BLANKETS!

A bigger and better variety of Blankets than ever. Our Blanket trade during the past three seasons has grown very rapidly so that this season we felt justified in putting in a stock so comprehensive that we can suit any purchaser whether a low, medium, or high grade quality. Our Blankets were all bought before the sharp advance in prices so that we can now supply you with blankets at least 10 per cent to 15 per cent below market value.

Blankets

"Aue Saxony" is beyond question the finest blanket in Canada and quite equal to the fine imported Scotch Blankets made of pure wool, excellently carded, thoroughly cleaned, with that fine lofty finish. Sizes and prices for this high grade blanket are:—

5 lbs. 56x74, a Pr. \$4.25
6 " 60x78, " 5.00
7 " 64x82, " 5.75
8 " 68x86, " 6.50

and a Special Blanket we had made for our own trade who want a large Blanket not too heavy,
6 lbs, 68x82, a Pr. \$5.00

Millinery

Millinery Opening Display is over and our large staff of experienced trimmers are now busily engaged turning out orders. We can promise you prompt delivery of your orders and perfect satisfaction.

The most correct styles are here at the most moderate prices. We invite you to come in and see our Millinery. You will receive every attention.

Blankets

"King Edward" is the finest union blanket made in Canada. It just meets the requirements of those who want a high grade blanket but prefer a little cotton woven in.

5 lbs, 56x74, a Pr. \$3.25
6 " 60x78 " 3.85
7 " 64x82 " 4.50

"Dawson Blanket", a good heavy serviceable wool blanket, made in one size only—7lbs, 68x86 per pair \$5.00.

Crib Blankets, made of fine soft wool, beautifully finished with pink and blue borders—size 33x44 per pair \$1.50.

Jackets

Our assortment of Ladies Jackets is complete. For style, for price, for value and general appearance, our coats this year surpass our showing of previous seasons. Whether you want a coat for children or ladies we can suit you. The correct "Empire" styles, "Paddock" and "Redding" styles are here and at very reasonable prices.

GOOD LADIES OF ST. ANDREWS

Served Sumptuous Supper
and Presented Splendid Anniversary
Entertainment

Addresses by Eloquent Ministers—
Admirable Musical Program
Contributed

It only required the testimony of the large and delighted throng which assembled last evening on the occasion of the anniversary tea and entertainment of St. Andrew's church to bear witness to the great popularity and high appreciation always extended towards the good things provided by the ladies of the church.

From six o'clock till eight the tables, groaning with good things, were filled and refilled by delighted guests. The ladies themselves waited on their wants and nothing was left undone to add to the enjoyment of the occasion.

An adjournment to the church was the signal for the inauguration of an equally delightful portion of the evening's entertainment. Mr. Simon most acceptably presided over the presentation of an excellent program, which included excellent addresses by Rev. Mr. Rutledge, Rev. Mr. Knox and the esteemed pastor, Rev. Dr. Battisby.

The music was exquisite, solo numbers being contributed by Misses Ross, Somerville, Brock and Hollinrake and Messrs. Trotter and Knox and a trio by Misses Somerville, Brackin and Ross.

STREET FAIR

Henry Primeau Says Windsor is Having an Exhibition on the Street That is a Hummer—No Texas Maidens

Henry Primeau, of the Urban, has returned from a business trip to Detroit. In speaking to a Planet reporter this morning he said: "I never saw things so quiet in Detroit. There was absolutely nothing doing yesterday. When I got business attended to I thought I would take a look around, but the place seemed closed up and I thought there must have been some kind of a holiday."

"Windsor is having a street fair now and it is a hummer. As I was walking down the street I saw a tent pitched in the centre of the highway and a few boys looking on, and I asked a man what it meant. He told me it was the street fair. Their fair is just like nothing when you can't see it, and it can't compare with the one we had in Chatham. They haven't even got one single Texas Maid. I suppose it is being run on the same plan as the one in Chatham, but it can't be as big a success as ours, because it isn't raining in Windsor. After all, you have to come to Chatham to get the real thing in any line. If Windsor wanted to have an exhibition on the street they should have trotted out some of their so-called pretty girls. This kind of exhibition couldn't have been much worse than their present excuse for a street fair."

Henry went down to Detroit on a "skin" game—he was buying furs.

John Mason, a former esteemed reeve of Howard, passed away on Sunday after a short illness. The funeral is taking place this afternoon from Clachan.

Mrs. Geo. T. McKeough has returned home after a trip to Montreal. Her daughter, Miss Bessie, is now attending the Trafalgar College in that city.

DOWN BY THE SEA

Magnificent Romantic Comedy Drama at the Grand To-Morrow Night

"Down by the Sea," which has met with immense success in all of the large cities of the East. The play occupies the same position among American comedy-dramas as "Wey Down East" and "Shore Acres." No play of its kind before the public to-day has been more deserving in success. Its chief charm is in the purity of its story and the natural manner in which it is told. As a dramatic work it is unique in which the strongest effects are produced by the quietest methods. Interpreted by the powerful company and aided by the magnificent scenic effects, the attraction is one of the most satisfactory on tour.

THROUGH CHEERS ISLE OF SPICE

Magnificent Scenic and
Musical Production De-
lights Big House at
Grand

Audience was Distinctly Enthusiastic—
Sister Show Coming on Tuesday Next

If Manager Briscoe's ears did not glow—and if his chest has not swelled forth an extra inch or two—it must have been because he was nowhere within hearing distance of the delighted throng which thronged the Grand last evening at the conclusion of the magnificent production of "The Isle of Spice." Everyone was satisfied; everyone was enthusiastic and compliments flew fast from mouth to mouth, the majority of them falling at the feet of the enterprising local manager who has been doing so much to make the present season a record-breaker for the best attractions.

In securing both of B. C. Whitney's splendid sister productions, "The Isle of Spice" and "The Isle of Bong Bong," Manager Briscoe has made himself deservedly popular with lovers of the artistic in the Theatrical arena. "The Isle of Spice" proved itself everything that eulogistic advance notices proclaimed it—undoubtedly one of the most magnificent productions ever staged at the Chatham house, and the greeting, which awaits the "Isle of Bong Bong," which follows on Tuesday next will undoubtedly be one of the largest in the history of the house.

Excellent music, scenic effects that will live for weeks in the memory of those who witnessed them, charming costumes and a genuine corps of artists—all combined to bring the audience admiringly to the shrine of this magnificent production. Spontaneous, enthusiastic recalls—extending sometimes to the fifth and sixth time—testified to the appreciation of the thronged house and spoke more eloquent than columns of descriptive comment. Such is useless in the case of "The Isle of Spice." Those who were there know best for themselves; those who were not—let a word to the wish be sufficient, don't miss the "Isle of Bong Bong."

SCHOOL FAIR

Preparations are rapidly being completed for the big school fair this fall at the Central school, the opening of which promises to be a most distinguished affair. The children have been working diligently on the exhibits and a magnificent array is being prepared. The fair will likely open on Thanksgiving eve, Oct. 25, and will continue for Thursday, Friday and Saturday.

MAYOR COWAN COMES BACK

City Solicitor Was Acting
for Him in Request for
School Board Books

Further Developments Promised—
May be General Investigation—
Mr. Wilson's Views

"The investigation regarding the School Board has just begun," was the comment of his worship Mayor Cowan to The Planet to-day. "So far the charges have been confined to those specified against Robertson and Paxton, which will be diligently followed up, but further and larger developments of a somewhat interesting character to the public will follow. If it is found necessary to hold a general investigation it will be proceeded with. I am moving with the advice of the city solicitor."

In reference to the letter of Chairman Morley denying that he refused the books, I may say that, after consulting with the city solicitor, Mr. Wilson, I instructed him as Mayor to make application for them, which he did over the phone. The result was as I stated in my interview in The Planet of Sept. 22, which was as follows:

"Mayor Cowan says that he does not intend to let the Public School Board matter drop. He applied to Chairman Morley to-day to see the books of the Board but was unable to see them."

"The Chairman said he was 'too busy.' The Mayor claims as a ratepayer and a representative of the public that he has the same right to inspect the Board's books as any member of the Board has to inspect the City Clerk's books to see how the people's money is being expended."

"Now," added the Mayor, "I should be glad if you would call on Mr. Wilson and get his statement in the matter."

Matthew Wilson, K. C., was interviewed at the Mayor's request and handed out the following statement: "The city solicitor desired not to be mixed up in the newspaper controversy but stated that the written statement of Mr. Cowan shows he is strictly correct, and that Mr. Morley must have forgotten that he was asked (when he refused because too busy to let Mr. Cowan see the books on Friday) to put them in the solicitor's hands and let the Mayor see them on Friday there. This he also refused to do."

COAL AND WOOD

Norman Wemp an enterprising Citizen Establishes New Business in Chatham Under Auspicious Circumstances

Another of Chatham's enterprising citizens has branched out in commercial life in the person of Norman Wemp, who has started up a coal and wood business in North Chatham, and is now prepared to furnish patrons with anything desired in this line.

Mr. Wemp is an old Dover boy, and, being an ex-farmer, he is well up in the wood business, and should prove an unqualified success in his new venture. He now has about 2,000 cords of wood contracted for and has about 700 cords in stock, with 500 more coming in this week. This is mostly all hard wood of the very best quality. He also is prepared to deliver chunks and slabs to all who wish them. Measuring racks, all measured and numbered, have been purchased, so that no mistakes can be made and all patrons will get exactly what they order.

Mr. Wemp will handle wood, both retail and wholesale, and will start a wagon out on the road immediately. He will increase his facilities as conditions demand it. His wood yard is situated on the corner of Victoria Ave. and Barthe St., near the Idlewild hotel, and he will be pleased to receive a call from anyone desiring good wood. Orders telephoned to No. 468 will be promptly filled.

Mr. Wemp has been a resident of Chatham for two years and there is no one more deserving of unlimited patronage.

EPWORTH LEAGUE

The Park St. Methodist Epworth League held a very well attended meeting last evening and a most profitable evening was spent. President W. J. Young occupied the chair.

Mr. Winterstein was the speaker of the evening and he gave a very interesting talk on "How can we make our League effective." The talk was a profitable and earnest one, and was much appreciated and enjoyed.

Mr. Shackleton, of Scranton, Pa., was present and rendered an excellent solo in good voice. Mr. Shackleton is a visitor in the city and the members of the League while being delighted with his singing, were pleased to receive a call from him.

Wm. J. Robson, of Toronto, advance agent for the Pittsburgh orchestra, is in the city to-day. The orchestra will come to Chatham this season.

THE LATE DR. BARNARDO.

The death of Dr. Barnardo removes a man whose name has long been familiar to Canadians. His life was an example of what may be accomplished by even a single individual who devotes his energies and his talents to one great cause. If the man who makes two blades of grass to grow where but one grew before is to be deemed a patriot in the highest and truest sense of the term, what is to be said of the man who makes honest, industrious, self-supporting men and women of material doomed by nature and circumstances to utter failure, and worse?

It is estimated that since Dr. Barnardo began his work of rescue over 55,000 orphan waifs have been placed in the way of making a living. The Barnardo Homes, with their 121 branches, had, on 30th June, 1905, 8,493 boys and girls under their care, and to this large family about thirteen others are added every twenty-four hours. The number of children wholly maintained by the homes in 1904 was 10,905. During the same year 3,827 fresh cases (boys and girls) were admitted—a number very largely in excess of all the admissions put together by similar institutions throughout England. Of the 3,827 candidates who, being absolutely destitute and homeless, were at once admitted on application during 1904, 367 were babies in arms, 124 were deaf and dumb, or blind, or deformed, or little incurables, 215 were homeless youths over sixteen years of age, who were assisted to find their footing again through the labor house, while 73 were very young women "saved so as by fire" from the black army of the streets. The institutions, from one or other of their 121 branches, supplied 31,032 night lodgings to forlorn street wanderers, to whom also 167,445 free meals were given, 1,266 boys and girls were emigrated to Canada, and the colonies during 1904, and 669 have since been sent out in 1905, making a total of 16,829 emigrated in all. At the close of the year 1904, 3,967 children from the homes were boarded out in rural districts throughout England.

These figures help to give some idea of the character of the work undertaken by the late Dr. Barnardo, and of the results. In Canada we have been apt to regard the work from our own point of view, and as a certain proportion of the Home offerings was found to be unsatisfactory, the verdict has not always been either unprejudiced or favorable. But England certainly owes the man a heavy debt of gratitude.

If people were accustomed to do honor to those who save and uplift rather than to those who slay, Dr. Barnardo would be regarded as one of the world's great heroes. As it is, his memory deserves well of his fellow men. The value of the good he has accomplished no one can estimate; of the influence he has set at work no man may define the limit. —Woodstock Express.

ABOUT TEACHERS.

At the head of its "Teachers Wanted" column, the Toronto Globe publishes the following hint to advertisers: "In the interests of Education, the Globe suggests that Boards of Education, in their advertisements, do not ask teachers to state salary." The reason, the Stratford Herald says, that advertisements for teachers are made objectionable by a request to state salary lies in the tendency of some boards to accept "the lowest tender" in the teacher line, with the result that inexperienced or inferior teachers get the position, and those who intend to make teaching their lifework are forced to compete with those who are merely "putting in time" at teaching. The fault, The Herald says, lies with both boards and teachers; with the boards for encouraging the competitive system; with the teachers for submitting to be hired under it. Wherever the fault lies some of the consequences are becoming very apparent. Men are gradually disappearing from the teaching profession. In a few years more, if the present tendency continues unchecked, the sight of a male teacher filling more than a temporary position on a public school staff will be a rarity. Male teachers there probably will continue to be, but they will be such as use the teaching profession as a stepping stone to something else. Can we afford to contemplate such a possibility with satisfaction?

AM AMUSING INCIDENT

A man, a cow, a horse and buggy, and a little boy, were the cause of considerable amusement to pedestrians on King street yesterday morning about half past eight o'clock.

The little boy was seated in the buggy driving the horse. The cow was tied by the horns to the back of the buggy and the man was coming behind urging the cow on with a whip. When in front of Wallace's hardware store the cow became fatigued and stopped. The horse was seemingly unable to pull buggy and boy and cow, too, and so he also stopped. All the urging from the man behind could not make the cow go forward. The boy whipped up his horse but to no avail. Suddenly the cow backed up and in spite of his efforts to the contrary the horse backed up, too. Some one suggested hitching up the cow and leading the horse, while others thought it might be better to put the cow in the buggy and let the boy lead the horse. After a few minutes trouble, however, the cow was unloosed from the rear of the buggy and the procession moved on, the boy still driving the horse with the man bringing up the rear but leading the cow.

ANNOUNCEMENTS

At The Grand—
Down By The Sea—Sept. 27-28.
The Isle of Bong Bong—Oct. 5.

(Supplied to The Planet by Press Agents.)

"Down by the Sea" is the title of the next attraction that is underlined at the Grand for an engagement of two nights, commencing to-morrow. This play has been on the road for several seasons, and has met with the endorsement of the press, and public wherever presented.

"Down by the Sea" is a story that is filled with heart interest from beginning to end, and is interwoven with bright and sparkling comedy, and is so constructed as to afford many opportunities for strong, sensational, melo-dramatic climaxes. The play is nautical in character, the scenes being laid on the New England coast, which affords excellent opportunity for the display of special scenery, with which this attraction has a bountiful supply. The management of this year has been extremely cautious in selecting the cast, care being taken to engage only those who seemed to be best fitted, both intellectually and individually for the characters they were to impersonate. The engagement of "Down by the Sea" is limited, and those who desire one of the best plays of its kind should not fail to secure their seats early in advance.

The Banner of Honor and Victory AWARDED TO Diamond Dyes

BY FIVE CONTINENTS AND THE ISLES OF THE SEA.

Diamond Dyes, the only honest and perfect package dyes now before the women of the world for successful home coloring, have been awarded the banner of honor and victory by five continents and the isles of the sea, for purity, strength, brilliancy, beauty of colors and never-fading qualities.

Diamond Dyes with a record of twenty-five years of marvellous and delightful work in the homes of the world, have been imitated. The result is, that many of our women and girls have frequently been deceived by having worthless package dyes forced on them, which have proved disastrous to good materials and valuable garments.

When buying package dyes, the exercise of a little care will save our women much trouble and annoyance. Ask for DIAMOND DYES, and see that the words "Diamond Package Dyes" appear on each envelope you are offered. Send to Wells & Richardson Co., Limited, Montreal, P. Q., for valuable book on home dyeing, and card of 48 dyed cloth samples. Sent free to any address.

CAMDEN FAIR AT DRESDEN, ON OCT. 5 AND 6.

This year, the Camden Fair, to be held at Dresden on Oct. 5 and 6, will be better than ever. The prize list is very liberal, and the entry list will be large. The trials of speed will be a drawing card. A named race is being put on, wherein eight or ten of the best horses in Dresden and vicinity will start for a purse of \$50. Besides this, there will be a free-for-all trot or pace, for a purse of \$200. Entries close Oct. 3. The races will both take place on the last day of the Fair Good band in attendance. Be sure and come and bring your family.

Titles in Germany.

The question of title is one of the delicate in Germany, a fact of which the stranger is constantly reminded in intercourse with the people. In Germany the women, Frau Doctor, Frau Director, Frau Doctor, most particular about their husbands' titles being attached to their names. But when it comes to military circles it is different, and both men and women protest vigorously against this sharing of titles. Lieutenant von B. objects to having his wife addressed as Frau Lieutenant, which title belongs as well to the wife of Lieutenant Schmidt or Hauff of a less aristocratic regiment.

Dumas' Scheme.

Alexandre Dumas, Sr., was once visiting his son, who at that time lived in a villa near Paris. They sat in a tiny scrap of a garden behind the house under the one small tree it contained. It was a broiling hot day, and Dumas, who was very stout, said to his son: "I am suffocating with the intense heat."

"What shall I do, father?" "Suppose you open your chamber window and let a little air into the garden," replied old Alexandre, with gravity.

THE LABRADOR EXPEDITION.

Some Account of Canadian Failure to See Sun's Eclipse.

Several members of the scientific expedition undertaken to Labrador for the purpose of taking observations of the sun's total eclipse have arrived home. "Yes, it was a pretty blue morning for all of us," was the frank assertion of one of the party, in reference to the forenoon of August 30 last, when the atmospheric conditions precluded any possibility of carrying out the object of the long trip to Labrador. "Of course," he said, "we were all well aware when we started out that success was doubtful since there were the perversities of the weather to be reckoned with. The eclipse was to take place at 7.50 a. m., but our party was astir much earlier, and the telescopes and photographic apparatus placed in position. It was evident, though, from the time of our rising that we had very little chance. The sky was completely overcast by clouds, but some hope was felt that as the morning wore on there would be sufficient brightening up to permit of some results, but the sky remained clouded over. The only visible effect of the eclipse was the darkening. When the eclipse became partial there was some observations made, but their value is very small, if they possess any at all."

Had not the weather been unkind the observations would have been highly successful in the opinion of the returned member. The expedition was very well equipped, and, as it happened, little trouble was found in hitting upon a capital location. By reason of the uncertain knowledge about Labrador's latitude and longitude it had been the thought that it might be necessary to convey the great equipment of delicate apparatus some distance from the steamer landing at Northeast River, Hamilton Inlet, in order to get in the line of totality, but it was found on arrival that the neighborhood of the landing was exactly in the line required. At this point there is a Hudson Bay trading post. The party, which had sailed from Quebec on August 4, arrived there on August 11, and the ensuing 19 days were taken up in placing and adjusting the apparatus. The natural scenery of the neighborhood is described as giving prominence to heights of woody rocks. There was vegetation in mossy forms, and spruce and kindred trees were in evidence. The climate was rather cool, but not sufficiently so to make any insistent demands for extra clothes.

The keen disappointment of the scientific men can be understood when it is considered that many years will probably pass before an expedition of this kind will be again fitted out by the Canadian Government. There will be a total eclipse visible in Greenland in 1909, but of this Canada is not likely to take official recognition. The day following the failure of the observations the party spent in packing up their traps and next day sailed for home.

"Did you have any word of the rival gold hunting expeditions that have gone into Labrador?" was asked.

They passed through North East River some time ago," the member replied. "Their mission seems to be taken as a joke by the traders. It is not thought that there is any probability of such gold mines."

Tecumseh's Tomahawk.

An interesting relic is now on exhibition here. It is an Indian tomahawk, supposed to have belonged to the great chief, Tecumseh.

G. A. Bobler of Park street, formerly of Florence, found it some 40 years ago. He then lived near Thamesville, and while digging potatoes close to the old Longwood Road, about three miles west of that place, he turned up the tomahawk. It was a much finer weapon than the usual run of stone tomahawks, being made of steel. The weapon is inlaid in bronze, with the design of a heart and an arrow. Old Indians, who remembered the great chief, repeatedly assured Mr. Bobler that the heart and the arrow constituted Tecumseh's totem, or coat of arms. The Longwood Road, where it was found, is close to the scene of Tecumseh's last battle. It was opened 120 years ago, but has been for a long time unused.

That the tomahawk is a genuine Tecumseh relic Mr. Bobler firmly believes. He is familiar with many collections of Indian weapons and this is certainly the finest tomahawk he has yet seen. That it belonged to a big chief is plain; and the supposition is that it was a present to Tecumseh from his British allies.

Some time ago a Kentucky man heard of Mr. Bobler's find and was very anxious to purchase it. Another man from London, England, tried to buy it for the British Museum, and offered Mr. Bobler a good price, but the latter declined to sell. He preferred to keep the historic weapon, as associated as it is intimately with the greatest of Britain's Indian allies, Victor Lauriston in The Chatham Daily News.

An Albino Robin.

"We have here a young robin, pure white and pink eyes, one of two (the other a naturally colored bird, recently found in a nest," writes T. L. S., of Judd-haven, Ont., and asks: "Are such white robins rare?"

Albino birds frequently occur in all species—that is, they are often seen; though, of course, in comparison with the hosts of normally colored ones they are properly spoken of as rare. A list made some years ago showed a record of albinos or partial albinos in almost every well known American species, more often in birds of dark color than in those of pale plumage.

On the Mattagami River.

A letter has been received at the Bureau of Mines from Mr. H. L. Kerr, who is at the head of an expedition exploring for the bureau in the Abitibi River district. The letter is dated at a point on the Mattagami River beyond the height of land. Mr. Kerr says that the country traveled through on both sides of the river embraces a great deal of good agricultural land. The soil is mostly of clay and clay loam, and the timber mostly black spruce and generally small.

Three gas companies in London consume between them 4,000,000 tons of coal per annum.

Women at Their Best.

Harry Furniss, an English expert on the eternal feminine, says that women look their best indoors in the evening and in evening dress. He says a woman is probably seen at her best when playing the harp; that billiards show women off to great advantage; that ice skating shows the graceful curves in the feminine figure; that of outdoor games archery is the one in which women look their best and boyish the one in which they look their worst.

Children and Pillows.

Teach your children to sleep without pillows if possible. In any case only a very thin one should be allowed, for it is impossible to relax all the muscles of the head if much higher than the rest of the body, and so the rest is not so refreshing as it should be. If the little ones are unhappy without the pillow try raising the head of the mattress very slightly and lower a little at a time so that they may become gradually accustomed to it.

For over a third of a century Dr. Pierce's Golden Medical Discovery has sold more largely than any other blood purifier or tonic.

and nervous force is used when you take an alternative extract of herbs and roots, without the use of alcohol, like Dr. Pierce's Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutrient the blood requires.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It thus cures scrofula, eczema, erysipelas, boils, pimples, and other eruptions that mar and scar the skin. Pure blood is essential to good health. The weak, run-down, debilitated condition which so many people experience is commonly the effect of impure blood. Dr. Pierce's Golden Medical Discovery not only cleanses the blood of impurities, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood.

No matter how powerful the intellect or the resources of intellectual power, it must be backed up by physical force. Every day the youth or man must manufacture a pint of rich, arterial blood, that is pure, stimulating to the brain, and that can rebuild the tissues that were destroyed in yesterday's work.

ANIMAL ANIMUS.

Ways in Which Wild Brutes Show Their Contempt For Mankind.

"Wild animals have a great many ways of showing their contempt for humankind," said an artist who has made a specialty of modeling animals. "Every one has an idea that elephants become tame and even fond of people, but this is altogether wrong. They are easily trained, but are never tamed. They are docile just so long as the keeper has his good in his hand or the memory of a burning endures. I had proof of this one day while modeling one of the elephants in a big animal show. I was sitting in his stall, with my modeling stand, not knowing that on certain days he was given an extra allowance of chain. Suddenly he flung his trunk around with such force that it smashed the stand to bits and sent me a dozen feet outside the stall. "He never forgot his failure to finish me, and soon afterward he expressed his dislike in a more vulgar if less dangerous manner. As I worked I heard him make a loud sucking noise, but suspected nothing. At last when he had his mouth quite full of saliva he blew it toward me. "This is not only a trick of elephants, but of other animals as well, as I have learned to my sorrow. Camels have the same habit, and while working near a camel one day I was treated to a shower of finely chewed cud."

This sculptor and other artists agree that the cat animals have a different mode of attack. There seems less of spite and more of real hate in their method. Sculptors usually place their modeling stands as close to the bars as possible. This same one was once working close to a tiger's cage, with the beast inside lying very quiet, apparently asleep. Without even raising his eyeballs the big cat struck between the bars with his heavy forepaw, splintering the stand and sending the clay in wads on the floor. The artist, warned by a sixth sense developed by those who are much about animals, had jumped back just in time to escape.

BITS FROM THE WRITERS.

The simple life does not need lentils or cellular clothing. It needs those rarer things, gratitude and humility.—G. K. Chesterton.

She wore far too much rouge last night and not quite enough clothes. That is always a sign of despair in a woman.—"Sebastian Melmoth."

Keep your head on your shoulders. It's bound to rest on some one else's occasionally. Still, keep it mostly on your own.—"A Pagan's Love," by Constance Clyde.

If you feel that you're really got to tell a secret, go somewhere where it's dark and you'll be alone. Then keep your mouth shut.—"The Middle Wall," by Edward Marshall.

Not that marriage is so beautiful, but it is necessary a girl should find that out for herself, so that she can turn her mind peacefully to other things.—"A Pagan's Love," by Constance Clyde.

The Guest and the Waitress.

A dainty stranger waited into the dining room of a hotel in Smith Centre the other day and as the chair was held back for him pulled out his handkerchief and dusted the seat carefully. Pulling up his trousers, he seated himself, wiped the knife, fork and spoon off the table and heaved a sigh of relief. Without hesitation the girl who stepped forward to take his order deftly wiped the stranger's mouth, which had been drawn into a pucker of dissatisfaction at the imaginary untidiness abounding, and planted a kiss thereon that was plainly heard in all parts of the room. The dainty stranger when he recovered ordered meekly, ate hurriedly and left quickly.

Demean.

Says a writer in the London Chronicle: "A vulgarism—one which, like 'aggravate' for 'irritate,' has come into use by way of the kitchen stairs—is 'demean,' with a sense of derogation or abasement. It is to be seen in many a paper and even many a book and heard in many a speech. It is the second syllable that has misled the popular understanding, but the noun 'demeanor' should have saved the educated from their blunder with the verb. When the cook refuses to 'demean herself' she is excusable, because 'demeanor' is not in her vocabulary."

The Feast of Nature.

"The Feast of Nature" was a grand French revolutionary holiday held Aug. 10, 1793. A plaster image of nature was erected in the Place de la Bastille, and the chief members of the convention, the public committees and all public functionaries knelt in adoration, after which came the firing of salutes, dancing and general public rejoicings. The holiday celebrated the finished constitution of the republic.

A Collection of Idiots.

"I want to ask for the hand of your daughter in marriage," said the young man.

"You're an idiot," said the irate father.

"I know it. But I didn't suppose you'd object to another one in the family!"

Both Annoying.

"Two things make my wife awful mad."

"What are they?"

"To get ready for company that don't come and to have company come when she isn't ready."

THE LOCAL BUDGET.

Don't forget the Fair this week. Better than ever.

Two or three girls wanted to work in Bindery. None under seventeen years of age need apply.

Joe Kenney, who was locked up in the jail last week, was let out on bail this morning. His mother went his security.

Kitchen girl (white) wanted at the Garner House. Apply to the chef, Garner House.

Mr. and Mrs. C. M. Coates, of Oakdale, have returned home, after a pleasant visit with Mr. and Mrs. J. T. Baile, Lansdowne Ave.

Chief of Police Holmes received a notice this morning to be on the look-out for a valuable horse stolen from J. D. Shaw, of Rodney.

The week of Sept. 26, 27 and 28 promises great things for the children. Come and bring them to the Fair. They will enjoy it and remember it for years.

Mrs. M. Campbell, of Dover, has returned home, after spending a two weeks' vacation at her daughter's, Mrs. A. F. Stephens, Adelaide St., and also a short time with her niece, Mrs. Thos. Lee, of Raleigh.

Residents in the East End are up in arms against the poor electric light service these nights. It is expected that the matter will be forcibly brought before the attention of the Property committee at the next Council meeting.

A distinctly enjoyable feature of the Harvest Home festival at Holy Trinity church on Sunday was the exquisite solo so admirably rendered by Miss Lucy McKellar at the evening service. Miss McKellar is one of the Maple City's most popular vocalists and her contribution was highly appreciated.

Desk Sergeant Peter Kenny, of the Police staff of McKellar, is a Maple City visitor for a few days. He is registered at Hotel Santa. This is Mr. Kenny's first visit to Chatham and he expresses himself highly pleased with the city. He has started a course of mineral baths at the Sanatorium. He was surprised to find Chatham such an up-to-date town, and is particularly taken with the excellence of the mineral baths.

GOOD WORK

Ex-Ald. Mounter Comments on Excellent Work of Chief Pritchard in Carrying out Clauses in Ald. Potter's By-Law

"I was very favorably impressed this morning with a demonstration of the benefits accruing from the action of Alderman Potter in putting through his Building Permit By-law," commented ex-Ald. E. A. Mounter in a short conversation with a Planet reporter.

"For the first time in the history of Chatham with my knowledge, pedestrians have had their rights insisted upon by an officer of the city, in reference to new buildings being erected, fronting on the sidewalk. This morning Fire Chief Pritchard, to whom the task of granting building permits has been allotted, forced the contractors on the new Jahnke building to build a temporary shed over the sidewalk to protect passing pedestrians, thus granting citizens the use of the sidewalk in front of the new block while the building is in progress. Instead of having the walk blocked, as was the case for eighteen months while the Seane Block was being erected."

"This is to my mind a step in the right direction, and Ald. Potter deserves the praise and thanks of King street pedestrians through this by-law. Chief Pritchard also deserves great credit for the able and prompt manner in which he is carrying out every letter of the law. He has shown that his selection for this work is a wise one and that his hands the interests of the citizens will be carefully and safely guarded."

WADDELL READY

Philadelphia, Sept. 25.—Rube Waddell, the eccentric pitcher of the Athletics, came out of his shell to-day and announced that he is ready to take his regular turn in the box, and that while his shoulder is sore he is ready to break his good left arm to bring the American League pennant to Philadelphia.

A local newspaper hints that all is not right. The accusation was made that Rube had been approached by gamblers to play sick in order that the Athletics might lose his services. In a statement issued by Waddell this afternoon he says:

"I have not been approached by anyone with a view to crippling my team. The rumors that I am lying down on Manager Mack are pure rot. I have worked hard with the other members of the team to bring this world's championship to Philadelphia. I'll win every game I pitch from now on, and will also beat the Giants when we meet in the world's series."

Thursday is children's day at the Fair. Come and bring them.

READY TO OPEN GATES

Hon. Mr. Monteith, Minister of Agriculture, Will Press the Button To-Morrow—Promise for Record Breaking Exhibit

This is the opening day of the big Peninsular Fair and, judging from the brightness of the weather and the long list of prize entries and attractions in the hands of the managers, this year's exhibition will be far in excess of anything yet achieved in Kent County.

The weather man has been particularly obliging and gracious—something unusual for Fair dates in Chatham—and the energetic directors of the West Kent Agricultural Society are pleased and gratified. Never was a Fair in Chatham held under more auspicious circumstances and it is to be sincerely hoped that the Chatham people will show their appreciation of the splendid work of this wideawake society by attending in large numbers to enjoy the privileges that have been extended to them.

To-day is Preparatory Day, when arrangements are being made to accommodate and entertain the crowds who will visit the grounds to-morrow and Thursday. The refreshment booths are being erected and exhibits are being put into place. It is the busy day for the directors, who are everywhere allotting space to exhibitors and granting privileges to refreshment and show men.

From a point of entries, this is the banner year. Stock will be shown in large numbers, while the showing of implements, etc., is far larger than last year. In the pavilion there has been great competition for space and Secretary Robinson—to whom unlimited credit is due—has had difficulty in finding room for all.

An excellent program has been arranged for to-morrow and Thursday. Hon. Nelson Monteith, Minister of Agriculture, will arrive to-morrow to formally open the Fair, and from prepat grand and most successful exhibition ever held in the Maple City.

GOOD BUSINESS

Roy Tobey is One of the Many Chathamites Who is Glad the Isle of Spice Came to Chatham

Roy Tobey, of the 2 T's, was one of the most enthusiastic patrons of the Isle of Spice at the Grand last night, and he almost made himself conspicuous with his hearty applause in every act in which the male members of the company participated. Of course, he appreciated the work of the girls, too, but the men seemed to be his favorites. The secret of it all came out this morning in a short conversation with The Planet.

"Pretty good show last night, wasn't it?" was the opening remark.

"I tell you they carry a fine company, and Mr. Brisco deserves great credit for bringing them here."

"Yesterday afternoon a number of the men from the company came into the store and bought eleven pairs of Dent gloves, two raincoats, one suit of clothes, three hats and a number of sweaters. This is the biggest haul we ever got from a theatrical company. Possibly they knew that Canadian goods were better than American goods, and as this was the first point they touched after they left Detroit we were the ones to reap the benefit."

"Mr. Brisco may bring shows like that to Chatham all winter if he likes," concluded Mr. Tobey, as he brushed off another hat and put it in the window.

BAD WORK

Mayor Cowan and Ald. O'Keefe and Austin visited the sewer connection on Raleigh street yesterday afternoon as reported in last evening's Planet. They found the work was exceedingly badly and carelessly done and will have the matter investigated.

WHEAT BLOCKADE SURE.

Vesselsmen Raising Prices to Carry Grain to Ontario Ports.

Fort William, Sept. 26.—With wheat arriving at Fort William and Port Arthur at the rate of one car per minute, Canadian vessel owners refuse to load at present prices.

They demand two cents per bushel to all Georgian Bay ports. The former rate was one cent to one and one-half cents.

All the Canadian vessel owners appear to be in a combine. As American boats cannot carry grain from one Canadian port to another, it is thought in local shipping circles that the vessel men will win.

A wheat blockade is inevitable.

SPINAL MENINGITIS OUTBREAK.

Disease Again Epidemic in Ottawa Valley and of Severe Type.

Ottawa, Sept. 26.—Cerebro spinal meningitis has again broken out in Torbolton and Buxley and also appeared at South March and North March, Carleton County.

There are three cases in Torbolton, children of William Bresinoham, under the care of Dr. Wilson of Kinburn and Dr. Groves of Carp. The latter has also six other cases under treatment now, four in March Township and two in Huntley.

The type of the disease is worse than what prevailed during the August epidemic. Six of the nine cases were paralytic.

Big Cheese Firm Assigns

Montreal, Sept. 26.—The Loynachan Scrivner Co., Limited, one of the largest butter and cheese commission houses in Montreal, doing a large business with Ontario firms, has assigned. A notice to this effect is being sent to the creditors who are asked to adjust matters amicably if possible, thus avoiding law costs.

Left Poisoned Sandwiches.

Hamilton, Sept. 26.—The police have located two men who are said to have left poisoned sandwiches on the floor of the bar of the Globe Hotel last week, which are supposed to have caused the death of Baby Wilson, adopted son of the proprietor. They will be at the inquest to-night.

The faultless man is usually friendly.

AFTER TRUANTS

Anson Mounter Has the Names of a Number of Children Who are Already Playing "Hooky"

Truant Officer and Health Inspector Anson Mounter is a very busy man these days, especially in his capacity as Truant Officer. This morning he received the names of nine children, pupils of the Central School, who are reported to him as truants.

"One of the children I know is sick," said he to The Planet, "three are working out to help their parents put bread and butter on the table, one has left town, and two are known to me as habitual truants. With these last mentioned I will have to employ stringent measures, and if they do not attend school after they have been warned once I will have to have them in the Police Court."

Two of the children's names submitted to me have not got their parents' names or their place of residence attached, so it will be hard to find them. This, however, is only one of the troubles of a truant officer.

"You might just state in your paper, now that school is fairly started again, that I intend to keep a strict watch for truants, and the scholars who wish to avoid serious trouble had better attend school regularly."

"As far as the health of the city is concerned, there are few cases of contagious diseases at the present time. There is only one case of diphtheria reported this month. That one is Stanley Jewell, son of James Jewell, on Charter street. It was reported yesterday. All of the other cases have been cleared up."

"It is my intention to have the scavengers go around to all the alleys in the city next week and clean up all the garbage in preparation for the winter. When they are through our city will be in a good healthy condition."

HE FEELS AS
YOUNG AS EVER

Ohester Loomis Took Dodd's Kidney Pills.

And From a Used Up Man He Became as Smart as a Boy.

Orland, Ont., Sept. 25.—(Special).—Mr. Chester Loomis, an old and respected farmer living in this section, is giving broadcast the good news that Dodd's Kidney Pills are a sure cure for the Lame Back and Kidney Disease so common among old people. Mr. Loomis says:

"I am 76 years of age and smart and active as a boy and I give Dodd's Kidney Pills all the credit for it."

"Before I started to use Dodd's Kidney Pills I was so used up I could hardly ride in a buggy and I could not do work of any kind. Everybody thought I would not live long. Dodd's Kidney Pills are a wonderful remedy."

"The kidneys of the young may be wrong but the kidneys of the old must be wrong. Dodd's Kidney Pills make all wrong kidneys right. That is why they are the old folks' greatest friend."

The egotist is always the other fellow.

DOLLIE NASH IS KILLED

Edwin J. Dynes, a Quebec Merchant, Chained Injured.

Railway Tragedy at Hamilton — They Were Driving and a Fast-Running Radial Car Struck Their Buggy at Ogg's Crossing, Just East of the Jockey Club—The Girl Was Killed Instantly—Other Accidents.

Hamilton, Sept. 26.—Miss Dollie Nash, who lived until recently at 62 South Catharine street, was killed, and Ed. J. Dynes, a Quebec merchant, who is related to the Dynes family on the beach, was badly injured last evening about 9 o'clock. They were driving, and a radial car that left Burlington at 8:10 in charge of Conductor McCully and Motorman Wm. Brundie struck their rig at Ogg's Crossing, just east of the Jockey Club.

The girl was killed instantly, and her companion had one leg broken and was badly cut and bruised. The car was reported to have been traveling at a high rate of speed. The crossing is a very dangerous one. Both the G. T. R. and radial cross is diagonally. Miss Nash was known in the city. Her brother, William, is employed by the John Hoodless Furniture Co. Mr. Dynes has spent several months in the city. The dead girl and her injured companion were brought to the corner of Bar on street and Birch ave. by a radial car. They were met there by the patrol wagon and the ambulance. Mr. Dynes was taken to the City Hospital. Corner Woolverton will hold an inquest.

Gas Exploded in Vault.

Winnipeg, Sept. 26.—As the result of an explosion of illuminating gas in a Court House yesterday morning, P. A. Macdonald, master and referee, was badly burned and injured. A defective pipe caused the explosion. Macdonald went into the vault, and on lighting a match he was blown several feet.

Mr. Macdonald is at present in the General Hospital, and it is not thought that his injuries will prove fatal. Mr. Macdonald is well known in the east.

Little Girl's Body Found.

Prescott, Sept. 26.—The body of the eight-year-old daughter of James G. Gill was found in Bobal's Creek yesterday morning. The little girl disappeared on Wednesday last, and it was feared that she had met with foul play. Evidently she fell into the water while attempting to cross the creek.

SPRAINED HER ANKLE.

"I slipped on an icy step and sprained my right ankle very badly," writes Miss Minnie Burgoyne, of Glenwood. "It swelled to a tremendous size and caused intense pain. I applied Polson's Nerveine and got prompt relief; the swelling was reduced, and before long I was able to use my foot." For sprains, swellings and muscular pains Nerveine is the one sure remedy. Strong, penetrating, swift to destroy pain—that's Polson's Nerveine. Fifty years in use.

It is easy to see grandeur in places from which we are excluded.

\$5.00 REWARD

Dover Township Council will pay \$50.00 reward to any one giving such information as will lead to the arrest and conviction of the person or persons who upset a wagon loaded with coal into the McFarlane drain, on Baldoon street, belonging to the contractor at work on the drain, and doing other damage.

EGG... PRESERVED

Approved by Guelph Agricultural College

This is a glass having the property of dissolving in water. The shell which covers and protects an egg is neither air nor water tight and through its pores enter germs and microbes which soon render the egg unpalatable. Glass is pre-calcinated almost as soon as eggs are immersed in its solution and thereby the eggs are hermetically sealed and will keep fresh for many months.

Red Rose Tea is Clean Tea

CLEANLINESS is as necessary to tea quality as to any other food.

Tea rolled by hand, cured by hand, weighed, blended and packed by hand may or may not be clean.

Every operation of making Red Rose Tea, on the plantation and in the warehouse, is performed by machines, the rolling and curing, the blending and weighing are all done by scrupulously clean automatic machinery.

Red Rose Tea is never touched by human hands from the picking to your kitchen.

Red Rose Tea is always clean. It cannot be otherwise, because it has no possible chance of contamination.

Its "rich, fruity flavor" cannot be impaired by foreign substance of any sort whatever.

BLOOD DISEASES CURED

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itching of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish."

FOR THE TRAVELER.

Smart Cloak Model of Many Useful Adaptations.

The subject of traveling cloaks naturally comes uppermost at this season and each year these useful garments become an object of more exacting and critical regard. In the accompanying sketch are exploited the merits of a cloak that comes from Paris and seems of special worth and usefulness.

The ordinary cloak can hardly lay claim to be considered a thing of beauty. It is a covering from dust and dirt or lends additional warmth and protection from drafts or rain, but is strictly utilitarian; also, as a rule, it is absolutely out of the question

A USEFUL CLOAK.

where any but the orthodox tailor traveling garb of severely plain coat or skirt and skirt is worn.

Now, this French cloak goes a step further, for, while it fulfills to perfection the ordinary functions of a traveling wrap, it possesses in addition a charm of its own, so that it may do duty as a carriage wrap over the smartest of toilets at garden party or race meeting and will not come amiss on occasion if an evening cloak is not forthcoming.

The cloak is of simple enough construction, consisting only of front and back pieces, with the addition of wide winglike sleeves set into armholes of generous proportions. It is pointed both back and front, reaching in the former to a slightly greater depth than in the latter, while the full hanging folds of cloth fall in graceful cascaded fashion at either side.

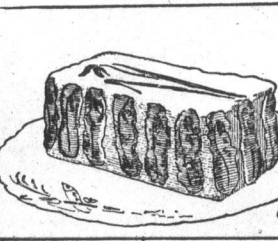

At the neck the usual revers and collar specially dedicated to tailor work form a fitting completion and afford an opportunity for smartening up in the shape of a collar facing of tan kid, white, suede or delicately colored velvet.

As for material, a good thin coating which has been subjected to some waterproofing process makes an ideal garment for road traveling, while a fine smooth cloth is best for smarter wear. Alpaca, too, is in many respects unequaled for such use, being beautifully light and possessing dust resisting qualities all its own.

A thin silk lining makes both for comfort and appearance, either white or pale toned glace doing wonders toward an ultra smart appearance. These, however, would be out of place for road traveling.

At a Company Luncheon.

Pour one quart of ripe peaches, pared and pitted, into a freezer after sprinkling with one pint of fine sugar and the juice of one lemon; add one pint of plain sweet cream and turn the dasher until frozen; pack in a brick mold lined with lady fingers, on each

of which has been placed cooked citron cut into stems and petals. Place citron stems and flowers on the bottom of the mold. Cover the mixture with oiled paper, tie cover over and pour melted suet around the edge; pack in ice and salt for two hours.—Table Talk.

A Cat Table.

At every English bazaar the cat table is always a money raiser. It proved to be the hit of a New England fair. Cats and kittens, aristocratic and plebeian, came at the first request in scores, in hundreds, and they sold—how they did sell! There were other wares besides cats—baskets and blankets for cats, cat collars, cat bells, cat pillows, framed cat pictures, cat saucers: pussy in plaster, pussy in stuffed calico, to say nothing of ten cent bunches of catnip, which were all sold before the first day of the fair was over. The cash drawer held more money than that invariable winner, the doll table.—Good Housekeeping.

Butter the Bump.

I was told if a bump was well buttered the skin would not turn black and blue. I had little faith in the remedy, but happened to try it and found that no mark was left. Butter is always within reach and my little ones have been saved many ugly looking marks.—M. S.

Dynamite Mine in Suez Canal.

Port Said, Sept. 25.—A general explosion of dynamite will be exploded in the Suez Canal next Thursday. It lies among the other cargo in the hold of the British steamer Chatham, which was compulsorily sunk on September 6, owing to the earthquake fire aboard it, which threatened to reach the dynamite. The effect of the explosion on the side and bed of the canal cannot be foreseen, and it is expected great damage will be done.

Sultan Fears James Bryce.

Constantinople, Sept. 25.—The Porte is greatly excited over the fact that James Bryce, the British statesman and writer, author of "The American Commonwealth," is making a tour of Macedonia. Mr. Bryce is president of the English Balkan committee, and the Porte fears he is gathering material for a spectacular denunciation in the House of Commons of Turkish rule in Macedonia. Orders have been given to detectives to keep a close watch on his movements.

NERVOUSNESS A CALAMITY.

Many who don't realize what lies beyond, treat an attack of the "nerves" with indifference. Others consider it will soon pass away. But in every case nervousness is a calamity. Only one remedy will cure—Ferrozone—a nerve strengthener that acts through the blood. First it gives you appetite—you eat plenty. This fills the blood with nourishment for the inner nerve cells. Energy and strength is instilled in every part of the system. You get well-kept well—nervousness forever departs, because you've used Ferrozone. Price 50c. per box of fifty tablets at all dealers.

HOME OF THE WARBLERS.

Only Evidence of the Little Whiskers Their Mild But Penetrating and Insistent Notes.

When the woods seem most quiet and deserted soft bird voices often come in hurried whispers from the trees. These mild but penetrating and insistent notes seem to move and change with ventriloquial uncertainty, their source remaining persistently concealed. A quiet search may not reveal any other evidence of bird life, and absolute silence may be the only indication that the little whistler has gone elsewhere, says a writer in The Globe. A little form may move quickly across an open space among the branches, or there may be a hurried fluttering of tiny wings in confident indifference to intruders. A little fellow may move acrobatically about over the branches, twigs and leaves, gathering and gleaming wherever insects are to be found, or the trees about may be come suddenly alive as the gleamers hurry here and there in their ceaseless quest of food. The momentary applications of yellow, orange, red, blue, green and olive—with striking contrasts of black and white, softened into rich browns and dull neutral tints.

That the woods are alive with a multitude of beautiful colored birds is an interesting revelation for the warblers, in spite of their gay plumage and active habits, are so small and retiring that they often pass unnoticed. The average Canadian who sees a case of representative specimens naturally regards them as importations from the tropics. But the summer home of the warblers is not in the dense tropical vegetation, but among the poplars and conifer trees of new Ontario, northern Quebec and the Hudson Bay Region. There they rear their young, fed and also protected by the swarms of insects that make life intolerable for any daring intruder. Throughout the long range of their migration they are seen in the spring and fall, often in small and mixed flocks busy about the orchards and shade woods by day, but make their long flight by night, sometimes falling victims to the alluring obstruction of lighthouses and signal towers.

This interesting family is peculiar to the American continent, and out of some hundred species only about twenty-five can be classed as tropical. The others range over the eastern part of the continent, the majority breeding in the northern forests. The yellow warbler, as it is called, is the most familiar in old Ontario, as it nests in the shrubbery of city parks and lawns, and is often mistaken for a wild canary or goldfinch. The reddish lines in its yellow breast, the slender bill and also the habit of gathering insects from twigs and leaves are points of recognition. The red start, adorned in black and red, and the Maryland yellow throat, with mask of black and loud "wicheety wicheety, wicheety," are familiar in suburban woods and marshes. The oven bird, in spite of its terrestrial habits, claims kinship in the family. The black and white warbler is recognized by his name. And there are a host of others, richly colored, active and alert, traveling the length of the continent, the last to arrive and the first to depart, rearing their little broods in the inaccessible northern forests, feeding there on the abundance of insect life and returning to the perpetual summer of the Gulf States, the West Indies and tropical America.

CHANCE BROUGHT A FRIEND.

And Edith Sindel, a North Bay Girl, Is Released From Buffalo Jail.

By a strange working of fate Edith Sindel, 28 years old, of North Bay, Ont., who disappeared from Toronto several months ago, when sent to that city for treatment at a hospital for tonsillitis, was on Saturday released from No. 3 police station, Buffalo, N. Y., where she had been detained since August 23th. The cell department of No. 3 is detached from the station house proper and projects into an area which is overlooked by the back windows of rooming-houses and boarding-houses. The tenants of these places had noticed for some weeks past that a girl would press her face against the prison bars and look earnestly out into the open space. Her sad, wan face attracted the attention of several of the boarders, and some of the female occupants became interested in the girl's case.

The police had made no secret of the facts leading up to the holding of the girl. On Monday, August 28th, Leonard Darch was arrested on the complaint of Edith Sindel, who was working here as an hotel employee, who charged that Darch had tried to induce her to lead a life of shame that he might share in the profits. Darch was sent to the penitentiary the succeeding day for a term of six months. He was charged with vagrancy. Capt. Collins had learned that Edith Sindel had been released from North Bay to go to Toronto, and had not returned and had never communicated with her parents. It was decided to hold the girl till her parents were heard from, because of the dangerous situation the girl's ways might bring her to. A letter was sent to the Sindel home some days ago.

The other morning Fred Phillips, who rooms in a house adjoining the station house, chanced to see the girl's face at the cell window, and made enquiries about her. Learning who she was, Phillips said he had known her parents for some time. He went to the station-house, and after convincing Capt. Collins that he knew the girl, was permitted to see her. The girl was dumfounded when she saw Phillips. She told him her story in a tearful voice. He promised to furnish the transportation back to North Bay if the girl was released. His offer was accepted by the police and the girl left for Toronto Saturday afternoon, to go from there to her old home. Phillips is a cutter by trade and has been traveling through the country. He has not been in North Bay for five years.

Big Refunds to Pulp Importers.

Washington, Sept. 25.—The United States has concluded to drop its contention that an additional duty should be levied on wood pulp, the product of pulp wood cut from Crown lands and private lands in the Province of Quebec. This information is contained in a letter written by James B. Reynolds, N. Y. The case was a test one. While the test case has been under consideration the suspended files of the board of appraisers. These will now be decided and large refunds made to importers.

DEAFNESS CANNOT BE CURED.

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Adolphus Hunt—Don't you think it would be a noble thing for you to do with your wealth to establish a home for the feeble minded? Miss Rich—Oh, Mr. Hunt, this is so sudden!

The worries of a weak and sick mother are only begun with the birth of her child.

By day her work is constantly interrupted and at night her rest is broken by the wailing of the peevish, puny infant. Dr. Pierce's Favorite Prescription makes weak, light-headed and sick women well. It lightens all the burdens of maternity, giving to mother strength and vigor, which they impart to their children. In over thirty years of practice Dr. Pierce and his associate staff of nearly a score of physicians have treated and cured more than half a million suffering women. Sick women are invited to consult Dr. Pierce by letter free of charge. All correspondence is strictly private. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Begging in London.

It is calculated that 4,000 persons make a living in London by begging and that their average income amounts to about 30 shillings a week, or over \$1,500,000 a year. Last year 1,925 persons were arrested for begging in the streets of whom more than 1,500 were sentenced to terms of imprisonment varying from one month to three months. Many of these objects of charity were found in possession of sums of money and even of bank books showing very handsome deposits.

Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes.

THE HUNGARIAN CRISIS

For First Time King-Emperor's Popularity Is Assailed.

Severe Vote of Censure Passed Upon His Majesty and His Advisers—Regret Expressed That Francis Joseph Did Not Listen to the Councils of the Coalition Statesmen Summoned by Him to Vienna.

London, Sept. 26.—Special despatches from Budapest to the morning London newspapers indicate that the excitement upon the strained relations between the crown and the united opposition in the Hungarian Diet is increasing, and that while the leaders of the coalition parties are counselling the people to refrain from violating the law, inflammatory speeches are being made by prominent persons, and that probably for the first time the personal popularity of the King-Emperor is being assailed.

Censures the King-Emperor. Budapest, Sept. 26.—The Executive Committee of the coalition parties summoned to discuss the situation arising from the ultimatum presented to the Hungarian leaders by the King-Emperor has passed what amounts to a severe vote of censure on his Majesty and his advisers.

The committee in the resolution expresses the deepest regret that the King-Emperor did not listen to the statesmen summoned by him to Vienna, who represent the majority in the Hungarian Parliament and constitute therefore the leaders of the nation in its public affairs.

The committee further indignantly censures those who advised his Majesty to take such a course, and approves the action of the coalition leaders in declining to negotiate with Count Goluchowski and in declining the memorandum presented by the King-Emperor as a violation of the constitution and unsuitable for the settlement of the present constitutional difficulty.

The Executive Committee of the coalition parties in the Hungarian Diet yesterday decided to summon a general conference of all the parties forming the coalition, so as to reach a common agreement on the answer to be made on the conditions imposed by the King-Emperor. About 1,000 persons gathered outside the Independence Club last night and gave a great ovation to the coalition leaders. Francis Kossuth and Count Albert Apponyi made speeches in which they exhorted the people to act prudently. The Socialists attempted to interrupt the speakers and this led to free fights.

ZEMSTVO CONGRESS.

Accepts in Part As a Help the National Douma.

Moscow, Sept. 26.—The congress of representatives of the Zemstvos and municipalities in the interior of Russia and of the Polish Lithuanian provinces began yesterday at the residence of Prince Tseretopoff, under the presidency of Count Yevgeny.

After a lengthy debate the following resolution was adopted: "The Zemstvo and municipal congress considers that the National Douma will not give national representation in the true sense. Having in view, however, that the electoral assemblies uniting a great part of the social forces of the Empire, may serve as rallying points for the general movements looking to the attainment of political freedom, the congress recognizes the necessity for those Russian citizens who are united on the political program formulated by the Zemstvo congress to seek to enter the Douma in the largest numbers possible for the purpose of forming there a united group with the object of obtaining guarantees of personal liberty and equality."

Died of Broken Heart.

Berlin, Sept. 26.—Seventeen hundred dollars damages was the amount awarded by Judge Tetzel yesterday in the case of Szwedowski v. Harlock, for seduction of plaintiff's daughter. The evidence showed that George B. Harlock had broken his promise to marry the girl, who died of broken heart two weeks after the birth of a child. In concluding his judgment, his lordship said the case should be investigated to see if there was not ground for criminal action against Harlock.

BANK FAILURE A SWINDLE.

Liquidators of Ville Marie Present Some Startling Figures.

Montreal, Sept. 26.—The final statement from the liquidators of the Ville Marie Bank, which closed its doors on July 25, 1899, shows it to be one of the most colossal swindles ever perpetrated upon the Canadian public. The amount of the notes and deposits on deposit on the books amounting to \$1,300,000, representing the savings of 7,000 people. The last report before the failure showed the paid-up capital as \$479,000. Investigation showed the paid-up capital to be only \$250,000. The books of the bank indicated at the time of the suspension, a note circulation of \$214,000, whereas the report now made public for the first time shows that the notes in circulation really aggregated \$855,000, this being the amount of the notes redeemed. Some time previous to the suspension the Government called upon the bank to reduce its circulation to the extent of \$300,000. These notes should have been burned, but through fraud on the part of officials, they were issued again. The face value of the same going into the pockets of those who wrecked the institution. The last dividend of 2-10 per cent. to the depositors is now being made, and with it closes up one of the worst pages in the history of Canadian banking.

DOYLE ON TRIAL FOR LIFE.

Pleads Not Guilty—Grand Jury Brings In True Bill.

Branford, Sept. 26.—Felix Doyle, charged with the murder of his mother on February 23 last, was yesterday put on trial for his life.

One witness was heard for the Crown, and the grand jury returned a true bill. This witness was Mrs. Elvidge, who swore that on the morning of the tragedy Doyle came to their place at about nine in the morning, saying that his mother was dead or dying. Witness swore that as his tracks could have been noticed in the snow.

The prisoner at the preliminary trial said that he tried to arouse the Elvidge family about 4 o'clock, but was unsuccessful.

Doyle is being defended by A. L. Bald of this city. The Crown is represented by W. S. Brewster. Justice Anglin is the presiding judge.

The trial will be resumed this morning. At the opening of the trial Doyle entered a plea of not guilty.

BLESSINGS OF PEACE.

Old-Time Business Activity Returning to Vladivostok.

Vladivostok, Sept. 26.—The old-time business activity of this city is rapidly reviving since the proclamation of peace.

The inhabitants who left here during the troublous times are returning, commercial and industrial life is resuming, and foreign steamers and sailing vessels with freights are already arriving. Forty-five foreign steamers are expected from Hong Kong and Shanghai shortly.

The municipal authorities have received inquiries from thirty American firms concerning the acquirement of business quarters at Vladivostok. Japanese firms are also coming in, and are preparing to lease ground on which to erect buildings. Russians also are organizing companies to deal in Far Eastern products.

Heavy Guns For Vigilant.

Ottawa, Sept. 26.—The Department of Marine has got four three-pounder quick-firing guns lying at Halifax to place on the Vigilant, the Canadian cruiser on Lake Erie, but before doing so it has been decided to get the opinion of the Imperial authorities as to whether this would be in conformity with the Bagot agreement of 1847.
