Hungarian Government Falls; Chaos in Capital

Pressure of Roumanian Troops Causes Resignation — Soviets Force Reported Beaten — Social Democrats May Gain Control

Amsterdam, April 22—The Hungarian government headed by Bela Kun has resigned under pressure of Roumanian troops, according to a despatch to the Central News from Vienna quoting reports received in that city by a special mail from Budapest.

It is reported that Czech forces have joined the Roumanians and have defeated the Hungarian Soviet troops. It is said that a Social Democratic regime headed by Sigmund Kunfi, present commissary of education, may succeed to control in Budapest.

Situation on Sunday. Budapest, April 20—The Red Guards have been provided with hand grenades and efforts are being made to intensify the discipline of the people here. Description has been proclaimed, surcharging the atmosphere with uneasiness.

Trapped in Burning Airplane; Five Die. Andover, England, April 22—Five members of the crew of a big Handley-Page airplane were burned to death early today when the machine crashed to the earth as the result of an accident at the airfield at Neyhill, near here.

PARLIAMENT TO RESUME WORK THIS AFTERNOON. Ottawa, April 22—Parliament will resume its deliberations this afternoon, but it is not anticipated that, for a few days at least, there will be any important developments in regard to the tariff, the dominion franchise act or other measures which remain to be considered.

FRANCE TO BE FACTOR IN STEEL INDUSTRY. Tremendous Task Ahead. Thought to Overcome Devilish Work of Germans. Washington, April 22—Distraction wrought by the Germans in Northern France was so systematic and diabolical that it will require five years to rehabilitate the coal, iron and steel industry and from twelve to fifteen years to return the mines and mills to normal output, according to a preliminary report by Frank H. Probert, consulting engineer of the bureau of foreign affairs, which was recently returned from Europe.

YOUNG WIFE HELD BY POLICE ON FINDING OF BODY OF HUSBAND. Boston, April 22—An investigation of shots in a Columbus avenue lodging house led to the discovery of the body of Eugene L. Fisher, formerly of Lewiston, Maine, early today. His wife, Mrs. Marie O. Fisher, was held by the police on the charge of murder.

WEATHER REPORT. Issued by Authority of the Department of Marine and Fisheries, R. F. Stur, director of meteorological service. Synopsis—The weather is fine throughout Canada except in eastern Nova Scotia where heavy rain is falling in connection with an Atlantic storm moving northward towards Newfoundland.

REVOLUTION IN TURKEY. A SOVIET GOVERNMENT

Red Committee Established in Constantinople—Martial Law in Gujerat District of India. Paris, April 22—A revolution has broken out in Turkey and a Soviet government has been declared. A revolutionary committee has been established at Constantinople, according to a telegram received here from Kiev, quoting the Bolshevik representative at Odessa, who says that the Turkish consul there has received official announcement of the change of the government.

THE TROUBLE IN INDIA. Simla, Sunday, April 20—Martial law has been proclaimed in the Gujerat district. Disorders in Lahore and in the district north of Bombay have led to the declaration of martial law in several localities. Gujerat is in the northern part of the Bombay presidency, its principal cities being Surat, Ahmedabad and Baroda. It has a population of more than 9,000,000.

CROIX DE GUERRE FOR 26TH MAN. THE D. J. PURDY TO PAY HALF DAMAGES. Decision of Admiralty Court in Case Arising Out of River Collision. In the admiralty court this morning Chief Justice Hazen gave judgment in the case of S. S. Premier vs. S. S. D. J. Purdy. This was an action of the S. S. Premier vs. the S. S. D. J. Purdy for damages resulting from collision on the Long Island side and when passing the D. J. Purdy the latter came across and collided with the Premier.

BODIES OF SISTERS BROUGHT HOME HERE. Misses Sarah and Mary McCluskey, Who Died in New York. On today's Boston train the bodies of Sarah and Mary McCluskey were brought to the city for interment in the old Catholic cemetery, which solemn ceremonies were performed later in the afternoon. The bodies were accompanied by R. Barter, executor of the aged ladies' estate. The Misses McCluskey will be remembered by older residents as the daughters of Richard McCluskey, who at one time had a comfortable farmstead on the Millidgeville Road near the Newmarket Brook, and later conducted a business in a brick building foot of Main Street now occupied by the N. W. Brennan undertaking business. After the death of Mr. McCluskey the daughters went to New York where they conducted a first class goods business and later a fashionable dressmaking establishment until increasing years stopped their activities. They were located in Amsterdam Avenue in the Bronx district, and were well-to-do and highly respected residents. Miss Mary McCluskey died on last Sunday and Miss Sarah some months ago.

CIRCUIT COURT. The resumed sitting of the circuit court took place this morning with His Honor Chief Justice McKeown presiding. No business was taken up, but several cases were set down for hearing. The case of Teed vs. Cohen was fixed for next Friday, the case of Wilson vs. Wilson for May 14, and the case of Curdy vs. Baker for May 16. The Carleton murder trial will be taken up on April 29.

ATHLETIC EXHIBITION. An athletic exhibition will be held in the Y. M. C. L. building soon, under the auspices of the Knights of Columbus Catholic Army Huts. Among those to take part will be Burns, Boudreau, Irving, McIntyre, Barrett, Rogers, Penny, McManus, King, Fraser, Friers, Sharkey and Tracey. All military and naval men, as well as returned soldiers are to be invited. There will be no admission fee. It is planned to make the meet one of the best that local talent can produce, and preparations are now under way to this end.

MANY ON BOARD. The Minnedosa will sail today with about 1,000 passengers. There are two conducting staffs on board, one under Major H. W. Linton and the other under Major C. H. Wetmore, eighteen officers and twelve N. C. O's in all.

Italians Are Much Put Out

ST. JOHN DOES BETTER TODAY IN WELCOMING SOLDIERS HOME. Men From Olympic Given a Cheering Reception. THROUG AT THE DEPOT. Welcoming Crowds in Flag-Becked Streets Shout Gladness of People on Safe Return of Brave Lads From War

What was undoubtedly the largest reception given returning men at the depot here since the armistice was signed was given to soldiers who arrived this morning at 9:30 on a special train from Halifax. A large crowd was on hand to greet the boys. The people began to gather about nine o'clock, and from then till the arrival of the train a continual rush of people passed through the front doors of the station out to the shed. When the train pulled into the depot, the Depot Battalion Band played "O Canada." From the time the train came in sight till the soldiers were marching around the center of Sydney street at the head of King Square on their way to the armories, continuous cheers were kept up.

THE TRADITIONAL FRIENDSHIP BETWEEN ENGLAND AND ITALY, JUDGING FROM THE ALTITUDE OF THE PRESS, NO LONGER EXISTS. In fact, not only have the Italians discovered British atrocities in Ireland, India and Egypt and started commenting on them unfavorably, but long editorials are published daily, evidently with the tacit approval of the government, explaining the difficulties in the way of the establishment of commercial relations between Italy and Germany have, in a great measure been removed.

WILSON HOLDS TO THE LEAGUE. Washington, April 22—Administration officials were advised in a confidential cablegram from Paris today that in the consideration of problems confronting the peace conference, such as Italy's Adriatic claims and the question of an alliance to protect France from future aggression, President Wilson would take no action which might in the slightest degree jeopardize the league of nations or conflict with its fundamental principles.

READY TO TAKE VOTE. Berlin, April 20—(By the Associated Press)—Apparatus for an election, such as voting booths, lists and clerks, are all in readiness for an immediate plebiscite on the peace terms which can be completed all over Germany in forty-eight hours, according to information secured from sources close to the government.

ORLANDO ABSENT. Paris, April 22—Vittorio Orlando, Italian premier, was absent this morning when deliberations were resumed by the Council of Four, Premiers Lloyd George and Clemenceau and President Wilson were present. The meeting was held at the latter's residence.

SOUND FIRE ALARM WHEN TROOP TRAINS ARE GOING TO CITY. Chas. Robinson, secretary of the Returned Soldiers' Commission, has asked to arrange for sounding the fire alarm whistle to notify the people when a troop train is nearing the city and thus ensure a big turn-out to welcome the boys. It is understood that Mr. Thornton will do so. The plan will be, some thirty minutes before the train is due, to sound the alarm, ten or twelve times at minute or two intervals. Mr. Robinson also proposes to ask that the Sugar Refinery, Carleton elevator and Murray & Gregory mill whistles be sounded to notify the people in those parts of the city. The motion picture house proprietors will be asked to use slides explaining this.

BECAME STOWAWAYS TO GET BACK HOME TO CANADA'S SHORES. Two men were charged with being stowaways on the S. S. Minnedosa on her recent trip from Liverpool. It was found that they were returned soldiers and were trying to get back to Canada, and they took this means for doing so. It was found necessary under the law to fine them as it provides in the act, 220. They will pay as soon as they receive their checks in the war gratuity.

CRITICIZE ENGLAND AND THE U. S. MUCH ILL-FEELING. Papers Give Expression to Sentiment—Orlando Absent Today From Meeting of the Council of Four—Peace Matters. London, April 22—A despatch to the Daily News from Rome says: There is a great deal of ill-feeling in Italy against England and America because of their opposition to Italy's Dalmatian claims. President Wilson gets most of the blame because he is reported to have refused the demand that Fiume should be assigned to Italy, so called the conclusions of peace and contributed to the failure of the league of nations, by trying to reconcile it with the Monroe doctrine.

LARGER BENEFACTIONS TO UNIVERSITY OF TORONTO

Sir John and Lady Eaton have announced to the board of governors of the University of Toronto that they will make a gift to the university of \$25,000 for the next twenty years, to be devoted to the maintenance of the department of medicine at the University of Toronto, it being understood that this amount is to be additional to what has hitherto been spent by the university on that department. One condition of the gift is that a professor is to be appointed who will give half his time to the organization and oversight of the department of medicine. Another condition is that the department of pediatrics is to be developed by the appointment of a person who will give half his time to the duties of the department and the other half to the department of pediatrics. It is expected that as a result of this magnificent gift the faculty of medicine of the University of Toronto will be placed in the forefront among those on this continent.

The University of Toronto has received two very important gifts from the University of Toronto. Two years ago the Connaught laboratories were given to the university by Colonel Albert E. Gooderham. These laboratories, which are situated on a farm of fifty-eight acres, have been entirely erected through the generosity of Colonel Gooderham. By reason of this gift the university has been enabled to supply the sera and antitoxins which have recently been distributed free by the government.

A few years ago the Household Science building, one of the finest and best equipped to be found anywhere, was presented to the university by Mrs. Massey Treble, and at her death the university received a bequest of \$100,000 for the maintenance of that department.

"Hart House, which is to be opened in the autumn, is the gift of the Massey estate. This magnificent group of buildings, unique in design and purpose, is to be devoted to the activities of the men students of the university.

For four years Mrs. H. D. Warren paid the salary of the director of the social service department of the university.

For the past four years graduate fellowships amounting to \$2,000 a year, most of them held by students coming to the university from the other provinces of Canada, have been given by Sir Edmund Osler, Sir Joseph Flavelle and Mrs. J. H. Flavelle.

A few years ago for a period of five years a sum of between \$10,000 and \$15,000 a year was given to the university by a number of gentlemen for the purpose of developing medical research.

In 1915 a legacy was received from the E. C. Walker estate amounting to \$25,000 toward the erection of a men's residence in the university.

There has also been a large number of scholarships of smaller amounts given to the university which have been announced from time to time. In addition to these direct gifts to the university, mention should be made of the Royal Ontario Museum, which is under the joint control of the government and the university. Most of the exhibits of this museum, the cost of which has been several hundreds of thousands of dollars, have been paid for by Toronto citizens.

This list of larger benefactions is a proof, though the University of Toronto is a small university, that it has many great friends.

BUTTER PROFITTEERING.

(Brookville Recorder.) The butter situation in so far as the consumer is concerned is growing intolerable. The price of butter has now reached 67 cents per pound. Present indications are that it may go higher. The question arises why does the government allow such a price? There is something amiss and some authorities are remiss in public duty. For according to a statement of the cost of living bureau the price of butter in 1918 was 70.870 pounds. The quantity of dairy butter in storage was 426,092 pounds. The percentage of creamery butter in storage was 47.67 higher than the same date in 1918. Butter started to advance in price after the 1st of April, and has now reached 67 cents per pound. THE CITY'S PROPERTY IN LANCASTER

Recommendations of the Town Planning Commission Presented Commissioners by Mr. Bullock

Urging upon the other members of common council the need for prompt action with reference to the city land and the proposals to divide building lots and place the lots in the market, Commissioner Bullock has filed with the city a copy of the solution adopted by the St. John Planning Commission. The recommendations of the commission are as follows:—

1.—That the plan submitted by Adams, town planning adviser to the commission, be approved for submission of Conservation for the city and that the city should acquire the land belonging to the St. John, and situated in the Lancaster between the Manish road and Dever street, so-called, hereby approved and recommended by the city council for adoption as the plan for that area.

between the holders of two adjoining lots, double houses may be erected with a party wall on the boundary line between the two lots.

9.—No building to be erected on any lot until the design and elevation of such building has been submitted to an architect to be appointed by the city council and approved by him, or unless in accordance with standard plans adopted by the council.

10.—No dwellings shall be erected on any of the lots numbered one to thirty-nine, the cost of which shall be less than \$8,000 on the lots numbered — to — the cost of which shall be less than \$4,000; on the lots numbered — to — \$8,000, or on the lots numbered — to — the cost of which shall be less than \$2,000. Provided that the council in its discretion may, at any time, vary the minimum cost at which buildings may be erected in any one of the four groups of lots above specified in accordance with any variation which may take place in the cost of materials and labor as compared with present conditions. In making such variation the council will endeavor to fix the minimum costs so as to correspond with the ration between the above figures and the present cost of materials and labor.

11.—No board fence or wall of a greater height than four feet six inches to be erected on the boundary or any part of any lot nearer to the front of the lot than the rear line of the open dwellings on the same or adjoining lots. No fence except an open ornamental fence not more than four feet high to be erected nearer to the front line of any lot than the rear line of dwellings of the same or adjoining lots.

12.—No outside privy to be erected on any lot, but until sewerage has been provided, separate tanks subject to the approval of the Board of Health may be constructed for the receipts of house sewage.

13.—Lots to be sold or leased subject to the bona fide intention of the purchaser to build thereon, and upon the condition that the title to any lot so sold will revert to the city and the amount paid thereon be refunded, less interest and taxes, if no dwelling in compliance with conditions has been erected within the stated time.

14.—No owner shall erect any billboard or other structure for purpose of public advertising on any lot, except notices for the purpose of selling, leasing, or renting lots or buildings.

15.—On the lots reserved for shops, stores, apartments, and public buildings, the proportion of the land to be occupied by such buildings shall not exceed 60 per cent. of the lot, including the parts of the lot occupied by stables, garages, and other out-buildings.

RUSSIA'S PROPOSAL

Washington, April 21.—The Russian embassy here made public today the outline of the plan presented to the peace conference by Russian representatives at Paris to solve the Russian problem. It asks recognition as a de facto of all national authorities who are inspired by "democratic ideals and the support of the population," pending the setting up of a federation of Russian states.

Prince Lvov, 'Schaikovsky, Sazonoff and Maklakov signed the memorandum embodying this programme. Under it the Allies would recognize the Russian boundaries of 1914, except for ethnographical Poland, and would support democratic de facto authorities in their struggle against Bolshevism and anarchy.

The following casualties were issued yesterday: Died: F. J. White, Norton, N. B. Ill: E. W. Kinnear, Scott Road, N. B.

A horse attached to a farmer's wagon backed off a wharf in Union street, West Side, yesterday, and was drowned. The owner, a man named Hudson, escaped. The wagon was saved.

Rev. Mr. Tedford addressed a meeting of the Women's Missionary Society at Exmouth street Methodist church last evening. The Mission Bapd also contributed to the entertainment.

Yesterday morning the Halifax bound Maritime express was wrecked about a mile and a half west of Kent Junction. Some eight cars were derailed. The cars were thrown, in some instances, about forty feet. A broken rail was probably the cause of the wreck.

The Knights of Columbus Easter assembly which was held last night was a great success. The chaperones were Mrs. W. F. Broderick, Mrs. Wm. M. Ryan, Mrs. Henry Regan and Mrs. J. R. Nugent. Mrs. E. P. O'Leary was in charge of the refreshments. Jones' orchestra furnished the music.

A man was in the police court yesterday on a serious charge brought by the Children's Aid Society in the case of a fifteen-year-old girl. K. A. Wilson prosecuted, assisted by Rev. George Scott, agent of the society. Some evidence was taken and the prisoner was remanded until Wednesday afternoon.

In the city hall, Carleton, last evening many enjoyed a concert and athletic exhibition under the auspices of the West Side Athletic Association, which plans a free gymnasium and general physical training course for the boys of the West Side. The proceeds will be devoted to this end.

The Y. W. P. A. entertained some 800 sailors at the Seaman's Institute last evening. Refreshments were served by the ladies with Miss Hannah in charge, and the following programme arranged by Miss Amber Teed was fully enjoyed: Moving pictures, dialogues, Misses Pearce and Fleet's exercises, boys of Wiggins' Orphan Home; cornet solo, Mrs. Pettis; comic recitations, H. Collins of Minnedosa; dance, J. Gimmell of Minnedosa; God Save the King.

British Ministry of Health Bill. London, April 22.—That women should be largely represented on the consultative councils in connection with the ministry of health is the demand put forward by the standing joint committee of industrial women's organizations. Women, they urge, "represent in a peculiar degree the consumers, as it were, of public health services," and in view of the very special claims of women's health, they propose that at least half of the members of such a council should be women, of whom a large number should be working women. It is considered that the food consumers' council might be taken as a model as regards representation of organizations and appointment by the minister.

Ernest F. W. Alexander, consulting engineer of the General Electric Company, says that about Oct. 20 the wireless operator at Brunswick, N. J., sent to Nauen, in Germany, a message in English, from President Wilson, saying that the Allies would enter into no armistice with Germany until after the abdication of the Kaiser and the Hohenzollern dynasty. Thereafter Washington was in almost constant communication with Berlin until the day of the armistice.

The Valcourt Chapter, I. O. O. E., held a very enjoyable dance last evening in the studio. Mrs. F. R. Taylor was convener, Mrs. Kenneth Campbell and Miss Gertrude Fleming were in charge of refreshments; Miss Margaret Patterson arranged the programme. The chaperones were Mrs. Geo. K. McLeod, Mrs. H. B. Robinson and Mrs. M. B. Edwards.

PUNISHMENT IN SCHOOL (Toronto Globe) In presenting a motion to the Board of Education last evening regarding the "moral character" of teachers and principals, Trustee Mrs. Courtice declared that it was "absolutely criminal" the way in which corporal punishment was administered to small boys and girls in the schools. Trustee C. A. B. Brown remarked that the words "moral character" suggested to him that some scandal was coming out, and that Mrs. Courtice had something up her sleeve. Mrs. Courtice said that her purpose was to demand the highest standard of moral character from every individual in the various departments of school life, and that the board should consider this in all new appointments. THE GLORY OF ZEEBRUGGE

On the eve of St. George's Day one year ago men of the British navy performed one of the most daring feats in naval history. The story of Zeebrugge will be told as long as the world remembers heroic deeds in war.

The feeling grows that the demonstration on the arrival of the 26th Battalion should embrace much more than the members of that unit, many of whom saw but little hard fighting because they had been drafted to the battalion near the close of the war, while there are in the city and province or on the way home very many who saw much harder service.

Of the coming tourist season the Bangor Commercial says—"Bar Harbor and the other Maine coast resorts are preparing for the opening of the summer season and one and all are anticipating the best season in years.

THE EUROPEAN OUTLOOK

The news of the last few days would appear to indicate that the influence of Lenin and Trotsky in Russia is losing force. One of today's cables tells us that workmen in Petrograd demand the summoning of the constituent assembly and restoration of the right of private ownership.

In the Ontario town of Penetanguishene on Sunday, in an open field behind the Jesuit church, Catholics and Protestants assembled to celebrate the fourth anniversary of the battle of St. Julien.

Of a recent speech in the Ontario legislature by Sir William Hearst the Toronto Globe says—"The prime minister of Ontario, in commending the referendum bill, painted the benefits of the Ontario Temperance Act in glowing but truthful colors.

A TRIBUTE TO BRITAIN

In view of charges sometimes made that England is actuated solely by selfish motives in her treatment of subject peoples, or any who come under her influence, one reads with pleasure the following tribute by an American missionary to her work in Mesopotamia during the last year or two.

After the first of June carpenters in Toronto will ask seventy-five cents per hour and a week's work will consist of five days of eight hours. At present they work for sixty-five cents an hour for a forty-four-hour week.

LIGHTER VEIN.

"You don't seem elated over your first case." The young lawyer made no reply. "Surely it should be a matter of pride that the man came to you to defend him?" "Dunno. He pleads insanity."—Louisville Courier-Journal. Ethelbert Cholmondeley never allowed himself to lose his temper. His courtesy, too, was proverbial. Therefore, when he was interrupted at the Spita in the middle of his ice pudding by a bouncer trying to steal his overcoat his action was characteristic. He allowed the thief to get to the door and then touched him on the arm apologetically. "Sorry to trouble you," he said, "but would you allow me to get a clear out of my coat pocket, in case I don't see you again?" "Naw—ah! Well, Tommy?" "Where does the lide go when it goes out?" "No use to ask me such questions, son, I can't even tell where your father goes."—Louisville Courier-Journal.

MORE LONDON COMMENT ON WHAT LLOYD GEORGE SAID

London newspapers devoted much editorial comment to Lloyd George's speech in parliament on the international situation. The Morning Post political correspondent says: "It was the universal opinion of the lobby that Lloyd George had never equalled the parliamentary performance of yesterday. The whole array of a past master in oratory was brought into play, and had there been anything to divide about when he sat down, it is doubtful whether any but the most embittered 'wee free,' or the most advanced Labor man would have gone into the opposition lobby."

The Daily News political correspondent says: "The prime minister's speech today was a triumphant success. It was a speech that brought joy to every liberal-minded man. The Labor party, delighted and amazed by its strong democratic flavor, its protest against a peace of vengeance, its anti-militarist note, frequently applauded with the greatest gusto. The majority even of Conservatives seemed to be with him, or were momentarily under the spell."

"A feature of the speech was the attack on Lord Northcliffe. Never in parliamentary history has there been a more terrible castigation. Those passages brought to mind Dryden's merciless satire of Lord Shaftesbury in Absalom and Achitophel, and Junius' indictment of the Duke of Grafton." The Times: "Lloyd George essayed yesterday to give the House of Commons some idea of the manner in which he has been directing the work of the British delegation at the peace conference. He succeeded beyond expectation, and probably far beyond his own intention. Yesterday's performance was by no means inferior in point of dignity, tact, wisdom, and truthfulness to some of his oratorical exploits in Paris."

The Daily Chronicle: "By the general consent of all who heard him, the prime minister scored yesterday one of the greatest parliamentary triumphs of his life. He scored it despite a heavy handicap, with one hand, as it were, tied behind his back."

An Inaudible Sum. Germany's stiffnecked denseness in sensing the necessity for her strict compliance with the first armistice terms

and her brassy indignation at the ones imposed as a penalty for non-compliance of the first make one think banker at Weeping Water, Neb. was asked by an impecunious farm loan. The banker was one of people who are deaf for commerce poses. The farmer was chronically ing to borrow, and his security was ting shaky. "I'd like to borrow five thousand," pleaded the farmer. "The banker cupped his hand to his lame ear and said: 'Speak a little louder and cut the amount.'"—Philadelphia Ledger.

RECENT DEATHS

Mrs. William F. Warren.
Mrs. William F. Warren passed away at noon yesterday after a short illness of pneumonia. Mrs. Warren was formerly Miss Mary Acrom Smith and was fifty-eight years of age. She is survived by her husband, son, Mrs. E. Warren, a daughter, Miss Hilda B. Warren, of this city, a brother, James R. Smith, a sister, Mrs. Fred Morrell, also of this city, and a niece, Mrs. Thomas J. Wilson, of Norwalk (Conn.). Mrs. Warren was highly respected, was a kind and loving wife and mother and the sympathy of many friends is extended to the family in their bereavement.

The funeral will be held from her late residence, 82 Pitt street, tomorrow afternoon at 2:30, Atlantic standard time.

William Snider.
The death of William Snider occurred on Easter Sunday at the residence of his son-in-law, Edmund S. Dibble, C. E. Westmount (Que.). Mr. Snider was well known in St. John in his younger days as a keen sportsman and was a general favorite. He was the second son of the late George Edwin and Mary Drury Snider of this city and leaves to mourn, his wife, one daughter and two grandchildren; also four sisters, Mrs. J. S. MacLaren and Miss Snider, of St. John; Mrs. F. J. Short, of New York, and Mrs. Louis Whitman, of Ottawa, and one brother, Frederick Snider, of New York.

Miss Annie Henry.
Miss Annie Henry, daughter of Mrs. Christina Henry, of Salisbury, died very suddenly yesterday morning. She was attending Mount Allison Ladies' College and was spending the Easter vacation at her home. Miss Henry graduated from Normal school and taught for a short while before entering college. She was twenty-three years of age and besides her mother she leaves to mourn four brothers, Captain I. Stewart Henry, now a student at Oxford University, Oxford, England, and formerly of the High school staff here; Gordon, of Salisbury, and Allan and Willard, at home. Miss Henry was a niece of Mrs. W. A. Simonds of Rockland road.

A. Rankine Bedell.
A. Rankine Bedell, barrister, died yesterday afternoon following a short illness. He was a prominent churchman and held the office of warden, vestryman and vestry clerk of St. George's Anglican church, West Side, for years. He had been librarian of the law library and was a capable and obliging official. In 1868 he was granted permission to act as attorney. About a year later he was admitted to the bar of the supreme court, and practiced as a barrister.

His death was felt with regret by his numerous friends, who mourn the loss of a sterling gentleman and a friend who was ever ready to offer his services or sympathy. Funeral will be held tomorrow at St. George's church, West End, at 2:30 p. m.

Miss Mary H. McAllister.
The death of Miss Mary H. McAllister, sister of Mrs. J. D. Patton, Sussex, after an illness of several months, is announced. She was of sterling character and was well known in Sussex and St. John, where she had nursed many patients.

Mrs. James Edgar died yesterday at her residence in Chatham. She is survived by four sons and five daughters.

Henry M. Eddy of Chatham died on Saturday night. He was aged sixty-nine. His wife and seven children survive.

Robert Leslie Hardwick of Annapolis died on Sunday, aged seventy-eight. He had been stipendiary magistrate.

The death of Asor A. Kay of McKee's Mills, Kent county, occurred yesterday at the home of his son, James F. Kay of Providence, R. I., where he had been visiting. He is survived by his wife. He was a brother of ex-Magistrate James Kay, Moncton.

Hanford W. Fairweather, pioneer banker of Spokane, died on March 31. He was born in Bloomfield, N. B., in 1822. He is survived by his wife, two sons, two daughters, two brothers and two sisters.

Funeral of Otto S. Brown.
The interment of the body of the late Otto S. Brown, who died in Boston (Mass.), on March 22, took place from St. James' church, Lower Jemseg, on

VENDRIEUX, FAMOUS FRENCH AVIATOR, KILLED IN FALL

Paris, April 21.—(Havas)—It was announced at Villacoublais this afternoon that Aviator Jules Vendrieux had fallen about 10:30 o'clock at a place called Les Fouilloz, near the town of St. Rambert-d'Albon, in the department of Drome, on the Rhone river, south of Lyons. Vendrieux and his mechanic were killed and the machine was smashed to pieces. Vendrieux left Villacoublais with the intention of making a non-stop flight to Rome. The airplane he used was built to bombard Berlin and weighed five and a half tons. He had a strong

wind at his back when he left Villacoublais at 8:30 a.m.

It is believed the accident was due to the machine collapsing in the air. The aviators fell from a great height and the death of both of them was instantaneous. The mail sack which Vendrieux was carrying to Rome was found among the debris of the machine.

Vendrieux was always a partisan of speed. He was the first man to fly more than 125 miles an hour. He was a thorough patriot and refused a three million franc engagement several years ago to act as director of a German aviation school.

W. A. Kingsland, assistant general manager of C. G. R., announced that the line between Paines Junction and Truro (113 miles) will be double-tracked this summer.

A New Meaning.
A British officer who has just returned from German East Africa tells an amusing story of Askari recruits whom he was training. Mistakes in the drill were frequent, and, in consequence, "As you were" became an order rapped out with increasing severity of expression. Later the officer overheard a conversation between two natives in the squad. "What does our officer mean by 'As you were'?" inquired one Askari. "'Asuweri,'" replied the other, "is a word the Englishman has invented for when he wants to say 'I am sorry, I have made a mistake.'"

Sixty boys enjoyed three industrial explanatory trips arranged by the Y. M. C. A. yesterday morning. A. M. Gregg conducted the largest party, which visited the sugar refineries; Andrew Malcolm took the boys to the cotton mills, and Robert Somerville had charge of a group that saw the New Brunswick Telephone Company's operating rooms.

were sent to Europe some time ago. The idea was to make a durable garment at the lowest possible price. Several representatives of Canadian textile houses have left recently for England with full lines of samples to secure any trade that may be offering with any of the European countries.

DUTCH SOCIALIST LEADER IN ATTACK ON THE ENTENTE

Amhem, Holland, April 22—"The league of nations is a caricature, and the Entente's enemies are simply being economically annihilated," said Pieter J. Troelstra, Dutch Socialist leader, in addressing the congress of the Socialist Labor party here yesterday. He said the Entente had increased the chance of a revolution in western Europe by the decisions of the peace conference.

"A vigorous protest must be made against the trickery of the Entente Powers," he continued. "Their peace of violence is worse than if Germany had won the war. A strong movement must be started against them if peace is to be made on a Socialistic basis."

The speaker absolutely rejected the idea of Bolshevism in Holland, saying that if a revolution visited the Netherlands it must come without the soldiers' and workmen's council.

Furniture manufacturers of the northern and central Ontario districts, after conferences with their employees and the establishment of a board of conciliation under the industrial district, invest in an act, arrived at a solution of the problems that have been facing the employers and employees in this industry. The adoption of a 54 or 55 hour week, as contrasted with the 59 or 60 hour week previously in force, was one of the most important settlements effected.

The differences in dispute between the employers and employees were discussed freely by the board of conciliation.

HARDWARE PRICES

(Hardware and Metal, April 19.) Jobs have put into effect new prices in line with increased costs on one line of English cutlery. The advance, which affects pocket cutlery, table cutlery, butcher knives, skinning knives and kindred lines, amounts to between 10 and 12-1/2 per cent. Following on the heels of the reduction in wrought pipe, coupling and pipe fittings, as well as other hardware, a general revision downward has been made in malleable and cast iron pipe fittings, including plugs, bushings and unions, as well as other hardware. Boiler tubes have come in for further reduction, the new scale of quotations being worked out in direct ratio to the present situation. In some instances for slight advances, and in others for slight declines. The present basis will, it is believed, hold for some time to come, at least any further changes will be worked out from present schedule. Another move upward in the price of lined oil is recorded in some quarters this week. The advance amounts to three cents a gallon and is a direct reflection of the strong demand which has been consistently shown in the flax seed markets. Reports from the United States indicate that the early arrivals of a considerable amount of Argentine seed is probable, but owing to the increasing demand it is not thought this will have much of a bearing on the present situation. Crushers both in Canada and the United States report that they are actually very busy, increased business coming to hand the last week or ten days. Turpentine is tending still higher and some factors show a slight advance this week. This has resulted in a narrowing of the range of quotations to the trade. Reports from the South all reveal bullish sentiments, stocks being reduced under the influence of an active demand and arrivals from the new crop still being practically nil. Steam boilers and radiation have been revised downward again this week, the present scale of discounts being a reflection of the competitive prices which are being offered in the market and is, it is indicated, not attributable to market conditions. Round hot water boilers have not undergone any change from their declining prices. Brass escutcheon pins, brass steam goods, horse rasps, files, sash weights and other hardware are all lines that have registered declines this week. Ingot

RESTRICT BUTTER EXPORTS

(Toronto Globe.) Dr. McFall, the cost of living commissioner for the department of labor, who visited Toronto to inquire into the reasons for the exorbitant price of butter, is reported to have stated that this price is due to the export demand, that there is a world shortage of butter, and that the only solution he can see is an embargo on exports, which he is not prepared to recommend. The consumer who is compelled to pay seventy cents a pound and upward for butter will not accept this report, but will look to the government to force a reduction. The statement issued by the cost of living commissioner on March 14 showed that on March 1 there were over 6,000,000 pounds of butter in cold storage. Very shortly after that date there was an advance of at least ten cents a pound, which would mean a profit of \$600,000 for those who were holding butter in cold storage but who had registered declines this week. Specks Floating Before His Eyes

When specks start to float before the eyes, when everything turns black for a few seconds and you feel as if you were going to faint, you may rest assured that your liver is not working properly. The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of a medicine that will clear away all the waste and poisonous matter from the system, and prevent as well as cure all the troubles arising from this accumulation of waste which has collected in the system. Keeping the bowels open by using Milburn's Laxa-Liver Pills and you will have no liver trouble of any kind. It will clear away all the waste and effluvia which has collected and make the liver active and working properly. Mr. John R. Morrison, Grand River Falls, N. S., writes: "Several months ago I was troubled with a sour stomach, and had specks floating before my eyes. I took five vials of Milburn's Laxa-Liver Pills which cured and cleaned my blood before any length of time. I told my friends about it and they got some, and they, too, found themselves cured since they took them. I recommend your pills very highly." Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

HAD SEVERE COLD AND TICKLING SENSATION IN THE THROAT

This trouble is most distressing, and is caused from a cold that has settled in the throat. How many people have lost a good night's sleep by that nasty, tickling, irritating sensation in the throat? The dry, hard cough keeps you awake, and when you get up in the morning you feel as if you had had no rest at all. Dr. Wood's Norway Pine Syrup, which is composed of the most soothing and healing expectorant herbs and barks, combined with the lung healing virtues of the world-famous Norway pine tree, will give almost instant relief in all cases of this nature. Mrs. G. C. Routhy, Bright, Ont., writes: "I take great pleasure in writing you of Dr. Wood's Norway Pine Syrup. "For several weeks I was troubled with a severe cold, and a tickling in the throat. I tried numerous remedies, but found no relief until I used Dr. Wood's Norway Pine Syrup, which I had heard so much about, and on taking one bottle got instant relief. I highly recommend it to those who need a quick cure." "So great has been the success of "Dr. Wood's" in curing coughs, colds, bronchitis, etc. it is only natural that many imitations have been placed on the market. The genuine is put up in a yellow wrapper; three pine trees the trade mark; price 35c and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ARMY'S FILES BARE CAUSES OF DISEASE

Investigators Will Look up Records of 250,000 Rejected Men

London, April 21—The need for new light on the causes of disease is the object of an important investigation being undertaken by the research department of the ministry of national service.

On the national service register appear the names of 250,000 men who were rejected as utterly unfit for military service during the final months of the war. These cases are to be the subject of the inquiry, and all information regarding the main and contributory causes for rejection will be obtained.

The method of indexing are interesting, the system to be used being the Hollerith method of coding by cards. These cards are arranged so coding the salient particulars relating to each man. They have been printed with various headings and have numerous figures in columns for indicating the particular details.

For example, a man's age is thirty-five, the machine used for recording punches out the figure 3 and 5. Occupation, height and weight are similarly coded in figures, so that when the card has been completed it is punched full of holes and appears like the record of an automatic musical instrument.

The cards when completed can be put through a machine which can be set to sort them according to any desired result. For instance, the machine will correctly deliver cards of men of thirty-five or the cards of men having defective vision, etc.

The code comprises a large amount of information covering all important points. These include the district of residence, birthplace, occupation, height and weight. The colors of the eyes and hair, are also noted. This will enable the prevailing medical opinion that disease and color have occasionally some relation to the eyes, for example, the idea is prevalent that persons with blue eyes are more subject to the infection of scarlet fever.

The expansion of the chest and the limits of vision are also recorded. The record of the cause for the man's disability, if any, from which the person suffers will give an idea not only of the main symptom causing the rejection, but also the underlying cause of the symptoms—for instance, a regular heart trouble, possibly rheumatism.

The research department will have the aid of the medical research board. The result will afford a basis of information relating to the health of the nation which has never yet been available. Many obscure points regarding the origin of disease, the localities and occupations in which it flourishes, the ages in which it reveals itself, its effects upon development and nutrition and its complications will be revealed.

PRIEST AND MINISTERS JOIN IN OBSERVANCE OF ST. JULIEN ANNIVERSARY

Penetanguishene, Ont., April 22—Protestants and Catholics of this town united on Sunday afternoon in an open-air service of praise and prayer in which the Catholic priest and the Protestant ministers took part in celebrating the fourth anniversary of the battle of St. Julien. The celebration was held on the field at the back of the Jesuit church, overlooking the bay, where a cairn marks the landing of the Recollet Fathers 400 years ago.

The Service was in English and French, a simple one of song and prayer in which Rev. Phillip Brunelle, rector of the Jesuit church; Rev. F. W. Gilmore, pastor of the Presbyterian church; Rev. N. A. F. Bourne, rector of the Anglican church, and Rev. E. T. Douglas, of the Methodist church, took part. Mayor Charles Wright was chairman.

STANDARD OIL MEN RAISED \$5,000,000

First Year of New Industrial Relationship System Pleases Company, Too

New York, April 21—The golden age of industry seems to have arrived with the Standard Oil Company of New Jersey, judging by the reports given at the second annual joint conference and dinner of the electric representatives of the employees of the New Jersey company, held in the Robert Treat Hotel, Newark. Among the speakers were A. C. Bedford, chairman of the directors, who presided, and Walter C. Teagle, the company's president.

A year ago the company put into effect its industrial relationship plan, whereby the employees have a voice in the fixing of wages, hours and other conditions. The results of the year were discussed last night. Minutes of eighty conferences between the management and the workers at five reineries showed that 119 matters had been discussed and amicably settled. Of these 38 per cent had to do with wages, 10 per cent with working conditions, 9 per cent with promotions and discharges, 8 1/2 per cent with 8 per cent with methods of wage payments.

Wage decisions in which the employees participated, increased the annual payroll by \$5,000,000. In the course of the year thirty-nine employees were retired on annuities averaging \$85 a month. Under the group insurance plan 9,221 employees were insured for a total sum of \$9,188,000 without cost to themselves. Of this group 146 were discharged, and their dependents have received \$109,853, or an average of \$1,066 for each death. About 30 per cent of these employees had no other insurance, and not more than 1 per cent of their insurance amounting to more than \$1,000.

It was also reported that the company had taken back 1,816 men who were in military or naval service, while retaining on the payroll those who filled the gap during the war. The soldiers are taken back without having to pass the regular physical examination, and the time they have been in the national uniform is added to their company service record, this increasing the benefits and annuities they will eventually receive.

MOTOR CAR INVENTIONS. For obvious reasons, there was little activity during the war in the development of new ideas in automobile design and construction. Now, however, the air is full of more or less substantial reports of new things that have long been simmering, without an opportunity to come to the boiling point. Among the developments looked for are electric transmissions, kerosene and heavy oil engines, new ideas in the use of aluminum, tires that are puncture-proof and still resilient, simplified ignition systems, etc. As might be expected, the two-cycle engine is said to be absorbing a good deal of attention, and several new designs are to be ready in time for next year's automobile shows.

THE GALLANT VINDICTIVE

Story of Glorious Achievement
Recalled—Eye of St. George's
Day Ever Memorable in History
of British Navy

Tonight is the anniversary of the great sea fight at Zeebrugge, one of the most historic incidents in the history of the British navy. H. M. S. Vindictive and the two Liverpool ferry-boats Iris and Daffodil, shared especially in the glory of that night. The objectives were the canal of Zeebrugge and the entrance to the harbor of Ostend, and the three vessels named had with them five veteran and obsolete cruisers, and a mosquito fleet of destroyers, motor launches and coastal motor boats. Three of the cruisers, the Intrepid, Iphigenia and Thetis, packed with concrete and with mines attached to the bottom to sink them in the neck of the canal, were aligned at Zeebrugge; two others similarly prepared were directed at Ostend. The Vindictive with her ferry boats was to attack the great mole which guards Zeebrugge canal, land bluejackets and machines, destroy guns and stores and create a diversion while the block ships ran in and sank themselves. Admiral Keyes in the destroyer Warwick commanded the operation.

The night of April 22 proved favorable for the exploit and the ships formed up fifteen miles off Zeebrugge. The Vindictive, which had been towing the Iris and Daffodil, cast them off to follow her under their own steam. The Intrepid, Iphigenia and Thetis slowed down to give the first three time to get alongside the Mole and the Sirtis and Brilliant shifted their course for Ostend; while all the other craft scattered themselves for their appointed duties. The night was dark and hazy, with a small wind and a short sea. The small craft sent an effective smoke screen ahead of the Vindictive, and it was not until she was close to the Mole, with her men standing ready for the landing that the wind lulled and veered and revealed her and her two attendant ferry-boats to the Germans on the Mole and the shore. Then Berlam broke loose. The official narrative says: "A star shell soared aloft; then a score of star shells; the wavering beams of the searchlight swung round and settled to a glare; the wildfire of gun flashes leaped against the sky; strings of luminous green beads shot aloft, hung and sank; and the darkness of the night was supplanted by the nightmare day-light of battle fires. Guns and machine-guns along the Mole and batteries ashore woke to life, and it was in a pile of shelling that the Vindictive laid her concrete against the thirty-foot high concrete side of the Mole, let go an anchor, and signed to Daffodil to shove her

tern in. Iris went ahead and endeavored to get alongside. The fire was intense. Vindictive was swept diagonally by machine-gun fire from both ends of the Mole and by heavy batteries ashore.

"Vindictive was fitted along the port side with a high false deck, whence ran the eighteen bows, or gang-ways by which the storming and demolition parties were to land. The men were gathered in readiness on the main and lower decks, while Colonel Elliot, who was to lead the Marines, waited on the false deck just abaft the bridge, and Captain H. C. Halahan, who commanded the bluejackets, was amidships. The gangways were lowered, and scraped and rebounded upon the high parapet of the Mole as Vindictive rolled; and the word for the assault had not yet been given when both leaders were killed, Colonel Elliot by a shell and Captain Halahan by the machine-gun fire which swept the decks. The same shell that killed Colonel Elliot also did fearful execution in the forward Stokes Mortar Battery.

"The men were magnificent." Every officer bears the same testimony. The mere landing on the Mole was a perilous business; it involved a passage across the crashing, splintering gangways, a drop over the parapet into the field of fire of the German machine-guns which swept its length and a further drop of some sixteen feet to the surface of the Mole itself. Many were killed and more were wounded as they crowded up to the gangways; but nothing hindered the orderly and speedy landing by every gangway.

Lieutenant H. T. C. Walker had his arm carried away by a shell on the upper deck and lay in the darkness while the storming parties trod him under. He was recognized and dragged aside by the Commander. He raised his remaining arm in greeting. "Good luck to you," he called, as the rest of the stormers hastened by; "good luck."

The lower deck was a shambles as the commander made the rounds of his ships; yet those wounded and dying raised themselves to cheer as he made his tour. The crew of the howitzer which was mounted forward had all been killed; a second crew was destroyed likewise; and even then a third crew was taking over the gun. In the stern cabin a firework expert, who had never been to sea before—one of Captain Brock's employees—was steadily firing great illuminating rockets out of a scuttle to show up the lighthouse on the end of the Mole to the block ships and their escort.

The Daffodil, after sliding to berth the Vindictive, should have proceeded to land her own men, but now Commander Carpenter ordered her to remain as she was, with her bows against Vindictive's quarter, pressing the latter ship into the

Mole. Normally, Daffodil's boilers developed eighty pounds' pressure of steam per inch; but now, for this particular task, Artificer Engineer Sutton, in charge of them, maintained a hundred and sixty pounds for the whole period that she was holding Vindictive to the Mole. Her casualties, owing to her position during the fight, were small—one man killed and eight wounded, among them her commander, Lieutenant H.

Campbell, who was struck in the right eye by a shell splinter.

Iris had troubles of her own. Her first attempt to make fast to the Mole ahead of Vindictive failed, as her grapnels were not large enough to span the parapet. Two officers, Lieut.-Commander Bradford and Lieutenant Hawkins, climbed ashore and sat astride the parapet trying to make the grapnels fast till each was killed and fell down between the ship and the wall. Commander Valentine Gibbs had both legs shot away and died next morning. Lieutenant Spencer, R. N. R., though wounded, took command and refused to be relieved.

Iris was obliged at last to change her position and fall in astern of Vindictive, and suffered very heavily from the fire. A single big shell plunged through the upper deck and burst below at a point where fifty-six marines were waiting the order to go to the gangways. Forty-nine were killed and the remaining seven wounded. Another shell in the wardroom, which was serving as sick bay, killed four officers and twenty-six men. Her total casualties were eight officers and sixty-nine men killed and three officers and a hundred and two men wounded.

Meanwhile the storming parties from the Vindictive landed and swept the Mole, working and destroying with systematic precision in face of a terrible fire. Then up came the Thetis, Intrepid and Iphigenia, found their places and were sunk in the channel. The Thetis lost five killed and five wounded. The Intrepid was taken off by a motor launch before she sank. The Intrepid and Iphigenia suffered no loss, their crews being taken off safely before they were sunk in the canal.

PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

When her work had been done the Vindictive was towed away from the Mole by the Daffodil. She was almost a wreck, but she sailed triumphantly away to strike again with equal success at Ostend. And so the eve of St. George's Day, 1918, will be forever memorable in British naval history.

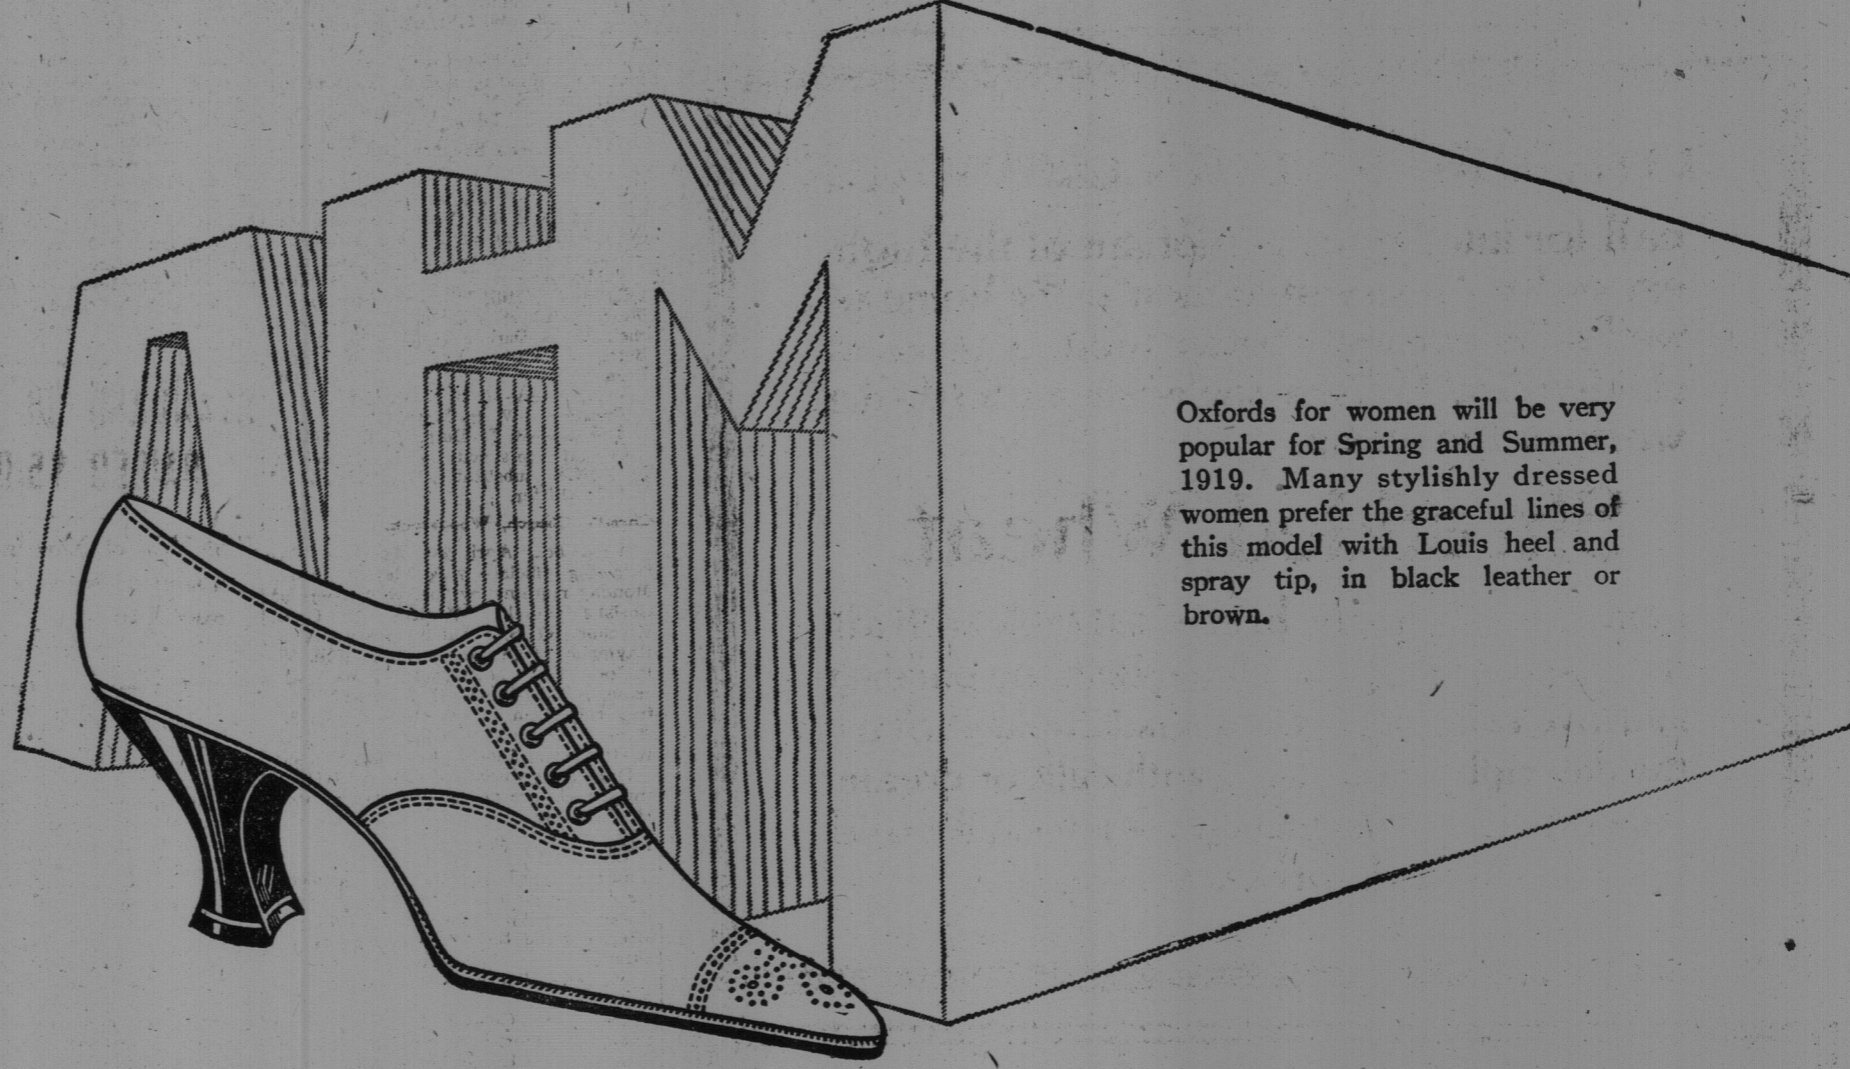

Among the returned soldiers to arrive in Halifax yesterday was Jack Allen, son of Mr. and Mrs. Donald Allen, 36 St. Andrews street. Private Allen went overseas with the 115th Battalion and was transferred to the 2nd Howitzer Battery, and it was while he was in that unit he won the M. M. in a spectacular raid on the Hun lines. He was a despatch carrier. His brother Ray is now a member of the 29th, being an original member of that unit. He was wounded once. He crossed as a private and was promoted to sergeant.

Why Do We Advertise?

YOU may think that because we are big manufacturers, and you are only one consumer out of several million, we have no special interest in you, and you have no real interest in us. Nothing could be farther from the truth than that.

Our future as manufacturers depends in the end, upon just one thing: the satisfaction which our product gives to you, the consumer. And your satisfaction depends to a large extent upon the attention which you yourself give to the buying of shoes.

For, bear in mind this fact: no matter with what care we select the materials which go into a shoe—no matter how perfect the workmanship may be—it will not give you the full measure of satisfaction unless it is correctly fitted to your foot. And that it something which we cannot control.

We do insist that the materials which go into our shoes shall be the best quality possible at the price: we do make sure that the workmanship is as nearly perfect as our human organization can make it—but we must stop there. We cannot insure ourselves that you will buy the type of shoe which will give you the best service, or the size and width

which alone can give you comfort and satisfactory wear. And so we speak to you through this advertising—the only method by which we can hope to reach you all. Our object is not merely to sell more of our shoes. We seldom ask you to buy A. H. M. shoes. Our purpose is rather to tell you how you may obtain better comfort and better service from the shoes you buy.

Of course we hope that you will buy A. H. M. shoes, and we are confident that sooner or later you will do so. But we want to make sure that when you do buy them you will get all the comfort and satisfaction which we try to build into them.

Our booklet, "How to Buy Shoes" goes into the subject more fully than is possible in newspaper space. It is sent on request to any address in Canada. May we send you a copy with our compliments?

Nova Scotia Is To Have a Proper Provincial Health Act

THREE HEALTH DIVISIONS

Provincial Inspector, Divisional Officers, Health Nurses and Clinics—Some Striking Statements

A bill which makes important amendments to the public health act passed its second reading in the Nova Scotia legislature last Wednesday. It provides for the division of the province into three general health divisions, the establishment of a health clinic in each county, the appointment of a provincial health inspector, three divisional superintendents, a superintendent of nursing services, and a public health nurse for every county.

In moving the second reading of the health bill, Mr. Armstrong said: "The administration of our public health act is now mainly in the hands of local boards, many of which have no medical member."

"The organization of these local boards is left to the medical health officer of the municipality, who is paid a small salary (generally \$100 a year), and who must depend upon his practice for a living. In time of great emergency—as in the recent influenza epidemic—it is impossible for the medical officer of a county to get local boards properly organized. Communicable diseases do not recognize boundaries of health districts, and imperfect administration of health laws in one district may mean much spread to other districts, with resultant discomfort and expense, suffering and perhaps death."

"The death rate of our province is considerably higher than it should be. Probably 20 per cent of our deaths are from preventable diseases. If the death rate could be reduced 10 per cent it would mean a saving of approximately 750 lives a year. A high death rate implies a high sickness rate, with attendant suffering, loss of time, loss of earnings, and interference with industry and business. Success in competition depends upon efficiency, which in turn depends largely upon health."

"Our infant mortality rate is high. Last year it was lower than for any previous year for which we have statistics, but was still 7 per cent higher than the rate of England and nearly double that of New Zealand. There is need for giving special attention to means by which this rate may be reduced."

"School children often suffer from easily remedied defects which hinder their progress in school work. Where medical inspection of school children has been carried on in our province, it is found that from 35 per cent to 40 per cent of the children examined have defects which should be remedied. Failure to detect and remedy these defects not only prejudices the future of these children, but has the effect of retarding work in all the classes and is thus responsible for a very considerable economic loss."

"It is agreed by authorities that it is most important to the whole future life of the individual that his health would be well established in the early years of life."

"Experience elsewhere has shown that most effective work in preventive medicine is done by health nurses in their

visitations to the homes of the people. "We have been backward in public health work in Nova Scotia. In most of the Canadian provinces, large staffs are employed and substantial progress has been made in reducing death and sickness rates. The scheme outlined is not nearly so elaborate as that in operation in most of the provinces, but is thought to be the most economical plan which could be adopted to place us on something like a parity with other provinces."

"With an organization such as is contemplated, particular attention would be given to tuberculosis and the conditions contributing to infant mortality; to the medical inspection and supervision of school children; and to the sanitation of camps, buildings, lumber and construction schools and industrial plants generally."

The following is a general outline of proposed health scheme:

1. Partition of province into three principal health divisions, as follows: Eastern Health Division—(Approximate population 156,000)—Counties of Victoria, Cape Breton, Richmond, Inverness, Guysboro and Antigonish.

Central Health Division—(Approximate population 186,000)—Counties of Pictou, Cumberland, Colchester and Halifax.

Western Health Division—(Approximate population 166,000)—Counties of Hants, Kings, Annapolis, Digby, Yarmouth, Shelburne, Queens and Lunenburg.

2. Establishment of a health clinic in each county.

3. Appointment of a provincial inspector of health, three divisional medical health officers, a superintendent of nursing services, and a public health nurse for each county of the province. (All of these to give their full time to their duties and to carry on their work under the general direction of the provincial health officer.)

Provincial Inspector of Health. (To be an expert in the diagnosis of tuberculosis and have special knowledge of the epidemiology of the communicable diseases.)

Duties.—1. To attend at county clinics as often as possible—probably at least once in every two months, to examine cases of suspected tuberculosis, and advise as to treatment.

2. To investigate any undue prevalence of an infectious disease in any part of the province, with the object of determining the original source of infection and instituting measures to prevent further spread.

3. To maintain a general supervision and direction of the county health clinics, and to study means by which their usefulness may be extended.

4. To receive reports and undertake such special duties as may be required by the provincial health officer.

Divisional Medical Health Officers. Duties.—1. To supervise and co-ordinate work of local medical health officers and local boards of health.

2. To maintain touch with county health clinics of divisions, especially with reference to cases of communicable diseases.

3. To visit the public schools in their respective divisions directing attention to the sanitary condition of the school buildings and the object of determining for physical defects requiring correction or treatment.

4. To maintain a sanitary supervision over lumber camps, recreation camps, and other places where employees of industrial concerns are quartered in considerable numbers.

5. To maintain sanitary supervision over industrial and other establishments with the object of securing proper hygienic conditions for all employees.

6. To maintain a sanitary supervision over the premises and conduct of all establishments in which foodstuffs of any kind are produced, prepared or marketed.

7. To render such special services and reports as may be indicated by the provincial health officer.

Superintendent of Nursing Service. Duties.—1. To select and assign health nurses to the various nursing districts.

2. To supervise and direct the work of the health nurses.

3. To study the records of the health clinic, tabulate returns, and render such reports and perform such special duties as may be required by the provincial health officer.

Health Nurses. The health nurses will be assigned to districts, marked out as nearly as practicable by county boundaries. Each nurse will have her headquarters at the

county health clinic, where she will be in attendance on clinic days. When not occupied at the clinic she will travel about, visiting homes where her services may be needed to give instruction in home nursing and home hygiene and in the measures to be taken to prevent the spread of infection. Her visits will, therefore, be largely educative, but she will be expected to investigate homes where infection is suspected to exist and where a physician is not in attendance and to take appropriate action if she finds that the suspicion is well founded.

She will also make visits as frequently as possible to the school buildings in her territory, and apply her knowledge in the examination of school children for the more common of the physical defects, noting her findings for the information of the divisional medical health officer, and acting upon his instructions.

PALE CHECKED WOMEN Told About Restoring A Rosy Complexion

A few years ago the girl with pale, drawn cheeks, scarcely knew what to do in order to restore her fading appearance. At that time there was no blood food medium made that really would put color and strength into systems that were more or less worn out.

Today it's different. The blood can be quickly nourished, can be made rich, red, and healthy. All you have to do is take Ferrerozine Tablets with a sip or two of water after meals. The effect is almost magical.

Mothers, look at your children. Are they ruddy and strong—do they eat and sleep well, or are they pale, weak, and anemic?

Take your own case—is your blood strong and rich? Have you that old-time strength and vigor, or are you somewhat under the weather?

Ferrerozine will supply strengthening elements you require. It is a blood-forming, nourishing tonic that makes every ailing person well.

Ferrerozine is a marvelous remedy. It contains in concentrated form certain rare qualities that especially fit it in cases of anemia, poor color, thin blood, tiredness, and loss of weight.

Every day you put off using Ferrerozine you lose ground. Get it today, sold in 50 cent boxes by all dealers, or by mail from the Catarrhazone Co., Kingston, Ont.

Careless Shampooing Spoils The Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greasyless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

TWO FULL HOLIDAYS A WEEK

Toronto Carpenters Also to Demand 75 Cents an Hour

Toronto, April 22—Toronto builders and carpenters were notified yesterday by the secretary of the Carpenters' District Council that after June 1 the wages for carpenters would have to be seventy-five cents an hour and that a forty-four hour week would also go into effect. The carpenters will work five days of eight hours.

The present schedule includes a forty-four hour week at sixty-five cents an hour. The elimination of overtime, which was put into effect some time ago, is included in the new demands.

CHINESE CONSUL ON DRINK TRAFFIC

Chien Tsur Gables His Government, Urging Extension of Aid to the Anti-Liquor Committee

New York, April 22—Chien Tsur, Chinese consul in New York city, has called to his government at Peking urging them to extend all possible help to the activities about to be carried on in China by the native anti-liquor committee, a committee of Americans recently formed here to fight the advance of the liquor traffic among the native races of all countries. Though organized in New York city, this committee will have branches in China and various other countries.

The Chinese consul here declares that he is convinced that everything possible should be done to prevent the influx of the liquor traffic into his country. J. S. Tow, secretary to the consul, said to a reporter yesterday:

"We believe that the liquor traffic ought to be kept out of China. We oppose it, just as we oppose the opium traffic. We are, therefore, doing the best we can to prevent our people from being burdened with this traffic. The consul has wired a request to the government that they do all they can to assist this new committee, and personally I hope the committee will have every success, wherever they work, and especially in my country. The Chinese as a whole do not want liquor to come among them. They have suffered terribly from the opium traffic; the liquor traffic should not be forced upon them."

BUSINESS AHEAD, SAYS MR. REDFIELD

Boston, April 22—William C. Redfield, United States secretary of commerce, speaking at the first annual convention of the executive association of the wholesale grocers of New England at the Hotel Brunswick, dwelt on the need of a policy for "developing our inheritance, that is to say the United States of America." He said the commerce of this country was on the whole recovering well from the reaction of the United States was never so large as it is today. He continued: "We have financially found ourselves. This is true from the largest bankers to the smallest laborer. Business, however, although recovering, still hesitates because men are reluctant to buy upon a falling market and therefore factories are running just time and many are out of work."

"The coming of the spring will release out-of-door employment for thousands of men who usually follow them and the building of roads upon a great scale is scheduled to begin soon in many parts of the country."

"The prosperity of the farmers is certain to reflect itself in trade, and as prices adjust themselves slowly to a lower level, the normal law of supply and demand which has been suspended for several years will come into effect."

WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

There can be no beautiful, healthy, energetic, and steady nerves without iron. When the iron runs from the blood of women, the roots go from their vitality, and they become pale, nervous, and irritable. I always insist that iron should be taken in a form which is easily assimilated, does not blacken nor injure the teeth nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, haggard women in two weeks' time in many cases. I have used it in my own practice with most surprising results. RED RULE IN MUNICH HAS A SHORT LIFE

Government Collapses and Self-Appointed Dictators Have Been Ousted

London, April 22—The short-lived Soviet government at Munich collapsed on Saturday night, says a Munich dispatch to the Daily Mail. Not only so, but children who have had Zam-Buk applied to an injury or sore, when again injured, cry for Zam-Buk to be applied. They know that Zam-Buk stops pain. Nothing ends the pain of a cut, bruise, burn, or skin disease like Zam-Buk, as nothing soothes, draws out the soreness and heals so quickly.

Mrs. I. Wilson of Sarnia, Ont., says: "I could not do without Zam-Buk for my children. It is the best ointment I have ever used for burns, sores and cuts."

Mr. L. B. Andress of 1407 E. 22nd St., Minneapolis, Minn., writes: "When any of my children, my wife or self meet with an accident, we immediately apply Zam-Buk. It has saved us many a doctor's bill."

Mrs. C. B. Ritty of Riverport, N.S., writes: "My baby had sores on her face, caused by teething. Zam-Buk completely healed them."

Zam-Buk is equally good for eczema, ringworm, rashes, sores, blood-poison, ulcers, abscesses, skin boils, etc. All druggists, 25c. box, or Zam-Buk Co., Toronto. Send 1c. stamp for free trial.

CANADIAN WOMEN'S PLATFORM

Ottawa, April 21—Something in the nature of a Canadian woman's platform is likely to be decided upon at the meeting of the National Council of Women to be held in Regina in June. The executive of the National Council of Women at its March meeting here decided that while it would not be advisable for women to form a political party, it is obvious that there are certain principles which should demand the support of women of both parties.

It was therefore agreed to give an opportunity to the women of Canada to express themselves as to what, in their opinions, were the most urgent and fundamental of these principles and objects, and then sum them up in what might be called a Canadian woman's platform.

A committee was arranged with representatives from each province with a sub-committee of the whole at Ottawa to carry out this plan. This committee now expresses a desire that every group of women, as well as individual women, will send their opinions as soon as possible to the convener of the committee, Mrs. Adam Shortt, Ottawa, in order that the women's platform may be ready for presentation at Regina in June.

EFFORT TO CHECK RENT PROFITEERING

New York, April 22—The board of aldermen has passed a resolution directing its committee on general welfare to co-operate to the fullest extent with the committee appointed by the mayor to investigate unreasonably increases in rentals and empowering the committee to hold public hearings and call witnesses, books and records. In the legislature at Albany, New York, one bill would give municipal court judges additional powers in rent cases, and provide that the landlord who tries to evict a tenant summarily must prove that he has furnished the tenant with the proper heat and has not increased the rent to a point where it would bring in more than a 10 per cent return on the assessed valuation of the property. Another bill would provide that in the case of eviction of a tenant from a building occupied by three or four families, a stay be granted for sixty days.

Mistress—Can you exercise discretion? New Servant—Can I? Say, I've exercised everything from lap dogs to society climbers.—Judge.

ZAM-BUK MAMA!

Mothers who have used Zam-Buk say it is so fine for the many little accidents of daily occurrence in the home—and especially where there are children—that they would not be without it. Not only so, but children who have had Zam-Buk applied to an injury or sore, when again injured, cry for Zam-Buk to be applied. They know that Zam-Buk stops pain. Nothing ends the pain of a cut, bruise, burn, or skin disease like Zam-Buk, as nothing soothes, draws out the soreness and heals so quickly.

Walsh and Partner Win (Boston Traveler)

Little Archie Walsh of Boston and Jim Olindey of Quebec are being congratulated by their friends today for the same up-hill battle they put up and finally defeated Paul Pochler and Red Miller last night in the final 10 strings of a 20-string bowling match. The match at the finish was three-pins. A big crowd filled the New Boston 93 when the four boys took their

the bowling rosters went wild with delight one minute and gasped with near-panic the next.

The winning team was eighty-eight pins behind when the final ten strings were started and after the third string the two trailers found themselves 105 pins behind. Then they started. Walsh rolling in fine style and Olindey going along in his cool deliberate manner, slowly forged to the front and were ninety-one pins ahead on the evening. Having been eighty-eight pins down, this left them three pins to the good.

The scores of the entire match are:

THE RING.

Will Be in East.
Jess Willard and Jack Dempsey will battle for the title July 4 in the eastern section of the United States. This declaration was made by Tex Rickard, promoter of the proposed bout. In what city the match would be conducted Rickard refused to say. He is withholding announcement of the exact site awaiting completion of negotiations he has under way. Rickard said positively, however, that the contest would not be conducted in New England. In view of this declaration it was accepted as probable that Maryland would get the big battle. The promoter has in mind permits only limited round bouts. Beyond that Rickard would say nothing.

The principal reason for conducting the match in the east, Rickard said, was that this section of the country promises the greatest financial success for the undertaking.

"The big money is in the east," Rickard said in making known his decision. "The offers of western promoters have all been attractive, but the hardships of travel which would be necessary if I accepted any of the offers prompted my decision against all of them. Then, too, with practically all of the offers it was provided that I should sell my interest in the bout for a stipulated amount. This is further away from my plans for I will personally conduct the match. The interest in the contest and the traveling facilities of the east have made me confident that in this section of the country only could I be assured of success."

"A limited number of rounds will be arranged. Personally, I think twelve rounds ample for one or the other of the boxers to show decisive superiority. If Willard cannot knock out Dempsey

within twelve rounds the opposite result will be accomplished, I am sure."

McGoorty Trims Heavyweight.
Plymouth, England, April 21.—Eddie McGoorty, of Oshkosh, Wisconsin, tonight defeated Patrick Curran in eight rounds. Curran had received such punishment that his seconds threw up the sponge. McGoorty is a middleweight and Curran a heavyweight.

NAVY THANKS K. OF C.

Acting Secretary Roosevelt Sends Appreciation of War Work.
Acting Secretary of the Navy Roosevelt has conveyed to the Knights of Columbus the U. S. government's thanks for welfare service rendered for sailors during the war. In a letter Mr. Roosevelt said:

"The department desires to extend the gratitude of the officers and men of the United States navy for all the many good things the Knights of Columbus have done for them during the war. The efficiency of your organization has been well matched by the constant desire of the individual worker to serve the men to the best of his ability."

"His helpfulness and efficiency have proved a wonderful aid to contentment and fighting spirit in the navy. The department is desirous that your excellent work be continued, and that the naval service, whether the country is in peace or at war, have the benefit of your splendid co-operation. There is a very constant need for your services."

"Father," asked eight-year-old Alice, "are you good at punctuation?"
"Yes," replied the father.
"Well, tell me, please, how would you punctuate 'The wind blew a postal order round the corner'?"
"Why, Alice, I would simply put a full stop at the end of the sentence."
"I wouldn't," said Alice mischievously. "I would make a dash after the postal order."

QUEEN SQUARE THEATRE

General Currie Told Officers That on Last Day of March—Fourth Siege Very Soon

It is among the possibilities that the fighting 26th will be home about the middle of May. That was the expectation on March 21 as expressed by General Currie, commander of the Canadians. In a letter from an officer of the 26th, written in Belgium on April 1, he wrote:

"We had a visit yesterday from General Currie. He said we would probably be home by the second week in May. He had tea with all the officers at the battalion headquarters."

It is believed that the 26th now is in England. Of course between the time when General Currie made his announcement to the officers and the actual sailing of the battalion there may be delays but at least it is shown that the homecoming is drawing near.

Word was received yesterday that Major Barker and the 4th Siege Battery would leave England next Saturday on board the Mauritania, bound for Halifax. It is possible that the 6th Siege Battery may come on the same ship as the 4th.

A meeting of the citizens' committee preparing for the reception to be given to the 26th on their return was held last evening and various proposals were put forward. Among these is one to have an elaborate display of fireworks, another proposal is to provide abundant refreshments for all soldiers who have been overseas. It is proposed to have the principal streets decorated with bunting and mottoes.

SLAVE DAYS IN CANADA

Toronto, April 22.—Slavery existed in Canada from 1749 to 1854, according to a paper on "Slave Days in Canada," read by Mrs. W. T. Hallam, B. A., at a meeting of the Women's Canadian Historical Society of Toronto. Many of the slaves belonged to Loyalist families, Mrs. Hallam said, and slaves were attached to families around the Bay of Quinte, Kingston, the Niagara district, and in the county of York. They had come from England with their Loyalist masters.

There were 304 slaves in Quebec in 1784, Mrs. Hallam said, also slaves in New Brunswick, Prince Edward Island and Cape Breton. There were slaves in Halifax from the time of its settlement, in 1749, for a good many years. Auction sales of slaves were frequent in Halifax during the early days, and boys and girls were advertised in the public market, along with the commonest commodities. The early part of the nineteenth century saw Nova Scotia pretty well rid of slavery.

In upper Canada an act was passed in 1793 making it unlawful to bring any more slaves into the province, and ordering that the children of slaves should be made free at twenty-five years of age. Three hundred were set free in 1800, and slavery was finally abolished in Canada in 1854.

Excellent Bill With Signor Guarino, Tenor, and Gorgeous New Stage Setting

Resplendent in a gorgeous stage setting in what is artistically known as modern majestic style, the Imperial Theatre sprang a graceful Easter surprise upon the throngs who enjoyed its holiday programmes yesterday. When the curtain went up to the soft music of the orchestra and the lights gradually reached the proportions of radiant sunlight, two huge bronze gates in art ironwork in which the British coat of arms was deftly suggested, swung from masonry pillars, while in the foreground was a typically English stone wall surmounted with marble female figures holding lamps aloft. The color scheme was bronze and primrose with fine shaded work in representation of art stone-cutting, while over the walls peeped colorful rhododendron and hyacinths. Foliage overhead and wooded effects to left and right completed a delightful outdoor scene. The forefront of all was set off with a stone wall of lower proportions banked with a hedge of green boxwood plant.

This was the Imperial's Easter offering and an inspiring one, eliciting hearty plaudits from everybody and creating plenty of favorable comment. An interesting feature of the case is that the whole setting, minus the formal embellishments is the design and handiwork of Sergt.-Major Frederick W. Stringer, one of the Imperial's returned soldier boys, an artist in the pursuits of peace as well as in the grim work of war. It was fortunate for the Sergt.-Major that the Hun bullet got him in the thigh instead of the hands, and for the Imperial, too. The Orchestra under A. E. Jones was located in this new stage setting, and discouraged a splendid programme.

Another special pleasure in this bill was the return of Signor Anthony Guarino, tenor, whose numbers "Bring Me A Rose" and "Chasing Rainbows" were encored repeatedly. St. John people never tire of this delightful lyric songster. The film feature of the show was a World production entitled "Within the Lines", featuring Lewis S. Stone, secret service story of consistent merit with plenty of patriotic thrills, splendid acting by everybody, scene of the Brit-

ish navy surging through the sea, the rock of Gibraltar and other interesting incidents. It was a straight British picture from title to trademark and was thoroughly enjoyed. The Canadian news weekly showing the "Princess Patricia" again with a fine Easter show and a bundle of gossip surprises.

Lawrence in winter time, our Canadian boys in Russia and some British pictures completed the programme with Mutt and Jeff as a "chaser". The Imperial has registered a hit again with a fine Easter show and a bundle of gossip surprises.

LOCAL NEWS

BURIED TODAY.

The funeral of Walter M. Kirk took place this afternoon from his late residence, Main street. Services were conducted by the Rev. Neil McLaughlin. Interment was made in Greenwood cemetery.

THIS IS BETTER.

New steps leading from the central walk on the eastern side of Queen square are being erected and much needed and very much appreciated improvement.

BUSY TODAY.

The banks and government buildings started business this morning with a rush after the Easter holidays and the town in this regard resumed normal conditions.

LOOKING BETTER.

Repairs to the municipal fountain in the old burying ground, referred to in The Times a few evenings ago, have been commenced and each day sees steady improvement in the conditions of this garden spot. Effective use of the rake has made a notable change in the grass plots.

LITTLE ONES DEAD.

There is deep sympathy for Mr. and Mrs. Harry Driscoll, 179 Tower street, West End, in the death of their infant son, Henry J., who died yesterday. The death of Robert Hugh Fergus, two year old son of the late Mrs. Maude Fergus occurred yesterday at the home of his grandparents, 377 Chesley street.

SHOULD BE SAFE NOW.

The roof of the old court house building, which was buried some months ago, has been entirely renewed and nothing now stands but the stone walls. The danger from falling iron work is eliminated and now that the frosty weather is over there will be no further ill effects upon the masonry. Plans as to the reconstruction of the historic building are still inabeyance.

NOT ACCEPTED.

The Times is informed that because the tenders submitted for the purchase and removal of the old Main street Baptist parsonage adjoining the church were unsatisfactory to the trustees, the dwelling will be allowed to stand until the church itself takes the matter in hand, provided, of course, a buyer does not step in. This will doubtless have some effect upon the projected plans for an enlarged Sunday school room.

WEST END ATHLETIC CLUB.

In Carleton City Hall last evening an entertainment was given under the auspices of Mark Burns to secure funds for establishing the West End Athletic Club, an organization for promotion of clean sport and body building and in which the young boys are to have their opportunity. Some of those who were to have taken part last evening did not appear, to the regret of Mr. Burns who had arranged an attractive programme. However the entertainment went well and was enjoyed. Negotiations for a home for the club now are under way.

SOLDIER'S COMPLAINT.

A returned soldier writes to the Times complaining of discourtesy on the part of a street car conductor, whose number he failed to take. He relates that on Sunday evening when arriving from West St. John at the corner of Main and Simonds street there was some delay in getting off. The car was crowded and he had to wait until other passengers alighted before he could move, on account of a wounded leg, and then did so with his little boy of two and a half years walking in front of him. The conductor, he said, in an unpleasant manner called to him to pick the child up, as he could not wait all day for him to get off. The writer suggests that returned soldiers and the public generally might receive more consideration.

BISHOP RICHARDSON, IN WASHINGTON, GIVES VIEWS ON VIVISECTION

Washington, April 22—Regulation of vivisection by law was advocated by Bishop Richardson of New Brunswick, in an address here last night at a meeting under the auspices of the National Society for the Humane Regulation of Vivisection and the Washington Humane Society. The practice of vivisection should be restricted by license to persons engaged in particular fields of medical research, said Bishop Richardson, and it should be prohibited in connection with elementary medical instructions.

OFF TO NEWFOUNDLAND FOR ATTEMPT AT AIR FLIGHT ACROSS OCEAN IN MAY

New York, April 22—Thirty-six observers, mechanics and repairmen, selected by the bureau of navigation in connection with the navy's plans for a trans-Atlantic flight next month left the naval air station at Rockaway yesterday on the mine layer Aroostook, bound for Newfoundland. It is understood that the Aroostook later will proceed to the Azores, where she will act as a supply ship. It is said the cruisers Columbia and Baltimore have also been detailed to assist in the flight. It is said unofficially that of four planes groomed for the trans-oceanic attempt the N. C. 2 and N. C. 3 may be the ones finally selected. The N. C. 1 is undergoing repairs and the N. C. 4 will not be ready to take the air for some time.

HOW VEDRINES DIED

Paris, April 22—The death of Jules Vedrines, French aviator, announced here yesterday, was due, according to a Lyons despatch to the Petit Parisien, to a landing accident. He was flying low, one of his engines missing fire. He swung his plane in the direction of the wind, but failed to get the engine working properly and so decided to land. He headed the machine towards an alfalfa field, but fell short, the left wing collapsing. Vedrines and Guillaud, his mechanic, were both instantly killed.

Black's Man Has Great Score in Bowling Tourney

St. Peter's and Black's Defeat Y. M. C. A. and Y. M. C. I.; Fredericton-Bangor Game Not Rolled This Morning as Americans Did Not Arrive in Time

Several high individual strings marked the opening of the bowling championship tournament this morning in the Y. M. C. I. alleys. The Y. M. C. I. and Black's were the lead-off teams, and the latter won by fifty-one pins. The institute bowlers and defenders of the cup came out with eight pins to the good on the first string and dropped four pins in the second. The third string, however, proved their Waterloo, for Lunney, of Black's alleys, rolled for a total of 149, which was the feature of the morning contests.

St. Peter's won an easy victory from the Y. M. C. A. by a total of seventy-six pins. All the North End bowlers were "on" this morning, each man rolling for a stately average. Cleary was high man for the winners with 98 2-3 average. Foohy was high for the losers, with 99 2-3.

There was keen interest in the match and the games were witnessed by large crowds who were particularly interested in the local teams. At noon Amherst and St. Croix started their game, they being the first outside bowlers to compete.

Up to noon Bangor and Moncton had not arrived, but they were expected on the mid-day trains. The tournament is being carried out on the old time.

The teams in the tournament so far as Y. M. C. I., Black's, Y. M. C. A., St. Peter's, Amherst, Fredericton and St. Croix.

Special preparations have been made in the Y. M. C. I. alleys for the meet, and ample arrangements have been put forth to accommodate spectators. The series will last until Thursday. The Y. M. C. I. team last night elected Thos. Cosgrove captain.

Following is the result of the morning games:

EASTER CONCERT AND CANTATA IN FAIRVILLE

Last evening a sacred concert and Easter cantata were rendered in Charlotte street United Baptist church, West Side, before a congregation which taxed the capacity of the auditorium and balcony.

The choir, assisted by singers from three churches, made a large chorus under the direction of S. M. Stout, choir-master and organist of the church, sang excellently the cantata Easter Angels. The feature was the singing of a male quartette which, by special request of Rev. Mr. Jenner, at close of the regular programme sang a second selection. The proceeds go toward the organ fund of the church. The following is the programme: Hymn—All Hail. Solo—"Open the Gates of the Temple." (Kripp), Miss B. Campbell. Mixed Quartette—"Crossing the Bar," D. Allan, Miss Freda Jenkins, Mrs. U. Osborne, H. M. Stout. Solo—"If with all Your Hearts," (Mendelssohn), D. Allan. Male Quartette—W. H. Charlton, E. Thomas, F. Hay and H. M. Stout. Solo—"The Ninety and Nine"—Mrs. J. M. Patterson. Hymn—Onward Christian Soldiers. Cantata—"Easter Angels." Soloists—Miss Jennie Colwell, Miss Freda Jenkins, Miss Green, Mrs. S. Wilson, A. Allan and H. M. Stout. 1—Organ introduction. 2—"Angel Guards" baritone solo and women's chorus. 3—"Angels at Gethsemane," mezzo soprano solo and chorus. 4—"The Wondering Angels," soprano solo and chorus. 5—"Rock of Ages," alto and baritone duet. 6—"Angels at the Resurrection," tenor solo and chorus. 7—"The Victory is Won," chorus. 8—"Thou Art Gone up on High," baritone solo and chorus. 9—"Joy in the Mansions of Light," contralto solo and chorus. 10—"The Angels' Adoration." Final chorus. God Save the King.
