THE DREDGING SITUATION AS IT IS REPORTED NOW

What Work Has Really Been Completed at Sand Point

There has been all kinds of talk and controversy about the west side dredging until the average citizen can hardly make head nor tail of it.

The engineers of the department of public works were this morning notified by the Dominion Dredging Co. that the site for No. 3 crib of the Clarke & Adams wharf is ready and soundings will be taken at low water this afternoon.

The dredging of the Sand Point berth is not yet entirely finished. No. 1 everything is all right, the dredging having been done to 120 feet from the wharf.

When this portion is cleared up, as it is expected can be done in a few days, the Allan line steamers lying at No. 5 wharf can be moved over to the Sand Point berth at any time.

There is at present a depth of about 12 to 18 feet of water at that point for a distance of about 100 feet which will be increased to a depth of at least 20 feet to allow the crib to pass along.

When that is done and the crib has been moved, the Beaver will have to clean up in front of No. 5 wharf and then return to the diggers to clear a passage way for the No. 3 crib, but it is generally believed that a week at least must elapse before it can be made ready.

There remains considerable digging to be done in the channel between the berths 2 and 3 and the new wharves under construction which is a part of Mr. Mayer's original contract.

The engineers in charge of the dredging declined to disclose how it would probably take to clear a passage way for the No. 3 crib, but it is generally believed that a week at least must elapse before it can be made ready.

SUPERINTENDENT DOWNIE TAKES A FAVORABLE VIEW OF OUTLOOK FOR SEASON

With the exception of the dredging to be done in the vicinity of No. 5 wharf the west side berths are all in readiness for the steamer.

A new platform for landing the over-see passengers and baggage on the other side of the wharf will be built at the wharf where they will dock.

The outlook for grain shipments this winter is exceedingly bright. The C. P. R. elevator on the west side at present contains about 300,000 bushels and in all about 2,500,000 bushels have been contracted for up to the present, which is as much as was handled altogether last year.

The grain shipments over the I. C. R. are also likely to be considerably in excess of last season and the indications point to its being the biggest season yet as far as the I. C. R. elevator is concerned.

It is difficult to make any forecast as to the probable extent of shipments for the winter as so much depends on the market. At present the market is rather favorable on the other side, but prices here have been high.

A shipment of import cattle is coming on the Monmouth from Bristol. It comprises 30 head of choice breeding stock consigned to the west.

A new generator has also been installed in the power house at the elevator, which will provide better lighting in the yards as well as run the elevator.

Talking with A. C. Smith & Co regarding cattle shipments, it was learned that the steamers Monmouth and Tritonia will each take away a fairly large number, some 1,500 head in all.

It is difficult to make any forecast as to the probable extent of shipments for the winter as so much depends on the market. At present the market is rather favorable on the other side, but prices here have been high.

THE ID IS ON TIGHTER THAN EVER IN MONCTON

A VICTORY FOR PICTURE HATS

MONCTON, Nov. 21.—(Special)—That theatre managements have no right, under the general law, at least to require patrons either men or women, to remove their hats is the gist of an opinion of Judge Piche given in the police court today.

Mr. Piche said the only remedy for a charge of assault laid against the constable of a local theatre by Miss Robertine Barry, who was ejected from the theatre because she refused to remove her hat, was to require the theatre managers to secure the passing of a by-law by the city council making it an offence to wear a hat in a theatre.

HA HA! HO HO! HEE HEE!!! MYSTERY IS IN THE AIR

There was considerable conjecture this morning as to the meaning of a gathering of the executive of the local liberal association. The meeting was held in the office of the secretary, Heber S. Keith, in the Ritchie Building, Princess street and Hon. William Pugsley, minister of public works, was among those present.

When asked as to the object of the meeting they were discreetly silent. It has been learned, however, that the matter of selecting a candidate to run with Dr. Pugsley in the general elections for the Dominion house and the matter of patronage were discussed along with other questions.

The Baroness Did Not Forget

BY L. A. HARKER.

The baron had gone to Homburg. The baroness, for some reason known only to herself, chose to visit her newly made friends, Lord and Lady Watcliffe, in Wensley Dale.

"I hardly like to ask you to come to Wensley Dale. It is only a small house, and we have no house party; our only other guest will be Prof. Ray. I think you said you had not him some years ago. Still, if you will venture, and if you still feel the desire you expressed in Paris to see our Yorkshire moors—know how charmed we shall be to see you. The heater is at its best now, so try to give us a day or two."

"Do you know his wife?" asked the baroness, and there was a note of real interest in her voice. "Not well. I've met her; she's little and young, and gay, and the children are beautiful."

slowly, "that I was rather in love with you at Capri?" "I know that I was more than 'rather' in love with you."

"My life is full of shadows," she said wearily; "nothing is real."

"At least you have lived your life; you have a thousand tender memories to lose. Since my parents died I have nothing. My brother is in Siberia and the baron is at Homburg, where I follow him tomorrow. You are the best off; though you leave so much, you have got it to leave."

He tells me he has prepared a very full report which will shortly be presented, and will see the light in the form of an official blue book.

WEST SIDE MATTERS Does it not occur to the average citizen that it is hardly worth while to make this or that dredge owner responsible for the lack of adequate direction of affairs at Sand Point?

Why is it that unexpected discoveries are being made from day to day, and causes of delay of one kind and another? Would not a competent head of the whole work to be done know exactly what was to be done and what should be done first?

The exports of butter from Montreal from May 1st to Nov. 19th, were 66,771 packages, compared with 361,163 packages in the corresponding period last year, and 333,196 packages in the like period of 1905.

The Toronto News says: "It is officially intimated that Mr. Archie Campbell, M. P., will be called to the senate. There is no particularly good reason why Mr. Campbell should be a senator. It is not certain that he possesses that judicial mind which one would imagine a necessity to those charged with the duty of revising legislation enacted by the house of commons."

The benefit to be derived by sending three immigration agents from this province to England will depend largely upon the ability of the men. It will be interesting to note what manner of men are chosen for this particular business.

NOBLESSE OBLIGE

(E. Carrol Schaefer, in Life). To live the life my father taught, Of honor, dignity and length; To do the little things I ought; To know, but not to show my strength; To make and keep a friend or two; And show a kindness every day; And do it in a goodly way; To earn so much as I may need For my own wants, and little more; To win, perhaps, a cheering word From her whose praise I labor for; To do no hurt by thoughtless speech, By careless, cruel look or act; To learn from whomsoever may teach The kindly courtesy of fact; These be the lessons I must scan That I may bear, without reproach The grand old name of Gentleman.

IN LIGHTER VEIN NOT KIND. (From the Cleveland Leader) Her-No, Mr. Wyse, I'm afraid I must refuse you. You would have no consideration for the feelings of my mother. Him-Why, what makes you think so? Her-Why did you hang your hat over the keyhole before you proposed to me?

W. T. WHITEHEAD IS CHOSEN BY YORK COUNTY LIBERALS

He Was Nominated at Yesterday's Convention After Considerable Wrangling—E. H. Allen Second and Alex Gibson Jr. Third—Dr. Pugsley the Principal Speaker.

Fredericton, Nov. 20—After a stormy and confused session, involving charges of ballot-box stuffing and the retirement of the chairman, the York County Liberal convention here this afternoon nominated W. T. Whitehead for Ottawa over E. H. Allen and Alex. Gibson, ex-M. P., of Marysville.

Less than 100 voters were present, but it is said that 400 ballots were placed in the box when the first vote was taken, and at least one man was said to have voted four times.

The high tide in the convention is the talk of the town tonight. It is thought the fight over the nomination between Whitehead and Allen forces will greatly weaken the party as a fighting force. Hon. Mr. Pugsley in his speech promised the construction of the Valley road in three years, but Carrall, ex-M. P., of St. John, the present member, is not expected to expect any railway.

When Mr. Pugsley in his speech promised the construction of the Valley road in three years, but Carrall, ex-M. P., of St. John, the present member, is not expected to expect any railway. Some of the scenes in the convention were without precedent here. It took the convention nearly three hours to come to a decision.

The names of Mr. Whitehead, E. H. Allen, Alex. Gibson, ex-M. P., of Marysville, and E. H. Allen, claims agent of the I. C. R., were placed before the convention, and Whitehead won out on the second ballot, receiving 94 votes to 70 cast for Allen. Having received the smallest number of votes on the first ballot, Gibson retired from the contest per agreement.

The nomination of Mr. Whitehead was made unanimously, as Mr. Whitehead was not at the convention when the nomination was made in open convention. Mr. Thompson accepted the nomination on his behalf. Mr. Gibson made a brief address, pledging his support to the choice of the convention. Mr. Allen did not attend the convention, although he has been in the city since Monday.

Speeches on political issues were delivered by Messrs. Pugsley, Carrall, McKeown and Robinson, each coming in for a hearty reception. When Chairman Edward Moore called the gathering to order at 2.30 o'clock there were about 200 delegates in attendance. Mr. Moore, after briefly explaining the object of the gathering, suggested that John Anderson, ex-M. P., of Dumfries, be chairman, and this was agreed to by the meeting.

As only a few delegates had been regularly chosen at yesterday's election, the party there was a lively discussion at the outset as to what mode of procedure should be followed. The old time party leaders wanted a nominating convention, while others, more especially those favorable to Mr. Allen's candidature, wanted the nomination made in open convention. After Senator Thompson, Judge Barry, Geo. F. Burden, J. D. Phinney and others, had expressed their views, a motion was made the selection in open convention was carried by a substantial majority.

TEACH THE YOUNG TO PLAY GAMES

Why So Many of the Boys and Girls Go Wrong.

In looking over the statistics concerning criminality one struck with the manner in which two startling facts stand out. First, one-half of those convicted of crime are unskilled workers, that is to say, have no knowledge of a trade and about one-third of them range in age from eighteen to twenty-five.

It is interesting to consider that for the average healthy boy to be absolutely idle, is about the worst thing possible. I may give the same applies equally to girls. Let the boy or girl be kept constantly busy, either in school, or at play; by play, I do not mean running haphazard over the streets, but by playing some game, such as baseball, hockey or cricket, where he gets his first lessons in organized effort.

The physical benefits accruing to the children of the working class, and their engagement in physical exercise in the open air, are too obvious to need mentioning. And let me not lose sight of the moral value of play for all young and old alike, in choosing amusements choice things according to character; during our leisure hours we show what we really are for the thing chosen as a pastime is chosen freely and may be merely a trivial matter or, on the other hand, may be a choice between things good and bad and will bring us into contact either with those better or those worse than ourselves.

I have seen young men and women from homes engage in rough, romping games, not at all good to look upon. The trouble simply was not that they were vicious but that they had not when young learned to play games or indeed to play at all.

Busy people must maintain health, must build up. Take Ferrerozine—it sharpens the appetite, forms rich, red blood, develops strength as if by magic. ESPERANTO. 1239 Michigan Ave., Chicago, November 17, 1907. Editor Times: Notwithstanding the immense amount of publicity which has been given to Esperanto, the international language, I find that at this time not more than one-fifth of the people of the United States have even a vague idea of its purpose and scope, and perhaps not one in a hundred has a reasonable definite conception of the possible benefits which it is capable of affording to the world.

AMERICAN DELEGATION ON A VISIT TO OTTAWA. They Want to Stop Net Fishing in Missisquoi Bay. Ottawa, Nov. 20—A large and influential delegation comprising senators and assemblymen of the State of New York and the State of Vermont, along with other influential American and Canadian residents interested in fishing as a sport, arrived in the city this afternoon on a delegation to wait upon the minister and officers of the department of marine and fisheries in regard to the fishing regulations in Missisquoi Bay. They had an interview with the deputy minister of marine and fisheries this afternoon and will meet the minister tomorrow forenoon. What they ask is to prevent the catching of fish by nets in Missisquoi Bay during the spawning season. The bay is the spawning ground for Lake Champlain. A number of very fine summer residences are located there and the fish are rapidly disappearing. The residents feel this all the more because the injury is done through a dozen licenses granted by the province of Quebec. Arrangements are being made to have C. R. Devlin, the member of the Quebec government, who has this in charge to attend tomorrow's meeting.

MISS FLY IS VERY DIS-AGREEABLE—HANNAH SAYS TO BE PATIENT. Editor Times: Sir—Miss Fly is disappointed that the Stork brought the triplets to Hannah at this time. Miss Fly read in the paper of the Governor's Leave, and the Dog Show—when she read over the names of society people who greeted these events with their presence, she said she felt them as a failure because she was absent—she says she will be forgiven for not appearing. She had bought a yellow cotton dress—varied with many colored flowers and leaves. She had a hat to match—this costume, asked me how she looked. I lacked policy in my answer: "You look like a sunset before a storm." I had only time to light my pipe—the storm broke. Miss Fly ordered me out of the house. She said she'd have no smoking while she kept house.

A LONG WALK. Young Englishman Walks 138 Miles Inside of 37 Hours. Oshawa, Ont., Nov. 20—David Langford, a young Englishman was tonight again successful in making the walk of 138 miles from Oshawa to Toronto, to longevity. She returned—Such a view of the many evils that accompany their living. Human beings who are the mere votaries of their appetites or pleasures cannot be said to live—they exist." Miss Fly quoted from the poet Bailey:

"We live in deeds, not years; in thoughts, not breaths; In feelings, not in figures on a dial. We should count time by heart-beats, not hours; He most lives who feels the noblest, acts the best."

I think some of Miss Fly's ideas point a moral, but her vanity irritates me. I told Hannah about it. She told me a fable: "A mouse was born in a box in a back yard. One day it went on top of the box and looked around. It exclaimed, 'I'd no idea the world was so large.' Now, Buck-wheat," said Hannah, "we are all more

SCHOOL-DAY RECREATION:

A Word of Advice to Boys and Girls
 Boys and girls (I am speaking to those attending school) do not sit around in the school room during the ten or fifteen minutes' recreation that is granted to you twice each day. Spend the time in the open air, relaxing your muscles after the hour and a half spent at the desk. When the recess bell taps on of doors, toss your head up, throw out your arms, breathe deeply and laugh merrily. And if you feel inclined open wide your throat and hallow as loudly as your vocal organs will allow. This is splendid exercise for the throat and chest organs, to say nothing of the fun in thus giving full vent to childish spirits. Good, wholesome laughter--no matter if it is loud--is never objectionable when indulged in by school boys and girls during their out-door exercises.

Digby, N. S., Nov. 20--(Special).--Word has just reached here by mail from Tiverton, Long Island, forty miles west of Digby, that a bottle was picked up on Bear Cove, Bay of Fundy shore, Nov. 14th, containing a piece of cardboard on which was written "Ship is sinking, notify Wm. Foster, Boston."

THE SCOTS IN ACADIA:

The lecture on the Scots in Acadia given yesterday afternoon by Mrs. George F. Smith in the Natural History Society room, proved very interesting to the attendance was large. The lecture room was appropriately decorated and the Scottish standards and bannocks engaged were draped over the platform. Super Lawrence MacLaren and other boys in Scotch dress, marched in and took seats to the strains of the national air.

THE STORY OF A JOB:

How One Man Got It and Another Man Didn't, and Why.
 A federal government position which was recently filled in St. John furnishes an evidence which may be taken as an indication that all is not harmony among the local liberal leaders. It is understood that a leader of one of the factions of the liberal party, who had once been a candidate for Ottawa, had a candidate for the position, and had assured him that all was lovely and all he had to do was to accept the position when offered to him, do his work and draw his pay.

Repairs have been made on the government steamer W. S. Fielding and she is now at Sallows Rock. Chas. E. Lockhart, mill owner of Notre Dame, Kent Co., N. B., is the new owner of the trotting mare Ada Mac. Norwegian steamship Dageid, Captain Olsen, has been fixed to load deals at Pugwash, N. S., for west coast of England, at 22. 6d. Government steamer Lady Laurier, which arrived at this port yesterday from Yarmouth, N. S., is engaged today in placing the cables for the submarine bells off Negro Head. The dominion steamer Lansdowne, Captain George Biset, accompanied by the lightship Lurchee to her moorings last Saturday from Yarmouth, N. S. The trip was successfully accomplished. At 8 o'clock last night an alarm from box 14 gave the firemen a run to M. J. Nugent's house at the corner of Brussels and Richmond streets. The trouble was a chimney fire which was soon subdued. A citizen with a weakness for financial calculations was trying to figure out the difference in profit for a day in the operation of two dredges working of the wharf one at fifty-five cents and the other at ninety cents per yard. Mrs. Nalder, who is here in the interest of Pandora Ramabal's great rescue work in India is stopping with E. A. Dykeman, 31 Peter street. Anyone practically communicating with her in respect to her work and the mission may find her at the above address. The Allan line winter port staff will leave Montreal tonight for the winter port and their head office will be at Walker's wharf. The personnel of the staff is as follows:—R. Teakles, manager; Captain Miramichi, shore captain; George Fielding, the general custom house clerk who has been here the last three winters, and W. F. Arbuthnot, Magee.

About 12:30 o'clock this morning fire was discovered in the engine house of Chas. Wheaton, on Main street, opposite No. 5 engine house. An alarm was sent in from box 125 and the department were at the scene in a short time. It was found that the proprietor had left a fire on in a range in a small room in the rear and the heat was so intense that some kindling on the floor took fire. The salvage corps men broke open the back door of the shop and a stream from the chemical engine soon put the fire out, practically the only damage done was from the smoke.

AN ATTRACTIVE BOOKLET St. John's Advantages As A Manufacturing Centre Set Forth in Neat Publication. The industries committee of the board of trade have just issued a very attractive booklet, showing views of the city and harbor and containing engravings of leading local industries together with much useful information. Facts and figures are given to show that St. John is not only the great winterport of Canada, but an ideal location for manufacturing. The greater part of the booklet is taken up with a description of the industries already here. Among these are the pulp industry, the lumber trade, lime quarries, the iron industry, wood working, brass works, brush making, paper box making, vinegar factories, cigar factories, tea blending houses and many others. The section "Facts About St. John," contains much information which may well be a revelation even to local people who are not as well acquainted with their home as they ought to be. The booklet is a very handsome one and well and artistically gotten up. Copies will be sent where they may influence the securing of manufacturers for St. John.

KNIGHTS OF COLUMBUS The St. John Council No. 537 Knights of Columbus held their third anniversary yesterday. At 12 o'clock about 150 of the members marched from the council building on Charlotte street, headed by the City Cornet Band, to the Cathedral where high mass was celebrated by Rev. Fr. O'Keefe. The preacher for the occasion was Rev. P. W. Brown, of St. Patrick's church, Halifax, who spoke eloquently on the practice of a lively faith and upholding the sacredness of the home. In the afternoon the first and second degrees were exemplified in Keith's assembly rooms, and in the evening the third degree was worked by D. P. Hayden, of Halifax, and the degree staff. There was a large attendance of New Brunswick, Nova Scotia, and upper Canadian knights.

PERSONALS Mr. and Mrs. H. D. McLeod left last night to spend the winter in Southern California. Many friends were at the depot to see them off. Mrs. C. D. Trisman returned home by C. P. R. yesterday, much improved after six months' outing at Ononette and Montreal. Mr. and Mrs. Chas. E. Vail left last evening for a two weeks' trip to Boston and Toronto. The Misses Lugin left last evening for their home in Victoria (B. C.). Col. White, D. O. C., went to Ottawa last evening.

THE FISH TRADE WITH THE WEST St. John Dealers Shipping As Far As the Pacific Coast--The Local Market.

Brisk demand, with fairly good supply and prices holding firm, are the leading features of commercial fishery circles in St. John for the present week. It is equally true, according to a prominent local dealer, that business in some lines, at least, is not so good as it was at this time last year, a fact which, in a measure, is accounted for by the slump in the lumber business. On Sunday last the schooner Defender arrived with 20,000 pounds of fresh haddock for H. P. Robertson, and during this week the schooner Cora May landed 22,800 pounds of haddock, 12,200 pounds of cod and hake for the same dealer. Like other dealers, Mr. Robertson reports that the fish curing business is good, but the only trouble is to procure a sufficient quantity of fresh stock to work with. Within the past fortnight Mr. Robertson shipped 800 thirty-pound boxes of cod and hake for the same dealer. Like several carloads of fish for Winnipeg, Calgary and the Pacific coast, the Leonard Bros. received 30,000 pounds of fresh haddock from Westport, N. S., and 20,000 from various places along the Bay of Fundy coast. A thousand pounds of fresh cod arrived from Grand Manan for James Patterson. The retail stores are pretty well supplied for tomorrow's trade and the general variety is well up to the standard, considering the time of year. Retail prices rule as follows:—Cod 6c per lb., haddock 6c, cod steak 10c, pickered 10c, halibut 18c, smelt 10c, mackerel 12c, oysters 75c, salt cod 8c per lb., boneless cod 12c, 60c, salt cod 8c per lb., boneless cod 12c, 60c, chickens 18c per box, kippers 24c, and herring 24c per dozen, finnan haddie 8c per lb.

He enjoyed the esteem and patronage of the business people in all parts of the Miramichi. Mr. Rundle will devote his time in the future to the lumber industry.

LUMBERING PROSPECTS What is Being Done in Welsford and Vicinity.

WELSFORD, Nov. 20.—Messrs. Reid & Rankine are running two camps across the stream from Eagle Rock. They are feeding Hemlock logs, and piling for the New York market. James W. Cochrane is cutting logs and pulp wood on Mrs. J. E. Woods' land for L. Langley, of Westfield. Campbell Street has had a heavy job lately moving Ed. Hughes' mill from Cartou Lake to Queens Lake, to saw a large cut he has in Queens Lake. Harry Baird, of St. Marys, York Co., has a large crew cutting for H. W. Woods on the old Merritt lot, near Government House, so called. Messrs. McKenzie & Nase are to have another cut where their mill was last summer at "Fowler's Falls." Then they are to move to the Harding Brook farm in the spring, to cut for them and some others that are going to have lumber in the same place. A large quantity of dry spruce is being cut near Blagdon to be shipped to the American market for pulp wood, by the Rowley Brothers, Westfield. At Clarendon Messrs. Thos. Howell, Abner Howe and others are also cutting pulp wood for export. Michael & McCrackin, who have a gas-engine running a threshing machine, have had a serious time lately with the engine balking on them.

At all events it will be a lively debate. There will be some music as a preliminary to warm up the rival factions. Mrs. Chas. Trafton and Mrs. H. H. Bruner of Woodstock are at the Victoria.
