Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de l'image sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Department of Rare Books
and Special Collections,
McGill University, Montreal.

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Department of Rare Books
and Special Collections,
McGill University, Montreal.

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PETITION

Of the Canadian Institute of Toronto.

TORONTO:
PRINTED BY JOHN LOVELL,
70 QUE STREET.

PETITION.

To the Honorable the Legislative Assembly of the Province of Canada in Provincial
Parliament assembled;

THE MEMORIAL OF "THE CANADIAN INSTITUTE"

RESPECTFULLY SHEWETH,

That the Legislature of this Province did some years ago determine on carrying into effect a Geological Survey of the Country, and nominated Mr. (now Sir William) Logan, as the Director of this undertaking. For proof of the wise and well-judged foresight, which, in the opinion of Your Memorialists, characterized this determination and selection, Your Memorialists would beg to refer to the Report of the Select Committee appointed by Your Honorable House during last Session, "to report upon the best means of making public the valuable information already obtained by the Geological Survey, and completing it at an early period upon a uniform system."

Your Memorialists being a Society established by Royal Charter, for the promotion of Science, Literature, and the Practical Arts affecting the social advancement of this Province, feel it their duty to record their sense of the importance of this Survey, and their high appreciation of the services of Sir William Logan, in its conduct, and to urge the necessity of placing additional means at his command, in furtherance of those labors which are even now beginning to bear fruit; inasmuch as the Survey is well known to have already contributed very valuable scientific and practical results, and through the zeal and energy of its Director in London, and more recently in Paris, has been the means of publishing to other nations the material wealth and the present and prospective importance of this country.

Therefore, considering that the Geological Survey of Canada is universally recognised to be of the highest scientific importance, and calculated, perhaps, more than any other public service to develop the vast, though hidden resources of the Province, and that the most valuable and beneficial results may be confidently expected from its further prosecution under so able and zealous a Director as Sir William Logan, Your Memorialists most respectfully pray Your Honorable House to take the matter under your consideration, with a view to make further provision for carrying on the Survey on a more extended scale, so as to ensure its completion in every detail at the earliest possible period:

And Your Memorialists, as in duty bound will ever pray, &c., &c.

(Signed)

GEORGE WILLIAM ALLAN, *President.*

E. A. MEREDITH, *Vice-President.*

JAMES BOVELL, M. D., *Vice-President.*

Pres. of the Inst. of Canada 1851
