**MAIL ORDERS**  
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

**COUNCIL MEETING**  
THURSDAY EVENING  
Electric Light Meters to be Placed in Temporary Buildings in Fire District

The Town Council met in regular session last Thursday evening in the council chamber, His Worship Mayor Andrew presiding. There were also present Councillors Lunan, Pinault, Alexander, Miller, Ferguson, Quinn, and White.

The minutes of the previous meeting were read and approved.

Communication was read from J. G. Stout, Town Clerk of Bathurst, stating that in reply to the Council's letter regarding concrete roads, the council of Bathurst were not in a position to go into the matter at present. Letter filed.

Communication read from C. B. Brown, Chief Engineer of I.C.R. with regard to the proposed laying of a new main from the I.C.R. reservoir to the station, in which he thanked the council for drawing his attention to the matter, and assuring the council if the work was proceeded with, due precautions would be taken to preserve the town's water mains. Letter filed.

Communication read from Peter Clinch, secretary of the N. B. Fire Underwriters asking what was being done with regard to the removal of shacks from fire district No. 1. The Town Clerk was instructed to reply that this matter was now under consideration and he would be advised in due course when it was possible to carry this work through.

Communications read from Alphonse DeGrace, John Letourneau and Percy Gagner applying for the position of keeper of the town horses. These were all referred to the Fire Protection committee.

On motion the following reports were received and adopted and the amounts ordered paid:—

Electric Light	\$242.16
Finance	421.85
Public Property and Streets	194.21
Police and License	271.00
Water and Sewerage	576.69
Public Charities	16.10
The Protection	740.00

On motion Mr. Sanford Smith was granted a tobacco store license on payment of \$25.00.

A delegation composed of Mrs. A. A. Andrew, Mrs. W. L. Duncan, Mrs. F. Moore, and Miss Anker was received from the Women's Institute, who appeared before the Council asking for the privilege of using the hall once a month for the Women's Institute meetings. The request of the Institute was granted, to hold one meeting per month, provided they did not conflict with the other societies.

On motion it was resolved that the account for the new team of greys purchased for the town be paid.

On motion it was resolved to instruct the Electric Light committee to install meters in all the temporary buildings in fire district No. 1, provided such procedure would not be in the opinion of the Town Solicitor, prejudicial to the town's position with regard to enforcing the by-laws.

On motion the rent of store occupied by Mr. S. M. Moore was fixed at \$35 per month, beginning from 1st Dec. 1913.

Council then adjourned.

**DOMINION ALLIANCE BRANCH HERE**  
Crowds Gather in the Opera House on Monday Evening at Enthusiastic Meeting

On Monday evening, the Opera House was crowded to the doors, when a temperance lecture illustrated with lantern slides, was held under the auspices of the Dominion Alliance. Mr. A. McG. McDonald occupied the chair, and he was supported by Rev. T. P. Drumm, Rev. J. E. Purdie, Rev. C. W. Squires, Canon Smithers and others.

Rev. R. H. Stavert, field secretary of the Dominion Alliance was the principal speaker, and his address although long was listened to with marked approval. The slides which were used to illustrate the lecture added greatly to the force of the rev. gentleman's remarks, and the views were much admired. At the close of the lecture a local branch of the alliance was formed with the following officers:—

President, A. McG. McDonald; vice-presidents, Rev. J. E. Purdie, Rev. Chas. Squires, Rev. J. H. Jenner, Rev. T. P. Drumm; secretary, W. A. Trueman; treasurer, Percy Carter. The other members of the executive are William Currie, A. H. Ingram, M. P. Moore, D. R. McRae, Fred Clarke, John M. McLean, W. Sansom, W. D. Dunsan, John Collier, Ed. Alexander, and F. M. Anderson.

The first meeting is to be held on the evening of Wednesday, Dec. 10.

**ELECTRIC LIGHT IN THE SHIRETOWN**  
Dalhousie Lit by New Illuminant on Saturday—Mayor Presented With Cane.

The Younger set of men in the Shiretown of Restigouche Co., who notwithstanding the many set backs the town has met with in the past, such as the destruction of the business block of the place by fire in 1886, followed by the loss of the Restigouche Woodworking factory, which gave employment to a great number of men during the winter as well as the summer months and which has never been rebuilt, were in a happy mood on Saturday evening when electric lights were turned on for the first time without a hitch. It is only recently that the town was managed by a board of three commissioners, followed with a full town council board and one of the first acts after establishing police protection, was to give a splendid water system to the place which cost the sum of seventy thousand dollars. With this great improvement, and what was done for our harbor, by the Dominion authorities, it was felt that there was still a missing link to place our town on the same footing as other progressive towns. The chain of progress is nearly complete with the installation of our modern electric light plant.

When light was turned on, on Saturday evening, our citizens turned out en masse under the cry "We are some town". It was a very pretty sight, especially on William St., the business section, with a light on every pole a distance of over a half mile in a straight line, the scene was a bright one.

At eight o'clock hundreds of citizens assembled in the County Court House, where Sheriff James E. Stewart in the name of the people of Dalhousie, read an address to Mayor W. S. Montgomery referring to the great interest he had taken towards the establishment of recent modern improvements in the town, and presented him with a handsome gold headed cane on which was engraved the following inscription:—"Presented to Mayor W. S. Montgomery by the citizens of Dalhousie in commemoration of the installation of the electric light, November 29th, 1913."

In replying to the address, Mr. Montgomery thanked the people and spoke hopefully of the future of Dalhousie.

Others who spoke briefly and with optimism were D. A. Stewart, M. L. A., Rev. A. A. Boucher, Hon. C. H. LaBillette, L. D. Jones and E. Rene Richard. The cost of the electric light plant will be in the vicinity of thirty-thousand dollars.

**CO-OPERATION TO BE HELD AT MATAPEDIA**  
Sunday School Workers Will Have Interesting Sessions On Monday Week

At a meeting of the County Sunday School Executive, recently held, it was decided to hold a district convention at Matapedia, on Monday, Dec. 15th. The first session will open at 10 o'clock in the morning, and the afternoon session will be devoted to papers and addresses on live topics of interest in connection with the Sunday school, as well as a quiet hour of prayer and meditation on behalf of the work.

During the afternoon there will be several addresses, and the organization of the District Association will be completed. The speakers at these meetings will be Rev. J. R. Miller, Matapedia; Rev. T. P. Drumm, Rev. J. E. Purdie, Rev. J. H. Jenner, and Rev. C. W. Squires, and probably others, while Mrs. D. J. Bruce, Miss Mabel Keith and Miss Annie Anderson will read papers.

All the schools of the parishes of Admington and Eldon in Restigouche and from Matapedia to Escomine in Bonaventure, are included in this district, and are requested to send two delegates, besides the superintendent.

**BATHURST**  
Bathurst, N. B. Dec. 2nd—Miss Woods has returned to her home in Douglastown, after spending a week with her sister, Mrs. John London.

Miss Marie White and Miss Marguerite Landry have returned from Tracadie, where they were visiting Mrs. Langis.

Mr. C. M. Mersereau, made a short visit to Newcastle and Chatham last week.

Mr. H. A. Melanson returned on Friday from Montreal.

Mrs. S. Haldengraber and Miss M. Hubert have returned from a two month visit to Montreal.

Mrs. D. Duplasy of Chatham is visiting relatives in town.

Miss Agatha Melanson is visiting in Campbellton this week.

Mrs. Felix Franetich has returned from Quebec, having been called there on account of the death by drowning of her brother.

Mr. A. B. Baird of the staff of the Bank of Montreal, will leave this week for his home in St. John's (Nfld.) on a few month's vacation, which he is obliged to take on account of ill health. His many friends hope to see him return to Bathurst, much improved after his holidays.

Mr. Ernest Palmer has opened in the Second Census block a very nicely equipped pool room, which is being properly run, and which seems to fill a long felt want in our town.

Mr. Cleophas Melanson, formerly of the Royal Bank staff here, has gone to Duluth where he has obtained a lucrative position.

Mrs. John Robertson is in Charlottetown, P.E.I., this week, visiting her niece, Mrs. J. Robertson.

Mrs. Samuel Melanson spent a few days in Campbellton recently.

Mrs. O. Fenwick went to St. John during the week.

Dr. O. B. More went to Tracadie today where he will remain until Friday next.

On Thursday afternoon of this week a reception to which all of the citizens are cordially invited, will be held at the James Hamet Dunn Hospital.

Mrs. Robt. Armstrong left last week for Newcastle, where she intends in future to reside.

**BRINGING PARTY OF IMMIGRANTS**  
Mr. James Gilchrist, Provincial Superintendent of Immigration, who is now touring Scotland in company with Mr. Bowden in the interests of New Brunswick, writes that he will be able to bring a large party of settlers with him to this Province when he sails on December 10th, and that sufficient men are coming to fill all the applications from farmers here. The farmers must, however, make up their minds to take the men in the winter, even at a lower rate of wages, and keep them until the spring. Two lectures are being given nightly on New Brunswick and these are illustrated with cinematograph views and magic lantern slides. The men who will be brought to the Province are all experienced farmers and an excellent class of men. In addition a number of farmers with capital are making enquiries about New Brunswick and the opportunities here.

**A ROYAL GIFT**  
King George of England, as Emperor of India, is sending a costly and curious gift to the Dalai Llama of Tibet. The centre piece is a great teakwood casket lined with white velvet, within are a cup and platter of fine gold; then set in frames of gold autographed portraits of King George and Queen Mary. In addition there is a complete sequence of the English coinage of the current year, from a farthing to a sovereign; photographs of Buckingham Palace and the palace of Westminster in silver-gilt frames, and the whole guarded by small replicas of the Trafalgar Square lions, fashioned in 18-carat gold. The cup is a magnificent piece of workmanship, a replica of a Charles II. cup. The crown goldsmiths were specially commissioned to execute this splendid gift at their London factory. But this casket and its wonderful golden fittings are only part of the peculiar treasure now on its way to the sacred city of Lhasa. A saddle and varied cloth go with it, and rolls of varied tartans, and most peculiar of all, a complete set of the latest edition of the Encyclopaedia Britannica.

**BUSY TIMES ON INTERCOLONIAL RY.**  
Many Special Freight Trains Now Running to Halifax

The winter rush on the Intercolonial railway has commenced. On Sunday last, thirty-three special freight trains left Montreal for Halifax on that day, and five special freights were despatched from Moncton north.

The winter traffic is expected to be greater than ever this season. Much of the freight being made up of grain.

THE CALEDONIAN SOCIETY BANQUET

St. Andrew's Day Celebration Carried Out by Local Society Last Friday

Last Friday evening the members of the Caledonian Society of Restigouche observed St. Andrew's Day by holding a banquet in the Waverly Hotel here. About sixty guests sat down to well-laden tables, the president of the society, Mr. A. D. MacKendrick, taking the head of the table, supported by His Honor Judge McLatchey, Rev. J. J. McCaskill, St. John; Rev. T. P. Drumm, B. D., Chaplain of the society and His Worship Mayor Andrew. F. F. Matheson, Esq., Judge of Probate and Wm. Currie, Esq., Ex-M.P.P. acted as croupiers. There were also present Messrs M. A. Kelly, Alden Mowat, A. R. Fraser, H. R. Ackman, Moncton; R. B. Bambrick, Jacquet River; H. W. Ferguson, H. A. Carr, S. Laughlan, Max M. Mowat, Jas. P. Jardine, A. "GOD SAVE THE KING" Immediately after the soup the strains of the pipes were heard, and the Haggis was played to the table by Piper H. McLennan, the national dish being borne aloft by Marshal H. W. Ferguson, the waiters bringing up at the rear. Everyone was highly delighted with the Haggis, the Rev. Mr. McCaskill saying that it was the best he had tasted for years, and remarked that in St. John they really did not know the taste of haggis.

The dinner which was served in splendid style by Mr. Gorman's able staff was about the best that the society ever had in this town, and much praise was lavished on the table appointments. The decorations in the room were done by Messrs W. M. Ferguson and A. G. Wallace, long streamers of tartan being carried over the electroliters and up to the ceiling.

After the toast to the King, the chairman in a few well-chosen words welcomed the guests to this, the first dinner since the reorganization of the society. He recalled that the society had been first organized about twenty years ago, greatly through the efforts of a past president and honorary member, Mr. Arch. McKenzie. Mr. McKendrick further stated that the society ought to feel proud at this time, for through the efforts of the executive the membership now exceeded ninety. (applause)

The secretary then read letters of apology for absence from James Reid, Esq., M.P., and John McAllister, Esq., an honorary member of the society. Felicitous greetings were read from kindred societies in Halifax, St. John, Chatham, a d Fredericton, and copies of congratulatory messages read which were sent to Vancouver, Montreal, Chatham, Fredericton, Halifax, and St. John.

After the song "Scots wha hae" which was well rendered by Mr. H. W. Ferguson, Rev. T. P. Drumm proposed the toast of the evening, "The day we honor," coupling with it the name of

the chaplain of St. Andrew's Society, St. John, Rev. J. J. McCaskill. Rev. T. P. Drumm in his own humorous fashion told his stories yet kept the guests both grave and gay, while he briefly spoke on what St. Andrew's Day should really mean to Scotmen. One of Mr. Drumm's stories which especially tickled some of the members is worth repeating. He said that a good decent Scotsman returned to his native place, Pictou County, after an absence of nearly thirty years, and was deploring to his listeners how much the present day children had degenerated. In his day said the traveller, the children were brought up on "Porridge and the Shorter Catechism," now nothing would suit them but Tasted Corn Flakes and Eaton's Catalogue.

On rising to reply, Rev. Mr. McCaskill was given a rousing reception, after which he thanked the members of the society for the privilege of addressing them, and congratulated the executive on the success of the dinner. Mr. McCaskill got on good terms with his audience straight away his story against the Secretary being richly enjoyed by all.

In the course of a lengthy address which was intently listened to, Mr. McCaskill said that even as the Incarnate of old gave to the world the form of religion, the Romans, the form of law and order, the Greeks the form of beauty in arts and architecture, so to the Scottish nation is allowed the credit of giving to the world the spirit of Freedom, in manhood, in government and all that pertains to a national life.

From that little rocky land well named "noo," has gone out a force and an inspiration, which has been felt all over the known world. Scottish spirit and character is recognized everywhere, and it was generated in the humble homes and pious environment of the Scottish peasantry. Speaking of the men who had made Scotland famous, the rev. gentleman gave a scholarly oration on the many characters of the great Scottish poet Burns, that sweet singer of the land of heather and flood. There was no necessity for anyone to apologise for the weaknesses of the poet, living as he did in an age when he was no better and no worse than his contemporaries, great men all of them, men of even worse habits than Burns, yet no word of scandal or scorn was ever thrown on their memory. Burns in his life ever showed the worst side of himself, yet always did his duty manfully and nobly, where others of lesser mind would have turned aside. At the conclusion of his speech, the gentleman was given a great ovation.

After "Annie Laurie" had been sung as a Male Quartette by Messrs R. J. Lavoie, G. Mersereau, H. W. Ferguson, and John G. MacColl, the toast to "Our Country" was proposed by Wm. Currie, Esq., Vice-President of the society. Mr. Currie spoke of the development of Canada, especially that of the West, and said that there was nothing to hinder us in the East to go on in even a more prosperous way. Coming from one who had spent some time in the West, it was pleasant to hear, and duly appreciated, the fact, that in our own county of Restigouche and along the Matapedia Valley is found scenery second to none in this vast dominion of ours.

Replies to the toast were made by His Honor Judge McLatchey, A. E. McKenzie, W. S. Montgomery, Mayor of Dalhousie, and D. A. Stewart, M. P.

Kumfort Over-Shoes Rubbers and Over-Stockings All in One. Easy to put on and take off. Fit well. Look well—Wear well. All sizes for women and children. Buy them and protect yourself and family from winter ills. Canadian Consolidated Co. Limited, Montreal. All Dealers

Judge McLatchey spoke of the development of our country since Confederation, holding up to honor the men of that time who showed a Scottish spirit in sinking party, and uniting in a common cause to do what was best for the country as a whole.

Mr. A. E. G. McKenzie continued Judge McLatchey's theme in speaking of the growth of Canada after Confederation, showing how the environment of the Scottish homes had much to do with the development of many great minds, men who had made their mark on the roll of honor.

Mayor Montgomery in the course of his reply said that the previous speakers had dealt with our country at Confederation, and since Confederation, and he must needs go back to before Confederation. He spoke of the great pioneers, who in burning heat and winter's snow, carried on the great work of opening to civilization a great and unknown world. Building the steel path for commerce across the fractless prairie, or making a market for trade in the wastes of the frozen north, who were they? Intrepid Scotsmen every one. Mr. D. A. Stewart laughingly said that the previous speakers had stolen all his ammunition, and after congratulating the society on its attaining a new lease of life, briefly spoke of the great possibilities of our own county and the country round about us.

Mr. H. R. Smith then entertained the company to two readings given in his own excellent way. The toast to "Our Friends across the Border," was proposed by Mr. D. C. Firth, who stepped to the ill-fated Judge Botkin, owing into the breach at the last moment, taking Judge Matheson's place, the latter gentleman replying to the toast. Mr. Firth was particularly pleasing in his description of the canoe trip down the Restigouche, his remarks on the beauties of the scenery being warmly applauded by the members. Judge Matheson as Vice-Consul in reply said that he regretted the absence of Consul Botkin, who was confined to his home through illness, which although not serious prevented his appearance at the festive board. Although not able to give the members all the figures, he stated that

the exports to the United States from this consular district were increasing year by year in leaps and bounds, and our neighbors across the line had many friendships, business and social among our people here. Mr. H. Roy Ackman sang "Asleep in the Deep," acceptably. Dr. Murray then proposed "Our Toon," which was replied to by His Worship Mayor Andrew. In the course of his reply, the Mayor spoke of projects which will take up the attention of the council in the near future, among other things being the necessity for a public park, the extension of the water and sewerage systems, and the great problem of better streets and sidewalks. Speaking of the enforcement of the by-laws with regard to shade in the fire district, His Worship said that when he accepted the position of Mayor of the town, he went into the council feeling that he would be able to get this matter fixed once and for all, but alas, the law's delay were both vexatious and long, and nothing had yet been done, but he felt certain that by the spring there would be some improvement.

Pipe music was then supplied by Piper H. McLennan, after which the toast to "Our Guests" was proposed by A. McG. McDonald, Esq. This was replied to briefly by T. R. Busted, Esq., Mayor of Mann, W. S. Montgomery, Mayor of Dalhousie, and R. B. Bambrick, Esq. of Jacquet River. Mr. Busted in his reply gave a striking statement with regard to the necessity of a bridge connecting the counties of Restigouche and Bonaventure, the enormous area of territory which was served from Campbellton as a distributing centre, surprising many. He jokingly remarked that his home was three miles from Campbellton, but to get to the banquet he left home at half-past two in the afternoon, and after doing the "grand circle," arrived in Campbellton at half past nine. The bridge must come he said, not the bridge that the good God gives us every winter, but a bridge that will be open for traffic all the year round.

The toast to "Our Host" was then proposed and drunk to enthusiastically, and the evening closed with the singing of "God Save the King" and "Auld Lang Syne." After the banquet a pleasing little duty was performed by Mrs. Gorman, wife of the host, who presented each of the guests with lovely deep red roses, and a few words of appreciation.

The banquet which was one that will long remain in the memory of the members, gives the executive much heart to go forward, and plans will be made in the near future for the celebration of "Burn's Night." A meeting of the executive will be held in a few days to make arrangements for this entertainment.

Although the membership is now larger than it ever was, the executive feel that there are still a number of eligible Scotsmen who were members of the old Society, who have not yet sent in their names, and as the records of the old society were all destroyed in the fire, it is hoped that those who are interested will make application for membership before the next meeting.

As the Toronto Globe remarks, those who gloried in the frustration of Sir Wilfrid Laurier's plan to avert the most serious features of the threatened increase in the cost of living are not so joyful now as they were when the election returns came in.

OWE MY LIFE TO "FRUIT-A-TIVES"

They Did Me More Good Than All Other Treatments Combined. Mrs. H. S. WILLIAMS. PAINTERS' FORGOT, Ont., June 20th, 1913. "I really believe that I owe my life to 'Fruit-a-tives'. Ever since childhood, I have been under the care of physicians and have been paying doctors' bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old stomach trouble and distressing headaches nearly drove me wild. Some time ago I got a box of 'Fruit-a-tives' and the first box did me good. My husband was delighted and advised a continuation of their use. 'Fruit-a-tives' completely cured me. Today, I am feeling fine, and a physician meeting me on the street, noticed my improved appearance and asked me the reason. I replied, 'I am taking Fruit-a-tives'. He said, 'Well, 'Fruit-a-tives' are making you look so well, go ahead and take them. They are doing more for you than I can'. Mrs. H. S. WILLIAMS. 'Fruit-a-tives' are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

### NO LIQUOR BY POST; ANNOUNCEMENT MADE

Col. Sam Hughes Whispered it in Toronto and a Mail Man Heard it

Toronto, Nov. 29.—There will be one commodity, which is extensively manufactured in Canada, is extensively imported into Canada, and is shipped broadcast all over Canada, that will be excluded from the mails when the proposed parcel post system is inaugurated—that is liquor.

Col. Sam Hughes, moralist and militarist, is the alleged authority for this statement. He has been fraternizing with the Ontario Sons of Temperance here, and gladdened their hearts with the assurance, spoken, they say, in the Colonel's own staccato, commanding way.

### REBELS CAPTURE ANOTHER TOWN

Mazatlan, Important Port on West Coast is Taken

Mexico City, Nov. 29.—The town of Mazatlan, the most important port on the west coast was captured by the rebels, Thursday, according to authoritative information received here yesterday. It is believed that the rebels' capture of Mazatlan, a general exodus on the part of the foreigners, and many Mexicans. Practically every boat leaving carried a full list, including names of the foreigners, and what is more important if results are being obtained. But why confine the bounty system to manufacturing? Is not the homesteadier who converts the virgin prairie into wheat, oats, and who also raises good stock, doing his share in the development of a raw material? True, he is given his land for next to nothing, but for that matter the miner receives his concessions from the Government at a very low figure.

### DAIRYING, FRUIT AND COLD STORAGE

Without cold storage the dairying and fruit industries would be greatly handicapped as much valuable produce would be destroyed by decay. Under such circumstances the cost of living would have mounted much higher than it has, and there would be little hope of establishing outside markets. The Extension of Markets division are closely allied they are all grouped under a single branch of the Dominion Department of Agriculture, that of the Dairy and Cold Storage Commissioner.

This branch, under Mr. J. A. Rydick, has become a far-reaching organization extending from the milking sheds and the orchards even to the great markets of the United Kingdom. Through the Dairy division endeavours to give farmers to increase the production of their herds, instructions are issued to teach the best methods of turning out the butter and cheese. The Fruit division seeks to enlighten growers on the methods of crops, to teach correct methods of production and marketing and to establish confidence in the value of Canadian fruit. The Cold Storage service assists institutions that require refrigeration to create proper warehousing, during warm months and is given railways that carry fruit and dairy produce to maintain low temperatures in their cars; and help is provided to secure cool temperatures for export produce while on the ocean.

The Extension of Markets division exercises a close supervision over the handling of perishable farms produce in transit and, as opportunity offers, transportation companies are advised of needed improvements in their equipment. Besides other duties it keeps a careful register of the wholesale weekly prices of all manner of farm produce, and publishes these in the Annual Report of the Branch.

The duties of this branch of government service enumerated are by no means complete, but they serve to indicate the nature of the work which bears a close relation to the cost of living. They are selected at more or less random from the Annual Report for the past fiscal year, which contains a large amount of useful information. This volume, which is made up of a general review by the Commissioner and eight appendices is available to those who apply for it to the Publications Branch, Department of Agriculture, Ottawa.

### BOY SCOUTS SEARCH FOR MISSING PROFESSOR

Hamilton, Ont., Nov. 29.—Hundreds of Boy Scouts started out today to scour the nearby country in an effort to find Cecil F. Lawell, a missing Columbus, Ohio, college professor, who disappeared on Monday.

### THE BONUS QUESTION

Why Not Bonus the Greatest of Basic Industries, Agriculture?

For many years manufacturers of iron and steel, lead and other articles produced from the Canadian raw material have received bonuses from the Dominion Government. While there have been some murmurs at this policy, it has as a whole been approved by the Canadian people as tending to promote the development of our mines thus offering employment to Canadian labor. There is no doubt a legitimate basis for the bounty system if properly applied, and what is more important if results are being obtained. But why confine the bounty system to manufacturing? Is not the homesteadier who converts the virgin prairie into wheat, oats, and who also raises good stock, doing his share in the development of a raw material? True, he is given his land for next to nothing, but for that matter the miner receives his concessions from the Government at a very low figure.

AN ATTRACTIVE CHRISTMAS NUMBER With such names in the list of contributors as Archibald Lampman, Wilfred Campbell, Pauline Johnson, J. D. Logan, Jean Blewett, Arnold Haultain, Isabel Ecclestone Mackay, Madge Macbeth, Virna Sheard, Robert Barr, and Mrs. Arthur Murphy, The Canadian Magazine for December is a noteworthy number. Because of the eminence and long silence of the author, the ballad, "The Settler's Tale" by Archibald Lampman, is given first place. It is a sad tale of a pioneer who first digs a grave in the wood to bury the wife who had borne him a child, and then, after a few years, he has to dig a grave for the child. The simple pathos of this ballad is very touching. Although Lampman has been dead more than ten years, this ballad never before has appeared in print. The number is one of unusual interest with beautiful reproductions of paintings by J. W. Morris, John Russell, Archibald Brown, Laura Muniz, Lawrence Harvey, Gertrude Des Clayes, J. E. MacDonald, R. E. Johnston, and a silver medal photograph by M. O. Hammond.

### BOVINE TUBERCULOSIS REPORTED

Quebec, Nov. 29.—Reports of bovine tuberculosis in Montserrat have caused the provincial department of agriculture to send Dr. Duchesne to investigate.

### SUCCEEDED IN FINDING THE LEAK

I. C. R. Conductor and Brakeman Went Hunting For it With a Match and Got Burned

On Thursday morning, while No. 35 express was running between Moncton and Berry's Mills, on its way to Campbellton, Conductor John McGinn, of this city, thought he detected a faint odor of gas in one of the passenger cars. He summoned a brakeman, and they went about the business of locating the leak.

The sense of smell failing to run down the break, they tried the lighted match method of locating the hole and were quite successful so much so in fact that Conductor McGinn received quite a bad singeing about the head and face, while the brakeman had three fingers slightly scorched.

Mr. McGinn came back to the city from Harcourt, on No. 36, to have his burns dressed. His injuries are not at all serious, the gas flame having merely seared upon his beard and hair. His injuries, while not serious, will probably confine him to the house for a few days.—Transcript.

### FRANK HARRISON CO. DIFFICULTIES SETTLED

Made Compromise With Creditors by Aid of Family—May Resume Business

A cable received Wednesday afternoon by Mr. Neale contained the announcement of the fact that the difficulties of Frank Harrison & Co. had been settled, and that the firm was now free to go ahead in business so far as the creditors were concerned. The company was involved through the stock speculations of the principal shareholder to the extent of \$60,000, or nearly \$50,000, while the assets amounted to about \$3000. By the aid of his family Mr. Harrison was able to raise \$10,000 and with the \$3000 on hand he was able to effect a compromise with his creditors who took the \$13,000 in full settlement of his liabilities.

Whether he will be able to start in the lumbering business again is not known on this side of the water. The manner in which it has been carried on required a large amount of capital, and although the company made extremely good dividends in the past, there is some question as to whether the necessary backing can be secured. A week or two will probably settle this doubt, however, and it is much to be hoped that the company will resume operations as otherwise the effect on the Miramichi would be felt to a considerable degree.

### MISSING BIBLE BOOK FOUND

Regina, Sask., Nov. 27.—A valuable biblical book, the property of one of the Regina Odd Fellows' Lodge, had just been recovered, after having been missing for more than a year.

At the time of the cyclone on Dominion Day, 1912, the book was in a trunk owned by one of the officers of the lodge. The trunk was wrecked and its contents were strewn far and wide. The book was found on the prairie by a farmer.

### SHORT STORIES BY CANADIAN AUTHORS

There are some really excellent short stories in the Christmas Number of The Canadian Magazine. Some of the authors who have contributed are Ecclestone Mackay, author of "The House of Windows"; Virna Sheard, author of "The Miracle and Other Poems"; Robert Barr, Madge Macbeth, James P. Haverson, George Pattillo, with sketches by Mrs. Arthur Murphy, author of "Janey Canuck in the West"; Arnold Haultain, author of "Two Country Walks in Canada"; Britton B. Cooke, with illustrations from sketches by Joseph Pennington; poems by Archibald Lampman, Wilfred Campbell, Pauline Johnson, Jean Blewett, and J. D. Logan; with articles by Lionel H. Clarke ("Putting a New Front on Toronto"), and William Edward Park, ("Tecumseh: The Climax of the Indian Tragedy").

### CHRISTMAS SHOPPING

Campbellton merchants are commencing to garb their places of business with the brightness and sparkle of Christmas goods and the Christmas shopping season may now be said to have fairly started. With but twenty shopping days from now until the great festival of giving arrives the advisability of making purchases early and in good season should be impressed upon the public.

The practice of leaving the selection of gifts until Christmas week, and in many cases until the very eve of the day itself, is not only a selfish one but it is not good business. The shopper who buys now can have complete lines of new fresh goods to select from. These stocks are gradually depleted with the approach of Christmas, until the belated one, who hopes to make a last minute selection, is working under difficulty.

There are the salesmen and shop girls to think of. It is not generally realized, though nevertheless a fact, that in principle every Campbellton store where Christmas goods are offered, the small sales during the week before Christmas total more than in any other four weeks during the year. Of course, extra help is usually engaged to cater to the throngs of gift buyers, but this by no means removes the strain upon the neck of woman behind the counter. Christmas is a holiday season, let everyone help to make it so, and in no other way can there be a greater distribution of happiness than by lightening the burden which the last minute shopping brings to the salesmen.

And in purchasing Christmas goods every person should remember that the prosperity of our city demands that as far as possible we buy our goods at home.

If you are troubled with chronic constipation, the mild and gentle effect of Chamberlain's Tablets makes them especially suited to your case. For sale by all dealers.

ROSENHEK BROTHERS'

GREAT HOLIDAY SALE!

The Autumn Season is advancing and on account of such fine Autumn weather we are compelled to make this Great Holiday Sale to reduce the large stock we have on hand by offering it to the public of Campbellton and vicinity, and sell we must regardless of cost. As people are well aware and have been satisfied with the great bargains that we have given during the month of July Sale.

We carry the largest stock in town and are offering you a splendid selection of the very latest and best stock in General Dry Goods, Ladies, Men's, Boys and Children's Clothing, Underwear, Boots and Shoes, Rubbers, Moccasins, Trunks, Valises, House Furnishings, Carpets, etc. We are cutting all prices with the exception of Stanfield's Underwear only, from 20 TO 50 per cent. cheaper than the regular price. No shrewd buyer should miss this opportunity. Compare our cut prices with others, then you can judge for yourself. We have goods to prove everything we say and hundreds of articles too numerous to mention as space does not permit.

EDITOR'S MAIL BAG

Dalhousie, Dec. 2nd, 1913.
Dear Editor,

Our town was all agog on Saturday last, when it was announced that our long-looked for electric light was to be turned on at 4 p.m. that evening.

Many doubted the event, it had been so often promised, so frequently deferred but promptly on time, at 4 p.m. our genial Mayor turned the switch, everything acted beautifully, and there was almost mid-day brilliance.

Most of the residents of Dalhousie thought this was an ordinary civic enterprise, for which they would have to dig down in their pockets and pay for with their hard earned coin, but mysterious rumours flitted about town, of something to occur in the court house at 7 p.m.

Thither, with nine other men, and a number of women, at the stated hour, your correspondent wended his weary way, to view a spectacle which certainly gladdened the heart of the gods.

The Town Secretary and several others of the paid employees, had with much labour, extracted unwilling duties, from reluctant contributors, with which they had purchased a gold headed cane, this with an address, which contained their personal conception of the Mayor's achievements they now presented.

The address in effect stated that they thanked the mayor for the well equipped and satisfactory electric plant he had bestowed on the town, for the unceasing devotion of the mayor to the work of installing it, to the great neglect of his own private affairs, complimenting him generally on his altruistic qualities, and it was their idea it might be indirectly inferred that the utility be called "The Montgomery Memorial Plant".

His Worship was apparently much affected by this public expression of the affection of the town staff. With an effort he thanked them, said his greatest delight was to serve the town of this birth, and the County of Digby without reward and to the extent of his ability.

By his deplorable silence he seemed to concur in the statement, that he was solely responsible for the town having electric lights.

Now this is the question, shall we consider this to be an ordinary town job or a Montgomery plant. Time,

ANOTHER CORRESPONDENT

An Ottawa church has extended a call to a minister named Cochrane. If reports are true, another Ottawa Minister of the same name may be extended the recall.

We judge by the newspaper pictures that Miss Wilson accepted Mr. Sayre because he looked like her father. The popular song says: "I want a girl just like the girl that married dear old Dad." That seems to be good sense and sound sentiment.

The last report from the Labor Department at Ottawa officially confirms the statement that the cost of living is much higher in Canada. As compared with the wholesale and retail prices of foods on the American side, Canadian prices are 20 per cent higher.

“MY STOMACH IS FINE Since Taking Na-Dru-Co Dyspepsia Tablets”

Mrs. J. Merkleger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why. “I was greatly troubled with my stomach,” she writes. “I had taken so much medicine that I might as well have taken any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food.”

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they’ll make you feel like a new person.

SEEDLESS APPLES FOUND AT LAST

Connecticut Farmer Finds Accidentally What Scientists Have Sought for Years

Willimantic, Conn. Nov. 18.—After years of search and experimenting by students of pomology at college and on the old farm to produce a seedless apple with success, a former New York man, Julian A. Dorrance, has discovered it in his orchard in the Village of Scotland.

Mr. Dorrance is a retired jewelry manufacturer. Two years ago he bought a farm in Scotland. He had read of the experimenting by pomologists for seedless apples, but thought little of it. His find was purely accidental. The apples, which are of the Porter variety, were picked from a tree that produced six bushels. Some of the apples differed in shape, and on opening one of these Mr. Dorrance perceived that it had no seeds. He picked out a bushel of these new-fangled apples. He says the seedless apples have the same flavor as those with the seeds; also, while the apples with the seeds are practically all gone, those without seeds are in perfect condition. Mr. Dorrance is going to store them to see how long they will keep.

News of the discovery soon reached the Agricultural Department at Washington, and A. D. Shomes, head of the pomological division of the department, has written Mr. Dorrance, saying that the department wanted all the information obtainable in regard to it. Mr. Shomes wrote that he had never seen a seedless apple and asked to have samples shipped. Mr. Dorrance has done so. Shomes says that as to how this type of apple came Mr. Dorrance does not know. He thinks that this tree has long had the habit of yielding a seedless apple and that the phenomenon was overlooked by the natives. So many things of unusual nature happen in Windham Co. that the inhabitants think little of it, alone telling about them.

It is expected that the Agricultural department will send a representative to Scotland to inspect the tree. The Dorrance baked, reduced to “sauce” or used in pies, the flavor of the seedless apple is declared to be finer than that of the seed apple.

SALVIATION ARMY

Colonel Gaskin’s visit at the Salvation Army last Thursday was very much enjoyed by everyone present, he spoke for over an hour altogether, and there was not one dull moment. Mr. Drumm and Mr. Squires were also present. After the Colonel had been speaking for a considerable time, he called on them to address the meeting. Mr. Drumm was the first to speak. He gave a glowing tribute to the Colonel’s talk, and said it was a long while since he had heard an address which he had so much enjoyed. He also brought before our minds the story of the Exile. He said the prophets previous to the Exile of the children of Israel were called Pre-Exile prophets, and after the Exile, Post-Exile prophets, and just as the Exile was an epoch in those times, and everything dated from the Exile, so the fire had been an epoch in the life of the Campbellton people, and as Mr. Drumm wittingly put it he thought he would lay claim to the title of Pre-Fire and also Post-Fire prophet.

The Colonel when speaking gave a description of the local preacher who he was converted under. He said he was tall and slim, he had a little bit of white whisker under his lower lip each side of his mouth. He looked as if he had taken a drink of new milk and left a dot of cream on either side. He had only two teeth, as a result his jaws were sunken in. His two teeth held a prominent position in the front, one on the right on the top jaw, and the other on the left on the lower jaw. When he preached he leaned over the pulpit, thumped on his Bible, and roared like a lion, and when he pleaded with the people, the tears would roll down his lantern jaws.

Mr. Squires spoke next, after Mr. Drumm. He started off by saying he did not quite answer to the description of the Methodist preacher, given by the Colonel, as he had not the two little bits of white whisker, and he had more than two teeth, and also he was not much of a roarer. But he said words to the effect that he believed in enthusiastic preaching, this he evidenced as he went along. He told us some advice an old lady gave him in his younger days. It was this: “The more you hits ‘em, and hollers at ‘em, the better they likes yer.” After this the Colonel gave a splendid talk on the Gospel, for about twenty minutes, and when closing gave the invitation for any present to accept Christ, after which the meeting was closed with “Praise God from whom all blessings flow”, and everyone went home feeling they had spent an enjoyable, inspiring and profitable evening.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall’s Catarrh Cure. Send testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall’s Family Pills for constipation.

CHANDLER

The weather has been very cold this last week and the ground is practically covered with snow. There has been skating on the dam near Molloy’s old mill for a couple of nights.

Last week a large steamer loaded with lumber from Jacksonville, Florida, for the St. Lawrence Pulp & Lumber Corporation, was in port. It was probably the largest steamer that ever docked at Rail’s Wharf. She was speedily unloaded and the only mishaps were one man having his fingers jammed and a scow loaded with lumber capsizing. The unfortunate man’s fingers were healing nicely and the lumber that fell in the river all came ashore.

The St. Lawrence Corporation now have two big locomotives travelling along, also a log loader, and between them, manage to raise quite a noise at 7 o’clock in the morning. The young people of Chandler have been enjoying themselves at numerous affairs these last couple of weeks. Mr. and Mrs. Harry Smock, formerly of Philadelphia, gave a little “lemonade party” in their house at Babos Mills a week ago. The floor in the drawing room was waxed and a few couples waited and two-stepped to the tunes of a Victrola. At 11:30 refreshments were served, and after a few more dances, the guests left, all enthusiastic over the nice time they had had.

Messrs Pattison, Scott and Curran paid their usual visit to Ste. Adelaide de Babos, Sunday evening. Mr. P. W. Wade, auditor for the St. Lawrence Corporation, decided that a little relaxation from work would be beneficial, so Wednesday night got on the train and went to Ste. Adelaide. Had tea at Dugue’s Hotel and drove back that evening.

Mrs. Harry Smock left on Monday for her home in the States. She is expected back in a couple of weeks. Mr. Smock can be heard at all times of the day whistling the old-time melody “my wife’s gone to the country.” He and Mr. Doyle are “baching” while she is away.

Mr. H. W. Racey, General Manager of the St. Lawrence Corporation, is at present away on a business trip. Mr. C. R. Taylor of Gaspe spent a couple of days in Chandler. Mr. Viall of Port Daniel is also in Chandler.

Dr. Enright spent the week end with his family in Port Daniel, and returned on Monday night’s train. Mr. Arthur Nadeau, one of the contractors for the town houses, has completed his contract. Some of the new town houses will be tenanted in a few days.

Since the Hotel Chandler has been taken over by Mr. F. X. Deraiche of Port Daniel, a marked improvement has been made in its management, and some of the boarders are quite pleased that raisin pie, (not seedless raisins), has been left off the menu under the new regime.

The Company’s boys who are sleeping in the Staff House No. 4, have been troubled all fall with a cow coming around at night; they didn’t object so much to the cow as they did to the bell she had around her neck, so one night they planned a campaign on the cow and captured the bell. It is now lying as a trophy in one of the aforesaid boys’ rooms.

The moving picture show is under construction. The proprietor is Captain Harry Dakin and we are promised the first movies by Christmas day. There will be two shows a night at ten cents a show and between the pictures songs will be rendered by some of the local talent. Mr. Myar Nadler has started to

build a rink which he promises will be ready next week.

The Railroad Construction boys gave a stag party Saturday night to a few of the “F” friends. From all reports, they had a delightful time.

Thursday, Nov. 27th, was the American Thanksgiving Day and owing to the Canadian Thanksgiving Day not having been observed by his staff Mr. Wade gave them that day as a holiday and also treated the members of his staff to a banquet in the Hotel Chandler. The private dining room was prettily decorated with evergreens and the table was laden with good things to eat. Before the guests sat down, a speech was made by Mr. Wade which called forth loud applause.

After the supper, the guests went to the Staff House where a few more gathered and a pleasant evening was spent. Mr. Wade has purchased a splendid Victrola and this, in itself afforded pleasure. At 9 o’clock ice cream and cake were served. The guests departed about 11 o’clock. The guests included Mr. and Mrs. Durrel, Misses McLellan, Nadler, Sutton, Beck, Cote, Mr. and Mrs. N. N. Rail and the Misses May, Olive, Verona and Pearl Duguey, Messrs Smock, Doyle, Pattison, Vachon, Wilbor, Rail, Halliday, Slaymaker, MacNaughton, Kennedy, Scott and Curran.

A supper was also held at the “Engineers Quarters” of the Athertham Construction Co. Thursday evening.

A Des Monies man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150.00 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain’s Liniment. Three days after the first application of this liniment he was well. For sale by all dealers.

PASPEBIAC Miss Lulu L. Miller of Port Daniel is the guest of Mrs. Edmund LeGallais of West Paspebiac.

Miss Grace Flowers and Miss Isabella Nelson were in town on the 29th. Mr. B. W. Blois who got hurt by falling off a bicycle some time ago has completely recovered and is back to work again.

Mr. Bigneil was the guest of Mr. and Mrs. O’C. Harris on the 29 and 30 ult. Miss Lulu Muser was the guest of Mrs. J. O. LeGueon on the 29th inst.

Mr. M. O’C. Harris left for Gaspe on the 1st inst. where he will remain for a couple of days.

Mr. Paquette was in town on the 29th inst. Mr. F. Jean, of Robin, Jones & Whitman will be in town for the winter.

Mr. George Alexander left for Newport on the 1st inst. Mr. Harquail was in town on the 28th inst.

Miss Florence Robinson spent the week end with her parents in Shigawake.

Mr. Chalifour was in town on the 28th inst. Messrs Frank LeGallais, L. St. John LeSeellur, Chas. De LaHaye, J. Le Heron, Jos. LeFloch left for their homes in Jersey on the 1st inst.

A vestry meeting was held in the vestry of the Episcopal church on the 1st inst. to discuss important matters. Mr. L. M. R. Caldwell of New Carlisle was down here on the 30th in his motor car. Miss Marie Prevot was out of town for a few days last week.

D. D. D. - In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands? That fluid is the famous D. D. D. prescription for eczema. The Supervising Nurses of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient. "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression." "How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid? Dr. Geo. T. Richardson frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent." To do the work, D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see! And it certainly takes away the itch at once, the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled. All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap. But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge. A. McE. McDONALD. D. D. D. Prescription—for 15 years—the standard skin remedy.

### FEDERAL GENERAL KILLS HIMSELF

#### Rabago Ended His Life After Rebels Took Victoria

Mexico City, Nov. 29.—Like General Jose Gonzales Salas, after the Battle of Reliano in March, 1912, General Antonio Rabago, military governor of the State of Tamaulipas, killed himself after losing Victoria, the capital. The suicide of General Rabago is not admitted by the Government, but the news is contained in a private telegram to his relatives here, who do not question its authenticity.

### TORONTO TO HOLD A GOOD COMMISSION

Toronto, Nov. 28.—Following in Montreal's wake, Toronto will see if it can find through a Government commission why it costs so much to live, and in doing this will begin right at home by having the heads of all the civic departments submit a statement showing the appropriations granted on the estimates of the current year, the amount expended to date, and the excess expenditures.

### GAME SEASON WAS FAIRLY SUCCESSFUL

#### Incomplete Returns Show Large Receipts For Licenses

Fredericton, Nov. 29.—This is the last day of the open season for big game hunting in New Brunswick. With unfavorable conditions in many respects, the season has nevertheless been a fairly successful one both for the guides, local hunters and from the standpoint of the provinces receipts. The season has passed without any snow hunting, and the weather in October was marked by torrential rains which made it difficult for hunters to get about in the woods while hunting. The depressed condition of business in the United States tended to curtail the number of visiting sportsmen somewhat. As the Crown Lands Department this morning, however, Col. Loggie, the Deputy Minister of Lands and Mines, stated that notwithstanding the unfavorable weather, and other conditions the season had been a fairly successful one, and it was pointed out that from the opening of the season September 15, up to the close of the "hunt" year, October 31, there had been larger receipts from game licenses this year than last year.

The receipts during this period this year were \$37,000, as compared with \$36,000 last year. The returns for the month of November are not yet available.

### A Paris Chemist Has Discovered How to Grow Hair

In Paris the ladies have, entirely abandoned wearing hats, which is due entirely to this new discovery. It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The French are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA and is being sold with a guarantee to cure dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant dressing, and is sold by your druggist. A large, generous bottle can be purchased for 50 cents. Sold at Whites Drug store.

### TWENTY-TWO KILLED IN ONE STATE IN THE DEER HUNTING SEASON

Milwaukee Wis., Nov. 14.—This year's death roll among the deer hunters in Wisconsin is the largest on record. Accidents reported up to date resulted in the death of twenty-two hunters, and the injury of twenty-three. The season will close tomorrow.

The best you can say of the average man is: He tried to do his duty.

### BECKER'S APPEAL FROM CONVICTION

#### Twenty-Five Reasons Advanced For Sparing Life of Condemned Man

New York, Nov. 29.—Twenty-five reasons why former Police Lieutenant Charles E. Becker, should not be executed for the murder of Herman Rosenthal, the gambler, will be presented next week to the state court of appeals. Becker is now in Sing Sing prison, under sentence of electrocution. His attorneys said that the court probably would devote four or five days to hearing arguments on his appeal from conviction.

"Becker," said appellant's brief, "is a victim of the greatest conspiracy of the age. He was not given a chance for his life. The effect of the ruling of the court made the trial a mockery."

One of the principal arguments on Becker's behalf, will be that Sam Scheppe, the chief corroborative witness for the state, was not an accomplice. His attorneys complain that the trial was rushed through and that Becker was convicted by public opinion.

### REQUIRE DAILY SERVICE ON N. T. R.

#### Request for More Accommodation From Patrons of N. B. Section.

It is understood that a delegation from the western portion of the New Brunswick section of the N.T.R., recently waited on Mr. F. P. Guelius, general manager of government railways, with a request that he inaugurate a daily train service on the N.T.R. west of Moncton instead of tri-weekly service, which obtains at present. Despite the fact that a heavy freight engine is sent out on the present regular N.T.R. train, it is unable to handle all the traffic offering and special trains to clean up accumulated freight are a frequent necessity. It is felt therefore that a request for a daily service is not at all unreasonable, and it is learned that the general manager is giving the matter favorable consideration.

On the Edmundston end the receipts in June last for passenger and freight business was about \$2,000, while the receipts for the month of October in the same office amounted to nearly \$7,000, showing an increase of over \$4,000 in the last four months.

### BORDEN EVASIVE ON RECIPROcity ISSUE

Washington, Nov. 29.—To an enquiry as to the possibility of negotiations between Washington and Ottawa regarding changes in the Canadian tariff of the renewal of efforts to secure a Reciprocity agreement between the United States and Canada. Premier Borden said that he had no such purpose in mind in his present visit to Washington. He did not care to make any prediction as to what was likely to happen in advance of a formal receipt of the subject by the Canadian Government.

### DECISION IN THE INSURANCE LEASE

#### Privy Council Sustains Decision of Provincial and Dominion Courts

A cable from London announced that the Privy Council has rejected the appeal of the Banque Nationale in the matter of Guimond vs. Fidelity Phoenix. The bank was represented by Fred R. Taylor, and the insurance company by J. H. A. L. Fairweather.

This was a case arising out of the burning of the lumber of one Guimond at Campbellton in 1910. The insurance companies refused to admit a claim and were sued before Judge Barry at Dalhousie. A verdict was rendered in favor of the plaintiffs, allowing them the full amount of their policies, but this verdict was, on appeal to the Supreme Court of New Brunswick, reversed, and, on further appeal to the Supreme Court of Canada, the decision of the Supreme Court of N.B. was sustained. The insurance companies were involved for some \$30,000, and a test case was taken into the courts. The Banque Nationale asked the Privy Council for the right to appeal from a decision of the Supreme Court of Canada, and this has now been refused. M. G. Todd and J. H. A. L. Fairweather for the insurance companies; Hon. J. D. Hazen and F. R. Taylor for Guimond and the bank.

### FORESTRY FACTS

A new bulletin is now available at the Forestry Branch, Ottawa, describing some simple and inexpensive methods of preserving fence-posts from decay. It has been found that the generous application of hot creosote to well-seasoned posts stripped of bark, even when only painted on with a brush, will add at least ten years to the life of the least durable woods. Many common Canadian woods which hitherto decayed too rapidly to be so used are thus made available for fence-posts. The saving in first cost and transportation more than balances the cost of treatment, while the cost of placing the post will be much less when considered as an annual charge.

### STOPPING GROUND-FIRE IN THE FOREST

Stopping ground-fires in the forest by trenching can now be easily and quickly done by planting a long string of dynamite cartridges in advance of the fire, at intervals of two feet. When these are exploded simultaneously by means of an electric current, the result is a ditch four feet wide and two feet deep, which effectually stops the fire.

Over twelve thousand letters have already been received this year at the Dominion Government Forest Nursery Station at Indian Head (Sask.), and almost two and three quarter million trees distributed for planting on the farms of Alberta, Saskatchewan and Manitoba. To accommodate this constantly increasing demand, a branch nursery has recently been established near Saskatoon. Nine inspectors supervise these prairie-farm plantations, and give personal advice to the farmers, and the Forestry Branch, Ottawa, issues bulletins free of charge to anyone interested in this work in Canada or elsewhere.

### THE GHOSTLY GIMMERING OF POPLAR CHIPS AND STUMPS

The ghostly glimmering of poplar chips and stumps, frequently observed in Canadian forests at night, is due to a fungus known as the "shoe-string" fungus, which is commonly found on rotting poplars throughout Canada. It causes a yellowish-white rot which detracts much from the value of this wood. The presence of this fungus is externally indicated by the mushroom-like bodies which cluster around the base of the trees. Infected trees should, when possible, be cut down and used for fire-wood.

### PROBABLY THE STRONGEST TIMBER IN THE WORLD

Probably the strongest timber in the world is a species of eucalyptus, known as yate, which grows to a considerable size in Australia. Its average tensile strength is 24,000 pounds per square inch; in other words a bar of this wood one inch square will (in theory, at least) hold up a weight of twelve tons. This is equal to good cast iron. No similar tests of Canadian woods have as yet been made, but at the Forest Products Laboratories, recently established by the Dominion Government at McGill University, it is proposed to investigate the mechanical properties of native tree species, with a view of determining, on a scientific basis, their utility for structural work.

### THERE ARE NOW TWENTY-SEVEN TECHNICALLY TRAINED FORESTERS IN THE PERMANENT EMPLOY OF THE DOMINION FORESTRY BRANCH.

Over 789,000,000 shingles, one half of the entire shingle production of Canada in 1912, were manufactured in B. C. Western red cedar was used exclusively.

### THE LIBRARY OF THE FORESTRY BRANCH, OTTAWA, CONTAINS OVER 1,200 VOLUMES AND MORE THAN 4,500 PHOTOGRAPHS OF FORESTRY WORK IN CANADA AND ELSEWHERE.

### REVOLTING CRIMES IN OKLAHOMA

#### Fiendish Murderer Chops Victims to Death With Hatchet

Muskogee, Okla., Nov. 29.—A mysterious murderer, who chops his victims to death with a hatchet, has made his appearance in this city and already has slain two aged business men, leaving no clue leading to the establishment of his identity.

B. F. Richardson, an elderly furniture dealer, was murdered in his place of business, about dusk Thursday and early last night E. S. Everett, a groceryman, was killed in his store, about five blocks from the scene of his former crime.

Both men were killed with a hatchet and the heads and bodies of both victims, were terribly mutilated. Other points of similarity in the execution of the two murders, have convinced the police that the two crimes were committed by the same person.

That robbery was not the motive of the murders, is indicated by the fact that the cash till in neither store was robbed.

HACKING COUGH OF TWO MONTHS STANDING

Cured by Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne. You know how hard it is to get rid of a cough that has hung on for even two weeks, let alone two months. So you will appreciate what Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne did for Mr. Patrick Holland, of East Baltic, P. E. I. He says: "I suffered from a hacking cough for over two months. I tried several remedies, but they failed to cure me. At last I tried Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne, and got such relief that I tried more, and after using three bottles was absolutely cured."

WOOD IS NOW DYED IN THE LIVING TREE

Stain is Introduced into the Trunk and Sap Carries it Upward. Staining wood by inoculating the growing tree with dye fluids is an industry described in the Independent. The staining solution is introduced into the tree by holes bored through the trunk near the ground, and the color spreads with the flow of the sap. The liquid is absorbed very rapidly. A Scotch fir was known to take up three gallons in two days.

TO ENCOURAGE PULP AND PAPER INDUSTRY

Mr. J. Hall Kelly Presents Two Bills in Legislature. Two Bills were read for the first time in the Quebec Legislature Saturday. They were presented by Mr. Kelly (Bonaventure), for the improvement of conditions for parties wishing to construct and operate pulp mills, the first being an act to allow corporations to expropriate land for the development and utilization of water power, under practically the same conditions as land is now expropriated for the purposes of railway construction, that is, the right to commence operations as soon as a guarantee, to be fixed by a magistrate, has been furnished.

THE CRATE FATTENING OF POULTRY

Practical experience has shown that crate feeding is not only a very satisfactory but also an economical method of fattening poultry. The saving in the amount of feed required to produce one pound of gain is quite marked, and the feeder is enabled to observe to greater advantage the progress being made by individual birds. He can also, if necessary, curtail the duration of the feeding period in the case of birds which have attained their maximum weight and are ready to be placed in the finishing crate.

CATHOLIC FORESTERS INCREASE RATES

Follow Lead of Independent Order and Boost the Assessments. Montreal, Nov. 24—"The rise in the fees of the Catholic Order of Foresters was the only thing that could be done," stated A. D. Quentin, one of the past officers of the C.O.F., in Montreal, in speaking of a story to the effect that members had resigned on account of the fees. "The order faced a deficit last year, and as a result the fees were raised 50 per cent. This means the rates will be the same as in the Independent Order of Foresters, and the increase was for much the same reason as the increase in the I. O. F. The rates were not adequate, before the increase."

MANY DEATHS ON INTERCOLONIAL RY.

Reports for November Show That Ten Employees Have Died. The monthly report of the Intercolonial and Prince Edward Island Railways Employees' Relief and Insurance Association shows ten deaths for the month ending November 25th, according to the report issued by Secretary Paver. RECORD SHIPMENTS FROM FORT WILLIAM

Twenty-five Steamers With 8,000,000 Bushels Aboard Sailed East Saturday. Fort William, Nov. 30—"In the final rush to get on their way down the lakes before midnight and thus avoid the necessity of having their insurance extended, twenty-five freighters carrying about eight million bushels of grain cleared for the east-to-day. All the week, ships have been lying two, three and even four abreast at the docks awaiting their turn to slip under the spouts at the elevators and the elevator men have been working anywhere from fourteen to twenty hours a day to keep the streams of grain running into the holds of the vessels."

MEN YOKED TO THE PLOW

Aged Inmates of Workhouse Made to Drag Implement. London, Nov. 25—Great indignation has been aroused in Nottingham by allegations that old and decrepit inmates of Basford Workhouse have been yoked to the plow on land belonging to the Guardians. The statements are being confirmed by several residents in Highbury Avenue, Bulwell, which overlooks the Basford Workhouse grounds.

PREMIER BORDEN BACK AT OTTAWA

His Health Much Improved—Nothing Official in His Visit to Washington. Ottawa, Nov. 29—Premier Borden and Mrs. Borden returned to Ottawa at noon to-day, after spending four weeks at Virginia, Hot Springs, where the prime minister went on medical advice to seek rest and renewed health. The holiday, with daily golf and a course of treatment at the baths, has benefited him considerably. He has returned somewhat sooner than was originally intended owing to the imperative need of his presence at the capital to again take up the reins of a burdensome administration beset with many difficulties both from without and within the party. His health is not yet completely restored but it is sufficiently improved for him to now face the prospect of a hard and trying session of parliament.

THE COST OF LIVING

"A table of statistics lately compiled by the British Board of Trade, which is known for its accuracy, has stated that the cost of living has increased 7 per cent. in Great Britain during the last decade, and in Canada 51 per cent. Now just one point here. Reflect that Canada produces yearly 200,000,000 bushels of wheat, while the consumptions is only 50,000,000 bushels, and the surplus has to find a market abroad. Up to this time practically the only market has been the market of Great Britain.

THE COST OF LIVING

"If, then, we reflect that Great Britain has to import all the wheat which she consumes, and if we reflect further that the price of wheat and the price of bread is cheaper in Great Britain than in Canada, then you have to agree with me that there must be something rotten in the state of Denmark—Canada. And we have not reached the end of the high cost of living. The cost of living will be higher in two or three months than it is today. What is the cause? The recent reductions in the American tariff, milk, cream, swine, sheep, beef and many other articles have been placed upon the free list in the United States. Therefore these products are already rushing towards the United States. We know in the matter of one alone, they are rushing abroad. Up to this time practically the only market has been the market of Great Britain.

THE CRATE FATTENING OF POULTRY

Practical experience has shown that crate feeding is not only a very satisfactory but also an economical method of fattening poultry. The saving in the amount of feed required to produce one pound of gain is quite marked, and the feeder is enabled to observe to greater advantage the progress being made by individual birds. He can also, if necessary, curtail the duration of the feeding period in the case of birds which have attained their maximum weight and are ready to be placed in the finishing crate.

carefully and systematically delved into and examined with regard to either Cameron had destroyed the letters, or he had them on his person when he vanished from the yacht. At Evelyn's request, however, I wrote copies of those two strangely enclosed, malapropos letters, as nearly as I could remember them; and save, perhaps, for possibly two or three verbal errors they were, I think, quite accurate. "And now," I asked again, "what am I to do?" It was nearly midnight, and I was leaving her, my car waiting in the sopping driveway to carry me home. "You are not to worry any more than you possibly can help," she told me, with a brave little smile. "For we are going to succeed. And tomorrow you must go to your office, and keep very, very silent about what has happened. And then you are to come here again in the evening, and I will tell you all I have learned." With which she gave me her hand to kiss, in the old little French way she had—a way that could scarcely have been a part of her convent teaching. As I came to review these matters now, it seems singular that I should have so readily consented to be guided by this girl's will in a case of such grave importance; yet I cannot but believe there was something providential both in her assumption of leadership and in my own unquestioning acquiescence. For the day of office work and silence, which she enjoined, was exactly what I needed to restore my nerves to their normal tension. It was, in fact, a sort of counter-irritant, which brought me up standing with a revived self-confidence and recuperated energy. So when, a little before five o'clock that afternoon, just as I was making ready to run for my train, I heard Evelyn's voice over the telephone, I was fairly tingling with ardor for the game; and her request to call on Professor Griffin, the expert in Oriental literature, who occupied a chair in Columbia college, and lived a mile or more back from the Greenwich station, was a welcome call to action. Very briefly she explained that she had seen the professor that morning, and had laid before him the original letter and my copies of the others, and that he had kindly promised to make a careful study of them and acquaint her with the result later in the day. She thought it better, however, that I should call upon him for his conclusions, she said, as they would probably be verbal, and she doubted her own ability to convey them to me with entire accuracy. Of course she had told him nothing as to the circumstances surrounding the letters. As they bore no dates, and were undressed, she had, had him to know they were autographic curiosities belonging to her uncle, in which we were all three interested. I had met Professor Griffin on several occasions. Once or twice he had contributed articles to The Week, and while we were scarcely intimate, we were on terms of friendly acquaintanceship. He was an oldish, white-haired gentleman, of rather the ascetic type, with long, somewhat peaked ears, and that keen, blue-eyed gaze, which seemed to bulge behind the strong lenses of his gold-bowed spectacles. He received me in his study, a spacious, book-lined room on the second floor of his old colonial stone house. "I have been deeply interested," Mr. Clyde, he began, "in the autographs and copies which Miss Grayson brought to me. They are unique specimens of English composition, in that the Oriental influence is so clearly demonstrated throughout. Do you, by any chance, know where Mr. Cameron obtained them?" I was hardly prepared for this question, but I answered as promptly as possible that they had recently come into my friend's possession, I believed, but from just what source I had not learned. The three sheets lay before him on the writing-table of his old-fashioned mahogany secretary; and now he took up one of the copies, holding it at some distance from his eyes, as though his glasses, thick as they were, were not as powerful as his sight required. "The three writings," he went on, "in the tone of a class-room lecturer, 'evidently form a series, of which, I take it, this is the first.' 'Take warning of what shall happen on the seventh day!'" I queried. "Yes. That is the first. The other of the copies, in which occurs the phrase 'once more,' is, of course, the second. And the original autograph is the last." "Exactly," I agreed. It seemed to me that all this was very obvious, but in courtesy I could not say so. "All three," he continued sagely, "begin, as you must have observed, with the same sentence, 'That which you have wrought shall in turn be wrought upon you.' That is a quotation." "A quotation!" I exclaimed, in surprise. "A quotation from Mencius, the great expositor of Confucius, who lived B. C. 372 to 289. In the original, a word meaning 'Beware' precedes the warning, and a more literal translation of the passage would be: 'Beware! What proceeds from you will return to you again.'" It seemed to me this was taking a great deal for granted. I feared that the professor, like many savants who specialize, was straining the fact to fit his theory, but he very promptly disabused me. "The supposition that the words are a paraphrase of Mencius," he explained, "would not be tenable, perhaps—the idea is not anomalous—were it not that we find running through the series, other quotations that are unquestionably of Chinese origin. The first letter, for example, concludes with: 'The ways of our God are many. On the righteous he showers blessings; on the evil he pours forth misery.' This is from the Book of History, or 'Shu King,' in which are the documents edited by Confucius himself. It usually has been rendered in this way: 'The ways of God are not invariable. On the good doer he sends down all blessings, and on the evil doer he sends down all miseries.' That is the more exact rendering. And again, in the second letter we find—" He paused a moment, taking up the second sheet, and focusing his dim eyes upon the lines. "We find, he went on, "fine words and a smiling countenance make not virtue. 'The ways of our God are many.' This is from the Lunhu, or 'Analects' of Confucius, in which the views and maxims of the sage are retailed by his disciples. 'Smiling countenance' is hardly the best translation. 'In smiling appearance is more nearly the English equivalent, and I should prefer 'rarely connected, or associated, with virtue' to 'make not virtue.'" "Those, of course, are unmistakable translations," I agreed. "And so are the concluding sentences of the third, the autograph letter," he assured me. "Say not Heaven is high above! Heaven ascends and descends about our deeds, all depending us, wheresoever we are! I find it in one of the sacrificial odes of Kau, and it is the best rendered of all the excerpts." "So your conclusion as to the authorship is—" I queried. "Chinese, undoubtedly," he answered. "These were written, I should say, by a Chinaman, educated, probably, in this country. His English is the English of the educated Oriental, but the quotations from Confucius and the commentators are characteristic. With the average Chinaman, to know Confucius is to know all; what he said is all-sufficient; what he did not say is not worth saying. Another identifying feature is the effort to make a rhyme. 'Their religion is fear.' Having concluded his exposition, Professor Griffin was disposed to enter upon a more or less lengthy discourse on Chinese character and literature in general. However illuminating this might have been under ordinary conditions, I was assuredly in no mood to listen to it at that time. The information he had given me, while it merely verified suspicions which I had held from the first, set me to speculating on the individual source of the letters; and with as modern an instance at hand I was naturally disinclined to consider the authorship of writings dating back often a thousand years and more beyond the Christian era. With what grace I could, therefore, I discouraged a continuance of the theme, and having thanked him most heartily, pocketed the notes with which he was good enough to furnish me, and prepared to depart. But as I stood at his study door, his lean, scholarly hand resting in mine, he detained me for a final word. "The symbol!" he exclaimed, his pale eyes lighting at the recollection. "You forget the symbol!" "Oh, yes," I returned, my interest revived, "that silhouette at the bottom." "It is unmistakably Chinese," he said. "I am not very familiar with the symbolism of the East, not as far as I should be, possibly; but Chinese writing, you know, in its origin, is picture writing with the addition of a limited number of symbolical and conventional designs. This figure, I should say, represents a lorcha, or small Chinese coasting junk, and you can rest assured that the threats contained in the letters were with a view to reparation for some crime or injury connected in some way with such a vessel. That is as near as I can interpret it. But if you would like to know more—if you would like to get something more nearly definite—I can refer you to one who can, I think, give you the information." "By all means," I implored, "I shall appreciate it greatly." "An authority on this subject is living not very far from here. He spent many years in China, is something of an artist himself, and made, I understand, a study of Oriental symbolism. He lives at Cos Cob, and his name is—" "Murphy!" I interrupted, as a flood of illumination swept over me. "Philetus Murphy. Yes. Do you know him?" "I have met him," I returned shortly. "And thanking the professor once more, I hurried away, with a course of action already shaping in my mind. To be Continued.

GENERAL INTELLIGENCE

Chile has 5,722 manufacturing establishments, employing an aggregate of 74,618 persons. There are in Britain 117,500 miles of telephone lines. Receipts last year aggregated \$4,439,900. Lord Kitchener has decided upon the creation of a ministry of agriculture for Egypt, and the change will be introduced this year. London, Nov. 28.—Sir Walter Raleigh presided at the meeting of the Academic Committee of the Royal Society of Literature, at which the Edmond De Palencia prize of £100 was awarded to James Stephens for his "Crock of Gold." Paris, Nov. 25.—The Academy of Sciences has decided to offer a prize of \$2,000 to the person who devises a means for domesticating the heron, in order to obtain egrettes without killing the birds. New York, Nov. 28.—There was ordered to day \$3,000,000 gold coin for shipment to Canada. This makes a total of \$11,700,000 of the present movement. The gold is being shipped by the American Exchange National Bank. High speed telegraph apparatus invented by a Hungarian utilizes a keyboard like a typewriter for sending and reproduces the messages in letters like ordinary handwriting. Daniel H. Tolman, "King of the Loan Sharks," must serve six months in the New York penitentiary for usury. The appellate division upheld the lower court, which imposed sentence. The longest paved street in the world is Washington street, Boston, which is 17 1/2 miles long. The shortest is the Rue Ble, Paris, which is barely twenty feet long. Washington, Nov. 26.—Plans for a community Christmas celebration to include a gigantic gift-bearing tree and more than 1,000 carol singers has been officially undertaken today with the permanent organization of an advisory committee to take charge of the affair. In October thirty-two thousand emigrants left the United Kingdom. Ten thousand went to British North America and ten thousand to the United States. Only nineteen per cent of the total Irish emigrants went to other parts of the Empire. Eighty per cent went to the United States. Lord Haldane tells the people of Great Britain that there is no cause for gloomy forebodings in relation to the defence of the Empire. Of course the armament makers and militia do not agree with Lord Haldane; but their motives will not command their predictions to an observant public. Sir Gilbert Parkes, who has recently been in America, travelling as far west as the Canadian Rockies in pursuit of local color for a novel that he is finishing, will contribute to the Christmas Scribner the story of The Great Mimas, in which he returns to the Hudson Bay region, where he made his first great success. Proprietors of more than 3,300 saloons in Ohio closed their doors on Saturday night in accordance with the new state regulation limiting the number of drinking places to one for each 500 of the population. The localities chiefly affected are Cleveland, Cincinnati, Columbus and Toledo. An unusual feat of moving is about to be performed in Swainscott, Mass., where a house has been sold to people in Revere. The house will be moved down to the shore, loaded on a scow, and will then take a short sea voyage to the Revere coast, where it will continue on its journey to its new location. A falling off of 5 per cent in the marriage rate and an increase of 20 per cent in the divorce rate since 1906, is causing some alarm in Germany, but as the marriages still average 7,800 to each 100,000 of population per year and the divorces average 24 per each 100,000 inhabitants, the problem is not as serious as it is in some other countries, notably France. Cleveland, O., Nov. 26.—Is the skirt coming back? The dress and skirt division of the N. H. Club, Suit, Skirt and Dress Manufacturers Association, reporting at the closing session of the semi-annual convention at the Hollenden, recommends "bustle-backs" with peg tops. The costume skirt will continue narrow at the bottom and be full at the hips.

DALHOUSIE

Dalhousie, N. B., Dec. 3rd.—On Tuesday evening Miss Bessie Delaney was hostess at the Young Girl's Sewing Club. Dainty refreshments were served and a most enjoyable evening spent. Mr. and Mrs. M. W. Doyle left for their home in Menominee, on Monday. While visiting their Dalhousie friends, they also took in Jacquet River, Nash's Creek, and Campbellton. Mrs. Doyle who taught school in the parish of Durham, Balmoral and Dalhousie in the past, was given a hearty welcome by her old friends. Mr. and Mrs. Herbert Hocquard are receiving congratulations on the arrival of a baby girl at their home on Wednesday last. Mrs. Arthur McGregor of Quebec, is visiting her sister-in-law, Miss Kate McGregor. Mr. Gregory Harquail of Campbellton, spent Sunday in town the guest of his grandmother, Mrs. Ed. Harquail. Mr. Lauria Champoux of Campbellton, spent Sunday in town the guest of Mr. and Mrs. H. A. Guignard. Mr. D. A. Stewart, M.L.A., was in town on Saturday, a guest at the Queen. Mr. R. H. Montgomery of New Richmond, P.Q., spent Sunday in town the guest of Mayor Montgomery. Mrs. Kathryn Burr and son, Moffat, left on Saturday for Chatham, where Mrs. Burr will be the guest of her sister, Mrs. W. Benson. Miss Geraldine Renaud of Campbellton, is spending a few days in town the guest of her sister-in-law, Mrs. Renaud. Mr. James C. Calderwood, a native of the Parish of Colborne, who left Restigouche, twenty-nine years ago, is now representing the Grote-Rankin Carpet Department of Seattle. He came east to visit his aged mother at River Charlco. He was formerly in the employ of George Haddow, Ex-M.P., in the store now occupied by the Dalhousie Mercantile Co. Ltd., and was in town last week the guest of Mr. Haddow. He stated that he had found great improvements made in the County of Restigouche, especially in his native parish. Mr. Walter Amy, who is spending his holidays in Dalhousie and Montreal, arrived last week from the Gaspe Coast. He stated that a large addition was being built to Baker's Hotel at Gaspe, and to the Perce Rock House, at Perce, and that the new hotel to be known as the Perce South Beach Hotel would be ready for tourists early next summer. He also spoke of the great plans made for the building up of Chandler, near the big Pabos River, where hundreds of houses would be built in the near future.

Mr. James Arseneault returns thanks to his friends for the many kind expressions of sympathy received during her recent sad bereavement, Mr. Evan Price, superintendent of the I.C.R., Campbellton, was in town on Monday. Mr. and Mrs. E. R. Gaudet spent Monday in Campbellton with friends. Mr. A. H. Hilyard, manager of the Dalhousie Lumber Co., is in New York on business. Miss Kate Anderson who has been visiting Miss Lena Haddow for some time, left on Wednesday for Campbellton.

A coin is being exhibited by Mr. Fred Phillips, which was found under the house, built fifty-eight years ago, by the late John Phillips, Ex-M.P.P., for Restigouche Co. The date on the coin is 1792, and was issued during the reign of Louis Sixteen, King of France.

A fair number of citizens from different parts of the county interested in the salmon fishing, met in the temperance hall on Wednesday afternoon, to consider ways and means to protect the salmon net industry. Among other things it was decided to add as many members to the association as possible so that the influence of the fishermen could be used to protect their rights. The salmon fishing with nets, dates back to the time when the pioneers opened up this country for settlement, and every fair measure should be adopted now to protect those who are the heirs of those who first colonized our soil.

In the contest of the "Daily Telegraph," Montreal, "What should my employer do for me? What should I do for my employer?" aroused considerable interest among the readers of that organ. Two hundred and fifty dollars were given in prizes. In Restigouche Co. some good replies were sent, as in the list of those who got honorable mention we find the following names:—Miss L. Haddow, Dalhousie; Mr. W. P. Gray, Campbellton; Mr. M. Gray, Campbellton; Miss C. F. McIntyre, Dalhousie. The name of Miss C. MacWhitter, New Richmond, P. Q., also appears in the honorable mention list in above contest.

BEFORE IT'S TOO LATE

STOP and THINK Many prosperous citizens have lost their valued possessions over night. Then they kicked themselves because an outlay of a few dollars on every thousand of valuation every few years would have left them protected and prosperous. Don't be foolhardy. Few things are as cheap as fire insurance in the beginning, and nothing may prove more costly in the end than its lack.
