WAR ON IRISH COMEDIANS! GIVEN RUSSIAN SOLDIERS

Ancient Order of Hibernians Begins New Crusade.

Objects to Green Galways, Red Hair and Baggy Trousers Worn by Vaudeville Performers-Caricature Considered Offensive.

Chicago, May 9.-The Tribune says:

After considering the matter over for week the governing board of the Ancient Order of Hibernians have decided to declare war on the Irish comedian, without which no burlesque, farce, or vaudeville show is considered complete. John T. Keating, national president of the Irish organization, brought the news to Chicago when he came back from the East yesterday. Incidentally the crusade will be directed against newspapers and other publications which cartoon the Irishman. "We don't object to our people being shown on the stage," said Mr. Keating, "but we do object to those things they call 'Irish comedians,' which are dressed as no Irishman ever dressed, and are painted up so that

they look far more like monkeys than Dion Boucleault's plays and characters, nor those shown by Chauncey Olcott and Andrew Mack. But when it comes to some of them—" Mr. Keating held up his hands in dismay. It was suggested that other nationalities are held up to ridicule on the stage, but Mr. Keating insists the Germans and the Jews are let off easy

compared to the Irish. "They stick more to their business," said he. "They don't enter into public life the way we do. Look at the Irish in politics, for instance." But the Irishman in politics don't seem to mind it. Robert E. Burke

says he doesn't care how much he is cartooned, on the stage or in newspapers. As for the aldermen from the first ward, Kenna and Coughlin, they insist the attention paid them by newspapers and by variety actors is re-sponsible in no small way for what Alderman Caughlin terms his "unpremeditated success." He says this city is fairly free from performances in which the Irish comedian to which he objects appears. Managers of three burlesque houses differ with him.

WOULD ASK THEIR MONEY BACK. "No Irish comedians?" echoed Sidney J. Euson, manager of the vaudeville theater. "Why, if we should put on a show without one the audience would think we were working a bunko game and want its money back. Yes, I've heard of burlesque shows without Irish comedians of the slapstick variety, but they usually closed early in the season or put in a part for a man with green whiskers and a pipe. One of the biggest weeks we had this season was when we were playing Johnny Ray, and I'd like to bet that half the men in the audience were Irish.'

FOREIGN-BORN POPULATION

Census Classifies the Immigrant Population.

The Number in Ontario-England Heads the List, With Ireland in Second Place.

Ottawa, May 8.—Census bulletin No. 8 made its appearance today. The foreign-born population is classified by age, time of immigration, and the countries whence they emigrated, and the foreign and native born by birthplace. The foreign-born are grouped according to age in three periods, namely, under 10 years, 10 years and under 20 years, 20 years and upwards; and according to time of arrival in the country in periods of five years, commencing with 1871. The native-born are grouped to show for the various territorial divisions the number of persons born in town and county of each province and territory. They constitute 87 per cent of the whole population, and the urban is to the rural

born in the ratio of 3 to 1. Exclusive of the British Islands and possessions, the foreign born as grouped by both places, number as follows: 1901 278,804 1891

counted as Canadian citizens, and all of foreign birth are counted as aliens unless they have become citizens by naturalization. The table of birthplace and citizen-

ship is prepared from data supplied by bulletin No. 7, and this bulletin shows the progress of naturalization amongst the immigrant classes. THE CAMPAIGN

West Simcoe Liberals Nominate Mr. W. Williams-Conservative Leaders at the 800.

Cornwall, May 8 .- Nearly two thousand of the electors of Stormont braved a heavy rainstorm tonight and listened to a stirring address by Premier Ross in support of the candidature of Mr. W. J. McCart. The meeting was held in the skating rink, no other building in town having room for those who desired to hear Ontario's gifted pre mier. As befiting the interests of this busy factory city, whose mills employ nearly 2,000 operatives, Mr. Ross took occasion to explain the government acts in the interest of labor, mentioning the benefits of such measures as the mechanics' lien, the factory, bakeshops, trade disputes, and other acts, all of this character. The address was listened to with great closeness throughout, and was frequently interrupted by cheers.

The speech of the candidate was received with much enthusiasm. Following the premier a speech was delivered in French by Mr. A. A. Bruneau, M.P. for Richelieu.

The Liberals of Stormont are taking a lively interest in the present contest, and are rallying around their candidate with an enthusiasm which presages a favorable result on May 29. GENERAL PROSPERITY.

Premier Ross in the course of his speech said labor was more in demand than ever, farmers were getting better prices than ever, cheese was high, and butter and eggs were by no means (Hear, hear.) Mr. Ross explained the pulp agreements, and, in reply to Mr. Whitney's contention, said we did get a bonus for pulpwood, in the form of pulp mills, costing large sums. The government's object was and had a craving for acid. I gave up not so much to get money as to get settlers on the lands. For older Ontario the beet sugar industry had been encouraged, with the result already cured me of Dyspepsia and Biliousness that four factories would be in operation this year, utilizing the product of 12,000 acres of land, which would produce 12,000,000 to 20,000,000 pounds of sugar. (Applause.) The drainage of 250,000 acres of swamp lands had been aided, which meant a large addition to the wealth of the regions affected. The government had perfected the separate school system, under which 40,000 children in Ontario received instruction. The inspectors had been increased from one to four. The public school system had stood the criticism well, and our schools were now 25 to 80 per cent better than they were 30 years ago.

WEST SIMCOE LIBERALS. Creemore, Ont., May 8.-The Liberals today to nominate a candidate to contest the riding in the approaching elections. The following were nominated: Dr. Jakeway, Stayner; Wm. Williams, Collingwood; Samuel Hissey, Creemore, and John Birnie, Collingwood. All retired with the exception of Mr. Williams, who will give his answer in a couple of days. A resolution was passed indorsing the Ross Government. NOTES.

Mr. Robert Roadhouse, one of the leaders of the Socialists in Hamilton, has returned from the United States. He says he will be a candidate for the legislature in West Hamilton, and headache. Lockhart M. Gordon, who is serving a twenty-one-day term in jail for ob-

dress Made by the Premier.

Toronto, May 8 .- At the convocation of McMaster University yesterday the degree of Doctor of Divinity was conferred upon Rev. W. W. Weeks, and the degree of L.L. D. upon Alexander C. McKay and Hon. George W. Ross. Mr. D. E. Thomson, K.C., in offering the name of Hon. George W. Ross for the degree of L.L D., said that distinguished gentleman had for many years as minister of education left an indelible impression upon our whole educational system. He had always been a man of broad vision, abounding courage and hopefulness, which, in a country like ours, which was just merging into nationhood, were among the essential qualities of leadership.

THE PREMIER'S ADDRESS. Hon. George W. Ross, in rising to deliver the convocation oration, referred to the difficulties of preparing his re-marks in the midst of matters not very closely identified with academic work, but nevertheless very engross-ing. He directed their attention to a lookout upon national conditions, to which we, as Canadians, might well aspire. What did we need of the RACE GAMBLING IS qualities which other nations had exhibited in their makeup, in their history, in their contests with each other, which had given one pre-eminence over another? He would mention three qualities, the first being a resolute spirit in dealing with whatever difficulty was encoutered. This was posticulty was encoutered. This was posticulty was encoutered. This was posticulty was encoutered. The growth of apsessed by the Spartan who guarded the pass at Thermopylae, by the Roman country against the Anglo-Saxon invader, and by the English nation, small though it was, who overthrew on races on foreign tracks. the Armada when Spain was the master of the world. The resolute spirit which was confined to the military word; Pitt had it when he dealt with the most tremendous financial diffi-

statesman. (Applause.) NEED OF SELF-RELIANCE. Sir Bobert Peel had it when he had MANENTLY AND QUICKLY
CURED BY FERROZONE.

Some persons have attacks of Bilibus Dyspepsia very frequently, and leel as if they were about to die. The world. "Let us infuse into all the purposes of our life," said Mr. Ross.

the agitation of Cobden and Bright. The same spirit had given the church its pre-eminence, and had sent missionaries to India and the islands of the great mysteries of science, had planted colleges and universities all over the world. "Let us infuse into all the purposes of our life," said Mr. Ross. sense of the term, that same confidence, that spirit of self-reliance, so that he that knows a Canadian by name will see in him and find in him that force of character and determination which gives an assurance of success, no matter what the difficulty may be." (Applause.) The pesprosperity of the country.

> RESPONSIVE STATESMANSHIP. Our second need was a responsive statesmanship. We were disposed to rest upon our oars and believe that our national institutions had attained perfection. There was an effete conservatism which had no capacity for organism, and the institutioss of today would not fit the second or third generation which comes after us. This want of responsiveness in statesman-ship was one of the most dangerous clogs upon the liberties of the people. One of the Stuarts lost his head asd another was expatriated through want of this responsiveness, and the American colonies would have been saved to the empire had the statesmen of England appreciated the ideas of the western hemisphere. Were we in Canada studying the pulse of the people and profiting by the thought of the best The responsive statesmanship people? within the empire was going to revolu-tionize the imperial trade relations, the political interests, widen the franchise and bring the colonies into closer relationship. There was nothing to prevent our having a population of 20,-000,000 in the next 30 or 40 years only our own want of statesmanship and our own want of foresight. (Applause.)

MAKE CANADA GREAT. The third point on which to profit was the consolidation of national power. Cavour did that for Italy. Bistaken the preliminary steps is confederation. "I rejoice that there are in Canada so many formative influences," said Mr. Ross, in conclusion; "public schools so well endowed, universities with such unselfish aims, freedom in church and state, and if with these conditions we fail, on us should rest the blame. Fail! Why, it would be impossible unless history belies itself and unless the record which we read of the strength and growth of other countries is not true to fact. I ask you to feel the nobility of the nationality under which you were born, to feel the force, the impulse of those possibilities of development which are pressing upon us, and I ask you to apply yourselves resolutely to the great duty of making Canada prosperous and great, as your advantages are great and ready at the hand of everyone who chooses to avail himself of them." (Loud applause.)

The meeting then adjoursed. GREAT OIL BLAZE.

Excruciating Pains in the Back and Loins-A Plaster Cast Necessary for Temporary Re lief-How a Cure Was Found in

DR. CHASE'S KIDNEY-LIVER PILLS

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wender at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. have given him a new lease of life.

Mr. S. O. Demers, Conception Station Labelle county, Que., writes: "I am writing you in order that others who marck did it for Germany, and we had suffer as I did may profit by my experience. For three years I was oblig-ed to give up all work on account of severe pains in my loins, back and sides. I had become so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists, but all of them pronounced me incurable, and could not even give me relief. One had me incased in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure. 'About this time I received one of

Dr. Chase's books, and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in the back and sides grew less severe, and my bowels became regular and active-constipation had been one

of my worst symptoms.
"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and sides, frequent desire to urinate, and pain in making water, stiffness of the body, and all the sufaccompanying derangements fering

"Since using Dr. Chase's Kidney-Liver Pills these allments have become less and less, until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their praise. The people in this county are surprised to see me so well again, and no wonder, for my cure has been almost miraculous. BICKLE'S ANTI - CONSUMPTIVE SYRUP stands at the head of the list for all diseases of the throat and lungs. It acts like magic in breaking up a cold. A cough is soon subdued, tightness of the chest is relieved, even the worst case of consumption is relieved, while in recent cases it may be said never to fail. It is a medicine prepared from the active principles or virtues of several medicinal herbs, and can be depended upon for all pulmonary complaints.

TERRIBLE TRAGEDY ENACTED IN NEW YORK

Shot Dead.

His Brother Malcolm Did the Fearful Deed,

Then the Assassin Took His Own Life-Bitterness Existed Between the Two-Paul's Secretary a Witness of the Tragedy.

New York, May 8. - Paul Leicester | THE SLAYER OF HIS BROTHER. Ford, the novelist, was shot and killed today by his brother, Malcolm Webster Ford, writer and athlete, who immediately sent a bullet into his own

At the time of the shooting those in the house beside the two brothers were wall paper manufacturer, but they Mrs. Paul Leicester Ford, Miss Eliza- | were divorced. beth R. Hall, the novelist's secretary, and the servants. The novelist was sitting at his desk in his library. It is supposed he was engaged at some lit-erary task. Miss Hall was at her desk in another corner of the same room. Mrs. Paul Leicester Ford was in her

FATAL SHOT. Malcolm W. Ford called, as he had often done, and went to his brother at his desk. Words were exchanged in a tone so low that Miss Hall could not hear what was said, though she was not paying attention to the incident. Suddenly there was a revolver shot, and Miss Hall darted from the room. Then, according to the statements of the police, she considered that she must act more bravely, and re-entered the library. SECOND TRAGEDY.

Meanwhile Malcolm Ford had called her. As she turned towards him, he placed the revolver to his heart, fired and fell, dying instantly. When Miss Hall turned to look at Paul Ford he was still standing at his desk, but rapidly losing strength. She door for his physician, Dr. Emanuel Baruch. In less than five minutes Dr. Baruch arrived, and the dying man, still conscious, was carried up to a room beside his wife and placed on his bed. He spoke to his wife and asked the doctor for his opinion, showing that moments later, about twenty minutes health-giver. after he was shot, he died. The bullet fired with the same accuracy, for it made a wound scarcely an inch lower than the one which killed his brother. In fact, the wounds were almost iden-

It appears from the statements of certain persons acquainted with the details of the tragedy that Malcolm Ford's body lay where it fell, on a rug in the library, for some time, possibly several hours, so great was the excitement in the house. In fact, the murder and suicide were not known to the coroner until about 2:30 p.m., and not to the police until 4:25 p.m. Dr. Baruch said that the time passed so rapidly that no one in the house realized it. Much of the time was cccupied in trying to telephone to the father of Mrs. Paul Leicester Ford, Edward H. Kidder, of Brooklyn, who was the first person to arrive after the physician.

MOTIVE FOR THE MURDER. Dr. Kidder refused to make any statement in regard to the shooting, except in a brief memorandum, which was given to the police. In this it was said that the cause of the shoot-

ing could only be surmised. Information from other sources makes it appear that Malcolm Ford called to get money from his brother, and, meeting with a refusal, shot him. Dr. Baruch said that the murder was a result of temporary mental aberration on the part of Malcolm Ford, due to nervous exhaustion. It is said that there was enmity between the two brothers, and consequent bitterness, and that it was of eleven years' standing; that never since the death of their father have they been on intimate or brotherly terms. This alleged enmity on the part of Malcolm is said to have been brought about by the fact that the father of the boys disinherited Malsolm, and that this action on the father's part was because he did not wish Malcolm to devote himself to an

athletic career. POLICE CAPTAIN'S STORY. Police Captain Brown said tonight that Malcolm W. Ford had been causing much uneasiness to the family for some time, because of evidences of an unbalanced mind. He declares that in his opinion he attacked his brother Mr. Brandreth is being treated in during a period of temporary insanity. the Bloomingdale Insane Asylum. THE MURDERED MAN.

Paul Leicester Ford was 37 years old, a novelist of note, "Janice Meredith" and "The Hon. Peter Stirling" being his best-known novels. He was married about a year ago to Miss Grace Kidder, daughter of Edward H. Kidder, of Brooklyn. He was the son of Gordon Lester Ford, of Brooklyn, who died eleven years ago, and left an estate of some \$2,000,000 divided between his children, with the exception of Malcolm W., who was disinherited by the will. He was a member of several clubs and organizations.

Malcolm W. Ford was born in Brooklyn in 1862. He was educated at the Brooklyn Polytechnic Institute. He took up athletics while at school, and for a number of years won championbreast, dying instantly. The shooting ships in this country and Canada in occurred at 10:20 a.m., in the handsome runs, hurdling and jumping. Mr. Whitney in New Ontario.

Mr. Whitney finds in New Ontario political chickens have come his own or some action of his party which completely stultifies him. All his boasted courage cozes through his finger-tips. There never was a greater exhibition of cowardice and disingenuousness than he gave at North Bay on the opening night of his tour. The Opposition in the Legislature tried to block the construction of the Government railway from North Bay to Temiscaming in order to shore up their candidate in the city of Ottawa, where the Conservatives are denouncing the Government for not making Mattawa the southern terminus of the route at enormously greater expense to the Province. Naturally the people of North Bay wish to see the railway built as soon as possible, as direct communication with the Temiscaming district will be a big thing for the town. Mr. Whitney, who, as the leader of the Opposition, was more responsible than any other man for the attempt to delay the construction of the road, had the audacity at North Bay to denounce the Government for "dilly-dallying with such a grand proposition." Yet this "grand proposition" is one he attempted to sacrifice for some petty party advantage. His first lieutenant, Mr. Foy, declared that "Toronto was at the back of North Bay in desiring the road." Toronto certainly desires the road, but Toronto's members in the Legislature stand convicted of vot-

Having turned this somersault at North Bay, Mr. Whitney passed on to Sudbury, the center of the nickel and copper mining industry. Here he executed another double shuffle. Lord Salisbury's Warning.

In his Albert Hall speech on Wednesday Lord Salisbury sounded a warn-Ing which was tantamount to a reproof for a certain element in the colonies. There were many men of great intellect and authority, he said, who thought the moment had come for some legislative action on the part of the United Kingdom, which should federate the colonies. He exhorted them carefully to consider the matter. Britain had no power by legislation to affect the flow of opinions and affection which had arisen so largely between the mother country and the daughter states. If they were patient and careful, there was a tremendous destiny before the Empire; if they hastened there might be the reverse of such destiny, the breaking apart of those forces which | me twenty-five cents?" were necessary to construct the majestic fabric of the future empire.

This is very significant language, coming from the foremost public man In the Empire, and the head of a government which is relied upon to give the direction to Imperial sentiment. In this country a propaganda is being carried on for some scheme of binding Great Britain and the colonies together by new legislative ties. The promoters of the movement take an alarmist attitude, as if some crisis had overtaken the movement take as carefully and spent the spent to wear by, it is too taken the bottle before I for the bottle befo

Canadian Butter Makes a Record.

Dowdall Brothers, of Manchester, have issued their annual butter review for 1902. The imports of butter into the United Kingdom last year showed the large increase of 16,314 tons, the total value being £19,297,005. The review adds: "Out of this large import foreign countries send us 84 per cent, our colonies supply only about 16 per cent. Australasia sends us to the value of about two millions sterling, and Canada about one million. The total figures do not include butter to the estimated value of eight millions sterling that Ireland sends to Great Britain every year. The field therefore, is ample in which our colonies may compete."

creased her exports to a relatively greater degree than any of her rivals. Denmark's supremacy is attributed to the fact that butter-making has become its leading branch of agricultural industry, being fostered in every way by a paternal government. Its merchants have also shown great enterprise in intercepting large quantities of Finnish, Russian and Sibertan buting against Toronto's interests in orters for selection and re-export. The der to lend themselves to a small game United States is in the position of being able to consume its production of the best butter at home and exports only the surplus of medium and lower

While Canada is making such gratifying headway still Canadian butter does not command by any means the highest prices.. Last year Danish butter led with an average price of 112 shillings 9 pence per cwt, Germany, France, Sweden, Holland, Australia, order named. The average price of butter-makers should improve the quality of their product for export.

> The Free Press always does a good deal of soan-chewing before elections. On this occasion it has begun to froth a little earlier than usual, perhaps with the idea of making up the time in coaxing somebody to run against Col. Leys. It prints a crazy yarn to the effect that the Liberals | hat? are going to buy up the Conservative voters of London and Middlesex, and then frighten them away from the polls. All this is of course highly complimentary to the Conservative voters. We have a much better opinion of them than the Free Press.

The Washerwoman's Song.

[Eugene F. Ware.] In a very humble cot, In a very humble cot,
In a rather quiet spot,
In the suds and in the soap,
Worked a woman full of hope;
Working, singing, all alone,
In a sort of undertone,
"With a Saviour for a friend,
He will keep me to the end."

Sometimes happening along. I had heard the semi-song, And I often used to smile And I often used to smile,
More in sympathy than guile;
But I never said a word
In regard to what I heard,
As she sang about her friend Who would keep her to the end.

Not in sorrow nor in glee
Working all day long was she,
As her children, three or four.
Played around her on the floor;
But in monotones the song But in monotones the song She was humming all day long, "With the Saviour for a friend, He will keep me to the end."

It's a song I do not sing.

For I scarce believe a thing
Of the stories that are told
Of the miracles of old;
But I know that her belief
Is the anodyne of grief,
And will always be a friend
That will keep her to the end.

Just a trifle lonesome she,
Just as poor as poor could be;
But her spirits always rose,
Like the bubbles in the clothes,
And though widowed and alone,
Cheered her with the monotone,
Of a Savious and a friend. Of a Saviour and a friend Who would keep her to the end.

have seen her rub and scrub, On the washboard in the tub.

While the baby sopped in suds.
Rolled and tumbled in the duds;
Or was paddling in the pools.
With old scissors stuck in spools.
She still humming to her friend
Who would keep her to the end.

Human hopes and human creeds
Have their root in human needs,
And I would not wish to strip
From the washerwoman's lip
Any song that she can sing
Any hope that song can bring;
For the woman has a friend
Who will keep her to the end.

Daddy's Sentinel.

[Good Words.]
When daddy went away to fight
And kissed us all good-bye,
He held me in his arms so tight
And told me not to cry—
"My gallant little sentine!,"
He whispered, "you must be,
And you must guard dear mother well
For daddy o'er the sea."

And so I take my sword and gun And drill and march each day. Until the fighting all is done And sentinels can play And when dear mother's face looks sad I tell her not to fear— Though daddy's gone I know she's glad His little sentry's here!

To God so good and kind—
"Please keep our soldier safe and care
For those he left behind,"
I somehow think He hears and knows
While far across the foam,
Dear daddy fights his country's foes,
His boy's "on guard" at home!

Drainage

Sweat is the sewerage of the system. The foot soles are among its chief outlets, and shoe soles should be its

scavenger. Accumulated sweat is an irritant poison—a sort of caustic which gnaws

the foot, and burns the leather. The RESILIA is the only shoe having a drainage system to carry off foot moisture as created.

In it the perspiration passes down through the porous leather insole, to the cross channels or sewers beneath, where it is carried off and dried up by contact with the air.

This prevents the concentration of sweat, and with the ventilating device keeps the feet dry, clean, hardy and healthy.

Observe cross channels in centre-sole.

THERE IS danger in neglecting a cold. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup, before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.

Rich Cossacks suffered equally with the noblemen. When landowners refused to deliver up the keys the peasantry broke down the doors, quietly seized foodstuffs and returned home.

"When unopposed the peasants contented themselves with supplying their immediate needs, but when balked they burned and destroyed, carried off live stock and desolated estates.

PURIM BALL PRANK RESULTS SERIOUSLY

A Hundred Couples Bound by Mock Marriages.

Yonkers, May 9 .- There is consterna-

tion in Jewish circles in this city over

the serious outcome of the mock marriage of fully 100 couples of the 200 that attended the recent Purim ball at Mc-Cann's hall, this city. In the course of the ball somebody suggested that each man select a partner and go through a mock marriage. The suggestion pleased many young persons, and fully 200, some of them said to have been already married, went through the Jewish mar-riage ceremony, including the placing of a ring on the finger of the bride. Several days later a New York rabbi informed several of the young persons that according to the Hebraic law, every one of the marriages was valid. The matter then ceased to be a joke. Several other rabbis were consulted, and every one of them pronounced the marriages valid, because the mockers had not only used rings, but had so faithfully repeated the marriage

pledges that it met all the requirements of the Jewish religion. It is said that fully three-fourths of the young persons concerned will aption will erect a seven-story building ply to the courts to have the marriages annulled, while the remainder will abide by the result. A majority of those thus married are residents of this city, and the rest are residents of Manhattan, Brooklyn and nearly every town in Westchester county.

Text of Agreements With Mr. Morgan Are Published.

White Star, Dominion, Atlantic, Transport, Leyland and Righards, Mills & Co. in the List.

London, May 9 .- The greatest possible interest is taken in the publication of the text of the agreement between Mr. Morgan and the steamship companies which have entered the great shipping combine. It is noted that the companies concerned are the White Star, Dominion, Atlantic Transport, Leyland and Righards, Mills &

The Cunard line does not appear in the list, but a belief still exists that it will eventually be absorbed. The object of the agreement is stated to be the acquisition before Dec. 31 of the maritime properties and business of the companies by a corporation to be organized by J. P. Morgan & Co. under the laws of the State of New York or any other state of the American Union. From this fact it is inferred that the White Star shareholders will at the forthcoming meeting be asked to assent to the complete Americanization of their property.

MUSIC AND DRAMA

WATKIN MILLS TONIGHT. The Quebec Chronicle of April 17 says of Mr. Watkin Mills, who, with Owen A. Smiley and Edward Parlovitz will be seen at the New Grand tonight: "Watkin Mills, the distinguished basso, pride of the English concert stage, and famous on two continents, added several leaves to his and famous on two crown of laurels by his singing at Tara Hall last evening. The audience went wild with enthusiasm, and seldom, if ever, has a singer received in Quebec such a flattering reception. Although he sang thirteen songs, the people were not yet satisfied, and the strains of the National Anthem brought only regret that the concert London, May 9.—A St. Petersburg was at an end. Mr. Watkin Mills possesses a gloriously resonant voice which can compass equally well the most exacting classic or the simplest

knowledge of the stage in that school pany-his progress upward has been rapid. Two years with the Castle Square Stock Company, in Boston, brought him to the notice of metropolitan managers. In New York he essayed various rolls with such success that he was finally cast for "Clar-ence," and to make the test more crucial, it was on the same stage, the Fifth Avenue Theater, where, for over one hundred nights, Coghlan had played it to brilliant audiences.

SOUSA IS COMING. It will interest you to learn that Sousa has a new collection of encores for his present concert tour. These Sousa encores are as much a com-ponent part of the Sousa programmes as are the printed numbers themselves and the "March King's" audiences have learned to expect and demand them with a prodigality only exceeded by the liberality and graciousness with which Sousa responds to such de-

mands. He is constantly changing

Sousa possesses the knack of taking a commonplace theme and "dressing it up," "washing its face and smartening its frock," so to speak until it becomes a gem of its kind. He never descends to musical banalities, however, and every Sousa encore, no matter how light, has an intrinsic value to recommend it, aside from its rendition by the premier band of the world. Sousa comes here on Monday, May 19, at the New Grand. The soloists are Lucile Jocelyn, soprano, Marguerite de Fritsch, violiniste, and Arthur Pryor, Trombone.

Englishmen Like Lacrosse.

The London Morning Post thus refers to the Canadian lacrosse team, after a recent match at Lord's: From the matches in which the Toronto men have already taken part, it is evident that since a Canadian team last visited Great Britain lacrosse has made good progress in North America. Our players are puzzled by the short, rapid passing of the visitors, also by their scattered disposition in the field and the combination in attack, which together with the quick clean passing proves exceedingly effective. As our men grow more accustomed Canadian methods they will understand how these may best be met and counteracted, and it would certainly appear that the Toronto team sometimes leave their goal rather weakly guarded against a strong attack. In the course of the next three weeks the Canadians take part in about a dozen matches, and their visit will surely give an impetus to this capital game in this country. A feature of the play of the visitors is the absence of that roughness which has sometimes detracted from the interest and pleasure of lacrosse in England. Canadians give a delightful exhibition of skilled combination and effective

passing. WE ALL HAVE missions in the world. There is a work to do for every man on earth. There is a function to perform for everything on earth, animate and inanimate. Everyanimate and inanimate. A Physicians Testimony For Labatt's Stout.

Dear Sir :-ALEXANDRIA, DEC., 20th. 1901. Speaking from personal experience I can state that your Stout is excellent in building up the system—I was very much run down and was solvised to use Labatt's Porter—this I have done for some time and I largely attribute to its effects my steady improvement in strength and weight. I deem it but justice to you, and it certainly is a pleasure to me, to add my testimony to its sterling qualities, and I gladly recommend your Stout as an excellent tonic and food in cases where such is required. JOHN LABATT, Esq., Brewer,

COMMISSION HAD A REGULAR "BEAR GARDEN SORT OF TIME!

as Arbitrator of American-Salvador Dispute.

New York, May 8 .- A special to the Herald from Washington says:

"We had a regular bear garden of a time," said Sir Henry Strong, chief justice of Canada and chairman of the Salvadorian international arbitration commission, last night, in describing the sensational and stormy commission's affairs at the Arltington

Hotel yesterday afternoon. The commission is composed of Sir Henry Strong, president; Don M. Dickinson, of Michigan, and Dr. Jose Pacas, of Salvador. The claim was to indemnify American citizens for losses sustained through the cencellation by Salvador of a franchise granted in 1894 for the exploitation of the port of El Triunfo, in the Bay of Jacquilisco. It was when the commission an-

nounced that its verdict against Salvador, to the extent of \$530,000, that the excitement reached a climax. For more than a month the commission has been in session in this city, stand adjourned."

Chief Justice Strong's Experience | considering this claim. Both sides have been represented by an array of distinguished counsel. In consequence of that announcement

the commission, the attorneys, Assistant Secretary of State Hill and several interpreters met in the Arlington par-lors. Before the award was formally made the commissioner from Salvador, through his interpreter, had read a statement denouncing Sir Henry Strong in language of a grossly insulting character. He accused the chief justice and his associate, Mr. Dickinson, of discourtesy during the sessions of the commission, and also charged the chief justice with using insulting language to him in the consideration of the case, and with partiality.

Without waiting for the reading of the statement to be completed, Sir Henry commanded the interpreter to stop. While he denounced the allegations, Don Pacas, who speaks very little English, was swearing in Spanish like a pirate.

It is probable that blows would have been exchanged had not Sir Henry, after having expressed his opinion of Don Pacas with the greatest freedom, picked up a pen, signed the award, and then passed the document to Mr. Dickinson for the latter's signature. "There, now, the incident is closed," he exclaimed, "and the commission

To Mrs. Wilson we desire to say that it is a source of gratification to us that our pastor has chosen for his companion through life one whom we all know, and whose Christian qualities we appreciate, one who has been an active worker in the church, and we trust and pray that you may both be spared for many years to this congregation.

In extending our congratulations on this happy event, and hoping for you both a long and happy life, we ask you to accept this clock as an earnest of the love and esteem which is felt for you by the congregation, and as you look upon it, may it ever remind you of the many devoted friends you have in the King Street Presbyterian Church. The programme was then concluded

as follows: Duet, Master W. Robson and Miss Mina Taylor; instrumental, Miss Gilmore; chorus by the choir; solo, Mr. Webster; duet, Messrs. Gilmore and Stevenson. At the conclusion of the programme refreshments were served by the ladies of the congrega-

Some \$20,000 Worth Seized by U. S. Authorities-Women Suffer Heavy Losses by Scheming.

Detroit, May 9. - American ladies with a fondness for furs, and who become purchasers of such while touring Canadian cities, should be careful to see that the customs duties are paid on their importation, or mortification and loss of the garment will likely come later, possibly just at the time of the year when a sealskin sack shows to best advantage and is most comfortable for purposes of wear.

For some time Uncle Sam's special agents in the Eastern States have been watching closely the express packages that are sent out from points on the United States side of the line, and that bear earmarks of containing smuggled furs. As a result, over \$20,000 of the luxuries have been seized within the last few months in different parts of this country, some points being well out west.

I gradually worked myself up and money began to flow in upon me freely. I learned, by the merest chance, that you had established yourself in this city, and hither I came, determined to follow you up like a bloodhound, for I had sworn that there should yet come a day of reckoning between you and me. It has come. I established myself of Joseph Archibald, carrying on my business, however, principally through agents, for I had no idea of allowing you to suspect me or my purpose, until I was ready to bring you to a settlement.

NEW STARTING BARRIER AT THE WOODBINE.

Toronto, May 9. - Horsemen at the Woodbine had their first glimpse yesterday of the new starting barrier which will be utilized this spring by the Ontario Jockey Club in connection with the "no recall" system of starting. The starting machine was put up in the back stretch at the five and a half furlong pole, and will be in operation daily from now till race day, for the benefit of the trainers and owners who wish to school their horses in the latest method of getting away from the post. Harry Morrisey, known ex-jockey, now Starter Mare Cassidy's assistant, superintendent the erection of the barrier, with an assistant from Washington. The machine is what is called the "Maxwell Gate." It is made of webbing, and when the spring is pulled the barries flies upward, away from the horses, on an incline. Instead of a single band of webbing, as in the present starting machine, the new one has two rows. Mr. Morrisey will be in charge of the barrier from ten to twelve o'clock each day for the next week. Starter Cassidy will be here himself to oversee matters next

CEREALS OR MEAT. Prepared Food Helps to Solve the Problem of Good Living. PRICES OF MEAT GO UP.

"While the average housekeeper may be ignorant as to whether the increase in the price of meat is due to other causes, if she is a woman of moderate means, she has become convinced that she must turn to something except animal food for the main | was again passed. fare of her family," says the Buffalo Express.

"It is not an entirely new thing, this advance in the price of meats, and it is even rumored that prices have not yet reached their limit, but certain it is that the cost of living for the average family has increased rapidly of late until meat has become an article of diet that must necessarily be eliminated from the daily fare of the very poor and has become almost a luxury even to those who have a moderate and usually adequate amount to spend upon the family food. "Today domestic science and public opinion have joined in teaching an important lesson to rich and poor alike,

the necessity for consuming body building food, supplying material that will keep nerves, muscles, bone, flesh and brain in the proper condition, feeding into the human engine the fuel needed to make good the constant waste. A food expert at Battle Creek, Mich., has produced a food especially intended to supply more nutriment than meat, fish or fowl, and that costs the con-

nourishment for the body and greater strength and vitality for the brain and nervous system, and it is an economy that reduces the cost of housekeeping to the minimum and at the same time pleases the palate. Grape-Nuts is a condensed food, and about four teaspoonfuls with cream is sufficient for the cereal part of a meal.

It requires no cooking or preparation of any kind, and is ready for immediathlete, brain worker, epicure and invalid. One pound of Grape-Nuts contains

nourishment-that the system more will absorb—than ten pounds of meat. An experiment was tried by a man who found that by leaving off meat altogether at breakfast and lunch and taking in its place four heaping tea-spoonfuls of Grape-Nuts, he began to gain flesh and strength, and before the full pound package was gone had gained four pounds in weight, whereas he had been losing on his meat diet.

Present conditions, therefore, regarding the price of meat, are solved to the family provider by supplying Grape-Nuts to the individuals of her household-a food that not only re-commends itself by its economy and pleasant taste, but by its health-sustaining properties and its ability to build up flabby muscles, restore color to the cheek, brightness to the eye and replaces the daily loss ocasioned by

brain and nervous work. A package of Grape-Nuts costs 15 cents and makes fourteen meals. All

The board of works laid over nearly every matter that came before them last night, definitely deciding only a bia, Miss Craig; secretary-treasurer, few unimportant questions.

John C. Macaulay wrote the board asking that they give him remuneration for damages to his property on John street. It was an old account and had been thrown out by the committee before. The same judgment

at their last meeting, because they claimed that it was not sufficiently signed, for a walk on the north side of Grand avenue, brought a letter from John R. Minhinnick stating that the bill had sufficient names. Laid over. City Solicitor Meredith reported having come to a settlement with Mr. Boles, of Talbot street, who claimed damages because of a sidewalk fronting his premises being too high. The city agreed to lower the walk and al-

low Mr. Boles \$10 towards his costs in the matter. A sewer on Horton street overflowed into the cellar of Mrs. Helen Avey, who thought she should be given compensation for the damage done. The claim was recognized and will be paid. The Dominion Savings and Investment Society opposed a petition for a

sidewalk on the north side of Grand avenue. Laid over. J. R. Shuttleworth applied for permission to connect his motors with the wires of the Electric Construction sumer about one cent a meal. A number of Beaconsfield avenue residents presented a plan for putting down the street railway tracks, which they held would lessen the danger which they thought now exists. The city engineer could not see the advanate use, and suited to the laborer, tage which would result from the plan, but the street railway will be interviewed in the matter. The plan would necessitate the buying of some land, either by the street railway com-

Closing Meeting of the Great Convention Marked by Unabated Enthusiasm.

The big missionary convention that has been in session in St. Andrew's Church here since Tuesday, came to an end yesterday afternoon, when the 350 delegates dispersed to their homes throughout the western part of the province. The 26th annual convention of the W. F. M. S. is now a matter of history, but who can forecast its results? Who would venture to estimate the great good that will result from the united, prayerful effort of over 300 women, who have met with a singleness of purpose, and that purpose the furtherance of the Master's cause, the lifting of the veil of heathen darkness from the eyes of millions in foreign lands. This noble band of women are performing their work; they are endeavoring to do their duty, and are leaving the results with God. The addresses of missionaries from the foreign fields proved a source of inspiration, given as they were by persons whose lives are consecrated for the work they have undertaken, and who look for an eternal rather than temporal reward. Addresses which were earnest appeals to those in Christian lands were delivered by Miss White, of India, and Mrs. Goforth, of China.

Mrs. White dwelt upon her own special work in India. She said that the India as studied in the school geographies was vastly different from India as the missionaries found it. It was to them a continent made up of many peoples, languages and religions. The various missionaries in India conducted their heard yesterday, they being Mr. and Mrs. Luckhurst, Mr. and Mrs. Gilmore, was their purpose, she went on to say. to try to overthrow the religious and social customs of the Hindoos, and leave instead the Gospel of Christ. Many of the people lived in communities which were marked off by caste distinctions. She stated that her work was among the very poor, and that often that class was very difficult to reach or to make understand. The women were taught sewing and incidentally Bible lessons were taught. All this was in the vicinity of Indore. In conclusion the speaker stated that missionary work in India had been much interrupted by the famine. In fact, it had been so affected by that famine as to cause it to take the nature of relief work. But after all a grand opportunity was given of presenting the Gospel to remote villages, whose inhabitants and whom it would otherwise have been very difficult to

reach. Mrs. Goforth reviewed her work in China, and asked for the prayers of her hearers. She spoke of the discouragement met with in trying to learn the language, and of how proficiency could be attained only after the most persistent and prayerful ef-

forts. The officers for the ensuing year are as follows: President, Mrs. Shortreed; vice-presidents, Mrs. McLaren, Mrs. Campbell, Miss Robinson and Mrs. Telfer; recording secretary, Miss B. MacMurchy; corresponding secretary, Miss Martin; secretary of Indian work in the Northwest and British Colum-Miss Parsons; treasurer, Miss George; editor of the Tidings, Mrs. J. A. Mac-Gillivray; home secretary, Mrs. Grant;

foreign secretary, Miss J. J. Bell. The standing committees are as follows: Executive, the officers of the society and Mrs. Harris, Mrs. Jeffrey, Mrs. Davey and Miss Smith, ronto; nominating, Mrs. McMurrich, Mrs. Maclaren, Mrs. G. H. Robinson, A petition, passed over by the board Miss Bessie MacMurchy, of Toronto; Mrs. Fletcher, Hamilton; Mrs. Maclean, Guelph; Mrs. Ross, Lindsay, and

Mrs. Maclennan, Owen Sound. The matter of disposing of funds was taken up yesterday afternoon, when it was moved by Mrs. Currie, of Belmont, and Miss MacKay, of Belleville, that the sum of \$15,000 be paid by the treasurer to foreign mission committee towards the expenses of the W. F. M. S. for the current year, and that the treasurer be instructed to pay the foreign mission committee such sums as the board may direct during the year. A second motion by Mrs. Nesbitt, of Sarnia, seconded by Mrs. Ross, of Lindsay, provided that the treasurer of the W. F. M. S. pay to the Ewart Missionary Training Home such sums as required for maintenance during the coming year.

Both motions were carried. Mrs. MacAllister, of Iroquois, spoke the closing words of the convention enjoining and exhorting the delegates to live close to Christ until they should see him face to face. The convention was then closed with prayer and the singing of a hymn.

Skin Diseases Come with the Spring.

After the winter the blood is impure. The whole system is clogged blood is thick, heavy and sluggish, and causes the skin to break out in pim-

ples and boils. That tired,listless, all gone, no ambition feeling takes possession of you. TAKE BURDOCK BLOOD BITTERS

It will remove all the impurities, turn the Bad Blood into Rich

Red Blood and fit you to withstand the hot summer months. TWO SMALLPOX CASES IN TO-

RONTO. Toronto, May 9.—Two brothers, young French-Canadians, who are telegraph linemen and who have been out in different parts of the province this spring, developed symptoms of smallpox yesterday, and were removed from the place where they have been living, 168 Sackville street, to the smallpox hospital. All precautions have been taken to prevent the spread of the disease, and every effort will be made to discover where the broth-

ers contracted it. Nervelegs, Sleepless and Exhausted Not sick enough to lay up, but you are out of sorts, blood is weak, nerves unstrung, kidneys deranged, vitality is low. You should take Ferrozone at once; it will enrich, strengthen and purify the blood, invigorate and pacify the nerves, and increase your energy, vitality and power. Ferrozone will renew your appetite and digestion, make you sleep soundly—in fact, will make you well. Try Ferrozone. Price, 50c per box, or 6 boxes for \$250. At druggists, or W. T. Strong & Co.
