# MAJOR FISHER KILLED BY REAR VILLERSBOUR

## Grobelaar's Commando Captured 100 British Cape Railway Pioneers, But Was Forced to Release Them—Kitchener Denies Women Were in Firing Line.

London, Nov. 25.—This morning's despatches from South Africa show that the recent fighting near Villiersdorp, southwest of Standerton, concerning which Lord Kitchener reported nothing beyond the fact that Commandant Bush had been captured, after attacking a patrol of 100 railroad pioneers, was really a serious affair.

It seems that Grobelaar's commando succeeded in surrounding and capturing a British force of 100 British Cape railway pioneers.

Subsequently, Col. Remington came up with reinforcements, and, after heavy fighting, compelled the Boers to retire and to release their prisoners.

The British losses included Major Fisher killed and three officers wounded.

The casualties among the men have not yet been reported.

### ABSOLUTELY UNTRUE.

London, Nov. 25.—With reference to the story that the British placed Boer women and children in front during the fighting at Graspan, June 6, when General Dewet's convoy was captured—a story which has been spread broadcast on the Continent as an example of British barbarity—The Daily Mail sent a despatch of enquiry to Lord Kitchener, who replied as follows: "The statement is absolutely untrue and devoid of all foundation. One child was killed and one woman and one child were wounded by the Boers."

As the story has been prominent in the recent anti-Chamberlain campaign in Germany, The Daily Mail has telegraphed Lord Kitchener's reply to all the leading German papers.

### ANOTHER SERIOUS CONFLAGRATION

#### Montreal Warehouse Damaged to Extent of \$50,000 Yesterday.

Montreal, Nov. 24.—The central section of the city was the scene of another serious conflagration at about 2 o'clock this morning. While patrolling St. Paul-street, a constable discovered that the top flats of the extensive warehouse of Messrs. W. & F. P. Currie & Co., situated at No. 124 McGill-street, and extending along St. Paul-street to the corner of Longueville, were ablaze.

The two top flats of the building were the ones most injured by the fire. The damage to the remainder is entirely from smoke and water, and is fully covered by insurance. The top flat is completely burned out. The stock was very valuable, and consisted chiefly of paper, which was either destroyed or water-damaged. The premises of Redmond, Greenleaf & Co., Limited, which adjoins that of the Messrs. W. & F. P. Currie & Co., on McGill-street, suffered a good deal of damage through smoke and water. The aggregate damage was estimated at \$50,000, which is fully covered by insurance.

### LIVES WITH HIS BACK BROKEN.

#### Tree Fell on Joseph Hetherington, Inflicting Terrible Injuries.

London, Nov. 23.—Joseph Hetherington of East-street received terrible injuries in an accident at Pileville and Adelaide-streets this morning. He was driving by the place in a buggy, when a huge willow tree that had been cutting down fell upon him, inflicting injuries which he is not expected to survive. His back was broken in the middle of the trunk, and at the junction of the neck and chest. The skull is believed to have been fractured as well.

### ACCIDENTS TO BRAKEMEN.

#### Frederic Stewart Killed and Harry Crown Seriously Injured.

Winnipeg, Man., Nov. 24.—C.P.R. brakeman Fred Stewart was caught between bumpers while at work coupling cars here last night and crushed to death. Harry Crown, C.P.R. brakeman, was crushed between two cars at Holland, Man., last night and brought to the hospital here this morning in a very serious condition. Crown is one of Winnipeg's best lacrosse players.

### SIMON A. FRASER DEAD.

#### Works Manager of Nova Scotia Steel Co. Passes Away.

Halifax, N.S., Nov. 24.—Simon A. Fraser, works manager, and a director in the Nova Scotia Steel and Coal Company, died at his residence in New Glasgow, on Saturday afternoon. He is survived by a widow and four children. Graham Fraser, vice-president and manager of the same company, is a brother.

### A GIANTIC SCHEME.

#### Pan-American Railway Would Cost \$200,000,000 for 5000 Miles.

Mexico City, Mex., Nov. 24.—The report of Sen. Senator George D. Davis to the Pan-American Railway Commission of the International American conference will be submitted to the session of the conference next Wednesday. Mr. Davis says in his report that there is nothing impracticable or visionary in the construction of the road, nor in the formation of the necessary stock, and estimates the cost of the international railroad to be constructed at 5000 miles in order to link cities on the Atlantic and Pacific coasts at \$200,000,000, or at the rate of \$40,000 per mile.

### DIMONT IN LONDON.

London, Nov. 24.—Sanico Dimont is over here with letters at the Carlton Hotel, and will be entertained by the Aero Club on Monday night. There will be a brilliant banquet to Sir Thomas Lipton the same night at the Hotel Cecil, Lord Tweedmouth presiding.

### MILITARY RUMORS.

Frederickton, N.B., Nov. 24.—It is rumored in military circles that Lieut.-Col. White of Halifax is to receive the appointment of D.O.C. of New Brunswick, and that Lieut.-Col. Dunbar, now acting D.O.C., will become district staff adjutant.

### DICKINSON AT SOFIA.

Constantinople, Nov. 24.—Mr. Dickinson, the special diplomatic agent of the United States, who has been conducting the negotiations for the release of Miss Ellen M. Stone, arrived here today from Sofia.

### MONEY AND THE CHRYSLAIS.

Money is like the butterfly: Before it falls, it is a butterfly; when it has fallen, it is a caterpillar. By and by it seems to be in reach; you say: "I will catch it." But when you touch it, it is gone. It puts on wings and flies away.

### CHAMBERLAIN'S CHARGE TRUE.

London, Nov. 23.—The Earl of Durham, speaking at Durham tonight in reference to the ill-feeling toward Great Britain in Germany on account of Colonial Secretary Chamberlain's remarks in his Edinburgh speech, said that the British people could not fail to resist attacks because they had no foundation and showed a want of appreciation of their character and a great misapprehension as to their behavior. Secretary Chamberlain, Lord Durham said, might better have left his words unsaid, but he told the truth.

Lord Durham, referring to the Right Hon. Henry Campbell-Bannerman's speech, in which he accused the British troops of barbarous and loathsome behavior, said that if Sir Henry believed that he was a fool. If he only said it for party purposes, he was a knave.

# CHAMBERLAIN TO GAIN FROM GERMAN ATTACKS

## Perceptible Hardening of Public Feeling in London Against the Teuton.

New York, Nov. 24.—L. N. Ford, cabling from London, says: "There is a perceptible hardening of public feeling here against Germany. The remark heard on every side is that the German against any success in making Mr. Chamberlain Prime Minister if they perceive in distorting the obvious meaning of a harmless phrase and in holding him up to ridicule in indecent cartoons."

Those behind the scenes smile grimly over the fatuity with which German agitators have run wild against the English statesman responsible in a large measure for the recent entente cordiale between the two countries. Singularly enough, Mr. Chamberlain was a strenuous advocate of the dual agreement in China and of closer relations with Germany, and is now singled out for attack for alleged despatches abroad to the Patriarch.

A singular feature of the German outbreak against England is the neglect of the government at Berlin to bring pressure to bear upon the press and public meetings. This points to cooler relations between the British and German governments, caused by the recent Mitteleuropa agreement or some other political diplomatic history.

There are two natural effects of the German agitation, which happily appears to be subsiding. One is a sympathetic movement in England toward France and Russia and away from Germany; the other is the promotion of cordial relations between England and the United States.

There is, indeed, danger that the sentimentality may go too far. The Spectator, for example, while the pluses are lightened judgment respecting the revision of the Clayton-Bulwer Treaty, overshoots the mark in suggesting that the United States should accept the Monroe Doctrine. That doctrine, like the canal itself, will be stronger and safer under exclusive American ownership and control.

### NOT A NATIONAL QUARREL.

Berlin, Nov. 24.—The Vossische Zeitung thinks that even to speak of the remote possibility of an Anglo-German quarrel is to overestimate the importance of the present discussion. It is merely a matter of repelling a single unprovoked attack of a single Minister for Great Britain as a nation is responsible.

The Berliner Tageblatt says that Mr. Chamberlain should end the difficulty by declaring openly that he had no intention of insulting the German army. It says that while attack is directed against Mr. Chamberlain personally and does not afford ground for a breach between the two nations.

### LIVE MONKEY'S TAIL BOA.

#### Englishwoman Starves Monte Carlo With a Quail on Her Shoulder.

Monte Carlo, Nov. 24.—This morning I saw something entirely new in the way of a boa. A very fashionably dressed English woman, out for her morning walk, was the originator of this new style. She had a live monkey's tail on her shoulder, and was carrying a little black and white "quail" and the last week in December.

Hon. Dr. Jordan has been subpoenaed as a witness in the trial of the Minister of Militia in the Capital will be indispensable during the perfecting of arrangements for the new force.

### PLAY REVEALS A ROMANCE.

#### Daughter of "The Last of the Danes" Discovered in a Workhouse.

London, Nov. 24.—There is at least one person in London not connected with Her Majesty's Theatre who is deeply interested in the drama of the Danes. It is the daughter of an elderly woman called on Mr. Beerboom and told him that she was a daughter of Count D'Orsay. This daughter presents a certificate of birth and other documents proving her statement. She is a skillful pianist and speaks English and French well, but has fallen on evil days, and is now in a London workhouse.

### STUDENTS' RIOTS IN SPAIN.

#### University Rector's Speech Shut Off by Catalan National Anthem.

Barcelona, Nov. 24.—The Rector of the university here addressed the students last evening, but was unable to obtain a hearing, as the students demanded that he speak in the Catalan dialect. He did not comply, whereupon the students commenced singing the Catalan National Anthem. The students at Saragossa expressed their feelings by setting a newspaper on fire.

# CANADA'S OFFER OF AID ACCEPTED BY BRITAIN

## Six Hundred Mounted Troops Will Be Recruited by the Machinery of the Militia Department—Col. Evans and Major Merritt Likely to Be in Command.

Col. Evans

Major Merritt

London, Nov. 24.—The Imperial Government has received through the Earl of Minto, Governor-General of Canada, the offer of the Canadian government to raise a fresh force of 600 mounted infantry for South Africa. The government has gratefully accepted the offer.

### CANADA PAYS NOTHING.

Ottawa, Nov. 24.—Although up to a late hour to-night no formal confirmation had been received by the government of the announcement made in London Saturday that Canada's standing offer to allow a mounted force to be recruited in this country had been accepted by the War Office, the fact is not taken to indicate that the report is incorrect. The absence of official intimation is regarded in official circles as being due merely to the necessary delay in transmitting the War Office despatch than the usual channel of the Colonial Office, and the belief is that it will reach His Excellency by noon tomorrow.

### Organize at Once.

The work of organizing the force will be begun at once on the War Office plan now in the Militia Department. The organization will be directed from Ottawa by the officer chosen to command the force, presumably Lieut.-Col. T. D. B. Evans, C.B., of the Royal Canadian Dragoons; and among military men here it is thought the commission as second in command will be offered to Major Merritt. But as has been stated, the selection of his staff will be left practically in the hands of the officer commanding.

### A BUSINESS CORPS.

London, Nov. 24.—The Statist suggests that the large business centres throughout the country whose interests are injured by a continuance of the war in South Africa should raise and equip a mounted volunteer corps for service and that the wealthy classes should subscribe the necessary funds. The proprietors of the Statist offer to start the subscription with a thousand guineas.

### JOHANNESBURG CONSPIRACY.

London, Nov. 24.—The Johannesburg conspiracy is the most important disclosure of the South African despatches. It involves another series of military trials and captures and does not encourage hope of a speedy settlement of the race feud. The despatch allows the passage of little news from the land. Private letters from men in the employ of the mining companies report a gloomy condition of that industry and a general feeling that the war may last another year.

### MYSTERY BY THE SEA.

Unknown Man Found Dead With Wound in the Head. Halifax, Nov. 24.—On Saturday evening the dead body of an unknown man was found in the woods, two miles from Dartmouth, with a bullet hole in his head. He was well dressed, but nothing was found on him which would lead to his identity. He placed a revolver in his mouth and blew his brains out. The case is surrounded in the deepest mystery.

### TO-KILL STRAY DOGS.

Paris, Nov. 24.—The question of the best means for carrying out capital punishment has been much discussed lately. M. Mareille Berthelot, a distinguished French chemist, after discussing the merits and demerits of the systems in vogue, pronounced in favor of oxide of carbon, as used for the destruction of stray dogs. He says this is a quiet and painless death, and one that does not shock the sensibilities.

New York, Nov. 24.—In the presence of a big crowd, which assembled to witness the emerging of the submarine boat Fulton, which is at the eastern end of Long Island, this morning at 10.30 o'clock with all well and greatly surprised to find there was a storm raging.

The test of the Fulton's staying powers was highly satisfactory, not only to the officers of the company that built her and the naval officers present, but to those who were in the boat. They reported there was not the slightest discomfort to them during their more than 15 hours of submergence beneath the surface.

### PREDICTS A FRENCH MAJORITY

Hon. Joseph Royal Sees Ascendancy for His Race in Manitoba. Montreal, Nov. 24.—Hon. ## KING GEORGE LOSES A CABINET OWING TO DEMONSTRATIONS

### But Before the Night Was Over Had Another at His Command—Residences of Ministers Stoned—Crowd Finally Dispersed by Cavalry—New Premier is M. Zaimis.

Athens, Nov. 24.—As a result of the demonstrations against the proposed resignation of the Greek Cabinet has resigned. This action was taken in spite of King George's efforts to induce the cabinet and M. Theodorakis Premier, to remain in office. M. Theodorakis considers the responsibility of a judicial inquiry into the recent riots should be left to another cabinet in order that the truth may be established beyond suspicion.

The party of M. Theodorakis will support the new cabinet.

There was a renewal of the rioting to-night, not on a large scale, with demonstrations against the retiring Cabinet. The residences of the Ministers were stoned. The crowd was finally dispersed by cavalry.

After an absence of King George to-night, M. Zaimis, former Premier, completed a cabinet made up as follows: Premier and Minister of Foreign Affairs, M. Zaimis; Minister of the Interior, M. Triantafyllidis; Minister of Marine, M. Topalis; Minister of Public Works, M. Montafaropoulos; Minister of Finance, M. Negrus; Minister of War, Col. Korpar.

Until an explicit invitation to the cause of the riots has been concluded, M. Zaimis will hold also the portfolio of Justice.

### EX-TREASURER OF ST. BONIFACE, QUEBEC, ARRESTED FOR ALLEGED DEFALCATIONS.

Montreal, Nov. 24.—Early in the morning of the rural municipality of St. Boniface, was arrested yesterday for alleged defalcations of the municipality's funds, extending over a period of three years. The defalcations are said to amount to \$1000. Carriere has lived in the London & Accident Guarantee Company in this city since May last, and action is taken by the governing committee in the interests of the company.

THE RAPID TRANSIT PROBLEM. All the large cities are wrestling with the question of rapid transit, and it is in the city of Toronto made an effort in the same direction. What is wanted most of all in Toronto is an improvement in the street car service during the rush hours at night, when tens of thousands of people are striving to reach their homes with the least possible delay. It has been suggested that both tracks on certain streets be used for local and other for thru or express passengers. A trial of this idea would disclose its practicability. It would add immensely to the dangers and risks of the street, which are already quite serious enough. There is one other suggestion for the long distance lines, which can be used for long distance passengers. We do not think it would be a difficult matter for the Engineer to lay out some such lines. There ought to be an express service westward to Parkdale, another to the westward to the other end of the city, and a third to the eastward to the other end of the city. The latter two lines would be used in part to reach Parkdale. To reach the northwest corner of the city there is an abundant choice of streets which would admit of a fast service. It might not be necessary to have double tracks, but the express routes, as the cars could run inwards during the morning and outwards at night. The Engineer and Council need not hesitate to urge this matter upon the attention of the Railway Company, because a service such as we speak of would pay immensely. An express service along Eastern Avenue would revolutionize the traffic to the east, which, during the summer, is perhaps the heaviest on the company's system. Instead of consuming twenty-five minutes to get to Woodbine Park the trip could be made in less than fifteen, and Moore Park could be reached in less than twenty minutes. Surely the company must be able to handle a service in rolling stock and wages and what an immense increase in its revenues such a service would effect. The gain would pay the interest on the necessary investment ten times over.

AN ENGLISH IRONMASTER'S OPINION OF SYDNEY. In another column we republish a letter by Sir Christopher Furness sent his recent visit to the works of the Dominion Iron and Steel Company. Also he contains himself almost wholly to describing what he saw, it is easy enough to read between the lines that he looks upon these two Canadian industries as of rising importance in the industrial world. He says that we in Canada have become an important factor in the world's iron, steel and coal production.

FIGHTING THE SMALLPOX. Dread Disease Has Appeared in Two More Counties of Province of Quebec.

ST. HENRI CASES WELL GUARDED. But, notwithstanding precautions, some infected persons mingle with the people.

Montreal, Nov. 23.—The smallpox still continues its ravages throughout the province. The latest reports received at the Provincial Board of Health Office show that the disease has made its appearance in the parish of St. Henri, in the county of St. Lawrence, as well as in Massonville, Ottawa County, and Ste-Fidelle, Yamaska County.

The situation in St. Hyacinthe is reported to be much improved. All the people are showing a disposition to assist the authorities in preventing the spread of the dread malady. The number of cases still affected is very small and the efforts of the health authorities of the town are now bent on the task of preventing any other cases from coming in from outside municipalities.

Dr. Lacombe, the Medical Health Officer of St. Henri, is confident that his city is taking every possible measure to limit the few cases of smallpox which have been observed. "We know our patients," he observed, "and know that they are not going to mix with the general public. We have quarantined their homes and other inmates of infected houses not to leave the house, in any case, however, in which it was found that anyone was in the habit of going out or people from the outside were in the habit of coming in, a watch would be set day and night. During the past week it has cost the city of St. Henri, \$7,000 in the way of disinfecting and a hard chase on Wednesday last, when he found a man suffering from smallpox, he was carried, working for Cunningham & Wells, to the city of St. Henri, where he was placed in a hospital, and where he is now recovering, and placed in quarantine."

IN THE YUKON. Reopened Transportation Charges Will Widen the Mining Area—2 Per Cent. a Month the Bank Rate of Interest.

The World had a talk on Saturday with a mine operator, recently down from Dawson City, where he has been working a claim for some years. He says that the Yukon mines near Dawson are good for 20 years yet, and the chances are that other fields will be opened up. As transportation charges are reduced, and they are gradually being reduced, poorer fields are being worked, and where, a while ago, rich fields simply paid expenses, now lower grade dirt enables the miners to reap a small profit. The main factor in this reduction is the transportation charges for fuel. Every improvement in this direction reduces the cost of supplies, reduces the cost of labor and brings the price down to the productive limit. At the present time, labor is paid 75 cents an hour, and for a 10-hour day, \$7.50, less, as they will be, it is hoped that wages will go to \$3 and \$4 a day, and that the cost of fuel will be 20 cents per ton. Banks, on the average, charge 2 per cent a month for money, and, as a matter of fact, carry the rate to 2 1/2 per cent. The cost of carrying the money during the winter when the gravel is being taken out of the pits. The bank of Canada has opened up there, and has a ready market for anything from three to five million dollars of money to miners and business men.
