Russia to purchase back from Japan the northern half of the Island of Sakhalin and pay for it the sum of 1,200,000,000 yen (\$600,000,000) for remuneration for the war expenses of Japan.

THE CZAR'S COUNTERCLAIM.

Japan to yield back to Russia, without payment, the northern half of Sakhalin, and Russia to pay liberally for Japan's care of Russian prisoners, the sum alluded to being \$100,000,000.

DIFFERENCE OF \$500,000,000.

The amount of difference between Japan and Russia is one billion yen, or \$500,000,000; and there seems to be an irreconcilable difference over the question of remuneration, Japan insisting strongly on observance of the "principle" of remuneration, to which Russia will not consent.

Chicago, Aug. 28. - Jimmy Britt and Battling Nelson have begun training for their important long distance battle, an assurance that the two boys mean business, and undoubtedly will be in the best condition possible to exchange wallops when the gong ciangs for action. The fight, viewed from any ingle, will cause more interest than any contest of the year, as the winaer, considering that Joe Gans has outgrown the light-weight class, will have a strong claim on the light-weight championship. Besides this, the battle will go down in ring history as the nost important from a financial standpoint between boys of their weight in America, if not in the world.

The monetary conditions of the match, as has repeatedly been stated, involves \$30,000 in cold cash, \$20,000 of which is guaranteed and the balance will come from the moving picture privilege. The weight called for denands that they weigh in at 133 pounds at 10 o'clock on the morning of the fight, which, according to the articles, will take place between the hours of 1 and 3 in the afternoon of a day to be DISCOUNT SALE - FIFTEEN OFF

next night George Dixon disposed of Jack Skelly in eight rounds, which netted him the winner's end of a \$7,500 purse. The night following brought together John L. and Corbett for a purse of \$25, 000 and a reported side bet of \$20,000, Corbett winning in the 21st round. The guaranteed purse of all purses, \$45,000, was offered by the Crescent City A. C. of New Orleans for Jim Hall and Bob Fitzsimmons to contest for on March 1893. Fitz won that fight in the ourth round, but the club settled with the fighters at less than 50 cents on the dollar, "coughing up" less than \$18,000. On March 3, five days before the Hall-Fitzsimmons battle, Joe Goddard and Ed Smith fought for \$10,000 under the auspices of the Olympic A. C. of New and 3 in the afternoon of a day to be selected between Sept. 7 and 11. This is a self-evident contradiction, as the convention,

Canada and the West Indies.

The project of a legislative union of Canada and the British West Indies. which is being discussed by the London Times, has some attractive features. The islands have an external trade of \$60,000,000; they produce what Canada consumes, and consume what brought about by favorable fiscal arrangements. At present their best market is the United States, and the bulk of their imports come from that country, and from Great Britain, in about equal quantities. Their chief export is fruit, in which they are building up a flourishing trade. In the last fiscal year Canada's exports to the British Men Wanted-Men who will be strong,

Germany's Costly Lesson.

The Kaiser's dream of the over-seas xpansion of the German Empire is mocked by the ill-success of German colonial enterprise. None of the German clonies has proved a profitable venture or appears to have the elements of a permanent and vigorous life.

The revolt of the Herreros in German East Africa, which began in January, 1904, and is more formidable than ever, has been a rude shock to German pride lives have been sacrificed, and the sum of \$62,500,000 thrown away in futile military operations. Posed as Detectives and Stole Goods From London Merchants.

London, Aug. 28. - The story of an extraordinary imposture was told at the Clerkenwell sessions last week in the case of two men named John Mc-Gillicuddy, a porter, and Geo. Cham berlain, a laborer, who were convicted of having stolen a watch and other ewelry, and about \$100 belonging to Mr. and Mrs. Keeble, who carry on a business as general dealers on Hornsey road. Mr. Purcell, the attorney for the prosecution, explained that the two orisoners and another man walked boldly into the shop of the Keebles and said that they were detectives their object was to search for \$250 worth of stolen jewelry. They helped themselves to everything that caught J. W. Bawden and F. R. Lawson to press trains, leaving Suspension ther eye or pleased their fancy, tell-ing the Keebles that it was stolen. let ashes accumulate in the pan until they come near the grate you are sure to burn it out or warp it. On account of the construction of ordinary ranges, repairing a grate means taking out the fire bricks and practically taking the fire-box to pieces. It is the work of a stove expert.

The Imperial Oxford Range has a patented drawout duplex grate. By this construction the grate and frame is readily drawn out over the ash-pan without even disturbing the linings. Repairs are thus easily effected even by one without experience.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE CENERAL PUBLIC.

A witness made the statement before the Parliamentary Special Committee that, "It is an undoubted fact that municipal telephony is rapidly gaining ground in Great

Britain." An Act was passed by the British Parliament in 1899 which enabled municipalities to provide telephone service. In six years just six municipal telephone plants have been established and one of these has sold out its plant to the Nationa Telephone Company under an agreement which permitted the company to increase the rate charged by the municipality

by about fifty per cent. Of the municipal exchanges in Great Britain, Glasgow is invariably cited as the most successful. In fact the representative of Glasgow corporation who gave evidence before the Special Committee stated that theirs was really the only

opposition which the National Company has in the Kingdom. The telephone situation in Glasgow can be summed up in two statements which are indisputable. Add together the number of subscribers to both the municipal exchange and the National Company's exchange (including the duplicate services of 5000) serving a population of 1,200,000, the two services combined have a telephone per 35 of the population. In Canada the Bell Telephone Company has in Montreal and suburbs, one telephone per 22 of the population; Toronto and suburbs, one telephone per 17; Winnipeg, one per 11; and in thirty-one cities and towns of over 7,000 population we have an average of one per 21 of the population. The municipal telephone in Glasgow after three years' operation has only one telephone to about 100 of the population served, and they are now practically at a standstill. No such meagre

service exists in Canada. The Municipal Telephone in Glasgow has a flat rate of £5 5s. for both Office and Residence. The National Company has a flat rate of £10 for both Office and Residence. Both systems have also a limited service rate. After three years of the most determined competition, the Municipal Service has less than 13,000 subscribers and is increasing only about 80 or 100 per month, while the National Company has over 21,000 subscribers, and is increasing at the rate of 500 to 600 per month. Of the 13,000 subscribers to the municipal exchange, at least 5,000 have the National Company's service as well. This result is in the face of the utmost obstruction of the National Company in its operations by the City Council of Glasgow, which has refused the National Telephone

Company the use of any of the streets in the city. THE BELL TELEPHONE COMPANY OF CANADA.

A dispatch from Cincinnati, Ohio, announces that the amalgamation of machine tool companies of Canada and the United States, including the big Bertram machine tool works of Dun-das, has been completed. Interviewed this morning, Mr. Bertram said the matter stands now just as it has been for some time past, and that no person is yet in a position to give out any definite information. Mr. William Yeates, of the London Machine Tool Company, was asked to-

day if his firm is concerned in the amalgamation, and he replied that it is rot. As to the reported removal of the Machine Tool Company, Mr. Yeates said there was nothing new.

SNAP-SHOTS AT VARIOUS SPORTS.

It is rather early in the year to tall, hockey, but the season for reorganization is close at hand. Managers will be on the lookout for material for the season, and in other ways will be getting ready for the coming winter. Right here, however, it is expedient to say that London wants only one intermediate hockey team. No more fiasces like last year. From the material at hand a good team could have been developed. As it was, neither team had a ghost of a chance to win its district. One intermediate team in the O. H. A. will pay. London would support, and that right royally, a team worth while. Let those who have the interest of sport in the city at heart get together, and prevent any more work of that nature. Several good players have come to town this summer. Prospects are good with one team. With two-

Through an oversight, young Jeffries was overlooked as a promising youngster. He is the makings of a ball player, and with a trifle more experience will make good anywhere.

The runners are having their innings to a great degree this year, and not in many years have so many "bangtails" been going the rounds. They are being recognized in the fall fair programmes this year, owing, largely to the scarcity of harness horses to fill the several eyents. Whether it will be productive of good, remains to be seen. The trotter has had a great impetus, and the breeding of good trotters has been profitable for some years. But fine saddle horses are a very scarce article right now. No class of horse commands much more money. Whether the educative (?) value of the racing at fall fairs will demonstrate to the farmers the advisability of paying more attention to breeding to good thoroughbred sires, has yet to be demonstrated. Meanwhile, a good running race is a fine thing to look at.

"Dick" Harley, manager of the Toronto baseball team, has been "canned," and he received his unconditional release from the team. The outfit behind that Toronto team is fierce. A couple of years ago nothing would do them but a playing manager. They must have one at all costs. They got "Jimmy" Gardner, as good a man as ever tossed a ball. Jimmy was not a success, and that was largely because he did not get out and pitch his head eff, besides doing his managerial work. Gardner was let out, and the managers hit on Harley, an outfielder, who would work there, and also act as manager. Lick was a good man in the company, an intelligent and educated player, but his work has been a failure as far as results are concerned. Now, don't blame Harley. He was not given any chance. The management thought too huch of dividends to lose much time about a team. If a good team could be secured without money, why, all right, but as for putting out coin to get a team-not yet. Good-bye, Dick. You are lucky.

"Ed" Barrow gets Harley's job. Let's see, who's this Barrow? He managed the Detroit American League team. He got his there. Then he went to Montreal. A great success there-well, scarcely; then to Indianapolis. Up to date, he has not been burning things up in that country. Toronto, you will have to look again. Barrow will get a bunch of antiquities such as Massey, Toft, Carr, etc. The anvil chorus will sound merrily, if Barrow does not land in third place this fall,

Strathroy is coming down this Wedresday to play McClarys, and it is said "Rube" Deneau will come, too. Rube is out for the endurance medal, as last week he pitched 5 games and won them all. He held Mount Clemens cown to two hits, and caisomined them finely, It will be a game worth see-

Fishermen are reporting fair luck on the north branch of the Thames. It was closed for two years, and the fish were given a chance. Some good catches of black bass are reported. The south branch of the Thames is very peor this year, and many a disciple of Isaac Walton has wandered miles, and came home weary, with no fish. They will have to close up both branches for a while, or else make some arrangements about the seining and gill netting father down the river.

Quail are reported in some localities as being quite numerous. Considerng the few who survived the winter, they have done well, and have reproduced numerously. Of course, there will be no shooting this fall, and the sportsman will have to forego that pleasure. But some measures are to be taken to protect the bevies this winter. The quail are not shot to extermination, but are frozen out. Merciless pot-hunters have been known to shoot whole flocks of them in the winter, after their place of abode had been discovered. If the farmers on whose places a bevy winters could be persuaded to care for them, the country would soon be restocked. Sportsmen should see what could be done in this matter.

Advertiser Correspondence

A DANGEROUS CROSSING. To Editor of The Advertiser: I notice this morning an account of

an accident at the Maitland street crossing of the Grand Trunk. The ac-cident is no surprise to those who know the place. A bylaw was passed a year ago for a permanent sidewalk at this spot, but the engineer's department refused to lay it, and instead laid a few old planks, which have twice been knocked out of place and thrown into the middle of the road, to the danger of all passersby. I called at the engineer's office Saturday morning and told him the state of affairs, and that the sidewalk was again thrown into the middle of the street. The matter was probably too small for that great man to bother with and now the city has a damage case on its hands, and the hospital has another patient. Yours truly, A. KEENLEYSIDE.

Albert Robson Gives His Version of His Arrest at Ilderton-Report Doctored?

Albert Robson, of Ilderton, wishes to deny what he claims were a couple of misstatements in the newspaper refort of his arrest, which was made me weeks ago at the instance of his wife by High Constable McLoud and Constable Paisley. The Advertiser re-port was obtained from the criminal

authorities.

Mr. Robson admits that he was under the influence of liquor on the night in question, but denies emphatically that he fired any shots at his wife or mother. The only shot, he says, was fired when the constables came to arrest him, and that was before he recognized who they were. He claims that he was nct even misbehaving on that night but that he was arrested on a warrant which had been issued some time be fere for his arrest for drunkenness. Mr. Robson admits that the liquor abit was one of his faults, but say that otherwise his reputation is good and that his neighbors will bear him out in this statement. He claims that the report which was given to the

ress was "doctored" on account of ill-It will be remembered that Mr. Robsen was tried on the charge of insan- and will encourage the little ones to ity preferred by his wife. The charge was dismissed, and he was set at lib-erty. No charge of disturbing the peace was pressed against him.
