Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

ECLIPSES FOR YEAR 1887.

IN the year 1887 there will be two Eclipses of the SUN and two of the MOON.

I.—A Partial Eclipse of the MOON, February 7-8, 1887, visible at Greenwich.

The first contact with the Shadow occurs at 52° from the Northernmost point of the Moon's limb towards the East.

The last contact at 27° towards the West; in each case, for direct image.

II.—An Annular Eclipse of the SUN, February 22, 1887, visible at Greenwich.

Begins on the Earth generally, February 22, 6h, 40m, 8, Mean Time at Greenwich, in Longitude $165^{\circ} 25'$ E. of Greenwich, and Latitude $37^{\circ} 39'$ S.

Central Eclipse begins generally, February 22, 7h, 58m, 7, in Longitude $146^{\circ} 47'$ E. of Greenwich, and Latitude $51^{\circ} 50'$ S.

Central Eclipse at Noon, February 22, 9h, 13m, 1, in Longitude $134^{\circ} 52'$ W. of Greenwich, and Latitude $49^{\circ} 10'$ S.

Central Eclipse ends generally, February 22, 11h, 7m, 4, in Longitude $69^{\circ} 27'$ W. of Greenwich, and Latitude $21^{\circ} 31'$ S.

Ends on the Earth generally, February 22, 12h, 25m, 4, in Longitude $91^{\circ} 41'$ W. of Greenwich, and Latitude $7^{\circ} 1'$ S.

III.—A Partial Eclipse of the MOON, August 3, 1887, visible at Greenwich.

The first contact with the Shadow occurs at 130° from the Northernmost point of the Moon's limb towards the East.

The last contact at 151° towards the West; in each case, for direct image.

At Greenwich the Moon will rise at 7h, 35m.

IV.—A Total Eclipse of the SUN, August 18, 1887, partly visible as a Partial Eclipse at Greenwich.

Begins on the Earth generally, August 18, 15h, 5m, 5, Mean Time at Greenwich, in Longitude $34^{\circ} 36'$ E. of Greenwich, and Latitude $37^{\circ} 27'$ N.

Central Eclipse begins generally, August 18, 16h, 11m, 1, in Longitude $11^{\circ} 25'$ E. of Greenwich, and Latitude $51^{\circ} 38'$ N.

Central Eclipse at Noon, August 18, 17h, 15m, 5, in Longitude $102^{\circ} 0'$ E. of Greenwich, and Latitude $53^{\circ} 47'$ N.

Central Eclipse ends generally, August 18, 18h, 53m, 2, in Longitude $173^{\circ} 32'$ E. of Greenwich, and Latitude $24^{\circ} 34'$ N.

Ends on the Earth generally, August 18, 19h, 58m, 9, in Longitude $153^{\circ} 26'$ E. of Greenwich, and Latitude $9^{\circ} 57'$ N.

NOTE.—The tide table in the calendar pages may be rendered applicable to various other places on the coast by simply adding or subtracting, as the case may be, the difference between the times of high water on the full and change of the Moon at St. John's, and the time of the full tide at any other harbor; for example, to find the time of high water at any of the principal harbors of Conception Bay, add 45 minutes to the time at which it will be high water at St. John's; for Piacentia Bay add 2 hours; for St. Pierre, 1h, 50m; for Ferolle, on the North-West Coast, 4 hours, &c.—[See table L VII of *Norie's Epitome*.]

A Table for telling the Weather through all the Lunations of each year, for ever.

This table is the result of many years actual observation; the whole being constructed on a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

MOON.	TIME OF CHANGE.	IN SUMMER.	IN WINTER.
	Between midnight and 2 1/2 in the morning.	Fair.	Hard frost unless the wind be south or west.
	Between 2 and 4 morning.	Cold, with frequent showers.	Snow, and stormy.
	Between 4 and 6 morning.	Rain.	Rain.
	Between 6 and 8 morning.	Wind and fair.	Stormy.
	Between 8 and 10 morning.	Changeable.	Cold rain if wind be west.
	Between 10 and 12 morning.	Frequent showers.	Snow, if east.
	At 12 o'clock, noon, and 2 P.M.	Very rainy.	Snow or rain.
	Between 2 and 4 P.M.	Changeable.	Fair and mild.
	Between 4 and 6 P.M.	Fair.	Fair.
	Between 6 and 8 P.M.	Fair if wind N.W.	Fair and frosty if wind N. or N.E.
	Between 8 and 10 P.M.	Rainy if S. or S.W.	Rain or snow, if S. or S.E.
	Between 10 and midnight.	Ditto.	Ditto.
	Between 10 and midnight.	Fair.	Fair and frosty.

OBSERVATIONS.—1. The nearer the times of the Moon's change, first quarter, full and last quarter, are to midnight, the fairer will the weather be during the seven days following.
 2.—The space of this calculation occupies from ten at night till two next morning.
 3.—The nearer to midday or noon the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
 4.—The space of this calculation occupies from ten in the forenoon to two in the afternoon.—These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.
 5.—The moon's changes, first quarter, full, and last quarter, happening during six of the afternoon hours—i.e., from four to ten, may be followed by fair weather; but this is mostly dependent upon the wind, as is noted in table.

No written communication shall be enclosed in any circular, periodical, pamphlet, book, book-parcel, or parcel for the parcel post; and no communication shall be written upon any circular, periodical, pamphlet, book, book-package, or parcel.

No letter, or any writing, or any marks to serve the purpose of a letter, shall be written upon or enclosed in any newspaper posted to pass as a newspaper.

All prepaid books, pamphlets and magazines, for Great Britain, Dominion of Canada, and United States, are charged the following rates when exceeding two ounces in weight.

- For packet above 2 ozs., and not exceeding 4 ozs., 2 cents;
- For packet above 4 ozs., and not exceeding 8 ozs., 4 cents;
- For packet over 8 ozs., and not exceeding 1 lb., 8 cents;
- and so on, adding four cents for every additional four ounces or fraction thereof, when the packet exceeds four ounces in weight.

Commercial papers, invoices, &c., are chargeable with five cents for the first rate of two ounces or fraction thereof, and four cents per four ounces or any fraction thereof over the first two ounces.

Books, trade patterns or samples, and all printed papers, other than newspapers, not exceeding two ounces in weight, are forwarded to the United Kingdom at the reduced rate of:—

For a packet not exceeding 2 ozs..... 2 cents.

All parcels containing books, patterns, newspaper or printed matter of any kind, must be so put up that the contents may be easily withdrawn for examination; if sealed, such packets become liable to letter rate and will be charged accordingly.

Unpaid books for the United Kingdom or other countries, will not be forwarded.

Letters for officers serving in Her Majesty's service abroad are chargeable with the ordinary rates of postage.

The attention of the public is called to the fact that the General Postal Union Treaty positively prohibits the transmission in the mails, of gold or silver money, jewels or precious articles, or any other article whatever liable to customs' duties. Therefore, correspondence originating in Newfoundland, and addressed to any of the countries of the Postal Union, whether ordinary or registered, should not contain these interdicted articles.

RULES OF RATING LETTERS BY BRITISH PACKET.

For all countries—under ½ oz., one rate; under 1 oz., two rates; under 1½ ozs., three rates; and so on, adding one rate for every ½ oz.

Letters posted in Newfoundland for delivery at any place within the Island, are charged three cents for every ½ oz., if prepaid, and six cents, unpaid.

Registration.

United Kingdom.....	4 cents.
United States, Dominion of Canada, West Indies	
Foreign Europe.....	5 cents.
Australia.....	12 cents.
Local.....	3 cents.
South Africa.....	6 cents.

Any letters found to contain coin, as well as any having the word "registered" written upon them, which may be posted in Newfoundland, will be forwarded to any part of the colony, charged

with a double registration fee. For United Kingdom, Foreign countries and Dominion of Canada, they will not be forwarded on any terms.

Money Order Branch.

Thomas S. Dwyer, superintendent; G. B. Lloyd, clerk.

Office hours: From 9 a.m. to 4 p.m.

Money orders are now interchanged with the United Kingdom, Dominion of Canada, Prince Edward Island, and United States, at the following rates of commission:—

ON THE UNITED KINGDOM.

Orders up to £2	6d. stg.
Orders over £2 and up to £5.....	1s. stg.
Orders over £5 and up to £7.....	1s. 6d. stg.
Orders over £7 and up to £10	2s. stg.

Maximum amount of order on the United Kingdom, £10.

OR CANADA, NOVA SCOTIA, NEW BRUNSWICK, PRINCE EDWARD ISLAND AND UNITED STATES.

Orders up to \$10.....	10 cents.
Orders over \$10 and up to \$20.....	20 cents.
Orders over \$20 and up to \$30.....	30 cents.
Orders over \$30 and up to \$40.....	40 cents.
Orders over \$40 and up to \$50.....	50 cents.

Maximum amount of single order, \$50.

ON INLAND ORDERS.

Orders up to \$10.....	5 cents.
Orders over \$10 and up to \$20.....	10 cents.
Orders over \$20 and up to \$30.....	15 cents.
Orders over \$30 and up to \$40.....	20 cents.
Orders over \$40 and up to \$50.....	25 cents.

Maximum amount of inland order, \$50.

No half-pence to be introduced in the orders. Business of Money Order office closes one hour before closing the mails by steamer.

SYSTEM.

1. Money Orders are made out in forms supplied for the use of the Money Order Offices.
2. Persons applying for Money Orders are recommended to use printed "Application Forms," printed for that purpose.
3. Place of payment of a Money Order may be changed in accordance with instructions provided therefor.
4. Alteration of payee's name may be effected by issue of a new Order and payment of commission thereon.
5. Applicants for Money Orders are expected to observe due care in the examination of the same, relative to filling and stamping; defect in Orders, when presented for payment, may cause difficulty and delay, for which the paying office is not to be held accountable.
6. Postmasters should be particularly careful to obtain from the person who presents a Money Order, whether the rightful owner or not, full information as to the Christian name, surname and address of the party who originally obtained it, unless such party

be a firm, when the name of the firm will suffice. *The only exception to this rule is*—When an Order is presented through the Bank, in which case it will suffice that the Order, being properly signed, be also crossed with the Banker's name.

7. As however, *After once paying a Money Order by whomsoever presented, the office will not be liable to any further claim, the public are strictly cautioned,*—

- 1st. To take all means to prevent the loss of the money-order.
- 2nd. To be careful on taking out an order, to state correctly the Christian as well as the surname of the person in whose favor it is drawn.
- 3rd. To see that the name of the person taking out the money-order is correctly known to the person in whose favor it is drawn.
8. Although, at the end of twelve months from that in which it was issued, a money-order, if still unpaid, becomes legally void; nevertheless, when a good reason can be given for the delay in presenting it, an application for payment, subject to a certain deduction is entertained.

The money-order offices are: General Post Office, St. John's; post offices at Baybills, Bonavista, Brigus, Burgeo, Burin, Bettcove, Bay of Islands, Bay Roberts, Blackhead, Catalina, Harbor Main, Holyrood, Kingscove, Channel, Carbonear, Ferryland, Fogo, Britannia Cove, Grandbank, Old Perlican, St. Georges, Shoal Harbor, St. Mary's, Greenspond, Heart's Content, Harbor Briton, Harbor Grace, LaPoile, Littlebay, Placentia, Rose Blanche, Trinity and Twillingate.

Foreign Countries.

Money-orders are issued in Newfoundland on the following Foreign Countries and British possessions:—

Foreign Countries—Belgium, Denmark, Danish West Indies, Dutch East Indies, Egypt, German Empire, Holland, Iceland, Italy, Japan, Norway, Portugal, Sweden, Switzerland.

British India—Including the Agencies of the Indian Post office at Aden, Bagdad, Bunder, Abas, Bushire, Busrah, Gardur, Jask, Linge, Muscat and Zanzibar.

British Colonies—Australia—New South Wales, Queensland, South Australia, Tasmania, Victoria, Western Australia and New Zealand.

Other Colonies—Bermuda, Ceylon, Falkland Islands, Hong Kong, including the Agencies of the Hong Kong Post Office at Amoy, Canton, Foo Chow, Hankow, Hollow, Ningpo, Shanghai, Swatow, and Straits Settlements.

South and West Africa—Cape Colony, Gambia, Gold Coast, Lagos, Mauritius, Natal, St. Helena, Seychelles and Sierra Leone.

West Indies—Antigua, Bahamas, Barbados, British Guiana, Dominica, Grenada, Honduras (British), Jamaica, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent, Tobago, Trinidad, Turks Island, Cyprus, and North Borneo.

9. Postmasters should recommend the use of money orders for the transmission of money, in preference to such transmission otherwise.

Suggestions to the Public.

Facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the public, by careful attention to the following recommendations :

Post all letters and newspapers, &c., as early as practicable, especially when sent in large bundles.

When a number of newspapers are addressed to the same office, put them up in one parcel.

When a number of circulars are posted, tie them up in a bundle, with the address all in one direction.

Address letters, papers, &c., in a legible and complete manner, always giving the name of the post office; and if there be more than one post office of that name the name of the district in which situated. In case of letters going abroad, the name of the country, as well as of the town and city, should be given in full. Letters, for example, intended for London, England, if simply addressed "London," would be forwarded to London, Canada West, and thus be delayed.

Letters, papers or parcels for outports should have the name of the district, the post or way office, distinctly written as part of the address. For instance, letters for Bonnebay, French Shore, are sometimes sent to Bonnebay, Fortune Bay district, being simply directed Bonnebay. There are several settlements named Broadcove, Littlebay, English Harbor, Blackhead, Bauline, Caplin-cove, Deer Island, Flat Islands, Fortune, Foxcove, Freshwater, Islandcove, Long Harbor, Burgeo, Newharbor, Salmoncove, Seal-cove, Shipcove, and, unless properly directed, are liable to go to the wrong office for delivery. The loss and inconvenience arising from imperfect directions, is caused by the carelessness of the sender, and no blame can attach to the post office. Other places, besides those named, have settlements with corresponding appellation, hence the necessity of being particular in addressing all letters, &c.

See that every letter, newspaper or other packet sent by post is securely folded and sealed. Every such packet has to be several times handled; and even when in the mail-bag, is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or other material which will not readily tear or break.

Fasten the covers of newspapers firmly, so as to prevent them from slipping out.

Fully pay postage on newspapers, otherwise you lose both papers and stamps, as such are not forwarded.

When dropping a letter or newspaper into a letter-box, always see that the packet falls into the box, and does not stick in its passage.

Never seal letters for the East and West Indies and other hot climates with wax. Such a practice is attended with much inconvenience, and frequently with serious injury, in consequence of the melting of the wax and the adhesion of the letters to each other. In all such cases use wafers or gum, and advise your correspondents in the country referred to to do the same.

Never send money or other articles of value through the post-office, except either by means of a money-order or in a registered letter. "Any person who sends money or jewelry in an unregistered letter, not only runs the risk of losing his property but exposes to temptation every one through whose hands his letter

passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin." Carefully secure every letter or packet containing money or value, first with gum and afterwards with good sealing wax, on which mark the clear impression of a seal. This only applies to local correspondence, the forwarding of such articles to other countries being prohibited.

On posting a registered letter or packet, always obtain a receipt for the same at the office where posted.

When letters or newspapers are delayed and missing, at once communicate the fact to the postmaster of the division in which is situated the post office at which the delayed or missing letters were posted. In case of a missing letter enclosing value, state the exact contents, the exact address, and the office at which posted; the name of the person by whom posted, and the name of the person by whom received at the office. In the case of a delayed letter or paper, send the cover or wrapper in an entire state, in order that the place of delay may be ascertained by an examination of the postmarks.

Trouble and loss occasionally arise out of the carelessness or dishonesty of parties employed in the post-office service; yet instances are not wanting in which it has been shown to the satisfaction, even of the complainants, that the fault at first attributed to the post office, in truth rested in other quarters. Theft by private hands, although very difficult of proof, has frequently been brought to light, and it is greatly to be desired that those who suffer loss should in the first instance, and while the circumstances are fresh, endeavor to ascertain with the utmost precision all particulars respecting the despatch or receipt of the lost letters or papers, and lose no time in communicating the information to the postmaster. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of a department or not.

The Post Office is a department which admits of constant improvement and expansion. The public, by sending to the Postmaster General clear and correct information respecting faulty arrangements, may materially benefit the service. It must be remembered, however, that changes in machinery so extensive and intricate as that of the post office, must be made cautiously and with much previous consideration.

Time is generally required to carry out any material change in postal arrangements; for even when decided upon, old contracts, requiring notice of termination, may have to be got rid of, and tenders for new contracts invited by public advertisements, before the decision can take effect.

New post offices are established by the department wherever it is ascertained that a sufficient number of inhabitants can be accommodated, and a sufficient amount of postal revenue collected to warrant such a measure. When a new post office is required, a petition should be addressed to the Postmaster General, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the settlement and district in which it desired the office should be established; the distance from the neighboring offices; whether at the site of the proposed post office there is a village; the number of mills, stores, taverns and houses thereat; the extent of the settlement to be served, and the probable cost of the mail, together with any other facts that may form any ground for the accommodation applied for.

FOG SIGNALS.

These will be sounded day and night during the continuance of thick weather or snow-storms.

No.	Date.	Name of Place.	Description of Signal.	Intervals of Sound.
1	1877	Cape St. Francis.	Powerful <i>Siren Trumpet.</i>	Sounded five seconds, silent five seconds; sounded five seconds, and silent forty-five seconds in each minute.
1	1883	Green Island, Catalina.	<i>Champion Fog Horn.</i>	Sounded for five seconds with intervals of silence of thirty-five seconds.
		Fort Amherst.	Three pound charge from a 32-pounder gun.	During daylight and when Cape Spear is enveloped in fog this will be discharged every hour. A vessel's gun will be answered by two guns.
2	1878	Cape Spear.	<i>Compressed Air Trumpet.</i>	Sounded for 7 seconds in each minute. House 600 yards N. N.E. of the lighthouse. This alarm is seldom heard to the southward of its position.
1	1872	Cape Race.	Powerful 19 inch <i>Steam Whistle.</i>	Sounded for ten seconds, with intervals of silence of fifty seconds in each minute.
1	1882	Powles Head, near Trepassey.	<i>Courtenay Automatic Whistling Buoy.</i>	Bearings from the buoy, Powles Head, N.E., distant $1\frac{1}{2}$ miles. Cape Pine W. $\frac{1}{3}$ S., Freshwater Point S.E. $\frac{1}{4}$ E. The buoy will be taken in at the commencement of winter, and re-moored in the spring as early as the weather will permit.

The attention of Mariners is particularly called to the extreme *uncertainty* there is in the range of sounds. A signal that may not be heard under certain conditions of the atmosphere more than one or two miles, will under others reach twenty or more miles.

J. T. NEVILL, Inspector of Lighthouses.

Light Dues.—Twenty-four cents per ton on all vessels entering any port or harbor in the colony, except coasting, sealing or fishing vessels; but not to be levied more than once in one year. Sealing and coasting vessels—twelve cents per ton on registered vessels of 40 tons and upwards; three dollars and forty-six cents on vessels less than 40 tons.

The 19th of Victoria, cap 5, sec. 5, enacts—"That no greater sum than \$115 shall be in any year levied for light dues on any steamer or vessel entering any port of this colony; and no steamer plying between Europe and any port of North America, and enter-

ing any port of this colony, as a port of call, shall be liable to pay any light dues or other port charges except pilotage."

Gallantry Head, Island of St. Peter's.—A White Flash Light. Elevation above high water, sixty-four metres (204 English feet). Distance at which the light is visible—18 miles. The light is hidden at the northward by the high land of St. Peter's.

Light at the south entrance of St. Peter's.—Since the 1st October, 1862, the entrance of the harbor of St. Peter's, called South Channel, has been marked by two small fixed lights, one of which is a White Light, illuminating three-fourths of the horizon, and placed on the battery, and the other a red light, on the plain at the north of the town. The white light has an elevation of 11 metres, and is visible six miles. The red light is elevated nineteen metres, visible three miles distant. The line connecting these two lights indicates the middle Channel.

The position of the red light has also been so determined, that as soon as it is seen on the left of Cape Eagle, vessels coming from Columbiæ, in beating into the Northeast entrance, will have nothing to fear from the shoals of Cape Rogue.

Light on the Southwest Point of the Island of Dogs, called Pointe a Leconte.—From the 1st August, 1874, a light has been exhibited on the Southwest Point of the Island of Dogs, at the place called Pointe a Leconte, at 400 metres (437 English feet) above the level of the sea. It will be seen in clear weather seven miles. The extent of the light is circumscribed in a sector of 163°, presenting two cones of light; one white of 40°, will light the passage of the Southeast, so as to permit vessels, which maintain position within this cone to avoid at the right the shoal Bataille, and to the left the rock of Cape Noir, and the rock Bertrand. The second cone is red, of 130°. It should be avoided by vessels entering by the Southeast passage, and will enable them, when they have quitted the white cone, to come to anchor in the roadstead, or in the Barachois, in following the line of the white light from Point aux Cannons, and of the red light from the interior of the city.

A Lighthouse has been erected by the Government of Canada on the western side of Cape Ray, on the southwest coast of the Island of Newfoundland—latitude 40° 37' North, longitude 50° 18' West. A powerful flash white light is exhibited, making a complete revolution in two and one quarter minutes, and flashing every ten seconds; at a long distance, however, it has the appearance of a steady light. The light can probably be seen at a distance of 20 miles in clear weather.

The tower is a wooden building, hexagonal in shape, forty-one feet high, and painted white. The keeper's dwelling, also of wood, stands at a little distance from the tower, and is also painted white.

The illuminating apparatus is Catoptric, and consists of twelve lamps and reflectors.

A fog whistle is in operation at Cape Ray. It will be blown in thick and foggy weather, and during snow-storms for ten seconds in each minute, leaving an interval of fifty seconds between each blast. It can be heard from three to fifteen miles.

Table of Exemptions.

The following Articles imported into this Colony and its Dependencies shall be exempt from payment of Duty:—

- Agricultural implements and machinery imported by agricultural societies for the promotion of agriculture.
- Arms, clothing and provisions for Her Majesty's land and sea forces.
- Articles imported for religious purposes, not intended for sale.
- Articles of every description imported for the use of the Governor.
- Articles for the official use of foreign consuls.
- Bait, bark for tanning leather, boiler and ship plates.
- Coals, when not imported or brought into ports of St. John's, Harbor Grace, or Carbonar.
- Coin and bullion; coke, cotton yarn, cotton (raw).
- Corn for the manufacture of brooms.
- Crushing mills for mining purposes.
- Donations of clothing specially imported for gratuitous distribution by any charitable society.
- Dye stuffs.
- Fresh fish, including oysters in shell; Fish of British catch and cure, and oil, the produce of such fish.
- Fruit, not being canned, bottled or preserved, and not otherwise enumerated.
- Gas engines, when protected by patent.
- Hemp, hemp-yarn, coir-yarn, sisal manilla, flax and tow.
- Hides, or pieces of hides, not tanned, curried or dressed.
- Household furniture, and working tools and implements, used and in the use of persons arriving in this colony.
- Junk, old iron, old copper and old composition metal.
- Manures of all kinds.
- Materials for sheathing the bottoms of vessels, such as zinc, copper and composition metal, together with nails and paper, or felt, which may be used for or under such sheathing, when used for sheathing the entire bottom of the vessel in which the same is imported.
- Music, written or printed.
- Passengers' baggage.
- Pig iron, nail strips, whether iron, zinc or brass, to be used in the manufacture of cut nails in this colony.
- Plants, trees and shrubs.
- Ploughs, harrow, reaping, raking, ploughing, potato digging and seed sowing-machines, to be used in this colony.

It shall not be lawful for any importer of fish to warehouse the same in any of the ports of this colony and its dependencies, without the payment of the duty hereinbefore provided, of one dollar and fifty cents per quintal, so warehoused, and the provision of any act of this colony with regard to the warehousing of goods on the first entry thereof, or to the allowance of drawback on exportation shall not in either case apply or be construed to apply to such fish.

HARBOR MASTER AND HARBOR DUES.

Harbor Master—Staff-commander Robinson, R.N.

Harbor Dues—The following amounts, as harbor dues, shall be paid by vessels arriving at the port of St. John's at the time of their being entered at the Custom-house, except ships of war and vessels engaged in the coasting trade and fishing, viz:

Every vessel of sixty tons and upwards, and not more than one hundred tons, \$2.

Every vessel of more than one hundred tons, and not more than two hundred tons, \$3.

Every vessel of more than two hundred tons, and not more than three hundred tons, \$4.

Every vessel of more than three hundred tons, and not more than four hundred tons, \$5.

Every vessel of more than four hundred tons, \$6.

Provided: That no vessel shall be compelled to pay harbor dues more than once in every half year, viz: Once between the first day of January and thirtieth day of June, and once between the thirtieth day of June and first day of January.

EXAMINATIONS OF MASTERS AND MATES.

Qualifications for Certificates of Competency for a Foreign-Going Ship.

EXAMINATION IN COLORS.—All candidates for certificates of competency must pass the examination in colors.

AN ONLY OR FIRST MATE.—An only mate must be 19 years of age, and must have served five years at sea.

A first mate must be 19 years of age, and must have served five years at sea, of which one year must have been as second or only mate. He must also prove that he has served at least one year in a square-rigged sailing vessel.

IN NAVIGATION, &c.—He must write a legible hand, and will be required to give in writing definitions of various astronomical and other terms used in navigation. He must have a competent knowledge of the first five rules of arithmetic, and the use of logarithms. He must be able to work a day's work complete, correcting the courses for deviation, leeway and variation. He will be required to find the latitude by meridian, altitude of the sun, and the difference of longitude from a given departure by parallel sailing; also to find the course and distance from one position to another by Mercator's method. He will be required to find the time of high water at a given port, to observe and calculate the amplitude of the sun, and to find the error of the ship's compass therefrom, and also the deviation, the variation being given. He must be able to find the daily rate of the chronometer from error observed, and to find the longitude from altitude of the sun by the usual methods. He must understand the use of the sextant with its adjustment, and be able to observe with it, find the index error by the horizon, and read off and on the arc. He must also pass a satisfactory examination in the International code of signals.

In addition to the qualifications of second mate above stated, he must be able to find the true bearing of the sun, and error of the ship's compass from an observed azimuth of the sun, both from an altitude and also from the "Time Azimuth Tables," and with the variation given compute the deviation; to find the latitude from a single altitude of the sun off the meridian, and to be able to use and adjust the sextant, and to find the index error by the sun; and also to ascertain the true bearing of the sun, and the ship's position by Sumner's method by projection. He must also be conversant with the use of Mercator's chart, and be able to find on either a "true" or "magnetic" chart the course to steer, and the distance from one given position to another, and find the ship's position on the chart from cross-bearings of two objects; from two bearings of the same object; the course and distance between the bearings being given; and also the distance of ship from the object at the time of taking the second bearing. He must also understand how to keep a ship's log book, and answer certain questions relating to cyclones or revolving storms.

IN SEAMANSHIP, &c.—He must give satisfactory answers as to the standing and running rigging of ships; as to bending, unbending, setting, reefing, taking in, and furling sail; as to sending masts and yards up and down, &c., &c.; as to the management of a ship when under canvas, and as to dunnaging and stowing cargo, &c. He must have a thorough knowledge of the rule of the road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals; and to be able to describe the signals of distress, and the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals. He must be able to mark and use the lead and log line. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded, and other questions of a like nature appertaining to the duties of the second mate of a ship.

In addition to the above qualifications, a more extensive knowledge of seamanship will be required as to shifting large spars, rigging shears, taking lower masts in and out, how to moor and unmoor a ship, and to keep a clear anchor, to carry out an anchor, how to manage a ship in stormy weather, how to cast a ship on a lee shore, how to secure masts in the event of an accident to the bowsprit, and how to rig purchases for getting heavy weights, anchors, machinery, &c., in and out. He must give satisfactory answers as to the ventilation of holds and the stowage of explosives. He must also know how to rig a sea anchor, and what means to apply to keep a vessel disabled or unmanageable out of the trough of the sea and lessen her lee drift; how to get the cast of deep sea lead in heavy weather; and answer any question appertaining to the duties of an only or first mate which the examiner may think necessary to put to him.

In addition to the above, he will be required to describe the effect of the screw race on the rudder, and the effect produced on the direction of the head of the ship by going (ahead) (astern) with a (right) (left) handed screw when the rudder is (ported) (starboarded). How to turn a steam ship short round. He must also understand the use and action of the sluices, and of the water ballast tanks, and the engine room telegraph, and questions of a like nature.

A master must be 21 years of age and have been 6 years at sea, of which one year must have been as first or only mate in a foreign going ship and one year as second or only mate. He must also prove that he has served at least one year in a square rigged sailing vessel in the capacity of either apprentice, seaman, mate or master.

IN NAVIGATION.—In addition to the qualifications required for a second, only and first mate, he must be able to compute the latitude from the meridian altitude of a star, to find the magnetic bearing from equal-distant compass bearings, of any fixed object when at sea, and compute the deviation therefrom. He must construct a deviation curve upon a "Napier's" diagram, which will be furnished by the examiner, and understand the practical application of the same, and give written answers to certain practical questions on the effect of the ship's iron upon the compasses, the method of determining the deviation, and compensating the same by magnets and soft iron. He will be required to find the course to steer by compass in order to counteract the effect of a given current, and find the distance the ship will make good towards a given point in a certain time, and to work out practically the correction

to apply to soundings, taken at a given time and place to compare with the depth marked on the chart. He will also be required to answer certain questions relating to cyclones or revolving storms.

IN SEAMANSHIP.—In addition to the qualifications required of an only or first mate, he must be able to construct jury-rudders for both wooden and iron vessels and also rafts. He will be examined as to his resources for the preservation of the ship's crew in the event of wreck; as to the management of ships in heavy weather, and as to rescuing the crew of a disabled ship; as to steps to be taken when a ship is on her beam ends or in any danger or difficulty, or if disabled or unmanageable and on a lee shore, heaving a keel out, &c. He must explain the mode of procedure when placing ship in dry dock, directing repairs, and if putting into port in distress with damage to cargo and ship. He must possess a sufficient knowledge of what he is required to do by law as to entry and discharge and the management of his crew, and as to penalties, and entries to be made in the official log, and a knowledge of the measures for preventing and checking the outbreak of scurvy on board ship, and the law as to load line marks, and the entries and reports to be made respecting them. He will be questioned as to his knowledge of invoices, charter party, bills of lading, Lloyds' agent, and as to the nature of bottomry, also bills of exchange, surveys, averages, &c., and must answer any other questions of a like nature which the examiner may consider necessary to touch upon.

He will also be required to give satisfactory answers as to his knowledge of the management of steam ships in heavy weather. How to utilize steam appliances in the event of fire, and the best arrangements for towing vessels under various circumstances; as to the methods of constructing jury-rudders suitable for a screw steam ship, and other questions of a like nature appertaining to the management of a steamship.

A candidate possessing a certificate "for fore-and-aft rigged vessels only," and desiring to obtain an ordinary certificate of the same grade, must prove that he has served at sea at least one year in a square-rigged sailing vessel, and will be re-examined both in navigation and seamanship.

FAILURE.—In all cases of failure the candidate must be examined *de novo*.

If a candidate fails in seamanship he will not be re-examined until after a lapse of six months.

If he fails three times in navigation he will not be re-examined until after a lapse of three months from the date of the last failure.

If a candidate has failed in his examination, but the subjects in which he has failed are not included in the subjects required for a certificate of a lower grade, he may, if he desires it, receive a certificate of such lower grade.

No part, however, of the fee he has paid will be returned to him.

Any candidate who may be guilty of insolence to the examiner, or of other misconduct, will render himself liable to the postponement of his examination, or if he has passed, to the detention of his certificate for such period as the Governor in Council may think fit to direct.

Difference between the course and the SECOND bearing

RULE.—Multiply the distance run in the interval between the two bearings by the number found in the table under the difference between the course and first bearing, and opposite the difference between the course and second bearing. The product is the distance at the time the second bearing was taken.

EXAMPLE.—A light-house, when first seen, bore W.N.W.; after running W. by S. 16 miles, it bore N. ½ W. Required, its distance when the second bearing was taken.

Difference between course and first bearing = 3 points.

Difference between course and second bearing = 8½ points.

Corresponding tabular number = 0.63.

And 16 × 0.63 = 10.08 miles, the distance required.

APPENDIX.

The following appointments have been made since the foregoing sheets went to press:

Road and Education Boards.

Robt. Facey, William Batson, Jacob Penny, Sprague Freeman, James Moody, Henry Geo. Barnes and Martin Miller, to be a Road Board for Salmoncove and English Harbor.

Henry F. Moore, John Moore and James Biles, to be a Road Board for St. Anthony, District St. Barbe.

Robert Fudge, to a member of the Road Board for Dark Tickle, Nimrod and Troytown (District of Twillingate).

Wm. Eaton, to be a Road Commissioner from North West Arm to Bay-de-Verde, (District of St. Barbe).

Solomon Miller (Chancecove), Daniel McCarthy (Tickle Hr.), Benjamin Rowe (Chancecove), Uriah Thorne (Colliers Bay), to be a Board of Road Commissioners for Tickle Harbor, Colliers Bay and Chancecove, in the District of Trinity Bay.

Eli Martin (Little Hearts Ease), to be a member of the Foxharbor (S. W. Arm, Random) Road Board.

James Hicks, to be a member of the Rocky Bay (District of Fogo) Road Board.

Henry T. Holmam, J.P., of Harbor Briton, to be a member of the out settlements, (Fortune Bay) Road Board, in the room of Rev. W. K. White, deceased.

To renumber the Road Board Divisions, and subdivide Division No. 2, in District of Bay-de-Verde, and make the following appointments to the same:

To Division No. 1, Freshwater to Perry's Cove, (both inclusive)— John Swaine, Thomas Rose, William Davis, William Lamb, Edgar Kellaway, George Everley, Francis Davis.

To Division No. 2, Spoutcove to Adams Cove, (both inclusive)— George E. Moores (Blackhead), Thomas Diamond, James Evans (Adams Cove), William Lacey, Joseph Thistle (Mulleys Cove), George Baggs, Jabez LeGrow (Broadcove), Thomas Trickett (Spout Cove), Robert Jeans (Broadcove).

To Division No. 3, Western Bay to Ochrepite Cove (both inclusive)— Wm. Kennedy, Lorenzo Crummy, James Crowley, Richard Walsh, Archelaus Halfyard (Ochrepite Cove).

To Division, No. 4, Smooth Cove to Gull Island (both inclusive)— Rev. Michael Hanley, Mark Puddister, Jacob Moores, James March, Willis Moores, Michael Doyle (Gull Island).

To Division No. 5, Burnt Point to Caplin Cove (both inclusive)— George Cull, Edwin Turner, Eli Garland, George Cooper, Charles Shano (Burnt Woods), John Louis, J.P., Thomas Tucker (Burnt Point), William Halliday, Richard English (Job's Cove).

To Division No. 6, Low Point to Bay-de-Verde (both inclusive) James Moore (Bay-de-Verde), Wm. Lockyer, Jas. Emberley, sr., Henry Duffet, John Neal, Dennis Noonan, John Hearn (Lowpoint).

To Division No. 7, Old Perlican to Daniel's Cove (both inclusive)— William Christian, J.P., Levi Burt, Nathan March, Moses Bursley, John Froude, William Cox, Joseph Tizzard.

To Division No. 8, Grates cove to Redhead Cove (both inclusive)— Benjamin Benson, William T. Avery, Ebenezer Vey, Jeremiah Broderick, Jonah Avery, Joshua Benson.

His Excellency the Governor, in Council, has been pleased, under the provisions of the Education Act, 1879, Cap. V., to alter and change the boundaries of the following Church of England Educational Districts:—

1.—The district of Fogo shall consist of and include all that part of the Electoral District of Fogo, from Ragged Harbor to Gander Bay, exclusive, including the Island of Fogo, and Indian Islands.

2.—The district of Herring Neck shall consist of and include all that part of the Electoral District of Fogo, from Gander Bay, inclusive, to Cape Farewell, including Change Islands, and all that part of the Electoral District of Twillingate, lying between Change Island and Merritt's Harbor, inclusive: the board to meet at Herring Neck.

3.—The district of Twillingate shall consist of and include all that part of the Electoral District of Twillingate from Merritt's Harbor, exclusive, to Comfort Head, inclusive.

4.—The district of Exploits shall extend from Comfort Head to Wards Harbor, including all islands and settlements within said limits.
