MAJORITY OF 120 PROBABLE FOR COALITION

Asquith in London to Confer
With Lloyd-George —
The Privileges
of the
Peers.
LONDON, Jan. 27.—The Liberals are
meeting with better fortune in their
closing stages of the elections. The
closing stages of the parties to-night is as
follows:
UNIONISTS, 258.
LIBERALS, 253.
LABOURISTS, 40.
NATIONALISTS, 76.
The prospect now is that the coal-
ition majority will eventually approach
120.
Premier Asquith came to London to-
day and conferred with the chancellor
of the exchequer and the chief Liberal
whip on the board of directors. Nothing is
likely to be decided, however, until
after Mr. Asquith's audience with the
king next week and the meeting of
the cabinet council.
The premier's first business at this
meeting will be the reshuffling of the
ministers, as a result of Herbert J.
Gladstone's appointment as governor
General of South Africa, and the desire
of one or two of the older ministers to
retire.
It is reported that the premier will
divide the question of privileges of the
lords into two parts, the first dealing
with the right of the house of lords
to veto the finance bills by simple reso-
lution, the second, which may be dealt
with later, in the form of a bill based
on Sir Henry Campbell-Bannerman's
resolution, limiting the lords' veto to
ordinary legislation, under which any
measure would automatically become
law after it had been thrice rejected
by the lords.
The polling for Lancashire's 56 seats
has now been completed. In 1906 the
Liberals won 30, the Unionists 14,
the Labourists 11 and the Nationalists 1.
This year the Liberals won 25, the
Unionists 13, the Labourists 12, and
the Nationalists 1.
Thus the coalition has lost only four
seats in Lancashire, which may be
said to hold fast to free trade.
Wm. J. Brien, who will enter the new
house with a little party of from eight
to ten independent Nationalists, will
according to his own paper, Cork
according to the Liberator, denounce the
passage of the budget, denounce the Na-
tionalist alliance with the Liberals, and
uphold Parnell's policy of complete in-
dependence of English parties.

SUCCESSOR FROM THE STAFF

Util Appointment is Made, Mr.
McLeod Will Continue as Manager.
HALIFAX, N.B., Jan. 27.—(Special.)
—The resignation of H. C. McLeod
from the general management of the
Bank of Nova Scotia announced at the
annual meeting, created a great inter-
est in financial circles.
The directors have not yet even con-
sidered who shall succeed Mr. McLeod,
but a meeting of the board will be held
at an early date to make the appoint-
ment. It is the belief here that the
man who will succeed Mr. McLeod will
not go outside the present staff in
his selection. Mr. McLeod's resigna-
tion is named, but he will remain a
member of the board of directors.
From the tenor of his remarks at the
annual meeting, it is inferred that Mr.
McLeod will not further continue his
position for independent or outside
inspection of all chartered banks. It is
understood, however, that his views re-
garding the necessity and wisdom of
such inspections remain unchanged.
Mr. McLeod left Halifax this morning
by the C. P. R. express for Mont-
real, but will not arrive in Toronto
until Sunday morning.

SURGEON'S HURRY WAS FATAL

Left Piece of Glass in Wound, and
Blood Poisoning Resulted.
SUDBURY, Jan. 27.—(Special.)—Thos.
Hay, C. P. R. claims agent, who was
injured in the Spanish River wreck,
died this morning at his home in North
Bay and as a consequence much criti-
cism is being aimed at the surgeon who
first treated his wounds.
Mr. Hay had a bad gash on the head
and one of the company's physicians is
said to have stitched it up at Webb-
wood shortly after the relief train ar-
rived on the scene. Upon arrival at
North Bay Mr. Hay began to suffer
intense pain and a re-examination re-
vealed that blood poisoning had set in,
a piece of glass having been left in
the wound.
Mr. Hay was about 62 years old. His
wife died a year ago and he had just
purchased a house in North Bay in
which to reside with an unmarried
daughter.

SMALLER BANKS AND MORE OF THE

H. C. McLeod Takes Intermedi-
ate Position Between U. S.
System and Tendency
Here to Multiply
Branches.

H. C. McLeod's address to the share-
holders of the Bank of Nova Scotia, at
their annual meeting, was of excep-
tional importance this year. He is now
publicly known, he is retiring from
professional life and possibly on that
account he spoke with unusual frank-
ness regarding the position and future
of Canadian banking. His review of
the history of the banking institution
with which he has been specially asso-
ciated was and will be of unusual in-
terest to those whom he immediately
addressed, but of much wider impor-
tance are his critical remarks regarding
the general situation in Canada and
the trend of Canadian banking.
Contrary to prevalent opinion, Mr.
McLeod holds that the interests of the
Dominion will be better served by a
goodly number of moderately sized
banks than by fewer and much larger
institutions.
Mr. McLeod thus occupies an inter-
mediate position between the United
States system of industrial state banks
and the present tendency in Canada to-
wards a diminution in the number of
banks and a multiplication of their
branches. Coupled with this is his
preference regarding the insufficiency
of cash reserve in presence of another
threatened period of inflated credit.
Mr. McLeod strongly advocates the
abolition of secret management, and
other Canadian banking authorities,
he urges that they offer no other re-
medy for the demonstrated weakness
of the present system.
The retirement of H. C. McLeod as
general manager of the Bank of Nova
Scotia came as a surprise to Toronto
financial interests.
Mr. McLeod was known personally
only to a few of the leading Toronto
financial and commercial men, but his
name had a broader effect.
Many rumors have been circulated
in regard to the retirement, but none
has such substance as might give it
credence.
A prominent Toronto stock broker,
discussing the situation, said: "I think
the change means that Mr. McLeod
has decided to drop out of active life.
He has spent many years of arduous
labor and is now contentedly retired to a
well earned rest."
Asked as to who he thought would
succeed Mr. McLeod, he said: "I think
Mr. Richardson, the manager of the
local office branch, Toronto, has the
first claim, but, of course, this is only
a guess."
A pamphlet issued by the late gen-
eral manager of the Bank of Nova
Scotia on bank inspection, is not
thought to have had anything to do
with Mr. McLeod's retirement.
Mr. McLeod has always had clear-
cut ideas in regard to banking, and
remarked a local financier, "and his
views have been carried out to a large
extent by the Bank of Nova Scotia."
He took at their reports you will
see how this is carried out. Every in-

LUMSDEN PROBE TO BE A SHAM AFFAIR

Opposition Open Fire, and De-
mand That the Whole
Question of Over-Classi-
fication Be Open-
ed Up.

OTTAWA, Jan. 27.—(Special.)—In the
house to-day W. S. Middlebro (North
Grey) resumed the adjourned debate on
the premier's resolution to appoint a
special committee of five members of
the house to investigate the charges
laid by Hugh D. Lumsden, former
chief engineer of the N. T. R., against
a portion of the engineering staff. Mr.
Middlebro is one of the young members
of the opposition who have shown the
ability and good judgment to be en-
trusted with the more important work.
The object of the proposed work
He said he proposed to show what
the object of the premier should be in
introducing his motion and what had
seemed to be the object. Major Hodg-
ins, one of the district engineers, had
claimed in 1907 that the transconti-
ental railway commissioners had been
pressing him to over-classify the work
done by the contractors. Mr. Lumsden
had charged that there was over-classi-
fication. Not one of the commission-
ers was a railway man, and owing to
this fact the chief engineer was the
most important official. He was the
guardian of the resolution, therefore,
therefore, should be that the committee
should be given power to see that the
Lumsden prove his charges, that be-
cause of over-classification he had lost
confidence in his engineers. But what
seemed to be the object of the premier
in introducing his motion was to
strangle the enquiry, said Mr. Middle-
bro. If the government did not give
the committee full power to enquire in-
to the question of over-classification it
was because they were "burked."
Inquiry in connection with the
Hodgins charges, E. M. Macdonald
and F. B. Carvell had burked the en-
quiry. Mr. Macdonald rose at a point
of order, and Mr. Middlebro withdrew
the word "burked" and substituted
"prevented." They had insisted that
the technicality of the over-classifica-
tion charges should be referred to the
transcontinental railway commission-
ers as constituted in 1904. Yet these
commissioners had not made one single
report on a matter referred to them in
1907.
Mr. Middlebro then asked the pre-
mier to say if he meant to allow ques-
tions of over-classification to be put
with by the proposed committee, sat
down and waited for an answer.
Sir Wilfrid remained silent.
Thereupon Mr. Middlebro described
the committee as "a straggling com-
mittee" and a "strangling com-
mittee." He said Major Hodgins had
been dismissed because he was keeping
the classification down too low to suit
the contractors or the commissioners.
His crime was that he was too honest.
A man named Poulin was appointed in
his place and he allowed over-classi-
fication to the extent of over two mil-
lions, Gordon Grant, after being ap-
pointed chief engineer, went west him-
self and cut the accounts still further
by \$360,000.
Prefers the Commission.
F. B. Carvell (N. B.) said
that Major Hodgins had voluntarily
withdrawn his charges, these should not
be resurrected. He believed with the
premier that the only thing to do was
to bring before the committee Mr.
Lumsden and a committee of engineers,
and thus let the commission de-
cide.
A. S. Melghen (Portage la Prairie)
said that the engineers who had made
the original estimates were in some
cases as much as 55 per cent. out
in their calculations.
Mr. Graham's absence noted.
There was an unusual occurrence
during Mr. Melghen's speech. Practi-
cally every man on the house of com-
mons had gone out of the house, in-
cluding the premier, who had moved the
resolution, and the minister of rail-
ways, who is vitally interested.
Mr. Foster rose to the only man who
knows anything about this, the minister
of railways, should absent himself
from the house. It shows contempt
for the house. It shows contempt
for an utter disregard of his duties.
Mr. Fisher thereupon entered into a
lengthy speech, in which he said that
Mr. Graham was one of the most hard-
working members of the cabinet. At
that point, Mr. Graham re-entered the
chamber.
Brought 'Em All Back.
Mr. Graham said he had just heard
that the member for North Toronto
had been absenting himself from the
house. He had been called out to
see a gentleman from Winnipeg, to
whom he had been unable to give an
answer for two days.
Mr. Foster replied that he was quite
willing to accept the explanation. He
had meant no personal discourtesy.
Mr. Fielding then came into the
house. Mr. Amid much laughter fol-
lowed by Hon. Mr. Templeman, Hon.
Mr. Lemieux, Hon. Mr. Pugsley, and
a crowd of Liberal members.
Mr. Lumsden continuing his speech
said that Mr. Lumsden would resign his
position, not only as engineer, but as
member of the board of arbitration.
He did not resign in a huff, as Mr.
Graham had tried to make out. He

HUMANE SOCIETY DOING GOOD PROTECTIVE WORK

Five Hundred and Seventy-Two
Prosecutions in Year—Bishop
Sweeney Re-elected President.

His Lordship Bishop Sweeney pre-
sided at the annual meeting of the Tor-
onto Humane Society last night. Man-
aging Director Harris, who is termed the
apostle of mercy, noted that the police
were more than ever giving their as-
sistance towards further the work
of the prosecuting department. The
establishment of the dog and cat hos-
pitals, he declared, was one of the pro-
gressive steps made in the past year,
while the efforts being put forth in
preparing an amendment to the crim-
inal code for the transportation of
poultry was also another move in the
right direction. Reports were also sub-
mitted by Staff Inspector Stephen and
the treasurer, W. J. Robertson, and
addresses delivered by Rev. G. I. Fas-
ken and Rev. J. C. Speer.
The treasurer's report showed that the
society started with a working
capital of \$1086.
According to Staff Inspector Ste-
phen's report 772 complaints have been
dealt with and 572 prosecutions made
during the year.
There were on exhibition last night
large clubs, lashes with nails in them,
used by inhuman men on their horses.

CANADIAN AID FOR FRENCH FLOOD SUFFERERS

OTTAWA, Jan. 27.—(Special.)—Senator
Belcourt referred to-day in the senate to
the close friendship between Canada,
France and Great Britain. A
chance was offered now to Can-
ada of showing sympathy with
the French people in deeds. A
subscription list had been opened
for the flood sufferers, and Can-
ada might well contribute.
After some discussion, in which
Senator Poirier, Senator G. W.
Ross, Senator Power and Sen-
ator Cloran joined, Sir Richard
Cartwright reminded the house
that Canada's expression could be
safely left to the premier. The
senate could not make recom-
mendations for a financial grant;
that was exclusively the privilege
of the commons.

ASIATIC DANGER AGAIN IN B. C. LEGISLATURE

Federal Government May Be Asked
to Prohibit Orientals From
the Owning of Land.

VICTORIA, B.C., Jan. 27.—(Special.)
—That British Columbia faces a serious
menace in the quiet but widespread
taking up of freeholds in parts of the
province by Japanese agriculturalists,
to the extent that drastic preventive
action on the part of the national gov-
ernment has become necessary, is the
substance of a statement made to the
British Columbia Parliament, by W. H.
Hayward, member for Cowichan, who
supplements his presentation of the
case by offering a resolution, which
parliament will act upon Tuesday next,
asking the governor-general to present
to the Canadian parliament, and that
body to pass direct legislation prohibi-
tive of the acquiring or holding of
land in Canada by Japanese or Chi-
nese.
It is stated by Hayward that thru
British Columbia the Japanese are
monopolizing by purchasing the best
and modern packing of their fruits, by
selling the whites, as they are able
to do by living of a plane beneath
white civilization standards, while
they threaten to wreck the reputation
of the Canadian fruit, by which
methods the provincial fruit has
won an enviable reputation in the
world's markets.
It is also argued that the presence of
so large a Japanese population, the
major portion of which is composed
of ex-soldiers of Japan, constitutes an
appreciable danger to national security.

PREFECT OF PARIS FEARS TO TELL THE TRUTH

Flood Continues to Rise, and
M. Lepine Gives Bogus
Bulletins to Allay
General
Alarm.

PARIS, Jan. 27.—Another day has
passed, but the inexorable yellow tide
still creeps slowly higher, each inch of
water widely extending the area of de-
struction, desolation and ruin.
The barometer is rising rapidly
and bright sunshine to-day succeeded
the raging storms, a feeling of con-
struction, bordering on panic, prevailed
to-night when the authorities, who yester-
day promised the maximum of the
flood for the day, announced that this
would not be reached until to-morrow
morning.
Official figures of the stage of the wa-
ter are difficult to obtain, and the
city council, at a stormy session to-
night, charged Lepine, prefect of Paris,
with withholding the true gravity of
the situation. The prefect defends his
attitude by saying that he was gov-
erned by the necessity of not unduly
alarming the people.
Meantime the very crust of the city
seems ready to sink into the flooded
subterranean labyrinth beneath. Ev-
erywhere house drains are bursting in
new localities causing a subsidence of
the streets, or bulging them feet above
their normal level, while the overflow
of surface water from the river, is
transforming the inundated districts into
formidable lakes and the streets into
canals.
Fashionable Districts Submerged.
In the Bercy quarter the water is
six feet deep in the streets and the
left bank of the Seine, from above
the islands to Auteuil, comprising the
left bank institute, the fashionable St.
Germain districts, the foreign offices,
the chambers of deputies and the
Champs de Mars, is submerged under
from one to ten feet of water. Some
of the deputies left the Palais Bourbon
to-night in rowboats, others on the
backs of attendants.
The walls of the Invalides Station
are crumbling and both that structure
and the wing of the former are dan-
gerously in danger of collapse. Nev-
ertheless, Mme. Flechon, wife of the
foreign minister, held her regular re-
ception this evening, oil lamps and
grate fires being employed to offset the
absence of steam heat and electricity.
The streets surrounding the St. Lazare
Station have sunk three feet and the
situation there is regarded as des-
perate. It is also feared that the founda-
tions of the two big neighboring de-
partment stores are being undermined.
Danger From Sewage.
The overflow of the broken sewers
into the flooded basements menaces the
health of the occupants, and the small
of sewers already is permeating the
buildings; but notwithstanding this,
the police to-night notified household-
ers, especially those of the wealthier
class, who are using automobile engines
for pumping purposes, that they must
exercise the greatest care in the re-
moval of the water pressure would
likely cause the foundations to sink or
collapse.
Soldiers are working desperately by
the aid of torches, disassembling drift-
wood above the Solferino and Henry
IV. bridges, while large forces of men
are still engaged in constructing dams
to divert the course of the swiftly mov-
ing currents. There was a further
shut-down of electric light plants to-
night, leaving the city in semi-darkness.
The relief work is proceeding bravely,
none being refused food or shelter.
Archbishop Amette has ordered pub-
lic prayers in the churches and a col-
lection taken up for the victims. In
spite of the crippled water supply
the authorities say that the reservoirs
are intact and that there is no dan-
ger of a famine if the water is husbanded
carefully and confined strictly to
drinking purposes. At the same time a
warning again is issued that the water
should be boiled.
Situation in Provinces.
The situation below Paris is becom-
ing appreciably worse. The strength
of water, which engulfs Blois, Neully-
by, Puteaux, Amiens, Mantes-la-
Jolie, is widening rapidly, while further below the swollen
Oise is purging in new torrents over
the Pontaise section.
Owing to defective communication
with the provinces, few despatches
have been received here, but these re-
port a general improvement. The weather
everywhere throughout France has
ameliorated and it is believed that the
worst of the flood is passed.
The boulevard life of the gay Paris-
ian city had been suddenly silenced.
Most of the music halls remain open,
but they are deserted. A hushed mil-
lennium sits in front of the boulevard
cafes.
At a special meeting to-night the
board of health drew up instructions
for the prevention of an epidemic. In
addition to the usual precautions with
regard to water, vegetables and fruits,
the board especially states that none
of the flooded houses shall be re-oc-
cupied until they have been thoroly dis-
infected, the walls scraped and the bed-

MORE FAULTS FOUND WITH INSURANCE BILL

Representatives Appear Before the
Senate Committee With
Their Grievances.

OTTAWA, Jan. 27.—(Special.)—The
senate committee on banking and com-
merce sat to-night to give further con-
sideration to the insurance bill and to
hear witnesses.
H. K. Symons of the Union Life of
Toronto, speaking of industrial insur-
ance, asked an amendment allowing
companies whose license to do business
has been suspended, to continue to re-
cover premiums on existing policies,
until the company is wound up. This
would enable policyholders to continue
to hold upon the assets of a com-
pany. He objected to 30 days' notice
in the Canada Gazette and personal
notice to each shareholder in the case
of amalgamation by industrial com-
panies who make collections weekly or
monthly.
Charles Raynes of the United States
Life Insurance Co. of New York asked
that the quinquennial distribution of
profits should not apply to any business
except on participated policies, after
the act comes into force.
J. C. Leroy, representing the Mutual
Life Underwriters' Association, op-
posed the suggestion made by one Can-
adian company and Mr. Cox of New
York, that lower rates might be given
on policies of \$75,000 and over. He ob-
jected to the clause prohibiting bon-
uses.
J. E. Kavanagh spoke for the lower
rate on \$5000 policies. He said that
the competitive rate was low, but yield-
ed a profit to the companies of one per
cent, and could be carried.

WOMAN CAPTURES BURGLAR

Pursued Him in Street When He Flew
From Her Attack.

BUFFALO, Jan. 27.—Mrs. M. A. Stat-
ler 70 years old, and Mrs. Bama Bal-
litz, mother and sister of E. M. Bal-
litz, the well-known hotel man, captur-
ed a burglar this afternoon after a
struggle in which both women were
injured.
Mrs. Statler and her daughter live in
an apartment at the Marguerite on
Cattaraugus-street. This afternoon Mrs.
Ballitz answered a ring at the door.
She was confronted by a man with a
revolver. "Hand up or I'll shoot," he
said. Mrs. Ballitz fled toward a front
window screaming for help. The man
who followed her first encountered Mrs.
Statler. He choked her until she faint-
ed.
Mrs. Ballitz picked up a vase and
hurled it at the intruder. She followed
up the attack and the man fled. He
ran across the street into a saloon,
but finding a number of men there im-
mediately ran out. Mrs. Ballitz grab-
bed him as he came out of the saloon
door and began to yell for help. The
blood came, but she hung on until
two men came to her aid.
The burglar was identified as Ray-
mond Coker, 23 years old. He served
12 months at Elmira for burglary and
larceny.

AYLESWORTH'S SUCCESSOR

John Sheridan May Be Liberal
Candidate for North York.

OTTAWA, Jan. 27.—John Sheridan,
the well-known cattle and horse ex-
porter of Toronto, who was in the city
to-day, announced that he would run
in the Liberal interests in North York
on the retirement of Hon. A. B. Ayle-
sworth, who it is announced will shortly
retire from the position of minister of
justice, owing to continued deafness.

New Hats for Men.

If there is any one thing that makes
a man look particularly shabby it is an
old hat. The price of a hat is a small
thing when you consider how impor-
tant it is that you should appear neatly

Yonge-st., Toronto, receive almost daily
new shipments of men's hats from
both England and the United States.
The company is sole Canadian agents
for Henry Heath of London, Eng., and
Dunlap of New York.

MASKED MEN HOLD UP BREEDING OF THOROBBREDS

FIVE THIEVES IN BARN Ripped, Nearly Two Hundred Dollars Being Taken.

Five men, drivers for Rutherford and Marshall, wholesale producers, East Front-street, were held up at the rear of 97 Pembroke-street between 6 and 7 o'clock yesterday morning by two men, masked and armed with revolvers and billes. Each man was taken and tied as he came to the stables and deprived of his money.

George Lee, 69 McCaul, was the first driver to reach the stable. As he stepped into the door, two revolvers were thrust into his face and he was told to stand and deliver. There were two men masked by wearing stocking caps drawn down over their faces and with hoods cut for eyes and mouth.

W. R. Gray, 124 Markham-street, came next, and was treated in a like manner. They got no money from him. Charles Brown, 43 Clinton-street, came next and contributed \$4 under similar circumstances. He was followed by George Sherbrooke, 36 1/2 Florence-st. He was the largest contributor, chipping in \$180. All were securely tied and left in the stall.

In the dim light it was difficult to get a good view of the men, but as one of them went out he lifted his mask and it was seen that he was dark with a dark moustache. The other was clean shaven, fair and tall.

When they were left alone the imprisoned owners at once made common release. Gray succeeded in undoing the bonds of one of his companions by working at the knots with his teeth. He was the first to get away and after that it was plain sailing.

The case was reported to the police and two detectives are at work upon it. The robbery must have been committed by men who had a knowledge of the ways of these men. The drivers could during the day, and do not make returns until the morning following.

MINISTER OF AGRICULTURE ADMITS IT

The Declaring Racing Isn't Necessary for Horse Improvement.

OTTAWA, Jan. 27.—(Special.)—Witnesses called by Mr. Raney occupied most of the time at the sittings today of the committee on the Miller bill to prohibit race-track betting. The minister of agriculture, Hon. Sydney Fisher, did not agree with his subordinate, Dr. Rutherford, as to the necessity or value of racing. He considered that the use of the blood of thoroughbred horses was the best method in breeding all classes of horses, but he had seen a large proportion of weeds on the race course. Besides, he saw an undesirable following of people in Victoria at his hotel during a race meeting last summer. It developed in Mr. Fisher's examination that he had never seen the Blue Bonnetts course in the morning and had never seen a race course in eight or ten years.

He said he was not familiar enough with betting systems to discuss them and that he did not bet. It was not true, he said, that it is an impropriety but rather a stupid proceeding. He did not consider himself competent to judge of the moral effect of betting.

In reply to Mr. Monk, he said he had no knowledge of any race track gambling evils. The department of agriculture did nothing to encourage the importation and breeding of the thoroughbred in Canada. That was left to the racing men largely. He promised to investigate the matter and to report to the department had on the subject of the encouragement given by foreign governments. France, Austria, Germany and Italy went extensively in to Charles Brown and had many horses in England for that purpose.

The most astonishing statement yet made before the committee was that by Mr. Fisher, that he had never seen a Derby run on two occasions, but did not know who won it. Inspector Duncan's Evidence. Detective Inspector Duncan, who was followed by Mr. Raney, Inspector Archibald, both of the Toronto Police Department, produced the only kind of evidence on which Mr. Raney hopes to persuade parliament that the racing men were guilty of offenses. Inspector Duncan produced a list of fourteen cases occurring within the last two years in which persons were charged with offenses in the Toronto police court had said their downfall was due to betting on horse races. He did not know whether they told the truth or not. Some of them were American fugitives.

HER DAUGHTER TOOK VERY SICK AS RESULT OF CATCHING COLD

Mrs. Dennis Delaney, Friar's Head, N.S., writes: "At the close of the year 1907, our youngest daughter, five years old, took very sick as the result of catching cold. She became very weak and could not move around at all. We consulted doctors and gave her various kinds of medicine but they did not seem to relieve her any. On the advice of a friend I procured a bottle of your valuable remedy, Dr. Wood's Norway Pine Syrup, and after using the first bottle noticeable improvement was the result and after using three bottles she was entirely cured. I can certify that it was through your valuable remedy that she regained her strength and would advise every mother having young ones similarly afflicted to obtain your valuable remedy. For myself I would not be without a bottle in the house."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the Norway pine tree combined with Wild Cherry Bark and other pectoral remedies. It has stood the test for many years, and is now more generally used than ever. Price 25 cents at all dealers. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

"SPRINGTIME" AT PRINCESS

Delightful Presentation for First Time Here by Miss Taliaferro.

"Isn't it wonderful?" was the exclamation upon which the curtain went down at the Princess last night, when Booth Tarkington and Harry Leon Wilson's new play, "Springtime," was presented for the first time in Canada. Miss Mabel Taliaferro had already established the hearts of Toronto playgoers, but the ovation she received at the close of the third act last night, when she was recalled a dozen times, has rarely been equaled in the city. All the world loves a lover, and one could not resist the charm of the young girl who finds her womanhood and her lover on the eve of her marriage to "quite an old gentleman."

RACING AT WINNIPEG FAIR

Dr. A. W. Bell, manager of the Winnipeg fair, said that the body received a revenue of \$500 for betting privileges last year. They had good racing and found it a great attraction. Their board was made up of 30 members, 15 of whom were elected by the shareholders. The Winnipeg City Council elected seven and the Live Stock Association the others. There was no "race-track gambling evil" there.

MRS. MESHANE'S DEATH

MONTREAL, Jan. 27.—(Special.)—Ex-Mayor James McShane was somewhat better this evening and was told of his wife's death late this afternoon. Mrs. Meshane, who was a great social figure in Montreal, died at her home in the city at 10 o'clock yesterday morning while her husband was lying at death's door at the hospital.

THE SPANISH RIVER TRAGEDY.

High officials in the Canadian Pacific service are reported to have complained about the sensational news served up by the press in connection with the regrettable Spanish River accident.

the premier occupies stronger ground than Mr. Gladstone did in 1882, will have between two and three times the latter's initial majority, and will have the Laborites and Nationalists making common cause with him in his effort to restrict the veto power of the house of lords.

The moderate section of the Unionist press are busily advocating a coalition government on a basis of compromise, but Mr. Asquith will scarcely be willing to bind himself to a manoeuvre of this kind, especially after a straight appeal to the country on sharply defined issues.

THE IRONY OF INVENTION.

A marked irony of life these days is the fact that many of the great new inventions and discoveries are used for the more effective bleeding of the public by monopolists and capitalists who get hold of them.

BRITISH POLITICAL POSSIBILITIES.

From some of the comment made on the present British political situation, the inference might easily be inaccurately drawn that it is unprecedented and impossible of continuance for more than a very brief period.

Taking the present Unionist anticipation of the outcome of this general election, that party will number 282, as against 268 Liberals, 48 Laborites and 82 Nationalists.

not assumed control, and from other lands into and upon the plaintiff's farm, for which he claimed damages, and an injunction. Judgment: The evidence as to damages was conflicting, but I think there can be no doubt that the excess of water discharged on the plaintiff's land does cause some loss and inconvenience to him, and will have a depreciating effect upon the value of his farm. In lieu of an injunction, I would fix the plaintiff's damages past and future at \$450, and I direct judgment to be entered in his favor for that sum with costs. Thirty days stay.

After Midnight. Shortly before one o'clock this morning, R. L. Borden, rose to address the house. He said the motion of the premier might properly be styled a motion for the investigation of a case.

Charges of the gravest character had been made against some of them by H. A. Wood, assistant chief engineer of the Grand Trunk Ry. Co. Specifications had been ignored by the government's own officers and the whole transaction reeked with corruption.

During the last parliament in 1907 the government had voted down the proposal to investigate these charges. It would be to the everlasting discredit of this government that these charges had been allowed to go without any attempt to investigate them.

Dismissed. In spite of all the outrageous conduct of certain men the fact remained that the only man dismissed was the man who attempted to make the issue.

Mr. Borden concluded by saying he would support warmly any attempt to investigate this wrong-doing honestly.

DOMINION MARINE ASS'N. Ask That All Boats Carrying Passengers Be Registered.

OTTAWA, Jan. 27.—Asking that all small yachts and launches carrying passengers for hire be subjected to registration and inspection, the members of the Dominion Marine Association this afternoon waited upon Deputy Minister Desbarats of the department of marine and fisheries.

The association has decided to appeal before the international waterways commission in Toronto in February and to cause its protest against the building of a dam across the St. Lawrence at the Long Sault Rapids.

The government will be memorialized asking that a new lock be built at the St. Lawrence.

WHO SHOT WEIGAND?

Evidence Tends to Exonerate the Ontario Inspector.

NIAGARA FALLS, Jan. 27.—(Special.)—Investigations conducted to-day into the circumstances surrounding the shooting of George Weigand, the Niagara River fish dynamiter, the river gunners, yesterday, tend to show that the dead man was possibly accidentally shot by Gus A. Enger, his partner in the launch, and not by Fisheries Inspector Thomas Briggs.

The local authorities place reliance in the story told by Briggs and corroborated by several other persons that the first shot was fired from the boat and Weigand fell dead several minutes after the last shot was fired from the shore by the Canadian official.

Inspector Briggs did not fire on Weigand with intent to kill the occupants, but aimed low in an effort to force the boat ashore. The bullet from Weigand died in the back of the head.

Inspector Mains of the provincial police has informed District Attorney Dudley of Erie County, N.Y., that if the body of Weigand is turned over to the Canadian authorities, a searching enquiry will be conducted.

The body was found in trees and in the "Bullied" found in 44 Winchester, prove Briggs' assertion that he was shot at.

McGarry's Narrow Escape. Fifty feet of plaster loosened by the moving of heavy steel fell from the ceiling of the west wing of the parliament buildings hitting T. W. McGarry, M.L.A. NORTH TORONTO. NORTH TORONTO, Jan. 27.—(Special.) There is a good deal of interest manifested in the concert to be given tomorrow (Friday) evening in the town hall, in aid of the public library.

An exceptionally good array of artists has been secured, and the attendance outlook to be such as to give a decided impetus to the financial status of the library.

The town band had a good practice to-night, and a number of new selections were played with great acceptance.

A meeting of the water, fire and light committee was held to-night when the estimates submitted by Chief Collins being under discussion. The matter of the appointment of a new commissioner to succeed the late James Walmesley, is also said to have come up.

There will be no meeting of the North Toronto Ratepayers' Association held in the town hall this Friday evening, but the regular fortnightly meeting will be held as usual on Saturday night week.

The inaugural meeting of the local board of health will be held on Tuesday evening next and the regular council session on Tuesday night.

EAST TORONTO. Local Man Doubly Bereaved in a Few Days.

EAST TORONTO, Jan. 27.—(Special.)—The greatest sympathy is expressed in East Toronto for Fireman Charles Gordon, who within a few days has lost a brother and a sister and his little four months' old daughter. On Wednesday, Mr. Gordon received word of the serious illness of his brother in Quebec, and immediately left for that city.

Before his arrival there the brother had passed away, and shortly after his arrival a telegram was received from the death of the infant daughter. He arrived home on Thursday and the funeral of his little girl took place yesterday afternoon at St. John's cemetery. Rev. W. L. Raynes read officiating.

NEWMARKET. NEWMARKET, Jan. 27.—(Special.)—The Laymen's Missionary Banquet of the Bradford District, will be held in the Methodist church, Newmarket, on Tuesday, Feb. 8, at 8 o'clock.

Felonious Wounding. Charged with feloniously wounding Morris Lingbird, 239 Spadina-avenue, Conrade Lurie was arrested last night in Quebec, and immediately left for that city. YORK COUNCIL ARE IN LINE

Yesterday's meeting of the York County Council was characterized by the introduction of a by-law along one of the most practical lines ever submitted to the members of that body.

Reeve W. H. Pugsley of Richmond Hill was the author of the resolution, the substance of which is contained in the following:

"That the council do now resolve itself into a committee of the whole to discuss the advisability of petitioning the legislative assembly to pass the necessary legislation so as to allow county and township municipalities to acquire lands that are now unproductive for agricultural purposes for the purpose of transplanting or reforestation and that the government aid and assist any such system of municipal forestry as may be entered into by a liberal grant under such conditions and regulations as they may deem advisable.

Reeve Pugsley made a strong appeal for the passage of the by-law and the whole matter was discussed in all its bearing, a majority of the members expressing approval of the principle.

This is the first time the question of reforestation has ever come prominently before the York County Council.

COBALT--Mixing Stocks Spotted But Some Recoveries Are Made--COBALT

Cobalt Issues Are Steadier But Tone Remains Depressed

Moderate Recoveries Made by Some Securities, While Others Continue on Down Grade--Crown Reserve Firmer.

World Office, Thursday Evening, Jan. 27.

Cobalt displayed a somewhat steadier tone on the local markets to-day, and in certain instances, such as the Timiskaming, Little Nipissing and the Crown Reserve, moderate recoveries were made, but the general tendency at the close was slightly reactionary.

The satisfactory statement handed out at the Crown Reserve meeting on Wednesday was seized upon by traders and speculators as a bull card, and the shares were bid up to \$3.99, a gain of 23 points from yesterday's closing prices. The other higher priced stocks did not share in the recovery, but were generally easy. Kerr Lake sold off 12 1/2 points to \$9; La Rose was comparatively steady around yesterday's closing prices, firming slightly at the close.

Trading in the lower-priced Cobalts was concentrated in Little Nipissing, which made a fractional advance to 23, and closed around the top figures. Timiskaming demonstrated a better tone than has been recently the case, selling up to 55 1/4, but closing comparatively steady around yesterday's closing prices. Beaver, Cobalt, Gifford and some others were depressed; Silver Leaf sold as low as 94 cents on the Toronto Stock Exchange, but closed firmer.

Trading sentiment at the close was somewhat mixed. The recent depressed attitude, which has been displayed for some time now, has a tendency to keep the public out of the market, and while it is argued that the mining issues have now reached bottom, it is hard to see where any improvement can come from in the immediate future at least.

Wettlaufer continued the feature of the unlisted department, advancing 12 points to \$1.42. Hargrave was steady at Wednesday's prices.

MINING BROKERS AFFECTED

By a Mystery Malady That is Keeping Them From the Exchange.

The depressed attitude of the Cobalt securities during the past few weeks is evidently having an influence on the work of the brokers and officials of the Standard Stock and Mining Exchange. It was reported yesterday that at least six of the floor traders had been seized with some mysterious malady which confined them to their houses and that many others were only in their places owing to their strenuous efforts to keep up. The nature of the ailment is not clear, but it is believed that it is a form of grippe, and it is understood that several members of the exchange have adopted such homeopathic remedies as the unlisted department feature of the Standard Stock and Mining Exchange.

SOMETHING LIKE PORCUPINE

Some idea of gold mining, perhaps of the Porcupine gold fields, may be gathered from a description of the Gilpin County, Colorado, fields, as they existed in 1864, and described by a writer in Hampton's Magazine:

While in Gilpin County in 1864, Prof. Hill (the founder of the Gilpin County, Colorado) visited the mines, which formed the only mining camp in the territory. But it was a dying camp, and in consequence Colorado was dying. The surface of the country was covered with quartz formation, which was crushed in stamp mills so you would crack a nut, but the kernels of these nuts were grains of gold. The surface ores, however, did not last long, and deeper in the vein the character of the ore changed. It changed to iron and copper sulphides, which held the precious values tenaciously. Stamping available little, because the gold was more and more held in chemical combination. The analogy to a lemon. If you crush a lemon you do not get pure citric acid. You must do something more than crushing. Likewise the mills were not getting out one-quarter the gold held in the Gilpin County ores. Many of the mines had closed down. Most of the 60 stamp mills were idle. But the ore, gold and silver, were there in volume to last a half century or more.

In other words, a surface gold quartz proposition must go down to be valuable and smelted in steam mills are the sure signs of large profits.

TERMINAL BILL KILLED BY RAILWAY COMMITTEE

It Would Have Imperiled City's Interests and Infringed on Provincial Rights.

OTTAWA, Jan. 27.—(Special.)—The Toronto Terminal Company bill, which according to the contention of the city's counsel, in opposing it, provided for twenty-five separate monopolies and attacked the city's rights in regard to the hydro-electric contract, the waterworks, gas and railway franchises, and would have upset the Esplanade viaduct order, was "killed" by almost common consent in the railway committee today.

H. H. Dewar, K.C., and Controllers Church and Spence appeared for Toronto, and Secretary W. D. Lighthall for the Canadian Union of Municipalities. Montreal, which is concerned in a similar bill, said to be promoted by the same interests, was represented by City Solicitor Archambault, R. G. Code appeared for the Ontario Government. Lloyd Harris of Brantford, sponsored the bill, as well as one to revive the charter and extend the time for building the Hamilton, Waterloo and Guelph Railway, and to authorize a union with the Hamilton Radial Co. G. H. Watson, K.C., appeared for the promoters.

Mr. Watson said the terminal promoters were representative Toronto business men, without connection with the railways. Plans were based on cooperation of the railways and the consent of the city by by-law. Construction of highways was possible only with the city's consent. "We have no objection to amendments to include tunnels, subways, viaducts and other works," said Mr. Watson. Mr. Bristol pointed to a clause authorizing amalgamations with companies supplying water, light, heat and power. Mr. Watson was again willing to be limited. Mr. Emmerson "is there any proposition to establish the committee. "Yes," shouted the committee. "It was introduced in the Montreal bill," said Mr. Watson, "one can see that it would be an advantage in connection with terminal for streets and St. Louis, he said, has a company operating on the lines proposed. The Philadelphia, Boston and Detroit terminals were on much the same lines. He absolutely repudiated any suggestion that it was intended to create monopolies. W. D. Hogg, K.C., Ottawa, also supported the bill. For the city Mr. Dewar objected to the bill conferring railways which are under federal control with electric roads controlled by the province, also, the city had a right to know if there was any big railway behind the scheme. The city was dependent on a coming judgment of the privy council as to its jurisdiction over streets and it should not be hampered by an antagonistic charter being granted now. Power of amalgamation with the several suburban companies which interfere with the city would be direct interference with provincial rights.

HIGH ENGINEERING STANDARD

Deputation Will Present Request to the Premier.

OTTAWA, Jan. 27.—The Canadian Society of Civil Engineers today appointed a committee to wait on the premier respecting a higher standard for government engineers and an advisory board on national engineering questions.

These officers were elected: President, N. R. Ryan; vice-presidents, W. F. Tye, C. H. Rust and K. W. Leonard; councillors, C. R. Coutlee, Phelps Johnson, H. J. Cambie, D. MacPherson, A. E. Donner, A. Horn, C. E. W. Dodwell, C. N. Montserrat, J. G. Sullivan, A. W. Campbell, J. M. Fairburn, J. M. Shanley, H. H. Vaughan, W. J. Francis, H. E. Haultain, H. G. Kelley, R. J. Durley and R. S. Ketch.

Police Didn't Give a Warning. MONTREAL, Jan. 27.—Householders to the number of 130 were up before Recorder Dupuis today for having slippery sidewalks. They complained that they had not been notified, and the police said they had orders from the chief to take actions without notifying offenders. The recorder said this was not just and dismissed the cases, scoring the police for their course.

HALTING BETWEEN TWO OPINIONS.

World Office Thursday Evening, Jan. 27.

The one redeeming feature of the Toronto stock market from a bullish standpoint to-day was a further rally in Rio. This movement is so contrary to general conditions as to suggest an early announcement of an increased dividend or market manipulation. Market sentiment is strongly at cross purposes, and this is sufficient to account for the present trading. With many leading and influential financiers predicting an unobscured outlook, there are others not quite so high up who are inclined to disagree, and between the two opinions, the market is now halting. In the matter of purchases of real investment issues there are no two ideas. Speculatively, the market is pretty much at a standstill.

Fluctuations Are Frequent And Rallies Do Not Hold

Wall Street Starts the Down Grade After One Day's Rally—Toronto Market Still Holding Quiet.

World Office, Thursday Evening, Jan. 27.—With few exceptions the Toronto stock market today evinced a responsible support. Sentiment among traders was not favorable to higher prices and the movement in Rio common of over two points was a marvelous surprise to floor traders and to the public in general. The volume of trading in the market was small, but would be larger if securities could be borrowed with the facility that they can be on other exchanges. From Montreal it is rumored that the Dominion Steel Company is earning 15 per cent on the common stock at the present time. This is regarded as an output on the part of individuals who are loaded up with the shares to get out, and does not give in with the idea that the steel corporation is working for the resumption of the steel business which they have had for several years. Traders in this market are disposed to regard steel and coal stocks as in a particularly weak condition and are only sorry that they cannot short the shares for the ultimate reaction which they regard as inevitable.

The general run of speculative stocks there were insufficient changes in the market to-day to admit of even profitable floor trading, but the deals were there and were presented for the edification of the public. "The Toronto market is still under the operations of the Wall Street exchange and tremors on the larger eastern market are consequently liable to be reflected here."

There was no big liquidating or realizing offerings of stocks to-day and in the absence of these prices were held within a small fraction of those of yesterday. In the investment department of the exchange steadiness was the only characteristic. The buying in this section has been somewhat curbed owing to the reaction in the prices of speculative stocks, but holdings are in strong hands and unless buyers meet the demand of sellers.

Wall Street Pointers.

Bank of England rate unchanged. February dividend disbursement estimated at \$100,000,000. Regular preferred dividend on Pressed Steel Car. Public service commission begins enquiry into train service of Interboro. Iron Age says iron market has shown signs of hesitation in past week.

Joseph says: The great copper combine, now receiving its finishing touches, will be in aggregation of capital, second only to U. S. Steel. Coppers are going up. The iron business is good. During the past three days contracts amounting to upwards of 100,000 tons have been made. Steel preferred is distinctly cheap.

Amalgamated should do better, with Amalgamated on the merger talk. Smelting and Aetehson should be taken on all recessions. B. R. T. is bought for politicians. St. Paul is overvalued. Financial Bulletin.

Buying is so much better than the selling, while there may be a day or two more of erratic fluctuations with bear aggression, we are convinced that the general down movement is over and would not lose advantage of opportunities afforded by moderate recessions to buy the choice stocks for turns or for handsome profits for the long pull.—Town Topics.

On Wall Street. Erickson Perkins & Co. say at the close: While we had a moderate rally in the afternoon, after a bad mid-day break, prices did not hold well. The market shows every sign of working lower by degrees. Financial interests have a way of temporarily supporting prices, then letting them off lower than ever. Union Pacific and Reading reached new bottoms to-day. It is not a healthy market by any means. When there is a promising outlook, one may with propriety buy on drives, on a scale down. But now nobody can forecast the probable bottom. We think stocks will probably steady themselves around this level for a few days.

CHRISTMAS STAMP RESULTS

Nearly \$10,000 Raised for Hospital for Consumptives.

On Wednesday the members of the special citizens' committee, organized in November last to further the sale of the little Christmas stamp issued in the interests of the Muskoka Free Hospital for Consumptives, were entertained at luncheon at the National Club by W. J. Gage, chairman of the executive committee of the National Sanitarium Association. Those present were: Archdeacon Cody, chairman of the citizens' committee, and W. P. Gundy, H. H. Love, Dr. Millman, R. D. Fairbairn, H. D. Eby, A. Ivey, J. R. MacKay, Eric Armour, Frank Rolph, A. S. Rogers, R. Southam, J. S. McKinnon, H. H. Hudson and J. Turnbull, together with Hon. W. A. Charlton, Dr. W. P. Caven, Dr. N. A. Powell, Ambrose Kent, J. J. Crabbe, Thomas Long, Hugh Blain, T. H. Bull, Edward Gurney, trustees of the National Sanitarium Association; J. S. Robertson, secretary-treasurer of the association,

and Dr. W. B. Kendall, physician-in-chief of the Muskoka institutions.

J. S. Robertson presented a report giving results of the stamp campaign. All returns had not yet been received, but cash receipts total \$7981.95. Of this amount the sales effected thru the citizens' committee, under the generalship of Archdeacon Cody, were \$3257.85. Of this amount \$484 had been received thru the efforts of the commercial travelers, \$159.95 from university and colleges, \$328.30 from the Boys' Club of the Y.M.C.A., \$488.90 from the newboys of the C. P. R. and G. T. R. railway service, \$420 from the Printing and Allied trades, \$182.50 from hotels and \$1107.86 thru other agencies put into operation by the citizens' committee.

Mr. Gage informed those present that as a result of the campaign prompt steps would be taken to add from 25 to 30 additional beds to the present accommodation.

TO THOSE INTERESTED, OR SHAREHOLDERS IN

The California-Alberta Oil Co.

NOTICE

At a meeting of Directors of the above Company, held in December, it was decided to immediately purchase a complete oil-drilling outfit, with casing enough to go down 3000 feet. This was bought from the Western Engineering Company, Winch Building, Vancouver, the Western Canadian agents of the National Oil Well Supply Company, U.S.A. The Directors intended to have this shipped so that it would be on the property about the time the snow disappeared, but owing to unexpected developments in Northern Alberta, they have since ordered this to be rushed up as soon as possible.

To-day I sent the following wire to find out when the outfit would be on the ground:

LAND VALUES UP YONGE ST. SHOW BIG ADVANCE

Trethewey Farm Will Pass Into Hands of City Men—Big Price For Clydes—News Notes.

One of the most important farm sales recorded on Yonge-street north within the last six months is that of the Trethewey farm at Newtonbrook, comprising about 350 acres and situated north from the C.P.R. crossing about ten miles. The price paid is \$40,000 for the 350 acres, or a trifle under \$112 an acre. The property was purchased by J. O. Trethewey a little less than two years ago for \$28,000, since which time he has made a number of substantial improvements, tearing down and remodeling one of the barns, and in which there are now large and splendidly appointed horse and cattle stables. Other improvements necessitating considerable outlay, have also been carried out by Mr. Trethewey.

The soil is for the most part a moderately heavy clay loam, eminently adapted for the growing of grain, roots and hay, and the land has always been regarded as first-class. J. W. Breakey for many years successfully managed this farm.

The property has been acquired by a number of Toronto men and it is said to be their intention to at once sub-divide it into building lots, the nucleus of a high-class residential district. Yonge-street cuts the farm in two, a portion of it, 250 acres being on the west, and 100 on the east. As showing the steady and substantial increase in land values in the vicinity of the city, the sale of the Trethewey farm is significant.

WEST TORONTO.

Big Increase in Strength of Seventh Ward Police.

WEST TORONTO, Jan. 27.—Every week or two additional efficiency is given to the West Toronto police force, which before annexation consisted only of a chief and four constables. The number of men at the Keele-street station, including Inspector Geddes and Sgt. Murphy, is now twelve, and this afternoon P. C.'s Arthur Paessingham and Charles P. Taylor, two of the recently appointed constables were awarded certificates for having passed the examination of the St. John Ambulance Association. They are now qualified to render "first aid to the injured."

The Baby farm on the Humber, which

was acquired some years ago by the militia department as a site for the proposed new Stanley barracks, is to be sold shortly, as the government has in view a large and more suitable site in the vicinity of Toronto. Since the annexation of West Toronto to the city, the Baby estate has become very valuable for residential purposes, and a prospective purchaser has offered \$120,000 for the property, which is about six times what the government paid for it several years ago. The sale, however, cannot be effected until the necessary permission is granted by parliament.

Rev. Canon Tucker, D.C.L., secretary of the missionary society of the Canadian Church, will be the principal speaker at the laymen's banquet for 1910, to be held at St. John's Church schoolhouse on Thursday evening, Feb. 10, at 8 o'clock.

The West Toronto branch of the Women's Institute are planning to form a young men's club in ward seven, a committee of ladies, Mrs. Howells, Mrs. Ellis, Mrs. Scarlett, Mrs. Richardson and Miss Libbie Duncan, has been appointed to make the necessary arrangements.

TWO GOOD HORSES ANYWAY.

The World was in error on Thursday in stating that the seven months old filly sold by Auctioneer Prentice at the estate sale of the late William Cox was the get of (Fullerton), instead of (Cairndale), the latter the property of James Torrance, John Thomas and other good horsemen. There was no desire to detract from the worth of Cairndale, a splendid type of Clydesdale, but it must not be inferred that the get of Fullerton has not been equally good in point of quality and price. Marketing farmers are fortunate in the possession of two such high-class horses.

THISTLETON.

The Women's Institute met at the home of Mrs. Barkus on Wednesday afternoon. About fifty-five ladies were present. Mrs. W. Wodard of Forest gave a splendid demonstration on plain sewing and art needlework, and in the evening she gave a very interesting address on (Home).

WOODBIDGE.

The Women's Institute will hold their February meeting at the home of Mrs. Levi Elliott, Wallace-street, on Tuesday afternoon, Feb. 1. Two interesting papers are prepared for this meeting, also a musical program. Ladies all invited to attend these meetings.

CLYDESDALES COME HIGH.

One of the finest draft teams ever sold in Scarborough Township was that belonging to Fred Fisher of Malvern, and bought the other day by James Torrance and Wm. Mitchell of Malvern Village for the great price of \$700. Well matched of a beautiful bay and embodying all that is desirable in a span of registered Clydesdales, they are a credit to Mr. Fisher and Scarborough Township in general. At the East York Plowing Association match, held near Agincourt last fall, they were the centre of attraction and easily took first prize.

Acid Dyspepsia

Nervous People Are Frequent Sufferers From Too Much Hydrochloric Acid in the Stomach.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

"Sour stomach," or acid dyspepsia is a form of indigestion in which entirely too much hydrochloric acid is secreted by the stomach. A sour taste in the mouth is the most common symptom of acid dyspepsia; and the saliva, which is normally alkaline, is found, when tested, to be changed to acid, or just the opposite of what it should be, and is a state of the secretion which causes rapid and extensive destruction of the teeth.

Everything eaten turns more or less sour in the stomach, but sweets and acid fruits are far worse in this respect than other foods. If the eructation of liquids from the stomach occurs, they have such an extremely sour taste as to set the teeth on edge. Hydrochloric acid is an important constituent in the gastric juice, but when too much of it is secreted, it does positive harm to the mucous lining of the stomach; and when acid dyspepsia is long continued it often sets up chronic gastritis, gastric ulcer, and other serious diseases. The premature loss of all the teeth has been caused by acid salivæ, which was dependent upon the excessively acid condition of the stomach.

STUART'S DYSPEPSIA TABLETS, besides furnishing pure, aseptic pepsin to the stomach to dilute the excess of hydrochloric acid, and to digest proteins and albuminous foods very thoroughly, also contain bismuth subnitrate and calcium carbonate, which are antagonistic to the acid, and therefore neutralize the effect of the excessive amount of acid in the stomach, and the continued use of these tablets will change the perverted condition of the secretions to a normal state.

If you are suffering from "hyperchlorhydria," as physicians term it, or in other words, acid dyspepsia, and experience a sour taste in the mouth, with acid eructations or heartburn, begin at once the use of Stuart's Dyspepsia Tablets, using one or two after each meal, or as may be required, and the same quantity at retiring time, for it has been completely eaten away through perverted action of the secretions.

Stuart's Dyspepsia Tablets have been tried in all forms of indigestion and dyspepsia, with an unflinching success, so that no matter which form you may be suffering from, the quickest way to bring about a cure through the use of these powerful stomach tablets.

Secure from your druggist a fifty-cent box, and get cured of acid dyspepsia, or whatever form of indigestion you may be suffering. Also send us your name and address for free sample. Address F. A. Stuart Company, 150 Stuart Bldg., Marshall, Mich.

POSTAL SAVINGS BANKS INNOVATION IN STATES

Bill Has Been Sent to the Senate—Interest at Two Per Cent.—System of Redeposit.

WASHINGTON, Jan. 27.—The postal saving bank bill drafted by Senators Carter, Dooliver and Owen, a sub-committee of the committee on post-offices and post roads, was perfected to-day, and by Mr. Carter was introduced in the senate.

The bill provides that there shall be established a system of postal savings banks, under the supervision and direction of a board of trustees, consisting of the secretary of the treasury, the postmaster-general and the attorney-general and an ex-officio.

All post-offices of a class authorized to issue money orders, and such others as the postmaster-general may designate, are declared to be postal savings depositories. They are to receive deposits and are to be kept open for business every day, Sundays and legal holidays excepted.

An account cannot be opened for less than one dollar, and no more than \$100 can be deposited in any one calendar month. All deposits must be in multiples of one dollar, but in order that smaller amounts may be accumulated for deposit, savings cards will be issued and ten postal savings stamps attached to these cards and at least five stamps show an investment of \$1, or multiples thereof, they will be received as deposits.

Deposits will draw 2 per cent. interest, which will be credited to the books of depositors once in each year.

No person will be allowed to have a balance in excess of \$500, exclusive of accumulated interest.

Funds received by postal savings banks are to be deposited in any solvent bank or banks, and as nearly as practicable in the immediate neighborhood in which funds are received at a rate of interest not less than 2-1-4 per cent.

The deposits are to be distributed among the local banks on the basis of their capital and surplus, and the banks may give indemnity bonds to insure the safety and prompt repayment of deposits.

Provision is made for the maintenance of a reserve fund not more in amount than ten per cent. of the total funds deposited. Interest and profits accruing from deposits or investment of postal savings are to be applied to the payment of expenses of administration of the postal savings system, and the balance is to be covered into the treasury as a part of postal revenues.

"BLACK HAND" AT WINDSOR

Merchant Told to Give Up Two Thousand Dollars or Die.

WINDSOR, Jan. 27.—J. W. Drake, ex-mayor of Windsor, has received a black hand letter, in which the writer declares that he is desparate and demands \$2000 cash, and in the event of refusal the assassination of Mr. Drake will follow, says the epistle. The letter was decorated with the customary skull and cross bones, and a rudely drawn coffin, and mailed from Windsor.

The letter demands that \$200 cash be placed in an envelope and mailed to J. Davis, Sandwich, Ont. A Windsor police officer is now stationed at the Sandwich post-office.

CHILD LOVERS SUICIDE

Boy and Girl Take Strichfyllin Because They Couldn't Marry.

DES MOINES, Ia., Jan. 27.—Because of parental opposition to their marriage on account of their youth, Vernon Barr, aged 16, and Lina Ammer, aged 14, killed themselves to-day. They were found clasped in each other's arms, sitting upright in young Barr's buggy in which they were riding home from a dance. On the girl's lap rested a cup partly filled with strichfyllin and water. The horse had stopped at the gate of the girl's home.
