OPENING
....NEW....
...FALL...
..GOODS..

The exhibit of new Fall Styles is a most interesting and instructive one to those who would keep abreast of the times. The aim with us is to assemble a NEW STOCK each season and we are now prepared to show you what is, without doubt, the most comprehensive line of Dress Goods, Silks, Velvets, Hosiery, Underwear, Mantles, Furs, etc., on the North Shore. Our Dress Goods are particularly attractive this season, being a direct importation from Great Britain and the continent.

Samples mailed to any address.

SUITS WITH GINGER IN 'EM.

The young man always wants a Suit that's full of "Ginger." We cater to his wants and he can find here a suit that will exactly fill his mind's eye.

Couldn't buy an out-of-date, back number Suit or Overcoat here if he wanted to.

Our Suits are not only the style but they are built by the

Best Artists in the Business.

Look at "our shoulders, for instance.
Look at the narrow and artistic hand-padded collars and lapels.
Our Suits will show how good tailoring should be done.
YOUNG MAN, come and see the good things prepared for you.

A GOOD SUIT AT \$7, \$8, \$10, \$12 OR \$14.

TROUBLE AT MISSION

A Dispute of the Past Two Centuries Revived

RE LINE FENCE

The Indians Claim that Line is Run in Wrong Place

Some time ago Mr. Alfred Fraser of Cross Point asked the Department of Indian Affairs to have the line between his property and the Indian Reserve at Mission Point re-run and re-marked. This was in view of the fact that the permanent mark—a large stone—at the western end is in danger of falling into the river. The request was granted. Mr. Fraser to pay half of the expenses. Surveyor Mill was engaged and the work commenced last week but the Indians interfered and made it so unpleasant for the men who were at work that they were compelled to stop.

The Indians think Mr. Fraser has willfully and designedly taken some of their land from them. The history of the case is about as follows: Over 115 years ago some five or six Indians of the reserve sold part of their land and when this was discovered by the rest of the band there was great indignation in their ranks. A commission was sent to Quebec to have the matter investigated. The investigation showed that land had been sold and the money paid in legal manner. Shortly afterwards another deputation went to Quebec to induce the government to purchase back the land for them. The government offered five shillings an acre but was not accepted, double that amount being asked, and the matter dropped. Ever since that time the Indians have been laboring under the impression that line was run in wrong place and from this all the trouble arises.

Mr. Samuel Bray, Chief Surveyor of the Department at Ottawa, arrived here on Tuesday and is trying to bring about a settlement of the difficulty, which it is hoped will be permanent.

COME TO STAY.

THE OCEAN LIMITED A FIXTURE.

A report is current that the Ocean Express has come to stay. The traffic by this train has been steadily increasing since it was put on and it looks as if the popular demand will necessitate continuing the service. The best of it is the traffic on the Maritime Express has not decreased to any extent and the inference is that the increase comes from the C. P. R.

Ayer's
Ayer's Cherry Pectoral
quiets tickling throats, hacking coughs, pain in the lungs. It relieves congestion, subdues inflammation. It heals, strengthens. Your doctor will explain this to you. He knows all about this cough medicine.
We have used Ayer's Cherry Pectoral in our family for 25 years for throat and lung troubles, and we think no medicine equals it.
Beware of cheap imitations.

For Weak Throats
Ayer's Pills greatly aid recovery. Purely vegetable, and entirely harmless.

THOUSANDS APPLAUD LAURIER.

A BIG DEMONSTRATION AT NEW CARLISLE ON FRIDAY IN HONOR OF SIR WILFRID.

Mr. Charles Marcell Again Nominated.

"Vive Laurier," was the cry which resounded on Friday last throughout the picturesque country of Gaspesia. In the quaintly beautiful town of New Carlisle, Bonaventure County, where "bon jour" was as common as "good day" and "oui monsieur" as common as "yes, sir," representative liberals of four counties gathered to do honor to their chieftain and incidentally to popular Charles Marcell the government representative in parliament for the wide awake County of which New Carlisle is the common centre.

The whole country side arrayed in faultless September weather was ablaze with color and sunlight and at every station and every cross road along the line of railway flags and emblems fluttered in the breeze and lusty cheers were given for Laurier.

New Carlisle was en fête. Conservatives and Liberals alike joined to do honor to the occasion and it may safely be assumed that the old town never witnessed such a gala day. The principal buildings were a mass of flags and bunting. Along the symmetrical main street of the town were several evergreen arches which would have done credit to a pretentious city. Inscribed on these arches in French and English were "Welcome Sir Wilfred and Lady Laurier," "Honor to Sir Wilfred," "Laurier," "Marcell," etc., etc.

Among those who attended from New Brunswick were O. Turgeon, M. P., Gloucester; James Reid, M. P., and H. F. McLatchy, M. P., Restigouche. The Citizen's Band of Campbellton supplied the music of the day and it left nothing to be desired in that respect.

At noon the liberal convention took place and amid cheers Mr. Charles Marcell was renominated as the candidate of the party in the County of Bonaventure.

Shortly after two o'clock a special train bearing Sir Wilfred, Lady Laurier, Senator Casgrain and Madam Casgrain and others arrived at the end of the Atlantic and Lake Superior Railway's line, two miles below the town. They had come from Carleton Place, Bonaventure where Sir Wilfred had been the guest for ten days of Senator and Madam Casgrain. The party was met in carriages by Mr. Marcell and Mrs. Marcell, the visiting member of parliament, and others. Sir Wilfred and Lady Laurier were conveyed in a stylish equipage through the main street and thence to the square. Here a large canopied platform of evergreen, flags and bunting had been erected and here they were welcomed by Mayor Kempfer in the presence of nearly two thousand people.

On the stand was a sprinkling of handsome and charmingly gowned women and they didn't disdain to smile most bewitchingly upon Canada's premier as he ascended the steps.

Warden Dion of the County presided at the gathering and delivered a vigorous introductory address.

Mr. John F. Guite, President of the County Liberal Association, then announced that Mr. Charles Marcell had again been chosen the standard bearer of the liberal party of Bonaventure.

Amid loud and prolonged cheers Mr. Marcell advanced and addressed the assemblage. The silver tongued orator from Bonaventure was never in better form and the brevity of his address was a disappointment. He spoke for only about five minutes but in a very

RIFLE SHOOT.

The Shives' Cup Competed for on Labor Day.

DR. CATES THE WINNER

Large Number of Competitors and Spectators. Scores below Average.

The meeting of the Restigouche Rifle Association called for Monday Sept. 5th, for the purpose of competing for the Shives' Cup resulted in an easy victory for Dr. Cates. The day was fine and conditions for shoot were good, but the scores were low. The following is the total score of each competitor:—

THE DOUGLAS HORROR

Mr. AND MRS. JEWETT RECOVERING

FREDERICTON, (Sept. 5)—Mr. and Mrs. Alfred Jewett, survivors of yesterday morning's holocaust at Douglas are still at the residence of John McGibbon under the treatment of Dr. H. H. McNally. They are both doing as well as can be expected though suffering considerable pain and overcome with grief over the loss of their children.

Mr. Jewett was burned about the legs, hands and back Mrs. Jewett's worst burns are in her hands. She has several blisters on her face. It seems that when Mr. Jewett was awakened at 4.30 o'clock by the crackling of flames and spoke pouring into his bedroom their three children and Mr. and Mrs. Clark and their daughter had already been suffocated by neither Mr. or Mrs. Jewett heard a cry before they made their escape through smoke and fire in the hall and stairway.

The remains of the six victims are in three boxes in Mr. Jewett's barn awaiting the inquest tomorrow afternoon. The remains consist only of charred bones. Those of Mr. and Mrs. Clark are in one box and those of the four children in the other two. The trunk skeletons are distinguishable by their size. It is the worst burning fatality which has ever occurred in the vicinity of Fredericton—Globe

Dysentery causes the death of more people than small pox and yellow fever combined. In an army it is dreaded more than battle, requires prompt effective treatment. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been used in nine epidemics of dysentery in the United States with perfect success, and has cured the most malignant cases, both of children and adults, and under the most trying conditions. Every household should have a bottle at hand. Get it to-day. It may save a life. Sold by all druggists.

Maritime Winter Fair.

The Maritime Winter Fair and Fat Stock show which is to be held at Antigonish, N. S., on December 13, 14th and 15th, marks the latest stage of advancement in Agricultural Education in Canada as carried forward by the modern exhibition. I can recognize the Fair of 1901, 1902 and 1903 are a matter of history and judging by the expressions of opinion that have been made by those competent to judge, from all points of the Maritime Provinces as well as from abroad, they were a magnificent success and fully justified the efforts put forth to bring them about. From an educational standpoint there is no effort put forth in these provinces that is giving such large returns. It is intended that the show to be held this year shall far surpass all previous ones.

A large and generous Prize List has been offered and especially low rates have been procured on the different lines of railway. It is the wish of the Management that everyone in the Maritime provinces should avail themselves of this opportunity to study the best animals and the requirements of the best trade in this line and also to avail themselves of the opportunity of learning how products in the different branches can be produced so as to make them a financial success. It is the opinion of those competent to judge that the conditions existing in these provinces are exceptionally good for producing the very best food products at an expenditure at least as reasonable as in other parts of Canada. Make your plans to attend the Maritime Winter Fair and Fat Stock Show.

For Prize Lists and information address E. B. ELDERKIN, AMHERST, N. S.

Almost Every Woman

Is inclined to habitual constipation and should use Dr. Hamilton's Pills of Mandrake and Butternut which tone the system and regulate the stomach and bowels. For mild and sure relief use only Dr. Hamilton's Pills. Price 25c.

Shirt waists and dainty linen are made delightfully clean and fresh with Sun-light Soap.

SUNDAY SCHOOL CONVENTION

The N. B. S. S. Association executive met in the German street Baptist Church parlors last night.

After reports were read by the secretary on the work of the month the programme for the convention at Woodstock was submitted by the programme committee and adopted. The dates of the convention have been fixed for Tuesday, Wednesday and Thursday, Oct. 11, 12, 13.

The officials are Rev. J. M. McLean, Chatham, president; T. S. Simms, St. John, chairman executive committee; A. H. Chipman, St. John, treasurer; Rev. J. B. Ganong, Sussex, field secretary.

Reports have been received from Woodstock that local committees are appointed and all arrangements being completed.

Word has been received from W. C. Pearce and E. O. Excell Chicago and Mrs. F. Bryner, Illinois that they will be present. These are well known International S. S. workers. Mr. Excell is a singer of much power and Mr. Pearce is a teacher in the International Training School.

Delegates will be present from all over the province. All will be entertained while there. The usual half fare arrangements will be made on the railway and steamboat lines.—St. John Sun.

When Your Appetite Fails

And it makes you dizzy to even think of eating, you need Ferrozone the greatest of appetizing tonics. It builds up the whole body, the taste becomes aware of new flavors in food you never noticed before. A relish and satisfaction in eating is another result from Ferrozone which improves the digestion and converts everything eaten into nourishment for the blood, and brains and nerves. Just one Ferrozone tablet after meals easy to take and pleasant. Try Ferrozone. Price 50c. at druggists.

WILL BUY DOGFISH.

OTTAWA, Aug. 26.—The department of Marine and Fisheries has ordered two rendering plants for the purpose of converting dogfish into oil. They will be erected in Nova Scotia, at the sites to be announced simultaneously with the intimation of dissolution of Parliament. One location will probably be on the Strait of Canso, another in Western Nova Scotia, and a third on Baie des Chaleurs. It is not intended to offer a bounty for the done haymaking which is reported to be a very small crop, fishing also has been very poor this summer.

A little stranger has arrived at Mr. Tennier's. Congratulations. Miss Henry Jones has returned from Montreal much benefited by her trip.

He Deserved Pity

His suffering from Sciatica was so great, but thanks to Nerviline he was cured. "I suffered for three years of sciatica," writes E. S. Jenkins of Portland and no man ever suffered more. I spent a small fortune on different remedies but the only one with real merit was Nerviline. I used a few bottles of Nerviline and was perfectly cured. I can recognize the Fair of 1901, 1902 and 1903 are a matter of history and judging by the expressions of opinion that have been made by those competent to judge, from all points of the Maritime Provinces as well as from abroad, they were a magnificent success and fully justified the efforts put forth to bring them about. RIVER DU LOUP

It has been so long since there have been any notes from our little place that I thought I would write a few of the most interesting items.

The weather has been very favorable in the past; an occasional shower to stop the dust.

Mr. and Mrs. George Dobson and family who have been visiting here have returned to C'ton.

The Misses Montgomery's and Miss Annington were the guests of Mrs. G. Dobson on Tuesday and were accompanied back by Mr. Wallace Annington. The Misses Montgomery's left on Wednesday for Montreal. We wish them bon voyage.

Mr. and Mrs. Patrick Smith and Master Lyster Annington were the guests of Mr. and Mrs. Annington on Thursday.

J. Annington and his sister Edith drove to Broadlands on Wednesday. Miss Ina Allison of Escumacine was the guest of Miss Minnie Up-ton last week.

Miss Annie Carroll of Point le Gard was the guest of Mrs. Klip-per last week.

The Best Throat Cure

during the heat of summer. It is a delicious, cooling and refreshing.

PERCE.

We are having very unsettled weather of late, gales of wind and showers, it is quite cool in the early mornings and evenings now.

His Lordship Bishop Dunn of Quebec held Confirmation at the Convent at St. Paul's Church on Tuesday, Aug. 15th. The church was very nicely decorated with potted plants and wild flowers. The weather was fine, and a number of people came over from Bonaventure Island to attend the service. His Lordship during his stay was the guest of Mrs. Valpy at the Park.

A very successful Bazaar in aid of the Perce day school was held in the Town Hall on August 10th. The hall which was decorated with flags and greenery looked very attractive and cool. The refreshment table was well patronized, and ice cream, lemonade, home-made candy and cakes found a ready sale. The booths looked very pretty, there was a number of ornamental and useful articles for sale.

Mrs. F. James' cushion, Mrs. Le Brun's quilt and Miss Maria Buntor's beautiful embroidery work were much admired. Mr. Albert LeBrun won the quilt and Mr. P. J. Furlong of Red Head, the cushion. The proceeds amounted to \$154.

Prof. J. M. Clarke and party of Albany, N. Y., are guests at Mr. P. Le-Boutillier's house.

The Misses Lindsay and Hyman of Gaspe, who were visiting friends in Perce have returned home.

Miss Muriel McNaughton of Pabos Mills is in town the guest of the Misses Tardiff.

Dr. T. McCarthy has left for Cape Cove where he intends to spend a few weeks before returning to Montreal.

The house of Mr. Lawrence Lamb of White Head was destroyed by fire on Tuesday last, scarcely anything being saved. There was no insurance.

The yacht "Puritan", Capt. Le-Coeur, was in port last week. The "Nereid" from Gaspe was also here, unloading coal.

Mr. Connelly of Halifax and Mr. Henry Baker of Cape Cove were in town on Thursday.

Mr. Ph. Couillard, blacksmith, died on Tuesday last. He was ill only a short time.

Mrs. W. G. Lyster is in town, the guest of Mrs. R. Tardiff.

LITTLE PABOS

Farmers have profited by the fine summer days and are pretty near done haymaking which is reported to be a very small crop, fishing also has been very poor this summer.

A little stranger has arrived at Mr. Tennier's. Congratulations. Miss Henry Jones has returned from Montreal much benefited by her trip.

Miss Rachel Tennier of Port Daniel is visiting her brother Phillip.

Mr. George Sutton has left for his usual summer vacation and has left his residence in charge of his coachman.

Geo. Bourget who is well known in Bonaventure and Gaspe has held several positions of trust being both sober and industrious.

Mr. C. Jones is visiting friends in Port Daniel.

Mr. Mike O'Connor has left for his old home in Minn., having spent several weeks with his parents here.

A very quiet but pretty marriage took place here last week when Mr. Omer Henry left Miss Alma Aspirot one of our most popular teachers to the altar.

The only friends who witnessed the marriage ceremony were Mr. and Miss Hurley of Pabos.

Mr. Henry Jones has done quite a business this fall selling machinery.

HALL'S Hair Renewer

A high-class preparation for the hair. Keeps the hair soft and glossy and prevents splitting at the ends. Cures dandruff and always restores color to gray hair.

Business is Brisk.

Why? Our Groceries are FRESH and CHEAP. The people are ready to give us a share of their trade.

WE WILL SATISFY YOU

Geo. F. Croasdale, Cross Point, P. Q.

GOVERNOR GENERALSHIP

New York, Aug. 29.—A Representative of the British consul in New York City said this morning that information had been received at the consulate that Earl Grey will be appointed Governor General of Canada to succeed Lord Minto.

His Standard of Measurement. "I thought you claimed this was a good restaurant," he grumbled as they passed from the room of the big dry goods store.

"Well, isn't it?" "Bah! I know of a place over on Madison street where you can get three times as much as we've had for a quarter."

Not a Bit Accommodating. "Meanest folks I ever saw in the city," growled the man from the way-back district. "Why, when you find a fellow goes right your way with one of them big cars he won't give you a lift without charging you a nickel for it."

Book Themes. Since the introduction of printing the subject matter of the aggregate of books shows approximately the following averages: Law and sociology, one-quarter of all; literature, one-fifth; applied science, one-eighth; history and geography, one-tenth; theology, religion and speculation, one-tenth; miscellaneous and bibliography, one-tenth; philosophy and languages, one-twentieth; natural sciences, art and philosophy, one-twentieth; and poetry not appearing in the classification.

Not Like a Watch. "Do you know," he went on glibly after the parlor clock had struck 11, "do you know that a man is like a watch because he is known by his works?"

"I know he is not like a watch," she remarked, with a yawn, "for when he is wound up he doesn't seem to go."

If you would hit the mark you must aim a little above it. Every arrow that flies feels the attraction of the earth.

For Sale

LEADERS OF THE CHURCH

Men of God in days of old who witnessed a good confession gave themselves up, without reserve to the service of God. Abraham was the friend of God. Caleb and Joshua followed the Lord fully. Elijah and Daniel would make no compromise with the world. They would die rather than serve for one little moment from the path in which God had led them. This is a lesson we need to ponder. This is an age of many attractions. The world is full of idols. Main-moon is a great God in our day. Thousands of professing Christians are being deceived by the idol. They fear Jehovah and serve Mammon. Their religion is not pure and undefiled. Perhaps this evil is not confined to the laity. There may be men who hold high places in the church but do not follow the Lord fully. Once they walked with God but the love of preeminence, thirst for office and position in the church of God, has drawn them away. They are leaders in the church but they are not leading the people nearer to God. Often the men who live nearest God are the obscure men who were never tempted by wealth or power. It is easy to account for lack of power in the church when ambitious men are promoted. It is difficult for ambitious men to see their error. They are flattered and praised by those who are dependent on them for favours. Few men deal faithfully with those who occupy high places. The world blinds their eyes and they walk on in darkness, fondly believing that they are the great leaders. But they are blind leaders of the blind and soon there will be a terrible falling into the ditch. Jesus was faithful in his dealings with leaders who led the people away from God. Those who stand at the head are responsible for a large share of spiritual decline. No man should have a leading place who does not live close to God.

NOT YET OVER

Assuming, as practically every one does, that Russia has lost this campaign, the question is asked, "Will she fight another?" The best information goes to prove that the governing group at St. Petersburg has already answered the question in a decisive affirmative, and nothing hinders, except the risks of a general internal revolt, now somewhat remote. Men and money will fall Japan before they fall Russia and the Russian position in the Far East must grow much worse before the Russian autocracy will accept what they would regard as a shameful peace at the hands of the despised Asiatic. The idea of intervention is put aside. As the London Spectator says, the desire to stop bloodshed hardly ever suffices to deflect the action of great states, adding: "With the exception of France, which is excessively disinclined to disturb the general peace, the weakening of Russia relieves the Powers of a sort of nightmare. Great Britain ceases to fear for India; Germany ceases to apprehend an invasion from two sides at once, such an invasion of half a million of men. Austria recovers her old position of safety in the Balkans, and is relieved from the danger of a summons to support Germany from a war in which she could reap little direct advantage. No peace that can be expected would enable Russia to assist Germany to secure practical possession

of the Shantung peninsula. America has been cured of her old sentimental friendship for Russia. Italy, whatever her wishes, will not dream of acting alone. Only France is really concerned to maintain Russia as she is, and France will not move without the consent of Great Britain, even to save her immense pecuniary stake in Russian solvency. Intervention then must be limited to words, and words have no effect, either upon Russia, which feels that the alternatives are victory or a complete upset of her existing system, or upon Japan, which regards intervention as a device for depriving her of the just rewards of her enormous sacrifices and great success.

ENOUGH OF A GOOD THING

All that is sanguinary in the nature of the Japanese has been thoroughly aroused. The battle cry of Nippon is—Port Arthur at any cost. Die by hundreds if necessary but not before you have slaughtered thousands of the enemy. The "dope fed" slaughterers of the Mikado follow these instructions to the letter and the cruel carnage in the Far East continues with unabated vigor. "Japan will become a bloodthirsty tyrant," is the warning handed out to civilization. Yet civilization applauds the gory triumphs of the Japanese. Russia deserved a whipping. She has received it. It is time to lay down the lash. We have nothing to fear from Russia. We have everything to fear from Japan. And if the triumphs of the Japanese continue to the bitter end, even Great Britain and the United States may count themselves lucky if they get anything at all out of the Far East, at the close of armed hostilities. The sympathy which was strong with Japan when she stood for the weaker combatant should now diminish as her bloody triumphs increase. A chance of sentiment will benefit civilization and show Russia that she is, after all, merely a flea on the map of the world.

IGNORANCE AND PREJUDICE

At the demonstration in New Carlisle, P. Q., the other day in honor of Premier Laurier and Charles Marcell, M. P., the former took occasion to point out with pride to the harmonious relations which prevailed between the French speaking people and the English speaking people of Canada. In the course of his observation he declared that race prejudice was largely due to ignorance. The Premier has discovered a truism which has been hanging about the back yards of civilization for centuries. Not only is ignorance responsible for race prejudice, but it is responsible for several other prejudices common among us, not least among which is party prejudice. With enlightenment the world becomes tolerant.

THE NEXT CANDIDATE

The newspapers speak extensively of the probability of Mr. Wm Murray as the next liberal candidate in the County of Restigouche. We have no inside information on the subject but we are inclined to believe that Mr. James Reid will again be the candidate in Restigouche in the interests of the Liberal party. The question however will no doubt be satisfactorily settled before the next convention which by the way is about due.

The Liberals of Bonaventure have made no mistake in again choosing Mr. Charles Marcell as their standard bearer.

Lever's V-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant. 34

WILD TIME.

New Brunswick Harvesters out for Loot.

CALUMET QUE. SACKED.

Excursionists Saw a Piece off Cripples Wooden Leg.

Montreal Sept 6.—The town of Calumet, Que., is in a perturbed state of indignation and it is probable that actions will ensue as the result of acts of vandalism on the part of three hundred excursionists who passed through on Thursday last for the harvest fields of the West.

John Milway, hotel keeper, and M. Brennan, dry goods merchant have reported the affair in a complaint laid at Ottawa.

When the train reached Calumet a raid was made on a saloon amid whoops of delight. The keeper was forcibly ejected and liquors freely distributed. This put the mob in a more rowdy frame of mind and they considered it an important part of the proceedings to force an entrance into Brennan's dry goods store, where they helped themselves generally. Among other things 700 yards of cloth was taken. The townspeople were unable to protect their property and the sacking continued.

A baker's shop was next entered and the vandals fortified themselves with tarts, pies and jams. A mob collected at the station to await the continuation of the journey. They had quieted down perceptibly and were laughing and joking among themselves when a man with a wooden leg stumbled along the sidewalk. Before the cripple could escape they capturing him and sawed a piece from his leg, insisting that the wooden member pounded too heavily in operation of walking.

The best is none to good McLean's Vegetable Worm Syrup is the original and genuine.

MARRIED.

KNOWLES-JACOB.—At Clifton 21st of August 1904 by Rev R G Vans, Albert Chas Knowles to Carrie Maud Jacob.

Minard's Liniment Cures Dandruff.

Taking No Chances.
A canny Scot got on a tramcar, intending to make the full journey, costing 3 pence, but only took a penny ticket and renewed it twice at the end of each stage. On the last stage the conductor remonstrated with him, saying he ought to have taken out a three-penny ticket at the beginning of his journey and saved unnecessary trouble. "Na, na," said the Scot. "Had I done so and yer cable had broken down I might have lost me thruppence; but, as it is, I cannae lose mair than a penny!" —London Standard.

EAT WHILE THEY MOVE.

Chef Tells of a Peculiarity of Passengers of Dining Cars.

The chef on one of the Pennsylvania dining cars was particularly talkative the other day. The train was waiting for its Philadelphia passengers, and every table in the diner was occupied. The second call of Baltimore passengers were standing around the aisles waiting for vacant places. There was no little amount of dissension among those whose appetites had not yet been appeased. The diners seemed to be eating in a most leisurely fashion, with no apparent concern for those who were less fortunate.

"It's always the way," said the dark complexioned cook, glancing through the car. "When the train is running along those people will eat about twice as fast as they do ordinarily. But when she comes to a stop they start to talk and hardly touch a bite. It's the motion of the moving train that does it. Now, you just watch them and see if I'm not right."

Just then the train pulled out, and the observer saw a sight which firmly convinced him that his informant had spoken truthfully. Plates, knives and forks began to rattle industriously. Every one began to eat as if his life depended upon the next mouthful. "Didn't I tell you so!" called out the grinning philosopher.

LIFE ON OTHER PLANETS.

A Subject About Which We Know Absolutely Nothing.

Upon the question whether life bearing planets can exist in other solar systems than our own the answer of science is clear and distinct. It is precisely the same which Professor Newcomb gave concerning the possible inhabitants of Mars. "The reader knows just as much of the subject as I do, and that is nothing at all." Within our solar system we can indeed form some crude estimate of probabilities beyond it, nothing. All the amazing progress of modern science, all the revelations made by the microscope or by photography, all the advance in biology, have not brought us one step nearer an answer to the question, "Is this the only inhabited world?" We stand essentially where Whewell and Brewster did in the middle of the nineteenth century, or we might indeed say where Galilei and Copernicus were 300 years ago. We can indeed spin out the discussion at greater length than our predecessors and can introduce a far larger number of more or less irrelevant facts, but of serious argument, either for or against, we are entirely destitute. —Professor Maunders in Knowledge.

C. F. CLARE,

The Jeweller

Canada Eastern

Reports from Fredericton indicate that the Canada Eastern Railway has not yet passed under the control of the Canadian Government. Last session the necessary legislation passed Parliament, and since prorogation the legal papers have been prepared to effect the transfer of the property. The Fredericton reports intimate that the terms as proposed have been acceptable to both parties. If, therefore, there is any hitch in the arrangements it must arise from some difference of opinion as to the price, and not from any other cause. It is current report that there is such a difference. —Globe.

Labor day was quietly observed in
town, most of the stores being closed.
Picnics to Morrisey Brook, the Sugar
Loaf and other favorite resorts were
the order of the day, while the riflemen
spent the day at the range

I. C. R. Police officer Noble was
called to St. John last week, on ac-
count of the large number of harvest
excursionists being held over at that
place. During his absence Wm
Noble was on duty at the depot here.

On Monday a very enjoyable time
was spent at Matapedia by a party
from Matapedia, the party consisted
of Mr. D. Lawlor, Mr. Jos. Gallant,
Mr. Francis Lawlor, John Lawlor Jr.,
Misses Bridget Quinn, Rosie Arch-
ibald, Mary and Clara Adams.

Besides being a master of the Crayon
Mr. Bengough has long held first rank
as a general entertainer displaying re-
markable powers in humor, pathos,
sentiment, burlesque. The Toronto
word says that he is "without a peer".
Of his entertainment in Quebec the
Chronicle said "one continual roar of
laughter". Bengough is to appear in
the rink here Oct 4th

Last Sunday was observed as Rally
Day in the Methodist Sunday School.
This is the day on which the old
scholars, the home-department mem-
bers and the cradle roll, as well as
those outside the school are specially
invited to be present and on this
occasion a goodly number were
present. An interesting programme
was carried out consisting of solos,
duets, trios and choruses by the chil-
dren and others and an address by the
Pastor, Rev H. E. Thomas.

On Monday a rather peculiar occur-
rence took place at McDonald's Drug
Store. Mrs. Benwell was engaged in
cleaning up the store and her young
grandson, about 8 or 9 years old, was
with her. He was running about en-
joying himself as best he could, and
noticing a box on the counter contain-
ing something that looked like biscuits
he took the box outside and helped
himself to the contents. The biscuits
proved to be what is known as "Rat
Biscuits", rat poison put up in the form
of wine biscuits, and had the young
fellow contented himself with a small
quantity instead of the whole box,
the results would probably have been
fatal. He was noticed lying on the
street in front of the drug store in a
serious condition and when Jos. Belle
Isie, the Clerk in the store at the time,
being suspicious that he had eaten the
rat biscuits, questioned him he stoutly
denied having taken anything. Joe,
however, was not to be fooled, and
not being able to find the box on the
counter he frightened the lad into ad-
mitting his theft by telling him he
would probably die. Joe then gave
him an antidote which had the desired
effect and in a short time he was able
to proceed to his home. "Rat Biscuits"
is a dangerous thing for children to
get hold of.

Mothers, who see our Boys' School
Suits, buy them on sight. Mothers
who don't see them, don't know what
they miss. Suits from \$200 up—

which requires less tedious practice
and more study 48-2 p

A large and appreciative audience
greeted the Jessie MacLachlin Con-
cert Party in the rink last evening. A
large number of the party received
much well merited applause and re-
sponded cheerfully to encores. The
piano used on this occasion was an
Evans and was kindly loaned by Mr.
S. Laughlin

Mr. and Mrs. Jasper Davidson were
surprised on Monday evening by a
large number of their friends who in-
vaded their residence taking with them
a large assortment of useful tinware.
The occasion was the tenth anniversary
of their wedding and an enjoyable time
was spent in games and amusements
of various kinds. Light refreshments
were served.

Rev H. E. Thomas has received a
call from the Wesley Memorial Church
at Moncton for the next conference
year. Mr. Thomas has entered upon
his fourth year as pastor of the Meth-
odist church here, which is the limit
allowed by the discipline of the church.
The pastor, in thanking them most
heartily for the valuable and useful
gift, said, he prized it more as an ex-
pression of their confidence and good
will.

The death of Parker McMillan
occurred on Tuesday morning at the
residence of his parents here. He had
been ill for some time and his death
was not unexpected. He was 33 years
old and unmarried. He left one sister,
Mrs. Jas. Shaw and four brothers, Arthur, Douglas
and Harry. The funeral took place
this afternoon at 2:30 o'clock.

Rev J. M. McLeod of New Mills was
recently presented with a handsome
rubber tire buggy, by the young
people of New Mills, Charlott, and Jac-
quet River. The presentation was
made by Messrs. Alexander McNichol,
Alexander Tuvey and Arthur McMil-
lan, on behalf of the congregation.
The pastor, in thanking them most
heartily for the valuable and useful
gift, said, he prized it more as an ex-
pression of their confidence and good
will.

J. A. Bruce, who recently returned
from Fredericton, brought with him a
beautiful sample of Emack Bros' trout
mezzo work. A trout mezzo is one
half the fish so mounted upon a con-
vex elliptical panel as to stand the fish
out in bold relief giving the effect of an
oil painting with the real thing to show
for the poorest of the angler. Mr.
Bruce presented this artistic piece of
work to Wm. Sproul of the Royal, and
while the fish does not compare in size
to Mr. Sproul's famous trout still it is a
beauty.

The Brotherhood of Locomotive Fire
men will hold their bi-annual convention
in Buffalo, New York, commencing
Sept. 12th. The delegates in attend-
ance from the I. C. R. will be G. A.
Stone, Moncton; M. White, Truro;
C. J. Levesque, River du Loup; E. Roy,
Levis; Mrs. G. A. Stone, Moncton, re-
presents the ladies society

In addition to representing the
Moncton Lodge, Mr. Stone represents
Sugar Loaf No 453, of Campbellton
B of L F—Transcript

On Sunday evening the anniversary
service of the Methodist Sunday
School was held in the church, the
scholars occupying the main portion
of the church. The statistical report
for the past year was read by the
Superintendent, W. J. Appleton, which
was very satisfactory. The pastor
preached a sermon from the text,
"Wherefore do you spend money for
that which is not bread?" illustrating
his remarks by cutting open five loaves
of bread containing a novel, a pack
of cards, a couple of plugs of tobacco,
a flash of whiskey and a bible respec-
tively. The lessons were plainly enforced
the bible being the only real bread.

seys. Ask to see them at the Parisian

Russian brigantine Miesseu Captain
Ditz, Liverpool for Bathurst N. B.,
with salt, struck on Simon's Point,
three miles west of Louisbourg during
a storm on Sunday night, and became
a total wreck. Crew saved. The
vessel belonged to Rigas, Russia, and
was only four years old. The vessel and
cargo is valued at \$30,000. She is
partly covered by insurance.

The preliminary examination of Dr.
Cleveland, alias Dr. Roy, alias James
Sirois who was arrested on Sunday,
Aug. 30, charged with passing spurious
money was completed at Rimouski on
Saturday. W. F. Kerton of Grand
Falls, N. B. identified the prisoner
as James Sirois who left Grand Falls
suddenly more than four years ago
having been indicted on a charge of
indecent assault upon a girl named
Dube and a bench warrant issued
for his arrest.

CHARLES CLARK MUNN

Copyright, 1900, by LEE & SHEPARD

"It's evident, young man, you have much to learn in your profession. Laws are made for lawyers and are the tools of our trade. If the world does not see fit to use these tools, it is our business to make them, and, as for justice, that is an allegory, useful in satisfying a jury, but considered a fable by the judge. Laws are useful to oppose others."

"What do you know about law?"

"er laws with, and various decisions are only good in so far as they help your case and hinder your opponent's."

"You seem an honest appearing young man, which is well so far as our relations go, but no further. I want an assistant, one who is ready and willing to do just as I direct and to ask no questions. Do you think you can fill the bill?"

"I can try," replied Albert quietly, "and as soon as I get used to your methods of procedure here I think I can succeed."

He was a little startled at the peculiar character of his employer and in a way slightly disgusted, but he was not in a position to cavil or feel squeamish. Over apparent lack of honesty and resolved at once to ignore it.

"What do you wish me to do?" he continued after a moment. "I will do the best I can for you and am ready to go to work now."

"You are to be at the office at 9 o'clock sharp," replied Frye, "take one hour for lunch and remain till 5. Then he added by way of a spur to his slave's fidelity: "I am paying you \$75 a month on the recommendation of an important client of mine who wants to have this son of a fellow here, and he belongs to a wealthy family. He is a spendthrift, of course, but that is no matter and all the better for you."

Take my advice and cultivate him all you can. If you can be the means of bringing us more business. What I say to you I shall expect you to consider a professional secret, and I hope you will make good use of your time when with this young friend of mine and heed well what I have said to you."

That ended the interview, and Albert was set at work copying legal documents and at the same time trying to reconcile himself to his new surroundings. That night he wrote to Alice: "I have hired out to a most unmitigated old scoundrel and yet one of the sharpest lawyers I ever met. He assured me I must lay aside my conscience if I mean to succeed, and hinted that he might use me later on as a sort of spy, upon Frank, I imagine. He employs a stenographer of uncertain age, who comes in and takes dictation and does her work outside. The only stupid thing he has said was to warn me not to flirt with her."

Then he wrote to his friend Frank, telling him where he was located, thanking him for his assistance and begging him to call at an early date.

"Are you personally well acquainted with Mr. Frye?" asked Albert, having an object in mind.

"No, not at all, except by sight," was the answer. "I believe he is considered a very sharp lawyer and almost invariably wins his cases. But sure he has won out many times when the law was all against him and is not over-scrupulous how he does it. They say he is rich and a skindiv. He always reminds me of a hungry buzzard."

Albert thought of Burns' apt cynicism just then and wished that Frye might for one moment be himself as others saw him. He felt tempted to tell Frank just what Frye had said and what his opinion of him was, but wisely kept it to himself.

"Well, I must be going," said Frank at last. "I've got a date for the next day, so to speak. I'll call round some ere, at your room and take you up to the club."

When his friend had departed, Albert resumed his routine monotonous copying the gist of a lot of decisions bearing upon a case that Frye had pending just then, and when he went out to lunch it was, as usual, alone and to a cheap restaurant.

"It's nice to have a rich father, a yacht, plenty of money and nothing to do but spend it," he said to himself rue-

fully that night as he sat in his cheerless room smoking and dwelling upon the picture of a gay life as disclosed by his friend. "But we are not all born to fortune, and, perhaps, after all, I might be worse off," which, to say the least, is the best way to look at it.

CHAPTER V.

When, a few days after Frank had called upon Page, the latter changed to mention it to Frye, he made a note of it.

"I am glad," he said cordially, "that your friend has hunted you up. I knew he was away on his yacht when you came and was going to suggest that you call on him as soon as I knew he was at home. As I told you, cultivate him all you can. He will serve as a door to get you into good society. When did he call?"

"It was one day while you were out," answered Page, "and he invited me to lunch with him at his club."

"Which, of course, you did?" said Frye.

"No, sir. I knew I shouldn't have time for it during my one hour, and, then, you had given me a lot of work to do that day."

A shade of annoyance came over Frye's face.

"Wait, that's all right, of course," he said, "but when he calls again take all the time you need if he asks you out, and," with a scrutinizing look at Page, "as I said, cultivate him. It's business. His father is my most valued client, and the more intimate you become with his son the sooner you will have an acquaintance that will be of use to you."

Page could not quite fathom all this, but the more he thought of what Frye had said the more certain he became

fully that night as he sat in his cheerless room smoking and dwelling upon the picture of a gay life as disclosed by his friend. "But we are not all born to fortune, and, perhaps, after all, I might be worse off," which, to say the least, is the best way to look at it.

"Which, of course, you did?" said Frye.

"No, sir. I knew I shouldn't have time for it during my one hour, and, then, you had given me a lot of work to do that day."

A shade of annoyance came over Frye's face.

"Wait, that's all right, of course," he said, "but when he calls again take all the time you need if he asks you out, and," with a scrutinizing look at Page, "as I said, cultivate him. It's business. His father is my most valued client, and the more intimate you become with his son the sooner you will have an acquaintance that will be of use to you."

Page could not quite fathom all this, but the more he thought of what Frye had said the more certain he became

fully that night as he sat in his cheerless room smoking and dwelling upon the picture of a gay life as disclosed by his friend. "But we are not all born to fortune, and, perhaps, after all, I might be worse off," which, to say the least, is the best way to look at it.

CHAPTER V.

When, a few days after Frank had called upon Page, the latter changed to mention it to Frye, he made a note of it.

"I am glad," he said cordially, "that your friend has hunted you up. I knew he was away on his yacht when you came and was going to suggest that you call on him as soon as I knew he was at home. As I told you, cultivate him all you can. He will serve as a door to get you into good society. When did he call?"

"It was one day while you were out," answered Page, "and he invited me to lunch with him at his club."

"Which, of course, you did?" said Frye.

"No, sir. I knew I shouldn't have time for it during my one hour, and, then, you had given me a lot of work to do that day."

A shade of annoyance came over Frye's face.

"Wait, that's all right, of course," he said, "but when he calls again take all the time you need if he asks you out, and," with a scrutinizing look at Page, "as I said, cultivate him. It's business. His father is my most valued client, and the more intimate you become with his son the sooner you will have an acquaintance that will be of use to you."

Page could not quite fathom all this, but the more he thought of what Frye had said the more certain he became

fully that night as he sat in his cheerless room smoking and dwelling upon the picture of a gay life as disclosed by his friend. "But we are not all born to fortune, and, perhaps, after all, I might be worse off," which, to say the least, is the best way to look at it.

CHAPTER V.

When, a few days after Frank had called upon Page, the latter changed to mention it to Frye, he made a note of it.

"I am glad," he said cordially, "that your friend has hunted you up. I knew he was away on his yacht when you came and was going to suggest that you call on him as soon as I knew he was at home. As I told you, cultivate him all you can. He will serve as a door to get you into good society. When did he call?"

"It was one day while you were out," answered Page, "and he invited me to lunch with him at his club."

"Which, of course, you did?" said Frye.

"No, sir. I knew I shouldn't have time for it during my one hour, and, then, you had given me a lot of work to do that day."

CROWDED THE HOUSE.

The Successful Scheme of a Theatrical Press Agent.

An agent who was in despair owing to his failure to get any advertising that had not been paid for found himself in a big western city with his attraction playing to strong competition and something desperately needed to attract public attention to his show. In one scene of the play a pair of handcuffs figured. The agent had an inspiration. He had the star snap a handcuff on her wrist, and then the agent concealed the key, saying it had been lost. The star was compelled to finish the act wearing the handcuff dangling from her wrist. The audience knew it should not be there, and commotion was aroused. Between the next two acts the agent drove the actress swiftly to police headquarters, near at hand. The police captain was mysteriously called out. He was informed that the actress must have the handcuff removed at once and secretly, as she did not wish news of her predicament to get out. The chief brought out a big bunch of keys, and finally the handcuff was removed, but not until a dozen alert reporters had snuffed a "story" and were plying the reluctant press agent with questions. Finally the whole story was pumped out of the agent, the star having returned to finish the play. Next morning the first page of every local paper had a fine story, descriptive of the plight of the actress who had accidentally fastened a handcuff to her wrist. The public was interested and flocked to see the play, and the resourceful agent went on to the next town wondering what new thing he could spring on the sensation lovers there.—William Loftus in Reader Magazine.

SILVER JUBILEE.

Rev. A. A. Boucher 25 Years
in Priesthood.

INTERESTING CEBREMONY

Addresses and Presen-
tation of Chalice
and Purse.

Thursday, the 25th of August,
1904, shall remain a memorable
day for the town of Dalhousie. At
9.30 in the morning, the church
and convent bells were throwing
to the hills and valleys of the noble
Restigouche their joyful notes of
jubilation. Solemn High Mass
was celebrated, the jubilarian pastor
being the celebrant, assisted as
deacon and sub-deacon by Rev
Father J. McLaughlin, pastor of
Charlo, and Rev Father John
Wheten, pastor of Balmoral. The
reverend Fathers Van de Moortel
of Belledune, O. Drapeau of St.
John the Evangelist of Nouvelle,
P. Q., and E. P. Wallace of
Campbellton, were in the sanctuary.
An eloquent sermon by Rev
Father J. McLaughlin was given
on the dignity of the priesthood.
At dinner an address was read with
the presentation of a set of Bre-
viary by the jubilarian's conferees
of Restigouche County. In the
afternoon the pupils of the convent
expressed their wishes in an ap-
propriate manner by recitations
and chants composed for the
occasion. In the evening at 7.30
the parish church was crowded to
hear a sermon by Rev Father Van
de Moortel and to witness the
presentation of addresses both in
French and English, accompanied
with the gift of a chalice and purse.
To the Reverend A. A. Boucher,
Pastor of the Church of the
Decollation of St. John the
Baptist, Dalhousie, N. B.

Rev and Dear Father:
We, the parishioners of the
Church of the Decollation of St.
John the Baptist, beg to tender
you the expression of our sincere
congratulations on this memorable
occasion—the twenty-fifth anni-
versary of your ordination to the
holy priesthood.

What a glorious retrospect
reverted and dear father, for "the
faithful and prudent servant whom
the Lord hath placed over his
people!" How many souls
gathered into the sheepfold of
Christ! How many clothed with
the robe of innocence at the bap-
tismal font, enlightened and freed
from the fetters of sin in the sacred
tribunal of penance! How many
have led upon the Bread of Life
dispensed by your consecrated
hands! To how many have you
opened the gates of Heaven,
whispering words of hope and con-
solation, and thus prepared and
strengthened, ushered into the
presence of the Great God. This
long chain of benefactions, which
it is the privilege of Christ's
minister to dispense, shall be fully
known only in the great day of
reckoning, when the Heavenly
Master shall weave them into an
unfading crown which He shall
Himself place upon your sacerdotal
brow. "Thy works shall praise
thee at the gates."

It is therefore a source of deep
gratification to us who, during the
last eight years have benefited by

Are just what every
weak, nervous, run-
down woman needs to
make her strong and
well.
They cure those feel-
ings of smothering and
sinking that come on
at times, make the
heart beat strong and
regular, give
sweet, refreshing
sleep and banish head-
aches and nervous-
ness. They infuse new life
and energy into
dispirited health,
shattered women
who have come
to think there is
no cure for them.
They cure Nervousness, Sleeplessness,
Nervous Prostration, Brain Fag, Fatigue,
Dizziness, Spasms, Lues, etc. After
Effects of La Grippe and Fever, Anemia,
General Debility and all troubles arising
from a run-down system.

your zeal and experience, to be
able to give this public testimony
to our sense of respect and
gratitude for all you have done
for us. We see in the establish-
ment of a convent due almost ex-
clusively to your foresight, energy
and zeal, a lasting proof of your
care for our real interests in thus
providing for our little ones, the
inestimable boon of a Christian as
well as refined education.

Design: Rev Father, to accept
this sincere tribute of sympathy
with your noble aims and this
chalice and purse in token of our
good will—with the fervent prayer
that you may long live to drink
therefrom the strength that shall
lead you up to the mountain of
God—while you call down bless-
ings from above upon your ever-
devoted parishioners.

Signed,
The parishioners of the Church
of the Decollation of Saint John
the Baptist.

Dalhousie, N. B., Aug. 25, 1904

Rev Father Boucher replied first
in English. He was touched to
the heart by this spontaneous
demonstration of his good parish-
ioners. Twenty-five years ago he
prostrated himself on the pavement
of the sanctuary to arise a priest,
a dignity so high that it is only
in eternity that it will be compre-
hended. This twenty-fifth anni-
versary of his ordination brought
him back sweet memories of boy-
hood, education, etc., in his native
province of Quebec. He had a
thought on this memorable day for
the late good Bishop Rogers, who
had consecrated his hands. "May
he rest in peace."

He had learned to love the Irish
Catholics. His first pastoral
charge was an Irish parish, St.
Margaret in the County of North-
umberland. He shall never forget
the marks of esteem, respect and
love that he, a stranger, had
always received from his parish-
ioners and would say to them,
remain steadfast to the traditions
of your martyred Ireland. He
valued their gift of a chalice. Let
the relations between priest and
people remain of the closest.
Speaking in French, he invited the
French compatriots to adhere to
their beautiful language brought
along with their faith from the
France of the Fleur de Lis. Our
language is the guardian of our
faith.

Solemn Benediction of the Most
Blessed Sacrament brought this
beautiful day to a close.

The Proper Treatment for a Sprained Ankle.

As a rule a man will feel well satis-
fied if he can hobble around on crutches
two or three weeks after spraining
his ankle, and it is usually two or three
months before he has fully recovered.
This is an unnecessary loss of time,
for in many cases in which Chamber-
lain's Pain Balm has been promptly
and freely applied, a complete cure has
been effected in less than one week's
time and in some cases within three
days. For sale by all Druggists.

THE SLOCUM DISASTER

Nine Hundred and Fifty
Three Bodies Re-
covered.

New York, Sept. 3.—The re-
port of the General Slocum relief
committee shows that 953 bodies
of victims have been recovered
that \$109,544 was collected and
expended in burial of the dead
and relief of the survivors. Of
the 500 families who lost one or
more members by the disaster,
487 were aided and provision was
made for the permanent care of
many of these. A fund of over
twenty thousand dollars has been
put aside for this purpose. The
committee learned that a hundred
and twenty men lost their entire
families in the disaster and that
there were twelve families in which
a total of twenty-seven children
were left orphans.

Catarthral Deafness Cured

By a thickening of the lining
membrane of the middle ear owing to
prolonged inflammation from Catarrhal
germs. The only cure fragment heal-
ing Catarrhal one which is carried
by the air you breathe to the remotest
parts of the throat and ear; it reaches
the source of the trouble and cures
deafness permanently. Every sufferer
from impaired hearing should use
Catarrhalone which has effected many
wonderful cures. You simply breathe
its healing medicated vapor,—very
easy and pleasant. Do this and your
hearing will be restored. Catarrhalone
never fails; it is guaranteed. Two
months treatment for \$1.00 at drug-
gists.

EXECUTIVE MEETING

Of I. C. R. Employees Relief
and Insurance Ass'n

HELD AT MONCTON

Important Business Trans-
acted—Disability Claims
Adjusted

(Moncton Times 2nd)

The 36th regular meeting of the
General Executive Committee of the
Inter-colonial Railway Em-
ployees' Relief and Insurance As-
sociation was held in Moncton on
Wednesday. In the absence of
the president of the association
Mr. Pottinger, the chair was taken
by Mr. J. J. Wallace, vice pres-
ident. There were twenty-four
members of the committee present
representing the different districts
of the railway, including from
Montreal to Halifax and Sydney.

As the evidence submitted show-
ed that the following named mem-
bers of the association were totally
and permanently disabled from fol-
lowing or directing any labor, trade
occupation, or profession, it was
ordered that their claims for total
disability allowance be assessed
and paid: Eusebe Tardif, Lewis;
Thomas Nash, Campbellton; Wm
Buchanan, Moncton; James Hol-
laud, Truro; Pascal LeBel, River
du Loup; Edward Thorpe, St John;
Jas Concen, Moncton.

In the case of a number of other
members who had applied for total
disability allowance, it was decided
to allow their claims to stand over
in view of the fact that a pension
fund will be established in the near
future.

A large number of other matters
were brought before the general
executive committee, including
hospital charges made by the Vic-
toria General Hospital at Halifax,
the division of the New Glasgow
district, the formation of several
new sub medical districts, arrang-
ing for the admission of employees
on the Canada Eastern Railway to
the Intercolonial Railway Em-
ployees' Relief and Insurance As-
sociation, etc., etc.

The case of the late David Bour-
que was re-considered, and it was
decided to refer to the standing
committee with instructions to
fully investigate it, and with au-
thority to deal with it as the evi-
dence warrants.

In view of the fact that a large
surplus exists in the temporary
Employees Accident Fund, it was
decided to recommend to the mem-
bers at the annual district meet-
ings to be held in September, that
the temporary employees be paid
26 weeks indemnity in any one
year, instead of 13 weeks, as at
present.

The deficit existing in the sick
and accident fund was also con-
sidered, and it was agreed that a
special assessment would have to
be levied in the near future on ac-
count of the same.

In the case of the late H. E.
McLean, train despatcher, Moncton
it was decided to contribute a lib-
eral amount towards the cost of
defraying expenses incurred dur-
ing his sickness at Springhill Jct.

In the case of C. P. Brown,
Jacquet River, it was decided to
pay for all emergent medical at-
tendance.

Owing to the notice received
from the Royal Victoria Hospital
Moncton, that on account of the
crowded state of the institution,
they were unable to receive any
more of our members, the general
secretary was instructed to proceed
to Montreal in order to see if some
arrangement could not be arrived
at.

The death claims of the late
Thaddeus Porrell and the late Jos.
Lamontagne were not allowed.

The claims from the following
named were also fully discussed,
and it was decided that they could
not be paid, namely: Wm T. An-
derson, temporary; A. T. LeBlanc,
regular member; James Buchanan,
regular member; Warden Lutes,
regular member.

It was decided to pay doctors'
bills in the case of Lewis Hicks,
conductor.

The case of the late Joseph
Shea, Halifax, was re-considered

by request of the Halifax district
committee, but in view of the evi-
dence, the committee could not
see its way clear to allow the claim.

Jas Page, River du Loup, was
reinstated a regular member of the
insurance association.

An amendment to the constitu-
tion was received from the Truro
district as follows:

Clause 1, "No sick allowance
shall be given for the first six
days of any disablement, but
should a member be disabled for a
period of eighteen days or more,
the first six days shall be allowed"

Clause 2, "The payment of
sick indemnity shall not exceed
six calendar months in any one
year, such year to commence on
the first day of July and end on
the 30th day of June in each year
excepting in such cases as the fol-
lowing:

"If at the expiration of 26
weeks, a member is still incapacitated,
owing to sickness or injury,
for the performance of his duty,
weekly sick allowance may at the
discretion of the general executive
committee be continued for another
26 weeks, or for a lesser time."

The above amendment was ap-
proved by the Committee, and it
will be submitted to the members
at the next Annual District Meet-
ing, with the recommendation of
the General Executive Committee
that it be adopted.

The meeting adjourned in the
afternoon and the members de-
parted to their several homes.

Deafness cannot be Cured

by local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness
and that is by constitutional remedies.
Deafness is caused by an inflamed
condition of the mucous lining of the
Eustachian Tube. When this tube is
inflamed you have a rumbling sound
and imperfect hearing, and when it is
entirely closed deafness is the result,
and unless the inflammation can be
taken out and the tube restored to its
normal condition, hearing will be de-
stroyed for ever. We have a very fast
train running between Philadelphia
and Atlantic City, during the summer
months, which are scheduled to run
at a higher speed than the fastest of
what might be called short-distance ex-
presses in other countries. But when it
comes to a broad comparison of fast
express service in France and England
with that of the United States, we may
as well confess to the uncomfortable
fact that our service, taken as a whole
and judged merely with regard to its
speed, can scarcely be entitled to be
called first-class. After we have
eliminated the Empire State Express,
with its average speed of about 54
miles an hour between New York and
Buffalo, Twentieth Century Limited,
with its average speed of about 50
miles an hour from New York to
Chicago, and the service of a few fast
trains from Philadelphia to Atlantic
City, maintained during the summer
months, we have mentioned all of the
trains that can be presented in com-
parison with the remarkable service
that is being run on regular schedule
this year on the other side of the
Atlantic.

It was only a few years ago that the
French railroads led the land from
England by putting into service
several trains that ran at average
speeds of from 55 to 60 miles an hour.
At the present time there are in France
thirty-five trains that are booked to
run at speeds from start to stop of 55
miles an hour and upward. The fast-
est of these runs from Paris to Longue-
meau, at 60.8 miles an hour; an-
other is timed to do the distance from
Paris to Buzigny, 112 1/2 miles, at 60.3
miles an hour; the next fastest run is
the 109 miles from Paris to Abbeville,
at 59.2 miles an hour, and the fourth
fastest train runs from Paris to St.
Quentin, 95 1/2 miles, at 60.1 miles per
hour. Then follow seven trains, with
a timed speed of from 58 to 58.6 miles
per hour; eleven trains at from 57.1 to
57.8 miles per hour, and ten that run
at an average speed of from 55 to 56.5
miles an hour. These runs are made
without a stop over distances that will
average about 85 miles.

During the past two years the
English railroads have been building
more powerful engines, and the result
is seen in a greatly accelerated train
schedule. They have regained the
lead in fast express service by putting
in regular service a total of fifty-three
daily trains scheduled to make a speed
of 55 miles an hour and over from
start to stop. The fastest run of these
is over the 44 1/2 miles from Darlington
to York at 61.7 miles an hour; but the
most meritorious are the runs from
London to Bath, 106 1/2 miles at 59.4
miles; from London to Bristol, 118 1/2
miles at 59.2 miles; two trains between
London and Exeter, 193 1/2 miles, at
56.7 miles, and three at 55.3 miles an
hour. These last-named trains are
run on the Great Western Railway, on
which a train carrying the American
mails was recently run from Plymouth
dock to London, a distance of 249 1/2

miles, at an average speed of 65.49
miles for the whole journey, the last
36 miles being covered at the rate of
79.17 miles an hour. The fifty-three
daily expresses that run in the British
Isles include twenty-four trains with a
schedule speed of 55.1 to 55.8 miles
an hour; thirteen trains with a speed of
fr 56.2 to 56.9 miles an hour; seven
trains of from 57 to 57.8 miles an hour
scheduled; five trains of from 58.1 to 58.9
miles an hour speed; three of from
59.1 to 59.4 miles, and one of 61.7
miles per hour schedule speed. The
average distance of these runs, start
to stop, is 101 miles.

It must be understood that this com-
parison is made merely on the basis of
the actual number of high-speed trains
available to the travelling public. No
account is taken of train weights.
Compared with American train weights
these European trains are light, but
so are the engines. Moreover, though
the trains are lighter, their carrying
capacity, owing to the lighter con-
struction, is equal to that of our larger
and heavier trains, so that the passen-
ger is still the gainer. It would not
pay to run so many trains at such high
speeds in the United States, for the
reason that our latest Pullmans weigh
over 60 tons, or over 2 tons to the
passenger, which, from an engineering
point of view, is an absurd proportion.
The only argument in their favor is
that these heavy cars are safer in a
collision; but would it not be a saner
policy to build our cars lighter, abolish
collisions, and operate our railroads
with the same care that enabled the
English roads, in spite of their many
fast trains, to operate their railroads,
as they did the year before last, with-
out killing a single passenger?

Surely this is a problem worth
consideration.

They Make You Feel Good.

The pleasant purgative effect expe-
rienced by all who use Chamberlain's
Stomach and Liver Tablets, and the
healthy conditions of the body and
mind which they create make one feel
joyful. For sale by all Druggists.

RAILWAY SPEEDS.

A Comparison Between that
of America and
Europe.

(Scientific American.)

There are some controversies that
will not down, and one of the most
persistent of these is that relating to
the relative speed of railroad travel
here and in Europe. We have been
recept lately of several letters asking
us for an expression of opinion on the
subject, and we therefore think it well
to state, for the benefit of those who
are interested in the question, that in
respect of the number and speed of
fast express trains, our railway service
in this country simply cannot compare
with that of France and England. We
say this with the full knowledge that
there are a few fast expresses that
maintain a high average speed for long
distances in this country—trains which
if the element of total distance be
taken into account, as in the case of
the Twentieth Century Limited, on the
New York Central and Lake Shore
lines, have no competitor in Europe.
There is also a service of very fast
trains running between Philadelphia
and Atlantic City, during the summer
months, which are scheduled to run
at a higher speed than the fastest of
what might be called short-distance ex-
presses in other countries. But when it
comes to a broad comparison of fast
express service in France and England
with that of the United States, we may
as well confess to the uncomfortable
fact that our service, taken as a whole
and judged merely with regard to its
speed, can scarcely be entitled to be
called first-class. After we have
eliminated the Empire State Express,
with its average speed of about 54
miles an hour between New York and
Buffalo, Twentieth Century Limited,
with its average speed of about 50
miles an hour from New York to
Chicago, and the service of a few fast
trains from Philadelphia to Atlantic
City, maintained during the summer
months, we have mentioned all of the
trains that can be presented in com-
parison with the remarkable service
that is being run on regular schedule
this year on the other side of the
Atlantic.

It was only a few years ago that the
French railroads led the land from
England by putting into service
several trains that ran at average
speeds of from 55 to 60 miles an hour.
At the present time there are in France
thirty-five trains that are booked to
run at speeds from start to stop of 55
miles an hour and upward. The fast-
est of these runs from Paris to Longue-
meau, at 60.8 miles an hour; an-
other is timed to do the distance from
Paris to Buzigny, 112 1/2 miles, at 60.3
miles an hour; the next fastest run is
the 109 miles from Paris to Abbeville,
at 59.2 miles an hour, and the fourth
fastest train runs from Paris to St.
Quentin, 95 1/2 miles, at 60.1 miles per
hour. Then follow seven trains, with
a timed speed of from 58 to 58.6 miles
per hour; eleven trains at from 57.1 to
57.8 miles per hour, and ten that run
at an average speed of from 55 to 56.5
miles an hour. These runs are made
without a stop over distances that will
average about 85 miles.

During the past two years the
English railroads have been building
more powerful engines, and the result
is seen in a greatly accelerated train
schedule. They have regained the
lead in fast express service by putting
in regular service a total of fifty-three
daily trains scheduled to make a speed
of 55 miles an hour and over from
start to stop. The fastest run of these
is over the 44 1/2 miles from Darlington
to York at 61.7 miles an hour; but the
most meritorious are the runs from
London to Bath, 106 1/2 miles at 59.4
miles; from London to Bristol, 118 1/2
miles at 59.2 miles; two trains between
London and Exeter, 193 1/2 miles, at
56.7 miles, and three at 55.3 miles an
hour. These last-named trains are
run on the Great Western Railway, on
which a train carrying the American
mails was recently run from Plymouth
dock to London, a distance of 249 1/2

miles, at an average speed of 65.49
miles for the whole journey, the last
36 miles being covered at the rate of
79.17 miles an hour. The fifty-three
daily expresses that run in the British
Isles include twenty-four trains with a
schedule speed of 55.1 to 55.8 miles
an hour; thirteen trains with a speed of
fr 56.2 to 56.9 miles an hour; seven
trains of from 57 to 57.8 miles an hour
scheduled; five trains of from 58.1 to 58.9
miles an hour speed; three of from
59.1 to 59.4 miles, and one of 61.7
miles per hour schedule speed. The
average distance of these runs, start
to stop, is 101 miles.

It must be understood that this com-
parison is made merely on the basis of
the actual number of high-speed trains
available to the travelling public. No
account is taken of train weights.
Compared with American train weights
these European trains are light, but
so are the engines. Moreover, though
the trains are lighter, their carrying
capacity, owing to the lighter con-
struction, is equal to that of our larger
and heavier trains, so that the passen-
ger is still the gainer. It would not
pay to run so many trains at such high
speeds in the United States, for the
reason that our latest Pullmans weigh
over 60 tons, or over 2 tons to the
passenger, which, from an engineering
point of view, is an absurd proportion.
The only argument in their favor is
that these heavy cars are safer in a
collision; but would it not be a saner
policy to build our cars lighter, abolish
collisions, and operate our railroads
with the same care that enabled the
English roads, in spite of their many
fast trains, to operate their railroads,
as they did the year before last, with-
out killing a single passenger?

Surely this is a problem worth
consideration.

They Make You Feel Good.

Single and Married Men
Play Baseball

BOY'S PLUCKY ACT

Events Weekly Budget from
the Gloucester County

Labor Day was quietly observed about town on Monday. A large number drove out of town and spent the holiday in the country. The Pabineau Falls, Grand Falls and the "Points" had their share of outing parties who enjoyed the day immensely. In the afternoon a base ball game on the town square between the married and single men attracted a good crowd the latter team winning, the score being 18 to 15 in their favor. Mr. Wm. Gunning acted as umpire and Ed. Hickson as official scorer.

The following are the teams—
Married men—Frank Doucet, c. John McClellan, p. Tom Adams, 1st B; Charlie Adams, 2nd B; Harry Melanson, 3rd B; Willie Fenwick, S. S.; Peter Veniot, C. F.; Tom Burns, R. F.; Garret Ellis, L. F.

Single men—E. Gallant, C; Art White, P; Orel Landry, 1st B; Jack McKendry, 2nd B; Albert Arsenault, 3rd B; Peter Martin, S. S.; Mike Power, C. F.; Leonard Gallant, R. F.; R. Bedard, L. F.

A party of ladies and gentlemen also visited the "dam" in Middle River and spent the day trout fishing. In the afternoon one of the ladies slipped into a water pool ten feet deep and would likely have been drowned had not timely assistance been promptly rendered.

Last Monday the little five year old son of S. Hachey, custom house janitor, fell over a wharf into the water at the rear of the White House and was rescued by Master Harold White aged 12 years who immediately jumped over the wharf to the lad's rescue. The height of the wharf is seventeen feet and depth of water five feet, at the time of the accident which clearly demonstrates the pluck and nerve of young White. Other willing hands however were on the scene and assisted the boys to safety. The victim of the accident received a bad cut over the eye and remained in an uncertain condition for a few days.

Mr. Harry Oswald and Miss Nellie Branch, second youngest daughter of Samuel Branch were married at their home this evening by Rev. Mr. Reid.

Mr. P. L. Burns and her daughter Belle left on Wednesday for a short visit to Halifax.

Miss Francis Mullins returned to Boston after spending a few months at her home here.

Miss Lizzy McDonald of Charlottetown, P. E. I. is home visiting her family.

Miss Emily Babin of Edmundston is visiting her sister Mrs. E. P. McKay.

Miss Kate Cahill and Lillian Schuel returned on Wednesday to their home in Boston.

Mr. Thomas E. and Herb Adams returned this week to New York.

Mr. Wendel Baldwin left by the Ocean Limited for Cambridge Mass to resume his position with the Blake Steam Pump Works after spending three weeks vacation at his home in Bathurst Village.

Miss Agatha and Aggie Melanson leave Thursday morning for a week's visit to friends in Pictou N. S.

Mrs. John McKenna and daughter left on the Maritime, Wednesday for their home in Montreal accompanied by Miss Gertrude Leachy who will spend some time at their guest in the city.

Mr. Clay Adams of New York spent a few days here this week. Mr. Leandre Landry and sister Lea will leave on Friday for Montreal where Miss Landry will remain for her studies at the convent of the Holy Cross.

Miss Lottie Chisholm of Belledune is spending a few days with friends in Bathurst.

Mr. Edmund White returns to New York on Saturday.

Mrs. Herbert Buckley and her sister Maudie of Harcourt spent Labor Day in Bathurst.

Wm. C. Daigle Dairy Inspector was in town on Wednesday.

The I. C. R. Station is receiving a new coat of paint.

THOUSANDS APPLAUD LAURIER.

(See first page.)

said, "a railway will be extended to the waters of Gaspé Basin. To facilitate transportation is one of the most important aims of the government of which I have the honor to head."

The name of Marcell would be immortalized in Bonaventure. His broad-mindedness and splendid oratory made him a favorite in all parts of the country in which he appeared. He had only one fault. He was insatiable. The more he got for his country the more he wanted. The scene witnessed today, of men of all nationalities mingling together in peace and harmony was the realization of a principle to which he had consecrated his career, that of harmony and peace among the different elements of the country. The different portions of Canada were separated by natural boundaries, but they were all under the same allegiance and should all join hands for the progress of the country.

race prejudice was largely due to ignorance, and one way to overcome this was by establishing better communications among the different portions of the country. In order to bring this about, his government has applied itself to improving the means of communication, and especially by railway. To build railways, dig canals, build wharves and facilitate transportation generally was his aim.

The Premier spoke both in English and French and his remarks were frequently punctuated by loud outbursts of applause.

Mr. O. Turgeon, followed the Premier and made a very happy address.

Followed by hundreds, the Premier and Lady Laurier were driven to the station where with Senator and Madam Casgrain, they boarded a special train and left for Carleton amid cries of "Vive Laurier," "Long live Sir Wilfrid and Lady Laurier," etc., etc. It was a memorable occasion and it will live long in the memories of those who witnessed it.

Sir Wilfrid and Lady Laurier left on Saturday for Ottawa.

Too much credit cannot be given Mr. Charles R. Scoles, Manager of the Atlantic & Lake Superior Railway, for the splendid special train service provided for the excursionists.

MOOSE VISIT NEWCASTLE

Five Big Monarchs Pay Early Morning Visit.

Newcastle was invaded by moose on Saturday. Probably never in the history of the town have so many monarchs of the antler tribe been seen together within its limits. There were five moose in all and early in the morning they entered the northern end of the town from the direction of Bensbars Island and headed for Strawberry Marsh. Fortunately there was no bathers in the neighborhood of the marsh at the time so the animals took a dip themselves and struck out boldly in the direction of Nelson. When half way across the river they turned and headed up stream. Three of the animals took the "hot" west river while the other two headed up the "sou" west. When last seen they were still swimming.

A real family medicine chest in itself Kendrick's Liniment - Do you know its value?

HYMENEAL.

LEBLANC-GOUDREAU.

An interesting event took place at the R. C. Church, St. Anne de Restigouche, on Monday afternoon at five o'clock, when Mr. Joseph LeBlanc, the popular conductor of the A. & L. S. Railway, was united in marriage to Miss L. G. Goudreau of Point St. George. The bride was given away by her father and was escorted, while Mr. Zezo St. Jean supported the groom. The church was beautifully decorated for the occasion, and special music was furnished by the Sisters of the Holy Rosary. After the ceremony the young couple drove to Campbellton and departed for the Ocean Limited for a honeymoon trip to Montreal.

LUMBER MARKET.

Hon. Allan Ritchie Sees Signs of Improvement.

NO SHUT DOWNS YET.

Some Shipments May Be Made at a Loss in Order to get Piling Room.

Hon. Allan Ritchie of the firm of D. & J. Ritchie told a reporter for the Advocate yesterday that there was a slight improvement noticeable in the lumber market.

He stated that the situation here remained unchanged.

It is understood that the mills in New Brunswick will close but little earlier than usual.

It is likely some further shipments will be made this season in order to make room for piling although some cargoes will be shipped at a loss.—Advocate.

Toronto and New York, followed by the best wishes of their many friends.

ADAMS-BASTIN.

A very pretty wedding took place last evening at nine o'clock at the residence of Mrs. Bastin, the contracting parties being Miss Nellie Bastin and Mr. Wm. L. Adams, a popular hotel keeper of Three Rivers, Que. The ceremony was performed by Rev. A. F. Carr in the presence of a number of friends and relatives. The bride, who was one of Campbellton's most popular young ladies, was given away by her brother, Mr. Otto Bastin. The couple were unattended but Miss Pearl McDonald, niece of the bride, acted as flower girl. After a sumptuous repast the happy couple left on the Maritime Express for Montreal for a few days. They will reside at Three Rivers.

Events extend congratulations.

MIGUASHA, Sept. 6, 1904.

A very pleasant and interesting event took place in the church of St. John the Evangelist on Monday morning when Miss Maggie Greene, eldest daughter of Mr. and Mrs. Greene, was united in the holy bonds of matrimony to Mr. Michael Norton, son of Mr. Jeremiah Norton.

The bride looked very charming, dressed in traveling suit of grey broadcloth with hat and gloves to match. She was the recipient of many valuable and useful presents. The happy couple went on a short tour to Campbellton where they were joined by many of their friends. They will reside in Migusha where their many friends all join in wishing them a long, prosperous and happy journey through life.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me."

"Better health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems pleasant and easy."

"Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mrs. B. A. BLANCHARD, 428 Broad St., Nashville, Tenn.—\$2000 for best of letters proving genuineness cannot be produced.

THE LAW IN KOREA.

Queer Ways of Punishing the Relatives of Criminals.

Angus Hamilton in his book on Korea says, "The inhabitants are peculiarly prone in the art of doing nothing gracefully. There are, therefore, infinite charm and variety in the daily life of Korea. The natives take their pleasures passively, and their constitutional incapacity makes it appear as if there were little to do but to indulge in a gentle stroll in the brilliant sunshine or to sit cross legged within the shades of their houses. Inaction becomes them. Nothing could be more unsuited to the character of their peculiar costume than vigorous movement. The stolid dignity of their appearance and their stately demeanor add vastly to the picturesqueness of the street scenes. The white coated, white trousered, white socked, slowly striding population is irresistibly fascinating to the eye."

Here are some of the punishments prescribed by Korean law: Treason, man—Decapitated, together with male relatives to the fifth degree. Murder, man—Decapitated. Wife poisoned, man—Strangled or poisoned. Woman—Strangled or poisoned. Wife poisoned, man—Strangled or poisoned. Theft, man—Strangled or decapitated. Wife reduced to slavery; confiscation of all property. Desecration of graves—Decapitated, together with male relatives to the fifth degree. Mother, wife and daughter poisoned. Counterfeiting—Strangulation or decapitation. Wife poisoned.

MISTAKEN IDENTITY.

The Famous Case of Lesurques of the Lyons Mail.

The most famous of all cases of mistaken identity is that of Lesurques, charged with the robbery and murder of the courier of the Lyons mail, which has been so vividly brought home to us through the dramatic play based upon it. Lesurques was positively identified as a man who had traveled by the mail coach, and he was in due course convicted.

victed. Yet at the eleventh hour a woman came into court and declared his innocence, swearing that the witnesses had mistaken him for another, Duboscq, whom he greatly resembled. She was the confidant of one of the gang who had planned and carried out the robbery. But her testimony, although corroborated by other confederates, was rejected, and Lesurques received sentence of death. Lesurques died protesting his innocence to the last. Four years elapsed before Duboscq was captured. In the interval others of the gang had passed through the hands of the police, but the prime mover was only now taken. Even then he twice escaped from prison. When finally he was put on his trial and the judge ordered a fair wig, such as Lesurques had worn, to be placed on his head, the strange likeness was immediately apparent. He denied his guilt, but was convicted and guillotined. Thus two men suffered for one offense.

Caught at the First Trial.
Mr. Cleverly—I have a great joke on my wife. I've just bought her a hat for \$5 and had it sent home with a fifteen dollar mark on it. She'll never know the difference. Mrs. Cleverly (later)—Harold, dear, I guess I would better buy my own hats after this. I could have done a good deal better for \$15. You've been awfully cheated. Why, I saw this very same hat in the window with a five dollar mark on it.

Double Measure of Joy.
"But your hero and heroine get married in the middle of the story. How do you expect the public to keep on being interested in a book like that?"
"Ah," said the new author, "but they get divorced in the last chapter and live happily ever after. So, you see the reader is made twice glad for one price of admission!"

The Hatter's Comment.
"How gracefully young Skivett raises his hat."
"I wish he could raise the price of the hat half as gracefully."

Practical Demonstration.

At an encampment of British troops in the East Indies one of the officers had a horse stolen, but the thief, missing his way, was detected and brought back. The next morning the officer inquired how he had got possession of the horse. The man replied that he could not well tell his honor, but would be pleased to show him. "Now," said he, "this is how I crawled over the groom's. The next thing was to loosen the ropes behind. I then clapped a halter over the neck thus." "Admirable!" said the officer. "In this manner, sir, observe I jumped upon his back." He then gave the horse a smart cut with a whip, put him to full speed and carried him clear off, to the mortification of the astonished owner.—London Chronicle.
