The year after I re paired this road the Motor Assocation

A few days afterwards he said we would have to cease work as the road machinery could complete the job as it went, so Mr. Thos Soper had informed him. On seeing Mr. Campbell he told me the machine required 5 men to tend it. This I told to Mr. Soper who said that as it was getting late in the season, he intended to clear up the work for that year. A week later, however, he brought men down from Kelligrews and put them on the job. Something should be done now to the Thorburn Road, and as there are a number of poor people on the road waiting for work, the time would be opportune for operations.

HEALTH.

The remarkable sudden and unexpected recovery of his 17 year old son, who has been a helpless invalid for the past 2½ years, is related by Mr. Wm. Bursey of Old Perlican. The father, who arrived in town several days ago, states that his son Lester was stricken with a wasting illness about 2½ years ago. Although receiving constant medical aid he failed to regain his strength. During his illness he had to be cared for like a baby. About a fortnight ago the young man without any warning found himself well, and dressing, surprised his mother and father by appearing to them at the breakfast table, where he partook of a hearty meal. The incident caused a commotion in the community and Dr. Templeman who was attending the patient is unable to account for the sudden recovery.

We used to produce in Russia, befere the war, forty-two per cent. of the foundry output of the entire country; forty-eight per cent. of steel rails, seventy-five per cent. of chemicals, fifty per cent. of glass tableware and thirty per cent. of window glass. No other country is so prepared as Belgium to restore Russia, if the latter returns to former Belgian proprietors their old possessions. Money will again pour into Russia. Belgian industrialists already have a billion francs laid aside to restore their industries there. In clause seven Belgium admitted a formula which allowed for the nationalisation of property in Russia on condition that its use should be granted to the old proprietors or when this was impossible, compensation be given them. M. Cattier, our legal expert, simply assisted in compiling clause seven on the request of Mr. Lloyd George and M. Barthou, under express conditions that his presence there would pledge neither the Belgium delegation nor the Government to the work of experts."

Italy is the market which shows the slowest pace of improvement, but even there, things are better than they have been for some time. The Northern Brazil market is dull, but Southern Brazil is taking some codfish from us, and prices are steady. ### It's Flavor that Makes the Meal!

And the sauces that the Libby chefs have adapted for you give flavor to the simplest dishes.

It may be eggs, or macaroni, or a cheap cut of meat—an unusual and delicious sauce will make it something you eat with delight and remember with pleasure—because of its flavor.

LIBBY'S CATCHUP and CHILI SAUCE are made from red, ripe tomatoes, grown in the fertile soil of Kent County, Ontario, picked when they are mellowed by the sunshine of long summer days, then rushed to the nearby Libby kitchen.

Here in sunny rooms the tomatoes are cooked with fragrant spices, onions, sugar and the best vinegar—cooked for hours until all the flavors are blended through and through.

Now the sauce is ready to give an appetizing relish to your steaks and chops, or a new piquancy to the meat gravy you serve with your roasts.

Your grocer has, or can get you, Libby's Catchup or Chili Sauce. Use it with your cold meat teas and note how quickly the second helping is necessary.

> The delightful flavor of Libby's Beans is due largely to the wonderful Sauce prepared by the skilled chefs. Have you tried them?
