

'T would take a full page to blow about our boys' suits; but we'll do the best we can in a few lines. The goods are light, medium or dark in color, but with heavy wearing qualities, sailor and vestee suits, of course, among them. Nothing new in the style, particularly because the style is hard to improve upon, as it is becoming to all boys. These prices will prove interesting:

PEASOUPS LEAD THE LEAGUE

Montreal Tied With Worcester and Hartford Beat the Islanders.

ESPER FOOLED THE TORONTO.

Nash, Late of Buffalo, Assisted in the Hartford Victory—Today's Game.

Montreal's tie game with Worcester and Toronto's defeat by Hartford yesterday put the Easterners on top in the Eastern League championship race.

Table with columns: Team, Won, Lost, Pct. Rows include Montreal, Toronto, Worcester, Hartford, Syracuse, and Rochester.

Hartford 11, Toronto 4.

They played at the Island yesterday, and it was pretty easy for the visitors.

Esper, late of Buffalo, did good work in the rubber for the visiting team.

Worcester scored regularly, and never were less than four or five ahead.

They didn't need to bunch their hits, as Toronto's errors were most opportune for the visitors.

Help

If a single tube gets punctured, you can mend it temporarily in less time than you could mend a detachable tire.

Detachable tires are slow. Single tubes are fast.

Goodrich Reflex single tubes

are the only single tubes that can be ridden for months with practically no punctures.

Goodrich rubber does it. If you leave the bicycle manufacturer alone, he will put single tubes on your wheel.

And you will get Goodrich-Reflex Single Tubes if you say so. Say so.

THE MOOD PASSIVE—UNRESISTING.

Say "I want Dunlops." It's the aggressive man who gets the best things of this world.

You say you want Dunlop Tires. Stick to it. You'll get them. They don't cost very much more than the poor substitutes.

These are the only tools you'll need.

THE DATE HAS BEEN FIXED

Oom Paul and Sir Alfred Milner Will Meet at Bloemfontein on May 30.

That is Present Arrangement

President Steyn of the Orange Free State Wants to See the Troubles Amicably Adjusted.

London, May 18.—The Secretary of State for the Colonies, Mr. Joseph Chamberlain, announced in the House of Commons today that a meeting between Sir Alfred Milner, the Governor of Cape Colony, and President Kruger had been arranged to take place on Saturday last at the invitation of the President of the Orange Free State, M. T. Steyn.

Mr. Steyn, who is a most respectable young woman, was unfortunately the victim of a bicycle accident on Saturday morning.

The authorities not being able to locate the wheel, a warrant was issued against Miss Patterson this week.

President Kruger has also accepted, but he added that the terms of Sir Alfred Milner's acceptance go further than his intention, but that he will gladly discuss the question of conducting to a good understanding between the Transvaal and Great Britain, provided the independence of the Transvaal is not impugned.

Kruger Grants a Big Reform. Pretoria, Transvaal Republic, May 18.—President Kruger's reform proposals have been presented to the Raad. They suggest that the franchise be conferred on aliens five years after settlement of the second class, instead of 40 years after such eligibility, as now is the case, thus making a nine years' resident in the Transvaal qualify for the full franchise.

THE SAW-LOG QUESTION.

The action of the Ontario Government in placing an embargo on the export of saw-logs out of Crown timber limits has touched the people of the United States on a sore spot. They are very much disturbed over the matter, and there seems to be little doubt that Mr. Hardy's coup will lead to reprisals of some kind from our neighbors.

SENATOR COX GAINS HIS POINT.

All This Talk About the Company, He Says, Has Increased the Company's Business. Ottawa, Ont., May 18.—The Committee on Banking and Commerce resumed consideration of the Canada Life Company's bill this forenoon.

THE GOVERNMENT'S GRAPHIC.

The Government has rendered a service to the country in publishing a series of graphic statistics in connection with the recent budget speech of the Minister of Finance. There are fourteen tables in all, showing the development of the country in trade, commerce, shipping, etc., from 1867 to date.

THE BILL AS IT IS NOW.

Mr. J. C. Fraser said they were getting away from the bill. The bill, now the investment clause was removed, only asked that the company should give up the voting power and the removal of the head office from Hamilton to Toronto.

Mr. John Charlton's View.

Mr. John Charlton thought, in view of the great interests involved, it would be reasonable to ask the company to withdraw their bill from the Government and to give up their right to the franchise.

Mr. Sutherland's Representation.

Mr. Sutherland represented a class not otherwise expressed. He had taken no part on either side. He wanted the policyholders represented on the board, and therefore he did not want the bill withdrawn.

Bill of Resolutions Committee.

Power is Given to the Canada Life Company to Hold Annual Meetings in Toronto.

BIG REEF AND ALGAMATION
Hammond Reef Company and Folger-Hammond Company Are About to Consolidate.

THE LATEST REEF CARIBOO MCKINNEY.

Managing-Director McAuley of This Mine in Town - Sloan Output - Other B. C. Information - Deals and Prices on Three Mining Exchanges.

The world is informed that another important amalgamation of extensive mining interests is about to be brought to a head in this city. The two enterprises in question are the Hammond Reef Gold Mining Company and the Folger-Hammond Gold Mining Company. It is said that the two companies are to be consolidated under one management, and, if this is brought about, the new corporation thus formed would be practically all that the famous Hammond Reef—over three miles in extent—a 40-stamp mill and the large electrical power plant at Clearwater Falls, all paid for and without any liabilities. As already known, those identified with these companies include Richard Currier, Mr. James Hammond, the discoverer of the reef, and the Messrs. Folger of Kingston, Ontario, and will be found worth following up.

CARIBOO OF MCKINNEY.

Development Capacity of the Plant at the Mine Increased Threefold. A gentleman in whom a large number of world-renowned persons are interested in the city yesterday afternoon registered at the Queen's Hotel. Mr. George B. McAuley, managing director of the Cariboo Consolidated Gold Mining and Milling Company, Cariboo, B.C., is the man referred to. Mr. McAuley is one of the hardest workers in the world, and he is always particularly strict concerning enterprises with which he himself is identified. In response, however, to a series of questions from The World, he imparted some information regarding the Cariboo mine. Informing his remarks by stating that he did not wish to say anything that would affect the value of the stock on the market either way.

Mr. McAuley left Camp McKinney two weeks ago, and when last he saw it, the Cariboo mine was looking as well as ever. The shaft was down 350 feet, and development work was proceeding with full force. As soon as the weather had passed away and a plentiful supply of water, and the stamp mill was in full blast again. As to the ore output, Mr. McAuley admitted that the mine was turning out more than the 20,000 tons of ore which he had predicted, but he could not say when the mining capacity would be increased. The decision is based upon the decision of the directors. The present development plan of the mine consists of a four-drill air compressor, but at the present time a new 10-drill air compressor is being installed. This will increase the mining capacity of the plant from 10 to 14 drills and greatly facilitate the opening up of the mine. The ordinary development work, the policy of the company is to keep the extra power to open up unexpected portions of its main vein, with the object of, as above mentioned, increasing the plant to supply an additional number of stamps.

Bonding Northern Properties. B. Campbell-Johnston and several other parties have taken a bond on the Livermore group, near Nelson, B.C. The properties include the Lady Aberdeen and another. The properties lie within two miles of the Athabasca.

In the Boundary Country. According to the Boundary Creek Times, the Carmel, a property situated in the west fork of the Kettle River, about six miles above Beaver Creek, has been bought by W. H. Lennie from James Kerr and James Dale, the present owners. Under various conditions of the option work is to be prosecuted on the property for twelve months, within which time Mr. Lennie may buy it.

A bond has been given by the Greenwood and the Grand property in Deadwood Camp. Work is being done on the Victoria and Queen of the North, and Lawrence, another neighboring property, has also been bonded.

Quite an exodus from Glendon, B.C., is reported to be the scene of the recent discovery of placer gold. The party can be seen on the upper Columbia. The party can be seen to within 20 miles of the head by canoe route up the Columbia. It is a large number of parties will follow this first expedition. The discovery of gold in the vicinity of the discovery referred to will be found to be gold-bearing, and expeditions are being fitted out to go and strike out claims.

The Century Gold Mining Company has been formed in Quebec, with a capital stock of \$1,000,000, to acquire and develop the Century group of claims on Fitzroy Hill Creek, and also the Porphyry and Iron Hill copper claims in Canada.

Sloan April Ore Output. Very interesting are the figures relating to the Sloan ore output in April. The Sloan Kootenay reports that the output for last month exceeded that of April, 1898, by 1,520 tons. The shipment of the via Nakusp fell out to a considerable extent owing to bad roads and because of the cessation of development work on Sloan Lake properties, the production of which naturally curtailed the output of ore. Below is a list of the mines which shipped over the Kaslo & Slovan Railway during the month, together with their respective amounts:

Table with 2 columns: Mine Name, Amount. Includes: Dayne (2,700,000), Last Chance (190,000), Silver Star (245,000), Sloan Star (218,000), Hambley (202,000), Dardanelles (40,000), Ivanhoe (38,000).

are reported to have been made. I will only instance one case of a stock in which I have been interested, viz., Athabasca, of which two sales are reported in the published records of the Standard Exchange, as having been made on the afternoon of May 16 at 38c, whereas two sales were reported to have been made on the afternoon of the same date at 41c, and on the Toronto Exchange also at 41c. Some time ago, if I recollect rightly, it was the custom of the Toronto Mining Exchange to publish daily sales and group reporter sales, but this custom seems for some time to have been discontinued, and now we have only sales on the Toronto Mining Exchange and the same on the Standard Mining Exchange. If either of the exchanges includes reported sales it would be has stated and the public should know, and furthermore, some information should be given as to what stocks are actually being sold, the genuineness of these reported sales. This matter seems to me to be one of great importance, and I would suggest that the officials of each of the mining exchanges should make a statement to you for publication as to the sales which they have been making. The public will then know how far these quotations and records of sales are to be relied on as a guide in the matter of the market value of stocks. It seems to me that only sales made under the ordinary rules of the Toronto Exchange, such as the Toronto Stock Exchange, should be allowed to appear in your paper as records of sales. Mr. Arnett's statement, as published by you, I should like to know from him whether he actually sold on the Standard Mining Exchange during the month ending May 17, and on the Toronto Exchange on the 16th were bona fide sales and delivered made thereat at the figure stated, viz., 38c, and whether they were reported by some member of the exchange as having been sold by him. I am not interested personally either directly or indirectly in either of the exchanges.

Zinc Mining in British Columbia. Grand Forks, B.C., May 11.—(Special Correspondence.)—The Manchester and the Lucky Jim mine, have now secured a bond on the Mountain Chief mine, a proposition carrying a high percentage of zinc. If these ventures of English capital prove successful, many other enterprises trying zinc values will be able to work on a much better paying basis, as in the past the presence of zinc values has been given reason to expect an early and considerable movement in Slovan properties. Whilst the rise in price may prove out of temporary duration from the above mentioned cause, still it will probably last until the opening of the Indian mints and increase of the Bank of England silver reserve will give a permanent and enhanced value to the white metal. These expectations, taken in connection with the fact that eastern capital is at last becoming awake to the paying nature of silver-lead investments, is displaying a steady and rapidly increasing interest in this branch of mining, induce the belief that the coming season will be the most active and prosperous one that the silver-lead districts have ever seen.

A good strike has been made on the Argenta, one of the Madison group. The strike was made in No. 3 tunnel, which has been driven 200 feet in on the ledge, where a body of 10 inches of clean galena and gray copper, with 18 inches of concentration ore, is displaying a grade of \$2.25 in gold, 60 per cent. lead, 420 ounces silver, a total of \$313 per ton. It is quite apparent that there is yet another district in which the C.P.R. will not have everything its own way. The commencement of the construction work into the Lardieu-Duncan by the C.P.R. has roused the Kaslo & Slovan Railway to a sense of the opportunity which the salt that a large equipment of men and supplies have started work at the head of Kootenay Lake.

At the Assizes. Witness in Criminal Assault Case. Ordered into Custody for Perjury. Charles Yeoman, William Vents and Thomas Graham, three East End youths, were found guilty in the Criminal Assizes at half-past 8 o'clock last night on a charge of indecently assaulting Mrs. Emily Chandler on the afternoon of Feb. 15 last. During the progress of the case John Pontier, a Crown witness, was ordered into custody by Mr. Justice Robertson on a charge of perjury. His evidence yesterday was at variance with the story told at the preliminary investigation. T. C. Robbette appeared for the three prisoners and Crown Attorney Dewar prosecuted. Mr. Robbette was granted a reserve case on the admissibility of Inspector Armstrong's evidence, and he will argue the matter this morning before the prisoners are brought up for sentence. A bill of indictment against Pontier for alleged perjury will be presented before the Sessions' grand jury to-day.

Good Reports of Victoria. The Board of Regents of Victoria University met yesterday to review the general work and financial position of the University. In every respect encouraging statements were presented. Matters of administration and the estimates for the coming year were considered. Rev. Dr. Carman, General Superintendent of the Methodist Church, presided.

Cleveland, Ohio, May 18.—By the purchase of the Bell Telephone interests in the State of Wisconsin, announced yesterday, the Cleveland OX COIL SYSTEM has become the largest concern of the kind in the world. It now operates 115,774 miles of wires and serves 75,000 subscribers.

PARIS POSTMAN STRIKE. Demand More Wages and Decline to Deliver Letters Until an Increase is Given. Premier Dupuy Says the Men Will Be Replaced by Others Unless They Return to Work. Paris, May 18.—Owing to the refusal of the Senate to vote the bill providing increased pay for postmen, recently passed by the Chamber of Deputies, about 200,000 men refused to go to work early this morning, and later the whole force, numbering 300,000 men, went out on strike. As a result there were no mail deliveries this morning. Even the Embassies have not received their mail, and the mail standing in groups outside the postoffice. Later the postmen held an open-air meeting around the postoffice and were addressed by the Under Postal Secretary, M. Mongeot, who vainly urged them to return to work. The strike was responded by mandating an increase of pay. The postoffice was besieged by business men this morning who demanded their letters. M. Mongeot has arranged for a delivery this afternoon. POT-LUCK ALDERMEN OF '99

"Things Are Running in a Loose, Slipshod Way Down Here," Says Alderman Lamb.

LENNOX IS LAUGHING AT THEM.

Why Shouldn't He, When He Has His Hooks Even on the City Hall Furnishings?

"Things are running in a loose, slipshod way down here. We seem to be trusting to what I call luck."

These words were Ald. Lamb's. The reference was to affairs at City Hall. The occasion—well, there was occasion enough yesterday to warrant even stronger language.

Who's Working for the Architect? The carpet, linoleum, etc., must be made, laid and supplied in accordance with samples selected to the satisfaction of the architect, Mr. E. J. Lennox, in each and every case.

This is an extract from a current advertisement for tenders for the supplies mentioned for the new City Hall. With it as a basis, Ald. Lamb did some calling to account at yesterday's Property Committee. He asked the architect to explain the conditions of the Board of Control and of the Property Committee, in respect to the new City Hall, it fell to the lot of the latter body to prepare all specifications. Among the first contracts in hand was that for the supply of carpets. In response to a general protest the committee thought it as well to save the architect's commission for buying such things by instruction in the future when they did not come within the scope of an architect's services. They felt self-sufficient enough to choose carpets, and, accordingly, Ald. Lamb and City Commissioner Lennox have been at it faithfully in gathering data for specifications. The specifications were prepared, inspected by the committee and by the Board of Control, given quantities required, were requested to advertise for tenders.

Ald. Lamb was dumfounded when he read the advertisement lately. The architect had been "rung in" by the carpet was to be satisfactory to him. He was to receive, and, if he thought fit, to accept it. The thought immediately occurred to the alderman, "Is the architect to get his commission after all? Is this Property Committee to prepare specifications only to have the architect paid for it?"

Ald. Lamb unrolled his grievance to the committee yesterday afternoon. Littlejohn Prepared It. The onus could not be placed. Ald. Lynd of the Board of Control knew nothing about the architect's name being connected with it at all. Secretary Littlejohn said he had prepared the advertisement by instruction of the Board of Control.

The controller was inclined to think, with Chairman Dunn, that the services asked of the architect did not entitle him to fees. Ald. Bowman took upon himself to announce that Mr. Lennox would not ask for any.

The City Solicitor was called in and declared extempore that fees were fairly chargeable.

"Well then," said Ald. Hanlan, "we might just as well have let Mr. Lennox come in and do the work for us in the first place. Here he can charge the fees, while we have done the work."

Finally Architect Lennox himself loomed up. "Now, Mr. Ald. Lamb," said Ald. Bowman, "I guarantee that Mr. Lennox would not ask any fees. You said he would. Now, we'll see who knows most?"

A Hard Job. Ald. Lamb: You may be in Architect Lennox's confidence, while I am not."

He then went on to explain to the committee over a pretty strong objection that he was going to resign. He said he would not do so, but he would resign if the committee were not able to accept, on behalf of this big city, the architect's concession. Oh, it was horrible!

The Architect's Story. The architect's story is that last year when he prepared the specifications for the carpet for the City Hall, he had in mind that the same specifications would be applicable if necessary to the furnishing of the rest of the building. He had instructions from the Board of Control to prepare those specifications.

Ald. Lamb: Where is your authority? Let us see it. Mr. Lennox: I can explain. Ald. Lamb: Oh, you can explain anything.

The explanation was that last year the Board of Control, and not the Property Committee, had charge of specifications.

Paid Too Much for Their Whistle. "Then," asked Ald. Lamb, "do these new specifications conform to the extravagant \$4.50 per yard price of those for the Council chamber?"

They did not. Some of the other carpets went as low as \$1.90 per yard. Ald. Lamb had inspected the Council chamber carpet and the price was, to his no small astonishment, \$4.50 per yard.

"but it is a dangerous move in the face of the opinion given by the City Solicitor. You may rest assured that the contractors will make claims for damages if they have the slightest chance. There are, according to the architect, a dozen contracts yet to sign, and many of them would take two months to execute after they are signed."

Ald. J. J. Graham called the very idea ridiculous. That is a strong word in so far as his vocabulary is concerned.

"Why, it is the most senseless move ever attempted," said Ald. Steiner at yesterday's Property Committee, and Ald. Steiner is a daily visitor at the new City Hall, and he knows a thing or two about progress of that war.

Now it's July 1. "We cannot move comfortably for a long time yet," said Mr. Steiner. "Mr. Lennox," he pleaded, "now, I would like you to tell me just what month of what year we can go into the new City Hall."

The architect (laughing): He has named me down to the year this time. Ald. Sheppard: You know how honestly. Do you think we could stand it. [Laughter.]

The architect: Well, to speak honestly, I really cannot tell you. He blamed Council for all the delay.

Ald. Sheppard: I'd like to ask the chairman if he will get us in by the 24th. The chairman laughed at such a preposterous idea.

Ald. Sheppard: Well, Mr. Lennox, can you get us definitely when we might go in with comfort and security?

"I should say that about July 1 the building will be as ready for occupation as was the Parliament Buildings when they were first occupied. You see, circumstances have been delaying."

Ald. Hanlan: Yes, it has been raining. [Laughter.] And yet the Mayor is moving before the end of May.

Will Take Up Old Fittings. This spectacular scheme of the Mayor's will not be the matchless one which he has known that he has neither carpet nor furniture for his new office. Both contracts are at this time under advertisement.

The Mayor, like a swain in a hurry to marry, will move in on bare floors, and take a couple of chairs and a desk or two from his present office to fit up with.

The only way to save the bull by the horns, he thinks, is to take the bull by the horns, and to occupy it at once. In his own case, that is probably true, remarked another alderman yesterday.

Boom at the Island. The rest of the fun at the committee was innocent. Upon the sanctioning of an island lease it was announced as a commentary that every building was going to be priced, and that every habitation would be crowded to its utmost at the island this season.

Mr. George H. Gooderham is erecting a handsome new house. Curling Club Turned Down. The resolution of the Fire and Light Committee to buy two lots for extending Dow-avenue firehall was altered at the instance of Ald. Lamb, and only the J. D. Allan lot is recommended for purchase.

Ald. Frankland, the City Commissioner and the City Treasurer will report as to the amount required to maintain the new City Hall till the end of the year. No provision has been made in the estimates. At the request of Ald. Lamb a report will be had as to the staff of engineers required during the summer months.

On motion of Ald. Hanlan and Bowman a report will be had as to the desirability and cost of a 300-foot cut through the centre of the island, with driveways on each side. It is intended to create new streets.

This is Disgusting. Thereupon the Property Committee adjourned, on motion of Ald. Frankland to the new City Hall. They had no regard for the feelings of Ald. Score when they did it. He had called a meeting and brought down such citizens as Messrs. Alex. Manning, Dr. Oronhyateka, Major Sanderson, J. J. Macdonald, J. H. Boyle, Leslie, E. E. Sheppard, Revell and others to boom Victoria-square. The deputations were confronted with no quorum. Ald. Lamb, Burns, Frankland, R. H. Graham and Lennox had failed to attend. The chairman in his isolation had to apologise to the deputations all and singular.

It was another instance of the looseness and the pot-luck methods at City Hall. The disappointed delegation was Victoria-square through and through.

The \$180,000 Option Removed. Mr. J. H. Boyle has in hand a letter as follows: "I have instructed Mr. Boyle, the trustees of Knox Church to inform you that as so much time has elapsed since they had communicated with you in relation to Victoria-square matter, and the Council has delayed so long in acting, and the value of property has so materially altered in the meantime, they cannot continue to hold out any expectation that they will accept of the offer for the property which had been mentioned in their conversations with you at the inception of the scheme. Yours, etc., J. Mortimer Clark."

Taylor Bros. Not Thanked. Taylor Bros., offer of a cattle market site up the Don valley is not driving Ald. Lamb to ecstasies of delight. "Taylor Bros. need not make any foolish proposition like that," said Ald. Frankland, "it is impracticable. Why it would pay us to spend \$500,000 and get a site in Toronto. Taylor Bros. site is by miles north of Greenland." (Greenland, York County.)

Ald. Dunn, the other aldermanic cattle man, took upon himself to say, "I do not know of the site, but I do know of the site."

Pavements Recommended. In his regular report yesterday to the Board of Works, the City Engineer made the following local improvement recommendations: Pavements—Asphalt. Bernard-avenue, Avenue-road, Bedford-road, estimated cost, \$3720, city's share \$1160; Churchill-avenue, Dovercourt-road to a point 715 feet east, estimated cost \$8500, city's share, \$2210. Brick on broken stone foundation—Fuller-street, Queen-street to Pearson-avenue, estimated cost \$8500, city's share, \$2210. Cedar block—Rolyat-street, Dundas-street to Grove-avenue, estimated cost \$1000, city's share \$250. Macadam—Broad-street, Shuter-street to Wilton-avenue, estimated cost \$2100, city's share, \$525. Rock-pavement, from Wellesley-street north 250 feet, estimated cost \$750, city's share \$187.50.

Concrete walks—Huron-street, both sides, Huron to Bloor, estimated cost \$1978; city's share \$494.50; Bay-street, west side, from Kingsway to Wellington-street, estimated cost \$844, city's share \$211. Dundas-street, north side, Dovercourt-road to Gladstone-avenue, estimated cost \$3200, city's share \$800. Avenue-road, west side, Bloor-street to Havenport-road, estimated cost \$1900, city's share \$475. Also on east side, between the same points, estimated cost \$1877, city's share \$469.25. George-street, east side, from Lower-avenue to a point 290 feet north, estimated cost \$20, city's share \$5. Also 140 new sidewalks.

City Hall Notes. The City Engineer has relieved the Contracting and Paving Company of its contract to brick new Norman-avenue on account of delay in starting work.

The same complaint is registered by Ald. Woods against the Dominion Paving Company, which he says is one man picking out the abandoned brick blocks.

City Treasurer Coady promises his estimates on Monday.

To Inspect the Shops. General Superintendent Leonard of the Canadian Pacific Railway, accompanied by Superintendent Williams and Master Mechanic G. S. McKinnon, went to Windsor yesterday to inspect the shops and yards there.

Dominion Express Booming. The business of the Dominion Express is daily increasing. A new office has been instituted at Niagara Falls and branches will be opened at Merriton and Thorold today.

Cook's Cotton Boot Compound. Is successfully used monthly by over 10,000 ladies. Safe, effective. Ladies ask for your druggist for Cook's Cotton Boot Compound. This is one of the things which Ald. Lamb calls trusting to pot-luck.

The Grand Stand DINEENS Cor. Yonge and Temperance Sts.

Dineens is The Grand Stand where you have the best view of the favorites of Fashion in hats. The whole field of the world's best styles in hats is brought in compact range for convenient inspection at Dineens. There is not another hat store in Canada where all the newest styles of all the best English and American hat makers are seen all the time—Christy's, Stetson's, Knox's, Tress', Buck's, Young's, Woodrow's, Carter's, Lincoln, Bennett's—and such celebrated creations as the genuine Dunlap Hats and the genuine Heath Hats, which are never seen anywhere else in Canada but at Dineens.

Dineens is The Grand Stand for grand values, as well as grand styles and grand qualities in hats. Dineens prices during Race-Week are not lower than usual—from \$1.50 to \$8.00—but the range of assortments of new styles in everything—Silk Hats, Drab Shells, Depbys, Square-Crowns, Round-Crowns, Full-Crowns, Half-Crowns and in Soft Felt, Crush, and Knockabout Hats—is surpassingly great—the greatest, in fact, ever shown by this house.

Mr. and Mrs. James Trott, who were here to attend the late Job Trott's funeral, have returned to their home in Michigan.

James Elliott, a former resident of Richmond Hill, met with a sad end during the week by being killed by a railway train. The body was buried in the States for some years, and his friends were apprised yesterday of the affliction news.

Winton, May 18.—The Koppel murders of years ago have been recalled by the recent burial in the Oxenden Cemetery of the body of William McGarvey, an old man, who was found near McNeill's spring on Wednesday last week, with a bullet through his brain. McNeill's spring is just outside the limits of the village. Everything pointed to suicide, but relatives of the dead man are inclined to believe that McGarvey was murdered. The theory of those who believe he committed suicide is that he had become insane from want of money, but it transpires that he owned a farm in Lennox County and had money on deposit in the Dominion Bank at Winton. He had sent to Napanee for money, and if he received it it had been taken from his person, as a single cent was found in his pocket-book. A relative of the dead man is making enquiries, and if he finds the circumstances require it, he will demand an inquest.

The little, hazy place at Oxenden, where the remains of this man were laid, is becoming quite noted for holding the bodies of those who have not died from natural causes. The remains of seven have been buried here, and it is believed that a few of the dead of the last year are here.

Honest Advice Free to Men. All men who are nervous and debilitated or who are suffering from any of the various troubles resulting from overwork, excess of youthful vigour, or any other cause, should be aware of the fact that the only reliable way to cure these conditions cannot be relied upon. Mr. J. S. Lockie, a resident of London, Ontario, living at 437 1/2 Richmond-street, was for a long time a sufferer from the above troubles, and after trying in vain many advertised remedies, electric belts, etc., became entirely discouraged and hopeless. Finally he confided in an old clergyman, who directed him to an eminent and reliable physician, through whose skillful treatment a speedy and perfect cure was obtained.

Knowing to his own sorrow, that so many poor sufferers are being imposed upon by unscrupulous quacks, Mr. Graham considered it his duty to give his fellow-men the benefit of his experience and assist them to a cure by informing anyone who will write to him in strict confidence where to be cured. No attention can be given to those writing out of mere curiosity, but anyone who really needs a cure is advised to address Mr. Graham as above.
