DISAPPOINTED IN TARIFF IS THE EXPRESSION OF MANUFACTURERS TO PROTECTION FROM U.S.

Feel That the Recommendations Made Regarding Individual Lines Have Been Practically Ignored—C. M. A. Committee Begins an Analysis.

INTERMEDIATE TARIFF, TAKEN, WOULD RUIN SOME INDUSTRIES

The special tariff committee of the Canadian Manufacturers' Association held a meeting yesterday afternoon for discussion of the revised tariff. W. K. George of the Standard Silver Co. presided. An analysis of the new schedule was entered upon, but from the many and various manufacturing sections of the association being as variously affected, and in frequently opposite directions, conclusions only of a general nature were reached. Several more conferences will necessarily be held before an authoritative pronouncement can be given out. Sufficient examination, however, was made to create a feeling of disappointment over the revised version, which, while practically the same as the old tariff, will not, by reason of the changes, encourage the establishment of new industries; and in the case of many of those in existence will create new hardships, or impose new burdens. The association claims, as part of its policy, the encouragement of increased manufacturing rather than increased prices; more industries rather than more cost to produce; but the revision, as it stands, while holding out no encouragement that such effect will result from the alterations, clearly indicates that the recommendations made by the different manufacturers regarding their individual lines of industry have been ignored or almost wholly disregarded.

In the opinion of the committee, the general tariff appears to possess little or no improvement as protection against the United States for reasons that are patent to those who take the time and pains to itemize the comparisons between the old schedule and the new; while, on the other hand, it would appear that the intermediate tariff, if carried into effect with that country, would be injurious to some and disastrous to many of the Canadian industries now in existence, or yet to be established.

It will be the task of the committee in its further sessions, to have the special tariff affecting the different manufacturing sections, carefully considered and discussed, but the deductions drawn from the calculations and comparisons at yesterday's meeting hold out but little prospect that the tariff will improve on closer acquaintance.

Adversely Affected.
Speaking of the new general tariff, Mr. George said he was unable to give an opinion on the way it may affect the manufacturers or industries with which he is not conversant, but so far as that which he represents is concerned, the revised schedule will in several particulars affect it adversely. Although the tariff revision cuts from both sides, the increased duties are judged from the cursory examination he has so far made—rather on the material used in manufacture than the finished article. Not that a protection and in many cases an increased duty has been always neglected on the latter, for which, he said, he is thankful; but, in many instances, the material used in the manufacture, which, under the present tariff, was either on the free list or nominally taxed, is now advanced to a duty rate which will materially alter the present conditions of the manufacture, and, in some cases, the tariff, as applied to the finished article, can seldom be taken advantage of, from the fact of the article taxed being usually one specially produced by the United States.

Adding to Cost.
Taking for example, cases of nickel and silver, which are used in the plating baths. These, he said, are now taxed to such a degree that to save \$50 in the value of either material, it will be necessary to add to the present plant a section to make those plates, so indispensable to the manufacture of silver and plated ware. This does not create a new industry, but merely adds to the cost of the old. Also spoons of fancy design, such as the limited edition of the market will not admit of being specially manufactured, are increased to a degree that will likely in the end mean a charge against the consumer.

"The C. M. A. is of the opinion," said Mr. George, "that the industries of the Dominion, so long as the present protective conditions obtain, could have held their own against foreign competitors; and that the revision of the tariff should have been made with a view of protecting the best against a recurrence of the parlous times of the comparatively near past, and which, in the natural cycle of events, will inevitably, in a lesser or greater degree, be repeated at some period in the future."

Farmers Benefit.
It was the opinion of W. L. Smith, editor of the Weekly Sun, that the farmers had the best of the new tariff. There had been no material increase in anything that the farmer had to buy, but there had been reduction in some important items. The duty on axes, scythes, etc., threshing outfit, harvesting machinery had been lowered. This was especially appreciated in the west, and about the government secure the adoption of the intermediate schedule with foreign countries, it would be still better.

"The continuation of the duty on iron and steel production," said Mr. Smith, "is a serious objection to the new tariff, and will meet with a

Continued on Page 15.

COCKSHUTT SAYS TARIFF PLACES DUTIES TOO LOW

M.P. From Brantford Complains That the New Arrangement is Complicated.

Ottawa, Nov. 30.—(Special).—H. H. Miller (South Grey) expressed himself as highly pleased with the tariff. He did not touch upon any schedules, but in a general way expressed his admiration of the government and incidentally criticized the tariff. He said that the greatest honor of agriculture in the Dominion, or in any province before since confederation, except John Dwyer, was to have a 10 per cent. reduction on agricultural implements, or to increase the duty on agricultural products from the United States. Mr. Miller (South Grey) pointed out that we now have four tariffs instead of one. The whole scheme was too complicated. He did not believe that there was any conflict between the farmers and the manufacturers. Both classes were helped by, and are mainly in favor of, moderate protection. The best way to convert farmers into protectionists was to establish factories, build up towns, and create a demand for perishable farm products. "Give the farmers of the Northwest an object lesson," said Mr. Cockshutt, "establish factories at Port Arthur, Winnipeg, Regina and so on to the coast."

Against the Abolition.
Putting binder twine on the free list had put up the price. The same was true of barley wine. He opposed reducing the duty on windmills and agricultural implements. Mr. Patterson: Can you suggest what the duty ought to be on these? Mr. Cockshutt: What are your views? Mr. Patterson: They are embodied in the bill. Now what do you say? Mr. Cockshutt: I do not know that I am bound to state. Let us form the tariff and you will see.

Mr. Cockshutt's views on putting the duties on agricultural implements even higher than they were taxed under the Customs Act of 1887. He claimed that the freight charges from Ontario to the west coast up all the advantage conferred by a moderate tariff as against American imports. Mr. Cockshutt favored a duty of 10 per cent. on at least a bounty to this new industry. In a general way he thought that the proposed tariff erred in putting the duties too low.

To Restrict Preference.
Hance Logan (Cumberland) gave notice that he would move to restrict the British preference to goods imported from the United Kingdom. The motion to go into committee prevailed without division, and at 6 o'clock the house adjourned.

The following bills will be introduced: By Mr. Macdonell—An act to amend the Dominion Elections Act. By Mr. Verville—An act, or at least the hour of labor on public works. By Mr. Macdonell—An act to amend the Copyright Act.

FIND FOUR MORE VICTIMS WHO SAILED IN "JONES"

Men Who Worked in Lumber Camps and Had Taken Passage on Last Steamer.

Owen Sound, Nov. 30.—(Special).—The names of three lumbermen who must have been lost on the steamer Jones have been positively identified on the Sheldon House register by Capt. Graham of that steamer, who arrived in town to-night. They are: R. Addison, who has been employed by a lumber company at Silver Water for three years, and who had come south to procure more hands for the winter's camp; A. E. Addison of Avon, Ont., cousin of the aforesaid, and J. E. Kennedy of Eaton, Ont.

They registered at the Sheldon House the evening of Nov. 20, and embarked on the steamer Jones the following day for Silver Water.

Another man who is supposed to be among the lost is Robert Edmondstone, a young fisherman of Nain's Point. Some days ago he left for a lumber camp on Manitoulin Island, and is thought to have embarked on the ill-fated vessel.

600 GUESTS ATTEND SAINT ANDREW'S BALL SCENE IS BRILLIANT

Ball Room at King Edward Hotel Presents Beautiful Spectacle—Most Picturesque of All the Annual Functions.

There's music in the gallery, There's dancing in the hall, And the girl I love is there, Like a goddess thru the ball Among a score of rivals You're the finest in the room, But I like you better, Marion, Riding thru the bloom.

If Whyte-Melville had been at the St. Andrew's ball last night he might have witnessed something more to the seductiveness and generally radiant witchery of the great social event of the season. The King Edward ballroom was especially brilliant and all the ardor and amiability of Scotland in Scotland's over-sea home was gathered in honor of the patron saint and of the great earl who bears the King's will to his loyal subjects. Standards of old Calcedonia hung on the wall; the red lion rampant, and the saint suffered on his cross. The sombre Davidson tartan mingled with the ruddy Robertson plaid in the draperies, and the electric brilliance was worthy of Hon. Adam Back. The floor was beyond the criticism of Commissioner Campbell and inspired him to new ideals of good roads.

There were 600 guests or more, and of course the space was taxed, but not disagreeably so, and President James Bain was the recipient of many congratulations on the grand success of his ball. Dancing began shortly after nine, and extras and "extra extras" were in demand up till 10.30, when his excellency's party arrived from the Government House dinner. The pipers were in full blast and marched round the big American room with exultant skirts and droning, and the Real of Tulloch was danced with all the national abandon by 25 couples. Claret cup was dispensed during these preliminaries and there was much promiscuous dancing in the corridor outside the banquet, or Louis XV. room, where supper was served. There were two pretty girls by actual count and a great many others who distracted the calculating sense of the enumerators. They were of all descriptions, from the saucy and glittering young thing, to their chrysalides of the more experienced butterflies of other seasons. The men were a handsome well set up, well groomed and with a good deal of military uniform among them. But imposing as the Highland costume is, the young men in the city, the ladies' splendor. It is not easy to distinguish, but Mrs. Robert Christie certainly maintained her reputation as the best dressed woman in the city. Miss Lois Duggan was perhaps first among the debutante equals. The viceregal party were very simply dressed.

A truly magnificent guard of honor was provided by the kindness of Lieut. Col. Robertson of the 48th Highlanders, in charge of Capt. Harbottle, Adjutant Miller and Lieutenants Anderson and Perry. There were 125 men all picked for their physique and 50 bandmen and no more royal escort it was said, ever marched in Toronto. They lined the corridor about ten to await the approach of his excellency. At 10.30 the procession appeared, headed by the pipers, followed by the band. Then followed the marshals, Lieut. Col. Robertson, Capt. Catto, Frank Gray, and C. H. S. Michie. The secretary, Duncan Donald, and the treasurer, George Keith, came next. First Vice-President Lieut. Col. John L. Davidson and Second Vice-President George MacMurtrei walked together. And Mr. Bain, Jr., D.C.L., president of St. Andrew's Society, preceded the lieutenant-governor's aides-de-camp. Next came the Misses Clark, Lieut. Governor and Mrs. Clark, the governor-general's aides, the Ladies Grey, Lord and Lady Howick, and Earl and Countess Grey in this order.

The Set of Honor.
The national anthem was played as the party entered the ballroom, and immediately after the quadrille of honor was formed. The dancing, by His Excellency and Mrs. Bain, Gen. Otter and Countess Grey; George MacMurtrei and Lady Sybil Grey, Mr. Bain and Lady Evelyn Grey, Lieut. Col. Robertson and Mrs. Mrs. Sir William Mulock and Mrs. J. J. Davidson, Lord Howick and Miss Jessie MacMurtrei, Lieut. Col. Davidson and Miss Clark.

Premier Whitney and Mrs. Whitney mingled with the crowd. Prof. Galbraith was early on the scene. Hon. Dr. Fyfe was not so prompt, but he had an earlier engagement. Dan Mann strolled into the ballroom, but finding no terminal facilities, he quickly came out. Sir William Mulock wore his decoration, and Chief Justice Mosely was another distinguished visitor. The presidents of the Irish Protestant Beneficent Society and the St. George's Society represented those bodies, and a large number of greetings were received from all parts of the world.

Cable From Dublin.
From Dublin Castle President Bain received a cable from Lord Aberdeen, the lord lieutenant. It was cordial and Scotch. "Greetings to ye," it read.

MUNICIPALITIES GET GOVERNMENT PRICES FOR SUPPLY OF POWER

Following is a copy of the letter sent by the hydro-electric power commission of Ontario to the several municipalities asking for power, the blanks being filled as for Toronto:

Dear Sir,—In reply to the request of your council for the cost of electric power, the commission has estimated, upon the basis of the quantities applied for, that 30,000 horse-power can be supplied at Toronto ready for distribution, at from \$14.15 to \$16.61 per horse-power per annum for continuous power. It is, however, obvious that the ultimate price will depend upon the gross quantity used by all the municipalities and the commission has estimated that if the quantity used by your municipality should be considerably less than 30,000 horse-power, the cost will be from \$17.75 per horse-power per annum for continuous power.

This letter was sent to all the places shown in the table, of accompanying minimum and maximum prices of continuous power. The information contained in these letters will enable the various municipalities to complete the preparation of the bylaw which is to be submitted on Jan. 1, of which the following is a copy:

The Bylaw.
No. —, a bylaw to authorize the municipal corporation of the — to enter into a contract with the hydro-electric power commission of Ontario.

LAURIER WIRES SIR THOMAS TO GIVE COAL RIGHT OF WAY

Premier Comes to Relief of Saskatchewan Hamlet—Strike is Settled.

Ottawa, Nov. 30.—(Special).—Sir Wilfrid Laurier has wired Sir Thomas Shaughnessy: "I am informed that there is a coal famine at Lethbridge, Sask., and that there is no coal available at Lethbridge. Please forward coal, giving same right of way. Conditions very serious."

Sir Thomas answered that even though the mission of Hon. Walter Scott and Deputy-Minister King to Mr. Mitchell at St. Paul proved successful, it would be some days before there could be any output of coal from Lethbridge. Meanwhile, Mr. White of the C. P. R., and the provincial authorities are working. All cars have been used to forward coal, even to the extent of delaying grain. He does not anticipate any serious coal famine.

Mr. Lenoir has heard from Mackenzie King to the effect that the strike is virtually settled.

LABOR NOW ENTITLED TO A REPRESENTATIVE IN THE LEGISLATURE

Studholme of Hamilton Has a Splendid Meeting—Candidate's Attitude Toward Public Ownership—W. F. Maclean, M.P., One of the Speakers.

Hamilton, Nov. 30.—(Special).—The The Spectator is making a strong effort to divide the electors on party lines, in the election contest in East Hamilton, the campaign of the Labor and public ownership candidate is swinging strongly in his favor. An enthusiastic meeting was held to-night in Association Hall, and the arguments for the election of Allen Studholme to the legislature met with a splendid response. The speakers were the candidate, W. F. Maclean, M.P.; J. G. O'Donoghue of Toronto, and S. L. Landers of Hamilton, the last two being prominent in labor circles. Charles Atchison presided.

Mr. Studholme answered the allegation that he was afraid to meet his opponent in debate by challenging Mr. Scott to a joint meeting on Saturday or Monday. He claimed that, as arbitrator for the street railway war, he had secured an award that gave the men an increase of \$30,000 in wages, and readjusted the hours of work so as to afford reasonable time for rest and recreation. For his services during five weeks' time he charged \$60, less money than he would have received from his employer. The Caratrac Power Company would not, he feared, respect its agreement with the city, and he was not sure that peace would continue. He said that owners of The Spectator, who were fighting him so vigorously in the campaign, were large stockholders in the company.

Mr. Maclean was given a flattering reception. He explained that he had come to Hamilton at this time because Mr. Studholme was a declared supporter of public ownership. Premier Whitney was one of the foremost exponents of the principle of public ownership, and he believed Studholme to be a man who would support Mr. Whitney in regard to "Niagara power," where they stand.

"I know where Studholme is," said Mr. Maclean, "and although I sent two representatives to see Mr. Scott, I have not been able to find out where he is and his whereabouts."

In Canada there were only two representatives of labor in parliament, whereas in Britain there were over 40. In parliament there were no representatives to represent the interests of the working men. The appearance of these 40 Laborites at Westminster was working a revolution in British politics. The interests of the great mass of the electors were coming to be recognized, and he found in some of the British newspapers two or three articles on labor questions. Old-fashioned England was leading Canada in this respect.

"There ought to be a representative of labor in the Ontario Legislature, and now that the opportunity has come to Hamilton working men, they ought to take advantage of it," he said.

The underlying principle of government was to increase the number of representatives, and to extend their benefits to the greatest number of people. If these great conveniences for the hands of monopolies the plan would be to limit their number, and to increase the cost to the people.

A City Owned Street Railway

Hamilton was tied up to a great corporation. If the city owned the street railway it could admit any outside system on favorable terms, there would be an adequate service, fair wages and a profit returned to the people, as in the case of Guelph, where a municipal railway had proved a success. When the public owns a utility there was no watered stock.

The speaker used the Toronto Railway as an illustration. The cars were run to 11 a.m. to pay interest on first mortgage bonds, from 11 to 3 p.m. to pay cost of operation and improvement of roadbed and rolling stock, and from 3 p.m. to midnight to pay interest on watered stock. The earnings that were devoted to the paying of interest on watered stock should go to improve the roads and better wages for the employees.

A private corporation contracted to supply street lights of a certain power. They gave lights of only half the stipulated power.

Evaluate Arguments.
It was impossible to compel corporations to live up to their agreements. When the courts were resorted to years were spent in litigation.

Mr. Maclean believed the great corporations were at the bottom of the political corruption that existed in Canada. As soon as the people gave a vote

Only \$13.70 from Toronto and return tickets good going Dec. 1, 2, 3 and 4, good to return on or before Dec. 19. Three trains leave Toronto daily via the Grand Trunk, with through Pullman sleepers at 7:35 a.m., 4:30 p.m. and 11:30 p.m. Tickets and reservations may be secured at City Office, northwest corner of King and Yonge streets.

The forty-eighth anniversary of St. Stephen's Church, corner College-street and Bellevue-avenue, will be celebrated on Sunday, Dec. 2. Rev. J. S. Bromhall, M.A., will preach at the morning service, and Rev. Canon Dixon at the evening.

Thousands Dying Of Bright's Disease

How can you afford to trifle with weak kidneys when the danger is surely leads on to Bright's Disease? Can't you see your ever-increasing weakness has its origin in declining kidney power?

Your vitality and stamina can only go so low, and then, when all power of resistance is gone, you'll be an easy prey to Bright's Disease.

And Bright's Disease is practically incurable.

To avoid it, use Dr. Hamilton's Pills; they soothe, heal and strengthen the kidneys, give them vitality and power to filter the blood and get you back to health again.

The following symptoms are your warning—they tell whether your kidneys are sick, whether they need the assistance of Dr. Hamilton's Pills.

LOOK FOR YOUR SYMPTOMS

Dull Back Pains?
Dragging Backache?
Bearing-down Pains?
Painful Urinary Disorders?
Constitutional Weakness?
Brick Dust or Sediment?
They mean kidneys are diseased.

If kidney weakness is your trouble, your salvation lies in the prompt use of Dr. Hamilton's Pills. Their unexcelled merit is acknowledged, not only by the thousands they have cured, but by physicians in every locality, who regularly prescribe this grand savior of human life.

The wonderful power of Dr. Hamilton's Pills will do you a world of good; they will restore your vital energy, your youth, color, spirits; they will give you the health and strength you need. Sold everywhere in yellow boxes 25c each, or five for \$1, and be sure you get only Dr. Hamilton's Pills of Mandrake and Butternut.

HAMILTON HAPPENINGS

MEN ARE WORKING TO-DAY UNDER ORDER OF THE BOARD

Col. Gibson Objected at First, But Later Agreed—Non-Union Men to Get First Cars.

Hamilton, Nov. 30.—(Special.)—Starting Saturday morning the street cars, Radial and Hamilton and Dundas lines, will be operated by the union men who have been out on strike for nearly four weeks, and the strike-breakers will be taken to pastures new. That at least was the arrangement entered into this afternoon by the company and the union before the Ontario Railway and Municipal Board.

The board met at 11 o'clock and proceeded at once to the arbitration of the street railway troubles. The first thing the board did was to issue an order instructing all the strikers to go back to work. The order read: "The board, in order to serve the comfort and convenience of all classes of the community, hereby declares the strike off and orders and directs all the men now out on strike to return to their respective employments, and also orders and directs the companies to receive the men back, and the companies are to further put a complete service in operation."

The chairman read the order, and then said he supposed the next question would be about wages. Col. Gibson said the board had no power to order any man to work for less than he was getting. He thought the company should have some say as to whom it should employ. It was willing to put back a majority, even nine-tenths of them, but it should not be compelled to keep men who were dishonest. He asked for an adjournment for two hours, so that the company might consider the matter.

At the afternoon session Mr. Gibson agreed to obey the order, and take the men back as fast as cars were available. Many of the cars were so damaged that the company could not put them on the streets.

About Men.

W. D. Mahon, for the union, said that the strike-breakers employed were of the blackest character, and the strikers would not mix with them. Col. Gibson thought Mr. Mahon's objection was a reasonable one.

"I'm about the most unpopular man in Hamilton and the most tired man," objected the colonel.

Mr. Mahon said that the men would all report to work early enough Saturday morning to take the cars out. If there were not cars for them to take, of course it would not be reasonable to expect the company to put all the men back at once.

Chairman Letich remarked that the city was in a state of siege; the citizens wanted a service restored at once, and that was why the board could not recede from its order.

Strikers and the Cars.

Col. Gibson said the company service in a position to give a better service than the public was taking advantage of. The public was taking advantage of the people who used the cars, and the people who used the cars were not getting a satisfactory service. Whenever things were not molested, but when they were molested, the strikers looked unsatisfactory. He said it was the cars were molested, the company was physically impossible for the company to take all the man back at once, but it would give a reasonable compliance to the board's order.

Chairman Letich admitted that the company was in a state of siege; the citizens wanted a service restored at once, and that was why the board could not recede from its order.

It was then agreed that all the strikers were to report to duty in the morning, and as many as the company had cars for would be put back to work. The company denies that it made an official announcement to Mayor Biggar yesterday that it intended to renew its strike, and that anything that could be construed into an announcement of that character, and had no intentions in that direction.

Ordered to Report.

It was a happy lot of men that left the Trades and Labor Hall about midnight to-night at the conclusion of the meeting of the street railway employees. Every man had orders to report at the hall at 6 o'clock in the morning. The men of the men at returning to their old jobs was the objection of some of the men. Comment has been made by citizens about the condition of the cars since the strike-breakers have been handling them. It is even said that the strike-breakers slept in the cars at night.

There is still a possibility of complications when the company undertakes to operate the cars in the morning. Late to-night Superintendent Miller stated that while none of the fifteen non-union men who were brought in some time ago, and kept in readiness to operate the cars when the strike was restored, will be given the preference, and they will take the first cars out. The union men will then be accommodated as best can be. The company expects that it will be able to operate only 22 cars. The union men may refuse to work with the non-union.

Will Sue City.

Chisholm & Logie have served notice on the city that they will sue the city for damages caused by the strike-breakers this evening for the last time. It is hoped.

St. Andrew's Ball.

The annual St. Andrew's concert and ball was held in the Arcade Hall to-night in celebration of the 71st anniversary of the St. Andrew's Benevolent Society. A musical program was presented in the early part of the evening, after which a ball was held. Among those who contributed to the musical program were: Miss Mabel Manley and Donald C. McGregor of Toronto. The annual address of William Murray, the society's bard, was read by W. M. McClelland.

Knighted for Buffalo.

About 500 Knights of Pythias left here by special train this afternoon for Buffalo to attend the Pythians' jubilee, which opened there to-day. Besides Red Cross and Bismarck Lodges of this city the party included representatives from lodges in Brantford, London, Stratford, Georgetown and Petrolia. A procession was formed at the Knights

of Pythias Hall on North John-street, and headed by the 51st Band, marched to the King-street G.T.H. Station. William Fechen was marshal of the parade, and John Letich, assistant marshal. The following was the committee in charge of the excursion: John Burns, chairman; Harry James, secretary; J. C. Bleaken, A. Ramsperger, H. Kampf, Thomas Bensley, Thomas Towers, C.C. Red, Cross Lodge; Alfred W. Wilkes, district deputy, and D. J. Peares, supreme representative. The jubilee is being held in Convocation Hall, and the feature to-night will be the putting on of the third rank by the degree team of Iola Lodge of Dayton, Ohio, 135 strong. The local delegation will put up at the Lafayette Hotel.

Brevities.

A bogus cheque man is operating in the city. One of the victims was W. Tomes, tailor, North James-street. The assignee has made a statement in connection with the estate of H. P. Heming. The creditors get 12-1/2 cents on the dollar. The assets were only \$2832, and the liabilities \$32,635.

Trickett—this name is known all over as the largest slipper manufacturer in the world. John Lenox & Co. carry 250 different lines of their slippers in stock. Phone your order at our expense.

Recovered Property.

Detective Mackle returned from Buffalo last evening with a quantity of jewelry, including two gold watches, a diamond ring, a bracelet, a Van Zant and Victor Lindsay are charged with having stolen from Toronto residences.

THE LIME IS ALL OUT!

Hygeia Distilled Water

is LIKE RAINWATER—Rainwater is distilled water—it is the moisture of the earth evaporated by the sun and condensed as snow or rain in Nature's Big Distillery.

Spring water is good, but DISTILLED WATER IS BETTER. More lime than the system needs is found in our food. The mineral salts in well and spring waters are inorganic, and Cannot be Assimilated or Digested by the System. The soil of the earth is also inorganic in form, but the wheat and vegetables which it produces are organized food materials and contain phosphates, etc., which Are Assimilable.

Every column of this paper could be filled with quotations from famous physicians and scientists in Europe and America advising the use of DISTILLED WATER and giving the "reasons why."

In London an immense distilled water business is done. Visitors to New York, Boston and all the large American cities are impressed by the hundreds of water wagons delivering distilled water. Nearly 2000 companies are engaged in the business. The demand is enormous and increasing.

THE CULTURED CITY DWELLER

Would be deprived of many of the daily luxuries and necessities rather than lose the benefit and luxury of good distilled water. Like most well-read laymen, he knows all about the amusing arguments against "too pure" water, and as he reads the best reviews and magazines he is familiar with the fact that the only absolutely safe, reliable and pure water, free from bacteria, dead or alive is

CANT BE BOUGHT.

Winnipeg, Nov. 30.—Sir Thomas Shattlesworth said to-day, in speaking of car shortages:

"If I could buy ten million dollars' worth of cars and locomotives at the present time I would buy them and would undertake to provide the money in cash. But there are no cars or locomotives to be bought. We are, however, adding a new train of 24 cars to our available force of cars every day."

Messrs. Dewar, Young & Maw have removed their offices from the Home Life Building to the Crown Life Building, on the northeast corner of Victoria and Queen-streets, Toronto. Mr. G. S. Hodson, who has been associated with the firm since his call to the bar, has been admitted into partnership, and the style of the firm from Dec. 1 next will be Dewar, Young, Maw & Hodson. Mr. Blayney H. Scott, Delaware-avenue, who has been school trustee for six years on the public school board from ward five, has been induced by his friends to be a candidate for alderman in ward five.

Diamonds as Gifts

"When in doubt choose Diamonds" is a sure axiom for Christmas gift-making. The gem of gems falls never in receiving ardent appreciation from young and older alike.

Present Worth

A Diamond's intrinsic worth carries an assurance that the giver feels the "best none too good" for the favored recipient. The more is this certain if the gem be from Diamond Hall. The Ryrie guarantee as to quality is known to accompany every gem that leaves the store.

Future Value

Then there is the satisfaction of knowing that a Diamond gift this Christmas will be no whit less brilliant, beautiful ten or twenty years hence. Instead, its value will be enhanced—almost fabulously so, if gem prices soar as there is every indication of their doing during the years to come. An ever increasing demand, and a limited world supply combine to keep the Diamond market a steadily rising one.

Our Prices

Our present prices are distinctly favorable to you—more so than there seems any possibility of their being a year hence. Through our permanent buying offices in Amsterdam we received unusually extensive Autumn shipments this year. And our "spot cash" purchasing methods secured for us advantages that enable us to offer price-values unequalled elsewhere in America.

Unique Ring

A unique ring in our Christmas showing is one containing a large and brilliant Canary Diamond, surrounded by platinum-set scroll of almost innumerable white Diamonds, interspersed with clearest square-cut Emeralds. The buyer of this ring has the assurance that none like it is to be found the round world over.

Purchase Now

Now—before the Christmas rush is on—is by all odds the best time for you to make your gem selections. So many of our jewel pieces are of exclusive design that delay endangers your losing the chance of choosing the finest of them.

INTERNATIONAL BANK INSPECTION.

Objection is taken to the efficacy of the appointment by an individual bank, of an independent officer charged with the duty of examining into its position and reporting to the board of directors. It is asked what benefit would have accrued from this system in various cases of Canadian bank failures since their history appears to establish that "at least the directors dominating have knowledge of, or are directly concerned in the failure of their banks and often are the cause of the disaster." Mr. H. C. McLeod, general manager of the Bank of Nova Scotia, who advances the criticism, adds that the remedy is external inspection as applied in Scotland after the failure of the City of Glasgow Bank, in 1875.

No one will maintain that inspectors from within can ever supersede the remedy for external inspection, but that does not derogate from the advantage attending the appointment of an independent officer acting specially for the information of the board of directors. Mr. McLeod, indeed, suggests the answer to his own argument when he says that at least the "directors dominating have knowledge of or are directly concerned in the failure of their bank." There are no more common pleas on the part of the remnant members of a board, than want of knowledge of the real situation, and entire trust in the acting management. The report of the independent officer, charged with full authority, and the fulfillment of a definite duty, would be at once a check on the dominating directors and a protection for the passive directors. Conceivably he might be implicated in improper action, but that same risk is necessarily involved in more or less measure whatever be the status of the official. And the value of the experiment made by the Traders' Bank lies in the measure of the security it affords to directors who are anxious to fulfil properly and honestly the duties of their position.

ETERNAL AGITATION IS THE PRICE OF LIBERTY.

Supporters of Premier Whitney's Cheap Power policy should be vigilant. If they are vigilant they will agitate. If they agitate they will succeed in gaining freedom from the electrical trust, which, under one name in Buffalo and another in Toronto, seeks to crush public ownership of Niagara power.

It is a matter for congratulation that Premier Whitney has kept his pledge to the people of Ontario regarding the municipalization of Niagara power. The whole subject has been canvassed till no man can say that he has had no opportunity of coming to a decision regarding the benefits to be derived from public ownership. Every municipality that has made application for power to the hydro-power commission will vote on a power bylaw at the coming municipal elections. When these votes are taken we will have got an expression of public opinion.

It behooves the friends of freedom to see to it that that expression of public opinion is emphatic. If it is half-hearted, if some municipalities defeat the public ownership bylaw, if some give but small majorities in its favor, if there is not pronounced and almost unanimous approval of Premier Whitney's course, he may feel compelled to modify his plans, as already outlined.

But if, on the other hand, the municipalities with one accord carry these bylaws that will link them up to the hydro-power commission, then Premier Whitney's purpose will be stiffened, and the boon of cheap power will be the people's.

Hence the need of agitation; hence the call for every advocate of public ownership to lend his aid in carrying these bylaws; hence the demand for vigilance on the part of those who see in the present the crisis in the campaign for cheap power from Niagara.

Be not deceived; the electrical trust, international in its scope, will have its hirings in every municipality, working insidiously to kill the power bylaw. The friends of public rights never had a harder fight on their hands than they have at present. Half the battle is won if they realize the strength and the weakness of the forces arrayed against them. Let meetings be held in every municipality. Make the candidates for municipal honors declare themselves for or against cheap power. Let cheap power be the one issue.

And even then only by everlasting vigilance will the fight for the people's rights be won.

THE NEW TARIFF.

Mr. Fielding has played the part of the first-class window dresser, who, when told by his master, the storekeeper, to re-dress the shop window, replied: "But we've no new goods." "Then use the same goods in another way."

So Mr. Fielding went to work and turned everything in the window around, rearranged the same in different lines, made some a little more prominent, others less prominent, and surprised the spectator and the public outside by his versatility. Thus the new tariff is but the old tariff put in different columns with an additional column, which is only introduced to be put in force at some later date, if, indeed, ever.

Some concessions are made to the farmers by small reductions on farm implements; sugar refiners are asked to pay a little more on raw sugar, but are laid under the condition that they must not raise the price to consumers; oranges and lemons are placed on the free list; the iron and steel duties, which are due to run out next year, are somewhat increased and extended for four years.

The blessed word "free trade" was never mentioned, the Mr. Fielding did say "fair trade" once. As to the preference it is continued in a modified form. Now it is to be preference for preference as between foreign countries and ourselves, but still a preference for English goods without a return preference for Canada or as between ourselves and the mother country. The new or intermediate, and for the present, inoperative tariff, is to be used as an instrument to encourage foreign nations to give us some kind of reciprocal trade preferences, but not against the motherland.

THE SUNDAY WORLD.

As an example of the modern illustrated newspaper The Sunday World leads all its Canadian contemporaries, and ranks with the very best newspapers of its character sold in Canada. It has an especial claim to popularity in this country, moreover, because of its exploitation of Canadian subjects in picture. Its aim is to interest the Canadian reader by supplementing the ordinary reports of events with illustrations of the highest artistic and mechanical quality, and its efforts in this direction have been rewarded by a highly-gratifying increase in the circulation. The Sunday World is in a class by itself. It is purely Canadian; it seeks the agrandissement only of this Canada of ours; and it illustrates the news while it is fresh.

To-morrow's World is a typical illustration of the manner in which the news events are treated. It will contain several pictures of scenes in Hamilton, illustrating the results of the rioting in connection with the strike of the street railway employees—now happily in a fair way to settlement. The pictures include an exclusive special photograph of the detachment of the permanent force sent from Stanley Barracks to aid in preserving the peace, and one of the big leader of the strikebreakers, both from photographs made by The Sunday World's staff photographer.

The laying of the corner-stone of the new public library, "the people's university," as one speaker happily phrased it, took place on Tuesday afternoon last. A picture of the ceremony will occupy a prominent position, and the issue will serve as a souvenir of progress in the erection of the long-desired building. A little church with a big dispute dividing the congregation into two factions is Balm Beach pavilion, a mission of St. John's Church. There's a good picture of the tiny mission in to-morrow's paper. Football enthusiasts will find in the issue two illustrations of the Varsity-McGill game that will warm their blood again. As pictures of a game of football they have never been equaled.

"Fathinder's" history of the Toronto Camera Club is the history of one of the oldest and most active organizations of its kind on this continent. The story and illustrations will interest hundreds of members and ex-members, and the fraternity everywhere.

Perry Sound has been brought closer to Toronto by the opening of the Canadian Northern Ontario Railway. A panoramic view of the town and a view of the public demonstration on the arrival of the first C.N.O. train from Toronto illustrate the event interestingly. The ladies will find "The Trend of Fashion" a department replete with helpful, practical suggestions, and the babies' portraits will aid in establishing The Sunday World as the newspaper for the Canadian household.

The editorial, local and foreign news, social, literary, musical, theatrical and sporting departments are full.

York Springs Water

will do your wife more good than medicine, and yet there is nothing medicinal about it.

Few women drink enough pure water--the body needs ten glasses a day--less will not

Let your household take no risks--take none yourself. It may be days before Toronto city water is fit to drink. While this present water-trouble lasts, our wagons will deliver York Springs Water to any house in the city limits.

A two-gallon flask - - Twenty-five cents

A five-gallon flask - - Fifty cents

Case of 6 half-gallons - Fifty cents

Case of 12 quarts - - Fifty cents

York Springs Water

Wholesome --- Limpid --- Refreshing

We take more trouble than seems worth while to have everything just as clean as daintiness demands—we are perhaps "finicky," even the bottles we use are cleaned with York Spring Water. Bottling at the Springs for surety of purity, and bottling under scrupulously hygienic conditions—we KNOW York Springs Water gets to you pure. If you realized half the dangers that come from drinking water that isn't surrounded with just such precautions—you would drink no water except York Springs Water.

Ideally Pure York Springs Water is the basis of these beverages:
York Springs Water (natural), York Sparks (York Springs Water charged with purified carbonic gas), York Ginger A. O. York Sarsaparilla, York Soda, York Potash Water, York Apertolent (the perfect laxative).

The Mineral Springs, Limited, Toronto

full, and carefully edited. Nothing offensive to good morals is printed in The Sunday World. Sensationalism is avoided. It's made for the home, and there's something in it for every member of the family.

IN 70 FEET OF WATER.

Probable Spot Where the Steamer Jones Went Down.

Owen Sound, Nov. 30.—The tug Sandford is still searching around the Christian Islands for bodies from the wrecked steamer Jones, but without success, so far. Capt. Rumley of the tug Gladstone, who came over the route to-day from Lion's Head to Owen Sound, passed over and located a spot three miles from Cape Croker and a quarter of a mile off shore, in about 70 feet of water, where he thinks the Jones sank. He noticed oil on the water, and traced it to where it came bubbling up. The Jones took on a considerable cargo of oil from here on the ill-fated trip.

Crew Battled for Life.

Kingsport, Nov. 30.—Capt. Darryway crew of the foundered schooner, Queen of the Lakes, reached here to-day. The vessel went down on Wednesday night. The men took to the yawl, saving nothing. They battled hard to reach shore. The crew was composed of Capt. Chauncey Darryway, Frank Darryway, R. Watts, Thomas Watson, Francis Truesdale, and Samuel Cannell, all of Kingsport. The schooner was built in 1853.

Rev. Canon Welch will speak on "How We Got the Bible," at an open meeting of the Bible training class in St. Cyprian's Church, corner Polina and Manning-avenues, on Monday, Dec. 3, at 8 p.m. Admission free.

YOU GET RID OF LUMBAGO.

It's the very worst sort of pains that give Nellie a chance to show how much stronger it is than other remedies; how much greater its pain-subduing power is, and how permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Try it and be convinced that it is stronger, more rapid in action, more permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Try it and be convinced that it is stronger, more rapid in action, more permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Try it and be convinced that it is stronger, more rapid in action, more permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Try it and be convinced that it is stronger, more rapid in action, more permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Try it and be convinced that it is stronger, more rapid in action, more permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Try it and be convinced that it is stronger, more rapid in action, more permanent in results. Lumbago is a dead easy thing for Nerviline; drives it right straight out. Failure from other remedies doesn't tell you anything about Nerviline. Use does tell. Distillers, Argyleshire

BISHOP CONSECRATED.

Ceremony of Installation of the
Bishop of Montreal.

Montreal, Nov. 30.—Consecration of the Rev. Canon Richardson of St. John as coadjutor bishop of Montreal took place at Christ Church Cathedral today, and service connected therewith, conducted by high dignitaries of the church, was most impressive. One of the acting metropolitans of Canada, Rt. Rev. Bishop Sweetman, officiating. An hour before consecration service proper, there was morning prayer. The bishop's party robed in the chapter house, the acting metropolitans being accompanied by Rev. Canon Baylis and Rev. A. J. Doull as assistants. The bishop conducted the premier part of the service, after which the Bishop of Nova Scotia delivered the sermon.

The bishop-elect, Canon Richardson, was then presented to the senior bishop by the Bishops of Ottawa and Montreal, when the reading of the record of election followed, succeeded by the administration of the oath of canonical obedience.

After this the bishop-elect retired and returned fully robed, when the final act of consecration took place.

THE NEWFOUNDLAND FISHERIES.

St. John's, Nfld., Nov. 30.—Thus far in the present fishing season about 35,000 barrels of salted herring have been taken from Bay of Islands. Ten vessels will sail for the fishing grounds this week.

It is estimated that the total output will equal that of last year, but Canadian and Newfoundland vessels are getting larger catches, while American vessels are getting smaller catches, than last season.

SAILED.

Toulon, Nov. 30.—Admiral Touchard's squadron sailed for Tangier this morning.

Free Catarrh Cure

Bad Breath, K'Awking and Spitting
Quickly Cured—Fill Out
Free Coupon Below.

"My New Discovery Quickly Cures
Catarrh"—C. E. Gauss.

Catarrh is not only dangerous, but it causes bad breath, ulceration, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat and pleases to general debility, idleness and insanity. It needs attention at once. Cure it with Gauss' Catarrh Cure. It is a quick, radical, permanent cure, because it rids the system of the poison germs that cause catarrh.

In order to prove to all who are suffering from this dangerous and loathsome disease that Gauss' Catarrh Cure will actually cure any case of catarrh quickly, no matter how long standing or how bad, I will send a trial package by mail free of all cost. Send your name and address to-day and the treatment will be sent you by return mail, duty free. Try it. It will positively cure you so that you will be welcomed instead of shunned by your friends. C. E. GAUSS, 7950 Main Street, Marshall, Mich. Fill out coupon below.

FREE

This coupon is good for one trial package of Gauss' Catarrh Cure, mailed free in plain package, duty free. Simply fill in your name and address on dotted lines below and mail to C. E. GAUSS, 7950 Main Street, Marshall, Mich.

FOR BREACHES OF BYLAWS.

A Hatch of Citizens Who Must Pay Up or Go Down.

Mary A. Willis, 88 Sheridan-avenue, said she preferred to serve thirty days in jail than to pay a fine of \$40 and costs for keeping liquor on her premises, which, it is alleged, she sold on Saturdays nights and Sundays. Mrs. Willis' case in police court yesterday afternoon stirred up considerable emotion of various brands. Her daughter burst into tears when her mother announced her intention, and pleaded with her to pay the fine. The case was disposed of as follows:

F. A. Clarry—\$10 and costs or twenty days, for oversteering his auto.

Frank Telford and H. T. Greenwood—\$1 or ten days each for riding bicycles on the sidewalk.

Arthur Gurney and Louis Besman—\$1 or ten days each for disorderly conduct.

Phillip Rawlinson—\$1 or ten days for leaving a horse untied on the street.

Joseph Hayes and John Garwood—\$1 or ten days each for driving over sidewalks.

James Jannetta, John Kastro and Nicholas Regus—\$2 each or ten days for obstructing streets.

R. C. Daney—\$1 or ten days for neglecting to place a light on a street obstruction at night.

GREAT LAKES IMPROVEMENTS.

U.S. Congress Will Be Asked to Spend \$75,000,000.

Washington, Nov. 30.—The river and harbor committee have practically decided that they will insist on incorporating in their bill all of the great lake improvements which were agreed upon in Cleveland harbor, and about the same amount spent to complete the improvement of the Detroit River, chiefly at the Lake Kila Crossing at Amherstburg, Ontario.

The deepening of the waterways between the lakes must wait on account of the great expense involved.

Provision for the building of a third lock at the Soo, with a 25-foot stage, is assured. It is roughly estimated that it will necessitate an expenditure of at least \$10,000,000. The bill also will carry an appropriation of about \$500,000 for the proposed canal to connect the lake with the St. Lawrence river.

The total appropriations made by the bill will amount close to \$75,000,000. Two-thirds of this sum will be authorized, and the rest will be cash immediately available.

20 YEARS FOR BAD YOUTH.

Montrealer Who Shot Detective Gets a Heavy Sentence.

Montreal, Nov. 30.—Robert Walker, a criminal yet in his teens, who shot and seriously wounded Detective Lehn a few weeks ago, when he was surprised when robbing the Starke hardware premises on St. Paul-street, was sentenced to twenty years in the penitentiary today.

Walker was using his gun. Detective O'Keefe, who was with the other detective, felt Walker with an exchange and both had to be taken to the hospital.

Walker is a young but hardened criminal.

RELEASE OF FREIGHT CARS.

C.P.R. Sends Out Notices to Clear the Tracks.

In regard to the shortage of freight cars, C. Hudson, car distributor of the C.P.R.'s Ontario division, has issued circular to agents, in which he remarks: "Please observe the date that penalty is actually due on cars. We are very short of cars at the present time, and if there is time to send them to points to be loaded off line and clear out tracks before penalty is due, it will not be necessary to send them home empty."

A.O.U.W. CHURCH PARADE.

The A.O.U.W. are having a special church parade on Sunday afternoon. The various lodges are to meet at St. John's Lodge, corner of Northcote-avenue and Queen-street, at 2.30, and march to the West End Y.M.C.A. Hall, where a 6 o'clock. The speaker will be Joseph Gibson of Ingersoll, P.O.M., one of the foremost laymen in Canada. There is to be special music and singing by the Jones Sisters, with their guitars, and Master Earl Ludlow and Miss Cleland. The public are cordially invited to this service.

Excursion to Chicago.

Return fare only \$13.70 via Canadian Pacific Railway. Tickets good going to-day, Sunday, Monday and Tuesday only, return limit Dec. 10th. Great live stock show in Chicago now on. See your ticket agent for C.P.R. the short-line and the fastest trains. Tickets at all C.P.R. offices.

C.N.O. RY. IS SURVEYING ALONG ASHBRIDGE'S BAY

In Competition With G.T.R.—
Shape of Bay Tunnel to
Be Changed.

The Canadian Northern Ontario Railway has surveyors engaged in looking over the route between Cherry-street and Leslie-street, of the proposed spur line into Ashbridge's Bay, and will submit an offer for the building of the line within the next two weeks.

The request of Haney & Miller, contractors for the tunnel crossing the bay, to be allowed to alter the shape of the tunnel had better be considered by Mr. Rust, came in for considerable discussion. Ald. McGhie referred to the report of Mr. Rust, stating forth that no change in the materials would be made "at present," and asked whether a future change was contemplated.

Ald. McGhie wanted to know whether the change recommended from oval to cylindrical might not lead to a decision that the tunnel had better be constructed instead of bricked, with the possibility of other complications.

Ald. Sheppard's view was that the tunnel should either be built according to specifications or new tenders should be advertised for, so that other firms might have a chance to tender under the different conditions.

Ald. Oliver asked why the original tenders had been for the horseshoe shape. Mr. Rust explained that the horseshoe shape was the one that had been drilled much easier under these conditions, but that Contractor Haney had since evolved a machine, and used a bore cylindrical thru the rock. A round tunnel would have the same area as a horseshoe tunnel, and the cost would be the same.

In reply to Ald. Sheppard's question, Mr. Rust admitted that, under the revised conditions, the tunnel could be more cheaply built than the horseshoe tunnel, which would cost about \$12,000 the contractor would be little ahead.

It was decided to strike out the words "at present," so as to make it clear that there is no anticipation of any change being necessary in the material to be used for lining.

The city engineer intimated that the use of the machine was in the nature of an experiment, and that the contractors were taking chances.

IMPOSSIBLE TO STOOP OR BEND

SEVERAL DOCTORS COULD DO
NO GOOD.

PAIN IN BACK AND KIDNEYS.
People often say, "How are we to know when the kidneys are out of order?" The location of the kidneys, close as it is to the small of the back, which is not affected materially by other organs, renders the detection of kidney trouble a simple matter.

The note of warning comes from the back. Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes, usually have but little trouble. The danger lies in delay.

Doan's Kidney Pills
taken in time, often saves years of suffering, and in many cases a life time.

They stimulate the action of the kidneys, enabling them to perform their duty perfectly.

Miss S. C. Fry, Boston, Mass., writes: "For the past several years I have been troubled with a very bad pain in my back and kidneys. It was so bad that it was impossible for me to stoop or bend. Several doctors attended me, but found no relief until I picked up one of your remarkable remedies, Doan's Kidney Pills. I procured two boxes and their action surprised me. They completely cured me. I feel that they have an equal for kidney trouble. Doan's Kidney Pills are 50 cents per box. 6 boxes for \$3.00. All dealers and mail order houses sell them. Price by mail, \$3.00. Doan's Kidney Pills Co., Toronto, Ont."

WRECK CHINESE LAUNDRY.
Gang of London Tongs Demolish Store and Assault Proprietor.

London, Nov. 30.—Last night about 10.30 a murderous attack was made upon John Lee, a Chinaman, who keeps a laundry shop on Richmond-street, as a result of which he is in a serious condition.

Several men are said to have entered the store and commenced to wreck it. Every window in the place was broken and the counters torn up. Before the Chinaman could secure aid or call for the police the shop had been literally torn to pieces.

When the owner attempted to protect his property he was knocked down and kicked and beaten until he was in a serious condition.

This is the second time within a few weeks that Lee's shop has been attacked by the same gang of rowdies.

OPERATOR'S FAULT.
Placing the Responsibility and Cause of Fatal Wreck.

Lynchburg, Va., Nov. 30.—The frightful accident yesterday morning near Lawyer Depot, on the Southern Railway, in which President Spencer and members of his party lost their lives, is declared by Assistant-General Superintendent E. A. Coakman to be due to the blockading rules being in force at the time of the wreck, and not to the operator's fault.

This official said that an inspection of the telegraph sheets showed that Mattox had let a second train into the blockading place on the track that the previous train had cleared it. This was against the rules of the road. Mattox has vanished. The dead number 7.

STRATFORD ARMORIES OPENED.
Stratford, Nov. 30.—(Special).—The armories were formally opened with a military ball to-night. It was the most brilliant social function in the history of the city. Many outside guests were present, including prominent members of the Canadian militia.

GOES TO COLLINGWOOD.
Stratford, Nov. 30.—(Special).—Col. Seyfert, recently removed from the United States consulate here, will be assigned to Collingwood.

NAVAL DESIGNER DEAD.
London, Nov. 30.—Sir Edward J. Reed, formerly chief constructor of the British navy, is dead. He was born in 1850.

Amending the Health Act.
The provincial board of health has been considering the Health Act with a view to revision, and amendment at next session. A draft of the proposed changes will be submitted to the government. Nothing very radical is contemplated. The local health officers will probably be given a greater share of responsibility.

Plans for sewage disposal at Hamilton and Waterloo have been approved, and for waterworks at Preston.

Didn't Get His Money Back.
Wm. Parsons, charged in police court with theft by J. A. Lafrance, elected to be tried by jury. Lafrance alleges he paid Parsons \$400 to bring him a bag in the purchase of an hotel in St. Catharines, for which defendant acted as agent. The deal didn't go thru and Parsons didn't return the money.

Train Struck Horse Wagon.
Niagara Falls, N.Y., Nov. 30.—A horse wagon returning from a fire was struck by a N. Y. Central Railroad train at the Portage-road crossing last night. Fireman Harvey D. Wales, the driver, was instantly killed. The other firemen escaped by jumping. Both horses were killed.

The road was deep in mud, and it is supposed that Driver Wales was so intent on guiding his team that he did not see the train.

Christmas Excursion, December 14.
Do you want a holiday? If so, and desire to get big value for your money call on S. J. Sharp, western passenger agent, C.P.R. Atlantic Steamship agent, 30 Yonge-street. This line will have the following steamers from St. John, N. B.: Lake Champlain, a one-class steamer, viz., second cabin and steerage, and the ocean greyhound, Empress of Britain, sailing Dec. 14. The latter will land you in England four days before Christmas. Give us a call.

Winter Fair at Guelph.
For the winter fair at Guelph, Dec. 10 to 14, the Canadian Pacific Railway will sell return tickets at single fare, \$1.50 from Toronto, good going Dec. 8 to 14 inclusive. Return limit Dec. 17. Single fare from all Ontario stations. Tickets at all C.P.R. offices.

Fat Stock at Chicago.
Our friends from the country will perhaps best appreciate the great live stock show now on in Chicago, but you don't have to be a farmer to appreciate the special \$13.70 return rate the C.P.R. is advertising. Look up the ad. for particulars.

TEN PRISONERS BREAK JAIL.

Four Get Away Early and Others When Allowed Into Corridor.

New York, Nov. 30.—Ten of the most desperate prisoners in the Queen's County Jail at Long Island City escaped from that institution to-day. The police of Long Island City began a search for them several hours after they got away, and the entire police force of New York City was notified to be on the watch for them. The first four to get out saved the bars of their cells and of the window opening into the corridor of the jail at 2.30 a.m. Once in the yard they had only to climb a fence and they were free. They were August Schram, charged with highway robbery; John Leonard and Thomas Simmette, charged with burglary, and Alexander Templeton, charged with larceny. The absence of the men and sawing of the bars and doors and window were unnoticed until the keepers opened the cell doors and allowed the other prisoners in the corridor at 8 o'clock this morning. Six other prisoners immediately crawled thru the hole in the window.

The delivery was not discovered until 7 o'clock, when an alarm was spread and a reward was offered for the recapture of the prisoners.

TAKE ALL THE RISK

All we ask is that you try it. We know what we offer, we know the public. We trust to the power of Vite-Ore. We trust to the public's honor and gratitude. The sick man or woman, suffering from lack of the right kind of help, is glad to pay when they get REAL results. We know this, we know how Vite-Ore helps. We know we get paid when it does help, and we take the risk. It is not a gamble, not an experiment, BUT A TEST, and a test that has led in thousands of cases to absolute, sure cures. Vite-Ore is the medicine for sick and ailing, poor, thin, weak, debilitated, worn-out, Rheumatism-tormented, Stomach-tormented, Kidney-tormented men and women. It is a test that leads to our pay at the end of the test.

You don't risk anything. One single solitary red cent. You must send 2 cents for a stamp to write for it or we cannot know that you need it, but we will return a 2-cent stamp to you after 30 days if you ask us for it. We do not want it to cost you one penny unless the 30-DAY TREATMENT proves Vite-Ore the remedy for your ills, as it has proven the remedy for the ills of so many others. We want to see that you send us a full sized 250 package of Vite-Ore on thirty days trial and that you use the Vite-Ore for one month's time and send us a money order for \$1.00 if you are satisfied that it has done more than 250 worth of good. If you are not satisfied, we will refund your money. We want a money order for \$1.00 if you are satisfied that it has done more than 250 worth of good. If you are not satisfied, we will refund your money. We want a money order for \$1.00 if you are satisfied that it has done more than 250 worth of good. If you are not satisfied, we will refund your money.

WHAT VITE-ORE IS. Vite-Ore is a mineral remedy, a combination of substances from which many world's noted curative springs derive medicinal power and healing virtue. These properties of the springs come from the natural deposits of mineral in the earth through which water flows. Vite-Ore is a very small proportion of the medicinal substances in these mineral deposits being taken up by the highly purified water. Vite-Ore is a compound of Iron, Sulphur, Magnesium, Sodium, Potassium, Calcium, and other elements which are among the chief curative agents in nearly every healing mineral spring, and are necessary for the creation and retention of health. One package of this mineral compound, mixed with a quart of water, equals the strength and curative healing value, many gallons of the world's powerful mineral waters, drunk fresh at the springs.

THOUSANDS OF PEOPLE in all parts of the United States and Canada have testified to the efficacy of Vite-Ore in relieving and curing such diseases as Rheumatism, Kidney, Bladder and Liver Diseases, Dropsy, Stomach Disorders, Female Ailments, Pains, Neuralgia, Heart Troubles, Catarrhs of any parts, Nervous Prostration, Headaches, Stomach and Uterine and worn out debilitated conditions. Read these letters.

CURED AFTER 7 YEARS SUFFERING FROM RHEUMATISM. "After suffering seven years with Rheumatism, my situation was called to Vite-Ore. I decided to give it a trial with the result that I am now entirely cured of my trouble. Vite-Ore has done more than I could have hoped for. I have been a hard, obstinate case, which gives Vite-Ore more triumph for accomplishing what others could not." **W. T. YURZ.**

GIVE 100 MINUTES TO TRY VITE-ORE That is all it takes. Can you not spare 10 minutes during the day to try Vite-Ore? It will not give 5 minutes to write for it, 5 minutes to properly prepare it upon its arrival, and 5 minutes each day for 30 days to use it. Cannot you give 10 minutes of a moment's health, or strength, new blood, new energy, new vigor, new life, and happiness? You are not a judge. You are satisfied with your decision, are perfectly willing to trust to your honor, to your judgment, as to whether or not Vite-Ore has done more than 250 worth of good. So have one million people in the U.S. and Canada and send for a trial treatment immediately. ADDRESS: **THEO. NOEL CO. Limited, Yonge St. TORONTO, ONT.**

PRINCE OPENS EXCHANGE. And Tells Liverpool Cotton Brokers He's Interested in Them.

Liverpool, Nov. 30.—The Prince of Wales, accompanied by the princess, to-day opened the new Cotton Exchange here, a handsome building, which has just been completed at a cost of \$1,750,000. During the course of his speech the prince referred to the efforts being made to develop the cultivation of British-grown cotton, with the object of making the British cotton spinners partially independent of foreign supplies, and said he had followed the developments with great interest, and hoped the movement ultimately would be successful.

PARDONED TO TESTIFY. Sacramento, Cal., Nov. 30.—At the request of Attorney Henry, Governor Pardee has pardoned Steffens and Wyman, the ballot box stuffers in order that they may testify against Abraham Ruaf and Mayor Schmitz of San Francisco.

Rheumatism Cured. Vite-Ore has been successful in curing thousands of cases of Rheumatism, many old and chronic. Sent on thirty days trial. Read offer on page 9.

FREE TO MEN Until Robust Health, Strength and Vigor Is Regained.

Perfect Manhood. The man of courage, of strong heart, nerves, good health, self-confidence and undimmed energy. The embodiment of success, popular in every walk of life, respected and esteemed by all. Such is the manly man.

For forty years I have been making strong, vigorous men out of the weak, nervous, despondent and discouraged. With Dr. A. B. Sanden's "Lame Back, Kidney, Stomach Troubles, I give him the right remedy. It fills him with new life, joy, vigor and strength, and at the end of the time he is only too glad to pay me for the belt and to recommend it to his friends.

This is the way I cure men. This is the way thousands of years ago the greatest of men, without the slightest risk to themselves, for if I fail it costs you nothing whatever. You pay me only when cured, and in many cases the cost is only \$1.00. You want to pay cash. Full wholesale discount.

My great success has brought forth many imitations of my Belt, but my great knowledge, gained by forty years' experience, to guide and advise my patients, is mine alone, and is given freely with the Belt. Be sure you get the genuine. Call to-day and take a Belt along. Or send for one and my two books on Electricity and its medical uses, which I send free, sealed, by mail.

DR. A. B. SANDEN,

OFFERED A MILLION ACRES.

Salvation Army is Given Chance to Colonize in South Africa.

London, Nov. 30.—A report is current here that the British South African Company has offered the Salvation Army a million acres of land in Rhodesia free of charge for colonization purposes, with the stipulation, however, that in the event of the colonizing scheme proving a failure the land should revert to the company.

In an interview on the matter Gen. Booth admitted there was a certain amount in the truth in the report, but said the plan had been prematurely disclosed.

He said he declined to commit himself to any statement of details, because he said the plan might still fail.

GO TO REGULAR COURTS.

Political Criminals in Russia to Escape Secret Tribunals.

St. Petersburg, Nov. 30.—The ministry of justice today decided that political crimes must in future be submitted to regular civil tribunals and in accordance with the ordinary procedure, instead of under the arbitrary methods of the gendarmes and secret police.

AUSTRALIA MAY PROSECUTE

BRANCH OF OIL COMBINE

Melbourne, Nov. 30.—Influence is being brought to bear to induce the federal government to prosecute the local representatives of the American Oil Combine, under the anti-trust act. According to The Melbourne Age, complaints have been made to the federal government that the Anglo-American Oil Company is granting rebates to customers who agree not to sell other oils.

U.S. AND NEWFOUNDLAND.

(Canadian Associated Press Cable.)

London, Nov. 30.—Whitlaw Reid, at the thanksgiving day banquet last night, said the United States were on absolutely friendly relations with all the world, including Newfoundland. Nowhere was the gallant little colony more respected and admired than in the United States. Before another fishing season came round there would be good feeling enough and love for fair dealing enough at both ends of the line to make the matter for ever.

WOULDN'T ENDORSE PREMIER.

(Canadian Associated Press Cable.)

London, Nov. 30.—At a rowdy temperance meeting at Birmingham, Hamar Greenwood moved a resolution expressing satisfaction at the premier's announcement of his intention to introduce a comprehensive measure on temperance and reform. The resolution was lost, amid great disorder, by a large majority.

NAMES PLEASE.

(Canadian Associated Press Cable.)

London, Nov. 30.—Frederick Young of the Athenaeum Club writes to The Morning Post warmly supporting the suggestion of the C. P. R. to appoint a Canadian as ambassador at Washington. The Post gives prominence also to this letter.

NEWSPAPER MAN NOMINATED.

Montreal, Nov. 30.—(Special.)—Percy Ryan, L.D., editor of the "Evening Star," has been nominated to contest the St. Antoine seat in the legislature, vacated by the death of Ald. Carter.

MENELIK ILL.

Rome, Nov. 30.—According to news received here to-day from Addis-Abeba, capital of Abyssinia, King Menelik is seriously ill.

Winter Days, at Caledonia Springs.

The comfortable C.P.R. Hotel at Caledonia Springs is open the year round, and there is not a month when it is not a pleasant, spring, summer, autumn and winter are equally delightful. This time of year the rainy days quickly pass in the poolroom, bowling alley, gymnasium, etc., with pleasant social intercourse. The table service and attendance in the hotel are irreproachable, and every convenience for taking the waters and baths is afforded. The popularity of Caledonia Springs is no doubt partly owing to the ease and comfort with which one may arrive there. From Toronto a comfortable sleeper runs through to Ottawa every night at 10 o'clock, change at Ottawa in the morning, arriving at the Springs at 9.55 a.m. Tickets and full information at all C.P.R. offices.

Memory Training.

There are few persons who are gifted with a good memory, but there is hope for all if they will but devote a few hours to the study of the system known as the "Mnemonic System," and on which he spent a lifetime. His daughter, Mrs. R. A. Norman, will explain the general principles of the system and illustrate its advantages in St. George's Hall on Monday, Dec. 3. It is said that even the memories of borrowers of money and books may be improved.

Canadian Institute.

The members of the Canadian Institute will hold their usual meeting at the library, 188 College-street, this (Saturday) evening at 8 o'clock. The following lectures are expected to be given, both with lantern illustrations: "Early Records of the Mineral Wealth of Canada," by Prof. T. L. Walker, Ph.D.; "The Stromatopora of the Quebec Formation in Ontario," by Prof. W. A. Parks, Ph.D. The public are cordially invited.

The Canadian Annual Review.

At a meeting of the directors of the Annual Review Publishing Company, Limited, Sir Henry M. Pellatt was elected president, R. Wilson-Smith of Montreal, vice-president; Major J. Cooper Mason, D.S.O., treasurer, and J. Castelli Hopkins, secretary. This company was formed some years ago for the purpose of publishing the Canadian Annual Review of Public Affairs, the yearly history of Canadian affairs, and development, by J. Castelli Hopkins, which is now in its sixth year.

Canadian Club.

The guest of the Canadian Club at the luncheon on Monday will be Dillon Wallace, the famous Labrador explorer and author of "The Lure of the Labrador Wild."

N. ROONEY, 62 Yonge St.

TRANSPORTATION TOPICS

G.T.R. to Utilise the Old Belt for a Northern Route.

It is expected that the Grand Trunk will operate the old belt line again next spring. The company's surveyors have located a line from the Don, around to the Mimico yards. Work was shortly begun and the few miles of tracks laid. The C. P. R. are receiving applications for the position of agent at the new station, which is to be located at the intersection of the old belt line and the C. P. R. line. The methods of car despatching are being tested by the York Radial line. The first is a telephone system and the second by means of signals. William Phillips, general agent of the C. P. R., is in charge of the project. The C. P. R. are having tickers installed in their stations to allow quicker communication with the Union Station and other points on the line.

To Accommodate Visitors.

Washington, Nov. 30.—When foreign men of war visit American ports they are subjected to annoyance and inconvenience on account of the lack of adequate landings, and congress will be asked by the navy department that proper government landings be built at Boston, New York, Staten Island, Fort Monroe and San Francisco.

Fifty Years in Business.

Last year the Christmas business done by E. & C. Co., Limited, was the largest in the history of the business, and this Christmas sales must eclipse that of last. In order to do this, the firm are celebrating their fiftieth year in business by holding a Golden Jubilee Sale, which will extend throughout the Christmas holidays. The magnificent Christmas goods and Christmas umbrellas are being displayed now. Monday, when this sale starts, the people of Toronto will have the greatest opportunity ever presented to them of securing Christmas time in the history of this city.

What Sulphur Does

For the Human Body in Health and Disease.

COSTS NOTHING TO TRY.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us daily doses of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Caledonia (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small chocolate-coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health.

Sulphur acts directly on the liver and excretory organs, and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers thought this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

FREE HELP FOR MEN

The only remedy known to man which will positively cure lost manhood is "RESTORINE," the marvelous German Remedy discovered by Dr. Jules Kohn. It is controlled in this country by Dr. Kohn Medicine Company, a concern which has the highest standing in the medical world. This treatment has cured thousands of men young and old, while the best known remedies have failed. If you are suffering from diseases of the generative organs such as lost manhood, exhausting drains, nervous debility, the result of abuse, this remedy can and will cure you to stay cured. The headache, pimples, varicose, pain in the back and falling memory, disappear completely in the worst cases of from one to two week's treatment. We make the honest offer of a cure or return your money. Thousands of testimonials of cures are sent free with a book of rules for health, diet and advice. Our greatest successes have been those who have failed with other treatments. This remedy is regularly used in the French and German armies, and the soldiers in these countries are models of strength and vitality. Write for sample sent securely sealed in plain wrapper.

PUBLIC AMUSEMENTS.

The announcement of the engagement of Miss C. Goodwin and the Prince of Wales is most interesting to all classes of theatregoers. He will present, on Monday and Tuesday nights and at the Saturday matinee, a farce by William C. de Mille, entitled "The Genius," he appearing as Jack Spencer, a jovial bachelor, rich but unfortunately he thinks for a while without love for art. He falls in love with a girl whose father is a Jew. Jack enters into a conspiracy with three artists, by which he makes off with a picture, musical compositions and sculpture as his own. He then discovers he does not really love the lady with the father, but a pretty model. Finally he persuades Josephine that to marry his "inspiration" would kill his art, and that it would be an act of supreme self-sacrifice on her part to give him up, which she finally does. On Wednesday and Thursday nights and at the Saturday matinee, Mr. Goodwin will present that modern comedy classic, "When We Were Twenty-One," which was written for him by Henry W. Esmond, and in which he will be seen as Richard Carewe. Friday and Saturday nights will be of peculiar local interest, inasmuch as they will mark the first performances on this continent of William Devereux's three-act comedy of English life, called, "What Would a Gentleman Do?" This piece had a successful run in London and Australia. In this comedy Miss Nellie Marjorie, a prominent English actress, will make her first American appearance. Mr. Goodwin's leading actress is Edna Goodrich, a young woman of unusual beauty and reputed dramatic cleverness. Others in the cast are Nellie Marjorie, Robert Paton Gibbs, H. G. Lansdale, Gordon Johnstone, Norman Sharp, Alice Wilson, Rose Snyder and Susette Jackson. The three plays will be elaborately mounted.

At the Princess Theatre for one week, beginning Monday night, Dec. 10, Klav & Bringer will present the popular and brilliant comedy, "Pay Penetration," in George M. Cohan's latest production, "Forty-five Minutes From Broadway," a reflection of the comedy atmosphere of New York suburban life, and said to give Miss Templeton splendid opportunities for both the comedy and considerable effort.

At Shea's next week the bill will be headed by vaudeville's newest act, "The Gems," lately come from England, a medley of song, play and mirth, and the entertainers include five artists well known in England. The company includes Miss Elsie Jones, soprano; Miss Olive Mortimer, contralto; Kenna Lawson, London society humorist and pianist; Wallace Kennedy, tenor; and Edgar Stevens, baritone. Mr. Stevens is one of the most graceful dancers on the stage. Alf Grant and Ethel Hoag have not been in Toronto before, and Sheagors

LILLIAN MORTIMER

In "No Mother to Guide Her" at the Majestic.

Recent girl has, bereft of a mother's kindly influence and the wise guidance that a mother can exert. The scenes are laid in rustic places and in the crowded tenements of the city and are exceedingly original in their conception, yet still absolutely true to life. One scene is laid in the camp of a gang of gypsies, which adds considerable color to an already picturesque locale.

In the programs for the Mendelssohn Choir concerts in January, one notes a large number of new works, both orchestral and choral, besides a generous offering of more well-known numbers, among the latter being those in which the society has scored some of its greatest triumphs, notably Gounod's "Bye-Baby's Lullaby," Stewart's "Bells of St. Michael's Tower," and Mendelssohn's "Judge Me, O God." Of

the new works, there will be Humperdinck's "Pelléas and Mélisande," Elgar's "Chanson for Violoncello," "Surrender of the Soul," and other compositions by Brookway, Antonio, Lott, R. L. De Paul, Dr. Walford, Davies and Max Bruch. The orchestra will contribute, for the first time in Toronto, Mendelssohn's "Pinnal Cave," Wagner's "Parsifal" Overture, Tchaikovsky's "Fourth Symphony" and lighter works, besides more well-known numbers, such as Weber's "Buryanthe" Overture, Wagner's "Kaiser's March" and "Tannhäuser" Overture, and Beethoven's "Leonore, No. 3." Subscriptions for the Grand next week, when Rosalie Knott will return to the city and present the pretty historical drama, "The Duchess of Devonshire," for the first time anywhere at less than dollar fifty prices. It is only a few weeks ago that the talented Canadian actress was seen here in her new play, and since then it has been rewritten and greatly improved, making it now, it is claimed, one of the strongest dramatic attractions to be seen in the city. For the engagement at the Grand the same big cast, which was seen in the first presentation, will be retained, together with the sumptuous scenic investiture which

An engagement that is attracting considerable attention among theatregoers is announced for the Grand next week, when Rosalie Knott will return to the city and present the pretty historical drama, "The Duchess of Devonshire," for the first time anywhere at less than dollar fifty prices. It is only a few weeks ago that the talented Canadian actress was seen here in her new play, and since then it has been rewritten and greatly improved, making it now, it is claimed, one of the strongest dramatic attractions to be seen in the city. For the engagement at the Grand the same big cast, which was seen in the first presentation, will be retained, together with the sumptuous scenic investiture which

is a positive cure for dyspepsia, and all diseases of the stomach, liver, bowels or blood. It stimulates secretion of the saliva and gastric juices to facilitate digestion, removes acidity, purifies the blood and tones the entire system to full health and vigor.

Mrs. M. A. McNeil, Brook Village, N.S., writes: "I suffered from dyspepsia, loss of appetite, indigestion, and constipation. I tried everything I could get but to no purpose; then I finally started to use Burdock Blood Bitters. From the first day I felt the good effects of the medicine. I can eat anything now without any ill after effects and am strong and well again."

Price \$1.00 per bottle or 6 bottles for \$5.00.

The "Scarlet Mystery" artists from London, who are making their first appearance in Canada under the direction of Edward Branscombe. The performances given are musical and of a humorous character, throat, the program including varied selections of choruses, with action and dances, songs both comic and romantic, burlesques, funny dialogues, sentimental and serious quartets, comic melodies and dances. The "Scarlet Mystery" artists will appear under the auspices of the Toronto Teachers' Association and will have a special matinee on Saturday for the children.

After an absence of over ten years Ellen Beach Yaw, the California soprano, made her reappearance in Toronto on Monday, Dec. 10, at Massey Hall. Miss Yaw will be assisted by three musical artists of note, including Maxmillian, probably the best of American violinists, Miss Georgiella Lay, solo pianist, and Edwin Butler, an Italian flautist, recently arrived from London. Butler will play flute obligatos, accompanying Miss Yaw's singing of such folk selections as the Mad Song from "Leila" and the Ball Song from "Lakme," by Debussy, and others.

Berkley St. Church Brotherhood. The Berkley-street Methodist Brotherhood in connection with their regular Thursday night's social, have formed a Sunday morning Bible class, under the name of The Brotherhood Bible Class for Men. The class meets every Sunday morning at 9.45, in the church auditorium, beginning next Sunday, Dec. 2. The officers of the brotherhood for the coming year are as follows: Honorary president, Rev. J. B. Starr; president, Geo. Thompson; vice-presidents, R. E. Brown, H. A. Hill, and Geo. Coatsworth; corresponding secretary, W. H. Parr; recording secretary, L. E. Northall; treasurer, J. Pearson; financial director, J. Duffer; and plan, Mr. Boyce; chairman vigilance committee, W. Jordan.

Stomach Trouble. If your stomach is failing, if your food distresses you and fails to feed you, you ought to try "Vine-O-Ren." Sent on thirty days' trial. See offer on page 8.

PRESENTS FOR MR. HOWELL. On the occasion of the resignation of George A. Howell from the position of managing director of Grip, Limited, who has been in the company for upwards of 15 years, a large number of presents were taken to him yesterday afternoon, in a large hall, presented by Mr. Howell with a hand of regard. In addition, as a mark of their appreciation, the board of directors, upon which Mr. Howell will continue to appear, presented him with a handsome set of silver table cutlery.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Costs Nothing To Try. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature. It purifies the water which is taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better it is. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onion and other odorous vegetables. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of caries.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges. They are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form, rather in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon take of it the best of it. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the blood, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents per box, and are a great help in the most delicate cases of indigestion. I believe I get more and better results from Stuart's Charcoal Lozenges than from any of the ordinary charcoal tablets."

Send your name and address to-day for a free trial package and see for yourself. P. O. Box 55, 55 Stuart Bldg., Marshall, Mich.

The Massey Hall is to be occupied Thursday, Friday and Saturday by

TO BE DYSPEPTIC IS TO BE MISERABLE

They are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form, rather in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon take of it the best of it. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the blood, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents per box, and are a great help in the most delicate cases of indigestion. I believe I get more and better results from Stuart's Charcoal Lozenges than from any of the ordinary charcoal tablets."

Send your name and address to-day for a free trial package and see for yourself. P. O. Box 55, 55 Stuart Bldg., Marshall, Mich.

The Massey Hall is to be occupied Thursday, Friday and Saturday by

WOMAN'S WORLD

THE WONDER HOUR.

Dawn, with its flush of flame, The sun's gold flower, Some bird this hour the name Of "wonder hour."

Noon, and the earth at food, Day's perfect dower, This stirs in some the blood— The "wonder hour."

Dusk, and the gloved dew, On brake and bower, 'Tis some, enamored, choose As "wonder hour."

Love, if I am with thee, Come shine or shower, Each hour is then to me The "wonder hour."—Clintons Sordair.

At Government House. On Thursday last His Honor the Lieutenant-Governor and Mrs. Mortimer Clark entertained at lunch, Hon. Mr. J. J. Foy, K.C., M. H. Irish, president of the Canadian Club; A. 72 King E. Phone M. 1907

A pretty home wedding took place at the home of Mr. and Mrs. Frank L. Wilson, 61 West Queen-street, on Thursday, Nov. 28, at 3 p.m., when their daughter, Grace Emeline, was united in marriage to Arthur B. Kennedy of Brantford. In the presence of guests from Brantford, Parkhill, Brantford, Welland, Hamilton and many Toronto friends, Rev. E. A. Pearson, rector of Centennial Methodist Church, officiated. The bride was given away by her father, was simply but daintily gowned in white mousseline de soie, caught with lily of the valley, while the maid of honor, Miss Florence Mansell, wore a gown of soft Dresden silk, and the little train of the bride, Miss Grace Wilson, acted as flower girl. The groom was supported by Roy Record of Brantford. Lunch was served at the close of the ceremony, after which the newly-married couple left for Brantford, having received congratulations from all of the guests.

Young-Marshall. An interesting event took place at the home of John Marshall, Ellesmere, on Wednesday, Nov. 21, when his sister, Margaret, was united in marriage to Mr. John Young of Marshall. Rev. Mr. McArthur of St. Andrew's Church officiated, assisted by Rev. Jas. Brown of Agincourt. The bride was presented by her brother and was received by the groom with outstretched arm under a prettily decorated arch of evergreen, from which swung the wedding veil. The bride was gowned in lustrous pearl silk with chiffon trimmings and orange blossoms, with the usual veil and orange blossoms. The bride was at-

tended by her niece, Miss Valda Moran of Brampton, who was gowned in cream Henrietta, while little Miss Belle Moran, another niece of the bride, acted as flower girl, carrying a basket of pink carnations, in which was concealed the wedding ring. The groom was supported by his sons, Master Willie and Clark. After the hearty congratulations of the friends present, the company adjourned to the breakfast-room, which was tastefully decorated with evergreen and chrysanthemums. The groom's gift to the bride was a fleur de lis pin of pearls and diamond; to the bridesmaid an opal ring; to the flower girl a sapphire and pearl ring. The bride's going-away gown was navy blue chiffon broadcloth with hat to match.

Vice-Regal Movements. His Excellency the Governor-General, spent yesterday afternoon with Frederick Nicholls, visiting the Canada Foundry plant at the Junction, the Toronto Electric Light Company's generating stations on Front-street, Lady Grey visited the Sick Children's Hospital and evinced great interest in the work of that institution. She had

between Toronto and Chicago. The short line that has been a splendid roadbed, and an unexcelled service of luxuriously-equipped trains are features of the Canadian Pacific to Chicago. Two reciprocal trains daily through palace sleepers, cafe, dining and parlor cars. Full particulars and tickets at C.P.R. city office, corner King and Yonge-streets.

Hungry Hair

Perhaps your mother has thin hair! But that is no reason why you must go through life with half-starved hair. If you want long, thick, heavy Well-fed hair stop falling out, keep soft and smooth, and grows long and heavy. Feed your starving hair with Ayer's Hair Vigor!

J. C. Ayer & Co., Lowell, Mass.

HOT WATER BOILERS

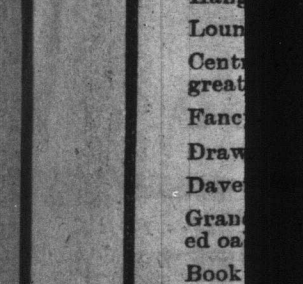

When it comes to a question of experience we have your interest. You have to take the working possibilities of any boiler largely on trust, and by looking at the "Sovereign" you cannot tell that it is scientifically proportioned to burn coal thoroughly and economically.

But when you trust the "Sovereign" for being a better house-heating apparatus you are placing your confidence in our experience, and you will find that is sufficient warrant for installing our boiler in your home.

PRANKED STONES, SAY POLICE

DEFENDING THEIR ATTACK

P. C. Ward Denies That He Was Intoxicated—A Conflict of Evidence.

Argument in the Halloween investigation before the police commissioners will be heard at 11 o'clock this morning. Several officers told corroborative of the attack at yesterday's session. The allegation against P. C. Ward was emphatically denied by Inspector Stephen, who saw Ward when he went on duty and when he came off duty. The inspector said that Ward was sober.

Mayor Coatsworth referred to criticisms that had been passed at the board of control in regard to the action of the police in taking out stones against some of the students. He wanted to correct an erroneous impression that he had expressed an opinion against the action. "I had not done so, and was careful not to do so for fear he would be thought prejudging the case."

An accepted cheque on the order of the Board of Control for the amount of the fine, which was \$100, was presented to the Board of Control on the 17th day of November, 1906. The cheque was for the amount of the fine, which was \$100, and was presented to the Board of Control on the 17th day of November, 1906.

On College-street, when the police were standing at the technical school, witness saw several stones thrown. He saw a man, who he described as being close to the Y.M.C.A. building, throw a stone. He saw a man, who he described as being close to the Y.M.C.A. building, throw a stone.

IN THE MATTER OF THE ESTATE OF THE LATE WILLIAM HENRY WARD, late of the City of Toronto, in the County of York, Farmer.

The above-named William H. Ward, having made an assignment to me under Chapter 122, of the Act of 1897, of all his estate, for the benefit of his creditors, a meeting of the creditors will be held at the office of James Baird, 24 King-street West, Toronto, at 11 o'clock in the forenoon, on Thursday, the 8th day of December, 1906, for the appointment of inspectors and giving details of the assets of the said estate, and for the purpose of reference to the disposal of the estate. All creditors are required to send by post, pre-paid, to James Baird, 24 King-street West, Toronto, on or before the 17th day of December, 1906, a statement of their claims, verified by statutory declaration, and the securities, if any, held by them; or, in default thereof, they will be peremptorily excluded from the benefit of the said assignment. Dated at Toronto, this 27th day of November, 1906.

WILLIAM TREDWAY,
Solicitor for the Assignee.

CANADA-CUBA LAND AND FRUIT CO., Limited

A SPLENDID INVESTMENT

Purchase direct from a Company which owns the largest Canadian colony in Cuba, with all improvements and more advantages than any other colony on the island, and the largest number of settlers.

We have on exhibition in our office, 24 King Street West, 20,000 cigars of the finest brand, made from tobacco grown on our property in the heart of the **Vueto Abajo District**, recognized by experts the world over as being the finest tobacco grown.

We have now **steamers calling** at Ocean Beach every week to and from Havana.

The railway will be completed to within five miles of our property within a few months.

We have established in our colony two general stores, hotel, sawmill and two post-offices, with three mails each week.

The Company owns and operates over one hundred tobacco plantations, and grows the finest brands known in the world.

We sell the finest citrus fruit land you can obtain in Cuba, and get you expert reports on the same, with the privilege of exchanging, before deed issues, to any other part of our estate already surveyed and set apart for that purpose, and free from swamp or rock.

The purest drinking water can be found on any part of the property about 12 feet from the surface.

An unequalled climate and fertile soil, and now with as stable a Government as any to be found in the world.

The completion of the Panama Canal will cause the springing up of the largest cities in Cuba on the west end of the island, where our estate is situated.

Deeds at once delivered for any property sold.

EVERY INFORMATION FREELY GIVEN
ADDRESS ALL COMMUNICATIONS TO

GEO. F. DAVIS MANAGING DIRECTOR

Head Office: 24 King Street West, Toronto

At the urgent demand of a large number of investors, instalment payments will be accepted for a limited time on the purchase of

Our 6% Guaranteed Dividend Preferred Shares Secured by \$367,500 in Assets

Twenty Per Cent. Cash and Twenty Per Cent. a month for four months buys these shares of

Western Oil and Coal CONSOLIDATED

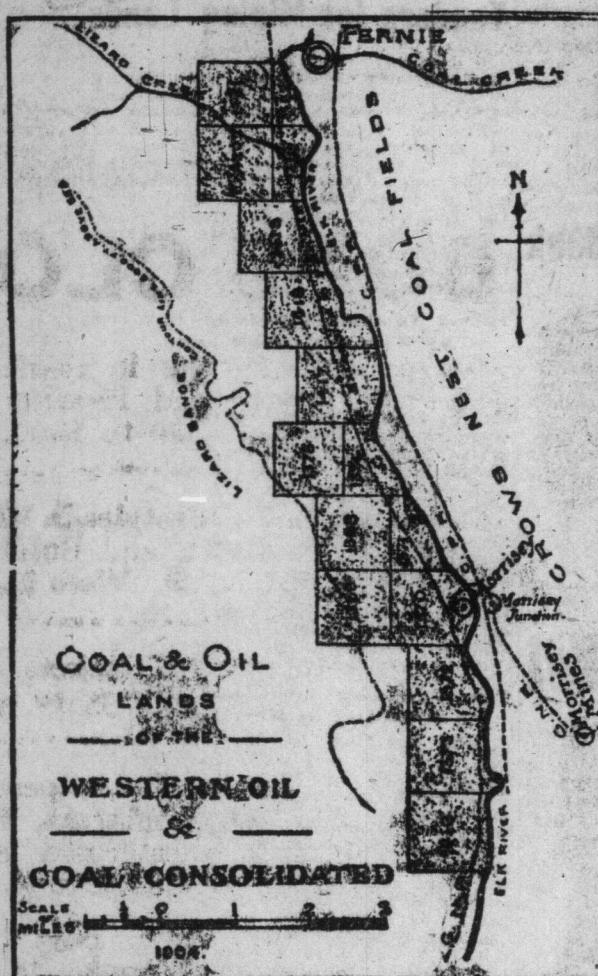

Authorized Capital, \$2,000,000

Fully Paid Non-assessable

ABSOLUTELY NO PERSONAL LIABILITY.

These Preference Shares, guaranteed for capital as well as for dividend, are offered at Ten Dollars a share, in lots of not less than ten shares, and a bonus of one hundred per cent. in Ordinary Shares with each Preference Share.

That is, with each share of preference stock at \$10 a share we will give, free, one share of Ordinary stock, which participates equally in the earnings after 6 per cent. is paid on the shares. This sound, secured investment is one of the safest business propositions in Canada for any investor. One of our properties alone—the Chipman Creek Mine—is estimated to have Twelve Million Tons of high-grade cooking and domestic coal. That amount of coal alone will pay at least two hundred per cent. dividends on the par value of our whole capitalization. We can get our coal to market, and get it there cheaply; and the market is waiting, and will pay good prices. We control 26,240 acres of coal and oil lands in the West, and the coal on them is equal in quality to any mined. You may have been offered

coal mining propositions which cannot develop for years, because they are far away from railways. Don't class this with them, for every one of our properties is easily tapped by trunk line railroads.

Besides our sure paying coal lands, we own oil fields that in all probability will be producing 500 barrels of oil a day within a year. We own two wells that experts say will deliver 100 barrels of oil a day. The Government pays \$24 cents a barrel bounty for all the oil we produce—and we still own the oil. Five hundred barrels of oil a day is estimated to be worth \$3,186.70 clear profit a day.

One of our properties parallels Crow's Nest Coal Co. lands for eleven miles. It gives promise of becoming a satisfactory producer of as fine a grade of coal as the Crow's Nest vein itself. Look at the map here-with.

This is only one of our properties. We own 26,240 acres of land in the West. Experts say we have Coal and Oil on almost every acre.

APPLICATION

I herewith enclose the sum of \$..... being 20 per cent. of the par value of..... 6 per cent. Cumulative Preferred Shares of the Western Oil and Coal Consolidated at the price of \$10.00 per share, on the condition that there shall be allotted to me, when the final payment has been made, an equal number of ordinary shares, namely..... of same par value.

I further agree to pay the balance on said shares in four equal payments of twenty per cent. each, at intervals of thirty days from the date of this first payment.

Dated at.....this.....day of.....1906.

Name in full.....

To Supply Power to Cobalt. A company is being formed for the purpose of developing 40,000 horse-power on the Quinze River, at the head of Lake Quinze. This power will be used for

mining purposes in the Cobalt region, which is only 15 miles away, and also for lighting purposes, and for an electric railway to run from New Liskeard to the source of the power, and thence to the foot of

Quinze Lake, on which it is proposed to run a line of steamers to forward supplies for the construction of the Grand Trunk Pacific. Steamers will also ply on Lake

SEES CERTAINTY IN COBALT

Mining Man Says Risks Give Way Before Intelligent Operation.

"Mining enterprises, or, as they have been known for many years, mining ventures," said a prominent mining man of this city yesterday, "have always been looked upon by the public generally as the wildest kind of speculation, yet men who have made mining a business, who have thoroughly familiarized themselves with the elements which make for success or failure, have come to look on mining as a business from which the speculative element can be almost entirely eliminated, and where an intellectual conception of the situation with correct principles applied, will usually win success."

"To illustrate, it is possible, with the judicious expenditure of money, to define the bodies of ore in the ground, to measure their extent, to assay their value, to the fraction of a cent, and to estimate closely the cost of mining, reducing and marketing the product. Consequently the equation is reduced to mine, management and money."

"On the other hand, if you have not a mine to begin with, management and money are futile. If the management is poor, the best mine may be a failure through mismanagement, just as any other enterprise, and, without money, even the best mine will be a failure, no large success can be achieved."

"The risks in agricultural investment are almost too numerous to mention—over-production, under-production, blight and climatic changes are among the dangers that have to be reckoned with."

"Manufacturing enterprises of all kinds which enter into the fierce competitive struggle are menaced by speculation in raw material, strikes in congested centres, and by fire, and financial panic."

"Taking these various facts into consideration, we are forced to the logical conclusion that mining and agriculture are the basic foundations of our entire commercial structure. In agriculture, wheat is the standard of our agricultural value, and gold is the standard of our commercial value. Wheat fluctuates and is the foot-candle of our agricultural value, and remains stationary, and is always worth its coin value."

"The mines of California, as represented by the Mackays, Pairs, Mills, and many others, are the result of the riches of the Comstock and other mines, and they prove the stability of intelligent investment in mines. And now comes the wonderful development in Cobalt, a mine where native silver is found in such quantities and in such pure state as to stagger men of large wealth and experience, and it is estimated that out of the 19 producing mines now in the Cobalt region there will be taken out in the next year over \$10,000,000."—New York Commercial.

A Coal Mine to Operate.

Ottawa, Nov. 30.—(Special.)—A strong New York syndicate has advanced the money to begin operations on the Diamond Valley Coal Co.'s property, in British Columbia, and T. J. Smith, the president of the company, has gone west. The railway is now practically at the base of operations, and the machinery and plant are now on their way west from New York. They were shipped on Wednesday. Mining will be begun early in the spring. About half a million shares are held in Ottawa.

"Right of Way" for Sale.

Ottawa, Nov. 30.—(Special.)—It is rumored to-day that an American syndicate will take over the Right of Way Mining Company for the consideration of six millions, but enquiry at the headquarters of the company here did not confirm the rumor. However, it was not denied.

It is understood, however, that the representative of an American syndicate has gone to Cobalt to look over the property, and that the deal is practically closed. It will be on the basis of \$12 a share.

Right of Way fluctuated a little during the day, and some shares changed hands at prices varying from \$9.50 to \$12.

Cobalt Gem's Strike is Rich.

Word has been received in New York that in the property of the Cobalt Gem Mining Company there has been uncovered, at a depth of four feet from the surface, a vein of ore rock which assays 360 ounces of silver. At a depth of 10 feet assays of 1046 ounces in silver to the ton were obtained. In three other places on the property values have been found, and four veins and five feeders have been uncovered.

It is reported that a deal has just been closed for the purchase of the Silver Hill property, which "side-line" the property of the Cobalt Gem, and that \$250,000 cash has been paid. Development work already done indicates that the Cobalt Gem will become one of the big shippers of the Cobalt district.

ROBERTS COMPANY, BANKERS.

offers for subscription at par (\$1.00) 200,000 shares treasury stock of the

COBALT SILVER GIANT MINING COMPANY, LIMITED, OF CANADA

Capitalization	-	-	-	\$5,000,000
Already Subscribed	-	-	-	\$2,000,000
Now Offered	-	-	-	\$200,000
Remaining in the Treasury	-	-	-	\$2,800,000

This company owns free and clear 460 acres in the mineralized belt in the Cobalt district—townships Bucke and Coleman, and has under option 780 acres more in the same district. This property consists of 100 acres in Coleman township and 360 acres in Bucke township, near the famous Gilpin mine. These are very rich in native silver, smallite and copper. Two of the mines on this property are already producing and shipments should be made by February 1st, 1907.

The purpose of the sale of treasury stock is for thorough development of the property and installation of a complete mining machinery plant. Subscription books will open Monday, December 3rd, 1906, at 9 a.m., and will close Wednesday noon, December 12th, 1906.

Certified cheque must accompany orders. No subscriptions will be received for less than fifty shares. If over-subscribed allotment will be made pro rata. Wire reservations will be held twenty-four hours. Make all cheques payable to

BLIND PUPILS MIS-PLACED.

Given Literary Studies When Mechanics Was Their Natural Bent.

Brantford, Nov. 30.—(Special).—There were no features to-day at the investigation at the Institute for the Blind. At the morning session Assistant Engineer McIntyre, against whom a charge of political partisanship was yesterday made, submitted his defence. Several witnesses swore that McIntyre had not engaged in political work on election, and that he worked

at the institute the greater part of the day.

Frederick Boyer of Port Colborne, a former blind pupil, at his own request cross-examined Vice-Principal Wickens, in an endeavor to show that sufficient attention was not shown to the blind as to their adaptability for different lines of work, and that pupils of mechanical ability only were engaged in literary pursuits. Attention was also called to the number of graduates who had been forced to abandon their trade for the poorhouse, subsequent to their departure from the institute.

W. B. Preston was also examined as to the drive the pupils had been given to the Aylesworth meeting at the drill

hall. Denials were forthcoming to many statements made by Truss, Thomas Truss, who laid charges, among which was one that pupils visited an alleged house of ill-repute, is now threatened with action for slander by the woman in question, whose house, according to the evidence of pupils already heard, is not disorderly. The investigation is adjourned until Dec. 11.

Magnificent California Trains

via the Chicago Union Pacific and North Western Line. The "Los Angeles Limited" to Southern California and the "Overland Limited" to San Francisco are considered by travelers as the finest trains leaving Chicago. Service less than three days to California. Trains electric lighted throughout, with drawing-room and compartment sleepers, buffet observation and dining cars. Dynamite Kills Four.

Knoxville, Tenn., Nov. 30.—Near Moccasin Gap, Va., 20 miles west of Knoxville, four men and a foreman, whose names are not known, were instantly killed today by a blast of dynamite in an excavation being made for the south and western railroad.

Auction sale of very valuable household furniture, oak dining and bedroom suites, sewing machine, stoves, and other effects, the property of Albert Smythe, Scarborough Village, N. of No. 9 schoolhouse. The undersigned has received instructions to sell by public auction on Monday, Dec. 3, 1906. Terms cash. Sale at 1 o'clock. D. Beldam, auctioneer.

Clothes That Please the Wearer

The painstaking care of our tailors is such that the man who is particular about the clothes he wears is sure to be satisfied with the garments we make. We are not content with anything less than perfection—material, fit, style and workmanship must be satisfactory. Whether you wish an Overcoat, a Business Suit or a Dress Suit for social occasions, we should be your tailors. Our Dress Suits are being very much admired.

Crown Tailoring Co., Limited

WHERE MONEY WILL GO TO EXPENDITURES ASKED FOR

Estimates Presented for a Period of 21 Months—Toronto's Share.

In connection with his budget speech Mr. Fielding laid upon the table of the house a statement of the estimated expenditure and receipts for the coming year. These estimates cover a period of twenty-one months, because of the change that is to be made in the fiscal year.

The Toronto items of expenditure are as follows: Toronto customs house alterations, \$15,000; Toronto customs house, government share of paving, and Esplanade in front of customs house property, \$23,000; Toronto Dominion buildings, improvements, repairs, etc., \$50,000; Toronto drill hall and armories, accommodation for new corps, \$150,000; Toronto drill hall, alterations, government share of paving University and Chestnut-streets, \$19,000; Toronto military buildings, magazine, \$30,000; Toronto military buildings, barracks for permanent corps to replace property sold to the city, \$50,000; Toronto postoffice, restoration, \$15,000; Toronto postoffice, land, building, pneumatic plant and machinery, \$20,000; Toronto postoffice, additional postal station "F," \$37,000; Toronto postal station "C" pavements, etc., \$500. There is \$123,685 for the current year for \$15,000 for improvements and \$100,000 for year ending March 31, 1908.

The amount asked for under the head of railways and canals amounts to \$32,363,340, of which \$2,308,050 is allotted to the Intercolonial Railway, \$401,410 to the Prince Edward Island Railway, \$28,000,000 to the National Transcontinental Railway, and \$1,888,880 to canals. For the nine months of 1907, \$2,619,590 is asked for the Intercolonial Railway, \$185,500 for the Prince Edward Island Railway, \$10,000,000 for the Transcontinental Railway, and for canals \$1,298,475; the grand total for both periods being \$46,995,900.

The estimated expenditure on rebuilding the concrete piers on the Murray Canal, is \$15,000 for 1906-07 and \$55,000 for 1908; to build the retaining wall for the Welland Canal, \$30,000 for 1906-07, and \$70,000 for 1908, and the new entrance pier at Maitland, \$30,000 for 1906-07, and \$15,000 for 1908.

The expenditure on improvements to Quebec harbor for 1906-07 is estimated at \$250,000; for 1908, \$250,000. Harbor and river improvements at Port Arthur and Fort William, \$300,000 for 1906-07, and \$500,000 for 1908. Improvements at St. Andrew's Rapids, Red River, \$100,000 for 1906-07, and \$200,000 for the year ending March 31, 1908.

Besides the \$222,000 to be spent on the Toronto military buildings, varying sums are to be spent for the same purpose elsewhere. The items are as follows: Addition to Hamilton drill hall, \$100,000; Odessa armories, \$30,000; Chatham armories, \$10,000; Guelph armories, \$50,000; Artillery Barracks, Kingston, \$18,000; magazine and new stores building at London, \$15,000; additional stores building at Ottawa, \$7,000; Peterboro armories, \$30,000; St. Thomas drill hall, \$30,000; Stratford armories, \$50,000; Woodstock armories, \$7,000.

Christmas in England.
The C.P.R. Atlantic service will dispatch their M.S. to Liverpool, Friday, Nov. 30, and the R.M.S. Empress of Britain Dec. 14 from St. John's, N. B., as the Christmas steamer. The latter will land passengers in England four days before Christmas Day. These steamers are now conceded to be the fastest and finest operating on the North Atlantic and those contemplating a few weeks in England should arrange to go and return on an "Empress," thereby having the shortest sea voyage and maximum length of time with their friends at home. Apply to S. J. Sharp, W.P.A., 80 Yonge-street, for full particulars.

80-New York and Return—80
From Suspension Bridge via Lehigh Valley Railroad, Wednesday, Nov. 28. Tickets good 15 days. For tickets call L.V.R. office, 10 East King-street; Phone Main 1588.

Triple Link Club.
There was a record attendance at the fifth annual concert of the Triple Link Club in Odessa last evening. Over 800 were present, including the past presidents, John A. Macdonald and J. T. Wear. Miss A. Simmonds, president of the lady honorary member for her services during the evening. President James Shand occupied the chair. An excellent program was provided by the executive committee.

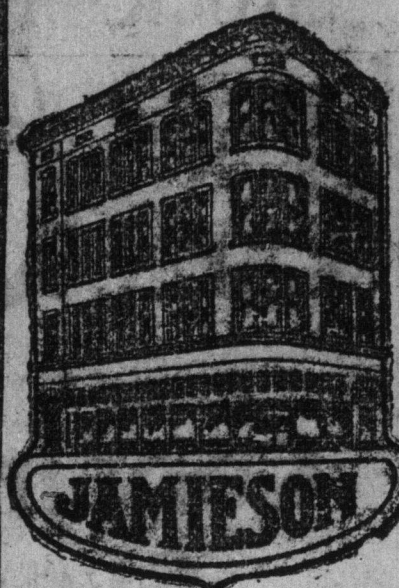

WISDOM DISPLAYED IN PROMPT ACTION

Fatal Results Narrowly Avoided by Prominent Citizen of B.C.

That hacking cough, that irritation in the throat, that pain under the shoulder or in the chest, that difficulty in breathing, that tired, languid feeling, that worried look upon the face, are the unfailing symptoms of a very serious condition that calls for immediate attention. Every time you cough, every time that pain catches you when you breathe, aggravates the trouble and can only result fatally unless arrested at once. The one thing that will do this quickly, effectively and positively is "I suffered that wonderful remedy for all diseases of the throat, chest and lungs. It not only acts directly upon the respiratory organs, but it builds up the entire system by strengthening the stomach, improving the appetite, aiding digestion, and toning up the nerves."

John Wren says: "I was afflicted with pains in the back and shoulders. The doctor said my lungs were affected and he had come too late. I was as weak as a child when I started to take the Slocum treatment of Pschigne and Oxomulsion. In a fortnight I was back at work in the woods."

JOHN R. WREN, Revue of Mission, B.C. Pschigne, pronounced Si-keen, for sale at all druggists at 50c and \$1 per bottle, or at Dr. Slocum's Laboratory, 179 West King-street, Toronto.

Clothing Quality ...and... CLOTHING ECONOMY AT JAMIESON'S

You owe it to yourself and to your pocketbook to see our superb showing before buying your next suit or overcoat. An assortment assembled on the broadest scale in varieties, novelties, and values. The garments are of the highest grade ever made up for ready-to-wear sale. The utmost skill shown in the tailoring—fabrics of unusual richness—styles of extraordinary smartness. We are mindful of the man whose income compels economy. The money-saving chances here to-morrow claim your prompt attention, and the more you make comparisons the surer we are of your money.

Our Overcoats at \$12.00 are distinctly for the man who cares. They are a thing apart from the average ready-to-wear clothes—they are divorced entirely from the commonplace. Quality of materials and excellence of workmanship, the two essentials upon which a perfect garment depends, have received our most careful attention, and neither has been slighted for the other. Variety and distinctiveness of style, perfection of fit, beauty of finish and appearance, have realized their highest development in these coats at \$12.00.

4 Specials in Men's Overcoats

- Men's Scotch Tweed Overcoats, in five shades of grey and heather pattern; good weight and full length. All sizes up to 44. Usual price \$12. Reduced to **9.75**
- Men's Black Cheviot Overcoats, full length box back, with center seam and 16-inch fly vent. Silk velvet collar. Well padded shoulders. Usual price \$12. Reduced to **12.00**
- Men's Tweed Overcoats, box back, full length, lined best Italian linings. Brown shade with flaked and stripe effect. Our usual \$8.50 quality. Reduced to **4.95**
- Men's Overcoats—Black with striped effect; a very useful dark overcoat with a good weight and full box back length. **7.50**

Men's Trousers and Vests

- Men's Tweed Pants, in dark and medium shades of grey panting patterns. Make a good business pant. Usual price \$2.50. Reduced to **1.95**
- Fancy English Knitted Vests and English Worsted and Silk Brocade Vests, upwards from **1.95**

QUICK CHANCES IN BOYS' CLOTHING

- Boys' 3-piece Suits in single and double styles. Scotch Tweeds and Heather Mixtures. Sizes 28 to 34. Regular \$4.50 to \$7.00. Saturday Special **3.99**

DISAPPOINTED IN TARIFF

Continued From Page 1.

very vigorous protest. This will mean much greater tax on the country on account of the higher rate, together with the great increase in production."

Opposed to Bonuses.

President Peleg Howland of the board of trade, in discussing the tariff, gave the opinion that Canada ought to get the raw material where it could be got cheapest. "I never felt that the country was getting a benefit from bonusing iron and steel industries in the east which warranted the large expenditures. Our turn will come to produce these things after our market gets larger. We should rather encourage the finished product, with the work spread over a large number of smaller factories. I have never been in sympathy with the bonusing of industries of any kind," declared Mr. Howland.

"I am sorry to see," he added, "that the anti-dumping clause has been continued. It is an encouragement of fraud, an interference with a man's right to buy at any price he can."

Expected a Bonus.

Disappointment because no bounty on shipbuilding was announced, is expressed by Manager F. B. Polson of the Polson Iron Works.

"We were expecting one, so as to enable us to compete with the British ship yards," he explained. "During the last three years there must have been a dozen boats brought in here from England, which cost over \$100,000 each. If we had a government bounty we feel that we could keep that business here."

He thought great disappointment would be felt in the finance minister's own Province of Nova Scotia, where the industry of wooden boat building had fallen upon evil days, and it was hoped by builders to be placed in position to compete with the British builders of steel vessels.

As to Dry Goods.

The wholesale and manufacturing drygoods business will not be materially affected by the new tariff in the opinion of J. W. Woods, vice-president of Gordon, MacKay & Co. However, manufacturers would be somewhat aided thru the right cut in the levy on raw materials, and the margin tacked on the finished products, which would benefit the clothing manufacturers particularly.

They would also profit by the reduction on all-wool and Italian linings from 30c to 17-1/2c for the former and 50c for the latter. Mr. Woods pointed out also the reduction in the rate on knitting yarns.

"The blanket duty remains at 22-1/2 per cent. from 20 per cent.," remarked Mr. Woods, "and you know there was an effort made to have it made higher. I can only say that we manufacturers are not complaining. We think it high enough."

Woolen importers are complacently regarding the new tariff, according to C. B. Lowndes of the Platt, Lowndes & Co., speaking for the trade.

"The duty on woollens remains the same, but the duty on woollen linings has been reduced from 30 per cent. straight to 22-1/2 per cent.," he pointed out. "This is the same figure as we enjoyed before the duty on all woollens was increased from 35 per cent. with one-third off to 30 per cent. straight. By a ruling of the customs appraiser this rating was applied to linings as well as woollen staples, and this was what we objected to."

Helps a Monopoly.

"Colored cotton goods probably made the biggest advance," said John Macdonald, "and it looks as if it influences had been brought to bear by the big manufacturing syndicate. There is a reduction in cashmere and mohairs of 7-1/2 per cent. None of these goods are made in Canada, and the people that buy them will pay less for them, while the cotton stuffs used largely by the working people have been subject to an increase."

"Then the increase in duty would seem to be an encouragement of a Canadian monopoly," Mr. Macdonald was asked.

"Yes, the advantage will be felt chiefly by the Dominion textile people, and the most serious fact is that they have not been able to deliver goods on account of inadequate capacity."

That the wholesale dry goods men are not entirely satisfied further appears from the statement of S. B. Cronyn, vice-president of W. R. Brook & Co. "I thought that dress goods, such as

colored cotton goods probably made the biggest advance," said John Macdonald, "and it looks as if it influences had been brought to bear by the big manufacturing syndicate. are not made in this country at all, would have been reduced to bring them down to the basis before the 5 per cent. was put on. I refer to Bradford and Yorkshire lusters, British serges, etc. I do not know whether the silks are put on the same basis as other silks, which pay a duty of 30 per cent., but that is the figure they should be at, instead of 10 per cent.," he explained.

Boots and Shoes.

Representative manufacturers of boots, shoes and rubbers declare that there is no real difference in their business. G. B. Boulter of Boulter, Davies & Co., says he cannot see that the revised tariff affects us at all, tho there may be some changes in the duties on materials that will affect the cost. We need more protection. The lower grades of shoes sold here are made in Canada. We need to build up Canadian factories here, 10 per cent. more duty on American goods than at present. We make a fine class of shoes in Canada, and this is the line that needs protection, as at present those who buy American goods do not object to an increase caused by the duty on American goods sold here."

Pay More for Materials.

Brown Bros., who are a representative firm in wholesale stationery, explain, as to the paper and book business, that they will now have to pay 25 per cent. on millboard instead of 10 per cent., which increases the cost, while the duty on the manufactured article is not raised. Paperettes come in now at 21-1/2 per cent.; they were formerly 35 per cent. less one-third, so there is less protection. The preferential duty on paper was one-third off 25 per cent., and is now 15 per cent., which means that English papers come in with less duty than before. This applies to envelopes, box note papers, etc.

There is less protection in blank books, in competition with England. The duty is now 22-1/2 per cent., and it was one-third off 35 per cent. At the same time a higher duty for millboard, which cannot be got from England, has to be paid.

Groceries.

There is probably no one better qualified to speak on the relation of the new tariff to the wholesale grocery business than Col. J. I. Davidson of the Davidson, Hay Co., who states he can see no real change, except the slight advance in the duty on sugar. The consumer will not have to pay more, but some of the raw sugars may be frozen out.

Hugh Blain of Eby, Blain Co., thought that the increase on raw sugar was an important change. Canada got very little raw sugar from the United States, and the direct result would be a stimulus to the Canadian industry.

Satisfies Jewelers.

M. C. Ellis of the P. W. Ellis Company, when asked how the changes in the tariff compared with the demands made upon the government by the representatives of the jewelry and silverware trade, said it was exactly what was wanted.

"When Mr. Fielding was here last we advised an increase of duty on jewelry from 30 to 35 per cent. ad valorem," he said. "Apparently he has seen the wisdom of such a change. At thirty per cent. with a one-third preference to British manufacturers, there was little more protection afforded to the Canadian manufacturer than was given by the old revenue tariff of Alexander Mackenzie. Of course, Mr. Mackenzie was an avowed free trader, and we didn't expect much difference from that of his administration. When the tariff was raised to thirty per cent. we looked for big things, but when the one-third British preference was deducted we found ourselves in much the same position as before. The tariff now provides protection for the manufacturer, as well as revenue for the government."

Watchmakers Disapprove.

"As far as the watch business is concerned," said W. K. McNaught, M.L.A., president of the American Watch Case Co., "the tariff has not been well thought out, nor is it in the interests of the Canadian people. The duty on raw materials and watch movements has been raised, and, as they are not manufactured in Canada, the inevitable result will be that the price of watches will be increased from \$1 to \$2, according to quality. The tariff is raised from 10 per cent. to 15 per cent. on watch movements, which we import from the United States, to which country the highest rate applies. The raw material for watch cases is taken off the free list, and a 10 per cent. duty imposed. Now not only does Canada import this raw material, but England is doing it largely also, so that the change is not likely to increase trade with England. Watch glasses, which are not made here, either, are raised to 30 per cent."

Druggists Not Hurt.

The wholesale drug trade will be little affected, so say those interested.

So far as the sentiments of glass importers can be sounded, there is disappointment felt with the new tariff. It is claimed that while on sheets of glass, containing over 25 square feet, imported from foreign countries, the duty is 35 per cent., the English manufacturer can send in the same class of goods on paying 22-1/2 per cent.

Montreal Opinion.

Montreal, Nov. 30.—(Special.)—The Fielding tariff of 1906 appears to give pretty good satisfaction to the manufacturers, except, perhaps, the sugar refiners. The steel people are well pleased, and the cotton manufacturers say they are not hit. Mr. Labatt, vice-president of the St. Lawrence Sugar Refinery, declared that the proposed changes would be very disadvantageous against the Canadian refiners, and would also have the effect

COBALT INVESTMENT

GRASP THE IMMEDIATE IMPORTANCE OF THIS, THEN ACT AT ONCE

Of course no one can blame you, if you have been thinking that INVESTMENT IN STOCKS of Cobalt mining properties, actually producing, is the whole or the only phase of the matter. You didn't know that there is a NEWER, SAFER AND BETTER PAYING plan. That's where we can put you right!

Look at it this way. Practically only parts of TWO townships of the vast mining lands in Cobalt and New Ontario have been explored for the remarkable results you hear of every day. And you know the stock markets are wild over the price of shares in the already discovered mines and prospects.

What is bound to happen, then—if an Incorporated Company of experienced mining engineers, developers and prospectors combine their money and methods for

Co-Operative and Systematic Prospecting, Developing and Investing in the AS YET unexamined and untested districts of the same vast area, about and beyond?

Isn't it true that still RICHER properties lie undiscovered in the great mining lands? We invite YOU to come into that unprospected Country with us—

The Cobalt and New Ontario Prospectors, Developers and Investors, Limited,

This is the only sure way YOU can get your share of the illimitable Mineral wealth of Canada—and get it QUICK AND SURE.

ORGANIZATION The Company has been duly incorporated under "The Ontario Companies Act" and also under "The Ontario Mining Companies Act" Incorporation Authorized Capital \$500,000

Shares Par Value \$1.00 each. Head Office, National Trust Chambers, 20 King Street East, Toronto.

METHOD OF WORKING The Company sends out parties of prospectors under expert supervision and direction. Experience has shown that this is the best plan. With a co-operative Company that has the money and outfit and the system specially organized for Prospecting, Developing and Investing, the best results are inevitable. Every shareholder is part of the organization—and all unite to one great end, with assured success and profit.

TO SHAREHOLDERS Besides systematic prospecting, the Company inspects property already discovered, procures options on them, undertakes to develop and market: works, sells, buys, holds or turns over claims, mines, stocks, as advisable—all for the shareholders of the Company. Everything will be done on the Shareholders' account. YOU thus join a co-operative institution run by business men and mining experts in what the records prove to be the safest, surest and best paying enterprise in mining.

SHARES FOR SALE. The Directors propose that not more than 300,000 shares of the par value of \$1.00 each shall be sold at 50 cents per share.

Shares are not further assessable, and there is no personal liability. Co-operation is the key-note. Whether you buy many or few shares, you buy on an equal footing with the Directors—RIGHT ON THE GROUND FLOOR. All unite to one end. And shareholders will be informed regularly as to all progress.

A SAFE, HONEST, AGGRESSIVE enterprise that assures unusually large profits from mining. Our Prospectus will satisfy and convince you. Write for it AT ONCE. Address:

of advancing the price to the Canadian consumers.

By the new tariff the Dominion Iron and Steel Company will get seven millions bounty in four years on the present output. This makes a settlement with coal and steel company imperative, and it is said the steel company will pay a higher price for coal and a new contract will be made.

The Erie-Cobalt Property. Important news has just reached the city concerning the discovery of a new rich vein on the Beaver property, the controlling interest of which has lately passed into the hands of the Erie-Cobalt Silver Mining Company, Limited. This vein on the Beaver property makes a connection with the main vein of the Temiskaming Company's and is reported to show results that will uphold Mr. Neil's prediction that these properties are likely to prove the best investment possible in Cobalt. As a result of the news shareholders of the Erie Company and subscribers to the allotment of 300,000 shares offered by the Erie Company at the par value of \$1 each, are elated at the prospects of large profits. Stock is being allotted in full and delivered in the order of receipt of applications and cheques as soon as they are completed. All this will no doubt greatly increase the subscriptions to the stock, the list of which positively close at 12 o'clock Wednesday, Dec. 5.

before the public as the best investment in Cobalt.

The Erie Cobalt Silver Mining Co., Limited, which owns 60 acres in Coleman Township and 40 acres in Lorraine Township—all well-developed properties—has purchased 400,000 shares of the capital stock (\$500,000 shares) of The Beaver Silver Mining Co., Limited.

RICH BEAVER PROPERTY

Such well-known properties do not need any elaborate description. They include 20 acres in Coleman Township, adjoining the Temiskaming, and in the group of the Jacobs, Lawson, Fester and other large shipping mines.

TITLE CLEAR.

Pending amalgamation, and to comply with all legal requirements, the Erie Company has effected a

FORMAL LEASE

of the Beaver Company's properties, thus giving to the Erie Company a full, active, controlling interest.

OPERATIONS AND EQUIPMENT.

A complete modern equipment is being installed immediately to begin active mining operations. Upon the Erie property a shaft has been sunk 50 feet, and over six thousand feet of trenching has been done, and seven well-defined veins have been opened. One vein extends over one thousand feet and carries good value in silver. No. 1 shaft on the Beaver property is now down 30 feet. No. 2 shaft is down 18 feet and the ore taken out has been bagged and is awaiting shipment, and a rich new vein has just been discovered.

STOCK FOR SALE

Applications for three hundred thousand shares of the Erie Cobalt Silver Mining Company's stock at par value of \$1 each will be received up to

Twelve o'clock on Wednesday, December 5

and the lists will be absolutely closed at that time.

All applications must be accompanied by post office or express order, or marked cheque in full, payable to J. H. JEWELL & CO., and mailed or delivered to

The Trusts & Guarantee Co.

14 King Street West, Toronto, Ont.

TRANSFER AGENTS OF THE COMPANY

NOTE—Stock is being allotted in full and delivered in the order in which applications and cheques are received.

The right is reserved to reject any applications for shares, or to advance the price of the stock without notice. Amounts over-subscribed and paid for will be promptly returned.

WHEREIN ARE DIFFERENCES EXPLAINED BY STATEMENT

The Most Pronounced Changes in New Tariff Detailed—Little Difference in Coal Duties—Preference in Britain in Hats and Caps is Increased—Fruits Added to Free List.

Ottawa, Nov. 30.—(Special.)—In the official statement accompanying the tariff it is noted that in the new rates on lead manufactures (item 384) an effort is made to divert trade to the British, and at the same time to cheapen the cost to the consumer. The articles are now made free from Great Britain and dutiable from other countries. Duties are placed on brass and nickel over 6 feet in length. These were formerly free, but are now made in Canada. In rubber and specialties, aluminum tubing is added to the free list. The general tariff on Britannia metal, nickel silver, Nevada and German silver is increased. On clocks and watches, and etceteras, the general tariff is increased from 25 to 30 per cent, and the preferential from 18-2-3 to 20 per cent. On picture glass, the preferential rate is reduced from 18-2-3 to 15, and the general tariff remains at 25; intermediate rate, 22-3. Ferro-silicon, ferro-manganese and spiegel, formerly dutiable at 5 per cent, are now rated with pig-iron.

The general tariff duty on bolts, nuts, washers, etc., is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent. The general tariff on steel plates is increased from 25 to 30 per cent, and the preferential rate from 18-2-3 to 20 per cent.

school. The preferential rate on papers and glass chemically prepared for photography use has been reduced from 20 per cent. to 15 per cent. The general tariff rate on paper sacks, bags, printed or not, has been increased from 25 per cent. to 27 1-2 per cent, and the preferential rate, formerly 18-2-3, reduced to 15. Matrix paper, adapted for use in printing, which was formerly dutiable at 25 per cent., is made entirely free.

On account of difficulty in arriving at values, the duty on corks has been converted from ad valorem to specific.

Liquids and Paints.

In addition to specifying, as in the old tariff, certain articles for dyeing and tanning purposes, a blanket clause has been inserted to cover the free admission of all chemical compounds used in dyeing or tanning.

Under the old tariff, medicines, dry and liquid, not containing alcohol, were dutiable at 25 per cent. under general tariff, and 18-2-3 per cent. under preferential. Liquid medicines containing alcohol were dutiable at 50 per cent. ad valorem and preferential tariff did not apply to them. It is now provided that all dry medicines will be dutiable, as follows: Preferential, 20 per cent.; intermediate, 25 per cent.; general, 35 per cent. All liquid medicines are to pay 50 per cent. in all three tariffs, and if they contain more than 40 per cent. of proof spirits they shall be rated at 25 per cent. in all three tariffs. The general tariff on opium in its various forms are maintained without the usual preference of one-third.

Perfumes and other soap powders, formerly dutiable at 20 per cent. preferential and 30 per cent. general, have been amalgamated with soap n.o.p., and made dutiable as follows: B preferential, 22-1-2; intermediate, 25-1-2; and general, 35 per cent.

The general tariff rate on perfumery is increased from 30 per cent. to 35 per cent, and the British preference 20 to 25 per cent.

The general tariff rate on colors, dry, is increased from 30 per cent. to 25-1-2 per cent, and the preferential rate from 25-1-2 per cent. to 15 per cent.

Liquid paints, which were formerly rated at 25 per cent. less 1-3, are now classed as follows: British preference, 25-1-2 per cent.; intermediate, 25 per cent.; general, 27-1-2 per cent.

The increase on liquid paints is on account of the duty having been increased on dry white lead, and white lead in oil, by the tariff legislation of 1905, when dry white lead was raised from 5 per cent. to 20 per cent. and white lead in oil from 25 per cent. to 35 per cent. The rates on paints and colors, ground in spirits and all spirit varnishes and lacquers, have been reduced, because the cost to produce such paints and varnishes will be lessened under the operation of the tariff.

The general tariff rate on alcohol for use in the arts and as motive power, which was formerly dutiable at 25 per cent. under the general tariff, and 18-2-3 per cent. under the preferential tariff, has been converted into a specific duty.

China wood oil, which was formerly dutiable at 20 per cent., has been made free, and gasoline or naphtha, dutiable at 21-2 per gallon, is made free. This will be of great benefit to fishermen and farmers who use gasoline for motive power.

Bricks and Marbles.

Under the old tariff firebricks for manufacturing purposes were free, but it was found that such bricks were improperly used for building purposes, and it was considered advisable to place a tariff on them. The general tariff rate on building bricks and manufacturers of clay has been increased from 20 per cent. to 22-1-2 per cent., but the preferential rate has been reduced from 13-1-2 per cent. to 12-1-2 per cent. These are articles which can come from Great Britain.

The preferential tariff rate on marble and granite dressed and manufacturers thereof has been increased from 23-1-3 per cent. to 30 per cent.

In the new tariff rates on glass demijohns, etc., it should be particularly noted that the clause "manufactures of glass, n.o.p." is added to the item. Glass bulbs for electric lights, which were formerly dutiable at 20 per cent., will fall under this item.

Milk chocolate, formerly dutiable at 20 per cent. general and 13-1-3 per cent. preferential, will pay up to 35 per cent.

A specific rate on speices is intended to strike at adulterations. Nutmegs and maces were formerly dutiable at 25 per cent. general and 16-2-3 per cent. preferential. In the new tariff different rates have been provided for the two conditions. Rice, flour and sago flour are now classed with starch and preparations having the qualities of starch. There has been a change in the salt duties, providing for different rates on coarse salt in bulk and coarse salt in packages.

The new tariff preserves that rate for bulk coarse salt and a rate of 7-1-2 cents per 100 pounds on coarse salt in packages. There is also a change in duty on salt packages. Formerly the rates were: Barrels, 25 cents; cotton bags, 35 cents; jute bags, 20 per cent. New rate is 25 per cent. All salt from Great Britain is continued free, including packages; also all salt for use of sea or gulf fisheries. The rates on milk foods are reduced. Two rates, one for bulk and the other for packages of prepared cereal foods, have been provided.

Paddy or uncleaned rice, which was dutiable under the old tariff at 1-20 per pound general, and 1-30 preferred, is now made entirely free from all countries, and the duties on cleaned rice have been reduced accordingly. The duty on uncleaned rice last year was \$74,200, and on cleaned rice \$169,527.

The duty on macaroni and vermicelli has been converted into a specific, it having been found very difficult to follow values of such European produce. Similar action for the same reason has been taken as regards dates and figs.

Fruits and Fish.

Assorted, rhododendrons, pot-grown lilacs, dormant roots, n.o.p., formerly at 20 per cent., are made free on account of difficulty in following values. Specific duties have been placed on pears, apricots and peaches, dutiable at 20 per cent, and on plums and quinces, formerly dutiable at 25 per cent. Oranges, lemons and limes are transferred to the free list, along with grape fruit. The duty collected on oranges, lemons and limes last year amounted to \$187,597.

The tariff rates on fish have been changed, so that fresh salmon, formerly 1-2 cent per pound, is now 1 cent; pickled salmon remains at 10 per pound; other fresh fish, 1-2 cent per pound, is increased from 1-2 to 10 per pound, and smoked or boneless fish remains at 10 per pound. On anchovies and sardines (there is practically no change of duty, although the rates are now fixed according to weight instead of size of boxes) on fish preserved in oil the general tariff is increased from 30 to 35 per cent.; on canned salmon, etc., the duty is increased from 25 to 30 per cent, and on other articles, the duty is increased from 20 per cent. to 25 per cent. Live fish and fish eggs for propagating purposes have been placed on the free list.

Coal.

There has been a change in the nature of the duty on bituminous slack coal. In actual money the duty paid upon slack coal has ranged from 40 cents to 12 cents per ton. For administrative purposes it has been deemed advisable to have straight specific duties, which have been established at the following rates: Per ton of 2000 pounds, 25 per cent.; intermediate, 120; general, 14 cents. There is no material change in the duty on bituminous coal.

The rate of duty has been increased from 25 per cent. to 30 per cent, under the general tariff, and from 16-2-3 per cent. to 20 per cent. under the preferential tariff on phosphoric acid, etc. A new item of importance has been added to the free list, as follows: "Machinery used in Canada for the construction of bridges and the crossing the boundary line between the United States and Canada, when similar circumstances into the United States, under regulations prescribed by the minister of customs."

Hats and Caps.

The general tariff rate of duty on hats and caps has been increased from 30 per cent. to 35 per cent., and at the same time the preferential tariff rate has been reduced from 23-1-3 per cent. to 20 per cent. In this way the preference in favor of Great Britain is increased from 10 per cent. straight to 15 per cent. straight. This should result in a diversion of trade to Great Britain. The importations under these items were quite heavy, amounting to \$1,800,000, of which about one-half came from Great Britain.

The old rates on sole leather in whole sides are continued at 10 per cent. under the general tariff, but new rates have been provided for sole leather, not in whole sides. The duty on boots and shoes is as follows: B. pref., 17-1-2 per cent.; inter, 22-1-2 per cent.; general, 25 per cent. The old tariff rates were: B. pref., 16-2-3 per cent.; general, 25 per cent. There is no material change.

The preferential tariff rate on manufactures of leather, rawhide, leather boards and leatheroid is reduced from 16-2-3 per cent. to 15 per cent. The general tariff rate of 25 per cent. is continued.

Ornaments and Jewelry.

On bead ornaments and ornaments of alabaster, spar, onyx, terra cotta, or composition, fans, dolls, etc., of all kinds, statues and statuettes of any material, there has been a reduction from 25 per cent. to 20 per cent. under the general tariff, and from 23-1-2 per cent. to 20 per cent. under the preferential tariff.

On collars and cuffs of all kinds of material, the general tariff rate has been increased from 35 per cent. to 37 per cent., and the preferential tariff rate from 23-1-3 per cent. to 25 per cent.

On artificial flowers the rates have been increased as follows: From 25 per cent. to 30 per cent. under the general tariff and from 16-2-3 per cent. to 20 per cent. under the preferential tariff.

Item 563 of the old tariff, which gave rise to a great deal of friction and lack of uniformity in tariff classification, has been removed in a way which it is believed will be satisfactory to the interests concerned. The old item reads: "Platts, plain, not to include braided or fancy trimmings composed of chip, manilla, cotton, mohair, straw, tussan or other material, suitable for making or ornamenting hats."

On jewelry the old tariff rate is increased from 30 per cent. to 35 per cent., and the preferential rate from 20 per cent. to 22-1-2 per cent. Under the old tariff, diamonds, unset, were free, and there was a duty of 10 per cent. on other precious stones polished but not set, pierced or otherwise manufactured, and imitations thereof. It is deemed advisable to make diamonds dutiable under all three tariffs at 5 per cent.

The general tariff rate on giant powder, nitro-glycerine and other explosives has been reduced from 2 cents per pound to 2-1-2 cents per pound, and under the preferential tariff from 2 cents per pound to 1-3-4 per pound. Glycotine, which was dutiable at 10 per cent. for the manufacture of explosives, is entirely free.

Manilla rope for holding traps in the lobster fishery is transferred to the free list. It was formerly dutiable at 25 per cent.

Paintings.

The provision in the old tariff free list for the entry of "paintings in oil or water colors, by artists of well-known merit, or copies of the old masters by such artists, and paintings in oil or water colors, the production of Canadian artists," has been stricken out and it is now provided that paintings in oil or water colors and pastels shall be dutiable, 15 per cent. 22-1-2 per cent., 25 per cent.; provided that the duty on any painting or pastel shall not exceed \$50.

An important change has been made in the old tariff item of the free list, which referred to the importation of philosophical and scientific apparatus. The old tariff provided that the article entitled to free entry must be of a class or kind not manufactured in Canada. This qualification is now stricken out and there has been added to the item, maps, photographic reproductions, casts as models, etchings, lithographic prints or charts. An item has been provided in the free list for communion sets of metal, glass or wood. Formerly free admission was confined to "communion plates."

The Pioneer Development Company of the Cobalt district. The investor has the same chance as the prospector, and each participates in the profits. Every Shareholder is a promoter as well as an investor. The only Cobalt Company operating on this unique plan. The only safe plan for the investor of limited means, or, in fact, for any investor.

No promotion stock—every dollar goes into the treasury—no graft—just straight business—low capitalization—low price—easy terms.

Company controls several choice properties in the Townships of Coleman and Bucke.

Recent Valuable Discovery.

In addition to the five well-defined true fissure veins previously treasured over 1000 feet on property under development, a new contact vein 10 inches wide has been located. A bonanza in itself. Two shafts under way. Ore growing richer and richer on depth. Veins widening.

This is Your Opportunity

to secure stock at 65 cents on the \$1 (fully paid and non-assessable), in a company that from present indications can be demonstrated beyond the shadow of a doubt to be a money maker. Embrace it and share in the wonderful riches of nature's treasure vaults.

Stock may be secured by paying 20% on subscription and 20% for four months. Orders for less than 100 shares not accepted. Rush orders or wire at our expense.

Write to-day for our new 32-page booklet "Fortunes in Cobalt," which tells you all about "Cobalt-American."

YORK COUNTY AND SUBURBS

POLICE MAGISTRATE ELLIS NEARLY LOSES HIS PLACE

County Council Divided 8-6 on Proposition to Dismiss—Warden's Banquet.

Yesterday's meeting of the York County Council was productive of a good deal of business, the warmest debate of the session centering around the request of the East Gwillimbury Council for an appropriation of \$900, as part payment toward the erection of a bridge over the proposed bridge over the Holland River, on the main road between Bradford and Queensville. At the point where the township proposed to erect the bridge, the Dominion government will erect a saving bridge over the proposed new canal between Bradford and Newmarket. East Gwillimbury have built the approaches, and altogether claim to have expended \$2100. York County Council yesterday granted \$400. Simcoe County will give \$200, and the Dominion government will utilize the approaches that are of any use, and will probably give some substantial financial assistance. Mount Joy will in future have the status of a police village. By a narrow majority, Police Magistrate Peter Ellis was retained in his present position. The vote was 8 to 6. The report of the committee was unfavorable to the magistrate favoring his dismissal and a return to the old regime. The salary of Magistrate Ellis is \$600, which is more than offset by the fines imposed. D. A. Johnston, the Peterlaw special constable who brought his prisoner from that point to within sight of Toronto Jail, and then let him escape, caused a warm discussion by bringing in a bill for \$12.38, and council reduced it to \$6.30. The council take strong objection to the recommendation of the grand jury, that all the jails of the province pass into the hands of the provincial government. They regard it as entrenching on local rights. Jos. Levey was granted a rebate of \$10 on his license fee as an auctioneer. A communication from H. W. Barker, secretary of the Ontario Businessmen's Association, asking the moral and financial assistance of the council in promoting the Bloor-street viaduct, was turned down, as no information was forthcoming. The N.Y.W. Institute received a grant of \$10. This afternoon the council will conclude their deliberations, and the January session will see a great transformation, some thirty, instead of fifteen, members constituting the council. It is expected that all the members of the outgoing council will declare themselves to-day.

Favoring the retention of Police Magistrate Ellis were Councillors Pugsley, Turner, McCallum, Boas, Hartman, Ley, Johnson and Woodcock, while opposed were Councillors Blair, Evans, Lundy, Powell, Rogers and Quanz.

The banquet tendered Warden Johnston at the Clyde Hotel last night was one of the most enjoyable functions ever held under the auspices of that body. The banquet hall was handsomely decorated, while Host Lendon had prepared a splendid repast. Archie McCallum was chairman, and was supported on his right by County Warden Johnston and Prison Warden Gilmore, while on his left were Archie Campbell, M.P. and T. H. Levey, M.L.A. Following the usual loyal and patriotic toasts, that of the Dominion parliament was proposed, coupled with the names of A. Campbell and W. H. Pugsley. The member for Centre York expressed satisfaction with certain features of the new act as tending to cement together township and county matters, while expressing the opinion that the coat of municipal government would be greatly increased.

Ex-Warden Pugsley impugned the good will of the Dominion government as shown by the failure to grapple with the coal strike in the Northwest. He had just returned from the Northwest and could bear evidence to the seriousness of the situation. Warden Gilmore, T. H. Levey, M.L.A., and W. J. Hill responded for the provincial legislature. Councillors Lundy, Rogers, Gardhouse, W. D. Annis and George Henry replied for the "Agricultural Interests," and Traffic Manager Wilson of the Toronto and York Radial replied on behalf of "Transportation Interests." Learned Professors brought replies from H. E. Irving, "Municipal Institutions," was responded to by Councillor Evans, T. F. Wallace and Walter Scott. Other toasts were the "Manufacturing Interest," "The Ladies," "Host and Hostesses."

A pleasant event was the presentation during the evening by Councillor Evans on behalf of the other members of a magnificent gold headed cane to Warden Johnston, which the latter coupled with an address to which the latter briefly replied.

Toronto Junction. Toronto Junction, Nov. 30.—Court Toronto Junction No. 186, Canadian Order of Foresters, are having a benefit smoker in their lodge room, Thompson's Hall, on Wednesday evening.

John Carroll, foreman of the Construction Co. for Gunn's, Limited, was presented to-night with a gold watch by his fellow employees.

The Toronto Junction Gun Club will start next Wednesday a series of shoots at bluebirds. They will also have a shoot at 20 bluebirds, each open to all; shoot on Christmas day on their grounds at Lambton.

Mayor Smith is leaving Councillor Bull acting mayor while he is away visiting the Chicago stock yards next week.

The annual commencement exercises of the Collegiate Institute were held to-night. Over four hundred people were present. P. Laughton, chairman of the board, occupied the chair. In a neat address, Principal Colbeck reviewed the year's work, which showed a satisfactory record. An interesting program was rendered and included the presentation of certificates to successful candidates at the mid-summer examinations.

What Men Need Most Just Now

There's quite a variety of things necessary for men just now, for the season has come for a change for Fall and Winter Clothing.

OVERCOATS

Without reviewing the full assortment of all kinds of overcoats all good clothiers are supposed to have, we emphasize the value of our special line of Oxford grey and black, in Cheviot and Melton, which are making this store distinguished among this season's buyers. We sell this fine line of overcoats at \$20

SUITS

Plenty of men who used to have their suits made by tailors now buy their suits of us. We seem to be able to give satisfaction to very particular buyers, and we know that better suits cannot be found. Our prices are from \$15 to \$25.

HATS

All the best makers in the world have placed their goods with us for sale. We can suit any taste or fancy in Tweed Hats, Derbies, Felts, or Silk Hats. We are offering our Tweed Hats, valued up to \$3.00, for \$1.50.

NECK SCARFS AND SQUARES

Christmas wind, and snow all seem to drive the fancy to Neck Scarfs. We have an unlimited variety in all colors and combinations of color.

Underwear, Gloves, Hosiery, Shirts, Handkerchiefs, Neckties, Etc.

Fairweather's
84-86 Yonge Street

by pupils of Miss Gilbert last Thursday evening in Gerhard Heintzman's music hall. Toronto, Ontario, brought out a full house. The pupils, who appeared at this recital, were Misses Margaret Wagner, Dorothy Devaney, Irene McCleary, Lillie Kipling, Ethel Raby, Olive Dane, Viola Gilbert, Nettie Gearing, Annie Wilson, Ethel Black, Marion Wilson, and Gladys Wagner. Those assisting in the program were Miss Margaret Parks Wilson, contralto, soloist of Parkdale Methodist Church; Miss R. Copeland, violoncelle (pupil of Mr. Blackford); and Mr. Lyndon Devaney, elocutionist (pupil of Miss Irene Sheahan).

North Toronto. The Davisville Methodist Church will hold their anniversary services on Sunday, Rev. I. G. Bowles, M.A., will preach in the morning at 11 o'clock. Mr. Bowles and Mr. Parsons will address the meeting in the afternoon. The pastor will preach in the evening. The anniversary will be held on Monday evening. The choir will be taken at 8 o'clock.

Mrs. David Johnston of Sherwood avenue was taken to the hospital, where she will undergo an operation for an inward trouble.

At last the new brick sidewalk on Glen Grove avenue is finished.

Mr. Livingstone has started the erection of a residence on Woodward avenue.

Rev. T. W. Powell, rector of St. Clement's Church, is addressing the Brotherhood of St. Andrew to-night at Huntsville, Muskoka. The Brotherhood of the Diocese of Algoma is meeting in convention at Huntsville.

Yesterday afternoon a collie dog, the property of H. C. Dunford of Erskine avenue, was run over by a Metropolitan car. The canine got a broken leg.

Two wagons came to grief on Merion-street yesterday. A baker's wagon had a front axle broken and a grocer's delivery rig had the reach-pole broken.

Wychwood. James Deegan and a committee on behalf of the congregation of Holy Rosary Church, St. Clair-avenue, have presented to their pastor, Rev. Father Ryan, a beautiful driving turnout, costing \$450.

The mass meeting under the auspices of the Wychwood Ratepayers' Association, held Thursday night at Hillcrest Schoolhouse, was a representative one, the schoolroom being filled to capacity. It was called for the purpose of selecting candidates for the coming municipal election. The committee appointed to Mr. W. Edwards to urge him to become a candidate for reeveship reported that

Mr. Edwards had declined. The Dovercourt Ratepayers' Association promised to support the Wychwood Association as to the prospective candidate. Mr. Gillespie of Reid-avenue urged that the front should make a concerted effort to elect new blood for the council. The meeting favored two candidates in the field. J. Dinwoody, one of the candidates, gave a review of what the council had done during the past year. J. E. Ross, another candidate, favored a remodelling of the engineer's department, and the inauguration of the local improvement plan. J. T. B. Howell, who at the last meeting announced his candidacy, withdrew from the contest. The ballot being taken, Mr. Dinwoody received fifty-six votes and Mr. Ross twenty. George S. Henry, candidate for the reeveship, said he tried to lead to reform in the engineer's department during the past few years, and on account of it was termed a "dreamer." One hundred dollars was spent on the roads and bridges every day in the township, but mostly in the south, according to the people in the north, and vice versa. He was in favor of a better system to spend the \$80,000 a year. If the electors favored a remodelling of the engineer's department they should elect a council with nerve enough to do so. Mr. Dinwoody promised to make it pretty warm for the engineer if the electors should send him to council. The meeting, by a unanimous vote endorsed George S. Henry's candidature for the reeveship, as did the delegates from Dovercourt and the East-avenue districts. Mr. Ross, according to the vote given, is running for councillor.

Woodbridge. The Joplin Dance Club held their first assembly here Thursday evening in the Orange Hall. There was a good attendance, considering the weather. The funds of the late Arthur G. Shannon took place to Christ Church Cemetery on Thursday afternoon. Rev. W. P. Swallow conducted the funeral services.

The Knox Church choir will give a concert in the church on Monday evening next. They will be assisted by Mr. H. De Millie, Misses C. Vetch and M. Bullen of Toronto.

T. F. Wallace and D. McKenzie of the town are going to Chicago, Far Union Stock Show on Monday next with the Union Stock Yards excursion from Toronto Junction.

M. Reaney, who has been ill for the past month, is not quite so well these days.

The funeral of the late Solomon Ellis of Purview took place at King City Cemetery on Friday afternoon. Blackwood Lodge, A. F. and A. M.

Never-wiggle eye glasses positively do not wiggle, do not irritate the nose and are worn with pleasure by the patient.
