## REV. DR. GARLAND PAYS NICE COMPLIMENT TO CANADIANS FOR THEIR NOBLE PART IN THE WORLD WAR; UNOPPOSED TO SUNDAY BALL

### Civic Dinner Given by Chamber of Commerce Committee Largely Attended by Representative Men and Women of St. Catharines.

The civic dinner given at "The Welland" last night by the Chamber of Commerce Committee brought together a large number of prominent men and women of the city and it was one of the most outstanding events in the city in years.

The chairman of the Committee, Mr. E. C. Graves with a few remarks opened the programme and introduced the chairmen of the evening J. E. Waterhouse. Mr. Graves said that the success of the present gathering augured well for the future of the Chamber of Commerce.

Mr. Waterhouse in taking the chair said the city was getting out of the rut of talk and was entering the era of action. One thing the old Board of Trade realized was that St. Catharines was faced by wonderful opportunities and was not as a city taking advantage of them. The new Chamber of Commerce, he felt, is just what is needed. Mr. Waterhouse predicted that instead of the 450 members objective St. Catharines in line with its usual record will go over the top with nearer 800. He asked the Board of Canadian City Builders to advise the gathering.

He said the Chamber of Commerce presented the ideals, intentions and purposes of the best thinking people of the city. It is a constructive committee organization, and capable of bringing about the requirements of a city or town.

He could see in the C. of C. movement an effective weapon against Bolshevism and like forces which threaten the very roots and foundation of our civilization. The foreigner must be taken hold of and made a good Canadian.

He asked his hearers to catch a vision of a greater St. Catharines, a bigger and better Ontario and Canada.

W. A. McKinnon said everyone in St. Catharines should give assistance to the C. of C. movement in St. Catharines and if each one does not do his part, it will not be the success expected. He went on to say that if the citizens work together there is no limit to the good things they can get for St. Catharines. He wanted to see the women give their assistance. One subject which can be taken up by the C. of C. is playgrounds. Guelph C. of C. has been very successful in this respect. Town planning is another subject. Much can be done to preserve residential areas as such keeping out objectionable factories like Chinese laundries, noisy garages, coal sheds, etc.

Mr. MacKinnon again advised everybody getting behind the C. of C., stating that it is the city's last chance for some time to come. The Board of Trade has failed.

Dr. Frank Garland who is Welfare Commissioner of Dayton, Ohio, spoke on "The Twentieth Century City."

He said St. Catharines has wonderful possibilities if her people themselves take advantage of their opportunities. He said the civilization of the nineteenth century and previous ones was not a city civilization until you get back to the time of ancient Greece. The machine of the twentieth century has made the city civilization, which flourishes today.

In the old years the idea of large cities was discouraged in all lands because it was felt that food production was not sufficient to supply them. Various changes have come as a result of the development of great cities. The ordinary working man living in greater comfort with more

conveniences than did the Prime Minister of England two hundred years ago.

And the great cities have created their own problems. There is the congestion of population menacing public health. We must organize our municipalities to meet the terrible disease conditions.

The cities are negligent as to employment. A clearing house for unemployment must be established. Many other abuses have arisen and no provision has been made in the cities for leisure time. The 8 hour day is on the way—some say it will be six eventually. But the 8 hour day is assured yet we have made no provision for those 8 hours of recreation of our people.

The power of the machine has created production a hundred fold over muscle power and as it is now an established fact, we must set our minds to the task of providing for the leisure hours of the people who are allowed those hours because of the machine.

Dr. Garland here took occasion to refer to the U. S. A.'s dereliction of duty in the late war. Canada's glorious record standing out so contrastingly with the backwardness of his own country in throwing itself into a conflict which in honor it was bound to do. His face flushed with shame, he said, when he remembers how the United States held back.

Dr. Garland said the unrest as between labor and capital will never be settled until we come to recognize that the position of the laboring man is just as dignified and important as that of the business man—the capitalist.

Human life is going to be the dominating force of this century. Last century it was the machine—this century it is going to be the man. The spirit of the city—that new spirit as was born in Dayton out of the flood is what will make for idealism in city life—not selfish and self centered, recognizing that a city is a city of folks, a spiritual entity that it has a soul as well as body. Efficient manhood and womanhood is essential to the ideal city with sanitary homes, pure food, recreational facilities and with happy and contented working men.

Admitting that Canada has a more representative government, more responsive to the will of the people than they have in the U. S., Dr. Garland could see infinite possibilities for Canada's cities, and Canada generally aided by her wonderful natural resources in timber and minerals and her vast water powers.

He spoke of what Dayton has accomplished since the flood in 1913. The recreation grounds are a big factor in the city's life. They have their Sunday baseball. He doesn't encourage it, but as a minister he winks at it. He doesn't object to it. Why should he? he asked. The rich man may play his golf on Sunday so why shouldn't the poor man have his recreation as well?

So in Dayton every Sunday they find thousands of people sitting quietly watching the baseball games in different parts of the city.

And with ideal conditions existing in a city factories will be asking to come in instead of city asking them.

Mayor Lovelace in moving a vote of thanks said he hoped the C. of C. would be of great benefit to St. Catharines. The city has a great future which is in the hands of its people. Arthur Robinson seconded the motion and the singing of the National Anthem closed the function.

## A Case in Which Fair Exchange Proved Decidedly Profitable

A Wall Street broker, en route to Palm Beach, stopped out of a station platform during a stop to change engines, carrying, for certain reasons, his travelling bag, which he set down beside him. Presently a man bore down upon him and demanded: "Is that your bag?" Although his interrogator was not in uniform, the broker remembering the bag contained three bottles of whiskey, and fearful of prohibition slouches promptly answered: "No." On

this the stranger seized the bag and disappeared. Demanding the loss of his favorite beverage the broker strolled to the other end of the platform. There stood another traveller with a bag at his feet. Seized with a sudden inspiration, the broker stepped up to him and asked: "Do you own that bag?" "No," came the reply. So the Wall Street man seized the bag and boarded the train. After a while he opened the bag. It contained five bottles of liquor.

EX-PRESIDENT W. H. TAFT, who has been mentioned as a possible Republican candidate for the Presidency of the United States.

## Trial of Mrs. Ada Hutton on Three Charges Will be Held at Supreme Court

At the Supreme Court which opens here Monday afternoon before Mr. Justice Orde, the only criminal case to be tried is that of Mrs. Ada Hutton, wife of John Hutton of Port Dalhousie, who faces three charges in connection with writing threatening letters to another woman prompted by jealousy in connection with a local business man. Stacks of letters which the woman wrote to the other woman are in the hands of the authorities and some of them will be presented in evidence.

In these letters Mrs. Hutton accused the other woman of being a notorious woman who had been driven out of Cleveland and other American cities. She claimed to be a secret agent and threatened that unless the woman in question decided over her summer cottage at Port Dalhousie to her and cease her visits to the business man she would expose her.

Another letter upon which a forgery charge is based, is alleged to have been written by Mrs. Hutton to which she is accused of forging

the name of the business man as if the letter was written by himself. In it the other woman was requested to stay away from his office as her visits had grown distasteful to him.

Mrs. Hutton has been in the county jail for several months.

### LECTURE TONIGHT

Mr. John Murphy of Ottawa who lectures tonight to the Engineers of the Peninsula at the Welland House has made a special study of ice troubles in power plants and the remedy. He will exhibit a moving picture of the actual formation in water of frazil or anchor ice. This picture is not only scientifically interesting but is said to be very beautiful. The lecture illustrated by hand colored views on the Panama Canal and Panama Pacific Exposition will be popular and anyone interested in Canal Construction, Illumination Effects or Ice Difficulties in Power Plants will be welcome to come to the Welland House to hear this lecture following the dinner which starts at 7.30 p.m.

## ANNOUNCEMENT

TO THE CITIZENS OF ST. CATHARINES.

Fellow Citizens,—The organization of a Chamber of Commerce in under way. It can only succeed in so far as you as an individual are prepared to assume some part of the responsibility for its development.

A modern Chamber of Commerce keeps community progress stable, and looks far enough ahead to enable the entire city to meet any crisis that may arise from its problems of growth.

We need this type of organization here if St. Catharines is to hold her own with such cities as London, Brantford, Sarnia, Chatham, Guelph and Belleville, where strong representative Chambers of Commerce are at work.

When you are called upon by the membership teams of the campaign I trust that you will treat them with courtesy, listen to them and as far as you are able, be ready to help build up a strong Chamber of Commerce.

This is a big opportunity for St. Catharines; it is a big step in the right direction and we must make it together. Let's get together; stay together and pull for St. Catharines.

E. J. LOVELACE,  
Mayor of the City of St. Catharines.

## Two Names Mentioned As Candidates for the United Farmers' Ticket

Tomorrow afternoon at the Griffin Family theatre the U. F. O. representatives will meet to choose a candidate for the Dominion House.

Several names have been mentioned among them those of H. J. McAvoe and Reeve Arthur Weststead of Grantham.

Mr. McAvoe it is understood would have accepted the nomination of the Independent Labor Party for the Legislature when Frank Greenlaw was chosen, but as he was not a member of the party his name could not come before the convention.

It is understood both gentlemen would accept the Dominion nomination if offered tomorrow and that there is likely to be a contest.

It is not known what Mr. Chaplin's

intentions are with reference to the next election. He was elected on the Unionist ticket and the Union Government has two or three years yet to carry on. At the same time many in this city think that the Government will go to the country shortly in view of the developments at Ottawa.

Premier Borden, it is known, wishes to retire and there are many signs of the rats leaving the sinking ship. So far has been the Union Government with reference to the profiteers that it is the general impression here as well as all through the country that it hasn't a ghost of a show of being returned to power if the country is appealed to.

### COMMISSIONER HIGGINS HERE TO CONFER ON SALVATION ARMY MATTERS

Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McMillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff and Second in Command of the Salvation Army for the work who arrived in Port Hope from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with the Canadian officials. He was for many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff and Second in Command. Many matters having any important bearing upon the future policy of the Salvation Army, and its reconstruction work here to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada.

### ORPEN REFUSES OFFER

Distinguished Artist Asked to Paint 300 Americans.

LONDON, Feb. 25.—Sir William Orpen, the distinguished artist, has refused an offer of \$5,000,000 for painting 300 portraits, which is said to have been made him by an American.

"It is quite true the offer of \$5,000,000 to paint portraits came to me from America," Sir William said yesterday in confirming the report according to the Daily Mirror. "To complete such a contract, however, would take far more than the ordinary life time—it might take as long as 300 years.

Sir William will go to America this fall on business.

### THE WEATHER

TORONTO, Feb. 27.—A few light snow falls have occurred in the western provinces with moderate conditions. Elsewhere in Canada the weather has been fair and for the most part decidedly cold.

FORECASTS—Moderate westerly winds, fair with slightly higher temperature. Saturday—A few snow flurries but mostly fair and not so cold.

Inland revenue in Canada in January totalled \$4,345,736.71, as against \$2,968,634.78 in January, 1919.

## Women Smoke As "Flu" Goes

Doctors in Convention Say There will be No Recurrence of 1918-19 Epidemic and Add Women Too Famed of Their Fags.

CHICAGO, Feb. 27.—Madame, do you kiss your daughter at night to discover whether she has picked up the smoking habit along with kimono sleeve blouses, winter oxfords, Robinson Crusoe party gowns and other twentieth century virtues and vices? Have you noticed an occasional theft from your own stock of cigarettes or does she roll her own?

The American Congress on Internal Medicine, assembled here, advised mothers and daughters to "lay off the coffin-nails." If they do not, soon or later they will be found in the doctor's reception room with a worried look.

Delegates who have investigated the matter thoroughly say the increase in the smoking habit among women and girls is reaching alarming proportions.

Dr. Grenville Ryan, president of the Iowa Cenicla Society, and a member of the Des Moines School Board, is thoroughly aroused over the smoking habit among high school girls. He says smoking by women deteriorates the blood and is bound to have very harmful effect upon the next and succeeding generations.

The visiting medics had some joyful tidings to proclaim. They say old man "Flu" has passed the heyday of his vicious career, and that there never will be another epidemic in the United States that will take a toll as heavy as that in 1918-19. The battle against the disease has not been won alone by medical science but co-operation by an educated public has been a big factor, physicians say. One of the chief problems before the medical congress, which is to last six days, will be isolation of the influenza germs. Fifty leading universities and medical schools are contributing delegates among them experts who may have some startling announcements to make.

### MR. GRIER TO ATTEND

Mr. Monro Grier, K.C. of Toronto, is attending the dinner of the Engineering Institute at the Welland House tonight. He is Vice President of the National Electric Light Association whose lantern slides are being used by Mr. Murphy in his illustrated lecture on "A trip to the Panama Canal and San Francisco's Celebration of the Opening of the Panama." As this is the first time these views have been used in this country Mr. Grier is coming from Toronto to see them and to give an address following Mr. Murphy's lecture.

### DAYLIGHT SAVING UP IN N. Y. LEGISLATURE

ALBANY, N. Y., Feb. 26.—The Senate Judiciary Committee have reported favorably the state daylight saving law repeal bill, but it was said there would be a hot fight before the measure gets through the upper house. The assembly has not acted on the repeal yet, but it is expected to pass it. Cities favor the daylight-saving law, while rural districts oppose it.

### ONE OF PRICE BROS. LIKELY TO APPEAR

OTTAWA, Feb. 26.—The Board of Commerce has made, through its counsel, Col. O. M. Biggar, K. C., tentative application in the Exchequer Court of Canada to issue summons calling on the firm of Price Brothers, Quebec, newsprint manufacturers, to send one of its responsible partners to give evidence at the hearing which will be resumed before the board on Saturday morning of the newspaper case. Aims Geoffrein, K. C. counsel for Price Brothers, has telephoned Col. Biggar that he had advised his clients to obey the summons of the board and appear.

# The Right Time to Invest is Now. The Right Place to Invest Your Money is in Great State Petroleum Co.,

## Copy of the Statutory Prospectus

## NOW PAYING 2% DIVIDEND MONTHLY

## Of Texas, Incorporated

Great State Petroleum Company of Texas (Inc.) filed with the Provincial Secretary of Ontario, Canada, and dated 30th September, 1919.

The Company is incorporated under the laws of the State of Delaware, with an authorized capital of \$15,000,000, the par value of shares being \$10.00, all common stock. Its head office is at Room 2005, 320 Fifth Avenue, New York City.

The original incorporators, each of whom subscribed for five shares for the purpose of incorporation, are: Isadore M. Katz, attorney, and Richard L. Cunningham, stenographer, both of No. 32 Liberty street; Walter H. Marshall, clerk, 111 Broadway; Martin A. Purnell, salesman, 43 W. 33rd street, all of New York City; Percival K. Frowert, President of Percival K. Frowert Company, Inc., New York City; Albert C. Rick, oil operator, Dallas, Texas; Martin A. Purnell, salesman, 43 W. 33rd street, New York City. Further directors up to fifteen, the number fixed in the by-laws are to be appointed.

By contract dated Sept. 26, 1919, between them and the Company, Albert E. Shahan and Harry A. Hart, dentists in oil properties, Dallas, Texas, acting for themselves, and Albert C. Rick and W. F. Sims, oil land dealer, Hillbory, Texas, acting for the Company, ten groups of oil and gas leases in Texas, consisting of 11,277.43 acres, for \$845,360.00, par value of stock (64,336 shares); by another contract dated September 26, 1919, between the same parties and the Company, they have sold to it twenty-four other oil and gas leases, covering in all 69,280 acres, all in Texas, except 240 acres in Oklahoma, and a 1/16th interest in the production of other producing oil wells, at prices fixed for each property and totalling \$8,803,362.00. This property is to be paid for by the Company in stock of the Company at par value, the Company having the right to investigate titles and to refuse to complete purchase of any property, the price of which is not approved by appraisers, one of which is to be selected by the Company and one by the vendors, and they to select a third in the event of disagreement, and the Company having the right to take any one of the individual properties at the stipulated price in shares of the Company at par. The vendors agreeing to furnish an abstract of title to the respective pieces of property within ample time for the Company to have same examined in order that the Company may proceed with the appraisal heretofore referred to; all appraisements made are to be made by the Company in writing, without unnecessary delay.

Another contract dated September 26, 1919, has been made between the same parties, giving Hart and Shahan an option on all of the stock of the company, except 300,000 shares, which is reserved by the company for the purpose of acquiring more oil leases or personal property, and except 64,336 shares and 380,336 shares above referred to, which has been set aside for exchange for properties on the terms therein set out, a copy of which is filed with this prospectus and which may be inspected at the office of the Provincial Secretary of Ontario, where also the other contracts may be inspected. Copies of all of the above contracts may also be inspected during any business day at the office of the Company. The law of Delaware, not calling for any minimum allotment, the contracts are now binding. Shares are not sold subject to call, but fully paid and non-assessable, and certificates will only be issued upon payment being made in full, but there is power to sell on 30 per cent. being paid in cash and the balance in thirty, sixty and ninety days, with interest at 6 per cent. per annum from date of contract, and subject to forfeiture for failure to pay any balance.

The by-laws provide that any shareholder is qualified to be a Director, and do not allow Directors to receive salary for being Directors, but the officials, President, Vice President, General Manager, Secretary and Treasurer, will be entitled to such.

The preliminary expenses are estimated at under \$5,000.00, the expenses of procuring the properties being borne by the vendors, and the Company paying no part of any expense of Hart and Shahan in selling the stock optioned to them.

Dated 30th September, 1919.

ALBERT C. RICK,  
PERCIVAL K. FROWERT,  
MARTIN A. PURNELL,  
WALTER H. MARSHALL,  
Being all of the Directors of Great State Petroleum Company of Texas (Inc.)

This young Company is a consolidation of the independent oil companies of Texas and Oklahoma. The people affected by this consolidation have all received shares at par in payment of their holdings, and therefore only receive returns as dividends are paid.

We believe that investments in the THE GREAT STATE PETROLEUM COMPANY OF TEXAS, Inc., will be a source of pleasure to the investors, for the reason that the Company is to-day beyond a mere speculation, as it is a decided success. The shares of all well managed oil companies are considered the most profitable class of investment in the world to-day. Successful oil companies require three things, viz: Capable and successful business men to manage and direct its affairs. Experienced and successful oil men to manage and develop its properties. Properties in Proven Oil District. The Company already has the first three, and we are rapidly adding a fourth requirement, which is very essential to successful oil companies, and this is further capital.

The property owned by this Company is so advantageously located that it is our opinion that the Company will result into one of the leading oil companies of to-day. Considering the fact that the management is unexcelled, we know of no reason why the Company's success should not be extraordinarily rapid. The Company earns at the rate of \$800,000.00 per month, or a total of more than 50 per cent. on the entire capitalization, of which less than one-third is outstanding.

Around April of this year stock of this Company will be selling on the New York market for a great deal above par and we would not be surprised if it were selling for at least \$50.00 per share, as the dividends and earnings the company has and will have by then will justify such a value.

Since issuing the prospectus, the Company has increased the production from its oil lands to 10,000 barrels per day, and an added acreage which now makes the entire acreage leased or controlled by this company 95,000 acres. Additional assets added consist of a 5,000 barrel refinery, 200 tank cars and a 45 mile pipe line running from the Burburnett Field in Wichita County, Texas, to the refinery at Lawton, Okla., together with all pumping stations, loading racks, switching tracks, etc. The line alone is earning the Company \$2,500.00 per day.

Dividends at the rate of 2 per cent. monthly have been declared and paid. Next dividend March 1st.

We would suggest that you make the fullest investigation of this Company and the Board of Directors, and it will be our pleasure to give you any further particulars you may desire. We confidently assure you from the success that has attended this Company in the past, purchasers of this stock, in my opinion, will receive very large returns within the next twelve months.

PRICE UPON APPLICATION

## GREAT STATE PETROLEUM CO. Of Texas, Inc.

The Managing Director of this Company, Mr. A. C. PARKER, is also interested in these big successful concerns:

### OVER 18,000 "FLU" CASES IN ONTARIO

Up until yesterday from the outbreak of the flu epidemic in 1918 there were 3,015. It is evident from the figures that the flu is not so dangerous as it was during 1918, and also that the medical authorities and the general public have made better preparations to combat it.

Deaths reported from influenza and pneumonia yesterday in Toronto were higher than for the preceding twenty-four hours, and numbered twenty-five, of which eighteen were from influenza.

Deaths reported from influenza and pneumonia yesterday in Toronto were higher than for the preceding twenty-four hours, and numbered twenty-five, of which eighteen were from influenza.

Mr. and Mrs. Pridham and their daughter, Mrs. G. M. McDonald, whose husband passed away a week ago, were all buried from the Pridham home in Harriston.

University of Toronto defeated Dentals in the O. H. A. senior series, but both teams are out of the running, Hamilton winning the group.

Members of the board of control of Hamilton are confronted with the "most disappointing lot" of tenders on works department supplies that they have ever been called upon to consider. Prices, on an average, were 2 per cent. higher than those of 1919 but the majority of manufacturers who submitted bids a year ago simply declined this year to invite contracts.

It is expected that two Revised High School text books and one new High School text book will be ready for the schools next September, namely, The Ontario High School English Composition (Revised), The Ontario High School Geometry (Revised) and The Ontario High School Geography (new book).

In police court today two offenders were fined \$5 each for driving their cars past funerals, and two others were fined two dollars whose autos were without lights. A man who had liquor other than in a private house was told to come back again.

### GERMAN EXCHANGE BODY SAYS COUNTRY CANNOT MEET ITS OBLIGATIONS

LONDON, Feb. 25.—The German exchange commission, in its report on economic conditions, says that "Germany no longer possesses the means to pay other countries" according to an Exchange Telegraph despatch from Berlin.

The commission advocates an appeal to the Allied reparations committee. Berlin newspapers put the headline "on the verge of precipice" upon their editorial comment, the despatch says.

### GOVERNMENT OFFERS GOODS FOR SALE

The War Purchasing Commission at Ottawa is announcing in today's Journal, through a display advertisement, the sale of military and other stores, such as equipment and supplies for hospitals, institutions, bunk houses, camp, dining rooms, kitchen etc., and consisting of bedsteads, furniture, hardware, rubbers, overshoes, blankets, pillows, etc. Attention is drawn by this paper to the offer which is made and which should be of interest to those who wish to secure any such supplies.

### ANOTHER WEEK'S ADJOURNMENT IN BEAMSVILLE CASE

The preliminary hearing of the Beamsville assault case was set for today at Beamsville, but it was decided to postpone it for another week.

## We Invite Farmers' Accounts

Our service to farmers is as complete as 87 years of growth and knowledge of Canada's agricultural condition can make it.

We collect or discount sale notes, cash produce cheques—by mail when desired—and make advances to responsible farmers.

We extend courteous, friendly service to our farmer customers at all times.

## BE PRETTY! TURN GRAY HAIR DARK

Try GrandMother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair which has faded, streaked or gray. Years ago the only way to get this mixture to make it at home, which is a most troublesome, awkward, by making any drug store for "Wych's Sage and Sulphur Compound." You will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 60 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.

## WOULD RETIRE THEM AT FIFTY OR SIXTY YEARS

TAWA, Feb. 25.—For the past days a rumor has been travelling through the civic service that the Service Commission is working a plan, which, when completed will provide that all women over the age of sixty in the service shall automatically be retired.

Moreover, it is stated that the plan proposes that for the future all civil servants shall automatically be retired when they reach this age.

## SIX MILLION JEWS ARE FACING DEATH

Starvation and Disease Cause Indescribable Suffering in Eastern Europe.

The hardships of this winter will mean death to thousands of Jews in Poland, unless outside aid intervenes at once according to Lieutenant Shelton Wright of the American Red Cross Commission to Poland, recently returned to the United States after months of relief work in eastern Europe.

He painted a vivid picture of this half-starved people, clad in rags, who are now creeping back toward their devastated homes after months of pitiful wandering, and dying of starvation and typhus along the roads, as they go.

Outside starvation, numerous diseases, attributed to malnutrition and typhus have killed men and women and children like flies," he said. "I remember a family trying to live under an over-turned wagon by the roadside. The mother was dead under a tree a few yards away—she had been dead for days. The father was stretched upon the ground dying of typhus. He died that day. Under the wagon were two little children, both under five, sick with typhus. An older child sat stupidly beside them—a girl driven out of her mind."

Many of the people are driven to making "bread" out of leaves and bark, and "soup" out of grass and water, Lieutenant Wright reported. There was unspeakable joy among them when the American ships, loaded with relief supplies purchased with the funds raised by the American Jewish Relief Committee and other American Jewish agencies, and American and Canadian Red Cross supplies were unloaded at Danzig and other ports.

In spite of the fact that the American Jewish Relief Committee is spending almost \$2,000,000 a month now on their relief work in Poland, and that the Red Cross is doing its work on so vast a scale, hundreds of thousands of Jews and Poles will die during the winter unless more aid comes.

"Every box-car full of refugees returning to their homes has in it those who die along the way, and those who have contracted typhus," Lieutenant Wright said. "The people try to avoid disease by keeping clean, but it is impossible to do so, under existing conditions. Even our nurses and doctors fall ill of typhus, a disease caused by filth and lice."

The Red Cross and the American Jewish Relief agencies are doing their utmost to keep both the Jews and the Gentiles in these stricken lands alive. Six million Jews in eastern Europe face death unless immediate shipments of food, clothing, and bedding from Canada and the United States reach them before the cold weather sets in.

An appeal for funds is to be made in Ontario and a generous response from this district is confidently expected.

## MOBS OF CHILDREN CRAVING FOR BREAD

Gaze Into Bakeshop Windows for Hours at a Time, Hoping for Something to Eat.

"The saddest thing in all Eastern Europe at the present moment—worse than all the other instances of starvation and even of death and disease on every hand—are the mobs of one sees outside of the few bakeries that are able to keep going in Warsaw," Sholom Asch, the famous Yiddish playwright and poet reported to the American Jewish Relief Committee upon his return from Eastern Europe, where he went as a commissioner of the Joint Distribution Committee of American Funds for Jewish Sufferers from the War.

"In the bakeries windows are few loaves of bread, and sometimes cakes, that are sold at a simply prohibitive price," he explained, "and even if these were as cheap as in Canada and the United States, their taste would still be unknown to the hungry Jewish children, who live on the cup of soup a day they get from American Jewish relief agencies. But the youngsters tantalize themselves with the sight of food, when they cannot get the taste of it."

"They press up to the window, and at first merely stare respectfully at the bread, an uncanny little crew of gaunt small folks with old faces and suffering unchildish eyes. Perhaps it is raining, or the wind blowing coldly through the tatters that they wear, that little barefoot army, but they huddle together for warmth, and do not stir. The sight of the bread has fascinated them, it is so rarely seen."

"A customer comes out, leaving the door ajar for a moment, and the warm fragrance of the bake-shop drifts out to the little ragamuffins, maddening them. They press closer to the window, their thin little faces against the glass. Those in front put out their tongues and lick the glass, as if, by so doing, they could taste the bread behind it. No poet could ever write into words the wishfulness of their faces as they do it."

"One of the men from the bakery comes out and drives them away every few minutes, else they would break the glass. They are afraid of him, and for a few minutes they stand at a distance, their eyes still upon the bread. Then hunger overcomes their fear, and they press up to the bakery window again. Soon they are eagerly licking the glass once more. And this goes on all day every day in front of the bakery window."

More money is needed to help feed those children, and an appeal soon is to be made in Canada for that purpose.

## DESTITUTION IN EUROPE TERRIBLE

Long Processions of Starving, Ill-Clad Children Seen Daily on the Streets.

Long processions of little Jewish children in Eastern Europe, bearing their tin cups in their hands, daily walk from their villages to the nearest town in which there is a Jewish relief station, according to relief workers in these stricken lands, sometimes journeying five or six miles in order to get the cup of soup with a piece of hardtack, or the mug of milk which is often their sole food of the day.

Those tin-cup processions emphasize, as nothing else could do, the terrible destitution of the Jews in Eastern Europe at present. The children in them are barefoot, almost without exception.

Reports received by the Canadian Jewish War Relief Committee say that both boys and girls are wrapped in burlap, or dressed in clothing made from the sacks in which the relief supplies have come, or in the rags which they have worn during the five years of the war, their gaunt little bodies showing through the tatters. They do not walk as children usually do, without effort or restraint, but drag themselves along wearily, and hopelessly, like fired little ghosts condemned to move in hungry processions throughout eternity.

Arrived at the relief station, the children are so tired and so weak that they sit down upon the pavement to await their turn in line. On the faces of every one of them there is an expression of unchildlike anxiety. It has to do with the only really vital question in the world to them—whether or not their soup and milk will hold out, until their turn comes. Every day some of them have to be turned away without food, since their numbers are so great that the funds at present on hand are not always sufficient to care for them all.

## MILLION CHILDREN ARE CLAD IN RAGS

Their Wasted Bodies Show Thru Tatters, Result of Starvation and Misery.

The art of making two flowers bloom where only one bloomed before isn't half so hard as that of making two garments exist where only one existed before; yet even this can be accomplished, according to reports recently received by the Canadian Jewish War Relief Committee from relief workers abroad.

Cloth of any kind, either cotton or wool, is particularly valuable to obtain in Eastern Europe, except at prohibitive prices. A round million little Jewish children in these unhappy lands are clad in the rags that they have worn all through the war, their wasted little bodies showing through great tatters. Some of these children are still sleeping on the streets, since there are at present neither orphanages nor funds for all.

Miss Harriet B. Lowenstein, of New York, sent to Europe as a commissioner of the Joint Distribution Committee of American Funds for Jewish War Sufferers, was able to purchase more than a carload of pajamas from the salvage department of the American army in France. These were sent to Eastern Europe, and in the workrooms opened there were made over into clothing for children.

Each pair of pajamas made at least two Russian blouse suits for little boys it was reported. The larger pieces left over in the cutting were used for the cloths that the children of Eastern Europe bind around their feet in lieu of shoes.

## MILLION PAIRS OF SHOES ARE NEEDED

Destitute Jewish Children of Eastern Europe Use Rags to Protect Feet From the Cold.

A million pairs of shoes are needed by the destitute Jewish children of Eastern Europe to-day, according to reports received by the Canadian Jewish Relief Committee from relief workers abroad.

At least that many of the helpless and hungry Jewish youngsters of Eastern Europe are absolutely without footwear of any kind, their relief agents say. Thousands of others have rags sewn around their feet in lieu of shoes.

Several carloads of shoes that formerly belonged to Allied soldiers in France were purchased there by the Joint Distribution Committee of Funds for Jewish Sufferers from the War, for the Jewish women of Eastern Europe. But it was impossible to buy the shoes in sizes that could be worn by the children, and all others sold in Europe are at a prohibitive price. So a million youngsters are barefoot during the hard winter of Eastern Europe.

There is a great lack of every conceivable kind of clothing, as well as shoes. In Serbia, a common child's costume just now consists of two sacks, with holes cut through for the head and feet. In Poland, four sacks and sugar sacks sent with supplies to the destitute Jews by Jewish relief agencies are all being made over into clothing, and even small salt sacks are pieced together, and used for this purpose.

## What God hath Wrought

IN 1865 there stood alone on Mile End Waste, London, a young man fired by the Spirit of God to make war on sin.

MILE End Waste was then one of the toughest places in London. Policemen patrolled it rarely, and then only in pairs.

HIS audience more than jered—they were downright abusive—but the young man persisted, and generally attracted a few souls to his standard.

THE man is now dead—but today his example is zealously fostered by thousands of Officers and Soldiers of the Salvation Army in sixty-six countries throughout the world, speaking forty different languages.

SAYS HE BROKE WITH BOLO

Former Premier of France Says He Thought Bolo Innocent.

PARIS, Feb. 25.—The examination of former Premier Joseph Caillaux, on trial before the Senate, sitting as a high court, on the charge of having had treasonable dealings with the Germans, and conspiring to bring about a dishonorable peace was resumed today. The questions dealt with the relations of H. Caillaux with Bolo Pasha, executed at Vincennes in April, 1918, after being convicted of treason, and Pierre Lenoir, executed in October, 1919, on being found guilty of having held intelligence with the enemy.

M. Caillaux explained that he thought Bolo Pasha, innocent until certain telegrams from the U.S. were published. Then, he testified, he broke off all relations with Bolo.

## OTHER COUNTRIES FOLLOW

Great Britain Took Initiative in the Sending Ships to Golden Horn

PARIS, Feb. 25.—Great Britain took the initiative in sending a fleet to Constantinople, says a London despatch to the Petit Parisien, quoting Premier Millerand, who is said to have added there were other allied warships in the Golden Horn.

## PILFERING ON RAILWAYS

In view of the considerable losses incurred through pilfering and careless handling of goods in transit, losses which amount in a year to close on three million dollars, the Canadian Railways have recently been conducting an active campaign against such robberies, not only in their own interests but also to protect the merchants and shippers who naturally suffer great inconvenience even though the losses may be made good. The loss of portions of a shipment frequently renders the balance of a shipment useless or depreciates its value, and affects the business of the merchant. As a result of this campaign, the C.P.R. for instance, have recently brought into court and secured convictions against several offenders. Thus at Ottawa, Ambrose Milks, a teamster of a transport Co. was sentenced to twelve months' imprisonment for breaking into a freight car and stealing a case of gin, while at McAdam Junction three men were condemned to five years penitentiary, two years penitentiary and four years reformatory, respectively, for a series of thefts from freight cars involving many consignments of considerable value.

The subject of pilfering on railways has been taken up in England by the National Union of Railwaymen, which has recently circularized its branches, pointing out the moral obligation that devolves upon them to check the practice and help to remove the stigma which threatens their prestige. The branches have responded very favourably to this appeal, with beneficial results.

## Dyed Her Blouse, Skirt and a Coat

"Diamond Dyes" Turned Faded, Shabby Old Apparel Into New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silky linen, cotton or mixed goods—dresses, blouses, stockings, shirts, children's coats, fashions, draperies, coverings.

The Direction Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

## IVENS IS FOUND GUILTY

WINNIPEG, Feb. 25.—William Ivens, one of the seven accused strike leaders, was found guilty by the full court of King's Bench on a charge of contempt of court and was bound over to keep the peace for three months on \$2,000 security yesterday. Chief Justice Mathers in handing down the decision said that the accused had been bound over to keep the peace so as not to hamper the defence in the trial of the strike leaders on charges of seditious conspiracy.

## Farm and Country Life in Canada

FARMING is a basic industry in Canada. From the first days of its publication, The Globe has always strongly advocated the development of scientific agriculture.

When the breeding of pure-bred stock in Canada was first deemed necessary, The Globe, by example and precept, showed what could be done.

The late George Brown was a leader in experiment. At Bow Park Farm, near Brantford, he bred from imported cattle so as to place pure-bred stock at the disposal of his neighbors.

From those days to the present, the furthering of the interests of the Farm and Country Life of Canada has been an important feature of The Globe.

The Weekly Farm Department has always been a source of inspiration to the farmers to improve their knowledge of agriculture.

The Globe believes that one of the best ways of teaching a man is to show him what his neighbor is doing. This is the policy The Globe adopts in its Farm Department. Two members of The Globe staff devote their whole time to the collection of material for this Department and in so doing spend several days each week in the country. They visit good farms all over Ontario and attend Fairs and Conventions. They report all developments in rural life as reflected in these gatherings as well as in the personal experience of successful farmers. Through its "Farm and Country Life" Section, The Globe has identified itself with every movement calculated to improve the conditions under which farmers and their families do their daily work.

This is the service thousands of Farmers in Ontario and elsewhere receive and appreciate, and one of the reasons why many thousands of them read The Globe.

But that is not all. Even competition, and the continued fluctuation of prices make it necessary for the farmer and his family to keep in touch with current produce and other commodity prices even from day to day.

The Globe has a well-merited reputation for accuracy, because in nothing is it more dependable than in its market reports. All prices quoted in The Globe are verified by the highest authorities SIX TIMES EVERY WEEK.

But besides all this, The Globe is a Great Family Newspaper. It is as much a necessity and convenience in the Farm Home as anywhere else. The coming of the daily paper to the Farm Home ranks in importance with the rural mail delivery, the telephone, electricity and the good road.

It broadens the outlook of those who live on the farm. It keeps them informed on current events the world over. Not only does The Globe do this, but it serves the agriculturists of Canada in a peculiar and appropriate way.

The service The Globe has already rendered three generations of Farm Life is a guarantee of what it will do in the days to come.

This is why The Globe should have a place in every Farm Home in Ontario.

**Two-Party Line Telephone Service**

NECESSARY curtailment of new construction during the war, followed by the unprecedented development since the armistice, have resulted in a universal shortage of telephone material.

In order to utilize our supply of equipment to the best advantage, to reduce delay in installations to a minimum and to avoid refusing service to anyone, we ask those intending to order telephones to consider the advantages of Two-Party Line Service.

With the central energy system in use here the operator can ring either of the telephones on a two-party line without disturbing the other. The cost to the user is substantially lower than for individual line service.

The rate for two-party line service is, for Business telephones \$30.80 and for Residence \$22.00 per annum.

We will be glad to furnish full information to anyone interested.

"REDS" NOT ALL REDS  
Observer Says Ninety Per Cent. of Armies Are Neutral.

AMSTERDAM, Feb. 25.—About 80 per cent. of the Red army in Russia is not "Red" at all, but is neutral according to the staff correspondent of the Handelsblad, G. Nypels, who has just returned from an extended tour through Soviet Russia. He

says about 60 per cent. of the officers, who are largely drawn from the trained military men of the old upper class, are "Czarist" in inclination. This leaves only about 20 per cent. of the officers, thoroughly attached to the Soviet regime, the rest being neutral or Czarist.

The New York American League club has signed Pitchers Miller of Regina and Murphy of Washington.

ESTABLISHED 1859

St. Catharines

George Williams

Found Deceased At

Formerly Lived on George  
Relatives Are Being Led  
the Crime Were Given  
Very Brutal Crime, the

St. Catharines man has been

the victim of murderers.  
This morning Chief of Police  
was notified by telephone  
Hamilton that George Williams  
Catharines man had been brutally  
murdered there.

The inspector who gave the particulars of the murder over the telephone did not stop to give details of the case, but it was a most sensational affair, Williams' body having been found early this morning. The dead man who was 62 years of age, lived at 28 George street in the city and had been employed as a cement worker by J. L. Weller some time ago he went to Hamilton and obtained a position as night watchman at some factory.

Weak, Sickly Folks  
Regain Health Quickly  
By New Remedy!

BLOOD FOOD NOW  
MANUFACTURED THAT  
ACCOMPLISHES  
MARVELS

Lots of people that were thin and feeble for years have recently been restored by this simple treatment. At you have to do is to take a little chocolate coated tablet with a sip of water at the close of each meal.

The tablets, which, by the way, are called "Ferrozone," are in reality a perfect food for the blood. They contain exactly those elements you blood needs when it becomes thin, weak and unhealthy.

This is just the time to use Ferrozone; it excites splendid appetite, aids digestion splendid aid, supplies nourishment for all weak organs. As you feel buoyant and strong, your blood courses through your veins, supplies strength, and you tingle with animation and ambition.

No more headaches.

None of that tired languor. You feel like doing things because Ferrozone completely renews and strengthens your whole system.

No medicine on earth gives such quick, lasting benefits as Ferrozone. It has raised thousands from downy weakness, brings robust health simply because it contains the forty elements that run down systems require.

One week after using Ferrozone you will feel like new, you'll appreciate what real robust health means. In fact you'll scarcely credit the power of vigor and spirits have received. Ferrozone is more than a tonic because its work lasts, its benefits are permanent and are not temporary. It restores health where other treatments fail and should be used by every man, woman and child. Try it, 50c per box or six boxes for \$2.50. Sold by all dealers or by mail from The Ferrozone Co., Kingston, Ontario.

The Dominion Rifle Association held its annual meeting at Ottawa plebiscite in Yukon Territory held endorses territorial prohibition of the liquor traffic.
