WATERDOWN

Waterdown Votes Dry by 160

The Referendum vote here last Monday was not as large as on some previous elections, but the results were about as had been expected, a two to one vote. The temperance workers were out early and worked hard until the polls closed, the wets meantime displaying little interest. Following is the result of the vote.

	Yes	No

Sub-division No. 2	127	61

Locals

Miss Irene Slater left on Monday to enter the Toronto General hospital as a nurse.

A number of our young people attended the dance at Burling last Tuesday evening.

Miss Eva Slater, who has been spending the past two months in Regina, Sask., returned home last Monday.

Mr. M. Williamson, secretary of the Junior Baseball League has called a meeting of the members in the Bell house on Monday evening Apr. 25th at 8.30.

The executive of the W. A. A. A. and a committee from the Library Board held a meeting in the Bell house last Monday evening and appointed committees for the big 24th of May celebration to be held here.

The senior pupils of Mrs. Neilson Wright will give a musical evening on Thursday, April 29th, assisted by Miss Laura Miller, elocutionist, of Hamilton, and Mr. Bob McCabe, tenor of Hamilton. Refreshments will be served. Admission 50c.

At a special meeting of the council last Monday the following resolution was passed. Moved by councillors Dougherty and Atkins that this council instruct Walsh & Wilton to advertise for tenders for the building of a Memorial hall to be erected in the village of Waterdown. Separate and bulk tenders required for same. Marked cheque for 10 per cent to be sent with tender.

The local staff of the Royal Bank entertained the Inspectors for a few days this week. Apples, chocolates and ice cream cones were served each day on the premises, besides a dainty luncheon served by Mrs. Torrance in their honor. General regrets were extended on their departure, and each inspector was presented with a club bag and a general report of the branch to show its esteem in which they are held.

CARD OF THANKS

Mrs. R. Skelly wishes to thank the King's Daughters for their kindness in sending flowers during her recent illness.

Mrs. J. C. Medlar desires to thank the many friends for their kindness and the King's Daughters for flowers sent during her illness.

Mrs. L. J. Mullock wishes to thank the King's Daughters for the lovely plant sent during her recent illness.

Greenville

Mr. I. Case died at the home of his daughter, Mrs. G. Riley.

Mrs. I. N. Binkley is visiting at the home of her daughter at Carlisle.

Mr. and Mrs. D. A. Hyslop, Sr. returned home from Florida on Sunday last.

Chappel-Mann Wedding

On Wednesday April the 20th the home of Mr. and Mrs. Thomas Mann Dundas street, Waterdown, was the scene of a very pretty wedding when their youngest daughter, Geraldine, was married to Harry Elliott Chappel, second son of Mr. and Mrs. John Chappel of Hamilton. The ceremony being performed by Rev. C. L. Poole B. D., of Waterdown. The bride who was given away by her father wore a beautiful dress of white silk crepe de chene with veil and orange blossoms and carried a bouquet of cream roses and wore the groom's gift, a lovely pearl and diamond bar pin. The wedding march was played by the bride's sister, Mrs. Wilbert Chappel. After a sumptuous wedding dinner, Mr. and Mrs. Chappel left for a short trip to Niagara and Toronto. The bride travelling in a suit of grey tricotine with hat to match.

Freelton W. I. Meeting

The monthly meeting of the Freelton Women's Institute was held at the home of Mrs. Jas. A. Gray on Tuesday afternoon, April 12. There was a very good attendance. The president being absent, the vice-president, Miss A. Lindsay, occupied the chair. After a short business meeting a solo duet was sung by Miss Edith and Ethel Gray which was much enjoyed. A reading by Miss Smith was also well given, followed by an excellent address on "The benefits of travel," by Rev. Mr. Atkinson of Strabane. Lunch was served and a pleasant half hour spent. Next month May 10th, will be the annual business meeting at the home of Miss Nellie McCuen. All members are requested to be present.

Flamboro Centre

The concert and box social held here last Friday evening in aid of the Tiger baseball team was a big success. The school house being neatly decorated in black and yellow for the occasion. There was a large turnout of young people, and all thoroughly enjoyed themselves. Short speeches were given by Mr. Ed. Dodds, Frank Baker, M. Williamson and the chairman, Walter Roberts. The proceeds of the evening amounted to \$96.75.

A Dance is to be given at the home of Mr. Jas. Robson, 7th concession, on Friday evening, April 22nd.

W. A. A. Items

The Basket ball game last Friday evening proved a hummer. It was the best and fastest game put up by the boys since they began playing. Hard close checking being the order of the night. One cannot pick an individual player to stand out more than another. Griffin, Newstedt, R. Willis as subs kept the game at fever pitch every time they took the floor. Vance while not in the best of condition put up his usual heady game getting his share of the baskets. Burns closely checked at all times managed to keep the score a notch or two in front. Playing Gordon on the defence the last half was a wise move by the boys, as Ashur sure did keep the opposition score down, while the "smiling bullet" Verne Willis had the large crowd standing on their heads with his criss-cross runs and flash-light movements.

A club dance for all members of the W. A. A. will be held on Friday evening of this week. All members are requested to be on hand to enjoy this social event. A good local orchestra has been engaged and a good time can be expected. A collection will be taken to defray the expenses.

Mr. Thadens Patten, Provincial and Dominion Land Surveyor of Little Current, Manitoulin Island, Ont., formerly of Waterdown and later of Carlisle, was the guest of Mr. and Mrs. A. Newell on Tuesday. Mr. Patten and Mr. Newell were close school chums at Carlisle in 1872 but have not met in over 40 years, consequently they had much to talk about as they called on several of their old school-mates in the village. In 1874 Mr. Patten attended the High school here, and many of his class-mates remember him as very apt pupil. He resided here in 1867-68, and remembers very distinctly the celebration of the first anniversary of Dominion Day, the callithumpians acting a very important part. Mr. Patten has performed many large surveying contracts for the Ontario and Dominion governments in the wilds of Northern Ontario and Northwest Territories. He intends returning again at no distant day and visit the scenes of his boyhood days at Carlisle and Progression.

Mr. R. S. Chaffe, who is attending the Toronto University, is home for a few holidays.

\$5 for a Name

The person sending in the most suitable name for the new Waterdown Bus will receive \$5 in bus tickets. Names to be handed in at Review Office not later than Saturday noon April 23. Three prominent citizens will act as judges.

A. E. MORDEN

The Sunday School Lesson

Lesson IV. April 24.
POVERTY AND WEALTH.
 Lesson—Isa. 5: 8-10; Amos 8: 4-7;
 Luke 16: 19-25.

Golden Text.—"For where your treasure is, there will your heart be also" (Luke 12: 34).

The Lesson Text.
 Isa. 5: 8 Woe unto them that join house to house, that lay field to field, till there be no room, and yet be made to dwell alone in the midst of the land!

9 In mine ears saith Jehovah of hosts, Of a truth many houses shall be desolate, even great and fair, without inhabitant.

10 For ten acres of vineyard shall yield one bath, and a homer of seed shall yield but an ephah.

Amos 8: 4 Hear this, O ye that would swallow up the needy, and cause the poor of the land to fail.

5 saying, When will the new moon be gone, that we may sell grain? and the Sabbath, that we may set forth wheat, making the ephah small, and the shekel great, and dealing falsely with balances of deceit?

6 that we may buy the poor for silver, and the needy for a pair of shoes, and sell the refuse of the wheat

7 Jehovah hath sworn by the excellency of Jacob, Surely I will never forget any of their works.

Luke 16: 19 Now there was a certain rich man, and he was clothed in purple and fine linen, faring sumptuously every day:

20 and a certain beggar named Lazarus was laid at his gate, full of sores,

21 and desiring to be fed with the crumbs that fell from the rich man's table; yea, even the dogs came and licked his sores.

22 And it came to pass that the beggar died, and that he was carried away by the angels into Abraham's bosom; and the rich man also died, and was buried.

23 And in Hades he lifted up his eyes, being in torments, and seeth Abraham afar off, and Lazarus in his bosom.

24 And he cried and said, Father Abraham, have mercy on me, and send Lazarus, that he may dip the tip of his finger in water, and cool my tongue; for I am in anguish in this flame.

25 But Abraham said, Son, remember that thou in thy lifetime receivedst thy good things, and Lazarus in like manner evil things; but now here he is comforted, and thou art in anguish.

Comments.
 Isa. 5: 8. Isaiah lived in the sixth century B. C. in the city of Jerusalem. His denunciation is against proud and haughty rich who hard-heartedly oppress the poor. A debased aristocracy in whom public virtue had been eaten out by avarice and sensuality is here described. There are several "woes" introduced, and, simmered down, this first one is pronounced upon selfishness in the very hearts of people who had every opportunity to cultivate better traits.

Verses 9, 10. Jehovah pronounces a great punishment upon these self-centered aristocrats.

Amos 8: 4. The writings of the prophets Amos are believed to be the earliest of the prophetic writings. He here denounces Israel's sin of selfishness, just as Isaiah does in the foregoing passage. It is an Old Testament denunciation of commercial dishonesty.

Verse 5. "Tampering with the balances by which the money received by them was weighed, and so gaining a third unjust advantage over the purchaser," is what is meant by "dealing falsely with balances."

Verse 6. The final depth of rapacious conduct is described when the poor are impoverished into impossible debt and have to sell themselves or their children as slaves to their rich oppressors.

Verse 7. Such dishonesty is said to arouse Jehovah's everlasting indignation.

Luke 16: 19-25. Most of the denunciatory teaching of Jesus was against the rich, comfortable, hypocritical Pharisees. The significance

LOOKS LIKE A WET SPRING!

The History of Your Name

COX
 VARIATIONS—Coxon, Cook, Cooks, Cookson.
 RACIAL ORIGIN—English.
 SOURCE—An occupation.

It might appear, at first glance, that some of the family names in this group had their origin in some reference to the cock, or rooster. There is a rare possibility that in some instances the name Cox may have had such an origin.

In such cases it would come as a shortened form of "Cocker-son" that is, "the son of the cock-fighter," for cock fighting is a very ancient sport, and was well established in popular favor in medieval England. Or it might be derived from the form "Atte Cock," or as we would put it today, "at the Sign of the Cock," for in their lack of ability to read, the English of olden times called upon the full range of the animal and vegetable kingdoms with which to illustrate the signs by which they identified their shops and their inns.

But in the vast majority of cases, the forms of the foregoing family names indicate that they come from "cook." There was no uniform method of spelling this word in the middle ages, and it was often necessary to judge whether the writer meant "cook" or "cock" by the sense of his writing. But such a form as "Roger le Coc" or "le Coc" or "le Cok" occurring in the ancient lists of names kept for taxation or other purposes, has only one reasonable translation, "Roger the Cook." And that form of name occurs with such frequency as to insure its perpetuation as a family name. At that period "Roger le Coc" could never have been used with the meaning "Roger Atte Cok."

MAN ONLY OWNS 32 TEETH, WHILE SNAIL HAS 14,175.

Dame Nature Shows Peculiar Sense of Humor in Some Ways.

Why man, whose appetite leads him to the chewing of a wide variety of foods, should be given only thirty-two teeth, while the snail, whose menu must be much more restricted, is provided with 14,175, in 135 rows of 105 each, is one of those things we feel inclined to attribute to Dame Nature's sense of humor.

This feeling is increased when we are told that the smallest number of teeth dished out by Nature falls to the lot of that great creature, the narwhale, which has only two. The elephant is almost as badly off, being endowed, as a rule, with but six, although he occasionally may have as many as ten.

Rabbits have twenty-eight teeth and rats and mice twenty each. Sheep and oxen possess the same number as human beings. Frogs have no teeth at all on the lower jaw, and toads are quite toothless. The shark has several rows of teeth, the outer ones being replaced as they become worn, at the expense of the inner row.

The pike is provided with what might be called hinged teeth, as they certainly can be turned inward to enable it to hold its prey firmly.

TELLS HOW CATARRH IS DESTROYED QUICKLY

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be fixed up right at home by inhaling "Catarrhazone." In using Catarrhazone you don't take medicine into the stomach—you just breathe a healing piney vapor direct to the lungs and air passages. The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and the disease ends quickly. Colds and throat troubles can't last if the pure healing vapor of Catarrhazone is breathed—sneezing and coughing cease at once, because irritation is removed. Bronchitis, irritation and weakness in the throat soon disappear. Use Catarrhazone whether young or old. Two months' treatment \$1.00; small size 50c dealers everywhere or The Catarrhazone Co., Montreal.

It is estimated that the world's wheat crop for 1920 will show 2,074,769,000 bushels compared with 2,078,666,000 bushels for 1919. North America produced 1,044,909,000 compared with 1,184,347,000 bushels in 1919. Although North America shows a decrease for 1920, yet Canada had a noticeable increase—863,100,000 for 1920 as against 103,169,000 for 1919.

The Magic Carpet

Visits to New Worlds

THE MAGYARS.
 While it has suffered little through loss of territory by the Great War, Hungary had been dealt a severe blow and today faces a future filled with anxiety. Hungary has always occupied a peculiar position, lying in the centre of Europe. She divides the North from the South Slavs and is dominated by a race that do not belong to the great Aryan family like other European nations. These Magyars, according to the earliest documents extant had their home in the Ural Mountains, not far from the Volga, and were summoned by the Roman Emperor to aid him against the Moravians and eventually moved Westward about the end of the Ninth Century under the leadership of Cupad, within whose family the monarchy became elective. They occupied Duda, were eventually defeated by Emperor Otto I. at Augsburg. Being great horsemen, it was natural that when they settled down they should choose the plains, leaving the mountains to the Slavs and Roumanians. Even by the close of the Tenth Century they occupied all of what is now modern Hungary. Through their chief, Stephen, they became converts to Christianity about the year 1000. A. D. Stephen subsequently was created a king and afterwards a saint by the popes, and in this way the term "apostolic succession" originated. This religious connection with Rome drew these Asiatic Magyars to the Western Powers. In 1526 the Turks overran the country and the powerful Hapsburgs were appealed to. The Hungarians, in spite of Napoleon's appeal to their national sentiment, held to their sovereign during the Napoleonic wars. In 1867 the "Ausgleich" which accepted the principle of the Dual Monarchy was signed. There has always been a strong national feeling among the Magyars, who, however, have been and continue to be most intolerant of the national aspirations of subject races.

LABOR PROTECTION ONLY PARTIAL SOLUTION.

Canada is maintaining rigorous immigration regulations for the avowed purpose of protecting Canadian labor, yet the fact is overlooked that Canada and the Canadian people are supporting much factory labor abroad by purchasing imported manufactures or semi-manufactured goods. Rigorous immigration laws are worse than useless unless adequate tariff protection be provided to keep our own industries in operation. Instead of opening the doors to a flood of imported goods, exports of Canadian produce during the month of February, 1921, were valued at only \$65,237,738, as compared with a value of \$86,655,190 for the same month of 1920, a reduction of \$21,417,452,349 from the value of imports in February, 1921, was \$71,970,507, a reduction of \$15,526,349 from the value of imports for February, 1920. In February of last year the merchandise trading account was in Canada's favor by \$841,666, but in February, 1921, it was unfavorable in the amount of \$6,732,769. For the eleven months ended February, 1921, imports for consumption exceeded in value exports of Canadian products by \$26,486,004. Agricultural products and wood products, including paper, continue to be the biggest factors in our export trade, while a very large portion of our imports consist of manufactured and semi-manufactured goods.

MEN CARRY MIRRORS.

The people of Manchuria are extravagantly fond of mirrors, which they use for ornamental purposes, so adorning them with flowers, birds, and even landscapes painted on them as to make them practically unrecognizable as looking glasses. The cigarette cases and purses carried usually contain small mirrors, of which their owners make constant use as do young women in our own country of glasses in vauky boxes.

Use Cuticura Talcum To Powder and Perfume
 An ideal face, skin, baby and dusting powder. Convenient and economical, it takes the place of other perfumes. A few grains sufficient.
 Soap 25c, Ointment 25c and 50c, Talcum 25c. Sold throughout the Dominion. Canadian Depot: Leman, Limited, 344 St. Paul St., W., Montreal.
 Cuticura Soap shaves without mug.

YOUR CHILD

A Department For Farm Mothers.

The right kind of doctor will not be trying to make money out of you, but will ask only a reasonable fee. Don't have any other kind of doctor. It might be well for you to mention what you can afford when you first go to see the doctor, for you and your husband have no doubt been wisely trying to save money for the baby and the necessary expenses. But even if you have no money you can always have the best of care. All hospitals have, or should have, maternity departments, and you could go to the nearest good hospital, ask to see the nurse in charge of the maternity ward and find out from her when you can see the doctor and arrange for coming regularly for medical care. At the time of the birth, you and the baby can be better taken care of in the hospital than anywhere else, whether you are paying your hospital fees yourself, or whether you are having your medical and nursing care free. If you are going to stay at home and not going to a hospital, engage your nurse in good time. The doctor will advise you about this.

What Shall You Eat
 Your regular meals. Simple, pure, nutritious food. A fresh egg (not too hard-boiled) is simple food, because it is in its natural condition as laid by the hen and not highly spiced or seasoned; it is pure, because no preservative has been used on it, and it has not been kept a long time and become bad; it is nutritious, because it contains the very things the mother needs to build up the muscles, nerves, bones and all other parts of her body, and her baby's body, which is now part of her own. Milk is the same, an ideal food for the mother. Both eggs and milk should be prepared in many different ways; they seem like now foods every time. Roast, boiled or broiled meat once a day; fresh fish, well-cooked cereals, fresh or stewed fruit, bread, not too fresh, and butter, some cheese, plenty of vegetables, especially green vegetables, are the right foods. It has been found out recently that fats (milk, butter, cream, etc.) and green vegetables are a great deal more important than we thought. In fact we cannot do without them. This is specially true of the mother. She and the baby will both suffer unless she takes these foods every chance she can get, every day if possible at all. These foods are indispensable. You cannot do without them.

Lake Superior, with an area of 31,800 square miles, is the largest body of fresh water on this continent, and probably in the world. The level of Lake Superior is 602 feet above the sea.

New Brunswick has only one lake of any considerable size, namely, Grand Lake, with an area of 74 square miles, being 16 square miles larger than Lake St. John, north of Quebec City.

Nova Scotia has two well-known lakes, namely, Bras d'Or, the area of the two being 300 square miles, or about 100 square miles greater than the area of Lake Simcoe, in Ontario.

THE WATERDOWN REVIEW

Issued every Friday morning from the office, Dundas Street, Waterdown. Subscription \$2.00 per year. Papers to the United States, 50 cents extra. Advertising rates furnished on application.

OUR BOYS' AND GIRLS' CORNER

By Aunt June

Registered According to the Copyright Act

DEDICATED TO EVERY BOY AND GIRL IN CANADA

My Dear Boys and Girls—One of these days I shall expect a call from the man at the post office to ask me if I wish to enlarge my mail box. It is getting such a busy corner, but how delighted I am to see all the letters come tumbling in.

A loving welcome to all new members this week.

ONR LETTER BOX.

Dear Aunt June—I have been reading your boys' and girls' column and think it just splendid. I am eleven years old and in the senior third class. I live on a farm and like living on one. In the house I help wash dishes, carry wood and water in, feed the hens and gather the eggs, I have for pets two cats and a hen. One cat is black and I call him Dinky and the other is grey and I call her Tabble and call my hen Polly. My hen sings all day and lays me an egg for breakfast. I have a good time at school but I am not going just now as I have a bad cold. I will be glad when I am able to go to school again. I should like some other members to write to me.

NORMA SMITH.

Dear Norma—What a splendid list of helpful deeds. I should like very much to send you a badge but you forgot to enclose a three-cent stamp. If you send a stamp I will send a badge right away. I am sure some of the other members who read your interesting letter will write to you.

R. R. No. 1 Nanticoke, Ont.
Dear Aunt June—I thought it would be nice to get a badge as all the other members like it. I go to school every day. I am in the fourth class. We have a test in spelling and arithmetic every Friday. I am twelve years old and I had a birthday party. I have two of my school friends to stay with me all night. We get about ten eggs a day. I have two brothers, one is older than myself and one is younger. When I get home from school I set the table and get the supper ready. Then after supper we wash the dishes. On Saturday I sweep the floor and help bake beside the other. I have a cat he is a grey and white and I call him Buster. We have sixteen little lambs. I like them very much. One sheep is sick and we have to feed the little lambs.

PLEDGE FOR HELPERS.

"Do a little kindness to someone every day. Scatter rays of sunshine all along the way."

I pledge myself in the service of my King and Country to do my best in my daily work, whenever it may be, to help others whenever possible, and to endeavor in every way to make myself a good citizen.

Name

Age

and dust. One sheep was jumping over a fence and hurt herself and we have to feed her two lambs. At first we had to feed them with a bottle but they drink now.

GEORGE WALKER.

Dear George—I enjoyed your long letter but when you read my reply to Mildred you will see that I cannot send you a badge until you send me a three-cent stamp for postage.

Waterford.
Dear Aunt June—Mamma and I have been reading your page and I would like to join the Helpers' Club. I try to be useful and often help dad by doing some of the chores for him. I feed the hens and gather the eggs and sometimes let out the cows and often give them their hay. I carry in the water and wood for Mamma and on Saturdays sweep, wash chairs and do the dusting. I was ten years old on January 5th. I go to school every day and am in the second class. If I may I will write again. I will tell you about our little pet pig.

ISABEL MUNN.

Dear Isabel—I hope you will write to me again and tell me about your pet pig. I am sure all the other Helpers would like to read about it. I am sending you a badge and hope you will get it quite safely.

Port Elgin.
Dear Aunt June—Just a few lines to say that I was very much pleased with my badge. We had very little snow this winter. As least it was not a winter at all, we might just as well have called it spring. I must close now with best wishes to all the club.

NELLIE BOETTGER.

Dear Aunt June—I just thought I would write and say that I was very much pleased with my badge. I have not had very many sleigh rides this winter as there has not been enough snow.

ALOIN BOETTGER.

Dear Nellie and Aloin—I am so glad you liked your badges and wrote to me again. I hope you will send and tell me about your Easter holidays and what sort of games you play then.

Dundalk.

Dear Aunt June—I have enjoyed reading the boys' and girls page very much so I thought I would write too.

I am ten years of age and am in the third class. I go to school every day I can. I wash the dishes, help to milk, sweep the floors, carry in wood and water. I have four brothers and three sisters.

ELISIE NICHOLAS.

Dear Elsie—What a splendid little Helper you are. I am glad to be able to send you a badge which I hope you will like as much as the other Helpers do.

Charing Cross.

Dear Aunt June—I am one of a large family and am 11 years old. My birthday is on the 18th of January. I have three sisters and four brothers. I go to school every day that I can. I have been home a long time with the measles and mumps. I am in the junior fourth class at school. My teacher's name is Miss Poole and we all like her very well. I would like to correspond with Eva Hope and Catherine Stewart. I was sorry to hear that Catherine's grandmother had rheumatism and that Eva had blood poisoning and I hope she will soon be better. I wash dishes, sweep and scrub the floor, make beds and bake.

EDITA LILLIAN RUSSEL.

Dear Lillian—I hope very much you are quite better and able to go to school again. I am sure that Eva and Catherine will be very glad to hear from you and you can write no matter what your age is. I am sending you badge and am glad to welcome you as a member of the Club.

Charing Cross.

Dear Aunt June—As my elder sister is writing I thought I would write too. I am eight years old and go to school. I am in the first class. In the morning we write our reading lesson. Then we read it, next we study our spelling then we start our arithmetic then correct it. Next we have dinner and after that reading again then spelling and then art. Then we go home. When I get home I take care of the baby and sweep the floor and help to get supper. After supper I help wash dishes. At eight o'clock I go to bed. For pets we have a dog whom we call Fido, two cats Peter and Tabby.

HARRIETT ETHEL RUSSEL.
Dear Harriett—I am sending you a badge which I hope you will like and am very glad to welcome you as a Helper as well as your sister. Thank you very much for telling me all about your school. I am glad you like it so well.

We have dozens and dozens of letters which will be answered in turn; but they cannot all be put in the paper in one week. Some of the Helpers who have written and whose letters are yet to be answered are Cyril Pilgram, Eva Donaldson, Ada Watts, Brown Eyes, Edna Campbell, Eileen Smith, Edna Snyder, Mabel Crews, Verna Newall, Helen Smith, Bernice Strong, Gerald Armstrong, Anna Smelter, Black Eyes, Soldier of the Soil, Antoinette Dalan, Forget-me-not, Osborne T. Tracey, Margaret Mitchell, Jean McCallan, P. G. Hann, Boy Scout, Helen Brethour, Anna Laura Hunter, Norbert Ruth, Berpica Arehlbald, Cermelita Bonfield, Ralph Clifford, Alma Craig, Olive Virginia.

AUNT JUNE.

Box 516, Station F., Toronto.

WIND ON THE STOMACH QUICKLY RELIEVED

It is a good thing to know just what to do when gas belching starts. One sufferer related the following experience: "A few months ago I ate some green vegetables and some fruit that was not quite ripe. It brought on indigestion, hiccoughs, nausea and cramps. I belched gas continually. A neighbor urged me to use 'Nerviline' I took it in hot sweetened water, and got quick relief. I will never again be without this valuable remedy." Nerviline is a household necessity; large 35c bottles sold everywhere.

"Rheumatism Routers" relieve rheumatics.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

The mean annual temperature at Victoria, B.C., is 48.4 degrees. The average number of hours of sunshine in a year is 1,822.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover used as directed.

Minard's Liniment for Dandruff.

The highest average number of hours of sunshine in a year occurs in Manitoba. In 1917, the record in Winnipeg was 2,178.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and cause painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 30 drops of Mother Selgel's Syrup will correct faulty digestion and afford relief.

SILK UNRAVELLED AND REWOVEN.

In ancient times silk was for many centuries imported in the woven material from China, where the raising and waving of silk seems to have been known for 2,000 years and more before the Christian era. So costly were they in the early days that the closely woven silks of China were often unravelled by Phoenician weavers and rewoven in a looser texture and with a mixture of linen.

An Enterprise Every Ambitious Canadian Should Invest In.

SOUND REASONS:
Mr. S. E. Slipp, B.Sc., a leading oil geologist and now government petroleum engineer says: "It is the best drilling prospect in Alberta."
8,250 acres of land over which is believed to be a vast oil reserve.
Property on Canadian Pacific Railway. No pipe lines necessary.
Drillers in this area expect to strike big oil flows at any moment.
Before investing in oil, write for complete information about Canadian Northern Oil—then use your own judgment.

Advice to Girls

By Miss Rosalind

Registered according to the Copyright Act

Miss Rosalind welcomes letters from young women asking for advice on any subject. All you have to do is to address your letter to

MISS ROSALIND,

34 King William St., Hamilton, Ont.

Dear Balam—I shall send on your name to others wishing correspondents. The best way to overcome bashfulness is not to think about yourself at all. When you are talking to somebody instead of thinking of how dreadful it is that you can't think of something to say, let the other person give you an idea of something he or she is interested in and talk about that.

Dear June—I like your letter. Just keep on being friendly and chummy when you meet this boy you write of. Don't appear to expect any different treatment than you accord him. You are interested in him and his work and are prepared to be a real friend. He will know that if your manner is natural and always friendly and sympathetic.

It is quite alright to tell a new friend that you are glad to have met him—if you really are. If you know the boy awfully well, send him a snapshot especially if it is a funny one or one that has a particular interest for him. Never send a photograph with sentimental intention.

Dear Cutie—Yes, you are old enough to get married; but I do hope you aren't going to just for that reason. Be jolly well sure first that you have met the one man in the world for you. You need not confine your friendship to one man. Have as many friends as you can. There is nothing so good for a young man as a real girl friend. Probably the young man does not say anything about calling again because he is sure you expect him to. It is the custom to have supper at a dance with the man who has taken you to the party.

Two Anxious Girls—You are rather young for parties, but I know that out in the country girls do go to dances rather sooner than the girls in town. If your mother knows about the dances and are willing that you should both go, it must be alright. It is best to go with your girl chum and her brother.

There is nothing to talk about when a girl dances five times with the same partner.

I think when they took you home with them for supper, they might have driven you back.

When you meet a boy on the road, it is polite for the girl to speak first. A girl should not go with one boy, but she may go to different parties with as many different boys as she likes.

Dear Shorty—I can only repeat what I have said so many times to others. Have all the boy friends you can. It is the only way you can know which one is the kind of man you would marry. Two years difference in your age is not important.

Dear Peggy—You were perfectly right. You gave this boy the pleasure of your company for that evening. He should have been sensible enough to know that that was sufficient. I hope you will always be strict.

Dear Barney—Don't be silly. Quarrels never helped anybody. Make it up of course.

Dear Mickey—I do not think you are silly at all—quite the contrary, but I think the girl must be an utter idiot. Would advise you to find a normal girl who enjoys skating, dancing and shows.

Dear Peggy—It is only an act of politeness for your escort to hold your coat for you. Thank him by all means.

Dear Brown Eyed Twins—Go by all means. It is mighty nice of the young man to take you both. You are old enough to go to dances that break up before midnight. Never dance with a stranger.

Dear Lonely Lass—I am afraid I can't advise you about dressing your hair and fashions that suit you, because I haven't the vaguest idea what you look like. Buy one or two good magazines. They will help you wonderfully. Tell the young man you would be glad to have him call.

Dear Sandman—Just because you are engaged you do not have to cut out all the nice old chummy friendships. But be perfectly sincere about it, both with the friends and with your fiancé.

Dear Lone Pansy—If there is a girl

MURINE You Cannot Buy New Eyes

Small Tires That Give Big Mileage

The owner of a small car gets the same quality in DOMINION 30 x 3 1/2 Tires as does the owner of a big, heavy car who must buy large size tires.

All DOMINION TIRES are built to one standard, regardless of size. Quality and workmanship are consistently maintained, so that every car owner will get the utmost in mileage, service and satisfaction, no matter what size of tires he buys.

There are DOMINION TIRES for every car and every purpose, DOMINION INNER TUBES to insure perfectly balanced tires, and DOMINION TIRE ACCESSORIES to complete your repair kit.

They are sold by the best dealers from coast to coast.

DOMINION TIRES ARE GOOD TIRES

THE "ADS" OF OLD.

Advertising is not a new art by any means. Advertisements of a kind approaching our modern ideas were in vogue in ancient Egypt, Greece and Rome. These, however, were mostly descriptions of runaway slaves, offers of reward for lost property, and so on. The people of Pompeii went much further. On the excavated walls of the buried city have been found announcements of gladiatorial shows, with rough pictures of favorite gladiators, etc., that must be taken as anticipations of the modern picture poster.

THANKFUL MOTHERS

Once a mother has used Baby's Own Tablets for her little ones she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N. S., who writes: "I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house." The Tablets regulate the bowels and sweeten the stomach, drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ANGLING FOR RATS.

An angler fishing for chub on the Ouse, in England, tried quite a variety of baits for two or three hours without success. For a final fling he changed his tackle and baited with cheese paste. The float had scarcely settled when it moved away, and the angler struck. As the fish bored towards the shore he wound in quickly, and was amazed to see a huge water rat run up the bank, taking his tackle with it. In his excitement at the weird catch he broke his rod, the gut snapped and the rat escaped.

The Oil for the Farmers—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

BRINGS HAPPY EASE. DON'T ENDURE PAIN. APPLY

The Remedy your Grandmother used to Get Sure Relief. On Sale Everywhere. A GOOD THING. RUB IT IN.

IT'S raining, it's pouring,
I can't go outdoors;
But I don't mind so much, for you see,
Up here in the window
It's comfy and warm,
And the rain sprites call greetings to me.

Find three rain sprites. Upper left corner down, on trousers; upper left corner down, on blouse; upper right corner down, along arm.

"SERIOUSNESS OF THE HOUSING PROBLEM"

The high cost of building material, the rapidly increasing population, and the enormous annual destruction of dwelling houses, in which there were 5,644 fires last year in Ontario, have combined to make the housing problem one of the most serious and acute proportions.

Ontario is noted for its extravagance through unnecessary fire waste, which is nothing short of an economic crime, caused chiefly through our careless habits and indifference.

Statistics show that 64 per cent, or practically two out of every three fires which occur, are in our homes; eighty per cent, of which are preventable.

The Ontario Fire Prevention League, in affiliation with the Fire Marshal's Department, has inaugurated a Province-wide publicity campaign for the purpose of conserving our homes as well as our lives from the destruction by fire. The boys and girls of the Province will be called upon to assist in this most desirable and patriotic movement. Through the principals and teachers of our schools, the League will distribute 250,000 copies of a "Home Inspection Blank" so that the pupils with the help of their parents, may answer the questions. The primary object is to clean up attics, cellars, back yards and remove hazardous conditions. The underlying thought being to prevent fires by removing the cause and thus save our homes.

Spanking Doesn't Cure!

Don't think children can be cured of bed-wetting by spanking them. The trouble is constitutional, the child cannot help it. I will send FREE to any mother my successful home treatment, with full instructions. If your children trouble you in this way, send me money, but write me today. My treatment is highly recommended to adults troubled with urine difficulties by day or night. Write for free trial treatment.

Box 8, Mrs. M. S. Saunders, Windsor, Ont.

No Rest with Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merit through years of service. A trial will surely convince you.

INOCULATION OF SEED

Legume Bacteria for Enrichment
of the Soil.

Inoculation of Seed and Soil Describ-
ed—Clover, Alfalfa, Peas, Etc.,
Precursors of Good Crops—Some
Testimonials Offered.

(Contributed by Ontario Department of
Agriculture, Toronto.)

It has been known for centuries
that the soil of fields in which there
has been grown a good clover, pea
or other leguminous crop is richer
after the crop than it was before.
Hence the practice of having a clover
or other leguminous crop in the crop
rotation. Just why a good legumin-
ous crop was beneficial to the soil
was not known until a few years ago.
It was then found that certain spe-
cies of bacteria, which came to be
known as the "legume bacteria," en-
tered the roots of the legumes and
produced on them little swellings or
nodules. Wherever these nodules are
present in large numbers on the roots
of legumes a good crop is assured.
The combination of the legume bac-
teria with the plant results in the
plant tissues, root, stem and leaf,
giving a larger and more vigorous
plant than is the case where the bac-
teria are not present.

It has been found that different
varieties of legume bacteria are nec-
essary for most of the various
legumes. The variety of bacteria
good for red and white clover is no
good for alfalfa or sweet clover; the
variety good for field peas is no good
for field beans, and the variety good
for field beans is no good for soy
beans, and so on with other legumes.

If any particular legume crop has
not been growing satisfactorily in
any particular field, it is question-
able if the right kind of legume bac-
teria is present in the soil of that
field. So, before a satisfactory crop
can be grown the right bacteria have
to be introduced. For instance, the
cultivation of alfalfa is a new prac-
tice in many sections. If sweet
clover is common in the district it is
probable that the right bacteria are
there for alfalfa, as the variety good
for sweet clover is good for alfalfa.
If it is not present, it is doubtful if
a good crop will be grown; hence
the difficulty often met with in get-
ting alfalfa established in a new dis-
trict unless the bacteria are first
introduced. There are various ways
of introducing the bacteria. One is
to take a few loads of soil from a
field in which the bacteria are pres-
ent and scatter this over and work
it into the field to be treated. This
method was the first adopted. It is
not practicable, however, in most
cases.

Legume Seed Inoculation.—
Another way is to inoculate the seed
of the legume crop to be sown with
a pure culture of the right variety
of bacteria. When this is done, the
bacteria are on the surface of the
seed when it germinates in the soil
and so get into the young roots.
These cultures of legume bacteria are
prepared in bacteriological laborator-
ies and sold so much per culture.
They are known as nitro-cultures or
legume bacteria cultures, and var-
ious other trade names have been
given to them. The Bacteriological
Laboratory of the Ontario Agricul-
tural College was the first to produce
these cultures satisfactorily for dis-
tribution on the American continent.
They are sold from the laboratory for
the nominal sum of 50 cents each,
to cover cost of material, container
and postage. Each culture is suffi-
cient for one bushel of seed. Thou-
sands are sent out annually to all
parts of Canada on application for
the same. Letters received from
those who have used these cultures
speak very highly of this method of
inoculation as shown by the following
excerpts:

Comox, B.C.: "In the spring of
1914 you sent me some alfalfa cul-
ture suitable for this district. After
two years, I have to report that the
inoculated patches have flourished
exceedingly well and are making
most luxuriant growth, entirely
crowding out the weeds and showing
a splendid color. The others which
were not inoculated have almost en-
tirely died out and the few plants
left were small and very pale. In
fact, I have recently ploughed them
up."

Edmonton, Alberta: "We made
many tests in Ontario which proved
to us that even alfalfa screenings
would produce a greater growth the
first and second year, after being
treated with the bacterial culture,
than the very best quality of alfalfa
seed would without treatment. We
have been using the bacteria here,
and have had a very good result the
first year."

Diameter of Pine Tree.

Mr. Hill, lockmaster at Buckhorn,
Ont., experimented with a pine tree
to determine improved growth which
may be secured by proper care. Fif-
teen years ago, he pruned all the
lower branches off a 4-inch white
pine sapling, removing other sap-
lings from its vicinity, dug up the
earth around it and applied manure
to its base. It is now 19 inches in
diameter at its base and has a long,
clean pole. Thus, during the fifteen
years, the growth in diameter has
averaged one inch annually.—Con-
servation.

CARLISLE, ONTARIO

THE MAELSTROM

BY FRANK FROEST.

Late Superintendent of the Criminal Investigation Department of Scotland Yard.

CHAPTER X.

No. 140 Ludford Road.

With the satisfied feeling of a man who knew he had earned his salary, Weir Menzies betook himself homeward. As he boarded the Tooting electric car at the automatically shut out from his mind all thought of Grege-Stratton.

He had ceased to be Weir Menzies, chief inspector of the criminal investigation department. He was Weir Menzies, Esquire, of Magerston-ten Road, Upper Tooting, who, like other gentlemen of business, left his business worries behind him at the office.

He ate his dinner while Mrs. Menzies, a motherly little woman, who never asked questions, retailed the latest domestic gossip. He added his own quota. He was afraid that Mrs. Menzies was probably awake. "That's awkward," he said at last. "I ought to have kept him under observation, but I guessed I could rely on the hotel people to let us know. I didn't want to have to arrest him for putting any more of our men on the sick list, but I wish I'd taken a chance now. He'd have been safer for us and safer for himself under lock and key. What's the point?"

"He came back yesterday afternoon, went to his room, where there was a note waiting him, and went out without saying anything. He has not come back. The hotel people rang me up an hour ago, and I went round there. I found the note." He shook an envelope on to the table and a shower of torn fragments dropped. "I didn't wait to put it together. I came straight on here."

The chief inspector became unpleasantly conscious that his pajamas were an inadequate protection against the bite of the cold.

"I suppose this means that I've got to turn out," he grumbled. "I seem to get all the jobs where there's no rest. It's enough to make a man turn it up and take a cottage in the country. Have a go at that note, Congreve, like a good chap, while I go and get some clothes on. Wait a minute and I'll get you a drawing board and a packet of pins."

There is method in piecing together a torn letter as in other things. Congreve worked quickly on rules of common sense, finding first the fragments which the square edges told him were the corners and pinning them down on the board. With these fixed points he was easily able to construct the note, and he had it ready and a copy written out for Menzies by the time he was dressed.

"It looks as if the girl had got him," he commented as he passed the copy over to the chief inspector. "Anyway, there's an address."

Menzies laid the copy down on the table. "That's something," he agreed cautiously. "But it looks to me as though we're right up against it, old man. Somebody'll have to stand from under when the thud comes. What do you make of it?"

"Empty house, likely," said Congreve laconically. "They've shut Hallett's mouth. If you're right about Erroll, Ling & Company, sir, they'll not stand on ceremony. They're up to their necks already. We'll find a dead man in Ludford Road. They won't let Hallett do any talking."

He spoke in the matter-of-fact way

in which a surgeon might contemplate the result of a dangerous operation—not with the shudder with which the average man would speak of a cold-blooded murder. The case with which they were dealing concerned men who he believed would be desperate, now that one life had been sacrificed in their efforts to cover their trail.

"I don't know," said Menzies, thoughtfully. "They might go to extremes if they were forced, but we've got nothing concrete against 'em yet—nothing even to suggest that one of them was near Lansdown Terrace Gardens when the old man was killed. You bet they'll have alibis all right, all right. If we could lay our fingers on 'em this minute they'd brazen it out."

Congreve nodded acquiescence. It is an elementary principle of detection that a moral certainty is a delusion when it is tested by the stringent laws of evidence before a jury. One may do a complicated sum by unorthodox methods and be perfectly clear that the result is right, and yet be unable to demonstrate it. It is the demonstration of guilt in court that counts. At the moment, however, Weir Menzies was more concerned with the prospect of retrieving Hallett.

(To be continued.)

NERVOUS PEOPLE NEED A TONIC

DR. WILLIAMS' PINK PILLS ENRICH THE BLOOD, THUS INCREASING YOUR NERVOUS ENERGY.

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession, often have great trouble in finding relief. Irritation, headache, sleeplessness, nervous indigestion. All these discomforts make life miserable, but are endured rather than run a doctor's bill.

Such sufferers should know the danger of such a condition, which, if allowed to persist, may result in a nervous breakdown. In this condition what is needed is rich, red blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills have been used with much success. They have a direct action on the blood, and through it carry to the nerves the elements needed to restore their normal function, at the same time improving the general health.

The benefits that follow the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Norman Seifried, West Montrose, Ont., who says: "It would be hard for me to overstate the benefit I have derived from the use of Dr. Williams' Pink Pills. Before I began taking the pills I was very nervous, weak and run down. I could hardly do my housework, and as there is a great deal of work to do about a home on a farm, I felt very much discouraged. One day while reading a newspaper I saw an advertisement of Dr. Williams' Pink Pills and decided to give them a trial. I could not believe the effects after taking a box of the pills, and by the time I had taken a few boxes, I could again do my work with ease, was no longer weak or nervous, slept well at night, and awoke in the morning feeling well and strong. I am happy to say that the pills so greatly benefited me."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail on receipt of 50 cents a box or \$2.50 for six boxes by writing The Dr. Williams' Medicine Co., Brockville, Ont.

If you have a question about your eyes, write direct to Dr. Brown, 1 Adelaide St. E., Toronto, and the answer will be given in this column.

Mary H.—Is it true that fair people are more susceptible to eyestrain than dark people?

One authority says that in our climate sunlight irritates blondes and he advocates dark glasses for fair people. However everyone does not agree in this, but rather that eyestrain is more common among those nervously inclined than in others.

If you have a question about your eyes, write direct to Dr. Brown, 1 Adelaide St. E., Toronto, and the answer will be given in this column.

SENTENCED TO DEATH NO APPEAL POSSIBLE

The death warrant is passed out every time a corn is treated with Putnam's Corn Extractor. It means the end of the corn. Putnam's lifts out corn root and branch, and never fails. Refuse any substitute for Putnam's. 25c everywhere.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will cure every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learnt by experience.

WHALEBONES FOR BUNGALOW. For over twenty years, several huge whale ribs have been bleaching in the sun in front of the Avalon Tennis Club and now an enterprising contractor has found a use for them. Canvas, wallboard and flooring have been added to the bones and the popular little Catalina, U. S. Island city has acquired new shelter for its many visitors.

Cook's Cotton Root Compound. A safe, reliable, regenerative medicine. Sold in three degrees of strength—No. 1, 2, 3. No. 1, 25c per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Incorporated)

TEA FOR TRAVELLERS. On their newly built railways the Chinese have established a service of free boiling water for tea-making. At each important station there is a boiler under a queer looking circular roof which looks like a huge umbrella. The traveller can help himself from one of several taps. Why boiling water? For making tea, of course. The traveller brings his tea-pot, or at least a cup, along with him; and some tea. He gets his favorite beverage fresh just as it would be made at home.

BUY NOW IN A REAL OIL FIELD

The greatest boom in the history of the oil industry has started in Canada.

It is based on the facts and will develop with lightning rapidity. It will be necessary to act quickly if you want to have a share in a company holding property in the centre of the producing area. Such leases and properties as are held by this company are no longer available. The time to buy is now. In a new oil field to delay investment is fatal. It is always the early buyer who makes the big money.

The Fort Norman Oil Co. Limited, has purchased drilling equipment and are pushing for speedy development.

Write for descriptive folder with maps, or to avoid delay mail this application form.

I hereby apply for..... shares of stock, Fort Norman Oil Co. Limited, (no personal liability) par value \$1.00, at the price of \$1.00 a share and enclose \$..... in payment.

Address and make funds payable to

NORTH WESTERN SECURITIES CO.

YOUR EYES AND THEIR CARE

By Dr. Hal. Brown, Specialist.

A woman to whom four healthy boy babies were born, only to die of stomach trouble in their second year, brought with infinite care a fifth boy past the danger period and to his eighth year. Then he began to go to school, but became at once subject to stomach attacks that no kind of tonic or diet could help. Finally his mother suggested that the trouble might be with his eyes, but the local doctor pointed out that he was unusually far sighted and never had any headaches. The mother, having heard that other parts of the body are sometimes affected by the eyes took him to an optometrist in a distant town.

The first day on which he wore glasses he said wonderingly: "Why, print is black, isn't it, mother?"

"Yes dear. What did you think it was?"

Why, grey, and sort of mixed like, and now the letters look straight up and down!"

The child had a complicated defect known as mixed astigmatism, which made it hard for him to see things near at hand, although his eyes themselves did not feel the strain. When he wore the right glasses the stomach trouble vanished as if magic.

This is only one illustration of many that might be given of obscure affections directly caused by eye strain.

Mary H.—Is it true that fair people are more susceptible to eyestrain than dark people?

One authority says that in our climate sunlight irritates blondes and he advocates dark glasses for fair people. However everyone does not agree in this, but rather that eyestrain is more common among those nervously inclined than in others.

If you have a question about your eyes, write direct to Dr. Brown, 1 Adelaide St. E., Toronto, and the answer will be given in this column.

Scientific Naming.

New species of plants and animals are usually given a form of the name of the discoverer, and the fuchsia, for instance, hides quite prettily in its Anglicised pronunciation the fact that it was christened after a gentleman of the name of Fuchs. The naturalist who named the family of Crustaceans followed an original plan, having many names to bestow. His wife's name was Caroline. He took the letters of that name, put them in a hat, and drew them out again in every combination that would yield a pronounceable name for the shrimps and their cousins. Another naturalist reversed the process. He had a boundless admiration for the seaworms, on which Greek names had been bestowed, and he had also seven daughters. So each daughter, as she arrived, was named after one of the worms.

YOUNG LADIES, READ THIS

If you are bothered with pimples, rashes and ugly blotches on your face, if your complexion is sallow, it's an evidence that you require Dr. Hamilton's Pills to tone up the blood. One of these splendid regulating pills makes a complexion like peach bloom—rosy, eyes brighten, you again look the picture of health, look and feel well because you use Dr. Hamilton's Pills of Mandrake and Butternut, 26c at all dealers or The Catarrhozone Co., Montreal.

Agar-Agar.

A success plant for the manufacture of agar-agar from seaweed has been established at Los Angeles, California. Agar-agar is a pearly-white, shiny product, invaluable to the medical profession, and an important food adjunct. It is used extensively throughout the world as a wholesome and delicious thickener in jellies and soups. It is also largely employed in the sizing of textiles, for stiffening the warp of silks, for clarifying beer, wines, and coffee, and in the making of moulds in plaster of Paris. Hospitals use it in large quantities as a culture media for bacteria.

SHE TOOK HER MOTHER'S ADVICE

Now is in the Best of Health because she took Lydia E. Pinkham's Vegetable Compound

Kessock, Sask.—"My mother has taken Lydia E. Pinkham's Vegetable Compound and upon learning of my troubles advised me to try it, as I seemed all run down after the flu and had leucorrhoea very bad. I have taken Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine and used the Sative Wash also Dr. Brown's Capsules and Prescriptions and am much better in every way. I am willing for you to use my letter as a testimonial as I recommend your medicines."—Mrs. IRENE NELSON, Kessock, Sask.

It is not always in business that a woman is forced to give up her work on account of ill health. It is quite as often the woman who does her own work at home. When backaches and headaches drive out all ambition, when that bearing-down sensation attacks you, when you are nervous and blue, the one great help for such ailments is Lydia E. Pinkham's Vegetable Compound.

Health!

Comes to you and the children if you have Dr. Pierce's Golden Medical Discovery in the house. For "little-ones" and "grown-ups" this old fashioned vegetable tonic and blood-maker is still used by the million bottles every year. Make your blood better and your health better by going to your nearest druggist and obtaining Dr. Pierce's Golden Medical Discovery in tablet or liquid form.

A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. No one suffers from colds or catarrh who has plenty of red blood corpuscles and good digestion. Catarrh in all its forms is a stagnation of the blood. Introduce pure, redder blood into the system, and health is assured. Dr. Pierce, over fifty years ago, gave to the public this alternative and blood tonic which he named his "Golden Medical Discovery." It is sold by all druggists the world over in tablets or liquid, and is just the thing to put the body in the best of condition. It is a tonic, alternative and nerve, which contains no alcohol, and has the ingredients printed on the label. "Golden Medical Discovery" assists the digestive functions, assimilating the food and taking from it what is necessary for feeding the blood. Thus the blood takes on a new vigor and vitality. This corrective remedy nature put in the forest for keeping us healthy. One feels strong, vigorous and full of "pep," instead of weak, nervous and "played out." Send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or Branch Laboratory in Bridgeburg, Ontario.

HOW TO GROW CABBAGE

Advice on the Culture of This Favorite Vegetable.

Early and Late Varieties Require Different Treatment—Good Counsel as to Storing the Crop—Growing Cauliflower.

(Contributed by Ontario Department of Agriculture, Toronto.)

Early cabbage seed is generally started from the 1st to the 15th of March in a hotbed or house window. When the second set of leaves is showing, the seedlings are transplanted into flats in rows two inches apart each way, or into the small dirt band. This will give good, sturdy plants ready for the cold frame the last week in April. If these plants are then properly hardened off, they should be ready to transplant into the field by the 8th to 10th of May. The soil for early cabbage should be a warm, sandy loam in a good state of cultivation. The plants are generally set 30 inches between the rows and 18 inches in the row. They are given careful cultivation during the growing season.

The late crop is generally started about the 15th of May in an open seed-bed or cold frame. The rows in the seed-bed are 4-6 inches apart, the seed being scattered quite thickly in the row. Where the cabbage maggot is troublesome it will be necessary to grow the plants under cheesecloth frames. These plants should be ready to set in the field from June 15th to July 1st. When we are setting plants which have little soil on their roots, as often happens in the late crop, we carry the plants to be set out in a pail which is partly filled with a batter made of cow manure, loam and water. This gives some moisture to the plant and a certain amount of readily available food. The plants are set 24 inches in the row and 30 inches between the row. As this crop does best under cool conditions, it should, if possible, be put in the moister part of the garden. Both crops must have sufficient moisture if they are to grow quickly. Nitrate of soda may be used to advantage around the plants at the rate of 150-200 pounds per acre, or what could be put on a ten-cent piece to each plant. On account of the solubility of nitrate of soda in water, better results are obtained by making two applications of 75-100 pounds, first when the plants are beginning to grow after transplanting, and, secondly, when the head is beginning to form.

Cabbages are generally cut off so as to leave 3 or 4 of the outer leaves to protect the head. This should be done before too severe freezing weather injures the cabbage. They will not keep so well if they have been severely frozen.

Late cabbage may be stored in cellars, pits, or any like place. The temperature should be held at about 34 deg. F. and provision made for air circulation so that no moisture collect on walls or ceilings. Where one is storing in cellars, the cabbages are best placed on slatted shelves made one above the other about 2 feet apart. The cabbage may be laid on these, one or two layers deep. Where there is no good cellar storage, a pit may be made outside in a place which is well drained. The ground is covered with a layer of straw and the cabbage placed on this face down in layers of first five cabbages side by side, four on top of this, then three, then two, and finally one, thus forming an "A" shape. Tuck in the outer leaves of the first layer under the heads. The outer leaves of each layer are allowed to hang over the layer below to form a roof. The pile is then covered with six inches of straw and about six inches of soil. Every 10 or 15 feet a tile should be placed in the pile to come up through the soil and straw, thus forming a ventilator. All plants give off moisture, and unless we had an opening for it to escape the cabbage would soon begin to rot. If severe weather comes, these can be stuffed with straw and opened again when the weather moderates. The covering of the pit should also be increased by using strawy manure as the weather becomes more severe. Cabbage can be taken from the pit on warm days. Cabbages which are not quite fully grown may be dug with the roots attached. These can then make a certain amount of growth.

Useless Information.

We always devour all the statistics we can find, says an exchange. They are wonderful. Listen:

If all the phonograph records made in one year were thrown from the top of Brock's Monument they would break.

It would take four men some time to lick all the postage stamps made in Ottawa in one year, but we don't know just how long.

If all the telephone conversations from corner drug stores in one year could be recorded on a phonograph, nobody could listen to them.

A mule can climb to the top of Mt. Popocatepeti in five days. He can descend in five seconds.

If all the doughnuts made by the Salvation Army could be linked together in one chain, they would reach from Paris to Somewhere in France.

EAGER'S WATERDOWN

Paint Up and Clean Up

This is the time of year when people think of paints, varnishes and brushes.

Canada Paint

For outside or inside work. The paint of quality. The paint that gives results. In good assortment of colors, made of the best ingredients to be procured.

Sun Varnish

Is thoroughly aged before it is allowed to be filled into the cans. For perfect results for interior work on woodwork or furniture use Sun Varnish.

Sun Floor Varnish

A floor finished with Sun Floor Varnish is easily kept clean, and consequently makes it possible to keep a clean bright sanitary appearance in your home. Use Sun Floor Varnish to save your floors or linoleums.

Sanatone

A more sanitary wall decoration than wall paper. Can be washed when necessary with soap and water. Made in delicate shades and tones. Ask for shade card.

Wall Paper

We have a lot of wall paper which must be cleared out. A lot of odd lines at greatly reduced prices.

Canada Floor Paint gives the best of wear

Saturday and Monday only
