# SIR HALLIDAY MACARTNEY SAYS COMMUNICATION WITH THE CHINESE CAPITAL HAS BEEN PRACTICALLY REOPENED AND MESSAGES MIGHT BE EXPECTED IMMEDIATELY.

## Sir Halliday Macartney Says Communication With the Chinese Capital Has Been Practically Reopened and Messages Might Be Expected Immediately.

### Chinese Minister in London Called on Lord Salisbury Yesterday, But the Premier Was Absent—It Now Looks as if the Government Was Doing Its Best to Suppress the Boxers and to Protect the Foreigners.

London, July 22.—(Special.)—Sir Halliday Macartney, British Secretary for the Far East, called on Lord Salisbury yesterday afternoon at the Foreign Office. As Lord Salisbury was absent, the visit was without special result.

Macartney, who has been in London since his return from Peking, said that communication had been practically reopened with Peking, and that messages from Sir Claude MacDonnell, the British Minister, and other foreign envoys might be expected immediately. He said he hoped the trouble would soon be over, since the Chinese Government was doing its utmost to overcome the difficulties and control the lawless element.

**Says U. S. Have Proper View.**  
In his opinion the Americans had taken the most commonsense view of the situation, and he insisted that China ought not to be misled. Against the suspicion that Li Hung Chang had any but a sincere pacific object in view, he protested warmly, declaring that all stories about the treaty and treaty of Kiang Lu were "absolutely baseless."

**Europeans Will Be Safe.**  
With regard to the prospects in the Southern Province, the Secretary admitted there might be some setbacks, but he said there would be nothing serious, and that Europeans would be quite safe in treaty ports. The long silence, he explained, was "due probably to the rebels who have cut the wires and blocked the roads."

**Despatches Not Believed.**  
Thus, according to the Secretary of the Chinese legation, a few days more should bring a solution of the great mystery. Nevertheless, no one in England believes that the alleged despatches and edicts are anything but propaganda to hide the real situation as long as possible and to avert retribution by sowing discord among the powers.

**Li's Mission to Divide the Powers.**  
The Shanghai correspondent of the Daily Express pretends to have authority for the assertion that Great Britain will repudiate any credentials Li Hung Chang may bring from the Empress Dowager, and that, however, is willing to make reason in its own disfavor among the powers. The British, German and American representatives were resolute against receiving him.

**Chinese Thoroughly Frightened.**  
The Shanghai correspondent of the Daily Mail declares that the Chinese officers are thoroughly frightened by the fall of Tien Tsin, and desire to open negotiations.

**From Shanghai comes a report that the Empress Dowager and the court are moving to Hsiao Fu (in the Province of Shan), to which the large stores of rice are sent, and that, when these arrangements are completed, the remaining provinces will declare against foreigners.**

**Disheartened by Tien Tsin's Fall.**  
According to the Cheo Foo correspondent of the Daily Mail, the fall of Tien Tsin has so disheartened the Chinese that they are seeking terms of peace. He says that several attempts have been made to send messages to Peking, but so far without any known results, and adds that rumors are being spread that the Russians are reaching Peking from the north. It is impossible to confirm or deny these statements, but either one might explain China's efforts to this time.

**Li Hung Chang's Visit a Failure.**  
Li Hung Chang's visit to Shanghai seems to be a complete failure. Except the Chinese customs officials, no one has visited him. Sheng, the Tsoai Chief Magistrate, has the honor of a cordial invitation to meet him at luncheon, but all declined.

"Therefore," he continues, "with all our efforts to keep the Chinese from massacring every official down to the humblest, we have been driven to secrecy upon the penalty of wholesale execution, should the details leak out. They hope, if the powers begin negotiations, to stop the military operations that matters might still be in the hands of the Empress Dowager."

**Usual Crop of Shanghai Rumors.**  
There is the usual crop of Shanghai rumors at hand this morning. One is that Prince Tuan has been abducted and that the Empress Dowager is again supreme. Another is that the notorious King Yi, President of the Board of War, has been appointed Viceroy of Canton.

**Li Hung Chang Ignored.**  
By the Consuls at Hong Kong—Chinese Consulate Outside the Harbor Limits.  
Shanghai, July 22.—Li Hung Chang, who arrived here today on the steamer Amur, was coldly received. The native officials sent an escort of 300 armed troops, but as the French Consul objected to their passing through the French settlement, they were withdrawn, and Earl Li landed under an escort of 12 French police. One of the French police officers, who escorted him to his place of residence on the Bund, was wounded, and was compelled to leave the Bund, violating the harbor regulations by entering, and was compelled to leave the Bund, violating the harbor regulations by entering, and was compelled to leave the Bund, violating the harbor regulations by entering.

**MINISTERS NOT MOLESTED.**  
Says the Governor of Shanghai, But It May Be Simply More Chinese Duplicity.  
London, July 22.—(4 a.m.)—In the absence of news from China the papers devote much space to a discussion of the prospects of the reliability of the Chinese as sention of the safety of the Peking Minis-

# MORE TRAITOROUS SENTIMENTS IN A MONTREAL FRENCH PAPER

## A Writer for La Presse is Very Anxious to Know What Britain is Going to Do in the Crisis Now Apparent in China and Africa.

Montreal, July 22.—(Special.)—There is a gentleman on the editorial staff of La Presse, who for years has been shedding tears over the coming fall of the British Empire. He is a man of letters, and is worth producing, if for no other reason than to show how lenient Canadian law is with those who are using what talent they possess to sap the prestige of the nation, and to pervert public opinion in any way Canada likes.

"We await with the greatest anxiety the result of the deliberations of the League of Nations. What will they decide in the extreme difficult position in which they are placed? What can they do to prevent the Russian aggression, in which the greater part of the army, together with their best generals, are campaigning in South Africa, where the climate is even more fatal than the fighting in the Trenches, where famine and pestilence will cause a similar rise to that of the Boers in China, and Africa, where the military party arrives to shake off the unpopular yoke of England. And again, the revolt of the Gold Coast is far from being subdued. Here, therefore, are so many black spots which darken the sides of the Empire for the satisfaction of subduing a couple of hundred thousand Dutch peasants."

It is safe to say that if the writer of the above were in his own country and were to write such stuff about the French republic, he would be in Cherche Midi prison in two hours.

# GREAT EXCITEMENT AT TORONTO PLATE GLASS COMPANY'S PREMISES ON VICTORIA STREET

## Street Were Badly Guttured in Spite of Heroic Efforts of the Firemen.

The Toronto Plate Glass and Importing Company's premises at 135 and 137 Victoria-street were badly gutted by fire yesterday morning and considerable damage was done to the stock on hand. The origin of the fire is a mystery, but it is thought it started on the third floor of the rear of the building, and adjacent to the elevator shaft. During the progress of the fire, which was one of the fiercest that Toronto has seen for the past year, Foreman Charles Smedley, chief of the northern district, was seriously injured.

**District Chief Smedley Fell Into the Elevator Shaft and Barely Escaped With His Life—Rescued and Taken to the Hospital Suffering From Serious Injuries.**

**Ground Floor Ablaze.**  
The falling timbers had carried the flames to the ground floor, where they soon passed like a furnace. The flames on the roof had the narrow escape from being extinguished by the firemen, but they were doing good work, but with great suddenness a portion of the roof caved in and the men had to jump to a place of safety. Had a much larger part of the roof fallen the firemen who were stationed on it at the time they would have met instant death, as the roof dropped thru to the ground floor, a distance of six feet, and the men would have been crushed to a place of safety. **Downs the Elevator Shaft.**  
In order to do this the men were compelled to stand close to the opening in the roof, and while directing the work of the men District Chief Smedley was carried down the elevator shaft by a board on which he was standing. Fortunately the hole had been left at the third floor, and in his descent Smedley was not injured. The men who saw him fall, thinking that he would be crushed, called out to him, but he was unable to answer, and the men who were on the ground floor, thinking that he would be crushed, called out to him, but he was unable to answer.

**Building Soon in Flames.**  
On their arrival, which was soon a few minutes after the first alarm had been sounded, the three upper flats of the rear of the building were in possession of the flames. Chief Thompson, who was on the first to arrive, quickly got the engines into working order, and within a few minutes' time the full force of a dozen lines of hose was played on the building. The fire spread rapidly, and within 10 minutes of the time it was first detected flames were burning from the roof. Nearly a dozen of the firemen fought with lines of hose that were used to extinguish the fire.

MARKERS' STRIKE SOON FIZZLED.

The 1897 English Ammunition Better Than That Supplied Now—The Scores Made.

The fourth and last of the Canadian Military Rifle League matches of the season was shot at the Long Branch ranges on Saturday afternoon.

The attendance was large and the conditions for scoring first class. A light breeze blew off the lake nearly all afternoon.

A state of the markers for increased pay, which threatened early in the day to postpone or at least upset the match, was happily settled on a temporary basis in time for the shooting.

It is understood that hereafter the markers will all be got from the Government. The scores made were as follows:

The Canadian Northern Railway system connects the Great Lakes at Port Arthur, via Winnipeg, with the Great Saskatchewan River, at a point West of Cedar Lake.

Port Arthur, at the Canadian head of navigation on Lake Superior, from which there is direct communication with the sea for ocean-going vessels, is a great distributing point via the Great Lakes for the products of Manitoba and the Northwest Territories.

THE MAIN LINE is about 800 miles in length, exclusive of some 120 miles of branches. Of the main line 423 miles (including 36 miles of the Manitoba and Northwestern, over which the Company has full running power for fifty years from October, 1896), are ready for traffic, and it is expected that 200 miles more will be ready for traffic during this year.

THE POSITION of the Railway renders it absolutely independent of any other railway, and it passes through rich country, which has almost all hitherto been without railway facilities.

THE COMPANY has issued on its Winnipeg and Saskatchewan Divisions 4 per cent, 30 year Gold Bonds, at the rate of \$800 per mile, which may be increased to \$1,000 per mile as above mentioned, which Bonds are guaranteed, principal and interest, by the Government of Manitoba.

THE PRESENT BONDED INDEBTEDNESS of the Company, including the present issue, amounts to \$12,531, say, \$2,575 per mile (of main line), and the interest thereon to \$539, say, \$110 1/2 per annum per mile.

INTEREST DURING CONSTRUCTION. Interest on the present issue of Bonds is guaranteed by the well-known contractors, Messrs. Mackenzie, Mann & Co., of Toronto, Canada, during construction, and for one year after the line is opened for traffic.

APPLICATIONS should be sent to the Committee of the Stock Exchange for a special settlement and an official quotation. Application will be made to the Committee of the Stock Exchange for a special settlement and an official quotation.

The Canadian Northern Railway system connects the Great Lakes at Port Arthur, via Winnipeg, with the Great Saskatchewan River, at a point West of Cedar Lake.

Port Arthur, at the Canadian head of navigation on Lake Superior, from which there is direct communication with the sea for ocean-going vessels, is a great distributing point via the Great Lakes for the products of Manitoba and the Northwest Territories.

THE MAIN LINE is about 800 miles in length, exclusive of some 120 miles of branches. Of the main line 423 miles (including 36 miles of the Manitoba and Northwestern, over which the Company has full running power for fifty years from October, 1896), are ready for traffic, and it is expected that 200 miles more will be ready for traffic during this year.

THE POSITION of the Railway renders it absolutely independent of any other railway, and it passes through rich country, which has almost all hitherto been without railway facilities.

THE COMPANY has issued on its Winnipeg and Saskatchewan Divisions 4 per cent, 30 year Gold Bonds, at the rate of \$800 per mile, which may be increased to \$1,000 per mile as above mentioned, which Bonds are guaranteed, principal and interest, by the Government of Manitoba.

THE PRESENT BONDED INDEBTEDNESS of the Company, including the present issue, amounts to \$12,531, say, \$2,575 per mile (of main line), and the interest thereon to \$539, say, \$110 1/2 per annum per mile.

INTEREST DURING CONSTRUCTION. Interest on the present issue of Bonds is guaranteed by the well-known contractors, Messrs. Mackenzie, Mann & Co., of Toronto, Canada, during construction, and for one year after the line is opened for traffic.

APPLICATIONS should be sent to the Committee of the Stock Exchange for a special settlement and an official quotation. Application will be made to the Committee of the Stock Exchange for a special settlement and an official quotation.

Alliston, July 21.—(Special.)—The Conservatives of South Simcoe met here to-day, and selected Laughton Leung as their candidate for the House of Commons in the place of the late Col. Zyrmitt, M.P.

The meeting was large and enthusiastic. Twenty-two names were proposed, and of these the following were voted on the ballot:

In the first ballot the vote stood: Lennox 119, Bell 75, Williams 74, Fisher 20.

In the second ballot Lennox 183, Bell 100, Williams 74.

In the third ballot Lennox got 187 votes and Bell 138.

The probability of Sir Charles Lennox was therefore made unanimous.

The convention met in the Town Hall and filled it to the doors.

Three Hundred Delegates.

The delegates numbered about 300, distributed as follows: Hamilton, 40; Essex, 40; Mulmur, 41; Tecumseh, 50; Toronto, 21; Alliston, 7; London, 2; Tottenham, 15; Weston, 15.

Mr. Lennox, it will be remembered, unsuccessfully contested North Simcoe with the late Dalton McGee, M.P.

Resolution of sympathy.

A resolution of sympathy with the family of the late member, Col. Zyrmitt, was moved by Mr. Little, M.L.A., and carried unanimously.

And of Confidence.

A resolution of confidence in Sir Charles Lennox, the leader of the party, was also carried with cheers.

One of the features of the Convention was the presence of a number of Conservatives who had been expelled from Tottenham, re-elected; secretary, Col. H. A. Banting of Cookstown, re-elected; treasurer, Joseph Wright of Weston, re-elected.

Officers Elected.

At the morning meeting officers of the association were elected as follows: President, John Stewart of Alliston and Toronto, re-elected; vice-president, James Fraser of Tottenham, re-elected; secretary, Col. H. A. Banting of Cookstown, re-elected; treasurer, Joseph Wright of Weston, re-elected.

Crowds at Munro Park.

Saturday afternoon's attendance at Munro Park was almost equal to that on a general holiday, and the crowd of spectators was a large one.

The five-cent reserved seat experiment proved a great success, every seat being taken in a few minutes. A large number of additional free seats are also being added. The audience for New York, a great send-off. He has secured a first-class appointment in one of the best opera companies, and his rendering of "Milk and Honey" was greatly appreciated. This week's program will be immensely popular. The Australian nightingale, Marion and Clara Llewellyn, make their first appearance in Canada, after a tour of great success in their own country, their first appearance in England.

The Sun family and Zorra ace masters of world and startling music, and Jim Bellamy is a noted star in coin songs and dancing. Other features will include every day at 3 and 8.30 p.m.
