HANDS OFF ADVISES

SIR HUGH Unbecoming for Canadians to Interfere in the British Elections

LEADER LIKES THIS London Paper Quotes Opinion of Canadian Knight—An Imperial Conference on Education—Mayor Nathan is Being Kept in the Limelight.

Times' Special Cable London, Nov. 16.—Referring to the comment of Canadian speakers to assist the British Unionists, the Leader quotes the remarks of Sir Hugh Graham that Canadians are most interested in the coming British elections, but feel it to be absolutely unbecoming in them to interfere in any way or express any opinion on the outcome of them. The English people do not interfere in the domestic affairs of Canada and consequently Canadians think the best thing to do is not to meddle in British politics. The Leader says: "It would be unbecoming on our part to add or take away anything from this timely and conclusive Canadian criticism on the very latest of our colonial missionaries."

AWOKE TO FIND MADMAN NEAR

Mander Kills Himself at Bed-side of Girl Whom He Courted

Philadelphia, Pa., Nov. 16.—Feeling the touch of an icy hand upon her cheek, Miss Anna Neumetter, 216 North 26th street, awoke early in the morning to find Harry Mander, for four years her suitor, sitting on the edge of her bed. She was astounded. "Not a word," commanded Mander, his eyes glistening with tears, "do not utter a word, or I will kill you."

KAISER VIETS PLAN FOR BERLIN EXHIBIT

Berlin, Nov. 16.—During his recent visit to Brussels the Kaiser expressed himself in very decided terms regarding the contemplated international exhibition at Berlin. To the government commissioner, Geheimrat Albert, who conducted his majesty round the German section of the exhibition, he said that a similar exhibition to that at Brussels had very little chance of anything like success in the Prussian capital. There was no suitable site in Berlin for it, and the Builders were such a hard-working people that they would never find time to visit it except on Sundays.

BATTLING NELSON SAYS HE WILL "COME BACK"

San Francisco, Nov. 16.—Battling Nelson and Owen Moran, who will box twelve rounds before James Coffey's club on the afternoon of November 26, have arrived and settled in their training quarters. Moran is in fine shape, and Nelson declares he never felt better. The Dan says everyone will admit, after this bout that he has "come back." Betting is at even money.

KILLED AS HE DROVE IN AUTO WITH SWEETHEART

Lenox, Mass., Nov. 16.—George M. Root, treasurer of the Lenox Savings Bank, was instantly killed, and his brother Willis E. was seriously injured today when the automobile in which they were riding skidded on an icy road and was overturned.

Dispute Over \$10,000

New York, Nov. 16.—The Aero Club of America has received a cable from the Royal Aero Club of the United Kingdom asking that the \$10,000 prize for the Statue of Liberty flight during the recent international tournament be not awarded to John B. Moisant, pending settlement of Orsham-White's appeal.

THE WEATHER

Fresh to strong westerly winds, local showers of rain and sleet, but partly fair today and on Thursday.

FIGHT DRINK AND TOBACCO IN THE SCHOOLS

Proceedings at the National W. C. T. U. Convention in Baltimore

Baltimore, Md., Nov. 15.—At the W. C. T. U. National Convention today the report of the department of scientific temperance instruction, by Mrs. E. S. Davis of Wisconsin, declared that "human life and energy have been increased during the last three decades through the careful teaching in many schools of scientific truth as it relates to the problem of 'how to live.' That human life and energy might be much more increased there can be no doubt if in every school room of the nation, the truths were taught that alcohol and tobacco retard physical development, and decrease muscular and mental energy."

SEVEN HURT IN AUTO WRECK AFTER BOUT

First Thought of Dying Sport-Man is to Secure Payment of Debt He Owes

New York, Nov. 16.—Seven men were injured, three so seriously that they will probably die, when the automobile in which they were returning down town after the Walsh-Kelly boxing bout in Brooklyn early today, collided with a trolley car in Harlem.

CRISIS IN ELECTION SITUATION AT HAND IN ENGLAND TODAY

Rumored That King George Has Declined to Guarantee Creation of New Liberal Peers

Radical Press Sees Conditions Unequalled Since Days of Magna Charta—King Returns to City Again Today and Summons Privy Council—Sensational Time in London.

London, Nov. 16.—(Special)—It is rumored that King George has declined to give Premier Asquith the guarantee asked regarding creation of a sufficient number of new liberal peers to swamp the conservative majority. The rumor is apparently taken seriously by the radical press. Some leading radical papers comment significantly indicating that the possibility of the situation thus created involved revolutionary dangers unequalled by anything since the days of Magna Charta. There is a great sensation in London. The King returned to the city this morning. Political feeling is tense and the situation is greatly strained. (Times Special Cable.)

COURTESIES TO VISITING WAR VESSELS

American Fleet Welcomed Heartily By British Sailors

Portland, England, Nov. 16.—The first division of the United States battleship fleet, which includes Rear-Admiral Schroeber's flagship, the Connecticut, arrived here this morning. While coming from Torbay the American warships passed the second division of the British home fleet which was passing out. Salutes were fired. Vice-Admiral Sir William Henry May, commander of the home fleet, entertained the visiting admiral and captains on his flagship, the Dreadnought. Tonight the mayor and the corporation will give a banquet to the American officers, while a fancy ball and other entertainments for the British and American blue-jackets have been arranged. Vice-Admiral May on visiting Rear-Admiral Schroeber, was received at the Admiralty and the two returned to the latter's quarters. Later, Rear Admiral Schroeber returned the visit aboard the Dreadnought. The men of the visiting fleet will be given all the privileges of the naval command at Portland and of the sailors' home in Weymouth harbor. This is a courtesy never before granted to the men of foreign ships. The naval recreation grounds have been placed at the disposal of the Americans and rioting and sailing matches between crews of British and American ships have been planned. Gravesend, Eng. Nov. 16.—The battleship Minnesota, flagship of Rear-Admiral Murdock, the Idaho, Mississippi and Vermont comprising the third division of the American Atlantic fleet arrived here today. Mayor Davis cordially welcomed Admiral Murdock, his officers and men. Gravesend is gaily decorated.

THINK FIREBUG WAS AT WORK HERE, TOO

Barn at Head of Milkish Creek is Destroyed By Fire

There is a strong suspicion that a "fire bug" was responsible for the destruction of a barn owned by Hugh Byles, of the Central Fish Store, Sydney street, on Saturday last. The barn was situated at the head of Milkish creek, near the corner of the Point road, and at the time of the fire was filled with hay. There was quite a heavy wind blowing and it looked as though a spark from a passing train might have started the fire, which was extinguished by Joseph Morrison, which was owned by Byles. Byles today would not discuss the rumors of incendiarism in connection with the blaze. He said he placed his loss at about \$500, and carried no insurance.

ONLY TWELVE ATTEND

Not Many at Noon Day Services in Evangelical Campaign

For some reason there seems to be a slim attendance of the noon-day services being conducted by Rev. Dr. Jacoby in the Unique Theatre. Once again today the attendance was small, there being but twelve men in the audience. Dr. Jacoby made reference to this fact, however, saying that it made no difference to him, if there were only five people present as he wished to talk to good workers no matter how many of them were present.

MONTREAL FIRE

Hundred Men Out of Work; Twenty Families Homeless; \$100,000 Loss

Montreal, Nov. 16.—(Special)—Fire early today wiped out the St. Anou's sack and door factory in Sanguinet street in the north end of the city, and did damage estimated at \$100,000. More than 100 men are thrown out of work and some twenty families residing in the vicinity are rendered homeless by damage through water and smoke.

NEW SECTION OF CAPE TO CAIRO RAILWAY OPENED

Khartoum, Nov. 16.—A new section of the Cape to Cairo Railway has just been opened, namely from Wadi Meledi to Senaar, a distance of 60 miles. In January last, it will be remembered, the section from Khartoum to Wadi Meledi on the Blue Nile was opened. One train a day will run each way on the new section of the line. It is expected that the railway will reach Kosti on the White Nile, by the end of this year or early next year. A new bridge across the Nile at Kosti is now being constructed and it is in course of construction at the spot where the railway will cross the White Nile, where it will be extended in an easterly direction to Khartoum.

Strathcona Gives \$25,000

Vancouver, B. C., Nov. 16.—A cable from Lord Strathcona of \$25,000 to the Vancouver Y.M.C.A., building funds has just been received totaling up to \$400,000.

DIVORCED, ABOUT TO WED; IS KILLED AT FIANCEE'S FEET

Cleveland, O., Nov. 16.—Divorced a few days ago, and on the eve of his second marriage, Andrew E. Wyland, 33 years old, fell down the steps at the home of his fiancée, Miss Ida Farrer, last night, and broke his neck. Wyland was to have been married today, and called on his fiancée last night to discuss the final wedding arrangements. In leaving her, he mounted a flight of steps leading from the basement, stumbled at the head of them and fell headlong to the girl's feet. Laughing at what she thought was a slight mishap, she went to his assistance and found him dead.

FOOD IS TO BE STILL CHEAPER

Armour and Cudahy Both Predict Prices Will Be Yet Lower

GORN THE KEYSTONE

Bumper Crop and Slump in Price Cause of General Decline—Secretary of Agriculture Speaks on the Situation

New York, Nov. 16.—Reports from all parts of the United States show a marked decline in the price of meats and other foodstuffs. Not only has there been a decline from the Atlantic to the Pacific, but prominent packers say that prices will go yet lower. J. Ogden Armour head of Armour & Co. declared yesterday in Chicago that the prevailing price tendency was now towards a lower level. By gradual stages the bottom will be reached in a few months, Mr. Armour predicts. Edward A. Cudahy, head of the Cudahy Packing Company, in Omaha, says prices must go still lower. He attributes the declines already made and those still to come to the enormous corn crop and the sharp drop in prices of corn. Washington, Nov. 16.—Full bins of corn and oats have had much to do with the fall in prices of meats in the opinion of Secretary of Agriculture Wilson. "The present break in prices," said Secretary Wilson, "is hardly a normal market development. While it is true that we should expect downward trend of prices because of the great crops of corn and oats the present sudden drop in meats is too pronounced to be an effect from that cause altogether. I believe the drought in the southwest and the consequent shortage and high prices of hay are responsible for an unusual movement. For this season, farmers rushing to market their stocks. So it pays better to sell now than to feel through the winter. They probably are also influenced by anticipation of a lower market. "It is too soon after election to connect politics with the decline of prices. The country is full of corn and oats. That's the reason, fundamentally, for a lowering of prices."

PROPOSE TO ARM HALF OF PARIS

New Move to Get Rid of Criminal Fraternity—Terrorized By Apaches

Paris, Nov. 15.—A proposal to arm all honest men and disarm the gendarmes is under serious consideration by the Paris police who are at their wits' end to suppress that criminal fraternity, M. Honorat, chief of the Division of the Prefecture of Police, is occupying himself particularly with the project. He points out that the law forbids the carrying of arms, but in practice every carriage is armed with a revolver or two and a couple of daggers, while respectable folks as a rule go unarmed. M. Honorat proposes that for a year, prefects, sub-prefects, mayors and police magistrates should be authorized to issue a permit to every man of respectable character to carry arms, and that the police shall have power to search suspected persons for arms. In addition, he would arrange that except during working hours no one should be allowed to carry tools or implements that might be used as weapons. In order to simplify the issuing of the permits certain classes would have the right to bear arms by virtue of their office, such as the elected members of any public body, all servants of the State, whether civil or military, and all persons entitled to wear a civil or military decoration. In this way M. Honorat believes that the apaches would soon be compelled to cease their criminal activities or else would be gradually killed off. If M. Honorat's proposal is approved by the government a bill will be submitted to parliament to give it law.

REV. J. A. MACDONALD IS SERIOUSLY ILL

Toronto Globe Editor Has Blood Poisoning—Goes Under Operation

Toronto, Nov. 16.—(Special)—Rev. Dr. J. A. Macdonald, editor-in-chief of the Globe, is seriously ill at his home, suffering from a form of blood poisoning. Yesterday he had to undergo an operation.

For Paroled Prisoners

Chicago, Nov. 16.—Mrs. Maude Ballington Booth, announces that she recently fell heir to \$25,000 and that she intended to give it toward the construction of a new home for the care of paroled prisoners. Mrs. Booth said she would try to raise an additional \$15,000 for the building.

THE TIMES' NEW REPORTER

USEFUL KNOWLEDGE. St. John, N. B., Nov. 16, 1910. Dear Mr. New Reporter:—Sir:—Will you please tell me what is the penalty for spilling oil on the floor of the cabin in the ferryboat. Yours truly, THOMAS TIBBELL.

You are fined one dollar, Thomas, for directing public attention to this matter. The penalty is imposed upon you in order that you may not get around the fine by digging up nasty by-laws and making yourself a nuisance. If you had mentioned

splitting in the market, you would be fined two dollars, or four days. The civic commission reads: "Take no heed where you shall spit, for it will eventually reach the sewer, and be dug out and banish to German street, to atom the new boulevard." You should also know, Thomas, that some of us must give the Anti-Tuberculosis Association a real reason for its existence. Your line will not be tolerated.

THE TONY TERROBS. Ottawa, Nov. 16.—(Special)—In naming the new officers of the Conservative party,

Mr. Borden has not yet named the representative of Quebec. It is understood that Mr. Bourassa will be consulted, as he is held in high esteem by the provincial horn for Mr. Borden in that province.

THE TONY TERROBS. A sad-eyed poet came to the Times newspaper this morning with the following wonderful contribution:— And get up for your train at six: But the chap, worth while, is the one who can smile With 'Trinity' up to these tricks.

FAMOUS GEMS OF PROSE

TAXES By Lord Brougham

PERMIT me to inform you, my friends, what are the inevitable consequences of being too fond of glory—taxes—upon every article which enters into the mouth, or covers the back, or is placed under the foot—taxes upon everything which it is pleasant to see, hear, feel, smell or taste—taxes upon warmth, light and locomotion—taxes upon everything on earth, and the waters under the earth, upon everything that comes from abroad or is grown at home—taxes upon the raw materials taxes upon every fresh value that is added to it by the industry of man—taxes on the science which pumps man's appetite and the drug that restores him to health—or the emine which decorates the judge and the rope which hangs the criminal—on the por man's salt and the rich man's spice—on the brass nails of the coffin, and the ribbons of the bride—at bed or board we must pay taxes.

The schoolboy whips his taxed top—the boardless youth manages his taxed horse with a taxed bridle on a taxed road—and the dying Englishman, paying his taxed medicine which has paid seven per cent into a spoon that has paid fifteen per cent, flings himself back upon his chintz bed which has paid twenty-two per cent, makes his will on an eight pound stamp, and expires in the arms of an apothecary who has paid a tax of a hundred pounds for the privilege of putting him to death. This whole property is then immediately taxed from two to ten per cent. Besides the probate, large fees are demanded for burying him in the church; his virtues are handed down to posterity on taxed marble, and he is then gathered to his fathers—to be taxed no more.

THE POPULATION OF WESTERN CANADA GROWS RAPIDLY

At Least 10,000,000 Predicted For the Prairie Provinces in 1920—Two More Railroads Soon to Penetrate These Sections and Aid in Development

Before 1920 the four provinces of Manitoba, Saskatchewan, Alberta and British Columbia will have a population of at least 10,000,000. Having personally visited the most important districts of these provinces and carefully studied the changes and developments that are in progress, I make this prediction boldly, and with the confidence of an optimist, but is based upon astonishing facts that confront the investigator wherever he turns. It is not intended to consider the everyday occurrences in this region without reaching the conviction, logically and practically, that the range of attainment is entirely within.

What are some of the facts that justify this prophecy? Up to the present time one railroad, the Canadian Pacific, between the Great Lakes and the Pacific coast, has been the main artery of Western Canada in bringing in and locating the settlers, moving the crops and supplying the business needs. How well that railway has performed its service as a courier of progress is shown by its matchless record and the almost unparalleled growth that has followed its course. In 1901 Manitoba had a population of 253,211 and in 1909, 469,268—at the same ratio and without any additional facilities. Saskatchewan in 1901 had a population of 200,000 and in 1909, 300,000—the same multiplication would make more than 1,000,000 in 1920. Alberta had a population of 285,000—without a single fresh advantage this would exceed 1,000,000 before 1920—Vancouver will have a population of 1,000,000 in 1920. British Columbia had a population of 150,000 and in 1909, 300,000—the same multiplication would make more than 1,000,000 in 1920. In 1901 the population of the four provinces of Western Canada was 1,000,000—without a single fresh advantage this would exceed 1,000,000 before 1920. Vancouver will have a population of 1,000,000 in 1920. British Columbia had a population of 150,000 and in 1909, 300,000—the same multiplication would make more than 1,000,000 in 1920.

Population Follows Railroads

The present population has followed the operations of the Canadian Pacific railway; it carried the farmers out to the plains and into the valleys and showed them the way to tolerance and prosperity; it staked out the townships that are now the bustling cities; it showed the settlers how to irrigate and prosper in some districts and all with such effect that in 1909 the population of the four provinces of Western Canada was 1,000,000. In less than five years from now we will have two additional railroads opening the continent across Canada to share the burdens and the responsibilities of development with the Canadian Pacific. The completion of the Grand Trunk Pacific will be followed in the first year by the distribution of the line from Winnipeg to Prince Rupert and two years of operation will see three millions more located and prospering on this line to Hudson Bay, will create a channel of prodigious traffic to and from Europe by a new, shorter and reliable route. The Hudson Bay railway will also open an immense fertile region in Greater Manitoba and adjoining that will some day be peopled by hundreds of thousands of hardy settlers and contribute an enormous additional sum to commerce every year. North and south railroads will in less than five years traverse the western provinces adding greatly to population and production. The Chicago, Milwaukee and St. Paul will be offering a connection with the government line from the Saskatchewan River to the Hudson Bay. The Canadian transcontinental railroads have arranged to expend immediately in the western provinces the sum of \$10,000,000 in a demonstration of faith in the future that puts to rest all questions or doubts as to the rapid progress to be made. The fact that the astonishingly large net earnings of the Canadian Pacific the previous year, approximately \$24,000,000, were created by over \$11,000,000 in the last fiscal year is some evidence of the railroad energy of the Canadian West, as it was

Superior Wheat Grown

Quite recently the department of trade and commerce at Ottawa received a report from Manitoba during the past three years the export of flour from the United States to Great Britain has decreased by 12 per cent, while the export from Canada has, during the same period increased by 100 per cent. This is a result of Canada's growing harder wheat that weighs much heavier to the bushel than that grown in the States and to the low rates for milling in transit given by the Canadian railroads that take the grain from the farm and deliver straight through in flour at the seacoast. Better wheat flour rates are producing immense flour mills all over western Canada and making it difficult if not impossible for the American mills to compete for the export trade.

British Columbia contributed 60 per cent of Canada's total mineral production in 1909, including gold, copper, silver and lead. Its total mineral production to date is \$263,000,000. Alberta produced more than 2,000,000 tons of coal in 1909, and its coal fields are apparently as exhausted as those of Pennsylvania. Alberta has 500 miles of irrigation canals and 5,000,000 acres of ranching lands on which are now 250,000 horses and more than 1,000,000 cattle. The facts that have been mentioned are of endless variety and of staggering significance. Canada west is a domain with a limited past but a radiant and immeasurable future. There is land and wealth enough here to feed every mouth in Europe. With so much in its favor it can only be kept back, and my prediction of 10,000,000 population for the favored western provinces in 1920 is just as safe to wager on as an investment in the value of Canada or United States bonds the same year.

GREAT BARRINGTON BANDITS SHOOT LARBORER FROM SWAMP?

Fusillade Causes Another Search for Men Who Robbed Paymaster of \$20,000.

Great Barrington, Mass., Nov. 15—Five shots fired from the thickets into which the three bandits disappeared after holding up Paymaster Hines, of the Worcester Construction Company, and robbing him of \$20,000 in cash and checks Saturday at a gang of Italians who were laying rails near where the holdup took place, late yesterday gave a new impetus to the search for the bandits. One of the shots struck Veto Martamalli in the wrist and, piercing it, entered his abdomen. He is in a critical condition at a Pittsfield hospital tonight. The shots apparently came from the densest part of the swamp and nothing could be seen of the persons responsible. As a result, however, an armed posse was immediately organized, and the search started to flush through the underbrush. The only result was the discovery of freshly loosened earth, which had the appearance of having been turned over, and which the officers are inclined to think marks the spot where the money was hidden. It is thought the bandits are still in the place.

MUCH HORSEFLESH EATEN IN FRANCE

A Shortage of Supply and Butchers Want the Duty Taken Off

Paris, Nov. 15—While the controversy as to the extent to which horse-flesh is used for human food in Germany has attracted great attention in this country, the case of France, where probably more horses are slaughtered annually to feed the people than in Germany, has almost escaped notice. Two hundred thousand horses were required for food consumption in 1909. Only 100,000 are available, with the result that the price of horseflesh is now nearly as high as that of beef. The Syndicat General de l'Industrie Chevaline de France, the Chambre Syndicale de la Boucherie Hippopotamique de Paris et du Departement de la Seine, and l'Industrie Chevaline, which is the official organ of the various organizations that have been formed in the interests of French horse butchers, have accordingly written to the prime minister asking for an interview to draw his attention to the critical situation of the trade owing to the shortage of horse supply, and to suggest that the import duty of 25 per horse shall be temporarily suspended on horses intended for food.

World's Chief Food Source

Canada's wheat growing belt is four times greater than that of the United States and only five per cent of Canada's western agricultural area is under cultivation. There are 17,000,000 acres of wheat lands which will make these western provinces richer, more populous, more dependable for food supplies than the western states which ever have been. The center of food supremacy will change to Canada and twenty-five years more will give this country the greatest population west of Ontario. Canada west of the Great Lakes is today in the position of the United States, west of the Missouri River, in 1880, and by the time you reach the Canadian border there is practically no bad land at all and where the prairies in Canada are treeless and dry, irrigation will in time make every acre produce like a Belgian truck garden. The long sunlight of the far North grows wheat that makes white flour and better bread than any other wheat in the world.

WORLD'S CHAMPION STRONG MAN DROPS DEAD

Charles O. Breed, of Lynn, Who Never Met Defeat in Tests of Strength, Stricken With Heart Disease.

Lynn, Mass., Nov. 15—Charles Orrin Breed, of this city, formerly world's amateur champion strong man, and one of the most prominent Methodist Episcopal laymen in New England, dropped dead from heart disease on Elm street, this city, today. Three years ago Mr. Breed was examined by Dr. Sargent, of Harvard University, and pronounced to be perfect so far as physical proportions were concerned. Mr. Breed was 64 years old. As a young man he became famous for his extraordinary strength, and he had traveled throughout the country giving exhibitions of muscular prowess, meeting strong men everywhere, and never once being defeated in strength tests. It is said of him that he could lift a barrel of flour and hold it at arm's length above his head. He was one of the founders of the Lynn Y. M. C. A. and had held a number of offices in various organizations connected with the Methodist church. He had served in the Lynn board of aldermen. He is survived by a widow.

A FORWARD STEP

That the state is responsible and should assume the task of stamping out tuberculosis was the keynote of the Society for the Prevention and Cure of Tuberculosis, held in the Board of Trade rooms last evening.

The figures presented by Dr. Smith L. Walker of Truro were sufficiently startling to arouse the most indifferent to a sense of the immense loss these provinces sustain every year through the ravages of a disease which is preventable.

It appears that the province is to have a small sanitarium, for the treatment of incipient cases of tuberculosis. This is made possible by the munificence of a lady, who offers a palatial home and large farm for the purpose.

Of course it cannot be expected that immediate provision will be made for a large number of patients. The municipalities must be made to see, as Dr. Walker tells us they see in Truro and Colchester, that it pays to conserve human life as well as forests and water powers.

energy than to spend money on immigrants of whom a certain number are certain to prove undesirable. It will not do, however, for those who have labored to secure recognition of the principle of state action to rest on their oars.

MR. BORDEN IS DESPERATE

The Conservative press announces with a great flourish of trumpets that "the most complete and drastic policy of re-organization of the Conservative party has known since before Sir John Macdonald died has just materialized."

The names of the new officers of the party are: George H. Perley, chief whip; T. W. Crothers, inside whip; C. A. Magrath, chairman of caucus; and Dr. Roche of Manitoba, A. S. Goodhue of Kootenay, and John Stanfield of Truro, provincial whips.

But where is New Brunswick in this galaxy of star performers? Can it be that Mr. Crockett is not of the elect, and that Dr. Daniel's thrilling orations on Courtenay Bay are all forgotten?

Now if Mr. Borden will announce a policy that will be the same for all provinces the people will perhaps sit up and take notice. Otherwise all this is as sounding brass and tinkling symbols.

The Conservatives boasted that they would win the by-election in Digby county. The Liberal candidate won by a large majority.

The tory yarn that Canada was having a Bristol cruiser built in England is denied. The government hopes to have the new cruisers built in Canada.

The remark of Sir Hugh Graham that Canadians should not attempt to instruct the English people in matters of English politics is not altogether inappropriate at this time.

The decision taken by Dr. Jax-Hale to resign the deanery of Wells (on January 1 next) is a cause of regret rather than of surprise.

ALL DYSPESIA OR INDIGESTION GOES IN FIVE MINUTES

A Little Diapepsin Now Will Make Your Disordered Stomach Feel Fine and Healthy

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Triangule and see if within five minutes there is any trace of your former misery.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

A \$10,000 FUND FOR THE PROSECUTION OF FRAUDULENT DEBTORS Canadian Credit Men's Association Issues Report Along Several Lines of Activity Winnipeg, Man., Nov. 14.—The Canadian Credit Men's Association, held their meeting in the Royal Alexandra Hotel last week. H. H. Pigot, the president, occupied the chair, and more than 90 members attended. Different phases of the insurance problem affecting both wholesaler and retailer were discussed in length. The insurance committee submitted the draft of a pamphlet that it is intended to distribute throughout the country, pointing out the necessity and advantages of keeping fully insured and offering suggestions as to the best method of keeping properly insured. In dealing with the matter, the pamphlet points out the necessity for an annual stock taking and the keeping of a correct set of books, so that in case of a fire loss, an adjustment of the loss can easily be arrived at. It was reported that the fund of \$10,000 for the prosecution of fraudulent debtors was being largely subscribed to, and it was anticipated that before the next meeting, on December 14, that this amount would be at the disposal of the committee to take up any case where fraud is considered to have been in evidence. It was anticipated that considerable improvement would result from a conference between the managers of the mercantile agency service and the committee dealing with the subject. The clearing committee submitted a highly satisfactory report, and from the estimates for the coming year, it is expected that a considerable surplus would result from the first year's operations, notwithstanding the very heavy initial expense of organization. The committee reported that the clearing house committee report was enthusiastically received, showing as it did a large increase in the number of members, and a correspondingly increased mass of information being collected and distributed through the agency of this department. It was stated that the "Uniform Financial Statement Blank" was being largely used in dealing with the matter, and in sending these out to customers, to accompany same with the pamphlet published by the association, pointing out the advantages of retention, particularly in the rendering by the clearing house committee report.

THE CAUSE OF COLDS Good Advice Regarding the Prevention of Coughs and Colds If people would only fortify and strengthen the system, the majority of cases of colds and influenza might be avoided. These troubles are frequently due to weakness, which may proceed either from the mucous membrane, which is an internal skin of the body, or from the general weakness which causes many of the diseases to which flesh is subject. Healthy mucous membranes are essential safeguards of the body's general health. I have a remedy which I honestly believe to be unexcelled in excellence for the prevention of coughs, colds and all respiratory conditions. It is the prescription of a famous physician, who has been engaged through the use of this formula, to make medicine for the sick, whereby he has secured such a measure to try. It is to be noted that I did not attempt to make such statements and give my own personal guarantee to this remedy if I could not prove it to be the case. I see no reason why any one should hesitate to accept my word in every particular. I have two sizes of Resall's Cure-Tone, prices 20 cents and \$1.00. Sometimes a 50-cent bottle is sufficient to give the most chronic case a general feeling that the chest chronic case is relieved with an average of three large bottles. You can obtain Resall's Remedies in St. John only at my store, The Resall Store, Chas. R. Wasson, 100 King street.

GREENBACKS OF LARGE DENOMINATIONS BEING REPLACED BY SMALLER Washington, Nov. 15.—Greenbacks of denominations of \$20 and more are being fed daily into the mangle of the treasury, under Secretary MacVeagh's decision, to supplant them with dollar bills of the same variety. The change is being made at about the rate of \$1,000,000 a day, and the small bills are being sent to the subscribers to meet the demand of the banks all over the country for bills of small denominations. So great has the demand for small bills that some treasury officials are predicting that within a short time it may be necessary to convert all silver certificates into one-dollar bills. They believe that eventually all the large bills in circulation will be gold certificates.

LIBERALS WIN THE DIGBY COUNTY ELECTION Digby, N. S., Nov. 15.—Allen Blissett Wall, of Halifax, was elected in today's by-election in Digby county by the handsome majority of 287 over W. E. Van Blarcom, of Digby, the opposition candidate. Even Digby town, which is always Conservative, went against Van Blarcom today, Wall having a majority of five. In Truro, where Van Blarcom was born, Wall had 91 and Van Blarcom only 52. The Conservatives had a list of speak-bills during the campaign and did the utmost in their power to win. The tactics used on nomination day to prove that Mr. Wall had no vote, and Van Blarcom's clothes in Digby and the literature sent here from the Conservative machine in Halifax also proved a great assistance to Wall. Mr. Wall arrived here tonight and was loudly cheered. He made a brilliant address from the piazza of the Royal Hotel, being loudly applauded by the large crowd present.

CATARH OF THE STOMACH

A Pleasant, Simple, But Safe and Effective Cure for It

Catarh of the stomach has long been considered the most trying of incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery eructations, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headache, hiccups, nervousness, and a general feeling of languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will disappear.

According to Dr. Harlanston, the safest and best treatment is to use each meal a tablet, composed of Diastase, Asperin, Pepsin, a little Xylol, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarh is a local infection resulting from a neglected cold of the throat reaches the stomach, and the change therefrom passing beyond the duodenum catarrh of the stomach is set on foot, but today I am the happiest man after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found fresh, appetizing food from their use."

Stuart's Dyspepsia Tablets the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

This Boy Had Grit

(New York World). Without telling his mother that he had wounded his shoulder with his new rifle, Alfred Tessier, 15, who lives in Petersburg, set off on a three-mile tramp to New Rochelle Hospital yesterday afternoon. On the road he met his father.

"Where are you going, Alfred?" his father asked.

"Oh, to the village to get something I need," answered the boy.

His father suspected nothing, and Alfred went to the hospital, where his wound was dressed. He appeared at the table in good time for supper. Then his parents noticed that he could not use his left arm, and their inquiries brought out the story.

The boy had gone into the woods near his home to hunt chipmunks. The trigger of his rifle caught on a vine and built made a flesh wound on his left shoulder. The boy bound up the wound with his handkerchief, went home and left his rifle, and then sought the hospital.

As a matter of fact, the majority of people would like to be honest.

MARKET INQUIRY STIRRING

Loans to Officials By Mr. Potts and Stand Holders Are Told of

REFUSES TO TESTIFY

G. A. S. Hopkins Declines to Take Stand After Submitting Queries to Be Asked Witness - The Director is Questioned Again

G. A. S. Hopkins introduced a sensational document into the market inquiry at the session of the committee last night, when he refused to take the stand to make a sworn statement. He had previously handed in a list of questions to be asked the witnesses about their financial relations to the stand-holders, as well as other matters.

The recorder after reading the paper submitted by Mr. Hopkins said he regretted as much as anyone the necessity of asking questions in the dark. No question which hinted at a questionable transaction could be asked at any time without leaving a sting behind. He would, however, read over the questions so that the press and the public could get the full benefit of them and then ask his own questions founded upon them. He thought, however, that it would be fair for Mr. Hopkins to take the stand later and reveal the sources of his information.

Lawrence McGrath McGrath was next called. You or some space in the country market?

From whom had you to occupy the space? Mr. Dunham assigned it to me.

No, sir. Three years ago I bought straight from the city.

What business do you conduct in the market? Meat business.

You do some retail business? I do some retail business.

You don't cut any less than a quarter for the city engineer, took the evidence. All the members of the committee were present, besides Ald. Potts, Holder and Recorder Baxter.

Wallace Bushirk Wallace M. Bushirk was first recalled. You have made the statement in your former evidence that the lessee of the market collected both tolls and rent from you. Do you wish to stand to it?

Yes, sir. Do you mean there was ever a time when you paid rent and tolls at the same time? I did to Mr. Akerley, sometimes on Saturday nights I gave him a dollar.

Did you understand that you were paying rent and tolls at that time? Well, no, I don't remember. It was so mixed up in the time I have forgotten whether I did or not. The lessee kept the books and I did not.

Did you have any understanding before any of the auction sales of the stands that you wouldn't be called on to pay tolls? No, sir.

Was there any understanding with anyone that in the event of your not bidding at any of the auction sales you could have the occupation anyway? Well, I was talking with Mr. Dunham. He said that all the stands were sold.

Did you move down to the foot of the market? That is not quite what I meant. Was there any proposition made to you by anybody that you should not bid at the auction, and that if you didn't you would get space anyway? No.

The chairman—That disposes of one minor case—many questions are being said which are not true.

Henry McFarlane Henry McFarlane was then called. Before the examination of this witness could be commenced Mr. Hopkins rose and said: Mr. Chairman, excuse me. I have here a list of questions which I would like to have asked the witness. With these words he handed a paper to the chairman, who after glancing it over, handed it to Recorder Baxter.

At the present time, Mr. McFarlane, you occupy space in the market? Well, I have a place for a stand there.

Did you get that place? Mr. Dunham assigned it to me.

Do you ever pay anyone for your space? No, sir.

Have you ever been moved about? Yes.

Was it ever suggested to you that you should pay anyone for the space you occupy in the market? No, sir.

It has been suggested that you and some others were occupying space in the country market unfairly and the committee would like to know. What business do you carry on?

Well, my business is mostly buying hides and skins.

Do you buy to sell again in the market? No, sir. I couldn't do that. I buy for the Canadian Hide Company, for Ed. McDonald and James McDonald.

Well, you buy hides and skins in the market. Are you there for the purpose of selling anything? Yes, I sell butter and eggs.

You mean, I suppose, that you sell these things on commission? Yes, I sell by wholesale.

Suppose you consider selling a single tub of butter selling by wholesale? Yes, I sell to the consumer often that way.

Do you know of anyone else in the market selling the same way as you? I just cannot call to mind now.

Well, buying hides and skins was your principal business at all events—the others were side lines? Yes.

Was it ever suggested to you that the country market was more of a place to sell in than to buy in? Yes.

Did that suggestion ever come from officials? Yes, from Mr. Dunham, Geo. Lyman and others.

Tell us what Mr. Dunham said? Well, he told me not to buy. Did he tell you that this year? I could not say as to that.

Did he ever tell you that there was anything in the by-law to prevent you buying?

No, sir. Did he ever tell you there was nothing in the by-law to prevent your doing it? No, sir.

Did he make any objection this year? I could not say.

Well, within a year? Oh, yes.

I suppose you never made any protest to Mr. Dunham that practically any man could get the privileges of the market? No, sir; I could not afford it. It takes me all my time to make a living.

No, sir; I could not afford it. It takes me all my time to make a living. I would like to know if Mr. Dunham called your attention to the fact that the market was not a proper place for your business, why was it continued?

Loosely Conducted The recorder—I don't think that under the by-laws a man is forbidden to buy. The answer seems to be that neither the clerk nor the director knows very much about the market by-laws and that the only one who did was the lessee of the tolls. It seems that neither the clerk nor the director knows very much about the market by-laws and that the only one who did was the lessee of the tolls. The whole thing was very loosely conducted and there seems to have been very little regard paid to the by-laws.

At this point Mr. McFarlane left the stand and Ald. Potts rose to say that Mr. Hopkins had any charges to bring against either the director or Mr. Dunham of accepting bribes in connection with the administration of the market, he should do so openly. Evidence heard in the committee room sounded very differently when it appeared in the press and he thought in fairness the questions submitted by Mr. Hopkins should not be asked.

The recorder after reading the paper submitted by Mr. Hopkins said he regretted as much as anyone the necessity of asking questions in the dark. No question which hinted at a questionable transaction could be asked at any time without leaving a sting behind. He would, however, read over the questions so that the press and the public could get the full benefit of them and then ask his own questions founded upon them. He thought, however, that it would be fair for Mr. Hopkins to take the stand later and reveal the sources of his information.

Lawrence McGrath McGrath was next called. You or some space in the country market?

From whom had you to occupy the space? Mr. Dunham assigned it to me.

No, sir. Three years ago I bought straight from the city.

What business do you conduct in the market? Meat business.

You do some retail business? I do some retail business.

You don't cut any less than a quarter for the city engineer, took the evidence. All the members of the committee were present, besides Ald. Potts, Holder and Recorder Baxter.

Why send anyone or why tell anyone to see Mr. Potts? Well, I accorded Mr. Potts the same privileges as the other lessees of the market.

If that was all, how did you get the idea that Mr. Potts was disposing of stands? I got it from Mr. Hamm.

Well, would you think that a correct thing for Mr. Potts to do? I would not like to answer that question—if it was right or wrong.

How did you look at the matter? I thought that after the sale of the stands by the city if anyone wanted space it was between them.

You had no idea that either Mr. Akerley or Mr. Potts had bought both the right to collect tolls and sell space? Yes, I occupied part of the racks in the centre aisle.

What business do you conduct in the market? Meat business.

You do some retail business? I do some retail business.

stand-holders in the country market? Well, yes I have, a little.

Tell us from whom you borrowed. I think it would be fairer for Mr. Hopkins.

Well, Wisely, I will say that I am as sorry as any man can be to ask these questions, but I think it would be in your own best interests to raise no objections. Tell us all the stand-holders from whom you borrowed cash.

Well, I never borrowed anything from the holders of commission stands. Well, what still holders?

I borrowed a few dollars from O'Neill Bros, but I paid them back.

Yes, any others? John McDonald, Jr. Yes, Christopher Kane. Any other?

Well, you borrowed cash from these three. Did you get any notes or endorsements? No.

Did you borrow cash from any of the other occupants of the market? No, not to my knowledge. Any notes or endorsements? No.

Small Account With Ald. Potts Had you any financial transactions with anyone else in the market? Only with the three named.

Did you ever have any financial relations with the market? Yes, I had.

I think I advised him four or five years ago, that's all.

Had those financial transactions you have mentioned any relation to the work or privileges in the market? No.

Had you any financial transactions with Ald. Potts? Yes, I had.

Had that any relation to the business of the market? No.

Is that still running with Ald. Potts? Yes, a small amount.

Is it true that you cut or ordered a gas pipe belonging to the city to be tapped? I have done so in connection with repairs in the market.

Did you ever cut off or order gas to be piped to a certain stand in the market? No.

Have you had any financial relation with any employee of the market? No.

And they have not had with you? No.

John McDonald, how much do you owe him? I think about \$12.

Have you been owing him that for any time? I think about four or five months.

And Chris Kane? Thirty-five dollars. He has got my notes. And how far does that run back? I think since last spring. I could not be positive about the date.

Declined to Testify At this point the director was asked to stand aside, and the recorder suggested that Mr. Hopkins take the stand. He refused to do so, saying that he would wait till later on in the investigation. The chairman remarked that Mr. Hopkins had declined to testify.

not been subpoenaed but the recorder said that being present and being called on by Mr. Hopkins could not refuse to take the oath. Ald. Potts protested that it was unfair that the evidence should go abroad.

The recorder, however, remarked that it would not do a great deal of damage when it was known that the party who had the information refused to divulge it. The object of calling Mr. Hopkins, he continued, was simply to show what further witnesses would be necessary. The examination of Mr. Wisely was then resumed.

Mr. Wisely, referring to the matter of the stand-holders, said that the lessee of the tolls had power to rent stands, how did you get it?

From Mr. Hamm. You speak of a year ago. How did you come to see Mr. Fenwick?

Don't remember sending him to Mr. Potts.

Ald. Potts, by permission of the committee, asked the director if it was not an account of special privileges the lessee was supposed to enjoy, that the price was raised \$100.

Mr. Wisely said that the reason the price was raised was that the council had passed a resolution to that effect.

Ald. Potts then asked if the director had at any time borrowed money or notes from any alderman except himself. The reply was in the negative.

What are the particulars of your transactions with Ald. Potts? Well, on about time ago I asked him for \$100 on a note.

When did that begin? About \$25.

That transaction was after Ald. Potts became lessee of the tolls?

Yes, I had.

RHODES' GREAT DREAM

Amazing Scheme, as Outlined in Secret Will is Now Described By W. T. Stead—A World British Union

(W. T. Stead in New York American.) London, Nov. 13.—When I published the last will and testament of Cecil John Rhodes I was forbidden to publish the text of his first will, which no one had ever seen but his lawyer and myself.

It is a curious document, embodying the dream of an enthusiastic young man of twenty-four. Many young men dream dreams, but it is seldom that they attach so much importance to their dreams as to make a will bequeathing a fortune (which they have not yet made) to a secretary of state for the realization of their dreams.

Rhodes was a man of much loftier patriotism. His dreams were ever centered in the greatness and glory of the English-speaking world. To promote that end he was, from his youth up, ready to sacrifice name, fame, wealth, life itself.

What a dream it was! His secret vision, carefully concealed from every one, confided only to the sheet of paper in the sealed envelope, which no eye was permitted to see until his own eyes were sealed in death.

Disraeli was a youth of unbounded ambition and of inordinate conceit. He also dreamed dreams of vast magnitude. But he made debts instead of fortunes, and his thoughts always centered upon the almighty I.

Nothing appalled his intrepid imagination. It is enough to take away the breath of the world. To promote that end he was, from his youth up, ready to sacrifice name, fame, wealth, life itself.

FREDERICTON MAN'S DEATH IN THE WEST

Evidence and Verdict in Inquest Into Accident Which Resulted in Charles Cliff's Death

(Winnipeg Telegram.) "Charles Cliff came to his death on November 3, 1910, between the hour of 12 and 1 o'clock p. m., by being crushed between a box car and the tender of the engine in the yard of the Grand Trunk Pacific railway.

When the inquest was adjourned last week it was for the purpose of permitting the jury to pay a visit to the yards at Transcona and see for themselves the facilities provided for the handling of this dangerous class of work.

At the previous sitting evidence had been given that there were no coal chutes or water tanks in the yards, and that the loading of an engine was carried on by running a car on a nearby switch and loading therefrom.

The jury in a body paid a visit to the yards on Wednesday, and last night were in a position to know exactly the conditions existing there.

The evidence last night was brief, and of a routine nature. Only two witnesses were examined. The first was S. W. Kerr, assistant to the general agent. He was asked to produce the order to permit the operation of the railway, but could not do so.

Dr. Peake was the last witness. His evidence went to show that the deceased had come to his death as a result of being crushed.

Throughout the enquiry the proceedings have been followed by W. H. Freeman, of the firm of Bonnar and Freeman, who firm had been engaged by the mother of the deceased.

MORNING NEWS OVER THE WIRES

The Conservative party has chosen George H. Perley, chief whip; T. W. Crothers, chairman of committees; Charles A. Magrath, permanent chairman of caucus. There will be fewer whips, John Stanfield will be leader of maritime delegation.

The Hanburg-American line steamer Chermakia is reported creeping along under sail about 600 miles east of the Bermuda. She was en route from the Persian Gulf to New York when she lost her propeller. Efforts had been made to tow her, but without success.

The minister of marine, Hon. L. P. Brodeur, has denied that one of the five new Bristol cruises ordered by the British government, is for the Canadian government, and it is understood that the dominion government proposes to adhere to its policy of having the vessels for the Canadian fleet built in Canada.

Mrs. M. A. Winslow, aged 40 years, of Boston, committed suicide by cutting her throat, rather than face charges brought by her husband in the divorce court.

The board of trade of Montreal discussed freight rates last evening and decided to lay the matter before the I. C. R. board of management with a view of having Montreal given the same rates as apply to St. John and Halifax.

A committee was appointed in Montreal yesterday to arrange with a Montreal sculptor to prepare a statue of Father LeFebvre. A statement was submitted showing \$4,000 cash on hand and \$2,000 more subscribed.

At a meeting of the Halifax exhibition association yesterday it was decided to hold the fair next year from August 29 to September 7.

A group of Nova Scotia men, mainly in Amherst, have sold to a party of New York capitalists, 456,320 acres of timber land in Labrador for a price said to be in the vicinity of \$20,000. It is said there are about 700,000,000 feet of saw logs on the property and operations will be begun at once.

Chicago, Nov. 15.—John Evans, the Cub's second baseman, has wired Manager Chance, in California, asking permission to be absent from the team for a few days in order to coach the Ann Arbor baseball squad.

Ward Will Not Run.

New York, Nov. 15.—John M. Ward, who was a candidate for the presidency of the National League last winter, will not run for that position against the present incumbent, Thomas J. Lynch, at the annual meeting next month.

CITY CORNET BAND ADD TO THEIR LAURELS

Concert in Opera House in Celebration of Anniversary a Big Success—A Tribute From The Mayor

More tangible evidence of the success and public appreciation of a local organization and the efforts of those composing its personnel could scarcely have been asked than the highly representative and enthusiastic audience that filled the Opera House last night to hear the concert given by the City Cornet Band conducted by excellent local talent—in commemoration of their thirty-sixth anniversary. From the opening address by Mayor Frink, to the last strains of the National Anthem, the event was easily the most enjoyable of its kind that has been given in St. John for a long time. The programme was well arranged, excellently rendered and carried through in a manner that reflected very great credit on both management and performers.

He expressed great pleasure at having been invited to the concert, and among those who had sung it most effectively in years gone by was Hugh Campbell. Continuing he complimented the members on their efforts as a result of which the present band stand had been placed in King street.

His worship was heartily applauded, after which the director's baton brought out the first notes, "Silver Threads Among the Gold," which was excellently rendered by the band—the older members of which many have recalled many associations of earlier days—and was enthusiastically applauded. Then followed two more band numbers, "The Grand Pageant March" from Wagner's opera Tannhauser, and the overture "Lustspiel" by Keler-Bella, after which M. T. Morris sang most acceptably the Toronto Song from the opera Carmen, responding to a vigorous encore with the dainty Irish song "Och, the Dear Little Girl."

Then came a band selection from Lehmann's popular opera the Merry Widow, Miss Cassin's "Queen's vocal solo "Vortex" ("Could I") elicited a hearty encore, which was followed by a cornet solo—Grand American Fantasia by Rollman, played by D. J. Gallagher, who is widely known as a cornet soloist of no mean ability, and his performance last night upon the magnificent instrument recently presented to him, held his audience spell-bound into the triple-quick work in the variation, when their enthusiasm gave way to deafening applause. As an encore Mr. Gallagher played most effectively, "Believe Me if All Those Endearing Young Charms."

J. A. Kelley, in the tenor solo "Eleanore," as usual, delighted his hearers, and was obliged to sing a second time. Then followed a band selection from Verdi's opera "Rigoletto," after which Miss Jessie C. Wetmore won fresh laurels in the vocal number, "He was a Prince," and had to respond. A reading by A. W. Baird, from Drummond's "Lakhtant" was also well received, and as an encore number he gave a patriotic selection.

Just prior to the concluding number James Connelly, the band's popular president, gave an interesting address in which he referred to the early days of the band, its growth, its excellent work and its success, expressing his gratification at the fruits of their efforts, and pointing out that while the organization's maintenance meant an annual expenditure of about \$1,000, he had never known them to be in arrears for a cent.

"The Shamrock Guards," a burnt cork musical extravaganza, about thirty in number, appeared in dark uniforms, with red trimmings and white helmets, and delighted the audience with fancy marching, with band accompaniment of course—concluding with "The Skids are Out Today," and a bit of the popular song.

The National Anthem brought a most delightful evening to a close.

The band selections, without exception, were rendered in a manner that spoke volumes for both director and bandmen.

WEAK, RUN DOWN, WORN-OUT MEN

Why will you be weak? Why do you go on from day to day when you know you are losing your nerve force—your manhood—when you see a cure within your grasp? Do not delay a matter which is the key to your future happiness. Whatever your condition today, you will not improve as you grow older. Age calls for greater vital force, and the older you get the more pronounced will be your weakness.

I have the grandest invention of the age for weak, run-down, worn-out men; the surest and easiest cure for all nervous and chronic diseases. Its wonderful power is directed to the seat of the nervous system, through which its vitalized strength penetrates into all parts of the body, carrying new life to every function which has been weakened by disease or dissipation, restoring energy to the brain and power to the system. No weak man will regret a fair trial of the invigorator.

DR. McLAUGHLIN'S ELECTRIC BELT

It will make you strong. It will send the lifeblood dancing through your veins. You will feel the exhilarating spark warm your frame; the bright flash will come to your eye, and a firm grip to your hand, and you will be able to grasp your fellow-countryman and feel that what others are capable of doing is not impossible for you. This grand appliance has brought strength, ambition and happiness to thousands of men in the past year.

It is the one sure remedy for Rheumatism, Weak Back, Weak Kidneys, Weak Stomach, Varicose, loss of power in young or old, neuralgic ailments, as well as Dyspepsia, Constipation, etc. How can anyone remain in doubt as to the value of this grand remedy when you see so many cures by it?

To prove to you the confidence I have in the curative power of my Belt, I am willing to accept your risk, and after I have used you, then pay me. All I ask is reasonable security. You may then use my Belt at your ease, and if I DON'T CURE YOU MY BELT COMES BACK TO ME

You about the time you spent on it—wearing it while you sleep—nothing more.

233 Prince William Street,
St. John, N. B.

Dear Sir—It is with pleasure I write you a few lines to say that I am well pleased with the use of your Belt. I am feeling and looking better; I can sleep better and can eat my food with pleasure. My kidneys and heart are well, and I have no more of those fainting spells I did formerly. The night losses have disappeared, and I do not have those pains in my back, which I have had since I was a young man. I have strong faith in your remedy, and I thank you for it. I am glad I took your advice, as I had to any one in need, and shall do so to all who will let me help them. I am, Sir, your obedient servant,
WILLIAM FREDA,
Chester, N. S.

Dear Sir—I want to say that the Belt I purchased from you has done me all you claimed it to do; yes, even more. I have the Belt a good three months' trial, and I feel that I cannot thank you enough for the Heavenly sent Belt, which has taken away all my suffering from Rheumatism. I can, with a clear conscience, recommend it to any one in need, and shall do so to all who will let me help them. I am, Sir, your obedient servant,
WILLIAM FREDA,
Chester, N. S.

Dear Sir—Please forward me one of your Books, as advertised.

AMUSEMENTS FOR OURSELVES AND OTHERS

GEM.

It is not usual that a strong western drama with exciting incidents and interesting plot is produced without a subplot being fired or a blow struck, yet this is what has happened in "The Mystery of Lonely Gulch," the first frontier story shown in motion pictures at the Gem Theatre today. In this respect, and in the nature of the plot and its fulfillment, the picture is different from any western previously shown. An air of mystery is carried throughout the picture until the dramatic climax.

Four other splendid films are presented, "The Heart of a Clown," a story of the electric magnet, "A comic trick picture," and "Edith's Avoirdupois," one of the best Vitagraph comedies of recent release. It will especially appeal to stout people, but is humor will be pleasing to all.

The musical and singing programme will be well up to the standard, and a thoroughly good show is promised. A concert matinee on Saturday is promised.

THE UNIQUE.

"A Trip to Peking," showing the most interesting spots in China's capital will be given this evening. A comic trick picture, today and tomorrow. Gorgeously colored and photographed, this feature is an unusually interesting one. "A Buffalo Fight," is beautifully hand-painted and produced with the skill of the firm of Pathe and Freres. A downy "Max in the Alps," will depict that individual's amusing experiences in the snow drifts, and a strong drama, "Outwitted," will close a programme the Unique boasts of. F. Louise Tufts whose pleasant engagement is drawing to a close has a pretty and dainty Irish number. The photos taken Saturday afternoon turned out fine and all who attend the afternoon performance will be strong Irish numbers. The photos taken Saturday afternoon turned out fine and all who attend the afternoon performance will be strong Irish numbers.

THE LYRIC.

The acrobatic and gymnastic performance by the Babberts at the Lyric Theatre is being appreciated as again last night the house was filled at each session by people who seemed to be delighted at their wonderful exhibition. On Thursday, Welford and Black will be seen in a big western comedy dramatic playlet, "The Bandit." The scene of this charming sketch is laid in the hills and plains so that the settings may be expected to be out of the ordinary. Miss Welford is the possessor of an elaborate wardrobe and will display some fine examples of the dressmaker's ability. A fine new lot of animated features, thrilling stories and dainty comedies will be shown today, a subject from the new firm of Nestor. "The Silver Plume Mine," being the leader. An interesting I. M. P. will be seen in the drama, "The Deciding Vote."

THE STAR.

No class of picture play, book story or real drama clinches the unalloyed interest like those of Russian intrigue and political excitement. Tonight at the Star Theatre, North End, the stirring story "From Tyranny to Liberty" will be put on a tale in which Mlle. Pilee-Moria, the famous French pantomimist, takes a leading role. There will also be a fine war story of the American civil struggle entitled "Two Boys in Blue" and a couple of side-splitting comedies, "Who's Who?" or "The Boxer and the Pastor" and "Where is My Purse?" a screen from start to finish. Corinne Nevin will be heard in a new song.

Dan McDonald of Cape Breton won the swimming bout from Young Gutch, of Philadelphia, in Marysville last evening. McDonald threw the American twice inside of 48 minutes.

Few women are as handsome as they think men ought to think they are.

WEDDINGS

Paisley-Lanney.

A very pretty wedding was solemnized at the home of A. Paisley, 107 Main street, last night, when Ernest Hartley Paisley, of Hanquata, was united in marriage to Cynthia Florence Lanney, of Cold Creek, Queens county. The bride was attired in a dress of cream silk with white satin trimmings, and was attended by Miss Jean McKinlay, who wore a dress of man's veiling with blue lace trimmings. Rev. B. N. Nobles officiated. After the ceremony a supper was served. Mr. and Mrs. Paisley will leave for their future home in Hanquata on the Elaine this morning. The bride's going away dress was of blue broadcloth and a hat trimmed with gold. Many useful presents were received by the young people.

Harding-Miller.

The marriage of Charles Edward Harding to Miss V. E. Miller of the west side, was solemnized last evening by Rev. David Hutchinson at his home, Douglas Avenue. Mr. and Mrs. Harding will reside in the West Side.

J. L. Armstrong, chief engineer of the Hudson Bay Railway survey party in Ottawa conference with the minister of railways relative to the results of the last season's work. He says that surveys of the road are now complete.

THE FALLS FATALITY

Developments last yesterday afternoon made it seem practically certain that the body which a woman passenger on the Montreal train yesterday reported seeing floating in the Reversing Falls was that of Robert Burns, caretaker of the Suspension Bridge. He had been working on the bridge at his house and it is feared fell from a platform and rolled down the steep river bank, eighty feet, into the water. It is thought the accident was due to the unsafe condition of the platform over which he had to pass.

Mr. Burns was about 65 years old, and is survived by his wife. It is feared she will not withstand the terrible shock. One son, George, of Montreal, and one daughter, Mrs. C. Tower, of Cranston Avenue, also survive.

MORNING LOCALS

Stephen Stevens, of Carleton, employed in Randolph & Baker's mill, was found yesterday lying in the basement of the mill with a bad scalp wound. He does not know how the accident occurred. Dr. Macfarland, of Fairville, dressed his wounds.

Mr. Deschamps-Vivement, of St. Pierre, Mig., who with his wife, is at the Dufferin, said yesterday that there was a great scarcity of fish around the place, and the fishermen were suffering from the serious conditions.

Mrs. Charles Paul, of Beaver Harbor, was found on Monday evening almost buried to death from a cause which is not known as yet. She was almost dead when found and died about two hours later. Her husband was away from home at the time. Mrs. Paul was about fifty years old, and besides her husband, is survived by one son, Allen.

The annual meeting of the St. John Firemen's Mutual Relief Association took place in the hook and ladder rooms in King street east last night. The following officers were elected: President, G. G. Drake; vice-president, Oliver Thomson; chairman, E. D. Ring; treasurer, T. J. McDonald; secretary, W. S. Vaughan; trustees, John Kerr, W. H. Downman, C. H. Jackson, James Dinmore, F. Heans, F. Kee, H. McBeath.

HAD KIDNEY TROUBLE.

COULD NOT CROSS THE FLOOR PAIN WAS SO GREAT.

Miss Hazel Hess, Winchester Springs, Ont., writes:—"I was troubled with my kidneys for five years. They were so bad, at times, I could not cross the floor for the pain. The doctor could not do any good, and a friend advised me to use Doan's Kidney Pills. I bought six boxes and now I have been cured for over four years, with the minister of railways relative to the results of the last season's work. He says that surveys of the road are now complete.

No wonder they are strong and healthy unless they are well. When the kidneys are ill the whole body is ill, for the poisons that the kidneys ought to filter out of the blood are left in the system. The important thing is to see to it that this system of sewerage is not clogged up. There are purely vegetable medicines, realising quick, permanent relief, without any after ill effects. A medicine that will absolutely cure backache and all forms of kidney and bladder trouble.

Doan's Kidney Pills are 50c. per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

Her Face and Body Were Utterly Covered With "BOILS."

Burdock Blood Bitters Cured Them.

Mrs. John H. King, Johnston, N.B., writes:—"Last summer I was very much troubled with boils, and my face and body were literally covered with them. A friend advised me to take Burdock Blood Bitters. I got three bottles, and before I had taken all the first one my boils began to go away. I had just taken a few doses out of the last one when they all disappeared. My husband has also used Burdock Blood Bitters and much benefited.

Boils in themselves are not a danger, our trouble, but still, at the same time, are very painful. They are caused entirely by bad blood, and to get rid of them it is necessary to get the blood in good condition. For this purpose there is nothing so equal that old and tried remedy, Burdock Blood Bitters. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

WINTER STAFFS ARRIVE Messrs. James Phillips, J. H. Paquet and Kenneth McKay West, of the C. P. R. winter staff in the steamship ticketing department, arrived yesterday for the winter. The other members of the staff are expected early in the coming week. I. Roth, C. P. R. interpreter to be located at Halifax, passed through the city at noon today en route there.

ASSEMBLY THIS EVENING The Outing Club this evening will hold an assembly in the O'Regan building, Mill street. Dancing will begin at 8.30 o'clock. A large number of invitations have been issued and an enjoyable time is expected. Those in charge of the affair are: F. P. Fuller, B. D. Stafford, H. G. Acheson, W. L. McNelly, G. F. P. Cunningham, W. L. McMahon, F. H. O'Leary, M. Furlong and T. E. Morrison.

A "STRIKING" CONTROVERSY During a lull in business this morning while engaged at work on the school building in the Weldon lot, Alexander Diggs and another colored man named Mayers, indulged in an argument, which became quite heated, and resulted in Diggs laying a charge of assault against his fellow workman. The case will be heard on Friday morning in the police court.

PORTLAND Y. M. A. The Portland Y. M. A. held their first meeting of the season last evening in their rooms, Main street. F. E. Whelpley, the president, occupied the chair. Monthly debates were decided on and there will be physical culture drill every Thursday. The matter of monthly lectures was also discussed and Rev. H. D. Marr, Dr. C. M. Prait and C. W. Lingley will interview some of the prominent men of the city to get speakers. The lectures will be for men, and will be delivered on Sunday afternoons in the church. A social night for the male members of the congregation will be held on Nov. 29.

MARRIED IN THE WEST. The marriage of Miss Rose McDevitt, daughter of Mr. and Mrs. Hugh McDevitt of Peterborough, N. B., to Albert Soule of Westford, N. B., took place in Davidson, Saskatchewan on October 29. The bride looked charming in a suit of brown broad cloth with picture hat to match. The ceremony was performed in the Church of England by the Rev. Mr. Dunston. The witnesses were Mrs. R. A. Dunston and G. Milnes. The groom presented to the bride was a substantial check and a diamond ring. After the ceremony Mr. and Mrs. Soule left for their future home in Kenaston.

HAYMARKET SQUARE HAS FIRST BANK

British North America Institution Opens Branch—Bank of New Brunswick Considering. A sub-branch of the Bank of British North America branch, at the corner of Union and Sydney streets, has been established at Haymarket Square, in the building occupied by Keith & Co. The new office will be under the direction for the present, of C. A. Robinson, manager of the Union street branch. The opening of a branch in this section is an indication of the faith of the banking people in the future development of that section of the city when the work at Courtenay Bay commences.

The Bank of New Brunswick has been considering the opening of a branch at Haymarket Square, but no decision has yet been reached.

DOLLAR GAS FOR ALL BUT ILLUMINATING

St. John Railway Company Make Reduction in Price to Encourage Use of Gas for Manufacturing and in the Home Kitchen.

St. John is to have "Dollar Gas" but not for lighting purposes. The directors of the St. John Railway Co., at a meeting held on Monday afternoon decided to lower the price of gas for heating, cooking and manufacturing purposes, from \$1.25 a thousand feet to \$1.00 a thousand cubic feet, less ten cents a thousand for payment in ten days from date of bill or \$1.00. This means a reduction of twenty-five cents a thousand cubic feet. There is no change in the price of illuminating gas. H. M. Hopper, manager of the company in speaking of the reduction said: "This reduction was not made by reason of any lower production costs, as these are constantly increasing, nor on account of the increased amount used, as the output is falling off every year. In fact the revenue from the gas plant has for some years not been sufficient to pay the interest on the bonded indebtedness of that plant. "The reduction is made in order to see if it is not possible to make the use of gas for household cooking and manufacturing purposes as popular in St. John as it has become in the American and western Canadian cities. "To further accomplish this purpose the company will sell gas stoves on small monthly payments and early in the spring will employ a competent gas instructor who will call at any customers home and give any information regarding the use of the stove and remain, if required to assist in the cooking of one or two meals. The company will also carry a line of special appliances for use in different manufacturing lines, such as retorts, tempering furnaces, candy machines, etc. "The company will at the outset have to meet considerable loss of revenue in the reduction of the rate on gas in St. John. It is estimated that the company will lose more than \$1,000 a thousand, but it is hoped that the increased business resulting from the lower price will eventually more than offset the loss. "The reduction will date from December 1.

INQUEST TODAY AT ST. MARTINS

Body of Man Killed in Tynemouth Creek Mill Taken There—Mr. Mosher Speaks of Accident

The body of Manford Vaughan, who died night as a result of injuries received in the explosion of the boiler in the saw mill at Tynemouth Creek, owned by J. P. Mosher, of St. Martins, was taken to the morgue this morning and an inquest is to be held this afternoon by Coroner Gilmore. "The funeral will take place on Friday at his late residence, St. Martins. "George Chatterton, formerly of West St. John, who was first reported quite seriously injured" was resting easily. He was somewhat scalded. "Mr. Mosher in talking with a Times reporter over the long distance telephone from St. Martins, said he was unable to account for the accident. The boiler was carrying only seventy-five pounds of steam and the mill was not running steadily. The boiler was tested at 175 pounds and usually worked at 125 pounds. It was only four years old and was tested a year ago last October. The mill has been cutting a few sticks of timber for breakwater work and they had about completed the job and were letting the fires die out when the explosion occurred. "The boiler was wrecked and some pieces of it were thrown quite a distance. Part of the roof of the mill was blown off, but the machinery escaped damage. He could not estimate the loss. "One of the matters for the inquest to determine, it is said, is the amount of water in the boiler at the time of the accident.

FATE OF ST. JOHN SCHOONER HAPPILY DETERMINED TODAY

Fearing Mineola Was Lost, But News of Arrival Comes to J. Willard Smith.

Fearing that the St. John schooner Mineola, with Captain Ezra Ereyrie and his wife of this city and crew, had been lost, J. Willard Smith the owner of the vessel was greatly relieved to receive word today of her arrival at Port Hawkesbury, N. S. The Mineola sailed from Restigouche on Thursday last laden bound for New York and much heavy weather had been experienced off the North Shore coast. On Monday word reached Mr. Smith that it was currently reported in Dalhousie that the Mineola with all hands had been lost off the Quebec coast. Enquiries at Dalhousie by telephone conveyed the information that a vessel was on the rocks on the Quebec shore with one mast standing and partly submerged, and the belief was general that it was the St. John schooner Mineola though Mr. Smith's information was that the schooner had passed by Dalhousie on Thursday and expressed the view that the vessel on the Quebec shore could not be the Mineola as the latter was lumber laden and could hardly be in a submerged state. Matters had to be left in this state and the best was hoped for and the schooner's owner today was a happy man when he received word from Captain Ereyrie that the vessel had arrived at Port Hawkesbury and reported no damage. It is now thought that the vessel ashore is one that was abandoned and which has drifted on the rocks.

Are You Ready For Winter?

If you think of changing your stove, or if your house was not warm enough last year you should give the stove question some consideration. A new stove put up in your house now will give you satisfaction and save you trouble in the middle of winter, for if the old range or heater is cracked and the seams are all sprung, you will be troubled with gas, and you will be using more fuel than you need without getting satisfaction. We make Glenwood Ranges to suit all purposes. We make Cabinet Glenwood, Glenwood E. Modern Glenwood, Glenwood Cook, Glenwood Oak Heaters and Furnaces. All made in St. John. No better ranges made in Canada. Come and examine them for yourselves.
