THE SURPRISE OF THE YEAR

"The Perfect Movie"

Charles Dickens' Last complete Novel
"Our Mutual Friend"

Millions of persons have read and continue to read this wonderful story—which, all at once is romance, melodrama, mystery, of the fascinating sort. Here is a story made with fidelity and painstaking care; made in the way to keep alive in your memory the story as its author wrote it. No one has taken liberties with the story in the making—it is human, true and unforgettable.

See These Wonderful Characters

JOHN ROKESMITH—Handsome, young, much in love and entangled in a mystery to which he alone holds the answer.

MR. VENUS—The frowsy and laughable bone-mender whose peculiar "art" made his romance more difficult.

BELLA WILFER—A haughty beauty spoiled by wealth who had to be tamed before learning to love.

SILAS WEGG—The literary man with the wooden leg, black-guard and as loveable a scoundrel as you ever met.

ROGUE RIDERHOOD—A villain of the old school who lived and died a villain.

"PA" WILFER—He lived to years without having all at the same time a coat, trousers, and hat to match.

We have been fortunate to have this "Perfect Movie" for two days, so that all will have a chance of seeing it. Remember this is one of the better class pictures and not the low brow stuff.

8 REELS 8

WE HAVE THIS PICTURE IN OUR POSSESSION NOW, SO YOU WILL NOT BE DISAPPOINTED.

Admission—Adults 25cts. Children 10cts.

REV. C. W. COREY RESIGNS AS PASTOR

Rev. C. W. Corey, of the Lewisville Baptist Church, who conducted the United Protestant Services here last Sunday resigned his pastorate, through the following letter which was read to the congregation by Rev. B. H. Thomas who was supplying the pulpit in Mr. Corey's absence.

Lewisville, Aug. 5th.
To the Moncton Suburban U.B. Church
Dear Brethren and Sisters:

The opinion having been variously expressed that with the changed conditions brought about by the withdrawal of Sunny Brae from the pastoral group, that it would now be likely that a new grouping would be effected, I deem it advisable to withdraw from the field in order to give full freedom of action to the church for any readjustment deemed advisable.

The past three and one-half years of my pastorate have been peculiarly busy years. A new church has been organized at Sunny Brae, a new parsonage and a new church edifice have been built. These latter have been adequately insured, additional insurance has been added to the church building at Lewisville and insurance of the Cherryfield Church, that had lapsed some years ago, has been renewed. The Sabbath School has been greatly enlarged of late. Additions to the church while not large have been substantial. I wish that much more might have been accomplished in this respect, but am conscious that we must leave all results with the Lord of the harvest.

I appreciate the co-operation of the church and congregation in attaining the results secured. I am thankful, also, for the many kindnesses extended to Mrs. Corey and myself, and, assuring you of our best wishes and prayers, I hereby tender my resignation as pastor, to take effect at the conclusion of my vacation, which

CANDIDATES WHO WERE SUCCESSFUL

The examiners for matriculation and leaving examinations report that there were 275 candidates for matriculation and 61 for leaving. Of the matriculants 23 passed in First Division, 136 in the Second Division, 49 in the Third Division, 53 in the Third Division conditionally and 11 failed. Of the leaving candidates, 2 passed in the First Division, 26 in the Second Division, 17 in the Third Division, 13 in the Third Division conditionally and 3 failed.

Following are those from Newcastle and Chatham who passed in First and Second Divisions, arranged in order of merit.

Matriculation (Division I)
Byron W. Fleiger, Chatham Grammar
William A. Firth, Chatham Grammar
Matriculation (Division II)
Lucy C. Dionne, St. Michael Academy, Chatham.
Kathleen B. Sullivan, St. Michael Academy, Chatham.
Estelle G. Lobban, Chatham Grammar
M. Eileen King, Chatham Grammar.
Kathleen E. Doyle, St. Michael's Academy, Chatham.
Kathleen M. Reinsborough, St. Michael's Academy, Chatham.
Veronica K. Sullivan, St. Michael's Academy, Chatham.
Margaret Crocker, Harkin's Academy, Newcastle.
Adelaide E. Blackmore, Harkin's Academy, Newcastle.
J. Gordon Petrie, Harkins Academy, Newcastle.
Doris L. Groat, Chatham Grammar.
Anna Delaney, St. Michael's Academy, Chatham.
Stephen J. Campbell, Harkins Academy, Newcastle.
High School Leaving (Division II)
Gertrude A. Kilfoil, St. Mary's Academy, Newcastle.
Margaret A. McCurdy, Harkin's Academy, Newcastle.
Florence C. Kilfoil, St. Mary's Academy, Newcastle.
Helen E. Black, St. Mary's Academy, Newcastle.
Wm. A. Campbell, Harkins Academy, Newcastle.

WILL NOT ATTEMPT TO SHIELD PARIS

Truro People Want the Guilty Man Punished and Are Not Shielding Paris.

A prominent citizen of St. John who returned from Truro a day or two ago spoke interestingly of the attitude of Truro people toward John Paris. There is no sentiment there to shield Paris if he is guilty. Justice is what is demanded by even the colored population of that thriving Nova Scotia town, and none of them will go out of their way to put up any imaginary story for the prisoner.

There is some resentment, however over imprudent statements made in certain quarters of this province as to the wish of Truro people to get Paris clear at any cost. He said this was not a correct view of the situation at all. What the Truro people desire is justice. They think the crime was a fearful one and somebody should be punished for it.

Dance at the Beach Wednesday Evening August 9th.

AUGUST 4TH. DAY OF SAD MEMORIES

On June 28, 1914, at Sarajevo, in Bosnia, Archduke Francis Ferdinand, heir to the Austro-Hungarian throne was murdered. The first open sign of hostility had been given and the war cloud growing ever blacker, spread its dark shadow. On July 23, Austria-Hungary presented her ultimatum to Serbia. On July 28, Austria-Hungary declared war on Serbia. Three days later, on July 31 there was a general mobilization in Russia and a "state of war" was declared on Germany. On Aug. 1, Germany declared war on Russia and invaded Luxemburg. On Aug. 2, Germany sent her ultimatum to Belgium and the following day Germany declared war on France. Then came the fateful Aug. 4, when Great Britain declared war on Germany.

August the fourth, though a day of sad memories, is nevertheless one of fervent thankfulness that Right has triumphed over Might.

Murderers of Marshal Wilson Hanged Aug. 10

London, Aug. 3—Joseph O'Sullivan and Reginald Dunn, under sentence of death for the assassination of Field-Marshal Wilson, will be hanged on Aug. 10, it was announced this evening.

Failed To Swim British Channel

The French swimmer Poulley failed Saturday in attempt to swim the English Channel to Dover. Although when he entered the water at 8 o'clock favorable conditions prevailed, a light wind and smooth water, he gave up his task after four hours.

WATCHING MOTORS

Mr. Martin, M. L. A. says that steps have been taken by the government to issue new instructions to all road supervisors warning them to see that the laws in respect to motor cars and driving are strictly enforced. He himself will act quickly on any information given him and will treat such matters as strictly confidential.

ADMITTED HE

KILLED FARMER
DIGBY, N. S. Aug. 6—On Saturday afternoon, in a brief conversation with one of the officers of justice, Tebo admitted shooting Hutchins, a farmer, whose death was reported on Friday, and also stated that during the season he had killed communities in which he and Mrs. Corey are in any degree known.

HON. P. G. MAHONEY DIED SATURDAY

In the passing of Hon. P. G. Mahoney, whose death occurred about ten o'clock Saturday morning at his home in Melrose, Parish of Botsford, the County of Westmorland loses one of its foremost citizens and the Province of New Brunswick one of its leading men.

Prominent in the industrial, political and social life of the province it can be truly said that the County of Westmorland is much the poorer by the passing of Hon. Mr. Mahoney. As a business man with large stakes in the county and province, as an exponent of the political principles to which he gave such unwavering allegiance, as an advocate of all good measures calculated to benefit his native province, and the community in which he lived and as a personal friend he stood in the foremost ranks, enjoying the highest respect and esteem of all classes and being greatly admired by his intimate friends. To his wide circle of friends throughout the county and province, Hon. Mr. Mahoney's death comes as a distinct personal loss and his demise will be sincerely mourned.

The Hon. Patrick G. Mahoney was born in Melrose, Parish of Botsford, Westmorland County, March 4th, 1854 and was therefore in the sixty-ninth year of his age. He was a son of the late Denis Mahoney and Ellen Barry, both of Irish descent. He received his education in the common schools. He was married August 6th, 1880, to Mary Sweeney, a sister of the late Hon. F. J. Sweeney, and is survived by two sons and three daughters. The sons are George and Fred B. and the daughters are Gussie at home, Kathleen and Laura student nurses at the Roosevelt Hospital, New York, who were at home for their vacation at the time of their father's death.

In religion the late Mr. Mahoney was a devout Roman Catholic and he will be buried in the family lot in the Catholic Cemetery at Melrose. The funeral will be held Tuesday morning, service to be held in St. Bartholmew Church at 10 o'clock. The funeral cortege will leave the house at 9.30.

SECOND HARVEST EXCURSION AUG. 18

Canadian National Railways Will Run Additional Excursion to Western Wheat Fields

The first Harvest Excursion via Canadian National Railways proved a great success, many thousands of energetic workers taking advantage of the cheap rates from all Eastern Points to Winnipeg and the low fares prevailing to points beyond.

The splendid accommodation given the harvesters on the C. N. R. trains will doubtless appeal to those who contemplate going on the second of these great excursions on August 18th.

According to latest advices many men are still wanted to complete the tremendous job of garnering the bumper crop of golden grain.

Special trains will leave on Friday, August 18th. The fare to Winnipeg is \$22.00 plus one half cent per mile to points beyond.

The Canadian National gives the fastest and most comfortable train service from Maritime Provinces to the West. Nearest C. N. R. ticket agents will furnish all information covering rates.

CHICAGO WHEAT MARKET

Although uncertainty over the rail and coal strikes tend to lift prices a little in the wheat market, declines at profit taking on the part of traders at the last resulted from attempts who had bought early. The close was weak, 1 to 1/2 net lower, with September 7.05%. Corn lost 1/4 to 1/2 cents and oats 1/4 at 1/4 to 1/2 cent. In provisions the outcome varied, from seven cents decline to five cents advance.

SNELSON REPLIES TO CRITICISMS OF PRESS

The loyalty of the Montana press to the people of the state was defended by Pete Snelson, editor of the Billings Gazette and retiring president of the Montana State Press Association, in his address before the body during the annual convention at Missoula, last week. Mr. Snelson denounced as false and unwarranted charges which he said had been made against Montana newspapers by an individual representing a group of eastern bankers and investors.

The retiring president called attention to the fact that the Montana Development Association announced recently that more than 2,000 columns of publicity had been given by the newspapers of the state to the campaign for the advancement of summer tillage. Mr. Snelson's address in part was as follows:

"The crop year of 1921 was not a profitable one for Montana. At the close of the season the farmers were in the dumps because of the limited production and the low price for farm produce. The stock men were discouraged and many of them were literally hanging on by their eyebrows. A great industrial depression had closed the mines of Butte and the smelters of Anaconda and Great Falls and the saw mills of the lumber regions. Business generally was at a very low ebb.

"In the face of these difficulties the press of Montana has carried messages of cheer and optimism into the homes of the residents of the Treasurer state. There never has been a week when the newspapers of Montana have ceased to impress upon their readers that Montana is all right.

"Add to this the space which Montana newspapers annually bestow to the great educational work being carried on by the agricultural college extension service in all parts of the state; add the columns which the press of Montana has devoted to irrigation and the pleas that have been uttered for more ditches and

more water and better farming and better grade of livestock.

"There never has been a time when the press of Montana has not been found more than ready to support and to urge any and every forward looking movement calculated to build up the industries and develop the resources of the state, without hope of reward other than that which may be theirs as a result of the increased prosperity which might come to Montana and its people.

If any of you may think that I am giving undue emphasis to what the Montana newspapers have done for Montana people, I will say for your information that it has been recently called to my attention that the press of Montana has been seriously criticized by an individual representing a group of eastern bankers and commercial clubs that the Montana newspapers had been derelict in not printing more of what he was pleased to term 'sunshine news' and in placing undue emphasis upon gloom, as relating to 1922 crop prospects, conditions in the livestock and wool growing industries and in oil and mines development.

"I have resented the charge and have responded to it upon behalf of the Montana State Press Association, because it has carried the inference that the Montana newspapers are not alive to the best interests of their state and their people, are incompetent as newspapermen and are unworthy of the great trust reposed in them by the public."

OHIO NEWSPAPER SETS NEW RECORD WITH PAGEANT OF PROGRESS EDITION

Not only did the Marietta, Ohio, Daily Times hang up a record for newspaper size in that city, when it issued a 72 page "Pageant of Progress" edition on Friday, July 21, but it is probable that other records were shattered as to the number of inches drawn up and sold in a daily field of that size.

Before any public announcement had been made regarding the issuing of this edition, L. E. Toller, advertising manager of the Times, prepared 7,200 inches of copy, which he not only designed but wrote as well. This was turned out during a period of six weeks, in which the regular routine work was not sidetracked.

One month from the time that Mr. Toller started out to sell the advertising copy, the edition containing 7,609 inches of copy, advertising was issued. Ten full-page advertisements were drawn up and eleven sold; thirty-seven half-page ads were drawn up and thirty-six sold; twenty-four quarter pages, of which twenty-five sold; thirty-three twenty-inch ads, of which twelve sold. A number of the advertisers changed the size of the space submitted to them. The special edition also contained quite a number of both large and small ads which were prepared by stores which maintain their own advertising departments.

The edition, which helped make

ROYAL YEAST CAKES

MADE IN CANADA

The importance of Vitamins in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. Send name and address for free copy "Royal Yeast Cakes for Better Health."

E. W. GILLE COMPANY LIMITED
WINNIPEG TORONTO, CANADA MONTREAL

a slack month a busy one, carried advertising representing between \$2,500 and \$3,000. Mr. Toller suggested the number and designed the cover page, which was executed in the Times office.

In addition to the general write-ups of Marietta and vicinity, individual business write-ups of the firms were carried. The larger part of the news matter by L. N. Harness, city editor of the Times.

Fifteen trucks were used in the delivery of the papers in Marietta and vicinity and the delivery was accomplished in the usual time.

One page of this edition was devoted to the history of the Times, photographs of the entire force being shown. The Times has expanded from a four page, six-column paper with less than a thousand circulation to a ten-page, eight-column paper with a circulation of more than 6,000 since the present owners took charge.

Copies of this edition were mailed to chambers of commerce over the United States, going into every state that has organizations of this kind. Papers were also mailed the members of the Ohio Select List, of which the Times is a member.

Robert E. Ward represents the Times in the national field.

FOREST FIRE AT BAULD MT.

The increasing dry condition of the wooded portion of New Brunswick is resulting in greater fire risk. The Forest Division, Department of Lands and Mines, received a report last week of a fire on the headwaters of the Northwest Miramichi River. The lookout at Ashton Hill north of Newcastle and Red Pine in Gloucester County both observed the smoke Tuesday afternoon and by triangulation located the fire.

The cause of the fire is said to be lightning as it is doubtful if there have been any people where the fire occurred. A crew of men have been despatched to fight the fire.

The close watch for fires is being maintained in other parts of the province. There have been no reports.

BOTTOMLEY EXPELLED FROM THE BRITISH HOUSE

Horatio Bottomley, former editor of John Bull, has been expelled from the House of Commons by a vote of the members. After the Speaker had read a long letter from him that he was neither glibly or conscious of fraud and stating that he had been made "the victim of an appalling error of justice," the vote was taken. Horatio Bottomley was convicted at Old Bailey on May 29 on 23 out of 24 counts, charging him with fraudulently converting to his own use about £150,000 subscribed to his 'Victory' Bond and other clubs. He was sentenced to seven year's penal servitude. He was a member of parliament for South Hackney.

QUESTIONS AND ANSWERS ON FORESTRY

Questions and Answers on Forestry by the Canadian Forestry Association

Q. How many forest fires have taken place in Canada this year?

A. Approximately 3000. British Columbia had about 1400 and with Central Quebec passed through the worst fire experience in many years.

Q. For what purposes are aeroplanes and seaplanes used in forestry work?

A. In detection of fires for which they are admirably adapted, for carrying fire fighters to the point of danger, for carrying food and other supplies to rangers, for saving time in transporting fire inspectors and managers, for the survey of limits by photography, and the rapid and accurate examinations of terrain with a view to the most economical operation of timber limits. These are just a few of the day to day uses of aircraft in Ontario, Quebec, Manitoba and British Columbia. Fire rangers in B. C. and Quebec this summer have transported fire fighting pumps within one hour where the journey by land and water formerly required from fifteen hours to two days.

Q. Is there any court decision as to the right of a land owner to remove shade trees that are on a neighbor's property provided that such trees are running a lawn by their dense shade?

A. Recently a decision was given by an Old Country Justice denying the right of anyone to prune or trim the branches of trees reaching from a neighboring estate over his buildings and causing, so it was alleged, unhealthy conditions. We do not know of a similar Canadian decision.

Forest insects, once they attack an acre, work with incredible rapidity and deadly effect. They do not damage the soil, however, as is the case with fires. It is probably fair to say that the recovery of an area is more rapid after an insect attack than after a serious fire. Fires are steadily reducing the forest producing land, turning into dead wastes enormous stretches year after year.

Rev. Hugh Miller Accepts Call To St. John

At a meeting of the Miramichi Presbytery held in Campbellton on Friday last, Rev. Hugh Miller, pastor of St. Andrew's Church, accepted a call to St. David's Church, St. John. The local congregation made a strong plea to retain his services, but without avail.

Nervous Breakdown

The extreme depression and discouragement which comes over one at times is the most alarming symptom of nervous exhaustion.

This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes:—

"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The least noise would irritate me and at times I felt as though I certainly would go crazy. I consulted different doctors to no effect.

"A friend advised the use of Dr. Chase's Nerve Food and I can truly testify today to the great benefits received. There was a marked change before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall ever be ready to testify to the benefits of this wonderful medicine, feeling sure that it will give to others the quick and permanent relief it has given me."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

First Impressions Are Important

WILL TRY TO SWIM ENGLISH CHANNEL

Word comes from Europe that a number of swimmers of both sexes are preparing to attempt in August the crossing of the English Channel, a coveted goal of the world's greatest exponents of long distance swimming, and the approaching trial will be watched with keen interest, for among the prospective candidates are some stars of demonstrated ability and endurance.

Were merit the only gauge of success in undertaking the classic feat, indeed, it almost might be taken for granted that more than one of the slated swimmers would come through with flying colors. The art of notation has made wonderful strides in recent years and modern strokes afford greater speed on less effort than the old, so that present day swimmers are far better qualified for the test than their predecessors. It happens, though, that the Channel swim is to a large extent a luck swim, in which chance plays an important role, and this leaves ever in doubt the outcome of endeavors to make it.

The difficult problem which faces the Channel swimmer is to calculate accurately the speed which he can maintain against the long trip and the ebb and flow of the tidal currents. In order to complete the crossing he must reach the opposite shore within the confines of the jutting capes which form the narrow strait between Dover and Calais, for beyond the capes the shores recede suddenly on both sides, increasing rapidly the distance between England and France. Now the tide runs a mile race through the strait, so that the swimmer will be carried swiftly in one direction by the ebb, in the other by the flood, virtually at right angles to the course. Also during the ebb he will find the current driving him off the beach as he nears land. It is necessary, therefore, for him to so arrange the start that by the time he approaches the goal he will find himself directly between Dover and Calais, with the tide flooding. If he miscalculates, the current will lead him out of the strait and doom him to defeat, or fight

BEAUTY OF THE SKIN
is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample free if you mention this paper.

Dr. Chase's Ointment

against him at the end and prevent his landing. The problem is complicated, too, by the fact that there is no assurance that conditions encountered at the start will prevail throughout the trip. One may set out in still weather, sea as smooth as a mirror, and within a few hours a still breeze may be whipping the water into seething combers, the most careful estimates of speed then going for naught. Actually, it will be seen, the Channel swimmer gambles on the weather and on the ability of his handlers to figure the pace he will hold under varying conditions.

It is for these reasons that men undoubtedly able to cover in still water a longer course than the twenty-mile route from Dover to Calais have failed repeatedly in their efforts to conquer the Channel. They possessed the necessary speed and endurance to succeed, but they guessed wrong. A notable instance is Jabez Wolfe, of England, a swimmer of exceptional ability. Several times he has come within an ace of effecting the crossing in fourteen to fifteen hours, or seven to eight hours under the times for the course made by Webb and Burgess, the only men credited officially with completing the route. But in each case he was a bit off in his calculations and contrary tides drove him off as he seemed sure of touching land. Fortune must favor if the Channel swim is to be accomplished.

A GREAT BENEFACTOR
Dr. Alexander Graham Bell, inventor of the telephone, who passed away Wednesday at his summer home in Cape Breton, was one of the greatest scientists of this or any other age. A native of Scotland he came to the new world in the seventies and for a time was a resident of Brantford, Ont. It was in Brantford that he perfected his wonderful invention and that flourishing Ontario city is proud today to style itself, the telephone city. By inventing and perfecting the telephone Dr. Bell conferred a priceless boon on the human race, and in his case it can be truly said that the world is better because of his life and deeds. The name of Dr. Bell will go down in history as that of one of the greatest benefactors of mankind.

NO NEW CASE OF INFANTILE PARALYSIS AT HAMILTON
Hamilton, Ont. Aug. 3.—No new cases of infantile paralysis were reported and the authorities expressed the hope that the outbreak has been checked.

HALIFAX SUMMER CARNIVAL WILL BE FLAG WEEK

It would be difficult to surpass the brilliant program the committee have drawn up for the Halifax Summer Carnival—August 7 to 12 inclusive—which will also be Flag Week. Nothing like it for novelty, variety, and salient features has been planned at any previous gala week in the city, and the scope of the attractions will make the Halifax Summer Carnival as interesting to the whole province as to the metropolis.

The greatest novelty and most impressive feature will be the parade of 3,000 American sailors and Officers, not under arms, including 600 men and 60 officers and 1700 midshipmen (in training from Annapolis Naval Academy) all from the United States Atlantic Squadron, together with 250 men and 35 officers from the United States Flagship Olympia. The Squadron is now at St. Kitts, but United States Consul General Gonsaulus has used his influence successfully to have the squadron visit Halifax as a unique feature of the Carnival. The committee is negotiating with the proper authorities to have British and French battleships come to Halifax for the occasion. Should these ships be allowed to be present, the complements of the British, French and American battleships and cruisers will form up on Tuesday, August 8, second day of the Carnival and the grand processions will be known as "The Parade of the Allies." This will be a spectacle not witnessed in any country since the great Peace Parade in London at the close of the war.

The Carnival will open on Monday, August 7, with a parade under the auspices of the Halifax Fire Department. But it will not be an exclusive firemen's affair. The whole city will enter into the spirit of the Carnival, and on that day the various clubs, institutions, and business firms of the city will cooperate with floats and other gala auxiliaries. Besides, Carnival Week, being Flag Week, all householders and business firms will be expected to decorate their properties with at least one flag of conspicuous size, and to add smaller flags in other decorative designs. The first day will be climaxed with a grand open air concert of instrumental and vocal music in the Public Gardens, and a brilliant Children's Pageant, the children to be garbed in variegated dress and to perform Rainbow dances and grand marches, and various evolutions that belong to pageants.

This but partially indicates the scope and spirit of the carnival. Every morning, afternoon and evening will have its special features. There will be parades, concerts (open air), field sports, regattas, yacht races for the coronation cup and for other trophies, three days of harness horse-racing, international baseball games, athletic and boxing tournaments, illuminations and band concerts at the Waegwoltic and other clubs on the Northwest Arm; and special pageants of the members of various conventions which are scheduled to meet in Halifax during the Carnival week.

3,594 are registered with the Canadian National Institute for the Blind. Canada's estimated voting strength, 3,000,000 almost half being women.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetylsalicylic acid of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

LIPTON WILL MAKE ONE MORE TRY FOR THE CUP

From information obtained it appears that Sir Thomas Lipton will make one more try to win the America's Cup.

The Irish baronet will be in this country early in September, according to one of the managers of the Lipton plant in Hoboken, and at that time will make preliminary plans to challenge for a race in 1923. It is believed he may try with a schooner this time.

The fact that Sir Thomas, who has made four unsuccessful attempts to capture the classic trophy, cabled recently to his attorney, Willard U. Taylor, Wall street, indicating that he might race again, became known last week. This cablegram was in reply to one sent by Mr. Taylor in reference to an offer made by a local yachtman to purchase the 23 meter Shamrock which is laid up, along with the challenger, Shamrock IV., at Jacob's yard, City Island.

Sir Thomas' reply to the offer was "Do not sell. May race again." Soon after this cable was received another one came along from Sir Thomas directing that the 23 meter boat be put in condition and kept in apple order. Work is now going on at Jacob's yards in accordance with Sir Thomas' instructions.

BANKS DO NOT APPEAL TO THIS MILLIONAIRE
Russia now boasts of several "trillionaires." These are men who have made fortunes in Russian currency, and count this wealth in astronomical figures. One speculator is credited with profits of \$4,000,000 which amounts to 15,000,000,000 rubles. He is putting his wealth into gold, silver and jewels, and the stabler currencies of foreign countries.

MONTREAL HORSESHOER CHARGED WITH STEALING RACE HORSE
Con 'e Mole, of Montreal, horse-shoe, was committed to stand trial August 8 on a charge of stealing the race horse "Sevillian" from its owner, Patrick J. Smith.

Smith stated he had loaned the horse to Mole, who was in his employ. When he discharged him, Mole refused to give up possession of the horse. Smith denied that the horse had been taken from Mount Royal track to Kempton Park with his consent.

REFORM IN THE APPOINTMENT OF CLERGYMEN

Reform in the matter of the system of appointing ministers to Presbyterian churches in Canada is a subject which has resulted in a new movement in Presbyterian circles. Those behind the movement condemn the present system, which makes it necessary for the average minister, and also the young student just from college, "to go campaigning." As a remedy, it is suggested that there be a time limit followed by a re-induction under the supervision of something like a church, stationing committee. Four year terms are suggested.

One-fourth of the congregations in each presbytery would vacate on a fixed date each year, in order to preserve continuity. The usage as to call would be preserved as long as the call was completed in order and accepted provisionally, three months previous to the terminal date. A second term for the incumbent would be in order under call, but the committee would have to assure itself that the call was practically unanimous. The stationing committee in the final three months could arrange to fill all anticipated vacancies and place all available ministers.

DR. BELL WORKED ON PROCESS TO DISTILL SALT WATER
Dr. Alexander Graham Bell, who spent last winter at the home of his son-in-law, Dr. David Fairfield, at Cocoa Nut Grove, Florida, devoted much of his time to an attempt to develop a process to distill salt water in the event of disaster at sea, an invention which he declared, would be of great benefit to the human race. He had not completed his experiments when he left for the north.

TUESDAY, AUGUST 8, 1922

LEST WE FORGET
Last Friday, August the 4th, brought to mind once more, the memorable same date of eight years ago when the British Empire and the rest of the world received the shock of the declaration of the most disastrous war the nations of Earth have ever witnessed, or taken part in.

Lost to all sense of honor, and the sacredness of treaties, Germany refused to let Belgium alone. The treaty became to her military power only "a scrap of paper," and as such only fit to be disregarded, as something which interfered with German will, and dictation.

tempt, save in the disordered minds of the craven tools still to be found within her own borders. The Allies made a terrible mistake when they did not carry right on through German soil, and give a home thrust there,—which would have given them a sample of the devastation they had worked in France.

And in the great struggle, our Canadian boys like true sons of the Empire, as they are, feared not to enter the conflict, and rush to battle for the right. England herself had gone into the fight, but poorly prepared, but her millions of people, soon furnished one of the grandest armies of all time.

Here in Newcastle, there are some who cannot still the anguish for the loss of dear ones, whose remains rest somewhere in France and Flanders fields. Year after year, during the war, the sad story of the dying and dead, came to many a home, yet amid the sorrow and weeping, there was still the thought; they had fought a heroic fight, and filled the graves of heroes.

THE INCOME TAX
The Retail Merchants Association of Quebec is making a demand for the abolition of the income tax as well as of the stamp taxes on checks, receipts, etc.

TOO LITTLE BLOOD

The Cause of Nearly All Every-Day Ailments of Life

Too little blood is what makes people look pale and sallow and feel languid. That is what makes them hungry, unable to digest their food, breathless after slight exertion, so that it is wearisome even to go up stairs.

More weak, anaemia people have been made strong, energetic and cheerful by taking Dr. Williams' Pink Pills than by any other means. These pills enrich and renew the blood, which reaches every part of the body, strengthens the nerves, and brings new health and vitality.

THE HARVEST EXCURSIONS
August 4th and 18th From Moncton 40,000 Harvesters Needed to Garner Bumper Crop.

Canada's bumper crop of golden grain stands ready for harvesting, and the cry has gone forth for workers to garner in the wealth of our western wheat fields.

There is little to show that the income tax is borne by this class. There is little to show that the income tax bears with undue severity on the ordinary salaried classes and, certainly, little proof that a further increase in the sales tax is preferable to this form of levy.

Dance at the Beach Wednesday Evening August 9th.
WILL BE APPEALED
In the case of W. Malcolm Mackay, Ltd., vs British American Insurance Company, judgement was given at St. John Saturday afternoon for the defendant with costs by Mr. Chandler who said that he did not intend to enter into a discussion of the points of law involved in the case on circuit and would leave this to be dealt with by the Appeal Court.

The highest or any Tender not necessarily accepted, the deposits of unsuccessful Tenders will be returned and in the event of the successful Tenderers not completing the terms of the sale, their deposits will be forfeited as a penalty.

The Canada Permanent Trust Co. Authorized Trustee, Box 640, St. John, N. B.

BRITAIN'S NOTE ON ALLIED DEBTS

London, Aug. 2.—The British Government's note to Great Britain's Allies in the great war, reminding them that they owe Great Britain money and that she has a right to ask for payment, has thrown wide open the most delicate topic in international politics. The discussion of the question of debts owed to Great Britain had been studiously avoided by all concerned, apparently with a view, on the part of the creditor nation, that the time for grasping that question might most conveniently be indefinitely postponed.

The most cheerful view of the effect of the Earl of Balfour's note, discoverable today was that it will afford an understanding all around of what are the policies and intentions of the Governments concerned. It is alleged that, next to reputation, or an equivalent plea of inability to pay, uncertainty is probably the worse damage which Europe and the world of business could continue to suffer.

Policies To Be Made Clear Within a few days—The next week's conference between Premier Lloyd George and Poincare, the policies of both Britain and France should be made clear. The French position in one vital respect already is plain—that all European post-war indebtedness is linked together with any solution of the situation must depend upon what Germany may be willing or be forced to do.

As it is understood here from the Paris correspondents of the London newspapers, France considers that any concessions to Germany in the matter of reparations, and in help by a foreign loan, should be balanced by similar concessions to France. Newspaper opinion is divided on the point whether Mr. Lloyd George's conference with M. Poincare will now be confined to a plan for dealing with Germany, or whether Lord Balfour's note will not force considerations of the wider field of inter-allied debts. There is much curiosity among the public as to what important members of the Cabinet were responsible for the strong line Lord Balfour's note takes since it is believed there is considerable differences of opinion in the Cabinet.

Also there is curiosity as to how far the advice of Sir Auckland Geddes, British Ambassador to the United States, contributed to the forming of the note, since Sir Auckland's visit home was supposed to be mainly for a conference on the United States debt.

Reuter's Limited, says today: "It is stated that representatives of American financial interests who happen to be in London, have expressed to Great Britain to cancel debts owing to her been acted on the United States would—probably not immediately, but after the general elections—have been morally compelled to follow the British lead."

Reuter's also says it is the view in allied financial quarters here that the only immediate possibility of paying debts is by obtaining money from Germany, and if Germany is unable to pay the moratorium asked for by Germany must be given to others.

Meet Cold Reception Washington, Aug 2.—Suggestion by the British Government in its note to various European nations that there be a general cancellation of the war debts, met with a cold reception, today, from Senate leaders Republicans and Democrats alike.

"We never will," was the emphatic statement made by Senator McCumber, of North Dakota, Chairman of the Finance Committee, which has charge of all fiscal policies so far as the Senate is concerned, and other Senators in private statements were, for the most part, equally hostile to

COULD HARDLY MOVE IN HER BED

Eight Boxes of "FRUIT-A-TIVES" Completely Relieved Her.

MADAM J. RICHER
Labelle, P.Q., April 18th, 1921

"It is my duty to tell you and publish to all what your remedy 'Fruitatives' has done for me.

I suffered with Rheumatism for ten months; could hardly move in bed, and was miserable all the time. I tried several physicians and took many remedies, but they left me at the same place, in bed and suffering, the Rheumatism was so bad.

Finally started in taking 'Fruitatives' and continued the treatment regularly as I found myself getting better. After using eight boxes of 'Fruitatives' (which cost only \$4.) I am completely well without a trace of Rheumatism."

Madam J. RICHER,

50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruitatives Limited, Ottawa.

the British suggestion. Especially antagonistic were Senators of the "old irreconcilable" group, and Senator Hitchcock, of Nebraska, ranking Democrat member of the Foreign Relations Committee and its former chairman, was quoted as saying that any such plan appeared to be without a possibility of United States' support.

"The question of Great Britain cancelling her debts is one for herself," said Senator McCumber. "What she does with respect to her debtors is a matter for herself. Our policy towards ours is our own affair. We never will consent to cancellation of the war debt, Great Britain's or any other nation's, in my opinion."

State Department officials again declined to comment on the British note saying they wished, before discussing it, to study the text of the note which is being forwarded to Washington by the United States Embassy at London.

Keep Children Well During Hot Weather

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if the trouble comes, suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

IMPATIENCE EXPRESSED

Candidates in the Matriculation and High School Leaving Examinations have been notified of their marks personal notification having been issued from the Education Office last Saturday. The pass lists are ready but there is delay in their issue because of a regulation preventing their publication in the absence of Chief Supt. Carter who is away. The delay is causing some impatience.

ST. ANNE DE BEAUPRE

Although tentative plans had been made for the immediate reconstruction of the Basilica of St. Anne de Beupre, destroyed by fire last March, it is now learned that nothing will be done until after the collection has been taken up in all the Catholic churches of Canada on the first Sunday in September.

It is the intention of the Redemptorist Fathers to make the new temple one of the finest in the world. The Fathers have offers of plans from some of the leading architects in Europe and America, but it is unlikely that any decision in this connection will be reached before early next year.

BANK OF NOVA SCOTIA SMALL STOCK ISSUE

TORONTO, Aug. 1.—The Bank of Nova Scotia is making a small issue of new capital stock to the amount of \$300,000. At present the issued and paid up capital of the bank is \$9,700,000 and the proposed new stock will bring the capital up to around ten million dollars, the reserve fund being \$19,465,000. Notices are being sent out to the shareholders offering them the new issue in proportion to their holdings at a price of \$255 a share.

STRIKE VOTE IS TAKEN AMONG C.N.R. CLERKS

In consequence of the recent reduction in wages on the Canadian Railways a strike vote is being taken among the clerks in the C. N. R. offices at Moncton in conjunction with the vote being taken by the C. B. of R. E. all over the system. A Board of Conciliation has been appointed to deal with the reduction of salaries of C. B. of R. E. members, but has not yet got down to work.

QUEBEC MERCHANTS IN OPPOSITION TO SOME TAXES

The Province of Quebec branch of the Retail Merchants' Association of Canada has passed a resolution placing itself on record as opposing the income tax, the tax on receipts, on checks and the like and asked that these taxes be abolished.

COLD IN THE HEAD

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System and render attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous surfaces of the System, thus reducing the inflammation and assisting Nature in restoring normal conditions.

SAYS ALLIES NOW FACING A BIG CRISIS

Europe's back is against the wall Myron T. Herick American Ambassador to France declared upon his arrival from his European post. He likens the present situation to the position of the Allies when General Haig's stirring message went forth to the world.

"Following Haig's call" he explained there was the complete mobilization of all forces to combat the invader and the result was victory. There will have to be some such mobilization in the present crisis if Europe is to be saved from financial disaster."

In describing the present condition of France the Ambassador said there is practically no unemployment and that on July 1 the government was paying unemployment allowances to but 4,000 people out of a total population of about 40,000,000. The people are undiscouraged and uncompromising. Their crops this year are better than was expected but not so big as the bumper crop of 1921, he said.

The French are reluctant about advertising their virtues," he continued. "Despite the financial depression they have spent \$3 billions of francs in restoring the devastated areas this while awaiting for the too long delayed reparations payments."

THE NATIONAL WAY ACROSS CANADA

Canadian National Rail Services are the Acme of Travel Comfort

From the Atlantic Provinces to the West and to the Pacific, the ideal rail route is via Canadian National, "The National Way."

Whether on business or on pleasure bound the traveller has the advantages of a through rail service that is unexcelled for excellence. The finest equipment of all steel trains is furnished and the most modern of standard sleepers, compartments cars, and modern diners.

From Maritime Province points there is the best of service to Montreal via the "Ocean Limited" and "Maritime Express."

From Bonaventure Station, Montreal, the famous "Continental Limited" leaves daily at 9.00 P. M. for Ottawa, North Bay, Cochrane and Vancouver. This is the finest of through Transcontinental Service, the equipment of these Canadian National trains being of the most modern standard.

Ticket Agents of the Canadian National Railways will afford enquirers all the detailed information regarding these services. Enquiries addressed to the General Passenger Department, Moncton, will be promptly replied to, and booklets describing the territory will be mailed. 30-4

MORE ABOUT WALKING

Rev. Arthur Barry McNeill, C. S. C., of Notre Dame, offers some interesting facts about walking in a note to the Tribune. The value of walking as an exercise is perhaps not generally realized. Few men of forty walk six miles a day for exercise, but this is what they should do if they wish to keep in physical trim.

"Just to keep the record straight, perhaps you will allow me to add a postscript to the story of my walking and your kindly editorial comment thereon. The aggregate of 65,000 miles, registered by my pedometer represents my pedestrianizing, not during my whole life time, but during the last quarter of that period, sixteen years. I began my systematic walking, 12 miles a day, in 1906.

"The same author, by the way, states that the average strong man of forty who is engaged in sedentary work should walk nine miles a day, that is, six miles for exercise, pure and simple, and he adds 'women of medium stature and ordinary strength need to walk daily from four to six miles.' Incidentally, Dr. Kintzing declares that after fifty the distance may be reduced ten per cent each decade." In deference to his authority, I have recently reduced my daily distance from twelve miles to ten."

Canada's new farthest north Royal Canadian Mounted Police post has been set up at extreme north of Baffin's Land.

PARIS TRIALS COST \$10,000

St. John, Aug. 2—Just one year ago today there was committed a crime, one of the most brutal on record in this country, the murder of little Sadie McAuley, for which John Paris has already been tried four times and must face a fifth trial September. This case has cost the taxpayers of the municipality of the City and County of St. John a sum in excess of \$10,000, and the fifth trial will add at least another \$2,500 to that amount.

Of the forty-eight jurymen who have pronounced on the case thirty-six have said he was guilty, and three of the trials resulted in disagreements, and a verdict in the other, when he was found guilty. The Journal, yesterday, was able to get some figures on the cost of the trials. The second trial cost about \$2,500, the third was the most costly of all four, and all the bills are not yet for that. Only a few of the bills have yet been received for the last trial, but it will probably cost at least as much as the second. Included in the bills for the second trial was one of \$866 for board for the jury, while the case was on. One bill, which has been received for this last trial, is for \$12 for shaving the jurymen, and this was ordered paid by Judge Chandler.

Anniversary of Murder

Just one year ago this morning little Sadie McAuley, accompanied her chum, Hattie LeVigne, to Douglas Avenue, the latter taking her father's dinner to him, and later the two girls started out to pick some berries.

According to the story told by the LeVigne girl, after they had been picking for some time a man approached them and offered to show them where larger berries were to be found, and Sadie went with him. This was the last seen of her alive and, one week later, her mangled body was found buried under a large stone, in a clump of bushes just back of the Hilyard property next to the Riverview Park.

The Police made every attempt to trace the murderer and a Pinkerton man was brought here to aid in the search. Numbers of men, all over the country, were taken into custody and examined, among them John Paris, who, at that time, was allowed to go. Later, Walter Humphries told the police that John Paris had confessed to him that he had committed the deed, and Paris was again arrested and placed on trial.

In the first trial the Crown was represented by Dr. W. B. Wallace, K. C. In the other three trials Attorney General Byrne has conducted the prosecution, Dr. W. B. Wallace being associate counsel. At all trials the prisoner has been defended by G. H. Vernon, K. C., of Truro, who has put up a strenuous fight to save his client's life. Both Attorney-General Byrne and Mr. Vernon, left for their respective homes yesterday to prepare for the coming battle in September.

Canada has created an antelope preserve, in Alberta, with 100 animals of the total existing, 800-900.

REMARKABLE LETTER

Canadian Woman Recommends Lydia E. Pinkham's Vegetable Compound

Winnipeg, Manitoba.—"I can't speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Life was a misery and work was a burden. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said that he could do nothing for me owing to my condition, but told me to expect another miscarriage. My husband's grandmother advised me to take Lydia E. Pinkham's Vegetable Compound. I started it right away and everyone noticed what a different woman I was in a short time. I went and engaged my doctor and he did not know me, I was so well. I was able to do my work once more and I was a pleasure, not a burden. Now I have a 'fine bouncing baby' to use the doctor's own words. I am able to nurse her and enjoy doing my work. I can not help recommending such a medicine, and anyone seeing me before I took it and seeing me now, can see what it does for me. What it has done for me it can do for anyone in the same condition. I am only too pleased for you to use my testimonial."—Mrs. EMERY DAVIS, 241 McGee St., Winnipeg, Manitoba.

USE BEAVER FLOUR and Improve Your Bakings
BEAVER FLOUR contains all the richness and goodness of Ontario Winter Wheat combined with enough Western Hard Wheat to give it strength.

D. 1922 at the hour of two o'clock in the afternoon, the lands and premises conveyed by the said Mortgage and therein described as follows:—

PUBLIC NOTICE IS HEREBY GIVEN that under Power of Sale contained in a Mortgage dated the Twenty-third day of July, A. D. 1921, given and executed by the Southampton Lumber Company, Limited to The Royal Bank of Canada, and registered as Number 27 in Volume 108, pages 267 to 274, on the Twenty-fifth day of July, A. D. 1921, in the Registry Office for the County of Northumberland, there will be sold at Public Auction at or near the Post Office in the Town of Newcastle, Northumberland County, on Wednesday the Twenty-third day of August, A. D. 1922 at the hour of two o'clock in the afternoon, the leasehold lands and premises conveyed by the said Mortgage and therein described as follows:—

All that certain lot, piece or parcel of land situate, lying and being in the Parish of Queensbury in the County of York in the said Province of New Brunswick conveyed to the said Company by Frank D. Swim by Indenture bearing date the Eleventh day of July, A. D. 1921 and therein bounded and described as follows:—The rear portion of the farm now owned and occupied by the said Hanford L. Hagerman at the said Parish of Queensbury, conveyed to the said Hanford L. Hagerman by Ira Hagerman and wife, by Deed bearing date the fourth day of December, A. D. 1914, and registered in York County Records in Book 167, at page 662, the fourth day of May, A. D. 1918, the portion herein conveyed being bounded as follows:— on the lower or northeasterly side by land owned by the Fraser Companies, Limited, formerly owned and occupied by Ernest Hazelton, on the rear by land formerly owned by the New Brunswick and Nova Scotia Land Company, on the upper or northwest side by land in the possession of Peculiar Manuel, and on the front by a line starting at a point on the said upper line distant sixty rods southwesterly from the point (so-called) crosses the upper line, running at right angles across the said lot to the opposite or lower side." Together with all and singular the buildings, fences, and improvements thereon. DATED THE THIRTEENTH DAY OF JULY, A. D. 1922. THE ROYAL BANK OF CANADA Powell & Mersereau 29-4 Solicitors

All that certain lot, piece or parcel of land and premises situate, lying and being northwesterly bank or shore of Miramichi River in the Parish of Blissfield in the County of Northumberland, and bounded and described as follows:—Beginning at a ditch situate twenty-nine feet westerly from the southwest corner of the mill erected on the lands and premises herein demised, thence easterly along the north shore of the Southwest Branch of the Miramichi River a distance of thirty-seven rods to a spruce tree, thence Northerly to the right of way of the Canadian National Railway, thence Westerly along the easterly side of the Canadian National Railways right of way to a ditch, a distance of thirty seven rods thence Southerly to the bank or shore of the main Southwest Miramichi River, to the place of beginning, containing by estimation acres, more or less, and being a portion of the farm premises of the said James W. Swim situate on the northerly side of the Miramichi River, in the Parish of Blissfield aforesaid, Together with the exclusive right to use the shore along the land in front of the said described lands and premises. Also the right to use the shore extending from the said demised premises to the high way bridge for the erection, construction, maintenance and operation of booms and blocks, together with the right to use the landing of the said James W. Swim, provided, however, that the use of said landing shall not inconvenience the said James W. Swim in the use thereof. Also the right to convey water by conduits, pipes or other means over, upon, through and under the lands of the said James W. Swim to the mill of the said Lessees, and to connect pipes and use the surplus water from the pipes of James W. Swim at his residence for a supply of water for the mill of the said Lessees. Provided, however, that only surplus water shall be taken from the pipes of the said James W. Swim; it being distinctly understood that the use of such water is not to diminish the amount required by the said James W. Swim for his domestic purposes; reserving unto the said James W. Swim, his heirs and assigns a right of way for teams and vehicles across the lands hereby under lease, at all seasons of the year, at such places as may be from time to time agreed upon between the parties hereto or convenient to the Lessees." Together with all and singular the buildings, fences and improvements thereon. DATED THE THIRTEENTH DAY OF JULY, A. D. 1922. THE ROYAL BANK OF CANADA Powell & Mersereau, 29-4 Solicitors.

Churches

Midweek service, Wednesday in St. James' Hall, at 7.30 p. m. Services in Bule School House every Second Thursday at 7.30 p. m.

Strangers are cordially invited to these services.

At the above services all seats are free —Ushers in attendance.

40,000 United Empire Loyalists entered Canada after 1784.

Canada has 174 steam and 64 electric railway companies.

Foreign countries have 300 consuls and vice-consuls in Canada.

Local and General News.

SUNDAY SCHOOL PICNIC
To-morrow (weather permitting) St. Andrew's Sunday School picnic will be held at Wilson's Point.

MIRAMICHI HOSPITAL
The Secretary begs to acknowledge the following subscription: Fraser Companies, Ltd. Payroll Subscription, \$170.53

COUNTY COURT
The County Court postponed from July 25 owing to the illness of the presiding Judge, will convene at the Court House, Newcastle, today. There are several civil court cases, but there are prospects of settlement in some of the suits to be entered.

ANNUAL RETREAT
The annual retreat of the clergy of Chatham Catholic Diocese will take place at Bathurst, opening to-day. His Lordship Bishop Chaisson will preside. The retreat will continue until following Friday. Several of the clergy will then proceed to Grand Pre for an important church celebration there.

JUDGMENT RESERVED
In Supreme Court Chambers, Tuesday at St. John before Mr. Justice Barry, the hearing of evidence in the case of the Workmen's Compensation Board vs the Bathurst Lumber Co., was concluded. Judgment was reserved. The sitting was held merely for the purpose of having submitted in evidence a certain order-in-council. Dr. W. B. Wallace K. C. appeared for the plaintiffs and M. G. Teed, K. C. for the defendant Company.

EXPLANATION
The Opera House management wishes to explain to their patrons, who were present last evening (Monday) to witness the picture entitled "Salvage," that this picture was badly mutilated by the censors and unknown to the management until shown on the screen Monday evening. To any person or persons who feel that the picture as shown, was not worth the price of admission the management will be pleased to refund the admission price or admit free to any future show, if the party or parties will apply at the ticket office.

THE TRIFTS MURDER
Nearly a month has elapsed since the brutal murder of Frederick H. Trifts, 27 Charles Street, St. John, N. B. who was found about 5 o'clock on the morning of July 6th by George Rose, beaten to death in his McLaughlin sedan car, on Douglas avenue, near River-view Park, where little Sadie McAuley was found murdered about a year before. The detectives have been working faithfully on the case, but have been unable to find any trace of the person or persons who are responsible for the frightful crime, or to find any reason for the murder.

SALMON AND GAME FISH
There are no salmon rivers which surpass the rivers of the Maritime Provinces in the annals of sport. Such famous salmon waters as the Restigouche, Miramichi, Margaree, St. John, and a host of others, are amongst the most productive angling waters in the world while speckled trout, in smaller streams and the migratory sea-trout in the estuaries, afford unequalled recreation to anglers from all quarters. The striped sea bass, the tuna and sword-fish, also occur in abundance, and tourists are year by year increasing in numbers attracted by the facilities for trying their skill with the fly, or with bait. The land-locked salmon is found in Chamcook Lakes, and other Maritime waters, and ranks amongst the finest fish. The sea-trout found in all the streams of the Bay of Fundy, and especially in eastern Nova Scotia, Prince Edward Island, and northern New Brunswick, are widely known for their weight and fighting qualities.—Busy East.

SUMMER COLDS
usually leave a trail of weakness. Build up on **Scott's Emulsion**
It promptly, pleasantly and effectually adds strength to the body. *It builds up resistance!*
Scott & Bown, Toronto, Ont.

UNITED SERVICES
The Protestant United services last Sunday were conducted by Rev. C. W. Corey, pastor of the Suburban Baptist Church, Lewisville, N. B.

APPOINTMENT
Mr. W. F. Comeau, of Newcastle has been appointed Authorized Trustee for the Province of New Brunswick, under the Bankruptcy Act.

GOOD HAY WEATHER
The farmers have had great hay-making weather. Bright, warm, sunshine every day and only one tenth inch of rain during the whole season. By this time the greater portion of the big hay crop is safely garnered.

THE WOODSTOCK FAIR
The prize list for the Woodstock Exhibition to be held on September 12th to 15th has been issued and copies are now being distributed. The Management of the show has been taken over by Mr. R. F. Armstrong who is also town manager.

FOREST FIRE
The department of Land and Mines received a report last week from Coun. Savoie of Rogersville, Northumberland County, that a forest fire had been observed some ten miles west of that place at the head of Pleasant Ridge.

PUMPED OUT TANKS
The Chatham fire engine was put to work Wednesday evening pumping out the 24000 gallon tanks recently installed for oil and gasoline by the W. S. Loggie Co. Ltd. and which had been weighted down by water. The engine itself is now being furnished up with a new coat of paint.

G. W. V. A.
The G. W. V. A. are holding a monster fair today on the Exhibition Grounds, Chatham. A game of baseball between Richibucto and Chatham is scheduled and extra attractions of all kinds will be held and a Band will be in attendance throughout the day and evening.

BELEYEA DEFEATED
Paul V. Costello, of the vesper Boat Club, Philadelphia, was crowned American amateur champion in the Golden Jubilee, National Regatta on Saturday when he beat Hilton A. Belyea, of St. John, N. B., Canada, by five feet in a gruelling struggle. Costello's time was 7 minutes, 27 1/2 seconds.

PICNIC
The Chatham St. Mary's church picnic was held Wednesday at Oak Point. Over 300 members of the congregation went down on the Alexandra and had a fine day under exceptional weather conditions. Races and games provided lots of fun for the children and the usual good spread of picnic viands made the day one long to be remembered by them.

FIRE REPORTED OUT
The forest fire on the headwaters of the Northwest Miramichi some sixty miles from Newcastle is reported out. A crew is remaining to extinguish the last embers. About nine hundred acres of second growth were covered by the fire. A crew went in from Wayerton a distance of forty-two miles. The province now is clear of fires and the rains have been general.

CAPT. AND MRS. GOODWIN RECEIVE FAREWELL ORDERS
Capt. and Mrs. J. A. Goodwin have received their farewell orders and will leave Newcastle on the 24th of this month. The appointment orders have not yet been received but the Captain and his wife volunteered some time ago for British Burma, and since doing so, have been asked by Headquarters if they would accept an appointment in India, to which they replied in the affirmative. Possibly the announcement of their appointment will be made in our next issue.

NEW VEGETABLE ACT
The attention of retail merchants and dealers is drawn to a section of the recently passed root and vegetable act which is now in force. This section reads: "All potatoes, onions, artichokes, beets, carrots, parsnips, and turnips offered for sale shall be sold by weight and the standard pound avoirdupois shall be the unit for the weight used." This section, however, does not apply to vegetables offered for sale with top leaves attached, such as bunched carrots, bunched beets, etc."

BORN
At South Nelson, August 6th, to Mr. and Mrs. Hazen Patterson, a son

LEFT FOR THE WEST
A number of local young men left last Friday on the Harvest Excursion train for the west.

BASEBALL
The Chatham baseball aggregation went over to Richibucto, Wednesday evening for a friendly game of ball with the base-ball artists of Kent County, and won out by the decisive score of 8 to 2.

QUO VADIS
One of the best pictures ever shown here was Quo Vadis, which was screened at the Opera House last Friday evening. A large audience was present and all were perfectly satisfied. The management of the Opera House is to be congratulated on procuring such a high standard of pictures for the community.

ACCIDENTAL DEATH
Mrs. George McKay has received the following particulars from Mr. L. Griffin, Supt. C. N. R. at Edmondston, concerning the death of her husband.
"Mr. McKay was employed as cook in a B. & N. gang under Foreman McGovern, working at Quisibis and, from the information I have been able to obtain, this gang was moving from Quisibis on the morning of the 21st and Mr. McKay walked with us to his village for supplies obtained as usual on the morning of July 21st on foot he was struck by an auto on a public crossing, near Siegas Bridge and killed. The remains were taken to Quisibis to await instructions of the coroner who wanted the remains brought to Edmondston for inquest which was held on July 21st, and a verdict of accidental death was rendered and it was found there was no criminal negligence attached to anyone."

EARTHQUAKE PREDICTION CAUSES ALARM
Paris, Aug. 3.—Since Milton A. Noble of Philadelphia predicted the forthcoming destruction of southern Europe, northern Africa and a stretch of Asia, following the eruption of several volcanoes in southern Europe, reports of seismological disturbances have been pouring into Paris. The first was announced from Lyons the observatory there yesterday stating that a series of shocks had been recorded but it was impossible to indicate the region affected. This morning there were reports from Geneva and Madrid. The first contained no details, the second mentioned important damage in the neighborhood of Granada. The earthquake shocks were accompanied by subterranean rumblings said to have lasted three minutes yesterday morning at Granada. The inhabitants rushed panic-stricken into the street half clothed. It is feared that a number of the villages in the province suffered severely.

SEMI-MONTHLY CROP REPORT
Haying on the uplands is finished and the gathering of island and marsh hay is progressing satisfactorily. Showery weather has retarded rapid progress in gathering hay in the southern part of the Province. The crop is even better than was at first predicted and will be twice as much as last year. The acreage of clover being saved for seed is small; most of the area of last year's seeding down to clover having produced only slightly this year. The barley crop is ripening, though oats are yet green. Indications point to a good yield of oats. In all parts of the Province with the exception of the Caraquet and Bathurst districts. Root crops are exceptionally promising in appearance and the acreage is considerably greater than last year. Potatoes are making rapid growth, though the number of misses in many fields is as high as fifteen per cent. Pastures are falling and the milk supply in consequence is not too abundant. Sowing crops are being fed quite generally. Creamery butter is thirty-six to thirty-eight cents per pound.

COMMERCIAL RADIO LEFT TO COMPANIES
The policy of the Canadian Government is to get out of the commercial end of wireless telegraphy, to which

Bird of Paradise
The little girl said:
"Of course I know what the Blue Bird is—it's the Bird of Paradise."
She was wrong, but you won't think she was far wrong after drinking.
Blue Bird
TEA

It was to some extent committed as a war exigency. It will, of course, maintain such wireless installations as are an aid to navigation.

One of the largest wireless stations in Canada, that at Barrington Passage, N. S., will be closed in the near future. This follows on similar action taken by the British Government with regard to the Admiralty medium power radio station at Bermuda, which was closed on July 1. As a consequence, the commercial service between Barrington and Bermuda has been suspended, and, as the Government has no other use for Barrington, it will be closed. Both were war stations, having been erected in 1915 as part of the chain of naval radio stations extending from St. John's Nfld., to Demerara, British Guiana, Barrington acting as the connecting link between St. John's and Bermuda.

The closing of Bermuda and Barrington marks the termination of the North Atlantic chain of naval radio stations, St. John's, Jamaica and Demerara having been closed by the Admiralty in June. The three radio direction finding stations at Cape Race, Canso and Halifax, erected during the war, will be retained as a permanent part of the "aid to navigation" service of the Department of Marine and Fisheries.

EARTHQUAKE PREDICTION CAUSES ALARM

Paris, Aug. 3.—Since Milton A. Noble of Philadelphia predicted the forthcoming destruction of southern Europe, northern Africa and a stretch of Asia, following the eruption of several volcanoes in southern Europe, reports of seismological disturbances have been pouring into Paris. The first was announced from Lyons the observatory there yesterday stating that a series of shocks had been recorded but it was impossible to indicate the region affected. This morning there were reports from Geneva and Madrid. The first contained no details, the second mentioned important damage in the neighborhood of Granada. The earthquake shocks were accompanied by subterranean rumblings said to have lasted three minutes yesterday morning at Granada. The inhabitants rushed panic-stricken into the street half clothed. It is feared that a number of the villages in the province suffered severely.

REGAL

START RIGHT

A good breakfast is a good start for a good day. And it must always include good bread—the kind you make from **REGAL FLOUR**, the flour that is known as—"Wonderful for Bread."

This afternoon Bucharest telegrams told of the alarm created by Noble's prophecy in Eastern Europe especially since for ten days a number of earthquake shocks have been felt at Menhadia, which is in the Bucharest region. There have been three or four shocks daily each accompanied by subterranean rumblings. The fear is keener, because this section has not been used to volcanic disturbances.

Dance at the Beach Wednesday Evening August 9th.

DOMINION GOVT. ILLUSTRATION STATION

A Dominion government illustration station has been opened at the Riverside Farm, Lower Derby, owned by Mr. W. Robert Taylor and who is in charge of the station. The Federal Department of Agriculture recognizing the possibilities of profitable farming in this county established an illustration station on the farm of Mr. Robert Taylor, Lower Derby, in the spring of 1921. A more public location could not be chosen in the county, as it is adjacent to the main highway between

Chatham, Newcastle and Fredericton. Four large bulletin boards denote the four year rotation, viz:—**HOED CROPS, GRAIN, CLOVER, and TIMOTHY.**

One of the principle objects of these demonstration plots is to illustrate how ordinary farm land can be made the most productive on the least fertilizer and showing modern methods of cultivation.

A special effort at this station is made to grow and maintain good seeds of the varieties that best suit the district. The seeds sown on these plots are certified as pure and are raised on the different experimental farms of the Maritime Provinces, which insures acclimated seeds. The surplus will be on sale for the farmers of the county.

The work of this station is performed by Mr. W. R. Taylor under the supervision of Mr. John Fixter of the Department of Agriculture, Ottawa.

Mr. Taylor at all times will be only too pleased to show interested persons how the work is carried on.

CASTORIA
For Infants and Children
In Use For Over 30 Years
Always bears the Signature of *Dr. J. C. Hutchins*

WE HAVE THIS WEEK
