## Rebekahs Elect Grand Officers

### Mrs. J. W. Peters, of Bridgetown, Holds the Position of Warden

(Special Despatch to the Monitor.)  
Sydney, August 8.—The trains arriving last night brought delegates from all points in the maritime provinces to the meeting of Odd Fellows and Rebekah Grand Lodge, which are holding their annual sessions in this city. The visitors number between five and six hundred. The Rebekah assembly convened in Oddfellows hall yesterday and elected the following grand officers:  
President—Sister Grace Hebb, Lunenburg.  
Vice-president—Sister Hattie Bayers, Halifax.  
Warden—Sister Maggie Peters, Bridgetown.  
Secretary—Sister Mary McKeen, Moncton.  
Treasurer—Sister Mary Bayne, Moncton.

## Man's Body Found In Halifax Harbor

(Special Despatch to the Monitor.)  
Halifax, August 8.—While Beasley Bros. were dredging at the south side of pier No. 3, Deep Water yesterday the dredging machine brought up the body of a man. The man about dredge had caught the man about half way up. The body is supposed to have lain in the water for sometime. Some people who saw the body were of the opinion that the deceased had been a military man, probably an officer's servant—others think he might have been an immigrant who fell from the wharf.

LATER.  
The body of the man which was discovered at Deep Water yesterday morning, has been identified as John Wagon and had been missing for several months.

The ladies of the Woman's Midgets Aid Society will hold a sale of ice cream and cake on the lawn of Mrs. Willoughby Anthony on Church street on Saturday evening.

## Jumped Into Sea From D. A. R. Stmr.

(Special Despatch to the Monitor.)  
Yarmouth, August 8.—A Boston man named Henry C. Midram, jumped overboard from the steamer Prince George at eight o'clock yesterday morning and was drowned. The ship was stopped and a boat lowered, but the unfortunate man could not be rescued. Midram was in charge of a trained nurse who left him alone for a few minutes. The body has not been recovered. The nurse positively refused to talk until he hears from Boston.

## Russian Strike Almost Fiasco

(Special Despatch to the Monitor.)  
St. Petersburg, August 8.—In the light of yesterday's developments the general strike may almost be regarded as a fiasco. The summons to go out has met with some opposition in Moscow where the printers and street car men and part of the employes of the gas and electric light plants have quit work, but these are more than offset by defections in St. Petersburg.

## Panic on New York Ferryboat

(Special Despatch to the Monitor.)  
New York, August 8.—Within two hundred feet of the spot where the General Steamship disaster occurred, the ferryboat Hackensack, of the College Point line, went ashore off the foot of east 133rd street last night causing a panic among the passengers on board. Everybody insisted on being taken off on the tug boat Wade which bears the record of saving 270 lives from the Schoon wreck. After all the passengers had been safely transferred to the shore the ferryboat was pulled into deep water and proceeded under her own steam. It was not until the accident could not be learned.

## Nova Scotia Going Backward

### This is the Opinion of a Visiting Englishman

#### PEOPLE GROWERS AWAY BEHIND Have Not Availed Themselves of Their Opportunities

(Halifax Herald.)  
Mr. and Mrs. W. N. White, who have been guests at the Halifax hotel, left Wednesday for Prince Edward Island. Mr. White is an Englishman, who was formerly largely interested in the fruit business, in England, but whose headquarters more recently have been in New York city. He has lately made a tour through Nova Scotia chiefly by way of pleasure, but he has also observed closely, and in conversation yesterday with a representative of The Herald he had some things to say, which will be read with interest.

#### SAYS NOVA SCOTIA IS GOING BACKWARD

Mr. White, it may be mentioned, has made several business trips here, the last one having been some three years ago, and he says that he has been much surprised to note that Nova Scotia, instead of progressing, is going backward.

"At years ago," said he, "the Nova Scotia apples were held to be the best which came on the English market, but for several years they have been going down, both in size and quality. This year I would not give fifty cents a barrel for the whole crop in Nova Scotia. I have driven from Digby to Grand Pre, and I have no hesitation in saying that the crop this season is the worst I have ever seen in Nova Scotia. True, some trees have a fair amount of apples, but the quality is exceedingly poor, and a number of kinds are covered with fungus, which the present rains will serve to increase. Half of the crop, at least, is not worth shipping."

#### FUNGUS AND CATERPILLERS.

Mr. White says that in addition to the fungus, the trees have been attacked by the caterpillars, which in some districts have destroyed nearly all the leaves. However, at the present time, some of the trees are making new leaves, but the fruit on those trees will be nothing more than second. That is, it will ripen at half its usual size.

"Take these facts," said Mr. White, "in connection with the large crop in the United States, and there is but one conclusion. The crop in the latter country is the largest and best in all its history. This means for Nova Scotia that only choice fruit will pay to market."

Now comes Mr. White's chief complaint, and it is that the Nova Scotia man (and woman) lacks ambition and energy.

"I have been very much surprised to learn," said he, "that there is scarcely an evaporating plant in Nova Scotia. Very little cider has ever been made, although I have heard of one English firm sending here last year, making its own cider and exporting it themselves. Had there been the same growth of apples in the United States, there would probably be two to four drying plants erected in the district, each plant with a factory each for the production of cider, vinegar and apple butter."

Mr. White states that in the United States, such a thing as windfall apples being allowed to grow rotten or being fed to pigs is absolutely unknown. In fact last year from fifty cents to sixty per 100 pounds, was paid for any windfalls, seconds or culls of any description.

#### TWO COUNTRIES CONTRASTED.

"These were made into cider and vinegar. Owing to the Pure Food Law passed in the United States, I am of opinion that the future of the vinegar business will lie in apples. I know of a certain district in the United States where apple vinegar is sold for \$9 per cask. The American Fruit Company, of Rochester, N. Y., is capitalized at \$1,000,000. They process to sterilize cider, which is sold through Nova Scotia at 25 cents a cask. Heinz, of Pittsburgh, has a factory in the state of New York, where he has tanks for apple vinegar that will hold two million gallons, with the same proportion for cider. The amount of apple butter sold by this firm—particularly in the coal regions and mining camps—is enormous.

The amount of dried apples exported from the United States to Germany, Denmark, Sweden, and even to England, must run into the thousands of carloads, and when we know that one carload of dried apples means 1000 pounds, the extent of the

export trade will be more fully appreciated.

Mr. White says that one bushel of apples weighing fifty pounds would always make seven pounds of dried apples, and that last year those seven pounds were worth ten cents a pound. This year he thinks they will be sold at from five to six cents a pound. Even the cores and skins are dried, put up in barrels, and shipped to France. The usual price for these is from 1 1/2 cents to 2 cents a pound. Such a thing as waste is absolutely unknown. Every part of the apple is utilized in some way.

"Now," said Mr. White, "compare this with Nova Scotia, where there are no factories, and tell me who are the most enterprising. Why does not Nova Scotia work on the same lines? Why does he want an Englishman to come here and tell him what to do? Where is his ambition?"

#### SOME NEGLECTED OPPORTUNITIES.

In driving about during the recent weeks, Mr. White says that he was struck with the fact that he saw very few sheep, no pigs, very few chickens, and scarcely any geese. He remembered that a driver at Annapolis had told him that some years ago a goose could be bought for fifty cents. Now it was impossible to buy one for less than \$1.25. He expressed the opinion that it would be very interesting to find out how many cases of eggs are imported into Halifax from Prince Edward Island and how many are exported.

"Why," he asked, "should the people of Halifax be dependent upon those of Prince Edward Island for a large part of their supplies? Whose fault is it? I suppose the land here belongs to those who occupy it, precisely as does that in Prince Edward Island to the people living there. The difference in soil might affect certain crops, but in the case of poultry and eggs it is, in my opinion, purely a question of the superior thrift of the island people."

Mr. White, who seems to have travelled extensively not only in the United States and Canada, but in many of the countries of Europe, says that very often the "poultry and eggs" matter fails to receive the attention which it should receive from the new proprietors that in many places are being taken over by the women of the household as their own money, and the business is taken less seriously and methodically than it would otherwise be.

#### CULTIVATION OF RASPBERRIES.

"I might," said he, "go on talking along these lines for some time with you, but I will stop here. However, I will say there is one thing by which I have been struck in going about through your beautiful province. The Nova Scotian does not open his eyes properly to what Nature is telling him every day. I have seen a great many wild raspberries and I believe that the bulk of the raspberries here are wild raspberries. Now Ontario is at present growing raspberries for the English market, where they have brought sixty pounds a ton, although the average is from 25 to 30 pounds. Sometimes, if the crop is exceptionally heavy, they sell from 16 to 20 pounds. Now one acre of cultivated raspberries, especially in this city, would yield from 4 to 3 tons. If sold at 3 cents a pound there would, allowing 1 cent a pound for labor, be a profit of over \$100 an acre.

Inquiries were made as to the whereabouts of Com. DeWitt.

#### Six Negroes Lynched

(Special Despatch to the Monitor.)  
Charleston, N. S., August 8.—A mob of three thousand determined men shortly before eleven o'clock Monday night forcibly entered Rowan county jail at Salisbury, removed therefrom six negroes charged with the murder of the Lyerly family on July 3rd, and lynched them.

#### In Great Demand

The demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy here has been so great that I have scarcely been able to keep it in stock. I have cured cases of dysentery here when all other remedies failed.—Frank Jones, Pikeville, Ind. This remedy is for sale by W. A. Warren, Phm. B.

#### The Worst of a Cold

It is how suddenly it comes. No time to bury the shingles, cough, sneeze, develop, the lungs are affected with pneumonia or tuberculosis and it's too late. Keep Catarrh Remedy in your pocket, use it immediately and you'll never catch cold—that's worth remembering.

## Hitch Over the Inspectorship

### Council At a Loss As To a Proper Appointment

#### W. J. MULHALL SUGGESTED In the Meantime Water Extension Is Being Pushed

The regular monthly meeting of the town council was held on Monday evening. At the time of opening the absentees were Coms. Freeman, DeWitt and Harlow.

The following bills were ordered to be paid:  
Pay roll, (streets) \$100.98  
William Ruffee, 1.25  
W. J. Mulhall, 33.00

In connection with the above Mr. Mulhall wrote a letter in which he said if he had rendered his bill on the night he was asked, he would have put the amount at \$50. But he had decided to place the amount at \$35 so that the town could say that Mr. DeWitt was the lowest tenderer.

The mayor reported that the work of the water extension was going on without inspection, as no inspector had, as yet, been appointed. Mr. DeWitt had spoken to him on the subject but nothing definite had been agreed on.

Com. Longmire and the mayor were of the opinion that Mr. Crow was doing the work himself and they did not think it right for the town to hire a man to inspect his own work.

Com. Freeman said he had every confidence that Mr. Crow would do a good job and that the work would not require inspection, the general opinion of the council was that the town would not be justified in doing business that way.

The mayor drew attention to the fact that the water from the small reservoir was shut off and the town was getting no water from there. The water in the big reservoir was fully ten inches below the overflow.

Com. Calkin's work now being done should not be covered up until it is inspected. He asked if there was any man in town who had practical knowledge of plumbing sufficient to be an inspector.

The mayor suggested Mr. Mulhall, but said it would be expensive to get him here.

Com. Chase said the pipe should be laid the full length before it was covered. If it should be covered the contractor should be compelled to uncover it.

The clerk said the town had no right to tie up any man, as the town was supposed to furnish an inspector.

Both Mr. Craig and Mr. Sancton were suggested.

Com. Chase said that when the box was put in he would like to see Mr. Mulhall there.

Com. Longmire said that Mr. DeWitt had remarked to him that a box of brick and concrete would be much better than hencock.

The mayor (to the reporter)—Oh, don't take all this discussion—it's not necessary.

Com. Calkin suggested to Com. Longmire that he see Mr. Craig, but Com. Longmire said he did not think it a matter for the vector committee—it was more for the council. He thought that Com. Calkin would be a good inspector.

The mayor pointed out that no councillor could go there and collect remuneration.

Inquiries were made as to the whereabouts of Com. DeWitt.

## Catarrh Cured

Catarrh is offensive—more than that it is the forerunner of worse diseases. Catarrh spreads from the nose to the throat where it sometimes prepares the sufferer for diphtheria; it spreads to the stomach and bowels where it generates the worst kind of indigestion; consumption, even, has been known to be helped along by catarrh.

If your breath is bad, you had better sweeten it up by getting catarrh out of your system. You should take something that will kill the disease germs, tone up your general health and invigorate the mucous membranes which catarrh especially attacks. Don't fuss and fail with snuffs and sprays—get right straight at the disease by using the greatest of tonics, tissue builders and blood purifiers

## THE HOUSEHOLD

### THE TUSSOCK MOTH.

What promises to be one of the most serious orchard pests that this province has ever had to contend with is just now attacking the orchards of Long Island and Grand Pre and has been seen by the writer to a less extent in many other parts of the valley, in Wolfville among other places. It is known as the "Tussock Moth" from the peculiar tufts or tussocks on the larvae or caterpillar stage in which the insect does its damage.

The caterpillars at the present time vary in size all the way from those just hatched and perhaps one-quarter of an inch long to those nearly full grown and more than an inch long. They are rather pretty creatures, or would be if one didn't know what mischief they were up to. They can be easily recognized by the two long black horns or tufts of hair at the head and one at the rear end; and by the four shorter tufts of white hair along the back. These are fat topped and look about like four sections taken from a scrubbing brush. The rest of the color varies considerably but in the most common form the predominant color is black with white stripes and other markings of yellow, and with the head and two spots at the rear end of the back of sealing wax red.

They feed on the leaves to a considerable extent but their most serious damage is done upon the young apples which they attack in preference to any other part and cut over the surface, sometimes eating off practically all of the skin.

Just now the only remedy that seems to offer hope is to spray the affected trees thoroughly with Paris green, using a pound to a cask with plenty of lime to prevent burning. I think it should be inclined to spray again. Of course the best remedy is going to be to get enough Paris green on the surface of the apples to destroy the worms and that is where one advantage of the Bordeaux will come in.

The insects pupate on the leaf and the female galls insect, when she emerges, is wingless like the female of the earlier worm. But she remains on the leaf and the eggs are deposited there in a loose sheet covered with a frothy, white substance. Here the eggs remain until next season, about July 1st, when they hatch. These eggs, which are quite conspicuous in the winter and may easily be gathered and destroyed. And this was done last year by several orchard owners about Grand Pre, whose orchards, as a result, are fairly free from this pest.

Spraying and collecting the eggs are therefore, at least with our present knowledge, the most logical methods of combating this insect, and I would urge all orchard owners to examine their apple trees carefully and see if the young apples are being eaten and if so spray at once with Paris green at the rate of one pound per cask. Of course the best remedy is going to be to get enough Paris green on the surface of the apples to destroy the worms and that is where one advantage of the Bordeaux will come in.

### DELICIOUS SUMMER REFRESHMENTS IN CURA.

A drink called "matrimony" is one of the many surprises a visitor to Cuba encounters when he enters a refreshment parlor, says a writer in "Leslie's Weekly." He be bachelor or bachelorette, he loses no time in ordering, and this is what he gets: A glass one-third filled with chopped ice, with a sprig of crushed mint and some sugar, over which is poured an equal mixture of the pure juice of fresh pineapples and the juice of oranges, with just a dash of lemon, and all topped with little squares of vanilla custard or thick jelly, which, by being mingled for the purpose, are hollow and float like cherries. "Matrimony" is rather expensive, costing almost double the price of other refreshing drinks, but a customer is generally willing to risk ten or fifteen cents more on a beverage with such an alluring name. The Cubans have also what they call an "America"—chopped ice, juice of two lemons, sugar to taste, half a glass of pineapple juice, and filled up with ginger ale. How these very excellent mixtures received their odd names dates back to the Spanish American war and the American occupation of Havana.

Cafes are found everywhere in Havana as they are in Paris, and while the tables are not on the sidewalk, as in the latter place, the cafes all open to the street, the sides of the buildings literally rolling up like curtains or falling like screens. In these refreshment places are piled high with fresh fruit of every description and also green coconuts. Many drinks are made with native fruits like the guambana or sour soap, and the anona, or acet, and the sorotesa or star apples. These fruits are also made into ice-creams, which are very good and quite unlike anything in the ice variety in America. Lemonade in Cuba is invariably flavored with cinnamon, and the addition is a pleasing one to the average taste. Tannin paste

### HOUSEHOLD HINTS.

Housewives often experience great difficulty in removing stoppers or lids that have become fixed. Tightened fruit tin lids, crust stoppers, and mineral water screw tops are sometimes almost immovable. An easy plan to remove them is to take a piece of common sandpaper, and cover the lid or stopper. Turn sharply and the top will at once become loosened.

Chairs and sofas upholstered with leather will last much longer and look much better, if the leather is regularly revived with the following mixture, which cleans the leather, and at the same time softens it, and prevents its cracking. Take one part of best kerosene, and two parts of boiled lipped oil and shake well together. Apply a very little of this on a soft rag, and afterwards polish with a silk duster, or an old chamois leather.

The daily turning over is not the only necessary attention for the proper treatment of a mattress. This operation itself is liable to strain the looking, and pull the stuffing out of shape in course of time. To avoid this handles may be seen to the sides, so that the unyielding surface of the mattress itself need not be grasped. These can be made from wadding or a cross piece of ticking, and sewn as firmly as possible to the sides.

When washing fine china dishes, do not place them one upon another after wiping them. Place plates and saucers together while they are warm is apt to crack the glass. Therefore, spread them out to cool off before putting them in the closet. If you have some care to wash out glass thoroughly. Apply the water with a soft towel. Particular housewives use soft brush and wipe the glass with a fine dust from a non-resinous wood, such as box or bass wood, in the drying process. It breaks over all the corners and crevices that cannot be reached with a towel. After wiping it, place the glass in a bed of the sawdust and show it to remain about half an hour. Spread the sawdust out to dry after using it. If this is done it can be used any number of times. After taking the glassware from the sawdust, wash it off with a soft brush and polish with a cloth.

Few things clog a waste pipe so readily as lint. Old scrub cloths and wash cloths are apt to shed lint and spread. These going down the waste pipe will clog it up. Before using a cloth or towel, wring it out and twist around the joints. They attach to themselves all small particles that but for them would pass through to the sewer, thus in time clogging up the pipe. Well worn, hairy scrubbing cloths should not be used in a house where there is plumbing. Dish cloths, also, as soon as they become linty, should be destroyed. Washcloths are apt to become either wholly or partially stopped up where there is such lint from the articles washed in them. Because the waste pipe of the sink is large, ten leaves and coffee grounds are often disposed of by emptying them down it. In a household where the sink became stopped recently the plumbers, when they took the pipes to pieces, found the trouble due entirely to the gradual accumulation of coffee and tea grounds. Before the repairs were completed the plumber's bill amounted to a considerable sum.

Grass from dishwasher is also apt to accumulate in time and harden in the pipes. After pouring greasy water or anything that has greasy particles in it down the sink pour boiling water and epsom salt after it. Cold water carelessly thrown down helps to harden the grease that has gone before it.

### SELECTED RECIPES.

Cold almond blanc mange is a nice dessert for warm weather. Make a paste of four tablespoonfuls of corn starch, wet with a little cold water. Stir this into a quart of milk, with four tablespoonfuls of sugar, and boil until thick. Flavor with a drop or two of almond extract, and stir in one cupful of chopped blanched almonds. Pour into a mould, and put on the ice until very cold. Serve with whipped cream.

### LEMON MARMALADE.

Take any number of lemons—six make a nice quantity—slice them very thin, only putting out the seeds. To each pound of sliced fruit add three pints of cold water, let this stand for twenty-four hours. Then boil it until the clips are tender, pour into an earthenware bowl, and allow it to remain till the next day. Then weigh it, and to every pound of boiled pulp add one pound and a half of lump sugar. Boil the whole together until the syrup jellies, and the clips are transparent. In taking out the pipes be careful to leave all the white pith in, as that gives taste and making syrup.

### Make Hay While the Sun Shines

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. ## A FREE TRIP

either to DOMINION EXHIBITION, HALIFAX, N. S. or INTERNATIONAL EXHIBITION, ST. JOHN, N. B.

THE MANAGEMENT OF THE WEEKLY MONITOR has decided to offer a free trip to the Dominion Exhibition to be held in Halifax from September 22nd to October 5th, or to the International Exhibition at St. John, N. B. from Sept. 1 to 8. At Halifax stay limited to one week. By a free trip we mean that we will pay all expenses—board, lodging, entrance fees, railway fares, etc., from the time you leave home until you return, to the person who secures us the largest number of cash in advance subscribers at \$1.00 each from now until the 18th of September. Besides this free offer we will allow a liberal commission on all new subscribers sent us.

This offer will be confined solely to those who work on a commission basis. Every subscriber should try for this free offer. If you fail you will lose nothing as we will give you commission anyway. The commission alone will pay you for any work you do for us. The free trip is entirely free and at our expense; you cannot lose anything by trying for it. Write us for particulars as to commission, etc.

## THE WEEKLY MONITOR, BRIDGETOWN, N. S.

Do You Want To Go?

**YOUNG'S COVE.**  
 Misses Hattie and Josie Willett, of Belleisle, have been the guests of Mrs. George Milberry during the past week.  
 A large number attended the funeral of the late Mrs. Alfred Milberry. The services were conducted by Rev. J. E. Hart, assisted by Pastor Blackadar.  
 Mr. and Mrs. Charles Sabean, of West Paradise, spent Sunday at the home of their daughter, Mrs. Minard White.  
 Howard Bent and Henry Young accompanied by Joseph White of Phinney Cove have gone to Lubec for the summer.  
 Miss Lucy Young and Miss Lee Covert, are visiting friends in this place.  
 Our monthly service was held in St. Peter's by the Sea church, on Sunday last. The ordinance of baptism was performed, and an interesting address was listened to by a large congregation.

**MINARD'S LINIMENT CURES COLDS, ETC.**  
**BELLEISLE.**  
 Ernest A. Ray, of the M.S.F.M., Waverly, Mass., and wife are spending his vacation with his parents here.  
 Mr. and Mrs. Samuel C. Churchill and little son Gordon, of Marlboro, Mass., are guests of Israel F. Long here.  
 Mr. and Mrs. Maynard Oakes, of New Albany, are with Mr. and Mrs. Henry Bruce.  
 Miss Ida Harris, of Somerville, Mass., was the guest last week of her cousin, Miss Mary Harris.  
 George A. Goodwin, secretary of the Y. M. C. A., Pottsville, Pa., and wife, are visiting his mother, Mrs. Isaac Goodwin.  
 Mrs. (Rev.) William Wallace and little sons Gordon and DeMill, accompanied by her mother, Mrs. Jos. Hall, of Utica, N. Y., and Mrs. Samuel Reed, of Boston, are guests of Counsellor and Mrs. Abner P. Neily.  
 Miss Olga G. Wade, is spending a few days with her relatives at Young's Cove.  
 Mrs. Fred E. Chipman, of Nictaux spent a few days last week with her parents, Mr. and Mrs. Almon W. Parker, Wallace Covert, of Lower Granville was also a guest of Mr. and Mrs. Parker last Sunday.  
 Miss Jessie Messenger, of Bridgetown, is the guest of her cousin Miss Avis Gesner.  
 Harold Hutchinson, of Somerville, Mass., and bride are spending their honeymoon at their old home here.  
 Harry L. Bastin, principal of Bridgetown High School, is spending some of his holidays reducing his avoirdupois in the hay fields at his old home here.  
 Miss Cassie Wade spent a few days last week with her brother H. H. Wade at Bridgetown.

**MINARD'S LINIMENT CURES GARGET IN COWS.**  
**GRANVILLE CENTRE.**  
 Services for Sunday August 12th will be in the Episcopal church at 7:30 p. m. In the Baptist at 11 a. m. The W. M. A. S. for the month of August will be held in the vestry Thursday afternoon August 9th at 8 o'clock.  
 Miss Edna Wade, of Granville Ferry spent last week with Mrs. J. C. Withers.

**DEAFNESS CANNOT BE CURED**  
 by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.  
 We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

MINARD'S LINIMENT CO., LIMITED

Gentlemen, - In June, '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

called to Mahone Bay on Friday last, owing to the serious illness of Mrs. Chas. Lobes, of that place.

Work will be begun this week on the new road leading to Hastings.

Lee Bent, Horace Stoddart and Edgar Mason, leave this week for the West. We wish the boys success.

SOUTH WILLIAMSTON.

Conn. T. G. Bishop and wife returned from their trip to Springfield on Wednesday last. They speak in highest terms of the hospitality of the people in that place. In company with the other councillors, also S. W. W. Pickup, M. P., O. T. Danby, M. P., P. O. S. Miller, County Clerk, J. R. Hart, County Treasurer, and several other friends visited the works of the Davison Lumber Co. and went over some twenty miles of their line of railway; visited the several lumber camps and went through their great mill at Hastings. The managers of the company showed the party every courtesy and did everything in their power to make the visit a pleasant one, which was heartily enjoyed by all.

We understand several of our young men are going to the great Northwest on their harvest excursion. We wish them a pleasant trip and a safe return.

A few from here attended camp meeting at Berwick last week.

The cheese factory here is turning out quite a large quantity of cheese. F. R. Butcher & Co., of Skilton, have purchased the whole output for the season.

Miss Blanche Bishop returned from her visit to Bear River on Saturday last accompanied by her cousins Winnie and Harry Chute.

The monthly missionary meeting was held in the hall here on Sunday evening.

Several from this place went to Bridgetown on Sunday evening to listen to the Rev. A. N. Marshall, who preached in the Baptist church to a large congregation.

PORT LOBNE.

Miss Cassie Whitman has been spending a few days with her sister, Mrs. L. B. Banks.

Miss L. C. Elliott, of Brickton, has been visiting at Edwin Banks'.

Miss Myra Stoddart, of Lawrencetown, is a guest at Carnan Stoddart's.

We are glad to report that Chester Banks is slowly improving.

DIAMONDS

For Every Home

Diamonds for every Canadian home are not the gems which the wealthy alone can purchase; they are those invaluable gems known as DIAMOND DYES which have been for twenty-five years true money savers for the women of Canada.

DIAMOND DYES, wherever used, have proved their superiority over all other package dyes in richness, brilliancy and durability of color.

Certain speculators, jealous of the popularity of DIAMOND DYES, are putting up adulterated and crude dyes to imitate the DIAMOND DYES. These common and cheaply prepared dyes produce blotchy and muddy colors and ruin good materials.

When you have dresses, skirts, blouses, jackets, capes, stockings and all articles of wearing apparel to recolor, use the DIAMOND DYES only, and you will have results which will fill your heart with joy. DIAMOND DYES make old things look like new.

Always ask your dealer for the DIAMOND DYES and refuse any other make that may be offered to you. The common dyes are sold by merchants simply for the sake of big profits. New Diamond Dye Direction Book sent free to any lady who sends her name to Wells & Richardson Co., Montreal, 300 Mountain street, Montreal.

Magnet Cream Separators

Are noted for their ease in operation. For perfect skimming. Easy cleaning only one piece bowl to clean; they do not clog up as other inferior machines do.

They have a square gearing. The bowl is supported at top and bottom. Don't buy a cheap Separator that will soon give out. Satisfied - that word means a lot but it expresses no more than is felt by every user of the famous Magnet Separator.

Write or telephone me for catalogue and prices.

The Vaudeville Programme For the Dominion Exhibition

Splendid Attractions Have Been Secured - Great Improvements Being Effected on the Grounds and Buildings

Manager Hall is back from New York having arranged for a splendid list of attractions for the grand stand performance at the Dominion Exhibition which is not more than six or seven weeks distant. The Exhibition's Vaudeville programme will be a novel, interesting and exciting, suited to hold the excited attention of the 8,000 spectators whom the enlarged grandstand will accommodate. The night performance will include with the pyrotechnic spectacle "The Carnival of Venice."

The great drawing card in the afternoon for grand stand patrons will be the horse races. At this race meeting the finest field of horses ever brought together in Eastern Canada will compete for valuable purses on nine days and probably also on a tenth day. The entries for the races close with Manager Hall on September 10th.

The exhibition grounds are being so changed and improved for the Dominion Exhibition that those who have been coming to the provincial fairs will hardly know them when they visit Halifax between September 22nd and October 5th. The addition of the splendid Fisheries Building, which has just been completed, and the erection of the Administration Building, which has started, constitute the chief features in the improvements. The new buildings this year and those erected last season are a splendid array of departmental structures. Machinery has been largely filled in, graded, sown with grass seed and unsightly buildings upon it removed. Within the area will be found ample and convenient accommodation for horses and cattle, judging rings, a vaudeville stage with dressing rooms beneath, and an arena for the use of owners of horses competing in the big race meeting.

The forthcoming Dominion Exhibition will mark the end of the first decade of the use of these grounds as a means of demonstrating the advancement made in the resources and industry of this part of the Dominion, and this autumn it will be found that the change and improvement effected is little less than wonderful.

Don't growl about the weather. You can't alter it one mite. For the power that doth decree it. Knows what is best and right. Do not be discontented. Take everything with ease, and do not swine murmur. About the flies and fleas.

When the blood, becoming heated, And the muscles seem to clog, You are irritated. By the ocean's cooling fog. So do not frown upon it. For that would be unwise. 'Tis your Creator's blessing. That comes in a disguise.

But still be up and doing. Don't over the weather moan. As though the word necessity To you was quite unknown. 'Tis still be up and working. Thin out the weeds, and vines. Have the implements all ready. To make hay while the sun-shines.

God's ways they are mysterious - 'Tis into our finite sense. But for every seeming evil, There is a recompense. That brings with it a blessing. Although not understood. For all of our Creator's ways Eventuates in good.

If someone offers you a carriage less than you can buy one of ours - consider the "why."

There are no large selling costs or freights added to ours - it's all value.

The other fellow's price should at least be as much to give you the same quality - He doesn't do it, but relies on the price to catch you.

## THURSDAY, AUG. 9th

at 9 a. m.

**The Toronto Salvage Company**  
Monarchs of the World's Greatest Bargain Givers have  
alighted in Bridgetown

\$15,000 worth of the  
World's best Clothing  
Gent's Furnishings,  
Jewelry and China  
ware, to be distribut-  
ed to the homes of the  
people for less than  
the actual cost of the  
raw material.....

The most Gigantic Slaughter Sale ever attempted in Nova Scotia, positively commences  
Thursday, August 9th, at 9 a. m. The combined stocks of Harry R. Moody and Charles F.  
Dyke, Bridgetown's Greatest Merchants, consisting of \$15,000.00 worth of Clothing, Gents'  
Furnishing and Jewelry of every description, now in the hands of the Toronto Salvage Co.,  
to be thrown on the market at the mercy of the public

### at 39 per cent BELOW the cost of production

#### THE STORY AND WHO WE ARE:

The Toronto Salvage Co. are the largest Merchandise Brokers in Canada. We handle  
estates, property and merchandise of various descriptions, and turn same into cash in a given  
time. When an enormous stock of modern merchandise is placed in our hands to realize  
money on, we don't hesitate, but simply plunge in our big knife and cut both ways.

Harry R. Moody and Chas. F. Dyke have only been in business in Bridge-  
town for about one year and hold an enviable reputation in this part of the  
country, for their straight forwardness in business and fair dealing with the  
trade, always giving their customers the very best merchandise money could buy.  
Right in the heart of the season they find themselves with an enormous  
stock on hand. Their outstanding merchandise accounts now stare them in the  
face. These sacred obligations must and will be met in nine days, regardless of

the terrible loss for that purpose. Their stock has been placed in the hands of  
the Toronto Salvage Co., known from ocean to ocean as the mightiest slaughterers  
of modern merchandise, the world's greatest century has ever known.

We must raise \$5,649.00 on these two magnificent stocks in nine days, and  
if it takes every dollar's worth of goods contained in these two stores to accom-  
plish this, all will go.

Herald the good news: it's wonderful! This is a premier effort in value-giving without a counterpart — a  
bargain event that will surpass anything ever attempted in Nova Scotia. Characterized by thousands of surprises.  
A supreme master movement in under-priced merchandise. Dwarving all similar events. Relishing all other sales.  
An original direct appeal to the economical instincts of thinking people, to whom the saving of a dollar is equivalent  
to a dollar earned. Bear in mind this IS NOT BANKRUPT'S STOCK of Cheap, Shoddy Plunder, but cleanest  
and best selected stock of Up-to-Date Wearing Apparel, for all mankind to be found in this part of the country.

Never again in all your lives will you have such a golden opportunity to dress in such rich raiment and to  
purchase such elegant Jewellery, at so trifling a cost.  
We have tumbled the high prices from their pedestal, and for nine days will treat the people to an unequalled  
feast of underselling that will amaze Bridgetown. Below we quote a few of the big values that meet the demands  
of the present day in an emergency like this, and every price and statement made in this document is guaranteed to  
be the gospel truth. Can you, dare you, stay away from the 20th Century's Most Stupendous and Remarkable Sale?

LOCAL AND SPECIAL

During the week the trains have been loaded with Berwick Camp visitors.
F. W. Clark has purchased the late F. B. Wade property at Bridge water, for \$5,500.
N. R. Neely, of the St. James Hotel last week purchased one of the finest saddle horses to be found in Eastern Canada.
The steamer George L., arrived from Digby yesterday with a large party of excursionists who spent about an hour here.
It is expected that about 2000 medical men will meet in Toronto on August 21. Six hundred are coming from the British Isles.
Chester Wade has resigned the position of baggage master at Bridgetown and gone west. His place has been taken by Owen Craig.
Frank Bath, of Upper Granville, recently purchased a very fine Fanfair colt from Israel Parker, of Bellisle, for the handsome sum of \$175.
William Charlton, of Middleton, got a broken nose from a game of baseball on Friday, and was compelled to go to Halifax for an operation.
The water in the reservoir is running low and the committee requests that great care be taken of it for the next week or two. Power users will probably be shut off this week.
The delegates from Crescent Lodge, I. O. O. F., attending Grand Lodge, now in session at Sydney, are Loring Hall, J. W. Peters and C. L. Piggott. Mr. Peter's and Mr. Piggott's wives accompanied them.
At a special meeting of the Annapolis Municipal Council held at Springfield on Tuesday last a petition for a new road from the brickyard toward the railway station was refused.
Herbert Weir, aged 13 years and son of Wm. Weir, of Annapolis Royal while in bathing with a number of other lads on Friday evening last, got beyond his depth and was drowned. The body was recovered.
On Saturday mornings at 4 a. m. we hear the wheels of an outgunning "bug" with a weekly package of fresh butter for the Halifax man. At the end of a month a nice check is received. Why not more of this trade?
As there are a good many visitors here this summer who were former residents, would they not like to subscribe for the Monitor, and have it sent to them regularly? We shall be pleased to have you call and let us put down your name and address.
Yesterday was the first day of the harvest excursions and in consequence all the trains yesterday were late. Ten left Bridgetown and vicinity as follows: F. W. McAndrews, E. A. Wade, Owen Curran, H. Everett, Her man Banks, Frank S. Brett, Charles Jackson, Percy Sheehan, J. E. Edwards, T. B. Akin.
A number of new signs have recently been erected in town, all the handwork of Percy Burns. Among the lucky owners are Mrs. McCormick, (the book store), W. E. Reed, (the grocery store), and the Monitor. They are all splendid specimens of the sign-makers' art and reflect great credit on the artist.
DEED
WILKINS-At Port Lorne, August 3rd, Edward Wilkins, aged 33 years.
JEFFERSON-At Annapolis, on Friday, July 17th, of hemorrhage of the lungs, Mrs. W. E. Jefferson, aged 61 years. (Mrs. J. was a sister of Mrs. W. D. Byrson, of Beaver River.)

D & A Corsets

From a durability and perfect fitting point of view, a D & A Model is an ideal garment.
It will content you in every point, that makes corset comfort--the comfort of perfect style, of shapely fit of graceful design, of ease for the woman who wears it. Modish to a degree, every corset that bears the D & A mark--well made--whatever their price--every one; but above all--easy--comfort, and comfort--and/again comfort--that is the D & A supreme merit.

OBITUARY.

MRS. CHRISTIANNA J. LONG.
(From a Woburn Exchange).
In the death of Christianna J. Long which occurred on July 19th at 1.15 p. m. at the residence of her sister Mrs. Dargie, 491 Main street, ends the life of one who has been a great sufferer, having been confined to her bed since February and having been sitting for the past twelve years, but in all of her suffering she had shown a true Christian spirit, placing her trust in the Lord, and making no complaint. The deceased was the widow of James E. Long, to whom she was married in 1885.
She was a member of the M. E. Church and the Hope Lodge of Bethel, 39 of Woburn.
Deceased is survived by father, three brothers, James, William and Melvin Anderson, and four sisters, Mrs. James Graham, Mrs. Ellen Dargie, Mrs. Charles H. Stevens and Miss Margaret Anderson.
Mrs. Long was born at Delboushe, Nova Scotia, September 25th, 1860, and came to Woburn in 1883, where she has made many friends, and where she will be mourned by all who knew her. The funeral was held at the M. E. church Saturday, July 21, at 2.30 p. m.
MRS. MARY A. BENT.
Mrs. Mary A., wife of Rev. Gilbert R. Bent, died at her home, 9 Dearborn street, Salem, June 26th after a long illness. She was born in Salem and was educated in the public schools. She was the daughter of the late Samuel A. and Sarah W. (Dawson)

PERSONAL MENTION

Mr. and Mrs. Arthur Marshall, of Charlton, entertained a number of their friends last Friday evening. Tea was served on the lawn, after which the guests enjoyed themselves with various games and amusement. A number of selections on the gramophone by Mr. Hiltz were much enjoyed. Light refreshments, consisting of ice cream and cake were served and the company dispersed having spent a very pleasant evening.
J. C. Jordan, the millionaire Bostonian, has given a contract to Walter Lutz for the erection of one of the finest barns in the province, on his property at River Glade, on the I. C. R. The building will be 120 feet long by 25 feet deep. It will have every modern convenience and will be finished sumptuously throughout. The work on the interior will be more in keeping with the detail of a residence than a barn. It is understood that Mr. Jordan contemplates coming into pure bred cattle raising and will provide his herd with an ideal home. The structure will be completed at an early date--Sussex Record.
