS OF I H $_{\text {H }}$ AND
Wholesale Grocers, CORNAR
ST. JOHN AND HOSPITAL STS., montrear. ;

Cloumertial ginmonxy.

Mr. B. Tassie, formerly in the hend oflice of the Bank of Montreal, and for the past seven years at its branch in Brockville, bas succceded Mr. Neil McLean as manager at Cornwall, on the latiers becoming manager of the branch at Brockville.
Business has not evidently been prosperous with T. B. Moxley, dender in boots and shoes at Petrolia, Ont., as the foreclosure of a chatel mortgage on his goods, followed by an execution, is nonounced.-Donald McDongall, tea pedlar, at Wingham, Ont, is also in difliculties, and has been waited upon by the sheriff. is
Luwis Absert, dry goods merchant, Winnipeg, having become involved, has assigned to E. Hughes of Brandon, and is endeavoring to effect a setilement with his creditors.-A meeting of the creditors of J. W. Winnett; cabinet maker, Winnipeg, who has assigned, was called for the 27 th inst., when a statement of the insolvent's s'ffairs would be submitted.
W. McMillan, general trader, Listowell, Ont, has assigned in trust to John Green of London. Mr. Meblillan's liabilities are about $\$ 7,000$, with assets represented by slock in trade estimated at $\$ 4,500$. Previous to the assignment, however, judgments were obtained against the insolvent to the amonnt of $\$ 3,500$, so that, after the satisfaction of these, it is probable that there will not remain much for unsecured creditors.

Mr. Penceysi, Thabs succeeds Mr. Geo. H. Flamilton as agent of the Norwich Union, this city.-Mr. C. H. Bosse hats returned to lis old luve, the Union Muthal Life of Mane, of which he "resigucd" the agency for this Province a few montlis ago. The bete..noir of the company is still in office in Massachonsetts, and the Union, like the Peri, is still standing at the portal.
J. A. Pemby, general tader, Winnipeg, has assigned in trust to Mr. Thomas Beunic of sume place. At last acconots no statement of the insolvent's affairs had been presented to the creditors-H. W. Dayton, who has been doing a small grocery business in the same city, is also in difficulties, which have been precipitated by the action of his landlord, who has hatced. the sheritl in posession.

TIOMSON E GOWDEY,
Commission Merchants and deal Estate and Goneral Anctionecrs, 241 S' Jambs STREBP.
Mr. James scomp, hate of Toronto, the well-known Anetioncer, will give his personal ationtion to the. Dry goods boparment,

Pravata adrices recoived Thesday from Mexico contain the important news to importers and consumers of cigars generally that a lefiw has been recenty passed by the Mexican Govermment, making it compulsory on all manafacturers there to have phaced on enels box the rovermanen stamp, indicating that they ure Mexican goods. This law would appent to meet the situation exactly, as it is a well-known fact lat thousands of cirgurs mate of Mexican tobnceo have been for some years imported into Camada and surreptitionsly sold as Havama goods.

Tue umsual dultuess of the fail and winter tade in Lumenberg and the surrounding districts of our most easterly sister Province has severely tried many respectable and striving merchants who began the senson with reasonable prospects and stocked up accordingly. Among those who tind themselves in this con-dition-largely due to the low price of the local stigle, fish, mid the holding back for better prices-is 1.l. M. dost, boot and slioe dealer, and postmaster of that town. Mr. Just usually erred on the side of earrying too henyy stocks, and the season expired fund him at a still greater disadvantage. His liabilities are about $\$ 5,500$, and the assets consist of stock $\$ 5,000$ with book-debts and promissory notes of $\$ 3,000$, showing a nominal surplus of $\$ 2,500$.

# GREENE \& SONS COMPANY, MONTREAL. 

 HATS, CAPS STRAW/ Mis sic woodrow's goons.Selected for Spring Trade, 1884. WAREHOUSE:
517 to 525 ST. PAULSTREET, MDPTREAL.

Romr. Whirwaken, of Jarvis, Ont., boot and shoo dealer, is locally credited with more of bonesty and persistence than worldly wisiom. Some years tago when interest was ligh he mortgaged his real estate to a lom compaing, and this has proved a beavy drain upon his profits. - Last fall, in common with many other dealers in his line, he bought rather largely, and business, meantime, proving dull, and collections slow, he found himself at lengll unable to pay his way, and consequently assigned in trust. The mortgrge contuins a clause which will necessitate somo specinl arragements if the estate is to be aljusted economically. Apart from this the assels, in the shape of stock and good book debis, coniphre firurably with the linbilities, which are not very large.

The Fallune of Mekenzic, Whidden \& Co., Antigonish, N.S., dealers iu groceries and general produce, aflords another exmole of - the result of business incapacity combined with insufficient and borrowed cupital. The senior partner cannot have cansed much surprise, he having liquidated twice before he commenced business in Antigronish; here he was joined in April, lis8, by Whidhen, who brongltt 8800 of borrowed moncy, making the capital of the firm about $\$ 6,000$, the rest being book deles und stock. The resull of less than two years' business is that last month the firm assigned in trust to Horlan Fulton of Halifas; with liabilities of not less than $\$ 16,000$ and nominal assets $\$ 14,270$. Jhe assets will, howover, be greatly reluced, as five chans (amounting to $\$ 6,000$ ) are worthless, and the bulance-(nbout 1,500 small chams) are subject to an unusually heavy discount, if indeed the bulk of them can be collected at all. So that the probable value of the assets will not be more than: Stock $\$ 3,000$, book debts $\$ 1,000$, loge ther $\$ 7,000$, lenving $a$ deficit of $\$ 9,000$. A
bank agent again appears as $a$ kind friend backing a weak concern, while the fact that no proper profitand loss account have been kept shows the careless maner in which the business lins been conducted.

The circumstances suromading the failure of Thos. Shaw ot St. Ouhbines, Ont., dry goods dealer, are such as to provole unfavorable comment. Mr. Shaw is one of the oldest merchants of that eity, laving been in business there over :00 years. Ho had latterly been filling behind the requirenents of the almost metropolitan tastes of the Ningara district anpital, and devoting his attention somewhat to baukrapt stucks, but his trouble is largely attributable to real estate investments. In fivorable times the property in his mome was estimated worth $\$ 50,000$, but at present it would sentely realize more than the mortgage upon it-sume $\$ 3,000$. His liabilities me abont © 38,000 , including mortgange, to meet which he shows stock in trade and furniture valtued al, $\$ 0,000$, which inny bring $\$ 5,000$,besides the real property refered to. He assigned on the 5 th inst., to Gurland W. Olench of St. Gatharines, but not till his son, Geo. C. Shaw, had obtained exection for ahouit $\$ 3,000$ and his wife for over $\$ 7,000$, both of which would probably exhaust everything not covered by the mortgage. A lealing firm in this city lins coused an injuinction to issue against any sule by the sherifl on account of these execations; the sale which' was anoumed for the lath inst. has accordingly been postponed till the 3 wd prox. Five other executions ate in the sherity's liands, aggregating $\$ 2,2 a 0$, of which Mam, Byers \& Co. represent $\$ 080$, a leading 'Toronto house" $\$ 540$, rud one of the banks $\$ 315$. Rent and taxes appeir to have been neglected by IHr. Shaw for some time.

The assets consist of stock $\$ 11,600$; delets, good, 54,300 ; real estate, $\$ 1,250$; furniture, etc., $\$ 800$. He shows a nominal surplus of over $\$ 5,000$, but the stock will probuls not yield more than 50 per cent. The real estate item may be struck out, for it represents a supposed margin over montgnge, which can scarcely be realized. The debts also will probably pan out poorly; so that, by the time preferences are paid, there will not be a very satisfactory bulane for other creditors.
Falube of as: Ols House,--'libe failure of McOlung Bros. (Thomas mad James), dry goods dealers, Bowmavilie, Ont., puts a probabie period to the existence of that house, after a career of exactly 30 years. The business had been fairly prosperons, and remarkably so for some years prior to 1876, when the firm made large investments in a local machinery enterprise. By this they are said to have lost some $\$ 60,000$. The removal of one of the firm to Toronto some three years ago, where he purchased a parthership in the wholesale firm of W. J. McMaster is Co., reduced the capital of the Bowmanrille honse considerably; A yeur ago they found themselves obliged to compound with their creditors, the terms being 65 cents in the dollar, parable in six quaterly in-
stalments, 62 y cents secured by the lucal postmaster who secured himself by taking over policies of insurance on the lues of the partners. The liabilities at that sime were some $\$ 45,000$, with assets nominally equal, and they carried a stock of about $\$ 2,000$. Thes managed to meet three iustalments of the compromise by almost forced sules, the local trade having been affected by the roubles of the Cold Banking concern, in which many customers sere depositors. Last month they found themselves unable to meet the fourth payment, and consequently assigned in trust. The liabilities are about S 40, ,000. Among the assets is some real estute, heavily encumbered. Had the firta kept out of the machinery business, of which they knew nuthing, and had Mr. John MeClung contented himself with the loug and well-established retail trade which he understood, we should not have to record the failure of weClung, Brigrs: © Co., of 'toronto, and of McClang Bros., of Bowmaville. None of them seemed to recuguize when they were well off.
A conrespondent asks why the Grand Trmuk Railway Co. should not enjoy the same freedom as otlier employers, to determine what wages it can afford to pay its hands. This is something evidently beyond the compreheusion of

Provincial autonomy.
It is deeply to be regretted by all friends of the present federal system that the antagonism between the Dominion Govermment and the Govermment and Legislature of the most populous Province in the Confederation should bo gradually becoming more pronounced. We. trust that there is reasonable ground for. hope that the license question may be. amicably setiled, but the debate on Mr. Pardee's resolutions, which we insert, indicates that there is serious danger of prolonged misunderstanding on a question of great importance. It is affirmed in the second of these resolutions that exclusive authority in the Legislature of each Province in relation to Provincial rai ways and other local works or undertakings is an essential part of our federal system of Government, It is now nearly
i7 years since Confederation, and during that period it has been generally understood that all such works as connect one Province of the Dominion with another, should be chartered by the Dominion Parliament, while, on the other hand, those strictly local should be chartered by the Local Legislatures. Accordingly, a number of railways of a strictly local character, have not only been chartered by the Province of Ontario, but have obtained loans or subsidies from the Legislature of that Province, and also from various municipalities within its limits.

In the year 1883 the Government of the Dominion introduced a Bill declaring all main lines of railway in the Province, and "each and every branch line of rail"way now or hereafter connecting with or "crossing the said lines of railway, or any "one of them, to be worked for the "general advạntage of Canada," and enacting that " hereafter the same shall be "subject to the legislative authority "of the Parliament of Canda." There is no reason to suppose that any communication was made to the Provincial Legislatures prior to the passage of the Act referred to, and it, has evidently caused great irritation in the Province of Ontario. It appears from Mr. Pardee's speech that the advances to the Ontario railroads out of Provincial funds, have been about six millions of dollars, while the municipalities liave given nearly eight millions; or, in all, about fourteen millions of dollars. It is argued, and we own with apparent faimess, that this aid was guaranteed on the faith and understanding that the roads would remain under Provincial control. The Minister added that the Province and the municipalities have a just and equitable claim to be recouped the moneys that they have expended. if, said Mr. Pardee, these roads are, as declared, "for the general advantage of Canada" why should the Provinces be called upon to build them? 'To illustrate the soundness of his view, Mr. Pardee quoted from a speech of Sir Charles Tupper delivered during the present session, in which he argued, as a reason for asking Parliament to grant to the Province of Quebec a subsidy for the line between Ottawa and Quebec, that il could not be demanded from the Jocal Governments of which the Confederation is composed, that they should "deplete their "resources by building a national line of "railway for any portion of this country." So far as we can judge from the reports that we have seen, the opposition did not vindicate the action of the Dominion, but rather urged the expediency of endeavoring to preserve peace and harmony,
and of avoiding strife, the meaning of which, in Mr. Hardy's opinion was that Ontario should be subservient to the Dominion Government. The surest guarantee, he said, of the Confederation, is the avoidance of undue interference with the rights of the members of the Union.

We should think that there ought to be no difficulty in adjusting what at present seems to be a very serious cnuse of controversy. We can imagine that it may be desirable that some rules common to all railroads in the Dominion should, be established, and which would not in the least interlere with the right of control which the Provincial Legislatures should possess over railroads chartered and subsidized by them. It is highly improbable that any Provincial Government would object to such rules, and we camnot imagine that there would be any difliculty in arriving at united action. It says but little for our federal system that in the few years that have elapsed since Confederation we have had so many instances of alleged encroachments by the Dominion Government and Parliamenton Provincial rights, while, in the adjoining Republic, during more than a century, the instances have been rare of collision between the States and the Pederal authority. Mr. Pardee's resolutions, with a clause added by Mr. Hardy, laying down the principles, on which railways under Provincial control should be admitied to Federal control, were carried by a majority of 15 , the division having been a stricily party one.

## THE NEWFOUNDLAND IMBROGLIO.

It appears by latereports that the Newfoundland Government and Legislature Lave decided on the adoption of a policy of retaliation, owing to what they conceive to be injuries inflicted by Canada on their trade. It is a serious matter, and the subject should receive much more attention than has yet been given to it. The export trade of the Dominion to Newfoundland in the last fiscal year was greater than that to France, Germany, Spain, Portugal, Italy, Holland and Belgium combined. It was, noreover, nearly three times the amount of our own imports from that Island. The grievances of which the Newfoundlanders complain are: 1st. The compulsory inspection of their fish. It is hardly probable that Newfoundland herrings would be purchased in our markets without inspection, but this, it is contended, ought to be a matter to be determined by the buyer and seller, and not by the Goverment. In any discussion that may arise it is not probable that the views of the wholesale grocery
trade will be ignored, as there are none able to speak with more experience on the subject. 'There ought to be a more thorough discussion on this question of inspection between these (the jobbers) and the consignees. Both have had much cause for complaint; and those of the latter resident here are not supposed to have been altogether ignorant of the proposed action of the Newfoundland Government. 2nd. Imitating the policy which was so loudly complained of by us when the United States levied duties on the lobster cans; the fish being free, a duty has been placed on the barrels in which oil, a duty free article, is contained. We are not aware whether any correspondence has taken place between the Government of Canada and Newfoundland on the subject of the complaints of the latter, but, if not, the latter cannot be held blameless for adopting, without notice, the retaliatory policy, the adoption of which has just been announced. The retaliation which has been agreed to in Newfoundland, according to a report which seems to be based on a letter from the Secretary of the Board of Trade at St. John, to a commercial firm, is a duty of 100 per cent upon all packages conlaining merchandise imported into Newfoundland, which is to apply to importations from countries which shall levy a tax on packages exported from Newfoundland, or in which inspection of packages is made compulsory. We entertain no doubt whatever that the Newfouindlanders are right on both points. Inspection should not be compulsory by the Government, but may be made so practically by the trade, which may refuse to purchase herrings unless they have been inspected. The duty on the barrels in which oil is contained is one that cannot be vindicated, and it is most discreditable to Canada after its loud complaints of the duty on lobster cans to follow such an example of sharp practice as that complained of. We camnot blame our neighbors for resorting to their only mode of obtaining redress, provided they have given due warning, which they wero in courlesy bound to do. In view of the nature of the trade between Canada and Newloundland it is sufficiently obvious that the former will be the sufferers if the retaliatory war be persevered in, and it would therefore be expedient to lose no time in coming to an amicable understanding. While on the subject we may notice a very extroordinary circumstance that came to our knowledge recently. While herrings are admitted free into Canada from Newfoundland, they are subjected to a duty when imported from Scotland. We can scarcely believe that this discrimination against the United Kingdom is known to the British Government. It is, hovever, a fact well deserving the attention ol the menbers of our parliament.

## THE BANIK STATEMENTS.

The bank statements, the usual summa. ry of which will be found below, do not call for much comment. There is $a$ slight decrease in the aggregate liabilities and deposits, which, at this period of the year, is to be expected. The balances in the hands of British and foreign agents have been reduced by rather over two millions. Some curiosity has been excited by the returns of a new Bank, styled "the Bank of London in Canada," which has a subscribed capital of $\$ 1,000,000$, of which
$\$ 108,185$ is paid up, and which, though only just commencing business, reports "a reserve fund" of $\$ 50,000$. This certainly calls for some explanation, which should be promptly given in the interest of the bank, as we are aware that there have been surmises as to the probability of this Reserve Fund, which cannot by possibility be a bona fide one, having been reported for speculative purposes. The bank has nearly $\$ 100,000$ in deposit with other banks and $\$ 20,000$ in loans on stocks. It has already got a circulation and deposits exceedingits paid-up carital:

|  | Jan., 1884. |

| Capital authorized............................. | \$69,390,666 |
| Cupital subscribed............................. | 63,555,134 |
| Capital paid up .............. ........ ..... .... | 61,474,273 |
| Reserve fund (Rest):......................... | 17,512,718 |

## THE ST. LAWRENCE IMPROVEMENTS.

A most incomprehensible misrepresentation of the improvements in the St. Lawrence was recently made at a meeting of the Halifax Chamber of Commerce, by Mr. J. S. Maclean, who, we are bound in charity to suppose, has never been in Montrenl, and has never given any attention to the state of the navigation of the St. Lawrence. The misrepresentation was that the St. Lawrence between Quebec and Montreal is gradually filling up, and that it cannot be dredged sufficiently for large steamers to load at Montreal. We could not have believed, had we not seen the report of Mr. Maclean's speech, that any individual in Halifax, occupying the position which that gentleman does, could have displayed such gross ignorance. We find in the columns of a morning contemporary a letter from Mr. 'Thomas Cramp, which we shall reproduce, as it completely: disposes in a short space of the rash statement, obviously made with the view of injuring the trade of Montreal:
Sis,-From the published report of a recent meeting of the Halifax Chamber of Commerce I extract the following:-
"Mr. J. S. Maclenn thought it most advisable to work with Quebec, though he did not altogether hold the views of Mr. Jones. Hc, as a good Presbyterian, believed in fore-ordinntion and predestination, and considered that Halifax was predestined to become the great Athntic port of the Dominion. It was most advistble to co-operate with Quebec, as a bridge, it was almost certain, would be built there, and consequently Halifax must benefit in winter by the advantages accorded Quebec in summer: The river from Quebec to Montreal was gradully filling up, so that soon it could not be dredged sulficiently for large ocenn steamers to load at Montreal. They would consequently have to load at Quebec in summer, and the bridge could be of no other use in winter than to beneft Halifas. He therefore urged co-operation with Quebec.
Montreal merchants will, I am sure, now, as always lieretufore, rejoice over any improvement in the busiuess prospects of Halifax, Quebec, or any other city of the Dominion, but as it is wholly at variance with established facts, officially publisled, to state that "the river from Quebee to Montreal was gradually filling up, so that soon it could not be dredged sufficiently for harge steamers to load at Montreal," and as such an assertion is calculated to injure the reputation of our St. Lawrence ronte at home and abroad, I cannot doubt Mr. Macla an will be glad to have it noticed and corrected. The operations for improving the ship channel between Montreal and Qucbec have now been continuously prosecuted for many years, with steady and progressive resulis. Twenty feet, $22 \frac{1}{2}$ feet and 25 feet at lowest water has been successively reached, and the Harbor Commissioners are now engaged in decpening to $27 \frac{1}{2}$ feet at lowest water, which means a much greater depth during a large portion of ench season, -and one special feature of the works is that no difficulty whatever has ever been experienced from filling up. Stearmers of nearly 6,000 tons are already trading here, and the average tomage of our ocean steamships is, I believe, larger than that of any port in America, and probibly than that of any port in the world,

Montrenl, 21st March, 1884.

## THE CONSPIRACY.

The Western papers are full of the details of a very disreputable transaction which has recently taken place in 'Toronto. We can afford but brief space to a subjeit of such a character, but we should not feel justilied in passing it over without notice or without joining in the general condemnation of the act. It has been clearly established that $\$ 1,800$ was sent in two parcels to members of the Ontario Legislature, and that attempts were made by persons opposed to the administration of Mr. Mowat to induce some of his supporters to go into opposition. 'Two of the individuals who seem to be chiefly mixed up in the matter have been committed to gaol, and a protracted enquiry has taken place before the sitting Magistrate, with a view to their committal for trial on a charge of conspiracy. As usual on such occasions, there has been a great deal of exaggeration by both political parties, or rather by their recognized organs. The Conservative lenders have condemned in terms sufficiently strong, the attempt made by one or more of their partizans to seduce members of the reform party from its ranks by offers of money, but then they stigmatize as criminal the conduct of those members who reported to their chiefs the attempts made to decoy them, and who alterwards, acting under advice, endeavored to expose the conspiracy. The Liberal organs have perhaps been too much inclined to believe that the conspiracy was really set on foot by the Dominion Government, the only foundation for such an opinion being an offer of office, in writing, made by Senator Macpherson to Mr. Wilkinson, the individual particularly implicated. Mr. Wilkinson seems to have been for some years a zealous and trusted member of the Conservative party, but it cannot now be denied that his zeal has outrun his discretion. The intervention of an American lumber dealer, who was inclined to spend money in lobbying a Bill for his own personal advantage, was probably an accidental circumstance. The Ontario Government had refused his application for a timber license, and hence his desire to overthrow it. it would be far from creditable if the speculator in question had had any reason to anticipate that he would be dealt with more liberally by one administration than another. We presume that there is little, if any doubt, that Senator Macpherson's letter, offering the office of Registrar of Edmonton to Mr. Wilkinson, was used by that individual to convince those with whom he was tampering, that he had sufficient influence
to procure a nomination to such an office. On the whole, we have no doubt that the exposure will materially strengthen the Government of Mr. Mrowat, as members will be afraid to show any sign of falling away from their party, lest they should be believed to be under the influence of those who have no scruples as to the mode of obtaining converts.

## FIRE INSURANCE TARIFF FOR THE PROVINCE OF QUEBEC.

That the fire insurance companies fully expected the tariff lately framed for Ontario to be speedily extended to this Province is manifest from the title given to the Association which was not the "Ontario" but the "Canadian Fire Underwriters Association ;" and, further, that a tariff is needed for Quebec quite as much if not more than it was for Ontario we believe every insurance manager willingly admits-some of the rates on certain risks in the city of Montreal being simply absurd. It is not easy to understand how the mere establishment of rates can be of any practical utility in this city, unless something be done to check or control the brokerage sytem. It must be patent to everyone-the utter uselessness,of raising premiums, say five per cent, so long as anyone bringing a risk to a company can call himself a broker, and charge ten per cent off the rate, the whole or part of which per centage he can return to the insured, suffering the latter " not to be himself," which is not unfrequently the case. A reform of this kind can only be compared to the juggling feats of a Turkish finance minister, who would persuade his sultan that he is enricbing his exchequer by the increase of taxation, while, at the same time, the said financier pays the collectors of taxes as much or more than such increase!
Turning to the question of rates, the feeling of the oftices respecting this Province does not differ from that evinced in framing the tariff for Ontario, namely: -that there should be no serious advance excepting on some special bazards and a few other risks now witten at ridiculousiy low figures, but that the endeavor will be to steady existing rates and stop further demoralization; and in this we think good judgment is displayed, the aim being to secure fair, not exorbi. tant profits, so, that there cand be no cause for the public to complain.
This applies rather to Montreal, where low rates and extensive brokerage prevail, but we understand the city of Quebec is engaging the attention of the companies, a moverent being on font to
reduce the rates there in consideration of the contract for the new main being signed, and the pipes rèady to be laid. Former experience of Quebec goes to show that the wiser and safer course to follow is to wait for the completion of the promised new water-works, and the removal of the obnoxious and unjust insurance tax before considering any reduction. The complaint that a large quantity of the business is now being taken by unlicensed companies from the States, at rates below the present tariff, only proves. two points : First, that the insurance law in Canada is defective to permit of such business being carried on with impunity; and, Secondly, that there are always some who, with no experience know infinitely better than those possesbing it.

As regards other towns in the Province there is little doubt these will be equitably dealt with, should the tariff come into force, in order that those places which charge a tax on the insurance companies may be treated as in Ontario.

## INSOLVENCY DISTRIBUTION.

"An order of distribution is, in effect, an order of confiscation." Such was the recent deliverance of a prominent Queen's Counsel, in reply to the suggestion that an execution might be counteracted by invoking the antiquated laws of this Province in commercial matters. The candor of the Queen's Counsel was not at all palatable to his professional brethren, who hinted at discipline before the Bar; but the very effectual manner in which the deliverance could have been vindicated, and the overwhelming testimony from defrauded creditors, which could have been invoked, made the grumbling advocates think better of it; and, no doubi, they exercised a wise discretion, in not adding to the outspoken dissatisfaction prevailing in regard to the manner in which creditors are fleeced of their means, under the cloak of "distributing assets." The offending brother hit on an appropriate term in styling the process confiscation, because, except to the lawyers in the form of costs, nothing is to be looked for from the sheriff under an order of distribution." 'This state of thing needs not to be dwelt on; every creditor knows it to his cost, and he is likely to know a little more of it before many months, judging from the present outlook.

Another of the exasperations arising out of the existing condition of the law is the facility it affords for legal plunder, even in spite of the elforts of the debtor and the
chief body of his creditors to achieve an equitable distribution of his estate. A morning contemporary comments upon s bailifl's seizure being upheld as against the trustees to whom a bankrupt had assigned his estate for the benefit of all his creditors. The pity is that the press has not given more prominence to that state of the law ; it has been all along perfectly well-known to creditors and to those who may have had dealings with insolvent estates since, the repeal of the Insolvent law. The wrecking of valuable estates for want of forbearance on the part of one or two incousiderate creditors is a thing of common occurrence, and one that ought to be seriously brought under the notice of the Legislature that has in charge matters relating to bankruptey, but which avoids dealing with a subject so important. And why? Is it because there are no insolvents that the eyes of Parliament are so provokingly blind and their ears so persistently dull to the complaints of the commercial community? Is it because times are "booming" and nothing but the sunshine of prosperity in prospect, that justice to creditors is so long ignored? The little patching that farliament has done to the laws on this sulject is of a very crude sort. Joint stock companies and banks have heen favored with legislation to be invoked in the event of insolvency. It is difficult to understand why an equal number of men trading under the Joint Stock Companies' Act should be subject to laws different to what would have been applicable had the business been constructed as an ordinary co-partnership enterprise. Then the lines on whicli these laws are framed are hard to account for ; the share. holders-that is the babkrupts-are everything, and the creditors are awarded the position of spectators, while their deblors are placed in positions of control upon the estates they have succeeded in bringing to grief.

One looks in vain through the two measures relating to insolvent trading conipanies for any loop-hole where a creditor might get in to assert his rights; every avenue is effectually stopped by constantly recurring "contributor," who crops $u_{p}$ in ench clanse and section, while his vietim is ignored so completely as to create the idea that he is in effect the villain of the piece,-shut out beyond the pale of relief. One special feature of these bills is the ubiquity of the Court in everything that is to be done in the winding up of an estate;-from the patition for a winding-up order to the end of the liquidation, those in charge are shockled by endless petitions to the court, which
cannot fail to be disastrous to the interest of creditors; and to what good? Does any one imagine that when liquidators present a petition to be authorized to compound with one debtor, or to sue another, that the judge is going into the merits of the question? Were he to attempt it he had best to remove to the liquidator's desk, and assume the latter's position at once. The truth is, liquidators occupy, for the time being, the positions of managers of the means of creditors whose trust turns out to have been misplaced, as regards the original debtors, and it is just as absurd to fetter the managers in such a case with expensive formalities as it would be to act in a similar manner in the case of administrators charged with the realization of the assets of the estates of deceased persons. To relieve the estate of the endless expense, the liquidators of the Exchange Bank applied in general terms for authority to do the several things which the Act provides they may do with the sanction of the court. What will be authorized in detail the court has seen fit to refuse to santion at once. That will make no difference in the result except in the daily recurring expense, and it will be well for creditors if the liquidators do not become weary of the never-ending preparation of petitions, which are nothing but lumber when granted. In short, the legislation on insolvency, as regards companies and banks, is ineflicient,-not comprehensive in its provisions, defective in many important particulars, and extravagant in its operation as regards law costs to a degree that fairly lays it open to the impuatation of being framed more in the interest of the lawyers than of the creditors.

All this is the opposite of creditable to those who are responsible for the absence of sufficient and comprehensive legislation on the question of insolvency, and there does not appear to be any fair reason for the prolonged neglect. The measure prepared by the Boards of Trade, and which is now before Parliament, is well calculated to meet the wants of the mercantile conmunity. 'lo ignore a subject so important is not statesmanlike, and may prove to be a grave error; in the meantime much injustice is being done: the credit of Canadians in foreign markets is impaired, the welfare of importers and their power to pay duties is crippled, and one looks in vain to discover any compensation to the commerce of the country for the injuries done to it by a masterly inactivity which is not new, and which appears to be regardless of the losses that are being unnecessarily sustained.

# JOSEPH E. SEAGRAM, DISTILLER, WATERLOO, ONTARIO. 

## Alcohol, 65 O.P:

Pure Spirits, 65 O.P. Pure Spirits, 50 O.P. Pure Spirits, 25 U.P. oll Rye, Malt and Family. Proof Whiskies.

Sole manufacturer of the celebrated
WHITE WHEAT WHISKEY.
MONTREAL WHOLESALE MARKBTS.
Thunsdar, March 27 th, 1884.
The general situation this week has only slighty varied, unfavorable weather still hampering trade, so that there liave been few buyers in any line. The order demand, however, seems brisker, so that on the whole the ontput is turning out not altogecher unsatisfactory. Where values have been steady (as most have) it has been due to the lightness of the trade not eflecting any reducion. No new plase appears in the cotoon trade: any attempt to expand or arcelerate it would be futice, as the raw material is tending upwards. Should even unexhausted stocks induce a reduction, still buyers would prombly persist in their cautious policy. Finance is in stath quo. Prime mercantile bills fetch $6_{2}$ to 7 per cent; call loans range from to to per cent min stock collaterals. Sierling exchange is sluggish and nomimally as follows:-Bankers' $60-$ day bills 9 to 10 9-16 per cent; premium and demand bills $10.1-16$ premilum. New York drafts are sold at $\frac{1}{2}$ per cent premium. Stocks are quie, and business manaly light, but prices genemally lave been fairly firm.

The following are, respectiryly, the highest and the lowest figures and the number of shares sold.

| Banks. | Shares soll. | Highest price. | Lowest price. |

| Do Do bonds. | ..... | 100 | 100 |

Asuss.-Receipts have been light, the sales of the week have been at $\$ 4.20$ to $\$ 425$, with one or $\cdot$ two lots at $\$ 430$. Seconds $\$ 3.60$ to \$3.70. No sules of Thirds reported. There has been one sale of Firsts. Pearis reported at $\$ 6$. Receipts since lst January, $1,36 \overline{0}$
barrels Pots, 142 barrels Pearls. Deliveries, 979 burrels Pots, 98 barrels Peats. Stock in store at 6 p.m. 26 h March, 1703 barrels Pots, 194 barrels Pearls.
Dairy Produce-While quotations of last week are allowed to stand nominally good for to-day, they must be accepted only as stoh on Butter. Owing to spring-like weather, sone large holders linve in a degree lost confililene inrge hoture of the market, and a disposition has been noticenble to foree stock at a lower range for round parcels. In viow of this, it is dillicult to quote positire valines on any grade. Some few lots of fresh have appenred which sold at 23 c to 25 c , but even the demand for this did not evince extrin spinit. Clicese rules quiet and steady at former ligures, notwithstanding the decline of 1 s . jer cwt. in Britain. 'l'his nonsympathetic action of the Camadian market is due to light supply.

Deues and Chemeals-No changes of inport have been mate in prices of either during the carrent weak. Those articles which have of late been subjected to spleculative ithHaences lave been bui very lighly called for, there appearing to exist no longer aty incentive for either busers or setlers to deal beyond positive wants, and bence the trade presents but a very moderate volume as doing. Rumors are, however, current that there is a tormation of a speculative combination in London such as took hold of Bleaching l'owder to extend their attention to heary goods-especially sodas, so that values here rule very firm, bitit trade is slow, in riew of lower freights som.
Fish.-There is ic corvesponting falling off in the demand, in vierrool the fact of the Lenten trade now speedily drawiug to a close. Stucks of all kinds are mith reduced, and hence dealers have neither quanity or great variety to offer to consumers. Prices are unchanged. Advices from St. John, N.B., state that fish stocks of several kinds are heavy, and that severe are likely to be incurred by holders. Cod is an exception, and rules firm, at $\$ 3.50$ to $\$ 4,50$ yer quintal.
Flour and Grain.-'The demand for flour of all grades is of a very mengre character, nod while values to be found elsewhere show no importinnt clange, the lendency of the general market is unquestionibly to a lower range; in sympatly with that of all uther markets. In grain, beyond an ocestsiomal sale of coarse kinds'along the severnl railway lones and on the spot, there is nothing of import 10 impart, and quolations of the entire list are theretore more or less nominal.

Fuorss.-The movement of forcign fruits during the week has been fair, although almost wholly confined to local account and smanl lols. Holders do not appear to be exneting, still lirm, and as aceumulation of general stoek is kept well under control no dificinty is experienced in commanding full former ligures. Uranges are in fhir demand at $\$ 0$ to $\$ 0.50$ per case, this being an exceptioneladvance as compared with the list of 50 c . Lemons are stendy at $\$ 4.50$ to $\$ 5$ per case, and $\$^{2} .50$ to $\$ 3$ per box. The season for: Apples is about over, and trule is dull, at $\$ 5.50$ to $\$ 6$ per bbl. for choice. About 1,000 loxes of tumis dates have arrived, which sell well at je to fo per lb.

Genglial Provisions-The trale in hog product of all deseriptions, has been of limited volume, more particularly due to the impassable by-ronds of the interior, but partially also to the declining tendency of Western markets. The demand for Mess loork and Lard has since been confined to lucal wants, nad dealers continue to buy but small lots, values of which are steady at former quotations. Diessed hogs are firm it $\$ 8.75$ to $\$ 9.00$ per 100 lbs for those in prime condition, but of these there are few coming in, and some beary reductions live been submitted to by holders of poor stock, owing to the unfavorable weather for lundling it. The

Eigg market has taken a sudden chan ge within the past two days owing to the material falling off in receipes, and the near approneling Easter season. Fresh stock, which was selling frecly at 190 to 2te last week, is now timly held at 23 c to 25 c per dozen, with every appenrance of the advance being maintaned until after the senson noted has passed. New Maple Syrap las arrived within the past few days in exceptionally large quantities, the result being a sydden decline to 7 sc per gal. tins. On the contrary, Maple sugar is arriving but in small quantities, and rales firmathe to $12 \frac{1}{2} \mathrm{c}$ as to shape and quality.

Grocerirs.-Business in actual goods during the week has not been very exteusive, and again confined to the immediate wants of regular customers. Buyers complain very little orer the cost or the geveral list, lima lind ample accumulations in sight, and meth prefer to beve the bulk of the carrying done in first hands. 'leas have eased off thitte in the New York market, but no material change in prices lans becu ellected in this. In Sugars bustness has been applied to a fair extent with the range of values a litue lower for Lellow Reffined. Granuhated has been sold for outside lots, under regular ligitres, but are not considered specintly clanged. W. I. grocery kinds are quoted at $5 \frac{2}{2} \mathrm{c}$ to Gfc. Molasses of all descriptions are dull, the range tor Burbudocs beiug lóc to 18c. Syrups are ngain rather iu buyers' favor as regards quality, but prices are ouminally the same as last week. Fruits meet with a fatir demand for choiee grades, while values ure slighaty higher. Low grades are dull. Ihtay Matinsis are stendy. Figs are much redneed in slock. Prunes; Sullamas and Currants me dultand casier. Nuts and Almonds are in light request. Culfee is not so firm for commun grates. Spices are firm, for all grades, excepting pemper, which still rules high. The movement in Rice is light at previous prices.
Hides and Sking.-The market continues firm and our quotations of last wrek lave been advanced for green butchers'. The demand has increased on scarcity of slock, and all offerings of desirable lots have beentquickly taken off the market by taniers. Several car lota lave been sold at full quotations, and according to the present status of supply and demand the later exceeds the former both in this and Western markets.
Iton and Hamotare.-In iroll some of the dealers report a little more inquiry during the week and look for an increased demand, although the market shows but litule, it any, improvement, and pretiy much the same features are prescuted argiin this week. rurehnses are almost wholly of a hand-lo-month character, and prices reunain stendy. Hardware has met with more or less attention from interior points, usually represented at this season of the year, while guite a few orders have been listed for general assortments for siopment ather opening ot navigation. Colleetions are fair, and difficulties in the trade of little moment.

Leather. - The leather tade presents some improvement in ralues of Sole qualities this week, and the market for suel may be quoted very firm at full quotations given elsewhere, in sympathy with the advance in the American matket. 'llhis is less trite of blacks, for which there continues to be only a moderate call. The excitement in the-Stnces has indiced sone Anerican buyers to this market, who have been inquiring for rijugl stock, but, on comparison of prices with their duty added, our values are prohibitory. Sales of Sole have been made on home account to the extent of 16,0010 to 20,000 sides. Quebec buyers have also been purchasers in this market during the weuk of Rough Splits.

Olus-Last week's values are repeated this, with the genernl market substantially in tone the same as for some time past. Present cost apparently causes purchasers to buy cautiously,
and very few ronnd lots of any kind are changing bunds. There is, however, a fair distribution business doing, which, conpled with buit moderate supplies, serves to hold the market stendy.

Pants, etc.-The general run of orders nppears cover. nbout the old ground, and trade lus not increased to any important exient. Sume in the trade report, however, that they are beginning to hearfirom customers who have been hanging back for some time, and that the indications are that in many sections the pressure of wants is on the increase. Indeed it is contidenty expeced that, as soon as the condition of the ronds improve, as well as the weather, to permit of pushing anticipated building opermions a material change for the better will be in order. Values are unchanged but firm.

Sreds.-Since our last report the market for clover is firmer, but without change in prices. We still quote it at 1 ec to $1 \geqslant \frac{1}{c}$ per pound, in small lois. The stucks beld here and in Ontatio are small, witile prices have allataced in the United States, under a more netive consumptive demand. 'rimolhy comes furwarl freely, the maket heing well supplied; we guote it. at $\$ 2$ to $\$ 2.10$; per bushel, wihh fair demand.

Woos.-The situation of the market is unchanged in every pirlicular. Suall parcels are the rule, manufincturers conlinuing to bus in the most cmations manner, in view of lower freights and the nearer appronch of the noxt chiy. Values however, arte considered low by dealers and inuorters, and no reduction in the near future can be reasomably anticipated. The movement this week embraces about the usual run of invoices of both home mad forcign grow the and confined to posilive requirements.

## ENGLISH MARKETS.

## Livemooi, March 27, 1884.

(Beerboinm's Advices.) Cargoes off ConstWheat, heary ; Gorn, notling offering. Uargors on phssage-Whent and corn, neglected, no business. Quantity. Wheat on passage for Continent, 310,000 grs. ; Maize, 50,000 qris. Wheat for U.K., 260,000 qrs. Whent and four $2,350,000 \mathrm{grs}$. Liverpool Wheat on 3 jol, very inactive ; Corn, ditto. Mixed Maize, 4s. 8d. Peas, os. 8d. Weather in Eingland very cold.

## AMERIOAN MARKETS.

Boston, March 27.-Flour, demand moderate, murket ensy. Sales of Supreftue at $\$ 2.75$ to $\$ 3.25$; Extras, $\$ 3.25$ to 34 , including choico
 at $\$ 0$ to $\$ 7$, and Patent Winter, $\$ 0$ to $\$ \mathbf{\$ c . 7 5}$. Cornmedl firm, has been in demand at ${ }_{3} 2.70$. Sinles of Oalmeal at $\$ 4.50$ to. $\$ 5.25$ for ground, and $\$ 5.50$ to $\$ 6.25$ for cut. Hay, demand continues moderate with sales at $\$ 12$ to $\$ 15$, and choice lot at. $\$ 16$. ## TORONTO WHOLESALE MARKETS. <br> (Revised By Melegraph.)

Tonosto, Match 27, 1884.
Trade in city retail quarters among milliners and elothiers lias been somewhat better during the week. Reports from the country are that business is stagmant, owing to the breaking up of the rouds. Wholesale trade is still reported withont much inprovement. It is stated, howover, by some houses thm the trade is really not less Clun what it was at chis date last year: payments are reported varionsly, but in mocase so large as could be desired. Bank setilements a $e \mathrm{e}$ nut embarrassing. Moncy is abundant, and general credit is gool. There is no expectition of nuy atelive dennand for money in commercial business at present. 'The rates on call lomus, good collateral, are 5 to 0 per cent. Commercial muper is tiscounted uit bit for first-class, and up to 7 d per cent. Stering Bxehnge is dull and rates firm, $n t 1093$ nand toys for 60 days. The Stock Exchange has been without interest and quice irregular. It hats beeu a hrokers business. Tline principal movement in bunk slatres was in Commeree, Federal and Dominion. Prices have been nominatly unchangent. In Lona Companies, Ganala l'ermanent was chioc fin movement, selling thengh tor old and 203 for new stocks. Farmers' Lumb quoted at 134, Untario Laman at b3. The total business for the week ending Monday wiss , 30 shares agninst $2,0 \pm 5$ in the week previons. Folfowing arit the prices to-day compured with those of last Thursilay:-

Boots and Shoes.-Business is reported as quiet: orders are few and light in extent. Payments reported growing less satisfactory, manufacturers working rather less than threequarter time, and a latge portion of the work is on Winter goods, to keep the hands in employment. Prices are steady but unchanged, although there is a likelihood of some advance being made, owing to an advance asked on upper and sole leather of about 10 per cent on recent mices. 'Taken altogether, the trade is not in a staisfitetury slange. The knowlalge that stocks throughout the country are light is reassuriug.

Coal Ont.-Traule is rather quiet, and prices are weak. Prices at Petrolia unchanged : erud quoted at 80 c , and refined at 11 c . Prices here are reported at 13 c to 13 de for common, and 17 e for carbon safety. American refined unchanged; auy change will be towad lower puices.

Dry Goons.-There is no eliange to repont. Irade has fallen bnek into dull work again after the effort made at the trade sales. There is still some expectation of an improvement taking place in early summer, as the prosjects at present are for good crops. But the present inaction is likely to be unbroken for some weeks to coms. Wholesale men report it diflicult to say what particular time is more in demand than any other at present. Ooltons are in auple stock everywhere. Jigit woolens have been in moderate demand. 'l'he Spring millinery tmole is over, competition has, been keen, and priees have reached a low phane.

Floun and Mart.-The matrot is unchanged in nearly every prticular. Flour is slow, sales and transuctions being confined to the lacal trade entirely. It is nut remembered when business was so restricted. With low railway freigh

new zumituria wrinatr mimmpe cooo samprat roous.
H. D. LRMPY \& CD.,Pquitions.

Fish nominally unchanged, and very quiet. There is no indication of any change in prices genernlly in the near futire.
Habdware.-There is no change in the state of trade, which has been rather better during the past ten days or two weeks. In that time the demand for builders' hardware has been quite distinctly improved, withont being agtive. A reliable opinion is that a large trado is not to be expected during the summer; and that nothing is counted upon the Manitoba trade. Puces are likely to rule ensy, and wholesale merchants report very small prolits . on goods of Canadian manuficture. Prices are unchanged. Nails Uanadian manufacture, weak at previous quotations; aid Americau manafacture reduced 10 c per keg on previous figures. Stocks generally liave been kept light.

Hides and Skins.-Priees keep very stendy, and demand good. Green hides, cows', bought at $\$ 7$, and steers at $\$ 8$ per 100 lbs . for No. 1 inspected; cured selling at 8c, with fair demand from tanners. Calfskins coming in more

freely, buying green at 13e for No. 1 , and selling curd at lic. Sheepskins, green buying 4 $\$ 1$ to $\$ 1.15$.
Leathen.-The market is firmer, and values are improved in all hands. Farmers are inclining upwards in their views, and merchants are asking higher prices than would have been taken a week ago. Buyers are holding off' so far, and it is not certain whether the advance will he established to the extent asked. The ndvance is noted in sule and upper leather. Gountry buyers may have to pmy it, but the city manfucturers will not do so yet,

Lave Srock-The local market has been rery guict, owing to the combined eauses of dull tade and the lenten senson. Prices of cuttic are aboul the sume as last reported: good butchers' cattle buying at 54.50 to 85 per 100 lbs., live weight; lower grades at $\$ 30$ to $\$ 40$ per head. Sheep are in gool demand at $4 \frac{1}{6} \mathrm{c}$, and lamis at 5 e per lb ., live weight. /logs quiet, nud few offering at about sif to $\$ 0.25$ per 100 lus., live weight.

Provisioss, erro-Business is still stagnant, and will be so during lent. Out meats are steady in price, but there is very little demand; long chenr bacon quoted at 11 c and Cumberland at loe in small lots. There is no enquiry for cul lots. Sitock are light compared with those "t last year. buter is quiet, and nominally une'muged: fine tubs worth 19 c to 20 c ; large rolls, good quality, worth 17 e to 18 c ; inferior; I ic to 13 c . Eiges in good supply bought from

## GRATEFUL-COMFORTING. EPPS'S COCOA.

Solo agent for Canada: C. E. COLSON, MONTREAL.
couniry dealers at 10a in ease lols. Pork quoted at $\$ 21$. Cheese firm at $14 \frac{1}{2} \mathrm{c}$ to 15 c . Beans, in moderate enquiry, at $\$ 1.50$ to $\$ 2$, according to quality. Potatoes in rood supply at 68e to 7oc per big in cate lots. Rlops very quiet and unchanged. llogs, few offering aud buying at $\$ 8$ per 100 lbs . 'Iallow stendy, buying roigham $3 f$ and rendered at Gie. ; rendered selling at 7c.

Sbebs.-Wholestle dealers are doing a good tade with country merchants, Timothy is quoted buying at 3 c to $4 \frac{\mathrm{c}}{\mathrm{c}}$ per Ib , and selling 38 c to 50 per lb. Red clover is selling at 110 to 11 de per lb , in lots of a few bags. There is no more red clover coming into the market. A lisike bas been retive, with receipts still protty liberal: buying at 10 c to 13 y c, and selling at 130 to 17 e fur re-cleazed, in small lots.

Wool.-The market never was so dull. Fleece is bought at from 16 o to 20 c , with very litule desire to trade on the part of buyers. Supers are selling at 22c, and extur supers at 27e for cash or good paper. The demand from fictorics is falling off. Forcign wools are finding a very slow market, and holders are in danger of losing money on their stocks.

McGibbon, HeCalman \& CO,
Proprietors of the Royal Windsor Brands of Aerated and Mineral Waters, And Agents for the
Celebrated Plantagenet Springs. Only filtered water used. uttice and liactory: 766 CRAIC ST., MONTREAL.

## GEORGE W. REED,

SLARE, HERLAL AD GPAFL ROOPIME.
Roofing Materials of all kinds.
Mantels, Refrigerators, Oil and Gas Stoves, Whit Bronze Monuments and Stailuary.
783 and 785 Craig Street, Montreal.

##  <br> PRMHLECES, pat CONDITIONS

On their Life Policies.

Trie uncontitional policites of the

contaian not one condition, but have tho following priciligess on them:

1. Diberty to trivel anywhere without extra. a. Liberty to engage in may oceupation without extra.
2. 'I'hirty days of giate for preminals.
3. Poliey may be revived within a yearaftor ingue
4. Paidup policies given for dethiteamounts after three yours.
5. Loans mate after two years.
6. Policy imblisputable after two years.
7. Any difference to be refervel to arbitration.

Compre this with ordinary policies.
The Company is very stritt in whitting persons to these benstits, but it is evilent those whoget then get privileges an other Company in Canada gives
Prolt is miversally admitted to be by far the simplest amd most straght forvard poliey in use in this country.
R. MACAULAY, Manager.

## Confederation Life Association.

The SECURITY oflered to Policyholders is UNSURPASSED by any Company doing business in the Dominion.

IIs PROGRESS FFAS BEEN UNEXAMPTHED in the history of lusurance in Canala.

Its policies are TNDISPUTABLE after three years, and NON-TORFEITABLE after two years.

IIs PROFTTS ARE DISTRTBUTED upon an equitable basis, resulting in very much larger returns to "Ten prayment life" and "Endowment" Policyholders than under the Uniform Bonus plan pursucd by some Companies.

Intending insurers will find it for their interest to EXAMINE CAREPULLY its system and terms before insuring else where.

(Opposite St. Lawrence Hall),
Montrgal.
D. Pormennaer, Chier Superintendent, Moncton, N, B1, Dec, 7th, 1883.

## FIRE AND BURGLAR PROOF SAFES,

## Steel Vaults, Vault Doors, Combination Locks, Prison Locks, and all kinds of Fire and Burglar Proof Securities.

The only manufacturers of fire Proof Safes with Non-conducting Steel Flange Doors, which have been demonstrated by actual tests to be the best fire resisting Safes now made.

Messrs. J. dJ. Taylor,
Charlottetown; P.E.I., Feb. 29, 1884.

## Genthemen,

Toronto, Ont.
I have much pleasure in stating that the No. l roand cornered safe, with your new patent flange, purchased from you in September, 1883, proved to be thoroughly fire-proof. My store was burnt with others in the large fire that visited this town on the 20th inst., and the safe, with my stock, etc., was burnt. The safe I may say was red hot, so that the handles and deal were burnt off, and the outeide of the safe was warped and scaled by the heat; but on opening I foum everything inside in good order, and the writing is as legible as when first written, I have every confidence in recommending your sale to any requiring protection of that kind.

Yours truly;
부N N NINTHS,

[^0]:    J G. OURELL,
    ATTORNEY
    Solicitor, Conveyancer, \&c., 34, James St., N.
