REN BUTLER ON THE BOOM

TWO POWERFUL PAPERS COME TO HIS SUPPORT.

Cleveland Tells What He Knows About the Woman Halpin-Starving Indians

NEW YORK, Aug. 8 .- The correspondent of the Mail and Express at Saratoga

falo I went to Albany and saw Governor Cleveland. He frankly told me that my version of the stories was substantially correct, adding, 'I acted throughout as any honorable man should.'" The version thus endorsed is in Gen. King's words, as follows: "Many years ago when the Governor was sowing his wild oats he met this ernor was sowing his wild oats he met this continuance of the present that the gives the area and production of the trops of this year and last year the production of the present harvest being based on the estimates of 1150 correspondents. Cleveland. He frankly told me that my woman and became intimate with her.
Ste was a widow and not a good woman
by any means. Mr. Cleveland learning
this made enquiries and found that two of When a child was born Cleveland, to shield his two friends, who were married men, assumed the responsibility of it and took care of the child and mother until the mother became a confirmed victim to drink, and her conduct made it impossible to have anything more to do with her. He never separated the mother and child nor did aught to injure her. He was a victim of of cumstances, and accepted a responsibility that not one in a thousand has shouldered, and acted honorably. The other stories against him could not be substantiated, and no one willing to father them could be found."

Starving Indians.

HELENA, Mont., Aug. 8. Leading citizens and the board of trade have wired a petition to the secretary of the interior urging immediate action for the relief of 3000 Piegan Indians at the Backfeet actually starving. The death rate is great. scant that they would be insufficient to ration life but for the plenteousness of wild berries. Stock men report many cat-tle killed by starving-Indians.

SHENANDOAH, Pa., Aug. S .- While Mr. funeral, the carriage was struck by a loco-motive. Mr. and Mrs Dixon, one child, and Cuff were killed. The horses were cut to pieces and the vehicle was demolished. The driver and an infant of Dixon's escaped

Heavy Loss of Live Stock in Colorado. DENVER, Col., Aug 8 .- News has just been received at Denver, Col., of a destructive prairie fire 150 miles to the north east, on the range between Denver Junction and Frenchman. The burned district extends thirty miles along Platte river and back a great distance, covering a portion of the Jed Boush, Governor Routt, Bruce, and Johnson ranges, and has inflicted great loss on the stock interests.

NEW YORK, Aug. 8.—The wife of Dewey Foster, a well-known journalist, was arrested while walking to her home Wednes-day evening by Policeman Cuff. Cuff was drunk, and after making an insulting re-

mark, arrested the lady on the charge of being a disreputable character. He will be dismissed from the force. Trouble Among the Salvationists. SCHENECTADY, N Y., Aug. 8 .- Great ex citement was caused last night by the arrest of four young men in a disturbance between the salvation army and a crowd. Fifteen hundred men followed the priso-

Chief Constable Bradley having receive from Chief Stewart of Hamilton, a description of a 16-year-old Barton township girl named Mary Wilkins, who had eloped with posed, come to this neighborhood, made inquiries and found the girl working for a Trafalgar farmer a few miles from Milton, fratagar tarmer a tew miles from another farm a short distance away. The chief arrested the gill on Friday and telegraphed to her father, who came here on Saturday

CORRESPONDENT'S REASON FOR NOT REDUCING THE CAPITAL.

Federal bank stock is up to fifty again. The announcement yesterday that a satisfactory arrangement had been made in regard to the Potts account douotless eased the situation. The Potts account, loan and interest, is about a million and a half, and there is good reason for saying that the arrangements just closed, or about to be closed, for the sale of the bank's interest in the estate will realize about three quar ters of a million or half the debt. If this is so the reduction in capital ought not to exceed one-half the whole.

Below is a letter defending the position of the best interests of the party, has

placed his leader in a false position CLEVELAND'S CHANCES.

dential race, and he will hurt Cleveland more than Blaine. The New York Sunvery powerful influence-is half-hearted in its support of Cleveland, indeed the news of this morning is that it has decided to shine for Butler. If this is true as well as the further statement that John Kelly will support Butler, Cleveland will need more than the vote of the independent republicans to make up for this democratic bolt. As things now are, without expressing opinion on the merits of the candidates we take it that Blaine has the lead.

Intermediate Accommodation

An English paper well informed on At lantic matters has an interesting article headed An Hour on the Adriatic, a White Star liner, in the course of which it says as follows in regard to the intermediate accommodation on that steamship: A new ommodious and really handsome intermediate cabin has also been constructed, and the preparations made for the wants of this class of passengers are simply unrivalled. We have some acquaintance with ocean steamships. The opportunities of looking through many have been at our disposal, and have often been embraced, but never before had we seen anything which can be put on a level with that which we yesterday inspected on the Adriatic. It would not be going too far to say that the comfort, convenience and general aspect of this cabin places it ahead of the chief cabins of not a few oceangeneral aspect of this cabin places it ahead of the chief cabins of not a few ocean going steamers, and considerably in advance of the saloons of the old Atlantic liners of a quarter of a century ago. This thorough fashion of preparing for intermediate passengers is characteristic of the White Star company, which, among steamship lines, is very much what the Midland is among railways. It is the most generous in its treatment of its patrons, and it is continually seeking some new channel sengers going by the Adriatic who elect to take this particular class. In addition to a capitally furnished general cabin, there are admirably fitted, and, what is of real are admirably fitted, and, what is of real importance, splendidly ventilated sleeping berths. Then, too, the "table" will be well looked after, and here again, White Star enterprise will be to the fore. The "bill-of-fare is a good one. But, good as it is, there is the intention not to interpre

of the bank and making out a number of good points in its favor.

We also copy an article from the Monetary Times. We reprint it for the sole reason that it can do the bank no harm now even if it points out the mistakes of the recent management, while it will certainly tend to prevent other banks from committing like errors. Federal has begun to improve, its business is looking up, and the prospects are fair. from the Federal Standpoint.

SIR: Some idle rumors which have

een industriously circulated by the press have led some people to believe that a difference of opinion as to a reduction of the capital stock exists between the general manager of the Federal bank and his board. A more false and unfounded statement was never made. I beg to state that it would be impossible for the general manager or the directors to even fairly discuss the subject, seeing that the assets (in reference to which so much nonsense has been written in the newspapers) are not in a shape to be pronounced upon definitely - that is to say, the Potts lumber account - that is to say, the Potts lumber account and the Manitoba loans. To call these bad debts is simply ridiculous. With regard to the former an offer of about \$1,000,000 is now pending, and a prominent bank official, who knows the condition of Manitoba affairs, expressed himself that the bank's claims in that province ought ultimately to be realized to a large extent. With to be realized to a large extent. With regard to any shares upon which the bank may have a lien in respect to advances made to the so-called "little machine,"—and for argument's sake I will take it that the bank has a lien upon, or controls, \$600,000 of such stock,—(but what the actual amount is, if any, I know not), I beg to observe that to treat this as a loss would be absurd because the stock could be sold, and at even at present quotations. thorough fashion of preparing for intermediate passengers is characteristic of the White Star company, which, among steam ship lines, is very much what the Midland is among railways. It is the most generous in its treatment of its patrons, and it is continually seeking some new channel slong which to develop its energies and increase its business. There need not be any inconvenience or discomfort for passing the start of the bank's assets minus its value of their shares, which in point of fact may easily be shown to be worth a premium, and a large one, provided it turns out that the Potts timber advances and the claims in Manitoba be recovered, and so far as possible losses arising in these or other matters are concerned, it must be remembered that there is the no inconsiderable sum of \$1,500,000 of reserve to fall back upon before the back.

back upon, before the bank's capital need be impinged upon.

Again it ought to be pointed out that the range of any portion of the share capital would have the effect of lessening the security to bill-holders and depositors, seeing that the double liability which the ing that the double liability which the holders of the cancelled shares would lie under would be wiped out, which double liability on the whole cap tal of \$3,000 000 at present forms an actual security to all

depositors and bill-holders.

Further, it cannot be said that the Federal bank has impaired its capital by its transactions with the so-called "little machine." The fact is that if its present chine." The fact is that if its pre-claim against the "little machine" were deducted from the profit made out of its large surplus of profit would be shown. ONE WHO KNOWS.

From the Monetary Times.
When a Canadian bank comes to grief there is no certainty that the public wil ever know the cause of the catastrophe. No public officer is required to examin the accounts and trace the losses to their source. To this moment nothing certain i known about the wrecking of the bank of Upper Canada. It is known generally that the management was bad, and that when financial paralysis came, the stricken bank was found to have grasped large quantities of landed security. public has got no authoritative statement, in any sort of detail, of the methods which in any sort of detail, of the methods which led to the ruin. We are still going on in the same way. Errors and follies, which might have been used as effectual warn-ings, have been repeated, with the same

unvarying result.

The work of the hour is the exercise the strong hand to put down wrongful prac-tices. The Federal bank furnishes an example by which any that may have been in-clined to imitate would do well to profit. Some of the vicious and illegal practices of Some of the vicious and illegal practices of this bank are well known. Foremost among these was loaning on its own stock. This is a practice which the law very properly forbids; but he Federal management was not merely guilty of a breach of the law; it organized defiance of the law. It could not legally loan on its own stock, so it resolved to do indirectly, what the law does not permit itto do directly or indirectly. The machinery which it set up for evading the law was a permanent organization, planned with such shallow cunning, that any one could see its sinister object and foretell the purpose to which it would be applied. The net result is that \$600,000 of the new stock owes its existence to capital which had been paid in on account of the old. The new stock so created did not add one real dollar to the pre-existing capital of the

new stock so created did not add one real dollar to the pre-existing capital of the bank. But it created a large balloon, which a gaping public was called upon to admire. It coabled the management to say, but not to say truly, that this \$600,000 of bogus stock was paid up. It made the bank look stronger than it was by \$600,000. It gave confidence and brought deposits. In a word, this remarkable creation served the purpose of deceiving the ation zerved the purpose of deceiving the public. And to deceive the public was the object of creating the the object of creating the bogus stock. By loaning on its own stock, the bank sent up the price for awhile, and applied the parachute when the descent began. The public, believing in the false

be found everywhere. The losses men, women and boys, who do to day hold a dollar of the stock, not to day hold a dollar of the stock, are enormous. We are not concerned to know the precise process by which the bank's money, or money which it had borrowed, went into this stock; it is sufficient that it went there through some one of the crooked and illegal methods that are pos-

meet the same punishment.

Canadian banks, as a rule, are conducted by honorable men, in an honorable way, and the misfortune is that the reputation of the whole flock is liable to suffer for one of the whole flock is liable to suffer for one black sheep. Reckless management leads to a collapse, and the collapse of one bank creates a danger for others. For this reason it is necessary to be timely in denouscing notoriously evil methods; if they escaped censure, their repetition would be ure to occur, bringing all the old evils in their train.

on the committee of management: Messrs Stevens, Heath Stodard, Davie and Daven The City Not to be Extended. The township council of York at their sual monthly meeting on Monday last August 4, passed a resolution unanimously ondemning the annexation scheme of 3000 cres of agricultural and wild lands to the acres of agricultural and wild lands to the city, brought forward by Aldermen Moore, Hastings, McConnell and party without consulting the views and wish a of the proprietors of the territory they proposed to annex; and the council expressed an opinion that it was not the intention of the Outario government to dedicate to a few irresponsible men power to coherce their neighbors into any such absurd scheme. A petition to this effect was ordered to be forwarded to his honor the lieutenant governor in council.

The value of Mr. Mouat's paper lies in the facts it gives in refutation of popular mistakes, prevalent in the old country chiefly, as to what Canadian climates really are. He uses the plural advisedly, for be tween tide water on our Atlantic coasts Despatch, and was found by the sexton three months later planting some grass and the shores of Lake Huron various and the shores of Lake Huron various seed on the mound and hastening its gerare. He uses the plural advisedly, for be climates prevail, to say nothing of the greatly different climates of the vast Northwest. Almost as important are facts cited which completely upset certain notions too much prevailing among our ourselves as to the supposed more favorable climates of the neighboring states. For instance, the lowest temperature of the past twelve years in Toronto (lat. 43° 39') was only -18° .4, Fahr.; Hamilton (43° .16') records 20° .5; and Windsor (lat. 42 19')
-19° .5; while portions of the Niagara and Lake Huron districts show no temperatures lower than 12° below zero. Within shorter periods, not exceeding in any one instance eight years, the following

'Truth" Bible Competition NO. BLEVEN. THE FINAL ONE.

Closing September 15th.

A NEW PLAN. For Persons Besiding Anywhere in the World Outside the City of Toron o.

The Largest List and Most Valuable Ever Offered by Any Pub-

RESIDENTS OF TORONTO INADMISSABLE A SMALL FARM FREE. SPECIAL CLUB OFFER.

Four Pianos, Three Organs, Silver Tea Sets, Sewing Machines, Gold Watches, Miver Watches, and Innumerable Other Valuable Rewards. Don't Delay Sending in Your

Answers.

At the solicitation of many friends TRUTH ces one more—the final—Bible com petition. Owing to the fact of so many valuable rewards going to citizens of Toronto, this competition will be open only to persons living outside the city of Toronto. Any one residing in any other part of the habitable world will be eligible to compete for these magnificent rewards. The questions—which are supplied by an eminent Presbyterian minister—are very difficult, but the rewards are valuable. We hope the publisher of TRUTH will meet petition. Owing to the fact of so many hope the publisher of TRUTH will meet with the success his enterprise so richly merits. Everything he has offered in previous Bible Competitions has been promptly and cheerfully handed over to the successful ones the and cheerfully handed over to the success-ful ones the moment they are known. We most heartily commend the paper to our readers. They will find it all it is repre-sented to be. Full and complete lists of all those who gain rewards are given in TRUTH the week following the close of TRUTH the week following the close of each competition. There will be no change,

Siberia, are among the most important and both will join in the endeavor to have and no p thing will be carried out exactly as stated. the line of the late award confirmed. MIDDLE REWARDS.

1.—FIVE ACRES OF BEAUTIFULLY SITUATED LAND.
adjoining the corporation of
Niagara Falls, fr. e from all incumbrance, clear title, splendidly situated for fruit raising,
sloping gently toward the
south, over-looking the town,
and within sound of the great
cataract; not a stump nor an uneven foot of ground in it: land
on opposite side of road held at
\$1000 per acre.

2.—One Beautiful Square Grand Rosewood Plano, by Stevenson
& Co.

3.—One Elegant Cabinet Organ, by the
celebrated tirm of Boll & Co.

4.—One beautiful Silver Tra Service,
best made, quadruple plate, for

250 00

will be given to the person sending the middle correct answer of the whole competition, from first to last. The five hundtition, from first to last. The five hundred and four costly articles beginning with the piano, that follow No. 1 of these middle awards, will be given to the five hundred and four persons who send the next correct answers following the middle or centre reward that takes the farm. The land mentioned above could be divided up into building lots and sold to great advantages, at there are no yacant houses in the tage, as there are no vacant houses in th town of Clifton or Niagara Falls, as it is now called. Then, that even the last ones may not feel that they are to be left out, TRUTH will give a series of

100 00 65 00 250 00

Ladies Fine Rolled Gold Pinsor
Brooches. 204 00

312 to 401.—Ninety Solid Triple Silverplated Butter Knives. 204 00

The further you live from Toronto the
better you can compete for these last or
consolation rewards. Bear in mind that it
is the last correct answer received at the
office of Truth that gets number one in
these consolation rewards. The offer is
open only till the 15th September, and as
long as your letter bears the post mark,
where mailed, of the date of 15th September, it will take its place in the order received at Truth Office. Fifteen days after
date of closing will be allowed for letters
from distant points to reach Toronto, but
don't forget that your letter must not bear
a later post mark than September 15. All
competing must send with their answers
one dollar for six months subscription to
Truth, which will be sent to any desired
address. Wherever you live, address. Wherever you live, outside Toronto, you can compete at any time between now and the closing day for either the first, or middle rewards, and as well as of course for the consolation rewards. Some one will get those solation rewards. Some one will get those five acres of land—why not you? Look up your Bible now and see if you can find the your Bible now and see if you can find the answers to these questions. It will do you good, apart from the opportunity you have of obtaining a valuable reward in addition to TRUTH, which alone is good value for the one dollar. It consists of 28 pages of choice and pure reading matter for the home circle—tomething to interest every member of the family. Mr. Wilson, we are sure, could not afford Mr. Wilson, we are sure, could not afford to give these valuable rewards unless he was certain of your patronage in years to come, and we are almost certain you will

come, and we are almost certain you will become life subscribers to TRUTH if you take it for six mouths, it is such a splendid weekly (not monthly) magazine.

SPECIAL CLUB OFFER TO YEARLY SUBSCRIBERS.

If twenty for present in and send 250 SUBSCRIBERS.

If twenty-five persons join and send \$50, each one of the twenty-five whose answers are correct will get their choice of a solid-rolled gold brooch, new and elegant design, worth at retail two dollars; a Chambers Etymological Dictionary, worth about same amount; a World's Universal Cyclopadia. or a volume elegantly bound of same amount; a World's Universal Cyclopædia, or a volume elegantly bound of Shakespeare's Complete Works. Of course, each of the club will have the same opportunity of gaining one of the rewards in the regular list (in addition to the certainty of one of the prizes aforesaid), as though they had sent in singly. This is simply an extra inducement to clubs.

The rewards in last competition were very widely scattered over Ontario and Quebec. In fact, every Province was represented in the last, not excepting British Columbia. A great many also went to the States.

No information will be given to any one beyond what has above been stated. So don't waste time by waiting, but send in your answers and money now. If you happen to be too late for the first you may be fortunate enough to obtain a middle reward, and that is where the biggest ones

value for your money anyway. Address
S. Frank Wilson, TRUTH Office, 33 and 35
Adelaide street, Toronto, Canada.

True Grain Saver.

(From the "Ontario Reformer," December \$1st, 1883.)

Our readers are, probably, all aware that John Dryden, M.P.P., President of the Canadian Short-Horn Breeders' Association, occupies one of the finest farms in the Deminion of Canada, and is one of the best farmers. He cultivates something over of cultivation, and the whole farm is free from all weeds or plants which are is jurious to crops. Not only does he own one of the finest and best tilled farms in the country, but his stock throughout whether horses, cattle, or sheep, are of the very best breeds, and all of them fine animals. horses, cattle, or sheep, are of the very best breeds, and all of them fine animals. In every department Mr. Dryden looks out for the best, whether it is in the line of stock, machiners, or seed grains. He and his neighbor, Mr. Samuel Holman, pur chased for their own use, this year, a New Model Vibrating Threshing Machine of the Hall Company, and Mr. Dryden's opinion we give below. Every one who is ac quainted with him knows that he would not put his name to any statement which not correct in every particular; therefore his opinion of the New Model is of great value to those who desire to purchase a threshing machine:

Brooklin, Ostario County, Dec. 13th, 1883. The Joseph Hall Manufacturing Company. Oshawa:

Gentlemen, —We are highly delighted with the 10 Horse Power and New Model is the content of the same which was placed up and weighed. It can readily be seen that in this way a test can be made which would indicate exactly the quantity of grain which would be lable to making some very interesting tests to ascertain the real merits of the machine as a grain saver. A plat form was built at the rear of the machine with a slatted bottom, so that all the grain fell upon the slats. It was arranged so that one man could stand on either side of the platform and shake the grain out of the straw, so as to allow it to fall through the slats, throwing the straw over on the ground. A hopper was placed under the platform, and under the hopper a fanning mill was placed. Then fifty bushels of grain was threshed, beginning at the rate of sixty bushels per hour, and twenty bushels per hour. After threshing fifty bushels at each of the various speeds, the grain in the fanning mill was cleaned up and weighed. It can readily be seen that in this way a test can be made which would indicate exactly the quantity of grain which would be lable to make the same that the real merits of the machine as a grain saver. A plat form was built at the rear of the machine as a grain saver. A plat form was built at the rear of the machine as a g

GENTLEMEN,—We are highly delighted with the 10 Horse Power and New Model Vibrator purchased from you this season. It runs smooth and easy; thre hes perfectly; separates thoroughly; and the fanning mill does its work so completely that it cannot be excelled. It is just the machine for the farmers to buy because it is so easy to control. It is comparatively free from dusc, there can be made which would indicate exactly the quantity of grain which would be liable to go into the straw stack. Tent tests were made only a short time ago, and the worst result was the loss of five ounces of wheat in threshing ten bush ls, which was equal to a waste of one bushel in nineteen to shawa.

GENTS,—I can say truly and candidly, putting aside all blow, that the New Model is the parts well around here, cleans so good, and is in the grain so detain that the grain so treat that the grain so detain that the grain is the grain so treat that the grain shave to really fit for market. I never saw anything like it. It threshes and separates the country of wheat in threshing ten bush. It is the greatest grain saver I have ever the machine for the farmers to buy because it is the best machine I ever run. It takes is the best machine I ever run. It takes is the best machine I ever run. It takes well around here, cleans so good, and is in every way satisfactory. Yours truly, on the introduction of every circumstance. We heartly congratulate you on the introduction of every circumstance. We heartly congratulate you on the introduction of every circumstance. We heartly congratulate you on the introduction of every circumstance. We heartly congratulate you on the introduction of every circumstance. We heartly congratulate you on the introduction of every circumstance. We heartly congratulate you on the introduction of every circumstance. We heartly congratulate you on the introduction of every

John Bryden, M.P.P., on the "New complete a separator, a great boon both to threshers and farmers.

An Interesting Test.

From the London Advertiser.

The Joseph Hall Manufacturing Company, Oshawa, have introduced a new threshing machine called the "New Model" Vibrator. This machine was invented by Mr. Jacob Miller, of Cauton, Ohio, who has for forty years been engaged in manufacturing threshing machines. The "New Model" was first offered to the public in 1879 For 1882 more than one thousand were sold in the United States. The Hall Company have been making some very in Company have been making some very interesting tests to ascertain the real merits of the machine as a grain saver. A plat form was built at the rear of the machine

"It's too bad, John," she said, "that

Very truly yours, John Dryden, M.P.P.,

Never Seen a Threshing Machine as Nearly Perfect as the "New Model."

Cooksville, Dec 30th. 1832.

To the Editor of the Express, Oakville:

DEAR SIR: We, the undersigned farmers and old threshers, being desirous of advancing the interests of our farmer friends, take great pleasure in calling their attention to a new threshing machine which we have had the satisfaction of seeing work. It is called the "New Model" Vibrator and was made by the Joseph Hall Manufacturing Co., of Oshawa. We have had much experience in threshing, separating and cleaning grain, but we have never seen a threshing machine so nearly perfect as the "New Model." It runs very smoothly, without scarcely any vibration, every part being so carefully and evenly balanced. It threshes rapidly, in fact it can take all the straw men can give it. It feeds very easily. It separates the grain most thoroughly from the straw. In this respect it is remarkable, and, finally, it cleans the grain more perfectly than we have ever seen it done heretofore. The manufacturers claim that it will thresh two thousand bushels of wheat without wasting more than a bushel, ever Seen a Threshing Machine a Nearly Perfect as the "New Model." wheat without wasting more than a bushel, and we believe that the machine will fulfil their claim in this respect. We believe there is no machine offered to the public

PEEL COUNTY.

there is no machine onered to the public
in Canada which so fully meets the demand
for a perfect thresher, separator and cleaner.

WM MCKINNEY, EGBERT REID,
PETER BURNS, SAMUEL PRICE,
JAMES WALBER, S. H. Price.

St. Mary's, Dec. 13, 1883.

O. Felt, General Agent Joseph Hall Manu-facturing Company, London.

DEAR SIR — The New Model Thresher DEAR SIR.—The New Model Thresher and O-hawa Engine which we bought from your agent, John Fitzsimmons, is all that you claim for it. The farmers are surprised at the way she cleans the grain. No necessity for a fanning mill when she is around. We can truly and honestly endorse the statement which other threshermen have sent you. Words fail to express our surprise at the work she does, she cannot be beat. We have used a number of machines, and consider the New Model mot be beat. We have used a number of machines, and consider the New Model ahead of them all, and would recommend intending purchasers to examine the "Model" before purchasing. Yours truly, JOHN LANE, JAMES MOORE.

It Takes Spiendidly Around Here—It Fans the Grain so tlean That it is Keatly Fit for Market." Milverton, Feb. 12th, 1883.

RESPECTED SIR,—Please allow me a little space in your valuable paper to inform my farmer friends as to a new threshing machine which I have lately purchased called the "New Model," Vibrator, made at the Hall Works in Oshawa. I have tested it this winter, and desire to say that it is Hall Works in Oshawa. I have tested it this winter and desire to say that it is, without doubt, the very best machine I have seen. It takes splendidly around here. It fans the grain so clean that it is really fit for market. I never saw anything like it. It threshes and separates beyond my expectations. The waste of grain is reduced to the lowest possible point, in fact, does not amount to anything. It is the greatest grain saver I have ever

Ops, Feb. 18th, 1883.

To the Editor of the Canadian Post: To the Editor of the Canadian Post:

SIR,—Please allow me space in your valuable paper to make the following statement which I know will be of interest to all my farmer friends who read your journal. I employed a threshing machine to thresh my grain on the 26th day of January. It was manufactured by J. Abell, of Woodbridge. On February 6th I employed Messrs. Wetherup & Curtis to finish my threshing with a "New Model" Vibrating threshing machine, manufactured by the Jos. Hall Manufacturing Co, of Oshawa.

farmers of this vicinity to a new threshing machine made by the Jos. Hall Manufacturing Co. of Oshawa, called the New

out the least hesitation, that the "New Model" Vibrator is the best thresher, separator and cleaner made in the country. The machine is well made and well finished. Thanking you for the opportunity of informing my farmer friends of the merits of this machine. I am, Sir, yours truly, WM. COXON.

"Have Been Threshing for the Past 18
Years and the 'ew Medel is the Best
One I Have Ever Seen or Sacd."

Ops, January 9th, 1833.

To the Editor of the Canadian Post:
SIB.—A short time ago I purchased a
new threshing machine called the New
Model Vibrator, made at the Jos. Hall
Works, in Oshaws, of their agent, James
Fieury. It is the only machine of the kind
in this vicinity. I bought it upon a guarantee given me by the Company that it
would give me entire ratisfaction. I have
now thoroughly tested the machine and ementirely satisfied with it as a thresher, a separator and a cleaner. It is easy on the
team, threshes rapidly, not liable to choke
in any kind of grain, separates the grain
thoroughly from the straw, and cleans it
better than any other machine I have ever
seen. I have seen all kinds of machines,
and have threshed myself for the past
eighteen years, and the "New Model" is
the best one I have ever seen or used.
Yours truly, Tromas Wetherup.

Ops, January 9th, 1883.

Ops, January 9th, 1883.

I have been so well pleased with the working of the above machine that I have purchased a share in it. W. CURTIS.

Read What One of the Most Successful Threshers East of Toronto Says Re-garding the "New Model."

Oshawa, Onf.

Dear Sir,—In reply to your enquiry as to how I like the 'New Model Vibrator," I would say—First rate. I have threshed for the past twenty years, and have had more or less to do with all the threshers manufactured in Canada, but I never met anything like your 'New Model." In the first place it is more than one team less draft—and it makes no difference how you feed, nor in what condition your grain is in, you cannot choke it—the shoe is grand for cleaning and separating. I believe it has no equal. It is all our American triends claim for it. Yours truly.

Thomas Scotz.

To the Farmers and Threshermen of Canada:

Our "New Model" Vibrating Threshing Machine has now been in use in the United States four seasons, and in Canada three seasons. As a perfect Grain Thresher, Separator and Cleaner, it stands without a rival on this continent.

No less than 1200 machine's were sold in the United States last season. We have now a very large force of man employed, and can turn out three or four threshing machines were sold in the United States last season. We have now a very large force of man employed, and can turn out three or four threshing machines we send out will give entire satisfaction or we will we invite any and all parties who may desire a threshing machine to inspect the New Model Vibrator, or send for our descriptive catalogue, which will give full information.

Ye guarantee that every machine we send out will give entire satisfaction or we will return the notes or cash which may have been given to us for the same.

BEAVER HALL HILL, Montreal. Dec. 20, 1880.

I hereby certify that I have analysed several samples of INDIA PALE ALE and XXX STOUT from t e brewery of JOHN LABATT, London, Ont. I find them to be remarkably sound Alex, brewed from pure mait and hope. Shave examined both the March and October brewings, and find them of uniform quality. They may be recommended to invalide or convalescents where mait beverages are required as a tonic. Signed JOHN BAKER EDWARIS, Phy., Professor of Chemistry and Public Analyst.

All first-class grocers keep it. Every Ale drinker should try it. JOHN LABATT, LONDON, ONT.
