TWO HUNDRED ARE VICTIMS

No Hope For Men Entombed In Virginia Mine

SIXTY-SEVEN RESCUED

Mine Wrecked By Terrible Explosion and Large Number of Miners Were Shut Off From Safety

(Canadian Press) Ecles, West Va., April 29.—Eight bodies have been recovered from shaft number six of the New River collieries with which shaft number five was wrecked by an explosion yesterday. Sixty-seven men were taken out alive. There are no more men in number six. One hundred and seventy-eight are buried in number five, and officers of the company expressed the opinion this morning that none would escape with his life.

A rescue party was dropped down shaft number five soon after eight o'clock, and got within 120 feet of the bottom. There the progress of the work was stopped by broken and twisted timbers and a heavy fall of earth. Work was commenced clearing away the debris, and it was thought the bodies could be reached this afternoon. No gas was detected on this level, and mining experts expressed the belief the mine was not on fire.

Governor Hatfield, of West Virginia, is in charge of the relief work while Earl Henry, chief of the state department of mines and H. C. Bayles, general manager of the collieries company, are leading the rescue crews. The entrances to the mine are far apart, but the workings join underground. When the dust exploded in mine number five, the fumes entered number six shaft, and there the eleven known dead were killed. Prompt measures taken by Superintendent Thomas Demison, resulted in the rescue of sixty-one from number six shaft. Many of these rescued were burned severely and improvised hospitals here and at Beckley are crowded.

When it was found shaft number five was burning, the entrance was closed and the entrance to number six workings were batticed. The task of finding the bodies in number five shaft must wait until the flames have been extinguished. Believe All Are Dead. General Manager Bayles at midnight said he believed the 100 men known to be in number five shaft were dead. This belief is also accepted by mining experts who rushed here last night, and by the relatives of the entombed men. It is not believed one man in number five escaped alive, as the sudden explosion was followed quickly by outbursts of flames.

Most of the miners are American born, although there is quite a number of foreign born workers. Of the bodies recovered, eight were white Americans, one negro, and eight foreign born. The explosion was terrific. A rumbling noise was heard through the town as residents rushed to the entrance of the mine, timber, pieces of cars and other debris fell from the mouth of mine five shaft.

Many of those rescued said they were overcome by the gas fumes before they knew what had happened. The first man to leave the mine shafts climbed to the surface of number six hand over hand, on a rope. Two carloads of coffins were ordered last night from Cincinnati, are expected here during the day. Chief Henry made a trip into the number six workings after midnight this morning and found much debris. Efforts will be made to effect an entrance to number five shaft today.

STEAMER LOST WITH CREW OF TWENTY Duluth, Minn., April 29.—The steamer Benjamin Noble is lost off Duluth and twenty men are believed dead. Wreckage was found on Spark Point. Liftsavers are unable to launch a boat because of the high seas. Not a man reached shore, as far as known.

SENDING ARMADA TO CURB ULSTER

Eleven More Warships Arrive Off Ireland

CORDON STRENGTHENED

Will Prevent Any Further Smuggling of Arms—Arrival Caused Wild Excitement—Six Regiments For Belfast

(Canadian Press) Belfast, Ireland, April 29.—The cordon of warships thrown around Ireland by the English government to check the operations of "gun runners," smuggling arms and munitions of war to the Ulster volunteers, were strengthened today, when eleven more vessels of the British navy arrived in Bangor Bay and dropped anchor. This fleet was the most imposing armada that England has yet sent to curb the hostile Ulsterites. The squadron included fast cruisers, which can run down the fastest smuggling ship afloat, and gunboats that can operate ashore and capture contraband supplies.

Wild excitement was caused here by the news of the arrival of the warships. Reports were received that the vessels had brought troops who would be landed in the case the soldiers of Ireland refused to take any action against the people of Ulster. Great crowds hastened to Bangor, which is twelve miles from this city, and stood for hours watching the vessels. Bangor castle was besieged by a mob that struggled to reach castle towers in order to get better show of the fleet.

In the meantime the news was flashed to all the Ulster headquarters in Ulster to guard against seizure of the arms that have been imported. Dublin, Ireland, April 29.—Six regiments were ordered today to prepare for immediate departure to Belfast. The troops will cooperate with the naval forces to stop the smuggling of arms to the Ulster volunteers. May 29th was London, Eng., April 29.—The Ulster crisis will never gravitate. Today with military and naval forces on the move, a climax that will lead to war in Ireland is expected hourly. All members of the cabinet were summoned post haste to Premier Asquith's residence in Downing street, this forenoon. There an important proposal was drawn up. It is reported that this order may be law in Ulster. It will not be issued until absolutely necessary.

The government has made active preparations to resist any attempt by the troops to seize the arms taken into Ireland by gun runners. They are frantically distributing the weapons before their forcible confiscation can be effected. The volunteers boast that they have already placed barbed wire to prevent a rapid advance by the soldiers, and have secured dynamite with which to blow up all railway bridges leading to Ulster. In the meantime they are tapping the telegraph lines and learning the contents of all messages sent out by army headquarters.

ARGUMENT IN THE NAGLE CASE

Counsel For Both Sides Heard This Morning—Fercible Comment on \$16,000 Entry on Books of Construction Company

The case of Thomas Nagle vs. The Quebec & St. John Construction Company and the St. John & Quebec Railway Company was resumed in the circuit court at ten o'clock this morning. The first two hours were taken up with arguments on points of law, by Mr. Mullin, K. C. for the defence, replied to by Dr. Wallace, K. C. for the plaintiff.

Mr. Mullin, in addressing the jury, stated that the plaintiff, Mr. Nagle, was only the nominal plaintiff. The real plaintiff was J. D. Seely. Mr. Nagle was not a bona fide holder for value in due course. It was extraordinary that Seely should have sold this note for \$11,000, three days before it was due. Was not the sole purpose and object to enable this suit to be brought in the name of Mr. Nagle? It was a shuffle and Mr. Nagle closed his eyes to it. He deliberately abstained from making inquiry. Of course he is not the real plaintiff. He sat in court as an onlooker while Seely set at beside the counsel and prompted them. He referred to the legislation and said it had a good object.

H. O. McInerney for the plaintiff, referred to the terms "legal authority" and "moral claim" frequently used by Gould in his evidence and said that these covered a multitude of sins. He (Continued on page 7, second column)

STRIKERS AND MINE GUARDS IN FIERCE BATTLE

Field Strewn With Dead and Wounded

TOWN ON FIRE

In Other Parts of Colorado Downpour of Rain and Arrival of Troops Put an End to Hostilities

Denver, Colo., April 29.—Strikers and mine guards are engaged in a furious battle at the Forbes mine, fourteen miles from Trinidad. The fight started at 5 a. m. The town is on fire, half of the camp houses having already been burned. The battle at Walsenburg was resumed at dawn after a few hours lull because of a heavy rain, and is now raging fiercely.

The mine guards are bombarding the strikers' position with their home made cannon. The dead and wounded lie strewn on the battlefield. Violence in the strike zones of Colorado came to an end shortly after midnight when a downpour of rain drove cover striking miners, who were attacking the Walsenburg mine near Walsenburg, in Colorado, where actual violence obtained, and today dawned with the prospect of indefinite peace between the warring industrial factions.

Federal troops from Fort D.A. Russell, Cheyenne, who arrived in Colorado early today and troops from Fort Leavenworth, Kan., were expected to reach the state before night. The soldiers from Wyoming went to Canon City to take charge of the situation, and the troops from Kansas probably will go to Trinidad.

The situation in the northern district became quiet yesterday, when the strikers ran out of ammunition, and their supply could not be replenished, and upon the arrival of the state troops there. In official circles here and among the union leaders, there was expression of confidence in the federal troops to control the situation. Governor Ammons, however, reiterated his determination not to withdraw any of the state troops from localities which will not be empty until the situation is completely quiet.

President Wilson's proclamation yesterday, by virtue of which the federal troops were ordered into Colorado, gives the strikers no new ground. They were told to return to their various labors peacefully and to cease all acts of lawlessness.

WOULD DECIMALIZE TIME

Frenchman Proposes Twenty Hours and 3,000 Crochetes for Day

London, April 29.—A suggestion made in the current Review Bleu for the purpose of bringing the chronological system into line with the decimal system of money, weights and distance. The new proposal involves the division of the day into twenty periods, called hours. Instead of twenty-four hours, each hour being similarly divided into fifty periods, called minutes; each minute being divided into ten periods, called seconds. The chronos are being the thousandth part of a day, and the gram and the meter are the thousandth part, respectively of the kilogram and the kilometre. The chronos are further subdivided into centichrones, the equivalent of a second.

The deviser of the plan asserts that the new system would facilitate marine observation, besides simplifying calculations of time generally. The French government, however, shows no inclination to adopt the idea.

DIED IN THE HOSPITAL The death of Harold Blackford occurred yesterday at the General Hospital from blood poisoning. He was nineteen years of age, and the only son of Mr. and Mrs. Jos. Blackford of 713-1/2 street. He was accidentally shot in the foot several weeks ago and was brought over to the hospital here for treatment. Blood poisoning now, ever, set in and death occurred yesterday. Mr. and Mrs. Blackford have many friends in St. John who will sympathize with their bereavement. The body was taken over in the John L. Cann at noon today, accompanied by Mrs. Blackford, and the funeral will take place tomorrow.

FIRE IN WEST ST. JOHN Fire broke out this morning about 10 o'clock in Caverton in the building in Union street occupied by the Union Ice Co. and D. C. Clarke for office purposes. An alarm was sent in from box 116, and the department was quick to respond. The fire had apparently gained considerable headway before being discovered, for it stubbornly resisted the efforts of the firemen to extinguish it. It was about an hour before the "fall-out" was sounded. Quite heavy damage was done by water and by the cutting of the building to get property at the blaze.

Reception For The Commissioners At Moose Home

Speeches By Newly Elected Members of Common Council—Mayor Frink Predicts Big Activities in Next Two Years—Plans to Remodel Moose Club-House and Provide Modern Features

A civic election seldom witnesses such a demonstration as that at the home of the Moose last evening. When the bands with the crowd attending the baroque in which were seated Mayor Frink, Commissioners Wigmore and Agar and Mr. Potts, drew up in front of the home of the Moose on Colberg street, where additional lights and Chinese lanterns had been placed and a bonfire blazed, the whole street was a close packed mass of humanity which cheered each of the speakers and also gave a rousing reception to Mr. Russell, who arrived a little later. It was a good-natured crowd, and all the speakers were given a good hearing.

It was with extreme difficulty after the speakers had been delivered that a passage could be made through the densely packed crowd to enable the mayor and the other gentlemen in the brochure to pass into the Moose Home, and in less than five minutes, although admission was only to members and a few friends, the big building contained many hundreds of men, with still a large crowd seated outside. A small platform had been placed in the large hallway, and near it the guests were grouped, the mayor being on the platform with W. E. A. Lawton, chairman of the reception committee.

After a musical number A. M. Beland proposed the health of the mayor. He said the members of the Local Order of Moose were not there to congratulate a group of men upon their victory over their men, but to extend a cordial greeting to the members of the new city council of St. John. The man who filled the position of mayor of this city for the next two years would have great responsibility. Within two years the people hope to see new wharves at Courtenay Bay, and steamships lying beside them. There would also be great development in the western harbor, and much other public work would be carried out that would have an important effect upon the future of St. John.

Mayor Frink was no novice, and his experience would be of great benefit to him in the important duties he would be called on to perform. Mayor Frink, in response, thanked the members of the Order of Moose for their reception, congratulated them upon their membership and splendid home, and wished them all success as an organization. With regard to the growth of St. John, he said it would be much greater in the future than in the past. As to the works at Courtenay Bay, it was possible that some mistakes had been made, but the work would be carried forward. The like might be said with regard to the Valley Railway, which would have its terminals at St.

John. As that railway was to be the subject of investigation he would not discuss it further. On the west side new wharves would be built, and facilities for increased trade provided, and the next two years would see great progress in St. John. During that period all his energies would be devoted to the promotion of the city's welfare, and so far as his office was concerned he could assure the people they would always find there an open door, which made no discrimination between rich and poor, and they would always find him ready and willing to serve the public interest to the best of his ability.

The other gentlemen being called away by other engagements a musical programme was put on and an interesting address made by W. C. Smith organizer for the Moose, was introduced by J. A. Barry, and who announced that plans were in preparation to enlarge the Moose Home, provide it with a twentieth century gymnasium, plunge and shower bath, and other improvements.

An efficient committee served refreshments to the hundreds of men present. The musical programme was participated in by H. Bond, H. Tomes, Wright and Fairmont, W. G. Hiramington and F. A. Ull. The proceedings ended about midnight. (Continued on page 4, fourth column)

KING GEORGE WATCHES FRIAR MARCUS CARRY HIS COLORS TO VICTORY

London, Eng., April 29.—"Guinea Week," or the first spring meeting opened at Newmarket yesterday in fine style. The weather was glorious, the attendance large and fashionable, and the sport good.

The king was present and had the pleasure of seeing his racing colors carried to the fore by Friar Marcus, the splendidly balanced son of Cicero and Prime Nun, who made a successful debut in the maiden two-year-old plate for which there were twenty-three starters. The winner was a favorite two to one.

SECOND TRIAL FOR BECKER NEXT WEEK

New York, April 29.—The second trial of former police lieutenant Charles Becker for the murder of Herman Rosenthal, will begin next week. Martin T. Manton, new counsel for Becker, joined in the motion of District Attorney Whitman for three hundred talesmen, from whose number a jury will be selected and yesterday declared his readiness to bring the case to trial at once.

Mr. Manton's statement came as a surprise, as it was expected that he would ask for a postponement of a month or more from May 6, the date set by Justice Seabury, because of his unfamiliarity with the case.

MILITIA ORDERED TO MINING DISTRICTS

New Westminster, B. C., April 29.—Two companies of the 104th Regiment Westminster Fusiliers will be dispatched to the Vancouver Island coal mining district within the next day or two in response to a request for augmented aid to the force at both Nanaimo and Ladysmith. It appears that the councils of both towns refused the coal miners unless permission to organize a demonstration under the form of a May day parade and it is stated threats have been made that they will parade anyway. As there has been a recrudescence of the rioting spirit among the miners the authorities asked to decide for the militiamen.

FIRE THIS MORNING. Slight damage was done by fire this morning in a shed in the rear of the Victoria restaurant, Mill street. An alarm was rung in from box 8 and the firemen responded. The blaze was quickly extinguished. The fire was in a very dangerous locality and had it gained a little more headway the whole wooden district would have been in jeopardy.

NEW TREATMENT FOR TUBERCULOSIS WELL RECEIVED IN PARIS

Discover of Young Swiss Biologist—His Being Demonstrated With Success—The Method and Its Results

Paris, April 29.—A new treatment for tuberculosis which, in the opinion of some of the principal experts in the disease, gives greater hope for a cure of the scourge than anything yet discovered, was described to the Academy of Medicine at a sitting last night.

The new method for combating the disease is the discovery of a young Swiss biologist, Henry Spallinger. The treatment as described to the Academy consists of combined intramuscular injections of antigenic solutions and of ferments, which are modified according to the condition of each patient. The treatment, it is claimed, causes the drying up of lung cavities, and the disappearance of bacilli, and stops the fever. Three results which never has been obtained by any previous method for the cure of tuberculosis: the action of the injections is said to be extremely rapid in incipient cases.

In several cases described to the Academy the patients were said to have been able to follow their usual occupation.

Vankleek Hill, Ont., April 29.—F. A. Senecal, secretary of the Prescott County Liberal Association was chosen yesterday as Liberal candidate for the legislature in succession to Gustave Ewanturel, who recently resigned his seat in the house as the result of charges preferred by G. Howard Ferguson, M. L. A., for Grenville.

The officers of the association today refused to allow Mr. Ewanturel's name to go on the ballot for nomination as candidate and this precipitated a warm contest.

Mr. Ewanturel, in a fighting speech, declared he would contest the riding as an independent candidate.

Why Advertised Goods Are Generally Better

A manufacturer who spends a great sum of money in making his trademark known is building for the future. That trademark is valuable to him only so long as he makes good. His investment in good will pays him dividends only so long as he retains that good will. He has set a high mark and must live up to it. Manufacturers are turning today to the daily newspapers for their advertising campaigns, because they find that through them the "Good Will" they value so highly can be built up at less expense to themselves than in any other way. Would you like to know more about it while you are working on your plans? Drop a postal of inquiry to the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York. HOW TO TREAT ALL SKIN TROUBLE

Greasy Ointments No Use—Must Be Cured Through the Blood

It is not a good thing for people with a tendency to have pimples and a blotchy complexion to smear themselves with greasy ointments. In fact they couldn't do anything worse, because the greasy clogs the pores of the skin, making the disease worse. When there is an irritation such a soothing boracic wash may help allay the pain or itching, but of course it doesn't cure the trouble. Skin complaints arise from an impure condition of the blood and will persist until the blood is purified. Dr. Williams' Pink Pills have cured many cases of eczema and skin diseases because they make new, rich blood that drives out the impurities, clears the skin and imparts a glow of health. The following proof is offered, Mrs. Fred Tremble, Gunter, Ont., says: "For more than a year I was steadily afflicted with salt rheum or eczema. My hands were so sore that I could not put them in water without the skin cracking open. I tried all sorts of ointments recommended for the trouble, but they did not do me a particle of good. I was told Dr. Williams' Pink Pills would cure the trouble, and began taking them. I took the Pills steadily for six or eight weeks and they completely cured the trouble. This was several years ago and I have never been bothered with it since."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A BEADED CHIFFON DRESS.

with a band of the beads. The lower tier is plain. The bodice is designed to have either a round or square neck and a vest of all-over lace. There is a bustle trimming of the chiffon put on with a bias fold of satin embroidered with beading.

Five yards of 44-inch chiffon are required to make the dress, with 1 yard of 27-inch satin for the belt and revers and 1/2 yard of 18-inch all-over lace for the bodice.

After making and fitting the lining, close the sleeve seams as notched. Finish with a plain hem or with a ruffle of lace and insert, with a little fullness as possible.

The chiffon, especially if then under-stand. Close the under-arm and sleeve seams as notched. The front is indicated by large "O" perforations. Turn hem in, bevelle on all perforations; adjust on front and back, lower edges even, bringing double "oo" perforations at center-backs together. These single small "oo" perforations over shoulder in bustle and in front and back together. Gather lower edges between double "oo" perforations. Arrange on lining, bring from edge 1/2 inch beyond center-front of lining. Hook large "O" perforations at shoulder together. Front of puffed bodice indicated by large "oo" perforations. Close back seam, sew to lower edge of waist, centers even.

The beading should be done as near the lace as possible, if not the very last thing, because the work is delicate and should be handled as little as possible.

The model would be pretty carried out in delicate pink chiffon veiled over a darker pink satin; both shades, however, should be dainty. The skirt has a single ruffle, and this is decorated.

GERMAN GIRL'S IDEAL

Essay by Schoolgirl Tells Her Dream of Future

Berlin, April 28—An essay by a girl of fourteen, a native of Breslau, is being widely quoted as an example of a twentieth century German school girl's ideal of the future.

The essay was written in reply to the question "What plans have you for your future?" The writer said: "I shall have to wait first until I have left school. Then, as soon as I have saved enough, employment in a flower shop and learn how to make up wreaths and bouquets. Then, as soon as I have saved enough, I shall rent a shop myself, and shall sell all the flowers that I hold. Of course, I shall then have money enough for my wishes, and I know what I shall do with it. I shall jump into a train and go to Breslau. There I shall find a captain in the cuirassier regiment, and we shall be married."

"Then I shall really begin to live. The recruits will have to saddle the horses for me and my husband, and help us to mount with the customary: 'At your service, madam!'"

"We shall then make a ride to Dortmund, and after staying there for a time we shall ride back to Breslau just when the Kaiser gets there. As my very distinguished husband will have the honor to speak with the emperor His Majesty will invite me to a banquet. Naturally, we shall all be of us attend, and as there will be a great deal of cider we shall feel quite unconformably ill. We have other good times in store. As my husband says that a visit has come to see us, it is the stock."

"Quite politely he presents me with a baby. Later on the Kaiser comes to the christening, and is himself the godfather. My son will be very strong and clever, and my husband's are then so over-

TO CURE CATARRHAL DEAFNESS AND HEAD NOISES

Persons suffering from catarrhal deafness and head noises will be glad to know that the distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises, or catarrh, or catarrh deafness, send out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made up as follows:

Secure from your druggist 1 oz. Parmitin (Double Strength), about 75c. worth. Take this home, and stir to it 1/2 of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day. The first dose promptly ends the most distressing head noises, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of small and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form should give this prescription a trial. There is nothing better.

Important—In ordering Parmitin always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c. to the International Laboratories, 74 St. Antoine street, Montreal P. Q., who make a specialty of it.

Away with the oil-soaked mops!

They smear and stain everything they touch; take all the finish off waxed floors, and are forever needing re-treatment.

For, far better than oil-soaked mops are

—the mops that cannot smear and stain, because they contain no oil. Frisk give a fine, dry polish, and never injure the most sensitive surfaces.

A special chemical treatment gives Tarbox Mops a mere suggestion of dampness—just sufficient to collect and absorb the dirt. They never need re-treatment.

Washing renews their efficiency. Tarbox Mops can be washed with hot water and soap.

Their chemical efficiency is thus renewed, and the mops are as good as new.

There are Tarbox Mops and Dusters for every cleaning need at 25¢ up to \$2.00. At Department, Hardware, Grocery and General Stores.

THE CIVIC ELECTIONS

As a result of yesterday's civic elections Mayor Frink will retain office for two years more, Messrs. Wigmore and Russell are elected for a term of four years and Mr. Potts for a term of two years. The result no doubt contained some surprises for everybody, as there was universal uncertainty up to the last moment, because of the vigor with which the campaign of the last two weeks had been carried on in behalf of all the candidates.

TRADE AND LOYALTY

The Halifax Chronicle recalls the wild statements made by Tory orators and newspapers prior to the last federal elections about the dangers of enlarged trade with the United States, which they declared would tend toward the dismemberment of the Empire and the annihilation of this country to the republic to the south of us.

FRINK, WIGMORE, RUSSELL AND POTTS ELECTED

(Continued from page 1) The returns from the civic elections yesterday caused some few surprises principally the defeat of Commissioner Agar, which is generally attributed to the disapproval which met his paving measure, and partly to his not pledging himself over his candidates to support a reduced rate of ferrage to employees. Mr. Agar was defeated by only 38 votes. Mayor Frink was returned to office by a majority of 896 over Commissioner McLellan. Commissioner R. W. Wigmore and James V. Russell were elected by handsome majorities for four years, while Frank L. Potts was elected with a lead of thirty-six votes over Commissioner Agar for two years. G. Fred Fisher was fifth man with eighty-eight votes behind Commissioner Agar, and C. W. deForest was 801 votes behind Mr. Fisher.

Following the announcement of the returns, there was a hearty celebration of the victory, organized by the members of the local lodge of the Loyal Order of Moose. The successful candidates, with Mr. Agar, were driven in a barouche to the quarters of the Moose Band, Sons of England, and the Moose Band took part in the procession. Each speaker was given a rousing reception. Each expressed thanks for the support accorded him.

Mayor Frink spoke of what he termed a "contemptible campaign" against him, saying that his opponent had refused to meet him in a fair fight but had retained his seat at the board so that he had nothing to lose. Various insinuations had been made against the speaker. Regarding the Gutelius agreement, he said, it was signed by Gutelius on the strength of his individual authority, without the knowledge of government ministers or even the premier. Mr. McLellan had not even attended the meeting of protest against the agreement, but had been content with calling those who assembled "not air artists." He considered his policy investigation more important and thought it more advisable to have a detective here from the states to call the girls of St. John harlots, and to say that the boys dwell in houses of prostitution.

Mayor Frink charged Mr. McLellan with having a grudge against him since 1908 when he blocked Mr. McLellan on plan to get possession of a strip of foreshore land on Courtney Bay at an annual rental of \$80 a year. The speaker closed with a tribute to Commissioner deForest, saying he had never sat at the council board with a "man so clean, so conscientious, and with a higher ability and truer sense of public trust."

Commissioner Wigmore expressed his pleasure and thanks at the magnificent vote given him, and said he would do his best to merit the confidence reposed in him. Commissioner-elect Potts spoke in a similar strain, thanking all who had helped in his election. Each expressed regret at the defeat of Commissioner Agar.

The latter when called upon gave a very effective speech saying that he had only appreciation for the many kindnesses he had received while commissioner. He had adopted a thoroughly independent course with regard to his election and had not even asked a person to support him. It was for the people to decide upon his record whether they wanted him again or not. Regarding the paving measure he thought St. John would some time have to adopt

GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray and ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw it through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick, glossy and you look years younger. Postmaster Sears made a remark last evening that was much appreciated by the mayor. The postmaster was a guest at the Moose Home. Of course it had been a strenuous day, and it was not surprising that the mayor said: "I am tired."

Quick as a flash the postmaster observed: "It is better to be tired than to be retired."

Whereat the mayor forgot his weariness and joined in the laugh.

Cotters Seize Terrance Isle. London, April 28—The Isle of Terrance, belonging to the Earl of Dunmore, has been seized by landowners who are holding it and over-awing the earl's agents. The island is difficult of access and it will take some time to send police there. The action of the cotters is the more daring in view of the heavy punishment meted-out to the cotters of Lewis Island, who made a similar seizure there.

Help was asked early in the afternoon from Newcastle and Campbellton and about 6 o'clock an engine and firemen arrived from each town and are now at work helping to drench the ruins, as a strong wind is blowing and there is considerable danger from flying sparks.

The fire started in the kitchen of S. Holdingsworth's house, which is attached to his large store, on the corner of King and St. George streets, where an employee was boiling pitch on the stove. This boiled over and in a few minutes the building was ablaze.

The fire raged from 1 o'clock until 6, working its way rapidly down both sides of St. George street only stopping at the corner of Murray street, where the firemen made a strong stand and on the south side of the street, being conquered by a bucket brigade at the residence of William G. White. The fight here and at the skating rink, whose rear was seriously threatened for some time, was a notable one and deserves great praise.

Other places that were involved were those of W. G. Fenwick, Miss Kerr, J. H. Gammon, the Loyal Orange Lodge, A. Norman Dealtry, the Robertson Hotel, Mrs. W. F. Bishop and the Masonic Hall.

The fire covered an area in St. George street of about 800 feet, in King street 400 feet and in Water street of about 900 feet.

BATHURST SUFFERS DISASTROUS FIRE, LOSS \$100,000

Twenty-Five Buildings Destroyed in a Few Hours—Started From Pot of Boiling Tar—Campbellton and Newcastle Sent Help

Bathurst, N. B., April 28—A disastrous fire occurred here this afternoon sweeping both sides of St. George street between King and Murray. The loss is estimated at \$100,000, with insurance about half. The following stores were destroyed: The Lounsbury Co., S. Holdingsworth, S. Williamson, A. C. Branch, Mrs. R. D. Southwood, telephone exchange, Masonic Hall, Miss Kerr and Miss Jessie Carter. The following residences were also destroyed: Mrs. M. McKendry, Mrs. William Walsh, Sweeney Hotel, A. C. Branch, Mrs. Robert Ramsay, Mrs. R. D. Southwood, John Branch, Malcolm Douglas, John Doucet, Felix Doucet, George Windsor, S. Williamson, W. W. Lamb, James McEwen, George Sutherland, Leo Landry, Mrs. Glasgow, Albert Carter.

All these buildings were totally destroyed, not a wall being left standing.

Help was asked early in the afternoon from Newcastle and Campbellton and about 6 o'clock an engine and firemen arrived from each town and are now at work helping to drench the ruins, as a strong wind is blowing and there is considerable danger from flying sparks.

POOR BLOOD

Cause of Disease—Druggist Tells Of Best Remedy For It

Pure healthy blood is a most essential factor to good health.

Poor, thin, devitalized blood may be caused by a weakness of the digestive organs, an accumulation of waste matter in the system, an inactive liver or lack of exercise.

Whatever the cause the best remedy I know is my delicious cod liver and iron tonic, Vinol. It will purify and enrich the blood, tone up the digestive organs, give you a hearty appetite and create strength.

A case has just come to my attention from Gulfport, Miss. Mrs. Arnelise Sandus says: "For months I was in a run-down condition and my blood was very poor. I had taken several medicines prescribed by physicians but they seemed to do me no good. Vinol was recommended and from the first bottle I noticed an improvement. I continued its use and now feel as strong and well as ever."

If you have the slightest indication of poor blood take Vinol. If it fails to help you I will give back your money. Watson's drug stores.

MORNING NEWS OVER THE WIRES

The C. P. R. steamer Montfort ran ashore yesterday near the Isle of Orleans, while bound from Antwerp to Montreal. She is not badly damaged.

Paul Baillier, and Cyrille and Alden Martin, ranging in ages from ten to fourteen years, were arrested yesterday at Edmundton, N. B., on a charge of attempted train wrecking. A switch was found misplaced on Sunday last and an accident nearly occurred.

Two additional cases of cholera developed yesterday at Taylor Village, N. B. The cases are baffling the doctors. A physician who has had experience with the Asiatic plague is expected today from Halifax.

The Carleton county circuit court opened yesterday at Woodstock, Judge Carleton presiding. Only one criminal case is to be tried, the King vs. Harry Mason, charged with arson. It was postponed as there was no one present to represent the crown.

It is reported at Ottawa that Hon. Dr. Roche, minister of the interior, is to quit the Borden cabinet to accept the chairmanship of the Civil Service Commission. Hon. Arthur Meighen is expected to succeed him. R. B. Bennett, from Calgary, would probably have slipped into the solicitor-generalship but his open rebellion on the Canadian Northern aid legislation will probably cause him to be left on the outside.

The steamer Kilo, previously reported missing, arrived at Bay De Verde, Nfld., last night with 8,000 pelts.

We must not be afraid of doing things badly for without failure we should never do anything well.

Card of Thanks

To the Electors of the City of St. John: I extend my very hearty thanks for the splendid support accorded to me in the elections on 14th and 28th inst. While not having been honored by being elected, I appreciate what has been done for me, and I sincerely regret the disappointment to those who made sacrifices in the endeavor to secure my election. G. FRED FISHER. April 28, 1914.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from any druggist—and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

Othine cannot bring on tuberculosis, but it may produce such physical debility as to make any one an easy prey to infection. Loss of appetite, gastric catarrh, palpitation, dyspepsia, are all induced by excessive indulgence in tea, a sufferer from any of these symptoms would do well to cut down their daily allowance by at least one pint, taking instead plain water, either hot or cold.

BE SURE IT'S THE 'AUBURN HAIR GIL'

She Represents Parisian Sage An Invigorating Hair Tonic. Quickly Removes Dandruff.

You can use nothing better than Parisian Sage, as sold at drug counters everywhere, to make the hair soft, fluffy and abundant. It stops itching head, invigorates the scalp, and removes dandruff with one application.

If your hair is getting thin, or is harsh, dull and lifeless, do not despair—give it attention. Frequent applications of Parisian Sage will rubbed into the scalp will do wonders.

When the hair is falling out, splits, or is too dry and streaky, surely use Parisian Sage—it supplies hair and scalp needs. Get a 50 cent bottle at once. It certainly makes your head feel fine and gives the hair that enviable gloss and beauty you desire.

EATING RELIEVES STOMACH TROUBLE

A Prominent Physician's Advice.

"Eat good foods and plenty of them. Dieting, in many cases, is almost criminal. Get back to normal. To do so you must have the proper quality of nourishment. You need it for brain or physical work. Probably there is nothing the matter with your stomach except acidity. That is merely an abnormal secretion of acid in the stomach. Neutralize that acid and your stomach trouble will end at once. Neglect may mean ulcers if not cancer of the stomach. Do not take patented medicines or poplin tablets for dyspepsia. Simply take a neutralizer of acid. Decidedly the best neutralizer is ordinary druggist's bisulphated magnesia. You can get it at any drug store for a few cents. Take a teaspoonful in a quarter glass of water after each meal. The relief will be instantaneous."

We purpose having the alteration sale of everything in the store and all goods will be reduced in price.

One thousand pairs of Curtains that were shipped out here for a large concern which failed directly after they were shipped, have come into our hands at a big discount. Mitchell, on behalf of those present, made her the recipient of a very nice silver cake basket as a token of friendship. MR. McLELLAN SAYS CORPORATE INTERESTS HAVE DEFEATED HIM Intimates That He Will Not Resign But Will Remain in Council to Defend Interests of Those Who Voted For Him

Commissioner McLellan this morning expressed himself as being particularly well pleased with the vote accorded him in yesterday's contest. Asked as to whether or not he intended to resign in consequence of his not having won the majority office, the commissioner replied that he had no direct statement to make other than to say that since three thousand four hundred and ninety-three persons had shown their appreciation of his services it was evidence that he was wanted at City Hall. He intended to fully protect the interests of those who had reposed confidence in him yesterday, and who still had faith in his endeavours in behalf of the city. That he had been defeated, he believed, was due largely to the many corporate forces at work against him, large business interests using their power to prevent his getting the majority. Commissioner McLellan's friends are urging him not to resign, and he said this morning that in view of the wishes of those who had shown such confidence in him against the big interests arrayed against him, he would have to consider and decide as to what form his appreciation would take.

LIVELY STREET BATTLE DESCRIBED IN COURT

In the police court this morning evidence was taken in the case against David Fraser, of Green street, West St. John, who was charged with assaulting Thompson, a Norwegian, living in Protection street. The assault was said to have taken place on Protection street last Saturday. The complainant alleged that he had been bitten and kicked. The evidence, however, showed that Fraser had come to Mrs. Clark's house, where the complainant boarded, and told him he could beat him up. The Norwegian said he was no coward and accepted the challenge. Both parties were on the stand and told their stories, and Mrs. Clark was called as a witness for the complainant and James Deen, a tenant in the house, was witness for the defendant. The Norwegian produced a shirt torn in ribbons, which he said had been on him at the time of the encounter and was torn by Fraser. This was denied by the defendant. He admitted hitting his assailant, however, when he said he put his hand over his mouth to try to smother him. The case was a clear one of fighting on the street, and as each was equally liable, they were fined \$20, which was allowed to stand. E. S. Ritchie appeared for the defendant, and J. King Kelley for the complainant.

DALHOUSIE DEGREES FOR THREE OF ROSS FAMILY

Marriage of Arthur W. Adams to Mrs. James Stratton—C. T. Miller Weds Miss Paschal in Bermuda

A wedding of more than local interest will be solemnized this afternoon in the Chapel of St. John in the Wilderness by the rector, Rev. M. Scovill, when he will join in marriage Mrs. Jas. Stratton and Arthur W. Adams. The wedding will be a quiet affair and the principals will be unattended. Mr. Adams is one of the city's best known ship-brokers and business men, while Mrs. Stratton is equally prominent in social circles.

Miller-Paschal—A wedding of interest to many friends in St. John will take place this evening at eight o'clock in the Cathedral at Hamilton, Bermuda, when a former North End boy, George Tapley Miller, son of Mr. and Mrs. Charles Miller of Douglas avenue, will be united in marriage to Miss Esie Gladys, daughter of Mr. and Mrs. Augustus Paschal, of that city. Following the wedding a reception will be held at the home of the bride's parents and a short wedding trip to the southern islands will be taken. In July Mr. Miller will bring his bride to St. John for a visit of a couple of months. He has been in Bermuda about three years and has done well in a brokerage business which he has been conducting in his own behalf in buy, sell, and feed. Friends here will wish them all possible happiness.

NEWS OF FAIRVILLE

Court Lancaster, I. O. F. Entertains Friends—Brotherhood Heeds Excellent Lecture—Endorse Public Cleaning Movement

Court Lancaster, No. 886, Independent Order of Foresters, held an open night in their rooms, Orange Hall, on Church avenue, last evening. There were about fifty invited guests and every item on the programme was heartily applauded. After formal exercises were over, speeches were given by High Chief Ranger, M. E. Grass, Past High Chief Ranger, D. G. Langley, Court Physician, Dr. L. M. Curran, and Rev. Wm. Lawson. Messrs. Chas. Betts, Winfield Allingham, Ira Symmes and Riley were members, and exhibitors of step dancing were given by Wm. Duplissa and Charles and Harold Humphreys. Cigars and refreshments were served and a social hour enjoyed. From now on the court anticipate entertaining more frequently along the same lines as last evening.

Both as to financial standing and active personnel, Court Lancaster is in excellent shape, and membership is steadily growing. The following is list of officers now serving:—Colt. Deputy, Wm. J. Linton; Past Chief Ranger, George Albert Hanson; Chief Ranger, Henry Kelstevy; Vice Chief Ranger, Elias Keirstead; recording secretary, Roger Raynes; Financial Secretary, Frank Allingham; Treasurer, J. W. Stevens; Orator, William Stout; St. Woodward, John Wright; Jr. Woodward, Arthur W. Long; St. Bendis, Isaac Phillips; Jr. Wood, Wm. Reed.

At the regular meeting of Fairville Brotherhood last evening the vice-president occupied the chair and a lecture on the features visited in picture and story form from Halifax to Vancouver was delivered by Rev. Gilbert Earle, illustrated with special lantern slides. All features visited, such as Montreal, Toronto, Hamilton, Winnipeg, Regina, Vancouver, etc., were described in racy fashion, and many out of ordinary spots were shown in picture and story form. During the evening Norman H. Wetmore read the following resolution, which was passed by a standing vote: Whereas the need of cleaning up the streets, yards and alleys of Fairville has been brought to the attention of the public through the press and other channels; and, Whereas, one public spirited citizen has already offered his team to assist in collecting refuse;

Therefore resolved, that in the interest of good citizenship and a better home town this brotherhood place on record their sympathy and support to the movement, and endorse a cleaning up day in a practical sense, by members pledging themselves to clean up their individual premises, and to co-operate, as much as possible, with any united organization which may be effected to prosecute the good work later on.

\$1,050 FOR NELSON LETTER.

Was Written to Lady Hamilton From Aboard Victory.

London, April 29—A letter written in September, 1808, by Lord Nelson to Lady Hamilton from his flagship the Victory, brought \$1,050 at the last day of the sale of the J. E. Hookkin autograph letter and historical document collection. The letter, which is one of the last he wrote, is not included in the collection of Lord Nelson's letters to Lady Hamilton, published in 1914, but a letter in the collection written the following day refers to it. A collection of manuscripts, autograph letters and documents and engravings illustrating the career of d'On de Baumont, the chevalier who, during the eighteenth century, posed alternately as a man and a woman, was sold for \$850.

PRIEST DIES AT JUBILEE

Celebration at Pittsburgh Turned Into a Funeral

Pittsburgh, April 28—Just as the bells were pealing the signals for a procession to enter the Holy Trinity Church where a congregation waited the beginning of the exercises in commemoration of the anniversary of his 26th year in the priesthood, and of that of two other priests, Father Dionysius Francis Brest, general superior of the Carmelite order, dropped dead in the arms of his brother, Father Phillip A. Brest. Heart trouble was the cause.

The jubilee was turned into a funeral service and the priest's body lay in state within the church throughout the day.
