On or before May 10, 1915. District No.
This ballot, to be good, must be clipped and sent to The Advertiser before the above expiry limit. Clip along edges.

FRENCH AVIATORS DAMAGE FRIEDRICHSHAFEN HANGARS AND STATIONS IN GERMANY

PARIS, April 28.—The French official statement tonight says: "During the course of the day of April 27 our aviators launched thirty-two shells on the station at Bollweier, seven miles north-west of Muelhausen, and sixty shells on the station at Chamblay, where they set fire to a depot of munitions."
"The station at Arnheim, on the Lorraine frontier, and the junction of the railways of Chamblay and Tuller court have been bombed at night."
"On April 23 one of our aeroplanes dropped six projectiles on the hangars of the dirigibles at Friedrichshafen. The aviator observed clouds of smoke rising from the roof of one hangar. Twenty-one shells have been dropped on the station, the bridges and a factory at Leopoldshafen (Haden). During this bombardment one of our aeroplanes fell within the German lines."
"Four German machines dropped. During the course of the day four German machines were pursued and reached by our aviators. One fell ablaze within the lines of the enemy near Brimont. Two others came to the earth north of the trenches—one in Champagne and the other in the region of Ancre—and were destroyed by our aviators. The fourth fell near the lines at Mulsen, west of Rheims. The two German aviators, who were not wounded, were taken prisoners."

PAPER CONDEMNS JAPAN'S ATTITUDE

Daily News Says Demands on China Violate Equal Rights.

[Canadian Press.]
London, April 29.—In an outspoken editorial article, the Daily News vigorously condemns Japan's attitude towards China. It says: "Japan's demands in their new, as in their old form, invite the threefold judgment that they conflict with the established rights of other powers, they violate the principle of equal rights, and they are inconsistent with either the integrity or sovereignty of China."
"The net effect of acceptance by China would be that China would in time become something very like a dependency of Japan, and Japan would have it in her power to drive a wedge between north and south and deny at pleasure to a central government, military means of asserting its authority."

"What Does Britain Think?"
"Now that the foreign office has so far refused itself as to allow us to know what its policy is towards China, perhaps it will be a little further and let the country know how it regards those demands. Not only are British material interests involved, but also our relations with regard to other countries."

"There need be no surprise that the Chinese are disappointed at the revised version, which does not fit in with Count Okuma's hints of serious modifications."
"Consideration Urged."
"There is not a people in the world, however mild in temper, which would not be stirred to the very depths by such demands as Japan is now pressing. The European war has given Japan a tempting opportunity, and possibly no other great power would have resisted it, but there is wisdom in moderation as well as in promptitude, and the Japanese Government would do well to consider whether it is taking a wrong view in exploiting its chance so miserably. There is the future as well as the present to be taken into reckoning."

WE WILL PAY YOU

In Style, Fit, Quality
and Finish When
You Buy From Us!
FOUR THINGS YOU SHOULD
INSIST ON WHEN YOU
BUY SHOES.

CASSELLMAN BROS.' SHOE STORE

is recognized as a store of quality. When a regular price is quoted you know the shoe was made to sell at that price. When a sale price is quoted, you know that it is exceptional value.

ATTACK OF GERMANS DEFINITELY CHECKED

Effort of Enemy To Break Through Allies' Line Near Ypres Halted, Says Sir John French—Allies Deliver Counter-Attacks.

[Canadian Press.]
LONDON, April 28.—10 p.m.—"Our operations in conjunction with the French have definitely stopped the German attack."
In these words, Field Marshal Sir John French, commander-in-chief of the British forces on the continent, announces the conclusion of another German attempt to break through the allied lines around Ypres and along the Yser Canal, which brought about one of the most sanguinary battles of the war.

This, however, only brings to an end the first phase of the battle, for the Allies have yet to win back the ground which they lost in the great German sweep. For this purpose they are now delivering counter-attacks against the German lines. Only at one place, Steenstraete, have the Germans managed to keep their footing on the western bank of the canal, while to the north of Ypres the positions remain much as they were, the Allies making no claims to an advance there, and the Germans reporting that all the British attacks have been repulsed.

To hold these lines, the Germans have brought up further reinforcements, and Belgium, behind them, has been denuded of troops. The towns and villages in Belgium are being guarded by only a handful of sentries.

British Statement.
The following British official statement was issued tonight:
"Fighting to the north and northeast of Ypres continued all yesterday. Our operations in conjunction with the French, definitely stopped the German attack, and it has not since been renewed."
"Since yesterday morning there have been no German west of the canal except at Steenstraete, where they have established a small bridge-head."

The readiness of the situation has necessitated the delivery of counter-attacks both by the French and our troops on the north of the Ypres salient. In resisting these counter-attacks, the Germans again made use of asphyxiating gases and of shells manufactured in contravention of the Hague convention."
Fighting also continues in Champagne, where the Germans make claim to the capture of a strong French position, in the Argonne and the Woëvre, where the French say they are progressing, and in the Vosges, where the French claim to be in possession of Hartman's Wellerkopf. It is probable that this mountain, which commands the plains of Alsace, has changed hands several times; this would account for the contradictory reports.

On Rifle Factory, Too.
GENEVA, Switzerland, April 28.—A French aviator yesterday threw four bombs on the Mauser rifle factory at Oberdorf, near Stuttgart. Each of these missiles reached its goal, and according to the information coming into Geneva, considerable damage was done. A quantity of rifles, together with some machinery, was destroyed.

Bombs on Nancy.
NANCY, France, April 28.—(Via Paris, 5:10 p.m.)—A German aeroplane yesterday dropped four bombs on the city. Three persons were killed and a number of others were injured seriously.

Canadians Relieved; Ranks Sadly Thinned.
Worn Out With Continuous Struggle For Four Days and Nights.

LONDON, April 28.—3:04 a.m.—"During the last 36 hours," says the Times correspondent in "Northern France," "the Germans have attacked our lines east of the Yser Canal with redoubled violence, in a last desperate attempt to gain a footing on the western bank, but they have been repulsed in vain. The Allies still hold firm on the western side."
"The British troops now hold a new line of trenches north and northeast of Ypres. The Canadians, worn out by four days' and nights' unceasing struggle, have been relieved, and retired to their original positions, where they needed rest. They retired covered with glory, but their ranks were sadly thinned."

"The second battle of Flanders was fought over a front of less than five miles and endured only five days, but the fighting has probably been more serious than on any other occasion since the war began. The more critical days were Saturday and Sunday. The Germans brought up heavy artillery and howitzers to their advanced positions, and threw shells and high explosives into Ypres, and covered with a curtain of fire every avenue through which our reinforcements might pass."

"In this bombardment the destruction of Ypres has been completed. The famous cloth hall is gone, and scarcely a house in the town is left standing."

GERMAN WOMEN READY TO SCRAP WITH ENGLISH
THE HAGUE, April 28 (via London), April 29.—2:49 a.m.—The declaration of war was solely man's affair; let the bringing about of peace be woman's work. This was the great theme of the international congress of women today. The future sessions of the congress promise to disclose sharply divided sentiments among the British and German delegates. The German women, it is said, while favoring the settlement of international disputes by other means than war, will object to incorporation in the resolutions of the words "arbitration and conciliation," while the English women, who have many supporters, favor these principles.

CONCESSIONS MADE
Japan Mail Says Demands on China Are More Lenient.

[Canadian Press.]
Tokyo, April 29.—Japan's new proposals to China show concessions, according to the Japan Mail. They are said to omit the demand for the northern part of the Chinese coast territory. Out of consideration for Great Britain, some modification is considered probable, relative to railroad concessions in South China.

N. Y. C. BOND ISSUE
ALMOST SUBSCRIBED

[Canadian Press.]
New York, April 29.—Financiers and bankers were gratified today by the announcement that the sale of what was said to be the largest issue of corporate securities ever placed in the United States had been consummated yesterday. This was made known when J. P. Morgan & Co., as syndicate managers, stated that substantially all of the \$100,000,000 of New York Central 20-year 6 per cent convertible bonds offered to stockholders had been subscribed for. The proceeds of these bonds will be used to fund an equal amount of the company's now unfunded debt and in the acquisition of property.

DEFENCE BEGINS
Witnesses to Testify in Favor of John R. Lawson, Mine Worker.

[Canadian Press.]
Trinidad, Col., April 29.—The defence opened its case today in the trial of John R. Lawson, District 15 member of the international executive committee of the United Mine Workers of America, charged with the murder of John Nimmo, a deputy sheriff, killed October 25, 1913, in a battle between deputies and striking coal miners.

It was expected that the examination of the defence's witnesses would occupy the remainder of the week.

LOSS OF APPETITE
Most Successfully Treated by Taking Hood's Sarsaparilla.

Loss of appetite is accompanied by loss of vitality, which is serious. It is common in the spring because at this time the blood is impure and impotent, and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions.

Hood's Sarsaparilla, the old reliable, all-the-year-round medicine, is especially useful in the spring. Get it from your druggist today. It purifies and enriches the blood and gives vitality, vigor and tone. It is wonderfully successful in the treatment of loss of appetite and the other ailments prevalent at this time. It is not simply a spring medicine—it is much more than that; it is the best spring medicine. Hood's Sarsaparilla makes the rich, red blood the digestive organs need.

NEW ZEALAND PRESS
APPLAUDS CANADIANS

[Canadian Press.]
Wellington, New Zealand, April 29.—The press speaks in the highest terms of the Canadians' courage in the fighting near Ypres, and emphasizes the value of the stand they made in promoting a similar spirit among the overseas forces of Great Britain.

ALLIES ESTABLISH
ACROSS PENINSULA
Beat Off All Attacks of the Turks and Steadily Advance.

ENEMY WELL PREPARED
Have Spread Wire Entanglements Under Sea and On Land.

[Canadian Press.]
LONDON, April 29, 12:39 a.m.—The British war office issued the following announcement last night on the Dardanelles operations:

"In the face of continual opposition the allied troops have now established themselves across the end of the Gallipoli Peninsula from a point northeast of Esaki Hissarik to the mouth of a stream on the opposite side."
"They have also beaten off all attacks at Sari Bair and are steadily advancing."

"The Turks have made considerable preparations to hamper any landings. Wire entanglements under the sea, as well as on land, and deep pits with spikes at the bottom, were among the obstacles overcome by the troops."

"The sensational report that 8,000 of the allied troops have been driven to the sea on the Gallipoli Peninsula and that 12,000 were captured also comes from Berlin, but has no confirmation from other sources. It is expected that the operations against the Dardanelles will proceed slowly, as the Turks are strongly entrenched and their wire entanglements and trenches will have to be heavily shelled before the troops can make any serious attempt to advance."

TURKS SEND BERLIN
CHEERING REPORTS.
BERLIN, via London, April 28—11:33 p.m.—A well authenticated report has reached Berlin that the left wing of the allied landing force on the Gallipoli Peninsula, which Gen. Liman von Sanders, the German commander of the Turkish forces, reported yesterday as holding out, has now surrendered to the Turks.

Hall Bey, former president of the Turkish Parliament, who is now in Berlin, received a telegram from Constantinople last night stating that 8,000 French and British soldiers had been driven to the sea and that 12,000 were captured by the Turks as a result of the attempt of the Allies to land forces to attack the Dardanelles fortifications.

A wireless dispatch received from Constantinople says:

"At the celebration of the Sultan's jubilee yesterday the minister of war announced the receipt of a telegram of the commander of the 5th Army Corps, Gen. Liman von Sanders, stating that the centre and right wing of the enemy had been completely defeated and that there was hope that the left wing was beaten."

Summer Opening of Boys' Wash Suits Tomorrow

Every mother knows how difficult it is to get summer outfits for the boys later, after stocks have been picked over and over and half sold, when sizes become broken in almost every range and you are obliged to take what you can get in sizes required. The reason for this is that the season for wash suit selling is short; unlike the woolen suits, they are not year-round sellers. Consequently it is not possible for us to keep up the ranges later in the season, as the makers turn to other lines.

TOMORROW, THE LAST DAY OF APRIL, we will make a big display and sale of our entire stock of new 1915 summer wash goods, including boys' wash suits, knickers and shirtwaists and children's wash rompers; many leading lines, specially priced for this sale, are worthy of your immediate attention, as they will not be repeated. Groups will be found as listed below.

GROUP NO. 1—PRINT AND GALATEA SUITS, 75c.

These are in blue and white and tan and white stripes, with dark collars and belts, plain or bloomer style pants; colors guaranteed fast; 100 suits in this group, for ages 2½ to 8 years. Price 75c suit

GROUP NO. 3—BUSTER AND OLIVER TWIST SUITS, \$1.50.

These are in plain blue, tan and white chambray and striped galatea, made in Buster, Oliver Twist and vestee styles, fast washing colors; sizes for ages 2½ to 9 years. Price, \$1.50 suit

GROUP NO. 2—JAP LINEN SUITS, 95c.

These are plain and fancy suits in blue and tan and white shades, made up in half a dozen different styles, with trimmings to match; sizes for ages 2½ to 8 years. Price, 95c suit EXCLUSIVE STYLES, for ages 2½ to 10 years, extra quality \$2.00 to \$3.00 suit

LOT NO. 4—BOYS' ROMPERS, 50c.

Boys' Wash Rompers, in blue, white and tan and other wanted colors, fast washers; in sizes for ages 2 to 7 years. Price, 50c BOYS' WASH KNICKERS, in good variety, at 35c, 50c, 75c pr.

BOYS' BLOUSES 50c

Special Blue Chambray

These at 50c are specially priced and extra good value, plain blue chambray, also white and assorted striped effects in sizes for boys ages 6 to 14 years. Price 50c each Main Floor, Richmond Street Section.

BIG DISPLAY

Children's Headwear

Tomorrow we will display all the new Summer Headwear for children, in straw, silks and crash. See this assortment. Prices 25c, 50c, 75c and \$1.00 Main Floor.

BOYS' BLOUSES 75c, \$1

Newest and Coolest Styles

Low-cut neck, with collar attached, and short sleeves for hot weather, some fancy collars made of white twilled cotton and crepe; newest and coolest blouses for boys; all sizes; 75c, \$1 each Main Floor, Richmond Street Section.

Sale of Wide Linoleums

Friday and Saturday

At the very time you need new floor coverings for your kitchen, hall, library, bedroom, etc., this special opportunity has come to us. Regular 50c and 55c quality 35c and 45c yard about 350 square yards of Imported Cork Linoleums, 12 feet wide, splendid wearing quality, good designs, bought at a price that allows us to sell it to you at less than the price of an average oilcloth. On sale Friday and Saturday: Regular 50c for 35c Regular 55c, for 45c

Veranda Rugs

Our stock of Veranda Floor Coverings is more complete this season than ever before, and includes all sizes in the following makes:

Waite Fibre Rugs, Rattania Rugs and Runners, Crex Grass Rugs, Mourzouk Cocoa Fibre Rugs

Write for interesting booklet describing these different makes.

The "RIGHT" Kind of Refrigerators

GET READY FOR YOUR ICEMAN SATURDAY.

There is a right and a wrong kind of refrigerator—the refrigerator that wastes the ice and the kind that conserves it. Refrigerators that have a smelly odor and the kind scientifically built for free air circulation, in which the contents are kept sweet and fresh. The "right" kind of refrigerators for all home capacities are here for your selection. They are built scientifically of good sound materials and linings, so arranged for the best and most convenient storing of food, with the least consumption of ice, and the prices are as low as can be made commensurate with "safety" and proper economy to the user.

These Are Desirable Features

Constructed in Canada, on scientific principles. Wood thoroughly kiln dried before cut up. Trimmings, shelves and castors are latest designs. Perfect circulation, low temperature, no moisture, eight-wall insulation, and with mineral wool, the best-known non-conductor of heat or cold, making a great saving of ice.

LININGS—White enamel, galvanized steel, porcelain, and opalite glass; easy to keep absolutely sanitary. Every refrigerator guaranteed satisfactory. Prices \$7.49 to \$55.00

Special Afternoon Lunch.
Sliced Tomatoes, Bread and Butter
and Cup of Tea or Coffee,
3 to 5:30—Special, 15c.

SMALLMAN & INGRAM
LIMITED

In Restaurant—3 to 5:30.
Fresh Strawberries and Ice Cream,
Special, 15c.

AUSTRIAN PRISONERS

ABUSE PRIVILEGES

Russian Officials Obligated to Curtail Their Freedom.

OMSK, Siberia, April 28, via Petrograd, 11:30 a.m., and London, 1:45 p.m.—Governor Schmidt, of the Omsk district, issued an order today reprimanding the conduct and curtailing the privileges of Austrian war prisoners in this district who are declared to have been guilty of abusing the comparative freedom granted to them.

These officers and men have been allowed virtually the same privileges as citizens. They have been treated with consideration by the inhabitants of Omsk, who surrendered to them the best lodgings and supplied them with food. According to the charges brought against them, they have violated all rules, shown disrespect toward Russian women, mutilated reports of Russian victories and have been insubordinate, even to the extent of disorderly conduct.

Governor Schmidt ordered all prisoners at the village of Starodubovka to march to the nearest concentration camp, where they will be held under strict military discipline. They will be deprived of the privilege of accepting employment, from which they have been deriving considerable remuneration.

SWEDEN IS INCENSED

BY ARREST OF SHIP

LONDON, April 28.—Reuter's Stockholm correspondent says the arrest by the British authorities of the Swedish motor ship Crown Princess Margareta is the subject of much complaint in the Swedish papers. The steamer left at four in the afternoon on Saturday without any reduction of pay.

The committee decided to accede to the request of residents of the Ridge-way for ornamental electric lights provided they pay for the additional cost.

WELLAND MERCHANT IS

ACCUSED OF TREASON

WELLAND, April 28.—Victor Subotski was remanded to jail without bail this afternoon on the charge of trading with the enemy, which is practically treason. The prisoner, who is a well-known merchant on South Main street, was placed under arrest at 1 o'clock this morning. The particular act which is that he sent money from a local Hungarian to a New York firm to be forwarded to the Hungarian's relatives in his native country, which is at war with Canada.

IN HUCKSTER BUSINESS

Retail Grocers Kick on the Market Doings.

A delegation from the local Retail Grocers' Association asked the No. 3 committee at its meeting last night to recommend to the council that the by-law in regard to hucksters on the market be amended so that no per-

A Fine Treatment

For Catarrh

EASY TO MAKE AND COSTS LITTLE

If you suffer from Catarrh, head noises, sore throat, asthma, or Catarrhal deafness, here is a fine recipe that often gives relief after other treatments have failed.

Its effect in the worst cases is usually most striking and positive. The correct method of treating Catarrh, namely, to employ a remedy that will quickly drive the catarrhal elements out of the system and at the same time, by tonic action, increase the vitality, which is always lowered by Catarrhal disease. To do this, we believe the following formula to be really the best prescription, as it acts quickly, costs little and can be easily prepared at home.

From your druggist obtain one ounce of Parmitin (Double Strength), about 75c, and one ounce of Catarrhal Deafness, here is a fine recipe that often gives relief after other treatments have failed.

THE CLEANLINESS OF SINKS, CLOSETS, BATHS, DRAINS, ETC., IS OF VITAL IMPORTANCE TO HEALTH.

NIGHT RAIN.
All night the rain fell murmurous and low;
Mysterious silence held the dripping wood.
Where drenched in dream the trees stood motionless;
All night the rain beat rhythmic and slow.

From stream and garden, copse, lane and park,
The spirit of the earth benign and good,
Rose in a myriad wild wet scents to bless
The silver angel singing in the dark.

A Glimpse of the Wounded
At Cliveden Military Hospital

"Times" Correspondent Tells of Life in the
Wards of Duchess of Connaught Hospital
For Canadians.

The recent gift of \$1,000 from the London Branch Red Cross Society to the hospital for wounded Canadians at Cliveden, makes particularly interesting these extracts from an article in a recent issue of the London (England) Times, describing the manner in which the wounded or sick men from the trenches spend their time.

"Very early in the war Major and Mrs. Waldorf Astor offered to the war office the covered tennis court, with its appendages, that lies out by the golf links, and close to the football ground, within the screen of the woods. Their offer amounted to a hospital building capable of holding over 100 patients, fitted with hot water apparatus, and ready for occupation. The remainder of the work was done by the Canadian Red Cross Society (some day, perhaps, the public will become aware of the many generous acts of this society), which equipped it from end to end, sent a complete staff of medical officers, nurses and orderlies, and undertook all the running expenses.

A Canadian Staff.
"And now the Duchess of Connaught's Red Cross Hospital, as it is called, a hospital for sick and wounded British and Canadian troops, is in full running order. The present staff consists of Lieut.-Col. Charles Correll, the officer commanding, ten medical officers, twenty nurses, and a large number of orderlies, of whom no fewer than 22 are graduated doctors, and one a dentist. And all are Canadians.

What, between the donors of the building and the Canadian Red Cross Society, this hospital is a model. The great roof means wards flooded with light and air. The operating-room is one of which any hospital might be proud; the X-ray room, though small, has received high praise from authority.

Men Learn to Knit.
"The whole atmosphere, indeed, is a generous and cheerful one. There are beds in the wards by which one does not linger—beds where the signs of pain or of exhaustion are woefully

patent. For the most part, smiling faces greet one, and the men are laughing and talking in contentment as they sit knitting (they are all taught to knit or to carve, or to find some other use for their hands), or smoking, or just lying down in blessed ease. In the long recreation rooms a gramophone is playing; two convalescents are at billiards; others are throwing rings at pins, or playing some other mild game.

"Just outside on the sunny terrace is a row of beds. Every man fit to come out, yet too ill to walk, spends so many hours of the day out here. No wonder that the wounded heal quickly, and the prostrate dream and sleep themselves smoothly back to strength and self-control. There is the invigorating air of Cliveden, there is the private gardens and terraces, with their lovely views over the Thames Valley, to wander over; there is the commanding officer's firm belief in food, fresh air and laughter; and there are the constant thought and care of those who have the welfare of the hospital at heart."

Since the above article was written the hospital at Cliveden has been enlarged, and 400 additional beds equipped, making accommodation for 600 men.

Old Songs and Poems

WON'T YOU BUY MY PRETTY FLOWERS?

[Sent by "Rosemary" and "Juss Bella"]
Underneath the gaslight's glitter
Stands a little fragile girl,
Headless of the night winds bitter,
While the hundreds pass unheeding,
In the evening waning hours,
Still she cries with tearful pleading,
"Won't you buy my pretty flowers?"

CHORUS:
There are many, sad and weary,
In this pleasant world of ours,
Crying every night so dreary,
"Won't you buy my pretty flowers?"

Ever coming, ever going,
Men and women hurry by,
In her sad and wistful gloom,
How her little heart is sighing
In the cold and dreary hours,
Only listen to her crying,
"Won't you buy my pretty flowers?"

CHORUS:
Not a loving word to cheer her
From the passers-by is heard,
Not a friend to linger near her
With a heart by pity stirred;
Homeward goes the tide of fashion,
Seeking pleasure's pleasant bowers;
None to hear with sad compassion,
"Won't you buy my pretty flowers?"

SWIMMING THE WRONG WAY.
[Exchange].
A wedding company on its way to the magistrate's office had to cross a river in a skiff, when, as luck would have it, the bridegroom fell into the water.

Wringing her hands, the bride cried out that somebody should save her beloved.
"What for?" asked one of the company. "He's a good swimmer."
"That's just it," cried the bride. "Don't you see that he is swimming toward the other bank?"

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letter can be answered privately.]

Stay Indoors or Freckle.

Dear Miss Grey—I am a constant reader of your valuable column, and enjoy it very much. I hope you will not think it too much trouble to answer these queries:

1. What day did April 11, 1900, come on?

2. I am 5 feet 11½ inches high and weigh 124 pounds. How am I proportioned?

3. I am 16 years of age, and will graduate from high school in June. Am I far enough advanced?

4. Is there anyway in which I can protect my skin from tanning?

5. What do you think of my writing? Is it passable?

Hoping to see these in print, I am
Yours truly,
GERTRUDE.

Ans.—1. Wednesday.

2. You weigh a little too heavy for your height, but if you are healthy—why worry?

3. Yes, a very good age to graduate. Your advance has surely been rapid.

4. No, I fear not, unless you remain indoors all day, or wear a heavy veil when exposed to King Sol's rays. Would certainly not advise either course; most of the folk I know like freckles—on other people's skin, at least.

5. Very excellent.

An Ex-School Ma'am.

Dear Miss Grey—This is my first appearance, so I will make my bow. I enjoy reading the Woman's Page very much, and am often amused at the wisdom of the inexperienced in their teens, who talk like grandmothers of 70. I wonder if "Star that Guides" will ever realize her dream. If her future husband allows himself to be treated as she intends to do, he wouldn't be a man, he would be a sissy.

A true man wants to take his place and assume and conquer the trials which are meant for him. He does not want to be coddled up like a pampered boy in petticoats.

I have been married almost a quarter of a century, have a kind husband and a happy home, but I have found that in order to have a happy home a man must take his place and a woman fill hers, and there must be mutual love and forbearance, and the golden rule followed. I don't tell my husband I love him every chance I get, either; better let actions talk. Before my marriage I was a school teacher, and in studying the disposition of the pupils I found that the most many little fellows wanted to be treated as boys and not as girls, and the most many young men want to be treated as men and not as the weaker sex.

I would like to hear of "Star that Guides" after a year's marriage. It would be interesting, I am sure.

If I have not taken up too much space, will you kindly answer the following:

1. How should a widow sign her name—"Mrs. Henry Blank" or "Mrs. Annie Blank"?

2. Kindly criticize the following mode of introduction: "Meet my husband, Miss Blank" and "Miss Blank, I would like you to meet my husband."

2. The usual query—For a woman of 25, is it desirable to obtain early cucumbers the plants may be started in a hotbed.

While young cucumber plants are frequently destroyed by a small beetle that attacks the lower part of the stem and the under side of the leaves. To preserve the plants some protection will be necessary for the small plants. A plot with only a few plants, the beetles may be kept off by covering the plants with frames over which mosquito netting or fly screening has been stretched. The edges may be weighted down by earth and removed as

soon as danger is past, which will be when the plants gain full size and strength.

Cucumbers should receive frequent shallow cultivation until the vines begin to run freely; after this little attention is required except to pull out small weeds. In order to keep the vines in good condition no fruit should be allowed to ripen, as one cucumber getting set early will rob the others of plant food.

The muskmelon may be attempted with fair results by the backyard gardener. Cucumbers, with the exception that nearly always seeds are started in hotbeds. Seeds are planted in the open in hills 4x4 feet as soon as the soil is reasonably warm. After the plants become established thin out all but the four. The cucumber beetle menaces this also and the same precautions apply.

Pumpkin and squash, also members of this family, when grown alone are usually planted in hills 8 to 10 feet apart. But the backyard gardener can obtain a sufficient supply by putting them between each second row of corn in the open in hills 4x4 feet as soon as the soil is reasonably warm. After the plants become established thin out all but the four. The cucumber beetle menaces this also and the same precautions apply.

CHAPTER XVI.
CUCUMBERS AND OTHER VINE CROPS.

By Prof. Spade.

The soil for cucumbers should be rich, sandy loam, rather moist but not wet. Plant in hills four feet each way as soon as the ground is warm and danger of frost is past. It is a good plan to place a shovelful of well-rotted manure or a handful of commercial fertilizer into each hill in addition to the regular manuring of the land.

Cucumbers are frequently planted in drills about seven feet apart and thinned to 12 or 18 inches in the row. If it is desirable to obtain early cucumbers the plants may be started in a hotbed.

GILLETT'S PERFUMED LYE
CLEANS AND DISINFECTS
THE CLEANLINESS OF SINKS, CLOSETS, BATHS, DRAINS, ETC., IS OF VITAL IMPORTANCE TO HEALTH.

NIGHT RAIN.
All night the rain fell murmurous and low;
Mysterious silence held the dripping wood,
Where drenched in dream the trees stood motionless;
All night the rain beat rhythmic and slow.

From stream and garden, copse, lane and park,
The spirit of the earth benign and good,
Rose in a myriad wild wet scents to bless
The silver angel singing in the dark.
—Teresa Hooley.

A Glimpse of the Wounded At Cliveden Military Hospital

"Times" Correspondent Tells of Life in the Wards of Duchess of Connaught Hospital For Canadians.

The recent gift of \$1,000 from the London Branch Red Cross Society to the hospital for wounded Canadians at Cliveden, makes particularly interesting these extracts from an article in a recent issue of the London (England) Times, describing the manner in which the wounded or sick men from the trenches spend their time.

"Very early in the war Major and Mrs. Waldorf Astor offered to the war office the covered tennis court, with its appendages, that lies out by the golf links, and close to the football ground, for occupation as a hospital building capable of holding over 100 patients, fitted with hot water apparatus, and ready for occupation. The remainder of the work was done by the Canadian Red Cross Society (some day, perhaps, the public will become aware of the many generous acts of this society), which equipped it from end to end, sent a complete staff of medical officers, nurses and orderlies, and undertook all the running expenses.

A Canadian Staff.
"And now the Duchess of Connaught's Red Cross Hospital, as it is called, a hospital for sick and wounded British and Canadian troops, is in full running order. The present staff consists of Lieut.-Col. Charles Gorrell, the officer commanding, ten medical officers, twenty nurses, and a large number of orderlies, of whom no fewer than 22 are graduated doctors, and one a dentist. And all are Canadians.

"What, between the donors of the building and the Canadian Red Cross Society, this hospital is a model. The great height of the buildings and the glass roof means wards flooded with light and air. The operating-room is one of which any hospital might be proud; the X-ray room, though small, has received high praise from authorities.

Men Learn to Knit.
"The whole atmosphere, indeed, is a generous and cheerful one. There are beds in the wards by which one does not linger—beds where the signs of pain or of exhaustion are woefully

patent. For the most part, smiling faces greet one, and the men are laughing and talking in contentment as they sit knitting (they are all taught to knit or to carve, or to find some other use for their hands), or smoking, or just lying down in blessed ease. In the long recreation rooms a gramophone is playing; two convalescents are at billiards; others are throwing rings at pins, or playing some other mild game.

"Just outside on the sunny terrace is a row of beds. Every man fit to come out, yet too ill to walk, spends so many hours of the day out here. No wonder that the wounded heal quickly, and the prostate dream and sleep thin themselves smoothly back to strength and self-control. There is the invigorating air of Cliveden, there is the whole estate (including the private gardens and terraces, with their lovely views over the Thames Valley), to wander over; there is the commanding officer's firm belief in food, fresh air and laughter; and there are the constant thought and care of those who have the welfare of the hospital at heart."

Since the above article was written the hospital at Cliveden has been enlarged, and 400 additional beds equipped, making accommodation for 500 men.

Old Songs and Poems

WON'T YOU BUY MY PRETTY FLOWERS?
[Sent by "Rosebud" and "Just Bella"]
Underneath the gallant's glitter,
Stands a little fragile girl,
Headless of the night winds bitter,
They round about her whirl,
While the hundreds pass unheeding,
In the evening waning hours,
Still she cries with tearful pleading,
"Won't you buy my pretty flowers?"

CHORUS:
There are many, sad and weary,
In this pleasant world of ours,
Crying every night so dreary,
"Won't you buy my pretty flowers?"

Ever coming, ever going,
Men and women hurry by,
Headless of the tear-drops gleaming,
In her sad and wistful eye,
How her little heart is sighing
In the cold and dreary hours,
Only listen to her crying,
"Won't you buy my pretty flowers?"

CHORUS:
Not a loving word to cheer her
From the passers-by is heard,
Not a friend to linger near her
With a heart by pity stirred;
Homeward goes the tide of fashion,
Seeking pleasure's pleasant bowers;
None to hear with sad compassion,
"Won't you buy my pretty flowers?"

SWIMMING THE WRONG WAY.
[Exchange.]

A wedding company on its way to the magistrate's office had to cross a river in a skiff, when, as luck would have it, the bridegroom fell into the water.

Wringing her hands, the bride cried out that somebody should save her beloved.

"What for?" asked one of the company. "He's a good swimmer."

"That's just it," cried the bride. "Don't you see that he is swimming toward the other bank?"

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letter can be answered privately.]

Stay Indoors or Freckle.

Dear Miss Grey,—I am a constant reader of your valuable column, and enjoy it very much. I hope you will not think it too much trouble to answer these queries:

1. What day did April 11, 1900, come on?
2. I am 5 feet 1½ inches high and weigh 124 pounds. How am I proportioned?
3. I am 15 years of age, and will graduate from high school in June. Am I far enough advanced?
4. Is there anyway in which I can protect my skin from tanning?
5. What do you think of my writing? Is it passable?

Hoping to see these in print, I am,
GERTIE.

ANS.—1. Wednesday.

2. You weigh a little too heavy for your height, but if you are healthy—why worry?

3. Yes, a very good age to graduate. Your advance has surely been rapid.

4. No, I fear not, unless you remain indoors all day, or wear a heavy veil when exposed to King Sol's rays. Would certainly not advise either course; most of the folks I know like freckles—on the nose, so often missed a breath of this delightful air just to avoid a few "brown spots."

5. Very excellent.

An Ex-School Ma'am.

Dear Miss Grey,—This is my first appearance, so I will make my bow. I enjoy reading the Woman's Page very much, and am often amused at the wisdom of the inexperienced in their teens, who talk like grandmothers of 70. I wonder if "Star that Glides" will ever realize her dreams. If her future husband allows himself to be treated as she intends to do, he wouldn't be a man, he would be a snail.

A true man wants to take his place and assume and conquer the trials which are meant for him. He does not want to be coddled up like a pampered boy in petticoats.

I have been married almost a quarter of a century, have a kind husband and a happy home, but I have found that in order to have a happy home a man must take his place and a woman fill hers, and there must be mutual love and forbearance. And the golden rule followed. I don't tell my husband I love him every chance I get, either; better let actions talk. Before my marriage was a school teacher, and in studying the disposition of the pupils I found that the most manly little fellows wanted to be treated as boys and not as girls, and the most manly of young men want to be treated as men and not as the weaker sex.

I would like to hear of "Star that Glides" after a year's marriage. It would be interesting, I am sure.

If I have not taken up too much space, will you kindly answer the following:

1. How should a widow sign her name—"Mrs. Henry Blank" or "Mrs. Annie Blank"?

2. Kindly criticize the following mode of introduction: "Meet my husband, Miss Blank" and "Miss Blank, I would like you to meet my husband."

3. The usual query—"For a woman of

Defends Country Boys.

Dear Miss Grey,—No doubt you have all the work you care to do this hot weather, but I feel as though I must send you a few lines as regards "Rosebud" and her letter, which I noticed in Saturday's paper.

Her letter is headed with "Country Boys and Manners." Well, Miss Grey, I am proud to say that I have been a country boy all my life, and that's 21 years, but I am now starting a city life. I may say that I have not met a city boy yet with better manners than I have myself.

"Rosebud" says the country boy is polite only when he has his Sunday suit on, but she is wrong. I only wear my Sunday suit one day a week, but I always take my manners with me.

You may think I am trying to put a feather in my own cap, but that is not the case.

I hope you will not think this too long or too silly for your column, and hope to see it in print soon.

Now, I must conclude, trusting "Rosebud" will see this and take a lesson from it. I must stick up for the country boys.

Thanking you kindly in advance for space in your paper, sincerely yours,
TONY.

P.S.—What do you think of my writing?

Ans.—I felt pretty sure, Tony, that "Rosebud" would not go so unchallenged, and am very glad to hear that one, at least, of our country boys does not remove his manners with his Sunday suit.

You write a very excellent hand.

Business Girl No. 2,
Dear Miss Grey,—At last the discus-

BACKYARD GARDEN

Cucumbers Menaced By Beetles, But Backyard Will Produce Good Crop

CHAPTER XVI.
CUCUMBERS AND OTHER VINE CROPS.

By Prof. Spade.

The soil for cucumbers should be rich, sandy loam rather than heavy soil, and in hills four feet each way as soon as the ground is warm and danger of frost is past. It is a good plan to place a handful of all-rotted manure or a handful of commercial fertilizer into each hill in addition to the regular manuring of the land.

Cucumbers are frequently planted in drills about seven feet apart, and thinned to 12 or 18 inches in the row. If it is desirable to obtain early cucumbers the plants may be started in a hotbed.

While young cucumber plants are frequently destroyed by a small beetle that attacks the lower part of the stem and the under side of the leaves. To preserve the plants some protection will be necessary, and for the small plot with only a few plants, the beetles may be kept off by covering the plants with frames over which mosquito netting or fly screen has been stretched. The edges may be weighted down by earth and removed as soon as danger is past, which will be when the plants gain full size and strength.

Cucumbers should receive frequent shallow cultivation until the vines begin to run freely; after this little attention is required except to pull out small weeds. In order to keep the vines in good condition no fruit should be allowed to ripen, as one cucumber getting set early will rob the others of plant food.

The muskmelon may be attempted with fair results by the backyard gardener applying the same methods as required by cucumbers, with the exception that nearly always seeds are started in hotbeds. Seeds are planted in the open in hills 4x4 feet as soon as the soil is reasonably warm. After the plants become established thin out all but the four. The cucumber beetle menaces this also and the same precautions apply.

Pumpkin and squash, also members of this family, when grown alone are usually planted in hills 8 to 10 feet apart. But the backyard gardener can obtain a sufficient supply by putting them between each second row of corn about a foot apart, and making up a somewhat shorter distance apart, and making up in cultivation for the decrease in space.

sion in your very interesting column is to take a turn in a different direction.

How tired I am of all these married women either praising or upbraiding their husbands! Their letters have all been interesting enough, but I think their energies must be nearly exhausted. My, what a large scope for discussion Business Girl has given us. She has certainly outlined some very beneficial topics, and I shall be very pleased to help in whatever way I can. I am particularly interested in questions 1, 2, 3, 8 and 9.

It makes me very indignant when I think of the salaries paid bookkeepers and stenographers. The firm in many cases expects them to dress neat and tidy, and never once think how much money they have left after paying their board and washing. No, I do not live in London, but I have always understood that a good, smart stenographer is well paid in your city. Our locality seems overrun with stenographers and bookkeepers, and most employers can get an office girl at their own price. I am forced to accept because she cannot live on nothing. Again, put a young man in an office and let him do identically the same work as a girl has previously done, and he is given almost twice as much to begin on.

I have a good position, the best of firms to work for, and am getting along splendidly, but I could give you a list of a dozen girls and more, who, if they were not living at home, could not possibly live on the salaries they are being paid.

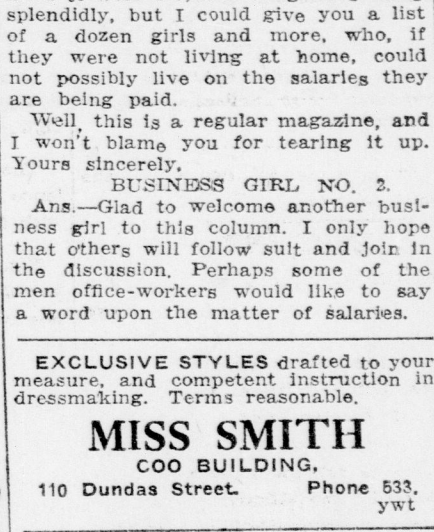

Well, this is a regular magazine, and I won't blame you for tearing it up. Yours sincerely,
BUSINESS GIRL No. 2.

Ans.—Glad to welcome another business girl to this column. I only hope that others will follow suit and join in the discussion. Perhaps some of the men office-workers would like to say a word upon the matter of salaries.

EXCLUSIVE STYLES drafted to your measure, and competent instruction in dressmaking. Terms reasonable.

Action of Single Spoonful Surprises Many

London people who bought the simple mixture of buckthorn bark, glycerine, etc., known as Adler's-Ika, are surprised at the INSTANT effect of a SINGLE SPOONFUL. This remedy is so complete a bowel cleanser that it is used successfully in appendicitis. Adler's-Ika acts on BOTH upper and lower bowel, and ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after you take it the gases rumble and pass out. W. T. Strong, druggist.

Out They Go! For I Am Away to the War! Clearing of the Fine Goods in Semi-ready Store

I hope to be out of this store in two weeks—"look, stock and barrel." For I am negotiating now with a Woodstock man, who wants the lease, and with a Hamilton man, who wants the stock. I'd rather sell out en bloc, both together; but I may close up this week.

Then you'll wish you had stretched a point and bought early, for I want to tell you right now, that as soon as the Semi-ready store is closed the tailors will push their prices up \$2 to \$5 a suit.

I stand in the way—for mine is the only genuine Semi-ready tailoring—the only physical type system of specialized tailoring in America. I can almost say positively that this will be the last fortnight of this sale in London.

New Semi-ready Suits

All my stock of Semi-ready Tailored Suits I will sell at and below cost.

THIRD OF THE OFFICERS IN THE CANADIAN FORCE ARE PUT OUT OF ACTION

One Hundred and Sixty-two Casualties Reported So Far—
Thirty-two Killed and One Hundred and Ten Wounded.

[Special to The Advertiser.]

OTTAWA, April 28.—The list of Canadian officers killed, wounded and missing in the Ypres fighting continues to lengthen. Tonight Militia Minister General Hughes received a cable containing the names of thirty-one additional casualties in the fight. This makes the losses of officers 162. Tonight's report indicates that on April 27 there were four Canadian officers killed, 13 wounded, 7 wounded and missing and 7 missing.

There were about six hundred officers in the Canadian division at the front, and the figures indicate that a third of them were put out of action at Ypres.

Of the 162 casualties reported among officers 32 have been killed, 110 wounded and the remainder missing and possibly prisoners. While the dispatch indicates that the casualties occurred on Tuesday and that the severe fighting of last week continues it is thought that possibly these losses were suffered last week, and that the Canadians have not been seriously engaged since last Saturday. It was reported that on Monday the Canadians had been replaced in the trenches by other corps and taken back to rest and repair damages.

The list follows:

THIRD BATTALION.
Killed—Lieut. F. R. Medland, Toronto.

Lieut. W. D. P. Jarvis, Toronto.
Wounded—Capt. W. D. Allan, Toronto (slightly).

Capt. D. H. C. Mason, Toronto (slightly).

Capt. H. G. Munz, Toronto (severely).

Lieut. G. A. Smith, Toronto (severely).

Missing—Major A. J. Kirkpatrick, Toronto.

Major P. Anderson, Edmonton, Alb.

Capt. J. E. L. Strelight, Toronto.

Capt. L. S. Morrison, Toronto.

Lieut. B. L. Johnston, Toronto.

Lieut. G. E. D. Greene, Toronto.

Lieut. D. G. Allan, Toronto.

FIFTH BATTALION.
Wounded—Lieut. J. H. Simpson, Saskatoon, Sask.

EIGHTH BATTALION.
Wounded—Capt. G. L. D. O'Grady, Winnipeg.

Lieut. P. J. Paget, Winnipeg.

THIRTEENTH BATTALION.
Wounded—Lieut. M. Greenshields, Montreal.

Wounded and missing—Capt. L. W. Whitehead, Montreal.

Major D. R. McCullagh, Montreal.

YOUR SICK CHILD
IS CONSTIPATED!
LOOK AT TONGUE

If cross, feverish or bilious, give "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out of sorts, half-sick, isn't resting, eating and acting naturally—look! mother! see if tongue is coated. This is a sure sign that his little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of California Syrup of Figs, and a few hours later the constipated poison, undigested food and sour bile gently move out of his little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

Price to Government OVER DOUBLE VALUE

Montreal, April 28.—Mr. H. A. Dorsey, one of the members of the Carlsberg Hotel Company, stated today at the expropriation proceedings before Mr. Justice Audette in the exchequer court, that in 1914 he had offered the Carlsberg Hotel to Hon. Robert Rogers, a member of public works, for use as a postal station at \$20 per foot, but recently \$25 per foot was asked. In 1911-1912 the property was put in the hands of a real estate firm at \$325,000. The price asked from the Government was \$322,330.

"Give me credit for some common sense," retorted the judge, when Mr. Dorsey said he valued the furnishings of the hotel, thirty rooms, at \$60,000. The case is still unfinished.

GET MORE VIM,
RENEW YOUR STRENGTH!

If you are tired, nervous, sleepless, have headaches and languor, you need Dr. Hamilton's Pills; they tone the stomach, assist digestion, brace you up at once. Taken at night, you're well by morning. Sick and tired feeling disappear instantly. Vim, spirits, hearty health, all the joys of life come to everyone that uses Dr. Hamilton's Pills. No medicine so satisfactory. Get Dr. Hamilton's Pills today, 25c per box, at all dealers.

YOUR SICK CHILD
IS CONSTIPATED!
LOOK AT TONGUE

If cross, feverish or bilious, give "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out of sorts, half-sick, isn't resting, eating and acting naturally—look! mother! see if tongue is coated. This is a sure sign that his little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of California Syrup of Figs, and a few hours later the constipated poison, undigested food and sour bile gently move out of his little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

Pollockhields, West Glasgow, Scotland.

ROLLER SKATING BANNED

An impression has gone around among the children and their parents that roller-skating on any street in the city, and the police state that they do not discriminate at all in enforcing the regulation. "If children in some parts of the city seem to be more immune from prosecution than those in other districts," said one of the officials at headquarters, "it is simply because they are more ingenious or more active in keeping out of the policeman's way."

MILITARY ORDERS FOR 1ST DIVISION

Division orders by the Officer Commanding 1st Division. Headquarters: 1st Div., London, Ont. April 27, 1915.

GENERAL STAFF.

No. 98. Examination, Infantry.—Advertising division orders No. 4, of January 14, 1915, and No. 49, of March 12, 1915, the board of officers to examine candidates for infantry certificates at Provisional School of Infantry, London, Ont., is reconstituted as follows: President: Lieut.-Col. H. D. Smith, 24th Kent Regt.; members, Major A. T. Little and Capt. E. M. McLean, 7th Regt. Fusiliers.

ADMINISTRATIVE STAFF.

No. 99. Regimental Armorer.—The regimental armorer of the 7th Regt. C.M.R., C.E.F., and the 33rd and 34th Infantry Battalions, C.E.F., are detailed for duty at the Ordnance Depot, London, Ont., until further orders. In this connection, the regimental armorer of the 34th Bn., C.E.F., will draw rations from the 34th Bn. while so employed.

No. 100. Protection of Public Buildings, etc.—Advertising to division order No. 77, of the 9th September, 1914, the strength of the guard detailed from the 21st Regt. Essex Fusiliers is increased by one officer, two sergeants, two corporals and 25 men from the 26th instant, for the purpose of placing a guard at the Imperial Remount Depot, Windsor, Ont.

No. 101. Musketry Instructor Canadian Expeditionary Force Units.—Advertising to division order No. 95, of November 12, 1914, Sergt. Konrad, assistant musketry instructor to the 15th Bn., C.E.F., is to be employed with the Canadian Expeditionary Force units training in the 1st Divisional Area from the 15th instant and to continue to receive the pay of a sergeant in the Canadian Expeditionary Force.

No. 102. Appointments, Promotions and Retirements.—The following extracts from general order No. 41, dated March 25, are published for general information.

Canadian Army Pay Corps.—To be assistant paymaster, with the honorary rank of lieutenant, Sergt.-Major (war-rank officer) Walter Rowson, April 1, 1915.

Cavalry (1st Hussars).—To be provisional lieutenant (superannuated), William Edward Stanfield Potts, gentleman, March 29, 1915.

Corps of Guides.—To be provisional lieutenant (superannuated), Sergt. Hugh Kennedy Black, March 1, 1915.

Infantry.—7th Regt. (Fusiliers): To be provisional lieutenant (superannuated), Leonard Charles Jarvis, gentleman, March 17, 1915.

21st Regt. (Essex Fusiliers): To be lieutenant (superannuated), Lieut. A. D. Green, from the Corps Reserve, October 1, 1914.

28th Perth Regt.—Prov.-Lieut. R. D. Rankin is permitted to retire, December 14, 1914. Lieut. (superannuated) W. F. Hixon, A. W. Deacon, S. M. Johnson, S. M. Johnson, V. Pickering are absorbed into the establishment.

To be lieutenant (superannuated), Robert McCannus Fair, gentleman, March 16, 1915. To be provisional lieutenant (superannuated), Arthur Thomas Trethewey, gentleman, March 16, 1915.

29th Waterloo Regt.—Lieut. G. W. Call is transferred to the Corps Reserve, March 8, 1915. Lieut. (superannuated) J. T. Gillies is absorbed into the establishment.

30th Regt. (Wellington Rifles).—Prov.-Lieut. (superannuated) R. McNally is seconded, March 15, 1915. To be provisional lieutenant (superannuated), Herbert Edgar Patterson, gentleman, March 13, 1915.

Reserve of Officers.—To be captain, Jesse Buckley, esquire, late 32nd Bruce Regt., March 29, 1915.

Confirmation of Rank.—The under-mentioned provisionally appointed officer, having qualified himself for his appointment, is confirmed in his rank from the date set opposite his name: Supernumerary-Lieut. G. H. Tennent, 7th Regt., January 12, 1915.

No. 103. Damages to Rifles.—It is notified for general information that unnecessary damages to rifles, especially stocks, has occurred through carelessness or undue violence, and that unless it is clearly established that the damage was unavoidable, the cost of repairs will not be made a charge against the public.

No. 104. Dentistry, Canadian Expeditionary Force.—Officers commanding expeditionary force units will see that the men under their command are examined by a dental surgeon, and that all necessary treatment is carried out forthwith. They will report to the A.A.C. 1st Division, without delay that this has been done.

(Signed) W. A. McCRIMMON,
Lieut.-Col., for 1st Div.

FILLS COUNCIL VACANCY

City Clerk S. Baker notified the board of control yesterday that H. C. Simpson, thirteen in the aldermanic race last January, has qualified for the seat on the council made vacant through the death of Ald. Neil Cooper. His first appearance will be at the special council meeting on Friday.

DEACONESS AND MINISTER TO HELP

REV. D. C. MacGREGOR

Action is Taken by St. Andrews Congregation.

At a largely attended meeting held last evening the congregation of St. Andrew's Church decided to engage a deaconess to assist Rev. D. C. MacGregor, the minister, and also to engage another minister to aid Mr. MacGregor in pastoral work.

The meeting was held previous to a social gathering, in which all joined in extending a farewell to Rev. Hugh McFarland, who has been assistant minister for two years, and who leaves London Saturday morning for Barrie where he will become assistant and successor to Rev. Dr. McLeod.

In behalf of the congregation T. A. Rowat presented Mr. McFarland with a purse of gold.

The opening exercises were conducted by Mr. MacGregor, following which T. H. Purdon, K.C., was called to the chair. An address to the departing clergyman was presented by John Lock, and during the evening address were given by David Ross, Mr. Silverwood, John Stevely, Mr. Wallace and Mr. Dr. Munro.

A musical program was contributed by Mrs. Pink, Miss Robertson, Miss Cochran, W. H. Cate and the choir, the exercises concluding with the singing of "Auld Lang Syne," three cheers for the soldiers at the front and the "Save the King." Refreshments were served during the evening.

NIGHT BATHS FOR STREETS

Cleaning Dept. Has New Scheme For Washing Pavements.

Superintendent W. C. Dodd, of the garbage and street cleaning department, started last night to give Dundas street, from Ridout to Waterloo, and Richmond street from the G. T. R. tracks to Pallaton streets, an evening bath instead of sprinkling their surfaces during the day. This was decided on by the board of works as the proper system, and it will be tried out. The proposal is to use the "sequencer" washer to thoroughly flush down and scrape the pavements at night, so there will be no dust flying in the daytime to make sprinkling necessary.

The superintendent is advocating a power motor flusher for this work. The big American cities and many in Canada also, use gasoline pumps to increase the water pressure on the flushers.

CARS OR NO CARS HERE ON SUNDAY

Finance Committee Takes "We Should Worry" Spirit.

If Sunday cars depended on the members of the council finance committee, Londoners could get out their "We Walk" pins, decorate themselves with them like prize bulls at a country fair and proceed to hoof it next Sunday. The two months extension of last year's special Sunday car franchise expired on the 21st of the present month. In order to have the question in shape for the submission of a by-law this week, so that cars could be operated on Sunday of next week, a special meeting of the finance committee was called for yesterday afternoon in City Solicitor T. G. Meredith's office. Not a member of the committee turned up, not even the chairman, Ald. J. F. Hancock.

When the board of control met later in the afternoon it was decided to call a special meeting of the council for Friday noon, when a by-law, authorizing a further extension will be presented. City Clerk S. Baker was instructed to have the by-law prepared in the meantime.

The failure of the finance committee to turn up also threw the Bell Telephone franchise question. This was to have been considered at the last regular meeting of that committee, but as none of the members but Ald. H. B. Asplund showed up, it was perforce left over.

In connection with this question the controllers have also taken the initiative and a conference with the telephone company will be held at once.

CLEAN-UP DAY IN SCHOOLS

Suggestion Promoted By Inspector of Schools, C. B. Edwards.

Clean-up day in the schools is a suggestion that is being promoted by Public School Inspector C. B. Edwards. To further this idea, he has sent the following circular to all school principals in the city:

"I venture to suggest that each public school principal enlist the interest of the larger boys in the advisability of volunteering some afternoon before Arbor Day to clean up the school yard, thus making it more presentable, and also more of any unnecessary mud, which could be left on the mats instead of being brought into the building. Visitors are favorably impressed by a clean school building and neatly-kept yards."

"It is suggested that the school flag be put up each morning and lowered each evening, if it can be done without too much trouble."

DR. A. W. CHASE'S 25c CATARRH POWDER

CONTROLLERS FAVOR GRANT FOR WESTERN

University Will Likely Be Given \$17,500—Deputation Waits on Board.

Prospects for a sufficient municipal grant to the Western University to enable that institution to be placed on such a footing that its degrees will be recognized by the Ontario Department of Education seem rather than ever. Some time ago President E. E. Brathwaite was asked to prepare an estimate of just what was needed to secure this standard. He figured on \$20,000.

At the board of control meeting yesterday, chairman of the board of governors and Major T. G. Murphy, appeared as a deputation from the "U," asking what was to be done.

While no promises were given, the board was in favor of a grant of \$17,500 having decided to strike out the \$2,500 asked for the equipment of a gymnasium. It is expected that this will go through the council without any more reductions.

PERSISTENCY WINS OUT

John McCone Comes From Mexico to Enlist Here.

Persistency won for John McCone, of Chicago, what he came many hundred miles to get, a chance to do what he can to avenge German brutality. McCone applied to Major Rance, the recruiting officer of the 33rd Battalion, and said he wanted to join.

The standard height in the 33rd has been set at five feet six inches and McCone stands just five feet four.

"You are too short," said Major Rance. "Sorry, but we can't take you."

"I wish, if there is any possible chance you would take me on," said McCone. "I am sure I will make a good soldier and I want to join."

A little questioning elicited the information that McCone had come all the way from Mexico and that he had spent more than a year fighting the rebels.

Major Rance also found out that McCone is an engineer and surveyor and

had done a great amount of scouting work.

As the militia standard will allow men five feet three in height to enlist in infantry regiments Major Rance conferred with the adjutant and they decided that McCone would be a good man to take on now and later to transfer to the Scouts.

McCone said he didn't know much about drill, as where he had been serving it wasn't required. Yesterday he was turned over to an instructor, and is now working hard to learn everything there is to know.
