CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co's
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the timber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of
February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 1200 square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built sildes and dams; and at Beauclaire station Can Pac Ry, a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

Ottawa, 4th Dec., 1901.

W. MACKAY.

CURRENT TRADE CONDITIONS.

ONTARIO.

The business in pine lumber during the month of November reached the expectations of the trade, and December starts in with a firm market and favorable conditions generally. The volume of buying is not likely to be large, although if the weather should continue open, there will be a good demand for building lumber. The value of permits for buildings issued by the City Commissioner of Toronto in November exceeded \$400,000. This figure has not been reached in a corresponding month since 1892, when a vast amount of speculative building was done. As the buildings are mostly only commenced, they will call for a good deal of lumber before they are finally completed. The large volume of permits

augurs well for the building season of 1902, and it is expected that much activity will be witnessed next spring. Reference is seldom heard to the question of lower prices for pine lumber. Present prices seem to have been established as the basis for the winter, but it is not unlikely that an advance in some grades will be brought about before the spring. It has transpired that some of the Ottawa manufacturers have disposed of their production of 1902. Watson & Todd are said to have purchased the entire cut of the Hull Lumber Company, Cox, Long & Company, the cut of McLaren & Company; and W. & J. Sharples, the cut of the Hawkesbury Lumber Company. Prices have not been made known, but from what can be learned, they differ but little from those paid one year ago for the same stock. As previously pointed out, prices of lath and shingles are strengthening and a sharp advance may be looked for at any moment on account of the short supply. Hardwood conditions are unchanged, manufacturers continuing to show a firm attitude.

QUEBEC AND NEW BRUNSWICK.

Manufacturers of spruce deals are feeling quite encouraged at the hopeful reports which come from Great Britain, where there is evidently a full recognition of the probability of a short supply for next season. Shippers are showing a disposition to contract for mill cuts, and to pay the price asked by the manufacturer. The opinion prevails that with the demand from the United States, South America, the West Indies and Great Britain, a market is certain to be found for all the spruce lumber that will be manufactured next year. The timber market is quiet. Cedar shingles are in good demand and have sold as high as \$3.25 for extras, Boston delivery. The large manufacturers apparently control the market and are taking advantage of the conditions that exist to obtain higher prices. Lath is also higher, 1 1/2 inch bringing \$3.20 to \$3.30, and 1 1/4 inch \$3 to \$3.10.

MANITOBA AND BRITISH COLUMBIA.

Until within the last few days mild weather has prevailed throughout Manitoba and the Territories, and outdoor operations have been carried on without interruption. Lumber for finishing purposes has been in good request, and the market is firm. The building permits issued in Winnipeg this season were 628

in number, representing an aggregate value of \$1,616,550, which is about \$300,000 in excess of last year. The opinion is quite general that considerable building will be done next year in Winnipeg and throughout the North-West. The shingle industry of British Columbia is suffering from an over-production. It is announced that the combination formed to handle the product of several large mills through one selling agency has been discontinued, owing to a number of small concerns that were not in the combine cutting prices and demoralizing the market. It is hoped that some permanent arrangement will eventually be made to limit the shingle production of British Columbia and maintain prices at a point where they would represent a fair margin of profit.

UNITED STATES.

The lumber market of the United States continues to exhibit satisfactory conditions. The disposition to reduce stocks before taking the annual inventory is lessening the demand in some quarters, but the movement of stock during November was in excess of the corresponding month last year. It is thought that the price list on pine will be advanced by the Lake Superior manufacturers within the next two weeks, as sales are now being made above the list price, and an advance is even being obtained for some of the lower grades. The seller is able to realize almost any reasonable price for the upper grades. At Buffalo and Tonawanda the tendency is towards higher prices, and much more business would be done but for the scarcity of cars. In the Saginaw market no quotations are made on log run below \$18. Mill culls are selling at \$12 and box at \$14 to \$16. Hemlock and spruce are both improving in price. Michigan hemlock has been advanced 50 cents at the head of the lakes. The movement of hardwood is not large, inquiries being chiefly for small lots. Quarter-sawed stuff is dull of sale. Elm, basswood, birch and maple are meeting with about an equal call, but in some markets thick maple seems to be sluggish. The firmness of lath and shingles has been maintained, the volume of recent purchases tending to show that buyers recognize the necessity of arranging for their requirements as soon as possible.

GREAT BRITAIN.

We do not think that the agents of Canadian shippers have as yet closed any important contracts for next year's ship-

ment, for two reasons, first, that there is uncertainty as to what prices should be asked, and second, that importers are still holding quite heavy stocks and are not anxious to enter into new obligations until these have been reduced. There is an almost certainty, however, that purchases will be made in the near future, and that the figures of the transactions will be favorable to shippers. The tone of the British market has greatly improved, spruce deals generally and pine deals in the standard sizes showing a strong upward tendency. Broad dimension pine deals are much asked for at Glasgow and Hartlepool and several sales are reported at satisfactory prices. At West Liverpool second quality pine is exceedingly scarce. A report from Liverpool states that within a short time spruce prices have gone up from £1 to £1 10s. per standard, with every indication of a further advance. The statement has gained some publicity in England that a St. John shipper has "cornered" all the available spruce in the Bay of Fundy district. The report appears to have induced buyers to look around for spruce. A lot of Quebec spruce stored at Belfast by shippers is being held at a stiff advance on prices recently asked. In some of the markets there is a scarcity of waney board pine, and consumers have in some instances substituted square timber, with the result that the latter wood is showing more strength.

STOCKS AND PRICES.

The Harbor Commissioners of Montreal are asking for tenders up to December 17th for supply of timber and planks.

The ship Prince Arthur, which sailed from the Hastings mill, Vancouver, on May 11th, for Cork, Ireland, has not yet reached its destination, although she is now overdue.

The New Brunswick Government will offer for sale on December 11th four timber berths of two square miles each, located in Cumberland district, Carlow Settlement, Gloucester county, to T. B. Winslow, at \$65 per mile; four miles, North Forks, Canaan river, to E. B. Winslow, at \$53 per mile.

At an auction sale held by Foy, Morgan & Company, London, England, on November 20th, a quantity of deals ex. Scottish King, from Quebec, sold at the following prices: 10-30 ft. 4 x 11 in. first quality, red, £14 5s per std; 9-32 ft. 4 x 11, £13; 9-26 ft. 4 x 9, £12 15s; 10-24 ft. 4 x 8, £10 15s; 10-24 ft. 4 x 4-7, £10; 10-18 ft. 3 x 11; £16; 10-18 ft. 3 x 9, £13 15s; 10-18 ft. 3 x 8, £9 15s; 10-18 ft. 3 x 6, £8; 12-31 ft. 4 x 11 in. unassorted, red, £9; 6-25 ft. 4 x 11, £9 5s; 14-30 ft. 4 x 9, £9 10s; 6-26 ft. 4 x 9, £9 15s; 9-26 ft. 4 x 8, £8 15s; 10-26 ft. 4 x 7, £8 10s; 10-26 ft. 4 x 6, £8 5s; 10-24 ft. 4 x 5, £7 10s; 10-18 ft. 4 x 4, £7 15s; 8-24 ft. 3 x 11, £9 10s; 9-30 ft. 3 x 9, £10 5s; 9-24 ft. 3 x 8, £7 15s; 10-18 ft. 3 x 7, £7 10s; 10-18 ft. 3 x 6, £7 5s; 10-18 ft. 3 x 5, £7 10s; 12-18 ft. 3 x 6-11 in. discolored, £6. Spruce deals, ex. Ashmore, from Quebec, brought from £6 10s to £7 5s for third, fourth and fifth quality Oak timber, from Quebec, sold at 77s 6d to 85s per load of cub. feet.

Concerning the demand for hardwoods at Chicago the American Lumberman says: "The hardwood market presents

In the Chicago market No. 1 fencing sells at \$22, No. 2 at \$18 to \$18.50, and No. 3 at \$15.50 to \$16. There is a scarcity there of long and wide piece stuff and 12 inch No. 1 and 2 stock boards. Hemlock is quoted at \$9.50.

On November 26th three cargoes of lumber arrived at Saginaw, Mich., from Blind River, Ont., consigned to Bliss & Van-Auken, and three cargoes from Midland, Ont., consigned to Mershon, Schuette, Parker & Company.

There is an indication of still higher prices for hemlock. For some time 12-inch boards have commanded a premium of 50 cents at Buffalo over the regular \$13 base price, but it is now said that this price will be made one dollar extra, as boards continue to be scarce.

The lumber dealers at Toledo, Ohio, have put in force a new price list in which several commodities are advanced, as follows: Wide pine common, 13-inches and up, \$55; wide No. 1 shelving, 13-inches and up, \$48; 1 x 6 shelving, or C strips, \$35; 1 x 4 No. 1 shelving, \$32; 6-4 and 8-4 No. 2 shops, \$35; No. 3, \$25.

The contract for the supply of cedar scantlings to the city of Toronto for the year 1902 has been awarded to Reid & Company, at \$14.24 per thousand feet. The same firm will supply hemlock timbers at the following prices: 12 and 16 feet lengths, \$12.96; 20 feet, \$15.96; 24 feet, \$17.96. Arthur Bryce secured the contract for pine lumber at \$16 for 12 and 15 feet lengths, \$17 for 20 feet, and \$20 for 24 feet.

Timber berths were sold last week at the Crown Lands office, Fredericton, N. B., as follows: Four miles, Bonny River, Charlotte county, to John E. Moore, at \$8.25 per mile; two miles, Robertville Settlement, Gloucester county, to T. B. Winslow, at \$65 per mile; four miles, North Forks, Canaan river, to E. B. Winslow, at \$53 per mile.

At an auction sale held by Foy, Morgan & Company, London, England, on November 20th, a quantity of deals ex. Scottish King, from Quebec, sold at the following prices: 10-30 ft. 4 x 11 in. first quality, red, £14 5s per std; 9-32 ft. 4 x 11, £13; 9-26 ft. 4 x 9, £12 15s; 10-24 ft. 4 x 8, £10 15s; 10-24 ft. 4 x 4-7, £10; 10-18 ft. 3 x 11; £16; 10-18 ft. 3 x 9, £13 15s; 10-18 ft. 3 x 8, £9 15s; 10-18 ft. 3 x 6, £8; 12-31 ft. 4 x 11 in. unassorted, red, £9; 6-25 ft. 4 x 11, £9 5s; 14-30 ft. 4 x 9, £9 10s; 6-26 ft. 4 x 9, £9 15s; 9-26 ft. 4 x 8, £8 15s; 10-26 ft. 4 x 7, £8 10s; 10-26 ft. 4 x 6, £8 5s; 10-24 ft. 4 x 5, £7 10s; 10-18 ft. 4 x 4, £7 15s; 8-24 ft. 3 x 11, £9 10s; 9-30 ft. 3 x 9, £10 5s; 9-24 ft. 3 x 8, £7 15s; 10-18 ft. 3 x 7, £7 10s; 10-18 ft. 3 x 6, £7 5s; 10-18 ft. 3 x 5, £7 10s; 12-18 ft. 3 x 6-11 in. discolored, £6. Spruce deals, ex. Ashmore, from Quebec, brought from £6 10s to £7 5s for third, fourth and fifth quality Oak timber, from Quebec, sold at 77s 6d to 85s per load of cub. feet.

Concerning the demand for hardwoods at Chicago the American Lumberman says: "The hardwood market presents

about the usual variety of ups and downs, with a substantial volume of trade and irregular prices. It may be said that the market at the present time is not all one-sided, as seemed to be the case up till a few weeks ago. Here and there one hears of a slightly better price being obtained for this or that commodity. Basswood is in fair request. Dealers are asking \$27 for firsts and seconds, 12-foot stock, but say that they are not always getting it. Birch moves with about its usual freedom and is in fair inquiry, but prices fail to respond. Maple is quiet and steady at a slightly improved basis.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Reports from dealers indicate that business is quiet in lumber circles at present. The scarcity of cars has still an important bearing in this direction, as it is difficult to get shipments to their destination. At present, however, customers in outside points are engaged or preparing to engage in stock-taking. Little lumber is being bought and business will probably be quiet till after the New Year. Prices are unchanged, with every prospect of maintaining a firm tone and a possibility of advancing.

Although the labor market has become easier, the cost of production of lumber promises to continue high; the scale of wages is as follows: Good choppers, \$27 to \$30 a month and board; general hands, \$18 to \$24 and board. In the square timber market wages are higher. Good hewers command \$50 a month and board, liners \$40, and scorers \$35. The all-round advance in produce is placed at ten per cent. by a large operator. Oats are selling here at 50 cents a bushel. Flour and hay show no advance, but pork is decidedly firm. Delivered at the Kippewa river, it is worth \$22 per barrel of 200 pounds. Hardware is also at a high figure.

Natural conditions this season are even worse than they were last. The long dry fall has left the swamps without water, and the first snowfall found the ground

compatively free from frost. These conditions will make road-making exceedingly difficult task. The work of getting out logs will be no easy task. All the above conditions must be taken into consideration when figuring on future mill and retail prices.

Ottawa's new chief magistrate is well-known in and closely identified with the lumber trade. Mayor Davidson is a member of the firm of Davidson & Thackeray, which operates a large planing mill and sash and door factory in Ottawa. The firm is also building saw-mills on its limits above Coulange. Mayor Davidson's executive ability has also been demonstrated in the success with which as president of the Capitol Lacrosse Club, he has managed its affairs. Ald. R. J. Davidson, the "father" of the council, is a brother of the chief magistrate.

The valuable water-power on the Quebec side of the Chaudiere promises to again be the subject of legation. In the Hull court on Saturday, Mr. Thomas Ahearn, president of the Ottawa Electric Company, filed an opposition to the improvements in the river being carried forward by the Ottawa and Hull Power Company. W. C. Edwards, M. P., and the Hawkesbury Lumber Company are rated as defendants in the suit. Mr. Ahearn is the owner of valuable water
