

DESPERATE DEED OF ABUSED WIFE

Fatally Shoots Her Husband After Brutal Treatment.

ALSO WOUNDS DAUGHTER

Chicago Woman Takes Poison Following Attack

Child.

Chicago, July 7.—Mrs. Henry M.

Mrs. Henry Mulsaw, goaded to desperation by the alleged brutality and unfaithfulness of her husband, a street car conductor, today shot and fatally wounded the latter and their three-year-old daughter, and then killed herself by taking carbolic acid.

Mulsaw is alleged to have been with another woman until 4 o'clock this

morning, when he returned to his home. According to the police he began abusing his wife, seizing her by the hair and kicking her. She then drew the revolver and shot him. She then went to her bedroom and fired a bullet into the body of her little daughter. Satisfied that both were dead, she completed the tragedy by taking poison.

The police found the woman dead. At the hospital it was said that father

and daughter could not live.

ST. THOMAS BAKERS CALLED TO COURT

Convicted of Violating the New Bread Law.

St. Thomas, July 6.—Four St. Thomas bakers, who made a double loaf of twenty ounces, or ten ounces each, in order to come within the small bread clause of the new bread act, were found guilty of infraction of the act. Magistrate Sanders decided that loaves made in this fashion, but sold *exemptively*, were not

did not meet the requirements of the law. The bakers will comply with the decision as soon as possible.

QUEEN ALEXANDRA'S LETTER.

We have just received 100 copies of Queen Alexandra's letter written to her subjects in reply to the condolences received at the time of King Edward's death. The letter is an exact fac-simile of the original, and has a beautiful border, specially designed by Sir Edward J. Poynter, President Royal Academy of Art, for the occasion. It makes a handsome work of art, and being 22x30 makes an ideal size for framing. The issue is limited, and we offer our supply while it lasts at 50c per copy.

SIX THOUSAND AT BIG PICNIC

East End Businessmen Held a Grand Outing in Queen's Park.

SPORTS A BIG FEATURE

Baby Show, Pie-Eating Contest, High Jumping by Thoroughbred Horses, Etc., Pleased the People.

The East London businessmen scored once more with the residents of the East End yesterday, when a crowd estimated at between five and six thousand attended the third annual picnic at Queen's Park.

The main grand stand was well filled and the officials kept the enthusiasm at the "peak load" all afternoon. A programme of sports was run off, which included many new and decidedly entertaining numbers.

Hon. Adam Beck's famous jumping horses, Sir Edward, Sir James and Sir Thomas, ridden by Thomas Smith and Robert Emery, gave a splendid exhibition, Sir Edward clearing the bars at 6 feet 8 inches. His stable mates, both fine horses, made the jumps easily at 5 feet 8 inches.

Sir Edward came into prominence at the International Show in London, England, when he took first honors by making 7 feet 4 inches.

V. M. C. A. Drill Corps. An exhibition by the V. M. C. A. drill corps, under Physical Director Sovereign, also pleased immensely. The boys going through some turns that would show up favorable with the "strong men" acts of vaudeville. The team was composed of Mr. Sovereign, Roy Burridge, Gordon Thompson, Fraser Elliott, Clyde Nicholson and George McKewen.

The band of the Seventh Regiment and Sergt. McDonald's pipers were on hand, and provided a very fine musical programme. In fact, the pipers brought all the Scotch of the pipers to the surface, and a number of them danced on the platform to the strains of Piper McDonald's pipes. Mr. Robert Rowan and the Riddell children were among those who performed.

The Largest Family. The largest family contest brought out two contestants, or, rather, two sets of contestants, Mr. and Mrs. Burt, of Campbell street, winning easily from Mr. and Mrs. F. P. Moulton, of Laura street. The winners took the platform with eight children, the second exhibiting five.

Motorcycle Race. The motorcycle race created a great deal of excitement. Mr. Will Tite and Mr. Johnston finishing three miles in what was practically a dead heat. Mr. Johnston was given a hair-line decision. He crossed the wire in six minutes and twenty seconds.

The race was a close one from start to finish. Tite, who ran into the fence with a two-cylinder machine in making the turn at the south end of the stretch in last year's race, hugged the sole and saved a great deal of ground, while Johnston, who appeared to have a faster machine, lost a great deal in making sweeping turns.

Each contestant had a one-cylinder motor.

Pie-Eating Contest. Perhaps the greatest fun of the afternoon was caused by the pie-eating contest. About three hundred leather-stomached East London youths went into the scramble, about thirty coming out with leather-covered pies.

These aids to digestion were stowed away in remarkably short order, the boys remodelling their faces with plen-

tiful coats of blueberries in the struggle to get on the outside of the pastry.

A burlesque baseball match by pick-a-team members of the association was another fun-maker.

A Ball Match.

The real ball match, however, was more interesting to the merchants, as on the result depended whether or not the team composed of players of the north side of Dundas street would annex the trophy for all time. They have won the championship games at the last two picnics, but yesterday they were "short-circuited," the south side making four round trips on the diamond to one of the hitherto unbeaten champions. However, as this has been a rough week on unbeaten champions, the losers took their defeat well, and are waiting till next summer to bring home the silverware.

Scribe for Umpire.

Mr. J. H. Fowler, of The Advertiser, umpired, and he was some "kink of the diamond" at that. In the opening round he had his eye on one "Clucker" Dunn, who attempted to score without touching the third sack. The offender was called out and was threatened with indefinite suspension or a heavy fine if he talked back.

Ernie Shaw was the only north side man to make the full trip, while Bert Simmons covered the course twice, and Brooks and Vincent scored one each on behalf of the winners.

The teams lined up as follows: North Side—Palkner, catcher; Pow-ers, pitcher; Richards, first base; Nash, second base; Wanless, shortstop; Quick, third base; Shaw, left field; Simmons, centre field, and Arthur, right field.

South Side—Craig, catcher; Brooks, pitcher; Simmons, first base; Chadwick, third base; Dunn, second base; Vincent, shortstop; Tupholme, left field; Pestell, right field; Inglis, centre field.

The winners scored once in the first, twice in the third and once in the seventh, while the losers' only tally was chalked up in the sixth round.

The Baby Show. There, 40 lusty infants representative of the stock of a lusty section of the city, being entered.

Margaret, the daughter of Mr. and Mrs. Charles Ross, of 480 English street, was named the winner by a set of competent judges, little Ina Jermyn, daughter of Mrs. A. Jermyn, of 874 Dundas street, being given second money.

After the completion of the sport programme the merchants entertained about three hundred in one of the large dining halls beneath the grand stand.

Many of the members expressed regret at the absence of Mr. and Mrs. John Fawkes, two prominent members, who are now visiting in England.

The Committees.

The success of the whole affair was due to a great extent to the good work of the president of the association, Mr. Thomas Shaw, and the secretary, Dr. A. J. Wyckoff. They were assisted by a number of strong committees. They were:

Executive—T. Shaw (president), Dr. Wyckoff (secretary), Fred Simmons, James Childs.

Special Attractions—Norval Wanless (chairman), J. C. McDonald, Chas. Ross, James Ferguson.

Sports Committee—George Burdick (chairman), J. Youngs, Ab. Somerville, W. Crocker.

Refreshment Committee—Wesley Harrison, Gordon Drake, James Palkner.

Judges of Baby Show—H. Dreaney, Charles Maker, Jack Youngs.

Attempt to Discredit Medical Council.

Charged That Bad Influence Is at Work Amongst the Students.

Toronto, July 6.—At this morning's session of the Ontario Medical Council on motion of Dr. Hardy, seconded by Dr. Temple, a special committee was appointed "to report forthwith on all financial matters pertaining to the college, and report any reforms and changes that may be thought advisable, and modify and enlarge the duties of any official in connection therewith. This committee includes Dr. Merritt, Griffin, McColl, Boscom, Hardy and Temple.

Mr. A. C. Neff, chartered accountant, was nominated by Dr. King to fill the office of auditor of the council's books for the ensuing year. Several of the doctors thought that Dr. J. C. Patton, the previous auditor, should be re-engaged. Dr. Ryan, of Kingston, in supporting Dr. King's motion, stated that there need be no reflection on Dr. Patton, but that the auditor of the council's finances should be a man who devoted himself exclusively to such work.

Dr. Temple favored the appointment of an officially chartered accountant. A number of unfounded charges of graft made in the medical press had been most unfair to this body, he said. The financial statement, he admitted, was unsatisfactory in its present form, and should be broader. Consequently he thought that Mr. Neff should be appointed.

Dr. Vardon announced that he had learned that Dr. Patton was not a chartered accountant, whereupon Mr. Neff's appointment was ratified.

Dr. Hart gave notice of motion for the laying on the table of the treasurer's books for the past two years.

Too Many Words.

It was suggested that the annual announcement should be published immediately after the present session, and should at once supersede all previous regulations. Dr. R. J. Gibson, of Saint Ste. Marie, favored the elimination from the next announcement of

FIVE MURDERERS HAVE GONE UNPUNISHED

Murder Mysteries of Ontario That Have Never Been Solved.

Toronto, July 7.—The first half-yearly report of the Ontario Provincial Police was handed to the Hon. J. J. Fox this morning.

The report covers from January to June. In that time, 770 persons were prosecuted, 531 convicted, 100 discharged, and 105 cases have still to be disposed of.

The total amount of fines imposed was \$35,194.95.

Under the Liquor License Act, 161 persons were prosecuted, 125 convicted, and 19 discharged, 113 were fined, and 25 were sentenced to terms of imprisonment. Total fines, \$8,323.

Members of the force seized 4,749 bottles of whiskey, and much other liquor.

During the six months 223 persons have been deported from frontier points. As a result the railway companies report that very few trains are moving throughout the province.

Since the beginning of the year the department has located fifteen missing persons.

The most startling part of the report is that relating to murders. Since the beginning of the year warrants have been issued for the arrest of thirteen persons on charges of murder, three have been convicted, two hanged, one is now under sentence, two are awaiting trial, and five persons are still at large.

It is pointed out in the report that in one case the two men suspected of murdering a Chinaman escaped, owing to the delay in notifying the police. In all the other cases, the criminals are foreigners of the laboring class, and it has been found almost impossible to obtain information with regard to them from their fellow-countrymen.

"In view of the number of crimes of violence, it is to be regretted that the sale of weapons is not more under control. While under certain conditions the police have the right to search and disarm foreigners, yet the facilities for procuring cheap revolvers, guns, and

other weapons are so great that the efforts of the police are of little avail."

BABY WINS HIS BATTLE

Can Stay With His Mother Despite the Czar's Officers.

St. Petersburg, July 6.—Whether a Jewish baby, aged 4, should be allowed to live in Moscow or not is a question which has been engaging the attention of the Russian Government, and of the highest legal authorities in the Russian Empire.

The mother of the child is a poor woman, who has the right to live in Moscow, and she desires to earn a living by nursing. In the view of the ministry of the interior her baby did not enjoy the same right. An order therefore was sent to Moscow to have it dispatched to some spot within the Jewish pale.

The mother sent an appeal to the Senate, and the case came up for consideration. The assistant minister of the interior, representing M. Stolypin, the premier, argued that the mother's rights did not pass to the child. Finally the Senate laid down the principle that "the presence of young children with their parents

depends not on the rights of the first, but in the obligations of the second." Hence the baby for the present is to be allowed to remain at Moscow.

TO KEEP LAKE LEVEL.

Detroit, Mich., July 6.—To prevent a possible reduction of levels in the upper lakes and rivers, resulting from enlarging the outlet of the Detroit River by the construction of the new Livingstone channel, the United States Government proposes building a dam nearly a mile long from Bois Blanc Island to a point near the edge of the new rock-cut channel. Permission has been asked from the Canadian Government for the erection of the dam.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by all dealers.

LONDON, THURSDAY, JULY 7.

PUTTING MONEY INTO CANADA.

When it is said that Americans are taking a larger part in the development of Canada than Britishers, it is not implied that Canada is getting more American than British capital.

American and British investments in this country take different forms. Britain is the great lender of money. She lends it to Canada chiefly on Government, municipal, and railway bonds. The United States, on the other hand, is not one of the world's bankers. Foreign bonds have no attraction for Americans; they must have the prospect of a higher return for their money than ordinary interest if they are to be induced to invest it outside the United States. The Britisher is satisfied with small profits, combined with perfect security. The American buys or builds factories and grasps other opportunities of making large profits. He is taking a fuller advantage of Canada's wonderful development and reaping greater rewards than his British cousin, who is getting three and four per cent on his loans and will look only at gilt-edged securities.

If John Bull is not doing as well for himself in Canada as he might, he is doing a great deal for Canada herself. His investments in Canada during the past six years have been compiled by the Monetary Times as follows:

1905	£ 13,530,287
1906	6,327,500
1907	11,203,711
1908	28,950,621
1909	28,971,798
1910 (to date)	24,456,001
Total	£123,439,978

British capital is an abundant and fertilizing stream which has helped to make the Canadian wilderness blossom like the rose.

A WEAK SPOT.

It is useless to attempt to deny that there is a serious state of affairs in the Ontario Agricultural Department. Mr. Flavelle's letter has merely drawn public attention to facts known to every professor at the Ontario Agricultural College, every well-informed writer on agricultural journals, and every scientific farmer in the province. The energy and initiative of the department have been paralyzed since Mr. Duff became its head. He has a splendid staff and organization, built up by Mr. Dryden, but this machinery is rusting in idleness because the minister refuses to supply the motive power. The Farmers' Advocate, whose authority and impartiality no one will dispute, says that in the main Mr. Flavelle's strictures only too well apply, adding:

"Come to think of it, what forward movement of any consequence has been launched by the Department of Agriculture since the present minister assumed office? The late Mr. Dryden led the department, and led it capably. Mr. Monteith, though not brilliant, was diligent and earnest. Under him, the present system of dairy instruction was finally developed and taken over by the department, and several other good lines of work, such as the horse investigation, inaugurated. The electors of his home constituency manifested their appreciation (?) by turning him down at the polls. Is it much wonder that Sir James Whitney chose as his successor a man whose chief qualification, beyond a respectable character, appears to be that he was politically strong in his constituency?"

At a critical time, a transition period, in Ontario agriculture, it is essential that the department should be a vigorous directing and stimulating force. The great basic industry of the province is handicapped by the absence of energy and enterprise at headquarters. If Mr. Duff will not or cannot do better, a better man must replace him, or the Government will pay the penalty. Unfortunately the province is paying the penalty already.

GIVING MEN AN UPLIFT.

The Provincial Government has adopted a method of treating prisoners new to this country, but successfully tested in others. At the provincial prison farm established some time ago near Guelph, comprising eight hundred acres, the prisoners are put to actual farm work, spending the day in the open air. They are given good substantial food, are required neither to wear striped suits nor to have their hair cropped, and are otherwise well treated. The work is likely to have a wholesome influence upon all of them.

Instead of prisoners being sent direct to the farm after conviction, they qualify for it by good behavior in the

Central Prison. The Provincial Secretary, Mr. Hanna, told a number of newspapermen who were his guests at the farm the other day that the prisoners are being treated like men, and they are responding splendidly. They are encouraged to regard labor as wholesome for them as well as honest. They take an interest in their work, and go about it cheerfully and willingly.

The principle underlying this modern method of dealing with prisoners is that when there is hope of reclaiming them their treatment should be reformatory rather than punitive. The aim is to operate directly on the human material to preserve it from moral decay, and where it has begun to decay to restore it to soundness. Instead of seeking to terrify the prisoner, effort is made to show him how to live a sensible and honest life. Confidence and kindness are powerful reformatory agencies, and if there is a trace of good in a man it is almost certain to sprout under the benevolent influences which are operating at the reformatory farm.

A point of no mean importance is that under judicious management there should be some profit from the farm. The production of farm and garden supplies and road-making material should bring financial gain to the province, and the actual services of the men will continue to be of value in road-making and other work incidental to provincial development, and that, too, without coming into competition with free labor.

Brainer Johnson is the latest white man's burden in the United States.

In their Canadian dealings, the British are the lenders and the Americans the spenders.

The proposal to celebrate a centenary of peace between English-speaking people is more rational and Christian than the proposal to celebrate the war of 1812.

The Hamilton papers are quarrelling as to which of them got their prize-fight special editions on the street first. This is a poor subject to quarrel over, much less to boast about.

Earl Grey tells the home folk that Canadians are a sane, sober, strenuous people, patriotic and invincibly industrious. Earl Grey is an English gentleman of the finest type, and the best of all possible governors-general.

Premier Roblin threatens to skin his opponent alive and make him "eat mud." This isn't the talk of a gentleman, or of a very confident politician. When a man is frightened, he is likely to talk loudly.

Judging by the prayer-meeting attendance, one of the speakers at the missionary conference in Edinburgh hit the nail on the head in this parody:

"In the world's broad field of battle, in the bivouac of life, You will find the Christian soldier represented by his wife."

William Watson's latest volume of verse shows no impairment of his powers, and is a sufficient answer to the story of his mental derangement. In a noble ode he rebukes the fawning tone of much of the obituary poetry on King Edward:

"Honor the happy dead with sober praise,
Who lived would have scorned the fulsome phrase,
Meet for the languorous Orient's Jewelled ear."

This was the English King, that loved the English ways:
A man not too remote, or too august,
For other children of the dust
To know and to draw near."

How a man who can write so divinely could stoop to lampoon a woman must be explained by the vagaries of the artistic temperament.

Hatred of the United States and of Ireland is Col. Denison's religion. He told a Winnipeg audience the other day that tariff reform would be in existence in Great Britain today were it not for the "eighty paid emissaries of the United States who sit in the British House of Commons under the guise of members for the Irish people." This utterance is worthy of the man who said that the grant of self-government to South Africa showed that Canadians had shed their blood in vain. Colonel Denison's brand of loyalty may be that of a little coterie in Toronto, but it is offensive to the mass of the Canadian people, and it is anti-imperial in the best sense of the word Imperial. Colonel Denison and his clique would be impossible in any other Canadian community.

THE NEWS FROM RENNO.

PUGILISM AND WAR.

[Woodstock Sentinel-Review.] It is brutalizing and degrading for Johnson and Jeffries to meet in a ring and pound each other; but multiply Johnson and Jeffries by a hundred thousand, arm them with modern rifles, machine guns and other weapons of destruction, and send them to water the earth with each other's blood, and the thing becomes not only respectable but glorious.

THE ONE GREAT TROUBLE.

[Chicago Record-Herald.] "There's one great trouble with my jury system."
"What's that?"
"So many of us are becoming able to read, write and think."

UP TO DATE.

[Cleveland Tribune.] "Where are you going, my pretty maid?"
"I'm going a-flying, kind sir," she said.
"May I go with you, my pretty maid?"
"You're a little too fly, kind sir," she said.

THE GRIND BEGINS.
[Louisville Courier-Journal.] "Do I have to exchange wedding presents in the department from which they were purchased?"
"Not at all," said the floorwalker.
"Thank you," said the June bride, "I wish to trade a china vase for a frying pan."

"DOCTRA" DALY.

[Joseph I. Brown, in New York Sun.] At Fordham University the degree of Doctor of Literature was conferred upon T. A. Daly.

On Thursday when he passed up By dees peanutta stan,
I say to heem, "Good mornin, Tom."
He say, "Hallo, my fran."
Beeg Irish cop he stands by,
He say, "You theek head wopp,
Why you insoult da gentleman,
I bat I mak' you stop."
An' den he's grab me by da arm
An' geve me awful shock.
He say, "You mus' no call heem Tom,
He ees a granda doo."
An' I say, "I cannot underran,"
I theek so he anka fun,
But den he cross' hees heart an' say
He see eet in da Sun.

Oh, my! Eet mak' me feel so seek,
Eet mak' me feel so blue,
Ma fran' no mor' he speak weeth me,
I dunno wat to do.

So when he passa by dat night
I hide bahin' da stan.
Hee's mad, I know hee's mad, I theek;
He ees no mor' ma fran.
But den he ketch me hidin' there,
He say, "What's matta you?"
I say, "Oh, doctra, am seek,
I feel so had an' blue."
An' den he laugha loud lik' dese,
He say, "Oh, ho, ma fran."

Wat for you call me datta name,
I cannot underran the room to and fro,
"I see eet in da Sun," I say,
"You are a doctra man."

An' den he laugh an' say, "Ah, yes
I mos' forgot—Banan."

So now I call him "doe" no mor';
You see, I am so dom.
He say to me, "Good mornin, Joe,"
I say, "Good mornin, Tom."

JUST THE STARTER.

[Detroit Free Press.] When I've buttoned her dress down the back,

On my tasks I have only begun.
I must hunt for her gloves and her veil,
For her chateleine purse I must run.
I must get out her rubbers and fro,
As she paces the room to and fro.
That her white skirts are hung properly,
And tell her that none of them show.

I must see that the doors are all locked,
I must put out the milk bottle, too,
I must close every window that's up,
For I fear that the rain may beat through.

I must brush off her coat and her skirt,
I must stand by to hand her more pins,
When I've buttoned her dress down the back,
It is then that my trouble begins.

DODGING THEM.

[Chicago Tribune.] The tardy clubman paused at the door of the smoking-room.

"Bingley," he asked, in a whisper, "has Slodger given out the daily statement of his health, and told all about his symptoms yet?"

"Yes," said the man inside the door. "He's just finished."

PISCATORIAL DONT'S.

[Pur News.] Don't walk right up to a rift and fish it; stay above it and let your line float down to it, and if you don't get a strike hook your pole and reel and reel and let it run out again two or three times; then swing your pole from side to side.

If using red worms don't put on a big bait. One nice worm is enough. Start about three-quarters from head and string worm on the hook; let the head stick out so there are ends to wobble. Pull point of hook out, so the worms can't come off.

Don't jerk hard to hook a fish. Don't pull too quick. Don't let the line slacken.

When a fish is hooked don't get excited; if a big fish is hooked give him time. Time is golden.

Don't take any intoxicating drinks. Again, don't stand so your shadow is on the water if it is a still day and nothing is moving, and don't forget that time and patience make the best fishermen.

Don't swear if you lose a nice fish; it's no use—he is gone.

Don't use lead on line when fishing for trout.

Don't use a heavy line, and a good many more things too numerous to mention here.

CANADIAN AGED 108.

[Globe Weekly.] We recently announced the death, at the great age of 106 years, of a person who claimed to be the King's oldest subject. This caught the eye of a Lloyd's News reader in St. City, Sask., Canada, who writes declaring:

"We Canadians are proud to acknowledge allegiance as subjects of his Majesty the King, and his Majesty's oldest subject, therefore, is not dead. We have living, three miles from Star City, Mr. and Mrs. John McCoshen. Mrs. McCoshen is 108 years old in June. John McCoshen will be 96 years old should he live till Dec. 29, 1910."

"This old couple are living on their own farm, over half a mile from their son, their nearest neighbor. John often walks to town and back, nearly seven miles, and to see him walk one would say he was good for fifty years yet. I am personally acquainted with him, and his intellect is as young as his body. To look at him you would judge his age to be about 60 years. Mrs. McCoshen is still able to do her own housework and keep house."

MAGNET DRAWS NAILS FROM RIVER.

Ingenuous in the extreme is the method by which 1,000 kegs of wire nails have been recovered from the bottom of the Mississippi River, where they went down when a barge sank at the head of Lafayette street several weeks ago. A huge electric magnet, attached to hoisting gear, is lowered in the water. The current is turned on and the kegs are hoisted one by one, until the magnet is at the bottom of the river. The magnet is shaped like a mushroom and is three feet in diameter. The electricity is controlled from the pilot house by means of a controller box such as is seen in trolley cars. The magnet is the property of the Carnegie steel mills, and was sent here from Pittsburgh. Its original use was the unloading of iron from cars in the yards of the mills.

There are 15,000 kegs of nails in the river. Of these 1,000 kegs have been recovered. Two months more will be required to complete the work. Divers will descend to place definitely the kegs.

When the nails are brought out they are sent to the Dassel warehouse, where they are treated with a solution which restores them to their original color.—New Orleans Times-Democrat.

VANGUARD OF TOUR LEFT FOR THE WEST

Special Car With Correspondents Precedes Premier Who Leaves Ottawa Today.

Ottawa, July 6.—The political tour of Sir Wilfrid Laurier and Hon. G. P. Graham to the west may be said to have begun this afternoon, when a special car containing the newspaper correspondents was attached to the transcontinental train.

It contained H. W. Anderson, of the Globe; B. B. Cooke, of the Toronto Star; F. A. Carman, of the Montreal Star; Rene Chevasse, of Le Canada, Montreal; R. H. Patchin, of the New York Herald; T. W. King, of the Mail and Empire, and Fraser, of the Halifax Chronicle and St. John Telegraph.

Sir Wilfrid will follow tomorrow afternoon, taking on his car Mr. E. M. MacDonald, M. P., for Pictou, N.S. Hon. G. P. Graham left for Brockville last night, and will go to Toronto tonight, leaving there tomorrow via Sudbury, in company with F. F. Pardee, chief Liberal whip, and Senator William Gibson, of Beamsville.

The Premier will be given quite a send-off tomorrow. He is in splendid health, and is looking forward with pleasure to his first official visit to the west since his appointment as Prime Minister.

Sir Richard Cartwright will be acting premier, and will, of course, be enough ministers in touch with Ottawa to allow of a cabinet meeting being held if necessary.

CHICAGO GETTING A NEW RELIGION

U. of C. Professors Would "Release Men's Mind From Tradition and Creed."

Chicago, July 7.—Members of the University of Chicago divinity school faculty have defined and formulated the characteristics of a "new Christianity."

The professors note the arrival of a new type of religion in an official but anonymous editorial in the current number of the Biblical World, issued yesterday by the university press.

The university authorities point to the coming of the "new Christianity," as a type of faith which shall result in the "releasing of men's minds from the bonds of tradition and creed," accept the results of the scientific study of the world and deal in every day works more than in theological subtleties. The religion is described as "scientific, ethical, practical and altruistic."

After stating the necessity of scientific study, the author of the editorial proceeds:

"If there be a controversy between geology and geology, the new Christianity will stand with geology. The record left in the strata of the earth cannot be impugned by a poet of the pre-scientific age, even though that poet be also a prophet of a higher conception of God than had before his day prevailed."

In conformity to the same principle the new Christianity will accept the assured results of historical investigation into the records of ancient times. Religion has its rights, but also has history, and one of these is that it be studied by historical methods."

WASHINGTON DENIES HUDSON BAY STORY

Whalers Not Instructed to Refuse Payment of Canadian Tax.

Washington, July 7.—Unofficially at the state department yesterday it was said that certain interests in Canada were trying to prejudice the American side of the fisheries controversy now being argued before the Hague arbitration tribunal.

Certain reports have been widely published in the Canadian press and have received attention in this country that the United States Government had sent out instructions to sealers hunting in Hudson Bay that they were not required to pay a certain license exacted by Canada. The idea, it is said, is to involve the state department here in another controversy as to whether or not Hudson Bay is an open sea and stir up other questions to the prejudice of the case now being heard by the Hague court.

The state department refused to take notice of the reports, and insists that there is nothing before the department concerning the matter.

Assistant secretary of State Huntington Wilson, when asked about the case alluded to by the Canadian press, hunted through the files of the state department, but could find nothing bearing on the question. He stated that the department was not aware that there was any fight on between this country and Canada concerning Hudson Bay in any regard.

RELIGIOUS DEBATES IN SPANISH HOUSE

Premier Canalejas and the Bishop of Madrid Cross Swords.

Madrid, July 6.—Religious debates are raging in both Houses of Parliament. The Bishop of Madrid, leading the attack in the Senate, claimed that the laws of the church are the laws of the country, because the constitution makes Catholicism the state religion. Canalejas, in reply, declared that the invasion of state sovereignty by the church was no longer to exist.

"I know that a conspiracy exists to accomplish my downfall," he said. "Whether it succeeds or not does not matter, as the time has come when Spain will place herself abreast of modern nations."

THE HURSTBOURNE.

Salisbury, Eng., July 6.—The Hurstbourne Stakes of 20 sovereigns each, with 200 sovereigns added for two-year-olds, distance five furlongs straight, was run here today and won by Charles Carroll's Night Rider. Rhosmarket was second and Master Thrush third. There were six starters.

LIFE SAVERS NEEDED FOR PORT BEACHES

Drowning of Little Harris Girl Has Raised Important Question.

[Special to The Advertiser.] Port Stanley, July 7.—The drowning accident of Tuesday afternoon has aroused a great deal of sentiment here against the loose manner in which things are run at the lakeside. Such accidents as Tuesday's should be made impossible. The parties responsible for the public safety should see that at least two experienced life-saving men be constantly on duty at the beach, and one or two along the breakwater. Had there been such a life-saving crew at the pavilion on Tuesday, the little Harris girl would have been saved. At American bathing beaches every precaution is taken against accidents.

GREAT G. T. P. DOCK FOR PRINCE RUPERT

Company Files Plan at Capital for Monster Floating Dock.

Ottawa, July 6.—The Grand Trunk Pacific has filed plans and made application for a drydock subsidy. The company proposes to put in an immense floating dock at Prince Rupert. It will cost a million and a half, and have a lifting capacity of 20,000 tons. It will be a commercial dock of the second-class, and be entitled to a subsidy of 3-1-2 per cent for 25 years.

The marine department has made arrangements to immediately establish a marine depot at Prince Rupert, at an initial expenditure of a hundred thousand dollars, for ship repairs and depot for light and buoy service.

The remains of Frank Goldthrite reached Ottawa this morning from Detroit. They were taken at once to his home in Rockcliffe Park, and there brief services were conducted by Rev. Dr. Moore, a Presbyterian clergyman. The remains were interred in Fern Hill Cemetery.

George Lynch Staunton Had the Seal of the Steel Merger Stolen.

Hamilton, July 7.—George Lynch Staunton, solicitor for the twenty-five million dollar steel merger, completed here recently, while returning from Montreal, where he was winding up the details of consolidation, was robbed of a grip containing the company's seal and many valuable papers in connection with the merger. He missed the grip just before

STRANGE LOVE TALE FROM MIKADO LAND

Jap Lovers Suicide Together and
Are Married After Death.

Seattle, July 6.—A strange story comes in the last mail from Japan of a tragic ending of a love-story in Tsuzuki, a seaside village in Shizuoka. It appears that a young man named Ono Matsusaku, aged 20, and a girl called Ono O-Bun, aged 17, of the village in question, fell in love with each other and sought their parents' sanction to their union. For some reason this was withheld in the case of the girl, and the couple resolved to commit shinju rather than be separated. Accordingly, one night the girl left her home and joined her lover at a trysting place. The two then embarked on a fishing boat belonging to the young man's father. At a point some distance from the shore the couple bound themselves together with some cloth brought with them for the purpose and threw themselves into the sea.

The following morning the couple were missed and the matter was communicated to the police. Later the bodies of the young people were washed ashore and after the official examination delivered to the parents.

On learning of the tragedy the mayor of the village was much affected, and calling upon the bereaved parents, proposed that the wedding ceremony be performed over the dead bodies, so that the deceased might be united in the other world. The parents agreed, and the ceremony was carried out in due form, even to the exchange of presents between the two families.

The ceremony was legally registered, as it had taken place before the deaths had been officially entered on the register.

FOUGHT HEAVY SEAS

Four Men in Small Boat Survive the
Wreck of Schooner.

New York, July 6.—Four men in a small boat, survivors of the wreck of the two-masted schooner Garfield, which sank several miles east of the Ambrose channel yesterday, were rescued today by the Rockaway Beach life-savers. The men, who had drifted about all night in their small craft, were so exhausted that they had to be carried up the beach, but were soon put in shape by physicians.

Captain G. G. Morrison, of the schooner, said that his vessel sprang a leak amidst shortly after sailing yesterday from Fort Amby for Nova Scotia, with 173 tons of coal. The pumps failed to keep up with the influx, and the vessel began to settle. The two sailors and the cabin boy, comprising the entire crew of the schooner, put off in the ship's boat and stood to the last. When the schooner's stern plunged downwards the captain jumped overboard and the boat picked him up. The little craft had a hard time of it in the heavy sea trying to maintain a course for Rockaway Beach.

DASHED THROUGH FLAMES

Daring Act Prevents Destruction of
Vast Quantities of Oil.

Pittsburg, July 6.—While firemen poured powerful streams of water upon him, W. A. Weaver, superintendent of the Atlantic refining plant of the Standard Oil Company, dashed daringly through flames and smoke early today, and shut a valve which prevented fire spreading from a burning still of benzine to great tanks of oil nearby. In the vicinity over 10,000 barrels of petroleum in various stages of refinement, were stored.

Two thousand people cheered the superintendent as he came scorching from the burning still. What likely would have been a catastrophe similar to that of several years ago, when 200 people were seriously injured in a gasoline explosion, was prevented, and the loss confined to the benzine still.

BONDS DISAPPEARED.

New York, July 6.—Grand jury investigation into the alleged disappearance during a former management of the Carnegie Trust Company of \$400,000 worth of bonds deposited with the company as is conducted, it became known today.

The bonds, said to be those of a southern railroad, were, it was stated, deposited by Charles E. Wellborne, of this city, who, when he offered to repay the loan and demanded the return of the bonds deposited as collateral, is alleged to have been told they were not for him.

BATTLE IN STREET WITH SAFECRACKERS

Thirty Shots Exchanged and a
Desperate Hand to Hand
Fight Follows.

New York, July 16.—After a running fight between safe crackers and police in Harlem today, in which thirty shots were exchanged, the police, facing a rain of bullets, ran one fugitive up an elevated railroad stairway and captured him after a desperate hand-to-hand encounter. The second man bolted into a tenement house and escaped.

Showed Fight.

The burglars showed fight from the start when fought by Gerardo Di Angilio, proprietor of a First Avenue cafe, drilling holes in a safe in which he kept \$5,000 to \$7,000 belonging to Italian societies. As they dashed out of the place they opened fire. Di Angilio, though the bullets whistled close to him, was not injured, and yelled for the police. Three officers responded and the chase through the streets with a running exchange of shots began and continued for several blocks, arousing the entire neighborhood.

Policeman Albinger finally cornered a man, who gave his name as Frank Picci, on the "L" stairway. The man seized the officer by the throat and choked him almost insensible, before his brother officers reached his side and subdued him. He denied being a professional burglar and said he did not know the name of the man who escaped. A kit of burglars' tools of the finest quality was found beside the store safe, the contents of which had not been disturbed.

SIR JOHN MURRAY MAY EXPLORE LAKES

Renowned Naturalist Suggests
the Bottoms Be Examined.

Toronto, July 6.—Sir John Murray, the renowned scientist and deep sea explorer, arrived in Toronto last evening, and put up at the King Edward Hotel, where he will stay until Thursday, provided he does not get word in the meantime to visit Winnipeg. Sir John is Canadian-born and received his early education in Cobourg and London before he went to Scotland. He has just returned to Canada, after a four months' deep sea expedition along the coast of Africa, and among the Canaries and Azores, on behalf of the Norwegian Government. The Norwegian Government, the Michael Sars, and Sir John Murray supplied the cost of the trip. He is now in Canada with a view to interesting the Canadian Government in an exploration expedition on the great lakes similar to the ones he has just conducted in the South Atlantic and the fresh water lakes of the United Kingdom. The comparisons between the results of his explorations among the great American fresh water lakes and those of Great Britain would prove extremely valuable to the scientific world, said Sir John, to a reporter, last evening.

West Coast of Africa.

Regarding his expedition along the West Coast of Africa, Sir John said that they had trolled to a depth of three miles with larger nets than were ever used before, and the gatherings have yielded a large number of new fish. They also used a new kind of net for the animals in the intermediate waters with great success. They measured the currents in and out of the Straits of Gibraltar and made experiments as to the depths to which the various colored lights would penetrate the deep sea. By a large centrifugal machine on the decks they made many new observations of the minute forms of plants and animals in the water. During the trip the party used many new kinds of instruments including thermometers, current meters, etc. The experiments were attended with huge success and may result in entirely new methods among deep sea naturalists.

The Michael Sars is now in the harbor at St. John, N. B., and will from there proceed in due time to Glasgow, where Sir John will join her. Since he landed in America several days ago he has been at Harvard, where he had the honorary degree of doctor of science conferred upon him, and at Ottawa, where he saw some of the Government officials regarding his proposed explorations in the great lakes. He will leave the city on Thursday and will sail from New York on July 23. He has been accompanied on his expedition by his eleven-year-old son, Thomas T. Murray.

Sir John's home is now in Edinburgh. He is a distinguished naturalist, and the possessor of countless medals and degrees. He was created a knight of the Commandry of Bath in 1898.

TORONTO TO SEE FILMS

Mayor Geary Declares He Has No
Objection to Them.

Toronto, July 7.—There is a movement on foot in certain quarters to have the exhibition of the Jeffries-Johnson fight pictures prohibited in Toronto. Rev. Dr. Shearer is one of the moving spirits in the matter, and is being seconded in his efforts by a number of leading churchmen.

According to Mayor Geary, however, their efforts are not likely to meet with success. His worship said today that he could see no reason for such proceeding.

Controller Ward said he had not the slightest objection to the exhibition of the pictures, and if they were shown here he would certainly go and see them himself.

Controller Spence thought the matter could be safely left in the hands of the mayor and police commissioners.

Controller Foster was the only member of the board to express his disapproval.

A BRIBERY SCANDAL.

Chicago, July 6.—A fresh sensation in connection with the legislative bribery scandal arose today when States Attorney Wayman announced that an indictment had been voted charging John A. Malloy, a grocer, with attempting to corrupt Oscar T. Morford, a juror in the recent trial of Lee O'Brien, who is charged with bribing legislators to vote for United States Senator Lorimer.

Nothing Succeeds Like Success

The Williams Piano Club Being the Thing in Mind

The Williams Piano Club is a success. An overwhelming success. And the thermometer playing "high jinks" with the tall figures.

It was an audacious thing to begin the selling of 200 pianos in mid-summer. It was a bold thing to do—to buy 200 pianos of a single grade—buy them outright and plan a June selling campaign (the Williams Piano Club) to dispose of them. Such a thing is

only done by those who have confidence in themselves. By those who know their own power. By those who know their public through dealing with them from day to day for years and years—and know exactly how the people will respond to their public announcements. We knew we were right. We knew the time was right and ready. We knew our piano was right and our proposition was right. It's fair, liberal and advantageous to the buyer.

The Williams Piano Club Plan Told in a Few Brief Sentences.

- 1.—The value of the Williams Club Piano is \$350.
- 2.—The price to Williams Club Members is \$257.50.
- 3.—The terms are \$5.00 cash when you join, then \$1.25 per week for 202 weeks.
- 4.—The piano will be delivered when you join or later, as you wish.
- 5.—The weekly payments of \$1.25 begin when the piano is delivered.
- 6.—Every instrument is guaranteed without reserve—for five years. There are no "ifs" or "ands" in the guarantee—just a straight-out guarantee as strong as we know how to make it in writing.
- 7.—If, after 30 days' trial, the piano is not satisfactory we will give you your money back.
- 8.—If the piano is satisfactory after 30 days' use, the Club Member has eleven more months in which to satisfy himself as to the character of the piano. If it does not then prove to be everything that he expects, he has the privilege of exchanging it without one penny's loss for any instrument of equal or greater value that we sell (and we sell over five different representative makes).
- 9.—If a Club Member dies during the life of his contract we will immediately send a receipt in full to his family for the instrument.
- 10.—A beautiful stool to match the piano is included without extra cost.
- 11.—The piano will be tuned twice without charge.

The club member saves big money
---ninety-two dollars and a half---
nearly enough to educate one child in
piano playing.

It's no wonder the Williams Piano Club is such a success. Had you better not investigate its advantages? Do it now---this week. Don't be put down among the procrastinators. Get in on a proposition that is a "go"---that is a big success.

This is the
whole proposition.

PLAN CELEBRATION OF CENTURY-LONG PEACE

English Speaking People to Hold
Big Affair in 1914.

New York, July 7.—The movement for a world-wide celebration in 1914 for the 100th anniversary of peace among English-speaking peoples took form here today with the announcement of a committee selected to organize the work of preparation. The committee is headed by Andrew Carnegie as chairman, and announcement of the present status of the movement was made today by Chairman John A. Stewart, of the executive committee of 100.

The Treaty of Ghent was signed on Dec. 24, 1814, and it is proposed to commemorate this event through an invitation issued jointly by the citizens of the United States and Great Britain to the world at large to take part during 1914 in a common celebration. The exact form which the celebration shall take has been only tentatively discussed.

A suggestion that has received consideration contemplates a programme, including a day at Ghent, celebrations in London and Washington, and the possible erection in New York of a great memorial building, which shall be the place of the holding during 1914 of international conferences and congresses for consideration of important subjects relating to the world's

peace, with suitable exhibits by the various nations. Nothing in the way of a world's fair is contemplated, however, the committee's representatives state.

It is stated that the movement has been discussed with President Taft, who has expressed a sympathetic interest. It has been suggested that a part of the celebration programme be the creation of a suitable monument, such as a memorial bridge on the Niagara border.

BRITISH TALK ON FIGHT

Last of Its Kind in United States,
Says The News.

London, July 7.—While editorially deprecating, on higher grounds, the Reno fight, the press here caters fully for its readers in descriptions of the combat. Regret is expressed on sentimental grounds that the champion failed. At the same time the black's victory was generally anticipated.

The Times says curiosity and amusement, mingled with disgust, are the predominant feelings wherewith the reports of the combat were read in England outside of a relatively small circle.

England, remarks that the failure of Jeffries, if only for semi-political reasons, will be regretted here.

The Telegraph says that, while giving the longest report of the fight, it rejoices in the disappearance of the ring, and says it stands condemned with practical unanimity by public opinion.

The Globe thinks the fight was fair and open throughout, and the superiority of the black incontestable.

The Leader opines that probably Johnson's equal has never been seen in the arena.

The News stigmatizes it as the most nakedly commercial fight in the history of pugilism, and declares that "Neither on Independence Day nor

any other day will anything approaching this spectacle and its preliminaries be again seen on the soil of the United States. By the time these lines appear the "morning after" feeling will have the country in its grip."

MCCORMICK ESTATE DUES.

Toronto, July 6.—The estate of the late Thomas McCormick, of Toronto, will now pay 5 per cent succession duties on \$20,000. Shortly after the death of Mr. McCormick his executors filed papers showing the estate to be worth \$18,000. Thus the estate escaped succession duties, being under the \$20,000. Subsequently the real estate comprising the bulk of the estate sold for \$20,000. The provincial treasury

at once took steps, and a reference to Judge Winchester resulted in the decision mentioned.

WINS GIRL WOOD ON WORLD VOYAGE

Navy Officer to Wed Pretty Sister of Margaret Anglin.

New York, July 1.—A marriage license was issued today at the city hall to Lieut. Charles Thomas Hutchins, jun., U. S. N., stationed at the Washington navy yard, and Miss Eileen Mary Warren Anglin, of 22 West Fifty-ninth street. Miss Anglin is the sister of Margaret Anglin, the actress. Lieut. Hutchins said he was 30 years old and Miss Anglin said she was 27. They took City Clerk Scully that the wedding would take place on July 11.

The engagement of Lieut. Hutchins and Miss Anglin is the result of a romance associated with the cruise of the Atlantic fleet around the world. When the fleet reached Australia in August, 1908, it was the day previous to Margaret Anglin's playing in "The Thief" at Melbourne. While the battleships were at Sydney, a rivalry arose among the officers as to who should be the first to entertain Margaret Anglin. The officers of the Louisiana, on which Lieut. Hutchins was stationed, won out. They sent an emissary over from Sydney to Melbourne. He arrived there the day previous to the arrival of the fleet, which was on a Saturday. The emissary secured Miss Anglin's promise to be the guest of the officers of the Louisiana at luncheon on the next day. Miss Anglin accepted, and although she said she might bring her sister, Miss Eileen, who was her companion on her theatrical tour of Australia. At the luncheon, Lieut. Hutchins first met his prospective bride, who, by mere chance, had been seated next to him at the table.

MONTREAL BUILDERS STAND TOGETHER

Put Up \$1,000 Forfeit That They Will Refuse to Recognize Claims of Unions.

A special to the Toronto News says: Montreal, July 7.—The master builders, as a result of the sudden strike of the bricklayers and stonemasons' unions, met yesterday, when it was decided that they should put up a firm and united stand against the demand of the men for recognition of their unions and the closed shop. Not only did the various firms agree to this, but they also agreed to each put up a deposit of \$1,000 as a guarantee that they would stand by their agreement and see the fight through. It was stated at the meeting that the contractors might as well put up a fight now as at any other time, and that unless they did so the present trouble would simply mean that a number of other similar demands would be made, which would result in their business being pretty much run by the unions. The strikes now in progress do not involve the question of wages or hours, but are based wholly upon the recognition of the unions interested.

HUDSON BAY RY. TO RUN IN 18 MONTHS

Contract Let for Bridge Across Saskatchewan at Lepas Junction.

Winnipeg, Man., July 7.—The initial step in the construction of the Government railway line to Hudson Bay was taken Tuesday night, when the contract was let for construction of the superstructure of the bridge across the Saskatchewan River at Lepas Junction, the present terminus of the Canadian Northern. This bridge will admit the passage to the far north of the supplies for the Hudson Bay line. The crossing of the river has hitherto been the stumbling block.

Actual work will be started this month, and the work will be rushed on the grade and steel will be laid by fall next year.

Royalty Represented at Funeral of the French Nobleman.

Dreux, France, July 7.—The Duke D'Alencon was buried today in Orleans in the chapel beside his wife, who was buried there in 1904. The King of Bulgaria, representatives of the royal houses of Spain, Portugal and Belgium, and members of the French Bourbon family, were present. Strong detachments of troops preserved order. The Duke D'Alencon was a second son of Louis XV, who died in 1896, and a grandson of Louis Philippe, King of the French. He was born in 1844 and his elder brother is claimant to the French throne.

SETTLERS FLOCKING WEST

Homestead Entries for Last Five Months Totalled 23,354.

Ottawa, July 7.—For the first five months of the present calendar year homestead entries reached the large figure of 23,354, as compared with 13,111 for the same months of 1909, or an increase of 78 per cent. By provinces the entries were as follows: Manitoba, 1,120; Saskatchewan, 12,716; Alberta, 9,414; British Columbia, 102. For the month of May alone the entries were 6,374, representing a total of 15,840 souls. Of the entries for May 2,143 were made by Canadian residents in the Dominion, 86 by Canadians just returned from the United States, 2,091 by Americans, 681 by English, 190 Scotch, 71 Irish, 47 French, 16 Belgians, 98 Germans, 259 Scandinavians, 309 Austrians, 289 Hungarians, and 94 by other nationalities. In May, 1909, the homestead entries were 3,243, as against 6,374 for the corresponding month this year.

USE OF SILK HATS IS NOW DYING OUT

Automobile and Exigencies of Modern Travel Are Forcing High Headgear Out of Fashion.

London, July 6.—One might imagine, now that the tourist season is in full swing, that the travelling-trunk maker would have been the last among tradesmen to complain about slackness in business, but he is complaining, and evidently with reason. It seems another case of "cherchez la femme." Time was when a woman did not go for even an all night visit to the country without a valise of trunk. But now, according to the boxmaker, she has divorced herself from these, and the result is that she no longer seeks an escort when travelling. The Saturday to Monday picnic or house party, fashion and the automobile have made as little luggage as possible a necessity. Woman, too, is not a convenient vehicle on which to convey large baggage to and from a railway station. Therefore most articles for women travelling are now made to fit into as small a space as possible.

To a long list of the things run down by the automobile must be added the once fashionable tall silk hat. A hatter, once in a good way of business, has just attributed the failure of his business to the automobile, arguing that men who used to wear nothing but the silk "topper" now use caps. There is no doubt that the silk hat is dying a natural death, though the last agonies are somewhat prolonged, said a well-known maker of hats ruefully when questioned about this assertion.

"I should say that the purchasers of silk hats are now fully sixty per cent less than they were ten or even five years ago. This year has seen a fairly good revival of the trade, but that may safely be ascribed to the fact that the automobile and other ceremonies associated with it.

BAPTIST MISSIONS

Big Increase in the Offerings for the Foreign Work.

Toronto, July 7.—A special meeting of the Baptist Foreign Mission Board of Ontario and Quebec was held yesterday in the McMaster University, presided over by Rev. Dr. Bates.

The treasurer's report showed an increase of nearly \$7,000 in the receipts, compared with the corresponding period of last year.

CANADA'S NAVAL ADVISER

London, July 7.—P. O. W. Howe, appointed naval adviser at Ottawa, has been promoted to be engineer-commander.

PRIZE WINNERS AT THE PICNICS

Excellent Sports Carried Out at Springbank and Port Stanley Yesterday.

A SHOWER AT PORT

Sunday Schools Held Ideal Outings Yesterday at the Favorite Resorts.

The exit of picnickers from the city yesterday was large. In point of numbers it was the biggest picnic day of the year.

Port Stanley and Springbank claimed immense crowds, both resorts fairly swarming with picnickers. The street railways ran ten picnic specials to Springbank, while the Traction Company and the Pere Marquette ran two each to Port Stanley.

The weather conditions were ideal for the outings. A slight shower, which developed late in the afternoon at Port Stanley, slightly marred the pleasure, but it cleared up shortly after. No rain fell at Springbank.

The following picnics were held at Port Stanley yesterday: Memorial Church, St. James' Anglican, All Saints', Centennial Methodist, Belmont and Harrietsville, Talbot Street Bible School.

At Springbank: Southern Congregational, Knoxwood Presbyterian, Askin Street Methodist, St. Luke's (Broughdale), Knox Presbyterian, St. George's, Wellington Street Methodist, Empress Avenue Methodist, Knox Presbyterian and the ex-Nissourian picnic.

The Sunday school of the Southern Congregational Church held its annual picnic at Springbank on July 5. A goodly number of the parents and friends of the scholars gathered in the morning, others arriving at intervals during the day. Sports, races and games were indulged in, the children especially having a high time. Prizes were won by a good number, and the evening meal in the pavilion was enjoyed by a large number, all doing ample justice to the good things.

The following is the list of sports of the Talbot Street Bible School annual picnic, which was held at Port Stanley on July 5:

Primary class, girls—Margaret Harwood, Jessie Burke, Ziegler, boys, 10 to 14—Willie Harwood, Bert Allister. Primary class, boys—Howard Bryant, A. Cunningham. Girls, 9 to 11—Ruby Cunningham, Bertha Adams. Boys, 9 to 11—Orval Bryant, Willie Harwood, Bert Allister. Girls, 10 to 14—Ena Arcscott, Wanda Webb. Male, 10 to 14—John Jenson, Bert Allister. Throwing baseball, girls, 14 to 16—Louise Hilbert, Ena Arcscott. Male, 10 to 14—John Jenson, Bert Allister. Young ladies, over 18—Miss Burch, Miss Zavitz. Young men, over 20—Earl Walworth, Roy Davidson. Eggs and spoon—Violet May, Ena Arcscott. Old young men—Mr. Lamb, Mr. A. Dale.

The church race—Ena Arcscott and Louise Hilbert, Violet May and Pearl Comfort.

Boys' doughnut contest—Joe Chambers, Bert Allister. The basketball game was played afterwards, which furnished considerable amusement.

W. M. S. Picnic

Instead of the regular July meeting of the Women's Missionary Society of the Wellington Street Methodist Church a picnic was held to Springbank yesterday afternoon. A special train came to the church at 3:30 taking down about a hundred of the members and their friends. Supper was served in the pavilion by the ladies. The return trip was made about 8 o'clock.

Chalmers Church Picnic

The annual outing of the members of Chalmers Presbyterian Church was held at Springbank yesterday. A large party went down at 10 o'clock in the morning, and had both dinner and supper at the park. In the afternoon a programme of sports was carried out, and greatly enjoyed. The winners were as follows:

Mothers' race—1 Mrs. Moffat, 2 Mrs. Pirie, 3 Mrs. Stein, 4 Mrs. Taggart. Ladies' race—1 Mrs. Mapletto, 2 Mrs. Michael, 3 Mrs. Hicks, 4 Mrs. Pirie. Infant class race—1 Lorne Stewart, 2 Gertrude Pirie. Boys' race—1 David Moffat, 2 Clarence Moffat. Girls' race, 11 to 15—Annie Campbell, 2 Hazel Williams, 3 Fernie Chivers. Boys' race, 7 to 11—Clarence Chivers. Girls' race, 11 to 15—1 Mrs. Williams, 2 Agnes Hicks, 3 Kate Williams. Girls' race, 15 to 18—1 Janet Mapletto, 2 Vera Williams, 3 Margaret Allen, 4 Bertha Fraser. Boys' race, 11 to 14—1 Neil Stewart, 2 Gordon Thompson, 3 Russell Legg, 4 James Deel. Mothers' race—1 Mrs. Eddie, 2 Mrs. Bryce, 3 Mrs. Mapletto, 4 Mrs. Michael. All Saints' Picnic.

All Saints' Anglican Church held a joint Sunday School outing at Port Stanley yesterday afternoon, over 350 going down by the traction. The amusements included boating and bathing. No programme of sports was held, but the picnic was one of the most enjoyable ever held under the auspices of All Saints' Church.

The Knollwood Park Presbyterian Sunday School picnic was one of the largest at the Springbank Park yesterday. Nearly two hundred were present and everybody had a good time. A special car from the corner of Oxford and Adelaide street conveyed the first contingent to the park at 1:30 p.m., and the others followed shortly afterwards. The picnic was a quiet, respectable affair, with no rowdy or unruly assistants, were unceasing in their efforts in seeing that all enjoyed themselves. An unlimited supply of ice cream comes for everybody, prize popcorn packages for the little ones, and a handsome array of prizes for the contestants in

the sports made the day a happy one for all.

A long programme of races was presented, and this was interspersed with numerous special features, namely a boat race, potato race, tug-of-war, boy walking contest, and an ice cream contest.

The latter caused a great deal of excitement, the winners being Miss Helen Bell and Master Donald Inlay. The picnic returned home at 7:30 p.m.

The sports committee was as follows: Messrs. C. Jones, M. Dockstader, John Inlay, Peter Inlay, G. J. West, J. Miller, W. Leitch, Arthur Jones and George Marshall.

Refreshment committee: Mesdames Nichol, Dockstader, Fox, Murray, Scotney, Jones, Misses A. Simpson, Hazel Smith and Bell.

AUTOMOBILE TRAGEDY DUE TO SUNSTROKE

McCrae Thought to Have Been Affected by Sun and Lost Control of Wheel.

Hamilton, July 7.—There has been much speculation as to the cause of last Thursday's fatal automobile accident on the mountain and various explanations have been offered, but until today nothing has been said that is more than a guess. It is believed that Keith McCrae, the chauffeur, was affected by the heat before he came to the fatal spot and that Miss Perkins, realizing that he had not complete control of the car, became terrorized and threw her arms about him, and that in doing so, she caused the steering wheel to turn and the car to take its fatal plunge.

Mr. McCrae is still in the City Hospital as a result of his injuries, and his mind is absolutely blank concerning the terrible affair, though he is rational in all other respects. Those who have been with him or attending him during the past several days have done everything possible to get from him an explanation of the accident, and it is the one thing he cannot tell anything about. It was supposed during the first few days, that the concussion of the brain he sustained accounted for the fact that he could not recall anything about the affair.

It is believed that as soon as his head became clear he would be able to fully explain it. It is now believed that he will never be able to tell anything about it, and the only explanation lies in what has been stated here.

Affected by Heat. Mr. McCrae took the car to Albion Mills that afternoon and from there turned westward along the mountain top. He remembers leaving the mills but has no recollection whatever of coming to the Strongman road or of turning down that road, or indeed, of anything beyond the fact that he went some little distance west after leaving Albion Mills. This has led to the belief that he was affected by the intense heat of the afternoon and that he drove the car mechanically along the Strongman road down which he turned. The car was travelling rapidly down the road, and it is believed that Miss Perkins' true eye saw that he was not himself, and that in a nervous terror she threw her arms about him and caused the steering wheel to turn sufficiently to make the car run off the middle of the road and into the fence.

Mr. McCrae himself knows nothing about this, but the fact that his mind is a blank about the whole affair is taken as an indication that he was affected by the heat before he started to go down the mountain, and from another source it has been learned that that one of the ladies in the car threw her arms about him near the fatal spot. It has been concluded that this was Miss Perkins, because she was of a nervous temperament and because she would realize that the chauffeur was affected by the heat if such were the case, as it seems clear it was. The chauffeur has spoken frankly about the trip that afternoon and has told all he can about it, but his mind ends before the last stage of the journey began. He has been kept in ignorance of the result of the accident, and until today did not know that Miss Perkins was killed and that Miss Hobson is lying at death's door. He has repeatedly asked how both were, and expressed the hope that they were not much hurt. The news was given to him because of his condition until today. The dread information was a terrible shock to him.

MYSTERY OF THE BRONX

Woman Supposed Accidentally Killed May Have Been Murdered.

New York, July 7.—Mysterious circumstances of what the authorities believe to be the murder of a young woman in Bronx borough are being investigated by Coroner Schwannecke today.

When the body of Mrs. Sophie Williams, a comely woman, 33 years old, was found in the courtyard in the rear of her home, the police decided that she had been the victim of an accidental fall from the window of her apartment, and early today it was so reported to the coroner.

Coroner Schwannecke, however, after taking a full inspection of the apartment from which the woman took her fatal plunge, was convinced that there had been a struggle there, and that all indications pointed to a murder.

The story told by George Williams, the dead woman's 13-year-old son, confirmed the coroner in his conviction, and he ordered the arrest of William and George Blackmore, brothers, and Joseph Carroll, all occupants of the house where Mrs. Williams lived. They denied any knowledge of the way in which Mrs. Williams had met her death, except that George Blackmore said he knew it was the woman's habit at night to sleep either outside or in a chair by the window. It is believed she had fallen from the window while asleep.

Young Williams told the coroner that some men had been in the family rooms last night, and that his mother had ordered them out. A quarrel followed, he said. Then, as everything became quiet, he went back to sleep. The boy explained that his father and mother were not living together.

Mrs. Williams was looked upon by her neighbors as a quiet, respectable woman and a good mother.

GARMENT WORKERS' STRIKE. New York, July 7.—Several thousand young women employees of women's garment-making establishments all over the city are preparing to strike today in obedience to orders issued by the International women's garment workers' organization, which has presented demands upon the employers for increased wages and better working conditions. The strike order was expected to go into effect this afternoon, it being announced that the employers, or a large percentage

of them, were determined not to agree to the conditions imposed by the representatives of the dissatisfied employees. Several establishments, however, are said to be inclined to make peace with their workers, and sign the proposed agreements. This may reduce the number which has been predicted has gone on strike, the estimate running from 25,000 to as high as 75,000. Recognition of the union seemed to be the stumbling block in the negotiations, which were still in progress in advance of the strike order's effectiveness.

URNS BACK HIS OWN

U. S. Agent Wouldn't Let Chicago Children Cross Border.

Guelph, July 7.—Mr. John Brohman, of Chicago, was in the city today on a very peculiar errand. Two months ago his sister and brother, aged fourteen and nine years, respectively, left their home in Chicago to visit friends in Guelph. As they expected to stay some time they did not get return tickets. A few weeks ago they started on the return trip, but got only as far as Port Huron. There an American immigration official told them they could not enter the United States. The children were kept in a hotel at Port Huron and were sent back to Guelph. In the meantime the mother became alarmed at their non-arrival, and sent her son over to investigate. He arrived here today and secured a letter from Mayor Hastings, stating the facts of the case. Armed with this he expected to be able to get the two belated young travellers over the border.

OLD AND NEW WORLD BOTH AFTER GOLD

No Prospect for Present for a Reduction in Rate.

London, July 7.—American and continental inquiries for gold have effectively barred all prospect of an immediate reduction in the bank rate. The directors of the Bank of England this morning decided to maintain the 3 per cent rate, although dealing on the basis at the present rate of exchange represents a loss. The engagement of \$2,000,000 of Cape gold in Germany reported this morning is generally accepted as correct, and the placing of bonds here should enable New York to take considerable gold. There will soon be in the neighborhood of \$3,750,000 available in the open market, and at least a portion is expected to be purchased for New York.

TORONTO BAKERS SUMMONED TO COURT

Charged by M. H. O. With Selling Short-Weight Bread.

Toronto, July 6.—Thirty bakers have been summoned by the municipal court to answer to charges of selling short-weight bread, in an effort to dodge the new requirements of the Biddle bread act, passed at the last session of the Legislature.

Toronto, July 6.—Dr. Sheard, M. H. O., is on the trail of the Toronto bakers.

He alleges that they are not complying with the provisions of the Biddle bill, which became law on July 1. Civic inspectors yesterday seized bread in 30 bakeries, and summonses were issued today calling fifteen bakers to police court.

Some 30 more may soon be summoned.

"We may as well settle once and for all, what is meant by sub-section 2, of the Biddle bill," said Dr. Sheard. "We will ask the court to interpret it."

Dr. Sheard says that the bakers are making loaves neither the regulation 24 or 48 ounce weight. One loaf seized weighed 40½ ounces, the bakers argue that it is really not a loaf, but four small loaves, as it can easily be broken in 4 parts, each not exceeding 12 ounces.

Another loaf seized weighs 39½ ounces.

According to that method the bakers can go on making any size they want," said Dr. Sheard. This he doesn't propose to allow.

The names of the firms summoned, who, of course, must be registered in the municipal directory, show whether they are or not, are as follows: Pugh & Watson, 380 Lippincott street; W. J. McGie, 741 Palmerston; W. H. Carruthers, 133 Devonport street; James Demarest, 100 Dundas street; Cowan Baking Company, Euclid avenue; A. V. Carrick, 112 Bay street; Nasmith Company, 68 Jarvis street; Louis Brown, 805 Queen street east; Hilton, 611 Gerrard street east; Bro. Bros., 104 Augusta; Harry C. Baker, 229 Spadina; George Weston, 35 Shoo.

DOESN'T LIKE THE PAPERS

Ira Remsen Makes Violent Attack on Some Journals.

London, June 7.—President Ira Remsen, of Johns Hopkins University, Baltimore, addressing a conference of the Society of Chemical Industry, at Glasgow, made a violent attack on American Sunday newspapers.

"This is perhaps largely the result of a depraved state of mind of the people who seem to delight in the masses of trash served up in the newspapers, especially the Sunday newspapers. I am filled with shame when I think of it, but this depraved state of mind is so closely connected with the forest problem that honesty compels me to mention that many newspapers, even Sunday ones, exert a wholesome influence. Others, however, tend only to lower the mental and moral conditions of their readers, and these papers have the largest size and the largest circulation, and therefore affect the forest problem most."

RAIN TOO LATE TO SAVE BERRIES

Last of the Crop Was Offered
On the Local Market This
Morning.

NEW HAY IS COMING IN

Sold at From \$2 to \$14 a Ton - Old
Hay, at \$12 to \$14 a Ton - Oats
Snapped Up by Dealers.

The threatening weather had the effect of causing a small attendance at this morning's market.

Practically all of the strawberry crop was offered, according to growers' reports.

The rain came too late to save the situation. Last night's rain was insufficient to have saved the crop even a week ago. In some districts no rain fell at all, and in others it was very little.

Only a few crates were offered, and the price was higher than the figures which have been prevailing this week.

The best berries sold at 15 cents a box or two for a quarter. Fruit of inferior quality retailed at 10 cents a box or three for a quarter.

New Hay Coming In.

A considerable quantity of new hay is coming in. A dozen loads were brought in this morning, old hay going at \$12 to \$14 a ton and new hay at \$10 to \$12.

Three loads of oats were snapped up by the grain dealers at \$12 to \$14 a ton.

Three loads of wheat have been delivered this week so far at \$1 a bushel. None was offered for sale this morning.

Very little butter or eggs were sold this morning, the reason being that practically none is being brought in. A higher figure is being asked for butter.

Dairy found prints were quoted as high as 25 cents in dairy hall this morning. Rolls are scarce, and the whole milk is being paid 19 to 20 cents a pound. Cocks are quoted at 18 cents.

Eggs at 18 cents a dozen.

Eggs are still hovering around the 18 cents mark, wholesale, with little prospect of a change. The retail price is 21 cents a dozen.

A fairly large quantity of cherries is being sold on the local market. Quotations range from the way from 85 cents to \$1.50 a basket.

Potatoes were firm at 75 cents a bag retail and 10 cents a bushel.

Very little change was apparent in garden produce. Green peas are quoted at 12 to 15 cents a bushel. Spring beans at 20 to 40 cents a bushel.

Following are the quotations:

Oats, per cwt. \$1.10 to \$1.15
Barley, per cwt. \$1.10 to \$1.15

Wheat, per cwt. \$1.10 to \$1.15
Hay, new, per ton \$10.00 to \$12.00

Straw, per ton \$6.00 to \$7.00

Butter, dairy, lb. retail \$1.10 to \$1.15
Butter, rolls, lb. \$1.10 to \$1.15

Butter, cream, lb. \$1.10 to \$1.15
Eggs, fresh, dozen \$1.10 to \$1.15

Eggs, hatched, dozen \$1.10 to \$1.15
Honey, strained, lb. \$1.10 to \$1.15

Honey, in comb, lb. \$1.10 to \$1.15

Butter, dressed, lb. \$1.10 to \$1.15
Old fowl, per lb. \$1.10 to \$1.15

Young chickens, per lb. \$1.10 to \$1.15
Turkeys, per lb. \$1.10 to \$1.15

Spring chickens, per lb. \$1.10 to \$1.15

A Weather Prophet.
Mr. Joseph Graham, of 560 Bathurst street, has an old grandfather's clock, more than a century old, that is an excellent barometer. Whenever there is rain approaching the clock stops and refuses to work. "I have never known it to fail," said Mr. Graham. "Yesterday afternoon it stopped, and I stated that we would have rain. Sure enough it did come within a few hours."

CORRESPONDENCE

The Prize Fight.
To the Editor of The Advertiser: I was interested yesterday to read your very graceful and shrewd editorial on the prize fight. No doubt, as you say, the "victory" of a certain Johnson which has accentuated for a moment the racial bitterness over the line, was made possible by the enthusiasm of a large part of the American population for a somewhat brutal and brutalizing "sport."

However, sir, with your permission I would make some observations of a more general nature on the subject of prize fighting. No man who thinks for himself and thinks at all liberally will object to boxing. It is the noblest and cleanest of all athletic sports, except, possibly, rowing. On the light-to-a-finish there is much difference of opinion and more difference of sentiment. Probably almost everybody will admit as a matter of opinion that it is a brutal and, perhaps, brutalizing form of athletics. But a very large percentage of our most virile, most happy and cheerful, most industrious and useful population, can't help, so far as sentiment goes, taking a lively interest in a great fight, and secretly or openly admiring the stamina, courage and good-natured patience under severest trial of the combatants. A rather small minority, after all, of sentimentalists and puritans make any open remonstrance; ministers who have to tell us six days somehow, a few teachers and college presidents on their holidays, some philanthropists and temperance orators looking round for something to talk on, the deaconess rather than the more immediately useful members of society, the prophets rather than the workers in the strictest sense.

And much, indeed, may be said in defence or even praise of a species of sport which ranked next to the chariot race at the ancient Olympian games. Suppose it is brutal. It is hard, however, to estimate how far it really is brutalizing. There are many brutalities in life. War is the worst, hanging and electrocution run it pretty close. Perhaps prize fighting is the safety valve of the Anglo-Saxon engine. We are not wont to regard ourselves as more brutal than the Russians or the Mexicans. But a certain amount of brutality is essential. We are proud to be more brutal in a way than the Hindus and Chinamen, less

polite than the French and Japanese. Virgil was a very gentle poet. But one of the best prize fight fictions ever written was his account of the battle of Dares and Entellus, which the schoolboys have to read. And yet for thrilling human interest neither than nor Conan Doyle's well-known story can compare with the newspaper accounts of such a contest as that of the other day. There is too conventional a manner after all in both Virgil's and Doyle's narrations. They are almost as conventional as the views of our view-mongers: their grandmothers have told them (apologies to Ruskin). "There is nothing human in which I do not feel an interest," said the ancient poet. And an old philosopher held that whatever the mass of humanity loves or follows must be good in it. A Hamilton paper printed almost two full pages yesterday on the fight, with pictures of the Hamilton crowd, which it had accommodated with seats in front of the bulletin board. It is evident that the Anglo-Saxon people at large are more interested in a dramatic event than the prelings of lily-handed closet-philosophers.

It's all very fine for these scented sentimentalists to talk of ruffians and brutes, meaning people who don't wear their clothes right, or don't speak with their teeth in front of the bulletin board. In the past the writers and talkers have been the conspicuous leaders in history. It is wonderful how men have in all stages of advancement allowed the man gifted with ready speech, the prophet, to rule and regulate their government and religion. The medicine man, the mad mullah, the lawyers and priests have told them (apologies to Ruskin). "There is nothing human in which I do not feel an interest," said the ancient poet. may in the great moments of his life it is apt to be poetry. If Wordsworth may be believed. The whole affair, magnificently serio-comic, is taken too seriously by the professional moralists. Oh, for a laughing philosopher. Away with intolerant bigots. Most of us like things that appeal to us partially in a serious or heroic way, partially as a rich burlesque, e.g., the ritual of a secret society. The "great fight" was largely a piece of comedy, except to Jeffries and those who bet on him. The fight between the two pure burlesque and laughter for the general public. OLYMPIAN, London, July 6.

GOLD AND SILVER AND GOOD WISHES

Rev. and Mrs. A. J. Vining Had All of These Showered On Them Last Night

AT TALBOT ST. CHURCH

Addresses Made to the Couple, Who Will Leave Shortly for Europe—London Sorry to Lose Them.

A very large representation of the church and congregation of Talbot Street Baptist Church met last evening for the purpose of holding a farewell meeting for their retiring pastor, Rev. A. J. Vining, who leaves next week for his work in Europe.

Mr. J. B. Campbell, the church clerk, occupied the chair. Short addresses expressive of the heartfelt gratitude and appreciation of the church for the great work which Mr. Vining has done during his pastorate of three years in London, were given by the following members: Messrs. J. Holman, A. J. Clark, W. Finch, C. Miller, Benjamin Whitehead and J. M. Thompson, after which the following address was read by Mr. A. Dale: "Dear Pastor,—It was with mingled feelings of sorrow and joy that we learned about three months ago of your intention of leaving us to engage in another Christian undertaking."

"The three years of honest and faithful labors by yourself and Mrs. Vining have won for you both a strong affection in the hearts of the church and congregation. During these years of service for the Master you have expended unparagonably large sums of money and have been attended with marvelous tokens of God's blessings. Eternity alone will reward the results of your labor among us."

"The thought that cheers us is that you are only removed to another part of the Master's vineyard, where the fields are already whitening for the harvest; and it was with a strong pleasure and satisfaction to receive reports of your labors in the new and important field which has been chosen, and for which you are most admirably qualified."

"And now, in severing your connection with us, we ask you to accept this purse as a token of our sincere love; and our prayer is that the blessing of the Great Head of the Church may rest upon you and yours."

On behalf of the Talbot Street Baptist Church, "NATHANIEL MILLS, ANDREW DALE, JOHN B. CAMPBELL, A. J. CLARK, A. J. P. Present."

A purse of gold was then presented to Mr. Vining by Mr. G. Griffith. Mr. Vining, in replying, thanked the church for their expression of affection, and then spoke of the loyalty which the board of deacons and other members of the church had ever shown him during his ministry among them. Mr. Vining also spoke of the same love and loyalty in Christian service which had been shown to himself. Though filled with sorrow at the thought of parting with his people, Mr. Vining said he had been called of God to this larger field of labor and to this larger field of service.

On behalf of the ladies of the church Mrs. J. B. Campbell then read an address of appreciation of Mrs. Vining's services and work while among them, as follows:

Address to Mrs. Vining. "Dear Mrs. Vining,—The ladies of the Mission Circle and the Ladies' Aid Society of the Talbot Street Baptist Church feel that we cannot allow this opportunity to pass by without expressing to you our deep appreciation of your kind and loving service to us during the past three years as the beloved president of our Mission Circle. We have labored together and have felt that your courage and devotion have given us an inspiring example in our church life at all times, and the active interest you have always taken in the regular monthly meetings of our societies seem to say to us that faithfulness in service is one of the noblest qualities, and has called forth our admiration."

"We now ask you to accept this gift with the assurance that we pray that God's richest blessing may rest upon you and your loved ones, and that your labors in the new field of service which you are about to accomplish here, may meet in the home beyond, where partings never come."

Signed on behalf of the Mission Circle and Ladies' Aid Society, "MARY E. HAZELGROVE, A Beautiful Gift."

Accompanying this address was a gift of a set of sterling silver which were presented to Mrs. Vining by Mrs. Hazelgrove.

Mrs. Vining replied in a few heartfelt words, thanking the ladies for their kindness, and expressing the pleasure she had felt in working in their midst.

HAMILTON HAS STOVE FOUNDRY MERGER

[Special to The Advertiser.]

Hamilton, July 7.—A big merger of all the stove foundries here is now under way, with a combined capital of a million dollars. One of the great objects of the combine is to break the union. Founders have been continuous trouble with the molders and the opinion is that a combine could bring the union to time. For several months past negotiations have been in progress to amalgamate Burrow, Stewart & Milne, Limited, Bowes, Jamieson & Co., the Gurney Stove Company, and the D. Moore Company, Limited. It was at first thought that the foundries could be grouped up with the steel companies, which have now merged, but this was found to be impracticable. Attempts were then made to merge the interests mentioned above, and other stove foundries in the province, into a separate corporation, and negotiations with this end in view are still in progress.

COMMITTEES FOR IRISHMEN'S PICNIC

Enthusiastic Meeting Held Last Night in Board of Trade Rooms.

PLACE NOT DECIDED ON

Offer Received From Brantford, Which Is Still Being Considered—Names of Those on Committees.

At a meeting of the Irish Benevolent Society held last evening in the board of trade rooms it was reported that the committee in charge had not concluded their investigations as to the place where the picnic will be held, but will report at a meeting to be held later.

Brantford people made the society a generous offer to hold the picnic there and it will be considered by the society.

One most important business of the society was the selection of committees for the picnic. The usual number were chosen, and the active work of organization for the big time on Aug. 11 will be undertaken at once. A number of new names were added to each committee, and the chairmen were given power to add from time to time.

The committees were as follows:

Refreshment Committee.—Jos. F. Hickey, chairman; H. E. Buttrey, Frank Glass, J. J. Coe, Thomas F. Gould, Wm. Cooney, John Garvey, Ed. Shea, John Scandrett, Joseph Nolan, W. Fulton, Chas. Abbott, J. D. Costello, John M. Dillon, A. B. Greer, Geo. A. Henry, Frank Jackson, C. W. McGuire.

The committees will organize shortly, and they will get to work at once.

A Big Picnic.

All indications point to the most successful picnic the I. B. S. have ever had. Incidents of being made from outside places for the event, and it is recognized as one of the greatest of the picnic season.

The prize lists will be augmented, and there should be many contestants in each event.

Some special features are being considered, and they should be most attractive to picnickers.

Those Present.

President.—Stately presided the chair. Among those present were Messrs. C. W. McGuire, Fire Chief Attkin, H. McGrenere, R. Forristal, W. M. Hood, W. H. Brophy, Ed. J. Ryan, H. Rananah, J. P. Forristal, B. C. McCann, Clem Garvey, W. Cooney, J. F. Hickey, S. Baker, W. Fulton, James McCormick, John M. Daly, H. Merritt, A. B. Greer, Geo. H. O'Neill, Owen Downey, M. Morrissey, George A. Henry, J. J. Callaghan, R. McGormick, Stephen Grant, Ben Noble, J. H. Fowler, E. J. Carly (secretary), and others.

Woodman wires that he will telegraph a deposit to bind Langford's end as soon as he learns Johnson's money is up.

A HEAVY QUAKE

Georgetown University Reports One 1,500 Miles Distant.

Washington, July 7.—A severe earthquake shock, continuing from 12:01 to 12:03 this morning, was recorded by the Georgetown University Observatory. The preliminary tremors began at 11:58 o'clock, and were followed three minutes later by the heaviest shock. The tremors died away 12:14. The observers at the university say the earthquake probably was not more than 1,500 miles distant. The chief motion was east and west, and was the heaviest recorded since Jan. 1.
