

ORANGE INCORPORATION.

SIX MONTHS' HONORABLE SERVICE BY A NARROW MAJORITY.

Scene in the House—French Members in Arms—Royal Society of Canada—Senator Macpherson to Succeed Sir A. T. Galt.

Special Despatch to the World.

OTTAWA, March 19.—Passion week was ushered in by the common with a debate on the orange incorporation bill. The debate lasted an hour and a half, and was lively without being heated. The lead was taken by Mr. John White, Hamilton, who moved for the second reading of the bill tomorrow. As was expected, the French members, irrespective of party, attempted to burke the measure, their opinion of it being voiced by Mr. Couriel of Montreal East, who proposed the six months' trial. The proposal to treat the bill in this manner was steadily increasing, it was desirable to establish a reciprocity treaty.

Mr. Tom White, of Cardwell, replied, and Mr. Charlton followed in support of the treaty.

A long debate ensued on the motion by Mr. Casey for copies of orders in council relating to the government of the Northwest territories, and the headquarters of the mounted police at Regina. Mr. Casey denounced the selection of Regina as a bad one, the land being poor, water being scarce, and wood at a premium.

He referred to the report that Lieut. Gov. Dewdney was interested in land around the new capital, which might have something to do with his choice as the seat of government.

The premier defended the governor, but intimated to the house that Mr. Dewdney had a twelfth interest in section 26, which is adjacent to Regina and upon which the police barracks are built.

Mr. M. C. Cameron spoke of the dissatisfaction that existed on account of speculators being allowed to operate in lands to the detriment of genuine settlers.

Dr. Orton and Mr. Spruille were heard at some length in support of the government's policy and Mr. Dewdney's action.

The motion passed.

Sir John Macdonald announced that the estimates would be brought down on Tuesday or Wednesday.

The house adjourned at midnight.

Parliamentary Business.
OTTAWA, March 19.—After the Easter adjournment the minister of marine will introduce a resolution providing for the examination of all persons desiring to become masters or mates of vessels of certain descriptions on inland waters.

It is now reported that the Hon. D. L. Macpherson will succeed Sir A. T. Galt as high commissioner in Great Britain.

Mr. Hay today presented the petition of the Toronto board of trade against Mr. Beatty's bill for the equitable distribution of insolvent debtors' estates.

The senate divorce committee to-day examined Mr. Peter Nicholson. He detailed the causes of separation between his wife and of her departure with their two children to Detroit.

The destroyer of their happiness at Prince Arthur's Landing was a man named Kennedy. He acknowledged signing to pay his wife a hundred dollars a year to assist her in the maintenance of their children, and to that effect, with the conditions, were made out and signed, but he stopped paying it when he heard of her living in Detroit with Jones. So far the petitioner has not made out a very strong case. The defence will go on to-morrow.

ANOTHER STORM IN SCOTLAND.

Traffic Interrupted With—Serious Interference with the Progress of Agriculture.

LONDON, March 19.—Saturday's gale in the north of Scotland was accompanied by extraordinary snow storms and extensive drifts. At Macduff considerable damage was done. It is reported that a number of boats were driven from their moorings in Fife's harbor and wrecked. Large quantities of wreckage were washed ashore on the coast of P. Dunsborough. The heavy snowfall in North Wales and the midland counties of England will materially interfere with traffic. Railway traffic in Scotland is almost entirely blocked. A passenger train from Inverness to Perth stuck on drifts on Friday night. There were no trains on Saturday. The intense frost has seriously retarded every department of agriculture.

BOAN AND O'DONOVAN ROSA.

The Mr. Treasurer's Opinion of the Assent to the Lottery Bill.

WATERLOO, Conn., March 19.—Patrick Egan will depart for New York this afternoon, accompanied by Father Walsh. The former goes to Buffalo and afterwards to Boston. Father Walsh attended the Philadelphia convention of the land league on April 25. Egan says that the attack on Lady Florence Dixie has no political significance. The family is peculiar and the attack on the lady is probably the result of a family feud.

W. H. BURKE'S BIG SWINDLE.

TO WHAT END BURKE'S NEWSPAPER CAN BE PUT.

The Windsor Town Hall Turned into a Wheel-of-Fortune Room—How the Cards Were Worked Over the River.

The lottery trials at the police court yesterday brought to light one of the most palpable swindles that probably has been unearthed for some time. For 19 years a man named Mr. H. Burke and a retinue of abettors have been thriving on the proceeds of a newspaper lottery carried on in Detroit and its Canadian environs. Burke, under the cloak of running a weekly paper, has during all these years, made many thousands of dollars illegally. He lives in a magnificent house at Sandwich in the county of Essex, and is a member of the aristocracy. His alleged newspaper bears date of Detroit, Mich., where it is printed and published. For a number of years he has turned the town hall at Windsor into nothing better than a wheel of fortune room. What would the Windsor authorities have been doing all this time to allow such a thing? All these facts and many more, too, came out in evidence yesterday.

Whatever may be said of the illegality of the masonic lottery at London, it is pretty well known that the conductors of it did the thing squarely, and distributed in a fair manner—that is as far as games of chance can go—the amount of money which they advertised. It may be presumed that the proposed Orange Lottery would have been fair in this respect. But this scheme of Burke's, unmasked as it was yesterday, bears on the face of it a downright swindle. Burke came down to Toronto on Saturday as a voluntary witness, but subsequently he found himself in the hot water of the law. He brought with him documentary evidence of the decision of an American judge to show that his "lottery" was a lottery, and that it was a swindle. Very little has the magistrate refused to read it.

James Reanne, of West Market street, was the original defendant in the case. He was charged on remand with selling tickets of, and advertising, Burke's newspaper, which is a swindle, and as a reputable business man as Mr. Reanne was not aware of the true character of it.

Mr. Stuart Cumberland at Shafesbury Hall Last Night.

Notwithstanding the storm a good-sized audience greeted Mr. Cumberland at Shafesbury hall last night in his mind reading. Dr. Will was the chairman. The committee of inspection was composed of ex-Mayor McMurrich, Dr. King and Oldwright, Barlow Cumberland, Henry O'Brien, Allan Cassel, Geo. Yorker and Arch McCreedy, M.A. The millions of sound and sight were shown in a very popular way by the lecturer, and met with a warm reception. The most interesting affair was the cabinet exposed by Dr. Oldright and King and placed in the cabinet and some marvellous results followed, such as playing of whist, beating of drums, etc. One of the committee was then placed in with him, and when the curtains were drawn it was found that the former's pockets were full of rabbits and other toys, that his watch was gone, and another substituted; in fact everything upside down. The performance will be explained to-night, and will, no doubt, draw a large audience. The audience wondered at the close why the last watch was found in Dr. Will's pocket.

LONDON, March 19.—It is supposed that Lady Florence Dixie's dog followed the assailants for some distance. The queen has requested that a painting of the dog be done for her. Lady Florence says the whole affair is most mysterious. "I can assure a motive to me as my sympathies for the Irish people have been openly avowed and are well known." She warmly repudiated the assumption of the crime as Irish origin. The boldness of the attack was extraordinary. It was committed close to a busy place in open day and within sight of the towers of Windsor Castle.

Party journals were startled by fear of the masonic vote, though the Globe did not much as could be expected. Of all gambles the most is the masonic vote. It is the hall in which a lottery is drawn. Yes, it appears that most respectable people have no scruple in raising money by the criminal device, poor devils as they are called, of a lottery. A lot of obtaining money without labor, combined with the pleasure of fierce excitement, makes the game; and it is startling to see how strong and how general the passion is even in a community such as ours.

THE LI-QUOR IS THE LEADING ARTICLE. The little court of Ottawa would also deplore it. It is really a school of refinement and manners, even to the few who come under its influence. The idea is somewhat humiliating; it hardly accords with the accounts that come to us of Ottawa life, or with the picture drawn by residents; nor does it seem to be shared by royalty itself.

of which implies a splendid concentration of mind to be photographed in a costume which will show their faces and still be within the bounds of decency.

Formerly, according to the critics, the mentality in Mr. Keene's acting was mechanical and that his over-vigilance as to the effect and as to the public comprehension of his mind.

The painful loss has disappeared from his works, giving place more and more to the soft, tranquil spirit of poetic repose.

Mr. Keene will be seen for the first time in his role in the first act, which is considered by many to be unexcelled.

There may have been some who have given the character with more success, but according to all accounts, none can so clearly reveal the interior meaning of the part.

The company in support of Mr. Keene has been highly praised. The sale of seats will begin in a few days.
