The rescue was accomplished at imminent risk of the lives of the men, while a hundred spectators looked on in terror. Risking his life in trying to jump aboard a Bathurst street car as it was passing the Queen's Hotel about six o'clock last night Samuel Finnberg of 42 Elizabeth st., a newsboy about two feet high, missed his grasp and was thrown out against the curb. Some men on the street carried him into the ladies' waiting room of the Queen's Hotel, where they found that he had been rendered unconscious by the force of his fall.

When the lad regained consciousness he noticed a burly policeman standing over him and with a scream jumped to his feet. His first thought was that the constable had come to arrest him for "jumping the cars."

But the officer picked the boy up in his arms and carried him to a motor car, in which he was taken to his home.

HELD BIG PICNIC AT QUEENSTON HEIGHTS

Seventeen Hundred Attended Annual Outing of Ward Four Tories and Enjoyed a Fine Program of Sports, Games and Fun Making—Addresses Given.

Even if the Conservatives of Ward Four were not such adepts at picnicking that their annual outing could not be other than a great achievement, the presence of Col. the Hon. Sam Hughes, M.P., and General Sir Ian Hamilton at yesterday's jaunt would have ensured a happy day. These two gentlemen, who are spending a few days in the Niagara district looking over the battlefields of 1812-14, arrived at Queenston Heights by automobile during the morning and by a brace of snappy, good-humored speeches caused the crowd to forget that there were clouds in the sky and thunder showers in the probability.

The raft did not come tho, and the seventeen hundred constituents and friends of ward four who took the trip across the lake were convinced before the day was over that clouds are a good thing when they do nothing worse than threaten.

Lots of Buttermilk.

It was not long before the old-timers of ward four picnicking got scent of the buttermilk which goes free on this annual occasion. It is not recorded that anyone ever got drunk on buttermilk. But if anyone ever did it was at a Ward Four Conservative picnic.

BANK GOVERNOR IS OPTIMISTIC

Sir Felix Schuster Says Monetary Depression Will Be Followed by Rapid Recovery.

LONDON, July 23.—Sir Felix Schuster, governor of the Union of London and Smith's Bank one of the highest authorities in Europe on business and banking, expressed himself in optimistic terms upon the outlook for the stock exchange markets at today's meeting of the bank directors.

"A reaction must soon set in," said Sir Felix referring to the present monetary depression "and when recovery takes place I believe it will be as rapid as was the fall in prices. I think it highly probable that investors' attention will turn itself once more to home securities, which now yield such tempting returns. The continuance of disastrous wars in the Balkans and the preparations for war elsewhere could not but be of the greatest importance in financial affairs, and I think it reflects great credit upon the money markets of Europe that the strain has been stood so well, for the economic loss has been enormous."

Said Five Years Ago That the United States Did Not Want Colonies or a Navy.

PARIS, July 23.—(Can. The newspaper says that Mr. Bryan's rapid change of opinion, as manifested in his statement to the senate, shows once more the practical spirit of the American who knows how to cast off mere theories when the future of his country is at stake.

GLIMPSSES AT GIDEONITES

By DR. QUILL

The Gideonites will arrive in Toronto today. They are traveling men. On their beats they are known as drummers. But once a year they break loose from their old circuits, leave their cases in the office and sample new degrees of all new lines of railway, new companionship with "the boys" and a new brand of drumming. They are then called Gideonites and are on the road to their annual convention.

But the sword in the hands of this host who are now entering our gates is the Holy Bible. For part of their special service to humanity is to place a copy of the Holy Scriptures in every bedroom of hotels. Their fighting piety, therefore, is the grand campaign of all battles—the conquest to man's self.

Take the old Hebrew story of that great hero. It was a time of long and ferocious wars. For Media and Israel were in a life-and-death struggle. The odds were with the idolator.

Their Bow-Wow (65 of 'Em) Honeymoon.

"Love Me, Love My Dogs," (65 of 'Em) Cried America's Richest Heiress—and So Bride, Bridegroom, Love and the Pups (Still 65 of 'Em) Are Off on the Wedding Trip Together

"Everybody expects a bride and groom to be all wrapped up in each other. But with sixty-five dogs along on their wedding trip, how could they be? Figuratively, at least the bridegroom was always on the roof."

JENNIE CROCKER, the wealthiest heiress of the Pacific Coast, daughter of the late Colonel Fred Crocker, and most intimate friend of "Bobby" Sears, of Boston, is on her wedding trip with sixty-five dogs, and her husband. Her husband is Mr. Malcolm Whitman, son of Mr. William Whitman, one of the ten richest men of Boston, ex-tennis champion, millionaire in his own right and all-round athlete. He was a widower with two small children when he fell in love with the Western heiress and her dogs.

Long before Miss Crocker fell in love with Mr. Whitman she was in love with her dogs. She has more than one hundred. Her kennels are valued at \$100,000. And now she is travelling around the country with sixty-five of these dogs and a husband.

These precious blue-blooded Boston bull terriers have a special car. They have special maids and valets. They have special food, special water, and the most marvelous bed baskets. The car is attached to the special in which the bride and bridegroom are travelling. The "Dog Special" is well known along the roads on which it is travelling. Mrs. Whitman gave orders at the start of this curious "Dog Honeymoon" that every care should be given the dogs, even if she and Mr. Whitman had to suffer.

do anything to estrange said sixty-five dogs from their devoted mistress. I promise to be always gentle, kind and true to said sixty-five dogs, to love and cherish them, so long as they shall live.

The day after these extraordinary promises were made the engagement was announced, and Mr. Whitman urged an early marriage. Perhaps he hoped that those pre-nuptial vows might be forgotten. But alas, alack! Those fond barks haunt him still, and he has been married four weeks. He has had, he says, "four weeks of 'dog-gone' happiness."

"Of course, we can be married in July. We might as well get the fuss over with, but dear, oh dear, I cannot be separated from my Fifi Bee, my Chiffon Gray, or darling little Panky Pink," spoke the dog-loving heiress, when Mr. Whitman insisted that July 16th should be the happy day, dogs or not.

And mentally cursed the day he had promised to be gentle and kind to those sixty-five dogs.

"Listen to my latest plan," said the noble Boston bred fiance. "You shall not be separated from the dogs. They shall go with us on our wedding trip!"

"Dogs on our wedding trip! Joyous! Joyous! Panky Pink to be our constant companion! Oh, my dear Malcolm! How happy you are making me! But how can we manage it? We cannot go to England, then. You know, dear, when I went to London that year to be bridesmaid for my cousin, Jean Reid, the horrid authorities would not let me take my dogs with me. I had to keep the darlings on board a barge off the coast, and oh, they were so seasick! I could not go through that agony again, even to marry you, my dearest one."

And the trip to Honolulu was cancelled. All on account of a dog!

But Mr. Whitman was equal to the occasion. "We will spend our honeymoon here in California, my dearest," he whispered to the sad-hearted dog lover. "I have leased the McCloud River Country Club for a fortnight. We can have all the dogs there, and when we are not hunting or fishing you can be surrounded by the whole sixty-five." And he added to himself, "It is dollars to doughnuts that the dogs will at last take a back seat."

But they did not! The fortnight at the big Country Club, run by the Crocker servants just for the bride and bridegroom, was a phantasmagoria of Boston bulls, Great Danes, French poodles and love-making. There was mighty little time for the latter!

Always there was a dog to be petted, to be patted, to be fed, to be worried over. The bridegroom rebelled. "My dear," he said on the last day of the fortnight, "do you realize that every step we take is dogged!"

Simple Treatment for Removing Hair

(Modes of Today)

A quick, harmless, painless way to remove unwanted hairs is to make a paste with a little salicylic acid and water. This should be applied to the hairy surface for two or three minutes, then rubbed off and the skin washed. This simple treatment banishes every trace of hair or fuzz and leaves the skin without spot or blemish. No harm can result from using the delicate treatment, but care should be exercised to see that you get real delatone.

Frequent applications of pyroxin at lash roots will, thumb and forefinger will make them grow long, silken and curly, greatly adding to woman's physical charms. Rubbing pyroxin on eyebrows makes them come in, thick and glossy. Use care and don't get any pyroxin where no hair is wanted.

7897 Plain Gumps or Blouse for Misses and Small Women, 14, 16 and 18 years.

PERFORATED FOR SQUARE OR ROUND YOKES AND FOR SQUARE OR ROUND NECK, IN FULL LENGTH WITH OR WITHOUT PEPLUM OR IN HALF LENGTH WITH OR WITHOUT SLEEVES THAT CAN BE MADE LONG OR SHORT.

No single garment is more generally used than the gumps. Since this one can be made in a number of different ways, it seems to fill all needs. Open necks have brought the demand for a great many short and sleeveless gumps and this one treated in that way is perfectly satisfactory for the entire garment with sleeves sewed to the armholes in the one piece to be needed for many occasions.

On the figure, it is shown just as a gumps of plain material with a facing of lace but, in the back view, there is a suggestion for a simple blouse that is in every way attractive for plain waists are so much worn that the one model answers both purposes. The sleeves are made in one piece each with slight fullness at the shoulders.

For the 16 year size, the gumps will require 2 1/4 yards of material 27, 1 1/4 yards 36 or 1 3/4 yards 44 inches wide with 1/2 yard 18 inches wide for the collar and shorter yoke facing, 1/4 yard for the deep yoke and cuffs for elbow sleeves.

The pattern of the gumps 7897 is cut in sizes for girls of 14, 16 and 18 years. It will be mailed to any address by the Fashion Department of this paper, on receipt of 25 cents.

METHODISTS ARE OPPOSED TO UNION

Attempt to Bring About Fusion With Anglicans Ends in Disaster.

LONDON, July 23.—(C. A. P.)—Another attempt which ended disastrously, was made by the Plymouth Conference today to bring about fusion of Methodists and Anglicans.

Rev. Beman Shepherd moved that "before steps are taken to secure corporate union with other Methodist or Free Churches, enquiry be made with a view to ascertaining if such union could first be effected with the other Church of England."

Rev. Dr. Moulton agreed many things could be learned from the Church of England, but the two denominations could be more friendly as separate entities, than in coalition.

"Were they," he asked, "to be committed to membership with a church which included those who barely differed in doctrine from the Church of Rome?"

The motion was defeated by a large majority. Rev. Dimsdale Young was elected president for the ensuing year.

PRINCESS LOUISE HEAVILY IN DEBT

Value of Her Inheritance Comparatively Small—May Be Compromise.

BRUSSELS, July 22.—(Can. Press).—Princess Louise of Belgium, the eldest daughter of the late King Leopold, it is understood, is involving extraordinary territorial claims, her debts which are alleged to amount to \$3,200,000. The value of Princess Louise's estate is estimated at about \$1,000,000. She has not resided in Belgium for several years.

The situation is expected to influence the government to offer a favorable compromise in the matter of her inheritance from her father. Recently the court of appeals dismissed the claim of the three daughters of the late king, to the entire Congo property left by him, valued at nearly \$14,000,000. The government, however, recognizes that they are entitled to some compensation.

PRICELESS STOLEN BUST FOUND BURIED IN CELLAR AT BALTIMORE

Taken From National Museum in Athens Fifteen Years Ago, Marble Statue Priceless in Value Was Located When Young Greek Informed an Uncle.

BALTIMORE, Md., July 23.—Because he was cruelly treated, as he alleges, by his uncle and also to secure a reward, Charles Nemphos, a Greek, informed the police recently that his uncle, of the same name, who keeps a confectionery store at No. 3446 Chestnut avenue, had a marble bust of a girl which was stolen from the National Museum in Athens 15 years ago.

The Greek legation at Washington was communicated with and Dr. Alexander C. Vouros, the charge, came to Baltimore on orders from the government, and accompanied by detectives, went to Nemphos' place, where an all night search was made and the third degree was administered.

"Finally Nemphos declared that he knew where the statue was, and if the detectives came in the morning, he would take them to it. Nemphos' nephew had told them it was buried in the cellar and the uncle this morning pointed out the spot and the bust was dug up. It is much chipped.

The marble, which shows the head and shoulders of a girl about 15 years old, is said to be one of the finest and most beautiful of ancient Greek sculpture. It is of Parian marble. Its age is placed at 3000 years and it is valued at \$350,000.

It is estimated to be 800 years older than the famous Venus de Milo. The Greek Government spent thousands of dollars searching for it. This afternoon the bust was turned over to Dr. Alexander Vouros, who was slated over its recovery.

"The actual value of the statue's work of art, probably is not so great," Dr. Vouros said, "but it has pronounced sentimental and historical value."

The nephew declares that his uncle had another statue which he sold seven years ago for \$6000. The uncle denies this, and explains his possession of the one excavated by saying it was left in a cellar by a fellow countryman for a loan.

CHEERFUL PLAY FOR NEXT WEEK

"The Dawn of a Tomorrow" Will Be Given by Miss Haswell.

The play, the next popular star to be seen in the role of "Glad" will be Miss Percy Haswell, who will present the play at the Alexandra Theatre. It is a good natured comedy that these three noted women and great persons should be seen in the same character on the same stage. Mrs. Frances Hodgson Burnett's charming story is a delightful lesson in how to make others happy and illustrates how much good one can do if the heart is in the right place.

Prices quoted yesterday were: cucumbers, 50c-75c a basket; cabbage, \$1.00-\$1.25 a box of a dozen heads; beets, 25c-30c a basket; apples, Canadian, 30c-50c a basket; peaches, \$3.25 a bushel; cherries, 90c-\$1.00; American potatoes, \$3.25 a barrel; tomatoes, Canadian, \$1.75 a basket; mushrooms, American, \$2.00-\$2.75 a bushel; black currants, \$1.75 per basket; red currants, 90c-\$1.00 a basket; gooseberries, 50c-\$1.00; wax beans, 40c a basket; green beans, \$1.50 a hamper.

TWO FINE ATTRACTIONS.

The polo game played on bicycles every evening at Seaside Beach Park is another feature of a novelty to draw unusually large crowds, and no doubt we shall see numerous imitations of this attraction in the future, for it is a decided acquisition to the vaudeville stage. D'Urban's Royal Italian Circus has been long enough in Toronto to require no further advertisement. Those who have heard it, and seen it in a summer park for a long time, and the patrons of the Beach will be sorry when its engagement comes to a close at the end of the week.

NECKLACE PUZZLE NOW EXPLAINED

Greek Jeweler's Little Experiment Gave Rise to Mysterious Find.

Special Cable to The World, Copyrighted by The Toronto World, 1913. The mystery of the imitation pearl necklace found in the Bois de Boulogne, was cleared up late this afternoon by the appearance of a police headquarters of a Greek Jeweler named Zironas, who said he had read descriptions of the original stolen pearls, and having seen photographs of these in the newspapers, had made an exact copy.

He took them, he said, to a theatrical man, proposing to him that it would be a good hit for a vaudeville theatre to exhibit the imitation necklace, thereby showing that anybody could possess a good necklace for fifty francs. The theatrical man bought the necklace and lost it at the Bois Reservoir.

PLEADED SKILFULLY BUT LOST HIS CASE

Jarvis Street Property Owner Must Pay Fire Premiums Himself.

"For a layman, you have conducted your case very ably, but it does not follow that I will find in your favor," declared Judge Morson, in division court chambers yesterday morning, when H. E. R. Stock, Toronto street, owner of the premises at Nos. 60 to 64 Jarvis street, had delivered his argument.

Mr. Stock acted as his own counsel, in impressing the court that his tenants, Burns and Sheppard, horse dealers, should pay the premiums on the building. As Burns and Sheppard are already paying premiums on \$10,000 insurance, they objected to saying anything further.

In giving judgment for defendants, Judge Morson declared that according to the evidence, the building only cost \$12,442, which would not justify the increased insurance payments.

SOCIETY HOUSEKEEPING

The Tussock Moth

He is out and at work again. The thing now is to get after him as fast as ever one can—and keep after him.

Everyone knows the dreadful havoc this moth has worked with thousands of the shade trees all over the city.

The tussock moth is that small, caterpillar-like creature of remarkably beautiful appearance, with his brown and yellow tufts of hair sticking from his back.

The cocoons that have been left on the trees over winter, full of tiny, snow-white eggs, have broken open just the other day.

When the "weave" this nest, he first places himself, if he can find such a place, in a crack, crevice, or some such place where there is a partial protection.

Every citizen should at least take care of the trees in front of his own house, whether they are on the boulevard or on home property.

When you see him hurrying rapidly up a tree or anywhere else, then is the time to destroy him.

It was little wonder, for coming home on the car she had counted up her expenditures and found she had spent almost as much money on this first trip to market as she had planned to spend for a full week's supply of food.

After her lunch, as she was unpacking her market baskets, Mrs. Hart, a neighbor, came in. She was charming and interested in the food question, too.

"Let me see what you bought," she insisted, when she had heard Edith's account of her trip.

She laughed when she saw the heap of food Edith had lugged home. Radishes and onions, five bunches of each; cabbage, beets, spinach, potatoes—and enough of each for a family of five.

"But never mind, dear," she comforted, "here is a good chance to learn to take care of what you have, and that is as important as to know how to buy properly."

"You should have had the fish man clean and bone them," said Mrs. Hart, "he does not charge for that."

"Never mind, ma'am," spoke up Jane, "I can fix them and after they are cooked they will keep fresh on the ice."

THE FASHIONABLE BUFF AND WHITE

THERE is no color combination more fashionable this summer than buff and white.

It is always dainty and cool in effect, it is especially to be desired for present needs. Here is a little frock that is made of galatea and which combines a middie blouse with a straight skirt.

Striped effects are especially pretty this season and a striped material could be combined with plain or the entire frock and skirt could be striped.

For the 12 year size, the blouse will require 2 1/2 yards of material 27 or 36, 2 yards 44 inches wide; the skirt and trimming 3 1/2 yards 27, 2 1/2 yards 36 or 44 inches wide; or 5 1/4 yards of material 27, 4 1/2 yards 36, 3 1/4 yards 44.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL

WHEN EDITH climbed off the street car at her corner with a basket filled with marketing in either hand, she was pleased to see her little maid, Jane, come running down the street to meet her.

"Sure, 'tis a huckster's load you're bringing home," she exclaimed, as she relieved her mistress of the baskets.

"No," said the bride, "I've had nothing and I am tired, cross and hungry. I don't believe it pays to go to market."

SUFFRAGETTE GAVE TALK FROM LAUNCH

"Tea on Terrace" Function of M. P.'s Had an Unusual Interruption.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, July 23.—The militant suffragettes made an ingenious demonstration at the house of parliament yesterday, when for half an hour Miss Nina Boyle, one of the leading members of the Women's Freedom League, harangued several hundred legislators from a steam launch drawn alongside the members' terrace, which overlooks the Thames.

The incident caused great amusement and was undoubtedly one of the most effective demonstrations of which the suffragettes have as yet been responsible.

At length the police boat appeared under Westminster bridge, where they heard themselves vigorously denounced by Miss Boyle, standing on the roof of the launch.

The police launch, which usually patrols the river in front of the houses of parliament, was nowhere to be seen and the suffragettes had some time to proceed unchecked for some time.

THE TRIPLE TIE BY A. H. C. MITCHELL

(Continued From Yesterday.)

Gordon shot straight ahead with his car until it seemed as if he would crash into the other automobile, but just before they came together he jammed on the brakes with a force that nearly dented the car under him and it jerked to a stop less than two feet from the approaching machine.

"What is it, Mildred, tell me quickly," he said in a low, tense voice. He took one of her hands in both of his.

"Yes, yes. Tell me." "What man—he made insulting remarks," she sobbed, "and—I started to w-walk back and—followed in his automobile, abusing me all—the way."

Gordon dropped her hand and, springing to his feet, faced Cain. "You've got to settle with me for that right now," he said.

Cain, pale as death, reached behind him and stood up in his car. "I'll settle, and in self-defense, too," he shouted, whipping out a revolver and pointing it straight at Gordon Kelly.

"He would have killed me, Mildred," he said, sternly. "He's no more than a rat."

There was a long silence. Elmer jumped from the car and picked up the revolver. "Elmer, boy," said Gordon, "you saved my life."

Quick as a flash, Elmer Shephard drew back his arm and the round, smooth stone flew from his hand and crashed into the outstretched flat which held the revolver.

With a spring like a tiger Gordon Kelly was on the running board and as he came up standing on it, his fist swung around and struck Cain full in the face, lifting him off his feet and landing him in the road, where he lay as if dead.

"Don't, Gordon, you'll kill him," cried Mildred, just too late to stay the blow. "Elmer, Great! Where?"

"At—at—say at the bridge at 3. Now, good bye; I must give Elmer his lesson in French. If Mildred could have seen Gordon slam up the receiver and turn three backward somersaults without stopping."

After all the threats, Elmer didn't take his lesson. It is true the books were produced and Mildred sat down at a table opposite Elmer on the porch and assumed the dignified air of a school-ma'am, but that was as far as they got with the off when Elmer said with a grin: "They didn't know any Mr. Kelly up there, did they?"

"No, Gordon Kelly, what do you know about it, you little rascal?" demanded Mildred.

"I know all about it. There's no such man as Gordon Kelly."

"I mean just what I say: There's no such person as Gordon Kelly."

"Oh, I got you buffaloed all right, Mildred. His, ha!" and he laughed gleefully.

"Elmer, you can be the most tantalizing boy I ever knew when you want to be. Now look me straight in the eye and tell me what you mean."

"I'm telling you the truth, Mildred," said the lad, seriously. "His name isn't Gordon Kelly at all; it's Mr. Bud."

THURSDAY MORNING, JULY 24

THE SINGLE FARE.

We are now informed that the only wisdom of last year was to have left North Toronto unannexed. We are also informed that the true interests of the home-seekers and home-makers of North Toronto consisted in preserving the conditions that would maintain a double street car fare for all who seek or make homes there.

Mayor Hocken is guided in his policy by the belief that the greatest blessing Toronto can have is a single fare street car journey from any part of the great City of Toronto to any other part. He has taken the first step towards that possibility by signing an agreement which provides for the removal of all radial rights inside the city limits.

The Telegram is the strongest opponent of this agreement, and has labored to show that a single fare to North Toronto would cost the city so much that the city cannot afford to give North Toronto single fares. This was last week. Last night it was shedding crocodile tears over the wicked foes of North Toronto, who were adding \$5 a foot and upwards to real estate there and doing nothing for the people.

The purchase of the street railway, with the single fare journey to follow, will be the finest thing North Toronto can get a share in. The population will fill up North Toronto as soon as single fares go into force, and all the local improvements needed will follow, while the coat will be spread over the greater population.

HOW SHALL WE DEAL WITH IT?

Gratifying, so far as it goes, is the announcement from Ottawa that a commissioner will be sent to London for the purpose of arranging with the Imperial Government for the appointment of a joint commission to regulate freight rates between Canadian and British ports. This step might have been taken, according to the Ottawa correspondent of The Mail, so far back as August, 1911, and the delay, for which perhaps both the present government and the late government are alike responsible, is to be regretted.

Whether such a commission can accomplish a great deal, without some concurrent action by the United States, may be doubted, but in any event the action of the Dominion Government is to be commended, and we will hope for the best results.

But are we not beginning at the wrong end? The evil struck at is the enormous increase in the cost of transportation from the western prairies to British ports. The farmer in Saskatchewan, let us say, finds that the spread between the track price and the Liverpool price is so great that the transportation companies get more out of his wheat than he does. That is the grievance he wants redressed.

Now instead of sending a man to England to ask about it, this farmer might well commence a little investigation nearer home. He put his grain at a Canadian Pacific Railway station into an elevator, owned by the Canadian Pacific Railway Company, from which it is loaded on an east-bound Canadian Pacific train. That train carries it, let us say, to Fort William, and for this service a certain charge is exacted, and the farmer has no choice but to pay it. At Fort William he finds that his grain, again stored in a Canadian Pacific Railway elevator, must be forwarded to Montreal either by an all-water route or partly by rail and partly by water. He will further find that on the St. Lawrence are controlled by one corporation, which has a complete understanding with the railway companies. He therefore again employs the Canadian Pacific Railway Company to transport his grain by water from Fort William to a Georgian Bay port by boat, and from that port on to Montreal by rail. Every cent he has paid so far has been paid to the Canadian Pacific Railway Company. At Montreal the farmer must ship his grain to England, and there he finds an "ocean combine" in partnership with the Inland Navigation merger. And the Inland Navigation merger has a complete understanding with the Canadian Pacific Railway Company, which is at the same time a carrier on land, on inland waterways and on the ocean.

In short, the Canadian Pacific Railway Company is a part and parcel of the conspiracy to extort, which holds up his grain at every point between the little railway station in Saskatchewan and the great docks at Liverpool. Let the Canadian Pacific

Railway Company, tomorrow, step from under, and the triple arch bridge of extortionate transportation charges between western Canada and England will fall to pieces.

The company we have here in Canada, and the transportation trust must be broken, by bending this great corporation to our will. It may be too powerful for the railway commission, but is it too powerful for parliament? Every session finds the Canadian Pacific asking for legislation. Thus parliament is enabled, if it sees fit, to deal with the company. It must be compelled by parliament to break up the trust which is now threatening the western grain grower with poverty if not with ruin.

The commissioner to England may accomplish something, and we hope will never deal with the transportation trust evil in earnest until we deal with the Canadian Pacific Railway Company, without whose aid and direction the evil could not exist.

THE BINGHAMTON HORRORS

Yesterday's papers contained even more horrors than usual. The tragedies of every day life do not seem to lessen with the progress of science, or what we call civilization, a condition of which Edward Carpenter has written on "the sause and cure."

The Binghamton tragedy carried the emphasis of a lesson that needs to be impressed everywhere in our city life. People grow so careless that the very precautions taken for their safety are ignored. Are our factories in Toronto less hazardous than this New York one? Are our people as obedient to the regulations made for safety as they should be, or do they ignore all the means suggested to secure it as the life were cheap and easily regained?

Perhaps the most cold-blooded horror of all was the eminently sensible view of Sir Henry James, that the fact of President Huerta, having obtained the presidency of Mexico, thru the assassination of his predecessor was negligible, King Peter of Serbia having arrived at his throne by the same sanguinary process, with a successful reign as a result. Nothing succeeds like success. This is the motto of the freebooters and bandits from the beginning down until now, in the days of the barons of business and trusts.

Knocking Hocken is the amiable activity of our lower Bay street contemporary when it has nothing else to do. The mendacious announcement of an overdraft in the city hall already of over \$50,000 was the device resorted to in last night's paper. The item was displayed with a heading which would lead the average reader to imagine there was an overdraft of \$4,000,000. Of course there is no overdraft at the city hall, and the taxes are coming in like the flowing tide. The Telegram case must be desperate indeed, when it cannot stick to facts.

NO OVERDRAFT.

Knocking Hocken is the amiable activity of our lower Bay street contemporary when it has nothing else to do. TELEGRAM POLICY

The Telegram told the people of North Toronto as it tells the dwellers in every other district in the suburbs of the city, that there are a whole lot of problems that can be better and more cheaply solved from a civic centre close to the doors of the people who create these problems than from a civic centre five or six miles away from the homes of the people interested in these problems.—The Telegram, July 23.

FOREST HILL RAILWAY.

There appears to be a disposition on the part of the county council to grant the franchise to the Forest Hill Railway Company, and since the city council is not disposed to block the concession by annexing the territory adjacent to the city in the district affected, there is no consistent ground for objection. In view of the recent adoption of the principle that local improvements should be paid for by the owners of land affected, it would not be asking the York County Council too much to have a clause inserted in the franchise agreement stipulating that when the city comes to pay the \$250,000 in the next five years which the franchise is said to be worth, the amount should be assessed against the property thru which the line is supported.

PROCRUSTATION

THE THIEF OF TIME AND MONEY

You recognize the importance of saving money, and some of these days you intend to begin to do so. But you are waiting till you can open an "account" with what you consider a "respectable" amount. Meantime, the smaller sums you might be saving are slipping away, and your financial position is probably no better than it was years ago. Don't any longer waste time and money. Begin now. Prepare to avail yourself of some of the opportunities constantly presenting themselves, but which, for lack of a little capital, you have been declining. We receive sums of one dollar and upwards, and allow compound interest at three and one-half per cent. per annum. We have some handsome accounts which were begun in this way.

posed to run. It is clear from the terms that no road need be built for five years to come, and the expenditure of \$50,000 will keep the franchise good—once it is granted.

The Globe doubts the possibility of there being "an innocent farmer." This is rather rough on its rural constituents.

SEASONABLE ADVICE.

This is a chilly time of year—the wintry days will soon be here; a nip is in the atmosphere when dusk and darkness mingle; now when we step outdoors we find, some evening after we have dined, a frosty tang in the wind which makes our fingers tingle. These chilly nights of late July, 'tis just as well for you and I to have our winter flannels nigh—'tis wise to take no chances; for winter soon will leave his throne of ice up in the Polar Zone to come down here and make us groan—we feel his first advance. Oh, let's not therefore dream and dote, but be prepared with warm, thick clothes in which to put our shivering toes if there is frost next morning. Let's overhaul our heavy suits and buy some sturdy winter boots—the fields of grain and ripening fruits should give us ample warning. 'Tis now a fit and proper date to lay a fire in every grate—we're more than foolish if we wait, the danger is enormous if we let our hours and days go by and never look to our supply of heavy dudds for late July and roaring fires to warm us. Now let each wise and prudent soul lay in a cellarful of coal, before the Arctic breezes bowl down on us in their frenzy; and let us pay our doctor's bills and get a fresh supply of pills for hoarseness, rheumatism and chills, sore throat and influenza, and Fix-the-Grippe and Spasmodic, for winter cometh swift and sure—the wind blows chill across the moor, to-morrow it will be blowing over the hills, in haste arise, let's stir around like busy bees, preparing lots of warm supplies before we're one day older.

It took securities amounting to \$20,000 to secure bail in the police court yesterday for Francesco Nicoletti, the Italian banker, who is accused of criminal negligence in connection with the death of George D'Alessandro, the automobile victim of last Monday morning. The securities were made up of Nicoletti's own bonds for \$10,000 and securities each of \$5000 from Francesco Giomna, 120-1-2 Edward street, and Tony Bartello, 1094 West Bloor street. T. C. Robinette, K.C., appeared for Nicoletti and will handle his case at the fall criminal assizes.

VALUABLE FIND OF

NOVA SCOTIA COAL

NEW GLASGOW, N.S., July 23.—(Can. Press.)—Millions of tons may be added to the coal reserves of Nova Scotia if the possibility of error in the location of the famous Fraser Mountain fault in the Pictou coal beds, as suggested by eminent geologists of the party on tour touring the maritime provinces and who visited here yesterday, turns out to be correct. Geologically the Pictou coal fields are among the most interesting in the world, and the feature which has aroused possibly the chief interest is the conglomerate upthrow which cuts this bed in two.

Was Convicted of Conspiracy to Defraud Wealthy Austrian.

LONDON, July 23.—(Can. Press.)—A three years' term of penal servitude was imposed today at the Old Bailey sessions on Arthur Newton, the lawyer who came into such prominence during the trial of Dr. Crrippen for murder. He was charged with conspiracy to defraud Dr. Hans Thorsch, a wealthy young citizen of Vienna, out of \$115,000 by false pretences in 1911 and 1912. Newton's companion, Berkeley Bennett, was sentenced at the same time to 18 months' hard labor. The judge characterized the prisoners' action as a gross conspiracy to defraud Thorsch.

ADAM BECK HERE SILENT AS SPHINX

Power Minister Declines to Comment on Proposed Electrical Deal.

"UNWISE AND UNFAIR" TO BUILD GRADUALLY

Hydro Chairman, However, Tells of Triumphs Gained by Canadian Horses.

"It would be most unwise and unfair to make any comment even if I had something before me. It would be unfair to myself and everybody else."

Hon. Adam Beck, in other words, refused yesterday to say anything about the electrical rumors. He was asked if the government was arranging for the purchase of the Electrical Development Co. He would not answer. He was asked other things along the same line, and on these, too, he was clam-like.

"I cannot comment on these matters," he said. "I have just returned from England, and I have not kept in touch with the situation."

"The power minister was questioned regarding the interruptions of the service while he was at the horse show, and on this matter he was more communicative."

"This was a pioneer movement," he said. "Nothing like the hydro-electric system was ever attempted before. And for two years we were marvelously successful. Indeed, we should congratulate ourselves on the uninterrupted service for this long time."

WANT CONTROLLERS TO ATTEND MEETING

They Could Gain First-Hand Facts From North Toronto Residents.

The mass meeting tomorrow night under the auspices of the Ratepayers' Association, will be held in the skating rink, back of the town hall. Mayor Hocken's intention regarding the district, expressed in a recent interview, during which he stated that Yonge st. would be fixed up and pressure brought to bear on the Metropolitan and the Telephone Companies to grant city rates to the district, has given general satisfaction. Promises have been made before, however, and the majority of the residents would feel happier concerning the future if the mayor and some of the controllers put in an appearance tomorrow and express their intentions verbally.

EXPROPRIATING LAND FOR WELAND CANAL

More Than Two Hundred Acres Needed For First Section.

ST. CATHARINES, July 22.—(Special.)—The Dominion Government has expropriated over 200 acres of land in Grantham Township for the first section of the new Welland Canal, the contract for which has already been let. The price to be paid for some of the land will run as high as \$1000, while that for other tracts is considerably less. It is understood the average price will be \$500 an acre.

ENGLISH EXPERT TO PLAN PLANT

Street Commissioner Appoints Engineer to Supervise Garbage Disposal Scheme.

Reduction Plant and Three Incinerators Will Be Constructed First.

"That appropriation of a million for a new system of rubbish and garbage disposal in Toronto is going to be so expended that the city will get the best system known and at the least possible cost," said Commissioner Wilson yesterday.

"The system is decided upon, and experts in the United States have stated the amounts they would charge for planning and supervising and construction of the plant. Their charges are out of the question."

"I am appointing to my staff a man who is endorsed by the foremost English authority as an expert on the planning of a plant and also its operation," Commissioner Wilson stated. "He will remain on my staff until Toronto has a system well established and in perfect running order. For the first year he and his assistants will add \$12,500 to my office expenses. The second year the expense will lessen, fewer assistants being necessary."

"The difference between the charges of the experts of the United States and the expense of the expert I have secured and his assistants is very great. Besides having the expert right on my staff, the system can be established as required from time to time instead of constructing at once more plant than might be required."

"The starter we will construct a reduction plant and three or four incinerators. By the time these are in operation it will be soon enough to think of increasing the number of incinerators. Loading stations may serve every purpose at some points until an incinerator is absolutely necessary. Every incinerator will be so constructed that it may be enlarged if necessary."

EXPRESS BUSINESS REAPING HARVEST

Shippers Are Sending Goods by Express Instead of Freight.

WESTERN RATES LOWER Superintendent W. C. Muir Also Predicts Record Wheat Yield.

"It is an ill wind that blows nobody good," declared W. C. Muir of Winnipeg, general superintendent of the Canadian Northern Express Company, making the statement that despite the harm the money tightness might prove to others, nothing but good had been the result so far as the express business was concerned.

Superintendent Muir was in the city yesterday on his quarterly visit to the company's headquarters, at Toronto, and when seen by The World, stated that the express business in western Canada had increased more than ten per cent. this season over all previous years.

In accordance with the recent order of the Dominion Railway Commission, western Canadian freight rates were approximately twenty per cent. lower than they were last month, and the prediction was made by Superintendent Muir that this would result in an increased volume of business.

Up to the present time, the Canadian Northern Express Company had been divided into two units, that operating in the prairie provinces and the Ontario business. With the completion of the connecting links of the C.N.R. between Montreal and Ottawa, between Toronto and Port Arthur, within a few months from now, a very different situation would exist.

The Canadian Northern Express superintendent made the statement that with the placing in operation of the C.N.R. passenger service, the express service will also be inaugurated, and will handle freight direct from the ocean liners at Quebec and Montreal, and ship it thru to the west over their own line.

Referring to the crop prospects, he said that he had been all over the wheat lands of the western provinces within the last two weeks, and what he had seen had been more than up to his expectations. The growth all thru the west had been splendid, and a record-breaking yield this year was almost a certainty.

Baseball Selections by Arthur Irwin. Canadians 110 Outsiders Win at Windsor And Fort Erie

Note and Comment

A dozen times a day at the different sporting resorts the question is asked: "What is the matter with the Toronto Baseball Club?"

There you are, and the New York Yankees scout tells the real reason in as many words as he can get.

The psychological moment appeared to have arrived with the bases full, only one out, and W. Bradley at the bat.

That's what Arthur Irwin calls it. They have no life, no vigor, no spirit.

Scout Irwin thought they would go up some, but he says it now looks as if Frank Chance will finish his first season in the American League at the bottom.

The baseball season is barely half over, Mr. Irwin says the New York Giants, Philadelphia Athletics and New York Indians are sure winners in their respective circuits.

John McGraw's regulars are not only in fine shape, but he has had a great lot of substitutes for any position in the field.

Connie Mack's team never were in better condition than this year, as their consistent winning shows.

Both big league leaders' pitching staffs are going strong and nothing short of a miracle can stop them.

Arthur Irwin goes further and says the Athletics will again beat the Giants for the world's championship.

Horse Trainer Awarded One Farthing Damages

LONDON, July 23.—The fair name of the English turf received a blow in the decision rendered today in a libel action brought by R. Wootton, a trainer, against Robert S. Stevier, editor of the sporting press.

Coming after the disqualification of Crayton in the Derby by means of the foul riding of the jockey, the case has created widespread feeling that radical changes should be made in the rules governing the conduct of the race.

FINAL TODAY FOR TROPHY AT LONDON

Aylmer and London Thistles Are the Two Remaining Rinks—Scores.

LONDON, July 23.—The final for the Labatt trophy will be fought out by Skip Langford, runner-up last year, and Skip Albert Chambers of Aylmer. These two rinks have qualified for the W.O.B.A. honors, and tomorrow afternoon will battle for the big cup.

Langford had quite an easy time with Smiley of Paris. The latter rink had been kept in the going owing to the wonderful bowling of Smiley, whose draw shots were the sensation of the tourney.

Some records were broken when Skip Langford went into the final. Last year he was defeated by Skip R. B. Rice for the Labatt trophy in a memorable final game, and it was thought that his chances this year were slim.

TEN POINT RETURNS TO HIS EARLY FORM

Will Start at the Hamilton Meeting That Opens on Saturday.

That Hamilton will offer racing of very high class is assured, judging from the horses that are to sport silk at the coming meeting which opens on Saturday. One of the best horses in training are already quartered at the track, while many stables from Windsor will move to the Ambitious City on Thursday, including about a dozen from Kentucky, while several are coming from New York. Ten Point, the sensation of the year, who has been training at Hamilton since the spring meeting, is said to have returned to his early form judging from his recent work there, and he will make his only appearance in Canada during the Hamilton meeting, as he goes from there to Saratoga. The Birmingham Special Handicap for 3-year-olds at a mile and a sixteenth is to be run during the coming meeting, promises to bring together many of the best 3-year-olds in America, among them Ten Point, Donnell, Great Britain, Valgery, The Widow Moon and First Sight. The Hamilton Cup, the feature of the closing day, is another race that will no doubt attract much attention and bring together a field of very high class. Everything is in readiness for the opening, and with fine weather the Hamilton Jockey Club should furnish the best meeting on the Canadian circuit this season. The usual race program will run during the meeting, leaving Toronto each day at 1:05. On Saturday it will run in two sections, leaving at 1:05 and 1:50 p.m.

AMATEUR BASEBALL

The Financial Baseball League just closed one of the most successful seasons, the Canada Life winning the league this year and keeping the H. Polman Evans Trophy, this being the third successive time that they have won this cup. The teams in the league were much stronger this year and made the Canada Life go the limit to keep the cup. The Truets and Guarantees were taken in the league a year ago, and deserve credit for landing in second place, they being the only team to win from the leaders. Case Curzon, who has umpired with the league since it started, handled the games to the satisfaction of all teams. The teams finished as follows:

LIBERAL LEADER PLANNING TOUR?

Rumor in Connection With Sir Wilfrid's Sudden Visit to City.

WON'T BE INTERVIEWED

Tells Newspapers He's on Private Business—Consults With Party Organizer.

Liberated, Sir Wilfrid Laurier came to Toronto yesterday morning at 7 o'clock, and registered at the King Edward Hotel. He was accompanied only by his secretary. He would not be interviewed, stating to the newspaper men that he was here on private business.

His visit has no political significance, he said. "I am here only for the day."

During his stay he had a conference with the Liberal organizer, F. C. Inwood, and several leading Liberals of the city, who were indeed surprised at the unexpected appearance of the chief in Toronto, where he comes but rarely. He was as energetic and alert as ever and apparently in good health.

It is quite possible that he was arranging for a tour of Ontario in the autumn. There are several places where he has been asked to speak: Stouffville, St. Catharines and Napanee are three of these.

Of course, there was considerable speculation as to the reason for Sir Wilfrid's visit in local political circles. Someone was bold enough to remark that the Liberal chief had an interview with Sir James Whitney.

Didn't See Sir James. The premier was questioned regarding this rumor. "I saw Sir James, that you saw Sir Wilfrid today?" "I did not."

"Probably you were speaking to him on the phone?" "You ought to know better than ask such a question." The reporter was promptly squelched.

Sir Wilfrid left last night for Ottawa.

SHIPS AND RAILS BANANA IMPOST BLOW TO JAMAICA

U. S. Tax of Five Cents Will Harm West Indies, Says Kingston Man.

A DIRECT SHIPPING LINE Montreal to West Indies Route Would Boost Trade of Both Countries.

Until a direct shipping line from Montreal to Jamaica is established, the recent reciprocal trade arranged between the Dominion of Canada and Jamaica, by the late George E. Foster, will be of little avail, is the conviction of Chas. Fisher, one of the leading wholesale men of Kingston, Jamaica, who was in Toronto yesterday.

When seen by The World at the King Edward Hotel last night, he strongly advocated the establishment of a shipping line between the two countries. In order to combat the adverse tariff against Jamaica now being put into effect by the United States, he is citing the fact that a trans-Atlantic route of the bulk of the trade of his country to Canada would be necessary to preserve prosperity in the West Indies.

The five cent tax which the United States purposed imposing on Jamaica bananas would prove a serious blow to the chief industry of that British colony. If a direct steamship route between here and the West Indies were established, however, Canada would receive a great part of this trade, and of the other products of Jamaica. This would not only help the dealer, but would also prove of great benefit to the Canadian consumer.

As it now stands, the United States acts as a middleman in all Jamaica products coming to Canada, and the consumer is the loser.

A Wider Market. A direct route would mean a wider market for Canadian wheat, hay, corn and other grains, and open the way for a larger export of Canadian manufacturers' goods to that country. In fact it would mean the inauguration of a trade between the two countries.

which would grow into hundreds of thousands of dollars annually. The Jamaica Government was now getting data on the matter and believing that the question would be taken up shortly by the Dominion Government.

COMPLAIN THAT OIL IS DUMPED IN BAY

Vessel Owners Have Asked Harbor Board to Take Matter Up.

The action of a number of firms along the Toronto waterfront in dumping oil in the bay has led to complaints being made to the Board of Harbor Commissioners. The complaints are not only made by the owners of launches, sailboats and other craft, but also by the owners of the large passenger steamers of Toronto.

As a result of these complaints, the meeting of the Toronto Harbor Board yesterday afternoon took the shape of a cruise thru the harbor on a trip of investigation, and the conditions were found to be fully as bad as charged. In fact, the commissioners as a result of their trip of inspection are determined to put a stop to the practice, and the work of collecting evidence preparatory to legal steps, if such a course be necessary to stamp the practice out, is to be at once commenced.

INSPECTOR INVENTS NEW TRAIN STOP

C. P. R. Testing Safety Device Which Automatically Sets Brakes.

A. E. Hudson, Dominion Railway Commission inspector, has invented a new automatic train stop. The principle of the invention is a device placed beside the rail which comes into contact with the appliance on the side of the locomotive, automatically setting the brake and closing the throttle, thereby preventing engine men running past a signal set to "danger" or into an open switch. A test has just been made at C. P. R. Ogden shops at Calgary and was pronounced as most satisfactory. Another test is shortly to be made in Winnipeg before a large party of leading Canadian railway men.

SACRIFICES TO THE READY MONEY GOD

That Is Explanation of Continued Weakness in Toronto Stock Exchange.

BRAZILIAN DOWN AGAIN

A Few Firm Spots—Toronto Rails Meet a Ready Market.

The Toronto stock market appears to possess absolutely no staying power. This is due of course to the fact that money is tight and that the public have not yet become convinced that the bottom in security prices has been reached.

From this it is quite evident that here in Canada we have been alone in experiencing a continued advance in commodity prices for the year to date.

The situation yesterday was exactly akin to that on Monday and Tuesday. A few issues showed a tendency to improve their position, but the continued weakness of Brazilian acted as a depressor on the whole list.
