## ROUMANIA MARKS ENTRY INTO WAR BY THRUST TOWARD KRONSTADT, CHIEF CITY OF TRANSYLVANIA ROUMANIANS IN FIRST CLASH

### Trying to Force Way into Plains of Transylvania Thro' Eastern Passes of Carpathians in Direction of Kronstadt — Germany in State of War with Roumania

#### Little Fighting on Any of the Fronts Except in Macedonia Sector where Serb Army Has Made Progress

#### ROUMANIANS AND TEUTONS IN FIRST CLASH

Berlin, Aug. 28, via London. — Fighting has begun between Roumanian and Teutonic troops on the Transylvanian frontier, the official announcement of today indicates. It says Roumanians have been taken prisoner on the Transylvanian frontier.

Except for Norway, Sweden, Denmark, Holland, Spain, Switzerland and Greece, all Europe is at war.

Roumania has thrown in her lot with the Entente Allies, having declared war against Austria-Hungary, and almost simultaneously Germany has announced that a state of war exists between Germany and Roumania.

Already the troops of King Ferdinand are seeking entry into the plains of Transylvania, through the eastern Carpathian mountain passes toward Kronstadt, the chief city in Transylvania, and in the direction of Hermannstadt, evidently in an endeavor to press northward through Transylvania toward the Bukowina and Galician borders, and take in the rear the Austro-Germans who are trying to hold back the Russians from entering the plains of Hungary.

As yet nothing has come through to indicate what preparation has been made by the Bulgarians, if, as now seems probable, Roumania declares war on Bulgaria, to offset a probable attack by the Roumanians along the Danube, and through Dobruja or by way of the Black Sea into Eastern Bulgaria. It is estimated unofficially that Roumania will be able to throw nearly a million men into the fray.

Except in the Macedonian sector little important fighting is reported from any of the fronts. Along the line where the Teutonic Allies are in contact with the Serbians, British and French, the official reports of Berlin and Paris report additional gains for their respective forces.

Berlin, Aug. 28, via London, 5 p. m.—Germany has declared war on Roumania.

#### ROUMANIA LOSING NO TIME.

New York, Aug. 28.—A Journal desparade from Geneva says: "Roumania has already begun the movement of troops preparatory to opening hostilities against the Central Powers, says a despatch from Bucharest.

#### "Military censorship has been established in Roumania."

#### ARMY OF NEARLY MILLION.

Paris, Aug. 28.—It is estimated that the effective strength of the army which can be mobilized by Roumania is about 900,000 men, including ten regiments of the Red Hussars and ten of the Black Hussars, and with artillery aggregating four hundred and eighty 75-millimetre guns, 160 field guns belonging to the reserve, and an unknown number of heavy guns.

#### Accuracy of British Guns.

London, Aug. 28.—The British official statement issued tonight reads: "Today our long range guns successfully fired on troops and traffic in different places between Bapaume and Arras."

"The enemy's artillery shelled our front intermittently during the day, more especially between Pozieres and the Thiépval Wood."

"On the other parts of the front our artillery and trench mortars have been active, especially opposite Galonne, Neuve Chapelle, between Auchy and Hohenloern, and also west of Wytschaete. One hundred and thirty-seven prisoners have been captured by us during the past twenty-four hours."

"On the evening of the 26th a heavy storm overtook eight of our aeroplanes; five of them have not returned."

#### German Positions in West Stopped.

Berlin, Aug. 28 via London.—The official statement issued today by the German army headquarters staff, dealing with the western front, says: "Western theatre. In the Somme district our western opponents, with strong forces and after copious artillery preparations, made fresh efforts in the evening and in the night to break through our lines north of the river."

"The English repeatedly stormed against our positions on the Thiépval, Mouquet and Delville Wood-Ginchy fronts, while the French stormed our positions between Maurepas and Cliefy."

"Their attacks failed, partly, after hand-to-hand fighting, and partly on account of counterattacks. South-

west of Mouquet and in Delville Wood fighting still goes on in small trench sections.

"On the remainder of the western front, apart from lively artillery activity in the evening hours on both sides of the Labasse Canal and on the eastern bank of the Meuse, nothing of importance has happened."

#### Hun Attack Breaks Down.

Bulletin—Paris, Aug. 28.—A German attack on the French positions today at Fleury failed, according to the official communication issued tonight. An artillery combat occurred on the Somme front. The text of the communication follows:

"On the Somme front the artillery has been active in the region of Estrees, Belleu-Santerre and Lihons."

"On the right bank of the Meuse the Germans directed a futile attack against our position east of Fleury, German artillery, violently countered by ours, bombarded our trenches in the Vaux-Chapelle Wood."

"The rest of the front was calm."

"Sub-Lieut. Duffin and Delator brought down their fifth German aeroplane, the former on the twenty-fourth and the latter on the twenty-fifth."

#### On Italian Front.

Rome, Aug. 28, via London.—Attacks with small forces were made by the Austrians yesterday at various points along the front. These assaults were repulsed everywhere, the war office announces, with appreciable loss to the Austrians. The statement follows:

"On the Trentino front the enemy essayed small attacks against our positions in Fagoldo Valley, at Adam-

## SWEDEN AND RUSSIA REACH AGREEMENT

### For Linking up Railway System of Two Countries by Bridging the River Tornea.

London, Aug. 28.—An agreement between Sweden and Russia for linking the railway systems of the two countries by bridging the River Tornea, which forms part of the boundary between Sweden and Russia, has just been ratified, according to a Reuters Stockholm despatch. The construction of the bridge will begin September 1.

## Serb Forces Push Forward

Paris, Aug. 28, via London.—Serbian forces have made considerable progress near Vetrenik, in Macedonia, west of the Vardar river, says an official communication given out here tonight, regarding the operations around Saloniki. Three Bulgarian attacks against Serbian positions on the Banica-Ostrov road have been repulsed with heavy losses, the statement adds. Following is the statement:

"From the Struma to the region of Ljumnica there was an artillery duel. East of the Cerna the Serbians, pressing their vigorous offensive, have made considerable progress near Vetrenik. On the road from Sanica to Ostrov three Bulgarian attacks against Serbian positions, delivered after intense artillery preparation, were repulsed with heavy losses. Artillery fighting continues violently in this sector."

"The Bulgarians have occupied different localities abandoned by the Greeks west of Kavala. British monitors have bombarded enemy forces at the mouth of the Struma."

"Contrary to statements made in the Bulgarian official communication of the 26th, Serbian troops, far from having suffered a defeat in the region of Kukuruz, made an important advance and repeatedly defeated the enemy."

An official statement from Sofia on August 26, said: "On the night of August 21, until the afternoon of August 23, the Serbians attempted 15 successive attacks on our advanced positions in the sections of Kukuruz and Kovel. All their attacks were repulsed, whereupon the Serbians retired to their former positions. Their losses were immense."

There are innumerable guesses as to the terms and amount of the new loan. They are all guess work. The Finance Minister states definitely that the final terms will not be decided until the last moment and also that no information will be given out until prospectus is issued. The loan was placed on a Monday and it is probable that Monday, September 11th, will see the next on the market. The issue will probably be for one hundred million dollars and financiers in the capital believe it will be a five per cent. at 97.50.

The same procedure as the previous loan will probably be adopted in the financial institutions subscribing heavily, but the great call will be on the individual. All the banks, as in the former issue, will be empowered to take subscriptions.

vented by our curtain of fire from developing their attack beyond the positions from which they attempted to advance.

"In the Carpathians Russian troops, which advanced against the ridge north-west of Kovel and on Starawipenka heights, were repulsed."

"Further north, between Tustobah and Zewlow, enemy troops were pro-

## AUSTRIA AND HUNGARY BROKE FAITH BY ENTERING WAR, ROUMANIAN DECLARATION SAYS

Paris, Aug. 28.—La Liberté has received from Geneva a summary of the Roumanian declaration of war, in which Roumania sets forth her grievances. The preservation of Roumanians by Austro-Hungarian officials is alleged, and it is charged that an agreement which existed between Roumania and the former members of the Triple Alliance have been broken in letter and spirit from the time Germany and Austria entered on the war. Italy, the declaration says, was obliged to detach herself from Austria and Germany.

In conclusion, the communication sets forth as follows the motives in compelling Roumania to enter the war:

"First—The Roumanian population in Austrian territories is exposed to the hazards of war and of invasion.

"Second—Roumania believes that by intervening she can shorten the world war.

"Third—Roumania places herself on the side of those powers she believes can assist her most efficaciously in realizing her national ideal."

## SIR THOS. WHITE AGAIN SHOWS HIMSELF A GOOD FINANCIER

### HOW RUSSIA WILL BENEFIT

### Roumania's Entry will Cut off Enemy's Grain Supply and Lesson Taught of Czar's Armies.

Petrograd, via London, Aug. 28.—Roumania's declaration of war against Austria is regarded in Russian official circles as an event of far-reaching significance. The Foreign Office points out three striking benefits which will accrue to Russia as a consequence—the aid of the substantial Russian army, which, pitted against Austria, will lessen Russia's task, and will afford greater freedom of action on the left wing on the western front; the tightening of the ring around the Central Empire, and the opening of a new line of attack; the cutting of grain supplies to the Austro-Germans, upon which the latter are believed to have placed great reliance.

Recent despatches from Bucharest indicated that the sale of the entire Roumanian crop had virtually been arranged for, and that shipping of the grain had already begun.

Roumania's entry into the war will cut off the enemy's grain supply and lesson taught of Czar's armies.

## ENTRY OF ROUMANIA INTO WAR DEATH KNEEL OF TURKEY

### Paris Looks for Shortening of War Now—Von Jagow, German Foreign Minister, Bitterly Attacked by Berlin Press for Bungling Roumanian Case and Bringing Diplomatic Defeat to Teuton Cause.

Paris, Aug. 28.—The entrance of Roumania into the war was received with popular rejoicing in Paris. For the first time in many months, the papers were permitted to publish extra editions, and in half an hour all Paris had learned the news, and the city was beflagged with the Roumanian colors.

The declaration had been expected hourly for three days. The general belief in Paris is that Roumania's action will tend to shorten the war. Some of the more optimistic military commentators predict that Turkey will be crushed within six months, and that Austria will be subjected to unbearable pressure, but Parisians have observed the failure of many predictions and are inclined to wait calmly for the events the future has in store.

London, Aug. 28.—Italy's declaration of war against Germany and the declaration of war by Roumania against Austria-Hungary have created a most profound impression in the German capital, says a despatch from Berlin, by way of The Hague, to the Exchange Telegraph Company.

The Berlin newspapers, the despatch adds, express themselves bitterly against Gottlieb Von Jagow, the German foreign minister, and Dr. Alfred Zimmermann, the under-secretary for foreign affairs, whose statements being considered by the journals to be partially responsible for what is declared to be Germany's diplomatic defeat.

London Jubilant.

Roumania's declaration of war against Austria-Hungary, while not unexpected, created the greatest enthusiasm in London. Special editions of the newspapers announcing the event were bought eagerly by crowds on the streets.

Long after the newspapers had been received from Berlin the Roumanian legation was without official information from Bucharest.

Press despatches from that capital were twenty-four hours old.

Besides conferring with the members of the crown council, with whom the final decision rested, King Ferdinand had prolonged conferences with the leaders of all Roumanian political parties, including those favorable to intervention in the great war, and those who had been the strongest supporters of Roumania's continuing her neutrality.

The Roumanian military officers had discussed for some days what probably would be the first step taken when war was declared, and had dismissed all alien employees, many of whom were Germans.

An especially large number of Germans were employed in the technical services.

In diplomatic circles the impression prevails that Germany, Bulgaria and Turkey, will declare war on Roumania owing to the latter's declaration against their ally. In fact, a despatch from Berlin said that the Roumanian minister at the German capital would be handed his passports today.

The Roumanian minister at Vienna doubtless asked for his passports when he handed the note of his government to the Austro-Hungarian foreign minister.

The meeting of the Roumanian crown council, at which the decision was reached, was held at the Constantinople Palace.

Decision Not a Hasty One.

King Ferdinand presided, and the session was prolonged over a period of several days.

The council consists of sixteen members, of which number it is believed that four to six opposed intervention.

The Bucharest newspaper, Adevartul, commenting on the council meeting, said: "At last the decisive blow is struck. Even have detested to the government intervention and the realization of Roumania's national claims. The king, in view of the recent events, like the late King Carol, convoked the crown council. The politicians, when they leave it, will have to bow to its decision. The union of all parties must be affected before the greatness of the cause."

General Averesco, former minister of war, will have, it is said, chief command of the Roumanian army.

## CANADIAN ARMY MEDICAL CORPS IS POPULAR

### Several Medicos Quit Royal Army Medical Corps to Join Surgeon Gen. Jones' Staff.

London, Aug. 28 (Montreal Gazette cable).—While the tendency in the early stages of the war was for the Canadian medics to seek transfer to the Royal Army Medical Corps, the reverse is now the case, several Canadians having recently quit the latter to join the staff of Surgeon-General Jones. Among the Canadians who have recently transferred to the Canadian Army Medical Corps are Captains G. W. R. Stone, of Parry Sound; S. R. Johnstone, of Dartmouth, N. S.; N. B. Taylor, of Toronto, and D. W. Wade, of Cranbrook, B. C.

## GREEK VESSEL HAS BEEN SUNK

### The Leandros Goes to the Bottom but Members of the Crew are Saved.

London, Aug. 28, 4 p. m.—The steamer Leandros has been sunk, according to a despatch from Valencia, Spain, to Lloyd's shipping agency. The crew was saved.

The Leandros was a Greek vessel of 1,500 tons gross. She was 250 feet long and was built at South Shields in 1899.

## ANOTHER BERLIN LIE REFUTED

London, Aug. 28.—The British admiralty today made denial of a German wireless report of last week that Dutch sailors had sighted, east of the Dogger Bank, a British destroyer which had been abandoned by her crew and was sinking.

"There has been no engagement of any sort," the admiralty announcement says. "No British destroyer is missing."

## A COWARDLY AND UNTRUE ATTACK.

In the eyes of the Grit opposition Sir Sam Hughes has committed an unpardonable crime. He has made good to such an extent that he has attracted the attention and gratitude of his King, and of the British people. That is the sin which cannot be forgotten or condoned—and which also inspires the bitter hatred of Grit newspaper attacks on him.

Ordinarily, such attacks might well pass unnoticed, but the article published in the Telegraph of yesterday, and which originally found space in the Toronto Globe, not only goes beyond the bounds of even partisan criticism but almost reaches the point where the Canadian censor might well be asked to pass judgment on it and the papers publishing it.

"The Ultimate Hughes Crime," as the production given space in the Telegraph is entitled, is the most cowardly and fanatical production ever published in a Canadian newspaper and none but the most miserable sort of journalistic coward would permit it to disgrace the columns of any newspaper with which he was connected. The Standard sincerely hopes that the editor of the Telegraph was not personally responsible for its production.

Ignorance on the part of a subordinate might afford some ground for apology, but if the article was reproduced deliberately and with a full knowledge of its character then it is high time to re-quest the services of the officials at Ottawa who are supposed to exercise supervision over newspapers and to see to it that seditious articles, or those tending to discourage recruiting, are kept out of the columns of Canadian newspapers.

It is only necessary to reprint the first three paragraphs of the article in question in order to illustrate its seditious character. They are as follows:

"It would be a crime, the ghastliest and most murderous crime of the war, no matter what the excuse or what the cause, were General Sir Sam Hughes given a real command of living soldiers in a genuine engagement anywhere on the war's battlefield.

"And if Sir Robert Borden is a party to any such scheme, or if he fails to block it if it is being promoted in England, and if, as a result, an army of Canadians under command of General Hughes is sent to face German forces at any time, the indignation of all Canada, and of all classes and parties of Canadians, will not be restrained by any political formalities or side-tracked by any explanations whatsoever.

"The thing—even the thought of such a thing—suggested in yesterday's despatches from Ottawa, is so monstrous that the man in the street would scout offhand the suggestion were it not for the fact that, judging from the experiences of the past two years, the thing might be true. And if true—then God have mercy on the officers and men doomed to service in that command."

Perusal of the entire article shows that the sole foundation for the outburst of fury is based on two charges: 1st—"The Allison dishonor," and 2nd—"The Camp Borden horror." The first was duly probed by a commission, the intelligence or bona-fides of which the Telegraph or Toronto Globe will not dare to question, and the finding of that commission was a complete exoneration of the Canadian Minister of Militia and of the officials of his department. It was found that Allison, a promoter, had made a commission out of war contracts he succeeded in placing with American firms. This, he denied to his friend, the Minister of Militia. For that denial he was scolded but as to his profit, itself the commission found that it was an ordinary and regular business practice. There was, however, no case against Sir Sam Hughes, not the slightest evidence of wrong doing on his part.

As for the Camp Borden "horror," let an exchange tell the story as follows:

"The camp was originally selected by Sir Frederick Borden, a Liberal Minister of Militia, but it was not given effect because the need did not then seem to exist for a great military camp. It is a camp concerning which the one complaint is that it has a foundation of sand. Salisbury Camp, in England, where the Canadians of

the earlier contingents trained, was for weeks and months in part under water. Many lives were lost because of the excessive wet, and the troops were unable to obtain that degree of training that would have made for their highest efficiency. That they did so well against the German veterans was all the more to their credit. Sir Sam Hughes, impressed with the great drawbacks of Salisbury, accepted Borden as a camp where the health of the Canadians would be insured by perfect drainage, where no matter how wet the weather, the men would be secure against the disasters of Salisbury, and where their training for a duty upon which their very lives may depend, would not be impeded."

And because of these things the Telegraph and Globe cry out against the possibility of Sir Sam Hughes obtaining a command in Europe—for it must be assumed that the Telegraph, having republished the article from the Globe endorses it and therefore is willing to share responsibility for it. Consequently when the Globe blasphemously calls to God to "have mercy on the officers and men doomed to service in that command" it is but fair to say that the Telegraph echoes the wish.

To intimate that Sir Sam or any other officer would be given a command for which he was not fitted is not only an attack upon the Canadian Minister of Militia but upon the British war office and the officer who is so well directing the British operations. General Haig would not permit Sir Sam Hughes to lead in battle a Canadian division, or even a Canadian battalion, if he were not equal to the task, and if his appointment should receive the official sanction then the attack upon him strikes more deeply than probably the Globe or Telegraph intended. Possibly, however, the editors of those newspapers thought that the Canadian government could appoint Sir Sam Hughes to a command in Flanders and that their criticism would go no higher than Ottawa. If so their ignorance can only be compared to their gully and flagrant disloyalty.

In this time it is supposed to be the duty of Canadian newspapers to assist in every way in the securing of recruits for the Canadian armies. The Telegraph proceeds to do this by pointing out to possible soldiers that it may be their fortune to serve at the front under a commander to offset whose ignorance it is deemed necessary to call down the mercy of the Almighty, and whose possible appointment that newspaper regards as "the ghastliest and most murderous crime of the war." The Standard submits that the case is plainly one for the authorities. Such unbridled and untrue attacks upon a Canadian public man and responsible official, who more than any other, has to do with Canada's participation in this war should not be permitted to go unchecked, but the newspaper making them should be compelled to prove its case or else stand forever condemned before the Canadian people.

## ENTER ROMANIA.

The addition of the powerful state of Rumania to the ranks of the Entente Allies closes what was practically the last remaining gap in the ring of steel surrounding the Teutonic countries, and will probably hasten the end of the war by some months. This is the important fact in the new development of the war situation for if Rumania's assistance was ever required to ensure an Allied victory, that time has passed. The Allies could have won without her; with her the task is simplified and shortened.

And the number of fresh, well equipped fighting men the new ally can put in the field is not the most important advantage to be gained from her friendly participation. Her strategic position is likely to prove of even more value than her army. It is to be presumed that her transportation facilities will be placed at the disposal of the Russians as soon as her own armies have been mobilized. This in itself is a distinct gain. Hitherto the Russians, in their advances in the east have been forced to avoid trespassing on Rumanian soil, the latter state being neutral. Now, however, entry and assistance will be given them, and it is to be expected that the forces

of the Muscovites can bring to bear in the advance against Austria will be very considerably augmented as a result of such aid.

It is improbable that the Rumanian armies will make spectacular advances in Transylvania or Austria in the immediate future, for it has been expected for some weeks that the authorities at Bucharest would decide as they have done, and, consequently, the Austrian frontiers have been strongly guarded against the possibility of surprise.

One effect of Rumanian participation, however, will be a more vigorous campaign against Bulgaria and Turkey, and on their own territory. Rumania commands the northern Bulgarian frontier, and as her army is several times greater than that of her southern enemy it is in that area the first direct results are to be looked for. One Parisian observer is quoted as declaring that the addition of Rumania to the Entente forces will mean the crushing of Turkey in six months' time and the bringing to bear on Austria of an extra weight of pressure that is certain to hasten her defeat as well.

Rumanian aid in land operations against the Bulgars and Turks may also result in a renewed attempt to force the Dardanelles, and by that means to liberate the great Russian wheat crop. That possibility has already received attention on the wheat markets as evidence of the drop in wheat prices which followed the announcement of Bucharest's intention, with Bucharest definitely committed to the Allied cause and the certainty of a more aggressive Italian campaign as the result of Italy's declaration of war against Germany, attention now turns to the attitude of Greece. Greek and Bulgarian forces have already clashed, and although the government at Athens may be disposed to continue a friendly attitude toward the Teutons, she can not much longer continue neutral with her last Balkan neighbor at war.

The Rumanian army is estimated at 420,000 men of all ranks. It was organized on the Austrian system and largely trained on Austrian methods. It is reported to be particularly well equipped in the artillery arm of the service. In financial resources also Rumania is well provided. She alone of the Balkan states has managed to avoid war during the past five or ten years and has accordingly waxed prosperous. She should be well able to finance her share of the campaign.

Altogether the declaration of Rumania is a decidedly welcome stroke, for her assistance can be of great importance in what may prove the decisive arena of conflict—the eastern and Balkan zones. This war was practically started in the Balkans. It may be ended there.

## CANADIAN NATIONAL EXHIBITION

TORONTO  
Aug. 26th to Sept. 11th

A great, natural park, 264 acres in extent a veritable garden spot with wide paved streets and walks, vistas of variety great and varied, a profusion of shrubs, trees and flowers blended into harmonious effects. Stately permanent buildings, graceful and rich in architectural detail valued in the aggregate at \$2,500,000. Beautiful grounds valued at a similar sum, models of landscape artistry, sloping picturesquely from the blue, scintillating waters of Lake Ontario along which they stretch for 1 1/2 miles. This is the magnificent setting that adds so tremendously to the charm of the Canadian National Exhibition, Toronto's greatest short-time exhibition in the world. In this pleasant environment the people of Canada pause each autumn to take a national inventory, to see how they have progressed during the year. A nation and prospered as a people.

The Canadian Government Railway offers special low rates from all points in the Maritime Provinces to Toronto August 31st, good for return September 8th, and September 4th good for return Sept. 13th. From Sydney the return fare on those dates will be \$28.50, from Halifax \$25.50, from Charlottetown \$22.50, and from St. John, Moncton, Fredericton \$20.00. For all stations on the line, the fares will be proportionately low. Single fare for the round trip will be in effect going August 28th, good for return Sept. 2d, going August 30th, good for return Sept. 7th; going Sept. 5th, good to return Sept. 13th. Return tickets for fare and one-third will be issued from August 28th, to Sept. 4th, good for return until Sept. 13, 1916.

Further particulars regarding rates will be supplied by ticket agent of the Canadian Government Railways. It will be well to secure reservations on sleeping cars in advance.

Passengers from the Maritime Provinces will have the advantage of travel by the fast trains, the "Ocean Limited" and the "Maritime Express." Via the Ocean Limited connection is made with the Grand Trunk "International Limited." The "Maritime Express" connects with the Grand Trunk express trains for Toronto.

Charles Robinson, secretary of the returned soldiers' committee, will leave this morning for Fredericton to attend a meeting of the Military Hospitals' Committee.

**OBITUARY.**  
The death occurred on Monday morning, 28th inst., at 128 Waterloo street, of Frederick Addison Wright, after a brief and painful illness, aged 63 years. Mr. Wright had been for many years head waiter at the Royal Hotel, where he won for himself a host of friends. He was a prominent member of the Masonic Fraternity. Under the ministry of the late Rev. C. T. Phillips, D. D., he joined Waterloo St. United Baptist Church. He leaves to mourn his loss, his wife, two children, Myrtle D. and Ernest C., four brothers living in Boston, two sisters and his parents. Burial will take place at Jemseg, Wednesday on arrival of May Queen. Service will be conducted to-night at his late residence, 128 Waterloo street.

**RECRUITING CLERKS COMPLAIN THEY HAVE NOT RECEIVED PAY**  
A Matter of Interest in Every Recruiting Office in the Province.

Several complaints have been made in this city and throughout the province by returned soldiers who are acting as deputy recruiting clerks in the various recruiting districts that they have not received their pay. The Standard yesterday endeavored to ascertain if there was just reason for such a statement.  
As Lieut.-Col. Guthrie was at Fredericton on military business, Lieut. Groves at headquarters was asked concerning the report and said he was unable to deny or confirm it.  
Major L. F. D. Tilly when asked if the complaints were very patient as he had received many such complaints from the men but had forwarded the pay sheets to headquarters the first of each month according to orders and his responsibility ended with that. Although he has made numerous inquiries concerning the men's pay he had received no reply.  
It is felt that this matter should be settled by the authorities as some of the men have been very patient although in need of the money. Such reports will not in any way stimulate recruiting in the province, which is in dire need of encouragement in place of discouragement.

**MARITIME CONVENTION OF CHRISTIAN CHURCH**  
Gathering at Westport, N.S., Was Well Attended and Proved Very Successful.

The annual convention of the Christian church (Disciples of Christ), of the Maritime Provinces was held at Westport, N. S., from August 24 to 27, seventy-five delegates being in attendance. The principal speaker was Robert M. Hopkins, of Cincinnati, national Bible secretary of the Christian church, who on Sunday evening gave an interesting account of the "Sea and Millions Movement," the object of which is to raise \$6,500,000 in the United States for missionary, benevolent and college work, and to provide 1,000 recruits for the mission field.

Under his leadership a demonstration of Sunday school work was held on Sunday afternoon, about 350 being present. A round table conference was held concerning methods to be adopted in this work, stress being laid on the importance of training the teachers for Sunday school activities and kindergartens.  
Mr. Reynolds Ford, representing the Christian Women's Board of Missions at Indianapolis, who has spent fourteen years in the Latin-American republics, gave an interesting account of the pros and cons of the conditions in these countries. Other speakers were: Frederick Ross, of La Tete; R. W. Bennett, of Melton; Private A. F. Hodges, St. John; O. B. Emery, St. John, and others.

A song appeal was made for recruits for the 8th Field Ambulance Corps by Private Hodges, who, as is well known, was formerly pastor of Coburg street church in this city.  
The business transacted included the election of J. W. Derby, of Westport, as president for the Maritime Provinces for the ensuing year; Frank Isaac, of Halifax, as secretary; O. B. Emery, president of the Maritime Christian Missionary Society, and J. S. Plator, of St. John, secretary-treasurer of the society. Plans were discussed and advanced for holding an evangelistic campaign in the near future in St. John and Halifax. The sum of \$500 was raised for missionary causes during the convention proceedings.

**PRIZE WINNERS IN SOUTH BAY FAIR**  
Lotteries Drawn Last Evening Under the Auspices of Mrs. George McAvity.

The drawings for the South Bay patriotic fair prizes took place last night and Mrs. Geo. McAvity, president of the Soldiers' Comfort Association, conducted the drawings. The fair proved a greater success than was thought by some people as over \$1,200 was taken in and will be handed over to the patriotic funds. The bulk of the work in conducting the enterprise fell on the shoulders of E. Parker Baker and he is to be congratulated on the success of the undertaking. The following are the results of the drawings last night:  
Silver meat fork—Ticket 172.  
Ladies' hand bag—Ticket 137.  
Brass spirit lamp—Ticket 245.  
The six prize lottery—B. F. Smith, with ticket 21, won a glorio kit. Dr. Hogan, with ticket 129, won a clock. Ticket 7 won a jewel case. Mrs. D. A. Thorne, with ticket 290, won a out glass candlestick. L. C. Prime, with ticket 478, won a ladies' rain coat; while C. Wesley, with ticket 158 won a out glass vase.  
Ticket 295 won a cushion; while

**PLANS TO HELP THE RETURNED MEN IN KHAKI**  
Returned Soldiers' Committee Met Yesterday and Heard T. B. Kidner Explain Vocational Training Schemes.

The provincial committee of the Returned Soldiers' Commission met yesterday afternoon in the office of the president, Thomas Bell. The following were present: Lieut.-Colonel Thos. Walker, Rufus Steves, of Sussex; James L. Sugrue, St. John, and C. Robinson, secretary.  
The meeting was addressed by Thomas B. Kidner, of Ottawa, (the vocational secretary of the Military Hospital Commission).  
Letters of regret were read from T. C. Allen, Fredericton; Donald Munro, Woodstock; J. A. O'Leary, Newcastle, and James J. Masters, Moncton.  
In the course of his address Mr. Kidner, who was formerly connected with manual training work in New Brunswick, covered the work in reference to vocational training being taken up by the Dominion government. With regard to the government positions in the civil service, opportunity is made so that the men can write examinations at any hospital where they are being trained.  
Mr. Kidner paid a tribute to the excellent work done by the N. B. Provincial Soldiers' Aid Commission, and the secretary, Mr. Robinson.  
The Military Hospitals and Convalescent Homes' Commission with St. James Loughheed at its head, has already given a great deal of consideration to the question of assisting returned soldiers, and has taken steps to organize the training required in many parts of the country. The complete establishment of the system may be expected very soon, for the government, by order-in-council, has just adopted a report of the Military Hospitals' Commission.  
The period of training for a new vocality will vary according to the previous education and industrial history of each individual. The cost of tuition will vary in consequence, and also owing to the fact that in many cases the tuition will be free or the fees nominal. The training will be free to the men in all cases. If there is any charge it will be paid by the Dominion government.

**WILL KEEP MILK PRICE DOWN TO EIGHT CENTS IF CONSUMERS ASSIST**  
L. C. Prime Says His Company will Continue to Supply all Customers at Old Figure.

L. C. Prime was interviewed by The Standard last night in regard to the situation in the milk market. Mr. Prime said that Primecrest Farms, Ltd. were in a position to carry out their advertised promise to give to the people of St. John eight cents per quart. He said that if the public would back them up in the action they have taken, he said that if the public would let them know in advance that they would buy milk from the Primecrest Farms at eight cents per quart he would guarantee that his firm would supply them. "But," said Mr. Prime, "they must not expect to come to us on the first day of September when the other dealers have raised the price and expect to be in a position to supply them. If they will come to us and make contracts we will guarantee that there will not be any raise in a year and everyone who makes a contract with us will get pure milk at the old price of eight cents per quart." He said it would be impossible to call on the users of milk in the city personally but if those who desired to keep the price of milk down they could apply to any of the drivers of the Primecrest teams arrangements could be made for them to be supplied. "If the citizens of St. John will back me up they will not have to pay more than eight cents a quart for their milk but I must know before the first of September," was the way Mr. Prime summed up the situation.

**COUNCIL RECOMMENDS A RETURN TO OLD TIME ON SUNDAY, SEPT. 3RD**  
Daylight Savings By-law to be Amended to Provide Change on First Sunday in Next Month.

At the committee meeting of the common council yesterday at noon it was decided to recommend to the council that the by-law in regard to daylight saving be amended to read the first Sunday in September instead of the last. A bill for repairs to the winter port wharves amounting to \$892 was passed. It was decided to approve the recommendation of the Commissioner of Public Works that the N. B. Telephone Co. be granted permission to erect air electric sign in front of their building under the supervision of the engineer.  
Commissioner McLellan said that he intended to have a stop put to violations of the traffic law, and if necessary he would place plain clothes men with stop watches on the street. He was tired of fines being struck and not collected.  
The new lights in front of the post office were referred to, and Commissioner Fisher stated that Mr. Waterbury was trying to get better lights and to arrange for the removal of two posts which interfered with the spread of the light.  
Commissioner Fisher said he had visited the Mispec dam and could not see his way clear to recommend any change in the existing conditions. He was strongly of the opinion that something should be done to develop the water power lying dormant there. Commissioner Wigmore said more dams could be built above the present one for storage purposes, and the possibilities for power were very great.  
Commissioner McLellan said he believed that at least 500 horse power could be developed there.  
A communication was read from the St. John Board of Trade in regard to the amending of the daylight saving by-law; also one from the manufacturers along the same lines. The mayor was of the opinion that the majority of the citizens were in favor of amending the by-law and it was decided to make it read the first Sunday in September instead of the last. The mayor also stated that he was sorry that the local schools had not followed the lead of other parts of Canada and not reopened until after Labor Day.

**Mud Hopper Raised.**

# LATE NEWS AND VIEWS FROM SPORTING WORLD

## VANCOUVER OARSMEN FAMOUS IN BATTLE

Lieutenants Norman Sowers and George Chaffey are rewarded for gallantry in the field.

Two more Vancouver oarsmen who are "doing their bit" on the firing line have been rewarded for gallantry in action. According to advices received in Vancouver, Lieut. Norman C. Sowers, former captain of the V.R.C., and one of the best known scullers in the west, and Lieut. George Chaffey, who left with the 48th Battalion of Victoria, have been awarded the Military Cross. Both young men have been wounded since their arrival in France. Sowers suffering severe wounds on the last occasion, which for several days his life was despaired of.

Other well known Vancouver scullers are winning laurels in the service. Latest information from the Old Country is to the effect that in the championship competition for the Brooke silver trophy, offered for competition among the various units, the 72nd Vancouver Battalion won the championship. Individual honors were won by Pte. Archie Selwood, a well known local yachtsman, who, Pte. Tommy Woodward, an all-round star, was second. Selwood got 27 bull's eyes, with Woodward second with 26. Selwood is an old shot, having been a member of the Sixth Regiment, D.C. O.R. for many years. Woodward is doing his first military work.

Writing from England prior to their departure for the front with the 72nd Battalion, to which unit they transferred from the 11th C.M.R., Lieut. Bimbo Sweeney and Lieut. "Dolly" Gray, well known oarsmen, tell of a big regatta held at Halifax and in which the 11th C.M.R. officers entered a crew in the eight-oared event. Several units were represented in the regatta, while the steamship Lapland also had several starters. The 11th C.M.R. officers and men made a clean-up. In the officers' race the 11th finished in front. In the boat were five members of the Vancouver Rowing

## THISTLES MAKE OFFER FOR SHAMROCK SERIES

North End Ball Team Desirous of Arranging Five Game Series for City Championship.

As there has been some dispute regarding the series of games between the Shamrocks and champion Thistles, the manager of the Thistles, A. L. Howard, and the captain, E. T. Gibbons, have submitted the following: To the Sporting Editor of The Standard: Sir—Owing to the fact that numerous patrons of baseball are desirous of seeing a series of games between the Shamrocks and Thistles the management of the Thistles take this opportunity to state that they are willing to play the Shamrocks a series of five games, provided they are allowed Hansen as a pitcher to replace McGuigan who has met with a serious accident, in return for which they will allow the Shamrocks the choice of any catcher in the league.

The above has been called forth because of the fact that a great number of fans have been misled by articles appearing in the papers which intimated that the Thistles were afraid of the results of such a series. A. L. HOWARD, Manager. E. T. GIBBONS, Captain.

GIBBONS TO FIGHT DILLON. St. Paul, Aug. 28.—Mike Gibbons, St. Paul middleweight, has agreed to box Jack Dillon, of Indianapolis, light heavyweight during the month of October. The bout may be held in St. Paul.

ACTED WITHOUT AUTHORITY. Oklahoma City, Okla., Aug. 28.—Lieut. Governor Trapp declared that Attorney-General Freeling acted without authority in ordering the Sheriff of Tulsa county to stop the scheduled 15-round boxing contest between Frank Morris and Carl Morris, heavyweights, on Sept. 4.

Club, viz. Lieut. Sweeney, (stroke); Lieut. Gray, Adjutant Reitel, Lieut. Tom Dent and Lieut. Dick Baker.

STUDEBAKER EXHIBIT ATTRACTS GREAT CROWDS AT TORONTO EXPOSITION. Among the features at the Toronto Exposition, which opened August 26, the exhibition of Studebaker cars has proved a magnet for enormous crowds.

In addition to the standard models, a special roadster is being shown by Studebaker. In order to reach the Exposition on time, the car was shipped by express from the Walkerville plants. The chassis is standard, but the body is of special design, and custom-made, with a natural appeal to the exclusive trade.

The special car is finished in azure blue, with high mohair top to match. It accommodates the driver and another passenger, with a novel lackey seat in the rear for use when needed. When not in use, the lackey seat can be folded down out of view.

Another feature of the Studebaker exhibit is the Sedan model, which is a luxury car in every detail, and yet does not require the large investment necessary a few years ago for closed car models.

Reports from the Transportation building at the Exposition are to the effect that the Studebaker booth is constantly surrounded by an admiring throng. The Toronto Exposition has come to be known as the biggest event of its kind in the Dominion, and in fact the largest on the whole American continent. Figures during the two weeks the Exposition is open are expected to show an attendance of more than 1,000,000 visitors.

J. E. Grady, sales manager from the Studebaker, Walkerville factories, has been in Toronto during the Exposition, as has W. G. Bell, assistant sales manager. Mr. Grady has arranged for a banquet of Studebaker dealers in Ontario, to be held at Toronto, Sep-

INTERNATIONAL LEAGUE. Toronto, Aug. 28.—Toronto took today's double-header from Richmond by identical scores, 6 to 1. The score: (First game.) Richmond . . . 00100000—1 6 1 Toronto . . . 01014000—6 11 1 Batteries—Leake and Reynolds; Thomas and Kritchell. (Second game.) Richmond . . . 01000000—1 7 0 Toronto . . . 20001010—6 13 1 Batteries—Ross and Reynolds; Brady and Hayden.

Providence and Rochester Break Even. Providence, Aug. 28.—Providence and Rochester broke even in today's double-header. Providence took advantage of Rochester's errors and won the first game, 4 to 1. Rochester secured a big lead in the second game, mainly through Providence's errors, and won easily, 9 to 5. The score: (First game.) Providence . . . 21000010—4 8 1 Rochester . . . 00000100—1 6 1 Batteries—Baumgartner and Yelle; Way and Dool.

Divide Double-Header. Montreal, Aug. 28.—Montreal and Baltimore divided a double-header today, Baltimore taking the first game, 11 to 2, and the Royals the second, 11 to 7. The score: (First game.) Montreal . . . 10000200—5 11 2 Baltimore . . . 00020000—2 7 6 Batteries—Bentley and McAvoy; Goodbread and Madden. (Second game.) Montreal . . . 01100000—7 9 5 Baltimore . . . 11100010—11 14 1

LAST OF OLD CUBS. The deal which sent Frank Schulte to the Pirates marked the passing of the last of the old Cubs who used to win pennants for the Windy City. He had been connected with the Chicago club until Monday last, he would have rounded out his twelfth year with the Cubs, as it was on August 21, 1904, that he was purchased from the Syracuse club of the New York State league. Frank Seles was then the pilot of the Cubs, but he gave way to the late Frank Chance, and Schulte was one of the stars who helped to win that year the first pennant Chicago had gained upon in twenty years. Old Frank was batting around the 300 mark when Tinker swapped him to the Pirates, and while his fielding may not be quite so fast as formerly, he is still to be classed among the classy outfield gardeners of the old league. It was the late Frank Seles who discovered Schulte, as well as Tinker, Evers, Kling, Reulbach and other great players, who under Frank Chance, made up one of the best baseball machines the game has ever had.

A splendid demonstration of the speed and durability of the Overland Model 86 was the recent run made by W. O'Connell, Hamilton, Ont., city mechanic to the Dundas Hydro station to put out a fire. O'Connell's car made the five miles in six minutes, carrying a heavy fire hose. He reached the scene of the conflagration far ahead of all other fire apparatus, even ahead of the fire chief who drove another make of automobile.

## THE RED SOX' OUTER GARDEN

Harry Hooper Eight Years with the Boston Team and Still Going Strong.

Although the Red Sox outer garden, minus Tristram the Great, is not what it used to be, there are still to be found coveting in that pasture some gentlemen of sterling merit. Not the least distinguished of these is Harry Hooper, who is now serving his eighth season in Boston confinement. Hooper has begun his thirteenth year, his natal day having been August 24, 1887, and the place of his mundane debut Santa Clara, Calif. As a schoolboy and later as a college student in his native town, Hooper developed into quite a classy twirler. When he turned professional in 1907, reporting to the Oakland club of the California State league, Harry expected to be assigned to slab duty. He did figure as a hurler in four games, but was soon turned over to Sacramento, where he was given an outfield job. In 1908 he batted .344 for Sacramento, and displayed such ability in ground covering and base running that he began to attract attention in the upper circles of ball-dom. On one of his trips to California, John I. Taylor, president of the Boston Am-

## FREDDIE WELSH A REAL CHAMPION

The Britisher Now Thirty Years Old and will Retire Next July.

Now that Freddie Welsh has demonstrated that when he tries to box like a sure enough, bona fide, blow-the-bottle champion, the fight fans are arguing on how long the pride of Pontypriid may be expected to hang onto the honors. The Britisher is now thirty years old—some say he is really several years older—and although this is not so very ancient, Freddie is now older than any other latter-day lightweight champ, except Joe Gans. Jack McAuliffe quit the ring, undefeated, at the age of twenty-six, after eight years of fighting. Kid Lavigne was twenty-nine when he lost to Erpa, and had been scrapping ten years. Ernie was twenty-seven when he lost the title to Gans. The great little negro held the title till he was thirty-three, and had been fighting for seventeen years. Nelson was twenty-seven, Wolgast twenty-four, and Ritchie only twenty-three when the championship passed out of their keeping.

INDUSTRIALS AND COPPERS THE OBJECTIVE

Strong Tendency in Speculative Channels to Confine Bull Operations to These Classes of Stocks. (McDOUGALL & COWANS.) New York, Aug. 28.—There is strong tendency in speculative investment channels active in the stock market to confine all bull operations to the Industrials and Copper lists. Already there are signs that this element is looking further ahead to the inevitably higher expenses of the railroad Co's, and wishes to digest the prospect before making commitments in that security department. Practically the whole of the interest and other charges of Union Pacific are covered by miscellaneous income, says an exhaustive analysis by a high authority. It is pointed out that the regular avenues are all available for dividends. This railroad stock is expected to be bought on a scale down by banking interests. The bear element is making capital of a report that the G.M. will soon send half billion of American securities to the U. S. by submarine. According to German banking circles here they would not be sold but would be used with other neutral holdings for collateral purposes. They may not arrive for some time.

The private borrowing demand shows a large increase of shortage in Willys, Overland & Maxwell, and there is also a heavy short selling on the curb among Motors there.

Financial American—There is a good demand for many stocks in evidence slightly below the market, but at the same time stocks are for sale in fairly large volume on all rallies. Times—In acting as it did last week the stock market was merely acknowledging the country's very great prosperity. Odd Lot Review—Republicanism is a favorite with investors. ROYAL BANK OF CANADA IN CENTRAL AMERICA

Observers of Experience are Convinced that the British Treasury is Behind the Financial Markets. Wall St. Watching the Developments at Capital in a Hopeful but Anxious Mood. (McDOUGALL & COWANS.) New York, Aug. 28.—The market today has been exactly the sort of market that was to be expected under the circumstances that exist. Suspense is sometimes a more potent factor than reality itself, and the uncertainty in connection with the outcome of the issue between the railroads and the unions has made a good many anxious, and some anxious ones have clutched at any straw that would indicate a reversal of what seemed likely to happen, at any previous moment. There is nothing especially new in the way of market news; we shall continue to be governed by the situation in Washington, and if that is favorable and a strike is averted our market will probably respond very quickly. If the reverse be the case, it looks as though the influence should be to exert an unfavorable effect at least temporarily on prices. The general market closed active and strong with very small price changes from Saturday. Under the circumstances the market has acted remarkably well and given a good account of itself. Sales 665,525. Bonds \$2,118,500. E. & C. RANDOLPH.

Special to The Standard. Montreal, Aug. 28.—The policy of expanding operations in Central America which followed the visit of the president and several directors of the Royal Bank of Canada to that territory, some months ago, is approaching fruition. One of the countries which it was decided to operate in is Venezuela. It is announced that the new banking premises in Caracas will be ready for occupation next month. Later on it is announced a couple of additional branches will be opened in the same country.

Special to The Standard. New York, Aug. 28.—The new British loan was considerably over-subscribed. It proved especially popular with large institutions and investors. This loan, which is an attractive one on point of income return and security, will be followed by a series of similar transactions. The subsequent ones can hardly in fairness be offered on terms more attractive than the present. Market observers of experience are convinced that the influence of the financial markets is behind the financial markets and that having such an important issue at stake this influence may be depended upon to offset even such adverse factors as the threat of one of the greatest disasters that has been so seriously in view in the form of a tie-up of the transportation facilities of the country or its alternative, the prospects of expense of railroad operations becoming so great as to nullify the influence of the great wave of railroad prosperity that without question is here at the moment. Another evidence of the support of the British Treasury is in the prospective course of sterling exchange which will be influenced in no inconsiderable measure by offerings of bills against exports of grain and cotton.

STEEL OF CANADA LOOKS PARTICULARLY GOOD

At Conservative Estimate Should be \$5,000,000 Available After Bond Interests and Pfd. Dividends. (McDOUGALL & COWANS.) Montreal, Aug. 28.—With a large volume of business at such enhanced prices, the Steel Co. of Canada should have, at a conservative estimate, in the neighborhood of \$5,000,000 available at the close of this year after bond interests and preferred dividends estimates the Financial Post. It would appear, continues the Post, that the common stock \$11,500,000 at today's market price around 60 is very cheap and that this stock is worth intrinsically around par. A feature that should not be lost sight of is the possibility of a considerable portion of the plant extensions and new equipment being paid for out of earnings. It is reported that the company is booked to capacity for six months.

LAURETIDE POWER COMPANY 5% BONDS

The bonded debt of \$60 per horse power is lower than that of any similar hydro-electric development of the present day. Long term contracts with the Laurentide Company and the Shawinigan Water and Power Company, for all power generated when and as available have been made. Send for Special Circular. 80 and Interest. Yielding About 5.34 Per Cent. EASTERN SECURITIES COMPANY, LIMITED INVESTMENT BANKERS. JAS. MACMURRAY, General Manager, St. John, N. B., Halifax, N. S.

Special to The Standard. Montreal, Aug. 28.—With a large volume of business at such enhanced prices, the Steel Co. of Canada should have, at a conservative estimate, in the neighborhood of \$5,000,000 available at the close of this year after bond interests and preferred dividends estimates the Financial Post. It would appear, continues the Post, that the common stock \$11,500,000 at today's market price around 60 is very cheap and that this stock is worth intrinsically around par. A feature that should not be lost sight of is the possibility of a considerable portion of the plant extensions and new equipment being paid for out of earnings. It is reported that the company is booked to capacity for six months.

A Pimply Face or Poor Complexion Quickly Restored

Thousands of young men and women who have handsome attractive faces were it not for unsightly pimples, blackheads, and rough uneven skin. Custom seems to recommend lotions and salves, but unfortunately their effect is but temporary. These skin troubles do not originate in the skin—their birth in every case goes further back, to the blood, which must be cleansed of humors before the pimples depart for good.

A physician who has made a careful study of such cases, says that the quickest cure comes from a blood-purifying medicine like Ferrerozine. The good work begins. Pimples and foul matter are expelled. Every trace of humor is driven out, and the whole life current is supplied with nutriment and health giving qualities. You can always tell a Ferrerozine complexion when you see it—the cheeks are clear and rosy, no signs of sallowness—the eyes are bright and expressive—because rich, blood is circulating through the whole system carrying health, energy, and strength with it. Not only will all skin eruptions disappear, but an increase in vital strength, an all-round improvement will be apparent. No re-building tonic could be more efficient. Get Ferrerozine today. Good for young and old, for well folks and sick ones, too. 50c. per box, or six boxes for \$2.50, at all dealers, or direct by mail from The Cattaraugus Co., Kingston, Ont.

MARGUERITE'S WEEKLY CHAT.

Suitability. Did you ever say a word over until it sounds as if you had made it up and there never had been such a word in the language before? G. E. Chesterton writes something like that about if you say a common word like "dog" over a hundred times it will grow into something as uncommon as a leviathan. (I quote from memory.) Well, that was how I felt about "suitability," but what I mean is the proper thing at the proper time, and particularly the proper clothes. An article in the Ladies Field of recent date has a paragraph on this subject. It states that the girl who goes home late from her work dressed in a neat suit, will probably be quite unimpressed, while the maiden in the striped muslin with short skirts and conspicuous boots, has only her attire to blame if she received undesirable attention.

FASHION NOTES

Boas and capes of ostrich feathers, in all colors, are becoming very popular. Worsted silk ball fringe and chenille fringe are new as a trimming on hats and for the finishing off of skirts. Skirts are slightly longer, and many feature the bustle. The newest skirts have nine or eleven gores. The fullness in many skirts and waists is laid in cartridge pleats. New taffeta blouses are worn outside of the skirt, and reach to the knee. They are close-fitting, with a row of buttons down the front. Blouses on the basic order, with fitted back and "darted" fronts, are noted. Dark colors predominate.

WOMEN'S WORK

Talent Money. It may not count up to such a large amount in dollars and cents, but it will probably be millions in a book where money is reckoned at its real value. It isn't a present unless it hurts you to give it says a modern writer, and this money I am going to tell about cost time and thought, and in many cases meant real sacrifice. You see a man out of his regular income can just put his hand into his pocket to give to patriotic causes and while he does without some luxury or necessity he does not have to think where the money is to come from. But with most of our women it is different, the money they are giving they are earning themselves in original ways.

THE HOME THE WORLD

someone who needs it, but after all there has to be some sacrifice and perhaps that is the one demanded of those who formerly did the work. There is work to do for all who can do it and it is not likely that the raising of Talent Money will interfere seriously with anyone.

FASHION NOTES

Braids is being used extensively on separate coats and suit coats. White underwear embroidered in colors is new. An increased use of boning is noted in the new corsets. Metal designs are seen on the new lace, gold being the most popular metal used. The newest shoe has a black patent leather top and an upper of gray glazed kid.

WOMEN'S WORK

There was great regret in Canada over the announcement of the death in London of Miss S. Macnaughton, author of the "Fortunes of Christina McNab," "A Lame Dog's Diary," and several other successful stories. Her last book, "A Woman's Diary of the War," appeared some months ago and told of her experiences as a hospital orderly in Antwerp, Furnes and other places. In the latter place she established a soup kitchen which became almost famous. Her work earned for her the Order of Leopold of Belgium. Later she went to Russia and under took similar work there but her unending exertions combined with the hardships endured on the retreat from Antwerp and many months under shell fire undermined her health and she returned to London to die. The charm of her earlier novels, together with her vivid experiences under war conditions made her last book one of unusual merit. The little "Lady of the Goup" died a martyr to duty as surely as any soldier who fell on the field.

UNCLE DICK'S CORNER.

Dear Uncle Dick:— I was surprised for me to read in Saturday's Standard that my drawing was the best. It was not my biggest surprise though, that came when I saw the great big beautiful doll you got for me. I am more than delighted and have named her Audrey. I am sure the Children's Corner is proving a good success. I guess it because we all think so much of you. Thanking you very, very much for Audrey. Your loving niece, Adrienne. 60 Spar Cove Rd.

UNCLE DICK'S CORNER.

Dear Uncle Dick:— I now get down to write you a few lines to let you know that I am well, and I hope you are the same. I am trying the contest. I hope I will win a prize. I am sending you some drawing, write and tell me what you think about my drawing. My little brother Cecil and Revie Critchick and I was playing show and we are going to play after I get my letter finished. I have a sore back when I was playing in the hay I got my back hurt, I could not walk for a while, but it is getting better now. I have done that puzzle and the names that I got was Wanderer for the first one, Porcupine for the second, Squirrel for the third one. I looked for the answers of my letter, but it was not there. Well Uncle Dick I must say good-bye. From your loving niece, Pearl Fisher.

UNCLE DICK'S CORNER.

Dear Uncle Dick:— I did not send in the last story, as I knew girls who had learnt it at school so thought there was no need of me trying, but I colored them all. This has been long work, as I hope I get mention, will soon be time for me to go back to school at the Sacred Heart Convent, at Saint Anne Recollet. I will try the drawing. One who enjoys the Corner. Mary Grant.

UNCLE DICK'S CORNER.

Dear Uncle Dick:— I seen your contest in the St. John Standard, and thought I would try and get the watch. I am thirteen years old and will be fourteen on October the 4th. Yours truly, Fred McVicar. 264 Prince Wm. St.

UNCLE DICK'S CORNER.

Dear Uncle Dick:— It is a great joy to look forward to a week on the farm, but it proved quite up to our hopes. Were you ever so cold have all the strawberries and cream you could wish? This was one of our joys. We learned a lot about how things grow, milking the cows, the care of the milk, churning the cream and making butter. We saw the flocks of snow white sheep and lambs. Horses with their coats, calves and lot of little pigs. I think July is the best time to go to the country, everything seems to be growing and I am thirteen years old. I am sure you would be made at home. I may not win a camera with the letter, but I would like to have had one with me on my trip. Admiring some jots in sending love. From your loving niece, Ellen.

IMPERIAL.

The Man Behind the Curtain. The Man of Mystery he was but he was tracked to his lair and run to earth by the help of Lillian Walker as "Edna Hall," who dressed in man's attire in which she presents a very girlish appearance, and with her dimples coming and going in her cheeks is the star of this play at the Imperial. The Imperial had a full house yesterday afternoon and the faithful followers of "Peg" greeted every sight of the hero of this Vitagraph mystery play with loud applause. The story holds one's interest throughout. The mystery is not the main theme of the story; it is rather the heroine's struggle with the suspicion which falls upon her that forms the central idea of the story. The scenes are laid in some country place near the sea, a very pretty location and lovely cloud effects and sun rises are introduced. C. J. Van Dusen directed the production and the story is by Minnie Krakauer. Erart Overton plays the leading male part and the heavy role is rendered effectively by William Dunn. Templer Sax is the butler and John Costello as Mr. Stanhope complete the cast. The settings are good and so, too, is the photography. Lillian Walker will be remembered for her fine work in "A Pair of Silk Stockings."

IMPERIAL.

Peg's the Ring. Peg re-appears carried in by an elephant and with her filmy draperies considerably dishevelled. The adventures have reached their eleventh episode. Miss Ruth Blaisdell delighted yesterday's audiences at the Imperial with her soprano voice singing "Tuti," and "The Bubble." She is a Boston singer who has been filling a church engagement in Charlestown, P. E. I., and consented to stay off in St. John before returning to Boston.

IMPERIAL.

"Don Caesar de Bazan." Lord years ago in old Madrid, at the famous sentimental song says, there lived a king and a queen, a prime minister, Don Jose, a Gypsy "Martina," and a gallant Don Caesar de Bazan, rather like the gentleman in "The Mikado" who announces "A wondering minstrel I. A thing of shreds and patches" as far as his dress is concerned. These personages move through very pretty scenes which one could easily believe were really Spanish. The settings are excellent, and the story of the little drama "Martina" and the gentleman adventurer, Don Caesar, the wickedness of Don Jose and the troubles in the royal household make a good picture-play. Don Caesar is a Kalem photo-drama, taken from the well-known play of the same name. The principals were Alice Hollister and G. Lawson Butt.

IMPERIAL.

"Less than the dust beneath thy feet" was the attitude of the Hindoo lover, but it was "less than dust beneath her motor tires" that Marion, a wealthy society girl regarded the poor. This is a very good picture, showing public charity and private selfishness. The picture makes the lesson strong the author has over-drawn a little. For the honor of womanhood I must say I can't believe any woman would leave a young girl when she felt she could save the girl's life by staying. The Belgian Relief entertainment is splendidly staged, in fact the whole play is excellent. The picture of the factory accident almost too vivid, and you are pleased when the bill to protect workmen in factories is passed by the government.

IMPERIAL.

The factory details seem to me to be most minutely photographed. The fire in the woolen mills causes great excitement, and the hero does some thrilling rope-climbing to try to rescue Marion's father, the mill owner. Marion learns there is another sort of charity besides taking part in public entertainments, good as that is, and we leave the lovers re-united. Gangster's Dogs.

IMPERIAL.

On the curtain rising at the Lillian Walker afternoon we saw, sitting quietly under seven illuminated umbrellas seven little dogs. These are Gangster's dogs--three French toy poodles, three spits and a black

port was excellent, each member of the company being admirable in their part. The company is particularly well balanced. "Junior," played by Jack Storey, had the most to do (next to Miss Robson), and he did the impetuous boy remarkably well. The scenery was good, especially the one room of the twenty-two at "The Hut." The cast was as follows: Characters. (Arranged in the order in which they appear.) Holt Maid to Mrs. Lamson--Edith Conrad. Bell Boy at the Hotel St. Beris--John Rowe. Mathew Lamson, a Western Financier, now a power in Wall Street--Burr Carruth. Junior Lamson, his son--Jack Storey. Emily Lamson--Miss May Robson. Charlotte Avery, a Young Society Girl--Ridley Davies. Rev. Budthorpe Barrett, a chum of Junior's--Cy. Weaver. Mary Lawrence, Secretary to Mathew Lamson--Elizabeth Warren. Judson, a Butler--Chester Manser. Florence, a Chatterbox--Fred Glenn. Florence, a Waitress at the Inn--Marie Favey. Constable--John Rowe.

Blanche Ring in "Broadway and Buttermilk" at Maxine Elliott. Blanche Ring is on the second week of her engagement at the Maxine Elliott Theatre. Willard Mack's new comedy, with its contrasted characters of city and country life has caught the popular fancy, and the role of Jane O'Day, the New York milliner gives Miss Ring the best opportunities to show the versatility of her talent of any character in which she has been seen. Helen Lowell, William P. Carlton, Calvin Thomas, Tommy Meade, Charles Withers, Fayette Perry, Josephine Morse and other members of the cast have roles that are cleverly drawn and excellently acted. Miss Ring's songs are likely to become as popular as others who owe their fame to the fact that she was the first to sing them. ALICE FAIRWEATHER.

**Around the City**

**Saturday Half-Holiday.**  
 The retail hardware stores will continue to observe the Saturday half-holiday during September in most of the other stores the half-day of during the summer season ceased last Saturday.

**A Soldier Ill.**  
 Pie J. Thompson of the 4th Pioneer Battalion, stationed at St. Andrews, was brought to the city last night, suffering from severe rheumatic troubles. He was met at the depot by the ambulance and conveyed to the Military Hospital.

**Confirmation in Three Places.**  
 His Lordship Bishop LeBlanc, accompanied by Rev. Miles P. Howland, left yesterday for Kingsclear, where he will administer the sacrament of confirmation. He will also visit Milltown and St. Stephen for the same purpose.

**Military Prisoners.**  
 Two prisoners under guard were brought to the city last night on the Boston train from St. Andrews. They will be taken to Partridge Island this morning. Breach of military regulations is the charge on which they were sentenced.

**St. Joseph's University.**  
 A rather attractive and interesting prospectus of St. Joseph's College has just been issued. The book contains splendid pictures of the university, the science hall, laboratory and academic hall, besides a railway map of the Maritime Provinces, showing the railway systems of Eastern Canada. The prospectus gives an encouraging report of the past year. Indications point to a good year.

**Heavy Steamship Travel.**  
 The Eastern Line steamer Calvin Austin, Captain Mitchell, arrived in port yesterday morning direct from Boston with 350 passengers. The tourist travel this summer has been fairly large, and now that tourists are returning to the states, they have to speak well in advance for staterooms. A person who yesterday asked for the reservation of a stateroom on the steamer sailing next Saturday night was informed they were all engaged.

**"Spy" Was Innocent.**  
 Some little excitement was caused around Indiantown last night about seven o'clock when a supposed German spy was located. Sergeant Sullivan was called on and after he had questioned the man was satisfied that he was all right. The man who was young, was on his way from Amherst to Fredericton and gave a straightforward account of himself to the officer who could see no reason for detaining him and consequently let him go.

**Rothsay Consolidated School.**  
 The opening of the new consolidated school at Rothsay yesterday marked another step in the progress of education in Kings county. The building, which is situated in the centre of the village, cost in the vicinity of \$25,000. There is a vast difference in the rooms and facilities in the new building compared with those of the old school house.

**Driving Accident.**  
 Last night while Edward Moore of Garnet Town was driving over the Silver Falls hill on the Loch Lomond Road, the bolt which attaches the shafts to the carriage, fell out, allowing the shafts to fall against the horse's legs. The horse ran away and Mr. Moore was thrown on the road, slightly injuring his shoulder. The carriage was badly broken up and the horse ran into a wire fence and became so entangled that it took considerable time for County Policemen Saunders and Herbert Clayton, with a couple of the latter's employees, to cut the wire and free the frightened animal. The horse was only slightly injured.

**ST. JOHN ONCE MORE IN LEAD FOR SOLDIERS**

Out of 83 Men Recruited in New Brunswick Last Week 29 Came from This County

New Brunswick recruited eleven more men for the week ending Saturday, August 20, than the previous week. Eighty-three men enlisted in this province within the last seven days. Out of this number, St. John has contributed twenty-nine, which gives this county the honor of again heading the list.

This is the third consecutive week that the County of Gloucester has contributed all to Canada's army. Victoria has only given one man in three weeks to reinforce the four Canadian divisions now playing an all-important part in the Somme offensive. For the week ending August 20th, Albert, Kings, Kent, Victoria and Gloucester counties failed to recruit a man.

The tabulated list follows:

**ANOTHER CASE OF A TELEGRAPH FAKE**

**R. H. Cother Repudiates Alleged Interview Published in News Columns of "The Daily Annapolis"**

During the course of his remarks at the conference of the Kings County Union of Milk Producers and the St. John dealers held yesterday, Mr. R. H. Cother, of the People's Dairy, took occasion to deny an alleged interview which appeared in the Telegraph of August 23, which credited him with saying that he could not see any occasion for the increase in the price of milk, and that if there was a possibility of getting milk from anywhere else than from these striking farmers they should do so. The Telegraph also credited him with saying that they had tried the same thing before and failed, and there was a possibility that they would fail this time. Mr. Cother said he had never made such statements, neither had he been interviewed by the Telegraph. He had called up the Telegraph next day and asked where they got the information and was told that they had called up his office and some one there had given them the information. Mr. Cother then said: "You did not get it from me," and whoever was on the other end of the wire said, "No, it was not your voice, but we got the information from somebody in your office." Mr. Cother said he wanted to take

**CITY TEACHERS HELD MEETING YESTERDAY**

Matters of Public Health Considered—The Daylight Saving Plan—Contributions Authorized to Patriotic Funds.

There was much activity yesterday in connection with the re-opening of the public schools. In the morning Dr. Bridges began an inspection of the various buildings and reported that, except that accommodation for the scholars is insufficient in some cases, everything is going on in a satisfactory way.

Only a morning session was held yesterday, the afternoon being devoted to a meeting of the teachers and heads of the department of education and Board of Health in the large assembly hall at the High school. Dr. Bridges was in the chair, and there was a large attendance when, with other officials, practically the whole of the teaching staff and teachers were present to listen to an address by the chief health officer, Dr. Melvin. Other matters were also brought forward and dealt with.

Dr. Melvin addressed those present on the subject which has recently been brought prominently forward respecting the maintenance of a good health standard amongst the children in the schools. In a clear way he explained the methods that should be adopted to give effect to the regulations of the Board of Health framed with the special view of safeguarding the welfare of the citizens.

W. J. S. Myles brought forward the matter of the disposition of a surplus of \$45 resulting from a contribution of sixty cents by the local teachers to entertain visitors attending the teachers' institute held some time ago. It was agreed to devote this sum to patriotic purposes. The teachers present agreed, also, to give one per cent. of their salaries for the remainder of this year, and two per cent. of next year's salaries for patriotic purposes, by which means it is anticipated that between \$2,500 and \$3,000 will be made available for this object.

Some discussion was also respecting the merits and demerits of the daylight saving plan, the general view expressed being that, for school purposes, the clock should be readjusted to normal time on September 1st. It was thought by several speakers that three months of daylight saving would be enough, the months chosen to be June, July and August. Various reasons were advanced for eliminating May and September from the period of saving advocated early this year, but most of the speakers made it clear that they did not desire to condemn the scheme of daylight saving as a whole. For school purposes, however, it was explained that confusion had arisen in many ways as a result of its adoption.

The exact number of permits issued by the school authorities could not be ascertained yesterday. In the morning 130 additional permits had been issued with many more in the afternoon. During August more than 700 of these permits have been issued and during the whole of this week it is thought that those seeking these documents will continue to visit the School Board offices. Both the secretary and assistant secretary have been kept very busy of late attending to those who are interested in getting the children the necessary permission to enter the schools for tuition. It is believed, however, that the number of permits will exceed that of last year. No children are being accepted who have not been vaccinated.

Many children from outside points are seeking admission to the schools, their parents or guardians offering to pay for tuition, but owing to lack of facilities for reception in many cases it will not be possible to admit all of them.

**Chinese Case in Court.**

Lim Hong, charged with being the proprietor of a gambling den and opium joint on Mill street and fourteen Chinese companions, charged with being inmates of the resort, were before the police magistrate yesterday morning and afternoon. They were represented by John A. Barry and all pleaded not guilty. The evidence of Detective Barrett was taken regarding the raid, in which he exhibited the gambling devices, also, two of alleged opium which he and Detective Briggs found under a stove, and in a toilet. Lee Hong, a local laundryman, was called and testified for the crown that gambling was going on in Lim Hong's place. The case was adjourned until Wednesday morning. After the hearing seven of the prisoners were admitted to bail, while their companions went into jail.

**FOUR MEN ON HONOR ROLL YESTERDAY**

Recruiting Gets a Fair Start for Week—Notes of Interest Regarding Local Military Units.

**HONOR ROLL**

- J. E. Chamberlain, St. John.
- Joseph Paul, St. John.
- 237th Battalion.
- John Smith, Bathurst, N. B.
- 236th Battalion.
- Lewis Dunphy, Mass., U.S.A.
- 8th Field Ambulance Corps.

St. John recruiting officers yesterday signed on four men who are anxious to serve their country. Yesterday's figures in comparison with the same day last week give this county a fair start towards heading the recruiting list again this week.

No. 9 Siege Battery.

There is some talk of this unit proceeding overseas at an early date. In fact much sooner than they expected. As this unit requires a few more men, it will furnish an opportunity for any one desiring quick transportation in Canada's army to the other side. This unit, which is in command of Major Westmore, was recently inspected by His Royal Highness the Duke of Connaught at Halifax.

Cyclist Corps.

The Signallers' and Cyclists' Corps require a number of active young men. The signallers will be taught telegraphy and the use of the Morse code with buzzers, flags or keys.

A platoon of thirty-five is to be raised. These men are wanted for despatch riders and scouts. Although the work is hazardous, yet it is highly interesting, and should appeal to the young men of New Brunswick.

The headquarters for both the signal corps and cyclists will be at Halifax. Any who feel like joining either corps should apply at once to any recruiting officer and they will be directed to the proper enlisting department.

Military Notes.

Fred J. Hamilton of 60 Harrison St., who has enlisted in the 236th Rifle Battalion, came to the city yesterday on a short leave and will return to Fredericton tomorrow.

A. G. Viets, who has been visiting in St. John for the past few days, the former of Mrs. K. G. Viets and the Misses Stone, Germaln street, returned to his home yesterday.

Mr. and Mrs. H. Daniel, who have been residing in Montreal, are visiting Mr. Daniel's home at Rochesay.

Mr. Daniel, son of Canon Daniel, has enlisted in the 224th Battalion, Kitchen's Own. He will leave shortly to report to battalion headquarters.

Pte. R. G. Murray, who enlisted with No. 3 Field Ambulance Corps, has been promoted to the rank of corporal.

The funeral of Isaac Burns, R.C.R., who died while in the service of the 219th Nova Scotia Highlanders, will be held today at Fredericton, the home of the deceased soldier. The funeral will be held with full military honors. The firing squad will go from St. John to honor their late comrade-at-arms.

The Obala Cornet Band has been engaged to take part in the Labor Day sports in St. John. It is probable that an excursion from Calais to St. John will be held.

As the internment camp at Halifax is being moved to Amherst, some time in September, twenty men are urgently required for guard duty at the detention camp there.

A popular St. John man, John H. Kimball, son of George Kimball, is leaving this week for Montreal, the first stage of a journey which will make him a member of the British navy. Recently he volunteered for naval service, and now has been notified to report in Montreal.

Sapper Harold McCabe, the 15 year old son of Mr. and Mrs. Berton McCabe, of 122 Britain street, was killed in action on August 19, was the word received on Saturday from Ottawa. Sapper McCabe went overseas with the 66th Battalion and when the unit was broken up he crossed to France with a draft and had been at the front only about a month.
