Warned That 1000 Germans From Detroit Propose a Sunday Raid on Canada

Windsor Officer Tells of Communication—Washington Hears Story of German Spy in England Sending News to Submarines by Under Water Wire

Toronto, July 3.—The Globe has the following from Windsor, Ont., July 2: Major S. C. Robinson, commanding the 1st Regiment here, received a communication warning him that 1000 Germans proposed to come over the Detroit River at some unspecified point on next Sunday night and raid Canadian territory.

Let them come," was the officer's response, "I can assure them there is not many of them will ever go back." That is the spirit that pervades the Canadian frontier.

ONE GERMAN CRUISER SENT ASHORE; REST WERE PUT TO FLIGHT

Official Russian Report on the Baltic Battle—Russian Cruisers Sustained Little Damage

Petrograd, July 3.—When the Russian naval squadron in the Baltic gave battle to five German cruisers and a flotilla of torpedo boats off the east coast of Gotland on July 2 one German cruiser was beached and the other warships were put to flight, according to an official statement by the Russian admiralty, dated July 2.

The Russian cruisers, the statement adds, were killed and seventy-one wounded. The survivors were landed at Kathmanarsk.

ALLIES TO FACE MENACE OF HUNDREDS OF GREAT GUNS IN NEW OFFENSIVE IN THE WEST

London, July 3.—The Daily Mail's correspondent at Rotterdam has received information that the Germans intend to resume the offensive in the west soon on a gigantic scale. He says they are concentrating men and guns in enormous force on the allies' left wing.

The fighting of the near future will be a battle of guns and victory will rest with the side that has the biggest and the most guns. In addition to the fifteen inch howitzers from Austria, the Germans have been making huge guns at Essen.

SUBMARINES BUILT AT CONSTANTINOPLE

English Officer Says Story That They Traveled Under Water From Germany Merely Bluff to Scare U. S.

New York, July 3.—An English naval officer, who arrived in New York on his way to the Pacific coast said there was no truth in the report sent out from Berlin recently that German submarines had steamed through the Straits of Gibraltar to the Dardanelles.

Kills Doctor and Wounds Self; Said To Be St. John Man

Hepworth Holmes Shoots Physician in Hamilton and Turns Gun on Himself

Hamilton, Ont., July 3.—There is no doubt in the minds of the police that Hepworth Holmes fired the fatal shot and the bullet which injured him and the belief is that he was mentally deranged and greatly angered because Dr. Williams would not treat him for tuberculosis.

He had been at Gravenhurst Sanitarium, where Doctor Williams was formerly stationed, and was pronounced incurable. A few days ago Dr. Williams said to his aunt and sister, who reside at 52 Markland street, that Holmes had been urging him to treat him. He referred to Holmes as a "crank," stating that he was incurable, and that he could not do anything for him.

THE WAR NEWS

Introducing the Munitions Bill in the House of Lords yesterday, Lord Curzon said it was not too much to say that the country was in great peril.

PROGRESS IN NEW BRUNSWICK

When one sits down to contrast the conditions in New Brunswick today with those of twenty-five years ago, he is perhaps surprised at the change that has come about.

Consider also the great development at St. John. At West St. John in 1890 there were one or two deep water wharves with no winter business.

Agriculture has made progress in twenty-five years. The provincial department has engaged experts in horticulture, poultry, dairying and sheep-raising.

During the period under review pulp mills have been erected at St. John, St. George and Bathurst.

important railway centre. Moncton has added new industries and greatly enlarged railway works, and has enjoyed rapid growth in population; while its former small suburb, Sunny Brae, is now an incorporated town.

In England more and more men are being enrolled to work in factories and the manufacture of arms and munitions will be speeded up with the utmost energy.

Canada now has thousands of men in training at Valcartier, and contingents are going forward to England from time to time.

The New Brunswick Automobile Association adds its testimony relative to the bad roads. We are a long suffering people.

In the first week of the new campaign 46,000 British workmen were enrolled to work in the munitions factories.

The daily casualty list should stir the blood of the young men of Canada who are free to go but who have not yet donned the King's uniform.

Hon. Mr. Hazen is coming to St. John for another week. It will take more than a week to harmonize the warring factions in the Tory party hereabouts.

Sir Rodmond Roblin flatly denies that there was any such deal with the Liberals as that set forth in the Fullerton charges.

WHY BOYS LEAVE SCHOOL Mental Laziness and a Desire to Dodge Study by Entering a Shop

At least half of the boys the country over are leaving school as soon as the law allows, which is usually at 14 years of age.

To a boy 10 hours a day in the shop spells more liberty than five hours in a schoolroom, because in a shop he only does what he can easily do without mental exertion and without worry.

H.R.H. THE PRINCE OF WALES ASHT APPEARS AT THE FRONT

THE ROYAL FAMILY.

Q.—Was the Prince Consort's family name Wettin?—One of your constant readers, Montreal.

Q.—What is the family name of the reigning monarch, King George?—Private M., 24th Battalion, Victoria Rifles, Montreal.

Q.—A claim that the surname of King George is Guelp; B maintains that whilst King George is of the house of Guelp, he has no surname. Which is right?—A. K., Montreal.

Q.—A few years ago the writer applied to you requesting information as to whether His Majesty the King had a surname or not, and you replied in the negative, saying that the Royal Family was older than surnames and that the British College of Heraldry concurred in this view.

Q.—The royal family of the United Kingdom of Great Britain and Ireland have, properly speaking, no surname, authorities say, its members being described by their princely titles.

FAILURE OF THE IHAD CALL

The men in the government saddle at Constantinople last November issued a call to Moslems everywhere to rally in revolt against their alien rulers. The call was lost in the air. It met with response nowhere. The frantic effort failed utterly. It is important for us, if it is possible, to find the real meaning of this outcome of a plan from which so much was hoped.

among them have been able in the past to understand Christian teaching or to appreciate the consistent elements of truly Christian character. The events now taking place in Europe have intensified Moslem revulsion from European Christianity and deepened their conviction of the supreme excellence of their own religion.

An Easy Way To Increase Weight

Good Advice For Thin Folks. The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "fat creams," or following some foolish physical culture stunt, while the real cause of the thinness goes untraced.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders.

Sargol aims through its re-generative, re-constructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body.

The sixty-page booklet "Infant Feeding and Management" will tell you about these foods and give valuable guidance to help keep baby free from summer troubles.

SIR JOHN FRENCH'S FRIEND MOORE IS AN ONTARIO MAN

Remarkable Career of the Young Canadian Who Says Dominion Lads Are Greatest Fighters in the World

The Times on Monday printed a despatch from Detroit, quoting George Gordon Moore, an intimate friend of Sir John French, who told of Canadian soldiers being crucified, and who declared that the Canadians are the world's greatest fighters. Mr. Moore is himself a Canadian, who has had a remarkable career in the United States.

George Gordon Moore, the American fraction man whose intimacy with Sir John French, the British commander, has gained him a freedom at the British headquarters.

At the Hotel Manhattan yesterday Mr. Moore denied that his leaving the continent was due to any criticism of the British headquarters.

"Sir John French is a great war secretary," Moore declared. "It is sensible to be squabbling. I left the British headquarters—no, I cannot say just where—two weeks ago. At that time there most certainly was no ill-feeling. Sir John French and Lord Kitchener were the best of friends."

Mr. Moore looks almost anything but the remarkably successful business man, lawyer and promoter that he is. One gets the impression of an Englishman living on an income.

Mr. Moore looks almost anything but the remarkably successful business man, lawyer and promoter that he is. One gets the impression of an Englishman living on an income.

It was difficult to imagine such a man, with his soft voice, his white hands, his almost chubby face and even, white teeth, spending almost all his time near scenes of war and exerting no small influence in the conduct of the British campaign.

"Yes, Sir John French and I live together. I see nothing strange in that. I think a great deal of him and I hope the feeling is mutual. When the war began Sir John asked me to visit him."

zation of the water power corporation in Georgia with more than \$500,000 capital, and again Mr. Moore's name appeared as chairman of the board of directors.

More recent was the amalgamation of Pacific coast utilities with an enormous capitalization. Mr. Moore, spending months on this project before the outbreak of the war.

On the other side of the Atlantic there is the Investment Registry, an organization operating in the same field as Lloyd's and in this Mr. Moore is one of the guiding spirits.

He made a trip to Brazil penetrated far into the interior and is now at the head of a corporation which has valuable grants and eventually intends to promote a gigantic water power.

Through all this Mr. Moore has done little talking and none when publicity would result. His movements have been swift. He is a man of tremendous nervous energy and seems never to get tired.

He now has very widespread interests. In the Canadian Northwest he has a vast cattle range; controls the traction company at Lincoln, Neb., a water power in Texas and another in Vermont.

Although he has been tremendously busy he has found time for recreation and is a sportsman with many fancies. He plays polo, tennis and other outdoor games, and is an expert rifle shot.

Gen. French called to Mr. Moore early in the war and the latter left for London and then for the front. It is understood that he has been going back and forth at will since then.

Mr. Moore has many interests to care for. Besides his railroad investment he has a 100,000 acre game preserve in North Carolina, where he has buffalo, elk, wild bear and other animals native to that state.

Mr. Moore has been looking for what he considered the handomest horse in America to present to Gen. French, and General French's private saddle horse is the young stallion Goyard, which was bred at Mr. Moore's Drumore Farm, Frank S. Cooke, a newspaper man of Detroit bought the colt when a weanling and won all the blue ribbons in the ring at the Michigan State Fair in 1913 and 1914, the last being when the colt was two-year-old.

Mr. Moore gave up his Detroit house almost two years ago and moved to New York, but for several months his family has been at the country estate in St. Clair, while he has been in England and France.

Mr. Moore when a boy studied law, was admitted to the bar as soon as he attained his majority and soon became prominent in corporation law. It was that branch of the profession which brought him in touch with the Michigan United Traction Company, the system having only eighteen miles of trackage at that time.

Germans Beaten In Baltic Fight
British Submarine Sinks Turkish Transport—The Fighting on Land—Munitions Bill Passed—Serious Statement In House of Lords

London, July 2.—The Copenhagen correspondent of Reuter's Telegram Company states that a message has been received from Gothland, telling of a naval battle off the east coast of that island. According to the message gunfire was heard last night and at 6.30 o'clock this morning a naval action was observed from Ljugarn harbor and later warships steamed north. At 10 o'clock four cruisers were seen closely engaged near land. Later a German torpedo boat with many wounded, arrived at Kathammersvik, on the east coast of Gothland.

An official statement, issued by the Russian War Office on July 1 told of an attempt by German warships to bombard the port of Windau, Courland, and land troops. This attempt was repulsed. Windau is a Russian port across the Baltic from Gothland Island.

Copenhagen, July 2, via London, July 3, 1.24 a. m.—The German battleship Wittelsbach, which is damaged, and a battleship of the Kaiser class, with many shots under the water line, from the battle in the Baltic, have returned to Kiel.

The armored ship Wittelsbach, completed in 1902, was a vessel of 11,611 tons. Her armament consisted of four 9.4-inch guns, eighteen 5.9-inch, twelve 3.4-inch and twelve 1.4-inch. She was rated at 18 knots.

The armored ships of the Kaiser class, vessels of 24,310 tons displacement, were completed in 1912. The speed of this type is 23.6 knots and the armament consists of ten 12-inch guns, fourteen 5.9-inch, and twelve 3.4-inch.

Copenhagen, via London, July 3, 2.15 a. m.—The Politiken's Petrograd correspondent states that it is reported that not only was a German torpedo boat sunk at Windau, but a cruiser of the Magdeburg type was also lost.

The Magdeburg class of ships consists of three class cruisers of 1,500 tons displacement, completed in 1912. The armament of this type consists of twelve 4.1-inch guns. The speed is 27.6 knots.

London, July 2, 11.11 p. m.—"A naval action occurred this morning off the east coast of the Island of Gothland," says the Stockholm correspondent of Reuter's Telegram Company.

The German mine-layer Albatross was chased by four Russian cruisers and ran ashore to escape capture. Twenty-one of the mine-layer's crew were killed and twenty-seven were wounded.

London, July 3, 1.55 a. m.—A British submarine in the Sea of Marmora, on June 28, sank the Turkish transport No. 42, which was full of troops, according to the Athens correspondent of the Exchange Telegraph Company.

London, July 2, 10.55 p. m.—The sudden recurrence of heavy artillery fire by the Germans at many points in France is a marked feature of the fighting on the western front, but in the meantime the Austro-German advance in Galicia is unchecked, and the Teutons have shown no disposition to diminish the intensity of their eastern offensive.

The Polish fortress of Zamosc has been captured, and progress in other sectors of strategic importance in the east is claimed by Berlin. For weeks it has been the same story in this theatre of war—an Austro-German rush, a Russian retreat—and the end is not in sight.

Despite the hard fighting ever since the landing on April 25, the Franco-British expedition only lately has achieved anything notable toward strengthening its hold on the tip of the Gallipoli Peninsula. Achi Beta being a small Gibraltar, bristling with machine guns, surrounded by barbed wire and terraced with trenches. This is the reason why an allied progress is hailed with great satisfaction in England.

The munitions measure, giving David Lloyd George, minister of munitions, wide power to whip up the munitions supply, passed the house of lords today, and will be a statute when the king affixes his signature to it.

London, July 2.—Introducing the Munitions Bill in the house of lords today Lord Curzon, Lord Privy Seal, announced that the first week of the campaign made to speed up the manufacture of arms and ammunition resulted in the enrollment of 46,000 volunteer workers.

He was confident, Lord Curzon added, that before the end of the year the advantages in both men and material would be decidedly on the side of Great Britain and her Allies.

Lord Curzon said the present situation was one of grave anxiety. It was not too much to say that the country was in great peril. Events and recent statements had removed the scales from everyone's eyes.

HELP THE SERBIANS
Further contributions of money for the Knights of Columbus Serbian fund are acknowledged as follows: Misses Gray and Ritchie, \$5; Miss Annie F. O'Neil, \$5; Mrs. J. F. Fraser, \$2.

Every citizen can respond in some manner, either by contributing money or sending to the K. of C. rooms in Co-burg street on Monday and Tuesday next blankets, sheets, pillows, dressing gowns, towels, hot water bottles, night shirts, flannel shirts, surgical instruments, pyjamas, cholera belts, slippers, lin, linoleum platter, medicated cotton, disinfecting tablets, condensed milk, coconuts, stretchers, etc. The need is great; too much cannot be sent.

Honest Shoes
The Keystone of the success achieved by Ames Holden McCready Limited
Go into any shoe store of any standing in Canada, and ask the proprietor about "Ames Holden" or "McCready" Footwear. His reply will be "They are honest shoes."
Every dealer in Canada knows the Ames Holden McCready reputation for quality and value.
He knows that "Ames Holden" or "McCready" on a shoe means, honest leather, honest workmanship, long wear and comfort.
It is on this foundation that we have built the largest business of its kind in the Dominion.
You want an honestly made shoe, that will give you service and satisfaction for your money. Ask your dealer to show you the new spring and summer styles in the "Ames Holden" or the "McCready" brand of shoes.

VERY CLEVER GIRL (Frederick Geare)
When Miss Alice Toner received a first certificate at the public closing exercises at St. Dunstan's school this morning she completed a record which so far as known, has never been equaled in this city, if in New Brunswick. Today this young lady completed her eighth year in the Fredericton public schools and for each one of the sixteen terms she has been attending school she has won a first certificate, the highest honor which could possibly be attained. She led her class again during the past term her marks being 996 out of a possible 1000, thus showing a remarkable high average.

THE AUTOMOBILE MEN DISCUSS THE ROADS
Disatisfaction regarding the condition of parts of the roads in St. John and neighboring counties was expressed last evening at a meeting of the New Brunswick Automobile Association in their new quarters in the Manor House, Glen Falls. Members who had been out in their cars on Dominion Day and other days recently described stretches of road which needed immediate attention, besides speaking well of an occasional piece of roadway where an endeavor had been made to rectify the failures elsewhere. A hearty vote of thanks was tendered to J. A. Pulp for his kindness in placing rooms in the Manor House at the disposal of the association, to be used as the official quarters in the future.

Ford Touring Car Price \$590
Prices of Ford spare parts have been reduced an average of ten percent. A Ford touring car may now be bought, part by part, for but \$38.87 more than the price of the car ready to run. Another big slice off the "after cost" of motoring.
Buyers of Ford cars will share in our profits if we sell 30,000 cars between August 1, 1914 and August 1, 1915.
Runabout \$540. Town Car \$540. F. O. B. Ford, Ontario, with all equipment, including electric headlights. Cars on display and sale at St. John Branch, Phone 2306.

ANTIPON IN CANADA
SPREADING THE FAME OF THE BRITISH SPECIFIC FOR RAPID FAT-REDUCTION
The burden of obesity is so distressing and so unprepossessing, and is generally so difficult to get rid of with any degree of permanance, that the introduction to Canada of the famous British Specific Antipon will be welcome in many quarters. The preparation is unknown here already, but the obstacles in the way of its supply to the general public were necessarily great. All difficulties are now removed.
The important discovery of Antipon, the treatment usually employed for the reduction of weight included starvation dietary rules, sweating and purging together with mineral drugging. All these things are weakening in the extreme, and, when obstinately persisted in, ruinous to the constitution. Antipon is diametrically opposed to such drastic methods.
To expel the superfluous fatty matter from the system is all very well, but the body must be amply nourished at the same time. Now, Antipon not only rapidly eliminates the excess of fat, but overcomes the unfortunate tendency to "run to fat." Ample wholesome food therefore becomes. Antipon's strength-giving ally, and there is no need to dread that the extra nourishment taken will bring about a re-development of excessive fatty tissue.
Every dose of Antipon is a sure step in the direction of the recovery of energy of form and vigorous nervous energy.
The decrease of weight is not a tedious process. Within twenty-four hours of the first dose there is a reduction varying, according to individual conditions, between eight ounces to three pounds. The scales will be the unerring recorder. The daily increase is eminently satisfactory. When normal weight and symmetrical proportions are regained the treatment is no longer necessary.
Antipon contains only the most harmless vegetable substances in solution, the liquid being in appearance like a light red wine. It is palatable, refreshing and slightly laxative, and never occasions any unpleasant reactionary effects.
Antipon can be obtained at all drug stores, from stock or order, or, in case of any difficulty, a large case will be forwarded direct from the Antipon Laboratories, Store street, London, W. C. Eng. carriage paid, on receipt of remittance for \$5 and

The Cabaret Scene in the Big Musical Treat to be presented by Empire Musical Comedy Co. at the Opera House Monday, Tuesday and Wednesday.

The title of the musical comedy to be offered Monday, Tuesday and Wednesday at the Empire Musical Comedy Co., at the Opera House—"Tazy at the New York Winter Garden," is suggestive of good entertainment. It was a lot of fun when he went to New York; the audience will have a lot more fun when he tells them all about it next Monday night. He will be assisted by Dick Stead, who will offer more of those original songs. The company consists of: Frank and Marshall Murray; Dave Harris; dainty Marie Gerard; Rich Covey; Gene Sweet; Beatrice Miller.

WHY NOT ST. JOHN?

Remington Arms Company to Build \$7,000,000 Factory in Canada

—Report Says at Halifax or Montreal

Niagara, Falls, Ont., July 3—William H. Webster, Chicago, who is here attending the annual summer meeting of the National Association of Brass Manufacturers, said that the Remington Arms Co. will soon start on the erection of a \$7,000,000 plant in Canada for the manufacturing of arms and ammunition for the allies. Mr. Webster would not say where the factory would be built but it is thought that either Halifax or Montreal will be the site.

Mr. Webster said the brass manufacturers faced a serious situation on account of the scarcity of spelter. The war has cut off the supply of spelter and copper from Europe. These materials are used largely in manufacturing munitions for the war.

SOME STRANGE RESULTS FROM SHOT AND SHELL

Man Gives a Permanent Part For His Hair by a Bullet

London, June 14.—(Correspondence)—Many interesting stories have been reported since the beginning of the war are told.

Second Officer Harper of the British ship Harpoon, torpedoed by a German submarine off Beachy Head, describes the attack on his ship while it was proceeding down the channel at a rate of about eleven knots. "We had just set down to tea," he said, "and the chief engineer was saying grace according to our custom. He had just uttered the words: 'For what we are about to receive may the Lord make us truly thankful when there came an awful crash. It was the torpedo'.

A photograph from the front in which a man whose hair was nearly parted by a bullet in the center, with the art and exactitude of a hairdresser.

RECENT DEATHS

Miss Eliza Philips.

The death of Eliza Philips, daughter of the late Thomas and Elizabeth Philips, occurred yesterday at her residence, 24 Wellington Row. The deceased was in her 88th year. She leaves, besides her husband, two sons and two daughters, and a prominent member of the Congregational church. Four nephews and two nieces survive.

The funeral will take place this afternoon at 2.30 from her late residence.

A WOUNDED OFFICER

Lieut. Chester Butler, of London Ont., who was shot through both legs.

THE PERFECT PIE

(By Peter McArthur.)

Probably no dish that ever appeared on our tables has caused so much conversation as the pie—and I do not mean by that I suggest the connection between heartburn and indigestion. The pie with the hunting case crust has eclipsed many a lonesome pie. The unseasoned pie has been the unchartered rock on the sea of matrimony, the slough of despond on the straight and narrow path. But the good pie, the perfect pie, has been from time immemorial the peace-maker, the healer of lovers' quarrels. The great outstanding fact of marriage life is that man wants pie! As Scott did not exactly say:

There is a man with soul so dead
Who never to his wife hath said,
"I wish that you would learn to bake
Pie like my mother used to make."

But I have known a man to do even worse than that! I have known a man to say to his wife, "I wish you could make pies like your mother used to make!" In that way he rebuked her and made friends with his mother-in-law, a feat of diplomacy never achieved in the annals of Europe.

But the question has been raised, "What kind of pie was it that your mother used to make?" What was her masterpiece?

There is no need of any dispute on the subject. Just tell your wife what those old-fashioned pie-making mothers used to say when they were engaged in the grandchild on her knee:

DRAMA, COMEDY, ROMANCE

Variety of Photoplays, Pleading and Attractive at the Gem Today

A strong programme of drama, romance and comedy was presented at the Gem Theatre yesterday for the week-end, headed by another chapter in the fascinating serial "Road of Strife." The installment was entitled "The Face of Fear," and aroused interest. These were many exciting, thrilling moments in its unfolding. The Selig players appeared in a pretty well animal story "Love and Leopards" while the Essanay comedians had full sway in a side-splitting farce "Swedie's Hair," which evoked much local "merriment."

An old favorite with local "movie" followers, Maurice Costello, was again in the Gem yesterday, playing the role of a big-hearted, good-natured detective in "The Heart of Jim Brice." The story was pleasing and attractive and was given convincing air by the finished acting of Mr. Costello. This bill will be repeated today, while on Monday "The Profigate," a three-part Essanay feature will be the head-liner.

THE PROFIGATE

Essanay Three Part Feature: "Exploits of Elaine"; "Read or Stride"; "Gem Next Week"

The opening bill at the Gem Theatre on Monday and Tuesday next will be featured by a three-part drama, "The Profigate," a three-act drama of unusual power and interest, with a capable cast of popular players. There will be some good comedy in addition.

The mid-week show will have the third installment of "The Exploits of Elaine," this one being another drama of mystery and adventure, "The Vanishing Jewels." Have you yet any clue to the identity of the "Clutching Hand" who is the thief in the story? It will be in two reels, there will be the interesting budget of new news in the Pathé Gazette, and a rollicking comedy.

The week-end show will have another installment in "Road of Strife" entitled "The Silver Cup," accompanied by other pictures. Both these new serials are proving popular and already many are following them from week to week.

PATRICIA SERGEANT

SAVED THE SITUATION

Got Through With Vital Despatch and Brought up Reinforcements Himself

London, July 3.—A member of the Princess Patricia's, signing himself "One of those left," writes The Times to call attention to Sergeant Cook's gallantry during the fierce fighting in May. This man writes, "I reserve the greatest honor for his unflinching and conspicuous gallantry during the whole of the fighting. He was a fine soldier and was chiefly owing to his coolness and indomitable pluck that Lieutenant Niven, after Major Gault, D. S. O., had been knocked out, was able to save the entire position. It was Sgt. Cook who got a vital despatch for reinforcements and brought them up when volunteers were called for this perilous task."

COUNTRY BEFORE PARTY IN CANADA

And very at present feeling. From the very first Canada was heart and soul in the struggle, but never with the tremendous seriousness of now, and never with so unswerving confidence of absolute triumph as today. A great nation running amuck and with her allies even in the "Unspeakable Turkey," a massacre,—and the entire world every vestige of sympathy from the neutral powers, cannot but be broken in. The cost of the opposing forces is terrible, and Canada has had her baptism of blood, but she is ready to pay the price and will emerge from the conflict a better Canada. She will stand in a world which has learned the lesson of peace that she has sought long to know in learning no more. Her many diverse peoples, through a sense of duty, are supporting these noble feelings. Not only there are other than kindly feelings toward the German and Austrian people as a whole. Our quarrel is not with them as a people. When the rage and fury of the war is over, they will have time to think, and in no future day will they come again to find land which so many of their own countrymen now love so well.

In the meantime the very furnace, seven times heated in a common cause with our allied forces, will give new intensity to the "Melting Pot" which the dominion has come to be. Her varied peoples, welded by a common suffering, joined in the oneness of conflict, will be indissolubly united in the pathways of peace, as together they make a more prosperous and better Canada. And more there has been the burning of party motto and strife of a type never to be resurrected. In the old Liberal and Unionist, Nationalist and Labor are one in the struggle. A coalition government of the strongest of the best is at the nation's helm. In Canada we have something of the same attitude in the opposition abstaining from all undue criticism, and responding with their best in co-operation and counsel. In the usual course of events, too, a general election would be near hand and such a veteran ex-premier might have welcomed this but for the war, he now says: "No, I shall not seek the door of office with the key of blood. Shoulder to shoulder, heart to heart, the two party leaders stand. It is not party but country first, and with this splendid union of parties and of peoples, the Canada to be will be lifted high above the Canada that has been.—From "The War Spirit in Canada," by J. P. Gerrie, in the American Review of Reviews for July.

ARCHBISHOP WANTS A CHRISTIAN ANTIDOTE FOR "GOTT STRAFE ENGLAND"

London, July 3.—England needs short, ejaculatory prayers as a Christian antidote to the German "Gott Strafe England" (God punish England), said the Archbishop of Canterbury at a public meeting here. "We should like to retort to the Germans by some genuine Christian expression," said the archbishop. He also expressed that women inaugurate a continuous chain of prayer from eight o'clock in the morning until eight in the evening.

FIFTEEN FRENCHMEN GOT AWAY FROM GERMAN PRISON
Paris, June 10—M. Jaquet, a steel worker, of Longway, with fifteen companions, has returned to France by way of Switzerland, having escaped from a German prison after nine months of captivity.

There were seventeen in the party that broke out of the civilian prison camp at Restall and made their way to Switzerland through the Black Forest. Two of them died of fatigue and privation on the way.

Other goods are promised by W. H. Thorne Ltd., D. F. Brown & Co., Ltd., Donald Bros., Hamu Bros., Bigelow & Hood, F. McCaw, W. & K. Pedersen and A. Shand (flowers). D. McArthur donated a handsome clock as a prize.

W. F. GARLAND ANNOUNCES RETIREMENT FROM POLITICS
W. F. Garland, Conservative M. P. for Carleton, Ont., who was proved to have profited by a war contract for druggists supplies at excessive prices, through the agency of his clerk, Powell, announced in Ottawa yesterday that he had decided to retire to private life and would not again be a candidate for office. It is reported that his resignation has been forwarded already to the speaker of the house.

DR. THOMAS WALKER ON NEW WAR HOSPITAL COMMISSION
A new Hospital Commission has been appointed by the federal government to care for the Canadian sick and wounded returning from the front and the provision and equipment of hospitals and convalescent homes. Senator Loughheed, R. C., is chairman, and the members include Dr. Thomas Walker of St. John and John E. McLennan of Sydney, N. S.

GIRL KILLED, COMPANION FATALLY HURT AT ANDOVER

Fredericton, N. B., July 2.—E. H. Allen has received a letter from his son, Sergt. E. Drury Allen, announcing his safe arrival at Shoreville. Sergeant Allen is a civil engineer by profession, and for some years has been filling an important position with a contracting firm in British Columbia. He served in the Boer war with the Canadian Mounted Rifles.

Mrs. Geneva Johnson was instantly killed and Patrick Hefferman was fatally injured in Andover last evening when Mr. Hefferman lost control of his automobile and plunged over a twenty-five foot embankment striking against a tree. Miss Johnson was twenty-one years of age and was employed in a drug store in Perth.

ARE BOOMING THE MARITIME PROVINCES

Eastern S. S. Company and Yarmouth Line Offering Six Free Trips, All Expenses Included

To encourage travel this season and create an interest throughout New England in the maritime provinces, these companies are advertising throughout the six New England states six free round trips to the provinces to persons sending in the largest number of names with bona fide addresses of persons now living in New England formerly from the maritime provinces and Newfoundland.

The free trips will be from Boston to the Yarmouth Line and three via the International Line. The two largest lists will secure free trips covering the three provinces and visits to the cities of Halifax, Sydney, Charlottetown and St. John, etc.; the second winners to Yarmouth, Digby, Wolfville, Halifax and return and the third largest a free trip to Yarmouth, Digby and return.

The lists will be received up to noon of August 17 next and must be alphabetically arranged. The lists for tours via Yarmouth must include only names and addresses of persons formerly from Nova Scotia, Cape Breton and Newfoundland and lists for tours via International Line names and addresses of persons formerly from New Brunswick and Prince Edward Island.

The companies offering the free tours expect to compile a mailing list of 50,000 names and later in the season these lists will be used to boost the sale of apples from the provinces among the tens of thousands of Canadians now living in New England. The slogan will be "Buy a barrel of Nova Scotia apples." Following the same plan as was adopted so successfully in the south in the last year "Buy a bale of cotton." This will interest and help the apple growers of the provinces.

OLD TIME SPORT Galanaugh's Race With Harry Vail on Kennebecasis UNSATISFACTORY ENDING

On Thursday, October 4, Daniel Galanaugh of the Kennebecasis river, Dan scarcely reached the wharf than he struck out for Portland in quest of a quiet life. A few days he would walk down Long Wharf in visit of a place to house his boat, and while there looked for the water as it was near the place where he spends his boyhood days. He was a boat builder by trade and the shell in which he was to row Vail.

The long looked for race was to have taken place on the Kennebecasis river on October 20, but owing to rough water had to be postponed until Friday, October 26. On that day only a few people went out to Riverside to witness the event, as they feared the weather would permit the race.

At ten minutes after four o'clock referee John Walden had been watching the water, ordered the men to get ready. Galanaugh won the toss and chose the inside post as his own water, secured Dan, Connolly as his judge at the start, and A. T. Moore to fill the same position at the start. His own water presented Vail at the start and M. Sullivan at the turn.

Galanaugh was the first to put in an appearance. He entered his boat at Appleton wharf and rowed to the starting point. Galanaugh was in the lead from the start and was greeted with cheers as he rowed for the starting point.

The Man In The Street

Summer weather at last? Makes one think that vacation time really has arrived.

Now watch the scramble for dates when the boss and entire staff want their holidays at the same time.

Dominion Day seems to be the beginning of summer in this climate.

As a public holiday, July 1 was all right, but how many fishing stories did you have to listen to yesterday without any corroborative evidence being offered?

The license clerk reports there are two dogs named Kaiser in this city; rather rough on the dogs.

On the other hand, not knowing their breed, we cannot say how hard it is on the Kaiser.

But Are They?

If both city and company are as well satisfied with the court decision as they say they are the next street repair job should be marked by a love feast instead of a civil war.

Orville Wright's religion will not let him consider a job directing the British aerial fleet; wonder if it keeps him from taking his share of the royalty on the air craft sold for his purposes.

A Study for Ornithologists

Standard society notes: "Automobiles were seen flying along in Hampton, strange what things take to flight in these progressive times, but this shows the necessity of every citizen being an expert mechanic. It is also safer to fly than motor on the Hampton road.

Another "white hope" gone—man died in St. Thomas, Ont., yesterday, weighing 200 pounds, and measuring nine feet about his waist.

What would he have insured an arm for when Jess Willard has his insured for \$100,000?

German apologist writes: "My countrymen are deep thinkers." Yes, deep sea thinkers, in the matter of torpedoing innocents.

And some there are who think their thoughts are derived from a very deep and bottomless pit, name unnecessary.

Curios For Future Years

Commissioner Potts intends to have parts of roadway between Douglas avenue and Indiantown photographed. Any machine which could stand for a picture of such a stretch as this could be used to good advantage on the firing line.

Many an auto driver will want one of those pictures to show to friends, proving what a clever rough-rider he has been to go over that roadway safely.

Meanwhile, taking photographs of the road will not make it any easier to drive over.

Who's Next?

Garland, Tony P. brought into the limelight through the war-supplies activities, has retired to private life. Now, he held only kept that \$8,000 marked on Red Cross dressings, etc. Think what a handsome addition he could have made to the soda fountain in his drug store!

BROTHER OF ST. JOHN POLICEMAN

WINNER OF V. C.

Corporal Wilfred Fuller Gains Highest Honor Which Comes to British Soldier

Here is shown a picture of Corporal Wilfred Fuller, who won the Victoria Cross by a brilliant exploit at the battle of Neuve Chapelle, when he captured a body of Germans single handed. He is a brother of policeman George Fuller of this city.

Corporal Fuller is a member of the Grenadier Guards and has been on active service since the outbreak of the war. After his wonderful achievement he was awarded the Victoria Cross, and also was sent to assist in the great recruiting campaign throughout England.

A cut in an English paper shows him standing on an elevated platform, with the Duchess of Portland on his right and the mayor of Portland on his left. In addition to being famous for having won military honors, he is also well known in athletic circles, having in his possession several medals which he captured in running races.

DEATH OF MRS. J. R. WHITE

News which came from Boston this week brought sorrow to many St. John homes. It told of the death of Mrs. Nancy White (nee Shea) widow of J. R. White of Boston. She had long suffered, but even that could not mar the gentleness of her manner or her whole-souled geniality. She had visited St. John almost every summer and numbered many warm friends here. Mrs. White died on June 28 and her funeral took place on the 30th.

DONNER-CROCKETT

In St. Mary's church on Wednesday evening Harry S. Donner of West St. John and Miss Annie J. Crockett, formerly of Scotland and recently of St. John, were united in marriage by Ven. Archdeacon Raymond, D. D. The bride looked charming in a traveling suit of white serge. After a wedding trip via the New Brunswick Southern Railway Mr. and Mrs. Donner will reside in Horsfield street.

THE VICTORIOUS ROVERS.

On the Barrack Square last evening the Portland Rovers defeated the Victorias in a double header; the score was first game, 8-1; second game, 1-0. The batteries were—for winners in both games, T. Logan and B. Latham, and for the losers, McCullough and Harding. The Rovers have won eighteen straight games and have lost but one. Any junior team in the city wishing to play the Rovers are invited to challenge through the Times, stating the time and place.

WEATHER HAS LOST BIRD LIFE TO THE PROVINCE

The backward weather since the opening of the summer months has meant a loss to the province in bird life. With the first coming of fine weather some time ago, feathered strangers to these parts were noticed along the coast. They would probably have stayed for the warmer months had the weather remained favorable, but coolness of the air and heavy rains caused their death in hundreds. Very many of them were insectivorous birds, and in consequence of the weather causing no insects to be about, they were deprived of sustenance, and if they were not able to get away from the country, died of starvation.

There are still in different parts of the province, however, birds which withstand the rigors of the weather so telling upon many of their kind, that migratory birds who thrive in the finest of weather. It has been said that several newcomers have been seen, but up to the present no definite knowledge of them has been had by local ornithologists. It has also been said that the European war has driven some of the larger birds from the continent across the ocean, but this is not credited here.

A. Gordon Leavitt, speaking of the matter, said that he had seen some scarlet tanagers in some parts of the province this summer. While they were not new to the New Brunswick woods, they were quite new to him. He has not noticed any other birds which could be classed as unusual visitors, but there might be some in other parts of the province where he had not been.

LIEUT. ED. MOONEY IS HELPING ATHLETICS AMONG VALCARTIER MEN

There is plenty of good, hard work for the soldiers at Valcartier but there is time also for considerable enjoyment. G. W. Padee of West St. John, with the 6th C. M. R., who is home on furlough, says that the men are enjoying thoroughly both work and play. The mounted rifles include in the ranks a large number of athletes and in the various sports which have been held have made a good showing. They have one of the best ball teams in camp and have shown up well in contests with the representatives of other battalions.

Lieut. Edward Mooney of St. John has taken a strong interest in the promotion of sports among the men and takes a hand himself. He plays third base with the ball team. Arrangements are being made for a boxing match between him and an Upper Canadian officer.
