GREAT VICTORY LOAN REPAYING

FIFTY THOUSAND AT BIG MEETING

Reverence and Thankfulness Mark the Opening of Victory Loan.

PROMINENT SPEAKERS

Effective Arguments Put Forth for Support of Big Drive.

Fifty thousand people inspired with reverence and a feeling of thankfulness for the success of the allied arms joined yesterday afternoon in probably the largest and certainly one of the most solemn services of prayer and devotion ever held in Toronto. Patriotism mingled with the devotion of the spirit; church and state joined hands and the three-fold object of the gathering—to make prayer, to give thanks and to suitably inaugurate the forthcoming Victory Loan—was magnificently and impressively carried out.

Queen's Park, the scene of many historic gatherings, never witnessed anything like it before. The gathering, no matter what its effects may be on the Victory Loan, will, more than anything else that has occurred, relieve the terrible strain of the war and induce a feeling that at last all is going well and that the success of the British and allied armies is now assured.

"Prayer, Praise and Victory," was the Victory Loan committee's summons to Toronto to come to Queen's Park, and it was responded to by 30,000 strong.

The whole gathering was wonderfully well managed. There were five separate meetings, or rather services, each one the same. Sir Robert Borden spoke from the platform erected at the extreme north end of the park, facing the avenue leading to Bloor street. Accompanied by the lieutenant-governor, General Logie and officers of the headquarters staff, he arrived promptly at the hour set.

The devotion exercises opened with the fourth chapter reading the twenty-fourth psalm and then followed the morning devotion scene of the afternoon—thirty thousand people with heads bowed and bowed, repeating after the chaplain a form of public confession. A prayer of thanks for recent victories was offered up by the chaplain in which the crowd also joined.

The Lord's prayer followed, accompanied by the bands three verses were sung from that grand old hymn: "O God, Our Help in Ages Past."

There was a short wait and then speeches commenced. Sir Robert Borden, just back from England, naturally drew the largest crowd, but it was possible for only a comparatively few of the throng to hear him. It was the same with the other speakers—those within the sound of their voices could hear, but the rest were content to remain until the close.

Following the speeches the patriotic feeling of the gathering became more pronounced when they joined in singing "Onward, Christian Soldiers," and the national anthem concluded the proceedings, and the vast crowd dispersed.

Sir Thomas White, minister of finance, spoke from a stand in the centre of the park. Sir William Hearst from a point near Hoskin avenue, Hon. N. W. Rowell and Hon. T. C. Crawford from platforms opposite St. Alban's street and the university entrance. The chaplains who officiated were Major Canon Dixon, Major T. Crawford Brown, Major A. L. Burch, R.C. chaplain, Capt. H. C. Harper, Capt. J. A. McElhinney, Capt. J. W. Magwood. Speeches Were Effective.

ST. THOMAS COMPLETES LOAN ARRANGEMENTS

St. Thomas, Oct. 27.—The arrangements are all complete for the Victory Loan drive, which opens in St. Thomas and Elgin County. The objective for the city and county is \$3,000,000, and a strong committee has been formed. R. M. Anderson is the chairman, and associated with him are the following leading citizens: Mayor E. A. Hooton, H. P. MacMahon, George Goddard, Capt. (Rev.) N. H. McGilivray, C. St. Clair Leitch, J. H. Hopkin. The loan films are here, but owing to the "flu" they will not be used until later on in the campaign.

PREMIER CALLS ON ALL GOOD CITIZENS

Buying Bonds an Easier Task Than Fighting the Germans.

CANADA NEVER FAILS

Second Victory Loan May Prove to Be Real Victory Loan.

Ten thousand people within the range of Sir Robert Borden's voice heard his strong and eloquent appeal when he declared on behalf of the overseas that Canada needed for the 1918 Victory Loan. By far the largest portion of the great crowd that assembled in Queen's Park to witness and take part in the launching of the campaign gathered around the stand from which the prime minister spoke. It was from here that the signal went to the other four stands by which the proceedings were timed.

It was just before 2:30 o'clock that Sir Robert, accompanied by Sir John Hendrie, chairman, General Logie and members of the headquarters staff, Mayor Church, Col. Dinnick and others prominent in the campaign, stepped upon the platform while the Royal Air Force band played the opening bars of the National Anthem. The bugle sounded and the immense audience remained standing and sang two verses.

Major A. L. Burch led the devotional exercises, which opened with the 23rd psalm. In this and the Scriptures following, the people joined in when the Lord's Prayer had been concluded. The bugle sounded again, the opening has been used in the past in the park, and as it was finished at this stand, an echo as it were, could be heard from the other stands where another band and another choir were concluding the last strains.

A Wonderful Thrill. The thrill of the moment was tremendous and wonderfully inspiring. That hearts at home were attuned to the music of the bugle, and that those who were present over there felt it, it needed no inspiration to surpass \$30,000,000 in different parts of the world. The bugle sounded again, the opening has been used in the past in the park, and as it was finished at this stand, an echo as it were, could be heard from the other stands where another band and another choir were concluding the last strains.

Hon. T. W. McGarry Says Dominion's Resources Are Scarcely Touched.

A GREAT OPPORTUNITY

Canada Should Raise Five Hundred Million in This Loan.

Speaking from the booth near the St. Alban's street entrance to Queen's Park, Hon. T. W. McGarry, principal secretary, addressed a great audience that surrounded him on all sides. The speaker was introduced by Capt. (Chaplain) Frank C. Harper, who told the audience that Mr. McGarry was the one who was to preach the sermon of the occasion. The speaker said that he was sure that the Dominion's resources were scarcely touched.

A year ago the world had read of the British army of 50,000, which, in spite of incessant effort, had been driven back by a much superior force at the battle of Mons. "But they made it known that they would return and they would have within a few miles of Mons," said Mr. McGarry in his opening remarks.

He said that word should be sent to the boys at the front that we were with them in victory as we were with them before. He said it was one of the greatest privileges accorded to any people to be asked to lend money to any government at 5% per cent.

Referring to the interests in which the Victory Loan would be expended, Mr. McGarry said there could be no nobler cause than that for which the allies were waging warfare, that fighting on behalf of little men and little women.

When the war began Germany had said that Britain was a little nation composed of shopkeepers and that she had no army. But Britain went to work building up an army until the little nation of shopkeepers had an army of 5,000,000. "It was to be forgotten," said Mr. McGarry, "if we did not speak of our own. When the British premier, not only to you but to all the people of this dominion that the second Victory Loan may be a greater success than the first," he said.

The sorrow, the sacrifice and the effort of the past four years have been chronicled in our national life, but we have marched on steadfastly thru the most momentous events ever chronicled in the world's history, from the days when the first Canadian division left our shores more than four years ago, to these latest days when the Canadian army is freeing from nameless horrors a population that has been in virtual bondage for years.

erty, justice and peace for which we and our allies have fought so long and suffered so much is almost won. It must be won. This is the hour for our greatest effort, the effort that should mean victory," he said.

"The people of Canada have subscribed for \$750,000,000 of war bonds issued by our Federal Government; they have subscribed for many millions of provincial, municipal, and industrial bonds; and they have made savings bank deposits during the war period have increased by over \$500,000,000. The whole Victory Loan of \$500,000,000 could be paid out of the single item of the increase in our savings bank deposits since the outbreak of the war."

"The Army at Home. Canada has three armies, one in France, one in England, and the other at home supporting and sustaining the other two. Everyone is eligible for this third army." Mr. Rowell declared, it had no medical tests, no sex distinction, and it had a place for every man, woman or child.

"Up to September 30, over 416,500 of our sons had crossed the sea to defend our homes and liberties. More than 200,000 of these have been wounded or have fallen on the field of honor. Hundreds of the brave men we saw in July last have cheerfully died that Canada and liberty might live. They have died in the faith that Canada would be true to them and the cause for which they gave their lives."

"Ours of our Canadian officers who has just returned from the front told me of the great victory of our forces in August last in front of Amiens. He said when they went over the top and broke the German line, their commanding officer leapt to the front and led his men forward, regardless of German machine gun fire and German bullets, as if it were a sham battle. Their charge was irresistible, and they drove the enemy before them. May the same spirit inspire all the captives of our home army tomorrow morning as they go over the top, and they, too, will win a great and decisive victory. We will keep faith with the living and with those who have given their lives on Flanders fields."

"The flag-decked platform near Wyckville College in Queen's Park was the point of vantage from which Sir William Hearst addressed a large crowd. On the raised stand, beside the prime minister, were Sir John Willison, Major (Rev.) T. Crawford Brown and Bandmaster Wiggins. From this platform was directed the music which was rendered by the bands of the Governor-General's Body Guard, the 12th York Rangers, and the 110th Regiment. The greater portion of the crowd remained stationary thru the speaking, although people on the outskirts who were to be latecomers, were going from one part of the park to the other in a vain attempt to get within reach of the speaker's voice."

Prompts on time, the bands poured forth the strains of the National Anthem, and the people stood at attention and sang thru the two verses of God Save the King. Then led by Major T. Crawford Brown, chaplain of the 48th Highlanders, a short service of devotion took place, the people joining in the responsive psalm with fervor. After singing in unison the beautiful hymn "O God Our Help in Ages Past," the prime minister of Ontario rose to speak.

Sir William sounded the note of victory, and referred to the magnificent work of the troops in the past week. He noted the fact that there was little boasting among the Germans, only whining as every beaten ally always was and nothing so do in the dark days of last year, when the allied armies faced by superior numbers without whining, said the premier. "They asked for no quarter then. We must get none now. The British bulldog has his grip on the foe, and will never let go until his work is done."

ourselves for greater service in the future," he said. He said that but for the British fleet the Prussian task force would be on his rounds squeezing out of the country all that could be obtained instead of a government asking for a loan at good interest. Sir William continued: "The Victory Loan affords us a patriotic opportunity to help now was the way. It is good business to buy bonds, for there are the best investment anyone can make. Our soldiers have played a noble part. We must do ours by feeding, clothing and arming them, and by providing hospitals and pensions for the disabled."

"Ontario may well be proud of what it has already done. Half the allied forces from Canada have been from this province. We have given to the Patriotic Fund nineteen millions, or within half a million of all the other provinces combined. Five millions were given to the British Red Cross, and our Patriotic Fund nineteen millions, or thirty million. Of the last Victory Loan Ontario contributed about one-half or \$204,000,000."

The prime minister thought that better than last year might even be done. Victory was in sight, he said, and the allies had the upper hand of the foe. Now was the time to give them such a knockout blow that they would never recover. He pointed out the reasons why the people should send money to the government from the two standpoint of patriotism and good business. He showed that would be done with the money that government borrowed. He showed how it would be all spent in Canada, being given back to the lender in payments for munitions, food, clothing for soldiers, hospital equipment for returned men and pensions for men and dependents.

"The failure of this loan would mean stagnation of business, unemployment, decrease in wages, and suffering," said the speaker. "Unless Canada can furnish the credit money for the war, it will be unable to buy supplies she must buy elsewhere. This would mean loss to everyone."

Sir William continued by drawing a picture of the end: "Germany's peace notes have no interest for me, except the offense they afford that she is getting in sore straits. The proper answer to them is greater pressure, more shells, more bombs and more service. Now is the time to increase our efforts, to keep stout hearts and strong courage. Victory is drawing near, and out of the dark night of sorrow thru which we are passing will come the most glorious day of the world yet has seen."

When the war began Germany had said that Britain was a little nation composed of shopkeepers and that she had no army. But Britain went to work building up an army until the little nation of shopkeepers had an army of 5,000,000. "It was to be forgotten," said Mr. McGarry, "if we did not speak of our own. When the British premier, not only to you but to all the people of this dominion that the second Victory Loan may be a greater success than the first," he said.

The speaker gave thanks to the Almighty for the great gains of late, and pointed to the hand of God in it all. He compared the sacrifices of the men at the front with those who remained at home, and contrasted the state of Belgium, France and England with Canada today. "In Canada great have been our losses, and many our sacrifices, but surely we are favored people, and should give thanks for the blessings of the past, and consecrate

MINISTER SELLS BOND FROM CHURCH PULPIT

Explaining that every bond sold meant a punch in the eye to the Kaiser, Rev. Dr. Millar, in his sermon at the St. James' Congregational Church yesterday, asked for twenty men in the congregation to volunteer \$5 apiece with which to buy a bond for the church, and in less than three minutes was able to announce that he had secured his objective.

"Staunch to the End Against Odds Uncounted"

THE MEN OVER THERE have fought the Hun, month upon month, season in and season out. They have suffered and fallen—but never failed. The fifth year of the war finds them dauntless in spirit, matchless in valor—the first to break through the Hindenburg line, the spearhead of the British attack on Cambrai. They are carrying on with a new and intenser persistence—"trysting" with death every step of the way.

And the task before us at home is to go on lending our money.

Can we do any less than put our last possible dollar in this Victory Loan, upon which depends the maintenance of our defenders—their food, clothing, pay and munitions?

The Government of Canada asks us to lend any sum we can spare, and promises to pay for it at the liberal rate of 5 1-2 per cent.—demanding of us no sacrifice, but offering a reliable, good paying investment.

Last year's loan was \$416,000,000. This year the Minister of Finance asks us to subscribe for \$500,000,000.

As in the loan of 1917, the denominations of the bonds will be \$50, \$100, \$500 and \$1000, with interest paid twice a year at 5 1-2 per cent. per annum. They may be had in either of two maturities—5-year bonds, due November 1, 1923, or 15-year bonds, due 1933.

That every possible man, woman and child may have a part in this great Victory-winning investment, arrangements have been made for payment of bonds in five instalments.

Suppose you buy a \$50.00 bond. You may pay for it as follows: 10 per cent. (\$5.00) on application; 20 per cent. (\$10.00) December 6th, 1918; 20 per cent. (\$10.00) January 6th, 1919; 20 per cent. (\$10.00) February 6th, 1919, and 31.16 per cent. (\$15.58) March 6th, 1919. The last payment of 31.16 per cent. represents the 30 per cent. still owing on your bond (\$15.00) plus 1.16 per cent. (58 cents), which represents the accrued interest from the time of application to the due dates of the various instalments. In other words, you pay 58 cents for the privilege of deferring your full payment of the bond. But a full half-year's interest (\$1.38) will be paid to you on May 1st, 1919.

And remember—the proceeds of the loan will be used for war purposes only, including the purchase of grain, foodstuffs, munitions and other supplies, and will be spent wholly in Canada.

Moreover, your bond will be free from taxes—including any income tax imposed in pursuance of legislation enacted by the Parliament of Canada.

LORNE WINCHESTER KILLED IN ACTION

Rev. A. B. Winchester Has Lost Two Sons in the War.

Rev. A. B. Winchester has received word that his son, Sgt. Lorne R. Winchester, has been killed in action. This is the second son Rev. A. B. Winchester has lost in the war. Lieut. Murray Winchester, a younger son, being reported missing in April, 1917, and later presumed dead. Sgt. Winchester at the time of his enlistment in 1915, was employed on a government survey in the Mackenzie River district. He went to France late in 1915, and ten months after was reported wounded. He was born in Woodstock.

Lieut. A. M. Allan, reported missing, now reported a war prisoner, was born in Toronto 21 years ago, educated at Upper Canada College and noted as a swimmer, being the Canadian champion for fancy diving. He is a son of F. B. Allan, 31 Dunbar road.

The death from pneumonia, following influenza, has occurred of Lieut. Angus G. Gray, M.C., at the home of his father, John Gray, Port Credit, Lieut. Gray, 21 years of age, has been twice overseas to France, winning the Military Cross for his courage while serving with the Canadian Machine Gun Corps. At Fresnoy he lost the sight of one eye and was wounded in the face and forearm. The military funeral took place on Sunday to Dixie Cemetery.

Capt. Evans A. McKay, M.C., D.F.C., son of Rev. Dr. W. J. McKay, editor of The Canadian Baptist, is now reported a prisoner in Germany, wounded and well. Capt. McKay has had a distinguished career as an airman, finally achieving command of British air squadrons which carried out raids over Germany. The London Times Gazette, which just records his winning of the Distinguished Flying Cross, while leading a raid on an important railway station, refers to his "fine leadership, determination, coolness and courage."

Lieut. T. A. James, eldest son of T. A. James, 90 Harbord street, is reported dangerously wounded in the arms and legs. He was acting as a lieutenant of his battalion the day he was injured and his commander, Col. Charles Straubenzig, on the same day was killed. He is considered the best all-round athlete in the Royal Canadian Dragoons.

Lieut. Wm. E. Millson, reported wounded and gassed, went overseas three years ago with the machine gunners of the 5th Battalion. The casualty report was received by Mrs. Millson, at 7 Ridout street.

RUSSIA'S EXPERIENCE THING TO BE FEARED

James T. Gunn, addressing a gathering at the Theosophical Society, Foresters' Hall, College street, on Sunday night, stated his opinion that there was not a sane man in Canada who believed that the conclusion of the great war would witness the immediate system of common ownership of the means of production. "Indeed, I may say that I myself do not entirely agree with the principle of common ownership under the direction of the state," continued the speaker. "If I were sure that the principle of initiative would follow the adoption of such a system I would agree to it without hesitation. But with the experience of Russia at hand, I have not as yet the courage to consider its feasibility."

Mr. Gunn touched at considerable length upon the possibilities underlying the principle of works committees and industrial councils, now under consideration in Britain as a means of bringing employer and employee together as co-partners in the system of production. That the future of industrial Canada would witness labor as a partner instead of a servant in the means of production was the hope expressed.

FILM COMPANIES RESENT TAXATION

At a meeting of the principals of the various film exchanges located in St. John, N.B., it was decided to move from St. John to Moncton, N.B., as a result of the high rate of taxation these companies have to pay in that city. The agencies deny the right of a city to tax a concern which does a business extending over three provinces. Accordingly the following telegram was sent to the Moncton city council:

At a meeting of principals of under-ten film exchanges have decided to move their headquarters from St. John, N.B., to Moncton, N.B. Please your immediate confirmation of action taken by you last spring with regard to inducing us to locate in your city and any additional inducements you may have to offer. What special grants will you make toward equipping building suitable for exchanges and recompense us for expense of moving? For your information average yearly expenditures in your city of exchanges will exceed \$100,000, expended in salaries and other necessary expenditures incidental to the carrying on of a distributive business. Exchanges strenuously object to the principle of a license fee being charged by a city against a film exchange when the business is conducted over three different provinces. Therefore, any charges must be assessed as building tax, and should be a definite fixed charge of \$50 or less for a term of years, particularly as we pay a provincial license tax.

It is not the intention of the militia department to replace lost or stolen war service badges, except under very exceptional circumstances. In case of the loss of "A" or "C" badges, they may be replaced if a statement of loss is supported by a statutory declaration to the effect that the loss was occasioned by destruction beyond control of the loser. The class "H" badge, representing war service in England, will not be replaced under any circumstances.

Word came Saturday afternoon that two years' imprisonment at Burwash was the sentence received by Pr. Richard Ralph 15th Battalion, who was tried by district court-martial at Toronto Armouries, on a charge of offering violence to superior officers at the central convalescent hospital, College street. Pr. Ralph, it was stated, had pointed a loaded revolver at two sergeant-majors and two privates.

PREVALENCE OF "FLU" HITS COAL PRODUCTION

The Ontario fuel administration has sent out the following letter to all local fuel commissioners throughout the province:

The question has frequently been brought to our attention as to the supply of anthracite coal to farmers. We are being our best endeavors to procure coal for everyone in the province, but it seems to us that the average farmer is in a much more fortunate position than others, in that in case of emergency he is provided with some alternative means of obtaining fuel of some kind for heating purposes, whereas the residents of cities, towns or villages have to look to the local coal dealer.

"No farmer shall be supplied with anthracite coal until you issue such orders, in your local dealer, which, of course, in your case, will be done until you are absolutely satisfied that he is unable to procure any other fuel."

It is urged that the coal supply to all coal dealers through the province, owing to the prevalence of "flu" in the mining districts, has taken a critical turn and that the demoralized labor conditions is so seriously curtailing production as to threaten the seasonal supply. Dealers are strongly advised to lay in a supply of bituminous, which is at present plentiful, and to advise the purchase of buckwheat and other smaller sizes of anthracite for mixing with the ordinary sizes.

REV. DR. FRANK J. DAY RESIGNS PASTORATE

At the service last evening at Northern Congregational Church, Rosedale, Rev. Dr. Frank J. Day announced his resignation of the pastorate owing to his having accepted an invitation from the National Council Y.M.C.A. to take part in their Christian citizenship campaign in the Canadian camps overseas.

Dr. Day's resignation takes effect December 1, and he expects to be absent for a period of 18 months. "I am bound to confess," he stated last night, "that I was attracted by the proposal made to me by the National Council to go overseas on this mission, first, because of their clear-headed and far-reaching grasp of the problems confronting the country in view of the approaching demobilization of the troops, and second, because of their bold and statesmanlike proposals for solving the difficulties that must be faced in the reconstruction period now so close at hand. In my church and more public interests social service has always attracted me tremendously, and this opportunity of presenting the claims of the higher citizenship to the boys overseas appeals to me most strongly."

PTE. J. MILTON GATES IS KILLED IN ACTION

Pte. J. Milton Gates, who was killed in action somewhere in France on Oct. 9, was 25 years of age and was a teller in the Bank of Nova Scotia before enlisting at London, Ont., in the 7th C.M.R. He was later transferred to the Fort Garry Horse. He left for overseas in May, 1915, and his mother died during his absence. He came home on furlough in May, 1917, and returned Nov. 9, 1917. Mrs. P. E. Edmund, 153 High Park avenue, is a sister, and he is survived by his sisters, Mrs. W. W. Martinson, Hawkesville, and Misses Ella, Laura and Ruby Gates of Toronto.

LABORATORIES FIND PREVENTIVE VACCINE

Lewis Nicholson, bacteriologist of the Nicholson Laboratories, 123 College street, stated to The World last evening that having made a close study of the Spanish influenza, they have put upon the market a vaccine which is a good preventive of the disease. It has been tried with marked success all over the Province of Ontario and in the western provinces by well known medical men, and its effects in 20 cases out of every 100 have been wonderful.

A well-known Toronto doctor testified that in 150 cases in which he has used the vaccine not one has had the disease, and Miss Cook, a professional nurse, who has been working in the midst of many severe cases night and day for a week continuously, has escaped the contagion. Miss Cook was inoculated with the vaccine three times.

"I have yet to hear of the development of the influenza in a single case where the vaccine was used, and we have sent out between 25,000 and 30,000 doses," said Mr. Nicholson, who added that the preventive was discovered after three weeks' careful study at the laboratories. "We are positive that the causative agent was found."

BOYS SEEK ADVENTURE IN STOLEN MOTOR CAR

Armed With Rifles, Revolver and Knife They Drive Thru Country and Wound Woman.

Fired with the spirit of adventure, pages of dime novels, Morris Gale, 43 Broadalbane street; Bert Peacock, 66 St. Albans street; Ottorino Florino, 30 St. Albans street; and Barker Neil, 34 St. Albans street, four young boys stole a motor car belonging to Dr. A. Wright, 99 West Bloor street, and, after arming themselves with three rifles, a revolver and a sheath knife, started up Yonge street in search of adventure yesterday.

After a short sojourn in Newmarket the adventurers left for Bradford, but nine miles out of that town stalled for the want of gasoline. They slept in the machine all night and in the morning are said to have held up a passing motorist with a rifle and to have demanded the necessary fuel. After obtaining the gas the young adventurers seekers again proceeded north and while away the time by shooting out of the car as they drove up the roads. While passing a farm a

woman who was in the barnyard was shot and slightly wounded by one of the boys.

Hearing the shots and seeing his wife fall to the ground the farmer gave chase in his motor car, picking up the district constable, succeeded after a chase of many miles, in overtaking the boys' motor car. The boys were taken back to Bradford and placed under guard on one of the Metropolitan cars which was met by Detectives Guthrie, Mulholland, Martin and Young.

They were then taken to the detective office and questioned by the officials. The rifles belonged to Florino, who is an Italian and who stated that they took them along for "protection purposes."

Really cheaper in the end

We could not hope to maintain the present rapid increase in the sale of Goodyear Cord Tires did they not cost less in the end.

Their advantages in speed, comfort and freedom from trouble are very real and very desirable. These qualities have made possible the use of Goodyear Cord Tires on five-ton trucks, travelling at passenger car speeds; on all the winning cars on all the speedways of America.

But long mileage, less gasoline consumption and slower car depreciation are the real factors in Goodyear Cord success.

Users write us of mileage far exceeding that rendered by ordinary tires.

Goodyear Cords are standard equipment on more than a dozen famous cars.

These facts are more convincing than anything we could say to you of the merits of these tires.

They are ample reason why you should have Goodyear Cord Tires on your car.

You can obtain Goodyear Cords at fair "made-in-Canada" prices from Goodyear Service Stations.

The extra thick and extra good Goodyear Heavy Tourist Tube gives service equal to the Goodyear Cord Tire. It comes in a handy, handsome bag.

Tube, bag and box are stamped "Heavy Tourist" for your protection.

Goodyear Cord Tires and "Heavy Tourist" Tubes are higher priced—and better.

LABORERS' STRIKE

Following non-delivery of the wool, complaints began to come in from all parts of the province, some of the purchasers stating that they had paid the whole amount of the bill, while others said they had made substantial deposits on their orders. Following a despatch printed in a Toronto paper under the heading "Cordwood Company Assigns," hundreds of complaints were pouring into the police, and an investigation which led to Skene's arrest followed.

When taken into custody, Skene is alleged to have taken a trip to Flint, Mich., and while there to have purchased a car valued at \$1200. He motored to Toronto and stored the car in a Brock avenue garage under the name of H. Smith. When questioned by the detective as to his reason for storing the car under an assumed name, Skene is said to have stated that he thought some of his customers might take exception to him buying a new car after the company had assigned.

Missing

YOU who have not wept for one whose life is dear, walk forth with me this day. There from a window in the sun, gleams a golden leaf in a field of white, a leaf sewn there in mourning love to mark a new-dug grave in Flanders. See, through the streets there walks a woman white of hair; her aged arm supports a drab-clad boy yet in his 'teens, as with faltering step he gropes his sightless way. At an office desk a man, not different from yourself, sits with bowed head and harshly sobs over the day's newspaper where his prescient finger found his son there listed with the "missing." ... You who have not wept for one whose life is dear, give utmost thanks that yours have yet been spared to serve the common cause of right. Give utmost thanks that though you may not walk their fields of death and face the peril you fain would share, that of your bloodless treasure you may make an ally that will speed their cause and yours. The day's duty is that you buy your country's bonds; that you buy them to the fullest measure of your ability as one who would fulfill his part. So, BUY these bonds TO-DAY.

ITALIANS TAKE MORE PRISONERS

Repulse Austrian Counter-Attacks in the Monte Grappa Area.

Rome, Oct. 27.—Heavy fighting took place Saturday in the Monte Grappa area, the war office reports today. The Italians captured 514 prisoners in this region. The official statement reads: "On Monte Grappa, strong and repeated attacks were launched by the enemy yesterday, the action being localized in the area of Monte Asolone and Monte Perica, and at the salient of Monte Solarolo. The enemy was repulsed, with heavy losses, and 514 prisoners remained in our hands. "On the middle Piave, the fighting activity greatly increased during the day. Yesterday possession of the island of Grave di Papadopoli was completed, and here 351 additional prisoners were captured. Numerous enemy forces sent forward in a counter-attack, especially against the British troops, were destroyed. "Our own and allied aircraft has displayed much activity, carrying out powerful bombing attacks against the enemy's lines of communication, and repeatedly attacking his troops in positions and on the march with machine-gun fire. Ten hostile airplanes were brought down in aerial combats. On the railway station at Levico, which was surprised in full activity, 500 kilograms of bombs were dropped last night by one of our airplanes."

HON. H. W. RICHARDSON DIES IN KINGSTON

Late Senator Was One of Best-Known Businessmen in the Country.

Kingston, Oct. 27.—Senator H. W. Richardson was found dead in bed this morning, the cause of death being heart failure. He was hunting yesterday afternoon, played billiards last evening with Dr. Anglin, and retired about 10.30. He was the head of the well-known grain firm of J. Richardson & Sons, Ltd., and was one of the best known business men in the country. The late senator was born here sixty-three years ago, and spent his whole life here, being early identified with the grain business of his father, the late Jas. Richardson, who founded the firm. He succeeded to the head of the firm on the death of his brother, George Richardson, twelve years ago. He was prominently connected with the city's business life and besides being in charge of the James Richardson firm he was a director of the Canadian Locomotive Company of this city, was a past president of the local board of trade, president of the Kingston, Fortmouth & Cataract Railway Company, was past president and director of the Dominion Cannery, was a director of the C. R. R. till it was assumed by the government. He was interested with Jas. Playfair in the Midland Navigation Co., and was also actively interested in the Valley Camp Coal Co. of Pennsylvania. Three years ago his firm took over the immense contract of supplying the British Government with the Canadian grain crop, and since that time his firm has handled practically the whole of the grain crop of Canada in the interests of the British Empire. Deceased was a Methodist in religion, a member of the Masonic order, and prominent in every philanthropic and charitable movement in this city. He is survived by his widow, three daughters, Mrs. Thomas McGinnis of Phillipsburg, Quebec, Misses Eva and Mabel at home, and three sons, Mrs. Rev. E. A. Chown, Toronto, is a sister. Two years ago he was appointed to the senate.

DR. JESSOP'S FUNERAL LARGELY ATTENDED

Three Hundred Members of Sons of England Threw Roses into Grave.

St. Catharines, Oct. 27.—The funeral of the late Dr. Eliza Jessop, M.L.A., was largely attended this afternoon, many following the remains to Victoria Lawn Cemetery, where 300 members of the Sons of England, Sons of the Sea, and a white rose into the grave. Ven. Archdeacon Perry and Rev. Mr. Howitt, Anglican, took part in the religious service. The honorary pall-bearers were: R. Clark, past president of the County Association; C. H. Chaus, president of the City Association; C. H. Chaus, president of the West Lincoln Association; Lieut.-Col. Sharp, Velland, were: Sheriff O'Loughlin; F. R. Parr, president of the St. Catharines Riding Association; Dr. W. J. Chapman, representing the physicians; James R. Keyes, past president of the County Association; A. M. Watts, representing the Sons of England; and Charles Tall, representing the Sons of the Sea.

This resolution will be sent to the mayors and Reeves of all municipalities interested.

PROMISING YOUNG PRIEST DIES.

The Redemptorist Order of Canada feels keenly the loss of one of their most promising priests, Rev. Francis Corrihan, who died of pneumonia yesterday morning at St. Michael's Hospital after an illness of only a week. Father Corrihan was born in Toronto about thirty years ago, but made all his studies for the priesthood in the United States. After his ordination, which took place three years ago last June, he was stationed for a time in St. Ann's Church, Montreal, then, in his zealous labors among the poor by his zealous labors among them, his superiors, observing in him a great talent for preaching, assigned him to the missionary band of St. Patrick's in this city which gives missions all over the country. He began his new career with great éclat in St. John, N.B., and was about to preach in the United States. A mother and her husband, five children, a brother and two sisters.

COLONEL MERRITT DIES OF INFLUENZA

One of Toronto's Prominent Citizens Fails to Recover From Disease.

Lieut.-Col. William Hamilton Merritt, one of Toronto's best-known and most philanthropic citizens, died on Saturday at his residence, 90 East Bloor street, a victim of the epidemic now raging in the city. He had been suffering for many months, and was unable to survive the effects of the influenza when overtaken by it. His condition at one time had given rise to hopes of ultimate recovery. He is survived by two sisters, Emily and Catherine, both of whom reside in Toronto.

Col. Merritt was best known perhaps for his activities in connection with aviation in Canada since the inception of the present war. He was president of the Aero Club of Canada at the outbreak of the war, and had been largely instrumental in bringing the science of aviation, both military and otherwise, in Canada to its present high state of efficiency. Only six weeks ago the Lieutenant-Governor of Ontario presented him with a gift from the club of which Col. Merritt was the leading figure.

OF U.E.L. stock, Colonel Merritt was the grandson of W. H. Merritt, M.P., Canal. Born at St. Catharines in June, 1855, he was educated at Trinity College School, Upper Canada College, Clifton College and the Royal School of Mines, London, Eng., graduating as a mining engineer. He was later appointed on the commission to inquire into the mineral resources of Ontario, and was attached to the Canadian commission at the Paris Exposition in 1878. He married Margaret, daughter of the late Robert Simpson, Toronto. His military career commenced in 1884 when he was gazetted cornet in Governor-General's Bodyguards. He served throughout the Northwest Rebellion in 1865 and the South African war. Becoming lieutenant-colonel in 1903, he was appointed to the command of the Governor-General's Bodyguards and to the command of the first cavalry brigade in 1911.

A Conservative, Colonel Merritt had warmly advocated inter-imperial preferential trade. In religion he was an Anglican. In athletics, Colonel Merritt was best known as the first president of the Ontario Rugby Football Union and of the Canadian Rugby Football Union.

WORK MUST GO ON FOR "FLU" PATIENTS

Relief Centres Still on the Job and Needing Help.

After their first nine days' fight against the "flu" the Neighborhood Workers' Association tender the following report: Work has shown no diminution, and improving the work will have a beneficial effect on the coming week at full pressure. Any relaxation of effort would be a fatal mistake at this time. The time is strongly urged to continue their contributions, especially of money, for the coming week, as the work cannot be still coming in. The post is bringing their small gifts and the well-to-do are also doing their share. One man, who almost looked as if he needed help himself by his appearance, dropped in at one of the stations and gave a donation in money, and when the worker, thinking that he could not afford it, expostulated with him, he said: "We will not get the influenza should be glad to pay anything to help those who are ill." Cash donations (October 13 to 20): \$1053.45. Other donations: 150 pairs sheets, 211 pairs pillow-cases, 30 pairs blankets, 25 quilts, 500 gowns for men, women and children, 520 pneumonia jackets, 100 caps, 420 towels and face cloths, child's new clothing, 20 combinations, 15 pairs stockings, 14 undershirts, 40 parcels old clothing, 12 dozen handkerchiefs, 10 pairs old linen, 100 masks. There have been 342 articles of clothing, 116 articles of bedding and 123 miscellaneous articles sent out from the central office for the relief of influenza. On Saturday alone 622 articles were sent out from the central office. There are 21 stations now open in co-operation with the N. W. A. in emergency relief work. Over 500 families are being helped daily thru these centres. The N. W. A. centre at the Technical School has done magnificent work. The responsibility is there divided. Miss Davidson, director of the household science department of the Technical School, has been in full charge of the preparation of the food, and has gathered her own staff of household science expert volunteers, assisted by a willing host of voluntary workers. Most have been busy daily, under her expert direction, in the preparation of the food. These have been the very best of material preparation and the distribution has been under the management of the daughters of the Empire. Miss O'Brien, of the St. George's Chapter, has secured the co-operation of the other chapters. The work of distribution has been so systematized that orders coming in can be filled immediately. The dough this depot and have sent into the central office collected a large amount of clothing and bedding. From this centre alone and the following quantities have been prepared and sent out: 575 quilts, 820 caps, 820 pairs of socks, 528 pairs of trousers, 689 pairs of shoes, 117 pairs of mittens.

A Call to Arms That is Meant for Every Citizen.

HELP FOR A KNOCKOUT Toronto Takes Million Dollars as a Sinking Fund Investment.

Victory in sight, and almost within grasp, calls for our mightiest efforts in the lines abroad and in the support at home.

Always have the citizens of Toronto responded generously, both directly, through individual subscriptions, and indirectly, through their municipal council.

In September, 1914, just after the outbreak of war, Lord George said: "In my judgment the last few hundred millions may win the war."

BRANTFORD'S CAMPAIGN WILL BE QUIET ONE

Brantford, Oct. 27.—The Victory Loan campaign, opening here on Monday morning, will be a quiet one, because of the many cases of sickness, all noise-making having been withdrawn on suggestion of the board of health.

Organization of shop committees in local factories has been completed, and there is keen competition among the factories for the honor of having the first announcement made of an honor flag having been won.

Rev. R. J. D. Simpson, pastor Danforth Methodist Church, officiated at the evening service yesterday.

The epidemic has now spent its force.

Hon. W. J. Hanna Announces Purchase of Three Million Dollars' Worth.

Before leaving for Sarnia last night, Hon. W. J. Hanna, president of the Imperial Oil Co., said that on the opening of the Victory Loan campaign today, the Imperial Oil Co. would apply for \$3,000,000 of bonds.

"It is gratifying, therefore," he remarked, "to be able to allot to Toronto the sum of \$1,000,000. Last year Toronto's share of the Victory Loan was applied for on account of the greater need. The total amount will be distributed among the various branches of the company, in proportion to its business."

NARROW TRADING IN LOCAL MARKET

Victory Loan Absorbs Attention of Brokers—Brazilian Sells Lower.

Trading in stocks dwindled to extremely small proportions on the Toronto Exchange on Saturday morning, but this was not surprising with the Victory Loan drive, which is absorbing nearly all the attention of brokers, about to begin. Three shares of Dominion Iron at 84 represented the dealings in the steel issues, Iron showing a nominal advance of 4, while the board lots were offered at 63 1/2 with 64 1/2 bid. Steel of Canada, which closed at 64 1/2 on Friday, was on offer at that price on Saturday with 66 bid. A broken lot of Brackets sold at 49 1/2, a drop of half a point, but otherwise what changes there were were in an upward direction. Dominion Canners being prominent with a gain of a point to 36. Steamships at 41, Twin City at 51 and Maple Leaf preferred at 97 were unchanged.

In the war loans, dealings in the 1918 and 1921 issues were in small lots and the quotations not representative, while the 1937 issue was a shade firmer at 94 1/2.

The morning's transactions: Shares, 283; war loans, \$4,900.

ROCKWOOD OIL WELLS CONTINUE TO PRODUCE

Company Hopes to Locate Larger Pool by Drilling More Deeply.

Hamilton B. Wells in its weekly market letter says:

The drastic decline in Rockford Oil stock was chiefly brought about by irresponsible reports to the effect that the company's wells at Glenora had completely dried up, and the property had been discarded as having no value. The seven pumping wells showed a diminishing flow of oil, but the management had no idea of giving up, but rather to energetically endeavor to bring the flow up to normal. At the present time this company's wells are pumping at the rate of 1,500 barrels per month, which will give net earnings of over \$4,000, or approximately \$60,000 per annum. At present market prices the holdings of this company are valued at \$250,000, so that net earnings are at a ratio of around 50 per cent. In other words, upon such earnings a 5 per cent dividend could be paid.

After a consultation with recognized oil experts, Manager Slaver has decided to increase the depth of the No. 1 and 9 wells in the expectation of soon piercing another and more important oil pool. Drilling of two additional wells at Glenora is now being aggressively pushed, and the management are optimistic results soon to be recorded will quickly bring the monthly output up to over double what it now is.

It should not be overlooked that reliable judges consider Rockwood Oil one of the best holdings in the western Ontario as the very best oil in the district. The company's treasury is sufficiently strong in cash to thoroughly drill this acreage. At the present time drilling is in progress on adjoining properties to Rockwood, owned by Imperial Oil Company interests, and the success of this development work will practically prove up this company's large holdings in this section.

BIG GAIN IN RESERVES 'OF NEW YORK BANKS

New York, Oct. 26.—The actual condition of clearing house banks and trust companies for the week shows that they held \$125,134,550 in excess of legal requirements. This is an increase of \$104,134,550 from last week.

TWIN CITY EARNINGS.

Twin City gross in September was \$326,735, as against \$349,506 a year ago, net income \$80,765, as against \$125,130.

ON NEW YORK CURB.

Hamilton B. Wells received the following wire at 10:30 a.m. on Saturday: A quiet steady market prevailed throughout the entire session, traders apparently waiting developments over Sunday before making commitments. Steady accumulation continues in the leading copper and oil stocks. United Motors was strong in sympathy with General Motors on the big board. Hecla was in splendid demand around the high prices for this stock.

SWINE FOOD SUPPLY.

London, Oct. 26.—Keepers of pigs have been notified by the board of agriculture of the probable discontinuance of the small ration of concentrated feed which has hitherto been available to them. The notice says that every possible ton of shipping and space has to be spared to bring American soldiers and their supplies to France. The board says that it is because of the policy to force the ton to an early successful issue that action in cutting down feed supplies is taken, much as it deplores the difficulties imposed upon owners of live stock.

POWER TO ACQUIRE MONTREAL MARKET HAD STRONG TONE

Unanimity Shown at McIntyre's Annual Meeting—No "Selective" Mining.

Unanimous approval was given by the directors of the McIntyre-Porcupine Mines, Limited to acquire all or any portion of the capital stock of the Plevadium Company at the annual meeting of shareholders of the former company held in the Bank of Hamilton building on Saturday. President Bickell stated that 75 per cent of the Plevadium stock, of which 500,000 shares of a par value of \$50, have been issued, is either owned or held under option by the McIntyre management.

R. J. Bickell, engineer of the McIntyre Company, said that the two months remaining before the option expired, should determine whether the ore bodies indicated on the McIntyre map were sufficiently important to justify the expenditure of \$100,000. Present indications were extremely promising.

On motion of Fred Dyer, with J. H. Black as second, the by-law respecting the Plevadium was carried without dissent. The shareholders were similarly in accord in authorizing an increase in the appropriation for salaries of the directors and executive committee from \$15,000 to \$25,000. President Bickell pointed out that the program of extension had increased the work and responsibilities of the management.

Engineer Bickell remarked humorously that the problem of securing one hundred muckers was the most serious one that confronted him. The company had sacrificed development rather than production during the year, but in spite of the fact that no new level had been opened up there was still one blocked out to keep the mill running for two years. A gratifying thing was that it had not been necessary to resort to selective mining. The ore, which had averaged \$10 to the ton as compared with \$10.05 the preceding year, and \$10.10 for the year before that, had been taken just as it came.

"The mine looks good. There is no geological change, and no bad news," he summed up.

The shaft was being sunk to 1500 feet, and he hoped the next annual report would show good results. Both the McIntyre Extension and the Jupiter had "come thru" better than expected, although no work had been done on the Jupiter below 475 feet. Forty per cent of the ore reserves was contained in the McIntyre Extension.

Mr. Bickell pointed out that the area owned or held under option, involved 10 or 12 miles of workings, and that it would necessarily take considerable time to prove up the mineral resources. The development of the McIntyre Extension was probably complete within the next six months whether the Newray was valuable or otherwise. A considerable tonnage of low-grade ore, which had been at present indicated.

The McIntyre directors were re-elected without change as follows: President, Toronto, president, D. J. Henry, M. Pellat, Toronto, vice-president, W. J. Sheppard, Waukenaue; J. T. Thudgood, Orillia; George E. Drummond, Montreal; H. D. Symmes, Niagara Falls, Ont.; and E. F. B. Johnston, K.C., Toronto.

Handcuff Kaiserism—Buy Victory Bonds

**Snap
'Em
On!**

Make militarism impotent—chain barbarity into helplessness. Buy Victory Bonds and snap the handcuffs on "Kultur."

You can fight with your dollars. You can deal a death blow with your money. You can score a knockout with your purse. "Snap 'em on."

Buying a \$50 Bond is only buying enough if it cramps you to buy it. Buying a thousand dollar bond is buying too little if you can buy more. "Snap 'em on."

Buy---buy---buy! Buy all you can---more than you can easily buy---as much as you dare to spare. We've got to get behind this thing with our might and main.

A lukewarm attack won't win a trench and a listless Victory Bond purchase won't be your full duty. Buy until you know you're up to your limit.

Yours for Victory Loan 1918 — Simpson's

The ABC of the Victory Loan 1918

Q. What is the Victory Loan of 1918?

A. Just like the Victory Loan of 1917—a loan of money by the people of Canada to their Country.

Q. Why does Canada again need money?

A. To help finance and win the war. This money buys food, clothing and ammunition for our soldiers—it goes to our farmers, our merchants and industries—without it our commerce would be paralyzed.

Q. Please explain more fully.

A. Well, Great Britain buys our wheat and other grains and foodstuffs, our lumber, our ammunition,

and a thousand other things. And just now Great Britain finds it inconvenient to pay us in cash. So Canada gives her these war needs on credit, that is, agrees to temporarily advance the cost of these large purchases in Canada. And to raise the money, Canada issues, and offers to you, Victory Bonds. The farmers, the merchants, the manufacturers, the workers are thereby paid in cash and the wheels of commerce keep revolving. These wheels would quickly stop if our Canadian people failed to buy Victory Bonds.

Q. In other words you mean that we would have depression throughout the Country?

A. Absolutely. If the loan failed, factories would close, wages cease, and the farmers would be unable to sell the bulk of their produce.

Q. Do Great Britain, France and the United States raise money the same way Canada does?

A. Yes. The peoples of all three Countries have bought billions and billions' worth of bonds to finance their obligations and defeat the Huns.

Q. Is this demanding much of our people?

A. No, indeed. Quite the contrary! Canada generously offers you the safest investment in the world and pays you 5 1/2 per cent. interest, to shorten the war, to hasten victory and meanwhile make every Canadian more prosperous.

Q. Do the Canadian people know this and buy Victory Bonds?

A. Yes. Over 800,000 people bought the First Victory Bonds offered in November, 1917. The success of the loan was so great that the facilities for printing so many bonds were inadequate. That is why there was a delay in delivering the bonds to the buyers. It is hoped this year to have the bonds ready for delivery almost immediately after the subscription period is over.

The investment feature of the Victory Loan is remarkable, of course. You get a high rate of return on the safest investment in the world. And you're putting your dollars where they'll do Democracy the most good.

Now then, get busy! Buy! Buy early and often. Buy as much as you can as soon as you can. And buy more if you want to hasten peace.

Last year we Canadians provided \$650,000,000 for War purposes—\$150,000,000 in the March War Loan, \$400,000,000 in the November Victory Loan, and \$100,000,000 from the banks. The total Loans provided in Canada for War purposes to date aggregate \$950,000,000.

WHAT BECAME OF IT ALL?

In addition to providing for our own War expenditures in Canada, we loaned \$732,816,397 to the British Government on the following conditions:

1. That it all be spent in Canada to buy food, shells, explosives, aeroplanes and other war necessities.
2. That the British Government lend us in France and England the \$534,450,826 which we needed there to feed, clothe, munition and pay our Canadian Army.

It was also part of the arrangement that the United States should lend the British Government what further money was needed to buy wheat and other supplies in Canada.
