[Canadian Press.] London, Nov. 28.-2:45 p.m.-British troops yesterday raided the Bularian trenches northeast of Macukovo, on the east bank of the River Vardar in Greek Macedonia, according to an official statement issued today by the British war department. The trenches were destroyed, many of their occupants were killed, and a number of prisoners were taken. The text reads:

HOLDING HILL 1050.

Paris, Nov. 28-12:30 p.m.-German and Bulgarian troops on the Macedonian front made four counterattacks last night in an effort to drive the Serbians from Hill 1050 in the Cerna River region, which was captured yesterday. The war office announces that these attacks failed with heavy losses.

The text reads as follows: "During the day of November 26 an attack, in which the Zouaves took a brilliant part, co-operating with Serbian troops in the region to the northeast of Monastir, made us masters of Hill 1050. In spite of his efforts the enemy did not succeed in dislodging us from this important position, which he had fortified strongly. Four counter-attacks by Germano-Bulgarian forces were successively repulsed by our troops, who inflicted sanguinary losses on the enemy

THE ROYAL GIFT—and a royally good selection is ready for gift seekers. When monarchs, kings and queens wished to favor each other, gifts of furs and precious stones were selected. Now

when our friends, fathers, brothers, husbands and sweethearts would show special favor they give furs.

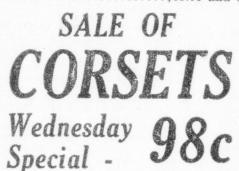

The present styles of furs lend themselves admirably to gift giving, for there are quaint little capes, rich scarts (very long), small muffs, and made from such a variety of furs! It is safe to say that there is not a family in which someone has not wished for some new article of fur this season.

In furs of quality this store has stood first, and now is ready to render a Christmas service that will give special pride to the recipient of any article of fur coming from this establishment.

That it always takes two to make a disagreement. That we will do our task with

alacrity, not slovenly haste. That we will be mindful of the comfort of others.

That we will always be cheerful and smile. That we will never be too

Have Your Winter Shoes Built on Neolin Soles

You do not need to wait for spring for Neolin. See that your next shoes have Neolin Soles.

Neolin is specially desirable on winter shoes. It keeps the feet dry and warm because it is waterproof, prevents accidents because it is slip-proof. It is good for indoors because it is noiseless and will not scratch furniture or floors. It is light and flexible, easy on the feet. Best of all it wears very much longer than the best leather. It has a distinctive style touch, beauty of finish.

Once more we say "Have your winter shoes built on Neolin Soles.

MATZENAUER Wants To Sing For You Alone

Madame Margaret Matzenauer, the peerless contralto of the Metropolitan Opera of New York, of whom a celebrated Australian critic said: "Matzenauer has really the

finest voice I have ever heard in a woman, without any exception. The quality is glorious beyond description," sang at the Princess Winter Garden yesterday evening. If you took the great opportunity to hear her, you will never forget her voice. Now she has gone, and the memory of her matchless voice still lingers with you. Hear her re-created voice

You will not be able to distinguish the slightest difference between her re-creations and her real voice. Both are the living, breathing artists. Hundreds of musical critics have confessed their inability to detect any difference between the two. With Christmas almost upon us, what finer and more enduring gift for the whole family than a New Edison?

We want you to hear this wonderful new invention in our store at your earliest opportunity. Come to us and hear Matzenauer's re-created voice. This is an invitationthere is no obligation to buy.
